INDEPENDENT AUDITOR'S REPORT

To the Directors and Stockholder of
Atlantic Coast Securities Corporation
Tampa, Florida

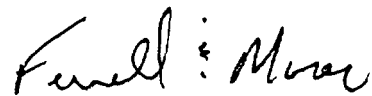

We have audited the accompanying balance sheets of Atlantic Coast Securities Corporation as of September 30, 2003 and 2002, and the related statements of operations, stockholder's equity and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Atlantic Coast Securities Corporation at September 30, 2003 and 2002, and the results of its operations and its cash flows for the years then ended, in conformity with generally accepted accounting principles.

Our audit was made for the purpose of expressing an opinion on the basic financial statements taken as a whole. The supplementary information included is presented for purposes of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Securities and Exchange Commission.

Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

- (g) Fair Value of Financial Instruments -- The estimated fair value of financial instruments has been determined by the Company using available market information and appropriate valuation methodologies. However, considerable judgment is required in interpreting data to develop the estimates of fair value. Accordingly, the estimates presented herein are not necessarily indicative of the amounts that the Company could realize in a current market exchange. The fair value estimates presented herein are based on pertinent information available to management as of September 30, 2003. Although management is not aware of any factors that would significantly affect the estimated fair value amounts, such amounts have not been comprehensively revalued for the purposes of these financial statements since that date and current estimates of fair value may differ significantly from the amounts presented herein. The fair values of cash, accounts receivable, securities owned and accounts payable approximate the carrying value due to their short term nature.

REPORT ON INTERNAL CONTROLS

To the Directors and Stockholder of
Atlantic Coast Securities Corporation
Tampa, Florida

We have audited the accompanying financial statements of Atlantic Coast Securities Corporation as of and for the years ended September 30, 2003 and 2002 and have issued our report thereon dated November 6, 2003. As part of our audit, we made a study and evaluation of the Company's system of internal accounting controls to the extent we considered necessary to evaluate the system as required by generally accepted auditing standards. The purpose of our study and evaluation, which included obtaining an understanding of the accounting system, was to determine the nature, timing and extent of the auditing procedures necessary for expressing an opinion on the financial statements.

Also, as required by Rule 17a-5 (g) (1) of the Securities and Exchange Commission, we have made a study of the practices and procedures (including test of compliance with such practices and procedures) followed by the Company that we considered relevant to the objectives stated in Rule 17a-5(g); in making the periodic computations of aggregate indebtedness and net capital under Rule 17a-3(a)(11); in making quarterly securities examinations, counts, verifications and comparisons, and the recording of differences required by Rule 17a-13, and the procedures for determining compliance with the exemptive provision of Rule 15c3-3(e). We did not review the practices and procedures followed by the Company in complying with the requirements for prompt payment for securities under Section 8 of Regulation T of the Board of Governors of the Federal Reserve System, because the Company does not carry security accounts for customers or perform custodial functions relating to customers securities.

The management of the Company is responsible for establishing and, maintaining a system of internal accounting control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of control procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether these practices and procedures can be expected to achieve the Commission's above mentioned objectives. The objectives of a system and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from

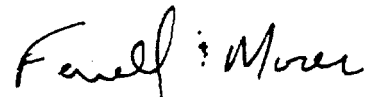

unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitation in any internal accounting control procedures or the practices and procedures referred to above, errors or irregularities may nevertheless occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the degree of compliance with them may deteriorate.

Our study and evaluation made for the limited purposes described in the first paragraph would not necessarily disclose all material weaknesses in the system. Accordingly, we do not express an opinion on the system of internal accounting control of Atlantic Coast Securities Corporation taken as a whole. However, our study and evaluation disclosed no condition that we believe to be a material weakness. The Company was in compliance with the conditions of the exemption provisions of Rule 15c3-3 and no facts came to our attention which indicated such conditions have not been complied with.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the Commission to be adequate for its purposes in accordance with the Securities and Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at September 30, 2003 to meet the Commission's objectives.

This report is intended solely for the use of management, the Securities and Exchange Commission, the National Association of Securities Dealers, Inc., and other regulatory organizations that rely on Rule 17a-5(g) under the Securities and Exchange Act of 1934, and should not be used for any other purpose.
