(NASD). The Company's operations consist primarily of engaging in securities principal transactions and providing investment banking services.

2. Summary of significant accounting policies

Securities Owned

Marketable securities are valued at market value, and non-marketable securities are valued at fair value as determined by management. Unrealized gains and losses are reflected in trading revenues.

Equipment and Leasehold Improvements

Equipment and leasehold improvements are stated at cost less accumulated depreciation and amortization. The Company provides for depreciation and amortization as follows:

Asset	Estimated Useful Life	Principal Method

Revenue and Expense Recognition from Securities Transactions

Securities transactions and related revenues and expenses are recorded on a trade-date basis.

Income Taxes

The Company complies with Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes," which requires an asset and liability approach to financial reporting for income taxes. Deferred income tax assets and liabilities are computed for differences between the financial statement and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred income tax assets to the amount expected to be realized.

The Company's stockholder has elected to treat the Company as an "S" Corporation. As such, the individual stockholder is liable for federal and substantially all state taxes on corporate income and receives the benefit of corporate losses.

2. Summary of significant accounting policies (continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts disclosed in the financial statements. Actual results could differ from those estimates.

3. Securities owned

At December 31, 2002, securities owned are comprised of the following:

Equity securities	<u>\$ 114,803</u>

The calculated deferred tax asset has been completely reserved, as it cannot be assured that there will be income in the future to utilize the loss carryforwards. This loss carryforward expires in 2022.

Income taxes for the year ended December 31, 2002 are summarized as follows:

NOTES TO FINANCIAL STATEMENTS

10. Off-balance sheet risk and concentration of credit risk

Pursuant to a clearance agreement, the Company introduces all of its securities transactions to its sole clearing broker on a fully disclosed basis. All of the customers' money balances and long and short security positions for these securities transactions are carried on the books of the clearing broker. Under certain conditions, as defined in the clearance agreement, the Company has agreed to indemnify the clearing broker for losses, if any, which the clearing broker may sustain from carrying securities transactions introduced by the Company. In accordance with industry practice and regulatory requirements, the Company and the clearing broker monitor collateral on the securities transactions introduced by the Company. In addition, the due from clearing broker is pursuant to this clearance agreement.

In the normal course of business, the Company's customer activities involve the execution, settlement, and financing of various customer securities transactions. These activities may expose the Company to off-balance-sheet risk in the event the customer or other broker is unable to fulfill its contracted obligations and the Company has to purchase or sell the financial instrument underlying the contract at a loss.
