May 12, 2003

We have examined the financial statements of Borst Investment Planning Services, Inc., for the period May 1, 2002, to April 30, 2003, and have issued our report thereon dated May 12, 2003. As part of our examination, we made a study and evaluation of the system and Rule 17A-5 of the Securities and Exchange Commission. This study and evaluation included the accounting system, the procedures for safeguarding securities and certain other practices and procedures followed by the client.

The company is exempt for compliance with Rule 15c3-3. During the course of our audit, no facts came to our attention that the condition for exemption had not been compiled with during the period. The company does not maintain customers' accounts or handle securities. Rule 17a-5 states that the scope of the study and evaluation should be sufficient to provide reasonable assurance that any material weakness existing at the date of examination would be disclosed. Under generally accepted auditing standards and Rule 17a-5, the purpose of such study and evaluation are to timing, and extent of other auditing procedures necessary for expressing an opinion on the financial statements and to provide a basis for reporting material weakness in internal accounting control.

The management of Borst Investment Planning Services, Inc. is responsible for establishing and maintaining a system of internal accounting controls. In fulfilling this responsibility, estimates and judgements by management are required to assess the expected benefits and related cost control procedures.

The objectives of a system are to provide management with reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use of disposition and that executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles.

Because of inherent limitations in any system of internal accounting control; errors or irregularities may nevertheless occur and not be detected. Also, projection of any evaluation of the system to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the degree of compliance with the procedures may deteriorate.

Page 2 of 2

Our study and evaluation for the limited purpose described in the first paragraph does not disclose all material in the system. Accordingly, we do not express an opinion on the system of internal accounting controls of Borst Investment Planning Services, Inc., taken as a whole. However, our study and evaluation disclosed no condition that we believed to be a material weakness.

This report is intended solely for the use of the company's filing pursuant to Rule 17a-5 of the Securities and Exchange Act of 1934 and should not be used for any other purpose.

Sincerely yours

No material inadequacies were found to have existed since the date of the previous audit as required by paragraph (5) of Rule 17a-5.

There were no creditors and therefore there was no need to include a statement of Changes in Liabilities.

There were no material differences in the computation of net capital on the most recent focus report and the financial statements. The only difference being in the timing of the recognition of some income and expense.

The additional references are solely for the company's filing requirement pursuant to Rule 17a-5 and are not intended for any other purpose.

Sincerely yours,
