Transaction Overview

Collateral:	As of the Cut-off Date, the Mortgage Loans will consist of approximately 1,381 adjustable-rate and fixed-rate, first and second lien, closed-end, mortgage loans. The aggregate outstanding principal balance of all of the Mortgage Loans is approximately \$149,063,619 as of the Cut-off Date. A majority of the Mortgage Loans are loans that either have document deficiencies or fall outside of the originators' underwriting guidelines based on a variety of factors. The mortgage pool also contains mortgage loans which have defaulted in the past and are now re-performing either pursuant to the terms of the original note or under the provisions of a bankruptcy plan. For those loans which are re-performing, the borrower's "Legal Balance" is equal to the outstanding principal balance as of the Cut-off Date plus any Arrearage. The "Arrearage" is equal to the interest portion of the payments due but not yet received as of the Cut-off date.

Transaction Overview

Prepayment Period:	The Prepayment Period with respect to any Distribution Date the Mortgage Loans serviced by (i) Ocwen and SPS, the calendar month preceding the month in which the related Distribution Date occurs with respect to prepayments in part, and the period beginning on the 16th day of the month preceding the related Distribution Date (or, the period commencing on the Cut-off Date, in connection with the first Prepayment Period) and ending on the 15th day of the month in which such Distribution Date occurs with respect to prepayments in full; and (ii) Option One, the period beginning on the 16th day of the month preceding the related Distribution Date (or, the period commencing on the Cut-off Date, in connection with the first Prepayment Period) and ending on the 15th day of the month of such Distribution Date.
Interest Accrual Period:	Interest on the Certificates will initially accrue on all Certificates from the Closing Date to (but excluding) the first Distribution Date, and thereafter, from the prior Distribution Date to (but excluding) the current Distribution Date on an actual/360 basis. The Certificates will initially settle flat (no accrued interest).
Interest Distribution Amount:	For the Certificates of any class on any Distribution Date is equal to interest accrued during the related Interest Accrual Period on the Certificate Principal Balance of that class immediately prior to such Distribution Date at the then applicable pass-through rate for such class, and reduced (to not less than zero), in the case of each such class, by the allocable share, if any, for such class of prepayment interest shortfalls to the extent not covered by Compensating Interest paid by the Master Servicer or the Servicers and shortfalls resulting from the application of the Servicemembers' Civil Relief Act.
Interest Carry Forward Amount:	The Interest Carry Forward Amount with respect to any class of Offered Certificates and any Distribution Date is equal to the amount, if any, by which the Interest Distribution Amount for that class of certificates for the immediately preceding Distribution Date exceeded the actual amount distributed on such class of certificates in respect of interest on the immediately preceding Distribution Date, together with any Interest Carry Forward Amount with respect to such class of certificates remaining unpaid from the previous Distribution Date, plus interest accrued thereon at the related pass-through rate for the most recently ended Interest Accrual Period, to the extent permitted by applicable law.

Transaction Overview (Cont.)

Optional Termination:	On any distribution date on which the aggregate outstanding principal balance of the Mortgage Loans as of the related determination date is less than or equal to 10% of their aggregate outstanding principal balance as of the Cut-off Date, the Master Servicer may repurchase the Mortgage Loans remaining in the trust, causing an early retirement of the Certificates, but is not required to do so. If the Master Servicer elects to repurchase the Mortgage Loans, the outstanding class principal balance of each class of certificates will be paid in full, together with accrued interest.
Monthly Servicer Advances:	Each Servicer will collect monthly payments of principal and interest on the Mortgage Loans serviced by such Servicer and will be obligated to make advances of delinquent monthly principal and interest payments. Each Servicer is required to advance delinquent payments of principal and interest on the Mortgage Loans serviced by such Servicer only to the extent such amounts are deemed recoverable. If a Servicer fails to make any such advance, the Master Servicer will be required to do so subject to its determination of recoverability. The Servicers and the Master Servicer are entitled to be reimbursed for these advances, and therefore these advances are not a form of credit enhancement.
Credit Enhancement:	<ol style="list-style-type: none">1) Arrearage (if any)2) Excess Interest3) Overcollateralization ("OC")4) Subordination
Allocation of Realized Losses:	<p>Any Realized Losses on the Mortgage Loans will be allocated on any Distribution Date, first, for those Mortgage Loans with Arrearages, to the amount of such Mortgage Loan's Arrearage, second, to Net Monthly Excess Cashflow, third, to the Class CE Certificates, fourth, to the Class M-4 Certificates, fifth, to the Class M-3 Certificates, sixth, to the Class M-2 Certificates, and seventh, to the Class M-1 Certificates. There will be no allocation of Realized Losses to the Class A Certificates. Investors in the Class A Certificates should note, however, that although Realized Losses cannot be allocated to such Certificates, under certain loss scenarios there may not be enough principal and interest on the Mortgage Loans to distribute to the holders of the Class A Certificates all principal and interest amounts to which they are then entitled.</p> <p>Once Realized Losses have been allocated to the Mezzanine Certificates the principal amount of the reduction in the Certificate Principal Balance of such certificates will no longer accrue interest and will not be reinstated thereafter. However, allocated Realized Losses may be paid to the holders of the Mezzanine Certificates from Net Monthly Excess Cashflow.</p>
Required Overcollateralization Amount:	Overcollateralization refers to the amount by which the aggregate principal balance of the Mortgage Loans exceeds the Certificate Principal Balance of the Certificates. This excess (the "Overcollateralization Amount") is intended to protect the certificate holders against shortfalls in payments on the Certificates. The Overcollateralization Amount for the Certificates will initially be 3.10% and is anticipated to build to approximately 5.75% of the aggregate principal balance of the Mortgage Loans as of the Cut-off Date (the "Required Overcollateralization Amount"). On or after the Stepdown Date and provided that a trigger event is not in effect, the Required Overcollateralization Amount may be permitted to decrease to approximately 11.50% of the ending aggregate principal balance of the Mortgage Loans as of such Due Period, subject to a floor amount of approximately 0.50% of the aggregate outstanding principal balance of the Mortgage Loans as of the Cut-off Date. If, due to losses, the Overcollateralization Amount is reduced below the Required Overcollateralization Amount, excess spread, if any is available will be paid to the Certificates then entitled to receive distributions in respect of principal in order to reduce the Certificate Principal Balance of such Certificates to the extent necessary to reach the Required Overcollateralization Amount.

Transaction Overview (Cont.)

Net WAC Rate Carryover Amount:	If on any Distribution Date the Pass-Through Rate for any class of the Series 2005-SD1 Certificates is limited by the Net WAC Pass-Through Rate, such class will be entitled to the "Net WAC Rate Carryover Amount" which will be equal to the sum of (i) the excess of (a) the amount of interest that would have accrued on such class based on one month LIBOR plus the related margin over (b) the amount of interest accrued on such class based on the Net WAC Pass-Through Rate and (ii) the unpaid portion of any related Net WAC Rate Carryover Amount from the prior Distribution Date together with accrued interest on such unpaid portion of one month LIBOR plus the related margin for the most recently ended Interest Accrual Period. Any Net WAC Rate Carryover Amount will be paid on such Distribution Date or future Distribution Dates to the extent of funds available.
Cap Agreement:	On the Closing Date, the Trustee will enter into a "Cap Agreement" to make payments in respect of any Net WAC Pass-Through Rate Carryover Amounts. The Cap Agreement requires a cap payment in an amount equal to the product of: (1) the excess, if any, of one-month LIBOR over 8.50% for the related Distribution Date and (2) the related scheduled notional amount, which will be the lesser of the expected amortization of the Mortgage Loans and the aggregate certificate principal balance of the Class A, Mezzanine and Class CE Certificates. If, on any Distribution Date, the cap payments made by the Cap Provider with respect to the certificates exceed the amount of the Net WAC Rate Carryover Amounts payable to any such class for such Distribution Date, such excess will be distributed to the Class CE Certificates.
Available Distribution Amount:	For any Distribution Date, net of the administrative fees, an amount equal to (i) the aggregate amount of scheduled monthly payments on the Mortgage Loans due on the related Due Date and received on or prior to the related Determination Date; (ii) unscheduled payments in respect of the Mortgage Loans (including prepayments, insurance proceeds, liquidation proceeds and proceeds from repurchases of and substitutions for the Mortgage Loans occurring during the Prepayment Period); (iii) all P&I Advances with respect to the Mortgage Loans received for the Distribution Date; (iv) all Compensating Interest paid by the Servicers in respect of Prepayment Interest Shortfalls for the related due period; and (v) payments received on the Cap Agreement, if any, to pay the Net WAC Rate Carryover Amount on the Class A Certificates and the Mezzanine Certificates.
Class A Principal Distribution Amount:	Until the Stepdown Date, or if a Trigger Event occurs, the Class A Certificates will receive the principal collected on the Mortgage Loans plus any excess interest required to maintain the Required Overcollateralization Amount until the aggregate Certificate Principal Balance of the Class A Certificates has been reduced to zero. On or after the Stepdown Date, if no Trigger Event occurs, principal paid on the Class A Certificates will be an amount such that the Class A Certificates will maintain approximately a 54.50% Credit Enhancement Percentage (2x the Class A Target Credit Enhancement Percentage).
Class M Principal Distribution Amount:	<p>The Mezzanine Certificates will not receive any principal payments until the Stepdown Date. On or after the Stepdown Date (if no Trigger Event occurs), principal will be paid to the Mezzanine Certificates, first to the Class M-1 Certificates until it reaches approximately a 34.00% Credit Enhancement Percentage (2x the Class M-1 Target Credit Enhancement Percentage), second to the Class M-2 Certificates until it reaches approximately a 23.50% Credit Enhancement Percentage (2x the Class M-2 Target Credit Enhancement Percentage), third to the Class M-3 Certificates until it reaches approximately a 14.00% Credit Enhancement Percentage (2x the Class M-3 Target Credit Enhancement Percentage), and fourth to the Class M-4 Certificates until it reaches approximately an 11.50% Credit Enhancement Percentage (2x the Class M-4 Target Credit Enhancement Percentage).</p> <p>If a Trigger Event occurs, principal payments will be paid first to the Class A Certificates in the manner described under "Class A Principal Distribution Amount" and then sequentially to the Mezzanine Certificates in their order of seniority, in each case until the Certificate Principal Balance of each such class has been reduced to zero.</p>

1. Current Updated CLTV's are calculated by taking the original CLTV for those loans seasoned 11 months or less and an updated CLTV for those loans seasoned 12 months or more. Updated CLTV's for those loans seasoned 12 months or more are calculated by taking the UPB as of the Cut-off date plus the senior balance, in the case of second liens, divided by the BPO value, if available. If a BPO was not available, then an AVM was used. If neither a BPO or an AVM was available, the Original Appraisal Value was used. Updated CLTV's were calculated for 58.04% of the Mortgage Loans. For purposes of calculating updated CLTV's, a BPO was used for 79.96% of the Mortgage Loans by balance, an AVM was used for 18.71% of the Mortgage Loans by balance, and an Original Appraisal Value was used for 1.33% of the Mortgage Loans by balance. An updated CLTV was not calculated for 41.96% of the Mortgage Loans.

* Current Updated CLTV's are calculated by taking the original CLTV for those loans seasoned 11 months or less and an updated CLTV for those loans seasoned 12 months or more. Updated CLTV's for those loans seasoned 12 months or more are calculated by taking the UPB as of the Cut-off date plus the senior balance, in the case of second liens, divided by the BPO value, if available. If a BPO was not available, then an AVM was used. If neither a BPO or an AVM was available, the Original Appraisal Value was used. Updated CLTV's were calculated for 58.04% of the Mortgage Loans. For purposes of calculating updated CLTV's, a BPO was used for 79.96% of the Mortgage Loans by balance, an AVM was used for 18.71% of the Mortgage Loans by balance, and an Original Appraisal Value was used for 1.33% of the Mortgage Loans by balance. An updated CLTV was not calculated for 41.96% of the Mortgage Loans.

* Current Updated CLTV's are calculated by taking the original CLTV for those loans seasoned 11 months or less and an updated CLTV for those loans seasoned 12 months or more. Updated CLTV's for those loans seasoned 12 months or more are calculated by taking the UPB as of the Cut-off date plus the senior balance, in the case of second liens, divided by the BPO value, if available. If a BPO was not available, then an AVM was used. If neither a BPO or an AVM was available, the Original Appraisal Value was used. Updated CLTV's were calculated for 83.17% of the Mortgage Loans. For purposes of calculating updated CLTV's, a BPO was used for 79.13% of the Mortgage Loans by balance, an AVM was used for 19.48% of the Mortgage Loans by balance, and an Original Appraisal Value was used for 1.39% of the Mortgage Loans by balance. An updated CLTV was not calculated for 16.83% of the Mortgage Loans.

1. Current Updated CLTV's are calculated by taking the original CLTV for those loans seasoned 11 months or less and an updated CLTV for those loans seasoned 12 months or more. Updated CLTV's for those loans seasoned 12 months or more are calculated by taking the UPB as of the Cut-off date plus the senior balance, in the case of second liens, divided by the BPO value, if available. If a BPO was not available, then an AVM was used. If neither a BPO or an AVM was available, the Original Appraisal Value was used. Updated CLTV's were calculated for 7.88% of the Mortgage Loans. For purposes of calculating updated CLTV's, a BPO was used for 97.58% of the Mortgage Loans by balance, an AVM was used for 2.42% of the Mortgage Loans by balance, and an Original Appraisal Value was used for 1.33% of the Mortgage Loans by balance. An updated CLTV was not calculated for 92.12% of the Mortgage Loans.
