Annual Report 2005

JOHNSON ELECTRIC Vision

*We are the growth company in motors
and related businesses.*

Come grow with us.

Being the motor industry's *growth* leader, Johnson Electric creates significant benefits for all of its stakeholders.

- Customers will have improved value and assurance of supply globally.
- Employees will have the opportunity to learn and *grow* professionally. Hiring of talented new employees will be enhanced because growth is a sought after attribute of preferred employers.
- Suppliers of materials and services will also directly benefit from Johnson Electric's *growth*. Increased component volumes and new products will improve the efficiency, profits and stability of the best companies in Johnson Electric's supply chain.
- In combination, the broad range of *growth* related benefits, ultimately provides superior returns to Johnson Electric's shareholders.

JOHNSON ELECTRIC'S **BRAND PROMISE**

Johnson Electric is the most reliable partner

Johnson Electric is responsive and flexible; and has the financial stability and organizational integrity to meet all of our commitments and to support our customer's success. Motor reliability and assurance of supply are our commitment.

Johnson Electric delivers the best total cost solution

Johnson Electric's best total cost solution is delivered by a combination of : competitive pricing, on-time product development, built-in quality and reliability, that only an industry leader can provide.

Johnson Electric is the world leader in motors for automotive and commercial markets. Established in 1959, Johnson Electric has shipped over 5 billion motors to more than thirty countries in over one hundred different motor applications and has a capacity of producing over 3 million motors a day (1 billion annually).

The organization is structured into 3 business groups, the Commercial Motors Group (CMG), the Automotive Motors Group (AMG) and the Components & Services Group (C&S). All business groups are supported by corporate functional departments including engineering, finance, supply chain services, quality assurance, human resources, sales and strategic marketing.

Johnson Electric's **goal** is the **creation of shareholder and customer value**. The focus of the Group's business strategy is on **working with its customers** to produce motors that meet or exceed the expectations of product end-users in an efficient and effective manner.

Johnson Electric's principal financial objective is to maximize long-term cash flows by investing in markets and product segments that offer superior growth prospects and where the Group can leverage its substantial resources and competencies.

Johnson Electric employs over 32,000 people in 14 countries, with the majority of the workforce engaged in production activities in China. Design engineering centers are located in Hong Kong, Italy, China, Japan, Israel and the USA.

Listed on the Hong Kong Stock Exchange since 1984, Johnson Electric is a constituent stock of the Hang Seng Index. It is also a constituent stock of the Morgan Stanley Capital International Index and has a sponsored American Depositary Receipt Program in the United States through JPMorgan Chase Bank.

To Our Shareholders,

Johnson Electric achieved a satisfactory improvement in performance in the 2005 financial year compared to the prior year.

Nonetheless, the economic environment for global component manufacturing companies remained challenging. Several of our end-user industries, most notably in the automotive sector, are continuing to undergo significant restructuring that inevitably impacts suppliers. For the second year in succession, we faced very severe increases in raw material prices that put pressure on our gross margins.

In this operating environment it was important for the Group to continue to drive for improved operational effectiveness and maintain a tight control on overheads. Results of these efforts were encouraging and reflect the hard work and initiative of Johnson Electric people across the entire company.

Summary of 2004/05 Results

- For the financial year ended 31st March 2005, total sales were a record US\$1,144 million, up 9% compared to the 2004 financial year
- Operating profits after restructuring charges and provisions were US\$154 million, an increase of 20%
- Net earnings attributable to shareholders increased by 22% to US\$142 million or US 3.86 cents per share
- Johnson Electric's underlying financial position remains excellent and, taking into account cash reserves of US\$222 million, the Group is essentially debt free

Dividends

The Board has recommended a final dividend of 1.41 US cents per share, which together with the interim dividend of 0.58 US cents per share, represents a total dividend of 1.99 US cents per share – an increase of 15% over the 2004 financial year.

Sales Environment

Johnson Electric's sales benefited from the combined effects of acquiring the remaining 51% of Nihon Mini Motor not already owned by the Group, incremental new business gains, the strength of the Euro currency against the U.S. Dollar, and product price increases. Nihon Mini Motor represented US\$54 million – just over half – of the sales increase during the year.

The 9% overall growth in sales was slightly below our budget target and reflected the relatively difficult end-market conditions noted earlier. The Group derives almost 60% of its sales from the automotive components industry. While Johnson Electric's own Automotive Motors Group ("AMG") commands a very strong competitive position within its

particular market segments, its sales were affected by production cutbacks by OEMs and inventory reductions by systems suppliers – particularly in the North American market during the second-half of the year. AMG's total divisional sales for the year were US\$680 million, an increase of 3%.

The Commercial Motors Group ("CMG"), the second of the Group's two main operating divisions, achieved sales of US\$464 million – up 19% on the prior year due partly to the acquisition of the remaining 51% of Nihon Mini Motor. The strongest performance in this division came from the Home Appliance business unit which continued to gain market share in floor care and white goods motor applications. Other CMG segments generally have shorter product life-cycles and competition is keen.

Maintaining profitability in the face of sharply higher raw material costs

In last year's report to shareholders, I noted that the rapid escalation in global commodity prices had increased the Group's average cost of both steel and copper by approximately 30%. The same trend regrettably continued for much of the 2005 financial year with the Company's weighted average cost of steel increasing by 29%, and the average London spot price of copper increasing by approximately 47%.

Faced with these quite unprecedented and sustained increases in input prices, management has been aggressively working on various initiatives to control production costs and overheads. Where possible, the Group has also moved to increase prices for its motor products to reflect higher raw material costs – especially in new product introductions.

As a result, operating profit margins before restructuring costs and provisions improved slightly to 14.4%, which we consider to be a satisfactory performance given the operating environment of the past year and the fact that new businesses acquired or established during the course of the year had operating margins lower than the average for the Group. Working capital on the other hand increased, largely due to higher raw material price level during the period, though we would expect this negative impact to be temporary.

The results for the year also included a charge of US\$10 million for overseas plant restructuring costs and provisions. This is consistent with the Group's previously articulated strategy of enhancing its economics by relocating certain production activities to lower cost locations – principally to China. In the prior year, similar plant restructuring costs and provisions amounted to US\$21 million.

Business Development and Long-Term Growth

Johnson Electric is uniquely positioned in the small motor and motor systems industry with the broadest product offering and, we believe, a manufacturing model that offers global customers the lowest total cost solutions to their motor needs.

The main thrusts in our strategy are to continue to drive for efficiency improvements in our core operations, penetrate new market segments that offer profitable opportunities for growth, and to invest in new businesses and activities that effectively leverage our distinct capabilities and know-how in the China component manufacturing sector.

Over the past year we have successfully implemented a series of innovative “factory-floor”-led improvement processes at our primary manufacturing facility in Shajing that are designed to minimise waste and maximise efficiencies in our business systems. For example, we are rapidly approaching the point where we will have essentially eliminated warehouses and will be “flow shipping” to our customers globally.

We continue to search actively for selective motor-related acquisitions that will diversify our product offering and technology capabilities – and which at the same time meet our strict purchase criteria in terms of strategic fit, managerial resources, and price. In October 2004, for example, the Group announced the acquisition of 51% of Nanomotion Ltd., an Israeli producer of high precision piezo ceramic motors. The combination of Nanomotion’s proprietary technology with Johnson Electric’s market reach and high volume manufacturing strength is expected to open up new market opportunities for the Group.

Two new businesses recently established under the Johnson Electric umbrella to explore growth opportunities in adjacent areas are also making positive progress:

- *Johnson Electric Trading’s* goal is to build a sourcing platform in China to supply our global customers with a wide range of motor and motor-related electromechanical components and materials that are not currently manufactured by the Group. Already the operation has “qualified” more than 60 components suppliers in China and the first shipments of traded components to customers were delivered in early 2005.
- *Johnson Electric Capital’s* goal is to invest directly in component manufacturing companies in China and overseas that we believe have the potential to be profitably grown by leveraging the Group’s substantial China manufacturing resources and expertise. Two initial investments have been made in private PRC businesses in the electrical distribution systems and engine block castings sectors that each offer attractive value-creation opportunities for the Johnson Electric Group.

Outlook

At present, the overall economic outlook for many of our end-user markets remains relatively uncertain and we expect high raw material prices to continue to constrain the potential for margin expansion in the near-term. However, we are confident that our business units have a pipeline of new products which should drive healthy organic growth especially towards the second-half of the 2005/06 financial year. Supplementing growth in the core business, we also anticipate additional contributions from new business enterprises.

On behalf of the Board, I would like to thank all of our customers, shareholders, suppliers, and employees for their continued support.

On behalf of the Board

Patrick Wang Shui Chung
Chairman & Chief Executive

Hong Kong, 13th June 2005

BUSINESS REVIEW

OVERVIEW

The business environment for the 2004/05 financial year was demanding as a result of increasing raw material prices and mixed end-user demand – particularly in the second half when a number of Johnson Electric's customers in the automotive sector reduced production and inventory levels.

Total Group sales increased by US\$93 million, or 9%, to US\$1,144 million. This overall increase included the impact of acquiring the remaining 51% of Nihon Mini Motor not already owned by the Group, as well as the acquisition of 51% of Nanomotion Ltd. Together these two acquisitions contributed approximately US\$56 million of the total sales increase during the period under review.

On a geographical basis sales to Asia amounted to US\$383 million (33% of total sales), an increase of 21%. Sales to Europe were US\$446 million (39% of total sales) growing by over 5%, and sales to the Americas were US\$315 million (28% of total sales), an increase of 1%.

DIVISIONAL SALES PERFORMANCE

We manage our business according to customer-focused business units which are grouped under two main operating divisions: Automotive Motors Group and Commercial Motors Group.

AUTOMOTIVE MOTORS GROUP (“AMG”)

AMG is a leading supplier to the automotive industry supplying motors for a broad range of vehicle applications to OEM, Tier 1 and Tier 2 customers worldwide.

For the 2004/05 financial year, AMG's overall sales increased by 3% to US\$680 million, accounting for 59% of total Group revenue. The division is organized into separately managed business units aligned to specific types of motor applications in the vehicle.

Body Climate

Windowlift regulators

Seat adjusters

HVAC blowers

Body Climate Business Unit sales decreased 9% over the previous year to US\$109 million due to market softness and product mix changes. Unit volumes were down 3% due to European market slowness and higher-priced brushless motor sales volumes reduced as a result of a significant program loss. Customer new project launch delays also resulted in a shortfall in volumes which are now planned for the coming fiscal year.

Body Instruments

Doorlock actuators

Windshield washer pumps

Headlamp adjusters

Mirror adjusters

HVAC flap actuators

Headlamp washers

Sales of the Body Instruments Business Unit increased by 10% to US\$152 million on unit volumes which were up by 12%. Full year volumes of new project launches, made late in 2003/04, offset market softness, while exchange rate gains were substantially offset by competitive pricing pressure.

Powertrain Cooling

Cooling fan modules

Cooling fan motors

Electronic speed controllers

Sales of the Powertrain Cooling Business Unit increased by 9% to US\$254 million year over year due, in part, to the strengthening Euro. Unit volumes were slightly higher year over year despite weaker overall European vehicle sales. Successful new program launches provided for stable unit sales despite generally unfavorable market conditions. Strong South American unit volumes were largely offset by weaker North American unit volumes in this product segment.

Powertrain Management

Fuel pumps

Electronic throttle controls

Air pumps

The Powertrain Management Business Unit sales increased by 6% over last year to US\$51 million for these fuel system and engine management products. Unit volumes increased by 14% year over year with Euro gains more than offset by competitive price pressures in the fuel pump armature segment. New product launches were delayed as a result of both customer delays and technical set-backs. These projects will now launch in the coming fiscal year.

Chassis Braking

Anti-lock braking systems pumps

Engine starters

Windshield wipers

Transfer case actuators

Electric parking brakes

Rear windshield wipers

The Chassis Braking Business Unit sales declined 7% year over year to US\$114 million. Stronger starter motor sales for the lawn and garden industry were offset by reductions in ABS pump motor volumes resulting from softer North American vehicle sales and the ending of certain customer programs. Increases in transfer case actuator sales were offset by the phase out of cruise control starters. New front and rear windshield wiper project launches set a strong pace for future growth toward the end of the fiscal year. Production relocation to China of starter motors was substantially completed in the fiscal year, resulting in end of production in Mexico.

Shanghai Ri Yong – JEA Gate Electric Co. Ltd. – Joint Venture

Cooling fan modules

HVAC blowers

Sales of the 50% owned Shanghai Ri Yong – JEA Gate Electric Co. Ltd. joint venture decreased 20% with unit volumes down 9% reflecting the recent slowdown in passenger vehicle production in China and increasing component pricing pressures as vehicle manufacturers in China continue to compete for market share by reducing prices.

COMMERCIAL MOTORS GROUP (“CMG”)

CMG provides tailored motor solutions to global customers in Home Appliances, Power Tools, Business Equipment and Personal Products and the Audio-Visual markets.

For the full year CMG’s sales increased over 19% to a record level of US\$464 million, accounting for 41% of total Group sales.

Home Appliances

Floor care products

Can openers

Electric knives

Blenders

Juice extractors

Slicers

Mixers

Grinders

Coffee makers

Fans

Vacuum sealers

Dish washer actuators

Sales increased 16% to a record level of US\$171 million, on unit volume growth of 4%. New customer “wins” in White Goods and Floor Care validate our strategy and execution on differentiated motion innovations. We have demonstrated overall strong performance with the leading global companies in their respective industry segments including kitchen appliances, vacuum cleaners, ventilation fans and washing white goods.

Power Tools

Hand tools

Rotary sanders

Machines actuators

Gardening tools

Bilge pumps

Ratchet wrench

Hand vacuums

Angle grinders

Auto polishers

Saws systems

Heat guns

Sales increased over 7% to US\$117 million, with unit volume down 4%. A concerted effort in profitable growth segments ensured that financial targets were achieved. The overall market for power tools is expected to be strong with continued consumer preferences towards cordless technologies with increasing features and functions. The Business Unit is well positioned to capitalize on this growth market with proprietary innovations and strong ties to the leading global power tool manufacturers.

Business Equipment and Personal Products

Business Equipment

Printer products

Joysticks

Shredders

Gear box products

Paper cutters

Projectors

Copiers

Scanners

Bill validators

Personal Products

Hair dryers

Massagers

Liquid dispenser

Toys

Tooth brushes

Blood pressure pumps

Hair trimmer/Hair curlers

Shavers

Aquarium products

Sales to the Business Equipment and Personal Products sectors combined, decreased 6% to US\$91 million. Unit volumes decreased by 16%. Continued market pressure in printer applications was partly off-set with innovative encoder and gear-motor product launches. A number of new technology solutions for new customers are expected to contribute to sales in the coming year.

Audio-Visual and Nihon Mini Motor

CD-ROM applications

DVD product applications

Game controllers

Sales increased by 136% to US\$85 million (US\$54 million was contributed by Nihon Mini Motor), with unit volume growth of 44%. The acquisition of remaining 51% of Nihon Mini Motor strengthens Johnson Electric's higher-end motion solutions capability – and reduces the business unit's exposure to the commodity-end of the audio visual motor market. New technical solutions in new segments such as stepper motors and television focus are on track to ensure profitable growth.

HUMAN RESOURCES: INVESTING IN PEOPLE

At financial year-end, Johnson Electric Group employed approximately 32,000 people globally.

Engineering Talent Management

A central element in Johnson Electric's strategy is the development of an engineering talent pool that is among the finest in our industry. During the year, we embarked on a major initiative in "Johnson City" in southern China to strengthen this major source of advantage for the Group by improving our ability to attract, retain and develop top quality engineers.

Under the direction of the Executive Committee, this initiative has involved extensive employee opinion surveys, streamlining of engineering organizational structures and job titles, compensation benchmarking, re-designing career ladders, and creating new learning and development programs to complement the existing training program.

Performance Management Process and Leadership

The Group's employee performance management process ("PMP") is the key tool for evaluating and improving the caliber of our people on a continuing basis. It seeks to identify both top performers and underperformers across the organization and helps determine the training needs and career paths of these individuals. Increasing emphasis is being placed on leadership competency development as means to ensure that Johnson Electric builds a strong and broad bench of managerial talent.

Learning Organization

The Group's specially-tailored program for developing younger managers – known as the "JENESIS" program – continued to serve as an integral part of our people development function.

Building on the success of JENESIS, we have also designed a new Senior Management Development Seminar ("SMDS") that will commence in June 2005. SMDS focuses on senior Johnson Electric managers up to General Manager level and aims to provide an opportunity to tackle relevant business problems and share learnings with peers from various parts of the Johnson Electric organization across the world.

New management programs are being developed and rolled out by Johnson University (JU) to support the Engineering Talent Management initiative. The JU Master of Science (M.Sc.) degree program continues to produce much needed motor engineers each year.

Responsible Corporate Citizen

The *Safety Is Job One* program in Johnson City, in Shajing, China continues to gather momentum. All business units now come under this program and the Group's overall track record in environmental, health and safety continues to be excellent. In the recent Chairman's Awards, the respected "Leadership Award" category was won by an acknowledged champion of the safety movement.

Externally, Johnson Electric employees have also been active and enthusiastic supporters of a number of worthwhile community and charitable causes. In November 2004, for example, six Johnson Electric teams participated in Hong Kong's annual "Trailwalker" event that involves walking 100 kilometers across eight country parks and around 20 hills in the New Territories of Hong Kong in under 48 hours. Through individual sponsorship, the teams were able to contribute a significant sum to support various Oxfam-administered poverty alleviation and emergency assistance projects in Africa and Asia, including Hong Kong and mainland China.

The Group provides charitable donations and support to local communities where it operates in China and makes an annual contribution to The Community Chest of Hong Kong.

FINANCIAL REVIEW

OVERVIEW

The Group reported profit attributable to shareholders of US\$141.6 million, or 3.86 US cents per share for the year ended 31st March 2005, compared to profit attributable to shareholders of US\$116.6 million or 3.17 US cents per share in 2003/04.

Profit attributable to shareholders for the year included pre-tax restructuring costs/provisions of US\$10.0 million (US\$7.1 million net of tax). Excluding the impact of such costs/provisions, profit attributable to shareholders was US\$148.7 million, an increase of 12.1%.

In April 2004, the Group acquired the remaining 51% of the equity that it did not already own in Nihon Mini Motor. In October 2004, the Group announced the acquisition of 51% of Nanomotion Ltd., an Israeli producer of high precision piezo ceramic motors. These acquisitions are expected to open up new market opportunities for the Group.

To build a sourcing platform in China to supply global customers with a wide range of motor and motor-related electromechanical components and specialty materials that are not currently manufactured by the Group, Johnson Electric Trading made initial investments in two Hong Kong-based trading businesses in specialty metals and motor-related products during the last quarter of the year under review.

Investing directly in component manufacturing companies in China and overseas, Johnson Electric Capital made two initial investments in private PRC businesses in the electrical distribution systems and engine block castings sectors that each offer attractive value-creation opportunities for the Johnson Electric Group.

Total considerations for the above acquisitions and investments amounted to US\$40.7 million.

TOTAL SHAREHOLDER RETURN (TSR)

For the financial year ended 31st March 2005, the Group achieved a TSR of -16%, compared to -5% for the Dow Jones World Electric Component and Equipment Index ("DJWECI"), which is a representative benchmark index of global industry peers.

For the prior years 2004, 2003, 2002, and 2001, Johnson Electric's TSR was -1%, -22%, -12%, and -6% respectively, compared to 62%, -31%, -17%, and -44% achieved by DJWECI in US dollar terms.

Over the past five years, the compound annual average TSR of Johnson Electric was -12%, compared to -13% achieved by DJWECI.

FINANCIAL MANAGEMENT AND TREASURY POLICY

The financial risk management of the Group is the responsibility of the Group's treasury function at the corporate centre based in Hong Kong, which is controlled by policies approved by senior management.

Foreign Currency

The Group operates globally and is thus exposed to foreign exchange risk.

In relation to the business units based in Hong Kong/China, the major revenue generating currencies continue to be the US dollar, Euro and Japanese Yen; whereas the major currencies in purchase commitments are the US dollar, Hong Kong dollar and Japanese Yen. Aside from the US dollar and Hong Kong dollar which is pegged to the US dollar, material open foreign exchange exposures are hedged with currency contracts, including forward and options contracts, with a view to reducing the net exposure to currency fluctuations. Such contracts normally have a duration of less than 3 months. For the year to 31st March 2005, of the micromotor sales from Hong Kong/China, 82% were in US dollars; 13% in Euro for certain sales to Europe; and 5% in Japanese Yen for certain sales to Japan.

The Body Climate and Powertrain Cooling business units, which together comprise sales of US\$363 million representing 32% of the Group's total sales in the year under review, are mainly European-based businesses with revenue and costs essentially in Euro. Hence, their exposure to US dollar is limited to the net position. In the case of Chassis Braking based in North America, the revenue and costs are in US dollar.

Surplus Cash and Debt

The Group follows a policy of prudence in managing its cash balances and maintains a high level of liquidity to ensure that the Group is well placed to take advantage of growth opportunities for the business. The surplus cash is held in US dollars, except certain temporary balances which may be held in such non-US currencies as required from time to time pending specific payments.

As at 31st March 2005, the surplus cash (comprising cash and other investments) decreased to US\$235.1 million, down 5.3% from US\$248.3 million at the previous year-end. The Group is substantively debt-free, except for loans amounting to US\$16.0 million at the balance sheet date (compared to US\$3.1 million a year ago).

As at 31st March 2005, 63% of the surplus cash was held in US dollars (compared to 71% a year ago); and the average duration of the Group's interest-bearing securities and time deposits was increased to 0.6 month, compared to 0.5 month previously. Hence, the price sensitivity to interest rate movements and the foreign exchange risk of such investments continued to be immaterial.

Capital Structure

It is the intention of the Group to maintain an appropriate mix of equity and debt to ensure an efficient capital structure over time. At this stage, however, with continuing strong cash flows, there are no immediate requirements for debt finance.

Total debt remained at a low level of US\$16.0 million, compared to US\$3.1 million at the last year-end, comprising mainly short-term loans and obligations of US\$12.9 million.

The Group's borrowings are primarily denominated in US and Hong Kong dollars. Except for the foreign exchange exposure in relation to the loans in Euro obtained by Gate S.r.l., a subsidiary based in Europe, equivalent to approximately US\$3.1 million, the Group has no significant exposure to foreign exchange fluctuations in relation to borrowings. Details of long-term loans remaining outstanding are included in Note 24 to the accounts.

Dividend Policy

It is the intention of the Group that the dividend paid should, over the long term, provide shareholders with dividend income broadly consistent with the underlying trend of earnings growth.

At its June 2005 meeting, the Board of Directors recommended a final dividend of 11 HK cents (equivalent to 1.41 US cents per share), which together with the interim dividend of 4.5 HK cents (equivalent to 0.58 US cents), representing a total dividend of 15.5 HK cents per share (equivalent to 1.99 US cents), a 15% increase over the previous year.

In 2004/05, the dividend payout ratio (including the proposed dividend for the year) was approximately 52% of the profit attributable to shareholders, compared to 55% in 2003/04.

RESULTS OF OPERATIONS

ANALYSIS OF CONSOLIDATED PROFIT AND LOSS STATEMENT

Sub-Total	464	41	389	37	75	19
TOTAL TURNOVER	1,144	100	1,051	100	93	9

Total turnover was US\$1,144 million, an increase of 9% over the level in the prior year. Unit volume grew approximately 8%.

On a divisional basis, Automotive Motors Group increased 3% to US\$680 million, representing 59% of total turnover. In addition to the effect of the stronger Euro currency, AMG achieved gains in market share, as a result of new product introductions and increasing outsourcing by customers.

Overall sales of the Commercial Motors Group increased over 19% to a record level of US\$464 million, mainly due to the acquisition of the remaining 51% of Nihon Mini Motor, increasing outsourcing by customers and new product introductions.

A discussion on the sales performance of individual business units within the two main operating divisions is provided in the Business Review section on page 9 to 13 of this report.

Cost of Sales and Gross Margins

Gross margins as a percentage of sales decreased from 29.8% for 2003/04 to 29.1% for the current year. The increase in global steel and copper prices continued to have an impact on the Group's cost of goods sold and gross margin. In 2004/05, the Group's weighted average cost of steel increased by 29% and the average London spot price of copper increased by approximately 47%.

Excluding the acquired and new businesses (Nihon Mini Motor, Nanomotion Ltd. and Johnson Electric Trading) that began in the current year, the gross margins would have been 29.6% compared to 29.8% for the same period.

Selling and Administrative Expenses (“SG&A”)

Overall SG&A expenses increased 5.1% to US\$188.2 million, and as a percentage of sales, decreased from 17.0% to 16.5%. The Company’s SG&A expenses increased – partly due to higher international freight and shipping costs and partly due to translation of Euro expenses for US dollar reporting, but for the most part due to the Group’s investments in Nihon Mini Motor and Nanomotion Ltd. which added US\$12.7 million to SG&A. Excluding this impact, SG&A would have decreased by US\$3.6 million to US\$175.5 million or 16.2% of sales.

Restructuring Costs/Provisions

Consistent with Johnson Electric’s strategy of restructuring those existing and acquired operations whose strategic location and relative cost position do not meet the current needs of the marketplace, the Group completed the closure of its manufacturing operations at Matamoros in Mexico. The closure costs incurred during the year, together with other restructuring costs incurred amounted to US\$10.0 million (US\$7.1 million net of tax).

Other Revenues

Other revenues were US\$20.0 million, up 30.2%, due to an increase of US\$4.3 million in scrap sales.

Depreciation Expense

Depreciation expense increased 2.5% to US\$44.2 million. As a percentage to sales, depreciation expense decreased to 3.9%, compared to 4.1% in the prior year.

Earnings Before Interest and Tax (“EBIT”)

Excluding the restructuring costs/provisions, EBIT was US\$164.3 million, an increase of US\$14.6 million or 9.7%. The increase was mainly due to an increase of US\$19.0 million in gross profit and an increase of US\$4.7 million in other revenues, partly offset by an increase of US\$9.1 million in selling and administrative expenses. The Group’s EBIT (before restructuring costs/provisions), as a percentage of sales, increased from 14.2% to 14.4%.

Finance Costs

Interest expense remained at a low level of US\$0.3 million.

Share of Profits of JV/Associated Companies

The Group’s share of profit of jointly controlled companies decreased to US\$3.3 million in the 2004/05 year from US\$6.3 million in the previous year, largely due to the reduced profitability of Ri-Yong by US\$2.9 million and to the effect of acquiring the remaining 51% of Nihon Mini Motor not owned by the Group.

Taxation

Taxes on profits decreased 13.2% to US\$15.6 million, compared to US\$17.9 million in the previous year.

Profit Attributable to Shareholders

Profit attributable to shareholders and earnings per share increased 21.5% to US\$141.7 million and 3.86 US cents, respectively.

FINANCIAL CONDITION

Liquidity and Financial Resources

The Group's financial resources and liquidity remained strong with US\$137.3 million cash generated from operations. Net operating cash flow after interest and tax decreased to US\$122.8 million, compared to US\$184.4 million in the previous year. As at 31st March 2005, the Group's total cash and other investments decreased 5.3% to US\$235.1 million, compared to US\$248.3 million one year ago. Total debt increased to US\$16.0 million.

The Group's principal committed facilities were short-term bank loans of US\$12.9 million and long-term loans in Euro totalling US\$3.1 million (of which US\$0.1 million being repayable within one year) obtained by Gate S.r.l. to take advantage of preferential interest rates (fixed at between 1.5% and 3.2%) for specified purposes such as research and innovation.

For day-to-day liquidity management and maintaining flexibility in funding, the Group also has access to significant uncommitted short-term borrowing facilities provided by its relationship banks. There are, however, no present needs for borrowings of any material amount.

Funding requirements for capital expenditures are expected to be met by internal cash flows. There are no present plans for material investments or purchases of capital assets other than the Group's regular annual capital expenditures required to maintain its growth in sales.

The working capital position of the Group remained healthy. As at 31st March 2005, the current ratio (current assets divided by current liabilities) remained at 3.4 times, which is the same as that at the previous year-end.

The Group's total assets were US\$1,062.0 million and shareholders' funds were US\$819.9 million, compared to US\$953.0 million and US\$734.1 million, respectively, at the previous year-end.

Assets

Total assets were US\$1,062.0 million, up US\$109.0 million or 11.4%, essentially due to increases in current assets.

Non-current assets were US\$378.9 million, up US\$25.4 million or 7.2%. An increase of US\$23.6 million in properties, plant and equipment and an increase of US\$23.3 million in intangibles, were partly offset by a decrease of US\$10.0 million in the share of net assets in associated companies; a decrease of US\$3.0 million in deferred tax assets; a decrease of US\$1.2 million in share of net assets in jointly controlled entities; a decrease of US\$5.2 million in investments in finance leases; and a decrease of US\$2.1 million in investment securities.

Capital expenditures were US\$67.0 million, up 30.7% from US\$51.2 million previously. There were re-purchases of housing units from employees under the terms of the Staff Home Ownership Scheme, amounting to US\$10.4 million, compared to US\$4.5 million in the previous year. Hence, excluding such re-purchases of housing properties, net capital expenditures for the operations were US\$56.6 million.

Current assets increased US\$83.5 million or 13.9%. An increase of US\$48.4 million in trade and other receivables; an increase of US\$45.4 million in bank balances and cash; an increase of US\$44.6 million in stocks and work in progress; and an increase of US\$3.7 million in tax recoverable were partly offset by a decrease of US\$58.6 million in other investments.

Deposits and bank balances, and other investments, representing the Group's surplus cash reserves, amounted to US\$235.1 million, down 5.3%, from US\$248.3 million one year ago.

Trade and other receivables increased to US\$278.0 million, up 21.1%. Trade debtors increased to US\$230.9 million, up 16.2%. The average collection period increased slightly to 67 days, compared to 65 days previously.

Stocks and work in progress increased to US\$160.8 million, up 38.4% mainly due to increases in material prices. The sales-to-stocks ratio was dropped to 7.1 turns, from 9.0 turns in the previous year.

Liabilities

Total liabilities were US\$242.2 million, an increase of US\$23.3 million or 10.6%, due to an increase of US\$12.9 million in bank loans and overdrafts; an increase of US\$6.8 million in trade and other payables; an increase of US\$1.1 million in minority interests; an increase of US\$0.8 million in deferred tax liabilities; an increase of US\$1.1 million in tax payable; an increase of US\$0.5 million in other provisions; and an increase of US\$0.1 million in long term loans.

Current liabilities increased by US\$20.8 million to US\$199.5 million. Bank loans and overdrafts increased US\$12.9 million. Trade and other payables increased US\$6.8 million or 3.9% to US\$182.1 million. Other payables decreased US\$3.0 million or 5.2%, whereas trade creditors increased US\$9.8 million or 8.2% over the previous year-end. Tax payable increased US\$1.1 million to US\$4.5 million.

Non-current liabilities increased US\$2.5 million or 6.2%, due mainly to an increase of US\$1.1 million in minority interests; an increase of US\$0.8 million in deferred tax liabilities; an increase of US\$0.5 million in other provisions; and an increase of US\$0.1 million in long term loans.

Shareholders' Funds

Shareholders' funds at 31st March 2005 were US\$819.9 million, up 11.7%.

Reserves increased US\$76.3 million or 11.1%. This was mainly due to the retained profit for the year of US\$78.1 million (after deduction of a total dividend of US\$63.6 million), and an adjustment of US\$8.0 million arising on translation of foreign subsidiaries, associated companies and jointly controlled entities.

Proposed dividends increased US\$9.4 million or 22.2% to US\$51.8 million.

There was no change in the share capital.

CASH FLOWS

Johnson Electric's ability to generate cash from operations to grow and expand our business to create long-term shareholder value remains one of the Group's fundamental financial strengths.

Net Cash Inflow from Operating Activities

The Group's main sources of liquidity continued to be the net cash from operating activities.

Cash generated from operations decreased to US\$137.3 million, compared to US\$197.2 million in 2003/04. Operating cash flow mainly derived from profit before taxation of US\$157.3 million and the adjustments for the increase in working capital and non-cash items. During the year, there was an increase of US\$5.4 million in exchange translation differences; an increase of US\$24.0 million in trade and other receivables; an increase of US\$30.1 million in stocks and work in progress; a decrease of US\$13.9 million in trade and other payables; and a decrease in US\$3.0 million in share of profit in jointly controlled entities/associated companies. These were partially offset by an adjustment for non-cash depreciation and amortisation of US\$47.5 million. After deductions of interest and tax paid, net cash from operating activities decreased US\$61.6 million to US\$122.8 million, down 33.4% from US\$184.4 million previously.

Investing Activities

Net cash used in investing activities increased US\$25.4 million or 43.5% to US\$83.9 million, due mainly to increase of US\$33.2 million in cash used in acquisition through business combinations; an increase of US\$12.7 million in cash used in purchase of properties, plant and equipment; an increase of US\$4.2 million in cash generated by the sale of investment securities; an increase of US\$0.7 million in interest received; an increase of US\$5.0 million in dividends received; a decrease of US\$8.5 million in cash used in investment in joint ventures and associated companies; and a decrease of US\$1.2 million in cash used in the purchase of other investments.

Financing Activities

Net cash used in financing decreased US\$4.6 million to US\$63.7 million, due primarily to a decrease of US\$6.5 million in cash used in repayment of bank and other loans, partially offset by a decrease of US\$1.9 million in cash generated from new secured loans.

Cash and Cash Equivalents

Total cash and cash equivalents as at 31st March 2005 decreased US\$24.9 million or 10.1% to US\$222.1 million, compared to US\$246.9 million a year ago.

Johnson Electric is committed to achieving high standards of corporate governance that properly protect and promote the interests of its shareholders.

Board of Directors

As at 31st March 2005, Johnson Electric's board consisted of three executive directors and eight non-executive directors (of whom six are independent).

The independent non-executive directors, who represent a majority of the board, are all experienced individuals from a range of industries and geographies. Their mix of professional skills and experience is an important element in the proper functioning of the board and in ensuring a high standard of objective debate and overall input to the decision-making process. The Board has received from each independent non-executive director a written confirmation of their independence and has satisfied itself of such independence up to the approval date of this report in accordance with the Listing Rules of The Stock Exchange of Hong Kong Limited (the "Stock Exchange").

The biographical details of the directors are provided on pages 36 to 38 of this report.

The Board at Work

The board of directors is accountable to shareholders for the activities and performance of the group. It meets in person on a quarterly basis and on other occasions when a board-level decision on a particular matter is required. The Board has reserved for its decision or consideration matters covering corporate strategy, annual and interim results, directors' appointment, succession planning, risk management, major acquisitions, disposals and capital transactions, and other significant operational and financial matters.

The majority of board meetings are scheduled to last one full day, with directors receiving details of agenda items for decision and minutes of committee meetings in advance of each board meeting.

Although the capacity of any board to involve itself in the details of a large international business is limited, Johnson Electric aims to provide its independent non-executive directors with extensive exposure and access to its operations and management. Over the past three years, the number and duration of board meetings have increased and the board agenda is structured to address the broad spectrum of key governance issues on a regular and systematic basis. Forming part of the continuous professional development programme for directors, visits to the company's principal operating facilities have been arranged and professional guest speakers are invited to address the board from time to time.

Major corporate matters that are specifically delegated by the Board to management include the preparation of annual and interim accounts for board approval before public reporting, execution of business strategies and initiatives adopted by the Board, implementation of adequate systems of internal controls and risk management procedures, and compliance with relevant statutory requirements and rules and regulations.

The Group's General Counsel and Chief Financial Officer also attend all board meetings to advise on corporate governance, risk management, statutory compliance, mergers and acquisitions, and accounting and financial matters.

Under the Company's Bye-Law 109(A), one-third of the directors except the executive chairman, who have served longest on the board, must retire, thus becoming eligible for re-election at each Annual General Meeting. As such, except the executive chairman, no director has a term of appointment longer than three years.

The Company has arranged for appropriate liability insurance to indemnify its directors for their liabilities arising out of corporate activities. The insurance coverage is reviewed on an annual basis.

Committees

The monitoring and assessment of certain governance matters are allocated to four committees which operate under defined terms of reference and are required to report to the full board on a regular basis. The composition of the committees during 2004/05 and up to the date of this report is set out in the table below.

Director	Chairman of the Committee	Member of the Committee	Chairman of the Committee	Member of the Committee
Executive Director				
Patrick Wang Shui Chung (Chairman and Chief Executive)			M [#]	M
Winnie Wang Wing Yee (Vice-Chairman)		M [#]		M

C – Chairman

M – Member

Appointed on 7th September 2004

* Appointed on 20th September 2004

Audit Committee

The Audit Committee is comprised of three independent non-executive directors who together have substantial experience in the fields of accounting, business, corporate governance and regulatory affairs.

The committee is responsible for monitoring the reporting, accounting, financial and control aspects of the executive management's activities. It has full access to the Group's chief internal auditor to hear directly any concerns of the internal audit department that may have arisen during the course of the department's work.

The committee also monitors the appointment and function of the Group's external auditor.

Remuneration Committee

The Remuneration Committee was established on 7th September 2004 and is comprised of two independent non-executive directors (including the Committee Chairman) and one executive director.

The committee determines the compensation structure and rewards for the Chief Executive Officer and other executive directors and monitors the policies being applied in remunerating other senior executives in the Group. In addition, it has responsibility for reviewing and making appropriate recommendations to the board on management development and succession plans for executive directors and senior management levels.

The fundamental policy underlying Johnson Electric's remuneration and incentive schemes is to link total compensation for senior management with the achievement of annual and long-term performance goals. By providing total compensation at competitive industry levels for delivering on-target performance, the Company seeks to attract, motivate and retain key executives essential to its long-term success. Senior management incentive schemes include an equity component that is designed to align the long-term interest of management with those of shareholders.

Nomination and Corporate Governance Committee

The Nomination and Corporate Governance Committee was established on 7th September 2004 and is comprised of two independent non-executive directors (including the Committee Chairman) and one executive director.

The committee is responsible for the identification and evaluation of candidates for appointment or reappointment as a director, as well as the development and maintenance of the Group's overall corporate governance policies and practices.

Board Committee

The Board Committee was established on 11th June 2002 and is comprised of two executive directors. Its primary function is to undertake and supervise the day to day management and operating affairs of the Group. It exercises leadership and develops and keeps under review strategy and business development initiatives of the Group and supervises their implementation.

Board and Committee Attendance

The Board held four regular meetings in 2005 and the average attendance rate was 88%. Details of the attendance of individual directors at board meetings and committee meetings during the 2004/05 financial year are set out in the table below:

Directors	No. of meetings attended (%)			
	Board	Audit Committee	Remuneration Committee	Nomination Committee

* Appointed on 20th September 2004

Retired and resigned on 8th June 2004

Internal Control and Risk Management

The Board is responsible for ensuring that an adequate system of internal controls is maintained within the Group, and for reviewing its effectiveness through the Audit Committee.

The internal control system, which includes a defined management structure with specified limits of authority, is designed to (a) help the achievement of business objectives, and safeguard the Group's assets; (b) ensure proper maintenance of accounting records; and (c) ensure compliance with relevant legislation and regulations.

The internal control system is designed to provide reasonable, but not absolute, assurance against material misstatement or loss and to manage, but not to eliminate, risks of failure in achieving the Group's objectives.

The processes to identify and manage key risks to the achievement of the Group's strategic objectives are an integral part of the internal control environment. Such processes include strategic planning, the appointment of senior management, the regular monitoring of performance, control over capital expenditure and investments and the setting of high standards and targets for safety, health and environmental performance.

The management maintains and monitors the system of controls on an ongoing basis.

The Group's internal audit department, under the supervision of the chief internal auditor, independently reviews these controls and evaluates their adequacy, effectiveness and compliance, and reports directly to the Audit Committee on a regular basis.

During 2004/2005, based on the evaluations made by the management, internal auditors and external auditors, the Audit Committee was satisfied that nothing has come to its attention to cause the Audit Committee to believe that the system of internal control is inadequate; and there is an ongoing process to identify, evaluate and manage significant risks faced by the Group.

External Auditor

Johnson Electric's independent external auditor is PricewaterhouseCoopers. The Audit Committee is responsible for considering the appointment of the external auditor and also reviews any non-audit functions performed by the external auditor for the Group. In particular, the Committee will consider, in advance of them being contracted for and performed, whether such non-audit functions could lead to any potential material conflict of interest.

During the 2004/05 financial year, the services (and associated remuneration) provided by PricewaterhouseCoopers to the Group were as follows:

	2004/05	2003/04
	US\$M	US\$M
Audit	0.77	0.74
Taxation	0.31	0.28
Due diligence, and other advisory services	0.26	0.36

Communications with Shareholders

Johnson Electric uses a number of formal communications channels to account to shareholders for the performance of the Company. These include the Annual Report and Accounts, the Interim Report, periodic company announcements made through the Stock Exchange, as well as through the Annual General Meeting. Copies of relevant corporate and financial information are also made available through the company's website: *www.johnsonelectric.com*.

The Company aims to provide its shareholders and potential investors with high standards of disclosure and financial transparency. In order to provide effective disclosure to investors and potential investors and to ensure they all receive equal access to the same information at the same time, information considered to be of a price sensitive nature is released by way of formal public announcements as required by the Stock Exchange Listing Rules. The Company supplements and follows up such announcements through periodic presentations, investor road shows, and conference calls with the international investment community. The Company also welcomes comments and questions from shareholders at its Annual General Meeting.

Directors' Securities Transactions

The Group has adopted procedures governing directors' securities transactions in compliance with the Model Code as set out in Appendix 10 of the Stock Exchange Listing Rules.

Employees who are likely to be in possession of unpublished price-sensitive information of the Group are also subject to compliance with guidelines on no less exacting terms than the Model Code.

Directors' and Auditors' Responsibilities for Accounts

The Directors' responsibilities for the accounts are set out on page 35, and the responsibilities of the external auditors to the shareholders are set out on page 42.

Code of Best Practice

Throughout the accounting period, **the Company was in compliance with the Code of Best Practice** as set out in the Appendix 14 of the Stock Exchange Listing Rules.

REPORT OF THE DIRECTORS

The Directors have pleasure in submitting their report together with the audited accounts for the year ended 31st March 2005.

Principal Activities

The principal activity of the Company is investment holding. The principal activities of the subsidiaries are shown in note 33 to the accounts.

Results and Appropriations

The results of the Group for the year ended 31st March 2005 are set out in the consolidated profit and loss account on page 43 of the accounts.

The Directors declared an interim dividend of 0.58 US cents (4.5 HK cents) per share, totalling US\$21,195,000, which was paid on 3rd January 2005.

The Directors recommend the payment of a final dividend of 1.41 US cents (11 HK cents) per share, totalling US\$51,810,000, payable on 29th July 2005.

Reserves

Movements in the reserves of the Group and the Company during the year are set out in note 28 to the accounts.

Distributable Reserves

As at 31st March 2005, the distributable reserves of the Company available for distribution as dividends amounted to US\$464,480,000, comprising retained earnings of US\$369,207,000 and contributed surplus of US\$95,273,000 arising from the reorganisation of Johnson Electric Group in 1988 less a bonus issue in 1991.

Under the Companies Act 1981 of Bermuda (as amended), the contributed surplus shall not be distributed to the shareholders if there are reasonable grounds for believing that:

- (i) the Company is, or would after the payment be, unable to pay its liabilities as they become due; or
- (ii) the realisable value of the Company's assets would thereby be less than the aggregate of its liabilities and its issued share capital and share premium account.

Donations

During the year, the Group made charitable and other donations of US\$214,000 (2004: US\$372,000).

Fixed Assets

Details of the movements in properties, plant and equipment are shown in note 14 to the accounts.

Share Capital

Details of the share capital are shown in note 27 to the accounts.

Directors

The Directors during the year and up to the date of this report were:

Wang Koo Yik Chun

Patrick Wang Shui Chung *JP*

Winnie Wang Wing Yee

Peter Stuart Allenby Edwards

Patrick Blackwell Paul

Arkadi Kuhlmann

Richard Wang Li-Chung

Oscar De Paula Bernardes Neto

Peter Wang Kin Chung

Michael John Enright

Laura May-Lung Cha (appointed on 20th September 2004)

Peter John Wrangham (retired and resigned on 8th June 2004)

In accordance with Bye-Law 109(A) of the Company's Bye-Laws, Ms. Wang Koo Yik Chun, Mr. Arkadi Kuhlmann and Mr. Oscar De Paula Bernardes Neto retire from office by rotation and, being eligible, offer themselves for re-election.

In accordance with Bye-Law 100 of the Company's Bye-Laws, Mrs. Laura May-Lung Cha retires from office and being eligible, offers herself for re-election.

The Company is controlled through the Board of Directors which comprises eleven Directors. At 31st March 2005, three of the Directors are executive and eight of the Directors are non-executive, of whom six are independent. Their details are set out in the Biographical Details of Directors and Senior Management section on pages 36 to 40.

Directors' Service Contracts

None of the Directors of the Company had a service contract with the Company or any of its subsidiaries during the year.

Disclosure of Interests

A DIRECTORS

As at 31st March 2005, the interests of each director and chief executive of the Company in the shares of the Company (within the meaning of Part XV of the Securities and Futures Ordinance ("SFO")) as recorded in the register required to be kept under section 352 of the SFO were as follows:

Name	Shares of the Company of HK\$0.0125 each	
	Personal Interests	Other Interests
Wang Koo Yik Chun	–	2,183,600,640 (<i>Notes a & b</i>)
Peter Stuart Allenby Edwards	–	100,000 (<i>Note c</i>)
Patrick Blackwell Paul	50,000	–

NOTES

- a. These shares are held, directly or indirectly, by the trustees of various trusts associated with the Wang family.
- b. Duplications of shareholdings occur among and between the parties shown below under the Section B Substantial Shareholders.
- c. These shares are held under a trust of which Peter Stuart Allenby Edwards is one of the beneficiaries.

Save as disclosed herein, as at 31st March 2005, the register maintained by the Company pursuant to section 352 of the SFO recorded no other interests or short positions of the Directors in any shares of the Company (within the meaning of Part XV of the SFO).

B SUBSTANTIAL SHAREHOLDERS

As at 31st March 2005, the register of substantial shareholders maintained under Section 336 of the SFO shows that the Company had been notified of the following substantial shareholders' interests, being 5% or more of the Company's issued share capital:

Name of shareholder	Capacity	Number of shares held	Approximate % of shareholding
Ms. Wang Koo Yik Chun	Beneficiary of family trusts	2,135,600,640 <i>(Notes a & b)</i>	58.13
HSBC International Trustee Limited	Trustee	947,282,000 <i>(Notes a & c)</i>	25.78
Ansbacher (Bahamas) Limited	Trustee	887,040,000 <i>(Note a)</i>	24.15
Bermuda Trust (Guernsey) Limited	Trustee	358,972,480 <i>(Note a)</i>	9.77
Ceress International Investment Corporation	Trustee	223,014,080 <i>(Note d)</i>	6.07
Merriland Overseas Limited	Trustee	211,943,040 <i>(Note e)</i>	5.77

NOTES

- a. *The shares in which Ansbacher (Bahamas) Limited and Bermuda Trust (Guernsey) Limited were interested and 937,588,160 of the shares in which HSBC International Trustee Limited was interested were held, directly or indirectly, by them as the trustees of various trusts associated with the Wang family and are included in the shares in which Ms. Wang Koo Yik Chun was interested as referred to above under Directors' interests in Section A of Disclosure of Interests.*
- b. *The shares in which Ms. Wang Koo Yik Chun was interested as referred to above formed part of the shares referred to in Note a.*
- c. *941,500 of the shares in which HSBC International Trustee Limited was interested were held through HSBC Trustee (Hong Kong) Limited.*
- d. *The interests of Ceres International Investment Corporation in the Company were duplicated by the interests in the Company held by Bermuda Trust (Guernsey) Limited.*
- e. *The interests of Merrilland Overseas Limited in the Company were duplicated by the interests in the Company held by HSBC International Trustee Limited.*

Save as disclosed herein, as at 31st March 2005, the register maintained by the Company pursuant to section 336 of the SFO recorded no other interests or short positions in the shares of the Company.

Share Scheme

A SHARE OPTION SCHEME

The Company has on 29th July 2002 adopted a new share option scheme (herein referred to as "the Scheme").

The major terms of the Scheme, in conjunction with the requirements of chapter 17 of the Rules Governing the Listing of Securities ("the Listing Rules") on The Stock Exchange of Hong Kong Limited ("the Stock Exchange"), are as follows:

(a) Purpose

The purpose of the Scheme is to provide incentive or rewards to Participants.

(b) Participants

The participants of the Scheme are

- (i) any director (including a non-executive director and an independent non-executive director), employee or consultant of the Group or a company in which the Group holds an equity interest or a subsidiary of such company ("Affiliate"); or

(ii) any discretionary trust whose discretionary objects include any director, employee or consultant of the Group or an Affiliate; or

(iii) a company beneficially owned by any director, employee or consultant of the Group or an Affiliate.

(c) Maximum number of shares

The maximum number of shares which may be issued upon exercise of all options to be granted under the Scheme and any other share option scheme(s) of the Company shall not exceed 2 per cent. of the share capital of the Company in issue from time to time.

The maximum number of shares (issued and to be issued) in respect of which options may be granted under the Scheme to any one grantee in any 12-month period shall not exceed 0.1 per cent. of the share capital of the Company in issue on the last date of such 12-month period unless approval of the shareholders of the Company has been obtained with such grantee and his associates abstaining from voting in accordance with the Listing Rules and a circular is issued.

(d) Time of acceptance and exercise of an Option

There is no specific requirement under the Scheme that an Option must be held for any minimum period before it can be exercised, but the terms of the Scheme provide that the Board has the discretion to impose a minimum period at the time of grant of any particular option. The date of grant of any particular Option is the date when the duplicate offer document constituting acceptance of the Option duly signed by the grantee, together with a remittance in favour of the Company of HK\$1.00 by way of consideration is received by the Company, such date must be on or before the 28th day after the Option is offered to the relevant grantee. The period during which an Option may be exercised will be determined by the Board at its absolute discretion, save that no Option may be exercised more than 10 years after it has been granted.

(e) Subscription price for shares

The subscription price for shares shall be a price determined by the Directors, but shall not be less than the higher of

(i) the closing price of shares as stated in the Stock Exchange's daily quotations sheet on the date of the offer of grant, which must be a trading day; and

(ii) the average closing price of shares as stated in the Stock Exchange's daily quotations sheets for the five trading days immediately preceding the date of the offer of grant.

(f) Period of the Scheme

The Scheme will remain in force for a period of 10 years from the date of adoption of such Scheme.

Details of the new share options granted under the Scheme as at 31st March 2005 are as follows:—

Type of Grantees	Options held at 01/04/2004	Options granted during the year	Options cancelled during the year	Options held at 31/03/2005	Subscription price per share (HK\$)	Date of grant	Exercisable from	Exercisable until	Note
Employees	100,000	–	–	100,000	7.90	17/09/2002	01/08/2004	16/09/2012	(i)

	–	50,000	–	50,000	8.77	07/05/2004	01/05/2007	30/04/2014	(vi)
	–	100,000	–	100,000	7.40	28/12/2004	01/01/2007	31/12/2014	(vii)
	–	100,000	–	100,000	7.40	28/12/2004	01/01/2008	31/12/2014	(vii)
	4,075,000	300,000	(200,000)	4,175,000					

NOTE

The closing market price per share immediately before the date on which the share options were granted were (i) HK\$8.10, (ii) HK\$10.85, (iii) HK\$10.80, (iv) HK\$10.60, (v) HK\$11.65, (vi) HK\$7.20 and (vii) HK\$7.60.

Due to the current volatility of the share markets, the Directors consider it inappropriate to value the options which were granted under the Scheme.

B LONG-TERM INCENTIVE SHARE SCHEME

Under the terms of the Long-Term Incentive Share Scheme (“Incentive Share Scheme”) which was approved by the shareholders on 26th July 1999, the Directors may at their discretion invite full time employees of the Company and its subsidiaries, including Directors, to participate in the Incentive Share Scheme, and grant shares to such eligible employees.

Details of the shares vested in the eligible employees under the Incentive Share Scheme as at 31st March 2005 are as follows:

Year of grant of shares	Number of shares purchased	Purchase Price (HK\$)	Shares awarded		
			<u>2003</u>	<u>2004</u>	<u>2005</u>
2003	154,917	9.50	51,639	51,639	51,639

Apart from the Scheme and the Incentive Share Scheme mentioned above, there were no other arrangements to which the Company or its subsidiaries was a party to enable the Directors of the Company to acquire benefits by means of the acquisition of shares in, or debentures of, the Company or any other body corporate.

Johnson Electric Group Ten-Year Summary

A summary of the results and of the assets and liabilities of the Group for last ten financial years are set out on pages 84 to 85.

Pre-emptive Rights

No pre-emptive rights exist under Bermudan law in relation to issues of new shares by the Company.

Major Suppliers and Customers

During the year, the Group purchased less than 30% of its goods and services from its 5 largest suppliers and sold less than 30% of its goods and services to its 5 largest customers.

Purchase, Sale or Redemption of Shares

The Company has not redeemed any of its shares during the year. Neither the Company nor any of its subsidiaries has purchased or sold any of the Company’s shares during the year.

Management Contracts

No contracts concerning the management and administration of the whole or any substantial part of the business of the Company were entered into or existed during the year.

Public Float

Based on the information that is publicly available to the Company and within the knowledge of the Directors of the Company, as at the date of this report, there is sufficient public float of more than 25% of the Company's issued shares as required under the Listing Rules.

Senior Management

The biographical details of the senior management as at the date of this report are set out in the Directors and Senior Management section on pages 36 to 40.

Corporate Governance

Principal corporate governance practices as adopted by the Company are set out in the Corporate Governance Report on pages 22 to 27.

Directors' Responsibilities for the Accounts

The Directors are responsible for the preparation of accounts for each financial period which give a true and fair view of the state of affairs of the Group and of the results and cash flows for that period. In preparing these accounts for the year ended 31st March 2005 the Directors have selected suitable accounting policies and applied them consistently; made judgements and estimates that are prudent and reasonable; and have prepared the accounts on the going concern basis. The Directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the Group.

Auditors

The accounts have been audited by PricewaterhouseCoopers, who retire and, being eligible, offer themselves for re-appointment.

Chairman of Remuneration Committee

Mr. Arkadi Kuhlmann, age 57, has been an independent non-executive director of the Company since 2003. He has 27 years of banking executive experience and is currently the Chairman and CEO of ING Bank FSB, U.S.A. (a regulated deposit taking institution) and a member of the Leadership and Management Council of ING Group in Amsterdam, The Netherlands. Mr. Kuhlmann has served as a director of more than 10 public and private companies in Canada, U.S.A., U.K., Australia and Hong Kong.

Mr. Richard Wang Li-Chung
Executive Director

Mr. Richard Wang Li-Chung, age 61, obtained his BSc and MSc degrees in Electrical Engineering from the University of California, Berkeley. He joined the Johnson Electric Group in 1970 and has been Director since 1992. He is an adviser to the Chief Executive. He is a brother of the Chairman and Chief Executive, Dr. Patrick Wang.

Mr. Oscar De Paula Bernardes Neto
Independent Non-executive Director
Member of Remuneration Committee

Mr. Oscar De Paula Bernardes Neto, age 58, has been an independent non-executive director of the Company since 2003. He obtained a degree in Chemical Engineering from the Federal University of Rio de Janeiro-Brazil. He was a Senior Partner of Booz Allen & Hamilton and Chief Executive Officer of Bunge International. Mr. Bernardes is currently the Chairman of LID Group and a Director of Delphi Corporation, Metalurgica Gerdau S.A., Gerdau S.A., Satipel S.A. and Suzano Bahia Sul S.A. He is also a member of the Advisory Boards of Bunge Brasil, RBS and Booz Allen & Hamilton do Brasil.

Mr. Peter Wang Kin Chung
Non-executive Director

Mr. Peter Wang Kin Chung, age 51, has been a non-executive director of the Company since 1982. He obtained a BSc degree in Industrial Engineering from Purdue University and an MBA degree from Boston University. He is the Chairman & CEO of Tristate Holdings Limited and the Managing Director of Hua Thai Manufacturing Public Company Limited. He is a brother of the Chairman and Chief Executive, Dr. Patrick Wang.

Prof. Michael John Enright
Independent Non-executive Director
Member of Audit Committee

Prof. Michael John Enright, age 46, was appointed as an independent non-executive director of the Company on 18th March 2004. He obtained his A.B. (in Chemistry), MBA, and Ph.D. (in Business Economics) degrees all from Harvard University. He was formerly a professor at the Harvard Business School. Prof. Enright is currently a professor at the University of Hong Kong School of Business and a principal in Enright, Scott & Associates, a Hong Kong-based consulting firm. He is an independent non-executive director of Shui On Construction and Materials Ltd.

Mrs. Laura May-Lung Cha
Independent Non-executive Director
Member of Audit Committee

Mrs. Laura May-Lung Cha, age 55, was appointed as a non-executive director of the Company on 20th September 2004. She obtained a BA degree from the University of Wisconsin and a law degree from the University of Santa Clara. She practiced as an attorney in the 1980's in San Francisco and Hong Kong. She was the Deputy Chairman of the Securities and Futures Commission, a Vice-Chairman of the China Securities Regulatory Commission and a member of the Committee of 100 in US. Mrs. Cha is currently a Non-Official Member of the Executive Council of the Government of the Hong Kong Special Administrative Region and a Non-executive Director of The Hongkong and Shanghai Banking Corporation Limited. She is also a Council Member of the Hong Kong University of Science and Technology, a Senior Advisor to The Investor AB Group in Sweden, a member of the International Council of The Asia Society and Senior Advisor for Asia for The Conference Board in New York.

SENIOR MANAGEMENT

Mr. Paul Tong Hon To

Executive Vice President and General Counsel

Mr. Paul Tong Hon To, aged 59, obtained a BSc (Economics) degree, a postgraduate Certificate in Management Studies, and a DBA degree from the University of London, the University of Oxford and the International Management Centres, London in England respectively. He was admitted as a Barrister of the Middle Temple in England, the Supreme Court of Hong Kong and the High Court of Australia. He is responsible for corporate development and legal matters of the Group. He joined Johnson Electric in 1995 as Chief Financial Officer and became Executive Vice President and General Counsel in 2003. Prior to joining Johnson Electric, he had many years' experience in manufacturing, shipping and trading businesses with large multinational groups. He is also a CPA of The Hong Kong Institute of Certified Public Accountants; a Fellow Member of The Association of Chartered Certified Accountants; and an Associate Member of The Chartered Institute of Management Accountants and The Institute of Chartered Secretaries and Administrators.

Mr. Choi Tung Sing

Senior Vice President, Strategic Manufacturing

Mr. Choi Tung Sing, age 55, is responsible for the global manufacturing management of the Group. He joined the Group in 1968, with more than 30 years of experience in motor component manufacturing, motor assembly processes, and the utilization of machines & fixtures.

Mr. Bernard Chu Kin Wah

President of Johnson China Advice Company Limited

Mr. Bernard Chu Kin Wah, age 59, holds a Diploma of Management Studies from Hongkong Polytechnic and a Business Administration Diploma from the University of Hull, U.K. He joined Johnson Electric in 1979 and is responsible for aspects of the Group's manufacturing and corporate affairs in mainland China. Prior to joining Johnson Electric, he had significant experience in finance and administration positions in the Hong Kong manufacturing sector.

Mr. Eric Martin Davis

Senior Vice President and Chief Financial Officer

Mr. Eric Martin Davis, age 50, obtained a Bachelor of Science degree from Trent University and also obtained his professional designation as a Chartered Accountant (C.A.) and a Certified Management Accountant (C.M.A.). He is responsible for overall corporate finance, accounting, treasury and information technology as well as coordination of internal audit. Prior to joining Johnson Electric in 2003, he joined the Coca-Cola Company in 1985 and has held CFO positions in Toronto, Bangkok, Singapore and Manila.

Mr. Michael Gunther Degen

Senior Vice President, Automotive Motors Group

Mr. Michael Gunther Degen, age 47, obtained BAsC and MASc degrees in Chemical Engineering from the University of Waterloo in Waterloo, Ontario, Canada. He is responsible for providing operational leadership and strategic direction to a global group of business units engaged in the supply of motors and motor-systems to all segments of the automotive market. He joined Johnson Electric in 2002 as Senior Vice President of the Automotive Motors Group. He is a registered Professional Engineer with Professional Engineers Ontario and has worked 18 years in the Automotive Business. Prior to joining Johnson Electric, he worked 12 years in the Motor Division of Siemens Automotive.

Mr. Paul Jay DeMand

Senior Vice President, Commercial Motors Group

Mr. Paul Jay DeMand, age 40, obtained his BSc in Mechanical and Electrical Engineering from Kettering University (formerly General Motors Institute) and MBA from the University of Detroit. He is responsible for leading the strategic, commercial and operational aspects of all of the non-automotive motor and motion businesses worldwide. He joined Johnson Electric in 2003 and prior to that held various executive positions with General Motors, TI Group plc and Solectron Corporation while being based in North America, Europe and Asia.

AUDITORS' REPORT

AUDITORS' REPORT TO THE SHAREHOLDERS OF JOHNSON ELECTRIC HOLDINGS LIMITED

(incorporated in Bermuda with limited liability)

We have audited the accounts on pages 43 to 83 which have been prepared in accordance with accounting principles accepted in Hong Kong.

RESPECTIVE RESPONSIBILITIES OF DIRECTORS AND AUDITORS

The Company's directors are responsible for the preparation of accounts which give a true and fair view. In preparing accounts which give a true and fair view it is fundamental that appropriate accounting policies are selected and applied consistently.

It is our responsibility to form an independent opinion, based on our audit, on those accounts and to report our opinion solely to you, as a body, in accordance with Section 90 of the Companies Act 1981 of Bermuda, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

BASIS OF OPINION

We conducted our audit in accordance with Statements of Auditing Standards issued by the Hong Kong Institute of Certified Public Accountants. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the accounts. It also includes an assessment of the significant estimates and judgements made by the directors in the preparation of the accounts, and of whether the accounting policies are appropriate to the circumstances of the Company and the Group, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance as to whether the accounts are free from material misstatement. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the accounts. We believe that our audit provides a reasonable basis for our opinion.

OPINION

In our opinion the accounts give a true and fair view of the state of affairs of the Company and the Group as at 31st March 2005 and of the profit and cash flows of the Group for the year then ended and have been properly prepared in accordance with the disclosure requirements of the Hong Kong Companies Ordinance.

Bank loans and overdrafts		(12,878)	(11)
Cash and cash equivalents at end of year		222,076	246,929

NOTES TO THE ACCOUNTS

1. Principal accounting policies

The accounts have been prepared in accordance with accounting principles generally accepted in Hong Kong and comply with accounting standards issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"). The accounts are prepared under the historical cost convention except that, as disclosed in the accounting policies below, *certain investment properties and other investments are stated at fair value.*

HKICPA has issued a number of new and revised Hong Kong Financial Reporting Standards and Hong Kong Accounting Standards ("new HKFRSs") which are effective for accounting periods beginning on or after 1st January 2005. The Group has not adopted these new HKFRSs in these accounts for the year ended 31st March 2005. The Group has commenced an assessment of the impact of adopting the new HKFRSs and has so far concluded that the adoption of the new HKFRSs would not have a significant impact on its results of operations and financial position.

The principal accounting policies adopted in the preparation of these accounts are set out below:

(a) CONSOLIDATION

The consolidated accounts include the accounts of the Company and its subsidiaries made up to 31st March and the Group's share of post-acquisition profits less losses, and reserves, of its associated companies and jointly controlled entities. The results of subsidiaries acquired during the year are included in the consolidated profit and loss account from the effective date of acquisition as appropriate.

All significant intercompany transactions and balances within the Group are eliminated on consolidation.

Minority interests represent the interests of outside shareholders in the operating results and net assets of subsidiaries.

(b) REVENUE RECOGNITION

(i) Sales of goods

Revenue from the sale of goods is recognised on the transfer of risks and rewards of ownership, which generally coincides with the time when the goods are delivered to customers and title has passed.

(ii) Interest income

Interest income is recognised on a time proportion basis, taking into account the principal amounts outstanding and the interest rates applicable.

(iii) Gross earnings from investments in finance leases

Gross earnings from investments in finance leases are recognised on the basis as set out in note 1(n).

(iv) Rental income

Rental income is recognised on a straight-line basis over the period of the lease.

(v) Royalty income

Royalty income is recognised on an accrual basis.

1. **Principal accounting policies** *(Cont'd)*

(c) SUBSIDIARIES

Subsidiaries are those entities in which the Company, directly or indirectly, controls more than one half of the voting power; has the power to govern the financial and operating policies; to appoint or remove the majority of the members of the board of directors; or to cast majority of votes at the meetings of the board of directors.

In the Company's balance sheet the investments in subsidiaries are stated at cost less provision for impairment losses. The results of subsidiaries are accounted for by the Company on the basis of dividends received and receivable.

(d) JOINTLY CONTROLLED ENTITIES

A jointly controlled entity is an entity in which the Group and other parties undertake an economic activity which is subject to joint control and none of the participating parties has unilateral control over the economic activity.

The consolidated profit and loss account includes the Group's share of the results of jointly controlled entities for the year, and the consolidated balance sheet includes the Group's share of the net assets of the jointly controlled entities and goodwill/negative goodwill (net of accumulated amortisation) on acquisition.

(e) ASSOCIATED COMPANIES

An associated company is a company, not being a subsidiary or jointly controlled entity, in which an equity interest is held for the long-term and significant influence is exercised in its management.

The consolidated profit and loss account includes the Group's share of the results of associated companies for the year, and the consolidated balance sheet includes the Group's share of the net assets of the associated companies and goodwill/negative goodwill (net of accumulated amortisation) on acquisition.

(f) INTANGIBLES

(i) Goodwill

Goodwill represents the excess of the cost of an acquisition over the fair value of the Group's share of the net assets of subsidiary/associated company/jointly controlled entity at the date of acquisition.

In accordance with SSAP 30 "Business Combination", goodwill on acquisitions occurring on or after 1st January 2001 is included in intangible assets and is amortised using the straight-line method over its estimated useful life in the range of 5 to 20 years.

Goodwill on acquisitions that occurred prior to 1st January 2001 was written off against reserves. Any impairment arising on such goodwill is accounted for in the profit and loss account.

1. Principal accounting policies *(Cont'd)*

(f) INTANGIBLES *(Cont'd)*

(ii) Negative goodwill

Negative goodwill represents the excess of the fair value of the Group's share of the net assets acquired over the cost of acquisition.

For acquisitions after 1st January 2001, negative goodwill is presented in the same balance sheet classification as goodwill. To the extent that negative goodwill relates to expectations of future losses and expenses that are identified in the Group's plan for the acquisition and can be measured reliably, but which do not represent identifiable liabilities at the date of acquisition, that portion of negative goodwill is recognised in the profit and loss account when the future losses and expenses are recognised. Any remaining negative goodwill, not exceeding the fair values of the non-monetary assets acquired, is recognised in the profit and loss account over the remaining weighted average useful life of those assets; negative goodwill in excess of the fair values of those non-monetary assets is recognised in the profit and loss account immediately.

For acquisitions prior to 1st January 2001, negative goodwill was taken directly to reserves on acquisition.

(iii) Research and development costs

Research costs are expensed as incurred. Costs incurred on development projects relating to the design and testing of new or improved products are recognised as an intangible asset where the technical feasibility and intention of completing the product under development has been demonstrated and the resources are available to do so, costs are identifiable and there is an ability to sell or use the asset that will generate probable future economic benefits. Such development costs are recognised as an asset and amortised on a straight-line basis over its estimated useful lives in the range of 3 years to 8 years, to reflect the pattern in which the related economic benefits are recognised. Development costs that do not meet the above criteria are expensed as incurred. Development costs previously recognised as an expense are not recognised as an asset in a subsequent period.

(iv) Patents

Expenditure on acquired patents are capitalised and amortised using the straight-line method over their useful lives in the range of 6 years to 20 years. Patents are not revalued as there is no active market for these assets.

1. Principal accounting policies *(Cont'd)*

(g) PROPERTIES, PLANT AND EQUIPMENT

Properties, plant and equipment other than investment properties (note 1(i)) are stated at cost less accumulated depreciation and accumulated impairment losses. Freehold land is not amortised. No depreciation is provided for assets under construction.

Depreciation of other properties, plant and equipment is calculated to write off the cost of assets less accumulated impairment losses on a straight-line basis over their estimated useful lives on the following bases:

Leasehold land and buildings	The unexpired term of lease
Buildings situated on freehold land outside Hong Kong and buildings situated on leasehold land in the New Territories, Hong Kong	25 years
Motor vehicles	5 years
Moulds	7 years
Computers	4 years
Plant and machinery, equipment, furniture and fixtures, and tools	10 years

The initial costs of moulds and tools are capitalised as other assets. Subsequent replacements of moulds and tools are charged to the manufacturing account as production overheads.

Gains or losses arising from the retirement or disposal of properties, plant and equipment are determined as the difference between the net disposal proceeds and the carrying amounts of those assets and are recognised as income or expense in the profit and loss account.

(h) INVESTMENT SECURITIES

(i) Investment securities

Investment securities represents unlisted equity shares and are stated at cost less any provision for impairment losses.

The carrying amounts of individual investments are reviewed at each balance sheet date to assess whether the fair values have declined below the carrying amounts. When a decline other than temporary has occurred, the carrying amount of such securities will be reduced to its fair value. The impairment loss is recognised as an expense in the profit and loss account. This impairment loss is written back to profit and loss account when the circumstances and events that led to the write-downs or write-offs cease to exist and there is persuasive evidence that the new circumstances and events will persist for the foreseeable future.

1. Principal accounting policies (Cont'd)

(h) INVESTMENT SECURITIES (Cont'd)

(ii) Other investments

Other investments are carried at fair value. At each balance sheet date, the net unrealised gains or losses arising from the changes in fair value of other investments are recognised in the profit and loss account. Profits or losses on disposal of other investments representing the difference between the net sales proceeds and the carrying amounts, are recognised in the profit and loss account as they arise.

(i) INVESTMENT PROPERTIES

Investment properties are interests in land and buildings in respect of which construction work and development have been completed and which are held for their investment potential.

Investment properties held on leases with unexpired periods greater than 20 years are valued annually by independent valuers. The valuations are on an open market value basis related to individual properties and separate values are not attributed to land and buildings. The valuations are incorporated in the annual accounts. Increases in valuation are credited to the investment properties revaluation reserve; decreases are first set off against increases on earlier valuations on a portfolio basis and thereafter are debited to operating profit. Any subsequent increase is credited to the profit and loss account up to the amount previously debited.

Investment properties held on leases with unexpired periods of 20 years or less are depreciated over the remaining portion of the leases.

Upon the disposal of an investment property, the relevant portion of the revaluation reserve realised in respect of previous valuations is released from the investment properties revaluation reserve to the profit and loss account.

(j) IMPAIRMENT OF ASSETS

At each balance sheet date, both internal and external sources of information are considered to assess whether there is any indication that the assets, including tangible and intangible assets, are impaired. If any such indication exists, the recoverable amount of the asset is estimated and where relevant, an impairment loss is recognised to reduce the asset to its recoverable amount. Such impairment losses are recognised in the profit and loss account.

(k) STOCKS AND WORK IN PROGRESS

Stocks and work in progress are stated at the lower of cost and net realisable value. Cost, calculated on a weighted average basis, comprises materials, direct labour and an appropriate proportion of all production overhead expenditure. Net realisable value is determined on the basis of anticipated sales proceeds less the estimated costs of completion and the estimated selling expenses.

1. Principal accounting policies *(Cont'd)***(l) FOREIGN EXCHANGE**

The rates of exchange at which foreign currencies are translated for accounting purposes are as follows:

- (i) In respect of foreign currency denominated assets and liabilities and the balance sheets of subsidiaries, jointly controlled entities and associated companies, the rates ruling at the balance sheet date; whilst for profit and loss accounts, average rates during the year; and
- (ii) In respect of foreign currency transactions entered into during the year, the market rates ruling at the relevant transaction dates.

Exchange differences arising on the translation of foreign currencies into US Dollars are reflected in the profit and loss account except that exchange differences arising in the translation of net investments in foreign subsidiaries, associated companies and jointly controlled entities are taken directly to reserves.

On disposal of a foreign enterprise, the cumulative amount of the exchange differences which relate to that foreign enterprise is included in the calculation of profit or loss on disposal.

(m) DEFERRED TAXATION

Deferred taxation is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the accounts. Taxation rates enacted or substantively enacted at the balance sheet date are used to determine deferred taxation.

Deferred tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Deferred taxation is provided on temporary differences arising on investments in subsidiaries, associates and jointly controlled entities, except where the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

(n) INVESTMENTS IN FINANCE LEASES

Leases that transfer substantially all the risks and rewards incidental to ownership of the relevant assets, other than legal title, to the lessees are accounted for as investments in finance leases. Finance lease debtors are included in the balance sheet net of gross earnings allocated to future periods.

Gross earnings under finance leases are allocated to accounting periods to give a constant periodic rate of return on the net investment in the leases in each period.

(o) OPERATING LEASES

Leases where substantially all the risks and rewards of ownership of assets remain with the leasing company are accounted for as operating leases. Payments made under operating leases net of any incentives received from the leasing company are charged to the profit and loss account on a straight-line basis over the lease term.

1. Principal accounting policies (Cont'd)

(p) EMPLOYEE BENEFITS

(i) Defined contribution schemes

Contributions are expensed as incurred. Except for the Hong Kong Mandatory Provident Fund, contributions are reduced by amounts forfeited by those employees who leave the scheme prior to vesting fully in the contributions. The assets of the schemes are held separately from those of the Group in an independently administered fund.

(ii) Other pension costs

Other pension costs represent employment service payments payable to certain employees outside Hong Kong upon termination of their services. The amount is provided in accordance with the existing legal requirements, national labour contract, individual company agreements and is determined with reference to a formula that takes into account years of service, compensation and inflation.

(iii) Profit sharing and bonus plan

Provisions for profit sharing and bonus plans due wholly within twelve months after balance sheet date are recognised when the Group has a legal or constructive obligation as a result of services rendered by employees and a reliable estimate of the obligation can be made.

(q) CASH AND CASH EQUIVALENTS

Cash and cash equivalents comprise cash on hand, demand deposits with banks, bank overdrafts and highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of change in value, having been within three months of maturity at acquisition.

(r) PROVISIONS

Provisions are recognised when the company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate of the amount can be made. Where the company expects a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain.

(s) CONTINGENT LIABILITIES

A contingent liability is a possible obligation that arises from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the company. It can also be a present obligation arising from past events that is not recognised because it is not probable that outflow of economic resources will be required or the amount of obligation cannot be measured reliably.

A contingent liability is not recognised but is disclosed in the notes to the accounts. When a change in the probability of an outflow occurs so that the outflow is probable, it will then be recognised as a provision.

1. Principal accounting policies *(Cont'd)*

(t) SEGMENT REPORTING

In accordance with the Group's internal financial reporting system, the Group's major business segment is manufacture of motors. For the purpose of these accounts, the Group has chosen geographical segment information as the primary reporting format.

Segment revenues, expenses, results, assets and liabilities include items directly attributable to a segment based on location of production facilities where the Group's products are produced. Capital expenditure comprises additions to intangible assets and fixed assets, including additions resulting from acquisitions through purchases of subsidiaries.

2. Turnover, revenues and segment information

The Group is principally engaged in the manufacture of motors. Revenues recognised during the year are as follows:

	2005 US\$'000	2004 US\$'000
Turnover		
Sales of motors	1,143,783	1,050,707
Other revenues		
Scrap sales	15,667	11,373
Interest income	2,825	2,138
Gross earnings from investments in finance leases	22	227
Gross rental income from investment properties	1,384	1,302
Royalty income	89	307
	19,987	15,347
Total revenues	1,163,770	1,066,054

2. Turnover, revenues and segment information (Cont'd)

The Group's business operates in three geographical areas by manufacturing location:

	Asia 2005 US\$'000	America 2005 US\$'000	Europe 2005 US\$'000	Group 2005 US\$'000
Turnover	783,640	80,880	279,263	1,143,783
Operating profit/(loss)	158,147	(9,767)	5,942	154,322
Finance costs				(308)
Share of profits less losses of jointly controlled entities and associated companies	3,238	-	11	3,249

Investment securities and other investments				125,295
Investments in jointly controlled entities				16,104
Investments in associated companies				13,163
Deferred tax assets and tax recoverable				39,188
Total assets				953,035
Segment liabilities	88,048	13,498	92,952	194,498
Deferred tax liabilities and tax payable				24,420
Total liabilities				218,918
Restructuring costs/provisions	4,306	13,650	3,334	21,290
Capital expenditure	54,009	2,304	7,644	63,957
Depreciation	27,533	4,316	11,901	43,750
Amortisation charge	2,342	154	240	2,736
Turnover by geographical destinations of customers	317,069	310,861	422,777	1,050,707

3. Selling and administrative expenses

	2005 US\$'000	2004 US\$'000
Selling expenses	65,916	70,421
Administrative expenses	122,248	108,657
	188,164	179,078

4. Restructuring costs/provisions

As stated in the 2003/04 annual report, actions had been taken to restructure the manufacturing operations at Matamoros in Mexico. The costs incurred during the year mainly represent further cost for the Mexico plant closure. Other costs mainly comprise severance payments and provisions for other shutdown costs.

	2005 US\$'000	2004 US\$'000
Asset write-offs (including provision for impairment)	-	11,819
Other costs	9,992	9,471
Total provision	9,992	21,290

5. Operating profit

Operating profit is stated after crediting and charging the following:

	2005 US\$'000	2004 US\$'000
Crediting		
Amortisation of negative goodwill (note 13)	208	444
Interest income		
– listed investments	537	578
– unlisted investments	35	2
– deposits	2,253	1,558
Net realised and unrealised profit on other investments and investment securities	3,010	–
Net exchange gain	–	3,948
Charging		
Depreciation on properties, plant and equipment	45,210	43,750
Less: amounts capitalised on assets under construction	(1,012)	(626)
	44,198	43,124
Staff costs (including directors' remuneration)	159,569	160,566
Less: amounts capitalised on assets under construction	(2,029)	(1,321)
	157,540	159,245
Retirement benefit costs		
– defined contribution schemes	2,523	2,424
– other pension costs, net (note 25)	2,980	5,571
Auditors' remuneration	769	741
Amortisation of goodwill (note 13)	1,917	1,660
Amortisation of development costs and patents (note 13)	1,604	1,520
Impairment of assets	–	10,794
Loss on disposal of properties, plant and equipment	3,003	2,588
Net realised and unrealised loss on other investments and investment securities	–	276
Net exchange loss	1,028	–

6. Finance costs

	2005 US\$'000	2004 US\$'000
Interest on bank loans and overdrafts	264	212
Interest on other loans, not wholly repayable within five years	44	21
	308	233

7. Taxation

Hong Kong profits tax has been provided at the rate of 17.5% (2004: 17.5%) on the estimated assessable profit for the year. Overseas tax has been provided at the applicable rates on the estimated assessable profit in respective countries of operations for the year.

	2005 US\$'000	2004 US\$'000
Current taxation		
Hong Kong profits tax	(8,599)	(7,407)
Overseas taxation	(3,789)	(6,255)
Over/(under) provisions in prior years	1,014	(637)
	(11,374)	(14,299)
Deferred taxation (note 26)	(3,819)	(2,323)
	(15,193)	(16,622)
Share of taxation attributable to associated companies/ jointly controlled entities	(398)	(1,334)
	(15,591)	(17,956)

The effective tax rate of the Group differs from the taxation rate of Hong Kong as follows:

	2005 %	2004 %
Tax rate of Hong Kong	17.5	17.5
Effect of different taxation rates in other countries	1.0	4.6
Income net of expenses not subject to taxation	(9.3)	(9.8)
Unrecognised tax losses	0.7	1.1
Effective tax rate	9.9	13.4

8. Profit attributable to shareholders

The Group consolidated profit attributable to shareholders is US\$141,648,000 (2004: US\$116,577,000) of which US\$65,844,000 (2004: US\$4,369,000) is dealt with in the accounts of the Company.

Details are shown in note 28.

9. Dividends

	2005 US\$'000	2004 US\$'000
Interim, paid, of 0.58 US cents per share (2004: 0.58 US cents)	21,195	21,195
Final, proposed, of 1.41 US cents per share (2004: 1.15 US cents)	51,810	42,390
	73,005	63,585

At a meeting held on 13th June 2005 the directors declared a final dividend of 1.41 US cents per share. This proposed dividend is not reflected as a dividend payable in these accounts, but will be reflected as an appropriation of retained earnings for the year ending 31st March 2006.

10. Earnings per share

The calculation of basic and fully diluted earnings per share is based on the Group's profit attributable to shareholders of US\$141,648,000 (2004: US\$116,577,000).

The basic earnings per share is based on 3,673,788,920 (2004: 3,673,788,920) shares in issue during the year.

There is no significant impact on the fully diluted earnings per share if all the outstanding options are deemed to be issued at no consideration.

11. Defined contribution schemes

The Group operates two defined contribution schemes in Hong Kong which comply with all the respective requirements under the Occupational Retirement Schemes Ordinance ("ORSO") and the Mandatory Provident Fund ("MPF") Ordinance. All the assets under the schemes are held separately from the Group under independently administered funds. Contributions to the MPF Scheme follow the MPF Ordinance while contributions to the ORSO Scheme are based on 5% of the basic salary of the employees.

The Group also operates other defined contribution retirement schemes which is available to certain employees in the United States of America.

Contributions are charged to profit and loss account as incurred and may be reduced by contributions forfeited from those employees who leave the ORSO scheme prior to vesting fully in the contributions. At 31st March 2005, the balance of the forfeited contributions was US\$1,278,000 (2004: US\$726,000).

12. Directors' emoluments and senior management compensation**(a) DIRECTORS' EMOLUMENTS**

	2005	2004
	US\$'000	US\$'000
Fees	207	262
Salaries and allowances	1,662	2,246
Retirement scheme contributions	77	8
Bonuses	5	14
	1,951	2,530

The emoluments were paid to the directors as follows:

Emoluments band	Number of directors	
	2005	2004
US\$0 – US\$128,000 (HK\$0 – HK\$1,000,000)	9	8
US\$512,001 – US\$576,000 (HK\$4,000,001 – HK\$4,500,000)	2	–

14. Properties, plant and equipment (Cont'd)

Investment properties and other properties at their net book values are analysed as follows:

Group	2005		2004	
	Investment properties	Other properties	Investment properties	Other properties
	US\$'000	US\$'000	US\$'000	US\$'000
In Hong Kong:				
On long-term lease (over 50 years)	7,692	–	7,323	–
On medium-term lease (between 10 to 50 years)	664	31,748	1,622	27,608
Outside Hong Kong:				
Freehold	–	24,356	–	23,994
On medium-term lease (between 10 to 50 years)	–	17,789	–	12,178
	8,356	73,893	8,945	63,780

The investment properties were revalued on an open market value basis as at 31st March 2005 by an independent valuer, DTZ Debenham Tie Leung Limited, Registered Professional Surveyors.

15. Subsidiaries

Company	2005	2004
	US\$'000	US\$'000
Unlisted shares, at cost	479,075	479,096
Amounts due from subsidiaries	457,579	256,910
	936,654	736,006
Amounts due to subsidiaries	(397,322)	(201,073)
	539,332	534,933

Details of principal subsidiaries are shown in note 33.

16. Jointly controlled entities

Group	2005	2004
	US\$'000	US\$'000
Share of net assets	14,921	16,104
Investments at cost, unlisted	9,600	8,500

The Group's share of profits less losses of these jointly controlled entities during the year amounts to US\$3,110,000 (2004: US\$5,172,000).

Details of principal jointly controlled entities are shown in note 33.

17. Associated companies

Group	2005	2004
	US\$'000	US\$'000
Share of net assets	2,227	7,694
Goodwill on acquisition of an associated company	966	5,469
	3,193	13,163
Investments at cost, unlisted	3,084	12,646

The Group's share of profits less losses of these associated companies during the year amounts to US\$139,000 (2004: US\$1,123,000).

Details of principal associated companies are shown in note 33.

18. Investment securities

	Group		Company	
	2005	2004	2005	2004
	US\$'000	US\$'000	US\$'000	US\$'000
Unlisted equity securities	5,818	7,871	5,687	7,871

19. Investments in finance leases

Group	2005	2004
	US\$'000	US\$'000
Gross rental receivable	666	7,142
Less: gross earnings allocated to future period	(225)	(1,234)
	441	5,908
Less: amounts due within one year included in trade and other receivables	(15)	(309)
	426	5,599

The finance leases are receivable in the following years:

	Net investment		Gross earnings		Gross rental	
	2005	2004	2005	2004	2005	2004
	US\$'000	US\$'000	US\$'000	US\$'000	US\$'000	US\$'000
Within one year	16	309	22	287	38	596
In the second to fifth year	74	4,085	78	644	152	4,729
After the fifth year	351	1,514	125	303	476	1,817
	441	5,908	225	1,234	666	7,142

The Group has entered into agreements with its employees whereby certain leasehold property assets of the Group which are located in Hong Kong are leased to these employees. Under the terms of these agreements, substantially all the risks and rewards of ownership of the assets are transferred to the employees. Consequently, these transactions are accounted for as finance leases.

20. Stocks and work in progress

Group	2005	2004
	US\$'000	US\$'000
Raw materials	85,464	50,958
Work in progress	5,746	4,898
Finished goods	69,561	60,314
	160,771	116,170

21. Trade and other receivables

The Group normally grants credit period range from 30 to 90 days to its trade customers.

The trade and other receivables include trade receivables of US\$230,935,000 (2004: US\$198,817,000). The ageing analysis of trade receivables was as follows:

Group	2005	2004
	US\$'000	US\$'000
0-60 days	162,647	144,704
61-90 days	36,254	39,857
Over 90 days	32,034	14,256
Total	230,935	198,817

22. Other investments

Group	2005	2004
	US\$'000	US\$'000
Unlisted investments	24,386	11,158
Listed investments, outside Hong Kong	34,427	106,266
Total	58,813	117,424

Other investments mainly comprise money market funds. Listed investments are stated at market value as at 31st March 2005.

23. Trade and other payables

The trade and other payables include trade payables of US\$128,255,000 (2004: US\$118,502,000). The ageing analysis of trade payables was as follows:

Group	2005	2004
	US\$'000	US\$'000
0-60 days	91,124	88,740
61-90 days	15,888	13,447
Over 90 days	21,243	16,315
Total	128,255	118,502

24. Long term loans

Group	2005 US\$'000	2004 US\$'000
Loans		
Unsecured and not wholly repayable within five years	3,110	3,058
Current portion of long term loans	(92)	(137)
	3,018	2,921

At 31st March 2005, the Group's loans were repayable as follows:

	Other loans	
	2005 US\$'000	2004 US\$'000
Within one year	92	137
In the second year	239	146
In the third to fifth year	949	485
After the fifth year	1,830	2,290
	3,110	3,058

The loans are repayable by instalments starting from February 2002 to October 2018. Interest is charged on the outstanding balances at 1.5% to 3.2% per annum (2004: 1.5% to 3.2% per annum).

25. Other provisions

Group	Other pension costs US\$'000	Sundries US\$'000	Total US\$'000
At 1st April 2003	12,365	988	13,353
Exchange adjustments	1,841	–	1,841
Provisions	5,571	–	5,571
Utilised	(3,633)	(988)	(4,621)
At 1st April 2004	16,144	–	16,144

Acquisitions of subsidiaries	539	–	539
Provisions	2,980	–	2,980
Utilised	(3,834)	–	(3,834)
At 31st March 2005	16,649	–	16,649

26. Deferred taxation

Group	2005 US\$'000	2004 US\$'000
At beginning of year	12,638	13,802
Exchange adjustments	(16)	1,159
Acquisitions of subsidiaries (note 31(b))	(6)	–
Transfer to profit and loss account (note 7)	(3,819)	(2,323)
At end of year	8,797	12,638

Deferred tax assets are recognised for tax losses carried forward to the extent that it is probable that future taxable profit will be available against which the unused tax losses can be utilised. The Group has unrecognised tax losses of US\$7,834,000 (2004: US\$7,144,000) to carry forward against future taxable income. Out of the unrecognised tax losses, US\$1,665,000 will expire from March 2006 to March 2011.

26. Deferred taxation (Cont'd)

The movement in deferred tax assets/(liabilities) during the year is as follows:

Deferred tax assets/(liabilities)

	Provisions		Accelerated tax depreciation		Impairment of assets		Tax losses		Others		Total	
	2005	2004	2005	2004	2005	2004	2005	2004	2005	2004	2005	2004

Guarantee for credit facilities granted to companies controlled/held by certain directors of a subsidiary (note)	8,911	–	–	–
	9,196	258	37,063	23,103

Note: As at 31st March 2005, facilities totalling approximately US\$1,300,000 had been utilised.

29. Contingent liabilities *(Cont'd)*

- (b) The Company has given guarantees for a subsidiary in respect of future payment of operating lease rentals amounting to US\$1,633,000 (2004: US\$1,966,000).
- (c) In August 2001, a claim for damages was made in the Lowndes County Circuit Court in Mississippi against a subsidiary of the Group and over ten other third party defendants for personal injury and property damage in a lawsuit pertaining to environmental contamination involving an automotive parts manufacturing facility in Columbus, Mississippi, USA which was purchased in 1999 and closed down in November 2001. No amount of damages was specified in the complaint.

On or about 30th December 2002, counsel representing the plaintiffs in the above-described lawsuit filed additional complaints in the Lowndes County Circuit Court on behalf of approximately 1,000 plaintiffs against the same subsidiary of the Group and the same co-defendants named in the above-described case. The new complaints raise allegations similar to the above-described complaint. On or about 9th September 2003, the claims against the subsidiary of the Group were dismissed without prejudice for lack of service of process. During February and March 2004, plaintiffs filed amended complaints in these actions which were answered by the subsidiary of the Group.

In 2004, seven new actions were filed in the Lowndes County Circuit Court on behalf of over 100 plaintiffs against similar defendants as in the pending actions. Plaintiffs in the new actions are represented by different counsel but their complaints raise similar allegations. These complaints name the same subsidiary as in the above-described lawsuits and also name Johnson Electric Holdings Limited, which has contested personal jurisdiction in these actions.

In August 2004, counsel for plaintiffs in all of the actions informed the Special Master assigned to handle pre-trial proceedings of their intention to withdraw plaintiffs' personal injury claims and to proceed with property damage and punitive damages claims on behalf of a subset of plaintiffs who, to date, remain unidentified. Notwithstanding the foregoing, the personal injury claims have not yet been dismissed.

These actions were recently re-assigned to a new judge who set a tentative trial date of March 2006. At this time there has been no decision as to which cases or claims will be tried if trial should commence on that date.

The Group is vigorously defending all actions on behalf of the subsidiary of the Group and has asserted that the Mississippi state court lacks personal jurisdiction over the Company in the newly filed actions. In addition, the Group has asserted claims for indemnity against prior owners. Because discovery is still ongoing, the Group is unable at this time to predict with certainty the ultimate outcome of this litigation.

30. Commitments**(a) CAPITAL COMMITMENTS**

Group	2005		2004	
	Investments in associated company US\$'000	Properties, plant and equipment US\$'000	Investments in associated company US\$'000	Properties, plant and equipment US\$'000
