NOTES TO FINANCIAL STATEMENTS
For the year ended September 30, 2004

The Weil Company d.b.a. Christopher Weil & Company, Inc. (a California Corporation) (the "Company") was formed on March 4, 1988 and was acquired by the current owners on January 17, 1990. The Company is a fully disclosed general securities broker-dealer, and provides investment advisory services.

The Company became a registered broker-dealer pursuant to Section 15(b) of the Securities Exchange Act of 1934 on May 5, 1988. The Company is a member of the National Association of Securities Dealers, Inc.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Depreciation:

Depreciation is computed on the straight-line method based on the estimated useful lives of the assets, generally as follows:

Office equipment	7 years
Computer equipment	5 years

Repairs, maintenance and minor replacements are charged to expense as incurred.

Cash Equivalents:

The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Restricted Cash:

Restricted cash collateralizes the Company's subordinated note payable to the shareholder, and serves as the required balance at the Company's clearing firm.

Deferred taxes on income:

Deferred income taxes arise from timing differences resulting from income and expense items reported for financial accounting and tax purposes in different periods. The principal sources of timing differences are the use of the straight line method of depreciation for financial reporting purposes and the declining balance method for tax reporting purposes, and the reporting of securities owned at their fair market value for financial reporting purposes and at their historical cost basis for tax reporting purposes.

NOTES TO FINANCIAL STATEMENTS (Continued)
For the year ended September 30, 2004

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Advertising costs:

Advertising costs, except for costs associated with direct-response advertising, are charged to operations when the advertising first takes place. Advertising expense for the year ended September 30, 2004 was \$7,500.

Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires the Company to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Concentration of credit risk:

The Company maintains a cash balance at the bank. Accounts at the institution are insured by the Federal Deposit Insurance Corporation up to \$100,000.

The Company also maintains accounts with two stock brokerage firms. The accounts contain cash and securities. Balances are insured up to \$500,000 (with a limit of \$100,000 for cash) by the Securities Investor Protection Corporation.

The Company is a general securities broker-dealer that also provides investment advisory services for clients most of whom are located in the United States. As such, the Company is susceptible to credit risk from customers in that region. The Company does not obtain security from its clients in support of commissions receivable. At September 30, 2004, the aggregate carrying value of commissions receivable from customers in the United States was \$ 4,356, which represents the maximum loss the Company could incur in the event that all such receivables were uncollected.

Concentration in Revenue:

For the year ended September 30, 2004, approximately 77% of the Company's revenue is derived from their fees on the clients' managed account portfolios.

Fair Value of Financial Instruments:

The Company's financial instruments, including cash and cash equivalents, commissions receivable, commissions payable and accounts payable, are carried at historical cost, which approximates their fair value because of the short-term maturity of these instruments and the relatively stable interest rate environment.

San Diego, California

In planning and performing our audit of the financial statements and supplemental schedules of The Weil Company d.b.a. Christopher Weil & Company, Inc. (the Company), for the year ended September 30, 2004, we considered its internal control, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including tests of such practices and procedures that we considered relevant to the objectives in rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons;
2. Recordation of differences required by rule 17a-13;
3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL
ACCOUNTING CONTROL REQUIRED BY SEC RULE 17a-5 (Continued)**

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of internal control would not necessarily disclose all matters in internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control components does not reduce to a relatively low level the risk that error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving internal control, including control activities for safeguarding securities, that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at September 30, 2004, to meet the SEC's objectives.

This report is intended solely for the information and use of management, the SEC, the N.A.S.D., and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
