## Report of Independent Registered Public Accounting Firm

The Administrative Committee  
Weyerhaeuser Company:

We have audited the accompanying statements of net assets available for benefits of the NORPAC Hourly 401(k) Plan as of December 31, 2004 and 2003, and the related statement of changes in net assets available for benefits for the year ended December 31, 2004. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2004 and 2003, and the changes in net assets available for benefits for the year ended December 31, 2004, in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The fund information in the statement of changes in net assets available for benefits is presented for purposes of additional analysis rather than to present the changes in net assets available for benefits of each fund. The fund information is the responsibility of the Plan's management. The fund information has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects, in relation to the basic financial statements taken as a whole.

## NORPAC HOURLY 401(k) PLAN

Notes to Financial Statements

December 31, 2004 and 2003

### (1) Description of the Plan

The following description of the NORPAC Hourly 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

#### (a) General

The Plan is a defined contribution plan and was established January 1, 1989. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Any hourly employee of Norpac Resources, Inc. (the Company), a subsidiary of Weyerhaeuser Company, is eligible to participate in the Plan on a voluntary basis.

Vanguard Fiduciary Trust Company (VFTC) acts as the trustee, recordkeeper and investment manager for the Plan. Therefore, the Vanguard investment transactions qualify as party-in-interest transactions.

The portion of the Plan invested in the Weyerhaeuser Company Common Stock Fund is an Employee Stock Ownership Plan. Participants may elect to have any dividends due to them reinvested in Weyerhaeuser Stock or paid in cash.

#### (b) Contributions

The Plan includes a qualified cash or deferred arrangement as described in Section 401(k) of the Internal Revenue Code (IRC) that allows participants to designate any whole percent of their base pay to be contributed to the Plan, subject to certain limitations imposed under the IRC.

Participant contributions may be suspended under certain circumstances, at the participant's request or upon a hardship withdrawal.

The Plan provides for a matching contribution to be made by the Company. During 2004, the first 7% of eligible compensation designated by each participant as the participant's contribution is matched by the Company at a rate of 70%. All employer contributions shall be invested in the Weyerhaeuser Company stock fund. Participants may transfer employer matching contributions upon reaching age 45 and full vesting of their accounts.

The participant and employer matching contributions are paid biweekly to the trustee.

#### (c) Participant Accounts

Individual accounts are maintained for each of the Plan's participants to reflect the participants' share of the Plan's income, participant contributions and employer matching contributions. Allocations of income are based on units assigned to participants.

#### (d) Vesting

The interest of a participant in the employer contributions and earnings thereon becomes fully vested upon the earliest date of one of the following events: (1) retirement at normal or early retirement age under the employer's retirement plan, (2) attaining age 65, (3) death or total and permanent disability

while in the employer's employ, (4) termination of service due to a plant closure or (5) upon termination of the Plan. The Plan also provides 100% vesting for all involuntary terminations except for violations of certain Weyerhaeuser Company employee conduct standards as set forth in the Plan.

All employees hired on or before January 1, 2002, who are eligible to participate in the Plan, are 100% vested in their accounts. Employees hired after January 1, 2002 vest in the employer contributions and earnings thereon after six years of vesting service according to the following schedule.

<u>Years of vesting service</u>	<u>Percent vested</u>
Less than two years of service	0%
Two years of service	20%
Three years of service	40%
Four years of service	60%
Five years of service	80%
Six or more years of service	100%

If a participant is not fully vested in his/her employer contributions upon severance of employment and does not return to active employment with the Company within five years, the participant forfeits his/her employer contributions to the extent they are not vested. Forfeited employer contributions are used to reduce future Company contributions. During 2004, no forfeitures were used to reduce employer matching contributions. Unallocated forfeitures are not significant to the financial statements as of December 31, 2004 and 2003.

(e) ***Investment Options***

Participants are allowed to change their investment options 26 times per year. Participants have the option to invest up to 100% of their contributions, in 1% increments, in any of the eight investment options listed below:

- Weyerhaeuser Company Common Stock Fund
- Vanguard 500 Index Fund
- Vanguard Extended Market Index Fund
- Vanguard Total International Stock Index Fund
- Vanguard Wellesley Income Fund
- Weyerhaeuser Stable Value Fund
- Vanguard Prime Money Market Fund
- Vanguard Total Bond Fund

The information related to the Weyerhaeuser Company Common Stock Fund included in the statements of net assets available for benefits and statement of changes in net assets available for benefits includes both participant directed and nonparticipant directed investments. These amounts cannot be separately determined. As allowed under Statement of Position 99-3, the entire investment is deemed to be nonparticipant directed for purposes of this disclosure.

## NORPAC HOURLY 401(k) PLAN

Notes to Financial Statements

December 31, 2004 and 2003

**(f) Reallocation of Funds**

Participants are allowed to reallocate their accounts on a daily basis among the investment options offered by the Plan that the participants have selected.

**(g) Valuation Frequency**

Account balances are valued on a daily basis.

**(h) Payment of Benefits**

If a participant has not terminated employment, participant contributions may be withdrawn only after age 59-1/2 or upon financial hardship. Employer matching contributions may be withdrawn either two full calendar years after the year of the contribution or after five years of service, to the extent vested.

Participants who have terminated employment and whose vested account balance exceeds \$5,000 shall receive a distribution of their entire interest in the Plan when they so elect or at age 65. Participants whose accounts are valued at less than \$5,000 must take a distribution of their entire interest in the Plan at the time of termination. The nonvested portions of the participants' accounts are forfeited upon distribution of the account or after a five-year period of severance, whichever is earlier.

**(i) Expenses of the Plan**

The employer pays all costs of administering the Plan, including fees and expenses of the trustee, the recordkeeper and the external auditor. Brokerage fees, stock transfer taxes and other investment management fees directly incurred by the trustee in buying and selling any assets of each fund are paid by the trust out of such fund as a part of the cost of such assets, or as a reduction of the proceeds received from the sale of such assets.

**(2) Summary of Accounting Policies**

**(a) Basis of Accounting**

The financial statements of the Plan were prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

**(b) Participation in the Master Trust and Unit Accounting**

All of the Plan's investments are held in the Weyerhaeuser Company 401(k) and Performance Share Plan Trust (the Master Trust) which was established to hold the investments of the Plan and other Weyerhaeuser Company 401(k) and Performance Share plans. The Master Trust and the Plan use unit accounting for recordkeeping purposes. Each "unit" represents a portion of ownership in a fund.

**(c) Investment Valuation and Interest in the Master Trust at Fair Value**

The interest in the Master Trust at fair value includes the value of fund assets plus any accrued income. The interest in the Master Trust is reported at fair value based on quoted market prices of each fund, except for the Weyerhaeuser Stable Value Fund, which is reported at contract value, as all

Notes to Financial Statements

contracts within the fund are considered benefit responsive. The Weyerhaeuser Company Common Stock Fund is valued at its year-end unit closing price (comprised of year-end market price plus uninvested cash position). Participant loans are valued at cost, which approximates fair value.

**(d) *Income Recognition and Net Investment Income from the Master Trust***

Within the Master Trust, purchases and sales of securities are recorded on a trade-date basis. Interest income is accrued when earned. Dividends are recorded on the ex-dividend basis. The change in fair value of assets from one period to the next and realized gains and losses are recorded as net appreciation (depreciation) in fair value of investments. Total investment income (loss) of the Master Trust as presented in note 7 is allocated to each plan investing in the Master Trust based on the units of each fund held by the plan and plan specific participant loans.

**(e) *Risks and Uncertainties***

The Master Trust assets are invested in a variety of investments. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

**(f) *Estimates***

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

**(g) *Payment of Benefits***

Benefits are recorded when paid.

**(3) *Plan Termination***

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in their accounts.

**(4) *Tax Status***

A ruling has been obtained from the Internal Revenue Service stating that the Plan as amended effective November 1, 2001 qualifies under Section 401(a) of the IRC. The Plan has subsequently been amended. Management believes the Plan is designed and is currently being operated in compliance with the applicable requirements of Section 401(a) of the IRC, and as a result, is exempt from federal income taxes under Section 501(a) of the IRC. Employees who participate in the Plan are subject to federal income tax on distributions from the Plan in accordance with the provisions of Section 402 of the IRC.

Notes to Financial Statements

December 31, 2004 and 2003

### (5) Plan Transfers

Plan transfers represent the net amount of participant account balances transferred during the year from the Plan to other plans within the Master Trust as a result of the participants' changing employment within Weyerhaeuser Company and the related changes in their eligibility status.

### (6) Guaranteed Investment Contracts

Fully benefit-responsive guaranteed investment contracts (GICs) and synthetic guaranteed investment contracts (Synthetic GICs) (the Contracts) as included in the Weyerhaeuser Stable Value Fund are valued at contract value, which represents the principal balance of the Contracts, plus accrued interest at the stated contract rate, less payments received and contract charges by the insurance companies. The GICs are issued by a variety of insurance companies. The Synthetic GICs are investments that simulate the performance of a traditional GIC through the use of bonds, Vanguard fixed income common commingled trust funds, registered investment company funds and benefit-responsive wrapper contracts issued by insurance companies to provide market and cash flow protection at stated interest rates. The contract value of the Synthetic GICs held in the Master Trust is comprised of the wrappers, common commingled trust funds, and registered investment company funds totaling \$(3.9) million, \$364.1 million, and \$27.3 million, respectively, as of December 31, 2004. The contract value of the Synthetic GICs held in the Master Trust is comprised of the wrappers, bonds, common commingled trust funds, and registered investment company funds totaling \$(5.6) million, \$13.4 million, \$370.8 million, and \$47.4 million, respectively, as of December 31, 2003.

Under the terms of the Contracts, the crediting interest rates are determined quarterly based on the insurance companies' applicable rate schedules. The aggregate average yield of the Contracts in the Master Trust for the years ended December 31, 2004 and 2003 was 4.2% and 4.7%, respectively. The aggregate interest rate for the Contracts in the Master Trust as of December 31, 2004 and 2003 was 4.1% and 4.4%, respectively. The fair value of the Contracts in the Master Trust exceeded the contract value by approximately \$1.7 million and \$12.7 million as of December 31, 2004 and 2003, respectively.
