HF Financial Corp. Retirement Savings Plan

Notes to Financial Statements

Note 1. Plan Description and Amendments

The following description of the HF Financial Corp. Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General and plan amendments: The Plan is a defined contribution plan established for the benefit of the employees of HF Financial Corp. (the Company). The Plan and the Trust of which it is a part are intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (IRC). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

On March 17, 2004, the Plan adopted an amendment to comply with the Internal Revenue Code for dividends paid to the Plan on shares of stock held in the Plan.

During 2004, the Plan was amended to be in compliance with the final regulations issued under IRC Section 401(a)(9). The Plan was also amended to provide for valuation of its assets on a daily basis effective January 1, 2004.

On March 28, 2005, the Plan adopted an amendment to comply with the automatic payment requirements of the Internal Revenue Code so that a participant's account balance can only be distributed without a participant's consent if the participant's account balance is not greater than \$1,000, unless the participant has attained age of 65 (or the participant's required beginning date, if employed on that date).

Effective July 1, 2001, the Plan was restated as a qualified profit sharing plan with a cash or deferred arrangement pursuant to Code Section 401(k). Prior to such date, the Plan was a qualified stock bonus plan and a qualified employee stock ownership plan within the meaning of Code Section 4975(e)(7) (collectively referred to as ESOP).

The Plan is administered by the Plan Administrative Committee comprised of up to five persons appointed by the Company's Board of Directors. The Plan passed a resolution during 2003 to change the Plan Trustee to the Home Federal Bank, Investment Management and Trust Department which was effective August 1 2003. The trust department of an independent bank was the Plan's Trustee prior to August 1, 2003

Eligibility: Employees of the Company and its participating subsidiaries are generally eligible to participate in the Plan, provided they are expected to have at least 1,000 hours of service and are 21 years old.

Employees hired on or after July 1, 2001 are eligible to participate in the 401(k) portion of the Plan on the first day of the month after they have completed 30 consecutive calendar days of employment and attained age 21. Employees are eligible for other benefits of the Plan on the first day of the month after completing 1,000 hours of service and attaining age 21. Employees hired on or after July 1, 2001 are not eligible to participate in the ESOP portion of the Plan.

Contributions: Each year, participants may make salary deferral contributions in any percentage from 1% to 50% of pretax annual compensation, as defined in the Plan. For each calendar quarter, the Company makes a fixed matching contribution of 50% of participants' deferrals up to 6% of the participants' compensation. In addition, the Company may also make discretionary profit sharing and/or matching contributions to the Plan.

There were no discretionary contributions made to the plan for the year ended June 30, 2005. Participants may roll over amounts representing distributions from other qualified defined benefit or contribution plans.

Contributions are subject to certain limitations.

Note 1. Plan Description and Amendments (continued)

Participant accounts: Separate employee accounts are maintained for the 401(k) and the employee stock ownership portions of the Plan. Each participant's account is credited with the participant's contributions, allocations of the Company's contributions, Plan earnings, and charged with an allocation of administrative expenses. Plan earnings are allocated based on participant account balances, as defined. Forfeited balances of terminated participants' non-vested employer matching accounts are allocated among the accounts of all participants as a part of and on the same basis as the employer matching contribution. Forfeited balances of terminated participants' nonvested ESOP accounts are allocated in the same proportion that the compensation of each eligible participant bears to the compensation of all eligible participants. The amount allocated to eligible participants as of June 30, 2005, equaled \$27,270.

Participants' investment options: Participants must direct their salary deferral and rollover contributions to selected investments as made available and determined by the Plan Administrator. Participants may change their investment options daily.

Vesting: Participants are immediately vested in their Savings Plan (401(k)) contributions plus actual earnings thereon. Vesting in the Company's discretionary ESOP and matching contribution portion of participants' accounts plus actual earnings thereon is based on years of continuous service. A participant is 100 percent vested after three years of credited service in the employer matching contribution and after five years of credited service in the discretionary ESOP.

Payment of benefits: No distributions from the Plan will be made until a participant retires, dies (in which case, payment shall be made to his or her beneficiary or, if none, to his or her legal representatives), or otherwise terminates employment with the Company. On termination of service due to death, disability or retirement, a participant may elect to receive non-ESOP benefits in either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments not to exceed the participant's life expectancy. Benefits from all accounts except a participant's ESOP account will be paid in cash. A participant's ESOP benefits will be paid in whole shares of Company stock, valued at its fair market value per share, plus cash for any fractional share or in cash.

Participant loans: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest deemed reasonable by the Plan Administrator. Loan terms range from one to five years, or longer for the purchase of a principal residence. Principal and interest are paid no less than quarterly through payroll deductions.

Voting rights: Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee votes such shares in the same proportion as the participants who voted their shares.

Note 1. Plan Description and Amendments (continued)

Diversification: Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in the non-participant directed Company stock into; investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify have a portion of their account moved from the non-participant directed ESOP accounts to their participant diversified account.
