**Immediate Release****20 April 2006****Budapest Airport Traffic for March 2006 and Financial Year 2005-06**

Budapest Airport handled 595,160 passengers in March, an increase of 13,849 passengers, or 2.4%, on March 2005. Total passenger numbers rose to 8.2 million for the 12 months to March 2006, which is a 19.7% increase over the same period last year.

The number of passengers travelling by low-cost airlines reached 183,872, a 4.3% rise. In the year ending March 2006, Budapest handled around 2.3 million low-cost passengers.

The number of air transport movements in March increased by 0.6% to 10,107 movements, compared with the same period last year. In the 12 months to March 2006, Budapest handled 126,830 air transport movements, a rise of 8.1% on the previous 12-month period.

The small increase in passengers and air transport movements in March is as a result of the effect of Easter. In 2005 Easter occurred in March while in 2006 Easter occurred in April.

Cargo traffic, which is not affected by Easter, had a strong March. Budapest Airport handled more than 8,127 tonnes of cargo, a 36% rise on the same period last year. During the past 12 months, cargo traffic reached 76,642 tonnes.
