Wolfson Microelectronics plc (the "Company")
Supplemental Submission Pursuant to
Rule 12g3-2(b) under the Securities Exchange Act of 1934

Ladies and Gentlemen

We are submitting the information indicated on Schedule I pursuant to the Company's exemption from the registration requirements of the Securities Exchange Act of 1934 under Rule 12g3-2(b) thereunder. The Company's counsel received an acknowledgement postmarked November 24, 2003, from the staff of the Commission confirming receipt of the Company's initial submission.

The information listed on Schedule I and submitted herewith is information that may be material to investors that the Company:

1. has made or is required to make public pursuant to the laws of Scotland;
2. has filed or is required to file with the United Kingdom Listing Authority ("UKLA") or the London Stock Exchange and which was made public by the UKLA or the London Stock Exchange; and
3. has distributed or is required to distribute to the holders of the Company's securities.

Pursuant to Rule 12g3-2(b)(1)(i) under the Exchange Act, we are enclosing one (1) copy of each of the documents described on Schedule I. This information is being furnished with the understanding that such information and documents will not be deemed "filed" with the Commission or otherwise subject to the liabilities of Section 18 of the Securities Exchange Act of 1934, and that neither this letter nor the furnishing of such documents and information shall constitute an admission for any purpose that the Company is subject to the Exchange Act.

If you have any questions or require any additional information please contact either the undersigned at the Company on 011-44-131-272-7428 or Timothy Corbett, of Wilmer Cutler Pickering Hale and Dorr LLP (our external legal counsel) at 011-44-20-7645-2509.

Please acknowledge receipt of this letter and the enclosures by stamping the enclosed copy of this letter and returning it in the enclosed envelope to Timothy Corbett, Wilmer Cutler Pickering Hale and Dorr LLP, 60 State Street, Boston, MA 02109.

Yours faithfully

WOLFSON MICROELECTRONICS plc

Third quarter and nine month results to 1 October 2006

Wolfson Microelectronics plc (Wolfson or "the Company"), a leading supplier of mixed-signal semiconductors for consumer electronic products, announces its financial results for the third quarter and nine months to 1 October 2006.

Third quarter 2006 highlights:

- Revenues increased by 40% to \$58m (Q3 2005: \$41.5m)
- Gross margin rose to 52.0% from 51.6% in second quarter
- Profit before tax and non-recurring charge up 43% sequentially to \$16.5m (Q2 2006: \$11.5m) and up 48% year on year (Q3 2005: \$11.1m)
- Profit before tax including non-recurring charge amounted to \$10.7m
- Fully diluted earnings per share excluding non-recurring charge was 9.86 cents (Q3 2005: 7.10 cents) (Q3 2006 including non-recurring charge: 6.48 cents)
- Portable segment revenues increased 66% to \$43.5m (Q3 2005: \$26.2m) driven by multimedia handsets, satellite navigation, MP3 players and digital cameras
- Continued strong sales into multimedia handsets with revenues up 79% year-on-year and 26% sequentially

Nine Months 2006 highlights:

- Revenues increased by 44% to \$151.5m (9 mths 2005: \$105.2m)
- Gross margin rose to 51.5% (9 mths 2005: 50.2%)
- Profit before tax and non-recurring charge up 90% to \$38.5m (9 mths 2005: \$20.3m)
- Profit before tax including non-recurring charge amounted to \$32.7m
- Fully diluted earnings per share before non-recurring charge rose 80% to 23.32 cents (9 mths 2005: 12.94 cents) (9 mths 2006 including non-recurring charge: 19.93 cents)
- Portable segment revenues rose by 76% to \$109.4m (9 mths 2005: \$62.2m)
- Strong momentum of growth in multimedia handset revenues representing 20% of overall revenues (9 mths 2005: 12%)

Commenting on the results David Milne, Chief Executive Officer of Wolfson, said: "We are pleased with the quarter's performance with solid growth in key markets such as mobile handsets and satellite navigation systems providing increased profits and strong cash flow. Design win momentum remains strong across all

segments providing a good base for growth next year.

"The market is however becoming more conservative in forecasting and managing inventory levels as evidenced by a shortening of customer order cycles. In common with other semiconductor companies, Wolfson has also noted a build-up of inventory in consumer electronics products. As a result, the Company's order backlog is not reflecting the expected Q4 seasonal increase. Given these factors, the Company expects to report Q4 revenues to be in the range of \$52m - \$57m making the full year 2006 revenues in the range of \$204m - \$209m, a growth of 22% - 25% year-on-year."

Overview

Wolfson is pleased to report strong third quarter and nine month results as the Company's products continue to be incorporated into a wide variety of portable and mains-powered digital consumer electronic products.

Revenues in the third quarter increased by 40% to \$58.0m compared with the corresponding period last year (Q3 2005: \$41.5m) and by 22% sequentially over the previous quarter (Q2 2006: \$47.7m). Gross margin improved to 52.0% in the third quarter, compared to 51.6% in the second quarter.

In the third quarter, profit before tax excluding non-recurring charge, discussed below, rose by 48% to \$16.5m (Q3 2005: \$11.1m) and by 43% sequentially (Q2 2006: \$11.5m).

In the nine months, revenues increased by 44% to \$151.5m (9 mths 2005: \$105.2m). Pre-tax profits excluding the non-recurring charge rose by 90% to \$38.5m compared to the same period last year (9 mths 2005: \$20.3m).

Non-Recurring Charge

During the quarter it was established that share options granted to a number of employees which vested in August 2006 under the Company's Enterprise Management Incentive Scheme were non-qualifying for tax purposes. A non-recurring charge of \$5.8m (\$4.0m after related corporation tax credit), of which \$5.3m has already been paid, has been provided in Q3 2006 to compensate employees and disclosed as a non-recurring charge in the consolidated income statement.

Operational Review

Portable

The portable segment continued to be the principal driver of growth, accounting for approximately 75% of overall revenues in Q3 2006. Revenues in this segment increased to \$43.5m in the quarter, up 66% year-on-year (Q3 2005: \$26.2m) and 29% sequentially (Q2 2006: \$33.7m). The key growth drivers were multimedia handsets and portable media players.

Sales into the multimedia handset market rose by 79% year-on-year and 26% sequentially as the Company continued to expand its market share. During the quarter, Wolfson's products were incorporated into approximately 8 million handsets globally representing approximately 3% of the total market, up from a 2% share a year ago. The mobile handset market remains the second largest contributor to overall revenues at 20%.

Wolfson maintained its leading position in the MP3 market with third quarter sales increasing by 54% year-on-year and 25% sequentially.

The Company also achieved further market share gains in the digital camera and satellite navigation markets. Wolfson's high quality audio chips are now featured in the top-selling portable navigation devices sold worldwide.

Consumer Audio

The consumer audio segment, where Wolfson's semiconductors are typically used in mains-powered electronics goods, saw a significant improvement in the third quarter reflecting strong growth into flat panel televisions, games consoles, digital set-top boxes and personal video recorders.

Third quarter revenues from this business segment rose by 19% to \$9.3m (Q3 2005: \$7.8m) and 20% sequentially from the previous quarter (Q2 2006: \$7.8m). As

expected, sales into the commodity DVD and personal computer markets declined.

The automotive sector, where Wolfson currently focuses on the after-sales market for high-end audio applications, continued to gain traction with a more than five-fold increase in sales year on year. Although this sector currently makes a small contribution to overall revenues, it remains a key growth opportunity for the long term.

Imaging

Imaging products, which are incorporated into a wide range of multifunction peripherals ("MFPs"), performed in line with expectations, with revenues of \$5.2m (Q3 2005: \$7.5m). The decrease was due in part to lower volumes at two customers and slight erosion in average selling prices.

Financial review

Third Quarter ended 1 October 2006

Revenue for Q3 2006 increased to \$58.0m representing 22% sequential growth (Q2 2006: \$47.7m) and 40% growth year-on-year (Q3 2005: \$41.5m).

Gross profit for Q3 2006 was \$30.1m compared to \$21.8m in Q3 2005. Gross margin in Q3 2006 was 52.0% up 40 basis points sequentially from the previous quarter (Q2 2006: 51.6%).

Research and development expenditure before the non-recurring charge was \$7.3m in Q3 2006, unchanged from the previous quarter and up 48% year-on-year (Q3 2005: \$4.9m). Research and development expenditure before the non-recurring charge represented 12.6% of revenue in Q3 2006, compared to 15.2% sequentially and 11.8% year-on-year.

Distribution and selling expenses before the non-recurring charge in Q3 2006 amounted to \$5.1m, up 12% from the previous quarter (Q2 2006: \$4.5m) and 31% higher year-on-year (Q3 2005: \$3.9m). This increase was due mainly to investment in additional sales staff and application engineers in the regional sales offices.

Administrative expenses before the non-recurring charge in Q3 2006 were \$2.2m or 3.8% of revenue, compared to \$2.0m or 4.2% of revenue in Q2 2006 and \$2.1m or 5.1% in Q3 2005.

Share based payment charges calculated in accordance with IFRS 2 amounted to \$0.9m in Q3 2006, \$0.2m less than the previous quarter (Q2 2006: \$1.1m) and \$0.4m higher year-on-year (Q3 2005: \$0.5m).

Operating profit before the non-recurring charge for Q3 2006 was \$15.5m, up 43% both sequentially (Q2 2006: \$10.9m) and year-on-year (Q3 2005: \$10.9m). Operating margin before non-recurring charge in Q3 2006 was 26.8% compared to 22.8% in Q2 2006 and 26.3% in Q3 2005. The sequential increase in the operating margin was due mainly to the growth in revenues more than offsetting the increase in operating costs.

Nine months ended 1 October 2006

Revenue for the nine months to 1 October 2006 grew by 44% to \$151.5m compared to \$105.2m for the corresponding period in 2005. This was due mainly to growth in the portable segment.

Gross profit for the period was \$78.0m, up 48% from \$52.8m year on year. The gross margin in the nine month period was 51.5% compared to 50.2% for the same period last year. The year-on-year increase in the gross margin was attributable

mainly to the growing contribution from the portable segment, cost reductions and operating efficiencies.

Research and development expenses before the non-recurring charge were \$21.0m compared to \$15.1m for the same period in 2005, which represented an increase of 38% year-on-year. Research and development expenditure before non-recurring charge as a percentage of revenue in the period was 13.8% compared to 14.4% in the corresponding period in 2005.

Distribution and selling expenses before the non-recurring charge amounted to \$14.1m or 9.3% of revenue compared to \$11.0m or 10.4% of revenue for the corresponding period in 2005.

Administrative expenses before the non-recurring charge in the period were \$6.8m or 4.5% of revenue, compared to \$6.7m or 6.4% of revenue for the same period in 2005.

Operating profit before the non-recurring charge was \$36.2m or 23.9% of revenue, compared to \$20.0m or 19.0% of revenue for the same period in 2005. The 81% year-on-year increase in operating profit was due mainly to the growth in revenues more than offsetting the increase in operating costs.

It is anticipated that the total effective tax rate for 2006 will be approximately 27% principally reflecting the continuing availability of tax allowances on research and development expenditure. In addition, the amount of current tax payable continues to be reduced by tax relief in respect of gains arising on the exercise of share options by employees.

Fully diluted earnings per share before the non-recurring charge amounted to 23.32 cents in the period compared to 12.94 cents for the same period in 2005.

Cashflow and Balance Sheet

Cash and short-term deposits after payment of the non-recurring charge amounted to \$82.5m at 1 October 2006 compared to \$76.7m at 2 July 2006 and \$67.2m at 2 October 2005.

Net cash inflow from operating activities before the non-recurring charge was \$8.3m in Q3 2006 compared to \$7.6m in Q2 2006 and \$9.0m in Q3 2005. In the nine months to 1 October 2006 net cash inflow from operating activities before non-recurring charge amounted to \$23.8m compared to \$26.7m for the same period in 2005. This reduction was due mainly to an increase in working capital, in particular investment in inventories which were in line with planned levels.

Cash outflow on capital expenditure in the nine month period to 1 October 2006 amounted to \$5.5m compared to \$1.4m for the same period in 2005. The majority of this expenditure was invested in test and related equipment.

The value of inventories held at 1 October 2006 was \$27.8m or 91 days inventory compared to \$24.7m or 98 days inventory at 2 July 2006 and \$16.5m or 68 days inventory at 2 October 2005.

Trade and other receivables amounted to \$36.8m or 43 days sales outstanding at 1 October 2006 compared to \$28.9m or 42 days sales outstanding at 2 July 2006 and \$25.3m or 43 days sales outstanding at 2 October 2005.

Trade and other payables at 1 October 2006 amounted to \$23.6m or 70 days purchases compared to \$17.3m at 2 July 2006 or 38 days purchases and \$20.9m or 62 days purchases at 2 October 2005.

Outlook

Wolfson continues to benefit from solid demand for its products from leading global consumer electronics brands. Design win momentum remains strong across all segments, in particular for portable devices which will support growth in the future.

The market is however becoming more conservative in forecasting and managing inventory levels as evidenced by a shortening of customer order cycles. In common with other semiconductor companies, Wolfson has also noted a build-up of inventory in consumer electronics products. As a result, the Company's order backlog is not reflecting the expected Q4 seasonal increase.

Given these factors, the Company expects to report Q4 revenues to be in the range of \$52m - \$57m making the full year 2006 revenues in the range of \$204m - \$209m, a growth of 22% - 25% year-on-year. The gross margin is expected to remain at over 51% in the fourth quarter.

This document contains certain statements that are not historical facts, including statements about Wolfson's expectations and beliefs and statements with respect to its business plan, operations and financial performance and condition and other objectives. Such statements are forward-looking statements. These statements typically contain words such as "intends", "expects", "anticipates", "estimates", "aims", "believes", "assumes", "should", and words of similar import, which are predictions of or indicate future events and future trends. Undue reliance should not be placed on such statements, which are based on Wolfson's current plans, estimates, projections and assumptions. By their nature, forward-looking statements involve known and unknown risk and uncertainty because they relate to events and depend on circumstances which may occur in the future and which in some cases are beyond Wolfson's control. There are a number of factors that could cause actual results and developments to differ materially from those expressed or implied by such forward-looking statements. These factors include, but are not limited, to future revenues being lower than expected; increasing competitive pressures within the industry; general economic conditions or conditions affecting the relevant industries, both domestically and internationally, being less favourable than expected.

Notes to the financial information

1. Accounting policies - basis of preparation

This press release contains the financial information of Wolfson Microelectronics plc (the "Company") and its subsidiaries (together referred to as the "Group") for the thirteen week and thirty-nine week periods ended 1 October 2006. The Group operates a thirteen week quarter with four weeks in the first two months and five weeks in the final month of each quarter.

The financial information is prepared on the historical cost basis and is presented in United States Dollars rounded to the nearest thousand.

The financial information set out above does not constitute the company's statutory accounts. The statutory accounts for the year ended 31 December 2005, which were prepared in accordance with International Financial Reporting Standards ("IFRSs") as adopted by the EU, have been reported on by the Company's auditors and delivered to the Registrar of Companies. The report of the auditors was (i) unqualified, (ii) did not include references to any matters to which the auditors drew attention by way of emphasis without qualifying their report and (iii) did not contain statements under section 237(2) or (3) of the Companies Act 1985.

This financial information has been prepared applying the accounting policies and presentation that were applied in the preparation of the company's published consolidated financial statements for the year ended 31 December 2005.

2. Non-recurring charge

During the quarter it was established that share options granted to a number of

employees which vested in August 2006 under the Company's Enterprise Management Incentive Scheme were non-qualifying for tax purposes. A non-recurring charge of \$5.8m (\$4.0m after related corporation tax credit), of which \$5.3m has already been paid, has been provided in Q3 2006 to compensate employees and disclosed as a non-recurring charge in the consolidated income statement.

3. Income tax expense

The income tax expense for the period ended 1 October 2006 reflects the estimated total effective rate on profit before taxation for the Group of approximately 27% for the year ending 31 December 2006.

4. Earnings per share

Dear Sirs

Wolfson Microelectronics plc

We refer to our application for a block listing of 1,636,410 ordinary shares of 0.1 pence each pursuant to our 2003 Wolfson Microelectronics plc All Employee Share Schemes Parts A and B and confirm that:

1. There will not be any offer of the securities to the public and therefore no prospectus is required; and
2. We hereby confirm under Listing Rule 3.3.2(2)(c) that in relation to the request for admission to trading of the securities, a prospectus is not required to be published by the Prospectus Directive in accordance with the following exemption:
 - the shares are transferable securities offered, allotted or to be allotted to existing or former directors or employees by their employer or an affiliated undertaking, and the transferable securities are of the same class as the transferable securities already admitted to trading on the London Stock Exchange and a document containing the information on the number and nature of the transferable securities and the reasons for and detail of the offer is enclosed (Prospectus Rule 1.2.3(6)).

We also confirm that Wolfson Microelectronics plc will not make an offer of transferable securities to the public of, or admit to trading on a regulated market in the UK, the securities which are the subject of the application until those securities are admitted to the Official List.

Yours faithfully
