Background Information about the Company

China Oilfield Services Limited ("COSL", stock code: 2883) is the leading integrated oilfield services provider in the offshore China market. Its services cover each phase of offshore oil and gas exploration, development and production. Its four business segments are drilling services, well services, marine support and transportation services and geophysical services. COSL has been listed on the Main Board of the Stock Exchange of Hong Kong Limited since November 20, 2002. Since March 26, 2004, COSL's stocks can be traded by means of Level I unlisted American Depository Receipts at OTC (over-the-counter) market in the United States. The ticker symbol is CHOLY.

As at June 30 2006, COSL operated 15 drilling rigs, including 11 jack-ups and three semi-submersibles while operating one leased jack-up rig. In addition, COSL owns and operates the largest and most diverse fleets in offshore China, including 68 support vessels and five oil tankers, one chemical vessel, seven seismic vessels, and four geotech survey vessels. It also has a vast array of modern facilities and equipment for logging, drilling fluids, directional drilling, cementing, well completion and well work-over services.

The majority of COSL's business activities are conducted offshore China, with the other activities extending to different regions of the world such as North and South America, the Middle East, offshore Africa and offshore Europe. COSL and its worldwide employees are dedicated to providing premier quality services, while adhering to the highest health, safety and environmental standards. COSL has obtained the ISO 9000 and ISM (International Safety Management) certifications. COSL also plans to obtain certifications under the ISO 14000 environmental management standard as well as the OSHA 18000 occupational health and safety standards.
