treasury shares**

These Articles of Association as originally registered or as from time to time amended.
Shares in the Company that are not issued or that were previously issued but were redeemed.

"Written" or any term of like import includes words typewritten, printed, painted, engraved, lithographed, photographed or represented or reproduced by any mode of representing or reproducing words in a visible form, including telecopier, telex, telegram, cable, e-mail or other form of writing produced by electronic communication.

Save as aforesaid, any words or expressions defined in the Ordinance shall bear the same meaning in these Articles.

Whenever the singular or plural number, or the masculine, feminine or neutral gender is used in these Articles, it shall, where the context admits, include the others.

A reference in these Articles to voting in relation to shares shall be construed as a reference to voting by members holding the shares except that it is the votes allocated to the shares that shall be counted and not the number of members who actually voted, and a reference to shares being present at a meeting shall be given a corresponding construction.

A reference to money in these Articles is a reference to the currency of the United States of America unless otherwise stated.

REGISTERED SHARES

2. The Company shall issue to every member holding registered shares in the Company a certificate signed by a director or officer of the Company under the Seal of the Company specifying the number and type of share or shares held by him, and the signature of the director or officer and the Seal may be facsimiles. The share certificates need to bear separate distinctive numbers.
3. Any member receiving a share certificate for registered shares shall indemnify and hold the Company and its directors and officers harmless from any loss or liability which it or they may incur by reason of wrongful or fraudulent use or representation made by any person by virtue of the possession thereof. If a share certificate for registered shares is worn out or lost, it may be renewed on production of the worn out certificate or on satisfactory proof of its loss, together with such indemnity as may be required by a resolution of directors and by the share transfer agent of the Company.
4. If several persons are registered as joint holders of any shares, any one of such persons may give an effectual receipt for any dividend payable in respect of such shares.

SHARES, AUTHORISED CAPITAL AND CAPITAL

5. Subject to the provisions of these Articles and any resolution of members the unissued shares of the Company shall be at the disposal of the directors who may without prejudice to any rights previously conferred on the holders of any existing shares or class or series of shares, offer, allot, grant options over or otherwise dispose of the shares to such persons, at such times and upon such terms and conditions as the Company may by resolution of directors determine.
6. Shares in the Company shall be issued for money, services rendered, personal property, an estate in real property, a promissory note or other binding obligation to contribute money or property or any combination of the foregoing as shall be determined by a resolution of directors.
7. Shares in the Company may be issued for such amount of consideration as the directors may from time to time by resolution of directors determine, except that in the case of shares with par value, the amount shall not be less than the par value, and in the absence of fraud the decision of the directors as to the value of the consideration received by the Company in respect of the issue is conclusive unless a question of law is involved. The consideration in respect of the shares constitutes capital to the extent of the par value and the excess constitutes surplus.
8. A share issued by the Company upon conversion of, or in exchange for, another share or a debt obligation or other security in the Company, shall be treated for all purposes as having been issued for money equal to the consideration received or deemed to have been received by the Company in respect of the other share, debt obligation or security.
9. Treasury shares may be disposed of by the Company on such terms and conditions (not otherwise inconsistent with these Articles) as the Company may by resolution of directors determine.
10. The Company may issue fractions of a share and a fractional share shall have the same corresponding fractional liabilities, limitations, preferences, privileges, qualifications, restrictions, rights and other attributes of a whole share of the same class or series of shares.

11. Upon the issue by the Company of a share without par value, if an amount is stated in the Memorandum to be authorised capital represented by such shares then each share shall be issued for no less than the appropriate proportion of such amount which shall constitute capital, otherwise the consideration in respect of the share constitutes capital to the extent designated by the directors and the excess constitutes surplus, except that the directors must designate as capital an amount of the consideration that is at least equal to the amount that the share is entitled to as a preference, if any, in the assets of the Company upon liquidation of the Company.
12. The Company may redeem its own shares but only out of surplus or in exchange for newly issued shares of equal value but no redemption shall be made unless the directors determine that immediately after the redemption the Company will be able to satisfy its liabilities as they become due in the ordinary course of its business and the realisable value of the assets of the Company will not be less than the sum of its total liabilities, other than deferred taxes, as shown in the books of account, and its capital and, in the absence of fraud, the decision of the directors as to the realisable value of the assets of the Company is conclusive, unless a question of law is involved. The Company may trade in its own shares, and in the shares of its subsidiary and affiliated companies without restriction as long as the directors determine that such trades are in the best interests of the members of the Company.
13. A determination by the directors under the preceding Article is not required where shares are redeemed
 - a) pursuant to a right of a member to have redeemed or to have his shares exchanged for money or other property of the Company;
 - b) by virtue of the provisions of Section 147 of the Ordinance; or
 - c) pursuant to an order of the court.
14. Shares that the Company redeems or repurchases pursuant to Article 12 may be cancelled or held as treasury shares unless the shares are redeemed out of capital and would otherwise infringe upon the requirements of Article 29, or to the extent that such shares are in excess of 80 percent of the issued shares of the Company, in which case they shall be cancelled but they shall be available for reissue.
15. Upon the cancellation of a share, the amount included as capital of the Company with respect to that share shall be deducted from the capital of the Company.

LIEN

16. The Company shall have a lien on every share, whether fully paid or not, and whether registered in the name of one or more members, and accordingly in Regulation 7 of Table 'A' the words "not being fully paid share" and "other than fully paid shares" shall be omitted; and the words "a single person" shall be deleted and the words "any member, whether alone or jointly with other members" shall be substituted therefor.

TRANSFER OF SHARES

17. Subject to any limitations in the Memorandum, registered shares in the Company may be transferred in such manner as the directors may from time to time decide, including that a professional share transfer agent be retained to maintain the share registry and transfer shares on behalf of the Company.
18. The Company shall not be required to treat a transferee of a registered share in the Company as a member until the transferee's name has been entered in the share register.
19. Subject to any limitations in the Memorandum, the Company must on the application of the transferor or transferee of a registered share in the Company enter in the share register the name of the transferee of the share save that the registration of transfers may be suspended and the share register closed at such times and for such periods as the Company may from time to time by resolution of directors determine provided always that such registration shall not be suspended and the share register closed for more than 60 days in any period of 12 months.

TRANSMISSION OF SHARES

20. The executor or administrator of a deceased member, the guardian of an incompetent member or the trustee of a bankrupt member shall be the only person recognised by the Company as having any title to his share but they shall not be entitled to exercise any rights as a member of the Company until they have proceeded as set forth in Articles 21, 22 and 23.
21. The production to the Company, or its transfer agent, of any document which is evidence of probate of the will, or letters of administration of the estate, or confirmation as executor, of a deceased member or of the appointment of a guardian of an incompetent member or the trustee of a bankrupt member shall be accepted by the Company even if the deceased, incompetent or bankrupt member is domiciled outside Gibraltar if the document evidencing the grant of probate or letter of administration, confirmation as executor, appointment as guardian or trustee in bankruptcy is issued by a foreign court which has competent jurisdiction in the matter. For the purpose of establishing whether or not a foreign court is of competent jurisdiction the directors may obtain appropriate legal advice. The directors may also require an indemnity to be given by the executor, administrator, guardian or trustee in bankruptcy.

22. Any person becoming entitled by operation of law or otherwise to a share or shares in consequence of the death, incompetence or bankruptcy of any member may be registered as a member upon such evidence being produced as may reasonably be required by the directors. An application by any such person to be registered as a member shall for all purposes be deemed to be a transfer of shares and the directors shall treat it as such.
23. Any person who has become entitled to a share or shares in consequence of the death, incompetence or bankruptcy of any member may, instead of being registered himself, request in writing that some person to be named by him be registered as the transferee of such share or shares and such request shall likewise be treated as if it were a transfer.
24. What amounts to incompetence on the part of a person is a matter to be determined by the court having regard to all the relevant evidence and the circumstances of the case.

REDUCTION OR INCREASE IN AUTHORISED CAPITAL OR CAPITAL

25. Subject to the provisions of Article 31, the Company may in General Meeting amend the Memorandum to increase its authorised capital and in connection therewith the Company may in respect of any unissued shares increase the number of such shares and increase the par value of any such shares or effect any combination of the foregoing.
26. The Company may by Special Resolution amend the Memorandum to reduce its authorised capital and in connection therewith the Company may in respect of any unissued shares reduce the number of such shares, reduce the par value of any such shares or effect any combination of the foregoing.
27. Subject to the provisions of Article 31, the Company may amend the Memorandum to
 - a) divide the shares, including issued shares, of a class or series into a larger number of shares of the same class or series; or
 - b) combine the shares, including issued shares, of a class or series into a smaller number of shares of the same class or series,
 provided, however, that where shares are divided or combined under a. or b. of this Article, the aggregate par value of the new shares must be equal to the aggregate par value of the original shares.
28. Subject to the provisions of Article 31, the capital of the Company may in General Meeting be increased by transferring an amount of the surplus of the Company to capital.
29. Subject to the provisions of Articles 30 and 31 the capital of the Company may by special resolution be reduced by:
 - a) returning to members any amount received by the Company upon the issue of any of its shares, the amount being surplus to the requirements of the Company; or
 - b) cancelling any capital that is lost or not represented by assets having a realisable value; or
 - c) transferring capital to surplus for the purpose of redeeming shares that the directors have resolved to redeem.
30. No reduction of capital shall be effected that reduces the capital of the Company to an amount that immediately after the reduction is less than the aggregate par value of all outstanding shares with par value and all shares with par value held by the Company as treasury shares and the aggregate of the amounts designated as capital of all outstanding shares without par value and all shares without par value held by the Company as treasury shares that are entitled to a preference, if any, in the assets of the Company upon liquidation of the Company.
31. The capital or authorised capital of the Company can only be increased beyond 10,000,000 shares by a two-thirds (2/3) approval of not less than 75% of the total outstanding shares of the Company voting at a meeting of the members.

MEETINGS AND CONSENTS OF MEMBERS

32. The Annual General Meeting of the members shall be held at such time and place in each year, as the Board of Directors shall from time to time determine.
33. Other meetings of members may be convened
 - a) by order of the President and/or of the Chief Executive Officer (CEO); or
 - b) by the affirmative vote of a majority of the Board of Directors; or
 - c) by a member or members who own twenty percent or more of the voting shares of the Company.
 Meetings will be held at such times and in such manner and places within or outside Gibraltar as the directors consider necessary or desirable.

35. The directors may fix a date of not more than 60 days in advance of a meeting of members as the Record Date for determining those shares that are entitled to vote at the meeting.
36. The inadvertent failure of the directors to give notice of a meeting to a member, or the fact that a member has not received notice, does not invalidate the meeting.

37. A member may be represented at a meeting of members by a proxy who may speak and vote on behalf of the member.
38. The instrument appointing a proxy shall be produced at the place appointed for the meeting, or at such place or places as the directors shall appoint, before the time for holding the meeting at which the person named in such instrument proposes to vote.
39. An instrument appointing a proxy shall be in substantially the following form or such other form as the Chairman of the meeting shall accept as properly evidencing the wishes of the member appointing the proxy.

40. At any meeting of the members, beneficial owners of shares may vote those shares to which they have beneficial ownership where the direct owner of the shares is not voting those shares, when such beneficial ownership is supported by documentary evidence. This evidence may be a broker's statement or other credible documentation acceptable to the directors of the Company.
41. The following shall apply in respect of joint ownership of shares
 - a) if two or more persons hold shares jointly each of them may be present in person or by proxy at a meeting of members and may speak as a member;
 - b) if only one of the joint owners is present in person or by proxy he may vote on behalf of all joint owners; and
 - c) if two or more of the joint owners are present in person or by proxy they must vote as one.
42. A member shall be deemed to be present at a meeting of members if he participates by telephone or e-mail or other electronic means and all members participating in the meeting are able to communicate with one another.
43. A meeting of members is duly constituted if, at the commencement of the meeting, there are present in person or by proxy or by telephone or by e-mail or other electronic means not less than 20 percent of the votes of the shares or class or series of shares entitled to vote on resolutions of members to be considered at the meeting.
44. If within two hours from the time appointed for the meeting a quorum is not present, the meeting, if convened upon the requisition of members, shall be dissolved; in any other case it shall stand adjourned to the next business day at the same time and place or to such other time and place as the directors may determine, and if at the adjourned meeting there are present within one hour from the time appointed for the meeting in person or by proxy or by telephone or by e-mail or other electronic means not less than 20 percent of the votes of the shares or each class or series of shares entitled to vote on the resolutions to be considered by the meeting, those present shall constitute a quorum but otherwise the meeting shall be dissolved.
45. At every meeting of members, the Chairman of the Board of Directors shall preside as chairman of the meeting. If there is no Chairman of the Board of Directors or if the Chairman of the Board of Directors is not present at the meeting, the members present shall choose one of their number to be the chairman. If the members are unable to choose a chairman for any reason, then the person representing the greatest number of voting shares present in person or by prescribed form of proxy at the meeting shall preside as chairman, failing which the oldest individual member or representative of a member present shall take the chair.
46. The chairman may, with the consent of the meeting, adjourn any meeting from time to time, and from place to place, but no business shall be transacted at any adjourned meeting other than the business left unfinished at the meeting from which the adjournment took place.
47. At any meeting of the members the chairman shall be responsible for deciding in such manner as he shall consider appropriate whether any resolution has been carried or not and the result of his decision shall be announced to the meeting and recorded in the minutes thereof. If the chairman shall have any doubt as to the outcome of any resolution put to the vote, he shall cause a poll to be taken of all votes cast upon such resolution, but if the chairman shall fail to take a poll then any member present in person or by proxy who disputes the announcement by the chairman of the result of any vote may immediately following such announcement demand that a poll be taken and the chairman shall thereupon cause a poll to be taken. If a poll is taken at any meeting, the result thereof shall be duly recorded in the minutes of that meeting by the chairman.

48. Any person other than an individual shall be regarded as one member and subject to Article 40 the right of any individual to speak for or represent such member shall be determined by the law of the jurisdiction where, and by the documents by which, the person is constituted or derives its existence. In case of doubt, the directors may in good faith seek legal advice from any qualified person and unless and until a court of competent jurisdiction shall otherwise rule the directors may rely and act upon such advice without incurring any liability to any member.
49. Any person other than an individual which is a member of the Company may by resolution of its directors or other governing body authorise such person as it thinks fit to act as its representative at any meeting of the Company or of any class of members of the Company, and the person so authorised shall be entitled to exercise the same powers on behalf of the person which he represents as that person could exercise if it were an individual member of the Company.
50. The chairman of any meeting at which a vote is cast by proxy or on behalf of any person other than an individual may call for a notarially certified copy of such proxy or authority which shall be produced within 7 days of being so requested or the votes cast by such proxy or on behalf of such person shall be disregarded.
51. Directors of the Company may attend and speak at any meeting of members of the Company and at any separate meeting of the holders of any class or series of shares in the Company.
52. An action that may be taken by the members at a meeting may also be taken by a resolution of members, representing not less than 75 percent of the votes of the shares or class or series of shares entitled to vote on resolutions of members, consented to in writing or by telex, telegram, cable, facsimile, e-mail or other written electronic communication, without the need for any notice, but if any resolution of members is agreed otherwise than by the unanimous written consent of all represented members, then said resolution shall have no standing, and shall not be adopted.

DIRECTORS

53. The members of the Board shall be divided into three classes, the classes to be as nearly equal in number as possible. The term of office of the directors of the first class shall expire at the first annual meeting of members after their election, that of the second class shall expire at the second annual meeting after their election, and that of the third class to expire at the third annual meeting after their election. At each annual general meeting of the members following the adoption of these articles, the successors to the class of directors whose term expires at that meeting shall be elected to hold office for a term expiring at the annual meeting of members held in the third year following the year of their election and until their successors have been elected and qualified.
54. The minimum number of directors shall be five and the maximum number shall be fifteen.
55. Each director shall hold office for the term, if any, fixed by resolution of members or until his earlier death, resignation or removal.
56. The members may from time to time, by affirmative vote of two-thirds (2/3) of shares entitled to vote at a general meeting of members, remove any director or directors for cause before the expiration of his or their period of office and elect any qualified person or persons in his or their stead for the balance of his or their term at a general meeting of members, of which notice specifying the intention to pass such resolution shall have been given.
57. A director may resign his office by giving written notice of his resignation to the Company and the resignation shall have effect from the date the notice is received by the Company or from such later date as may be specified in the notice.
58. The office of a director shall be vacated
 - a) if he is adjudged bankrupt;
 - b) if he becomes of unsound mind;
 - c) if he is absent from the meetings of the directors for six months without the leave of the other directors or a majority of the other directors;
 - d) if he resigns by notice in writing left at or sent to the office of the Company; or
 - e) if he becomes prohibited by law from acting as a director.
59. A vacancy in the Board of Directors may be filled by a resolution of members or by a resolution of not less than two-thirds (2/3) of the remaining directors.
60. With the prior or subsequent approval by a resolution of members, the directors may, by a resolution of directors, fix the emoluments of directors with respect to services to be rendered in any capacity to the Company.

POWERS OF DIRECTORS

61. The business and affairs of the Company shall be managed by the directors who may exercise all such powers of the Company as are noted by the Ordinance or by the Memorandum or these Articles required to be exercised by the members of the Company, subject to any delegation of such powers as may be authorised by these Articles and to such requirements as may be prescribed by a resolution of members; but no requirement made by a resolution of members shall prevail if it be inconsistent with these Articles nor shall such requirement invalidate any prior act of the directors which would have been valid if such requirement had not been made.
62. All actions taken and things done by any meeting of persons acting as a Board of Directors or by any person acting as a director shall, notwithstanding that it shall afterwards be discovered that there was some defect in the election, appointment or qualification of such Board or director, be as valid as though such defect had not obtained.
63. The directors may, by a resolution of directors, appoint any person, including a person who is a director, to be an officer or agent of the Company.
64. Every officer or agent of the Company has such powers and authority of the directors, including the power and authority to affix the Seal, as are set forth in these Articles or in the resolution of directors appointing the officer or agent, except that no officer or agent has any power or authority with respect to fixing the emoluments of directors.
65. Any director which is a body corporate may appoint any person its duly authorised representative for the purpose of representing it at meetings of the Board of Directors or with respect to unanimous written consents.
66. The continuing directors may act notwithstanding any vacancy in their body, save that if their number is reduced below the number fixed by or pursuant to these Articles as the necessary quorum for a meeting of directors, the continuing directors or director may act only for the purpose of appointing directors to fill any vacancy that has arisen for summoning a meeting of members.
67. CHORUS MOTORS PARTNERS WITH MAGNETEK FOR UNDERGROUND MINING DRIVES

Gibraltar, December 19, 2005

Chorus Motors plc (US OTC: CHOMF) has signed an agreement with Magnetek Inc. (NYSE: MAG) to develop traction drive technology for the underground mining industry. The companies plan to offer complete motor and drive systems for customers who demand the highest performance and reliability in the smallest available package.

Chorus drive and control systems offer unequalled power density in a compact AC unit, together with the ability to switch between high and low torque applications without loss of efficiency, allowing the same system to be used as a generator as well as a traction motor.

Magnetek is a market leader for drives and controls to the underground mining market. It has over 30 years experience in designing and manufacturing industrial power controllers with a range of solutions for the most severe duty equipment as well as custom designs.

"Magnetek is an excellent partner for us"; said Isaiah Cox, Chorus's President. "The underground mining market has very rigorous requirements in which reliability and performance are at a premium, and Magnetek will ensure that the products we make will meet and exceed the industry's expectations."

?The Chorus technology allows Magnetek to provide an AC motor and drive package with torque performance equal or greater than the existing Series DC controls? according to Ed Butte, Magnetek VP Product Management. ?It also provides a level of redundancy that will

allow greater up-time and throughput for our mining customers.?

The agreement provides for the development of Chorus® motors for haulage equipment, shuttle cars, and regenerative traction drives, with further products envisaged over time. Marketing, integration, sales and ongoing service and repair contracts will be handled by Magnetek.

About Chorus Motors:

Chorus Motors plc (US OTC: CHOMF) is a majority-owned subsidiary of Borealis Exploration Limited (US OTC: BOREF). Chorus has developed the proprietary Chorus® Star and Chorus® Meshcon™ electric motor technologies, which offer substantial performance improvements over comparable motor and drive systems. CHORUS MOTORS REPORTS PROGRESS IN WHEELTUG DEVELOPMENT

Gibraltar, 12 September 2005

Chorus Motors plc(US OTC: CHOMF) and WheelTug plc confirmed today that they have designed an initial version of a WheelTug™ drive that can fit within the existing nose wheel hub of a 767-class aircraft, with the goal of largely eliminating the use of tow tugs and jet engines in moving aircraft on the ground.

As announced by The Boeing Company, in a Press Release on 1 August 2005

http://www.boeing.com/news/releases/2005/q3/nr_050801a.html,

"Successful tests in June of an onboard electric motor attached to the nose wheel of a Boeing 767 have shown that it may be a viable way of powering airplanes to move in and around gates, largely eliminating the use of airport tow tugs and jet engines now serving this purpose, as well as reducing emissions."

The first significant step is to go from the proof-of-concept demonstrator as proven in the June tests, to a motor design which could approach the challenging goals of fitting entirely within existing nose gear, as well as being weight-neutral.

"The design we have gets us most of the distance of where we need to go in terms of the drive motor design itself," says Bob Carman, WheelTug's Program Manager. "There will remain a very considerable effort ahead of us with regards to refinements after performance testing, systems testing, integration, and certification, but getting the drive package the right shape and size and near the correct weight is a very

RECEIVED

OFFICE OF INTERNATIONAL
CORPORATE FINANCE

significant advance in bringing WheelTug to the product stage."

An economic analysis by WheelTug plc estimates that a typical WheelTug System would have a net present value to airlines of over \$6 million per airplane, though valuations would vary by aircraft type, utilization, and other factors. Savings are created by reduced turnaround times and lower fuel consumption, greenhouse gas emissions, ground equipment costs, damage to turbines and aircraft from foreign object debris and mishandling, maintenance costs, and noise. The analysis, which is based solely on publicly available information, can be found at <http://www.wheeltug.gi/value.php>.

While onboard electric drive motors for aircraft have been envisaged for decades, they have not been technically feasible due to the exceptionally high power density required. The Chorus Motor, which recently became available, delivers this exceptionally high power density. WheelTug plc, under its license from Chorus Motors, owns exclusive rights to this drive technology and control systems for aerospace applications.

The development of the WheelTug system thus far has been funded entirely by Chorus Motors, but in order to ensure rapid development, Chorus is now considering the sale of a substantial equity interest in WheelTug plc. Funds would be applied to final development and FAA certification process for the WheelTug system. No decision on such an equity placement has yet been made.

Chorus Motors plc (US OTC: CHOMF), a developer of proprietary electric motor technologies, is a subsidiary of Borealis Exploration Limited (US OTC: BOREF). The Chorus systems produce high torque at start-up speeds and can be used in applications in aircraft, automobiles, trucks, locomotives, and ships. A wholly-owned subsidiary of Chorus Motors plc, WheelTug plc, has been assigned rights for aerospace applications of the Chorus family of motor technologies. Boeing Demonstrates New Technology for Moving Airplanes on the Ground

SEATTLE, Aug. 01, 2005 -- The Boeing Company [NYSE: BA] and Chorus Motors have demonstrated an exploratory technology that could lead to a more efficient way of moving airplanes when they are on the ground at airports.

Successful tests in June of an onboard electric motor attached to the nose wheel of a Boeing 767 have shown that it may be a viable way of powering airplanes to move in and around gates, largely eliminating the use of airport tow tugs and jet engines now serving this purpose, as well as reducing emissions:

"We are striving to help our aerospace customers operate more efficiently, cleanly and quietly at airports," said Jim Renton, a director of Technology Integration in Boeing Phantom Works, the company's advanced research and development unit. "Our testing has shown that onboard electric motors can be very useful in achieving that goal if packaging, weight and flight-related technical issues identified during these tests can be resolved."

"We believe onboard electric motors have a great many advantages," added Bob Carman, Chorus Motors' WheelTug™ program manager. "They could reduce the need for ground tugs and their associated costs, allow faster flight turnarounds and increased fuel efficiency per trip, and reduce airplane noise and emissions at airports, to name just a few advantages."

Phantom Works researchers, together with those from Chorus Motors, a developer of innovative electric motor technologies, have worked together this year to design, build and operate a prototype onboard electric drive system that may enable pilots of large airplanes to be in complete control of their airplanes from gate to gate.

In June, the Phantom Works/Chorus Motors team, in cooperation with Air Canada, installed an electric motor drive on an Air Canada 767 and conducted a series of successful tests. Air Canada pilots performed ground maneuvers on slopes and terrains typical of those at airports around the world, including driving in reverse from a gate and taxiing forward to a runway. Tests also were performed at ramp temperatures exceeding 120 degrees Fahrenheit and at loads of up to 94 percent of the maximum takeoff weight for the airplane.

"Powered nose wheels have very positive benefits and I am quite impressed with the potential of the electric motor technology," said Capt. Hugh Campbell, director of Pilot Qualifications at Air Canada, who participated in the testing with Air Canada's chief 767 pilot, Capt. Richard Burke.

Next steps involve working to successfully resolve the technical issues that surfaced during the tests in order to define a path for commercial system installation.

Boeing Phantom Works is the advanced R&D unit of The Boeing Company. As an element of Boeing Technology, it provides advanced system solutions and innovative, breakthrough technologies that reduce cycle time and cost while improving the quality and performance of aerospace products and services. In addition to its own development work, Phantom Works collaborates with universities, companies, and organizations around the globe to ensure it is finding the best technology solutions the world has to offer.

Chorus Motors plc (US OTC: CHOMF), a developer of proprietary electric motor technologies, is a subsidiary of Borealis Exploration Limited (US OTC: BOREF). The Chorus systems produce high torque at start-up speeds and can be used in applications in aircraft, automobiles, trucks, locomotives, and ships. A wholly-owned subsidiary of Chorus Motors plc, WheelTug plc, has been assigned rights for aerospace applications of the Chorus family of motor technologies.
