[Qualitative Information on Progress in Business Results (Consolidated)]

Japan's economy during the first quarter of the consolidated fiscal year continued to show signs of a steady recovery overall, with rising corporate investment against a backdrop of high corporate earnings and firm personal consumption reflecting a bounceback in employment and wages. Nevertheless, the business environment in which the Group operated was severe, with the government moving toward regulated interest rates and revising relevant laws and the consumer financing industry as a whole suffering from a negative image fostered by newspaper and media coverage. These prompted great concern among customers, shareholders, and other parties concerned. The Group will continue to ensure thorough compliance with all laws and regulations and will respond appropriately to revisions in the laws and to other changes in the business environment.

In this consolidated fiscal year, active business efforts were made both in Japan and overseas while implementing the basic policies of firmly inculcating business ethics (compliance), expanding the scope of business and enhancing revenue bases by marshalling the Group's full capabilities, increasing the scale of business by strengthening sales service competitiveness, improving cost competitiveness by implementing operational reforms, and training professional personnel.

For the first quarter of the consolidated fiscal year, operating income was 108,587 million yen (down 1.7% year-on-year), income before extraordinary items 17,875 million yen (down 59.6% year-on-year), and quarterly net income 10,698 million yen (down 58.5% year-on-year). The principal factor behind this decline in income was the substantial rise in interest repayment related expenses and bad debt related expenses arising from interest repayment in the Company's loan business vis-à-vis the first quarter of the previous fiscal year.

(2) Consolidated Financial Status

3/06 (Annual)	100,226	(44,973)	(104,389)	97,399

[Qualitative Information on Changes in Financial Position (Consolidated)]

Total assets for the first quarter were down by 61,961 million yen and net assets down by 15,810 million yen from the end of the preceding consolidated fiscal year, with the ratio of shareholders' equity up 0.6 points to 44.6%.

Current assets fell by 35,244 million yen and fixed assets dropped by 26,717 million yen, the primary factors for the fall in current assets being payments for redemptions of straight bonds (10,000 million yen), an increase in the allowance for bad debts (9,374 million yen), a decrease in the installment receivable balance (7,852 million yen), and a decrease in short-term loans (5,453 million yen); the drop in fixed assets was principally due to a decrease in investment securities (25,872 million yen).

Liabilities saw a 46,151 million yen decline from the end of the previous consolidated accounting year attributable to a decrease in interest-bearing debt of 13,836 million yen, a decrease in accrued income tax of 21,412 million yen, and a decrease in deferred tax liability of 10,044 million yen.

(Cash Flows)

Cash and cash equivalents at the end of the first quarter (hereinafter collectively referred to as "cash") dropped by 1,066 million yen from the end of the previous consolidated fiscal year to stand at 96,332 million yen.

Cash flow from operating activities showed an increase of 15,166 million yen. Quarterly net income before taxes was 17,917 million yen and the allowance for bad debt rose by 8,991 million yen; cash was boosted by a decline in the installment receivable balance (8,909 million yen) and a decline in loans outstanding (3,314 million yen) but diminished by the payment of income taxes (25,822 million yen).

Cash flow due to investment activities increased by 626 million yen, primarily due to the acquisition and sale of investment securities exceeding 602 million yen.

Cash flow from financing activities fell by 16,897 million yen, primarily due to a 15,995 million yen decline in cash from the assumption of interest-bearing debts and repayment expenditures, despite increases from dividend payments (10,905 million yen) and payments for straight bond redemptions (10,000 million yen).
