Report of Independent Registered Public Accounting Firm

The Participants and the Employee Benefits Committee
The Clorox Company 401(k) Plan

We have audited the accompanying statements of net assets available for benefits of The Clorox Company 401(k) Plan as of June 30, 2007 and 2006, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at June 30, 2007 and 2006, and the changes in its net assets available for benefits for the years then ended, in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedule of assets (held at end of year) as of June 30, 2007, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

The Clorox Company 401(k) Plan

Notes to Financial Statements

June 30, 2007

1. Description of the Plan

The following description of The Clorox Company 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of The Clorox Company (the "Company") and its affiliated companies that have adopted the Plan. The following employees are not covered by the Plan: (i) leased employees, (ii) nonresident aliens with no United States source of income, and (iii) employees covered by a collective bargaining agreement, unless such coverage is specified in the written agreement. Participants are eligible to participate on the first day of employment following completion of one hour of service with the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Effective April 29, 2002, the Company established a nonleveraged employee stock ownership plan (the "ESOP") within the meaning of the Internal Revenue Code (the "Code") Section 4975(e)(7). The ESOP is maintained as part of the Plan and is designed to invest primarily in the Company's common stock. If elected, the employees can receive stock dividends paid directly to them in cash.

Effective January 1, 2007, the non-ESOP fund merged into the ESOP fund. In addition, no participant shall be permitted to direct more than 10% of the contributions to be made to the Plan on his or her behalf be invested in the ESOP fund; and no Participant shall be permitted to effect a transfer or exchange from another investment fund into the ESOP fund if the portion of the Participant's account invested in the ESOP fund would exceed 10% of his or her account balance immediately after such transfer or exchange.

The Employee Benefits Committee (the "Committee") administers the Plan. T. Rowe Price Trust Company ("T. Rowe Price") is the trustee and recordkeeper of the Plan.

The Clorox Company 401(k) Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Contributions

Participants may contribute from 1% to 25% of their compensation, on a pre-tax and after-tax basis (the combined pre-tax and after-tax cannot exceed 25%), as defined in the Plan. Participant contributions are subject to limits specified under the Code.

Eligible new participants that do not make a salary deferral contribution election, or fail to elect to decline contribution, are automatically enrolled in the Plan at a 5% contribution rate (4% in fiscal year ended June 30, 2006). Effective January 1, 2007, all participants with a contribution rate of less than 10% will have an automatic annual percentage increase of 1% unless another annual percentage is elected or the automatic election is declined.

The Company matches 100% of eligible participants' pre-tax contributions, up to a maximum of \$1,000 per participant per plan year. A participant's after-tax contributions are also matched by the Company; however, total matching contributions may not exceed \$1,000 during any plan year. Participants are eligible for the Company matching contribution after completing one year of service.

Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company may make a Value Sharing contribution (a profit sharing component of the Plan) in an amount determined by the Company based on the Company's performance. In 2007 and 2006, the Company approved Value Sharing contributions of 7.00% and 7.49%, respectively, of eligible compensation. The Company Value Sharing contributions were allocated to the accounts of eligible participants in the same proportion that each eligible participant's compensation bears to the total compensation of all eligible participants. For fully vested participants, amounts in excess of 7% of compensation were paid in cash or remitted as contributions to The Clorox Company Nonqualified Deferred Compensation Plan for certain highly compensated employees. For nonvested participants, the amounts in excess of 7% were deposited into their Value Sharing contribution accounts. Participants who have completed one year of service and are employed on the last day of the plan year are eligible to receive the Value Sharing contribution. Union participants are not eligible for the Value Sharing contribution, except for union employees at the Jackson facility.

The Clorox Company 401(k) Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Investment Options

Participants direct the investment of their contributions and the Company contributions into the various investment options offered by the Plan. The Plan offers investments in the Company's common stock, mutual funds, a common collective trust fund, and a money market fund. Participants are also allowed to direct their contributions to Tradelink Investments, a self-directed brokerage account which permits investments in additional mutual funds, common stocks, and other investment products.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of: (a) Company matching and Value Sharing contributions and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined in the Plan. At the discretion of the Committee, forfeited balances of terminated participants' nonvested accounts may be used to pay the Plan's expenses, to reduce the Company's contributions to the Plan, or to restore accounts of previously terminated participants who subsequently resumed employment with the Company. The amounts of unallocated forfeitures related to nonvested accounts at June 30, 2007 and 2006 are \$1,278,377 and \$851,616, respectively. During 2007 and 2006, the Company used \$1,177,051 and \$755,783, respectively, of forfeitures to reduce the Company contributions.

Vesting

Participants are always fully vested in their individual contributions, Company matching contributions, and actual earnings thereon. During the 2007 and 2006 plan years, participants' vested interest in the Value Sharing contribution was determined according to the following schedule:

<u>Years of Service</u>	<u>Percentage</u>
Less than 3	0%
3	34%
4	66%
5	100%

The Clorox Company 401(k) Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

In October 2007, the Committee adopted an amendment to the Plan containing a provision effective July 1, 2007 that changes the vesting schedule for the Value Sharing contributions of a participant. The Value Sharing contribution account of a participant who has an hour service on or after July 1, 2007 will vest in accordance with the following schedule:

<u>Years of Service</u>	<u>Percentage</u>
1	0%
2	20%
3	40%
4	66%
5	100%

Participants become immediately vested in the Value Sharing contribution upon reaching age 60, at death, or upon permanent disability.

Participant Loans

Participants may borrow a minimum of \$1,000 from their fund accounts up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from 1 to 5 years, or up to 15 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a fixed rate (prime plus 1%) determined at the time of the loan. Principal and accrued interest are repaid ratably through payroll deductions.

Payment of Benefits

The Plan provides for lump-sum distributions of the vested value of a participant's account at death, upon permanent disability, or upon termination of employment. The Plan also provides for installment distributions in limited instances as allowed by the Plan. Hardship and other in-service withdrawals are permitted if certain criteria are met.

The Clorox Company 401(k) Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Administrative Expenses

The Company pays substantially all administrative expenses except for loan origination and maintenance fees, which are deducted from the participant's account.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, participants will become 100% vested in their accounts.

2. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. The shares of mutual funds are valued at quoted market prices, which represent the net asset values of shares held by the Plan at year-end. The money market fund is valued at historical cost plus accrued interest, which approximates fair value. Common stock, including the Company's common stock, is traded on a national securities exchange and is valued at the last reported sales price on the last business day of the plan year. Participation units in the common collective trust fund are valued at a unit price determined by the portfolio's sponsor based on the fair value of underlying assets held by the common collective trust fund. The participant loans are valued at their outstanding balances, which approximate fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The Clorox Company 401(k) Plan

Notes to Financial Statements (continued)

2. Summary of Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan's management to make estimates that affect the amounts reported in the financial statements and accompanying footnotes. Actual results could differ from those estimates.

Risk and Uncertainties

The Plan provides for various investment options in common stocks, mutual funds, a common collective trust fund, and a money market fund. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and participant account balances.

New Accounting Pronouncement

In December 2005, the Financial Accounting Standards Board ("FASB") issued FASB Staff Position AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the "FSP"). The FSP defines the circumstances in which an investment contract is considered fully benefit responsive and provides certain reporting and disclosure requirements for fully benefit responsive investment contracts in defined contribution health and welfare and pension plans. Under such circumstances, fully benefit-responsive investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value, which represents contributions under the contract plus interest credited at contract rates less withdrawals and administrative expenses, is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The financial statement presentation and disclosure provisions of the FSP are effective for financial statements issued for annual periods ending after December 15, 2006 and are required to be applied retroactively to all prior periods presented for comparative purposes. The Plan has adopted the provisions of the FSP at July 1, 2006.

The Clorox Company 401(k) Plan

Notes to Financial Statements (continued)

2. Summary of Accounting Policies (continued)

New Accounting Pronouncement (continued)

Beginning in the fiscal year ended June 30, 2007, the Plan invested in investment contracts through participation in the T. Rowe Price Stable Value Fund ("Stable Value fund"), a common collective trust fund. Upon adoption of the FSP, the Plan recorded its investment in the Stable Value fund at fair value and recorded an adjustment for the portion of the Stable Value fund related to the fully benefit responsive investment contracts from fair value to contract value of \$1,042,860 as of June 30, 2007, in the accompanying statements of net assets available for benefits.

3. Investments

The Plan's investments (including investments purchased, sold, and held during the year) appreciated in fair value as determined by quoted market prices as follows:

	<u>Fiscal Year Ended June 30,</u>	
	<u>2007</u>	<u>2006</u>
Common stock	\$ 3,129,891	\$ 11,772,316
Mutual funds	56,693,982	28,172,484
Net appreciation in fair value	<u>\$ 59,823,873</u>	<u>\$ 39,944,800</u>

The fair value of individual investments that represent 5% or more of the fair value of the Plan's net assets are as follows:

	<u>June 30,</u>	
	<u>2007</u>	<u>2006</u>
The Clorox Company Common Stock	\$ 107,714,377	\$ 121,840,550
Dodge & Cox Balanced Fund	105,915,341	88,171,329
T. Rowe Price Mid-Cap Growth Fund	74,194,511	65,839,296
American Funds Europacific Growth Fund	67,342,360	48,155,942
T. Rowe Price Growth Stock Fund	66,187,381	53,515,450
T. Rowe Price Stable Value Fund	62,520,218	-
Vanguard Institutional Index Fund	53,791,747	47,543,965
T. Rowe Price Small Cap Value Fund	39,750,559	35,364,794
Vanguard Intermediate Term Bond Index Fund	37,317,671	36,369,661
Federated Prime Obligation Money Market Fund	-	69,115,641

The Clorox Company 401(k) Plan

Notes to Financial Statements (continued)

4. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (the "IRS") dated October 20, 2003, stating that the Plan is qualified under Section 401(a) of the Code, and therefore the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Company has indicated that it will take the necessary steps, if any, to maintain the Plan's operations into compliance with the Code.

5. Party-in-Interest Transactions

Transactions in shares of the Company's common stock qualify as party-in-interest transactions under the provisions of ERISA. During 2007 and 2006, the Plan made purchases of \$38,428,420 and \$32,895,357, respectively, and sales of \$57,923,897 and \$60,641,537, respectively, of the Company's common stock.

Certain plan investments are shares of mutual funds and participation units of a common collective trust fund managed by T. Rowe Price. Consequently, transactions with T. Rowe Price qualify as party-in-interest transactions.

6. Reconciliation of Financial Statements to Form 5500

The Company will report the Plan's investment in the common collective trust at fair market value on its Form 5500. As a result, the following is a reconciliation of the Statement of Net Assets Available for Benefits per the financial statements at June 30, 2007 to the Statement of Net Assets Available for Benefits expected to be reported in the Plan's Form 5500:

	<u>June 2007</u>
Net assets available for benefits per the financial statements	\$ 719,766,228
Adjustment from contract value to fair value for interest in common collective trust related to fully benefit-responsive investment contracts	<u>(1,042,860)</u>
Net assets available for benefits per the Form 5500	<u>\$ 718,723,368</u>

The Clorox Company 401(k) Plan

Notes to Financial Statements (continued)

6. Reconciliation of Financial Statements to Form 5500 (continued)

The Company will report the Plan's investment in the common collective trust at fair market value on its Form 5500. As a result, the following is a reconciliation of the Statement of Changes in Net Assets Available for Benefits per the financial statements at June 30, 2007 to the Statement of Changes in Net Assets Available for Benefits expected to be reported in the Plan's Form 5500:

Total investment income per the financial statements	\$ 89,892,273
Adjustment from contract value to fair value for interest in a common collective trust related to fully benefit-responsive investment contracts	<u>(1,042,860)</u>
Total investment income per the Form 5500	<u>\$ 88,849,413</u>
