The Purchaser shall not be entitled to claim that any fact, matter or circumstances gives rise to a claim under or in respect of the Warranties, to the extent that the fact, matter or circumstance which might result in a claim or possible claim were taken into account by the Purchaser in calculating the consideration referred to in clause 3 (Consideration).

If any breach of the Tax Warranties gives rise to a liability to taxation, the Seller shall not be liable to the Purchaser in respect of that breach of the Tax Warranties to the extent that any of the circumstances set out in clause 3 of the Tax Covenant would have applied in respect of that liability to taxation had it been a Tax Liability (as defined in the Tax Covenant).

- (c) enter into an approved withdrawal arrangement complying with Schedule 1A to the Employer Debt Regulations under which the Seller procures payment of Amount A (as determined in accordance with Regulation 7A of the Employer Debt Regulations) and the Seller or a member of the Seller's Group is the guarantor (as referred to in Regulation 7(4) of the Employer Debt Regulations) liable to pay Amount B (as determined in accordance with Regulation 7B of the Employer Debt Regulations); and/or
- (d) enter into such other arrangements pursuant to the Employer Debt Regulations as they may be amended from time to time in order to reduce, eliminate or otherwise mitigate the effect of the Section 75 Debt subject to compliance with applicable law.

- (ii) the amount in respect of Tax required by law to be deducted or withheld from, and the Tax chargeable on, the amount payable pursuant to such Payment Obligation,

(A) Actuaries to be instructed

Immediately after the Completion Date the Seller and the Purchaser shall respectively instruct the Seller's Actuary and the Purchaser's Actuary to consult with a view to the Seller's Actuary determining and the Purchaser's Actuary agreeing the Pension Liabilities within 90 days after the Completion Date.

5. Payment of Transfer Amount

(A) Seller's obligations conditional upon Purchaser's obligations being duly performed

The Seller's obligations in this paragraph 5 are conditional upon the Purchaser's obligations in paragraphs 2 and 3 being duly performed before the Payment Date.

(B) Seller to procure payment of Transfer Amount on the Payment Date by the Seller's Scheme Trustees

- (i) Subject to paragraph 5(A), the Seller shall use its reasonable endeavours to procure that on the Payment Date, or such other date as the Seller and the Purchaser may agree, the Seller's Scheme (to the extent that it can lawfully make such payment) shall pay the Transfer Amount to the Purchaser's Scheme.
- (ii) The payment of the Transfer Amount shall be satisfied by the transfer of a reasonable cross-section of the assets of the Seller's Scheme (as agreed by the Seller's Scheme and the Purchaser's Scheme) having a mid-market value on the day before the Payment Date equal to the Transfer Amount.
- (iii) If the Seller's Scheme and the Purchaser's Scheme are unable to agree some or all of the particular assets to be transferred or the mid-market value of any such assets, the payment of the Transfer Amount (or the appropriate part of it) shall be satisfied by the Seller's Scheme transferring cash equal in value to that part of the Transfer Amount in respect of which there has been no agreement as to the assets to be transferred less a deduction to reflect dealing costs and advisers' fees.

(C) Shortfall

- (i) Subject to paragraph 5(A), if the amount which has been actually transferred (if any) by the Seller's Scheme to the Purchaser's Scheme on or before the Payment Date in respect of the Transferring Employees is less (other than by the application of the final sentence of paragraph 5(B)) than the Transfer Amount, then the Seller shall pay to the Purchaser within 20 Business Days after the Payment Date, so far as possible by way of repayment of the consideration payable for the Shares pursuant to this agreement, a cash sum in pounds sterling calculated according to the formula:

where:

- A = the Transfer Amount in pounds sterling;

- C = the amount representing interest at the Agreed Rate on an amount equal to A - B for the period from and including the Payment Date to and excluding the date on which payment is made under this paragraph;
- D = the percentage rate of corporation tax (the full rate, not the small companies rate) in force at the date on which payment is made under this paragraph (ignoring any subsequent retrospective alteration to that percentage rate).

and the Purchaser shall then promptly pay to the Purchaser's Scheme a sum in cash equal to the Gross Shortfall.

The amount of the Gross Shortfall shall be determined by the Seller's Actuary and agreed by the Purchaser's Actuary or, in default of agreement, be determined under paragraph 8.

In this paragraph 6, the expression "Voluntary Fund" means a fund comprising those *voluntary contributions, or the investments or moneys representing them and any income derived from them*, in respect of which the entitlements of the members who have paid them are not related to earnings (however defined) but are based on the respective parts of such Voluntary Fund which are attributable to them.

(B) Voluntary Fund to be disregarded for calculations

Notwithstanding the preceding provisions of this Schedule, if within the Seller's Scheme there is a Voluntary Fund, the Voluntary Fund, the benefits payable from it, the contributions payable to it and any transfer payment made from it shall be disregarded for all the preceding provisions of this Schedule.

In quantifying any liability, damage, cost, claim or expense which either party may incur or sustain arising out of or in connection with the breach by the other of any of the provisions of this Schedule, the parties agree that the Actuarial Assumptions shall be applied as nearly as may be and in default of agreement as to how they should apply, the disagreement shall be resolved in accordance with paragraph 8.

11. Third Party Rights

- (A) Certain of the provisions of this Schedule 7 confer a benefit on the persons specifically referred to in that provision (each a "Third Party") and, subject to paragraph 11(B), are intended to be enforceable by each Third Party by virtue of the Contracts (Rights of Third Parties) Act 1999.

Date

Dear

This is the Actuary's Letter referred to in Schedule 7 (Pensions) of the Sale Purchase Agreement in relation to the sale and purchase of shares in United Utilities Electricity Limited (the "Schedule").

This letter and its attaching appendices set out the method of determination of the Transfer Amounts referred to in Parts 1 and 3 of the Schedule. In this letter the terms Completion Date, Seller's Scheme, Transferring Employees, Payment Date, Transfer Amount and Actuarial Assumptions, have the meanings ascribed to them in Part 1 of the Schedule. In this letter the terms Commencement Date, Transferor Scheme, UUES Transferring Employees, Payment Date and Transfer Amount, have the meanings ascribed to them in Part 3 of the Schedule.

Return Ticket Members

For the avoidance of doubt, when this letter is used in relation to Part 3 of the Schedule then may not be appropriate to interpret some of the terms exactly in line with their definitions and in this case the Purchaser's Actuary and the Seller's Actuary shall agree appropriate definitions relevant terms after taking into account the original intention of Part 3 of the Schedule. If agreement cannot be reached then the normal dispute process as set out in Paragraph 6 of Part 3 of the Schedule will apply. In any event, when this letter is used in relation to Part 3 of the Schedule then terms referred to in this Actuary's letter should be replaced as follows:

- Completion Date should be replaced with Commencement Date.
- Seller's Scheme should be replaced with Transferor Scheme.
- Transferring Employees should be replaced with UUES Transferring Employees.
- Payment Date should be as defined in Part 3 of the Schedule (and not Part 1).
- Transfer Amount should be as defined in Part 3 of the Schedule (and not Part 1).

Pension Liabilities

These shall be determined as the actuarial value (calculated in accordance with the Actuarial Assumptions) at the Completion Date of the aggregate of the benefits, whether prospectively or contingently payable under the Seller's Scheme including the spouse's pension payable on death in service to or in respect of each of the Transferring Employees by reference to his Pensionable Service credited under the Seller's Scheme before the Completion Date. For the purpose of the calculation of the Transfer Amount, benefits are those applying prior to the Completion Date and do not allow for any future changes to benefits after the Completion Date. Benefits exclude lump sum payments on death in service but the value of a return of a member's contributions will be included in the value of Pension Liabilities where this benefit applies.

Pension Liabilities include an allowance on the basis of the Actuarial Assumptions for projected increases in the rate of Pensionable Earnings of each of the Transferring Employees from the Completion Date to Normal Pension Age under the Seller's Scheme or the assumed date of earlier death, withdrawal or retirement (ill-health and/or early and normal) and for increases in pensions when in payment and in deferred benefits before they come into payment.

For the avoidance of doubt:

1. when calculating the Pension Liabilities, no element of prospective or notional Pensionable Service after the date of calculation will be included in any event;
2. when calculating the Pension Liabilities, no allowance will be included for the enhanced terms available on severance;
3. the calculation of Pension Liabilities for active members who have worked, or currently work part time will be calculated using full time equivalent Pensionable Earnings and the proportion of full time hours actually worked;
4. when calculating Pension Liabilities no allowance for equalisation of GMPs will be included and
5. terms that are not defined in this Actuary's Letter or the Schedule are as defined in the trust deed of the Seller's Scheme effective immediately prior to the Completion Date.
6. any disputes regarding this letter will be resolved via paragraph 8 of Part 1 of the Schedule 7 or paragraph 6 of Part 3 of the Schedule 7 (as the case may be).

The Actuarial Assumptions and other relevant details to be used in the calculation of the Pension Liabilities are described in Appendix A and Appendix B respectively.

Timing Adjustment

The Timing Adjustment referred to in Part 1 of the Schedule will be equal to the factor $(1+r_1) \times (1+r_2) \times (1+r_3)$ and the Timing Adjustment referred to in Part 3 of the Schedule will be equal to the factor $(1+r_4)$ where:

r1 is the return on the notional portfolio set out below between close of business on the work day immediately preceding the day following the Completion Date and the close of business the quarter end following the Completion Date.

r2 is the actual investment return calculated for the funds of the Seller's Scheme during the period between the close of business on the quarter end following the Completion Date and the close of business on the most recent quarter end where the actual investment return information is available (assessed at the Payment Date).

r3 is the return on the notional portfolio set out below between close of business on the most recent quarter end where the actual investment return information is available (assessed at the Payment Date) and the close of business on the working day immediately preceding the Payment Date.

r4 is the return on the notional portfolio set out below between close of business on the work day immediately preceding the day following the Commencement Date and the close of business on the working day immediately preceding the Payment Date.

- 35% in the FTSE Actuaries All Share Index (total return);
- 35% in the FTSE World Ex UK Sterling Index (total return);
- 20% in the FTSE Actuaries over 15 years All Coupon Gilts Index (total return); and
- 10% in the iBoxx AA corporate bond over 15 years Index (total return).

- 19) Cash taken at retirement by Commutation
- No allowance
- 20) Normal pension age
- As defined in scheme rules.
- 21) Age definition
- Calculations will be performed allowing for the exact age of each Transferring Employee at the Completion Date to years and days.
- 22) Final pensionable earnings
- Final pensionable earnings will be calculated at the Completion Date and increased to the assumed date of retirement/withdrawal/death in line with the salary increase assumptions outlined above.

23) Guarantee at retirement

Allowance will be made for a 5 year guarantee of pension payments (where applicable).

Note 1: For the avoidance of doubt additions and deductions to/from rates of return are arithmetic. For example an addition of 1% per annum to a rate of 7% per annum as calculated is 8% per annum. A deduction of 1% per annum from 7% per annum is 6% per annum.

Appendix B – Calculation details

Decrement treatment

The rates of decrement of mortality, withdrawal, and retirement (ill-health and/or early and normal) shown or described in this letter are independent rates of decrement. A multiple decrement table is used to determine the probability of surviving to a particular age and of leaving Pensionable Service during that year of age by the relevant decrement. The probabilities of leaving Pensionable Service under each decrement at each time of assumed exit together with the probability of surviving to the time of assumed exit are to be applied to that portion of the value of the total benefit (whether prospective or contingent), applicable to or in respect of the Transferring Employee under the Seller's Scheme assuming he leaves Pensionable Service in the manner of and at the time of the applicable decrement. The portion of the value of the total benefit is that accrued in respect of Pensionable Service up to and including the Completion Date on the assumption that his Pensionable Earnings are increased in line with the Actuarial Assumptions up to the time of assumed exit under the applicable decrement. This gives a benefit/decrement product at each time of assumed exit and under each decrement.

The actuarial value of the Pension Liabilities for a Transferring Employee is the sum of all such benefit/decrement products after each benefit/decrement product has first been discounted at the valuation interest rate back to the Completion Date from the time of assumed exit under the applicable decrement.

Treatment of benefits with prospective element or benefits that do not accrue with service

For the avoidance of doubt in calculating the accrued benefits, no element of prospective or notional Pensionable Service after the Completion Date is to be included in any event. For example, the ill health pension is to be taken as the member's accrued pension based on Pensionable Service completed to the Completion Date and salaries for pensionable purposes immediately prior to the Completion Date (allowing for increases in salaries after that date in accordance with the assumptions below).

The amount of cash taken at retirement by commutation will be $0.8 \times C$ where C is defined by the following formula:

For the WPS and Defined Benefit sections

$$C = \frac{P}{0.15 + (1/CF)}$$

and for the MIS and LGPS sections

$$C = \frac{11P}{3 + (20/CF)}$$

Where

P is the initial rate of pension at retirement before commutation;

CF is the commutation factor applicable to each member as defined above.

21) Normal pension age

As defined in scheme rules.

22) Age definition

Calculations will be performed allowing for the exact age of each Transferring Employee at the Completion Date to years and days.

Final pensionable earnings will be calculated at the Completion Date and increased to the assumed date of retirement/withdrawal/death in line with the salary increase assumptions outlined above.

24) Guarantee at retirement

Note 1: For the avoidance of doubt additions and deductions to/from rates of return are arithmetic. For example an addition of 1% per annum to a rate of 7% per annum as calculated is 8% per annum. A deduction of 1% per annum from 7% per annum is 6% per annum.

Appendix B – Calculation details

Decrement treatment

The rates of decrement of mortality, withdrawal, and retirement (ill-health and/or early and normal), shown or described in this letter are independent rates of decrement. A multiple decrement table is used to determine the probability of surviving to a particular age and of leaving Pensionable Service during that year of age by the relevant decrement. The probabilities of leaving Pensionable Service under each decrement at each time of assumed exit together with the probability of surviving to the time of assumed exit are to be applied to that portion of the value of the total benefit (whether prospective or contingent), applicable to or in respect of the Transferring Employee under the Seller's Scheme assuming he leaves Pensionable Service in the manner of and at the time of the applicable decrement. The portion of the value of the total benefit is that accrued in respect of Pensionable Service up to and including the Completion Date on the assumption that his Pensionable Earnings are increased in line with the Actuarial Assumptions up to the time of assumed exit under the applicable decrement. This gives a benefit/decrement product at each time of assumed exit and under each decrement.

The actuarial value of the Pension Liabilities for a Transferring Employee is the sum of all such benefit/decrement products after each benefit/decrement product has first been discounted at the valuation interest rate back to the Completion Date from the time of assumed exit under the applicable decrement.

Treatment of benefits with prospective element or benefits that do not accrue with service

For the avoidance of doubt in calculating the accrued benefits, no element of prospective or notional Pensionable Service after the Completion Date is to be included in any event. For example, the ill health pension is to be taken as the member's accrued pension based on Pensionable Service completed to the Completion Date and salaries for pensionable purposes immediately prior to the Completion Date (allowing for increases in salaries after that date in accordance with the assumptions below).

Withdrawal benefits

In the event of assumed withdrawal from active service a deferred pension is valued equal to the portion of the value of the total benefit rather than a refund of the member's own contributions.

Our ref: LICJV003 UU Group of the ESPS actuary's letter edge

Subject:

United Utilities Group of the Electricity Supply Pension Scheme (the "ESPS")

Dear Richard

This is the Actuary's Letter referred to in Schedule 7 (Pensions) of the Agreement between VTX Bidco Limited and United Utilities PLC (the "Schedule").

This letter and its attaching appendices set out the method of determination of the Transfer Amount referred to in the above mentioned Schedule. In this letter the terms Completion Date, Seller's Scheme, Transferring Members and Actuarial Assumptions have the meanings ascribed to them under the above mentioned Schedule.

Pension Liabilities

These shall be determined as the actuarial value (calculated in accordance with the Actuarial Assumptions) at the Completion Date of the aggregate of the benefits, whether prospective or contingent payable under the Seller's Scheme including the spouse's pension payable on death in service to or in respect of each of the Transferring Members by reference to his Pensionable Service credited under the Seller's Scheme before the Completion Date. For the purpose of the calculation of the Transfer Amount, benefits are those applying prior to the Completion Date and do not allow for any future changes to benefits after the Completion Date. Benefits exclude lump sum payments on death in service but the value of a return of a member's contributions will be included in the value of Pension Liabilities where this benefit applies.

Pension Liabilities includes an allowance on the basis of the Actuarial Assumptions for projected increases in the rate of Pensionable Earnings of each of the Transferring Members from the Completion Date to Normal Pension Age under the Seller's Scheme or the assumed date of earlier death, withdrawal or retirement (ill-health and/or early and normal) and for increases in pensions when in payment and in deferred benefits before they come into payment.

For the avoidance of doubt:

- 1) when calculating Pension Liabilities, no element of prospective or notional Pensionable Service after the date of calculation will be included in any event;
- 2) when calculating Pension Liabilities, no allowance will be included for the enhanced terms available on severance;
- 3) when calculating Pension Liabilities, no allowance will be made for the rounding up of pensionable service provisions that apply within the ESPS;
- 4) Transferring Members is as defined in the Schedule and includes all active members within ESPS associated with the Company;
- 5) the value of Pension Liabilities will include the value of any Back Service Credits, Scheme Service Credits and added years AVCs accrued to Completion Date. Any money purchase AVCs are in addition to Pension Liabilities;
- 6) the calculation of Pension Liabilities for active members who have worked, or currently work, part time will be calculated using full time equivalent Pensionable Earnings and the proportion of full time hours actually worked;
- 7) when calculating Pension Liabilities, no allowance for equalisation of GMPs will be included; and
- 8) terms that are not defined in this Actuary's Letter or the Schedule are as defined in the clauses and rules of the ESPS.

The Actuarial Assumptions and other relevant details to be used in the calculation of the Pension Liabilities are described in Appendix A and Appendix B respectively.

Transfer Amount

The Transfer Amount means the sum of the Pension Liabilities in respect of each of the Transferring Members.

The Transfer Amount will be adjusted from the Completion Date up to the Payment Date by multiplication by the Timing Adjustment.

Timing Adjustment

The Timing Adjustment will be equal to the factor $(1+r)^t$ where:

r1 is the return on the notional portfolio set out below between close of business on the working day immediately preceding the day following the Completion Date and the close of business on the working day immediately preceding the Payment Date.

100% in the iBoxx AA corporate bond over 15 years Index (total return).

Yours sincerely

Appendix A – Actuarial Assumptions

Set out below are the Actuarial Assumptions to be used to determine the Transfer Amount referred to in the Actuary's Letter dated 13 January 2007. All decrements are independent rates.

- 1) Rate of interest
The gross annualised redemption yield at close of business on the last working day immediately preceding the day following the Completion Date on the iBoxx AA corporate bond over 15 years index.
- 2) Rate of price inflation
The rate of price inflation is calculated as $100 \times [(100 + N) / (100 + R) - 1.001]$ where N is the gross annualised redemption yield on the FTSE UK Gilts 20 year fixed interest index, and R is expressed as a percentage and derived by interpolation to obtain inflation 3% of the inflation 0% and the inflation 5% annualised real yields to redemption on the FTSE Actuaries UK Gilts index-linked over 5 years real yield indices at close of business on the last working day immediately preceding the day following the Completion Date.
- 3) Rate of inflationary salary increase to retirement, earlier death or withdrawal
Assumed rate of price inflation plus 1.0% per annum compound (see Note 1)
- 4) Rate of future Section 148 increase to retirement, earlier death or withdrawal
Assumed rate of price inflation plus 1.0% per annum compound (see Note 1)
- 5) Promotional scale (in addition to inflationary salary increases)
In accordance with the table in Appendix B
- 6) Rate of increase in Section 52A Orders
In line with the assumed rate of price inflation
- 7) Rate of annual increase of pension in payment in excess of the GMP in payment
In line with the assumed rate of price inflation.
- 8) Independent withdrawal rates
In accordance with the table in Appendix B

- 9) Independent rates of ill-health retirement from active service
Males: LG59/60 MO
Females: LG59/60 FO
- 10) Independent rates of early retirement in normal health from active service
None
- 11) Independent mortality before retirement whilst in active service
Males: PMA92 (C = 1992) - 5 years
Females: PFA92 (C = 1992) - 5 years
- 12) Mortality after retirement in normal health, and mortality of spouses following death before and after retirement
Males: PMA92 (C = 1992) - 5 years
Females: PFA92 (C = 1992) - 5 years
- 13) Mortality after ill-health retirement
Males: PMA92 (C = 1992)
Females: PFA92 (C = 1992)
- 14) Mortality after withdrawal from service but before payment of benefit commences
Males: PMA92 (C = 1992) - 5 years
Females: PFA92 (C = 1992) - 5 years
- 15) Revaluation of benefits in deferment between withdrawal and normal pension age
 Whole deferred pension revaluation applies within the ESPS, assumed to be in line with the rate of price inflation.

 The following assumptions will be used for the statutory minimum check at State Pension Age:

 GMP: In line with Section 148 increases as specified above

 Excess over GMP: In line with Section 52A Orders as specified above.
- 16) Pension increases on the GMP when in payment
 Pre 6 April 1988 GMP: 0%

 Post 6 April 1988 GMP: in line with rate of price inflation as specified above subject to a

maximum of 3% per annum.

17) Proportions married

Males : 95%

Females : 95%

18) Age difference between husbands and wives

husbands are assumed to be two years older than their wives

19) Cash commutation rates

Age	Factor
50	20.84
51	20.42
52	20.00
53	19.56
54	19.12
55	18.66
56	18.20
57	17.74
58	17.26
59	16.78
60	16.30
61	15.82
62	15.34
63	14.86
64	14.38
65	13.90

- 20) Cash taken at retirement by Commutation The amount of cash taken at retirement by commutation will be $0.8 \times C$ where C is defined by the following formula:

$$C = \frac{11P}{3 + (20/CF)}$$

Where

P is the initial rate of pension at retirement before commutation.

CF is the commutation factor applicable to each member as defined above.

- 21) Normal pension age:

As defined in scheme rules.

- 22) Age definition.

Calculations will be performed allowing for the exact age of each Transferring Employee at the Completion Date to years and days.

- 23) Final pensionable earnings

Final pensionable earnings will be calculated at the Completion Date and increased to the assumed date of retirement/withdrawal/death in line with the salary increase assumptions outlined above.

- 24) Guarantee at retirement:

Allowance will be made for a 5 year guarantee of pension payments.

Note 1: For the avoidance of doubt additions and deductions to/from rates of return are arithmetic. For example an addition of 1% per annum to a rate of 7% per annum as calculated is 8% per annum. A deduction of 1% per annum from 7% per annum is 6% per annum.

Appendix B – Calculation details

Decrement treatment

The rates of decrement of mortality, withdrawal, and retirement (ill-health and/or early and normal) shown or described in this letter are independent rates of decrement. A multiple-decrement table is used to determine the probability of surviving to a particular age and of leaving Pensionable Service during that year of age by the relevant decrement. The probabilities of leaving Pensionable Service under each decrement at each time of assumed exit together with the probability of surviving to the time of assumed exit are to be applied to that portion of the value of the total benefit (whether prospective or contingent), applicable to or in respect of the Transferring Employee under the Seller's Scheme assuming he leaves Pensionable Service in the manner of and at the time of the applicable decrement. The portion of the value of the total benefit is that accrued in respect of Pensionable Service up to and including the Completion Date on the assumption that his Pensionable Earnings are increased in line with the Actuarial Assumptions up to the time of assumed exit under the applicable decrement. This gives a benefit/decrement product at each time of assumed exit and under each decrement.

The actuarial value of the Pension Liabilities for a Transferring Employee is the sum of all such benefit/decrement products after each benefit/decrement product has first been discounted at the valuation interest rate back to the Completion Date from the time of assumed exit under the applicable decrement.

Treatment of benefits with prospective element or benefits that do not accrue with service

For the avoidance of doubt in calculating the accrued benefits, no element of prospective or notional Pensionable Service after the Completion Date is to be included in any event. For example, the ill health pension is to be taken as the member's accrued pension based on Pensionable Service completed to the Completion Date and salaries for pensionable purposes immediately prior to the Completion Date (allowing for increases in salaries after that date in accordance with the assumptions below).

Withdrawal benefits

In the event of assumed withdrawal from active service a deferred pension is valued equal to the portion of the value of the total benefit rather than a refund of the member's own contributions.

If the Issuer or any agent thereof is required by law or regulation to make any deduction or withholding for or on account of Taxes, the Issuer shall, to the extent permitted by applicable law or regulation, pay such additional amounts as shall be necessary in order that the net amounts received by the bearer of this Global Note after such deduction or withholding shall equal the amount which would have been receivable hereunder in the absence of such deduction or withholding, except that no such additional amounts shall be payable:
 - (a) to, or to a third party on behalf of, the bearer of this Global Note or the holder or beneficial owner of any interest herein or rights in respect hereof where such deduction or withholding is required by reason of the bearer having some connection with the jurisdiction imposing the Taxes other than the mere holding of and payment in respect of this Global Note; or

 - (c) to, or to a third party on behalf of, the bearer of this Global Note or the holder or beneficial owner of any interest herein or rights in respect hereof who would be able to avoid such withholding or deduction by satisfying any statutory requirements or by

- (d) where such withholding or deduction is imposed on a payment to an individual and is required to be made pursuant to any European Union Directive on the taxation of savings implementing the conclusions of the ECOFIN Council meeting of 26th - 27th November 2000 (the "Directive") or any law implementing or complying with, or introduced in order to conform to, the Directive.
4. If the Maturity Date or, if applicable, the relevant Interest Payment Date is not a Payment Business Day (as defined herein), payment in respect hereof will not be made and credit or transfer instructions shall not be given until the next following Payment Business Day (unless that date falls more than 364 days after the Issue Date, in which case payment shall be made on the immediately preceding Payment Business Day) and the neither bearer of this Global Note nor the holder or beneficial owner of any interest herein or rights in respect hereof shall be entitled to any interest or other sums in respect of such postponed payment. "Payment Business Day", as used herein, shall mean any day, other than a Saturday or a Sunday, on which (i) deposits in the relevant currency may be dealt in on the London interbank market, (ii) commercial banks are open for general business in London and in the place of payment for the relevant currency which in the case of Australian dollars shall be Melbourne and in the case of New Zealand dollars shall be Wellington, (iii) both Euroclear and Clearstream, Luxembourg or any relevant clearing system are operating and (iv) in relation to a payment to be made in euro, a day on which the TARGET system is operating credit or transfer instructions in respect of payments in euro (a "euro Business Day"), provided that if the Agent determines with the agreement of the Issuer that the market practice in respect of euro denominated internationally offered securities is different from that specified above, the above shall be deemed to be amended so as to comply with such market practice and the Agent shall procure that a notice of such amendment is published not less than 15 days prior to the date on which any payment in euros falls due to be made in such manner as the Agent may determine. 6. This Global Note is issued in respect of an issue of Notes of the Issuer and is exchangeable in whole but not in part only for duly executed and authenticated bearer Notes in definitive form in the following circumstances, whether before, on or, subject as provided below, after the Maturity Date:
- (a) Euroclear or Clearstream, Luxembourg or any other relevant clearing system is closed for a continuous period of 14 days or more (other than by reason of weekends or public holidays, statutory or otherwise) or announces an intention permanently to cease business or does in fact do so; and/or
- (b) default is made in payment of any sum under this Global Note;
- (c) in the case of Sterling Global Notes, upon request by the bearer.

If an event in paragraph (a), (b) or (c) above occurs, the Issuer hereby undertakes that, upon presentation and surrender of this Global Note during normal business hours to the above offices of Deutsche Bank AG London acting as Issue Agent, the Issuer will bear all costs of and will procure the delivery to the bearer of duly executed and authenticated bearer definitive Notes in the relevant currency in an aggregate principal amount or nominal amount (as applicable) equal to the Principal Amount or Nominal Amount (as applicable) of this Global Note, such delivery to take place in the case of paragraph (a) or (c) above on surrender of this Global Note and such delivery to take place in the case of paragraph (b) above on a date not later than 5.00 p.m. (London time) on the tenth day after surrender of this Global Note.

7. If, for whatever reason, definitive Notes are not issued pursuant to the terms of this Global Note in full exchange for this Global Note before 5.00 p.m. (London time) on the tenth day after surrender, this Global Note (including the obligation hereunder to issue definitive Notes) will become void and the bearer will have no further rights under this Global Note (but without prejudice to the rights which the bearer or any other person may have under a Deed of Covenant dated 7th January, 2002 entered into by the Issuer).
8. If this is an interest bearing Global Note, then:
 - (a) notwithstanding the provisions of paragraph 1 above, if any payment of interest in respect of this Global Note falling due for payment prior to the Maturity Date remains unpaid on the fifteenth day after falling so due, the amount referred to in paragraph 1 shall be payable on such fifteenth day; and
 - (b) upon each payment of interest (if any) prior to the Maturity Date in respect of this Global Note, the Schedule hereto shall be duly completed by the Agent to reflect such payment.
9. If this is a fixed rate interest bearing Global Note, interest shall be calculated on the Principal Amount or Nominal Amount (as applicable) as follows:
 - (a) interest shall be payable on the Principal Amount or Nominal Amount (as applicable) in respect of each successive Interest Period (as defined below) from the Issue Date to the Maturity Date only, in arrear on the relevant Interest Payment Date, on the basis of the actual number of days in such Interest Period and a year of 360 days or, if this Global Note is denominated in Sterling or if market practice so dictates (as determined by the Agent), 365 days at the Fixed Interest Rate, in each case at the Interest Rate specified above with the resulting figure being rounded to the nearest amount of the relevant currency which is available as legal tender in the country of the relevant currency; and
 - (b) the period beginning on (and including) the Issue Date and ending on (but excluding) the first Interest Payment Date and each successive period beginning on (and including) an Interest Payment Date and ending on (but excluding) the next succeeding Interest Payment Date is an "Interest Period" for the purposes of this paragraph.
10. If this is a floating rate interest bearing Global Note, interest shall be calculated on the Principal Amount or Nominal Amount (as applicable) as follows:

-
- (A) (a) in the case of a Global Note which specifies LIBOR as the Reference Rate, interest shall be payable on the Principal Amount or Nominal Amount (as applicable) in respect of each successive Interest Period (as defined below) from the Issue Date to the Maturity Date only, in arrear on the relevant Interest Payment Date, on the basis of the actual number of days in such Interest Period and a year of 360 days or, if this Global Note is denominated in Sterling or if market practice so dictates (as determined by the Agent), 365 days at a rate (the "Rate of Interest") determined on the following basis:-
- (i) on the first day of each Interest Period (for a Global Note denominated in Sterling) or, if this Global Note is denominated in euro, the second euro Business Day before the beginning of each Interest Period or, if this Global Note is denominated in any other currency the second London Business Day (as defined below) before the beginning of each Interest period (each a "LIBOR Interest Determination Date") the Calculation Agent will determine the offered rate for deposits in the Contractual Currency in the London interbank market for the Interest Period concerned as at 11.00 a.m. (London time) on the LIBOR Interest Determination Date in question. Such offered rate will be that which appears on the display designated as page 3750 or 3740 on the Telerate Monitor (or such other page or service as may replace it for the purpose of displaying London interbank offered rates of major banks for deposits in the Contractual Currency for a duration approximately equal to the Interest Period). The Rate of Interest for such Interest Period shall be the Margin (expressed as a percentage rate per annum) above (if a positive number) or below (if a negative number) the rate which so appears, as determined by the Calculation Agent;
 - (ii) if on any LIBOR Interest Determination Date for any reason such offered rate is unavailable, the Calculation Agent will request each of the Reference Banks to provide its offered quotation to leading banks in the London interbank market for deposits in the Contractual Currency for a duration approximately equal to the Interest Period concerned as at 11.00 a.m. (London time) on the LIBOR Interest Determination Date in question. The Rate of Interest for such Interest Period shall be the Margin (expressed as a percentage rate per annum) above (if a positive number) or below (if a negative number) such quotation (if only one is provided) or the arithmetic mean (rounded, if necessary, up to the nearest four decimal places) of such quotations (if two or more are so provided), as determined by the Calculation Agent; and
 - (iii) if the Calculation Agent is unable to determine the Rate of Interest for an Interest Period in accordance with (i) or (ii) above, the Rate of Interest for such Interest Period shall be the Rate of Interest in effect for the last preceding Interest Period to which (i) or (ii) above shall have applied;
- (b) the Calculation Agent will, as soon as practicable after 11.00 a.m. (London time) on each LIBOR Interest Determination Date, determine the Rate of
-

Interest and calculate the amount of interest payable (the "Amount of Interest") for the relevant Interest Period. The Amount of Interest shall be calculated by applying the Rate of Interest to the Principal Amount or Nominal Amount (as applicable) of one Note of each Denomination, multiplying such product by the actual number of days in the Interest Period concerned divided by 360 or, if this Global Note is denominated in Sterling or if market practice so dictates (as determined by the Agent), by 365 and rounding the resulting figure to the nearest amount of the Contractual Currency which is available as legal tender in the country of the Contractual Currency (with halves being rounded upwards). The determination of the Rate of Interest and the Amount of Interest by the Calculation Agent shall (in the absence of manifest error or fraud) be final and binding upon all parties;

- (c) as used above, "London Business Day" means any day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealings in foreign exchange and foreign currency deposits) in London.

- (i) on the second euro Business Day (as defined in paragraph 4 above) before the beginning of each Interest Period (each a "EURIBOR Interest Determination Date") the Calculation Agent will determine the European Interbank Offered Rate for deposits in euro for the Interest Period concerned as at 11.00 a.m. (Brussels time) on the EURIBOR Interest Determination Date in question. Such offered rate will be that which appears on the display designated as page 248 on the Telerate Monitor (or such other page or service as may replace it for the purpose of displaying European Interbank Offered Rates of prime banks in the euro-zone (as defined below) for deposits in euro for a duration approximately equal to the Interest Period). The Rate of Interest for such Interest Period shall be the Margin (expressed as a percentage rate per annum) above (if a positive number) or below (if a negative number) the rate which so appears, as determined by the Calculation Agent;
 - (ii) if on any EURIBOR Interest Determination Date for any reason such offered rate is unavailable, the Calculation Agent will request the principal euro-zone office of each of the Reference Banks to provide its offered quotation to leading banks in the euro-zone interbank market for deposits in euro for a duration approximately equal to the Interest Period concerned as at 11.00 a.m. (Brussels time) on the EURIBOR Interest Determination Date in question. The Rate of Interest for such EURIBOR Interest Period shall be the Margin (expressed as a percentage rate per annum) above (if a positive
-

number) or below (if a negative number) such quotation (if only one is provided) or the arithmetic mean (rounded, if necessary, up to the nearest four decimal places) of such quotations (if two or more are so provided), as determined by the Calculation Agent; and

- (b) the Calculation Agent will, as soon as practicable after 11.00 a.m. (Brussels time) on each EURIBOR Interest Determination Date, determine the Rate of Interest and calculate the amount of interest payable (the "Amount of Interest") for the relevant Interest Period. The Amount of Interest shall be calculated by applying the Rate of Interest to the Principal Amount or Nominal Amount (as applicable) of one Note of each Denomination, multiplying such product by the actual number of days in the Interest Period concerned divided by 360, and rounding the resulting figure to the nearest amount of the Contractual Currency which is available as legal tender in the country of the Contractual Currency (with halves being rounded upwards). The determination of the Rate of Interest and the Amount of Interest by the Calculation Agent shall (in the absence of manifest error or fraud) be final and binding upon all parties;

- (C) a certificate of the Calculation Agent as to the Rate of Interest payable hereon for any Interest Period shall be conclusive and binding as between the Issuer and the bearer hereof;
- (D) the period beginning on (and including) the Issue Date and ending on (but excluding) the first Interest Payment Date and each successive period beginning on (and including) an Interest Payment Date and ending on (but excluding) the next succeeding Interest Payment Date is called an "Interest Period" for the purposes of this paragraph; and

- (A) (a) in the case of a Note which specifies LIBOR as the Reference Rate, interest shall be payable on the Principal Amount or Nominal Amount (as applicable) in respect of each successive Interest Period (as defined below) from the Issue Date to the Maturity Date only, in arrear on the relevant Interest Payment Date, on the basis of the actual number of days in such Interest Period and a year of 360 days (unless market practice dictates otherwise) at a rate (the "Rate of Interest") determined on the following basis:-
- (i) on the second London Business Day (as defined below) before the beginning of each Interest Period or if this Note is denominated in euro, the second euro Business Day before the beginning of each Interest Period (each a "LIBOR Interest Determination Date") the relevant Calculation Agent named above will determine the offered rate for deposits in the Contractual Currency in the London interbank market for the Interest Period concerned as at 11.00 a.m.(London time) on the LIBOR Interest Determination Date in question. Such offered rate will be that which appears on the display designated as page 3750 or 3740 on the Telerate Monitor (or such other page or service as may replace it for the purpose of displaying London interbank offered rates of major banks for deposits in the Contractual Currency for a duration approximately equal to the Interest Period). The Rate of Interest for such Interest Period shall be the Margin (expressed as a percentage rate per annum) above (if a positive number) or below (if a negative number) such quotation (if only one is provided) or the arithmetic mean (rounded, if necessary, up to the nearest four decimal places) of such

quotations (if two or more are so provided), as determined by the Calculation Agent; and

- (b) the Calculation Agent will, as soon as practicable after 11.00 a.m. (London time) on each LIBOR Interest Determination Date, determine the Rate of Interest and calculate the amount of interest payable (the "Amount of Interest") for the relevant Interest Period. The Amount of Interest shall be calculated by applying the Rate of Interest to the Principal Amount or Nominal Amount (as applicable) of one Note of each Denomination, multiplying such product by the actual number of days in the Interest Period concerned divided by 360 (unless market practice determines otherwise) and rounding the resulting figure to the nearest amount of the Contractual Currency which is available as legal tender in the country of the Contractual Currency (with halves being rounded upwards). The determination of the Rate of Interest and the Amount of Interest by the Calculation Agent shall (in the absence of manifest error or fraud) be final and binding upon all parties;
- (B) (a) If this note specifies EURIBOR as the Reference Rate, interest shall be payable on the Principal Amount or Nominal Amount (as applicable) in respect of each successive Interest Period (as defined below) from the Issue Date to the Maturity Date only, in arrear on the relevant Interest Payment Date, on the basis of the actual number of days in such Interest Period and a year of 360 days at a rate (the "Rate of Interest") determined on the following basis:-
- (i) on the second euro Business Day (as defined in paragraph 3 above) before the beginning of each Interest Period (each a "EURIBOR Interest Determination Date") the relevant Calculation Agent will determine the European Interbank Offered Rate for deposits in euro for the Interest Period concerned as at 11.00 a.m. (Brussels time) on the EURIBOR Interest Determination Date in question. Such offered rate will be that which appears on the display designated as page 248 on the Telerate Monitor (or such other page or service as may replace it for the purpose of displaying European Interbank Offered Rates of prime banks in the euro-zone (as defined below) for deposits in euro for a duration equal to the Interest Period). The Rate of Interest for such Interest Period shall be the Margin (expressed as a percentage rate per annum) above (if a positive number) or below (if a negative number) the rate which so appears, as determined by the Calculation Agent;
 - (ii) if on any EURIBOR Interest Determination Date for any reason such offered rate is unavailable, the Calculation Agent will request the principal euro-zone office of each of the Reference Banks to provide its offered quotation to leading banks in the euro-zone interbank market for deposits in euro for a duration approximately equal to the Interest Period concerned as at 11.00 a.m. (Brussels time) on the

Interest Determination Date in question. The Rate of Interest for such EURIBOR Interest Period shall be the Margin (expressed as a percentage rate per annum) above (if a positive number) or below (if a negative number) such quotation (if only one is provided) or the arithmetic mean (rounded, if necessary, up to the nearest four decimal places) of such quotations (if two or more are so provided), as determined by the Calculation Agent; and

- (iii) if the Calculation Agent is unable to determine the Rate of Interest for an Interest Period in accordance with (i) or (ii) above, the Rate of Interest for such Interest Period shall be the Rate of Interest in effect for the last preceding Interest Period to which (i) or (ii) above shall have applied; and

for the purposes of this Note "euro-zone" means the region comprised of the countries whose lawful currency is the euro.

- (b) the Calculation Agent will, as soon as practicable after 11.00 a.m. (Brussels time) on each EURIBOR Interest Determination Date, determine the Rate of Interest and calculate the amount of interest payable (the "Amount of Interest") for the relevant Interest Period. The Amount of Interest shall be calculated by applying the Rate of Interest to the Principal or Nominal Amount (as applicable) of one Note of each Denomination, multiplying such product by the actual number of days in the Interest Period concerned divided by 360, and rounding the resulting figure to the nearest amount of the Contractual Currency which is available as legal tender in the country of the Contractual Currency (with halves being rounded upwards). The determination of the Rate of Interest and the Amount of Interest by the Calculation Agent shall (in the absence of manifest error or fraud) be final and binding upon all parties.
 - (C) a certificate of the Calculation Agent as to the Rate of Interest payable hereon for any Interest Period shall be conclusive and binding as between the Issuer and the bearer hereof;
 - (D) the period beginning on (and including) the Issue Date and ending on (but excluding) the first Interest Payment Date and each successive period beginning on (and including) an Interest Payment Date and ending on (but excluding) the next succeeding Interest Payment Date is called an "Interest Period" for the purposes of this paragraph; and
 - (E) the Issuer will procure that a notice specifying the Rate of Interest payable in respect of each Interest Period be published as soon as practicable after the determination of the Rate of Interest. Such notice will be delivered to the bearer of this Note or, if that is not possible, it will be published in the *Financial Times* or in another leading London daily newspaper.

The Issuers make the following covenants and agreements in this Clause 4:

- (a) whenever an Issuer shall publish or make available to the public (by filing with any regulatory authority, securities exchange or otherwise) any information which could reasonably be expected to be material in the context of the Programme Agreements and the transactions contemplated thereby, it shall notify the Dealers as to the nature of such information, shall make a reasonable number of copies of such information available to the Dealers upon request to permit distribution to investors and prospective investors and shall in any event take such action as may be necessary to ensure that the representation and warranty contained in Clause 3.1(e) is true and accurate on the dates specified in Clause 3;
- (b) each Issuer will indemnify and hold harmless on demand each Relevant Party against any and all losses, claims, damages, liabilities or expenses (including reasonable costs of investigation and defence thereof and counsel's fees and disbursements associated therewith) to which that indemnified party may be subject, arising out of or in connection with or based upon:

date. For the purposes of calculating the principal amount outstanding the nominal amount of any Index Linked Note shall be deemed to be its principal amount for this purpose.

5. COVENANTS AND AGREEMENTS BY THE DEALERS

- 5.1 Each Dealer represents, covenants and agrees that it has complied with and will comply with the selling restrictions set forth in Schedule 2 to this Agreement as amended from time to time. Any Dealer may at its discretion, and in respect of itself only, waive compliance with the obligation of any Issuer to deliver any document pursuant to this Clause 6.1 and the obligation to deliver any document so waived shall be deemed to have been satisfied as regards such Dealer alone.
- 6.2 In relation to each issue of Notes, it shall be a condition precedent to the purchase thereof by any Dealer that (i) the representations and warranties in Clause 3 and Schedule 2 of the relevant Issuer shall be true and correct on each date upon which an agreement for a Note Transaction is made and on the date on which such Notes are issued and that (ii) there is no other material breach of the relevant Issuer's obligations under any of the Programme Agreements to which it is a party or any relevant Notes.

7. GOVERNING LAW AND JURISDICTION

This Agreement may be signed in counterparts, all of which when taken together shall constitute a single agreement.

DEED OF COVENANT

relating to a U.S.\$1,500,000,000
Euro-commercial paper programme

ALLEN & OVERY

London
CO:894167.3

THIS DEED OF COVENANT is made on 7th January, 2002 by UNITED UTILITIES PLC (the "Issuer") in favour of the account holders of CLEARSTREAM BANKING, SOCIÉTÉ ANONYME and EUROCLEAR BANK S.A./N.V., as operator of the Euroclear System and such other clearing system(s) as may be agreed from time to time pursuant to the Dealer Agreement referred to below (each, a "Clearing System").

WHEREAS:

- (A) The Issuer, United Utilities Electricity PLC and United Utilities Water PLC have signed a Euro-commercial paper dealer agreement (as amended, restated, superseded or supplemented from time to time, the "Dealer Agreement") dated 7th January, 2002 with the dealers from time to time parties thereto (together the "Dealers" and each a "Dealer") under which the Issuer proposes, from time to time, to issue commercial paper in global and definitive form.
- (B) Rights to receive a portion of the proceeds payable in respect of any such commercial paper in global form ("Global Notes") may be acquired by a Dealer and each Global Note may be delivered at the direction of such Dealer to a depositary for one or more of the Clearing Systems. That Dealer may then, from time to time, instruct a Clearing System to debit such Dealer's securities account with such Clearing System with those rights in respect of any such Global Note and to credit securities accounts of other account holders with the same or another Clearing System with corresponding rights in respect of any such Global Note in accordance with the terms and conditions and operating procedures or management regulations of the relevant Clearing System (the "Operating Regulations"), as the case may be. Such Global Notes will be exchangeable in accordance with their terms into notes in definitive form ("Definitive Notes").
- (C) Account holders with a Clearing System which have rights in respect of any Global Note credited to their securities accounts from time to time will be entitled to transfer such rights in respect of such Global Note and (subject to payment being received from the Issuer) will be entitled to receive a proportion of the proceeds payable in respect of any such Global Note (such proportions being hereafter referred to as the "principal amount" of any right in respect of any such Global Note) from the relevant Clearing System in relation to such rights in respect of such Global Note in accordance with the Operating Regulations.
- (D) In certain circumstances, specified in each Global Note, such Global Note will become void. In such circumstances, subject to and in accordance with the terms of this Deed, each account holder with a Clearing System which, at the time specified in Clause 3 of this Deed, has credited to its securities account with the relevant Clearing System rights in respect of such Global Note (the "Relevant Account Holders", which expression shall, however, exclude each Clearing System to the extent to which it is an account holder with another Clearing System for the purpose of operating any "bridge" between two or more of the Clearing Systems) shall acquire against the Issuer all those rights (the "Direct Rights") which such Relevant Account Holder would have acquired had, prior to such Global Note becoming void, Definitive Note(s) been issued in its favour by the Issuer in exchange for its interest in such Global Note, including, without limitation, rights to receive principal of, and any other amount payable on, such Definitive Note(s).

NOW THIS DEED WITNESSES as follows:

1. If any Global Note becomes void in accordance with the terms thereof, then each Relevant Account Holder for such Global Note shall acquire against the Issuer the Direct Rights applicable to such Relevant Account Holder and such Global Note.
2. The Issuer agrees that such Direct Rights as are referred to in Clause 1 shall, by virtue of this Deed, be acquired by such Relevant Account Holder immediately upon the applicable Global Note becoming void without any need for any further action by any person.
3. The records of the relevant Clearing System as at the opening of business on the first day on which a Global Note becomes void shall, in the absence of manifest error, be conclusive evidence of the identity of the Relevant Account Holders and the principal amount of rights in respect of Global Notes credited to the securities account of each Relevant Account Holder at that time.
4. Any statement issued by any of the Clearing Systems to any Relevant Account Holder relating to a specified Global Note and stating the principal amount of rights in respect of one or more Global Notes which are credited to the securities account of such Relevant Account Holder and certified by the relevant Clearing System to be a true record of such securities account as aforesaid shall, in the absence of manifest error, be conclusive evidence of the records of the relevant Clearing System for the purposes of Clause 3 (but without prejudice to any other means of producing such records in evidence).
5. There shall be treated as incorporated into this Deed and with respect to the Direct Rights and any sums payable in relation thereto, all those provisions of the Notes represented by the relevant Global Note (immediately before it become void) relating to the amount of any sum payable by the Issuer or the time and manner in which any such amount should be paid but as if references in such provisions to (i) any Note or to any principal of, or other amount payable on, any Note were references to the Direct Rights or to sums payable with respect to the Direct Rights and (ii) any holder of any Note were references to the applicable Relevant Account Holder.
6. All payments in respect of this Deed shall be made without set-off, counterclaim, fees, liabilities or similar deductions, and free and clear of, and without deduction or withholding for, taxes, levies, duties, assessments or charges of any nature now or hereafter imposed, levied, collected, withheld or assessed in the United Kingdom or in any jurisdiction through or from which such payments are made or any political subdivision or taxing authority of or in any of the foregoing ("Taxes"). If the Issuer or any agent thereof is required by law or regulation to make any deduction or withholding for or on account of Taxes, the Issuer shall, to the extent permitted by applicable law or regulation, pay such additional amounts as shall be necessary in order that the net amounts received by each Relevant Account Holder after such deduction or withholding shall equal the amount which would have been receivable hereunder in the absence of such deduction or withholding, except that no such additional amounts shall be payable to a Relevant Account Holder:
 - (a) having some connection with the jurisdiction imposing the Taxes other than the mere holding of and payment in respect of the relevant Note or the benefit of this Deed.
 - (b) who would be able to avoid such withholding or deduction by satisfying any statutory requirements or by making a declaration of non-residence or other similar claim for exemption but fails to do so; or

-
- (c) where such withholding or deduction is imposed on a payment to an individual and is required to be made pursuant to any European Union Directive on the taxation of savings implementing the conclusions of the ECOFIN Council meeting of 26th - 27th November 2000 (the "Directive") or any law implementing or complying with, or introduced in order to conform to, the Directive.
7. The Issuer hereby warrants, represents and covenants with each Relevant Account Holder that it has all corporate power, and has taken all necessary corporate or other steps, to enable it to execute, deliver and perform this Deed, and that this Deed constitutes a legal, valid and binding obligation of the Issuer enforceable with its terms subject to the laws of bankruptcy, insolvency, liquidation or other laws affecting generally the enforcement of creditors' rights.
 8. The Issuer will pay any stamp and other duties and taxes, including interest and penalties, payable on or in connection with the execution of this Deed and any successful action taken by any Relevant Account Holder to enforce the provisions of this Deed.
 9. This Deed shall take effect as a Deed Poll for the benefit of the Relevant Account Holders from time to time and for the time being. This Deed shall be deposited with and held by the issue and paying agent for the Notes for the time being (being at the date hereof Deutsche Bank AG London, Winchester House, 1 Great Winchester Street, London, EC2N 2DB) until all the obligations of the Issuer hereunder have been discharged in full.
 10. The Issuer hereby acknowledges the right of every Relevant Account Holder to the production of this Deed and further acknowledges and covenants that the obligations binding upon it contained herein are owed to, and shall be for the account of, each and every Relevant Account Holder, and that each Relevant Account Holder shall be entitled severally to enforce the said obligations against the Issuer.
 11. No rights are conferred on any person under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of this Deed or the Notes, but this does not affect any right or remedy of any person which exists or is available apart from that Act.
 12. This Deed shall be governed by, and construed in accordance with, English law.

IN WITNESS WHEREOF this Deed has been executed by the Issuer and is intended to be and is hereby delivered on the date first above written.

(a) SECTION . *Acts of Holders*. Any request, demand, authorization, direction, notice, consent, waiver, vote or other action provided by this Indenture to be given or taken by Holders may be embodied in and evidenced by one or more instruments of substantially similar tenor signed by such Holders in person or by an agent duly appointed in writing; and, except as herein otherwise expressly provided, such action shall become effective when such instrument or instruments are delivered to the Trustee and, when it is hereby expressly required, to the Issuer. Such instrument or instruments (and the action embodied therein and evidenced thereby) are herein sometimes referred to as the "Act" of the Holders signing such instrument or instruments. Proof of execution of any such instrument or of a writing appointing any such agent shall be sufficient for any purpose of this Indenture and (subject to Section) conclusive in favor of the Trustee and the Issuer, if made in the manner provided in this Section.

(b) If the Issuer shall solicit from the Holders any request, demand, authorization, direction, notice, consent, waiver, vote or other Act, the Issuer may, at its option, by Board Resolution, fix in advance a record date for purposes of determining the identity of Holders entitled to give such request, demand, authorization, direction, notice, consent, waiver, vote or other Act, but the Issuer shall have no obligation to do so. Any such record date shall be fixed at the Issuer's discretion. If such a record date is fixed, such request, demand, authorization, direction, notice, consent, waiver, vote or other Act may be sought or given before or within a specified period following the record date, which specified period shall be 170 days or such shorter period or longer period (but not beyond 180 days) as may be specified by the Issuer (or the Trustee, if such record date was set by the Trustee) from time to time. Only the Holders of record at the close of business on such record date shall be deemed to be Holders for the purpose of determining whether Holders of the requisite proportion of Notes have authorized or agreed or consented to such request, demand, authorization, direction, notice, consent, waiver, vote or other Act, and for that purpose the Outstanding Notes shall be computed as of such record date.

(c) The fact and date of the execution by any Person of any such instrument or writing may be proved by the affidavit of a witness of such execution or by a certificate of a notary public or other officer authorized by law to take acknowledgments of deeds, certifying that the individual signing such instrument or writing acknowledged to him the execution thereof. When such execution is by a signatory acting in a capacity other than his individual capacity, such certificate or affidavit shall also constitute sufficient proof of his authority. The fact and date of the execution of any such instrument or writing, or the authority of the Person executing the same, may also be proved in any other manner which the Trustee deems sufficient.

(d) The ownership of a Definitive Note shall be proved by the Note Register. The ownership of the Global Note shall be proved by the production thereof by its bearer from time to time.

(e) Any request, demand, authorization, direction, notice, consent, waiver or other Act of the Holder of any Note shall bind every future Holder of the same Note and the Holder of every Note issued upon the registration of transfer thereof or in exchange therefor or in lieu thereof in respect of any thing done, omitted or suffered to be done by the Trustee, the Issuer in reliance thereon, whether or not notation of such action is made upon such Note or such other Note.

(f) Without limiting the foregoing, a Holder entitled hereunder to give or take any such action with regard to any particular Note may do so with regard to all or any part of the principal amount of such Note or by one or more duly appointed agents each of which may do so pursuant to such appointment with regard to all or any different part of such principal amount.

1.2 SECTION . *Notices, etc. to Trustee and Issuer.* Any request, demand, authorization, direction, notice, consent, waiver, vote or Act of Holders or other

document provided or permitted by this Indenture to be made upon, given or furnished to, or filed with,

- (a) the Trustee by any Holder, the Issuer or any Paying Agent shall be sufficient for every purpose hereunder (unless otherwise herein expressly provided) if made, given, furnished or filed in writing to or with the Trustee and received at its Corporate Trust Office, or
- (b) the Issuer by the Trustee or by any Holder shall be sufficient for every purpose hereunder (unless otherwise herein expressly provided) if in writing and mailed, in the case of the Issuer, first-class postage prepaid, addressed to the Issuer at the address of its principal office specified in the first paragraph of this Indenture (unless another address has been previously furnished in writing to the Trustee and each Paying Agent by the Issuer, in which case at the last such address) marked "Attention: Company Secretary"; or
- (c) any Paying Agent by any Holder, the Issuer or the Trustee shall be sufficient for every purpose hereunder if made, given, furnished or filed in writing to the New York Paying Agent at Marine Midland Bank, 140 Broadway, 12th Floor, New York, New York 10005-1180, Attn: Frank Godino (telephone: 212-658-6433; telefax: 212-658-6425) and to the London Paying Agent at Midland Bank plc, Mariner House, Pepys Street, London, EC3N 4DA, Attn: Issuer Services (telephone: 44-171-260-7801; telefax: 44-171-260-8086) (in each case unless another address has been previously furnished in writing to the Trustee and the Issuer by such Paying Agent, in which case at the last such address).

1.3 SECTION . *Notice to Holders; Waiver.* When this Indenture provides for notice to Holders of any event, such notice shall be sufficiently given (unless otherwise herein expressly provided) (a) with respect to the Global Note, if in writing and delivered or mailed and received, first-class postage prepaid, to the Holder at the address previously furnished in writing by the Holder to the Trustee and the Issuer and (b) if Outstanding Definitive Notes are affected, if given in writing and mailed, first-class postage prepaid, to each Holder of a Definitive Note affected by such event in the manner and to the extent provided in Section 313(c) of the Trust Indenture Act with respect to reports pursuant to Section of this Indenture, not later than the latest date, and not earlier than the earliest date, prescribed for the giving of such notice.

When notice to Holders of Definitive Notes is given by mail, neither the failure to mail such notice, nor any defect in any notice so mailed, to any particular Holder shall affect the sufficiency of such notice with respect to other Holders. Where this Indenture provides for notice in any manner, such notice may be waived in writing by the Person entitled to receive such notice, either before or after the event, and such waiver shall be the equivalent of such notice. Waivers of notice by Holders shall be filed with the Trustee, but such filing shall not be a condition precedent to the validity of any action taken in reliance upon such waiver. In case by reason of the suspension of regular mail service or by reason of any other cause it shall be impracticable to give such notice by mail, then such

notification as shall be made with the approval of the Trustee shall constitute a sufficient notification for every purpose hereunder.

1.1 SECTION . *Conflict with Trust Indenture Act.* This Indenture is subject to, and shall be governed by, the provisions of the Trust Indenture Act that are required to be part of and to govern indentures qualified under the Trust Indenture Act. If any provision hereof limits, qualifies or conflicts with another provision hereof which is required to be included in this Indenture by any of the provisions of the Trust Indenture Act, such required provision shall control. If any provision of this Indenture modifies or excludes any provision of the Trust Indenture Act that may be so modified or excluded, the latter provision shall be deemed to apply to this Indenture as so modified or excluded, as the case may be.

1.2 SECTION . *Effect of Headings and Table of Contents.* The Article and Section headings herein and the Table of Contents are for convenience only and shall not affect the construction hereof.

1.3 SECTION . *Successors and Assigns.* All covenants and agreements in this Indenture by the Issuer shall bind its successors and assigns, whether so expressed or not.

1.4 SECTION . *Separability Clause.* In case any provision in this Indenture or the Notes shall be invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining provisions shall not in any way be affected or impaired thereby.

1.5 SECTION . *Benefits of Indenture.* Nothing in this Indenture or the Notes, express or implied, shall give to any Person, other than the parties hereto and their successors hereunder, and the Holders, any benefit or any legal or equitable right, remedy or claim under this Indenture.

1.6 SECTION . *Governing Law.* This Indenture and the Notes shall be governed by and construed in accordance with the laws of the State of New York, without regard to conflicts of laws principles.

1.7 SECTION . *Saturdays, Sundays and Public Holidays.* In any case where any Interest Payment Date, Redemption Date, Maturity or Stated Maturity of a Note shall not be a Business Day at any Place of Payment, payments of interest, if any (and premium, if any) or principal need not be made at such Place of Payment on such date, but may be made on the next succeeding Business Day at such Place of Payment with the same force and effect as if made on such Interest Payment Date, Redemption Date, Maturity or Stated Maturity, provided that no interest shall accrue on such payment for the period from and after such Interest Payment Date, Redemption Date, Maturity or Stated Maturity, as the case may be.

1.8 SECTION . *Consent to Jurisdiction and Appointment of Agent for Service.*

(a) The Issuer irrevocably consents to the nonexclusive jurisdiction of any court of the State of New York or any United States Federal court sitting, in each case, in the Borough of Manhattan, The City of New York, New York, United States of America, and any appellate court from any thereof in any suit, action or proceeding that may be brought in connection with this Indenture or the Notes, and waives any immunity from the jurisdiction of such courts. The Issuer irrevocably waives, to the fullest extent permitted by law, any objection to any such suit, action or proceeding that may be brought in such courts whether on the grounds of venue, residence or domicile or on the ground that any such suit, action or proceeding has been brought in an inconvenient forum. The Issuer agrees, to the fullest extent that it lawfully may do so, that final judgment in any such suit, action or proceeding brought in such a court shall be conclusive and binding upon the Issuer and waives, to the fullest extent permitted by law, any objection to the enforcement by any competent court in the United Kingdom of judgements validly obtained in any such court in New York on the basis of such suit, action or proceeding; *provided, however*, that the Issuer does not waive, and the foregoing provisions of this sentence shall not constitute or be deemed to constitute a waiver of, (i) any right to appeal any such judgment, to seek any stay or otherwise to seek reconsideration or review of any such judgment, (ii) any stay of execution or levy pending an appeal from, or a suit, action or proceeding for reconsideration of, any such judgment, or (iii) any other right or remedy of the Issuer to the extent not expressly waived in accordance with this Section.

(b) The Issuer has designated and appointed CT Corporation System, 1633 Broadway, New York, New York 10019, as its authorized agent upon which process may be served in any suit or proceeding in any Federal or State court in the Borough of Manhattan, The City of New York arising out of or relating to the Notes or this Indenture, but for that purpose only, and agrees that service of process upon said agent shall be deemed in every respect effective service of process upon it in any such suit or proceeding in any Federal or State court in the Borough of Manhattan, The City of New York. Such appointment shall be irrevocable so long as any of the Notes remain Outstanding until the appointment of a successor by the Issuer and such successor's acceptance of such appointment. Upon such acceptance, the Issuer shall notify the Trustee of the name and address of such successor. The Issuer further agrees to take any and all action, including the execution and filing of any and all such documents and instruments, as may be necessary to continue such designation and appointment of said agent in full force and effect so long as any of the Notes shall be Outstanding. The Trustee shall not be obligated and shall have no responsibility with respect to any failure by the Issuer to take any such action.

Nothing in this Section shall affect the right of the Trustee or any Holder of any Note to serve process in any manner permitted by applicable law or limit the right of the Trustee or any Holder of any Note to bring proceedings against the Issuer in the courts of any other jurisdiction or jurisdictions.

(a) The Issuer agrees, to the fullest extent that it may effectively do so under applicable law, that (a) if for the purpose of obtaining judgment in any court it is necessary to convert the sum due in respect of the principal of, or premium or interest, if any, on the Notes (the "Required Currency") into a currency in which a judgment will be rendered (the "Judgment Currency"), the rate of exchange used shall be the rate at which, in accordance with normal banking procedures, the Trustee could purchase the Required Currency with the Judgment Currency and (b) its obligations under this Indenture to make payments in the Required Currency (i) shall not be discharged or satisfied by any tender, or any recovery pursuant to any judgment (whether or not entered in accordance with subsection (a)), in any currency other than the Required Currency, except to the extent that such tender or recovery shall result in the actual receipt, by the payee, of the full amount of the Required Currency expressed to be payable in respect of such payments (ii) shall be enforceable as an alternative or additional cause of action for the purpose of recovering the Required Currency the amount, if any, by which actual receipt shall fall short of the full amount of the Required Currency so expressed to be payable and (iii) shall not be affected by judgment being obtained for any other sum due under this Indenture.

NOTE FORM

1.1 SECTION . *Forms Generally.* The Global Note and the Trustee's certificate of authentication shall be substantially in the form of Exhibit A, which is hereby incorporated in and expressly made a part of this Indenture. The Definitive Notes and the Trustee's certificate of authentication shall be substantially in the form of Exhibit B, which is hereby incorporated in and expressly made a part of this Indenture. The Global Note and the Definitive Notes may have notations, legends or endorsements required by law, stock exchange rule, agreements to which the Issuer is subject, if any, or usage (provided that any such notation, legend or endorsement is in a form acceptable to the Issuer). The Issuer shall furnish any such legend not contained in Exhibit A or Exhibit B to the Trustee in writing. The Global Note and each Definitive Note shall be dated the date of its authentication. The terms of the Global Note and of the Definitive Notes set forth in Exhibit A and Exhibit B, respectively, are part of the terms of this Indenture.

Definitive Notes shall be printed, lithographed or engraved or produced by any combination of these methods or may be produced in any other manner permitted by the rules of any securities exchange on which the Notes may be listed, all as determined by the officers executing such Notes, as evidenced by their execution of such Notes.

1 ARTICLE

THE NOTES

1.1 SECTION . *Execution, Authentication, Delivery and Dating.* The Notes shall be executed on behalf of the Issuer in the manner provided for in this section by (A) any of its Directors or General Manager (or officers with similar title and status) and (B) the Secretary or Assistant Secretary to the Issuer or his or her Attorney-in-Fact. The signature of any of these officers on the Notes may be manual or facsimile. Notes bearing the manual or facsimile signatures of individuals who were at any time the proper officers of the Issuer shall bind the Issuer, notwithstanding that such individuals or any of them have ceased to hold such offices prior to the authentication and delivery of such Notes, provided such officer was the holder of such office at the time of such execution.

For so long as the Issuer shall be a company organized under the laws of the United Kingdom, any other instrument or document required to be signed by or on behalf of the Issuer hereunder shall be signed as provided in this Section. Each such document or instrument shall be signed on behalf of the Issuer by two members of its Board of Directors.

In the event that a successor Issuer which is organized under the laws of a jurisdiction other than the United Kingdom shall become the Issuer hereunder pursuant to the terms hereof, then any instrument or document required to be signed by such successor Issuer shall be signed as authorized by the laws, statutes or regulations of such jurisdiction, and by the provisions of the articles of incorporation and any by-laws or similar instrument of such successor Issuer, in order for such instrument or document to be legal, valid and binding. In addition, any Officers' Certificate of any such successor Issuer may be signed by any Person or Persons performing duties equivalent to the duties of an executive officer of a U.S. corporation, and any resolution of such successor Issuer which has been adopted by a governing body of such successor Issuer having functions equivalent to those of a U.S. board of directors and certified by any Person permitted to certify such a resolution under the laws, statutes and regulations of the jurisdiction of such successor Issuer and the articles of incorporation and any by-laws or similar documents of such successor Issuer, shall constitute a Board Resolution hereunder.

At any time and from time to time after the execution and delivery of this Indenture, the Issuer may deliver Notes executed by the Issuer to the Trustee for

authentication, together with an Issuer Order for the authentication and delivery of such Notes, and the Trustee in accordance with the Issuer Order shall authenticate and deliver such Notes as in this Indenture provided and not otherwise. Upon receipt of a written order of the Issuer, the Trustee shall authenticate Notes in substitution of Notes originally issued to reflect any name change of the Issuer. In authenticating such Notes and accepting the additional responsibilities under this Indenture in relation to such Notes the Trustee shall be entitled to receive, and (subject to Section) shall be fully protected in relying upon, an Opinion of Counsel stating that the form and terms thereof have been established in conformity with the provisions of this Indenture.

The Trustee shall not be required to authenticate such Notes if the issue of such Notes pursuant to this Indenture will affect the Trustee's own rights, duties or immunities under the Notes and this Indenture or otherwise in a manner which is not reasonably acceptable to the Trustee.

Each Note shall be dated the date of its authentication.

No Note shall be entitled to any benefit under this Indenture or be valid or obligatory for any purpose unless there appears on such Note a certificate of authentication substantially in the form provided for herein executed by or on behalf of the Trustee by manual signature, and such certificate upon any Note shall be conclusive evidence, and the only evidence, that such Note has been duly authenticated and delivered hereunder and that such Note is entitled to the benefits of this Indenture. Notwithstanding the foregoing, if any Note shall have been authenticated and delivered hereunder but never issued and sold by the Issuer, and the Issuer shall deliver such Note to the Trustee for cancellation as provided in Section 3.07, for all purposes of this Indenture such Note shall be deemed never to have been authenticated and delivered hereunder and shall never be entitled to the benefits of this Indenture.

1.1 SECTION . *Temporary Notes*. Pending the preparation of Definitive Notes, the Issuer may execute, and upon Issuer Order the Trustee shall authenticate and deliver, temporary Notes substantially of the tenor of the Definitive Notes in lieu of which they are issued, which Notes may be printed, lithographed, typewritten, photocopied or otherwise produced. Temporary Notes will be issued as Definitive Notes and may have such appropriate insertions, omissions, substitutions and other variations as the officers executing such Notes may determine, all as evidenced by such execution.

If temporary Notes are issued, the Issuer will cause, if so required by the terms of such temporary Notes, Definitive Notes to be prepared without unreasonable delay, but in no case more than 30 days after issuance of such temporary Notes. After the preparation of Definitive Notes, the temporary Notes shall be exchangeable for Definitive Notes containing identical terms and provisions upon surrender of the temporary Notes at the office or agency of the

Issuer in a Place of Payment, without charge to the Holder. Upon surrender for cancellation of any one or more temporary Notes the Issuer shall execute and the Trustee shall authenticate and deliver in exchange therefor a like aggregate principal amount of Definitive Notes containing identical terms and provisions. Until so exchanged, unless otherwise provided therein or in a supplemental indenture relating thereto, the temporary Notes shall in all respects be entitled to the same benefits (but shall be subject to all the limitations of rights) under this Indenture as Definitive Notes.

Upon any exchange of a portion of a temporary Global Note for a definitive Global Note or for the individual Notes represented thereby pursuant to this Section 3.02 or Section 3.03, the temporary Global Note shall be endorsed by the Trustee to reflect the reduction of the principal amount evidenced thereby, whereupon the principal amount for such temporary Global Note shall be reduced for all purposes by the amount so exchanged and endorsed.

1.1 SECTION . *Registration, Registration of Transfer and Exchange.*

(a) Global Note. The Global Note shall be issued in bearer form and shall be transferable by delivery. The Global Note shall be exchangeable for Definitive Notes only as provided in this paragraph. The Global Note shall be exchangeable pursuant to this Section only (i) if the Book-Entry Depositary notifies the Issuer in writing that it is unwilling or unable to continue to act as Book-Entry Depositary and a successor Book-Entry Depositary is not appointed by the Issuer within 90 days of such notification, (ii) if DTC notifies the Book-Entry Depositary that it is unwilling or unable to continue to hold the certificateless depositary interest issued by the Book-Entry Depositary with respect to the Global Note or if at any time DTC is unable to or ceases to be a clearing agency registered under the Exchange Act and a successor to DTC registered under the Exchange Act is not appointed by the Book-Entry Depositary at the written request of the Issuer within 90 days, or (iii) in the event of a winding-up of the Issuer or if the Issuer fails to make a payment on the Notes when due or in the event of any other Event of Default, at the request of the Holders. If exchangeable pursuant to the preceding sentence, the Global Note shall be exchangeable for Definitive Notes aggregating a like amount as the Global Note so exchangeable. Definitive Notes shall be registered in the names of the owners of the beneficial interests in the Global Note as such names are from time to time provided, where DTC holds the certificateless depositary interest corresponding to the Global Note, by the relevant DTC Participants holding interests in the Global Note (as the names of such DTC Participants are provided to the Book-Entry Depositary from time to time by DTC and by the Book-Entry Depositary to the Issuer) and, in all other cases, by the Holder, to the Trustee.

If the Global Note is exchangeable pursuant to the preceding paragraph, it shall be exchangeable for Definitive Notes issuable in authorized denominations of a like aggregate principal amount and tenor.

Except as provided above, owners solely of beneficial interests in the Global Note shall not be entitled to receive physical delivery of Definitive Notes and will not be considered the holders thereof for any purpose under this Indenture.

The DTC Participants, DTC and any beneficial owners shall have no rights under this Indenture with respect to the Global Note if held on their behalf by a Holder, and such Holder shall be treated by the Issuer, the Trustee, and any agent of the Issuer, the Trustee as the owner of the Global Note for all purposes whatsoever. Notwithstanding the foregoing, nothing herein shall prevent the Issuer, the Trustee, or any agent of the Issuer or the Trustee from giving effect to any written certification, proxy or other authorization furnished by a Holder, or impair, as between DTC or other clearance service and its DTC Participants and Holders, the operation of customary practices governing the exercise of the rights of a holder of any security, including without limitation the granting of proxies or other authorization of participants to give or take any request, demand, authorization, direction, notice, consent, waiver or other action which a Holder is entitled to give or take under this Indenture.

In connection with any exchange of interests in the Global Note for Definitive Notes as provided in this subsection (a), then without unnecessary delay but in any event not later than the earliest date on which such interests may be so exchanged, the Issuer shall deliver to the Trustee Definitive Notes in aggregate principal amount equal to the principal amount of the Global Note or the portion to be exchanged executed by the Issuer. On or after the earliest date on which such interests may be so exchanged, the Global Note shall be surrendered by the Holder to the Trustee, as the Issuer's agent for such purpose, to be exchanged, in whole or from time to time in part, for Definitive Notes without charge and the Trustee shall authenticate and deliver, in exchange for each portion of the Global Note, an equal aggregate principal amount of Definitive Notes as the portion of the Global Note to be exchanged. If the Global Note is exchangeable pursuant to this Section, it shall be exchangeable for Notes registered in such names as the Holder of the Global Note shall direct. If a Definitive Note is issued in exchange for any portion of the Global Note after the close of business at the office or agency where such exchange occurs on any record date and before the opening of business at such office or agency on the relevant Interest Payment Date, interest will not be payable on such Interest Payment Date in respect of such Definitive Note, but will be payable on such Interest Payment Date only to the person to whom payments of interest in respect of such portion of the Global Note are payable.

DTC may grant proxies and otherwise authorize any person, including DTC Participants and persons that may hold interests through DTC Participants, to take any action which a Holder is entitled to take under this Indenture with respect to the Notes.

(a) The Issuer shall cause to be kept in the Corporate Trust Office of the Trustee a register (the register maintained in such office and in any other office or agency of the Issuer in a Place of Payment being herein sometimes collectively referred to as the "Note Register") in which, subject to such reasonable regulations as it may prescribe, the Issuer shall provide for the registration of registered Notes and of transfers of such Notes. The Note Register shall, at all times, be kept, and all transfers shall be entered in the Note Register at a location outside the United Kingdom. The Trustee is hereby appointed "Note Registrar" for the purpose of registering Notes and transfers of Notes as herein provided.

Notes shall be transferable only on the Note Register. Upon surrender for registration of transfer of any Note at an office or agency of the Issuer designated pursuant to Section for such purpose, the Issuer shall execute, and the Trustee shall authenticate and deliver, in the name of the designated transferee or transferees, one or more new Notes of a like aggregate principal amount and tenor.

All Notes issued upon any registration of transfer or exchange of Notes shall be the valid obligations of the Issuer, evidencing the same debt, and entitled to the same benefits under this Indenture, as the Notes surrendered upon such registration of transfer or exchange.

Every Note presented or surrendered for registration of transfer or for exchange shall (if so required by the Issuer or the Trustee) be duly endorsed, or be accompanied by a written instrument of transfer in form satisfactory to the Issuer and the Note Registrar duly executed, by the registered Holder thereof or his attorney duly authorized in writing.

No service charge shall be made for any registration of transfer or exchange of Notes, but the Issuer may require payment of a sum sufficient to cover any tax or other governmental charge that may be imposed in connection with any registration of transfer or exchange of Notes, other than exchanges pursuant to Section or 9.06 not involving any transfer.

1.1 SECTION . *Mutilated, Destroyed, Lost and Stolen Notes.* If any mutilated Note is surrendered to the Trustee, the Issuer may execute, and the Trustee shall authenticate and deliver in exchange therefor, a new Note of like amount, and bearing a number not contemporaneously outstanding.

If there shall be delivered to the Issuer and to the Trustee (a) evidence to their satisfaction of the destruction, loss or theft of any Note and (b) such security or indemnity as may be required by them to save each of them and any agent of any of them harmless, then, in the absence of notice to the Issuer or the Trustee that such Note has been acquired by a bona fide purchaser, the Issuer shall execute, and upon the Issuer's request the Trustee shall authenticate and deliver in lieu of any such destroyed, lost or stolen Note a new Note of like amount, and bearing a number not contemporaneously outstanding.

In case any such mutilated, destroyed, lost or stolen Note has become or is about to become due and payable, the Issuer in its discretion may, instead of issuing a new Note, pay such Note.

Upon the issuance of any new Note under this Section, the Issuer may require the payment of a sum sufficient to cover any tax or other governmental charge that may be imposed in relation thereto and any other expenses (including the fees and expenses of the Trustee) connected therewith.

Every new Note issued pursuant to this Section in lieu of any destroyed, lost or stolen Note shall constitute an original additional contractual obligation of the Issuer, whether or not the destroyed, lost or stolen Note shall be at any time enforceable by anyone, and shall be entitled to all the benefits of this Indenture equally and proportionately with any and all other Notes duly issued hereunder.

The provisions of this Section are exclusive and shall preclude (to the extent lawful) all other rights and remedies with respect to the replacement or payment of mutilated, destroyed, lost or stolen Notes.

1.1 SECTION . *Payment; Interest Rights Preserved.* Interest on any Note which is payable, and is punctually paid or duly provided for, on any Interest Payment Date shall be paid, in the case of Definitive Notes, to the Holder in whose name that Note (or one or more Predecessor Notes) is registered at the close of business on the Regular Record Date for such interest and, in the case of the Global Note, to the Holder thereof including through a Paying Agent outside the United Kingdom by wire transfer of same-day funds to the Holder.

Payment of interest on Definitive Notes, if any are issued, will be made by a dollar check drawn on a bank in The City of New York mailed to each Holder thereof at such Holder's registered address or, upon application by a Holder of at least \$1,000,000 aggregate principal amount of Notes to the Note Registrar, each Paying Agent or the Trustee pursuant to the terms of the Indenture not later than the relevant Regular Record Date, by wire transfer in immediately available funds to a dollar account maintained by the Holder with a bank in The City of New York. Principal of Definitive Notes will be payable at the office of the Note Registrar, any Paying Agent or the Trustee pursuant to the terms of the Indenture or, subject to applicable laws and regulations, in such other place or places as are designated by the Issuer, by dollar check drawn on, or by transfer to a dollar account maintained by the Holder with, a bank located in The City of New York.

Claims in respect of principal and interest will become void unless, in the case of the Global Note, presentation for payment is made within a period of ten years in the case of principal and five years in the case of interest from the date on which the relevant payment first becomes due. The Issuer shall be discharged from its obligation to pay principal and interest on Definitive Notes to the extent that payments duly made are not claimed within a period of ten years in the case

of principal or five years in the case of interest from the date on which the relevant payment first became due.

If any instalment of interest, the Stated Maturity of which is on or prior to the Redemption Date for any Note called for redemption pursuant to Article Eleven, is not paid or duly provided for on or prior to the Redemption Date in accordance with the foregoing provisions of this Section, such interest shall be payable as part of the Redemption Price of such Notes.

Subject to the foregoing provisions of this Section, each Note delivered under this Indenture upon registration of transfer of or in exchange for or in lieu of any other Note shall carry the rights to interest accrued and unpaid, and to accrue interest, which were carried by such other Note.

1.1 SECTION . *Persons Deemed Owners.* The Issuer, the Trustee and any agent of the Issuer or the Trustee may treat (a) the holder of a bearer Note (including the Global Note) and (b) any Person in whose name a Note is registered as the owner of such Note for the purpose of receiving payment of principal of (and premium, if any) and (subject to Section 3.05) interest, if any, on such Note and for all other purposes whatsoever, whether or not such Note be overdue, and none of the Issuer, the Trustee nor any agent of the Issuer or the Trustee shall be affected by notice to the contrary.

1.2 SECTION . *Cancellation.* All Notes surrendered for payment, redemption, registration of transfer or exchange shall, if surrendered to any Person other than the Trustee, be delivered to the Trustee and shall be promptly cancelled by it. The Issuer may at any time deliver to the Trustee for cancellation any Notes previously authenticated and delivered hereunder which the Issuer may have acquired in any manner whatsoever, and may deliver to the Trustee (or to any other person for delivery to the Trustee) for cancellation any Notes previously authenticated hereunder which the Issuer has not issued and sold, and all Notes so delivered shall be promptly cancelled by the Trustee. No Notes shall be authenticated in lieu of or in exchange for any Notes cancelled as provided in this Section, except as expressly permitted pursuant to the provisions of this Indenture. The Trustee shall, upon the written request of the Issuer, return cancelled Notes to the Issuer.

1.3 SECTION . *Computation of Interest.* Payments of interest on the Notes shall be computed on the basis of a 360-day year of twelve 30-day months.

1.4 SECTION . *CUSIP Numbers.* The Issuer in issuing the Notes may use CUSIP numbers, if then generally in use, and thereafter the Trustee may use such numbers in any notice of redemption or exchange; *provided that* any such notice may state that no representation is made as to the correctness of such numbers either as printed on the Notes or as contained in any notice of a redemption and that reliance may be placed only on the other identification numbers printed on the Notes, and any such redemption shall not be affected by any defect in or omission

of such numbers. The Issuer will promptly notify the Trustee of any change in the CUSIP numbers.

2 ARTICLE

SATISFACTION, DISCHARGE AND DEFEASANCE

(a) SECTION . *Satisfaction and Discharge of Indenture.* This Indenture shall upon Issuer Request cease to be of further effect (except as to any surviving rights of registration of transfer or exchange of Notes herein expressly provided for), and the Trustee, at the expense of the Issuer, shall execute proper instruments acknowledging satisfaction and discharge of this Indenture with respect to the Notes when either

(i) all Notes theretofore authenticated and delivered (other than (x) Notes which have been destroyed, lost or stolen and which have been replaced or paid as provided in Section 3.04 and (y) Notes for whose payment money has theretofore been deposited in trust or segregated and held in trust by the Issuer and thereafter repaid to the Issuer or discharged from such trust, as provided in Section) have been delivered to the Trustee for cancellation; or

(ii) all such Notes described in (i) above not theretofore delivered to the Trustee for cancellation

(A) have become due and payable or will become due and payable at the Stated Maturity within one year, or

(B) are to be called for redemption within one year under arrangements satisfactory to the Trustee for the giving of notice of redemption by the Trustee in the name, and at the expense, of the Issuer;

and the Issuer has in the case of (A) or (B) above irrevocably deposited or caused to be deposited with the Trustee, as trust funds in trust for the purpose, an amount in cash or Government Obligations and has delivered a certificate of a firm of independent public accountants to such Trustee verifying that such cash or Government Obligations will be sufficient to pay and discharge all claims with respect to such Notes not theretofore delivered to the Trustee for cancellation, for principal (and premium, if any) and accrued interest, if any and Additional Amounts, if any, to the date of such deposit (in the case of Notes which have become due and payable) or to the Stated Maturity or Redemption Date, as the case may be;

(a) the Issuer has paid or caused to be paid all other sums payable hereunder by the Issuer with respect to the Notes;

(b) the Issuer has delivered to the Trustee an Officers' Certificate and an Opinion of Counsel to the effect that the Holders of the Outstanding Notes will not recognize income, gain or loss for U.S. Federal income tax purposes as a

result of such defeasance and will be subject to U.S. Federal income tax on the same amounts and in the same manner and at the same times as would have been the case if such defeasance had not occurred, each stating that all conditions precedent herein provided for relating to the satisfaction and discharge of this Indenture with respect to the Notes have been complied with;

(a) if the Notes are not to become due and payable at their Stated Maturity, if any, within one year of the date of a deposit pursuant to Section (a)(ii) or are not to be called for redemption within one year of the date of such deposit under arrangements satisfactory to such Trustee as of the date of such deposit, then the Issuer shall have given, not later than the date of such deposit, notice of such deposit to the Holders of such Notes; and

(b) the Issuer shall have delivered to the Trustee an Opinion of Counsel to the effect that payment of amounts deposited in trust with the Trustee as provided in clause (a) hereof will not be subject to future taxes, duties, fines, penalties, assessments or other governmental charges imposed, levied, collected, withheld or assessed by, within or on behalf of the United Kingdom or any political subdivision or governmental authority thereof or having therein power to tax, except to the extent that Additional Amounts in respect thereof shall have been deposited in trust with the Trustee as provided in clause (a) hereof.

Upon the satisfaction of the conditions set forth in this Section with respect to all the Notes, the terms and conditions of the Notes, including the terms and conditions with respect thereto set forth in this Indenture, shall no longer be binding upon, or applicable to, the Issuer; *provided, however*, that in no event shall the Issuer be discharged from (1) any payment obligations in respect of Notes which are deemed not to be "Outstanding" under clause (iii) of the definition thereof if, under such clause (iii), such obligations continue to be valid obligations of the Issuer or (2) any obligations under Sections and ; and *provided, further*, that in the event a petition seeking relief under any applicable Bankruptcy Law is filed and not discharged with respect to the Issuer within 91 days after the deposit, the entire indebtedness on all Notes shall not be discharged, and in such event the Trustee shall return such deposited funds or obligations as it is then holding to the Issuer upon written request from the Issuer.

Notwithstanding any satisfaction and discharge of this Indenture, the obligations of the Issuer to any Authenticating Agent under Section and, if cash and/or Government Obligations shall have been deposited with the Trustee pursuant to subclause (ii) of clause (a) of this Section, the obligations of the Trustee under Section and the last paragraph of Section shall survive any such satisfaction and discharge.

1.1 SECTION . *Application of Trust Money*. Subject to the provisions of the last paragraph of Section , all cash and Government Obligations deposited with the Trustee pursuant to Section shall be held in trust and such cash and the proceeds from such Government Obligations shall be applied by it in accordance

with the provisions of the Notes and this Indenture to the payment, either directly or through any Paying Agent (including the Issuer acting as Paying Agent) as the Trustee may determine, to the Persons entitled thereto, of the principal (and premium, if any) and interest for the payment of which such cash and/or Government Obligations have been deposited with the Trustee.

1.2 SECTION . *Applicability of Defeasance Provisions; Option to Effect Defeasance or Covenant Defeasance.* If provision is made for either or both of (i) defeasance of the Notes under Section or (ii) covenant defeasance of the Notes under Section , then the provisions of such Section or Sections, as the case may be, together with the provisions of Sections through inclusive, shall be applicable to the Notes, and the Issuer may at its option, by Board Resolution, at any time elect to have Section (if applicable) or Section (if applicable) be applied to the Outstanding Notes upon compliance with the conditions set forth below in this Article. SECTION . *Defeasance and Discharge.* Upon the Issuer's exercise of the option specified in Section applicable to this Section , the Issuer shall be deemed to have been discharged from its obligations with respect to the Outstanding Notes on and after the date the conditions set forth in Section are satisfied (hereinafter "defeasance"). For this purpose, such defeasance means that the Issuer shall be deemed to have paid and discharged the entire indebtedness represented by the Outstanding Notes and to have satisfied all its other obligations under such Notes and this Indenture insofar as such Notes are concerned (and the Trustee, at the expense of the Issuer, shall on Issuer Order execute proper instruments acknowledging the same) and such Notes shall thereafter be "outstanding" only for the purpose of the sections of this Indenture referred to in clauses (i) and (ii) below, except the following which shall survive until otherwise terminated or discharged hereunder: (i) the rights of Holders of such Notes to receive, solely from the trust funds described in Section and as more fully set forth in such Section, payments in respect of the principal of (and premium, if any) and interest, if any, and Additional Amounts, if any, on such Notes when such payments are due; (ii) the Issuer's obligations with respect to such Notes under Sections , , , and ; (iii) the rights, powers, trusts, duties and immunities in respect of the Trustee hereunder and (iv) this Article. Subject to compliance with this Article, the Issuer may exercise its option under this Section notwithstanding the prior exercise of its option under Section with respect to such Notes.

1.3 SECTION . *Covenant Defeasance.* Upon the Issuer's exercise of the option specified in Section applicable to this Section , (i) the Issuer shall be released from its obligations under Sections , 10.07 and 10.08, and any covenant provided pursuant to Section 9.01(b) for the benefit of the Holders of Notes and (ii) the occurrence of any event specified in Section (with respect to any of Sections , 10.07 and 10.08 and any such covenants provided pursuant to Section 9.01(b)) shall be deemed not to be or result in an Event of Default, in each case as provided in this Section, on and after the date the conditions set forth in Section are satisfied (hereinafter, "covenant defeasance") and the Notes shall thereafter be deemed not "Outstanding" for the purpose of any direction, waiver, consent or

declaration or act of Holders (and the consequences of any thereof) in connection with such covenants, but shall continue to be "Outstanding" for all other purposes hereunder. For this purpose, such covenant defeasance means that the Issuer may omit to comply with and shall have no liability in respect of any term, condition or limitation set forth in any such covenant, whether directly or indirectly, by reason of any reference elsewhere herein to any such covenant or by reason of reference in any such covenant to any other provision herein or in any other document and such omission to comply shall not constitute a Default or an Event of Default under Section , but, except as specified above, the remainder of this Indenture and the Notes shall be unaffected thereby.

1.4 SECTION . *Conditions to Defeasance or Covenant Defeasance.* The following shall be the conditions to application of either Section or Section to the Outstanding Notes, as the case may be:

(a) The Issuer shall have deposited or caused to be deposited with the Trustee (or another trustee satisfying the requirements of Section who shall agree to comply with the provisions of this Article applicable to it, for purposes of such Sections also a "Trustee") as trust funds in trust for the purpose of making the payments referred to in clauses (x) and (y) of this Section , specifically pledged as a security for, and dedicated solely to, the benefit of the Holders of such securities, with instructions to the Trustee as to the application thereof,

- (i) money in an amount, or
- (ii) non-callable Government Obligations which through the scheduled payment of interest and principal in respect thereof in accordance with their terms will provide, not later than one day before the due date of any payment referred to in clause (x) or (y) of this Section , money in an amount or
- (iii) a combination thereof in an amount, sufficient, without reinvestment, in the opinion of a nationally recognized firm of independent certified public accountants expressed in a written certification thereof delivered to the Trustee, to pay and discharge, the principal of (and premium, if any) and interest, if any, on the Outstanding Notes on the Maturity of such principal or instalment of principal or interest. Before such a deposit the Issuer may make arrangements satisfactory to the Trustee for the redemption of Notes at a future date or dates in accordance with Article which shall be given effect in applying the foregoing.

(b) Such defeasance or covenant defeasance shall not result in a breach or violation of, or constitute a default under, any agreement or instrument to which the Issuer is a party or by which it is bound.

(c) No Default or Event of Default under Section or shall have occurred and be continuing during the period commencing on the date of such deposit and ending on the 91st day after such date (it being understood that this condition shall not be deemed satisfied until the expiration of such period).

(d) In the case of an election under Section , the Issuer shall have delivered to the Trustee (A) an Opinion of Counsel to the effect that (i) the Issuer has received from, or there has been published by, the Internal Revenue Service a ruling, or (ii) since the date of execution of this Indenture, there has been a change in the applicable Federal income tax law, in either case to the effect that, and based thereon such opinion shall confirm that, the Holders of the Outstanding Notes will not recognize income, gain or loss for Federal income tax purposes as a result of such defeasance and will be subject to Federal income tax on the same amount and in the same manner and at the same times, as would have been the case if such deposit, defeasance and discharge had not occurred.

(e) In the case of an election under Section , the Issuer shall have delivered to the Trustee an Opinion of Counsel to the effect that the Holders of the Outstanding Notes will not recognize income, gain or loss for Federal income tax purposes as a result of such defeasance and will be subject to Federal income tax on the same amounts and in the same manner and at the same times as would have been the case if such defeasance had not occurred.

(f) The Issuer shall have delivered to the Trustee an Officers' Certificate and an Opinion of Counsel, each stating that all conditions precedent to the defeasance under Section or the covenant defeasance under Section (as the case may be) have been complied with.

1.5 SECTION . *Deposited Money and Government Obligations to be Held in Trust.* Subject to the provisions of the last paragraph of Section , all money and Government Obligations (including the proceeds thereof) deposited with the Trustee pursuant to Section in respect of the Outstanding Notes shall be held in trust and applied by the Trustee, in accordance with the provisions of such Notes and this Indenture, to the payment, either directly or through any Paying Agent (including the Issuer acting as its own Paying Agent) as the Trustee may determine, to the Holders of such Notes thereto of all sums due and to become due thereon in respect of principal, premium, if any, and interest, but such money need not be segregated from other funds except to the extent required by law.

1.6 SECTION . *Reinstatement.* If the Trustee or any Paying Agent is unable to apply any money in accordance with Section or Section by reason of any order or judgment or any court or governmental authority enjoining, restraining or otherwise prohibiting such application, then the Issuer's obligations under this Indenture and the Notes shall be revived and reinstated as though no deposit had occurred pursuant to this Article until such time as the Trustee or Paying Agent is permitted to apply all such money in accordance with Section or ; provided, however, that if the Issuer makes any payment of principal of (and premium, if any) or interest on the Notes following the reinstatement of its obligations, the Issuer shall be subrogated to the rights of the Holders of such Notes to receive such payment from the money so held in trust.

In the event the Issuer exercises its option under Section or with respect to the Notes and the Notes are declared due and payable because of the occurrence of any Event of Default and the amount of money and Government Obligations so

deposited in trust is not sufficient to pay amounts due on the Notes upon any acceleration resulting from such Event of Default, the Issuer will remain liable for such payment.

1.1 SECTION . *Indemnity for Government Obligations*. The Issuer shall pay, and shall indemnify the Trustee against, any tax, fee or other charge imposed on or assessed against Government Obligations deposited pursuant to this Article or the principal and interest received on such Government Obligations other than any such tax, fee or other charge which by law is for the account of the Holders of Outstanding Notes.

1.2 SECTION . *Return of Moneys Held by Trustee and Paying Agent Unclaimed, for Two Years*. Any moneys deposited with or paid to the Trustee or any Paying Agent for the payment of the principal of or interest, if any, on any Note and not applied but remaining unclaimed for two years after the date upon which such principal of interest shall have become due and payable, shall, upon the written request of the Issuer and unless otherwise required by mandatory provisions of applicable escheat or abandoned or unclaimed property law, be repaid to the Issuer by the Trustee or such Paying Agent, and the Holder of such Note shall, unless otherwise required by mandatory provisions of applicable escheat or abandoned or unclaimed property laws, thereafter look only to the Issuer for any payment which such Holder may be entitled to collect, and all liability of the Trustee or any Paying Agent with respect to such moneys shall thereupon cease.

REMEDIES

1.1 SECTION . *Events of Default*. "Event of Default", wherever used herein with respect to Notes, means (i) any one of the following events which shall have occurred and be continuing (whatever the reason for such Event of Default and whether it shall be voluntary or involuntary or be effected by operation of law or pursuant to any judgment, decree or order of any court or any order, rule or regulation of any administrative or governmental body);

(a) the Issuer shall default in payment or prepayment of all or any part of the principal of any Note or any interest on the Notes when and as the same shall become due and payable, whether at Stated Maturity, by acceleration, by notice of redemption or otherwise and, in the case of interest only, such default shall have continued for a period of 30 days or more;

(b) except as provided in the preceding clause (a), the Issuer shall default in the performance or observance of any of its other obligations contained in the Notes or the Indenture and such default shall continue for more than 90 consecutive days after written notice thereof is given to the Issuer;

(c) there shall have been a default under any bond, debenture, note or other evidence of indebtedness for money borrowed by the Issuer or any Principal Subsidiary having an aggregate principal amount outstanding of at least £30,000,000 or, after August 15, 2003, the greater of 0.5% of Consolidated Net Tangible Assets and £30,000,000, or under any mortgage, indenture or instrument under which there may be issued or by which there may be secured or evidenced any indebtedness for money borrowed by the Issuer or any Principal Subsidiary, whether such indebtedness now exists or shall hereafter be created, which default shall have resulted in such indebtedness of £30,000,000 or, after August 15, 2003, the greater of 0.5% of Consolidated Net Tangible Assets and £30,000,000 becoming or being declared due and payable prior to the date on which it would otherwise have become due and payable, without such indebtedness having been discharged, or such acceleration having been rescinded or annulled, within a period of 30 days after written notice is provided to the Issuer;

(d) the entry by a court having jurisdiction in the premises of (x) a decree or order for relief in respect of the Issuer in an involuntary case or proceeding under any applicable bankruptcy, liquidation, insolvency, reorganization or other similar law or (y) a decree or order adjudging the Issuer or any Principal Subsidiary a bankrupt or insolvent, or approving as properly filed a petition seeking reorganization, arrangement, adjustment or composition of or in respect of the Issuer or any Principal Subsidiary under any applicable law, or appointing a custodian, receiver, liquidator, assignee, trustee, sequestrator or other similar official of the Issuer or any Principal Subsidiary or any substantial part of its property, or ordering the winding up or liquidation of its affairs, and the continuance of any such decree or order for relief or any such other decree or order unstayed and in effect for a period of 90 consecutive days; or

(e) the commencement by the Issuer or any Principal Subsidiary of a voluntary case or proceeding under any applicable bankruptcy, liquidation, insolvency, reorganization or other similar law or of any other case or proceeding to be adjudicated a bankrupt or insolvent, or the consent by it to the entry of a decree or order for relief in respect of the Issuer or any Principal Subsidiary in an involuntary case or proceeding under any applicable bankruptcy, liquidation, insolvency, reorganization or other similar law or to the commencement of any bankruptcy or insolvency case or proceeding against it, or the filing by it of a petition or answer or consent seeking reorganization or relief under any applicable law, or the consent by it to the filing of such petition or to the appointment of or taking possession by a custodian, receiver, liquidator, assignee, trustee, sequestrator or other similar official of the Issuer or any Principal Subsidiary or of any substantial part of any of their respective property, or the making by the Issuer or any Principal Subsidiary of an assignment for the benefit of creditors, or the taking of a corporate action by the Issuer or any Principal Subsidiary in furtherance of any such action.

1.2 SECTION . *Acceleration of Maturity; Rescission and Annulment.* If an Event of Default under section , or occurs and is continuing, any Holder may declare the principal amount of all the Notes, together with any accrued interest,

to be due and payable immediately. If an Event of Default under Section 5.01(a), , 5.01(d) or 5.01(e) occurs and is continuing, the Holders of not less than 25% in aggregate principal amount of the Outstanding Notes may declare by written notice to the Issuer and the Trustee the principal amount of all the Notes, together with any accrued interest, to be due and payable immediately. At any time after such declaration of acceleration has been made, but before a judgment or decree for payment of money has been obtained by the Trustee, the Holders of a majority in aggregate principal amount of the Notes, under certain circumstances, may rescind and annul such declaration. In addition, past defaults with respect to the Notes may be waived by the Holders of a majority in aggregate principal amount of the Notes then outstanding, except a default in the payment of principal of or interest on the Notes declared by a particular Holder or in respect of a covenant or provision of the Indenture which cannot be modified or amended without the consent of the Holder of each Note affected.

If an Event of Default described in paragraph occurs and is continuing, then and in each and every such case, the principal amount of the Outstanding Notes together with any accrued interest, shall, without any declaration or other act on the part of the Trustee or any Holder of the Notes, become and be immediately due and payable, anything in this Indenture or in the Notes contained to the contrary notwithstanding.

At any time after such a declaration of acceleration with respect to the Notes has been made but before a judgment or decree for payment of the money due has been obtained by the Trustee as hereinafter in this Article provided, the Holder or Holders of a majority in aggregate principal amount of the Outstanding Notes, by written notice to the Issuer and the Trustee, may rescind and annul such declaration of acceleration and its consequences, but only if

- (a) the Issuer has paid or deposited with the Trustee a sum sufficient to pay
 - (i) the principal of (and premium, if any, on) any Notes which have become due otherwise than by such declaration of acceleration and any due and payable interest, and overdue interest, if any, thereon at the rate or rates prescribed therefor in the Notes,
 - (ii) to the extent that payment of such interest is lawful, interest upon overdue interest at the rate or rates prescribed therefor in the Notes, and
 - (iii) all sums paid or advanced by the Trustee hereunder except as a result of negligence or bad faith and the reasonable compensation, expenses, disbursements and advances of the Trustee, its agents and counsel; and
- (b) all Events of Default with respect to the Notes, other than the non-payment of principal which has become due solely by such declaration of acceleration, have been cured or waived as provided in Section .

No such rescission shall affect any subsequent default or impair any right consequent thereon.

1.1 SECTION . *Collection of Indebtedness and Suits for Enforcement by Trustee.* The Issuer covenants that if:

(a) default is made in the payment of any interest on any Note when such interest becomes due and payable and such default continues for a period of 30 days, or

(b) default is made in the payment of the principal of (or premium, if any, on) any Note at the Maturity thereof,

the Issuer will, upon demand of the Trustee, pay for it, for the benefit of the Holders of such Notes, the whole amount then due and payable on such Notes for principal (and premium, if any) and interest, if any, and interest on any overdue principal (and premium, if any) and, to the extent that payment of such interest shall be legally enforceable, interest on any overdue interest, at the rate or rates prescribed therefor in such Notes; and, in addition thereto, such further amount as shall be sufficient to cover the costs and expenses of collection, including the reasonable compensation, expenses, disbursements and advances (except those made in bad faith or as a result of negligence) of the Trustee, its agents and counsel.

If an Event of Default occurs and is continuing, the Trustee may in its discretion proceed to protect and enforce its rights and the rights of the Holders by such appropriate judicial proceedings as the Trustee shall deem most effectual to protect and enforce any such rights, whether for the specific enforcement of any covenant or agreement in this Indenture or in aid of the exercise of any power granted herein, or to enforce any other proper remedy.

1.1 SECTION . *Trustee May File Proofs of Claim.* In case of any judicial proceeding relative to the Issuer (or any other obligor upon the Notes), its property or its creditors, the Trustee shall be entitled and empowered, by intervention in such proceeding or otherwise, to take any and all actions authorized under the Trust Indenture Act in order to have claims of the Holders and the Trustee allowed in any such proceeding. In particular, the Trustee shall be authorized to collect and receive any moneys or other property payable or deliverable on any such claims and to distribute the same; and any custodian, receiver, assignee, trustee, liquidator, sequestrator or other similar official in any such judicial proceeding is hereby authorized by each Holder of a Note to make such payments to the Trustee and, in the event that the Trustee shall consent to the making of such payments directly to the Holders, to pay to the Trustee any amounts due it for the reasonable compensation, expenses, disbursements and advances of the Trustee, its agents and counsel, and any other amounts due to the Trustee under Section .

No provision of this Indenture shall be deemed to authorize the Trustee to authorize or consent to or accept or adopt on behalf of any Holder any plan or reorganization, arrangement, adjustment or composition affecting the Notes or the rights of any Holder thereof or to authorize the Trustee to vote in respect of the claim of any Holder in any such proceeding; provided, however, that the Trustee may, on behalf of the Holders, vote for the election of a trustee in bankruptcy or similar official and be a member of a creditors' or other similar committee.

1.1 SECTION . *Trustee May Enforce Claims Without Possession of Notes.* All rights of action and claims under this Indenture or the Notes may be prosecuted and enforced by the Trustee without the possession of any of the Notes or the production thereof in any proceeding relating thereto, and any such proceeding instituted by the Trustee shall be brought in its own name as trustee of an express trust, and any recovery of judgment shall, after provision for the payment of the reasonable compensation, expenses, disbursements and advances of the Trustee, its agents and counsel and any other amounts due to the Trustee under Section , be for the ratable benefit of the Holders of the Notes in respect of which such judgment has been recovered.

1.2 SECTION . *Application of Money Collected.* Any money collected by the Trustee pursuant to this Article shall be applied in the following order, at the date or dates fixed by the Trustee and, in case of the distribution of such money on account of principal (and premium, if any), interest, if any, or Additional Amounts, if any, upon presentation of the Notes and the notation thereon of the payment if only partially paid and upon surrender thereof if fully paid:

FIRST: To the payment of all amounts in respect of which or for the benefit of which such money has been collected due the Trustee under Section ;

SECOND: To the payment of the amounts then due and unpaid for principal of (and premium, if any) interest, if any, and Additional Amounts, if any, on the Notes in respect of which or for the benefit of which such money has been collected, ratably, without preference or priority of any kind, according to the amounts due and payable on such Notes for principal (and premium, if any) interest, if any, and Additional Amounts, if any, respectively; and

THIRD: To the payment of the balance, if any, to the Issuer or any other Person or Persons, including the Issuer, legally entitled thereto.

1.1 SECTION . *Limitation on Suits.* No Holder of any Note shall have any right to institute any proceeding, judicial or otherwise, with respect to this Indenture, or for the appointment of a receiver or trustee, or for any other remedy hereunder, unless

(a) such Holder has previously given written notice to the Trustee of a continuing Event of Default specifying such Event of Default and stating that such notice is a "Notice of Default" hereunder;

(b) the Holders of not less than 25% in aggregate principal amount of the Outstanding Notes shall have made written request to the Trustee to institute proceedings in respect of such Event of Default in its own name, as Trustee hereunder;

(c) such Holder has offered to the Trustee reasonable indemnity against the costs, expenses and liabilities to be incurred in compliance with such request;

(d) the Trustee for 60 days after its receipt of such notice, request and offer of indemnity has failed to institute any such proceeding; and

(e) no direction inconsistent with such written request has been given to the Trustee during such 60-day period by the Holders of a majority in principal amount of the Outstanding Notes;

it being understood and intended that no one or more Holders of Notes appertaining thereto shall have any right in any manner whatever by virtue of, or by availing of, any provision of this Indenture to affect, disturb or prejudice the rights of any other such Holders, or to obtain or to seek to obtain priority or preference over any other such Holders or to enforce any right under this Indenture, except in the manner herein provided and for the equal and ratable benefit of all Holders.

1.1 SECTION . *Unconditional Right of Holders to Receive Principal, Premium, if any, Interest, and Additional Amounts, if any.* Notwithstanding any other provision in this Indenture, the Holder of any Note shall have the right, which is absolute and unconditional, to receive payment of the principal of (and premium, if any), (subject to Section) interest, if any, and Additional Amounts, if any, on such Note on the respective Stated Maturities as expressed in such Note (or, in the case of redemption, on the Redemption Date) and to institute suit for the enforcement of any such payment, and such rights shall not be impaired without the consent of such Holder.

1.2 SECTION . *Restoration of Rights and Remedies.* If the Trustee or any Holder of any Note has instituted any proceeding to enforce any right or remedy under this Indenture and such proceeding has been discontinued or abandoned for any reason, or has been determined adversely to the Trustee or to such Holder, then and in every such case, subject to any determination in such proceeding, the Issuer, the Trustee and the Holders of Notes shall be restored severally and respectively to their former positions hereunder and thereafter all rights and remedies of the Trustee and the Holders of Notes shall continue as though no such proceeding had been instituted.

1.3 SECTION . *Rights and Remedies Cumulative.* Except as otherwise provided with respect to the replacement or payment of mutilated, destroyed, lost

or stolen Notes in the last paragraph of Section , no right or remedy herein conferred upon or reserved to the Trustee or to the Holders of Notes is intended to be exclusive of any other right or remedy, and every right and remedy shall, to the extent permitted by law, be cumulative and in addition to every other right and remedy given hereunder or now or hereafter existing at law or in equity or otherwise. The assertion or employment of any right or remedy hereunder, or otherwise, shall not prevent the concurrent assertion or employment of any other appropriate right or remedy.

1.4 SECTION . *Delay or Omission Not Waiver.* No delay or omission of the Trustee or of any Holder of any Note to exercise any right or remedy accruing upon any Event of Default shall impair any such right or remedy or constitute a waiver of any such Event of Default or an acquiescence therein. Every right and remedy given by this Article or by law to the Trustee or to the Holders of Notes may be exercised from time to time, and as often as may be deemed expedient, by the Trustee or by the Holders of Notes.

1.5 SECTION . *Control by Holders.* The Holders of a majority in aggregate principal amount of the Outstanding Notes shall have the right to direct the time, method and place of conducting any proceeding for any remedy available to the Trustee, or exercising any trust or power conferred on the Trustee with respect to the Notes, provided that

- (a) such direction shall not be in conflict with any rule of law or with this Indenture or unduly prejudicial to the rights of other Holders or involve the Trustee in personal liability; and
- (b) the Trustee may take any other action deemed proper by the Trustee which is not inconsistent with such direction.

1.6 SECTION . *Waiver of Past Defaults.* The Holders of not less than a majority in aggregate principal amount of the Outstanding Notes by notice to the Trustee may on behalf of the Holders of all the Notes waive any past Event of Default or Default hereunder and its consequences, except an Event of Default or Default

- (a) in the payment of the principal of (or premium, if any) or interest, if any, on any Note, or
- (b) in respect of a covenant or provision hereof which under Article Nine cannot be modified or amended without the consent of the Holder of each Outstanding Note affected.

Upon any such waiver, such Event of Default or Default shall cease to exist, and any Event of Default or Default arising therefrom shall be deemed to have been cured and not to have occurred for every purpose of this Indenture, but no such waiver shall extend to any subsequent or other Event of Default or Default or impair any right consequent thereon.

1.1 SECTION . *Undertaking for Costs*. In any suit for the enforcement of any right or remedy under this Indenture, or in any suit against the Trustee for any action taken, suffered or omitted by it as Trustee, a court may require any party litigant in such suit to file an undertaking to pay the costs of such suit, and may assess costs against any such party litigant, in the manner and to the extent provided in the Trust Indenture Act; provided that neither this Section nor the Trust Indenture Act shall be deemed to authorize any court to require such an undertaking or to make such assessment in any suit instituted by the Issuer, in any suit instituted by the Trustee, in any suit instituted by any Holder, or group of Holders, holding in the aggregate more than 10% in principal amount of the Outstanding Notes, or in any suit instituted by any Holder for the enforcement of the payment of the principal of or any premium or interest on any Note on or after the Stated Maturity expressed in such Note (or, in the case of redemption, on or after the Redemption Date).

1.2 SECTION . *Waiver of Usury, Stay or Extension Laws*. The Issuer covenants (to the extent that it may lawfully do so) that it will not at any time insist upon, or plead, or in any manner whatsoever claim or take the benefit or advantage of, any usury, stay or extension law wherever enacted, now or at any time hereafter in force, which may affect the covenants or the performance of this Indenture; and the Issuer (to the extent it may lawfully do so) hereby expressly waives all benefit or advantage of any such law and covenants that it will not hinder, delay or impede the execution of any power herein granted to the Trustee, but will suffer and permit the execution of every such power as though no such law had been enacted.

1.3 SECTION . *Compliance Certificate; Notices of Default.* The Issuer is required to deliver to the Trustee annually a statement, in the form of an Officers' Certificate, regarding compliance with this Indenture, and the Issuer is required, within five Business Days, upon becoming aware of any Default or Event of Default, to deliver to the Trustee a statement, in the form of an Officers' Certificate, specifying such Default or Event of Default.

THE TRUSTEE

1.1 SECTION . *Certain Duties and Responsibilities.* The duties and responsibilities of the Trustee shall be as provided by Section 315 of the Trust Indenture Act. Notwithstanding the foregoing, no provision of this Indenture shall require the Trustee to expend or risk its own funds or otherwise incur any financial liability in the performance of any of its duties hereunder, or in the exercise of any of its rights or powers. Whether or not therein expressly so provided, every provision of this Indenture relating to the conduct or affecting the liability of or affording protection to the Trustee shall be subject to the provisions of this Section. In case an Event of Default has occurred which has not been cured or waived, the Trustee shall exercise such of the rights and powers vested in it by this Indenture, and use the same degree of care and skill in their exercise, as a prudent person would exercise or use under the circumstances in the conduct of such person's own affairs.

1.2 SECTION . *Notice of Defaults.* If a Default actually known to a Responsible Officer of the Trustee occurs hereunder, the Trustee shall, within 90 days after it occurs, give the Holders notice of such Default as and to the extent provided by the Trust Indenture Act unless such Default shall have been cured or waived.

1.3 SECTION . *Certain Rights of Trustee.* Subject to the provisions of Section and in the absence of bad faith on its part:

(a) the Trustee may conclusively rely and shall be protected in acting or refraining from acting upon, whether in its original or facsimile form, any resolution, certificate, statement, instrument, opinion, report, notice, request, direction, consent, order, bond, debenture, note, coupon or other evidence of indebtedness or other paper or document believed by it to be genuine and to have been signed or presented by the proper party or parties;

(f) the Trustee shall not be bound to make any investigation into the facts or matters stated in any resolution, certificate, statement, instrument, opinion, report, notice, request, direction, consent, order, bond, debenture, note, coupon or other evidence of indebtedness or other paper or document, but the Trustee, in its discretion, may make such further inquiry or investigation into such facts or matters as it may see fit and, if the Trustee shall determine to make such further inquiry or investigation, it shall be entitled to examine the books, records and premises of the Issuer, personally or by agent or attorney at the sole cost of the Issuer and shall incur no liability or additional liability of any kind by reason of such inquiry or investigation; and

1.4 SECTION . *Not Responsible for Recitals or Issuance of Notes.* The recitals contained herein and in the Notes, except the Trustee's certificates of authentication, shall be taken as the statements of the Issuer, and neither the Trustee nor any Authenticating Agent assumes any responsibility for their correctness. Any corporation or national banking association into which an Authenticating Agent may be merged or converted or with which it may be consolidated, or any corporation or national banking association resulting from any merger, conversion or consolidation to which such Authenticating Agent shall be a party, or any corporation or national banking association succeeding to all or substantially all the corporate agency or corporate trust business of an Authenticating Agent, shall continue to be an Authenticating Agent, provided such corporation or national banking association shall be otherwise eligible under this Section, without the execution or filing of any paper or any further act on the part of the Trustee or the Authenticating Agent.

An Authenticating Agent may resign at any time by giving written notice thereof to the Trustee and the Issuer. The Trustee may at any time terminate the agency of an Authenticating Agent by giving written notice thereof to such Authenticating Agent and the Issuer. Upon receiving such a notice of resignation or upon such a termination, or in case at any time such Authenticating Agent shall cease to be eligible in accordance with the provisions of this Section, the Trustee may appoint a successor Authenticating Agent which shall be acceptable to the Issuer and shall give notice thereof to the Holders of Notes in the manner and to the extent provided in Section . - (b) during the continuance of any default by the Issuer (or any other obligor upon the Notes) in the making of any payment in respect of the Notes, and upon the written request of the Trustee, forthwith pay to the Trustee all sums so held in trust by such Paying Agent for payment in respect of the Notes.

The Issuer may at the time, for the purpose of obtaining the satisfaction and discharge of this Indenture or for any other purpose, pay, or by Issuer Order direct any Paying Agent to pay, to the Trustee all sums held in trust by the Issuer or such Paying Agent, such sums to be held by the Trustee upon the same trusts as those upon which such sums were held by the Issuer or such Paying Agent; and, upon such payment by any Paying Agent to the Trustee such Paying Agent shall be released from all further liability with respect to such money.

Any money deposited with the Trustee or any Paying Agent, or then held by the Issuer, in trust for the payment of the principal of (and premium, if any), interest, if any, or Additional Amounts, if any, on any Note and remaining unclaimed for two years after such principal (and premium, if any), interest, if any, or Additional Amounts, if any, have become due and payable shall be paid to the Issuer on Issuer Request, or (if then held by the Issuer) shall be discharged from such trust; and the Holder of such Note shall thereafter, as an unsecured general creditor, look only to the Issuer for payment thereof, and all liability of the Trustee or such Paying Agent with respect to such trust money, and all liability of the Issuer as trustee thereof, shall thereupon cease; provided, however, that the Trustee or such Paying Agent, before being required to make any such repayment, may at the expense of the Issuer cause to be published at least once, in Authorized Newspapers, published in the Borough of Manhattan, The City of New York and in London, England, notice that such money remains unclaimed and that, after a date specified therein, which shall not be less than 30 days from the date of such publication, any unclaimed balance of such money then remaining will be paid to the Issuer.

1.1 SECTION . *Additional Amounts*. The Issuer will make payments of principal and interest on any Note without withholding or deduction for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed or levied by or on behalf of the United Kingdom or by or within any political subdivision thereof or any authority therein having power to tax, unless such taxes, duties, assessments or governmental

charges are required by law to be withheld or deducted. If the Issuer is required to make any such deduction or withholding in respect of taxes, the Issuer will pay to a Holder of a Note who is not a resident of the United Kingdom for UK tax purposes such additional amounts ("Additional Amounts") as may be necessary in order that the net amounts paid to such Holder, after such deduction or withholding, shall be not less than the amount specified in such Note to which such Holder is entitled, *provided, however*, that the Issuer shall not be required to make any payment of Additional Amounts to a Holder for or on account of:

- (a) any tax, duty, assessment or other governmental charge which would not have been imposed, withheld or deducted but for (i) the existence of any present or former connection between the Holder or beneficial owner of a Note (or between a fiduciary, settlor, beneficiary, member or shareholder or possessor of a power over such Holder or beneficial owner, if such Holder or beneficial owner is an estate, trust, partnership or corporation) and the United Kingdom or any political subdivision or territory or possession thereof or area subject to its jurisdiction, including, without limitation, such Holder or beneficial owner (or such fiduciary, settlor, beneficiary, member, shareholder or possessor) being or having been a domiciliary, national or resident thereof or being or having been present or engaged in trade or business therein or having or having had a permanent establishment, office, branch or fixed base therein or otherwise having or having had some connection with United Kingdom or such political subdivision, territory or possession other than the holding or ownership of a Note or the collection of principal of and interest, if any, on, or the enforcement of, a Note or (ii) payment in respect of a Note being made (x) in the United Kingdom or (y) on a date more than 30 days after the date on which such payment became due and payable or the date on which payment thereof is duly provided for, whichever occurs later, except to the extent that the Holder would have been entitled to such Additional Amounts if it had presented such Note for payment on any day within such period of 30 days;
- (b) any estate, inheritance, gift, sale, transfer, personal property or similar tax, assessment or other governmental charge;
- (c) any tax, duty, assessment or other governmental charge which is payable otherwise than by withholding or deduction from payment of (or in respect of) principal of, or any interest on, the Notes;
- (d) any tax, duty, assessment or other governmental charge that would not have been imposed, deducted or withheld by reason of the failure of the Holder or the beneficial owner of a Note or the beneficial owner of any payment on such Note to comply with a request of the Issuer addressed to the Holder or such beneficial owner (i) to provide information concerning the nationality, residence, identity or connection with the United Kingdom or any political subdivision or taxing authority thereof of the Holder or such beneficial owner or (ii) to make any declaration or other similar claim to satisfy any information or reporting requirement which, in the case of (i) or (ii), is required or imposed by a statute, treaty, regulation, ruling or administrative practice of the taxing

jurisdiction as a precondition to exemption from withholding or deduction of all or part of such tax, duty, assessment or other governmental charge;

(e) any tax, duty, assessment or other governmental charge which is payable in respect of any payments on a Definitive Note issued at the request of the Holder on or after the occurrence of an Event of Default; or

(f) any combination of items (a), (b) (c), (d) or (e) above; nor shall Additional Amounts be paid with respect to any payment of the principal of, or any interest on, any Note to any Holder who is a fiduciary or partnership or other than the sole beneficial owner of such payment to the extent such payment would be required by the laws of the United Kingdom (or any political subdivision or taxing authority thereof or therein) to be included in the income for tax purposes of a beneficiary or settlor with respect to such fiduciary or a member of such partnership or to a beneficial owner who would not have been entitled to such additional amounts had it been the Holder of such Note.

Whenever in this Indenture there is mentioned, in any context, the payment of the principal of (or any premium) or interest on, or in respect of, any Note or the net proceeds received in the sale or exchange of any Note, such mention shall be deemed to include mention of the payment of Additional Amounts provided for in this section to the extent that, in such context, Additional Amounts are, were or would be payable in respect thereof pursuant to the provisions of this Section and express mention of the payment of Additional Amounts (if applicable) in any provisions hereof shall not be construed as excluding Additional Amounts in those provisions hereof where such express mention is not made.

1.1 SECTION . *Statement by Officers of Issuer as to Default.* The Issuer will deliver to the Trustee, within 120 days after the end of each fiscal year of the Issuer ending after the date hereof, an Officers' Certificate, stating whether or not to the best of knowledge of the signers thereof the Issuer is in default in the performance and observance of any of the terms, provisions and conditions of this Indenture (without regard to any period of grace or requirement of notice provided hereunder) and, if the Issuer shall be in default, specifying all such defaults and the nature and status thereof of which they may have knowledge. One of the persons signing the Officers' Certificate given pursuant to this Section shall be the principal executive, financial or accounting officer of the Issuer.

1.2 SECTION . *Existence.* Subject to Article , the Issuer will at all times do or cause to be done all things necessary to preserve and keep in full force and effect its existence.

Notwithstanding the foregoing, the Issuer and the Principal Subsidiaries may create, incur, guarantee or assume Debt secured by a lien which would otherwise be subject to the foregoing restrictions in an aggregate amount which, together with all other such Debt of the Issuer and the Principal Subsidiaries and their Attributable Debt in respect of Sale and Leaseback Transactions (other than Attributable Debt in respect of Sale and Leaseback Transactions permitted because the Issuer or such Principal Subsidiaries would be entitled to create, incur, guarantee or assume such Debt secured by a lien on the property to be leased without equally and ratably securing the Notes pursuant to the preceding paragraph and other than Sale and Leaseback Transactions the proceeds of which have been applied as provided in Section 10.08(vi)), does not at the time such Debt is incurred exceed 15% of Consolidated Net Tangible Assets.

1.1 SECTION . *Limitation on Sale and Leaseback Transactions*. - (iv) such transaction is entered into within one year after (A) the initial acquisition by the Issuer of the assets or (B) in the case of property, the latter of the acquisition, the completion of construction (including any improvements, alterations or repairs on an existing property) or the commencement of the commercial operation of such property, subject to such transaction;
- (v) after giving effect thereto, the aggregate amount of all Attributable Debt with respect to all such Sale and Leaseback Transactions does not exceed 15% of Consolidated Net Tangible Assets; or
- (vi) the Issuer or a Principal Subsidiary within the 12 months preceding the sale or transfer or the 12 months following the sale or transfer, regardless of whether such sale or transfer may have been made by the Issuer or such Principal Subsidiary, as the case may be, applies, in the case of a sale or transfer for cash, an amount equal to the net proceeds thereof and, in the case of a sale transfer otherwise than for cash, an amount equal to the fair value of the assets so leased at the time of entering into such arrangement (as determined by the Board of Directors of the Issuer or such Principal Subsidiary, as the case may be), to the retirement of indebtedness for money borrowed, incurred or assumed by the Issuer or a Principal Subsidiary, as the case may be, which by its terms matures at, or is extendible or renewable at the option of the obligor to, a date more than 12 months after the date of incurring, assuming or guaranteeing such debt.

1.2 SECTION . *Waiver of Certain Covenants*. Holders of at least 66 % in aggregate principal amount of the Outstanding Notes shall by Act of such Holders, either waive such compliance in such instance or generally waive compliance with such term, covenant or condition, but no such waiver shall extend to or affect such term, provision or condition except to the extent so expressly waived, and, until such waiver shall become effective, the obligations of the Issuer and the duties of the Trustee in respect of any such term, provision or condition shall remain in full force and effect.

2 ARTICLE

REDEMPTION OF NOTES

1.1 SECTION . *Applicability of Article.* The Notes shall be redeemable in accordance with their terms and in accordance with this Article.

1.2 SECTION . *Election to Redeem.* The election of the Issuer to redeem any Notes shall be evidenced by or pursuant to a Board Resolution.

1.3 SECTION . *Notice of Redemption.* Notice of redemption shall be given not less than 30 nor more than 60 days prior to the Redemption Date to each Holder of Notes to be redeemed in the manner and to the extent provided in Section .

All notices of redemption shall state:

- (a) the Redemption Date,
- (b) the Redemption Price, plus accrued interest, if any, to the Redemption Date,
- (c) that, on the Redemption Date, the Redemption Price will become due and payable upon each such Note to be redeemed and, if applicable, that interest thereon will cease to accrue on or after the Redemption Date, and
- (d) the place or places where Notes are to be surrendered for payment of the Redemption Price.

No such notice of redemption shall be given earlier than 60 days prior to the earliest date on which the Issuer would be required to pay Additional Amounts (or Additional Amounts in respect of a deduction or withholding by the Book-Entry Depositary) if a payment in respect of the Notes was then due.

1.1 SECTION . *Deposit of Redemption Price.* Prior to 11:00 a.m. New York City time on the Redemption Date, the Issuer shall deposit with the Trustee or with a Paying Agent (or, if the Issuer is acting as Paying Agent, segregate and hold in trust as provided in Section) an amount of money sufficient to pay on the Redemption Date the Redemption Price of, and (except if the Redemption Date shall be an Interest Payment Date) Additional Amounts, if any, and accrued but unpaid interest on, all the Notes or portions thereof which are to be redeemed on that date.

1.2 SECTION . *Notes Payable on Redemption Date.* Notice of redemption having been given, the Notes shall, on the Redemption Date, become due and payable at the Redemption Price therein specified. From and after the Redemption Date (unless the Issuer shall default in the payment of the Redemption Price, Additional Amounts, if any, and accrued interest, if any), the Notes shall cease to bear interest, and the only right of the Holders of Notes shall be to receive payment of the Redemption Price. Upon surrender of any Note for redemption in accordance with said notice, such Note shall be paid by the Issuer at the Redemption Price, together with Additional Amounts, if any, and accrued but unpaid interest to the Redemption Date; *provided, however*, that with respect to any Definitive Notes, a payment of interest which is payable on an Interest Payment Date which is on or before the Redemption Date, shall be payable to the Holders of such Notes, or one or more Predecessor Notes, registered as such at the close of business on the relevant Regular Record Date or Special Record Date according to the terms of the Notes and the provisions of Section .

If any Note called for redemption shall not be so paid upon surrender thereof for redemption, the principal (and any premium) and Additional Amounts, if any, shall, until paid, bear interest from the Redemption Date in accordance with the terms of such Note and the provisions of Section .

1.1 SECTION . *Optional Redemption Due to Changes in Tax Treatment.* The Notes may be redeemed at any time, at the option of the Issuer, in whole but not in part, upon notice as described below, at a redemption price equal to 100 percent of the principal amount thereof, together with accrued interest at the date fixed for redemption, (the "Redemption Price"), if the Issuer shall determine that, (i) as a result of any change in, or amendment to, the laws (or any regulations or rulings promulgated thereunder) of the United Kingdom (including any treaty to which the United Kingdom is a party) or any change in the application or interpretation of such laws, regulations or rulings (including a holding by a court of competent jurisdiction), which change, amendment, application or interpretation is announced and becomes effective on or after the date of this Indenture or (ii) as a result of Definitive Notes being issued other than in the circumstances described in Section 10.04(e), on the occasion of the next payment of principal or interest in respect of the Notes the Issuer would be obligated to pay Additional Amounts (or would be obligated to pay Additional Amounts as a result of a deduction or withholding on payments made by the Book-Entry Depositary) and such obligation cannot be avoided by the Issuer taking reasonable measures available to it.

1.2 SECTION . *Optional Redemption.* The Notes may be redeemed at any time at the option of the Issuer, in whole or in part, upon notice as described in Section 11.03, at a redemption price equal to the greater of (i) 100 percent of the principal amount thereof, together with accrued interest at the Redemption Date and (ii) the sum of the present values of the remaining payments on the Notes discounted to

the Redemption Date at the Treasury Rate plus 15 basis points, in each case together with accrued interest at the Redemption Date.

1.3 SECTION . *Successor Person May Redeem*. In the event that the obligations of the Issuer under the Notes are assumed pursuant to the terms and conditions of the Indenture by any corporation (a "Successor Person") organized under the laws of a jurisdiction other than the United Kingdom (a "Successor Jurisdiction"), such Successor Person shall be entitled to redeem the Notes subject to the terms of Section 11.06 or Section 11.07, as the case may be, substituting the name of the Successor Jurisdiction for the United Kingdom and the date of such assumption for the date hereof and making such further consequential changes as are required.

This instrument may be executed in any number of counterparts, each of which so executed shall be deemed to be an original, but all such counterparts shall together constitute but one and the same instrument.

IN WITNESS WHEREOF, the Issuer and the Trustee have caused this Indenture to be duly executed, all as of the day and year first above written.

The terms of this Note include those stated in the Indenture and those made part of the Indenture by reference to the Trust Indenture Act of 1939 (15 U.S.C. §§ 77aaa-77bbb) as in effect on the date of the Indenture (the "Act"). This Note is a direct, unsecured and unsubordinated obligation of the Issuer limited to \$400,000,000 aggregate principal amount at maturity.

5. Optional Redemption Due to Changes in Tax Treatment

The Issuer shall have the right to redeem this Note at any time, at the option of the Issuer, in whole but not in part, upon not less than 30 nor more than 60 days notice, at a redemption price equal to 100 percent of the principal amount thereof, together with accrued interest at the date fixed for redemption, if the Issuer shall determine that, (i) as a result of any change in, or amendment to, the laws (or any regulations or rulings promulgated thereunder) of the United Kingdom (including any treaty to which the United Kingdom is a party) or any change in the application or interpretation of such laws, regulations or rulings (including a holding by a court of competent jurisdiction), which change, amendment, application or interpretation is announced and becomes effective on or after the date of the Indenture or (ii) as a result of Definitive Notes being issued other than in the circumstances described in Section 10.04(e) of the Indenture, on the occasion of the next payment of principal or interest in respect of this Note the Issuer would be obligated to pay Additional Amounts (as defined in the Indenture) (or would be obligated to pay Additional Amounts as a result of a deduction or withholding on payments made by the Book-Entry Depository) and such obligation cannot be avoided by the Issuer taking reasonable measures available to it.

7. Transfer; Exchange

This Note is in bearer form without coupons. The bearer of this Note may only transfer or exchange this Note in accordance with the Indenture.

8. Persons Deemed Owners

The bearer of this Note will be treated as the owner of it for all purposes.

9. Defeasance and Covenant Defeasance.

The Indenture contains provisions for defeasance at any time, upon compliance by the Issuer with certain conditions set forth in the Indenture, of (a) the entire indebtedness of the Issuer with respect to this Note and (b) certain restrictive covenants and the related defaults and Events of Default.

10. Amendment, Waiver

The Indenture permits, with certain exceptions as therein provided, the amendment thereof and the modification of the rights and obligations of the Issuer and the Trustee with the consent of the holders of a majority in aggregate principal amount of the Notes outstanding at the time of amendment or modification. The Indenture also contains provisions permitting the holders of specified percentages in aggregate principal amount of the Notes at any time outstanding, on behalf of the holders of all the Notes, to waive compliance by the Issuer with certain provisions of the Indenture and certain past defaults under the Indenture and their consequences. Any such consent or waiver by or on behalf of the holder of this Note shall be conclusive and binding upon such holder and upon all future holders of this Note and of any Note issued in exchange herefor or in lieu hereof whether or not notation of such consent or waiver is made upon this Note.

11. Defaults and Remedies

This Note has the Events of Default as set forth in Section 5.01 of the Indenture. If certain Events of Default occur and are continuing, the holders of at least 25% in principal amount of the Notes, subject to certain limitations, may declare all the Notes to be due and payable immediately. Certain events of bankruptcy or insolvency are Events of Default and shall result in the Notes being due and payable immediately upon the occurrence of such Events of Default.

Holders of Notes may not enforce the Indenture or the Notes except as provided in the Indenture. The Trustee may refuse to enforce the Indenture or the Notes unless it receives reasonable indemnity or security. Subject to certain limitations, holders of a majority in principal amount of the Notes may direct the Trustee in its exercise of any trust or power. The holders of a majority in principal amount of the Notes then outstanding by written notice to the Trustee may rescind a declaration of acceleration if the rescission is prior to a judgment or decree for payment and if all Events of Default have been cured or waived except nonpayment of principal and interest that has been due solely because of the

acceleration. The Trustee may withhold from holders of Notes notice of any continuing default (except a default in payment of principal or interest) if it determines that withholding notice is in the interest of the holders. The above description of Events of Default and remedies is qualified by reference, and subject in its entirety, to the more complete description thereof contained in the Indenture.

12. Trustee Dealings with the Issuer

Subject to certain limitations imposed by the Act, the Trustee under the Indenture, in its individual or any other capacity, may become the owner or pledgee of this Note and may otherwise deal with and collect obligations owed to it by the Issuer or its Affiliates and may otherwise deal with the Issuer or its Affiliates with the same rights it would have if it were not Trustee. Any Paying Agent or such other agent may do the same with like rights.

A director, officer, employee or stockholder, as such, of the Issuer or any subsidiary of the Issuer shall not have any liability for any obligations of the Issuer under this Note or the Indenture or for any claim based on, in respect of or by reason of such obligations or their creation.

CUSIP No.:

1. Interest

United Utilities PLC, a public limited company organized under the laws of England and Wales (such company, and its successors and assigns under the Indenture hereinafter referred to, being herein called the "Issuer"), promises to pay interest on the principal amount of this Note at the rate per annum shown above. The principal of this Note shall mature on August 15, 2028. Interest on this Note shall accrue at the rate of 6.875% per annum and is payable semiannually on February 15 and August 15 of each year, commencing on February 15, 1999. Interest will be computed on the basis of a 360-day year of twelve 30-day months.

2. Method of Payment

The Issuer through a Paying Agent shall pay interest on this Note to the registered holder of this Note at the close of business on February 1 or August 1 next preceding the interest payment date even if this Note is cancelled after the record date and on or before the interest payment date. The holder of this Note must surrender this Note to a Paying Agent to collect principal payments. The Issuer shall pay principal and interest in money of the United States of America that at the time of payment is legal tender for payment of public and private debts.

3. Paying Agent and Registrar

Initially, Marine Midland Bank, a New York banking corporation and trust company, will act as New York Paying Agent (the "New York Paying Agent"), Midland Bank plc, a public limited company incorporated in England and Wales, will act as London Paying Agent (the "London Paying Agent"), and the Trustee under the Indenture will act as Note Registrar (the "Note Registrar") with respect to this Definitive Note. The Issuer may appoint and change any paying agent, Note Registrar, co-registrar or transfer agent without prior notice. The Issuer may act as Paying Agent, Note Registrar, co-registrar or transfer agent to the Holder of this Note.

4. Indenture

The Issuer issued the Notes under an Indenture, dated as of July 28, 1998 ("the Indenture"), between the Issuer and Marine Midland Bank, as Trustee (the "Trustee"). The terms of the Notes include those stated in the Indenture and those made part of the Indenture by reference to the Trust Indenture Act of 1939 (15 U.S.C. §§ 77aaa-77bbb) as in effect on the date of the Indenture (the "Act"). Terms defined in the Indenture and not defined herein have the meanings ascribed thereto in the Indenture. The Notes are subject to all such terms, and holders of the Notes are referred to the Indenture and the Act for a statement of those terms.

The Notes are direct, unsecured and unsubordinated obligations of the Issuer limited to \$400,000,000 aggregate principal amount at maturity.

5. Optional Redemption Due to Changes in Tax Treatment

The Issuer shall have the right to redeem this Note at any time, at the option of the Issuer, in whole but not in part, upon not less than 30 nor more than 60 days notice, at a redemption price equal to 100 percent of the principal amount thereof, together with accrued interest at the date fixed for redemption, if the Issuer shall determine that, (i) as a result of any change in, or amendment to, the laws (or any regulations or rulings promulgated thereunder) of the United Kingdom (including any treaty to which the United Kingdom is a party) or any change in the application or interpretation of such laws, regulations or rulings (including a holding by a court of competent jurisdiction), which

change, amendment, application or interpretation is announced and becomes effective on or after the date of the Indenture or (ii) as a result of Definitive Notes being issued other than in the circumstances described in Section 10.04(e) of the Indenture, on the occasion of the next payment of principal or interest in respect of this Note the Issuer would be obligated to pay Additional Amounts (as defined in the Indenture) (or would be obligated to pay Additional Amounts as a result of a deduction or withholding on payments made by the Book-Entry Depository) and such obligation cannot be avoided by the Issuer taking reasonable measures available to it.

6. Optional Redemption

The Issuer shall have the right to redeem this Note at any time at the option of the Issuer, in whole or in part, upon not less than 30 nor more than 60 days notice, at a redemption price equal to the greater of (i) 100 percent of the principal amount thereof, together with accrued interest at the date of redemption (the "Redemption Date") and (ii) the sum of the present values of the remaining payments on the Notes discounted to the Redemption Date at the Treasury Rate (as defined in the Indenture) plus 15 basis points, in each case together with accrued interest at the Redemption Date.

7. Exchange

This Note is in registered form without coupons. The Notes are in denominations of \$1,000 and whole multiples of \$1,000 of principal at maturity. A Holder may only transfer or exchange this Note in accordance with the Indenture. The Note Registrar may require a Holder, among other things, to furnish appropriate endorsements or transfer documents and to pay any taxes and fees required by law or permitted by the Indenture.

8. Persons Deemed Owners

The registered holder of this Note shall be treated as the owner of it for all purposes.

9. Defeasance and Covenant Defeasance.

The Indenture contains provisions for defeasance at any time, upon compliance by the Issuer with certain conditions set forth in the Indenture, of (a) the entire indebtedness of the Issuer with respect to the Notes and (b) certain restrictive covenants and the related defaults and Events of Default.

10. Amendment, Waiver

The Indenture permits, with certain exceptions as therein provided, the amendment thereof and the modification of the rights and obligations of the Issuer and the Trustee with the consent of the holders of a majority in aggregate principal amount of the Notes outstanding at the time of amendment or modification. The Indenture also contains provisions permitting the holders of specified percentages in aggregate principal amount of the Notes at any time outstanding, on behalf of the holders of all the Notes, to waive compliance by the Issuer with certain provisions of the Indenture and certain past defaults under the Indenture and their consequences. Any such consent or waiver by or on behalf of the holders of the Notes shall be conclusive and binding upon the holder of this Note and upon all future holders of this Note and of any Note issued in exchange herefor or in lieu hereof whether or not notation of such consent or waiver is made upon this Note.

11. Defaults and Remedies

The Notes have the Events of Default as set forth in Section 5.01 of the Indenture. If certain Events of Default occur and are continuing, the holders of at least 25% in principal amount of the Notes, subject to certain limitations, may declare all the Notes to be due and payable immediately. Certain events of bankruptcy or insolvency are Events of Default and shall result in the Notes being due and payable immediately upon the occurrence of such Events of Default.

Holders of Notes may not enforce the Indenture or the Notes except as provided in the Indenture. The Trustee may refuse to enforce the Indenture or the Notes unless it receives reasonable indemnity or security. Subject to certain

limitations, holders of a majority in principal amount of the Notes may direct the Trustee in its exercise of any trust or power. The holders of a majority in principal amount of the Notes then outstanding by written notice to the Trustee may rescind a declaration of acceleration if the rescission is prior to a judgment or decree for payment and if all Events of Default have been cured or waived except nonpayment of principal and interest that has been due solely because of the acceleration. The Trustee may withhold from holders of Notes notice of any continuing default (except a default in payment of principal or interest) if it determines that withholding notice is in the interest of the holders. The above description of Events of Default and remedies is qualified by reference, and subject in its entirety, to the more complete description thereof contained in the Indenture.

12. Trustee Dealings with the Issuer

Subject to certain limitations imposed by the Act, the Trustee under the Indenture, in its individual or any other capacity, may become the owner or pledgee of this Note and may otherwise deal with and collect obligations owed to it by the Issuer or its Affiliates and may otherwise deal with the Issuer or its Affiliates with the same rights it would have if it were not Trustee. Any Paying Agent, Note Registrar or such other agent may do the same with like rights.

13. No Recourse Against Others

A director, officer, employee or stockholder, as such, of the Issuer or any subsidiary of the Issuer shall not have any liability for any obligations of the Issuer under the Notes or the Indenture or for any claim based on, in respect of or by reason of such obligations or their creation.

14. Authentication

This Note shall not be valid until an authorized officer of the Trustee (or an authenticating agent) manually signs the certificate of authentication on the other side of this Note.

15. Governing Law

The internal laws of the State of New York shall govern the Indenture and this Note without regard to conflict of law provisions thereof.

The Issuer will furnish to the holder of this Note upon written request and without charge to such holder a copy of the Indenture. Requests may be made to:

(c) The Issuer agrees, to the fullest extent that it may effectively do so under applicable law, that (a) if for the purpose of obtaining judgment in any court it is necessary to convert the sum due in respect of the principal of, or premium or interest, if any, on the Notes (the "Required Currency") into a currency in which a judgment will be rendered (the "Judgment Currency"), the rate of exchange used shall be the rate at which, in accordance with normal banking procedures, the Trustee could purchase the Required Currency with the Judgment Currency and (b) its obligations under this Indenture to make payments in the Required Currency (i) shall not be discharged or satisfied by any tender, or any recovery pursuant to any judgment (whether or not entered in accordance with subsection (a)), in any currency other than the Required Currency, except to the extent that such tender or recovery shall result in the actual receipt, by the payee, of the full amount of the Required Currency expressed to be payable in respect of such payments (ii) shall be enforceable as an alternative or additional cause of action for the purpose of recovering the Required Currency the amount, if any, by which actual receipt shall fall short of the full amount of the Required Currency so expressed to be payable and (iii) shall not be affected by judgment being obtained for any other sum due under this Indenture.

(a) such Holder has previously given written notice to the Trustee of a continuing Event of Default with respect to Notes of a series specifying such Event of Default and stating that such notice is a "Notice of Default";

(b) the Holders of not less than 25% in aggregate principal amount of the Outstanding Notes of such series shall have made written request to the Trustee to institute proceedings in respect of such Event of Default in its own name;

(c) such Holder has provided the Trustee indemnity reasonably satisfactory to the Trustee against the costs, expenses and liabilities to be incurred in compliance with such request;

(d) the Trustee for 60 days after its receipt of such notice, request and acceptance of the offer of indemnity as reasonably satisfactory has failed to institute any such proceeding; and

(e) no direction inconsistent with such written request has been given to the Trustee during such 60-day period by the Holders of a majority in principal amount of the Outstanding Notes of such series;

it being understood and intended that no one or more Holders of Notes appertaining thereto shall have any right in any manner whatever by virtue of, or by availing of, any provision of the Indenture to affect, disturb or prejudice the rights of any other such Holders, or to obtain or to seek to obtain priority or preference over any other such Holders or to enforce any right under the Indenture, except in the manner provided in the Indenture and for the equal and ratable benefit of all such Holders.

No reference herein to the Indenture and no provision of this Note or of the Indenture shall alter or impair the obligation of the Issuer, which is absolute and unconditional, to pay the principal of and any premium and interest on this Note at the times, place and rate, and in the coin or currency, herein prescribed or to convert this Note as provided in the Indenture.

The Notes of this series are issuable only in registered form without coupons in denominations of [insert currency and amount] and any integral multiple thereof. As provided in the Indenture and subject to certain limitations therein set forth, Notes of this series are exchangeable for a like aggregate principal amount of Notes of this series and of like tenor of a different authorized denomination, as requested by the Holder surrendering the same. As provided in the Indenture and subject to certain limitations therein set forth, the transfer of this Note is registrable in the Note Register, upon surrender of this Note for registration of transfer at the office or agency of the Issuer in any place where the

principal of and any premium and interest on this Note are payable, duly endorsed by, or accompanied by a written instrument of transfer in form satisfactory to the Issuer and the Note Registrar duly executed by, the Holder hereof or his attorney duly authorized in writing, and thereupon one or more new Notes of this series and of like tenor, of authorized denominations and for the same aggregate principal amount, will be issued to the designated transferee or transferees.

No service charge shall be made for any such registration of transfer or exchange, but the Issuer may require payment of a sum sufficient to cover any tax or other governmental charge payable in connection therewith.

Prior to due presentment of this Note for registration of transfer, the Issuer, the Trustee and any agent of the Issuer, or the Trustee may treat the Person in whose name this Note is registered as the owner hereof for all purposes, whether or not this Note be overdue, and none of the Issuer, the Trustee nor any such agent shall be affected by notice to the contrary.

The Indenture and the Notes shall be governed by and construed in accordance with the laws of the State of New York.

All terms used in this Note which are defined in the Indenture shall have the meanings assigned to them in the Indenture.

2.4 *Form of Legend for Global Notes.* Unless otherwise specified as contemplated by Section 3.1 for the Notes evidenced thereby, every Global Note authenticated and delivered hereunder shall bear a legend in substantially the following form:

- (v) any other terms of the series (which terms shall not be inconsistent with the provisions of this Indenture, except as permitted by Sections 9.1 or 9.2).

All Notes of any one series shall be substantially identical except as to denomination, and except as may otherwise be provided in or pursuant to the Board Resolution referred to above and (subject to Section 3.3) set forth, or determined in the manner provided, in the Officer's Certificate referred to above or in any such indenture supplemental hereto. If any of the terms of the series are established by action taken pursuant to a Board Resolution of the Issuer, a copy of an appropriate record of such action shall be certified by any director, the Secretary or any person appointed by the Board of Directors of the Issuer delivered to the Trustee at or prior to the delivery of the Officer's Certificate setting forth the terms of the series.

In the absence of any such specified denomination with respect to the Notes of any series, shall be issuable in denominations of U.S.\$1,000 and any integral multiple thereof.

3.3 *Execution, Authentication, Delivery and Dating.* The Notes shall be executed on behalf of the Issuer in the manner provided for in this section by (A) any of its Directors or General Manager (or officers with similar title and status) and (B) the Secretary or Assistant Secretary to the Issuer or his or her Attorney-in-Fact. The signature of any of these officers on the Notes may be manual or facsimile. Notes bearing the manual or facsimile signatures of individuals who were at any time the proper officers of the Issuer shall bind the Issuer, notwithstanding that such individuals or any of them have ceased to hold such offices prior to the authentication and delivery of such Notes, provided such officer was the holder of such office at the time of such execution.

For so long as the Issuer shall be a company organized under the laws of the United Kingdom, any other instrument or document required to be signed by or on behalf of the Issuer hereunder shall be signed as provided in this Section 3.3. Each such document or instrument shall be signed on behalf of the Issuer by two members of its Board of Directors.

In the event that a successor Issuer which is organized under the laws of a jurisdiction other than the United Kingdom shall become the Issuer hereunder pursuant to the terms hereof, then any instrument or document required to be

EXECUTION COPY

signed by such successor Issuer shall be signed as authorized by the laws, statutes or regulations of such jurisdiction, and by the provisions of the articles of incorporation and any by-laws or similar instrument of such successor Issuer, in order for such instrument or document to be legal, valid and binding. In addition, any Officers' Certificate of any such successor Issuer may be signed by any Person or Persons performing duties equivalent to the duties of an executive officer of a U.S. corporation, and any resolution of such successor Issuer which has been adopted by a governing body of such successor Issuer having functions equivalent to those of a U.S. board of directors and certified by any Person permitted to certify such a resolution under the laws, statutes and regulations of the jurisdiction of such successor Issuer and the articles of incorporation and any by-laws or similar documents of such successor Issuer, shall constitute a Board Resolution hereunder.

At any time and from time to time after the execution and delivery of this Indenture, the Issuer may deliver Notes executed by the Issuer to the Trustee for authentication, together with an Issuer Order for the authentication and delivery of such Notes, and the Trustee in accordance with the Issuer Order shall authenticate and deliver such Notes as in this Indenture provided and not otherwise. Upon receipt of a written order of the Issuer, the Trustee shall authenticate Notes in substitution of Notes originally issued to reflect any name change of the Issuer. In authenticating such Notes and accepting the additional responsibilities under this Indenture in relation to such Notes the Trustee shall be entitled to receive, and (subject to Section 6.1) shall be fully protected in relying upon, an Opinion of Counsel stating that the form and terms thereof have been established in conformity with the provisions of this Indenture.

The Trustee shall not be required to authenticate such Notes if the issue of such Notes pursuant to this Indenture will affect the Trustee's own rights, duties or immunities under the Notes and this Indenture or otherwise in a manner which is not reasonably acceptable to the Trustee.

Each Note shall be dated the date of its authentication.

No Note shall be entitled to any benefit under this Indenture or be valid or obligatory for any purpose unless there appears on such Note a certificate of authentication substantially in the form provided for herein executed by or on behalf of the Trustee by manual signature, and such certificate upon any Note shall be conclusive evidence, and the only evidence, that such Note has been duly authenticated and delivered hereunder and that such Note is entitled to the benefits of this Indenture. Notwithstanding the foregoing, if any Note shall have been authenticated and delivered hereunder but never issued and sold by the Issuer, and the Issuer shall deliver such Note to the Trustee for cancellation as provided in Section 3.9, for all purposes of this Indenture such Note shall be deemed never to have been authenticated and delivered hereunder and shall never be entitled to the benefits of this Indenture.

3.4 *Temporary Notes.* Pending the preparation of Definitive Notes, the Issuer may execute, and upon Issuer Order the Trustee shall authenticate and deliver, temporary Notes substantially of the tenor of the Definitive Notes in lieu of which they are issued, which Notes may be printed, lithographed, typewritten, photocopied or otherwise produced. Temporary Notes will be issued as Definitive Notes and may have such appropriate insertions, omissions, substitutions and other variations as the officers executing such Notes may determine, all as evidenced by such execution.

If temporary Notes are issued, the Issuer will cause, if so required by the terms of such temporary Notes, Definitive Notes to be prepared without unreasonable delay, but in no case more than 30 days after issuance of such temporary Notes. After the preparation of Definitive Notes, the temporary Notes shall be exchangeable for Definitive Notes containing identical terms and provisions upon surrender of the temporary Notes at the office or agency of the Issuer in a Place of Payment, without charge to the Holder. Upon surrender for cancellation of any one or more temporary Notes the Issuer shall execute and the Trustee shall authenticate and deliver in exchange therefor a like aggregate principal amount of Definitive Notes containing identical terms and provisions. Until so exchanged, unless otherwise provided therein or in a supplemental indenture relating thereto, the temporary Notes shall in all respects be entitled to the same benefits (but shall be subject to all the limitations of rights) under this Indenture as Definitive Notes.

3.5 *Registration, Registration of Transfer and Exchange.*

(a) Global Note. The Global Note shall be exchangeable for Definitive Notes only as provided in this paragraph. The Global Note shall be exchangeable pursuant to this Section only (i) if a Clearing System notifies the Issuer that it is unwilling or unable to continue to hold the Notes or if at any time such Clearing System ceases to be a clearing agency (registered, in the case of DTC, under the Exchange Act) and a successor to such Clearing System is not appointed by the Issuer within 90 days or (ii) in the event of a winding-up of the Issuer or if the Issuer fails to make a payment on the Notes when due or in the event of any other Event of Default, at the request of the Holders. If exchangeable pursuant to the preceding sentence, the Global Note shall be exchangeable for Definitive Notes aggregating a like amount as the Global Note so exchangeable. Definitive Notes shall be registered in the names of the owners of the beneficial interests in the Global Note as such names are from time to time provided by the Holder, to the Trustee.

If the Global Note is exchangeable pursuant to the preceding paragraph, it shall be exchangeable for Definitive Notes issuable in authorized denominations of a like aggregate principal amount and tenor.

Except as provided above, owners solely of beneficial interests in the Global Note shall not be entitled to receive physical delivery of Definitive Notes

EXECUTION COPY

and will not be considered the holders thereof for any purpose under this Indenture.

The Clearing System Participants, each Clearing System and any beneficial owners shall have no rights under this Indenture with respect to the Global Note if held on their behalf by a Holder, and such Holder shall be treated by the Issuer, the Trustee, and any agent of the Issuer or the Trustee as the owner of the Global Note for all purposes whatsoever. Notwithstanding the foregoing, nothing herein shall prevent the Issuer, the Trustee, or any agent of the Issuer or the Trustee from giving effect to any written certification, proxy or other authorization furnished by a Holder, or impair, as between a Clearing System and its Clearing System Participants and Holders, the operation of customary practices governing the exercise of the rights of a holder of any note, including without limitation the granting of proxies or other authorization of participants to give or take any request, demand, authorization, direction, notice, consent, waiver or other action which a Holder is entitled to give or take under this Indenture.

In connection with any exchange of interests in the Global Note for Definitive Notes as provided in this subsection (a), then without unnecessary delay but in any event not later than the earliest date on which such interests may be so exchanged, the Issuer shall deliver to the Trustee Definitive Notes in aggregate principal amount equal to the principal amount of the Global Note or the portion to be exchanged executed by the Issuer. On or after the earliest date on which such interests may be so exchanged, the Global Note shall be surrendered by the Holder to the Trustee, as the Issuer's agent for such purpose, to be exchanged, in whole or from time to time in part, for Definitive Notes without charge and the Trustee shall authenticate and deliver, in exchange for each portion of the Global Note, an equal aggregate principal amount of Definitive Notes as the portion of the Global Note to be exchanged. If the Global Note is exchangeable pursuant to this Section, it shall be exchangeable for Notes registered in such names as the Holder of the Global Note shall direct. If a Definitive Note is issued in exchange for any portion of the Global Note after the close of business at the office or agency where such exchange occurs on any record date and before the opening of business at such office or agency on the relevant Interest Payment Date, interest will not be payable on such Interest Payment Date in respect of such Definitive Note, but will be payable on such Interest Payment Date only to the person to whom payments of interest in respect of such portion of the Global Note are payable.

A Clearing System may grant proxies and otherwise authorize any person, including Clearing System Participants and persons that may hold interests through Clearing System Participants, to take any action which a Holder is entitled to take under this Indenture with respect to the Notes.

(b) The Issuer shall cause to be kept in the Corporate Trust Office of the Trustee a register (the register maintained in such office and in any other office or agency of the Issuer in a Place of Payment being herein sometimes

EXECUTION COPY

collectively referred to as the "Note Register") in which, subject to such reasonable regulations as it may prescribe, the Issuer shall provide for the registration of registered Notes and of transfers of such Notes. The Note Register shall, at all times, be kept, and all transfers shall be entered in the Note Register at a location outside the United Kingdom. The Trustee is hereby appointed "Note Registrar" for the purpose of registering Notes and transfers of Notes as herein provided.

Notes shall be transferable only on the Note Register. Upon surrender for registration of transfer of any Note at an office or agency of the Issuer designated pursuant to Section for such purpose, the Issuer shall execute, and the Trustee shall authenticate and deliver, in the name of the designated transferee or transferees, one or more new Notes of a like aggregate principal amount and tenor.

All Notes issued upon any registration of transfer or exchange of Notes shall be the valid obligations of the Issuer, evidencing the same debt, and entitled to the same benefits under this Indenture, as the Notes surrendered upon such registration of transfer or exchange.

Every Note presented or surrendered for registration of transfer or for exchange shall (if so required by the Issuer or the Trustee) be duly endorsed, or be accompanied by a written instrument of transfer in form satisfactory to the Issuer and the Note Registrar duly executed, by the registered Holder thereof or his attorney duly authorized in writing.

No service charge shall be made for any registration of transfer or exchange of Notes, but the Issuer may require payment of a sum sufficient to cover any tax or other governmental charge that may be imposed in connection with any registration of transfer or exchange of Notes, other than exchanges pursuant to Section 3.4 or 9.6 not involving any transfer.

The Issuer shall not be required (i) to issue, register the transfer of or exchange Notes of any series during a period beginning at the opening of business 15 days before the day of the mailing of a notice of redemption of Notes of that series selected for redemption under Section 11.3 and ending at the close of business on the day of such mailing or (ii) to register the transfer of or exchange any Note so selected for redemption, in whole or in part, except the unredeemed portion of any Note being redeemed in part.

The provisions of Clauses (1), (2) and (3) below shall apply only to Global Notes:

- (1) Each Global Note authenticated under this Indenture shall be registered in the name of the Depositary designated for such Global Note or a nominee thereof and delivered to such Depositary or a nominee

EXECUTION COPY

thereof or custodian therefor, and each such Global Note shall constitute a single Note for all purposes of this Indenture.

(2) Any exchange of a Global Note for other Notes may be made in whole or in part, and all Notes issued in exchange for a Global Note or any portion thereof shall be registered in such names as the Depository for such Global Note shall direct.

(3) Every Note authenticated and delivered upon registration or transfer or, or in exchange for or in lieu of, a Global Note or any portion thereof, whether pursuant to this Section, Section 3.4, 3.6, 9.6 or 11.7 or otherwise, shall be authenticated and delivered in the form of, and shall be, a Global Note, unless such Note is registered in the name of a Person other than the Depository for such Global Note or a nominee thereof.

3.6 *Mutilated, Destroyed, Lost and Stolen Notes.* If any mutilated Note is surrendered to the Trustee, the Issuer may execute, and the Trustee shall authenticate and deliver in exchange therefor, a new Note of like amount, and bearing a number not contemporaneously outstanding.

If there shall be delivered to the Issuer and to the Trustee (a) evidence to their satisfaction of the destruction, loss or theft of any Note and (b) such security or indemnity as may be required by them to save each of them and any agent of any of them harmless, then, in the absence of notice to the Issuer or the Trustee that such Note has been acquired by a bona fide purchaser, the Issuer shall execute, and upon the Issuer's request the Trustee shall authenticate and deliver in lieu of any such destroyed, lost or stolen Note a new Note of like amount, and bearing a number not contemporaneously outstanding.

In case any such mutilated, destroyed, lost or stolen Note has become or is about to become due and payable, the Issuer in its discretion may, instead of issuing a new Note, pay such Note.

Upon the issuance of any new Note under this Section, the Issuer may require the payment of a sum sufficient to cover any tax or other governmental charge that may be imposed in relation thereto and any other expenses (including the fees and expenses of the Trustee) connected therewith.

Every new Note issued pursuant to this Section in lieu of any destroyed, lost or stolen Note shall constitute an original additional contractual obligation of the Issuer, whether or not the destroyed, lost or stolen Note shall be at any time enforceable by anyone, and shall be entitled to all the benefits of this Indenture equally and proportionately with any and all other Notes duly issued hereunder.

The provisions of this Section are exclusive and shall preclude (to the extent lawful) all other rights and remedies with respect to the replacement or payment of mutilated, destroyed, lost or stolen Notes.

EXECUTION COPY

3.7 *Payment; Interest Rights Preserved.* Except as otherwise provided as contemplated by Section 3.1 with respect to any series of Notes, interest on any Note which is payable, and is punctually paid or duly provided for, on any Interest Payment Date shall be paid to the Holder in whose name that Note (or one or more Predecessor Notes) is registered at the close of business on the Regular Record Date for such interest by wire transfer of same-day funds to the Holder, or at the option of the Issuer, by check mailed to the address of the Person as it appears in the Note Register.

Payment of interest on Definitive Notes, if any are issued, will be made by a dollar check drawn on a bank in The City of New York mailed to each Holder thereof at such Holder's registered address or, upon application by a Holder of at least U.S.\$1,000,000 aggregate principal amount of Notes to the Note Registrar, each Paying Agent or the Trustee pursuant to the terms of the Indenture not later than the relevant Regular Record Date, by wire transfer in immediately available funds to a dollar account maintained by the Holder with a bank in The City of New York. Principal of Definitive Notes will be payable at the office of the Note Registrar, any Paying Agent or the Trustee pursuant to the terms of the Indenture or, subject to applicable laws and regulations, in such other place or places as are designated by the Issuer, by dollar check drawn on, or by transfer to a dollar account maintained by the Holder with, a bank located in The City of New York.

If any instalment of interest, the Stated Maturity of which is on or prior to the Redemption Date for any Note called for redemption pursuant to Article Eleven, is not paid or duly provided for on or prior to the Redemption Date in accordance with the foregoing provisions of this Section, such interest shall be payable as part of the Redemption Price of such Notes.

Any interest on any Note of any series which is payable, but is not punctually paid or duly provided for, on any Interest Payment Date (herein called "Defaulted Interest") shall forthwith cease to be payable to the Holder on the relevant Regular Record Date by virtue of having been such Holder, and such Defaulted Interest may be paid by the Issuer, at its election in each case, as provided in Clause (1) or (2) below:

(1) The Issuer may elect to make payment of any Defaulted Interest to the Persons in whose names the Notes of such series (or their respective Predecessor Notes) are registered at the close of business on a Special Record Date for the payment of such Defaulted Interest, which shall be fixed in the following manner. The Issuer shall notify the Trustee in writing of the amount of Defaulted Interest proposed to be paid on each Note of such series and the date of the proposed payment, and at the same time the Issuer shall deposit with the Trustee an amount of money equal to the aggregate amount proposed to be paid in respect of such Defaulted Interest or shall make arrangements satisfactory to the Trustee for such deposit prior to the date of the proposed payment, such money when deposited to be held in trust for the benefit of the Persons entitled to such Defaulted Interest as in this Clause provided. Thereupon the Trustee shall fix a

EXECUTION COPY

Special Record Date for the payment of such Defaulted Interest which shall be not more than 15 days and not less than 10 days prior to the date of the proposed payment and not less than 10 days after the receipt by the Trustee of the notice of the proposed payment. The Trustee shall promptly notify the Issuer of such Special Record Date and, in the name and at the expense of the Issuer, shall cause notice of the proposed payment of such Defaulted Interest and the Special Record Date therefor to be given to each Holder of Notes of such series the Issuer in the manner set forth in Section 1.6, not less than 10 days prior to such Special Record Date. Notice of the proposed payment of such Defaulted Interest and the Special Record Date therefor having been so mailed, such Defaulted Interest shall be paid to the Persons in whose names the Notes of such series (or their respective Predecessor Notes) are registered at the close of business on such Special Record Date and shall no longer be payable pursuant to the following Clause (2).

(2) The Issuer may make payment of any Defaulted Interest on the Notes of any series in any other lawful manner not inconsistent with the requirements of any securities exchange on which such Notes may be listed, and upon such notice as may be required by such exchange, if, after notice given by the Issuer to the Trustee of the proposed payment pursuant to this Clause, such manner of payment shall be deemed practicable by the Trustee.

Subject to the foregoing provisions of this Section and Section 3.5, each Note delivered under this Indenture upon registration of transfer of or in exchange for or in lieu of any other Security shall carry the rights to interest accrued and unpaid, and to accrue, which were carried by such other Note.

3.8 *Persons Deemed Owners.* The Issuer, the Trustee and any agent of the Issuer or the Trustee may treat any Person in whose name a Note is registered as the owner of such Note for the purpose of receiving payment of principal of (and premium, if any) and (subject to Section 3.7) interest, if any, on such Note and for all other purposes whatsoever, whether or not such Note be overdue, and none of the Issuer, the Trustee nor any agent of the Issuer or the Trustee shall be affected by notice to the contrary.

3.9 *Cancellation.* All Notes surrendered for payment, redemption, registration of transfer or exchange shall, if surrendered to any Person other than the Trustee, be delivered to the Trustee and shall be promptly cancelled by it. The Issuer may at any time deliver to the Trustee for cancellation any Notes previously authenticated and delivered hereunder which the Issuer may have acquired in any manner whatsoever, and may deliver to the Trustee (or to any other person for delivery to the Trustee) for cancellation any Notes previously authenticated hereunder which the Issuer has not issued and sold, and all Notes so delivered shall be promptly cancelled by the Trustee. No Notes shall be authenticated in lieu of or in exchange for any Notes cancelled as provided in this Section, except as expressly permitted pursuant to the provisions of this Indenture. The Trustee shall, upon the written request of the Issuer, return cancelled Notes to the Issuer.

3.10 *Computation of Interest.* Except as otherwise specified as contemplated by Section 3.1 for Notes of any series, payments of interest on the Notes shall be computed on the basis of a 360-day year of twelve 30-day months.

3.11 *CUSIP Numbers.* The Issuer in issuing the Notes may use CUSIP numbers, if then generally in use, and thereafter the Trustee may use such numbers in any notice of redemption or exchange; *provided that* any such notice may state that no representation is made as to the correctness of such numbers either as printed on the Notes or as contained in any notice of a redemption and that reliance may be placed only on the other identification numbers printed on the Notes, and any such redemption shall not be affected by any defect in or omission of such numbers. The Issuer will promptly notify the Trustee of any change in the CUSIP numbers.

ARTICLE IV

SATISFACTION, DISCHARGE AND DEFEASANCE

4.1 *Satisfaction and Discharge of Indenture.* This Indenture shall upon Issuer Request cease to be of further effect (except as to any surviving rights of registration of transfer or exchange of Notes herein expressly provided for), and the Trustee, at the expense of the Issuer, shall execute proper instruments acknowledging satisfaction and discharge of this Indenture with respect to the Notes when (a) either

(i) all Notes theretofore authenticated and delivered (other than (x) Notes which have been destroyed, lost or stolen and which have been replaced or paid as provided in Section 3.6 and (y) Notes for whose payment money has theretofore been deposited in trust or segregated and held in trust by the Issuer and thereafter repaid to the Issuer or discharged from such trust, as provided in Section 10.3) have been delivered to the Trustee for cancellation; or

(ii) all such Notes described in (i) above not theretofore delivered to the Trustee for cancellation

(A) have become due and payable or will become due and payable at the Stated Maturity within one year, or

(B) are to be called for redemption within one year under arrangements satisfactory to the Trustee for the giving of notice of redemption by the Trustee in the name, and at the expense, of the Issuer;

and the Issuer has in the case of (A) or (B) above irrevocably deposited or caused to be deposited with the Trustee, as trust funds in trust for the purpose, an amount in cash or Government Obligations and has delivered a certificate of a firm of independent public accountants to such Trustee verifying that such cash or Government Obligations will be sufficient to pay and discharge all claims with respect to such Notes not theretofore delivered to the Trustee for cancellation, for

principal (and premium, if any) and accrued interest, if any and Additional Amounts, if any, to the date of such deposit (in the case of Notes which have become due and payable) or to the Stated Maturity or Redemption Date, as the case may be;

(b) the Issuer has paid or caused to be paid all other sums payable hereunder by the Issuer with respect to the Notes;

(c) the Issuer has delivered to the Trustee an Officers' Certificate and an Opinion of Counsel to the effect that the Holders of the Outstanding Notes will not recognize income, gain or loss for U.S. Federal income tax purposes as a result of such defeasance and will be subject to U.S. Federal income tax on the same amounts and in the same manner and at the same times as would have been the case if such defeasance had not occurred, each stating that all conditions precedent herein provided for relating to the satisfaction and discharge of this Indenture with respect to the Notes have been complied with;

(d) if the Notes are not to become due and payable at their Stated Maturity, if any, within one year of the date of a deposit pursuant to Section 4.1(a)(ii) or are not to be called for redemption within one year of the date of such deposit under arrangements satisfactory to such Trustee as of the date of such deposit, then the Issuer shall have given, not later than the date of such deposit, notice of such deposit to the Holders of such Notes; and

(e) the Issuer shall have delivered to the Trustee an Opinion of Counsel to the effect that payment of amounts deposited in trust with the Trustee as provided in clause (a) hereof will not be subject to future taxes, duties, fines, penalties, assessments or other governmental charges imposed, levied, collected, withheld or assessed by, within or on behalf of the United Kingdom or any political subdivision or governmental authority thereof or having therein power to tax, except to the extent that Additional Amounts in respect thereof shall have been deposited in trust with the Trustee as provided in clause (a) hereof.

Upon the satisfaction of the conditions set forth in this Section with respect to all the Notes, the terms and conditions of the Notes, including the terms and conditions with respect thereto set forth in this Indenture, shall no longer be binding upon, or applicable to, the Issuer; *provided, however*, that in no event shall the Issuer be discharged from (1) any payment obligations in respect of Notes which are deemed not to be "Outstanding" under clause (iii) of the definition thereof if, under such clause (iii), such obligations continue to be valid obligations of the Issuer or (2) any obligations under Sections 6.7 and 6.13 and ; and *provided, further*, that in the event a petition seeking relief under any applicable Bankruptcy Law is filed and not discharged with respect to the Issuer within 91 days after the deposit, the entire indebtedness on all Notes shall not be discharged, and in such event the Trustee shall return such deposited funds or obligations as it is then holding to the Issuer upon written request from the Issuer.

Notwithstanding any satisfaction and discharge of this Indenture, the obligations of the Issuer to any Authenticating Agent under Section 6.14 and, if cash and/or Government Obligations shall have been deposited with the Trustee pursuant to subclause (ii) of clause (a) of this Section, the obligations of the Trustee under Section 4.2 and the last paragraph of Section 10.3 shall survive any such satisfaction and discharge.

4.2 *Application of Trust Money.* Subject to the provisions of the last paragraph of Section 10.3, all cash and Government Obligations deposited with the Trustee pursuant to Section 4.1 shall be held in trust and such cash and the proceeds from such Government Obligations shall be applied by it in accordance with the provisions of the Notes and this Indenture to the payment, either directly or through any Paying Agent (including the Issuer acting as Paying Agent) as the Trustee may determine, to the Persons entitled thereto, of the principal (and premium, if any) and interest for the payment of which such cash and/or Government Obligations have been deposited with the Trustee.

4.3 *Applicability of Defeasance Provisions; Option to Effect Defeasance or Covenant Defeasance.* If provision is made for either or both of (i) defeasance of the Notes of any series under Section 4.4 or (ii) covenant defeasance of the Notes of any series under Section 4.5, then the provisions of such Section or Sections, as the case may be, together with the provisions of Sections 4.6 through 4.9 inclusive, shall be applicable to the Notes of such series, and the Issuer may at its option, by Board Resolution, at any time elect to have Section 4.4 (if applicable) or Section 4.5 (if applicable) be applied to the Outstanding Notes of such series upon compliance with the conditions set forth below in this Article.

4.4 *Defeasance and Discharge.* Upon the Issuer's exercise of the option specified in Section 4.3 applicable to this Section 4.4 with respect to Notes of any series, the Issuer shall be deemed to have been discharged from its obligations with respect to the Outstanding Notes of such series on and after the date the conditions set forth in Section 4.6 are satisfied (hereinafter "defeasance"). For this purpose, such defeasance means that the Issuer shall be deemed to have paid and discharged the entire indebtedness represented by the Outstanding Notes of such series and to have satisfied all its other obligations under such Notes and this Indenture insofar as such Notes are concerned (and the Trustee, at the expense of the Issuer, shall on Issuer Order execute proper instruments acknowledging the same) and such Notes shall thereafter be "outstanding" only for the purpose of the sections of this Indenture referred to in clauses (i) and (ii) below, except the following which shall survive until otherwise terminated or discharged hereunder: (i) the rights of Holders of such Notes to receive, solely from the trust funds described in Section 4.6 and as more fully set forth in such Section, payments in respect of the principal of (and premium, if any) and interest, if any, and Additional Amounts, if any, on such Notes of that series when such payments are due; (ii) the Issuer's obligations with respect to such Notes of that series under Sections 3.5, 3.6, 3.7, 10.2 and 10.3 and ; (iii) the rights, powers,

trusts, duties and immunities in respect of the Trustee hereunder and (iv) this Article. Subject to compliance with this Article, the Issuer may exercise its option under this Section notwithstanding the prior exercise of its option under Section 4.5 with respect to such Notes of any series.

4.5 *Covenant Defeasance.* Upon the Issuer's exercise of the option specified in Section 4.3 applicable to this Section 4.5 with respect to Notes of any series, (i) the Issuer shall be released from its obligations under Sections 8.1, 10.7 and 10.8, and any covenant provided pursuant to Section 9.1(b) for the benefit of the Holders of Notes of such series and (ii) the occurrence of any event specified in Section 5.1(b) with respect to Notes of any series (with respect to any of Sections 8.1, 10.7 and 10.8 and any such covenants provided pursuant to Section 9.1(b)) shall be deemed not to be or result in an Event of Default, in each case as provided in this Section, on and after the date the conditions set forth in Section 4.6 are satisfied (hereinafter, "covenant defeasance") and the Notes of such series shall thereafter be deemed not "Outstanding" for the purpose of any direction, waiver, consent or declaration or act of Holders (and the consequences of any thereof) in connection with such covenants, but shall continue to be "Outstanding" for all other purposes hereunder. For this purpose, such covenant defeasance means that the Issuer may omit to comply with and shall have no liability in respect of any term, condition or limitation set forth in any such covenant, whether directly or indirectly, by reason of any reference elsewhere herein to any such covenant or by reason of reference in any such covenant to any other provision herein or in any other document and such omission to comply shall not constitute a Default or an Event of Default under Section 5.1(b) with respect to the Notes of such series, but, except as specified above, the remainder of this Indenture and the Notes shall be unaffected thereby.

4.6 *Conditions to Defeasance or Covenant Defeasance.* The following shall be the conditions to application of either Section 4.4 or Section 4.5 to the Outstanding Notes of any series, as the case may be:

(a) The Issuer shall have deposited or caused to be deposited with the Trustee (or another trustee satisfying the requirements of Section 6.9 who shall agree to comply with the provisions of this Article applicable to it, for purposes of such Sections also a "Trustee") as trust funds in trust for the purpose of making the payments referred to in clauses (i) - (iii) of this Section 4.6(a), specifically pledged as a security for, and dedicated solely to, the benefit of the Holders of the Notes of such series, with instructions to the Trustee as to the application thereof,

(i) money in an amount, or

(ii) non-callable Government Obligations which through the scheduled payment of interest and principal in respect thereof in accordance with their terms will provide, not later than one day before the due date of any payment referred to in clause (i) - (iii) of this Section 4.6(a), money in an amount or

EXECUTION COPY

(iii) a combination thereof in an amount, sufficient, without reinvestment, in the opinion of a nationally recognized firm of independent certified public accountants expressed in a written certification thereof delivered to the Trustee, to pay and discharge, the principal of (and premium, if any) and interest, if any, on the Outstanding Notes of that series on the Maturity of such principal or instalment of principal or interest. Before such a deposit the Issuer may make arrangements satisfactory to the Trustee for the redemption of Notes of that series at a future date or dates in accordance with Article 11 which shall be given effect in applying the foregoing.

(b) Such defeasance or covenant defeasance shall not result in a breach or violation of, or constitute a default under, any agreement or instrument to which the Issuer is a party or by which it is bound.

(c) No Default or Event of Default under Section 5.1(d) or 5.1(e) shall have occurred with respect to Notes of such series and be continuing during the period commencing on the date of such deposit and ending on the 91st day after such date (it being understood that this condition shall not be deemed satisfied until the expiration of such period).

(d) In the case of an election under Section 4.4, the Issuer shall have delivered to the Trustee an Opinion of Counsel to the effect that (i) the Issuer has received from, or there has been published by, the Internal Revenue Service a ruling, or (ii) since the date of execution of this Indenture, there has been a change in the applicable Federal income tax law, in either case to the effect that, and based thereon such opinion shall confirm that, the Holders of the Outstanding Notes of such series will not recognize income, gain or loss for Federal income tax purposes as a result of such deposit, defeasance and discharge and will be subject to Federal income tax on the same amount and in the same manner and at the same times, as would have been the case if such deposit, defeasance and discharge had not occurred.

(e) In the case of an election under Section 4.5, the Issuer shall have delivered to the Trustee an Opinion of Counsel to the effect that the Holders of the Outstanding Notes of such series will not recognize income, gain or loss for Federal income tax purposes as a result of such defeasance and will be subject to Federal income tax on the same amounts and in the same manner and at the same times as would have been the case if such defeasance had not occurred.

(f) The Issuer shall have delivered to the Trustee an Officers' Certificate and an Opinion of Counsel, each stating that all conditions precedent to the defeasance under Section 4.4 or the covenant defeasance under Section 4.5 (as the case may be) with respect to the Outstanding Notes of such series have been complied with.

4.7 *Deposited Money and Government Obligations to be Held in Trust.*
Subject to the provisions of the last paragraph of Section 10.3, all money and

Government Obligations (including the proceeds thereof) deposited with the Trustee pursuant to Section 4.6 in respect of the Outstanding Notes of any series shall be held in trust and applied by the Trustee, in accordance with the provisions of such Notes and this Indenture, to the payment, either directly or through any Paying Agent (including the Issuer acting as its own Paying Agent) as the Trustee may determine, to the Holders of such Notes thereto of all sums due and to become due thereon in respect of principal, premium, if any, and interest, but such money need not be segregated from other funds except to the extent required by law.

4.8 *Reinstatement.* If the Trustee or any Paying Agent is unable to apply any money in accordance with Section 4.7 or Section 4.2 by reason of any order or judgment or any court or governmental authority enjoining, restraining or otherwise prohibiting such application, then the Issuer's obligations under this Indenture and the Notes shall be revived and reinstated as though no deposit had occurred pursuant to this Article until such time as the Trustee or Paying Agent is permitted to apply all such money in accordance with Section 4.7 or 4.2; provided, however, that if the Issuer makes any payment of principal of (and premium, if any) or interest on the Notes of the relevant series following the reinstatement of its obligations, the Issuer shall be subrogated to the rights of the Holders of such Notes to receive such payment from the money so held in trust.

In the event the Issuer exercises its option under Section 4.4 or 4.5 with respect to the Notes of any series and the Notes of such series are declared due and payable because of the occurrence of any Event of Default and the amount of money and Government Obligations so deposited in trust is not sufficient to pay amounts due on the Notes of that series upon any acceleration resulting from such Event of Default, the Issuer will remain liable for such payment.

4.9 *Indemnity for Government Obligations.* The Issuer shall pay, and shall indemnify the Trustee against, any tax, fee or other charge imposed on or assessed against Government Obligations deposited pursuant to this Article or the principal and interest received on such Government Obligations other than any such tax, fee or other charge which by law is for the account of the Holders of Outstanding Notes.

4.10 *Return of Moneys Held by Trustee and Paying Agent Unclaimed, for Two Years.* Any moneys deposited with or paid to the Trustee or any Paying Agent for the payment of the principal of or interest, if any, on any Note and not applied but remaining unclaimed for two years after the date upon which such principal of interest shall have become due and payable, shall, upon the written request of the Issuer and unless otherwise required by mandatory provisions of applicable escheat or abandoned or unclaimed property law, be repaid to the Issuer by the Trustee or such Paying Agent, and the Holder of such Note shall, unless otherwise required by mandatory provisions of applicable escheat or abandoned or unclaimed property laws, thereafter look only to the Issuer for any

payment which such Holder may be entitled to collect, and all liability of the Trustee or any Paying Agent with respect to such moneys shall thereupon cease.

ARTICLE V

REMEDIES

5.1 *Events of Default.* "Event of Default", wherever used herein with respect to Notes of any series of the Issuer, means any one of the following events which shall have occurred and be continuing (whatever the reason for such Event of Default and whether it shall be voluntary or involuntary or be effected by operation of law or pursuant to any judgment, decree or order of any court or any order, rule or regulation of any administrative or governmental body);

(a) the Issuer shall default in payment or prepayment of all or any part of the principal of any Note or any interest on the Notes when and as the same shall become due and payable, whether at Stated Maturity, by acceleration, by notice of redemption or otherwise and, in the case of interest only, such default shall have continued for a period of 30 days or more;

(b) except as provided in the preceding clause (a), the Issuer shall default in the performance or observance of any of its other obligations contained in the Notes or the Indenture and such default shall continue for more than 90 consecutive days after written notice thereof is given to the Issuer;

(c) there shall have been a default under any bond, debenture, note or other evidence of indebtedness for money borrowed by the Issuer or any Principal Subsidiary having an aggregate principal amount outstanding of at least £30,000,000 or, after 31 December, 2005, the greater of 0.5% of Consolidated Net Tangible Assets and £30,000,000, or under any mortgage, indenture or instrument under which there may be issued or by which there may be secured or evidenced any indebtedness for money borrowed by the Issuer or any Principal Subsidiary, whether such indebtedness now exists or shall hereafter be created, which default shall have occurred at maturity or shall have resulted in such indebtedness of £30,000,000 or, after 31 December, 2005, the greater of 0.5% of Consolidated Net Tangible Assets and £30,000,000 becoming or being declared due and payable prior to the date on which it would otherwise have become due and payable, without such indebtedness having been discharged, or such acceleration having been rescinded or annulled, within a period of 30 days after written notice is provided to the Issuer;

(d) the entry by a court having jurisdiction in the premises of (x) a decree or order for relief in respect of the Issuer in an involuntary case or proceeding under any applicable bankruptcy, liquidation, insolvency, reorganization or other similar law or (y) a decree or order adjudging the Issuer or any Principal Subsidiary a bankrupt or insolvent, or approving as properly filed a petition seeking reorganization, arrangement, adjustment or composition of or in respect of the Issuer or any Principal Subsidiary under any applicable law, or appointing a custodian, receiver, liquidator, assignee, trustee, sequestrator or other

similar official of the Issuer or any Principal Subsidiary or any substantial part of its property, or ordering the winding up or liquidation of its affairs, and the continuance of any such decree or order for relief or any such other decree or order unstayed and in effect for a period of 90 consecutive days;

(e) the commencement by the Issuer or any Principal Subsidiary of a voluntary case or proceeding under any applicable bankruptcy, liquidation, insolvency, reorganization or other similar law or of any other case or proceeding to be adjudicated a bankrupt or insolvent, or the consent by it to the entry of a decree or order for relief in respect of the Issuer or any Principal Subsidiary in an involuntary case or proceeding under any applicable bankruptcy, liquidation, insolvency, reorganization or other similar law or to the commencement of any bankruptcy or insolvency case or proceeding against it, or the filing by it of a petition or answer or consent seeking reorganization or relief under any applicable law, or the consent by it to the filing of such petition or to the appointment of or taking possession by a custodian, receiver, liquidator, assignee, trustee, sequestrator or other similar official of the Issuer or any Principal Subsidiary or of any substantial part of any of their respective property, or the making by the Issuer or any Principal Subsidiary of an assignment for the benefit of creditors, or the taking of a corporate action by the Issuer or any Principal Subsidiary in furtherance of any such action; or

(f) any other Event of Default established as contemplated by Section 3.1 with respect to Notes of that series.

5.2 *Acceleration of Maturity; Rescission and Annulment.* If an Event of Default under Section 5.1(a), 5.1(b), 5.1(c), 5.1(d) or 5.1(f) occurs with respect to Notes of any series at the time Outstanding and is continuing, the Trustee or the Holders of not less than 25% in aggregate principal amount of the Outstanding Notes of such series may declare by written notice to the Issuer and the Trustee the principal amount (or, if any of the Notes of that series are Original Issue Discount Securities, such proportion of the principal amount of such Notes as may be specified in the terms thereof) of all the Notes of such series, together with any accrued interest, to be due and payable immediately. At any time after such declaration of acceleration with respect to the Notes of any series has been made, but before a judgment or decree for payment of money has been obtained by the Trustee, the Holders of a majority in aggregate principal amount of the Notes of such series, under certain circumstances, may rescind and annul such declaration. In addition, past defaults with respect to the Notes of any series may be waived by the Holders of a majority in aggregate principal amount of the Notes of such series then Outstanding, except a default in the payment of principal or interest on the Notes or in respect of a covenant or provision of the Indenture which cannot be modified or amended without the consent of the Holder of each Note affected.

If an Event of Default described in paragraph 5.1(e) occurs and is continuing, then and in each and every such case, the principal amount (or, if any

EXECUTION COPY

of the Notes of that series are Original Issue Discount Securities, such proportion of the principal amount of such Notes as may be specified in the terms thereof) of the Outstanding Notes together with any accrued interest, shall, without any declaration or other act on the part of the Trustee or any Holder of the Notes, become and be immediately due and payable, anything in this Indenture or in the Notes contained to the contrary notwithstanding.

At any time after such a declaration of acceleration with respect to the Notes of any series has been made but before a judgment or decree for payment of the money due has been obtained by the Trustee as hereinafter in this Article provided, the Holder or Holders of a majority in aggregate principal amount of the Outstanding Notes of such series, by written notice to the Issuer and the Trustee, may rescind and annul such declaration of acceleration and its consequences, but only if

(a) the Issuer has paid or deposited with the Trustee a sum sufficient to pay

(i) the principal of (and premium, if any, on) any Notes of such series which have become due otherwise than by such declaration of acceleration and any due and payable interest, and overdue interest, if any, thereon at the rate or rates prescribed therefor in such Notes,

(ii) to the extent that payment of such interest is lawful, interest upon overdue interest at the rate or rates prescribed therefor in such Notes, and

(iii) all sums paid or advanced by the Trustee hereunder except those resulting from gross negligence or willful misconduct on the part of the Trustee, and the reasonable compensation, expenses, disbursements and advances of the Trustee, its agents and counsel; and

(b) all Events of Default with respect to the Notes of such series, other than the non-payment of principal which has become due solely by such declaration of acceleration, have been cured or waived as provided herein.

No such rescission shall affect any subsequent default or impair any right consequent thereon.

For all purposes under this Indenture, if a portion of the principal of any Original Issue Discount Securities shall have been accelerated and declared due and payable pursuant to the provisions hereof, then, from and after such declaration, unless such declaration has been rescinded and annulled, the principal amount of such Original Issue Discount Securities shall be deemed, for all purposes hereunder, to be such portion of the principal thereof as shall be due and payable as a result of such acceleration, and payment of such portion of the principal thereof as shall be due and payable as a result of such acceleration, together with interest, if any, thereon and all other amounts owing thereunder, shall constitute payment in full of such Original Issue Discount Securities.

5.3 *Collection of Indebtedness and Suits for Enforcement by Trustee.*
The Issuer covenants that if:

(a) default is made in the payment of any interest on any Note of any series when such interest becomes due and payable and such default continues for a period of 30 days, or

(b) default is made in the payment of the principal of (or premium, if any, on) any Note of any series at the Maturity thereof,

the Issuer will, upon demand of the Trustee, pay to it, for the benefit of the Holders of such Notes, the whole amount then due and payable on such Notes for principal (and premium, if any) and interest, if any, and interest on any overdue principal (and premium, if any) and, to the extent that payment of such interest shall be legally enforceable, interest on any overdue interest, at the rate or rates prescribed therefor in such Notes; and, in addition thereto, such further amount as shall be sufficient to cover the costs and expenses of collection, including the reasonable compensation, expenses, disbursements and advances (except those made in bad faith or as a result of negligence) of the Trustee, its agents and counsel.

If an Event of Default occurs and is continuing, the Trustee may in its discretion proceed to protect and enforce its rights and the rights of the Holders by such appropriate judicial proceedings as the Trustee shall deem most effectual to protect and enforce any such rights, whether for the specific enforcement of any covenant or agreement in this Indenture or in aid of the exercise of any power granted herein, or to enforce any other proper remedy.

5.4 *Trustee May File Proofs of Claim.* In case of any judicial proceeding relative to the Issuer (or any other obligor upon the Notes), its property or its creditors, the Trustee shall be entitled and empowered, by intervention in such proceeding or otherwise, to take any and all actions authorized under the Trust Indenture Act in order to have claims of the Holders and the Trustee allowed in any such proceeding. In particular, the Trustee shall be authorized to collect and receive any moneys or other property payable or deliverable on any such claims and to distribute the same; and any custodian, receiver, assignee, trustee, liquidator, sequestrator or other similar official in any such judicial proceeding is hereby authorized by each Holder of a Note to make such payments to the Trustee and, in the event that the Trustee shall consent to the making of such payments directly to the Holders, to pay to the Trustee any amounts due it for the reasonable compensation, expenses, disbursements and advances of the Trustee, its agents and counsel, and any other amounts due to the Trustee under Section 6.7.

No provision of this Indenture shall be deemed to authorize the Trustee to authorize or consent to or accept or adopt on behalf of any Holder any plan or reorganization, arrangement, adjustment or composition affecting the Notes or the

rights of any Holder thereof or to authorize the Trustee to vote in respect of the claim of any Holder in any such proceeding; provided, however, that the Trustee may, on behalf of the Holders, vote for the election of a trustee in bankruptcy or similar official and be a member of a creditors' or other similar committee.

5.5 *Trustee May Enforce Claims Without Possession of Notes.* All rights of action and claims under this Indenture or the Notes may be prosecuted and enforced by the Trustee without the possession of any of the Notes or the production thereof in any proceeding relating thereto, and any such proceeding instituted by the Trustee shall be brought in its own name as trustee of an express trust, and any recovery of judgment shall, after provision for the payment of the reasonable compensation, expenses, disbursements and advances of the Trustee, its agents and counsel and any other amounts due to the Trustee under Section 6.7, be for the ratable benefit of the Holders of the Notes in respect of which such judgment has been recovered.

5.6 *Application of Money Collected.* Any money collected by the Trustee pursuant to this Article shall be applied in the following order, at the date or dates fixed by the Trustee and, in case of the distribution of such money on account of principal (and premium, if any), interest, if any, or Additional Amounts, if any, upon presentation of the Notes and the notation thereon of the payment if only partially paid and upon surrender thereof if fully paid:

FIRST: To the payment of all amounts in respect of which or for the benefit of which such money has been collected due to the Trustee under Section 6.7;

SECOND: To the payment of the amounts then due and unpaid for principal of (and premium, if any) interest, if any, and Additional Amounts, if any, on the Notes in respect of which or for the benefit of which such money has been collected, ratably, without preference or priority of any kind, according to the amounts due and payable on such Notes for principal (and premium, if any) interest, if any, and Additional Amounts, if any, respectively; and

THIRD: To the payment of the balance, if any, to the Issuer or any other Person or Persons, including the Issuer, legally entitled thereto.

5.7 *Limitation on Suits.* No Holder of any Note shall have any right to institute any proceeding, judicial or otherwise, with respect to this Indenture, or for the appointment of a receiver or trustee, or for any other remedy hereunder, unless/

(a) such Holder has previously given written notice to the Trustee of a continuing Event of Default with respect to the Notes of that series specifying such Event of Default and stating that such notice is a "Notice of Default" hereunder;

(b) the Holders of not less than 25% in aggregate principal amount of the Outstanding Notes of such series shall have made written request to the Trustee to institute proceedings in respect of such Event of Default in its own name, as Trustee hereunder;

(c) such Holder has provided the Trustee indemnity reasonably satisfactory to the Trustee against the costs, expenses and liabilities to be incurred in compliance with such request;

(d) the Trustee for 60 days after its receipt of such notice, request and acceptance of the offer of indemnity as reasonably satisfactory has failed to institute any such proceeding; and

(e) no direction inconsistent with such written request has been given to the Trustee during such 60-day period by the Holders of a majority in principal amount of the Outstanding Notes of such series;

it being understood and intended that no one or more Holders of Notes appertaining thereto shall have any right in any manner whatever by virtue of, or by availing of, any provision of this Indenture to affect, disturb or prejudice the rights of any other such Holders, or to obtain or to seek to obtain priority or preference over any other such Holders or to enforce any right under this Indenture, except in the manner herein provided and for the equal and ratable benefit of all such Holders.

5.8 Unconditional Right of Holders to Receive Principal, Premium, if any, Interest, and Additional Amounts, if any. Notwithstanding any other provision in this Indenture, the Holder of any Note shall have the right, which is absolute and unconditional, to receive payment of the principal of (and premium, if any), (subject to Section 3.7) interest, if any, and Additional Amounts, if any, on such Note on the respective Stated Maturities as expressed in such Note (or, in the case of redemption, on the Redemption Date) and to institute suit for the enforcement of any such payment, and such rights shall not be impaired without the consent of such Holder.

5.9 Restoration of Rights and Remedies. If the Trustee or any Holder of any Note has instituted any proceeding to enforce any right or remedy under this Indenture and such proceeding has been discontinued or abandoned for any reason, or has been determined adversely to the Trustee or to such Holder, then and in every such case, subject to any determination in such proceeding, the Issuer, the Trustee and the Holders of Notes shall be restored severally and respectively to their former positions hereunder and thereafter all rights and remedies of the Trustee and the Holders of Notes shall continue as though no such proceeding had been instituted.

5.10 Rights and Remedies Cumulative. Except as otherwise provided with respect to the replacement or payment of mutilated, destroyed, lost or stolen

Notes in the last paragraph of Section 3.6, no right or remedy herein conferred upon or reserved to the Trustee or to the Holders of Notes is intended to be exclusive of any other right or remedy, and every right and remedy shall, to the extent permitted by law, be cumulative and in addition to every other right and remedy given hereunder or now or hereafter existing at law or in equity or otherwise. The assertion or employment of any right or remedy hereunder, or otherwise, shall not prevent the concurrent assertion or employment of any other appropriate right or remedy.

5.11 *Delay or Omission Not Waiver.* No delay or omission of the Trustee or of any Holder of any Note to exercise any right or remedy accruing upon any Event of Default shall impair any such right or remedy or constitute a waiver of any such Event of Default or an acquiescence therein. Every right and remedy given by this Article or by law to the Trustee or to the Holders of Notes may be exercised from time to time, and as often as may be deemed expedient, by the Trustee or by the Holders of Notes.

5.12 *Control by Holders.* The Holders of a majority in aggregate principal amount of the Outstanding Notes of any series shall have the right to direct the time, method and place of conducting any proceeding for any remedy available to the Trustee, or exercising any trust or power conferred on the Trustee with respect to the Notes, provided that

(a) such direction shall not be in conflict with any rule of law or with this Indenture or unduly prejudicial to the rights of other Holders or involve the Trustee in personal liability; and

(b) the Trustee may take any other action deemed proper by the Trustee which is not inconsistent with such direction.

5.13 *Waiver of Past Defaults.* The Holders of not less than a majority in aggregate principal amount of the Outstanding Notes of any series by notice to the Trustee may on behalf of the Holders of all the Notes of such series waive any past Event of Default or Default hereunder and its consequences, except an Event of Default or Default

(a) in the payment of the principal of (or premium, if any) or interest, if any, on any Note of such series of the Issuer, or

(b) in respect of a covenant or provision hereof which under Article Nine cannot be modified or amended without the consent of the Holder of each Outstanding Note of such series affected.

Upon any such waiver, such Event of Default or Default shall cease to exist, and any Event of Default or Default arising therefrom shall be deemed to have been cured and not to have occurred for every purpose of this Indenture, but no such waiver shall extend to any subsequent or other Event of Default or Default or impair any right consequent thereon.

5.14 *Undertaking for Costs.* In any suit for the enforcement of any right or remedy under this Indenture, or in any suit against the Trustee for any action taken, suffered or omitted by it as Trustee, a court may require any party litigant in such suit to file an undertaking to pay the costs of such suit, and may assess costs against any such party litigant, in the manner and to the extent provided in the Trust Indenture Act; provided that neither this Section nor the Trust Indenture Act shall be deemed to authorize any court to require such an undertaking or to make such assessment in any suit instituted by the Issuer, in any suit instituted by the Trustee, in any suit instituted by any Holder, or group of Holders, holding in the aggregate more than 10% in principal amount of the Outstanding Notes, or in any suit instituted by any Holder for the enforcement of the payment of the principal of or any premium or interest on any Note on or after the Stated Maturity expressed in such Note (or, in the case of redemption, on or after the Redemption Date).

5.15 *Waiver of Usury, Stay or Extension Laws.* The Issuer covenants (to the extent that it may lawfully do so) that it will not at any time insist upon, or plead, or in any manner whatsoever claim or take the benefit or advantage of, any usury, stay or extension law wherever enacted, now or at any time hereafter in force, which may affect the covenants or the performance of this Indenture; and the Issuer (to the extent it may lawfully do so) hereby expressly waives all benefit or advantage of any such law and covenants that it will not hinder, delay or impede the execution of any power herein granted to the Trustee, but will suffer and permit the execution of every such power as though no such law had been enacted.

5.16 *Compliance Certificate; Notices of Default.* The Issuer is required to deliver to the Trustee annually a statement, in the form of an Officers' Certificate, regarding compliance with this Indenture, and the Issuer is required, within five Business Days, upon becoming aware of any Default or Event of Default with respect to Notes of any series, to deliver to the Trustee a statement, in the form of an Officers' Certificate, specifying such Default or Event of Default.

ARTICLE VI

THE TRUSTEE

6.1 *Certain Duties and Responsibilities.* The duties and responsibilities of the Trustee shall be as provided by Section 315 of the Trust Indenture Act. Notwithstanding the foregoing, no provision of this Indenture shall require the Trustee to expend or risk its own funds or otherwise incur any financial liability in the performance of any of its duties hereunder, or in the exercise of any of its rights or powers. Whether or not therein expressly so provided, every provision of this Indenture relating to the conduct or affecting the liability of or affording protection to the Trustee shall be subject to the provisions

of this Section. In case an Event of Default has occurred which has not been cured or waived, the Trustee shall exercise such of the rights and powers vested in it by this Indenture, and use the same degree of care and skill in their exercise, as a prudent person would exercise or use under the circumstances in the conduct of such person's own affairs.

6.2 *Notice of Defaults.* If a Responsible Officer of the Trustee receives written notice of the occurrence of a Default hereunder, the Trustee shall, within 90 days after it occurs, give the Holders of Notes of such series notice of such Default as and to the extent provided by the Trust Indenture Act unless such Default shall have been cured or waived; provided, however, that, except in the case of a default in the payment of the principal of, premium, if any, or interest on any Note, the Trustee shall be protected in withholding such notice if and so long as the board of directors, the executive committee or a trust committee of directors and/or Responsible Officers of the Trustee in good faith determine that the withholding of such notice is in the interest of the Holders.

6.3 *Certain Rights of Trustee.* Subject to the provisions of Section 6.1 and in the absence of bad faith on its part:

(a) the Trustee may conclusively rely and shall be protected in acting or refraining from acting upon, whether in its original or facsimile form, any resolution, certificate, statement, instrument, opinion, report, notice, request, direction, consent, order, bond, debenture, note, coupon or other evidence of indebtedness or other paper or document believed by it to be genuine and to have been signed or presented by the proper party or parties;

(b) any request or direction of the Issuer mentioned herein shall be sufficiently evidenced by an Issuer Request and any action or resolution of the Board of Directors of the Issuer shall be sufficiently evidenced by a Board Resolution;

(c) whenever in the administration of this Indenture the Trustee shall deem it desirable that a matter be proved or established prior to taking, suffering or omitting any action hereunder, the Trustee (unless other evidence be herein specifically prescribed) may rely upon an Officers' Certificate or Opinion of Counsel;

(d) the Trustee may consult with counsel of its selection and the advice of such counsel or any Opinion of Counsel shall be full and complete authorization and protection in respect of any action taken, suffered or omitted by it hereunder in good faith and in reliance thereon;

(e) the Trustee shall be under no obligation to exercise any of the rights or powers vested in it by this Indenture at the request or direction of any of the Holders pursuant to this Indenture, unless such Holders shall have provided the Trustee note or indemnity that is reasonably satisfactory to the Trustee against

the costs, expenses and liabilities which might be incurred by it in compliance with such request or direction;

(f) the Trustee shall not be bound to make any investigation into the facts or matters stated in any resolution, certificate, statement, instrument, opinion, report, notice, request, direction, consent, order, bond, debenture, note, coupon or other evidence of indebtedness or other paper or document, but the Trustee, in its discretion, may make such further inquiry or investigation into such facts or matters as it may see fit and, if the Trustee shall determine to make such further inquiry or investigation, it shall be entitled to examine the books, records and premises of the Issuer, personally or by agent or attorney at the sole cost of the Issuer and shall incur no liability or additional liability of any kind by reason of such inquiry or investigation;

(g) the Trustee may execute any of the trusts or powers hereunder or perform any duties hereunder either directly or by or through agents or attorneys and the Trustee shall not be responsible for any misconduct or negligence on the part of any agent (other than an officer or employee of the Trustee) or attorney appointed with due care by it hereunder; and

(h) the Trustee shall not be liable for any action taken, suffered, or omitted to be taken by it in good faith and reasonably believed by it to be authorized or within the discretion or rights or powers conferred upon it by this Indenture.

6.4 *Not Responsible for Recitals or Issuance of Notes.* The recitals contained herein and in the Notes, except the Trustee's certificates of authentication, shall be taken as the statements of the Issuer, and neither the Trustee nor any Authenticating Agent assumes any responsibility for their correctness. The Trustee makes no representations as to the validity or sufficiency of this Indenture or of the Notes, except that the Trustee represents and warrants that it has duly authorized, executed and delivered this Indenture. Neither the Trustee nor any Authenticating Agent shall be accountable for the use or application by the Issuer of Notes or the proceeds thereof.

6.5 *May Hold Notes.* The Trustee, any Authenticating Agent, any Paying Agent, and any Note Registrar or any other agent of the Issuer, in its individual or any other capacity, may become the owner or pledgee of Notes of any series and, subject to Sections 6.8 and 6.13, may otherwise deal with the Issuer with the same rights it would have if it were not Trustee, Authenticating Agent, Paying Agent, Note Registrar, or such other agent. However, in the event that the Trustee, such Authenticating Agent, such Paying Agent or such Note Registrar acquires any conflicting interest it must eliminate such conflict within 90 days, apply to the Commission for permission to continue in such capacity or resign.

EXECUTION COPY

6.6 *Money Held in Trust.* Money held by the Trustee in trust hereunder need not be segregated from other funds except to the extent required by law. The Trustee shall be under no liability for interest on any money received by it hereunder except as otherwise agreed in writing with the Issuer.

6.7 *Compensation and Reimbursement.* The Issuer agrees:

(a) to pay to the Trustee from time to time compensation for all services rendered by it hereunder as agreed in writing by the Issuer from time to time (which compensation shall not be limited by any provision of law in regard to the compensation of a trustee of an express trust);

(b) except as otherwise expressly provided herein, to reimburse the Trustee upon its request for all reasonable expenses, disbursements and advances incurred or made by the Trustee in accordance with any provision of this Indenture (including the reasonable compensation and the expenses and disbursements of its agents and counsel), except any such expense, disbursement or advance as may be attributable to its gross negligence or willful misconduct; and

(c) to indemnify each of the Trustee or any predecessor Trustee, for, and to hold it harmless against, any and all loss, liability, claim, damage or expense incurred without gross negligence or willful misconduct on its part, arising out of or in connection with the acceptance or administration of the trust or trusts hereunder including the costs and expenses of defending itself against any claim or liability in connection with the exercise or performance of any of its powers or duties hereunder but excluding any tax liabilities of the Trustee based upon, measured by or determined by the income of the Trustee.

When the Trustee incurs expenses or renders services in connection with an Event of Default specified in Section 5.01(d) or Section 5.01(e), such expenses (including reasonable charges of Trustee's counsel) and compensation for such services are intended to constitute expenses of administration under any applicable bankruptcy, insolvency or other similar law.

As security for the performance of the obligations of the Issuer under this Section, the Trustee shall have a lien prior to the Notes upon all property and funds held or collected by the Trustee as such, except funds held in trust for the payment of principal of (or premium, if any) interest, if any, or Additional Amounts, if any, on the Notes.

In no event shall the Trustee be liable for any indirect, special, punitive or consequential loss or damage of any kind whatsoever, including, but not limited to, lost profits, even if the Trustee has been advised of the likelihood of such loss or damage and regardless of the form of action.

In no event shall the Trustee be liable for any failure or delay in the performance of its obligations hereunder because of circumstances beyond its

control, including, but not limited to, acts of God, flood, war (whether declared or undeclared), terrorism, fire, riot, embargo, government action, including any laws, ordinances, regulations, governmental action or the like which delay, restrict or prohibit the providing of the services contemplated by this Agreement.

6.8 *Disqualification; Conflicting Interests.* Subject to qualification of the Indenture under the Trust Indenture Act, if the Trustee has or shall acquire a conflicting interest within the meaning of the Trust Indenture Act, the Trustee shall either eliminate such interest or resign, to the extent and in the manner provided by, and subject to the provisions of, the Trust Indenture Act and this Indenture.

6.9 *Corporate Trustee Required; Eligibility.* There shall at all times be a Trustee hereunder which shall be eligible to act as Trustee under the Trust Indenture Act and shall have a combined capital and surplus of at least U.S.\$50,000,000 and has its Corporate Trust Office in the Borough of Manhattan, The City of New York. If such Person publishes reports of condition at least annually, pursuant to law or to the requirements of a Federal, State or District of Columbia supervising or examining authority within the United States of America, then for the purposes of this Section, the combined capital and surplus of such Person shall be deemed to be its combined capital and surplus as set forth in its most recent report of condition so published. If at any time the Trustee shall cease to be eligible in accordance with the provisions of this Section, it shall resign immediately in the manner and with the effect hereinafter specified in this Article.

6.10 *Resignation and Removal; Appointment of Successor.*

(a) No resignation or removal of the Trustee and no appointment of a successor Trustee pursuant to this Article shall become effective until the acceptance of appointment by the successor Trustee in accordance with the applicable requirements of Section 6.11.

(b) The Trustee may resign at any time by giving written notice thereof to the Issuer. If the instrument of acceptance by a successor Trustee required by Section 6.11 shall not have been delivered to the Trustee within 30 days after the giving of such notice of resignation, the resigning Trustee may petition any court of competent jurisdiction for the appointment of a successor Trustee.

(c) The Trustee may be removed at any time by Act of the Holders of a majority in aggregate principal amount of the Outstanding Notes delivered to the Trustee and the Issuer.

(d) If at any time:

(i) the Trustee shall fail to comply with Section 6.8 after written request therefor by the Issuer or by any Holder who has been a bona fide Holder

EXECUTION COPY

of a Note as to which the Trustee has a conflicting interest for at least six months,
or

(ii) the Trustee shall cease to be eligible under Section 6.9 and shall fail to resign after written request therefor by the Issuer or by any Holder who has been a bona fide Holder of a Note for at least six months, or

(iii) the Trustee shall become incapable of acting or shall be adjudged a bankrupt or insolvent or a receiver of the Trustee or of its property shall be appointed or any public officer shall take charge, or control of the Trustee or of its property or affairs for the purpose of rehabilitation, conservation or liquidation, or

(iv) the Trustee shall be adjudged a bankrupt or insolvent or a receiver of the Trustee or of its property shall be appointed or any public officer shall take charge or control of the Trustee or of its property or affairs for the purpose of rehabilitation, conservation or liquidation,

then, in any such case, (x) the Issuer, by a Board Resolution, may remove the Trustee or (y) subject to Section 5.14, any Holder who has been a bona fide Holder of a Note for at least six months (and, in the case of subparagraph (d)(i) above, who is a Holder of a Note as to which the Trustee has a conflicting interest) may, on behalf of himself and all others similarly situated, petition any court of competent jurisdiction for the removal of the Trustee and the appointment of a successor Trustee or Trustees.

(e) If the Trustee shall resign, be removed or become incapable of acting, or if a vacancy shall occur in the office of Trustee for any cause, with respect to the Notes of one or more series, the Issuer, by a Board Resolution, shall promptly appoint a successor Trustee or Trustees with respect to the Notes of that or those series (it being understood that any such Successor Trustee may be appointed with respect to the Notes of one or more or all of such series and that at any time there should be only one Trustee with respect to the Notes of any particular series) and shall comply with the applicable requirements of Section 6.11. If, within one year after such resignation, removal or incapability, or the occurrence of such vacancy, a successor Trustee with respect to the Notes of any series shall be appointed by Act of the Holders of a majority in principal amount of the Outstanding Notes delivered to the Issuer and the retiring Trustee, the successor Trustee so appointed shall, forthwith upon its acceptance of such appointment in accordance with the applicable requirements of Section , become the successor Trustee and to that extent supersede the successor Trustee appointed by the Issuer. If no successor Trustee shall have been so appointed by the Issuer or the Holders of Notes of any series and accepted appointment in the manner hereinafter required by Section 6.11, any Holder who has been a bona fide Holder of a Note of such series for at least six months may, on behalf of himself and all others similarly situated, petition any court of competent jurisdiction for the appointment of a successor Trustee with respect to the Notes.

(f) The Issuer shall give notice of any resignation and each removal of the Trustee with respect to the Notes of any series and each appointment of a successor Trustee to all Holders of Notes in the manner and to the extent provided in Section 1.6. Each notice shall include the name of the successor Trustee and the address of its Corporate Trust Office.

6.11 *Acceptance of Appointment by Successor.* In case of the appointment hereunder of a Successor Trustee with respect to all Notes, every such successor Trustee so appointed shall execute, acknowledge and deliver to the Issuer and to the retiring Trustee an instrument accepting such appointment, and thereupon the resignation or removal of the retiring Trustee shall become effective and such successor Trustee, without any further act, deed or conveyance, shall become vested with all the rights, powers, trusts and duties of the retiring Trustee; but, on request of the Issuer or the successor Trustee, such retiring Trustee shall, upon payment of its charges, execute and deliver an instrument transferring to such successor Trustee, all the rights, powers and trusts of the retiring Trustee and shall duly assign, transfer and deliver to such successor Trustee all property and money held by such retiring Trustee hereunder.

(a) In case of the appointment hereunder of a successor Trustee with respect to the Notes of one or more (but not all) series of the Issuer, the retiring Trustee and each successor Trustee with respect to the Notes of one or more series of the Issuer shall execute and deliver an indenture supplemental hereto wherein each successor Trustee shall accept such appointment and which (1) shall contain such provisions as shall be necessary or desirable to transfer and confirm to, and to vest in, each successor Trustee all the rights, powers, trusts and duties of the retiring Trustee with respect to the Notes of that or those series to which the appointment of such successor Trustee relates, (2) if the retiring Trustee is not retiring with respect to all Notes, shall contain such provisions as shall be deemed necessary or desirable to confirm that all the rights, powers, trusts and duties of the retiring Trustee with respect to the Notes of that or those series as to which the retiring Trustee is not retiring shall continue to be vested in the retiring Trustee, and (3) shall add to or change any of the provisions of this Indenture as shall be necessary to provide for or facilitate the administration of the trusts hereunder by more than one Trustee, it being understood that nothing herein or in such supplemental indenture shall constitute such Trustees co-trustees of the same trust and that each such Trustee shall be trustee of a trust or trusts hereunder separate and apart from any trust or trusts hereunder administered by any other such Trustee; and upon the execution and delivery of such supplemental indenture the resignation or removal of the retiring Trustee shall become effective to the extent provided therein and each such successor Trustee, without any further act, deed or conveyance, shall become vested with all the rights, powers, trusts and duties of the retiring Trustee with respect to the Notes of that or those series to which the appointment of such successor Trustee relates; but, on request of the Issuer or any successor Trustee, such retiring Trustee shall duly assign, transfer and deliver to such successor Trustee all property and money held by such retiring Trustee

hereunder with respect to the Notes of that or those series to which the appointment of such successor Trustee relates.

(b) Upon request of any such successor Trustee, the Issuer shall execute any and all instruments for more fully and certainly vesting in and confirming to such successor Trustee all such rights, powers and trusts referred to in paragraph (a) of this Section.

(c) No successor Trustee shall accept its appointment unless at the time of such acceptance such successor Trustee shall be qualified and eligible under this Article.

6.12 *Merger, Conversion, Consolidation or Succession to Business.* Any corporation or national banking association into which the Trustee may be merged or converted or with which it may be consolidated, or any corporation or national banking association resulting from any merger, conversion or consolidation to which the Trustee shall be a party, or any corporation or national banking association succeeding to all or substantially all the corporate trust business of the Trustee, shall be the successor of the Trustee hereunder, provided such corporation or national banking association shall be otherwise qualified and eligible under this Article, without the execution or filing of any paper or any further act on the part of any of the parties hereto. In case any Notes shall have been authenticated, but not delivered, by the Trustee then in office, any successor by merger, conversion or consolidation to such authenticating Trustee may adopt such authentication and deliver the Notes so authenticated with the same effect as if such successor Trustee had itself authenticated such Notes.

6.13 *Preferential Collection of Claims.* If and when the Trustee shall be or become a creditor of the Issuer (or any other obligor upon the Notes), the Trustee shall be subject to the provisions of the Trust Indenture Act regarding the collection of claims against the Issuer (or any such other obligor).

6.14 *Appointment of Authenticating Agent.* The Trustee may at any time appoint an Authenticating Agent or Agents which shall be authorized to act on behalf of the Trustee to authenticate Notes upon original issue, or issued upon exchange, registration of transfer or partial redemption thereof or in lieu of destroyed, lost or stolen Notes, and Notes so authenticated shall be entitled to the benefits of this Indenture and shall be valid and obligatory for all purposes as if authenticated by the Trustee hereunder. Wherever reference is made in this Indenture to the authentication and delivery of Notes by the Trustee or the Trustee's certificate of authentication, such reference shall be deemed to include authentication and delivery on behalf of the Trustee by an Authenticating Agent and a certificate of authentication executed on behalf of the Trustee by an Authenticating Agent. Each Authenticating Agent shall be acceptable to the Issuer and shall at all times be a corporation or national banking association organized and doing business and in good standing under the laws of the United States of America, any State thereof or the District of Columbia, authorized under

EXECUTION COPY

such laws to act as Authenticating Agent, having a combined capital and surplus of not less than U.S.\$50,000,000 and subject to supervision or examination by Federal or State or District of Columbia authorities. If such Authenticating Agent publishes reports of condition at least annually, pursuant to law or to the requirements of said supervising or examining authority, then for the purposes of this Section, the combined capital and surplus of such Authenticating Agent shall be deemed to be its combined capital and surplus as set forth in its most recent report of condition so published. If at any time an Authenticating Agent shall cease to be eligible in accordance with the provisions of this Section, such Authenticating Agent shall resign immediately in the manner and with the effect specified in this Section.

Any corporation or national banking association into which an Authenticating Agent may be merged or converted or with which it may be consolidated, or any corporation or national banking association resulting from any merger, conversion or consolidation to which such Authenticating Agent shall be a party, or any corporation or national banking association succeeding to all or substantially all the corporate agency or corporate trust business of an Authenticating Agent, shall continue to be an Authenticating Agent, provided such corporation or national banking association shall be otherwise eligible under this Section, without the execution or filing of any paper or any further act on the part of the Trustee or the Authenticating Agent.

An Authenticating Agent may resign at any time by giving written notice thereof to the Trustee and the Issuer. The Trustee may at any time terminate the agency of an Authenticating Agent by giving written notice thereof to such Authenticating Agent and the Issuer. Upon receiving such a notice of resignation or upon such a termination, or in case at any time such Authenticating Agent shall cease to be eligible in accordance with the provisions of this Section, the Trustee may appoint a successor Authenticating Agent which shall be acceptable to the Issuer and shall give notice thereof to the Holders of Notes in the manner and to the extent provided in Section . Any successor Authenticating Agent upon acceptance of its appointment hereunder shall become vested with all the rights, powers and duties of its predecessor hereunder, with like effect as if originally named as an Authenticating Agent. No successor Authenticating Agent shall be appointed unless eligible under the provisions of this Section.

The Issuer agrees to pay to each Authenticating Agent from time to time reasonable compensation for its services under this Section.

If an appointment is made pursuant to this Section, the Notes may have endorsed thereon, in lieu of the Trustee's certificate of authentication, an alternate certificate of authentication in the following form:

HOLDERS LISTS AND REPORTS BY TRUSTEE AND ISSUER

7.1 *Issuer to Furnish Trustee Names and Addresses of Holders.* The Issuer will furnish or cause to be furnished to the Trustee:

(a) quarterly, not more than 15 days after each Regular Record Date, a list, in such form as the Trustee may reasonably require, of the names and addresses of the Holders of Definitive Notes as of such Regular Record Date and, if previously furnished to the Issuer in accordance with Section 1.5, of the Holder of the Global Note, and

(b) at such other times as the Trustee may request in writing, within 30 days after the receipt by the Issuer of any such request, a list of similar form and content as of a date not more than 15 days prior to the time such list is furnished.

7.2 The Issuer need not furnish or *cause* to be furnished to the Trustee pursuant to Section 7.1 the names and addresses of Holders of Notes so long as the Trustee acts as Note Registrar.

7.3 *Preservation of Information; Communications to Holders.*

(a) The Trustee shall preserve, in as current a form as is practicable, the names and addresses of Holders (i) contained in the most recent list furnished to the Trustee as provided in Section 7.1 and (ii) received by the Trustee in its capacity as Paying Agent or Note Registrar (if so acting). The Trustee may destroy any list furnished to it as provided in Section 7.1 upon receipt of a new list so furnished.

(b) The rights of the Holders of Notes to communicate with other Holders with respect to their rights under this Indenture or under the Notes, and the corresponding rights and privileges of the Trustee, shall be as provided by the Trust Indenture Act.

(c) Every Holder, by receiving and holding a Note, agrees with the Issuer and the Trustee that none of the Issuer, the Trustee or any agent of any of them shall be held accountable by reason of the disclosure of any such information as to the names and addresses of the Holders in accordance with Section .

7.4 *Reports by Trustee.* Not later than 60 days after March 15 (the "reporting date") in each year following the date hereof, so long as any Notes are Outstanding hereunder, the Trustee shall transmit to Holders as provided in the Trust Indenture Act a brief report dated as of the reporting date as required by and in compliance with the Trust Indenture Act. The Trustee shall also comply with Section 313(b)(2) of the Trust Indenture Act to the extent applicable.

7.5 *Reports by Issuer.* The Issuer shall file with the Trustee and the Commission, and transmit to Holders, such information, documents and other reports, and such summaries thereof, as may be required pursuant to the Trust Indenture Act at the times and in the manner provided pursuant to the Trust Indenture Act; provided that any such information, document or report required to be filed with the Commission pursuant to Section 13 or Section 15(d) of the Exchange Act shall be filed with the Trustee within 15 days after the same is required to be filed with the Commission. Delivery of such reports, information and documents to the Trustee is for informational purposes only and the Trustee's receipt of such shall not constitute constructive notice of any information contained therein or determinable from information contained therein, including the Issuer's compliance with any of its covenants hereunder (as to which the Trustee is entitled to conclusively rely exclusively on Officers' Certificates).

ARTICLE VIII

CONSOLIDATION, MERGER, AMALGAMATION, SALE, LEASE OR CONVEYANCE OF ASSETS BY THE ISSUER

8.1 *Consolidation, Merger, Amalgamation, Sale, Lease or Conveyance of Assets.* The Issuer shall not consolidate with or merge into any other corporation or sell, convey or transfer all or substantially all of its assets (defined as not less than 75%) to any other corporation, without the consent of the Holders, unless:

(a) immediately after giving effect to the transaction no Event of Default, and no event which, after notice or lapse of time or both, would become an Event of Default, shall have occurred and be continuing;

(b) the purchasing or transferee corporation or the successor, continuing or resulting corporation in the case of a merger or consolidation (if the Issuer is not the surviving corporation), as the case may be: (i) expressly assumes, by a Supplemental Indenture executed and delivered to the Trustee in a form satisfactory to the Trustee, the obligations of the Issuer under the Indenture and

the Notes and the due and punctual performance and observance of all the covenants and conditions to be performed or observed by the Issuer pursuant to the Indenture and the Notes; (ii) if such corporation is organized under the laws of a Successor Jurisdiction, agrees to assume the Issuer's obligations under the Notes to pay Additional Amounts under Section 10.4, substituting the name of the Successor Jurisdiction for the United Kingdom and the date of such assumption for the date of issue in each place that it appears; and (iii) is an entity in a member state of the European Union, an organization for Economic Cooperation and Development member nation, or a European Free Trade Association member nation, in each case other than Greece, Liechtenstein, Mexico or Turkey; and

(c) if, as a result of the transaction, Debt would be created that is secured by a lien not permitted by Section 10.7, the Issuer or such person secures the Notes equally and ratably with all such Debt.

8.2 *Successor Corporation Substituted.* Upon any consolidation of the Issuer with, or merger of the Issuer into, any other Person or any sale, conveyance or transfer of all or substantially all of the assets of the Issuer in accordance with Section 8.1, the successor Person formed by such consolidation or into which the Issuer is merged or to which such sale, conveyance, transfer or lease is made shall succeed to all the obligations and responsibilities of, and be substituted for, and may exercise every right and power of, the Issuer under this Indenture with the same effect as if such successor Person had been named as the Issuer herein, as the case may be. In the event a Successor Person (other than a direct subsidiary or indirect subsidiary of the Issuer) assumes the obligations of the Issuer in accordance with this Section 8.01, all obligations of the Issuer under the Indenture shall terminate. For the purposes of the discussion under Section 10.4 and Section 11.6 and in the Notes, upon the substitution of a Successor Jurisdiction for the United Kingdom, references to United Kingdom shall also refer to the Successor Jurisdiction.

- (g) to cure any ambiguity, to correct or supplement any provision herein which may be or is inconsistent with any other provision herein, or to make any other provisions with respect to matters or questions arising under this Indenture, provided that such action pursuant to this clause shall not adversely affect the interests of the Holders of Notes of any series in any material respect.

No supplemental indenture for the purposes identified in clauses (b), (c), (d) or (g) above may be entered into if to do so would adversely affect the interest of the Holders of Notes.

9.2 *Supplemental Indentures with Consent of Holders.* With the consent of the Holders of not less than a majority in aggregate principal amount of the Outstanding Notes of each series affected by such Supplemental Indenture, by Act of said Holders delivered to the Issuer and the Trustee, the Issuer, when authorized by a Board Resolution, and the Trustee may enter into an indenture or indentures supplemental hereto for the purpose of adding any provisions to or changing in any manner or eliminating any of the provisions of this Indenture or of any other indenture supplemental hereto or of modifying in any manner the rights of the Holders of such series; provided, however, that no such supplemental indenture may, without the consent of the Holder of each Outstanding Note affected thereby,

- (a) change the Stated Maturity of the principal amount or interest amounts in respect of any such Note, or reduce the principal amount thereof, or

any premium payable upon the redemption thereof, or reduce the amount of the principal of any Original Issue Discount Security that would be due and payable upon any acceleration of the maturity thereof pursuant to Section 5.2 or change the obligation of the Issuer (or its successor) to pay Additional Amounts pursuant to Section 10.4 on the Notes, or change the Place of Payment where the principal amount of, premium, if any, interest or Additional Amounts, if any, on any such Note is payable, or impair the right to institute suit for the enforcement of any such payment on or after the Stated Maturity thereof (or, in the case of redemption, on or after the Redemption Date); or

(b) reduce the percentage in aggregate principal amount of the Outstanding Notes, the consent of whose Holders is required for any such supplemental indenture, or the consent of whose Holders is required for any waiver (of compliance with certain provisions of this Indenture or of certain defaults hereunder and their consequences) provided for in this Indenture; or

(c) change any obligation of the Issuer to maintain an office or agency in the places and for the purposes specified in Section 10.2; or

(d) modify any of the provisions of this Section or Section 5.13 except to increase any such percentage or to provide that certain other provisions of this Indenture cannot be modified or waived without the consent of the Holder of each Outstanding Note affected thereby; provided, however, that this clause shall not be deemed to require the consent of any Holder with respect to changes in the references to "the Trustee" and concomitant changes in this Section, or the deletion of this proviso, in accordance with the requirements of Sections 6.11(b) and 9.1(f); or

(e) change in any manner adverse to the interests of the Holders of any Notes the terms and conditions of the obligations of the Issuer in respect of the due and punctual payment of any amounts due and payable on the Notes.

It shall not be necessary for any Act of Holders under this Section to approve the particular form of any proposed supplemental indenture, but it shall be sufficient if such Act shall approve the substance thereof.

9.3 *Execution of Supplemental Indentures.* In executing, or accepting the additional trusts created by, any supplemental indenture permitted by this Article or the modifications thereby of the trusts created by this Indenture, the Trustee shall be entitled to receive, and (subject to Section) shall be fully protected in relying upon, an Officers' Certificate and an Opinion of Counsel stating that the execution of such supplemental indenture is authorized or permitted by this Indenture. The Trustee may, but shall not be obliged to, enter into any such supplemental indenture which affects the Trustee's own rights, duties or immunities under this Indenture or otherwise.

9.4 *Effect of Supplemental Indentures.* Upon the execution of any supplemental indenture under this Article, this Indenture shall be modified in accordance therewith, and such supplemental indenture shall form a part of this Indenture for all purposes; and every Holder of Notes theretofore or thereafter authenticated and delivered hereunder shall be bound thereby, except as otherwise expressed therein.

9.5 *Conformity with Trust Indenture Act.* Every supplemental indenture executed pursuant to this Article shall conform to the requirements of the Trust Indenture Act as then in effect.

9.6 *Reference in Notes to Supplemental Indentures.* Notes of any series authenticated and delivered after the execution of any supplemental indenture pursuant to this Article may, and shall if required by the Trustee, bear a notation in form approved by the Trustee as to any matter provided for in such supplemental indenture. If the Issuer shall so determine, new Notes of any series, so modified as to conform, in the opinion of the Trustee and the Issuer, to any such supplemental indenture may be prepared and executed by the Issuer, and such Notes may be authenticated and delivered by the Trustee in exchange for Outstanding Notes of such series.

ARTICLE X

COVENANTS

10.1 *Payment of Principal, Premium, Interest and Additional Amounts.* The Issuer covenants and agrees for the benefit of the Holders of Notes of such series that it will duly and punctually pay the principal of (and premium, if any), interest, if any, and Additional Amounts, if any, on the Notes of that series in accordance with the terms of the Notes and this Indenture.

10.2 *Maintenance of Office or Agency.* The Issuer will maintain in each Place of Payment an office or agency where Notes of a particular series may be presented or surrendered for payment, where Notes of that series may be surrendered for registration of transfer or exchange and where notices and demands to or upon the Issuer in respect of the Notes of that series and this Indenture may be served; provided, however, that at the option of the Issuer, payment of any interest on a Definitive Note of that series may be made by check mailed to the address of the Person entitled herein as such address shall appear in the Note Register, unless such Person qualifies for and requests payment by wire transfer pursuant to Section 3.7. With respect to the Global Note, such office or agency shall be an office or agency of the New York Paying Agent in the Borough of Manhattan, The City of New York. With respect to Definitive Notes of any series, such office or agency in each Place of Payment shall initially be the Corporate Trust Office of the Trustee. The Issuer will maintain in the Borough of Manhattan, The City of New York, an office or agency where notices and demands to or upon the Issuer in respect of Notes of any series and this Indenture

may be served. The Issuer will give prompt written notice to the Trustee of the location, and any change in the location, of such office or agency. If at any time the Issuer shall fail to maintain any such required office or agency or shall fail to furnish the Trustee with the address thereof, such presentations, surrenders, notices and demands may be made or served at the Corporate Trust Office of the Trustee, and the Issuer hereby appoints the Trustee as its agent to receive all presentations, surrenders, notices and demands.

The Issuer may also from time to time designate one or more other offices or agencies where the Notes of any particular series may be presented or surrendered for any or all such purposes and may from time to time rescind such designations; provided, however, that no such designation or rescission shall in any manner relieve the Issuer of any obligation to maintain an office or agency in each Place of Payment (except as otherwise indicated in this Section) for such purposes. The Issuer will give prompt written notice to the Trustee of any such designation or rescission and of any change in the location of any such other office or agency.

10.3 *Money for Payments to Be Held in Trust.* If the Issuer shall at any time act as Paying Agent, it will, on or before each due date for payment of the principal of (and premium, if any), interest, if any, and Additional Amounts, if any, on any of the Notes of the relevant series, segregate and hold in trust for the benefit of the Persons entitled thereto a sum sufficient to pay the principal (and premium, if any), interest, if any, and Additional Amounts, if any, so becoming due until such sums shall be paid to such Persons or otherwise disposed of as herein provided and will promptly notify the Trustee of its action or failure so to act.

Whenever the Issuer shall have one or more Paying Agents, it will, by 10:00 A.M. New York City time on the due date for payment of the principal of (and premium, if any), interest, if any, or Additional Amounts, if any, on any Notes of such series, deposit with a Paying Agent in immediately available funds a sum sufficient to pay the principal (and premium, if any), interest, if any, or Additional Amounts, if any, so becoming due, such sum to be held as provided by the Trust Indenture Act, and (unless such Paying Agent is the Trustee) the Issuer will promptly notify the Trustee of its action or its failure so to act.

The Issuer shall request that the bank through which such payment is to be made agree to supply to such Paying Agent one Business Day prior to the due date for any such payment an irrevocable confirmation (by tested telex or authenticated SWIFT MT 100 Message) of its intention to make such payment.

The Issuer will cause each Paying Agent other than the Trustee to execute and deliver to the Trustee an instrument in which such Paying Agent shall agree with the Trustee, subject to the provisions of this Section, that such Paying Agent will:

EXECUTION COPY

(a) comply with the provisions of the Trust Indenture Act applicable to it as Paying Agent and

(b) during the continuance of any default by the Issuer (or any other obligor upon the Notes) in the making of any payment in respect of the Notes of any series, and upon the written request of the Trustee, forthwith pay to the Trustee all sums so held in trust by such Paying Agent for payment in respect of the Notes of such series.

The Issuer may at the time, for the purpose of obtaining the satisfaction and discharge of this Indenture or for any other purpose, pay, or by Issuer Order direct any Paying Agent to pay, to the Trustee all sums held in trust by the Issuer or such Paying Agent, such sums to be held by the Trustee upon the same trusts as those upon which such sums were held by the Issuer or such Paying Agent; and, upon such payment by any Paying Agent to the Trustee such Paying Agent shall be released from all further liability with respect to such money.

Any money deposited with the Trustee or any Paying Agent, or then held by the Issuer, in trust for the payment of the principal of (and premium, if any), interest, if any, or Additional Amounts, if any, on any Note of any series and remaining unclaimed for two years after such principal (and premium, if any), interest, if any, or Additional Amounts, if any, have become due and payable shall be paid to the Issuer on Issuer Request, or (if then held by the Issuer) shall be discharged from such trust; and the Holder of such Note shall thereafter, as an unsecured general creditor, look only to the Issuer for payment thereof, and all liability of the Trustee or such Paying Agent with respect to such trust money, and all liability of the Issuer as trustee thereof, shall thereupon cease; provided, however, that the Trustee or such Paying Agent, before being required to make any such repayment, may at the expense of the Issuer cause to be published at least once, in Authorized Newspapers, published in the Borough of Manhattan, The City of New York and in London, England, notice that such money remains unclaimed and that, after a date specified therein, which shall not be less than 30 days from the date of such publication, any unclaimed balance of such money then remaining will be paid to the Issuer.

10.4 *Additional Amounts.* Unless otherwise specified in any Board Resolution or other appropriate corporate authorization, the Issuer will make payments of principal and interest on any Note without withholding or deduction for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed or levied by or on behalf of the United Kingdom or by or within any political subdivision thereof or any authority therein having power to tax, unless such taxes, duties, assessments or governmental charges are required by law to be withheld or deducted. If the Issuer is required to make any such deduction or withholding in respect of taxes, the Issuer will pay to a Holder of a Note who is not a resident of the United Kingdom for UK tax purposes such additional amounts ("Additional Amounts") as may be necessary in order that the net amounts paid to such Holder, after such

deduction or withholding, shall be not less than the amount specified in such Note to which such Holder is entitled, *provided, however*, that the Issuer shall not be required to make any payment of Additional Amounts to a Holder for or on account of:

(a) any tax, duty, assessment or other governmental charge which would not have been imposed, withheld or deducted but for (i) the existence of any present or former connection between the Holder or beneficial owner of a Note (or between a fiduciary, settlor, beneficiary, member or shareholder or possessor of a power over such Holder or beneficial owner, if such Holder or beneficial owner is an estate, trust, partnership or corporation) and the United Kingdom or any political subdivision or territory or possession thereof or area subject to its jurisdiction, including, without limitation, such Holder or beneficial owner (or such fiduciary, settlor, beneficiary, member, shareholder or possessor) being or having been a domiciliary, national or resident thereof or being or having been present or engaged in trade or business therein or having or having had a permanent establishment, office, branch or fixed base therein or otherwise having or having had some connection with United Kingdom or such political subdivision, territory or possession other than the holding or ownership of a Note or the collection of principal of and interest, if any, on, or the enforcement of, a Note or (ii) payment in respect of a Note being made (x) in the United Kingdom or (y) on a date more than 30 days after the date on which such payment became due and payable or the date on which payment thereof is duly provided for, whichever occurs later, except to the extent that the Holder would have been entitled to such Additional Amounts if it had presented, where presentment is required, such Note for payment on any day within such period of 30 days;

(b) any estate, inheritance, gift, sale, transfer, personal property or similar tax, assessment or other governmental charge;

(c) any tax, duty, assessment or other governmental charge which is payable otherwise than by withholding or deduction from payment of (or in respect of) principal of, or any interest on, the Notes;

(d) any tax, duty, assessment or other governmental charge that is imposed, deducted or withheld by reason of the failure of the Holder or the beneficial owner of a Note or the beneficial owner of any payment on such Note to comply with a request of the Issuer addressed to the Holder or such beneficial owner (i) to provide information concerning the nationality, residence, identity or connection with the United Kingdom or any political subdivision or taxing authority thereof of the Holder or such beneficial owner or (ii) to make any declaration or other similar claim to satisfy any information or reporting requirement which, in the case of (i) or (ii), is required or imposed by a statute, treaty, regulation, ruling or administrative practice of the taxing jurisdiction as a precondition to exemption from withholding or deduction of all or part of such tax, duty, assessment or other governmental charge;

(e) any combination of items (a), (b) (c) or (d) above;

(f) nor shall Additional Amounts be paid with respect to any payment of the principal of, or any interest on, any Note to any Holder who is a fiduciary or partnership or other than the sole beneficial owner of such payment to the extent such payment would be required by the laws of the United Kingdom (or any political subdivision or taxing authority thereof or therein) to be included in the income for tax purposes of a beneficiary or settlor with respect to such fiduciary or a member of such partnership or to a beneficial owner who would not have been entitled to such additional amounts had it been the Holder of such Note.

Whenever in this Indenture there is mentioned, in any context, the payment of the principal of (or any premium) or interest on, or in respect of, any Note or the net proceeds received in the sale or exchange of any Note, such mention shall be deemed to include mention of the payment of Additional Amounts provided for in this section to the extent that, in such context, Additional Amounts are, were or would be payable in respect thereof pursuant to the provisions of this Section and express mention of the payment of Additional Amounts (if applicable) in any provisions hereof shall not be construed as excluding Additional Amounts in those provisions hereof where such express mention is not made.

10.5 *Statement by Officers of Issuer as to Default.* (a) The Issuer will deliver to the Trustee, within 120 days after the end of each fiscal year of the Issuer ending after the date hereof, an Officers' Certificate, stating whether or not to the best of knowledge of the signers thereof the Issuer is in default in the performance and observance of any of the terms, provisions and conditions of this Indenture (without regard to any period of grace or requirement of notice provided hereunder) and, if the Issuer shall be in default, specifying all such defaults and the nature and status thereof of which they may have knowledge. One of the persons signing the Officers' Certificate given pursuant to this Section shall be the principal executive, financial or accounting officer of the Issuer.

(b) Notwithstanding the foregoing paragraph, in the event that any officer of the Issuer becomes aware of any Default or Event of Default, the Issuer shall promptly deliver to the Trustee an Officers' Certificate specifying such Default or Event of Default.

10.6 *Existence.* Subject to Article 8, the Issuer will at all times do or cause to be done all things necessary to preserve and keep in full force and effect its existence.

10.7 *Limitation on Liens.* So long as any of the Notes of any series remain Outstanding, neither the Issuer nor any Principal Subsidiary will create, incur, guarantee or assume any notes, bonds, debentures or other similar evidences of indebtedness for money borrowed ("Debt") secured by a mortgage,

pledge, security interest, lien or other similar encumbrance ("lien" or "liens") upon any property or assets (other than cash or cash equivalents), without effectively providing concurrently with the creation, incurrence, guarantee or assumption of such Debt that the Notes (together with, if the Issuer so determines, any other Debt of the Issuer then existing or thereafter created ranking equally with the Notes) will be secured equally and ratably with (or prior to) such Debt, so long as such Debt will be so secured, except that this restriction will not apply to:

(i) liens on property, shares of stock or indebtedness of any corporation, other limited liability entity or partnership (a "corporation") existing at the time such corporation becomes a subsidiary, provided that any such lien was not created in contemplation of such subsidiary becoming a subsidiary;

(ii) liens on property or shares of stock existing at the time of acquisition thereof or to secure the payment of all or any part of the purchase price thereof or all or part of the cost of the improvement, construction, alteration or repair of any property, building, equipment or facilities or of any other improvements on all or any part of such property or to secure any Debt incurred prior to, at the time of, or within twelve months after, in the case of shares of stock, the acquisition of such shares and, in the case of property, the later of the acquisition, the completion of construction (including any improvements, alterations or repairs on an existing property) or the commencement of commercial operation of such property, which Debt is incurred for the purpose of financing all or any part of the purchase price thereof or all or part of the cost of improvement, construction, alteration or repair thereon;

(iii) liens existing at the date of this Indenture;

(iv) liens on property owned or held by any corporation or on shares of stock, other equity interests or indebtedness of any corporation, in either case existing at the time such corporation is merged into or consolidated or amalgamated with either the Issuer or a subsidiary or at the time of a sale, lease or other disposition of property of a corporation or a sale or other disposition of stock of a corporation as an entirety or substantially as an entirety to the Issuer or a subsidiary, provided that any such lien was not created in contemplation of such corporation engaging in such transaction;

(v) liens on property, shares of stock or participations in a single-purpose subsidiary or joint venture entity securing indebtedness incurred to finance the acquisition and/or development of such property or other assets of such subsidiary or entity;

(vi) liens arising by operation of law (other than by reason of default);

(vii) liens arising through litigation, legal proceeding or judgment and not giving rise to an Event of Default;

(viii) liens upon specific items of inventory or other goods and proceeds of the Issuer or any subsidiary securing the Issuer's or any subsidiary's obligations in respect of bankers' acceptances issued or created for the account of such person to facilitate the purchase, shipment or storage of such inventory or other goods;

(ix) liens to secure Debt incurred in the ordinary course of business, including, but not limited to,

(A) any mechanics', materialmen's, carriers', workmen's, vendors' or other like liens,

(B) any liens securing amounts in connection with workers' compensation, unemployment insurance and other types of social security,

(C) any easements, rights-of-way, restrictions and other similar charges,

(D) any liens arising out of consignment or similar arrangements for the sale of goods entered into by the Issuer or any subsidiary, and

(E) any liens to secure Debt maturing not more than 12 months from the date incurred;

(x) liens to secure indebtedness for borrowed money incurred in connection with a specifically identifiable project where any such lien relates to a property to which such project has been undertaken and recourse of the creditors in respect of such lien is substantially limited to such project and property;

(xi) liens created to secure Debt of the Issuer or any subsidiary under any options, futures, swaps, short sale contracts or similar or related instruments which relate to the purchase or sale of notes, commodities or currencies;

(xii) liens in favor of customs and revenues authorities to secure payment of customs duties in connection with the importation of goods;

(xiii) leases or subleases granted to others not interfering in any material respect with the business of the Issuer or any subsidiary;

(xiv) liens encumbering property or assets under construction arising from progress or partial payments by a customer of the Issuer or any subsidiary relating to such property or assets;

(xv) rights of financial institutions to offset credit balances in connection with the operation of cash management programs established for the benefit of the Issuer and/or any subsidiary;

(xvi) liens securing Debt of the Issuer or any subsidiary for borrowed money incurred in connection with the financing of accounts receivable;

(xvii) liens incurred or deposits made securing the performance of tenders, bids, leases, statutory obligations, surety and appeal bonds, government contracts, performance and return-of-money bonds and other obligations of like nature incurred in the ordinary course of business;

(xviii) liens encumbering deposits made to secure obligations arising from statutory, regulatory, contractual or warranty requirements of the Issuer or any subsidiary;

(xix) liens on any property of the Issuer or any subsidiary in favor of the federal governmental of the United States or the government of any state thereof, or the government of the United Kingdom, or the European Union, or any instrumentality of any of them, securing the obligations of the Issuer or any subsidiary pursuant to any contract or payments owed to such entity pursuant to applicable laws, rules, regulations or statutes;

(xx) liens securing taxes or assessments or other applicable charges or levies;

(xxi) liens securing industrial revenue, development or similar bonds issued by or for the benefit of the Issuer or any subsidiary, provided that such industrial revenue, development or similar bonds are nonrecourse to the Issuer or such subsidiary;

(xxii) liens arising under or in connection with or arising out of any pooling and settlement agreements or pooling and settlement arrangements of the electricity industry, or any transactions or arrangements entered into in connection with the hedging or management of risks relating to the electricity industry; and

(xxiii) any extension, renewal or replacement (or successive extensions, renewals or replacements), as a whole or in part, of any lien referred to in the foregoing clauses (i) to (xxii), inclusive, or of any Debt secured thereby; provided that the principal amount of Debt secured thereby shall not exceed the principal amount of Debt so secured at the time of such extension, renewal or replacement, and that such extension, renewal or replacement lien shall be limited to all or any part of the same property or shares of stock that secured the lien extended, renewed or replaced (plus improvements on such property), or property received or shares of stock issued in substitution or exchange therefor.

Notwithstanding the foregoing, the Issuer and the Principal Subsidiaries may create, incur, guarantee or assume Debt secured by a lien which would otherwise be subject to the foregoing restrictions in an aggregate amount which, together with all other such Debt of the Issuer and the Principal Subsidiaries and their Attributable Debt in respect of Sale and Leaseback Transactions (other than Attributable Debt in respect of Sale and Leaseback Transactions permitted

because the Issuer or such Principal Subsidiaries would be entitled to create, incur, guarantee or assume such Debt secured by a lien on the property to be leased without equally and ratably securing the Notes pursuant to the preceding paragraph and other than Sale and Leaseback Transactions the proceeds of which have been applied as provided in Section 10.8(v)), does not at the time such Debt is incurred exceed 15% of Consolidated Net Tangible Assets.

10.8 *Limitation on Sale and Leaseback Transactions.* So long as any of the Notes remain Outstanding, neither the Issuer nor any Principal Subsidiary will enter into any arrangement with any Person (not including any subsidiary) providing for the leasing by the Issuer or such Principal Subsidiary of any assets which have been owned by the Issuer or such Principal Subsidiary and which have been or are to be sold or transferred by the Issuer or such Principal Subsidiary to such Person (a "Sale and Leaseback Transaction") unless:

- (i) such transaction involves a lease for a temporary period not to exceed three years;
- (ii) such transaction is between the Issuer or a Principal Subsidiary and an affiliate of the Issuer;
- (iii) the Issuer would be entitled to incur indebtedness secured by a lien on the assets or property involved in such transaction at least equal in amount to the Attributable Debt with respect to such Sale and Leaseback Transaction, without equally and ratably securing the Notes, pursuant to Section 10.7, other than pursuant to the last paragraph of Section 10.7; such transaction is entered into within one year after (A) the initial acquisition by the Issuer of the assets or (B) in the case of property, the latter of the acquisition, the completion of construction (including any improvements, alterations or repairs on an existing property) or the commencement of the commercial operation of such property, subject to such transaction;
- (iv) after giving effect thereto, the aggregate amount of all Attributable Debt with respect to all such Sale and Leaseback Transactions does not exceed 15% of Consolidated Net Tangible Assets; or
- (v) the Issuer or a Principal Subsidiary within the 12 months preceding the sale or transfer or the 12 months following the sale or transfer, regardless of whether such sale or transfer may have been made by the Issuer or such Principal Subsidiary, as the case may be, applies, in the case of a sale or transfer for cash, an amount equal to the net proceeds thereof and, in the case of a sale transfer otherwise than for cash, an amount equal to the fair value of the assets so leased at the time of entering into such arrangement (as determined by the Board of Directors of the Issuer or such Principal Subsidiary, as the case may be), to the retirement of indebtedness for money borrowed, incurred or assumed by the Issuer or a Principal Subsidiary, as the case may be, which by its terms matures at,

or is extendible or renewable at the option of the obligor to, a date more than 12 months after the date of incurring, assuming or guaranteeing such debt.

10.9 *Waiver of Certain Covenants.* The Issuer may with respect to the Notes of any series omit in any particular instance to comply with any term, provision or condition set forth in any covenant provided pursuant to Section 9.1(b) for the benefit of the Holders of such series or in any of Section 8.1(c) or Sections 10.7 to 10.8, inclusive, if before the time for such compliance the Holders of at least 66 % in aggregate principal amount of the Outstanding Notes of such series shall by Act of such Holders, either waive such compliance in such instance or generally waive compliance with such term, covenant or condition, but no such waiver shall extend to or affect such term, provision or condition except to the extent so expressly waived, and, until such waiver shall become effective, the obligations of the Issuer and the duties of the Trustee in respect of any such term, provision or condition shall remain in full force and effect.

ARTICLE XI

REDEMPTION OF NOTES

11.1 *Applicability of Article.* The Notes of any series that are by their terms redeemable prior to that stated maturity shall be redeemable in accordance with this Article.

11.2 *Election to Redeem.* The election of the Issuer to redeem any Notes of any series shall be evidenced by or pursuant to a Board Resolution.

11.3 *Notice of Redemption.* Notice of redemption shall be given not less than 30 nor more than 60 days prior to the Redemption Date to each Holder of Notes of any series to be redeemed in the manner and to the extent provided in Section 1.6.

All notices of redemption shall state:

- (a) the Redemption Date,
- (b) the Redemption Price, plus accrued interest, if any, to the Redemption Date,
- (c) that, on the Redemption Date, the Redemption Price will become due and payable upon each such Note to be redeemed and, if applicable, that interest thereon will cease to accrue on or after the Redemption Date, and
- (d) the place or places where Notes are to be surrendered for payment of the Redemption Price.

No such notice of redemption shall be given earlier than 60 days prior to the earliest date on which the Issuer would be required to pay Additional Amounts if a payment in respect of the Notes was then due.

11.4 *Deposit of Redemption Price.* Prior to 11:00 a.m. New York City time on the Redemption Date, the Issuer shall deposit with the Trustee or with a Paying Agent (or, if the Issuer is acting as Paying Agent, segregate and hold in trust as provided in Section 10.3) an amount of money sufficient to pay on the Redemption Date the Redemption Price of, and (except if the Redemption Date shall be an Interest Payment Date) Additional Amounts, if any, and accrued but unpaid interest on, all the Notes or portions thereof which are to be redeemed on that date.

11.5 *Notes Payable on Redemption Date.* Notice of redemption having been given, the Notes of that series to be redeemed shall, on the Redemption Date, become due and payable at the Redemption Price therein specified. From and after the Redemption Date (unless the Issuer shall default in the payment of the Redemption Price, Additional Amounts, if any, and accrued interest, if any), such Notes shall cease to bear interest, and the only right of the Holders of such Notes shall be to receive payment of the Redemption Price. Upon surrender of any Note for redemption in accordance with said notice, such Note shall be paid by the Issuer at the Redemption Price, together with Additional Amounts, if any, and accrued but unpaid interest to the Redemption Date; provided, however, that, unless otherwise specified as contemplated by Section 3.1, with respect to any Definitive Notes, a payment of interest which is payable on an Interest Payment Date which is on or before the Redemption Date, shall be payable to the Holders of such Notes, or one or more Predecessor Notes, registered as such at the close of business on the relevant Regular Record Date or Special Record Date according to the terms of the Notes and the provisions of Section 3.7.

If any Note called for redemption shall not be so paid upon surrender thereof for redemption, the principal (and any premium) and Additional Amounts, if any, shall, until paid, bear interest from the Redemption Date in accordance with the terms of such Note and the provisions of Section 3.7.

11.6 *Optional Redemption Due to Changes in Tax Treatment.* The Notes of any series may be redeemed at any time, at the option of the Issuer, in whole but not in part, upon notice as described below, at a redemption price equal to 100 percent of the principal amount thereof, together with accrued interest at the date fixed for redemption, (the "Redemption Price"), if the Issuer shall determine that as a result of any change in, or amendment to, the laws (or any regulations or rulings promulgated thereunder) of the United Kingdom (including any treaty to which the United Kingdom is a party) or any change in the application or interpretation of such laws, regulations or rulings (including a holding by a court of competent jurisdiction), which change, amendment, application or interpretation is announced and becomes effective on or after the date of issue of the relevant series of Notes, on the occasion of the next payment

EXECUTION COPY

of principal or interest in respect of the Notes the Issuer would be obligated to pay Additional Amounts and such obligation cannot be avoided by the Issuer taking reasonable measures available to it.

11.7 *Optional Redemption.* The Notes of any series may be redeemed, in accordance with the terms of such Notes, at the option of the Issuer, in whole or in part, upon notice as described in Section 11.3, at a redemption price equal to the greater of (i) 100 percent of the principal amount thereof, together with accrued interest at the Redemption Date or (ii) the sum of the present values of the remaining payments on the Notes discounted to the Redemption Date at the Treasury Rate plus 15 basis points, in each case together with accrued interest at the Redemption Date.

11.8 *Successor Person May Redeem.* In the event that the obligations of the Issuer under the Notes are assumed pursuant to the terms and conditions of the Indenture by any corporation (a "Successor Person") organized under the laws of a jurisdiction other than the United Kingdom (a "Successor Jurisdiction"), such Successor Person shall be entitled to redeem the Notes subject to the terms of the preceding paragraph, substituting the name of the Successor Jurisdiction for the United Kingdom and the date of such assumption for the date of issue of the relevant series of Notes and making such further consequential changes as are required.

This instrument may be executed in any number of counterparts, each of which so executed shall be deemed to be an original, but all such counterparts shall together constitute but one and the same instrument.

EXECUTION COPY

IN WITNESS WHEREOF, the Issuer and the Trustee have caused this Indenture to be duly executed, all as of the day and year first above written.

Euro Medium Term Note Programme

On 13 October, 1998, United Utilities PLC, United Utilities Electricity PLC (then known as NORWEB plc) and North West Water Finance PLC established a U.S.\$2,000,000,000 Euro Medium Term Note Programme (the "Programme"). On 5 October, 1999 the maximum aggregate nominal amount of Notes which could be outstanding under the Programme was increased from U.S.\$2,000,000,000 to U.S.\$3,000,000,000. On 4 October, 2001, the maximum aggregate nominal amount of Notes which could be outstanding under the Programme was changed from U.S.\$3,000,000,000 to EUR 4,000,000,000. On 3 October, 2003, the maximum aggregate nominal amount of Notes which could be outstanding under the Programme was changed from EUR 4,000,000,000 to EUR 5,000,000,000. On 1 November 2006 the maximum aggregate nominal amount of Notes which could be outstanding under the Programme was changed from EUR 5,000,000,000 to EUR 7,000,000,000. This Offering Circular supersedes any previous Offering Circulars issued in respect of the Programme. Any Notes (as defined below) issued under the Programme on or after the date of this Offering Circular are issued subject to the provisions described herein. This does not affect any Notes already in issue.

Under the Programme, United Utilities PLC, United Utilities Electricity PLC ("UUE") and United Utilities Water PLC ("U UW") (each an "Issuer" and together the "Issuers") may from time to time issue notes (the "Notes") denominated in any currency agreed between the relevant Issuer and the relevant Dealer (as defined below).

The maximum aggregate nominal amount of all Notes from time to time outstanding under the Programme will not exceed EUR 7,000,000,000 (or its equivalent in other currencies calculated as described in the Programme Agreement described herein), subject to increase as described herein.

The Notes may be issued on a continuing basis to one or more of the Dealers specified under "General Description of the Programme" and any additional Dealer appointed under the Programme from time to time by the Issuer (each a "Dealer" and together the "Dealers"), which appointment may be for a specific issue or on an ongoing basis. References in this Offering Circular to the "relevant Dealer" shall, in the case of an issue of Notes being (or intended to be) subscribed by more than one Dealer, be to all Dealers agreeing to purchase such Notes.

An Investment in Notes issued under the Programme involves certain risks. For a discussion of these risks see "Risk Factors"

Application has been made to the Financial Services Authority in its capacity as competent authority under the Financial Services and Markets Act 2000 (the "UK Listing Authority" or "UKLA") for Notes issued under the Programme during the period of 12 months from the date of this Offering Circular to be admitted to the official list of the UK Listing Authority (the "Official List") and to the London Stock Exchange plc (the "London Stock Exchange") for such Notes to be admitted to trading on the London Stock Exchange's Gilt Edged and Fixed Interest Market. References in this Offering Circular to Notes being "listed" (and all related references) shall mean that such Notes have been admitted to trading on the London Stock Exchange's Gilt Edged and Fixed Interest Market and have been admitted to the Official List. The London Stock Exchange's Gilt Edged and Fixed Interest Market is a regulated market for the purposes of the Markets in Financial Instruments Directive (2004/39/EC) (the "Markets in Financial Instruments Directive"). Notice of the aggregate nominal amount of Notes, interest (if any) payable in respect of Notes, the issue price of Notes and any other terms and conditions not contained herein which are applicable to each Tranche (as defined under "Terms and Conditions of the Notes") of Notes will be set out in the applicable Final Terms (the "Final Terms") which, with respect to Notes to be listed will be delivered to the UK Listing Authority and to the London Stock Exchange.

The Programme provides that Notes may be listed or admitted to trading, as the case may be, on such other or further stock exchange(s) or markets as may be agreed between the relevant Issuer and the relevant Dealer. The Issuers may also issue unlisted Notes and/or Notes which are admitted to trading on any market.

Unless otherwise specified in the applicable Final Terms, Notes to be issued under the Programme by United Utilities PLC with an initial maturity of one year or less will be rated P-2 by Moody's Investors Service Limited ("Moody's") and A-2 by Standard & Poor's Ratings Services, a division of The McGraw-Hill Companies Inc. ("Standard & Poor's") and Notes with an initial maturity of more than one year will be rated A3 by Moody's and BBB+ by Standard & Poor's. Unless otherwise specified in the applicable Final Terms, Notes to be issued under the Programme by UUE and U UW with an initial maturity of one year or less will be rated P-1 by Moody's and A-2 by Standard & Poor's and Notes with an initial maturity of more than one year will be rated A2 by Moody's and A- by Standard & Poor's. Notes issued under the Programme may be rated or unrated. Where an issue of Notes is rated, its rating will not necessarily be the same as the rating assigned to the Programme. A credit rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, change or withdrawal at any time by the assigning rating organisation.

The relevant Issuer and the Trustee (as defined below) may agree with any Dealer that Notes may be issued in a form not contemplated by the Terms and Conditions of the Notes herein, in which event a supplemental Offering Circular, if appropriate, will be made available which will describe the effect of the agreement reached in relation to such Notes.

However, there is no assurance that the Stabilising Manager(s) (or persons acting on behalf of a Stabilising Manager) will undertake stabilisation action. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may be ended at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes.

RISK FACTORS

The Issuers believe that the following factors may affect their ability to fulfil their respective obligations under the Notes issued under the Programme. Most of these factors are contingencies which may or may not occur and the Issuers are not in a position to express a view on the likelihood of any such contingency occurring. In addition, risk factors which are specific to the Notes are also described below.

The Issuers believe that the factors described below represent the principal risks inherent in investing in the Notes issued under the Programme, but the inability of the Issuers to pay interest, principal or other amounts on or in connection with any Notes may occur for other reasons and the Issuers do not represent that the statements below regarding the risks of holding any Notes are exhaustive. Prospective investors should also read the details information set out elsewhere in this Offering Circular and reach their own views prior to making any investment decision.

Revenue of the Group's regulated businesses is substantially influenced by regulators, which could adversely affect profitability

The revenue and profitability of the Group's water, wastewater and electricity distribution businesses (the regulated businesses) are substantially influenced by price limits established every five years by the respective regulators. Price reviews for the regulated businesses covering the five-year period commencing on 1 April 2005 were determined by the electricity regulator in November 2004 and by the water regulator in December 2004. The Group has accepted both of these determinations and not exercised its right to appeal adverse price determinations to the Competition Commission.

An adverse price determination may occur as a result of a number of factors, including an inadequate allowed cost of capital or regulatory assumptions concerning operating expenses, required capital expenditure and revenue forecasts proving not to be realistic.

Scope to re-open these price controls within the charging period is limited. In the case of the water and wastewater business, there are provisions for Interim Determinations of K ('IDoK') and the application of the 'shipwreck clause' (these provisions are described in the 'price control' section of the UUW business description on page 63). There is no equivalent provision that allows for the re-opening of electricity distribution price limits, although specific re-opening provisions have been made, with effect from 1 April 2005, in relation to uncertain costs associated with specified provisions of the Electricity Safety, Quality and Continuity Regulations 2002 (or amending/replacement regulations), the New Roads and Street Works Act 1991 and the Traffic Management Act 2004.

Failure to deliver the capital investment programmes could adversely affect profitability

United Utilities' regulated businesses require significant capital expenditure for additions to, or replacement of, plant and equipment for their wastewater, water and electricity distribution facilities and networks. The price limits set by the respective regulators take into account the level of capital expenditure expected to be incurred during the relevant five-year price review period and the associated funding costs. Historically, the Group has financed the expenditures from cash flows from operations and from debt financing. There can be no assurance that cash flows from operations will not decline, or that additional debt financing or other sources of capital will be available to meet these requirements.

If the Group is unable to deliver the capital programme at expected expenditure levels or is unable to secure the expected capital efficiencies associated with the capital programme or the programme falls behind schedule for other reasons, the Group's profitability may suffer. The regulators may factor such failure into future price reviews. In addition, the Group's ability to meet regulatory and environmental performance standards could be adversely affected by such failure, which may result in fines or other sanctions.

The Group is currently in discussions with The Water Services Regulation Authority ("Ofwat") and the Environment Agency in relation to the scope of works required in order to complete that part of its capital programme for the last charging period (i.e. 2000-05) which related to limiting pollution from storm water overflows (referred to by the Environment Agency as 'Unsatisfactory Intermittent Discharges' ('UIDs')).

This means that some of these works are being delayed until the required scope is determined. Once the cost of the scope of works is finally determined, it may be more than the amounts that have been allowed for by Ofwat in the 1999 and 2004 price reviews. In such cases U UW will seek to process the resulting changes through Ofwat's protocol for dealing with changes to the regulatory contract (the 'change protocol'). In respect of those UIDs which were the subject of U UW's 2003 interim determination, Ofwat has stated that additional costs of completing these works will be recoverable through future price reviews provided that they meet Ofwat's conditions for recovery under the change protocol. In respect of the UIDs which were not dealt with in the 2003 interim determination, Ofwat has given a similar confirmation in relation to those which U UW considers present the greatest risk of significantly exceeding the costs assumed in the 1999 price review. The Group cannot be certain, however, that all these additional costs will be recoverable on this basis and will not adversely affect its profitability or financial position.

Failure to deliver operational performance or cost savings implicit in the regulatory reviews could adversely affect profitability

Operating cost savings to be achieved during the current five-year regulatory period are implicit in the regulatory reviews. To assist the achievement of these operating cost savings a business change programme is underway. If the operating cost savings are not achieved, or the business change programme is not delivered, then the Group's profitability would suffer. Similarly, if operational performance were to deteriorate, this may be reflected by less favourable outcomes from future price reviews and the Group's profitability would suffer.

Environmental regulations could increase the Group's costs and adversely affect profitability

Various government environmental protection and health and safety laws and regulations govern the wastewater, water and electricity distribution businesses. These laws and regulations establish, amongst other things, standards for drinking water, discharges into the environment and quality of electricity supply, which affect the Group's operations. In addition, the Group is required to obtain various environmental permissions from regulatory agencies for its operations. The Group endeavours to comply with all regulatory standards. However, historically the Group has not been in total compliance and cannot guarantee in the future that it will be in total compliance at all times with these laws and regulations. Should the Group fail to comply, it would face fines imposed by the courts or otherwise face sanctions by the regulators.

Environmental laws and regulations are complex and change frequently. These laws, and their enforcement, have tended to become more stringent over time. While management believes it has taken into account the future capital and operating expenditures necessary to achieve and maintain compliance with current and known future changes in laws and regulations, it is possible that new or stricter standards could be imposed, or current interpretation of existing legislation amended, which will increase the Group's operating costs by requiring changes or modifications to the assets in order to comply with any new environmental laws and regulations. Although these costs may be recoverable in part through the regulatory process of setting appropriate future price limits, there can be no assurance of this. Therefore, the Group cannot guarantee that the costs of complying with, or discharging its liabilities under, current and future environmental and health and safety laws will not adversely affect its profitability or financial position.

Service interruptions or contamination to water supplies could adversely affect profitability

In addition to the capital investment programmes, United Utilities' regulated businesses control and operate water, wastewater and electricity networks and undertake maintenance of the associated assets with the objective of providing a continuous service. Historically, there have been interruptions to the supply of services such as the incident in January 2005 affecting Cumbria and Lancashire in north west England, when a storm severely damaged the electricity network supply to 250,000 customers, but the majority of interruptions relate to minor issues that are rectified promptly. However, the failure of a key asset could cause a more significant interruption to the supply of services (in terms of duration or number of customers affected), which may have an adverse effect on the Group's operating results or financial position.

Water supplies may be subject to contamination, including contamination from the development of naturally occurring compounds and pollution from man-made sources. In the event that the water supply is contaminated and the Group is unable to substitute water supply from an uncontaminated water source, or to treat adequately the contaminated water source in a cost-effective manner, there may be an adverse effect on the Group's operating results or financial position. The Group could also be held liable for human exposure to hazardous substances in its water supplies or other environmental damage.

It is possible that some of the costs associated with service interruptions or contaminations may be partly recoverable through the 'shipwreck clause' or future price reviews. The Group maintains insurance policies in relation to legal liabilities likely to be associated with these risks, although there can be no assurance that all costs of any such claims would be covered or that coverage will continue to be available in the future.

Non-recovery of customer debt could adversely affect profitability

United Utilities North West manages the billing, cash collection and debt management activities for 3.1 million domestic and business wastewater and water customers. The Water Industry Act 1991 (as amended by the Water Industry Act 1999) prohibits the disconnection of a water supply for non-payment and the limiting of a supply with the intention of enforcing payment for certain premises including domestic dwellings. Non-recovery of debt is therefore a risk to the Group and may cause the Group's profitability to suffer, although allowance is made by the water regulator in the price limits at each price review for a proportion of debt deemed to be irrecoverable. In addition, the Group can also request a re-setting of its price limits through an IDoK during a review period when costs or savings arising from changes in certain regulatory assumptions (including as to the level of non-recoverable debt) are material, although there can be no guarantee that an IDoK application will be successful. Although new and existing strategies continue to be implemented to reduce cash collection risks, including targeted summoning, there can be no assurance that the Group will not suffer losses from the Group's inability to recover its debts fully.

Rapid growth in the business process outsourcing and infrastructure management sectors exposes the Group to execution risk; conversely, slow growth could adversely affect profitability

Through Vertex, the Group's activities in business process outsourcing are expanding into new markets and territories and achieving a significant proportion of its sales external to the Group (2006: £301 million; 2005: £308 million). The infrastructure management business, United Utilities Contract Solutions, is also expanding into new markets. The delivery of contracts, both existing and future, will be achieved by exploiting the Group's core infrastructure management and business process outsourcing skills. In addition, Vertex has significantly expanded its operations into financial services with the acquisition of Marlborough Stirling plc in 2005. This rapid growth exposes these businesses to new business and transaction risks and, potentially, the risk of overtrading, whereby the businesses are unable to operate all their contracts to the standard required by their clients due to a lack of resources and suitably qualified personnel. Overtrading could lead to a loss of customers which, in turn, may cause profitability to suffer. Slower than expected expansion could also impact profitability.

Pension scheme obligations may require the Group to make additional contributions to the scheme which would reduce profitability

The Group participates in a number of pension schemes, principally in the UK. The principal schemes are funded defined benefit schemes and the assets of the schemes are held in trust funds independent of Group finances. The Group increased pension contribution rates to the United Utilities Pension Scheme and the United Utilities Group of the Electricity Supply Pension Scheme in 2003/04 and the results of the full actuarial valuation resulted in further increases being required to the United Utilities Pension Scheme and the United Utilities Group of the Electricity Supply Pension Scheme from 1 April 2005. A one-off lump sum contribution of £320 million was made on 31 March 2005. This contribution was calculated to equal the capitalised value of the Group's funding obligations to the schemes for the next five years (based on the actuarial valuation as at 31 March 2004) and represents advance payment of certain employer contributions which would have been made to the schemes during that period. As a consequence the schemes were estimated to have a combined post-tax surplus of £13.5 million as at 31 March 2006, compared to a post-tax

obligation of £59.2 million at 31 March 2005. However, the Group continues to monitor the funding of the schemes and cannot guarantee that during the next five years further contributions will not be required to eliminate continuing shortfalls in the schemes. This may adversely affect the financial position of the Group. Should long-term investment returns remain lower than the rate assumed by the actuaries in their pension scheme valuations, or interest rates reduce further leading to an increased deficit, the profitability of the Group may be further adversely affected and the Group required to increase its contributions to eliminate this under-funding. Currently, anticipated future pensions contributions and a proportion of existing pension scheme deficits are recoverable through the price limits established by the regulators.

Operating risk

Managing the Group's businesses is dependent upon the ability to process a large number of transactions efficiently and accurately. Operational risk and losses can result from fraud, employee errors, failure to properly document transactions or to obtain proper internal authorisation, failure to comply with regulatory requirements and business principles, resource shortages, equipment failures, natural disasters or the failure of external systems. Although the Group has implemented risk controls and loss mitigation actions, and substantial resources are devoted to developing efficient procedures and to staff training, it is only possible to be reasonably, but not absolutely, certain that such procedures will be effective in controlling each of the operational risks faced by the Group.

Holding company structure

Because United Utilities is a holding company, its rights to participate in the assets of any subsidiary if it is liquidated will be subject to the prior claims of its creditors, except to the extent that United Utilities may be a creditor with recognised claims ranking ahead of or *pari passu* with such prior claims against the subsidiary. United Utilities' ability to make payments on debt obligations and pay certain operating expenses may be dependent on the receipt of dividends from its subsidiaries. Certain of United Utilities' subsidiaries have regulatory restrictions that can limit the payment of dividends.

No limitation on issuing senior or *pari passu* securities

There is no restriction on the amount of securities which each Issuer may issue which rank senior to or *pari passu* with the Notes being offered hereby. The issue of any such securities may reduce the amount recoverable by holders of the Notes in the event that the Issuer is wound up or becomes insolvent or may increase the likelihood of a deferral of payments under the Notes.

Risks relating to the Notes generally

With respect to an investment in Notes indexed to one or more interest rates, currencies or other indices or formulas, significant risks exist that are not associated with a conventional fixed rate or floating rate debt security. Such risks include fluctuation of the particular indices or formulas and the possibility that an investor will receive a lower amount of principal, premium or interest and at different times than expected. The Issuers have no control over a number of matters, including economic, financial and political events that are important in determining the existence, magnitude and longevity of such risks and their results. In addition, if an index or formula used to determine any amounts payable in respect of the Notes contains a multiplier or leverage factor, the effect of any change in such index or formula will be magnified. In recent years, values of certain indices and formulas have been volatile and volatility in those and other indices and formulas may be expected in the future. However, past experience is not necessarily indicative of what may occur in the future.

Index Linked Notes and Dual Currency Notes

Each Issuer may issue Notes with principal or interest determined by reference to an index or formula, to changes in the prices of securities or commodities, to movements in currency exchange rates or other factors (each, a "Relevant Factor"). In addition, each Issuer may issue Notes with principal or interest payable in

one or more currencies which may be different from the currency in which the Notes are denominated. Potential investors should be aware that:

- (i) the market price of such Notes may be volatile;
- (ii) they may receive no interest;
- (iii) payment of principal or interest may occur at a different time or in a different currency than expected;
- (iv) the amount of principal payable at redemption may be less than the nominal amount of such Notes or even zero;
- (v) a Relevant Factor may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices;
- (vi) if a Relevant Factor is applied to Notes in conjunction with a multiplier greater than one or contains some other leverage factor, the effect of changes in the Relevant Factor on principal or interest payable is likely to be magnified; and
- (vii) the timing of changes in a Relevant Factor may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the Relevant Factor, the greater the effect on yield.

Risks associated with the nominal amount of Notes held

Integral multiples of less than EUR50,000

It is possible that certain Notes may be traded in the clearing systems in amounts in excess of EUR50,000 (or its equivalent) that are not integral multiples of EUR50,000 (or its equivalent). In such a case, should definitive Notes be required to be issued, Noteholders who hold Notes in the relevant clearing system in amounts that are not integral multiples of a Specified Denomination shown in the Final Terms may need to purchase or sell, on or before the relevant date on which a Global Note is exchanged for a definitive Note, a principal amount of Notes such that their holding is an integral multiple of a Specified Denomination shown in the Final Terms.

Risks associated with redemption of the Notes

If the applicable Terms and Conditions specify that the Notes are redeemable at the option of each Issuer, or are otherwise subject to mandatory redemption, the Issuer may (in the case of optional redemption) or must (in the case of mandatory redemption) choose to redeem such Notes at times when prevailing interest rates may be relatively low. Accordingly, an investor generally will not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as that of the Notes.

The Issuers cannot assure a trading market for the Notes will ever develop or be maintained

The Issuers cannot assure a trading market for the Notes will ever develop or be maintained. Many factors independent of the creditworthiness of each Issuer affect the trading market. These factors include:

- the complexity and volatility of the index or formula applicable to the Notes;
- the method of calculating the principal, premium and interest in respect of the Notes;
- the time remaining to the maturity of the Notes;
- the outstanding amount of the Notes;
- the redemption features of the Notes;
- the amount of other debt securities linked to the index or formula applicable to the Notes; and
- the level, direction and volatility of market interest rates generally.

In addition, certain Notes have a more limited trading market and experience more price volatility because they were designed for specific investment objectives or strategies. There may be a limited number of buyers when an investor decides to sell such Notes. This may affect the price an investor receives for such Notes or the ability of an investor to sell such Notes at all. You should not purchase Notes unless you understand and can bear these investment risks.

If the United Kingdom joins the European Monetary Union prior to the maturity of the Notes, the Issuer cannot assure the Noteholders that this would not adversely affect payments on the Notes

It is possible that prior to the maturity of the Notes the United Kingdom may become a participating member state in the European economic and monetary union and the euro may become the lawful currency of the United Kingdom. In that event: (i) all amounts payable in respect of any Notes denominated in pounds sterling may become payable in euro; (ii) applicable provisions of law may allow or require each Issuer to re-denominate such Notes into euro and take additional measures in respect of such Notes; and (iii) the introduction of the euro as the lawful currency of the United Kingdom may result in the disappearance of published or displayed rates for deposits in pounds sterling used to determine the rates of interest on such Notes or changes in the way those rates are calculated, quoted and published or displayed. It cannot be said with certainty what effect, if any, adoption of the euro by the United Kingdom would have on investors in the Notes.

Investments in the Notes may be negatively affected by changes in exchange rates and exchange controls

With respect to an investment in Dual Currency Notes that are denominated and/or payable in a Specified Currency, there will be significant risks associated with such an investment, including the possibility of material changes in the exchange controls by the applicable governments. The Issuers have no control over the factors that generally affect these risks, such as economic, financial and political events and the supply and demand for the applicable currencies. Moreover, if payments on Dual Currency Notes are determined by reference to a formula containing a multiplier or leverage factor, the effect of any change in the exchange rates between the applicable currencies will be magnified. In recent years, exchange rates between certain currencies have been highly volatile and volatility between such currencies or with other currencies may be expected in the future. Fluctuations between currencies in the past are not necessarily indicative, however, of fluctuations that may occur in the future. Depreciation of the payment currency would result in a decrease in the equivalent yield of the Dual Currency Notes, in the equivalent value of the principal and any premium payable at maturity or earlier redemption of the Dual Currency Notes and, generally, in the equivalent market value of the Dual Currency Notes.

Governmental exchange controls could affect exchange rates and the availability of the payment currency on a required payment date. Even if there are no exchange controls, it is possible that the payment currency will not be available on a required payment date due to circumstances beyond each Issuer's control.

Noteholders' interests may be adversely affected by a change of law in relation to U.K. withholding tax

In the event that amounts due under the Notes are subject to U.K. withholding tax, the Issuers may not be obliged to pay additional amounts in relation thereto if Noteholders fall within certain exceptions to the obligation to pay such additional amounts. In addition, the Issuers may, in certain circumstances, redeem the Notes (as described in Condition 7(b) of the Notes). The applicability of any U.K. withholding tax under current English law is discussed under "*Taxation – Withholding Tax*".

Modification, waivers and substitution

The Terms and Conditions of the Notes contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

The Terms and Conditions of the Notes also provide that the Trustee may, without the consent of Noteholders, agree to (i) any modification of, or to the waiver or authorisation of any breach or proposed breach of, any of the provisions of Notes or (ii) determine without the consent of the Noteholders that any Event of Default or Potential Event of Default shall not be treated as such or (iii) the substitution of another company as principal debtor under any Notes, in the circumstances described in Condition 18 of the Terms and Conditions of the Notes.

Change of law

The Terms and Conditions of the Notes are based on English law in effect as at the date of this Offering Circular. No assurance can be given as to the impact of any possible judicial decision or change to English law or administrative practice after the date of this Offering Circular.

Credit ratings may not reflect all risks

One or more independent credit rating agencies may assign credit ratings to the Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (1) Notes are legal investments for it, (2) Notes can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar risks.

FORM OF THE NOTES

The Notes of each Series will be in bearer form, with or without interest coupons ("Coupons") attached.

Each Tranche of Notes will be in bearer form and will be initially issued in the form of a temporary global note (a **Temporary Global Note**) or, if so specified in the applicable Final Terms, a permanent global note (a **Permanent Global Note**) which, in either case, will:

- (i) if the Global Notes are intended to be issued in new global note (NGN) form, as stated in the applicable Final Terms, be delivered on or prior to the original issue date of the Tranche to a common safekeeper (the **Common Safekeeper**) for Euroclear Bank SA/NV (Euroclear) and Clearstream Banking, *société anonyme* (Clearstream, Luxembourg); and
- (ii) if the Global Notes are not intended to be issued in NGN Form, be delivered on or prior to the original issue date of the Tranche to a common depository (the **Common Depository**) for, Euroclear and Clearstream, Luxembourg.

Whilst any Note is represented by a Temporary Global Note, payments of principal, interest (if any) and any other amount payable in respect of the Notes due prior to the Exchange Date (as defined below) will be made (against presentation of the Temporary Global Note if the Temporary Global Note is not intended to be issued in NGN form) only to the extent that certification (in a form to be provided) to the effect that the beneficial owners of interests in such Note are not U.S. persons or persons who have purchased for resale to any U.S. person, as required by U.S. Treasury regulations, has been received by Euroclear and/or Clearstream, Luxembourg and Euroclear and/or Clearstream, Luxembourg, as applicable, has given a like certification (based on the certifications it has received) to the Principal Paying Agent.

On and after the date (the "Exchange Date") which, in respect of each Tranche in respect of which a Temporary Global Note is issued, is 40 days after the Temporary Global Note is issued, interests in such Temporary Global Note will be exchangeable (free of charge) upon a request as described therein either for (i) interests in a Permanent Global Note of the same Series or (ii) for definitive Notes of the same Series with, where applicable, receipts, Coupons and talons attached (as indicated in the applicable Final Terms and subject, in the case of definitive Notes, to such notice period as is specified in the applicable Final Terms) in each case against certification of beneficial ownership as described above unless such certification has already been given. The holder of a Temporary Global Note will not be entitled to collect any payment of interest, principal or other amount due on or after the Exchange Date unless upon due certification exchange of the Temporary Global Note for an interest in a Permanent Global Note or for definitive Notes is improperly withheld or refused.

Payments of principal, interest (if any) or any other amounts on a Permanent Global Note will be made through Euroclear and/or Clearstream, Luxembourg (against presentation or surrender (as the case may be) of the Permanent Global Note if the Permanent Global Note is not intended to be in NGN form) without any requirement for certification. The applicable Final Terms will specify that a Permanent Global Note will be exchangeable (free of charge), in whole but not in part, for definitive Notes with, where applicable, receipts, Coupons and talons attached only upon the occurrence of an Exchange Event. For these purposes, "Exchange Event" means that (i) an Event of Default (as defined in Condition 10) has occurred and is continuing, (ii) the Issuer has been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and no alternative clearing system satisfactory to the Trustee is available or (iii) the relevant Issuer has or will become obliged to pay additional amounts as provided for or referred to in Condition 8 which would not be required were the Notes represented by the Permanent Global Note in definitive form. The relevant Issuer will promptly give notice to the Noteholders in accordance with Condition 14 if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Permanent Global Note) or the Trustee may give notice to the Principal Paying Agent requesting exchange and, in the event of the occurrence of an Exchange Event as described in (iii) above, the relevant Issuer may also give notice to the Principal Paying Agent requesting

exchange. Any such exchange shall occur not later than 60 days after the date of receipt of the first relevant notice by the Principal Paying Agent.

The following legend will appear on all Notes which have an original maturity of 365 days or more and on all receipts and Coupons relating to such Notes:

"ANY UNITED STATES PERSON WHO HOLDS THIS OBLIGATION WILL BE SUBJECT TO LIMITATIONS UNDER THE UNITED STATES INCOME TAX LAWS, INCLUDING THE LIMITATIONS PROVIDED IN SECTIONS 165(j) AND 1287(a) OF THE INTERNAL REVENUE CODE."

The sections referred to provide that United States holders, with certain exceptions, will not be entitled to deduct any loss on Notes, receipts or Coupons and will not be entitled to capital gains treatment of any gain on any sale, disposition, redemption or payment of principal in respect of such Notes, receipts or Coupons.

Notes which are represented by a Global Note will be transferable only in accordance with the rules and procedures for the time being of Euroclear or Clearstream, Luxembourg, as the case may be.

Pursuant to the Agency Agreement (as defined under "Terms and Conditions of the Notes") the Principal Paying Agent shall arrange that, where a further Tranche of Notes is issued which is intended to form a single Series with an existing Tranche of Notes, the Notes of such further Tranche shall be assigned a common code and ISIN which are different from the common code and ISIN assigned to Notes of any other Tranche of the same Series until at least the expiry of the Distribution Compliance Period applicable to the Notes of such Tranche.

For so long as any of the Notes is represented by a Global Note held on behalf of Euroclear and/or Clearstream, Luxembourg each person (other than Euroclear or Clearstream, Luxembourg) who is for the time being shown in the records of Euroclear or of Clearstream, Luxembourg as the holder of a particular nominal amount of such Notes (in which regard any certificate or other document issued by Euroclear or Clearstream, Luxembourg as to the nominal amount of such Notes standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be treated by the relevant Issuer and their agents as the holder of such nominal amount of such Notes for all purposes other than with respect to the payment of principal or interest on such nominal amount of such Notes, for which purpose the bearer of the relevant Global Note shall be treated by the relevant Issuer and its agents as the holder of such nominal amount of such Notes in accordance with and subject to the terms of the relevant Global Note and the expressions "Noteholder" and "holder of Notes" and related expressions shall be construed accordingly.

Noteholders who hold the Notes in the relevant clearing system in amounts that are not integral multiples of a Specified Denomination may need to purchase or sell on or before the relevant Exchange Date, a principal amount of Notes such that their holding is an integral multiple of a Specified Denomination.

Any reference herein to Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, be deemed to include a reference to any successor operator and/or successor clearing system and/or any additional or alternative clearing system specified in the applicable Final Terms or otherwise approved by the relevant Issuer, the Principal Paying Agent and the Trustee.

Any reference herein to the Common Depositary shall, whenever the context so permits, be deemed to include references to any successor common depositary or any additional or alternative common depositary as is approved by the relevant Issuer, the Principal Paying Agent and the Trustee.

TERMS AND CONDITIONS OF THE NOTES

The following are the Terms and Conditions of the Notes which will be incorporated by reference into each Global Note (as defined below) and each definitive Note, in the latter case only if permitted by the relevant stock exchange or other relevant authority (if any) and agreed by the relevant Issuer and the relevant Dealer at the time of issue but, if not so permitted and agreed, such definitive Note will have endorsed thereon or attached thereto such Terms and Conditions. The applicable Final Terms in relation to any Tranche of Notes may specify other terms and conditions which shall, to the extent so specified or to the extent inconsistent with the following Terms and Conditions, replace or modify the following Terms and Conditions for the purpose of such Notes. The applicable Final Terms (or the relevant provisions thereof) will be endorsed upon, or attached to, each Global Note and definitive Note. Reference should be made to "Form of the Notes" for a description of the content of Final Terms which will include the definitions of certain terms used in the following Terms and Conditions and/or will specify which of such terms are to apply in relation to the relevant Notes.

This Note is one of a Series (as defined below) of Notes issued by United Utilities PLC, United Utilities Electricity PLC ("UUE") or United Utilities Water PLC ("U UW") (each an "Issuer" and, together, the "Issuers") constituted by an Amended and Restated Trust Deed (such Trust Deed as modified and/or supplemented and/or restated from time to time, the "Trust Deed") dated 23 November 2006 made between the Issuers and The Law Debenture Trust Corporation p.l.c. (the "Trustee", which expression shall include any successor as trustee).

References herein to the "Notes" shall be references to the Notes of this Series and shall mean:

- (i) in relation to any Notes represented by a global Note (a "Global Note"), units of the lowest Specified Denomination in the Specified Currency;
- (ii) any Global Note; and
- (iii) any definitive Notes issued in exchange for a Global Note.

References herein to the "relevant Issuer" shall be to the Issuer of the Notes named as such in the applicable Final Terms (as defined below).

The Notes, the Receipts (as defined below) and the Coupons (as defined below) have the benefit of an Amended and Restated Agency Agreement (such Agency Agreement, as amended and/or supplemented and/or restated from time to time, the "Agency Agreement") dated 23 November 2006 and made between the Issuers, Citibank, N.A. as issuing and principal paying agent and agent bank (the "Principal Paying Agent", which expression shall include any successor principal paying agent), the other paying agents named therein (together with the Principal Paying Agent, the "Paying Agents", which expression shall include any additional or successor paying agents) and the Trustee.

Interest bearing definitive Notes (unless otherwise indicated in the applicable Final Terms) have interest coupons ("Coupons") and, if indicated in the applicable Final Terms, talons for further Coupons ("Talons") attached on issue. Any reference herein to Coupons or coupons shall, unless the context otherwise requires, be deemed to include a reference to Talons or talons. Definitive Notes repayable in instalments have receipts ("Receipts") for the payment of the instalments of principal (other than the final instalment) attached on issue. Global Notes do not have Receipts, Coupons or Talons attached on issue.

The Final Terms for this Note (or the relevant provisions thereof) are set out in Part A of the Final Terms attached to or endorsed on this Note which supplements these Terms and Conditions and may specify other terms and conditions which shall, to the extent so specified or to the extent inconsistent with these Terms and Conditions, replace or modify these Terms and Conditions for the purposes of this Note. References to the "applicable Final Terms" are to Part A of the Final Terms (or the relevant provisions thereof) attached to or endorsed on this Note.

The Trustee acts for the benefit of the holders for the time being of the Notes (the "Noteholders", which expression shall, in relation to any Notes represented by a Global Note, be construed as provided below), the holders of the Receipts (the "Receiptholders") and the holders of the Coupons (the "Couponholders", which expression shall, unless the context otherwise requires, include the holders of the Talons), in accordance with the provisions of the Trust Deed.

As used herein, "Tranche" means Notes which are identical in all respects (including as to listing and admission to trading) and "Series" means a Tranche of Notes together with any further Tranche or Tranches of Notes which are (i) expressed to be consolidated and form a single series and (ii) identical in all respects (including as to listing and admission to trading) except for their respective Issue Dates, Interest Commencement Dates and/or Issue Prices.

Copies of the Trust Deed, the Agency Agreement and the applicable Final Terms are available for inspection during normal business hours at the registered office for the time being of the Trustee (being at 23 November 2006 at Fifth Floor, 100 Wood Street, London EC2V 7EX) and at the specified office of each of the Paying Agents. Copies of the applicable Final Terms are available for viewing on the website of the London Stock Exchange and are available for viewing at, and copies may be obtained from, the registered office of the Issuers at Dawson House, Great Sankey, Warrington WA5 3LW and the specified offices of each of the Paying Agents save that, if this Note is neither admitted to trading on a regulated market in the European Economic Area nor offered in the European Economic Area in circumstances where a prospectus is required to be published under the Prospectus Directive, the applicable Final Terms will only be obtainable by a Noteholder holding one or more Notes and such Noteholder must produce evidence satisfactory to the Issuer and the Trustee or, as the case may be, the relevant Paying Agent as to its holding of such Notes and identity. The Noteholders, the Receiptholders and the Couponholders are deemed to have notice of, and are entitled to the benefit of, all the provisions of the Trust Deed, the Agency Agreement and the applicable Final Terms which are applicable to them. The statements in these Terms and Conditions include summaries of, and are subject to, the detailed provisions of the Trust Deed and the Agency Agreement.

Words and expressions defined in the Trust Deed or the Agency Agreement or used in the applicable Final Terms shall have the same meanings where used in these Terms and Conditions unless the context otherwise requires or unless otherwise stated and provided that, in the event of inconsistency between the Trust Deed and the Agency Agreement, the Trust Deed will prevail and, in the event of inconsistency between the Agency Agreement or the Trust Deed and the applicable Final Terms, the applicable Final Terms will prevail.

1. Form, Denomination and Title

The Notes are in bearer form and, in the case of definitive Notes, serially numbered, in the Specified Currency and the Specified Denomination(s). Notes of one Specified Denomination may not be exchanged for Notes of another Specified Denomination.

So long as the Notes are represented by a Temporary Global Note and/or a Permanent Global Note and the relevant clearing systems so permit, the Notes shall be tradeable only in principal amounts of EUR50,000 and integral multiples of such other amount as shown in the Final Terms.

This Note is a Fixed Rate Note, a Floating Rate Note, a Zero Coupon Note, an Index Linked Interest Note, an Index Linked Redemption Note, an Instalment Note, a Dual Currency Note or a Partly Paid Note, or a combination of any of the foregoing, depending upon the Interest/Payment Basis and/or Redemption/Payment Basis shown in the applicable Final Terms.

Definitive Notes are issued with Coupons attached, unless they are Zero Coupon Notes in which case references to Coupons and Couponholders in these Terms and Conditions are not applicable.

Subject as set out below, title to the Notes, Receipts and Coupons will pass by delivery. The relevant Issuer, any Paying Agent and the Trustee will (except as otherwise required by law) deem and treat the bearer of any Note, Receipt or Coupon as the absolute owner thereof (whether or not overdue and notwithstanding any notice of ownership or writing thereon or notice of any previous loss or theft thereof) for all purposes but, in the case of any Global Note, without prejudice to the provisions set out in the next succeeding paragraph.

For so long as any of the Notes is represented by a Global Note held on behalf of Euroclear Bank S.A./N.V. ("Euroclear") and/or Clearstream Banking, société anonyme ("Clearstream, Luxembourg"), each person (other than Euroclear or Clearstream, Luxembourg) who is for the time being shown in the records of Euroclear or of Clearstream, Luxembourg as the holder of a particular nominal amount of such Notes (in which regard any certificate or other document issued by Euroclear or Clearstream, Luxembourg as to the nominal amount of such Notes standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be treated by the relevant Issuer, the Paying Agents and the Trustee as the holder of such nominal amount of such Notes for all purposes other than with respect to the payment of principal or interest on such nominal amount of such Notes, for which purpose the bearer of the relevant Global Note shall be treated by the relevant Issuer, any Paying Agent and the Trustee as the holder of such nominal amount of such Notes in accordance with and subject to the terms of the relevant Global Note and the expressions "Noteholder" and "holder of Notes" and related expressions shall be construed accordingly.

Notes which are represented by a Global Note will be transferable only in accordance with the rules and procedures for the time being of Euroclear and Clearstream, Luxembourg, as the case may be. References to Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, be deemed to include a reference to any successor operator and/or successor clearing system and/or any additional or alternative clearing system specified in the applicable Final Terms or otherwise approved by the relevant Issuer, the Principal Paying Agent and the Trustee.

2. Status of the Notes

The Notes and any relative Receipts and Coupons are direct, unconditional, unsubordinated and (subject to the provisions of Condition 3) unsecured obligations of the relevant Issuer and rank *pari passu* among themselves and (subject as aforesaid and save for certain obligations required to be preferred by law) equally with all other unsecured obligations (other than subordinated obligations, if any) of the Issuer, from time to time outstanding.

3. Negative Pledge

So long as any of the Notes remains outstanding (as defined in the Trust Deed) the relevant Issuer will not create or permit to subsist any mortgage, charge, pledge, lien or other form of security interest upon the whole or any part of its undertaking, revenues or assets, present or future, to secure payment of any present or future Relevant Indebtedness (as defined below) of the relevant Issuer or any Subsidiary thereof (as defined in the Trust Deed) or to secure any guarantee or indemnity in respect thereof, without at the same time according to the Notes to the satisfaction of the Trustee, the same security as is created or subsisting to secure any such Relevant Indebtedness, guarantee or indemnity, or such other security as the Trustee shall in its absolute discretion deem not materially less beneficial to the interests of the Noteholders or as shall be approved by an Extraordinary Resolution (as defined in the Trust Deed) of the Noteholders.

"Relevant Indebtedness" means any present or future indebtedness (whether being principal, premium or interest) for borrowed money (other than indebtedness for borrowed money with an initial maturity falling 20 years or more after the Issue Date of the First Tranche of the Notes and having a maximum principal amount outstanding at any time not exceeding the greater of £250,000,000 and 20 per cent. of Adjusted Capital and Reserves (as defined in Condition 10) or indebtedness for borrowed money which has a stated maturity not exceeding one year) which is in the form of, or represented or evidenced by, bonds, notes, debentures, debenture stock, loan stock or other securities, whether issued for cash or in whole or in part for a consideration other than cash and which, with the agreement of the relevant Issuer, are quoted, listed, dealt in or traded on a stock exchange or over the counter or other recognised securities market (whether or not distributed by way of private placement).

4. Redenomination

(a) Redenomination

Where redenomination is specified in the applicable Final Terms as being applicable, the relevant Issuer may, without the consent of the Trustee, the Noteholders, the Receiptholders and the Couponholders, on giving prior notice to the Trustee, the Principal Paying Agent, Euroclear and Clearstream, Luxembourg and at least 30 days' prior notice to the Noteholders in accordance with Condition 14, elect that, with effect from the Redenomination Date specified in the notice, the Notes shall be redenominated in euro.

The election will have effect as follows:

- (i) the Notes and the Receipts shall be deemed to be redenominated in euro in the denomination of euro 0.01 with a nominal amount for each Note and Receipt equal to the nominal amount of that Note or Receipt in the Specified Currency, converted into euro at the Established Rate, provided that, if the relevant Issuer determines, with the consent of the Trustee and the Principal Paying Agent, that the then market practice in respect of the redenomination in euro of internationally offered securities is different from the provisions specified above, such provisions shall be deemed to be amended so as to comply with such market practice and the relevant Issuer shall promptly notify the Noteholders in accordance with Condition 14, the stock exchange or other relevant authority (if any) on which the Notes are listed and the Paying Agents of such deemed amendments;
- (ii) save to the extent that an Exchange Notice has been given in accordance with paragraph (iv) below, the amount of interest due in respect of the Notes will be calculated by reference to the aggregate nominal amount of Notes presented (or, as the case may be, in respect of which Coupons are presented) for payment by the relevant holder and the amount of such payment shall be rounded down to the nearest euro 0.01;
- (iii) if definitive Notes are required to be issued after the Redenomination Date, they shall be issued at the expense of the relevant Issuer in the denominations of euro 1,000, euro 10,000, euro 100,000 and (but only to the extent of any remaining amounts less than euro 1,000 or such smaller denominations as the Trustee and the Principal Paying Agent may approve) euro 0.01 and such other denominations as the Trustee and the Principal Paying Agent shall determine and as shall be notified to the Noteholders in accordance with Condition 14;
- (iv) if definitive Notes have been issued prior to the Redenomination Date, all unmatured Coupons denominated in the Specified Currency (whether or not attached to the Notes) will become void with effect from the date on which the relevant Issuer gives notice (the "Exchange Notice") that replacement euro-denominated Notes, Receipts and Coupons are available for exchange (provided that such Notes, Receipts and/or Coupons are so available) and no payments will be made in respect of them. The payment obligations contained in any Notes and Receipts so issued will also become void on that date although those Notes and Receipts will continue to constitute valid exchange obligations of the relevant Issuer. New euro-denominated Notes, Receipts and Coupons will be issued in exchange for Notes, Receipts and Coupons denominated in the Specified Currency in such manner as the Trustee and the Principal Paying Agent may specify and as shall be notified to the Noteholders in the Exchange Notice. No Exchange Notice may be given less than 15 days prior to any date for payment of principal or interest on the Notes;
- (v) after the Redenomination Date, all payments in respect of the Notes, the Receipts and the Coupons, other than payments of interest in respect of periods commencing before the Redenomination Date, will be made solely in euro as though references in the Notes

to the Specified Currency were to euro. Payments will be made in euro by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee or, at the option of the payee, by a euro cheque;

- (vi) if the Notes are Fixed Rate Notes and interest for any period ending on or after the Redenomination Date is required to be calculated for a period ending other than on an Interest Payment Date it will be calculated by applying the Rate of Interest to each Specified Denomination, multiplying such sum by the applicable Day Count Fraction (as defined in Condition 5(a)), and rounding the resultant figure to the nearest sub-unit (as defined in Condition 5(a)) of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with the applicable market convention; and
- (vii) if the Notes are Floating Rate Notes the applicable Final Terms specifies any relevant changes to the provisions relating to interest.

(b) Definitions

In these Terms and Conditions, the following expressions have the following meanings:

"Established Rate" means the rate for the conversion of the Specified Currency (including compliance with rules relating to roundings in accordance with applicable European Community regulations) into euro established by the Council of the European Union pursuant to Article 123 of the Treaty;

"euro" means the currency introduced at the start of the third stage of European economic and monetary union pursuant to the Treaty;

"Redenomination Date" means (in the case of interest bearing Notes) any date for payment of interest under the Notes or (in the case of Zero Coupon Notes) any date, in each case specified by the relevant Issuer in the notice given to the Noteholders pursuant to paragraph (a) above and which falls on or after the date on which the country of the Specified Currency first participates in the third stage of European economic and monetary union or otherwise participates in European economic and monetary union in a manner with similar effect to such third stage; and

"Treaty" means the Treaty establishing the European Community, as amended.

5. Interest

(a) Interest on Fixed Rate Notes

Each Fixed Rate Note bears interest on its outstanding nominal amount (or, if it is a Partly Paid Note, the amount paid up) from (and including) the Interest Commencement Date at the rate(s) per annum equal to the Rate(s) of Interest payable in arrear on the Interest Payment Date(s) in each year and on the Maturity Date if that does not fall on an Interest Payment Date.

Except as provided in the applicable Final Terms, the amount of interest payable on each Interest Payment Date ending on such date will amount to the Fixed Coupon Amount. Payments of interest on any Interest Payment Date will, if so specified in the applicable Final Terms, amount to the Broken Amount(s) so specified.

If interest is required to be calculated for a period ending other than on an Interest Payment Date, such interest shall be calculated by applying the Rate of Interest to each Specified Denomination, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

In these Terms and Conditions:

"Day Count Fraction" means, in respect of the calculation of an amount of interest in accordance with this Condition 5(a):

- (i) if "Actual/Actual (ICMA)" is specified in the applicable Final Terms:
 - (a) in the case of Notes where the number of days in the relevant period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (the "Accrual Period") is equal to or shorter than the Determination Period during which the Accrual Period ends, the number of days in such Accrual Period divided by the product of (1) the number of days in such Determination Period and (2) the number of Determination Dates (as specified in the applicable Final Terms) that would occur in one calendar year; or
 - (b) in the case of Notes where the Accrual Period is longer than the Determination Period during which the Accrual Period ends, the sum of:
 - (1) the number of days in such Accrual Period falling in the Determination Period in which the Accrual Period begins divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates (as specified in the applicable Final Terms) that would occur in one calendar year; and
 - (2) the number of days in such Accrual Period falling in the next Determination Period divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates (as specified in the applicable Final Terms) that would occur in one calendar year; and
- (ii) if "30/360" is specified in the applicable Final Terms, the number of days in the period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (such number of days being calculated on the basis of a year of 360 days with 12 30-day months) divided by 360;

"Determination Period" means each period from (and including) a Determination Date to (but excluding) the next Determination Date (including, where either the Interest Commencement Date or the final Interest Payment Date is not a Determination Date, the period commencing on the first Determination Date prior to, and ending on the first Determination Date falling after, such date); and

"sub-unit" means, with respect to any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to euro, means one cent.

(b) Interest on Floating Rate Notes and Index Linked Interest Notes

(i) Interest Payment Dates

Each Floating Rate Note and Index Linked Interest Note bears interest on its outstanding nominal amount (or, if it is a Partly Paid Note, the amount paid up) from (and including) the Interest Commencement Date and such interest will be payable in arrear on either:

- (A) the Specified Interest Payment Date(s) (each an "Interest Payment Date") in each year specified in the applicable Final Terms; or
- (B) if no Specified Interest Payment Date(s) is/are specified in the applicable Final Terms, each date (each an "Interest Payment Date") which falls the number of months or other period specified as the Specified Period in the applicable Final

Terms after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.

Such interest will be payable in respect of each Interest Period (which expression shall, in these Terms and Conditions, mean the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date).

If a Business Day Convention is specified in the applicable Final Terms and (x) if there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur or (y) if any Interest Payment Date would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

- (1) in any case where Specified Periods are specified in accordance with Condition 5(b)(i)(B) above, the Floating Rate Convention, such Interest Payment Date (i) in the case of (x) above, shall be the last day that is a Business Day in the relevant month and the provisions of (B) below shall apply *mutatis mutandis* or (ii) in the case of (y) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event (A) such Interest Payment Date shall be brought forward to the immediately preceding Business Day and (B) each subsequent Interest Payment Date shall be the last Business Day in the month which falls the Specified Period after the preceding applicable Interest Payment Date occurred; or
- (2) the Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day; or
- (3) the Modified Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date shall be brought forward to the immediately preceding Business Day; or
- (4) the Preceding Business Day Convention, such Interest Payment Date shall be brought forward to the immediately preceding Business Day.

In this Condition, "Business Day" means a day which is both:

- (A) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in London and any Additional Business Centre specified in the applicable Final Terms; and
 - (B) either (1) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (if other than London and any Additional Business Centre and which, if the Specified Currency is New Zealand dollars, shall be Auckland) or (2) in relation to any sum payable in euro, a day on which the Trans-European Automated Real-Time Gross Settlement Express Transfer (TARGET) System (the "TARGET System") is open.
- (ii) Rate of Interest

The Rate of Interest payable from time to time in respect of Floating Rate Notes and Index Linked Interest Notes will be determined in the manner specified in the applicable Final Terms.

- (A) ISDA Determination for Floating Rate Notes

Where ISDA Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will be the relevant ISDA Rate plus or minus (as indicated in the applicable Final Terms) the Margin (if any). For the purposes of this sub-paragraph (A), "ISDA Rate" for an Interest Period means a rate equal to the Floating Rate that would be determined by the Principal Paying Agent under an interest rate swap transaction if the Principal Paying Agent were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2000 ISDA Definitions and the Annex to the 2000 ISDA Definitions, each as amended and updated as at the Issue Date of the first Tranche of the Notes and as published by the International Swaps and Derivatives Association, Inc. (the "ISDA Definitions") and under which:

- (1) the Floating Rate Option is as specified in the applicable Final Terms;
- (2) the Designated Maturity is a period specified in the applicable Final Terms; and
- (3) the relevant Reset Date is either (i) if the applicable Floating Rate Option is based on the London inter-bank offered rate ("LIBOR") or on the Euro-zone inter-bank offered rate ("EURIBOR") for a currency, the first day of that Interest Period or (ii) in any other case, as specified in the applicable Final Terms.

For the purposes of this sub-paragraph (A), (i) "Floating Rate", "Calculation Agent", "Floating Rate Option", "Designated Maturity" and "Reset Date" have the meanings given to those terms in the ISDA Definitions; and (ii) "Euro-zone" means the region comprised of Member States of the European Union that adopt or have adopted the single currency in accordance with the Treaty.

(B) Screen Rate Determination for Floating Rate Notes

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will, subject as provided below, be either:

- (1) the offered quotation; or
- (2) the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the offered quotations,

(expressed as a percentage rate per annum) for the Reference Rate which appears or appear, as the case may be, on the Relevant Screen Page as at 11.00 a.m. (London time, in the case of LIBOR, or Brussels time, in the case of EURIBOR) on the Interest Determination Date in question plus or minus (as indicated in the applicable Final Terms) the Margin (if any), all as determined by the Principal Paying Agent. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Principal Paying Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such offered quotations.

The Agency Agreement contains provisions for determining the Rate of Interest in the event that the Relevant Screen Page is not available or if, in the case of (1) above, no such offered quotation appears or, in the case of (2) above, fewer than three such offered quotations appear, in each case as at the time specified in the preceding paragraph.

If the Reference Rate from time to time in respect of Floating Rate Notes is specified in the applicable Final Terms as being other than LIBOR or EURIBOR, the Rate of Interest in respect of such Notes will be determined as provided in the applicable Final Terms.

(iii) Minimum Rate of Interest and/or Maximum Rate of Interest

If the applicable Final Terms specifies a Minimum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraph (ii) above is less than such Minimum Rate of Interest, the Rate of Interest for such Interest Period shall be such Minimum Rate of Interest.

If the applicable Final Terms specifies a Maximum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraph (ii) above is greater than such Maximum Rate of Interest, the Rate of Interest for such Interest Period shall be such Maximum Rate of Interest.

(iv) Determination of Rate of Interest and calculation of Interest Amounts

The Principal Paying Agent, in the case of Floating Rate Notes, and the Calculation Agent, in the case of Index Linked Interest Notes, will at or as soon as practicable after each time at which the Rate of Interest is to be determined, determine the Rate of Interest for the relevant Interest Period. In the case of Index Linked Interest Notes, the Calculation Agent will notify the Principal Paying Agent of the Rate of Interest for the relevant Interest Period as soon as practicable after calculating the same.

The Principal Paying Agent will calculate the amount of interest (the "Interest Amount") payable on the Floating Rate Notes or Index Linked Interest Notes in respect of each Specified Denomination for the relevant Interest Period. Each Interest Amount shall be calculated by applying the Rate of Interest to each Specified Denomination, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

"Day Count Fraction" means, in respect of the calculation of an amount of interest for any Interest Period:

- (i) if "Actual/365" or "Actual/Actual" is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 365 (or, if any portion of that Interest Period falls in a leap year, the sum of (A) the actual number of days in that portion of the Interest Period falling in a leap year divided by 366 and (B) the actual number of days in that portion of the Interest Period falling in a non-leap year divided by 365);
- (ii) if "Actual/365 (Fixed)" is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 365;
- (iii) if "Actual/365 (Sterling)" is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 365 or, in the case of an Interest Payment Date falling in a leap year, 366;
- (iv) if "Actual/360" is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 360;
- (v) if "30/360", "360/360" or "Bond Basis" is specified in the applicable Final Terms, the number of days in the Interest Period divided by 360 (the number of days to be calculated on the basis of a year of 360 days with 12 30-day months

(unless (a) the last day of the Interest Period is the 31st day of a month but the first day of the Interest Period is a day other than the 30th or 31st day of a month, in which case the month that includes that last day shall not be considered to be shortened to a 30-day month, or (b) the last day of the Interest Period is the last day of the month of February, in which case the month of February shall not be considered to be lengthened to a 30-day month)); and

(vi) if "30E/360" or "Eurobond Basis" is specified in the applicable Final Terms, the number of days in the Interest Period divided by 360 (the number of days to be calculated on the basis of a year of 360 days with 12 30-day months, without regard to the date of the first day or last day of the Interest Period unless, in the case of the final Interest Period, the Maturity Date is the last day of the month of February, in which case the month of February shall not be considered to be lengthened to a 30-day month).

(v) Notification of Rate of Interest and Interest Amounts

The Principal Paying Agent will cause the Rate of Interest and each Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the relevant Issuer and any stock exchange or other relevant authority on which the relevant Floating Rate Notes or Index Linked Interest Notes are for the time being listed or by which they have been admitted to listing and notice thereof to be published in accordance with Condition 14 as soon as possible after their determination but in no event later than the fourth London Business Day thereafter. Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without prior notice in the event of an extension or shortening of the Interest Period. Any such amendment will be promptly notified to each stock exchange or other relevant authority on which the relevant Floating Rate Notes or Index Linked Interest Notes are for the time being listed or by which they have been admitted to listing and to the Noteholders in accordance with Condition 14. For the purposes of this paragraph, the expression "London Business Day" means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for general business in London.

(vi) Determination or Calculation by Trustee

If for any reason at any relevant time the Principal Paying Agent or, as the case may be, the Calculation Agent defaults in its obligation to determine the Rate of Interest or the Principal Paying Agent defaults in its obligation to calculate any Interest Amount in accordance with sub-paragraph (ii)(A) or (B) above or as otherwise specified in the applicable Final Terms, as the case may be, and in each case (iv) above, the Trustee shall determine the Rate of Interest at such rate as, in its absolute discretion (having such regard as it shall think fit to the foregoing provisions of this Condition, but subject always to any Minimum Rate of Interest or Maximum Rate of Interest specified in the applicable Final Terms), it shall deem fair and reasonable in all the circumstances or, as the case may be, the Trustee shall calculate the Interest Amount(s) in such manner as it shall deem fair and reasonable in all the circumstances and each such determination or calculation shall be deemed to have been made by the Principal Paying Agent or the Calculation Agent, as applicable.

(vii) Certificates to be final

All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this Condition 5(b), whether by the Principal Paying Agent or, if applicable, the Calculation Agent or the Trustee, shall (in the absence of wilful default, bad faith or manifest error) be binding on the relevant Issuer, the Trustee, the Principal Paying Agent, the

Calculation Agent (if applicable), the other Paying Agents and all Noteholders, Receiptholders and Couponholders and (in the absence as aforesaid) no liability to the relevant Issuer, the Noteholders, the Receiptholders or the Couponholders shall attach to the Principal Paying Agent or, if applicable, the Calculation Agent or the Trustee in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.

(c) Interest on Dual Currency Notes

In the case of Dual Currency Notes, if the rate or amount of interest falls to be determined by reference to an exchange rate, the rate or amount of interest payable shall be determined in the manner specified in the applicable Final Terms.

(d) Interest on Partly Paid Notes

In the case of Partly Paid Notes (other than Partly Paid Notes which are Zero Coupon Notes), interest will accrue as aforesaid on the paid-up nominal amount of such Notes and otherwise as specified in the applicable Final Terms.

(e) Accrual of interest

Each Note (or, in the case of the redemption of part only of a Note, that part only of such Note) will cease to bear interest (if any) from the date for its redemption unless, upon due presentation thereof, payment of principal is improperly withheld or refused. In such event, interest will continue to accrue as provided in the Trust Deed.

6. Payments

(a) Method of payment

Subject as provided below:

- (i) payments in a Specified Currency other than euro will be made by credit or transfer to an account in the relevant Specified Currency (which, in the case of a payment in Japanese Yen to a non-resident of Japan, shall be a non-resident account) maintained by the payee with, or by a cheque in such Specified Currency drawn on, a bank in the principal financial centre of the country of such Specified Currency (which, if the Specified Currency is New Zealand dollars, shall be Auckland); and
- (ii) payments in euro will be made by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee or, at the option of the payee, by a euro cheque.

Payments will be subject in all cases to any fiscal or other laws and regulations applicable thereto in the place of payment, but without prejudice to the provisions of Condition 8.

(b) Presentation of definitive Notes, Receipts and Coupons

Payments of principal in respect of definitive Notes will (subject as provided below) be made in the manner provided in paragraph (a) above only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of definitive Notes, and payments of interest in respect of definitive Notes will (subject as provided below) be made as aforesaid only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of Coupons, in each case at the specified office of any Paying Agent outside the United States (which expression, as used herein, means the United States of America (including the States and the District of Columbia, its territories, its possessions and other areas subject to its jurisdiction)).

Payments of instalments of principal (if any) in respect of definitive Notes, other than the final instalment, will (subject as provided below) be made in the manner provided in paragraph (a) above against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the relevant Receipt in accordance with the preceding paragraph. Payment of the final instalment will be made in the manner provided in paragraph (a) above only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the relevant Note in accordance with the preceding paragraph. Each Receipt must be presented for payment of the relevant instalment together with the definitive Note to which it appertains. Receipts presented without the definitive Note to which they appertain do not constitute valid obligations of the relevant Issuer. Upon the date on which any definitive Note becomes due and repayable, unmatured Receipts (if any) relating thereto (whether or not attached) shall become void and no payment shall be made in respect thereof.

Fixed Rate Notes in definitive form (other than Dual Currency Notes or Index Linked Notes) should be presented for payment together with all unmatured Coupons appertaining thereto (which expression shall for this purpose include Coupons falling to be issued on exchange of matured Talons), failing which the amount of any missing unmatured Coupon (or, in the case of payment not being made in full, the same proportion of the amount of such missing unmatured Coupon as the sum so paid bears to the sum due) will be deducted from the sum due for payment. Each amount of principal so deducted will be paid in the manner mentioned above against surrender of the relative missing Coupon at any time before the expiry of 10 years after the Relevant Date (as defined in Condition 8) in respect of such principal (whether or not such Coupon would otherwise have become void under Condition 9) or, if later, five years from the date on which such Coupon would otherwise have become due, but in no event thereafter.

Upon any Fixed Rate Note in definitive form becoming due and repayable prior to its Maturity Date, all unmatured Talons (if any) appertaining thereto will become void and no further Coupons will be issued in respect thereof.

Upon the date on which any Floating Rate Note, Dual Currency Note or Index Linked Interest Note in definitive form becomes due and repayable, unmatured Coupons and Talons (if any) relating thereto (whether or not attached) shall become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect thereof.

If the due date for redemption of any definitive Note is not an Interest Payment Date, interest (if any) accrued in respect of such Note from (and including) the preceding Interest Payment Date or, as the case may be, the Interest Commencement Date shall be payable only against surrender of the relevant definitive Note.

(c) Payments in respect of Global Notes

Payments of principal and interest (if any) in respect of Notes represented by any Global Note will (subject as provided below) be made in the manner specified above in relation to definitive Notes and otherwise in the manner specified in the relevant Global Note against presentation or surrender, as the case may be, of such Global Note at the specified office of any Paying Agent outside the United States. A record of each payment made against presentation or surrender of any Global Note, distinguishing between any payment of principal and any payment of interest, will be made on such Global Note by the Paying Agent to which it was presented and such record shall be *prima facie* evidence that the payment in question has been made.

(d) General provisions applicable to payments

The holder of a Global Note shall be the only person entitled to receive payments in respect of Notes represented by such Global Note and the relevant Issuer will be discharged by payment to, or to the order of, the holder of such Global Note in respect of each amount so paid. Each of the persons shown in the records of Euroclear and Clearstream, Luxembourg as the

beneficial holder of a particular nominal amount of Notes represented by such Global Note must look solely to Euroclear and Clearstream, Luxembourg, as the case may be, for his share of each payment so made by the relevant Issuer to, or to the order of, the holder of such Global Note.

Notwithstanding the provisions of paragraph (a) above, if any amount of principal and/or interest in respect of Notes is payable in U.S. dollars, such U.S. dollar payments of principal and/or interest in respect of such Notes will be made at the specified office of a Paying Agent in the United States if:

- (i) the relevant Issuer has appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment in U.S. dollars at such specified offices outside the United States of the full amount of principal and interest on the Notes in the manner provided above when due;
- (ii) payment of the full amount of such principal and interest at all such specified offices outside the United States is illegal or effectively precluded by exchange controls or other similar restrictions on the full payment or receipt of principal and interest in U.S. dollars; and
- (iii) such payment is then permitted under United States law without involving, in the opinion of the relevant Issuer, adverse tax consequences to the relevant Issuer.

(e) Payment Day

If the date for payment of any amount in respect of any Note, Receipt or Coupon is not a Payment Day, the holder thereof shall not be entitled to payment until the next following Payment Day in the relevant place and shall not be entitled to further interest or other payment in respect of such delay. For these purposes, "Payment Day" means any day which (subject to Condition 9) is:

- (i) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in:
 - (A) the relevant place of presentation;
 - (B) London;
 - (C) any Additional Financial Centre specified in the applicable Final Terms; and
- (ii) either (1) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (if other than the place of presentation, London and any Additional Financial Centre and which if the Specified Currency is New Zealand dollars shall be Auckland) or (2) in relation to any sum payable in euro, a day on which the TARGET System is open.

(f) Interpretation of principal and interest

Any reference in these Terms and Conditions to principal in respect of the Notes shall be deemed to include, as applicable:

- (i) any additional amounts which may be payable with respect to principal under Condition 8;
- (ii) the Final Redemption Amount of the Notes;

- (iii) the Early Redemption Amount of the Notes;
- (iv) the Optional Redemption Amount(s) (if any) of the Notes;
- (v) in relation to Notes redeemable in instalments, the Instalment Amounts;
- (vi) in relation to Zero Coupon Notes, the Amortised Face Amount (as defined in Condition 7(e)(iii)); and
- (vii) any premium and any other amounts which may be payable by the relevant Issuer under or in respect of the Notes.

Any reference in these Terms and Conditions to interest in respect of the Notes shall be deemed to include, as applicable, any additional amounts which may be payable with respect to interest under Condition 8.

7. Redemption and Purchase

(a) Redemption at maturity

Unless previously redeemed or purchased and in each case cancelled as specified below, each Note will be redeemed by the relevant Issuer at its Final Redemption Amount specified in, or determined in the manner specified in, the applicable Final Terms in the relevant Specified Currency on the Maturity Date.

(b) Redemption for tax reasons

The Notes may be redeemed at the option of the relevant Issuer in whole, but not in part, at any time (if the Note is neither a Floating Rate Note nor an Index Linked Interest Note) or on any Interest Payment Date (if the Note is either a Floating Rate Note or an Index Linked Interest Note), on giving not less than 30 nor more than 60 days' notice to the Trustee and the Principal Paying Agent and, in accordance with Condition 14, the Noteholders (which notice shall be irrevocable), if the relevant Issuer satisfies the Trustee immediately before the giving of the notice referred to above that on the occasion of the next payment due under the Notes, the relevant Issuer has or will become obliged to pay additional amounts as provided or referred to in Condition 8 as a result of any change in, or amendment to, the laws or regulations of the United Kingdom or any political subdivision of, or any authority in, or of, the United Kingdom having power to tax, or any change in the application or official interpretation of such laws or regulations, which change or amendment becomes effective on or after the Issue Date of the first Tranche of the Notes provided that no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the relevant Issuer would be obliged to pay such additional amounts were a payment in respect of the Notes then due.

Prior to the publication of any notice of redemption pursuant to this Condition, the relevant Issuer shall deliver to the Trustee a certificate signed by two Directors of the relevant Issuer stating that the relevant Issuer is entitled to effect such redemption and setting forth a statement of the change or amendment (as referred to above) which has occurred (irrespective of whether such change or amendment is then effective) describing the facts leading thereto and accompanied by an opinion in a form satisfactory to the Trustee of independent legal advisers of recognised standing to the effect that such change or amendment has occurred (irrespective of whether such change or amendment is then effective) and the relevant Issuer has or will become obliged to pay such additional amounts as a result of such change or amendment. The Trustee shall be entitled to accept such certificate and opinion as sufficient evidence of the satisfaction of the conditions precedent set out above, in which event they shall be conclusive and binding on the Noteholders, the Receiptholders and the Couponholders.

Notes redeemed pursuant to this Condition 7(b) will be redeemed at their Early Redemption Amount referred to in paragraph (e) below together (if appropriate) with interest accrued to (but excluding) the date of redemption.

(c) Redemption at the option of the relevant Issuer (Issuer Call)

If Issuer Call is specified in the applicable Final Terms, the relevant Issuer may, having given:

- (i) not less than 30 nor more than 90 days' notice to the Noteholders in accordance with Condition 15; and
- (ii) not less than 15 days before the giving of the notice referred to in (i), notice to the Trustee and the Principal Paying Agent;

(which notices shall be irrevocable and shall specify the date fixed for redemption), redeem all or some only of the Notes then outstanding on any Optional Redemption Date and at the Optional Redemption Amount(s) specified in, or determined in the manner specified in, the applicable Final Terms together, if appropriate, with interest accrued to (but excluding) the relevant Optional Redemption Date. Any such redemption must be of a nominal amount equal to the Minimum Redemption Amount or the Maximum Redemption Amount. In the case of a partial redemption of Notes, the Notes to be redeemed ("Redeemed Notes") will be selected individually by lot, in the case of Redeemed Notes represented by definitive Notes, and in accordance with the rules of Euroclear and/or Clearstream, Luxembourg, (to be reflected in the records of Euroclear and Clearstream, Luxembourg as either a pool factor or a reduction in nominal amount, at their discretion) in the case of Redeemed Notes represented by a Global Note, not more than 30 days prior to the date fixed for redemption (such date of selection being hereinafter called the "Selection Date"). In the case of Redeemed Notes represented by definitive Notes, a list of the serial numbers of such Redeemed Notes will be published in accordance with Condition 14 not less than 15 days prior to the date fixed for redemption. The aggregate nominal amount of Redeemed Notes represented by definitive Notes shall bear the same proportion to the aggregate nominal amount of all Redeemed Notes as the aggregate nominal amount of definitive Notes outstanding bears to the aggregate nominal amount of the Notes outstanding, in each case on the Selection Date, provided that, if necessary, appropriate adjustments shall be made to such nominal amounts to ensure that each represents an integral multiple of the Specified Denomination. No exchange of the relevant Global Note will be permitted during the period from (and including) the Selection Date to (and including) the date fixed for redemption pursuant to this paragraph (c) and notice to that effect shall be given by the relevant Issuer to the Noteholders in accordance with Condition 14 at least five days prior to the Selection Date.

(d) Redemption at the option of the Noteholders (Investor Put)

If Investor Put is specified in the applicable Final Terms, upon the holder of any Note giving to the relevant Issuer in accordance with Condition 14 not less than 15 nor more than 30 days' notice, the relevant Issuer will, upon the expiry of such notice, redeem, subject to, and in accordance with, the terms specified in the applicable Final Terms, in whole (but not in part), such Note on the Optional Redemption Date and at the Optional Redemption Amount together, if appropriate, with interest accrued to (but excluding) the Optional Redemption Date.

If this Note is in definitive form, to exercise the right to require redemption of this Note the holder of this Note must deliver such Note at the specified office of any Paying Agent at any time during normal business hours of such Paying Agent falling within the notice period, accompanied by a duly completed and signed notice of exercise in the form (for the time being current) obtainable from any specified office of any Paying Agent (a "Put Notice") and in

which the holder must specify a bank account (or, if payment is required to be made by cheque, an address) to which payment is to be made under this Condition.

(e) Early Redemption Amounts

For the purpose of paragraph (b) above and Condition 10, the Notes will be redeemed at their Early Redemption Amount calculated as follows:

- (i) in the case of Notes with a Final Redemption Amount equal to the Issue Price, at the Final Redemption Amount thereof;
- (ii) in the case of Notes (other than Zero Coupon Notes but including Instalment Notes and Partly Paid Notes) with a Final Redemption Amount which is or may be less or greater than the Issue Price or which is payable in a Specified Currency other than that in which the Notes are denominated, at the amount specified in, or determined in the manner specified in, the applicable Final Terms or, if no such amount or manner is so specified in the applicable Final Terms, at their nominal amount; or
- (iii) in the case of Zero Coupon Notes, at an amount (the "Amortised Face Amount") equal to the sum of:
 - (A) the Reference Price; and
 - (B) the product of the Accrual Yield (compounded annually) being applied to the Reference Price from (and including) the Issue Date of the first tranche of the Notes to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Notes become due and repayable.

Where such calculation is to be made for a period which is not a whole number of years, it shall be made (1) in the case of a Zero Coupon Note other than a Zero Coupon Note payable in euro, on the basis of a 360-day year consisting of 12 months of 30 days each and (2) in the case of a Zero Coupon Note payable in euro, on the basis of the actual number of days elapsed divided by 365 (or, if any of the days elapsed falls in a leap year, the sum of (x) the number of those days falling in a leap year divided by 366 and (y) the number of those days falling in a non-leap year divided by 365) or (in either case) on such other calculation basis as may be specified in the applicable Final Terms.

(f) Instalments

Instalment Notes will be redeemed in the Instalment Amounts and on the Instalment Dates. In the case of early redemption, the Early Redemption Amount will be determined pursuant to paragraph (e) above.

(g) Partly Paid Notes

Partly Paid Notes will be redeemed, whether at maturity, early redemption or otherwise, in accordance with the provisions of this Condition and the applicable Final Terms.

(h) Purchases

The relevant Issuer or any Subsidiary (as defined in the Trust Deed) of the relevant Issuer may at any time purchase Notes (provided that, in the case of definitive Notes, all unmatured Receipts, Coupons and Talons appertaining thereto are purchased therewith) at any price in the open market or otherwise. If purchases are made by tender, tenders must be available to all Noteholders alike. Such Notes may be held, reissued, resold or, at the option of the relevant Issuer surrendered to any Paying Agent for cancellation.

(i) Cancellation

All Notes which are redeemed will forthwith be cancelled (together with all unmatured Receipts, Coupons and Talons attached thereto or surrendered therewith at the time of redemption). All Notes so cancelled and Notes purchased and cancelled pursuant to paragraph

(h) above (together with all unmatured Receipts, Coupons and Talons cancelled therewith) shall be forwarded to the Principal Paying Agent and cannot be reissued or resold.

(j) Late payment on Zero Coupon Notes

If the amount payable in respect of any Zero Coupon Note upon redemption of such Zero Coupon Note pursuant to paragraph (a), (b), (c) or (d) above or upon its becoming due and repayable as provided in Condition 10 is improperly withheld or refused, the amount due and repayable in respect of such Zero Coupon Note shall be the amount calculated as provided in paragraph (e)(iii) above as though the references therein to the date fixed for the redemption or the date upon which such Zero Coupon Note becomes due and repayable were replaced by references to the date which is the earlier of:

- (i) the date on which all amounts due in respect of such Zero Coupon Note have been paid; and
- (ii) five days after the date on which the full amount of the moneys payable in respect of such Zero Coupon Note has been received by the Principal Paying Agent or the Trustee and notice to that effect has been given to the Noteholders in accordance with Condition 14.

8. Taxation

All payments of principal and interest in respect of the Notes, Receipts and Coupons by the relevant Issuer will be made without withholding or deduction for or on account of any present or future taxes or duties of whatever nature imposed or levied by or on behalf of the United Kingdom or any political subdivision or any authority thereof or therein having power to tax unless such withholding or deduction is required by law. In such event, the relevant Issuer will pay such additional amounts as shall be necessary in order that the net amounts received by the holders of the Notes, Receipts or Coupons after such withholding or deduction shall equal the respective amounts of principal and interest which would otherwise have been receivable in respect of the Notes, Receipts or Coupons, as the case may be, in the absence of such withholding or deduction; except that no such additional amounts shall be payable with respect to any Note, Receipt or Coupon:

- (i) presented for payment by or on behalf of a holder who is liable for such taxes or duties in respect of such Note, Receipt or Coupon by reason of his having some connection with the United Kingdom other than the mere holding of such Note, Receipt or Coupon; or
- (ii) presented for payment in the United Kingdom; or

The Trust Deed, the Notes, the Receipts and the Coupons are governed by, and shall be construed in accordance with, English law.

20. Contracts (Rights of Third Parties) Act 1999

DESCRIPTION OF THE ISSUERS

UNITED UTILITIES WATER PLC

United Utilities Water PLC ("UW") was incorporated for an unlimited duration in England and Wales on 1 April, 1989 with registered number 2366678 and is a wholly owned subsidiary of United Utilities PLC ("UU") via its immediate parent company, United Utilities North West PLC ("United Utilities North West"). UW is a company limited by shares and operates under the Companies Act 1985.

Board of Directors

The directors of UW and their functions within UW are as follows:

<u>Name</u>	<u>Function</u>
Charlie Cornish	Managing Director, United Utilities North West
John Barnes	Director
Martin Beesley	Finance Director
Gary Dixon	Director
Clive Elphick	Director
Tim Weller	Director
Phillida Entwistle	Non-Executive Director
Deborah Morton	Non-Executive Director

None of the directors of UW performs activities outside the Group which are significant with respect to the Group.

There is no existing or potential conflict of interest between the directors' duties to UW and/or their private interests or other duties.

The business address of each of the directors is UW's registered office which is Dawson House, Great Sankey, Warrington WA5 3LW.

Description of the United Utilities Water PLC business

UW derives virtually all its income from licensed regulated monopoly activities. It owns, operates and manages the Group's licensed wastewater and water network assets in North West England, comprising primarily:-

Assets involved in wastewater, collection, treatment and disposal operations

- 40,325 kilometres ("km") of sewers;
- 1,739 pumping stations;
- 371 storage tanks;
- 3,076 combined sewer overflows;
- 583 wastewater treatment works; and
- 34 sludge treatment facilities.

Assets involved in water supply operations, treatment and distribution

- 184 raw water impounding reservoirs;
- 1,444km of raw water aqueducts;
- 113 water treatment works;
- 1,443km of treated water trunk mains;
- 455 service reservoirs and water towers;
- 626 pumping stations; and
- 39,919km of trunk and distribution mains.

UW has around £41 billion (at current replacement value) of assets to serve its 3.1 million domestic and business customers in north west England. It would be uneconomic for competitors to replicate the network assets owned by UW with the inevitable consequence that UW is an asset owning monopoly and as such is subject to price regulation.

UW removes and treats wastewater from, and treats and distributes around 2.2 billion litres of water a day to, nearly 3.1 million homes and businesses.

At the time of water and wastewater privatisation in 1989, the infrastructure inherited by U UW was in need of substantial repair and replacement. Further improvements have been required in order to comply with applicable UK and European Union environmental and drinking water quality regulations.

In order to extract the synergy benefits of managing three utility networks comprising wastewater, water and electricity distribution in the same geographical region, running largely under the same streets and serving the same customer premises, U UW's operations have been combined with those of United Utilities Electricity PLC ("UUE") under a common management structure, United Utilities North West, ("UUNW").

Capital Investment Programmes

U UW prepares for approval by its regulators an asset management programme ("AMP") covering a five year period which seeks to achieve the higher standards required by EU directives as implemented by the UK government. The four programmes since privatisation required or are estimated to require capital investments of:

AMP 1	5 years to 31 March 1995	£1.8 billion
AMP 2	5 years to 31 March 2000	£2.5 billion
AMP 3	5 years to 31 March 2005	£3.0 billion
AMP 4	5 years to 31 March 2010	£2.9 billion

U UW's price regulator takes account of these investment programmes when setting price limits as described under "Price Control" below. The Water Services Regulation Authority's ("Ofwat") primary duties include a requirement that regulated water and sewage companies are able to finance their functions.

Capital investment in the financial year ending 31 March 2006 was £440.6 million (2005: £706.9 million, 2004: £864.2 million) with 58.6 per cent relating to the water network, and 41.4 per cent to quality and efficiency.

Key outputs from the capital investment programme during the financial year ended 31 March 2006 included the refurbishment of a further 800km of old water mains and the replacement of some 833 lead communication pipes. 43 unsatisfactory intermittent discharges ("UIDs") were addressed to effect environmental improvement. Water meters were installed in around 30,032 domestic properties under the free meter option scheme, whereby customers can have a meter fitted free of charge and are given an opportunity to switch to metered billing.

The capital investment partnership framework approach is now embedded into the business with U UW taking a leading role in programme management, increasing its internal resources in engineering and design and placing a greater emphasis on performance management through the alignment of financial targets with partners and benchmarking out-turn results. A range of integrated work teams have been set up to help reduce project management costs, with responsibility for delivering projects from conception through to commissioning. A new project and investment management system to support delivery of the capital programmes is now up and running and benefits have also been realised through relocation of activities, shared systems and greater collaboration through the supply chain. These changes should help the Group deliver the capital efficiencies required by Ofwat.

Wastewater collection, treatment and disposal operations

In accordance with its licence, U UW is responsible for the collection, treatment and disposal of domestic wastewater, trade effluent (non-domestic wastewater) and surface water in north west England. Surface water, mainly from groundwater infiltration and highway drainage, forms a major part of the wastewater which U UW must treat. In some cases, separate sewers are provided for foul water and surface water, so that uncontaminated surface water may be piped directly to a watercourse.

U UW's wastewater treatment works provide a range of treatments. These include primary, secondary and tertiary treatment involving a variety of physical, chemical and biological processes. Treated liquid final effluent is discharged into rivers, estuaries or via sea outfalls. A by-product of the treatment of wastewater is sewage sludge. Sewage sludge is also treated by a range of physical, chemical and biological processes.

Currently, around three quarters of the end product is recycled to agricultural land as a soil conditioner or used in land reclamation, and one quarter is incinerated or disposed to landfill. However, due to the government designating over 55 per cent of England as nitrate vulnerable zones (that is, zones that are subject to restrictions on the amount of nitrogen that can be applied to agricultural land), the amount of end product that is recycled to agricultural land is likely to decrease quite significantly in the short to medium term, while the amount of end product that is incinerated is expected to increase.

Water supply operations, treatment and distribution

UUW obtains water from various sources including reservoirs, rivers and aquifers. The majority of its reservoirs are in the uplands of the Lake District and the Pennine Hills, areas with a higher than average rainfall. Conversely, the major population centres it serves are in the lowlands of Greater Manchester, Lancashire and Cheshire. Merseyside, the other major population served by UUW, receives its water supply principally from the River Dee and Lake Vymwy in north Wales. A large proportion of water supplied by UUW flows freely by gravity and does not need to be pumped. However, due to the nature of the water catchments, being peaty moorlands or coal measure strata, enhanced treatment methods are required to ensure the water satisfies all regulatory and quality standards.

All water supplied is treated in order to meet the appropriate standards enforced by the Drinking Water Inspectorate, the government regulator of drinking water in England and Wales. The type of treatment varies from disinfection only, for some borehole sources, to more complex processes using coagulation, sedimentation, clarification and filtration and activated carbon absorption for certain waters. UUW monitors water quality by analysing samples regularly for both microbiological and chemical parameters. In 2005, the business continued to improve quality, with the Drinking Water Inspectorate reporting that UUW achieved 99.94 per cent mean zonal compliance in the calendar year to December 2005 compared to 99.92 per cent the previous year.

Treated water is delivered to the end customer through a network of large diameter trunk mains to smaller, trunk mains, service reservoirs and water towers, and distribution mains.

Economic regulation of wastewater and water

Licence

The UK government awarded Instruments of Appointment ('licences') for the provision of wastewater services and water supply in 1989. These licences continue in force for an indefinite period, subject to potential termination rights as set out below. UUW holds the licence for an area of north west England which comprises 3.1 million homes and businesses.

The Water Industry Act 1991 (the 'Act'), as amended by the Water Act 2003 (the 'WA 2003'), provides for the appointment (by way of licensing) of water and sewerage undertakers. With effect from 1 April 2006, economic regulation pursuant to these licences is the responsibility of the Water Services Regulation Authority (previously the Director General of Water Services). The authority continues to be known as 'Ofwat'. Ofwat also exercises powers under UK competition legislation, most significantly the Competition Act 1998 and the Enterprise Act 2002.

The changes introduced by WA 2003 have now been fully implemented. The WA 2003 is intended to promote greater water conservation and planning for the future by water companies, revise the framework for water abstraction and impounding, and help to build a more transparent regulatory environment.

The WA 2003 also aims to extend opportunities for competition in the water industry in England and Wales, by introducing a new framework for the licensing of water supply. From 1 December 2005, water supply licensees have been able to provide both retail supply (i.e. the supply by a licensee of water purchased from a water undertaker's supply system to an eligible customer) and combined supply (i.e. the introduction of water into an incumbent water company's existing network for retail by the licensee to an eligible customer), to non-household users with an annual consumption of not less than 50 megalitres per year. A water

undertaker is obliged to allow a licensed water supplier to use its network for this purpose, subject to payment of a fee and certain conditions and rights of refusal.

As at 28 November 2006, eleven such licenses have been granted. Ofwat has produced guidance for water supply licensing and published a Customer Transfer Protocol to facilitate the transfer of customers to a new licensee. In line with the new water supply licensing regime, from 1 April 2005 the threshold in the Act for an inset appointment (whereby one licensed undertaker replaces another for a specific non-household user) was also reduced from 100 to 50 megalitres. To date there have been no inset appointments granted which affect U UW's area. U UW had already developed and published policies which allow other companies access to its water networks in order to supply customers and to self-lay new water mains and service pipes. These policies have been further developed to facilitate competition in the industry under the WA 2003 and U UW welcomes the new competitive developments in this field.

The establishment of Ofwat as a regulatory board to be known as the Water Services Regulation Authority from 1 April 2006 brings the water industry into line with other regulated industries whose regulators have adopted a similar board structure. Appointments to Ofwat will be made by the Secretary of State for Environment, Food and Rural Affairs. This is in contrast to regulators in some states of the United States who hold public office and are required to stand for public election. The previous Director General of Water Services, Philip Fletcher, has now been appointed chairman of Ofwat. The chairman will continue to be appointed for a fixed term and may only be removed from his post for incapacity or misbehaviour. On 9 October 2006, Regina Finn was appointed as Chief Executive of Ofwat.

A new independent Consumer Council for Water (the 'council') has replaced WaterVoice (previously Ofwat's National Customer Council) and the regional Customer Service Committees. The council came into being on 1 October 2005, accompanied by nine regional committees for England and one for Wales.

Ofwat must comply with the statutory duties set out in the Act. It may receive guidance from the UK government in areas such as social and environmental policy and its views on his approach to price setting, and in the performance of its statutory functions. However, Ofwat is not subject to direction about what those judgements should be and is independent of government ministers. Ofwat must exercise and perform its powers and duties in the manner that he considers is best calculated to:

- protect the interests of consumers wherever appropriate by promoting effective competition between persons engaged in, or in commercial activities connected with, the provision of water and sewerage services;
- secure that the functions of a water undertaker and of a sewerage undertaker are properly carried out in respect of every area of England and Wales;
- secure that relevant undertakers are able (in particular, by securing reasonable returns on their capital) to finance the proper carrying out of their functions; and
- secure that the activities authorised by the licence of a licensed water supplier and any statutory functions imposed on it in consequence of the licence are properly carried out.

The licences impose conditions on licensees, which Ofwat enforces, along with licensees' principal duties under the Act. Licence conditions can be modified by Ofwat, either with the water undertaker's agreement or following reference to the Competition Commission for a decision on public interest grounds. However, reference to the Competition Commission is not required where the changes are necessary or expedient to implement the new licensing regime for the supply of water services to large non-household users.

Whilst the licence is for an indefinite period, it may be terminated on 25 years' notice, with more immediate revocation in certain specific circumstances (including, for example, failure to comply with an enforcement order made by the water regulator).

The WA 2003 has also introduced financial penalties for breach of licence conditions and other key duties to bring the industry into line with other regulated industries. From 1 April 2005, companies may face a fine of up to ten per cent of turnover for breaching licence conditions, standards of performance or other obligations. 'Turnover' is derived from the regulated activities for the preceding regulatory year (in effect,

the latest set of regulated accounts), as more specifically set out in the Water Industry (Determination of Turnover for Penalties) Order 2005. Ofwat has published a statement of the policy that it intends to apply to the imposition of any penalty and the determination of its amount. These penalties can be appealed, on procedural grounds only, to the High Court. The new legislation also requires water companies to disclose any links between directors' pay and company performance.

In practice, many regulatory issues arising between licensees and the water regulator are settled without the need to resort to formal proceedings. However, where Ofwat is satisfied that a licensee is in breach of the conditions of its licence, it has powers to secure compliance by means of an enforcement order. Failure to comply with an enforcement order can lead to enforcement in court, payment of compensation by the licence holder to the 'injured' party and, ultimately, to revocation of the licence. Alternatively, where actual or likely contravention of an enforcement order (or of one of a licensee's principal statutory duties under the Act) is so serious as to make it inappropriate for the licensee to continue to hold its licence, Ofwat may, with the Secretary of State's consent, apply to the High Court for the appointment of a special administrator to run the company until arrangements can be made for a new company to carry on the licensed activities. A special administrator may also be appointed where the licensee is, or is likely to be, unable to pay its debts.

Ring fence

UUW's licence contains similar restrictions to those contained in UUE's electricity distribution licence (see below). These restrictions include:

- non-discrimination;
- restrictions on the payment of dividends – any dividends can only be made in accordance with a written dividend policy of the directors of UUW which has been accepted by Ofwat as not impairing its ability to finance its business;
- prohibition on cross subsidies between UUW and associated companies;
- restrictions on lending funds to an associated company – all transactions with associated companies must be on an arm's length basis. The consent of Ofwat is required before lending funds to an associated company. Any such transaction must undergo a process of market testing or involve the associated company being paid prices no greater than the cost incurred in providing goods and services plus a reasonable rate of return on any capital employed; and
- ringfencing of financial and management resources of the licensed business.

Price control

Ofwat regulates wastewater and water charges by capping the average increase in charges that a company can impose in any year. Ofwat conducts a periodic review and sets price caps every five years and recently confirmed that the next price review would again set price limits for five years.

This price cap is set by reference to inflation as measured by the retail price index in the UK ("RPI") plus an adjustment factor known as 'K', which is specific to each company and which can vary for each year of the review period. The size of a company's K factor (which can be positive, negative or zero) reflects the scale of its capital investment programme, its cost of capital, and its operational and environmental obligations, together with the scope for it to improve its efficiency.

Unlike 'rate of return' economic regulation, such as exists in many states of the United States, 'price cap' regulation in the UK is performance based. Companies are incentivised to be efficient, both in terms of their operating costs and in the implementation of their capital expenditure programme. The benefit of any efficiency savings achieved through effective management is retained by the companies for a period of five years, after which time the benefit is passed to customers via the subsequent price setting process. The cost of any under-performance due to poor management is borne by the companies. Companies are also incentivised to provide a high quality of service and penalised if they provide a poor quality of service by means of an adjustment to the K factor at the subsequent price review.

The last periodic review was completed in December 2004 and covers the period from 1 April 2005 to 31 March 2010. In the recent price review, Ofwat set the following K factors; being the amount by which prices are allowed to rise above inflation in each of the five financial years commencing on 1 April 2005:

- 2005/06 5.0 per cent
- 2006/07 6.4 per cent
- 2007/08 4.4 per cent
- 2008/09 3.5 per cent
- 2009/10 3.0 per cent

This equates to a real (before or excluding inflation) average annual price increase over the five-year period of 4.5 per cent.

Unexpected costs or savings arising from changes in certain regulatory assumptions during a review period are recorded and agreed by the company and Ofwat. This process, known as 'logging up and down', allows prices to be adjusted up or down at the next periodic review to compensate (companies or customers) for the unexpected change. In addition, where the change exceeds the specified materiality thresholds the company can request, and Ofwat can instigate, a re-setting of its price limit during the five-year period, known as an Interim Determination of K ('IDoK').

All water and sewerage companies' licences now include a 'shipwreck' or 'substantial effect' clause, which allows companies' price limits to be revised when events beyond their control have a significant effect on their costs or revenues. With effect from the last price review, this clause was included in UUW's licence, allowing appropriate adjustment for unforeseen events both adverse and favourable.

Environmental regulation of wastewater and water

The wastewater and water industry in the UK is subject to substantial domestic and European Union regulation, placing significant statutory obligations on UUW with regard to, among other factors, the quality of treated water supplied and of wastewater treatment. European directives (including the Drinking Water Directive, the Bathing Water Directive and the Urban Wastewater Treatment Directive) are transposed into UK law by primary and secondary legislation such as the Water Supply (Water Quality) Regulations 2000, the Water Industry Act 1991, the Water Resources Act 1991 and the Environmental Protection Act 1990.

All water and wastewater companies have a general duty to exercise their powers to conserve and enhance natural beauty and to promote the efficient use of water. Environmental regulation is the responsibility of the Secretary of State for Environment, Food and Rural Affairs together with:

- the Environment Agency, which is responsible for conserving and redistributing water resources and securing the proper uses of those resources, including the licensing of water abstraction. The Agency also regulates discharges to controlled waters, including discharges from wastewater treatment works;
- the Drinking Water Inspectorate, which enforces drinking water quality standards; and
- Natural England (formed in October 2006, bringing together English Nature and parts of the Rural Development Service and the Countryside Agency), which is responsible for the protection of designated sites for nature conservation, e.g. Sites of Special Scientific Interest. There is a statutory requirement to manage these sites to conserve or improve biodiversity. As a result of new UK government targets, Natural England is seeking improvements to approximately 50 per cent of the sites within United Utilities' ownership.

UUW expects regulatory regimes in the field of water and wastewater to continue to evolve and become more onerous. Examples of such regulatory and legislative developments include the following:

- Amendments to the Water Resources Act 1991 by the Water Act 2003, which makes new water abstraction licences time-limited and unused licences more easily able to be revoked or varied without compensation, and creating a new statutory right of civil action where water abstraction causes loss or damage. Water undertakers will have a duty to promote water conservation when carrying out their

functions, and must publish drought plans and water resource plans. The government will also be able to require publication of flood plans showing the effect of a reservoir dam failure;

- The Water Framework Directive, transposed into UK law in 2003, which requires the UK government to:
 - establish comprehensive river basin management plans, with a first set of plans in place by 2009 followed by further sets of plans on a six-year cycle;
 - implement the actions in the first set of river basin management plans by December 2015 at the latest;
 - implement measures necessary to prevent deterioration in the ecological status of water bodies; and
 - achieve 'good' water status by 2027 at the latest.

The Directive is likely to impact upon sewerage undertakers by requiring further improvements in discharges from wastewater networks and treatment works; and

- The Water Supply (Water Quality) Regulations 2000, which transpose into UK legislation the Drinking Water Directive and, in particular, introduce more stringent lead standards (ten micrograms per litre (10ug/l) from 25 December 2013) which will oblige water undertakers to carry out improvements to treatment works and distribution systems. To minimise lead concentrations at customers' taps, U UW installed additional phosphate dosing and pH control assets in the AMP3 period April 2000 to 31 March 2005. Over the same period, the company replaced 48,000 lead communication pipes with the agreement of the Drinking Water Inspectorate (quality regulator), and a further 113,000 were replaced as part of the routine maintenance programme. Despite these steps, U UW may not achieve the final lead standard (of 10ug/l) in a number of water supply zones unless some additional lead communication pipes are replaced. The company has agreed with the Drinking Water Inspectorate to replace 40,000 of its lead communication pipes in the period 1 April 2005 to 31 March 2010 (known as 'AMP4') and expects to replace up to 109,000 as part of its routine maintenance programme.
- The AMP4 Consumer Acceptability programme aims to improve the aesthetic quality of water for consumers, for example due to discolouration or taste and odour. This programme was subject to a Regulatory Impact Assessment conducted by the Department for the Environment, Food and Rural Affairs. In order to improve the acceptability of water to its consumers and to reduce the risk of future discoloured water events, U UW has agreed a ten-year programme with the Drinking Water Inspectorate to clean and refurbish up to 602.2 km of its Large Diameter Trunk Mains and up to 4,689 km of smaller diameter mains, which have been subject to many years of iron and manganese deposition and corrosion.

The European Union Urban Wastewater Treatment Directive, which was transposed into UK legislation by the Urban Wastewater Treatment Regulations 1994, requires improvements in the treatment of wastewater discharges, in particular, the provision of secondary treatment. U UW continues to make progress towards achieving this for wastewater treatment works serving areas with a population equivalent of more than 2,000.

The European Union Urban Wastewater Treatment Directive also requires measures to be taken to limit pollution from storm-water overflows. The Group is currently in dialogue with the regulators in relation to the scope of works required in order to meet this obligation and related regulatory requirements.

There are ongoing infringement proceedings by the European Commission against the United Kingdom regarding the implementation of the Urban Wastewater Directive. The European Commission has sent a reasoned opinion to the United Kingdom for failure to designate, and to review correctly, sensitive and less sensitive areas. The European Commission believes that the United Kingdom has not taken all measures needed to reduce the nutrients in wastewater to remedy problems in sensitive areas. Depending upon the outcome of this legal action, it could lead to the designation of some of the Irish Sea as a sensitive area. This,

in turn, could lead to requirements being placed upon UUW to reduce the levels of some nutrients in discharges from many of its wastewater treatment facilities which feed into the Irish Sea.

There are, in addition, other ongoing infringement proceedings by the European Commission against the United Kingdom regarding the implementation of the Urban Wastewater Treatment Directive, but these do not directly concern UUW's appointed area.

Pursuant to the European Union Bathing Water Directive, the objective of which is to protect public health and the environment from faecal pollution at bathing waters, the Environment Agency samples and analyses certain designated bathing waters around the UK coast for the presence or absence of various bacteria. A revised Bathing Water Directive entered into force in March 2006, introducing more stringent microbiological standards. UUW's programme of wastewater network and treatment projects relating to its operational facilities to improve the quality of, and meet the required standards for, bathing waters in north west England continues.

There are proposals progressing at the European level which, if finally adopted, will amend the Directive on the use of sewage sludge on agricultural land so as to introduce tighter limits for metals in sludge. While UUW's preferred route of disposal for sewage sludge remains spreading on agricultural land, it is taking steps to ensure that it has sufficient disposal capacity if that route ceases to be acceptable, including the construction of new incinerators.

Complaints of odour from wastewater treatment works could be actionable as statutory nuisance under the Environmental Protection Act 1990. Ofwat's final determination of December 2004 allowed UUW expenditure of £29 million to deal with odour, of which £11 million relates to activity at three of its treatment works. A voluntary code of practice on such odour problems was published by the Secretary of State on 19 April 2006.

A test case decision of the High Court in January 2006 that certain of UUW's wastewater treatment plant operations should, in addition, be regulated under the Pollution Prevention and Control Requirements, may, depending upon the outcome of an appeal, result in increased costs of compliance with environmental legislation in relation to such operations.

As part of the five-year periodic review of prices, Ofwat takes into consideration the capital investment programme which UUW needs to achieve in order to comply with environmental legislation. See the previous section 'Economic regulation of wastewater and water'.

UNITED UTILITIES ELECTRICITY PLC

United Utilities Electricity PLC ("UUE") was registered in England and Wales on 1 April, 1989 with registered number 2366949 and acquired by United Utilities PLC in November 1995.

Board of Directors

The directors of UUE and their functions within UUE are as follows:

<u>Name</u>	<u>Function</u>
Charlie Cornish	Managing Director, United Utilities North West
Martin Beesley	Finance Director
Michael Boxall	Director
Eoin Cooke	Director
Gary Dixon	Director
Tim Weller	Director

None of the directors of UUE performs activities outside the Group which are significant with respect to the Group.

There is no existing or potential conflict of interest between the directors' duties to UUE and/or their private interests or other duties.

The business address of each of the directors is UUE's registered office which is Dawson House, Great Sankey, Warrington WA5 3LW.

Description of the United Utilities Electricity PLC business

United Utilities Electricity PLC ("UUE") is a wholly-owned subsidiary of UU via its immediate parent company, United Utilities North West. It derives virtually all its income from licensed regulated monopoly activities. UUE owns the distribution network which carries electricity from the National Grid along power lines to consumers' premises on behalf of the electricity supply companies who are UUE's customers. The income derived from the distribution business depends in part on changes in the demand for electricity by consumers in north west England. Demand for electricity is affected by such factors as growth and movements in population, social trends, economic and business growth or decline, changes in the mix of energy sources used by consumers, weather conditions, energy efficiency measures and other factors. The electricity distribution business is a regulated business in which the average increase in charges, which a company may impose in any year, is capped by the electricity regulator (as described in more detail below). Accordingly, profit derived from the distribution business of UUE also depends on efficiency, achieved by reducing and controlling costs, and providing high standards of service.

UUE owns, operates and manages the Group's licensed electricity network comprising primarily:-

Assets involved in distribution of electricity

- 13,525 kilometres (km) of overhead lines;
- 42,930 km of underground cables; and
- 18,100 ground mounted sub-stations and 16,730 pole mounted transformers.

Key performance measures for the business relate to quality of supply. Electricity supplies were available for 99.99 per cent of the time during the financial year ended 2006, sustaining UUE's high level of performance in managing the network to maintain constant supplies for consumers. All the overall standards of performance set by the Gas and Electricity Markets Authority (the 'electricity regulator') were achieved.

Under the regulatory interruptions incentive scheme, UUE has been set network performance targets for the number and duration of customer supply interruptions. The average number of interruptions per 100

consumers per annum was 49.8, out-performing the regulatory target for the year of 57.2. The average number of minutes for which consumers were without supply was 47.5, beating the regulatory target for the year of 59.8 minutes.

UUE distributes approximately 25,500 gigawatt hours of electricity annually to 2.3 million customer premises. UUE does not generate or trade electricity.

Following acceptance of the electricity regulator's final proposals in respect of the 2004 price review, UUE plans to deliver a capital investment programme of around £640 million between 1 April 2005 and 31 March 2010. Capital investment in the last financial year was £141.6 million, 29.0 per cent was load related (enabling new connections to be made to the network and increasing the amount of electricity able to be carried), 59.4 per cent was non-load related (for example, replacing assets due to statutory obligations or the replacement of faulty or ageing equipment) and 1.6 per cent was non-operational (such as information technology).

As described under the business description for U UW (see above), the management and operations of U UW and U UE are managed together under a single management team in United Utilities North West.

Economic regulation of electricity distribution

Electricity regulation

The electricity industry in Great Britain is regulated under the Electricity Act 1989 (the 'Electricity Act'), the Utilities Act 2000 (the 'Utilities Act') and the Energy Act 2004 (the 'Energy Act') by the Gas and Electricity Markets Authority (GEMA). GEMA governs and acts through the Office of Gas and Electricity Markets ('Ofgem'). The Electricity Act, as amended by the Utilities Act, requires all companies distributing electricity in Great Britain to be licensed unless they are covered by an exemption. Economic regulation pursuant to these licences is the responsibility of GEMA. GEMA also exercises powers under UK competition legislation, most significantly the Competition Act 1998 and the Enterprise Act 2002.

GEMA is led by a chairman who is an independent public servant appointed for a fixed term by the Secretary of State for the Department of Trade and Industry. This is in contrast to regulators in some states of the United States who hold public office and are required to stand for public election. The current chairman is Sir John Mogg, who was appointed from October 2003 for a period of five years.

GEMA must comply with the statutory duties laid down in the Electricity Act as amended by the Utilities Act. In doing so, GEMA may receive guidance from the UK government in areas such as social and environmental policy. In carrying out its statutory duties, GEMA is required to exercise judgement, but is not subject to direction as to what those judgements should be and is independent of government ministers. The chairman of GEMA may only be removed from the post for incapacity or misbehaviour.

The primary duty of GEMA is to protect the interests of consumers, wherever appropriate, by promoting effective competition. In carrying out this duty, the electricity regulator is required to have regard to:

- the need to secure that all reasonable demands for electricity are met; and
- the need to secure that licence holders are able to finance their activities.

Licence

The UK government awarded electricity distribution licences in 2001. The licences continue in force for an indefinite period, subject to potential termination rights as set out below. UUE holds an electricity distribution licence that authorises it to distribute electricity anywhere in Great Britain. Under that licence, UUE distributes electricity across its distribution system covering an area in north west England comprising 2.3 million consumer premises.

UUE's electricity licence contains similar restrictions to those contained in U UW's water licence (see above). These restrictions include:

- non-discrimination;
- restrictions on the payment of dividends - the board of directors must provide a certificate of compliance before declaring dividends affirming that they are satisfied that it is in compliance with relevant licence obligations including that it has sufficient resources and that the making of the distribution will not cause it to be in material breach of any of the obligations in the future;
- prohibition on cross subsidies between the electricity distribution business and associated companies;
- restrictions on lending funds to an associated company – the consent of GEMA is required before lending funds to an associated company that are not on an arm's length basis;
- ringfencing of financial and management resources of the licensed business; and
- restriction on the disposal of any asset forming part of the distribution system.

Licence conditions can be modified by the electricity regulator either with the agreement of the licensee (or, in the case of standard conditions, with the agreement of the requisite proportion of licensees) or following reference to the Competition Commission for a decision on public interest grounds. Whilst the licence is for an indefinite period, it can be terminated on 25 years' notice given by the Secretary of State. The licence can also be revoked in certain circumstances, including where the licensee fails to comply with an enforcement order made by GEMA. Breach of a licence condition can attract fines of up to ten per cent of the licensed company's turnover. Ofgem has published a statement of the policy that it intends to apply to the imposition of any penalty and the determination of its amount. Any such penalty can be appealed, on procedural grounds only, to the High Court.

In practice, many regulatory issues arising between licensees and GEMA are settled without the need to resort to formal proceedings. However, where GEMA is satisfied that a company is in breach of the terms of its licence, it has powers to secure compliance by means of an enforcement order. If a company does not comply with the order (as well as potentially giving rise to third party action) compliance can be enforced by the courts and the electricity regulator may revoke the licence.

The Energy Act 2004 introduced a special administration regime, applicable to the holders of electricity distribution licences, similar to that provided for the water sector (see above). GEMA or the Secretary of State can appoint a special administrator to take over the management and operation of the company to secure its financial recovery in the event of actual or threatened insolvency of the licensee.

GEMA consulted during 2005 on proposed modifications to all distribution licences designed to preclude discrimination by distribution network operators in the provision of 'point of connection' information to connections providers. Distribution licenses were subsequently amended in November 2005.

Price control

Unlike 'rate of return' economic regulation, such as exists in many states of the United States, 'price cap' regulation in the UK is performance based. Companies are incentivised to be efficient both in terms of their operating costs and in the implementation of their capital expenditure programme. The benefit of any efficiency savings achieved through effective management is retained by the companies for a period of up to five years, after which time the benefit is passed to customers via the price setting process. The cost of any under-performance due to poor management is borne by the companies. An incentive scheme was introduced by GEMA in April 2002 which provided greater focus on three specific service areas: number of interruptions to customers' supplies; length of those interruptions; and quality of the telephone response to customers. GEMA consulted on its approach to the incentive scheme as part of the price control review; including the form of the scheme, targets and associated costs. It was agreed that the distribution network operators' performance in those areas would continue to be incentivised. Under the scheme UUE is subject to annual rewards and penalties depending upon its performance against pre-specified targets. Both rewards and penalties under the incentive scheme are capped at 3.0 per cent of annual revenues.

GEMA regulates electricity distribution charges by capping the average increase in charges which a company can impose in any year. GEMA conducts a periodic review and sets price caps every five years. This price cap is set by reference to inflation as measured by the retail price index in the UK (RPI) plus an adjustment factor known as 'X' which is specific to each company and which can vary for each year of the review period. The size of a company's X factor (which can be positive, negative or zero) reflects the scale of its capital investment programme, its cost of capital and its operational and environmental obligations, together with scope for it to improve its efficiency. The last periodic review was completed at the end of 2004 and covers the period from 1 April 2005 to 31 March 2010. For the 2005-10 review period, UUE was allowed a real (excluding inflation) price increase of 8.2 per cent in 2005/06 followed by constant real prices thereafter.

GEMA has been consulting on the structure of electricity distribution charges since 2000. As a result of this consultation there has been one significant amendment made to all distribution licences, including UUE's. From 1 April 2005, distribution network operators have been obliged to produce and implement charging methodologies (for both connection to and use of their distribution systems) as a result of the collective modification of the standard licence condition relating to the distribution use of system charges. The methodologies are required to set out the principles and methods by which electricity distribution charges will be calculated, including cost reflectivity and facilitating competition, and must be approved by GEMA. UUE's methodology statement was initially approved by GEMA subject to clarification required on proposed extra high voltage (EHV) charges and reactive power charges. These clarifications have since been provided and the statement has been approved by GEMA.

GEMA consulted on the future governance of commercial contractual arrangements that were previously governed by the Distribution Use of System Agreements and replaced the bilateral agreements with a single multilateral contract, the Distribution Connection Use of System Agreement (DCUSA) to improve transparency.

UUE is required to maintain certain standards relating to the quality of supply of electricity in its licence area. These standards take the form of guarantees at the individual customer level and are subject to monitoring and compliance audits. Failure to meet guaranteed standards of performance will result in a prescribed compensation payment to the customer concerned. In addition, GEMA can impose fines on companies which fail to achieve the guaranteed standards or are in breach of other licence obligations.

Environmental regulation of electricity distribution

All electricity companies have a general duty under the Electricity Act to have regard to the desirability of environmental preservation and conservation and the protection of Sites of Special Scientific Interest when they formulate proposals for development. UUE may be required to carry out an environmental assessment when it intends to lay cables, construct overhead lines or carry out any other development in connection with its licensed activities. In response to discussions with environmental organisations in UUE's operating area, and with the backing of Ofgem, the company has undertaken work to assess the cost of converting from overhead cables to underground cables in designated areas on aesthetic grounds. There is a small allowance of £5 million allowed by Ofgem for such work over the period 2005-10.

UUE, in common with all other UK electricity companies, owns and operates pressure-assisted high voltage cables. These operate at voltages of 33,000V and 132,000V. These cables are either filled with nitrogen gas or an insulating liquid. UUE operates both types, having 620km of the latter type of cable. Cables of the latter type are pressurised with a light 'oil' type fluid. In the main the fluid is biodegradable, although some older cables are pressured with a variety of fluids that are not. The potential for loss into the environment of the fluid, due to leaks or third party damage, is recognised nationally by all electricity companies and the Environment Agency (EA). In order to mitigate the effects of any losses, UUE is party to a national code of practice agreement with the EA. In the last five years, the company has worked to minimise losses into the environment and has reduced annual loss to around 25kl from a high of 48kl in 2000 - 2001. As part of the monitoring system, UUE has developed and implemented a new software-based management system to identify and categorise leakage allowing rapid deployment of resources to protect the environment.

The possibility that electric and magnetic fields (EMFs) may cause adverse health effects has been a topic of debate and research for many years. Over the last 20 years, major research programmes throughout the world have explored whether EMFs have an adverse impact on health. A large epidemiological study – the UK Childhood Cancer Study – reported in December 1999 that there was “no evidence that exposure to magnetic fields associated with the electricity supply in the UK increases risk for childhood leukaemia, cancers of the nervous system, or any childhood cancer”. International bodies such as the World Health Organisation and the International Agency for Research on Cancer and, in the UK, the National Radiological Protection Board (NRPB) have investigated this issue and have concluded that there is no established causal link between EMFs and ill health. The NRPB was the UK body with statutory responsibility for advising on EMFs until April 2005 when it was subsumed into the Health Protection Agency (HPA), which has taken on its radiation protection functions.

In March 2001, the NRPB published a review of the state of the science and concluded “for the vast majority of children in the UK there is now considerable evidence that the EMF levels to which they are exposed do not increase the risk of leukaemia or other malignant disease”. However, it also noted that the possibility remains that intense and prolonged exposure to magnetic fields can increase the risk of leukaemia in children but the epidemiological evidence is currently not strong enough to justify a firm conclusion that such fields cause leukaemia in children. In the spirit of the precautionary approach, the NRPB published in May 2003 a consultation document on how to limit exposure to EMFs and, in particular, on whether the UK should adopt the more stringent exposure guidelines of the International Commission on Non-Ionizing Radiation Protection (ICNIRP). In March 2004, the NRPB recommended that the ICNIRP guidelines should be adopted. Most recently, a report published by the Childhood Cancer Research Group (CCRG) strengthened the evidence that childhood leukaemia rates are slightly higher near power lines, but leaves the question of what causes this more confused than before, stating that: “There is no accepted biological mechanism to explain the epidemiological results; indeed, the relationship may be due to chance.”

The independent Advisory Group on Non-ionising Radiation (AGNIR), which reports to the Board of the HPA, has issued several reports relating to EMFs, considering their possible link with an increased risk of cancer, including childhood leukaemia. AGNIR consider there to be insufficient newly published research that would, at present, justify the development of any update to the 2001 NRPB report.

UUE, in line with other Energy Networks Association (ENA) member companies, carries out its activities in accordance with HPA guidance. The ENA is the trade association for electricity companies in the UK. The ENA and its member companies are committed to responsible behaviour in the light of the scientific evidence, including considering any appropriate precautionary actions. UUE believes that present evidence does not justify any change in the electricity industry’s operating practices, or the everyday utilisation of electricity by its customers, but UUE keeps this under review and looks to the Health Protection Agency and UK government for advice on the issue.

UNITED UTILITIES PLC

United Utilities PLC ("UU") was incorporated in England and Wales on 1 April, 1989 with registered number 2366616. UU is a company limited by shares and operates under the Companies Act 1985.

In November 1995, the company acquired UUE (then known as NORWEB plc), the distributor of electricity in the North West of England, and at that time supplier of electricity and gas in the United Kingdom, to form a multi-utility Group. In August 2000, UU sold the electricity and gas supply business, and, as a result, no longer has any significant exposure to the competitive generation and energy supply market.

Board of Directors

The directors of UU and their functions within the Group are as follows:

The business address of each of the directors is UU's registered office which is Dawson House, Great Sankey, Warrington WA5 3LW.

Description of the United Utilities PLC business

With a market capitalisation of approximately £6.2bn (as at 30 September 2006), the shares of United Utilities PLC ("UU") are listed on the London Stock Exchange and the New York Stock Exchange (in the form of ADSs).

The Group

UU is the holding company that owns the regulated monopoly companies, UUW and UUE. These businesses provide wastewater and water services and electricity distribution services, respectively, to a population of some seven million people in the north west of England. UU's infrastructure management business, United Utilities Contract Solutions, applies the Group's infrastructure management expertise to competitive markets and is now the leading utility outsourcing business in the United Kingdom. Vertex is one of the United Kingdom's largest providers of business process outsourcing, managing, and often transforming, the processes which support a client's business.

United Utilities' strategy is to:

- out-perform its regulatory contracts (effective 1 April 2005) pursuant to which the Group operates the wastewater, water and electricity distribution networks; and
- grow its two support services businesses, United Utilities Contract Solutions and Vertex, by applying its core skills of infrastructure management and business process management in the provision of these services to others. Through the expansion of these support services businesses, both organically and through acquisition, the businesses now operate in overseas markets including central and eastern Europe, the Philippines, United States of America, Canada and Australia;

The UU Group reports its results through three business segments:

- United Utilities North West (*formerly described as licensed multi-utility operations*) – comprise the regulated monopoly activities of UUW (wastewater and water) and UUE (electricity distribution). These companies own the respective infrastructure network assets representing around 83 per cent of the Group's assets at 31 March 2006. The businesses are capital intensive and are subject to both economic and environmental regulation. In the financial year ending 31 March, 2006, these businesses generated 85 per cent of the Group's total operating profit from continuing operations before amortisation of certain intangible assets and restructuring costs, of which approximately three quarters was derived from wastewater and water and approximately one quarter from electricity distribution ;
- United Utilities Contract Solutions (*formerly included within infrastructure management*) – United Utilities Contract Solutions applies core utility skills of the licensed multi-utility businesses through outsourcing contracts and is involved in the operation or management of assets representing around 35 per cent of the UK water industry's asset base. The business also owns the Group's interest in other utility assets. These activities employ only a limited amount of capital, representing 6 per cent of the Group's assets at 31 March 2006;
- Vertex (*formerly described as business process outsourcing*) – Vertex is now a leading provider of business process outsourcing and technology services. It seeks to exploit the Group's business process management skills by providing a service to manage its clients' customers in accordance with its contract. These activities employ only a limited amount of capital, representing 2.8 per cent of the Group's assets at 31 March 2006;

On 26 February 2006, the company disposed of its telecommunications business, Your Communications, to THUS Group plc.

United Utilities North West

United Utilities North West ("UUNW") carries out the Group's licensed multi-utility operations and aims to create value through the efficient management of UUW's and UUE's assets. The key objectives continue to be to deliver the Group's regulatory contracts, to align its resources efficiently within the common geography of its licensed networks in north west England and to continue to improve service for customers. The business pursues strategies aimed at maximising the benefits of its multi-utility status and integrating its systems and procedures to generate efficiencies across its operations and provide a seamless service for customers.

Within UUNW, three business streams have been created for water, wastewater and electricity, to ensure end-to-end accountability and balanced decision making on operating and capital expenditure. In addition, the customer business stream manages the relationship with the Group's regulated customer base, including billing and cash collection.

United Utilities Contract Solutions

United Utilities Contract Solutions ("UUCS") has three distinct market-facing businesses:

- **Utility Solutions** – develops and operates contracts in the UK applying the Group's core infrastructure management skills;
- **International** – responsible for applying the Group's core infrastructure management skills in selected overseas markets; and
- **Industrial and Commercial Solutions** – provides services to the public sector and commercial market, including multi-utility connections, metering services, water and liquid waste treatment services and facilities management.

Utility Solutions

Utility Solutions develops and operates contracts in the UK utility market, serving over 12 million people in the UK. It has a focused approach to pursuing opportunities, with the objective of securing long-term operational sources of income while limiting overall financial exposure.

In April 2005, UUCS started a five-year contract to deliver Southern Water's capital investment programme as part of a consortium. In June 2005, UUCS acquired a 15 per cent stake in a consortium that purchased the north of England gas distribution network from National Grid Transco. UUCS secured a £1.1 billion eight-year contract to operate and maintain the network, and manage the capital expenditure programme, on behalf of the consortium.

2005/06 was the first year of a new operations maintenance contract awarded by Dwr Cymru Welsh Water for a term up to 15 years, following a four-year contract which ended on 31 March 2005. Under the contract, UUCS provides water and wastewater services in north Wales, and water services in south Wales. UUCS also provides shared services throughout Wales, including education and conservation activities and transport.

During 2005/6, UUCS continued to play a leading role in the delivery of part of Scottish Water's four-year £1.8 billion capital investment programme as part of a joint venture company called Scottish Water Solutions Limited ("SWS"), the funding for which will be provided by Scottish Water to improve its services to 2.2 million homes and businesses across Scotland.

In June 2006, SWS was awarded a further contract with Scottish Water, worth around £760 million, to help manage and deliver a substantial part of Scottish Water's 2006-10 capital investment programme. As a partner in SWS, UUCS will be involved in the design, build and management of a range of projects to upgrade Scottish Water's treatment works, water mains and sewer network infrastructure. SWS will work closely with Scottish Water to optimise capacity and resource planning and benefit from the sharing of best practice.

Prior to the approval of bids for new contracts, a full risk analysis is carried out to assess the risks associated with a project and to ensure that they are mitigated to the appropriate extent, dependent upon expected returns and the expected degree of control over the risks.

International

The International business develops and operates contracts in selected overseas utility markets and services over 7.4 million people outside the UK. In Australia, the business focus is on maintaining the current portfolio of contracts and securing long-term investment returns and operational sources of income while managing the overall exposure arising from the contracts. Elsewhere, the overseas business focus will be on pursuing long-term operations and maintenance opportunities, primarily in the Gulf regions, with other existing international investments being managed alongside any existing UK investments.

The business continued to manage its existing portfolio of water and wastewater operations through a number of joint ventures in parts of Scotland, Australia, Poland, Estonia and Bulgaria.

The International business is affected by a variety of regulatory regimes and regulatory risks, which are accepted to varying degrees by the client, the concession company and/or the operator. For those contracts

where it is the operator, United Utilities is not the licensed entity but it may be a direct or indirect investor in the licensed entity.

Industrial and Commercial Solutions

Industrial and Commercial Solutions is comprised of four distinct businesses:

- **Connections** – the Connections business provides multi-utility connections, to connect domestic, industrial and commercial consumers to the existing utility network infrastructure. In providing this service, the business designs and installs new electricity, water, gas and telecommunications infrastructure;
- **Metering** – the metering business provides installation and maintenance services for electricity, water and gas meters;
- **Industrial** – this business is a provider of specialist water and liquid waste services to industrial customers in the UK. In many instances, liquid waste is treated on site, under contract to the customer, in a dedicated facility which is constructed and owned by the business. The business also owns two sites for the receipt and treatment of tankered liquid waste from customers. The Industrial business currently treats approximately 11 million tonnes of wastewater a year; and
- **Facilities Management and Energy Services** – the Facilities Management business manages properties for clients under contract. The scope of operations includes arranging site services such as reception and cleaning, managing vacant space and office management.

Vertex

Vertex commenced trading in the UK in 1996. It is now a leading provider of business process outsourcing and technology services. The company develops and implements a range of outsourcing solutions for many leading organisations based on a diversified portfolio of long-term contracts across private enterprise, financial services, utility, central and local government sectors.

In May 2005, Vertex entered the UK and Canadian financial services' sectors through the acquisition of Marlborough Stirling plc, a provider of outsourcing and technology services. Subsequently Vertex extended its presence in this sector through the acquisition of 1st Software Group Limited in March 2006.

Vertex also has a presence in the North America utility sector, which it entered through the securing of contracts with Hydro-One in March 2002, and NiSource in June 2005.

Capital expenditure in the year ended 31 March 2006 was £205.0 million (2005: £42.0 million).

MATERIAL CONTRACTS

The following contracts (not being contracts entered into in the ordinary course of business) (i) have been entered into by the mentioned Issuers and are, or may be, material or, (ii) contain a provision under which the Issuer or another member of the Group has an obligation or entitlement which is material to the relevant Issuer's ability to meet its obligations to security holders in respect securities to be issued under the Programme:

- (a) United Utilities PLC, United Utilities Electricity PLC and North West Water Finance PLC (which was subsequently replaced by United Utilities Water PLC) established an unlisted Euro Commercial Paper Programme ("ECPP") in March 1998. The aggregate principal amount of the notes outstanding at any one time under ECPP may not exceed US\$1,500,000,000 or its equivalent in alternative currencies. Under the ECPP the notes may only mature after seven but not more than 365 days (364 days for Sterling denominated notes) from issue. The programme amount may be increased from time to time. As at 30 September, 2006 a total of US\$537,989,230 of notes were outstanding under the ECPP.
- (b) In August 1995 United Utilities Electricity PLC issued £200,000,000 8.875 per cent. listed bonds due 2026. The bonds are in bearer form in denominations of £1,000, £10,000 and £100,000 each and in registered form in amounts of £1 or integral multiples thereof and were constituted under a trust deed dated 3 August, 1995 between United Utilities Electricity PLC and The Law Debenture Trust Corporation p.l.c. as trustee. United Utilities Electricity PLC issued a further tranche of bonds of the same series on 6 July, 2001 and a further tranche on 20 December, 2001. On 15 February, 2002, United Utilities Electricity PLC issued a further tranche of the same series to form a single series with an aggregate outstanding amount of £450,000,000.
- (c) On 25 March, 1998 United Utilities issued US\$500,000,000 6.45 per cent notes due 1 April, 2008 under an indenture dated 25 March, 1998. On 28 July, 1998 United Utilities PLC issued US\$400,000,000 6.875 per cent. notes due 15 August 2028 under an indenture dated 28 July, 1998. All of these notes are US Securities and Exchange Commission ("SEC") F-1 registered Yankee bonds. In April 2001 United Utilities filed an F-3 shelf registration with the SEC enabling United Utilities PLC to issue up to US\$2,000,000,000 of debt securities under an indenture dated 17 June, 2003 by and between United Utilities PLC and Deutsche Bank Trust Company Americas (the "US Programme"). On 19 June, 2003 United Utilities PLC issued US\$250,000,000 4.55 per cent. notes due 19 June, 2018 and on 16 January, 2004 issued US\$350,000,000 5.375 per cent. notes due 1 February 2019 under the US Programme. As at 1 October, 2005, a total of US\$1,500,000,000 of F-1 and F-3 SEC registered debt securities remain outstanding.

TAXATION

The following applies only to persons who are the beneficial owners of Notes and is a summary of the Issuers' understanding of current law and practice in the United Kingdom relating to certain aspects of United Kingdom taxation. Some aspects do not apply to certain classes of person (such as dealers and persons connected with the Issuers) to whom special rules may apply. Prospective Noteholders who may be subject to tax in a jurisdiction other than the United Kingdom or who may be unsure as to their tax position should seek their own professional advice.

Withholding tax:

Payments of interest on the Notes may be made without deduction of or withholding on account of United Kingdom income tax provided that the Notes continue to be listed on a "recognised stock exchange", as defined in section 841 of the Income and Corporation Taxes Act 1988 (the "Act") (the London Stock Exchange for example is such a recognised exchange. Under HM Revenue & Customs ("HMRC") established practice, securities will be treated as listed on the London Stock Exchange if they are admitted to the Official List of the United Kingdom Listing Authority and admitted to trading by the London Stock Exchange). Provided, therefore, that the Notes remain so listed, interest on the Notes will be payable without withholding or deduction on account of United Kingdom tax.

Interest on the Notes may also be paid without withholding or deduction on account of United Kingdom tax where interest on the Notes is paid to a person who belongs in the United Kingdom for United Kingdom tax purposes and, at the time the payment is made, the Issuer reasonably believes (and any person by or through whom interest on the Notes is paid reasonably believes) that the beneficial owner of the Notes is within the charge to United Kingdom corporation tax as regards the payment of interest; provided that HMRC has not given a direction (in circumstances where it has reasonable grounds to believe that the exemption is not available in respect of such payment of interest at the time the payment is made) that the interest should be paid under deduction of tax.

Payments of interest on amounts of principal which are expressed and intended to be outstanding for less than twelve months may also in all circumstances be made without withholding or deduction for or on account of United Kingdom income tax.

In all other cases, an amount must generally be withheld from payments of interest on the Notes on account of United Kingdom income tax at the lower rate (currently 20 per cent.), subject to any direction to the contrary to make payments free of or at a reduced rate of withholding by HMRC under an applicable double taxation treaty.

Where interest has been paid under deduction of United Kingdom income tax, Noteholders who are not resident in the United Kingdom may be able to recover all or part of the tax deducted under an appropriate provision in an applicable double taxation treaty.

Noteholders who are individuals may wish to note that HMRC has power to obtain information (including the name and address of the beneficial owner of the interest) from any person in the United Kingdom who either pays interest to or receives interest for the benefit of an individual. HMRC also has power to obtain information from any person in the United Kingdom who pays amounts payable on the redemption of Notes which are deeply discounted securities for the purpose of Chapter 8 of Part 4 of the Income Tax (Trading and Other Income) Act 2005 to or receives such amounts for the benefit of an individual although HMRC published practice indicates that HMRC will not exercise its power to require this information where such amounts are paid on or before 5 April 2007. Such information may, in certain circumstances, be exchanged by HMRC with the tax authorities of the jurisdiction in which the Noteholder is resident for tax purposes.

Tax by direct assessment

Interest on the Notes constitutes United Kingdom source income for tax purposes and, as such, may be subject to income tax by direct assessment even where paid without withholding.

However, interest with a United Kingdom source received without deduction or withholding on account of United Kingdom tax will not be chargeable to United Kingdom tax in the hands of a Noteholder (other than certain trustees) who is not resident for tax purposes in the United Kingdom unless that Noteholder carries on a trade, profession or vocation in the United Kingdom through a United Kingdom branch or agency in connection with which the interest is received or to which the Notes are attributable (and where that Noteholder is a company, or a partnership any member of which is a company, unless that Noteholder carries on a trade in the United Kingdom through a permanent establishment in connection with which the interest is received or to which the Notes are attributable). There are exemptions for interest received by certain categories of agent (such as some brokers and investment managers).

United Kingdom Corporation Tax Payers

In general, Noteholders which are within the charge to UK corporation tax will be charged to tax as income on all returns, profits or gains on, and fluctuations in value of, the Notes (whether attributable to currency fluctuations or otherwise) broadly in accordance with their statutory accounting treatment.

Other United Kingdom Tax Payers

Taxation of Chargeable Gains

Individual holders of Notes may be subject to United Kingdom taxation of chargeable gains on a disposal or redemption of Notes if they are resident or ordinarily resident in the United Kingdom or if they carry on a trade, profession or vocation in the United Kingdom through a branch or agency to which the Notes are attributable. For individual holders, the exemption from United Kingdom taxation on capital gains for "qualifying corporate bonds" under Section 115 of the Taxation of Chargeable Gains Act 1992 may, however, apply to the Notes if they, *inter alia*, represent and have at all times represented a "normal commercial loan" for the purposes of that exemption, are denominated in Sterling and in respect of which no provision is made for conversion into, or redemption in, a currency other than Sterling. Any Notes constituting "deeply discounted securities" (as mentioned below) will be treated as "qualifying corporate bonds". Where Notes are "qualifying corporate bonds", no chargeable gain and (normally) no allowable loss will arise on a disposal of such Notes.

Accrued Income Scheme

The provisions of the accrued income scheme (the "Scheme") may apply to individuals transferring Notes which bear interest, or to individuals to whom such Notes are transferred. On a transfer of securities with accrued interest the Scheme usually applies to deem the transferor to receive an amount of income equal to the accrued interest and to deem the transferee to obtain an equivalent credit to set off against the deemed or actual interest he subsequently receives. However, where a Note constitutes a variable rate security for the purposes of the Scheme, the amount of accrued income deemed to be received by a holder of such a Note upon transfer will be such amount as HMRC decides is just and reasonable and the transferee will not be entitled to any credit under the Scheme to set against any actual or deemed interest that he receives or is deemed to receive. Broadly, a Note will not constitute a variable rate security for these purposes if, throughout the period to redemption, it carries interest at a fixed rate, at a rate fixed by reference to a standard published base rate or at a rate fixed by reference to a published index of prices.

Persons who are neither resident nor ordinarily resident in the United Kingdom and who do not carry on a trade in the United Kingdom through a branch or agency to which the Notes are attributable will not generally be subject to the provisions of these rules.

Taxation of discount and premium

Where Notes are issued at an issue price of less than 100 per cent. of their principal amount, any payments in respect of the accrued discount will not be made subject to any withholding or deduction on account of United Kingdom income tax as long as they do not constitute payments in respect of interest. Such Notes may, however, constitute "deeply discounted securities" for the purpose of Chapter 8 of Part 4 of the Income

Tax (Trading and Other Income) Act 2005 depending on the level of the discount. Where Notes constitute "deeply discounted securities", any gain realised on redemption or transfer of the Notes by a Noteholder who is within the charge to United Kingdom income tax in respect of the Notes will generally be taxable as income but such Noteholder will not be able to claim relief from income tax in respect of costs incurred on the acquisition, transfer or redemption, or losses incurred on the transfer or redemption, of the Notes. Where Notes are issued with a redemption premium, as opposed to being issued at a discount, then any such element of premium may constitute a payment of interest and, if so, the provisions described above in relation to withholding tax and tax by direct assessment will apply. If the premium does not constitute a payment of interest then such notes may in any event constitute "deeply discounted securities" (as mentioned above).

SUBSCRIPTION AND SALE

The Dealers have in a programme agreement dated 23 November 2006 (as supplemented and amended from time to time) (the "Programme Agreement"), agreed with the Issuers a basis upon which they or any of them may from time to time agree to purchase Notes. Any such agreement will extend to those matters stated under "Form of the Notes" and "Terms and Conditions of the Notes". In the Programme Agreement, the Issuers have agreed to reimburse the Dealers for certain of their expenses in connection with the establishment of the Programme and the issue of Notes under the Programme and to indemnify the Dealers against certain liabilities incurred by them in connection therewith.

Selling Restrictions

United States

The Notes have not been and will not be registered under the Securities Act and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act.

The Notes are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by U.S. tax regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986 and regulations thereunder.

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it will not offer, sell or deliver such Notes (i) as part of their distribution at any time or (ii) otherwise until 40 days after the completion of the distribution, as determined and certified by the relevant Dealer or, in the case of an issue of Notes on a syndicated basis, the relevant lead manager, of all Notes of the Tranche of which such Notes are a part, within the United States or to, or for the account or benefit of, U.S. persons. Each Dealer has further agreed, and each further Dealer appointed under the Programme will be required to agree, that it will send to each dealer to which it sells any Notes during the distribution compliance period a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

In connection with any Notes which are offered or sold outside the United States in reliance on an exemption from the registration requirements of the Securities Act provided under Regulation S.

Until 40 days after the commencement of the offering of any Series of Notes, an offer or sale of such Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an available exemption from registration under the Securities Act.

Each issuance of Index Linked Notes or Dual Currency Notes shall be subject to such additional U.S. selling restrictions as the relevant Issuer and the relevant Dealer may agree as a term of the issuance and purchase of such Notes, which additional selling restrictions shall be set out in the applicable Final Terms.

European Economic Area

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a **Relevant Member State**), each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the **Relevant Implementation Date**) it has not made and will not make an offer of Notes to the public in that Relevant Member State, except that it may, with effect from and including the Relevant Implementation Date, make an offer of Notes to the public in that Relevant Member State:

- (a) in (or in Germany, where the offer starts within) the period beginning on the date of publication of a prospectus in relation to those Notes which has been approved by the competent authority in that

Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, all in accordance with the Prospectus Directive and ending on the date which is 12 months after the date of such publication;

- (b) at any time to legal entities which are authorised or regulated to operate in the financial markets or, if not so authorised or regulated, whose corporate purpose is solely to invest in securities;
- (c) at any time to any legal entity which has two or more of (1) an average of at least 250 employees during the last financial year; (2) a total balance sheet of more than EUR 43,000,000 and (3) an annual net turnover of more than EUR 50,000,000, as shown in its last annual or consolidated accounts; or
- (d) at any time in any other circumstances which do not require the publication by the Issuer of a prospectus pursuant to Article 3 of the Prospectus Directive.

Litigation

NOSS Consortium ('NOSS'), of which North West Water International Limited ('NWWIL'), a wholly owned subsidiary of the company, is a member and the sole remaining active participant, is party to arbitration proceedings in Thailand in relation to a design and construction contract dated 1 November 1993 between NOSS and the Bangkok Metropolitan Administration ('BMA') to build a wastewater treatment plant and network in central Bangkok. Following disagreements with the engineer and a dispute with BMA, NOSS rescinded the contract and in November 1997 served a notice under Section 387 of the Thai Civil and Commercial Code on the BMA. In March 1998, NOSS terminated the contract and served notice of arbitration. NOSS has total claims against the BMA of approximately 6 billion Baht (approximately £83 million). The BMA has counter-claimed for approximately 3.2 billion Baht (approximately £44 million). Arbitrators have been appointed by each party, but the arbitration process has stalled following the arbitrators' failure to agree on the appointment of a third arbitrator. NOSS will continue to monitor the situation but, presently no hearings are scheduled.

Save as described above, United Utilities PLC is not aware of any material litigation to which it or any of its subsidiaries (together, the "Group") is a party, or of which any of their property is the subject, or any such proceedings known to be contemplated by any third party or governmental authority. The Group is engaged

in litigation in the ordinary course of its operations, such as contract disputes, disputes over easements/wayleaves and other similar property matters, bill collections, personal injury claims and workers' compensation claims. The Group does not believe that such litigation, either individually or in the aggregate, is material. United Utilities PLC maintains insurance and, to the extent that the amounts in dispute may not be covered by such insurance, maintains provisions in those situations where management deems it appropriate in accordance with IFRS.

Save as described above, none of the Issuers is or has been involved in any legal or arbitration proceedings (including any proceedings which are pending or threatened of which any of the Issuers are aware) which may have or have had in the 12 months preceding the date of this document a significant effect on the financial position of each of the Issuers.

The auditors of the Issuers have no material interest in the Issuers.

The Trust Deed provides that the Trustee may rely on any certificate or report (whether or not addressed to the Trustee) of the Auditors or any other person called for by or provided to the Trustee for the purposes of the Trust Deed notwithstanding that such certificate or report and/or any engagement letter or other document entered into by the Trustee in connection therewith contains a monetary or other limit on the liability of the Auditors or such other person in respect thereof.

Dear Sirs,

United Utilities PLC, a company organised under the laws of England and Wales (the "Seller"), proposes, subject to the terms and conditions stated herein, to sell ordinary shares of 25 pence each ("Shares") of THUS Group plc, a company organised under the laws of Scotland (the "Company"), through Citigroup Global Markets UK Equity Limited and HSBC Bank plc (together the "Managers"). An aggregate of 41,427,986 Shares (the "Securities") will be sold hereunder. The Seller understands that the Securities will be offered and sold outside the United States pursuant to Regulation S and in the United States to investors reasonably believed to be qualified institutional buyers, as defined in Rule 144A of the U.S. Securities Act of 1933, as amended (the "Securities Act"), and subject to the rules and regulations of the Financial Services Authority, the UK Listing Authority and the London Stock Exchange in relation to such trades, subject, however, to the additional matters set out below.

Seller's Representations and Warranties

1. The Seller represents and warrants to, and agrees with, the Managers, as of the date hereof and as of the Closing Date (as defined in Section 3 below), that:

(a) *Corporate power and authority.* It has full power under its memorandum and articles of association and applicable law, and all authorisations, approvals, consents and licences required by it have been obtained and are in full force and effect, to permit it to enter into and perform this Agreement; and this Agreement has been duly authorised, executed and delivered by it and is a valid and binding agreement of it enforceable in accordance with its terms;

(b) *No conflicts, etc.* The sale and delivery of the Securities and the compliance by it with all of the provisions of this Agreement, as well as the consummation of the transaction herein contemplated, will not conflict with or result in a breach or violation of any of the terms or provisions of, or constitute a material default under any agreement or instrument to which it is a party or by which it is bound or to which any of its property or assets is subject, or any statute or any order, rule or regulation of any court or governmental agency or body having jurisdiction over it or its property or assets;

23
19/6/07

(c) *Title to the Securities.* No person has any conflicting right, contingent or otherwise, to purchase or to be offered any of the Securities; the Seller has valid title to, and the legal right and the power to sell and transfer full beneficial and legal interest in, the Securities, and transfer of the Securities to purchasers procured by the Managers or to the Managers (as the case may be) will pass good and valid legal and beneficial title to such Securities, fully paid and free and clear of all security interests, liens, encumbrances, equities or other claims together with all rights and advantages now and hereafter attaching to such Securities; the Securities rank *pari passu* with and are of the same class as the other Shares;

(d) *No stamp taxes.* Except for U.K. stamp duty or stamp duty reserve tax that will be payable upon transfer of the Securities, no VAT or stamp or other issuance or transfer taxes or duties are payable in connection with the sale and delivery of the Securities in the manner contemplated hereunder;

(e) *No manipulation.* None of the Seller, any of its affiliates or any person acting on its or their behalf has or will make bids or purchases for the purpose of creating actual or apparent active trading in, or of raising the price of, any Shares or any right to purchase Shares or securities convertible into or exchangeable or exercisable for Shares that is designed to or that has constituted, or that might reasonably be expected to cause or result in, manipulation of the price of any security of the Company;

(f) *No inside information, insider dealing and market abuse.* The Seller is not aware of any information (including without limitation any information regarding any material adverse change or prospective material adverse change in the condition of, or any actual, pending or threatened litigation, arbitration or similar proceeding involving, the Company) that is not described in the Company's most recent annual report or subsequent public information releases (collectively, the "Publicly Available Information") that is necessary to enable investors to make an informed assessment of the assets and liabilities, financial position, profits and losses and prospects of the Company and its subsidiaries and is not in possession of any inside information within the meaning of the Criminal Justice Act 1993 (the "CJA") or the Financial Services and Markets Act 2000, as amended ("FSMA"); and so far as the Seller is aware the sale of the Securities will not constitute a violation by it of the CJA, FSMA, the regulations of the Financial Services Authority or any other applicable law or regulations prohibiting "market abuse" or "insider dealing" in securities applicable to a sale of securities in the United Kingdom;

(g) *No directed selling efforts.* None of the Seller, any of its affiliates or any person acting on its or their behalf has engaged or will engage in any directed selling efforts with respect to the Securities, as defined in Regulation S, or any general solicitation or general advertising with respect to the Securities as defined in Regulation D.

Safe and Purchase

2. The Managers agree, subject to the terms and conditions set forth in this Agreement, to use reasonable efforts to procure purchasers for the Securities by way of an accelerated bookbuilding to take place on the date hereof at or above 175.6p per Security (the "Backstopped Price").

19/6/07

The Managers shall notify the Seller (the "Purchase Price Notice") by no later than Thursday, 21 June 2007 if the Managers have been able to procure purchasers for all the Securities at a price per Security that is greater than the Backstopped Price (the "Purchase Price").

If no Purchase Price Notice is provided, the Backstopped Price will be the Purchase Price.

To the extent that the Managers have not been able to procure purchasers for all the Securities at the Backstopped Price on the Closing Date, the Managers shall themselves purchase at the Backstopped Price such of the Securities for which purchasers have not been procured.

The Seller agrees to sell the Securities to purchasers procured by the Managers or the Managers (as the case may be) at the Purchase Price.

The Seller hereby irrevocably and unconditionally appoints the Managers as its agent for the purpose of the transactions contemplated herein, including procuring buyers for the Securities and the Managers hereby accept such appointment.

The Seller confirms that the above appointment confers on the Managers all powers, authorities and discretions on the Seller's behalf which are necessary for, or incidental to, the transactions contemplated herein (including, without limitation, the power to rescind any agreement with a buyer that defaults in making payment for any Securities and the power to appoint sub-agents or to delegate the exercise of its powers, authorities or discretions to such persons as the Managers see fit, provided that such sub-agents or delegates shall be affiliates of the Managers). The Seller agrees to ratify and confirm unconditionally anything which the Managers shall lawfully have done or do on their behalf in the reasonable exercise of such appointment, powers, authorities and discretions.

Each Manager undertakes to the Seller that it will not make an offer of the Securities in any circumstances which would require the issue, registration or filing by or on behalf of the Seller or the Company of a prospectus or similar document with any person and that it will conduct its activities in connection with this Agreement so as to maintain an orderly market in the Securities.

The Seller agrees to pay the Managers a fee per Security sold above the Backstopped Price determined in accordance with Schedule I hereto (the "Fee").

All amounts payable under this Agreement shall be exclusive of any amounts in respect of VAT and the relevant payer shall, in addition to its other obligations hereunder, pay to the relevant supplier an amount equal to any VAT properly chargeable in respect of any supply for which the payment in question was consideration for VAT purposes upon provision of a valid VAT invoice.

Settlement

3. Unless otherwise agreed by the parties, completion of the sale and purchase of the Securities will take place on T+3 business days, where T is no later than Thursday 21 June 2007 (the "Closing Date"), by credit through the facilities of CREST of the Securities to an account or accounts designated by the Managers against payment by or on behalf of the Managers (for themselves or on behalf of the purchasers procured by the Managers (as the case may be)) of such amount which equals the Purchase Price multiplied by the number of

Securities less the Fee multiplied by the number of Securities. Such payment shall be made in pounds sterling in immediately available funds for same-day value.

All title of the Seller to the Securities shall pass to the purchasers procured by the Managers or the Managers (as the case may be) immediately following the payment referred to above. The Securities will be transferred with full title guarantee, fully paid and free from all liens, charges, claims, equitable interests, encumbrances and any other interests or rights of any third party whatsoever and together with all rights now or hereafter attaching thereto, including the right to receive and retain all dividends and other distributions declared, paid or made after the date hereof. The Managers shall not be required to place or procure that there are placed on deposit any sums received by it or any of its agents by way of purchase monies for any of the Securities and no such monies shall be treated as client money subject to any regulations made under or pursuant to any provisions of FSMA.

Seller's Undertakings

4. The Seller undertakes and agrees with the Managers that:

(a) *Prompt Payment.* It will promptly pay or transfer to the Managers or to the order of the Managers on behalf of the purchasers of the Securities (as the case may be) upon receipt, any dividend or distribution declared or other rights declared or distributed by the Company in respect of the Securities for which a record date occurs on or after the date hereof;

(b) *Further Assurances.* It undertakes to execute all such documents and do all such acts and things as the Managers may reasonably require in order to give effect to the terms of this Agreement;

(c) *Notice.* It will notify the Managers forthwith if on or prior to the Closing Date it comes to the Seller's knowledge that any of the representations, warranties, undertakings or agreements set out in Section 1 above ceases to be materially true and accurate or becomes misleading in any material respect or that there has been any material breach of any of such representations, warranties, undertakings or agreements; and

(d) *Compliance.* It will comply with all applicable laws and regulations in connection with the transactions contemplated by this Agreement and in performing its obligations under this Agreement.

Expenses

5. Except as may otherwise be provided in this Agreement, each party shall bear its own fees, disbursements, costs and expenses incident to the performance of its obligations hereunder. In particular, the purchasers procured by the Managers or (in circumstances where the Managers have themselves acquired Securities pursuant to Section 2) the Managers shall be responsible for any U.K. stamp duty or stamp duty reserve tax that is payable upon the sale of the Securities pursuant to this Agreement and any penalties or interest payable in connection with any such stamp duty or stamp duty reserve tax.

The agreements of the Seller in this Section 5 shall survive termination of this Agreement.

Closing Conditions

6. The obligations of the Managers hereunder shall be subject to the following conditions:

(a) *Representations and Warranties.* All representations and warranties and other statements herein by the Seller are, at and as of the Closing Date, true and correct in all material respects; and

(b) *No Adverse Change.* Prior to the Closing Date, there shall not have occurred any change in the financial condition or in the business or operations of the Company and its subsidiaries, taken as a whole, from that set forth in the Company's Publicly Available Information that, in the sole judgment of the Managers (acting reasonably), is material and adverse and that makes it, in the sole judgment of the Managers (acting reasonably), impracticable to conduct the placement of the Securities in the manner contemplated herein.

The Managers in their sole discretion may waive any of the foregoing conditions. If any condition to the Managers' obligations has not been satisfied prior to delivery of, and payment for, the Securities on the Closing Date, the Managers may elect, in their sole discretion, to terminate this Agreement. Sections 5, 7, 10, 11 and 12 shall survive any such termination.

Indemnity

7. (a) *Indemnity.* The Seller will indemnify and hold harmless the Managers against any losses, claims, damages or liabilities to which the Managers may become subject insofar as such losses, claims, damages or liabilities (or actions in respect thereof) relate to or arise out of any breach or alleged breach of the representations and warranties or undertakings of the Seller in this Agreement or the Managers' participation in the transaction contemplated by this Agreement, other than any losses, claims, damages or liabilities that result from the Managers' bad faith or gross negligence. Notwithstanding the foregoing, the Managers shall not be entitled to an indemnity under this section in respect of (i) any liability to tax charged on receipt of the Fee payable by the Seller under this Agreement or otherwise any tax charged on any income, profits or gains of the Managers; or (ii) any amounts in respect of VAT to the extent that the Managers acting reasonably determine that it is recoverable by it or any company that is a member of the same group of companies as either of the Managers; or (iii) any stamp duties, taxes, penalties or interest referred to in Section 5.

(b) *Scope.* The obligations of the Seller under this Section 7 shall be in addition to any liability that the Seller may otherwise have and shall extend, upon the same terms and conditions, to the directors, officers, employees of either of the Managers and of their affiliates.

The obligations of the Seller set forth in this section 7 shall survive termination of this Agreement.

No Disclosure

8. Prior to the Closing Date, except as may be required by applicable law or regulation, the transactions contemplated by this Agreement may not publicly be disclosed to any third party (other than to the Company, its professional advisers and the professional advisers to

the Managers and the Seller) or otherwise publicly referred to by the Seller or the Managers other than by way of an announcement in a form to be agreed by both parties to this agreement (both parties acting reasonably). The parties will consult in good faith in respect of any announcement that may be required from time to time in connection with this Agreement and the sale of the Securities.

Survival of Representations

9. The indemnities, agreements, representations, warranties and other statements of the Seller, as set forth in this Agreement or made by or on behalf of it, shall remain in full force and effect and shall survive delivery of and payment for the Securities.

Notices

10. All statements, requests, notices and agreements hereunder shall be in writing, and shall be delivered or sent by email or facsimile transmission, if to the Managers to Citigroup Global Markets Limited, Attention: Alex Watkins, Email: alex.watkins@citi.com and to HSBC Bank plc, Attention: Nick Donald, Email: nick.donald@hsbcib.com ; and, if to the Seller to United Utilities PLC, Attention: Phil Aspin, Email: Phil.Aspin@uuplc.co.uk. Any such statements, requests, notices or agreements shall take effect upon receipt thereof.

Successors, Assigns, Etc.

11. A person who is not a party to this Agreement, except with respect to Section 7 (Indemnity) hereof, has no rights under the Contracts (Rights of Third Parties) Act 1999 to enforce any form of this Agreement. This Agreement may be rescinded, varied or amended in any way and at any time by the parties to this Agreement without the consent of the persons contemplated by Section 7 hereof. Time shall be of the essence in this Agreement.

Governing Law

12. This Agreement shall be governed by and construed in accordance with English law, and the parties irrevocably submit to the courts of England, which shall have non-exclusive jurisdiction to hear and decide any suit, action, dispute or proceeding relating to this Agreement ("Proceedings"), and for this purpose each party irrevocably submits to the jurisdiction of the courts of England. Each party waives any objection it might at any time have to the English courts being nominated as the forum to hear and decide Proceedings and agrees not to claim that the English courts are not an appropriate or convenient forum.

Counterparts

13. This Agreement may be executed by any one or both of the parties hereto in any number of counterparts and via facsimile, each of which shall be deemed to be an original, but all such counterparts shall together constitute one and the same instrument.

If the foregoing is in accordance with your understanding, please sign and return to us an original counterpart hereof, and upon the acceptance hereof by you, this letter and such acceptance hereof shall constitute a binding agreement among the Seller and the Manager.

8.2 Matching Shares shall:

- (a) be Shares of the same class and carrying the same rights as the Partnership Shares to which they relate;
- (b) subject to Rule 8.7, be awarded on the same day as the Partnership Shares to which they relate are acquired on behalf of the Qualifying Employee; and
- (c) be awarded to all Qualifying Employees on exactly the same basis.

8.3 The Company shall determine whether or not the provisions of Rule 8.4 shall apply to any particular Award of Matching Shares.

8.4 Subject to Rule 8.5, the Company may determine whether or not any Award of Matching Shares shall be subject to forfeiture and, if so, shall determine:

- (a) the Forfeiture Period, being a period of not more than three years beginning with the date on which the Matching Shares were awarded to the Qualifying Employee;
- (b) whether or not the Matching Shares shall be forfeit on cessation of Relevant Employment in the Forfeiture Period (otherwise than by reason of an event within paragraph 32(2) of Schedule 2):

 - (ii) for specified reasons only and, if so, for what reasons;
- (c) whether or not the Matching Shares shall be forfeit on withdrawal from the Plan in the Forfeiture Period:

 - (ii) in specified circumstances only and, if so, what circumstances; and

- (d) whether or not the Matching Shares shall be forfeit on the Qualifying Employee withdrawing the Partnership Shares, in respect of which those Matching Shares were awarded, from the Plan within the Forfeiture Period.

8.5 Forfeiture of Matching Shares may not be linked to the performance of any person or persons.

Ratio of Matching Shares to Partnership Shares

8.6 The Partnership Share Agreement shall specify the ratio of Matching Shares to Partnership Shares for the time being offered by the Company and that ratio shall not exceed 2:1 and shall apply by reference to numbers of Shares. The Company may vary the ratio before the Partnership Shares are awarded. Employees shall be notified of the terms of any such variation before the Partnership Shares are awarded under the Partnership Share Agreement.

8.7 If Partnership Shares on the day mentioned in Rule 8.2(b) are not sufficient to produce a Matching Share, the match shall be made if and when sufficient Partnership Shares have been acquired to allow at least one Matching Share to be appropriated to that Participant.

Holding Period for Matching Shares

8.8 The Company shall, in relation to each Award of Matching Shares, specify a Holding Period throughout which a Participant shall be bound by the terms of the Partnership Share Agreement. The Company may specify different Holding Periods in respect of different Awards of Matching Shares but a Holding Period shall not be increased in respect of Matching Shares after they have been awarded under the Plan.

8.9 The Holding Period shall, in relation to any Award of Matching Shares, be such period as is specified by the Company in relation to that Award being a period of not less than three years, nor more than five years, beginning with the Award Date and shall be the same for all Participants who are awarded Matching Shares in the same Award.

8.10 A Participant may during the Holding Period direct the Trustees:

- (a) to accept an offer for any of his Matching Shares if the acceptance or agreement shall result in a new holding being equated with those Shares for the purposes of capital gains tax; or
- (b) to accept an offer of a Qualifying Corporate Bond (whether alone or with other assets or cash or both) for his Matching Shares if the offer forms part of such a general offer as is mentioned in Rule 8.10(c); or
- (c) to accept an offer of cash, with or without other assets, for his Matching Shares if the offer forms part of a general offer which is made to holders of shares of the same class as his Matching Shares, or to the holders of shares in the Company, and which is made in the first instance on a condition such that if it is satisfied the person making the offer shall have control of the Company, within the meaning of section 416 of the ICTA 1988; or

- (d) to agree to a transaction affecting his Matching Shares or such of them as are of a particular class, if the transaction would be entered into pursuant to a compromise, arrangement or scheme applicable to or affecting:
- (i) all of the ordinary share capital of the Company or, as the case may be, all the shares of the class in question; or
 - (ii) all the shares, or all the shares of the class in question, which are held by a class of shareholders identified otherwise than by reference to their employment or their participation in an Approved SIP.

PART D

Reinvestment of cash dividends

- 9.1 The Free Share Agreement or Partnership Share Agreement, as appropriate, shall set out the rights and obligations of Participants receiving Dividend Shares under the Plan.
- 9.2 The Company may:

 - (b) direct that all dividends payable to Participants on any occasion shall be paid in cash to all Participants as soon as reasonably practicable; or
 - (c) direct that Participants may elect, in relation to dividends payable on any occasion, to have such dividends applied in accordance with Rule 9.2(a) or paid in cash in accordance with Rule 9.2(b).
- 9.3 The Company may revoke any direction for reinvestment of cash dividends made in accordance with Rule 9.2(a) or Rule 9.2(c).
- 9.4 Dividend Shares shall be Shares:
- (a) of the same class and carrying the same rights as the Shares in respect of which the dividend is paid; and
 - (b) which are not subject to any provision for forfeiture.
- 9.5 The amount applied by the Trustees in acquiring Dividend Shares for any Participant shall be limited so that the total amount applied in any Tax Year by the Trustees and the trustees of any such other plan as is mentioned below in acquiring Relevant Dividend Shares shall not exceed £1,500 (or such other amount as shall be for the time being specified in paragraph 64(1) of Schedule 2). For the purposes of this Rule 9.5, Relevant Dividend Shares are Dividend Shares acquired for that Participant under the Plan and dividend shares (within the meaning of paragraph 62(3) of Schedule 2) acquired for him under any other Approved SIP established by the Company or an Associated Company. This Rule is subject to Rule 4.5.
- 9.6 In exercising their powers in relation to the acquisition of Dividend Shares, the Trustees must treat Participants fairly and equally.
- 9.7 If the amounts of cash dividends received by the Trustees in respect of a Participant's Shares exceed the limit in Rule 9.5, the balance shall be paid to that Participant as soon as practicable. On making such a payment, the Participant shall be provided with the information specified in paragraph 80(4) of Schedule 2.

- 9.8 The Trustees shall apply all the cash dividend in acquiring Dividend Shares on behalf of the Participant on the Acquisition Date. The number of Dividend Shares acquired on behalf of each Participant shall be determined by the Market Value of the Shares on the Acquisition Date.

Certain amounts not reinvested to be carried forward

- 9.9 Subject to Rule 9.7, any amount that is not reinvested:

- (a) because the amount of the cash dividend to which a Participant is entitled is insufficient to acquire a Share; or
- (b) because there is an amount remaining after acquiring one or more Dividend Shares on behalf of a Participant;

may be retained by the Trustees and carried forward to be added to the amount of the next cash dividend to be reinvested on that Participant's behalf and pending such reinvestment shall be held by the Trustees so as to be separately identifiable for the purposes of determining amounts required to be paid to that Participant under Rule 9.10.

- 9.10 If, during the period of three years beginning with the date on which the dividend was paid:

- (a) it is not reinvested (and for this purpose, cash dividends received by the Trustees on a Participant's Plan Shares on an earlier date shall be treated as reinvested before any cash dividends received by them on that Participant's Plan Shares at a later date); or
- (b) the Participant ceases to be in Relevant Employment; or
- (c) a Plan Termination Notice is issued by the Company;

the amount of the cash dividend, to the extent not reinvested under the Plan prior to the expiry of such period, shall be repaid to the Participant as soon as practicable. On making such a payment, the Participant shall be provided with the information specified in paragraph 80(4) of Schedule 2.

Holding Period for Dividend Shares

- 9.11 The Holding Period shall be a period of three years beginning with the Acquisition Date.

- 9.12 A Participant may during the Holding Period direct the Trustees:

- (b) to accept an offer of a Qualifying Corporate Bond (whether alone or with other assets or cash or both) for his Dividend Shares if the offer forms part of such a general offer as is mentioned in Rule 9.12(c); or
- (c) to accept an offer of cash, with or without other assets, for his Dividend Shares if the offer forms part of a general offer which is made to holders of shares of the same class as his

Dividend Shares, or to holders of shares in the Company, and which is made in the first instance on a condition such that if it is satisfied the person making the offer shall have control of the Company, within the meaning of section 416 ICTA 1988; or

(d) to agree to a transaction affecting his Dividend Shares or such of them as are of a particular class, if the transaction would be entered into pursuant to a compromise, arrangement or scheme applicable to or affecting:

(i) all of the ordinary share capital of the Company or, as the case may be, all the shares of the class in question; or

(ii) all the shares, or all the shares of the class in question, which are held by a class of shareholders identified otherwise than by reference to their employment or their participation in an Approved SIP.

9.13 Where a Participant is charged to tax in the event of his Dividend Shares ceasing to be subject to the Plan, he shall be provided with the information specified in paragraph 80(4) of Schedule 2.

PART E

10.1 In this Rule 10:

"Company Reconstruction" means such a transaction as is described in Rule 10.2;

"Corresponding Shares" means, in relation to any New Shares, the Plan Shares in respect of which the New Shares are issued or which the New Shares otherwise represent;

"New Shares" means shares comprised in the New Holding which were issued in respect of, or otherwise represent, Plan Shares comprised in the Original Holding; and

"the New Holding" and **"the Original Holding"** have the respective meanings given thereto in Rule 10.2.

10.2 The following provisions of this Rule 10 apply if there occurs, in relation to any of a Participant's Plan Shares (referred to in this Rule 10 as **"the Original Holding"**), a transaction (not being a transaction falling within Rule 10.3):

- (a) which results in a new holding (referred to in this Rule 10 as **"the New Holding"**) being equated with the Original Holding for the purposes of capital gains tax; or
- (b) which would have that result but for the fact that what would be the new holding consists of or includes a Qualifying Corporate Bond.

10.3 If an issue of shares of any of the following descriptions (in respect of which a charge to income tax arises) is made as part of a Company Reconstruction, those shares shall be treated for the purposes of this Rule 10 as not forming part of the New Holding:

- (a) redeemable shares or securities issued as mentioned in section 209(2)(c) of the ICTA 1988;
- (b) share capital issued in circumstances such that section 210(1) of the ICTA 1988 applies; or
- (c) share capital to which section 249 of the ICTA 1988 applies.

10.4 Subject to the following provisions of this Rule 10, after the time of the Company Reconstruction:

- (a) references in the Plan to a Participant's Plan Shares, Free Shares, Partnership Shares or Matching Shares shall be construed as being or, as the case may be, as including references to any New Shares; and
- (b) references in Rules 6.16, 8.10 and 11.2 to **"the Company"** shall be construed as being or, as the case may be, as including references to any company whose shares are comprised in the New Holding.

10.5 For the purposes of the Plan:

- (a) a Company Reconstruction shall be treated as not involving a disposal of Plan Shares comprised in the Original Holding; and
- (b) the date on which any New Shares are to be treated as having been awarded to the Participant shall be that on which Corresponding Shares were (or were treated as) awarded; and
- (c) the conditions in Part 4 of Schedule 2 shall be treated as fulfilled with respect to any New Shares if they were (or were treated as) fulfilled with respect to the Corresponding Shares.

10.6 In the context of a New Holding, any reference in this Rule 10 to shares includes securities and rights of any description which form part of the New Holding for the purposes of Chapter 2 of Part 4 of the Taxation of Chargeable Gains Act 1992.

11 **Rights issues**

11.1 Subject to Rule 11.2, where the Trustees exercise rights arising under a rights issue (as defined in paragraph 99(1) of Schedule 2) conferred in respect of a Participant's Plan Shares, any shares or securities allotted as a result shall be treated for the purposes of the Plan as if they were Plan Shares:

- (a) identical to the shares in respect of which the rights were conferred; and
- (b) appropriated to, or acquired on behalf of, the Participant under the Plan in the same way and at the same time as those shares.

11.2 Rule 11.1 does not apply:

- (a) to shares and securities allotted as the result of the Trustees taking up a rights issue where the funds to exercise those rights were provided otherwise than by virtue of the Trustees exercising their powers pursuant to the Trust Deed to dispose of some of such rights to obtain sufficient funds to exercise all or part of the remainder of such rights in accordance with paragraph 77 of Schedule 2; or
- (b) in relation to rights arising under a rights Issue unless similar rights are conferred in respect of all ordinary shares in the Company;

and any shares or securities allotted as mentioned in Rule 11.2(a) or pursuant to rights referred to in Rule 11.2(b) are not Plan Shares.

PART F

12 Shares ceasing to be Eligible Shares

- 12.1 Notwithstanding any other provision of the Rules or the Trust Deed or any Free Share Agreement or any Partnership Share Agreement, the Trustees shall not be obliged to make an Award of any Shares and the Company shall not be obliged to arrange for the Trustees to make an Award of any Shares at a time when the Shares have ceased to be eligible shares (as defined in and satisfying the requirements of Part 4 of Schedule 2).

13 Administration and operation of the Plan

- 13.1 By entering into a Free Share Agreement or a Partnership Share Agreement, an individual:

- (b) authorises the Company and each Participating Company (past or present) and the Trustees (past or present) to maintain such records relating to that individual or his participation, in whatever way, in relation to the Plan or its operation as it considers or they consider necessary or desirable and to maintain such records in a digital or computerised format; and
- (c) authorises the Company and each Participating Company (past or present) and the Trustees (past or present) to provide HMRC with such information which it is or they are required to provide or which HMRC may request it or them to provide in relation to any employee, Qualifying Employee or Participant in connection with his participation in the Plan or any agreement entered into by the Participant pursuant to the Plan.

- 13.2 Participants may give such general directions to the Trustees, to such effect and in such terms, as are specified in the Rules.
- 13.3 The decision of the Company as to whether or not a person has ceased to be in Relevant Employment as a result of one of the events referred to in paragraph 32(2) of Schedule 2 and as to any other matter, question or dispute arising from the Plan shall be final and binding on all employees, Qualifying Employees and Participants.

- 13.7 To be valid any direction to the Company or the Trustees in respect of a Participant's Plan Shares must be given by or on behalf of the Participant or any person in whom the beneficial interest in his Shares is for the time being vested and will only be effective when received by the Company or, as the case may be, the Trustees. The direction must be given in writing or by such other means as the Company or, as the case may be, the Trustees may decide including (without limitation) facsimile or e-mail (including the internet and the intranet).

- 13.9 Where a notice or document is sent to an Eligible Employee or Participant by post, it will be treated as being received 72 hours after it was put into the post properly addressed and stamped. In all other cases, the notice or document will be treated as received when it is given.
- 13.10 All notices and documents given or sent to Eligible Employees or Participants will be given or sent at the risk of the addressee. Neither the Company nor any of the Participating Companies nor the Trustees has any liability in respect of any notice or document given or sent, nor any obligation to check that the addressee actually receives it.

14 Arrangements for the Trustee to meet PAYE obligations

- 14.1 The Company and/or the Trustee may make such provisions or arrangements as they consider appropriate to ensure that, where PAYE obligations (as defined in paragraph 99(1) of Schedule 2 (including any obligation under sections 510 to 514 of the ITEPA)) are imposed on the Trustees as a result of any of a Participant's Plan Shares ceasing to be subject to the Plan, the Trustees are able to meet that obligation:
- (a) by disposing (including a disposal to the Trustees for the purposes of the Plan) of:
 - (i) any of those Plan Shares; or
 - (ii) any of that Participant's remaining Plan Shares (if any), or
 - (b) by virtue of the Participant paying to the Trustees a sum equal to the amount required to discharge the PAYE obligations.

15 Alterations to the Plan

- 15.1 Subject to the proviso to clause 22.1 of the Trust Deed, the Rules of the Plan may be altered by resolution of the directors of the Company and the provisions of the Trust Deed may be altered in any respect in the manner therein provided, except that:
- (a) save as provided in Rule 15.2, no amendment shall be effective which would materially prejudice the interests of Participants in relation to awards already made to them unless with such prior consent or sanction of Participants as would be required under the provisions for the alteration of class rights contained in the Articles of Association of the Company for the time being if the Plan Shares awarded to such Participants constituted a separate but single class of shares (or two or more classes of shares according to the

respective Awards, as the directors may deem appropriate) and such plan Shares were entitled to such rights; and

(b) save as provided in Rule 15.2, no amendment to the advantage of Qualifying Employees or Participants shall be made, without the prior sanction of an ordinary resolution of the Company in general meeting, to:

- (i) the definition of Qualifying Employee;

18 **Participant's legal entitlements**

18.1 The terms of employment of an employee, Qualifying Employee or Participant by the Company or any company which is or has been controlled by the Company shall not be affected by his participation in the Plan which shall not form part of such terms. In no circumstances shall a person ceasing to be in Relevant Employment by reason of dismissal or otherwise howsoever be entitled to or claim against the Company or any other company which is or has been controlled by the Company or the Trustees any compensation for or in respect of any consequent diminution or extinction of his rights or benefits (actual or prospective) under the Plan to which he was entitled to (currently or prospectively) immediately before his cessation of Relevant Employment.

A PARTNERSHIP SHARES – REGULAR PAYMENTS

I apply to join the United Utilities ShareBuy Plan. I authorise my employer to deduct the following amount, directly from my pay before tax and NICs to buy shares:

Minimum £10 maximum £125 a month

Example: Enter £20.00 as

			:	0	0
--	--	--	---	---	---

£ a month £

2	0	:	0	0
---	---	---	---	---

If you are weekly paid, your payroll manager will convert the monthly amount you have indicated in the above box into a weekly amount. This will be done by multiplying the above monthly amount by 12 and then dividing by 52 (subject to an overall maximum contribution of £1,500 per tax year). Please see booklet for further details. If you wish to subsequently stop, start or change your deduction or make an additional periodic payment, you will need to complete a ShareBuy Payment Changes Form (available from payroll).

B PARTNERSHIP SHARES -- PERIODIC PAYMENTS

Instead of having regular deductions each pay period, you may wish to make periodic payments (subject to an overall maximum contribution of £1,500 per tax year or 10% of your cumulative salary -- please see booklet for further details). Please place an X in this box if relevant.

I apply to join the United Utilities ShareBuy Plan. Please do not set up any regular monthly payments at this time. I understand I will need to complete a ShareBuy Payment Changes Form and submit it to payroll 30 days in advance of each periodic payment I wish to make into the Plan.

MATCHING SHARES

**Terms and conditions for the United Utilities Group 2008 Share Incentive Plan – ShareBuy (the
“Plan”) Partnership and Matching Share Agreement**

This agreement is between the employee referred to overleaf (the “Participant”), United Utilities Group PLC (the “Company”) and Equiniti Share Plan Trustees Limited (the “Trustee”). This agreement sets out the terms on which the Participant agrees to take part under the terms of the Plan and is subject to the rules of the Plan. Terms defined in the rules of the Plan apply to this agreement. An explanation of some of the terms is set out at the end of this agreement. In the event of any conflict between this agreement and the Trust Deed and Rules of the Plan or any applicable legislation, the Trust Deed and Rules or that legislation will prevail. This agreement will apply to any future purchases of Partnership Shares and awards of Matching Shares to the Participant under the Plan unless and until replaced by a subsequent agreement.

NOTICE TO PARTICIPANT ABOUT POSSIBLE EFFECT ON BENEFITS

Deductions from your pay to buy Partnership Shares under this agreement may affect your entitlement to, or the level of, some contributory social security benefits, statutory maternity pay and statutory sick pay.

They may also have a similar effect in respect of some contributory social security benefits paid to your wife or husband.

With this agreement you should have been given information on the effect of deductions from your pay to buy Partnership Shares on entitlement to social security benefits, statutory sick pay and statutory maternity pay. The effect is particularly significant if your earnings are brought below the lower earnings limit for National Insurance purposes, and is explained in the information: it is therefore important that you read it. If you have not been given a copy, ask your employer for it.

Otherwise, a copy may be obtained from any office of HMRC, from the website www.InlandRevenue.gov.uk, the Department of Social Security or, in Northern Ireland, the Department for Social Development. You should take the information you have been given into account in deciding whether to buy Partnership Shares.

The scheme booklet refers to HMRC leaflet reference IR177 (Share Incentive Plans and your entitlement to benefits) which gives a much fuller explanation. You can get it from your HR Department or download it from the ShareBuy section of the Knowledge Centre intranet site.

COMPANY

If we (the Company) decide to give you the opportunity to purchase Partnership Shares over any period, we will invite you to participate in the Plan. In the invitation, we will tell you:

- of the minimum and maximum amounts that you can choose to have deducted from your Salary and applied in buying Partnership Shares. Currently, this will not be less than £10 in any one month nor more than the lesser of (a) £1500 and (b) 10% of your cumulative Salary from which the deduction is made in each tax year;
- of any limit on the number of Shares available;

- of the ratio of Matching Shares to Partnership Shares (which cannot exceed 2:1) and of the circumstances and manner (if any) in which the ratio may be varied;

- of the length of the Holding Period applicable to any award of Matching Shares; and

- of the Forfeiture Period, if any, during which, if you cease to be in Relevant Employment, you may forfeit your Matching Shares and whether forfeiture will apply to some or all of your Matching Shares.

We agree to arrange for Partnership Shares, Matching Shares and, if applicable, Dividend Shares to be bought for you and awarded to you according to the rules of the Plan.

If the ratio of Matching Shares to Partnership Shares varies, we will notify you before the Partnership Shares are bought for you.

TRUSTEE

The Trustee agrees to keep your Salary deductions and any residue from a cash dividend (if Box B overleaf is marked) in a non-interest bearing account at Lloyds TSB Bank plc (or such other bank or building society as is from time to time notified to you) until they are used to buy Shares in the Company for you.

PARTICIPANT

Deductions and Partnership Shares

I, (the Participant), agree:

- to allow my employer to deduct such amount from my Salary as, in response to any invitation to buy Partnership Shares, I may authorise;

- that these deductions will be used to buy Partnership Shares for me according to the Rules of the Plan;

- that the deductions from my Salary, or the number of Shares that I receive, may be scaled down if the limit on the number of Shares set by the Company for any Award is exceeded; and

- that any deductions not used to buy Partnership Shares will be carried forward and added to the next deduction.

I understand that I may stop the deductions at any time, or restart them again, by writing to my Payroll department.

I understand that any instruction to stop deductions will be implemented within 30 days of receipt of my instructions and that any instruction to re-start deductions will be implemented on the first salary payment day which happens more than 30 days after receipt of my instructions.

I understand I may ask the Trustee for my Partnership Shares at any time, but I may have to pay income tax and National Insurance contributions if my Partnership Shares are taken out of the Plan within five years of being bought for me.

Matching Shares

I agree:

- to accept any Matching Shares awarded to me under the Plan; and
- to leave them in the hands of the Trustee, and not to assign, charge or otherwise dispose of my beneficial interest in those shares for the whole of the Holding Period of three years.

Dividends

I agree that if I marked Box A overleaf cash dividends paid on my Plan Shares will be sent in the form of a cheque to my home address, unless the Trustee holds my bank/building society details, in which case they will be sent to my bank/building society.

I understand that if I marked Box B overleaf:

- cash dividends paid on my Plan Shares (not exceeding £1500 in each tax year) will be used to buy Dividend Shares for me in accordance with the rules of the Plan; and
- any amount over £1500 in each tax year will be paid to me and that any amount below £1500 which is not used to buy Shares will be carried forward and added to the next cash dividend to be reinvested;

and I agree:

- to accept any Dividend Shares bought for me; and
- to leave them in the hands of the Trustee, and not to assign, charge or otherwise dispose of my beneficial interest in those Shares for the whole of the Holding Period of three years.

Holding Period

I understand that my obligations during the relevant Holding Period will end:

- if I cease to be in Relevant Employment, and this may lead to forfeiture of the Matching Shares (see Forfeiture of Matching Shares) but not my Dividend Shares; or
- if the Company terminates the Plan (under Clause 24 of the Trust Deed) and I have consented to the transfer of my Plan Shares to me.

I understand that my obligations during the relevant Holding Period are subject to:

- the right of the Trustee to sell my Plan Shares to meet PAYE obligations; and
- the Trustee accepting at my direction an offer for my Plan Shares in accordance with the Plan.

I understand that I may ask the Trustee for my Matching Shares and Dividend Shares (if any) to be transferred to me (or as I may direct) at any time after the end of the Holding Period, but that I may have to

pay income tax and National Insurance contributions if my Matching Shares are taken out of the Plan within five years of being awarded to me.

Forfeiture of Matching Shares

I understand that I may forfeit some or all of my matching shares in the circumstances stated below, depending on the length of the forfeiture period, if any, established by the Company from time to time:

- I cease to be in Relevant Employment; or

- I withdraw the Partnership Shares in respect of which the Matching Shares were awarded, during the Forfeiture Period unless the employment ceases for one of the following reasons:

(a) injury or disability;

(b) redundancy;

(c) transfer of employment to which the Transfer of Undertaking (Protection of Employment) Regulations 1981 (TUPE) apply;

(d) retirement on or after reaching age 50;

(e) a change of control of the company I work for, or other circumstances which vary the relationship of the company I work for to United Utilities Group PLC; or

(f) death.

General

I understand that shares and the income from them may fall in value as well as rise and I may not get back the amount invested.

I direct that all cash amounts due to me under the Plan shall be paid, after deduction of any applicable withholdings, into any bank account into which my Salary is paid or, if my Salary is not paid into a bank account, otherwise paid direct to me.

Unless I instruct the Trustee to the contrary I direct the Trustee to dispose of all of my Plan Shares as soon as practicable after I cease to be in Relevant Employment.

I agree that taking part in the Plan does not affect my rights, entitlements and obligations under my contract of employment, and does not give me any rights or additional rights to compensation or damages if my employment ceases.

I agree to allow the Trustee to sell some or all of my Plan Shares to pay any income tax and National Insurance contributions due on my Plan Shares ceasing to be subject to the Plan, unless I provide the Trustee in advance with sufficient funds to pay these amounts.

If there is a rights issue, I agree to allow the Trustee to sell some of the rights attached to my Plan Shares in order to fund the exercise of the rights attached to my other Plan Shares unless I provide cash to take up the rights in full or instruct that all rights should be sold.

I can at any time withdraw from this agreement by writing to my employer. Any unused deductions will be returned to me after the deduction of any necessary income tax or National Insurance contributions. I agree, however, that withdrawal from this agreement will not affect the terms on which I agreed to buy Plan Shares already held for me under the Plan or accept any Shares that have already been awarded to or bought for me under the Plan.

I understand that this agreement shall continue until terminated by any party giving notice to the others.

I understand that a statement will be issued on a six monthly basis commencing no later than

Equiniti Limited

I understand that the Company and or the Trustee may delegate the performance of services and the administration of the Plan to Equiniti Limited ("Equiniti"), part of Lloyds TSB Bank plc (but Equiniti will not thereby become a party to this agreement).

I understand that I will not become a customer of Equiniti nor will I have any rights or obligations against or rights to give instructions directly to Equiniti. Equiniti may, whether itself or through other divisions or affiliates, provide banking or other services in relation to the administration of the Plan and may be compensated for these services in addition to any compensation it receives for acting as delegate of the Company and/or the Trustee or as administrator of the Plan.

The Company, the Trustee and Equiniti give the attached information about data protection, which by signing this agreement I acknowledge that I have read and understood.

You should let us know if you think any information we hold about you is inaccurate, so that we can correct it.

(g) The Company and/or the Trustee will take reasonable steps to ensure that the electronic application facility is available but neither they nor Equiniti are responsible for systems beyond their reasonable control or any incompatibility between my systems and the electronic application facility.

(h) I acknowledge that the electronic application facility enables me to give instructions directly to the Company and/or the Trustees. Such instructions are not to be regarded as instructions given directly to Equiniti (even if Equiniti's website or other facilities are used in connection with electronic applications).

3. APPLICATION FOR INVESTMENT SHARES

3.1 Any Eligible Employee who has received a notice of his nomination to participate in the Plan pursuant to Rule 2:

- (A) must, where such notification has specified an Automatic Percentage, if he wishes to participate in the Plan in respect of that nomination complete an Application which contains an instruction that he wishes the Company to withhold from his Post-tax Bonus an amount equal to the Automatic Percentage of his Post-tax Bonus and apply this amount, acting solely as his agent, in the acquisition of Shares for and on his behalf; and
- (B) may, where such notification specifies a Maximum Voluntary Percentage but subject to Rule 3.2, in his absolute discretion instruct the Company in the Application relating to such nomination to withhold from his Post-tax Bonus an amount equal to a percentage selected by him (provided that it does not exceed the Maximum Voluntary Percentage specified in that nomination) of his Post-tax Bonus and apply this amount, acting solely as his agent, in the acquisition of Shares for and on his behalf.

- (A) two times the Automatic Percentage (if any has been specified in that Application) of the relevant Pre-tax Bonus the subject of such Application; and

on the assumption that the price payable for a Share is equal to its Market Value on the Award Date.

4.2 In relation to any Eligible Employee who has returned a valid Application by the relevant Return Date, if the number of Shares determined in accordance with Rule 4.1 does not have an aggregate Market Value that exceeds the limit specified in Rule 5.5:

- (A) the Company shall pursuant to the instruction, if any, given in accordance with Rule 3.1(A) in the Application concerned but subject always to the Rules, on the Award Date acquire for and on behalf of the Eligible Employee concerned and acting solely as his agent, such number of Shares (using a Market Value of a Share as at the Award Date) as may be purchased with an amount equal to the Automatic Percentage of his Post-tax Bonus (rounded down to the nearest whole number of Shares);
- (B) the Company shall pursuant to the instruction, if any, given in accordance with Rule 3.1(B) in the Application concerned but subject always to the Rules, on the Award Date acquire for and on behalf of the Eligible Employee concerned and acting solely as his agent, such number of Shares (using a Market Value of a Share as at the Award Date) as may be purchased with an amount equal to the Voluntary Percentage of his Post-tax Bonus (rounded down to the nearest whole number of Shares);
- (C) the Trustee may on the Award Date (following a recommendation by the Committee), subject always to Rule 5, grant an Award to the Eligible Employee over such number of Shares as was determined by the Committee pursuant to Rule 4.1; and
- (D) the Company shall return to the Eligible Employee any sums remaining from the Automatic Percentage and/or Voluntary Percentage of his Post-tax Bonus after the acquisition of the Shares on the Eligible Employee's behalf pursuant to Rule 4.2(A) and/or 4.2(B).

4.3 In relation to any Eligible Employee who has returned a valid Application by the relevant Return Date, if the number of Shares determined in accordance with Rule 4.1 has an aggregate Market Value that exceeds the limit specified in Rule 5.5, the Committee shall, in its sole discretion, adjust any one or more of the Automatic Percentage and the Voluntary Percentage specified in such Application and replace it with such percentage, in each case that would, if Rule 4.1 was reapplied using such adjusted percentage or percentages, result in a number of Shares (rounded down to the nearest whole number of Shares) that had an aggregate Market Value that did not exceed the limit specified in Rule 5.5 and then:

- (A) the Company shall pursuant to the instruction, if any, given in accordance with Rule 3.1(A) in the Application concerned but subject always to the Rules, on the Award Date acquire for and on behalf of the Eligible Employee concerned and acting solely as his agent, such number of Shares (using a Market Value of a Share as at the Award Date) as may be purchased with an amount equal to the Adjusted Automatic Percentage of his Post-tax Bonus (rounded down to the nearest whole number of Shares);
- (B) the Company shall pursuant to the instruction, if any, given in accordance with Rule 3.1(B) in the Application concerned but subject always to the Rules, on the Award Date acquire for and on behalf of the Eligible Employee concerned and acting solely as his agent, such number of Shares (using a Market Value of a Share as at the Award Date) as may be purchased with an amount equal to the Adjusted Voluntary Percentage of his Post-tax Bonus (rounded down to the nearest whole number of Shares);
- (C) any amount of the relevant Post-tax Bonus of an Eligible Employee that cannot be used to acquire Shares pursuant to an instruction contained in that Eligible Employee's Application by virtue of an adjustment made by the Committee under this Rule 4.3 shall be returned to the Eligible Employee concerned by the Company as soon as reasonably practicable after such adjustment has occurred; and
- (D) the Trustee may on the Award Date (following a recommendation by the Committee), subject always to Rule 5, grant an Award to the Eligible Employee over such number of Shares as was determined by the Committee pursuant to Rule 4.1 as applied using the Adjusted Automatic Percentage in substitution for the Automatic Percentage and/or Adjusted Voluntary Percentage in substitution for the Voluntary Percentage and which accordingly do not have an aggregate Market Value that exceed the limit contained in Rule 5.5.

4.4 In making any Award under the Plan, the Trustee shall determine that the exercise of such Award shall be conditional on the satisfaction of one or more performance or other conditions determined by the Trustee on the recommendation of the Committee before such Award is made. Any such Performance Conditions may provide that the Award shall become exercisable in respect of a given number or proportion of the Matching Shares comprised in the Award according to whether, and to the extent to which such condition or conditions are met,

4.5 Each Award shall be granted by the execution and delivery by the Trustee as a deed of an Award Certificate in respect of that Award. Each Award Certificate shall as soon as reasonably practicable after execution and delivery by the Trustee (and in any event within 14 days thereafter) be issued to the relevant Participant and shall be in such form as the Committee may from time to time determine, specifying (inter alia) the following:

- (A) the Award Date of the Award;
- (B) the number of Matching Shares over which the Award is granted;
- (C) the Performance Period;

- (D) details of any Performance Conditions imposed in relation to the Matching Shares subject to the Award;
- (E) that the ability to exercise the Award over the Matching Shares is subject to the satisfaction of the Performance Conditions set out in the Award Certificate; and
- (F) the fact that the Award may be renounced as provided in Rule 4.6.

4.6 Any Eligible Employee to whom an Award is granted may, by notice to the Trustee given within 30 days after the Award Date in question, renounce in whole or in part his rights under the Award. In such a case, the Award shall (to the extent renounced) be treated, for all purposes of the Plan, as never having been granted and (if already issued) an Award Certificate shall be returned to the Trustee for cancellation or (in the case of renunciation in part) for amendment. No consideration shall be payable by the Trustee for any such renunciation. For the avoidance of doubt, any renunciation of an Award made by an Eligible Employee pursuant to this Rule 4.6 shall not entitle him to receive any payment of the Post-tax Bonus used to acquire Investment Shares nor oblige the Company or any other third party to pay such Post-tax Bonus (or any part of it) or an equivalent amount to such Eligible Employee.

4.7 An Award shall be personal to the Participant to whom it is granted and shall not be transferable or assignable (save in the event of a transfer to the legal personal representatives of the Participant following the Participant's death). An Award shall not be charged, pledged or otherwise encumbered and any purported assignment, charge, disposal or dealing with the rights and interest of the Participant under the Plan shall render the Award void.

4.8 No Award shall confer any beneficial interest in any Share which is the subject of such Award (and no Participant shall be entitled to any dividends paid or other distributions made, or to exercise or direct the exercise of voting rights or any other rights, in respect of any such Share) prior to the occurrence of the Participant exercising such Award.

4.9 No monetary consideration shall be payable for the making or grant of an Award or in respect of the exercise of an Award.

5. RESTRICTIONS ON THE GRANTING OF AWARDS

5.1 Subject to Rule 5.2, no Award shall be granted to an Eligible Employee except during an Award Period.

5.2 The Committee may recommend to the Trustee and the Trustee may make an Award or Awards at any time not within an Award Period at which the Committee considers that exceptional circumstances exist which justify the making of an Award or Awards. Furthermore, if by reason of the Model Code or any statute or any regulation or order made thereunder or any governmental directive the Trustee shall be restricted from granting Awards within an Award Period, Awards may be granted within the 42 days following the lifting of such restrictions.

5.3 No Award shall in any circumstances be granted after 1 July 2018 and an Award may only be granted to a person who is an Eligible Employee at the Award Date.

- 5.4 No Award shall be granted to an Eligible Employee and no Instruction to acquire Shares for and on behalf of an Eligible Employee given under any Application made by such Eligible Employee shall be acted upon at a time when such grant to such Eligible Employee or such acquisition of Shares for and on his behalf would be in breach of the Model Code.
- 5.5 In no circumstances, shall the aggregate Market Value of the Shares subject to any Award (measured as at the Award Date) made to an Eligible Employee in any Financial Year exceed his Base Salary.
- 5.6 The Committee must make sure that the nominal amount of Shares over which Awards are granted on any date does not exceed either of the limits set out in Rules 5.8 and 5.9. This limitation only applies to Awards which are to be satisfied by the issue of new Shares or the transfer of treasury shares.
- 5.7 For the purposes of Rules 5.8 and 5.9:
- (A) "allocate" means the issue of new shares or the transfer of treasury shares by the Company or the old company in respect of a person's rights under an award;
 - (B) an "award" means any option or other right to acquire or receive shares whether conditional or unconditional and whether or not for payment;
 - (C) a "discretionary scheme" means an employee share scheme in which those taking part are senior employees and directors chosen at the discretion of the body administering the scheme;
 - (D) an "employee share scheme" means any scheme for employees which has been approved by the Company or the old company in general meeting;
 - (E) "equity share capital" has the same meaning as in section 548 of the Companies Act 2006 and, for the avoidance of doubt, includes any shares held as treasury shares;
 - (F) the "old company" means United Utilities PLC (incorporated in England and Wales with No. 2366616);
 - (G) "treasury shares" has the same meaning as in Chapter 6 of the Companies Act 2006;
 - (H) no account will be taken of shares acquired by an employee or former employee (or the personal representatives of such a person) where the shares are acquired for a price equal to their market value at or about the date of acquisition and the cost of acquisition is borne by the employee or former employee (or his estate);
 - (I) subject to (J), no account will be taken of an award if and to the extent that the Committee considers that it will be satisfied by the transfer of existing shares (other than treasury shares);
 - (J) any shares allocated or remaining to be allocated to the trustees of any trust which were used or which are to be used to satisfy awards granted under an employee share

scheme must be treated as having been allocated or as remaining to be allocated in respect of those awards unless the shares were acquired by the trustees pursuant to a rights issue or other opportunity offered to the trustees in respect of shares other than shares previously allocated to them; and

(K) where an award was granted to an individual in consideration of the release by the individual of an award previously granted to him under an employee share scheme, then the earlier award shall be ignored and the later award shall be deemed to have been granted at the same time as the earlier award.

5.8 The limit for this Rule is 10% of the nominal amount of the Company's equity share capital on the day before the Award Date, less the aggregate of the nominal amounts of:

(A) shares allocated in respect of awards granted within the previous 10 years under any employee share scheme;

(B) shares remaining to be allocated in respect of awards granted within the previous 10 years under any employee share scheme; and

(C) shares allocated on the same date or within the previous 10 years under any employee share scheme otherwise than in respect of an award.

5.9 The limit for this Rule is 5% of the nominal amount of the Company's equity share capital on the day before the Award Date, less the aggregate of the nominal amounts of

(A) shares allocated in respect of awards granted within the previous 10 years under any discretionary scheme;

(B) shares remaining to be allocated in respect of awards granted within the previous 10 years under any discretionary scheme; and

(C) shares allocated on the same date or within the previous 10 years under any discretionary scheme otherwise than in respect of an award.

6. DIVIDEND EQUIVALENT SHARES

6.1 Whenever a dividend or other cash distribution is (or has been) paid or made by the Company in respect of Shares at any time during the period starting at the commencement of the Performance Period relating to a subsisting Award and ending on the issue of the Performance Certificate relating to such Award, there shall, in relation to such subsisting Award, be separately ascertained the whole number of Shares which could have been purchased with a sum as nearly as possible equal to but not exceeding the aggregate cash amount of the dividend or distribution so paid or made, in respect of the number of Shares subject to the Award in question.

6.2 For the purpose of determining the number of whole Shares that could have been acquired pursuant to Rule 6.1 with any distribution or dividend so made or paid, the price payable for a Share shall be the price per Share equal to the middle market quotation of a Share as derived from the Daily Official List of the London Stock Exchange for the day on which such dividend or

distribution is paid or made or, if such day is not a Business Day, the Business Day next following such day.

6.3 The number of Shares so ascertained in accordance with Rule 6.1 shall in relation to:

- (A) dividends or distributions made or paid on or after the commencement of the Performance Period relating to the Award in question but before its Award Date, be notionally added to and form part of the Matching Shares subject to the Award with effect from its Award Date;
- (B) dividends or distributions made or paid after the Award Date of the Award in question, be notionally added to and form part of the Matching Shares subject to the Award with effect from the date of payment of such dividend or making of such distribution;

and shall be taken into account in any further application of Rule 6.1.

6.4 For the avoidance of doubt, any Participant whose Award is enhanced by the operation of Rules 6.1 and 6.3 shall not be entitled to the Dividend Equivalent Shares either legally or beneficially and shall only have the right to acquire such Dividend Equivalent Shares (or a proportion of them) upon the exercise of the Award concerned and at no other time before such exercise. Furthermore, for the avoidance of doubt, Rule 6.1 shall not be applied in respect of any dividends or distributions made or paid in respect of Shares subject to an Award where the making or payment of such dividend or distribution occurs after the issue of the Performance Certificate relating to the Award in question, its lapse or exercise.

7. PERFORMANCE CONDITIONS

7.1 As and when the Performance Conditions governing the ability to exercise an Award over the Matching Shares have been satisfied (either in whole or in part), the Committee shall notify the Participant and the Trustee.

7.2 To the extent to which the Performance Conditions have not been satisfied so that an Award does not become exercisable in respect of all of the Matching Shares subject to such Award, such Award shall lapse immediately in respect of the Matching Shares over which the Award is no longer exercisable and the Participant shall cease to have any entitlement to exercise his Award in respect of such Matching Shares.

7.3 If the Committee becomes aware that the Performance Conditions cannot be satisfied to any extent, the Committee shall notify the Participant and the Award shall immediately lapse and cease to be capable of exercise in respect of the Matching Shares subject to such Award.

7.4 If an event occurs which causes the Committee reasonably to consider that the Performance Conditions subject to which any outstanding Award has been made are no longer appropriate, the Committee may in its absolute discretion (provided that, for the avoidance of doubt, the Committee shall not be obliged in any circumstances to exercise such discretion in favour of the Participant) recommend the Trustee to waive or vary the Performance Conditions in such a way as, in the reasonable opinion of the Committee, produces a fairer measure of performance of the Company for the Performance Period. If:

- (A) the Trustee accepts the recommendations of the Committee; and
- (B) in the case of any variation, the varied Performance Conditions are, in the reasonable opinion of the Committee, not materially more difficult to satisfy than the original Performance Conditions would have been had the event in question not occurred,

any such outstanding Award shall then take effect subject to the Performance Conditions as varied or waived. The Committee shall notify any Participant who is affected by any variation or waiver of the Performance Conditions pursuant to this Rule 7.4 and such notice will set out the details of the varied Performance Conditions or waiver.

- 7.5 Notwithstanding any other provisions in these Rules, the Performance Conditions imposed on an Award shall not be treated as having been satisfied (either in whole or in part) or failed unless and until the Committee has so notified the Participant.

8. EXERCISE OF AWARDS

- 8.1 An Award shall, save as otherwise provided in Rule 10, only be capable of exercise on one occasion and to the extent not so exercised shall lapse.

- 8.2 Subject to Rules 9 and 10, an Award may only be exercised if the Participant holding such Award has been in Qualifying Service throughout the period commencing on the Award Date and ending at the end of the applicable Performance Period. In such case, his Award may be exercised in relation to the Matching Shares subject to the Award, to the extent to which the Performance Conditions relating to such Matching Shares have been satisfied at any time during the period commencing on the day immediately following the issue of the Performance Certificate and ending three months thereafter or, if such exercise is or has been prevented by virtue of Rule 9.1 and the last day of such three month period has elapsed, the period ending 30 days after the first day on which Rule 9.1 no longer applies to prevent the exercise of the Award.

- 8.3 In order to exercise an Award, the Participant shall deliver to the Trustee a notice in a form and manner approved by the Committee specifying the number of Shares in respect of which the Award is being exercised. Any notice served pursuant to this Rule 8.3 shall (unless otherwise agreed by the Company and the Participant) take effect on the day it is actually delivered and such day shall constitute for all purposes, except solely for the purposes of Rule 10.7, the date of exercise of the Award in question.

- 8.4 All transfers of Shares (and the issue of a definitive share certificate) shall be made within 30 days of the date of exercise of the relevant Award. At the request of a Participant, the Trustee may in its absolute discretion resolve to transfer some or all of the Shares to be acquired on the exercise of an Award to such other person or persons as may be nominated by the Participant.

- 8.5 Shares transferred on the exercise of an Award shall be transferred without the benefit of any rights attaching to the Shares by reference to a record date preceding the date of such exercise.

- 8.6 As a condition of exercise of an Award:

(A) the Participant shall agree to indemnify the Company, his employer and any other person in respect of any amounts of income tax for which the Company, his employer or any other person is obliged to account under the Pay-As-You-Earn system or in respect of employee's National Insurance Contributions (or any taxation or social security payable in any jurisdiction outside the United Kingdom which is equivalent or similar to Pay-As-You-Earn income tax and employee's National Insurance Contributions) arising from the exercise of his Award (or which would not otherwise have arisen but for the grant of the Award to the Participant); and

(B) the Participant shall agree (unless such requirement is waived by the Committee) to indemnify, the Company, his employer or any other person who is liable to account for secondary Class 1 National Insurance Contributions as a result of the exercise of an Award by the Participant in respect of any secondary class 1 National Insurance Contributions (or where legally possible, their equivalent in any jurisdiction outside the United Kingdom) arising as a result of or in connection with the exercise of his Award.

8.7 The Board may make such regulations as it considers desirable to ensure the receipt of such amounts referred to in Rule 8.6 including, but not limited to, retaining the power to sell (or request the Trustee to sell) sufficient of the relevant Shares which would otherwise have been received by the Participant in order to discharge the relevant liability (after deduction of relevant expenses).

9. RESTRICTIONS UPON THE EXERCISE OF AWARDS AND LAPSE OF AWARDS

9.1 No Participant shall in any circumstances be entitled to exercise an Award at any time when such exercise would be in breach of the Model Code.

9.2 Notwithstanding any other Rule, an Award shall lapse on the happening of the earliest of the following events:

(A) where Rule 7.3 applies, the issue by the Committee of the relevant notification referred to therein in respect of all of the Matching Shares subject to such Award;

(B) where Rule 7.2 applies, the receipt by the Trustee of the relevant Performance Certificate, but only to the extent of the Matching Shares subject to such Award which are no longer capable of exercise as determined in accordance with the relevant Performance Certificate;

(C) the tenth anniversary of the Award Date of the Award concerned in respect of all the Matching Shares subject to the Award;

(D) the Participant ceasing to be in Qualifying Service during the applicable Performance Period, in respect of the Matching Shares subject to Award save to the extent (if any) to which the Trustee permits him (or his personal representatives) to exercise the Award over such Matching Shares pursuant to Rules 10.1, 10.2, 10.3 or 10.4;

(E) the expiry of the period permitted for the exercise of the Award by the Participant's personal representatives in accordance with Rule 10.1, Rule 10.3 or Rule 10.4 in respect of all the Matching Shares subject to the Award;

- (F) the expiry of the period permitted for exercise by the Participant of the Award in accordance with Rule 10.2 in respect of all the Matching Shares subject to the Award unless the Participant shall die during such period;
- (G) the expiry of the applicable period for exercise referred to in Rule 8.2 in respect of all the Matching Shares subject to the Award;
- (H) the expiry of the period notified by the Trustee to the Participant concerned in accordance with Rule 10.8 in respect of all the Matching Shares subject to the Award;
- (I) the passing of a resolution for the voluntary winding up of the Company or the making of an order for its compulsory winding up in respect of all the Matching Shares subject to the Award;
- (J) the Participant becoming bankrupt in respect of all the Matching Shares subject to the Award;
- (K) where Rule 9.3 applies;
- (L) the first anniversary of the death of the Participant in respect of all the Matching Shares subject to the Award; and
- (M) the expiry of the period referred to in Rule 10.13, where such Rule applies in respect of all the Matching Shares subject to the Award.

9.3 Subject to Rule 9.4 but notwithstanding any other provision of these Rules, if at any time before the end of the Performance Period relating to an Award (or, if earlier, the time that it first becomes capable of exercise in accordance with these Rules) the Participant holding such Award ceases to have a Beneficial Interest in the Investment Shares (or any of them) to which the Award relates, the Award concerned will lapse immediately upon the cessation of that Participant's Beneficial Interest in the Investment Shares concerned (or any of them). For the avoidance of doubt, this clause shall be interpreted so that if the Participant concerned ceases to have a Beneficial Interest in even just one of the Investment Shares to which an Award relates, the Award in question shall, subject to Rule 9.4, lapse immediately in its entirety upon the cessation of such Beneficial Interest.

9.4 In the event of a Participant ceasing to have a Beneficial Interest in the Investment Shares (or any of them) to which an Award relates prior to the end of the Performance Period relating to that Award (or, if earlier, the time that it first becomes capable of exercise in accordance with these Rules), the Committee may, in its sole discretion, determine that Rule 9.3 shall not apply to the cessation of the Participant's Beneficial Interest in the Investment Shares concerned so that the relevant Award does not lapse as specified in Rule 9.3, provided always that the Committee may impose such conditions as it, in its sole discretion, deems appropriate upon the Participant concerned which must be satisfied in order for the Committee to disapply the operation of Rule 9.3.

10. RIGHT TO EXERCISE AWARD IN SPECIAL CIRCUMSTANCES

10.1 In the event of the death of the Participant during the Performance Period of an Award while he is in Qualifying Service and prior to the occurrence of any such event as is referred to in any of Rules 10.6, 10.7, 10.8 and 10.9, the Award may, at the discretion of the Trustee (but subject to the consent of the Committee), be exercised (in so far as it shall not have lapsed under any other Rule) by the Participant's personal representatives over such number of Matching Shares determined by the Trustee in accordance with Rule 10.10 during the period of 12 months following the date of the Participant's death.

10.2 In the event of a Participant ceasing to be in Qualifying Service during the Performance Period of an Award and prior to the occurrence of any such event as is referred to in any of Rules 10.6, 10.7, 10.8 and 10.9, by reason of:

- (A) retirement on or after reaching his contractual retirement date (or, if there is no such date, the date on which the Participant has reached the age at which he is no longer permitted to work without the consent of his employer);
- (B) redundancy (within the meaning of the Employment Rights Act 1996);
- (C) injury, disability or ill-health (evidenced to the satisfaction of the Company and the Trustee);
- (D) the company by which he is employed ceasing to be a member of the Group;
- (E) the undertaking in which he is employed being sold or transferred outside the Group; or
- (F) other special circumstances as determined by the Trustee with the consent of the Committee,

the Award may, at the discretion of the Trustee (but subject to the consent of the Committee), be exercised (in so far as it shall not have lapsed under any other Rule) over such number of Matching Shares as is determined in accordance with the Performance Conditions but then so reduced in accordance with Rule 10.11 during, subject to Rule 10.13, such period following the issue of the Performance Certificate in respect of the Award at the conclusion of the Performance Period as the Trustee shall determine. Alternatively, the Trustee may, in its discretion but subject to the consent of the Committee, permit the Award to be exercised at any time during, subject to Rule 10.13, a period of 3 months immediately following the cessation of Qualifying Service of the Participant concerned, over such number of Matching Shares as the Trustee may determine in accordance with Rule 10.10.

10.3 In the event of the death of the Participant:

- (A) after the end of the Performance Period of an Award and before the tenth anniversary of its Award Date; or
- (B) while he is entitled to exercise an Award pursuant to Rule 10.2,

his personal representatives may exercise that Award (In so far as it shall not have lapsed under any other Rule) during the period of 12 months following the date of the Participant's death, in any case where Rule 10.3(A) is applicable, over such number of Matching Shares as is determined in accordance with the Performance Condition but, in the case of his death while he was entitled to exercise the Award pursuant to Rule 10.2, only to the extent to which he was permitted to exercise such Award in accordance with Rule 10.2.

- 10.4 In the event of the death of the Participant after he has ceased to be in Qualifying Service and before an Award has become exercisable or vested in accordance with Rule 10.2 and prior to the occurrence of any such event as is referred to in any of Rules 10.6, 10.7, 10.8 and 10.9, the Award may, at the discretion of the Trustee (but subject to the consent of the Committee), be exercised (in so far as it shall not have lapsed under any other Rule) over such number of Matching Shares to the extent determined by the Trustee in accordance with Rule 10.10 during such period (not exceeding 12 months) after the date of the Participant's death as the Trustee may determine.
- 10.5 If a Participant ceases to be in Qualifying Service during the Performance Period of an Award and prior to the occurrence of any such event as is referred to in any of Rules 10.6, 10.7, 10.8 and 10.9 for any reason other than those specified in Rules 10.1, 10.2, 10.3 and 10.4, the Award shall lapse immediately upon cessation of Qualifying Service.
- 10.6 In the event that notice is given to shareholders of the Company of a resolution to approve the reconstruction or demerger of the Company or of any other member of the Group, the Trustee may make such provision for the variation of the terms of any Award and/or the applicable Performance Conditions and/or for early exercise (in whole or in part) of Awards as the Trustee shall, in the exercise of its discretion (having regard to the recommendation of the Committee), consider appropriate to take proper account of such circumstances, provided that:
- (A) in exercising such discretion for this purpose the Trustee shall have due regard to the object and purposes of the Company and the Trustee in establishing the Plan;
 - (B) no such provision shall be made without the consent of the Committee; and
 - (C) no such provision shall take effect so as to abrogate the rights of a Participant without the Trustee first obtaining his consent.
- 10.7 If a general offer is made to acquire the whole or part of the issued ordinary share capital of the Company (or such part of such capital as is not then owned by the offeror or any company controlled by the offeror and/or any persons acting in concert with the offeror) as a result of which the offeror (or any such companies and/or persons as aforesaid) may gain control of the Company then the Trustee may (with the consent of the Committee) serve a notice on each Participant at any time before the later of the date on which control of the Company passes and the date on which any condition subject to which the offer is made has been satisfied ("the Take-over Date") which permits a Participant, to exercise any Award then held by him (to the extent that it has not lapsed) over such number of Matching Shares as is determined in accordance with Rule 10.12 during the period commencing on the date of such notice and expiring on the Take-over Date provided that any such exercise shall be conditional upon and shall not take effect until immediately before the Take-over Date and if the Take-over Date does not arise, the exercise of

Awards pursuant to this Rule 10.7 shall be null and void and all such Awards shall remain in force and may be subsequently exercised in accordance with and subject to these Rules

10.8 If during the Performance Period of an Award any person:

- (A) obtains Control of the Company as a result of making a general offer:
 - (i) to acquire the whole of the issued share capital of the Company made subject to a condition such that if it is satisfied the person making the offer will have Control of the Company; or
 - (ii) to acquire all the shares in the Company which are of the same class as the Shares;
- (B) obtains Control of the Company in pursuance of a compromise or arrangement sanctioned by the Court under section 899 Companies Act 2006; or
- (C) becomes bound or entitled to acquire Shares under sections 974 to 991 (inclusive) Companies Act 2006;

in circumstances where no notice has been served on the Participant pursuant to Rule 10.7, the Award may, at the discretion of the Trustee (but subject to the consent of the Committee and subject to Rule 10.6), be exercised (in so far as it shall not have lapsed under any other Rule) over such number of Matching Shares as is determined in accordance with Rule 10.12 within such reasonable period as the Trustee shall determine and notify to the Participant notwithstanding that such exercise is within the Performance Period of the Award.

10.9 In the event of notice being given to shareholders of the Company during the Performance Period of any Award convening a meeting to consider a resolution for the members' voluntary winding up of the Company, the Award may, at the discretion of the Trustee (but subject to the consent of the Committee), be exercised (in so far as it shall not have lapsed under any other Rule) over such number of Matching Shares determined by the Trustee in accordance with Rule 10.12 at any time before the commencement of the winding up, notwithstanding that such exercise or vesting is within the Performance Period.

10.10 An Award may only be exercised over any Matching Shares in the circumstances set out in Rules 10.1, 10.2 or 10.4 if and to the extent that the Trustee, acting on the recommendation of the Committee, is satisfied that the Performance Conditions have been satisfied on such modified basis as it thinks fit over the period from the beginning of the Performance Period to the date on which the Participant ceased to be in Qualifying Service and, for the purpose of determining the number of Matching Shares in respect of which the Award may be exercised as a consequence of the extent (if any) to which the Performance Conditions have been so satisfied, the maximum number of Matching Shares comprised in the Award (including for the avoidance of doubt any Dividend Equivalent Shares notionally added to the Matching Share by virtue of the operation of Rule 6.3.2) shall be such reduced number as is determined in accordance with Rule 10.11.

10.11 For the purpose of calculating the number of Matching Shares in respect of which an Award may be exercised by the Participant or which may be permitted to vest pursuant to any of Rules 10.1,

10.2 and 10.4, the maximum number of Matching Shares comprised in the Award shall be reduced to the proportion of the number of Matching Shares comprised in the Award which equals the proportion which the number of days which have elapsed from and including the first day of the applicable Performance Period to and including the day upon which the Participant ceased to be in Qualifying Service bears to the number of days in the Performance Period.

10.12 Awards may only be exercised in respect of Matching Shares in the circumstances set out in Rule 10.7, 10.8 or 10.9 if and to the extent that the Trustee, acting on the recommendation of the Committee, considers it fair and reasonable taking into account the extent to which the Performance Conditions applied over such modified period as the Trustee considers appropriate have been satisfied and such other criteria as the Trustee in its discretion considers relevant.

10.13 If an Award which has become capable of exercise pursuant to Rule 10.2 has not actually been exercised and such exercise is or has been prevented by virtue of Rule 9.1 and the last day of the period allowed for exercise under the relevant Rule has elapsed, the Award shall be capable of exercise (but only to the extent allowed pursuant to Rule 10.2) for a period ending 30 days after the first day on which Rule 9.1 no longer applies to prevent the exercise of the Award.

11. ADJUSTMENT OF AWARDS

11.1 Upon the occurrence of an Issue or Reorganisation or in such other circumstances as the Committee considers appropriate, the number of Shares (and/or their denomination) comprised in each Award may be adjusted in such manner as the Trustee may consider appropriate (after taking into account the wishes of the Committee).

12. COSTS

Any costs relating to the introduction and administration of the Plan shall be payable by the Company.

13. ADMINISTRATION

13.1 The Committee shall have power from time to time to make and vary such regulations (not being inconsistent with these Rules) for the implementation and administration of the Plan as it thinks fit.

13.2 Any notice or document to an Eligible Employee or Participant may be given either personally or through the internal post or by sending it by ordinary post, e-mail or facsimile or by other electronic means (including the internet and the intranet) to the address or number given by that person.

13.3 Where a notice or document is sent to an Eligible Employee or Participant by ordinary post, it will be treated as being received 72 hours after it was put into the post properly addressed and stamped. In all other cases, the notice or document will be treated as received when it is given.

- 13.4 All notices and documents given or sent to Eligible Employees or Participants will be given or sent at the risk of the addressee. Neither the Company nor any subsidiary nor the Trustee has any liability in respect of any notice or document given or sent, nor any obligation to check that the addressee actually receives it.
- 13.5 A notice or document to the Company or the Trustee must be given by such means as the Committee may from time to time decide. Such means may include, but not be limited to, delivering it personally or through the internal post to the recipient's registered office or principal place of business or by sending it by facsimile or e-mail or other electronic means (including the internet and the intranet).
- 13.6 Unless otherwise agreed by the Company, a notice or document given to the Company or the Trustee will only be effective once it is received by the recipient.
- 13.7 All notices and documents given or sent to the Company or the Trustee will be given or sent at the risk of the sender. Neither the Company nor any subsidiary nor the Trustee has any liability in respect of any notice or document given or sent, nor any obligation to check that the addressee actually receives it.
- 13.8 A Participant shall not be entitled to receive copies of any notice or other document sent by the Company to its shareholders.
- 13.9 The Company shall make returns of all Awards granted and exercised and shall provide such other information relating to Participants as may be from time to time required by the HM Revenue and Customs.

14. GENERAL

- 14.1 The decision of the Committee in any dispute or question concerning the construction or effect of the Plan or any other questions arising in connection with the Plan shall be final and conclusive.
- 14.2 The Board may at any time resolve to terminate the Plan in which event no further Awards shall be granted but the provisions of the Plan shall in relation to Awards then subsisting continue in full force and effect.
- 14.3 Notwithstanding any other provision of these Rules:
- (A) the Plan shall not form any part of any contract of employment between the Company or any Subsidiary and any employees of any of those companies, and it shall not confer on any such employees any legal or equitable rights (other than those constituting the Awards themselves) against the Company or any Subsidiary, directly or indirectly, or give rise to any cause of action in law or in equity against the Company or any Subsidiary;
 - (B) the benefits to Eligible Employees and Participants under the Plan shall not form any part of their wages or remuneration or count as pay or remuneration for pension fund or other purposes;

- (C) In no circumstances shall any Eligible Employee on ceasing to hold the office or employment by virtue of which he is or may be eligible to participate in the Plan be entitled to any compensation for any loss of any right or benefit or prospective right or benefit under the Plan which he might otherwise have enjoyed whether such compensation is claimed by way of damages for wrongful dismissal or other breach of contract or by way of compensation for loss of office or otherwise.
- 14.4 By accepting the grant of an Award and not renouncing it, a Participant shall be deemed to have agreed to the foregoing provisions of this Rule 14.
- 14.5 Any new Shares issued under the Plan must rank equally in all respects with other Shares then in issue except for rights which attach to Shares by reference to a record time or date prior to the time or date of issue.
- 14.6 The Company must apply to the UK Listing Authority to have any new Shares issued under the Plan admitted to the Official List and to the London Stock Exchange for permission to trade in those Shares. The Company need not do so, however, if the Shares are not traded on the London Stock Exchange.
- 15. AMENDMENTS TO THESE RULES**
- 15.1 These Rules may be amended by resolution of the Board from time to time in any manner subject to the following provisions of this Rule 15:
- 15.2 Subject as provided in Rule 15.3, no amendments shall be made to the following provisions of this Plan which are to the advantage of Participants (present or future) without the prior approval of shareholders in general meeting:

- 15.4 Subject to Rule 15.3, no amendments shall be effective materially to abrogate or alter adversely any rights then subsisting of Participants except with such consent or sanction on the part of the Participants as would be required under the provisions of the Company's Articles of Association if

the Awards constituted a single class of capital (or, where the Board deems it appropriate, two or more classes of capital according to the periods, as determined by the Board, in which the Award Dates fall) and as if such provisions applied mutatis mutandis thereto.

- 15.5 These Rules may be amended by resolution of the Board to provide for the collection or reimbursement of amounts in respect of which Participants are obliged to account to the Company or their employer(s) under the terms of the indemnity and the condition of exercise contained in Rule 8.6, provided that any such amendment shall apply equally to Awards granted but not exercised prior to the date of such amendment as to Awards granted after that date.

16. OVERSEAS EMPLOYEES

Notwithstanding any other provisions of these Rules, the Committee may, in respect of an Award granted to an Eligible Employee who is or who may become primarily subject to taxation on his remuneration outside the United Kingdom, amend or alter the provisions of any Award to take account of relevant overseas taxation or securities law provided that the Committee shall not make any such amendment or alteration which would result in an Eligible Employee being granted an Award upon terms more favourable than the terms upon which the Award could have been granted if the Eligible Employee was subject to taxation on his remuneration primarily within the United Kingdom.

17. DATA PROTECTION

- 17.1 By participating in the Plan, the Participant consents to and authorises the holding and processing of personal data provided by the Participant to the Company for all purposes relating to the operation of the Plan, including but not limited to:

3 Invitations to apply for Options

3.1 While this Scheme subsists the Board, on behalf of the Company and/or any other Grantor, may invite all Eligible Employees to apply for the grant of an Option:

- (a) within the period of 42 days commencing on the Commencement Date; or

- (b) during any Invitation Period commencing on or after the Commencement Date; or
- (c) at any other time at which the Board resolves that exceptional circumstances exist which justify the grant of Options;

provided that, if, by reason of statute, order, rule, regulation or government directive or by reason of any undertaking or agreement to which the Company may for the time being be a party, whether as a condition of or in consequence of its ordinary share capital being listed on or dealt in on any recognised stock exchange or otherwise, the Board shall be restricted from inviting applications for Options within the period referred to in paragraph (a) or within any Invitation Period, applications may be invited within the period of 42 days after the lifting of such restrictions.

3.2 In respect of each invitation made pursuant to Rule 3.1, the Board shall determine:

- (a) whether each Eligible Employee may in connection with his application for the grant of an Option:
 - (i) only enter into a three-year Savings Contract; or
 - (ii) only enter into a five-year Savings Contract; or
 - (iii) at his election, enter into either a three-year Savings Contract or a five-year Savings Contract;
- (b) where an Eligible Employee may enter into a five-year Savings Contract, whether:
 - (i) the Maximum Total Savings shall be taken as including the maximum bonus only; or
 - (ii) the Maximum Total Savings shall be taken as including the standard bonus only; or
 - (iii) the Maximum Total Savings shall be taken as including the standard bonus unless the Eligible Employee elects that it shall be taken as including the maximum bonus;
- (c) the Option Price, which, in a case where an Eligible Employee may select either a three-year Savings Contract or a five-year Savings Contract, may differ depending on such selection;
- (d) the Minimum Monthly Saving;
- (e) the limit applicable to such invitation in accordance with Rule 4.4; and
- (f) the closing date for applications, which shall not be less than 14 days nor more than 21 days after the relevant Invitation Date;

and shall specify its determination in such invitation.

4 **Applications for Options**

4.1 Each application for an Option under this Scheme shall be made, by the closing date specified in accordance with Rule 3.2, in such form as the Board may require and shall be accompanied by a proposal form for a single Savings Contract which has been duly completed and signed by the applicant. Such form of application shall provide for the applicant:

- (a) to specify the amount (being a multiple of £1 and not less than the Minimum Monthly Saving) which the Eligible Employee wishes to save each month under the Savings Contract, subject to the limit determined in accordance with Rule 4.4, and whether he is applying for a three-year Savings Contract or a five-year Savings Contract;
- (b) where the applicant applies for a five-year Savings Contract and the Board has determined that each Eligible Employee may elect whether the Maximum Total Savings shall be taken as including the maximum bonus, to elect whether the Maximum Total Savings under such five-year Savings Contract shall be taken as including the maximum bonus;
- (c) to authorise the Participating Company by whom the Eligible Employee is from time to time employed to deduct such amount (or such lesser amount as is appropriate to the reduced amount determined in accordance with Rule 4.3) from his pay; and
- (d) to authorise the said proposal form to be completed or amended to give effect to any scaling down made in accordance with Rule 4.3.

4.2 The number of Scheme Shares comprised in an Option shall be equal to the number (without involving fractions of a Scheme Share) which can be acquired at the Option Price with an amount which is as nearly as possible equal to but does not exceed the Maximum Total Savings (as reduced by the application of Rule 4.3 where appropriate) of the Participant under the Savings Contract entered into by him in connection with the grant of that Option.

4.3 In the event that, following any invitation issued by the Company pursuant to Rule 3.1, the Company receives valid applications which (but for the provisions of this Rule 4.3) would result in the grant of Options over a number of Scheme Shares in excess of that permitted under Rule 6 or that which the Board may in its discretion determine appropriate to permit reasonable participation in the Scheme by Eligible Employees at subsequent Invitation Dates, the Board shall take one or more of the following steps (a) to (d) (the order of such steps being determined at its discretion) to the extent necessary to eliminate the excess:

- (a) any election for the maximum bonus to be included in the repayment under the Savings Contract shall be ignored so that the Maximum Total Savings shall include only the standard bonus; and/or
- (b) the excess over the Minimum Monthly Saving of the monthly savings contribution chosen by each applicant shall be reduced pro rata to the extent necessary; and/or
- (c) the Maximum Total Savings shall be treated as including no bonus on the repayment under the Savings Contract; and/or

- (d) the Board shall determine a sum pursuant to Rule 4.4(b) (or, if it shall previously have so determined a sum, a reduced sum) and monthly savings contributions chosen by applicants in excess of such sum or reduced sum shall be reduced accordingly;

and thereafter, if each of the above steps has been taken to the maximum extent, with the result that all monthly savings contributions have been reduced to an amount equal to the Minimum Monthly Saving, but there remains an excess, the Board shall take the following steps (e) and (f) successively to the extent necessary to eliminate the remaining excess:

- (e) where Eligible Employees have been invited to apply for a three-year Savings Contract and/or a five-year Savings Contract, each application for a five-year Savings Contract shall be deemed to be an application for a three-year Savings Contract with a monthly savings contribution equal to the Minimum Monthly Saving; and then
- (f) applications shall be selected by lot, each based on a monthly savings contribution equal to the Minimum Monthly Saving and on the basis that the Maximum Total Savings are treated as including no bonus on the repayment under the Savings Contract.

4.4 The limit referred to in Rule 4.1 in respect of any invitation issued by the Company pursuant to Rule 2.1 is the lesser of:

- (a) the maximum permitted by paragraph 25(3)(a) of Schedule 3; and
- (b) £250 per month or such lesser sum, if any, (being a multiple of £1 and not less than the Minimum Monthly Saving) as the Board shall determine in respect of that invitation in accordance with Rule 3.2(e).

5 Grant of Options

- 5.1 The Company shall in accordance with Rule 4 determine the number of Scheme Shares in respect of which an Option is to be granted to each applicant and subject to Rule 4 Options will be granted by the Company or the relevant Grantor to those who have applied hereunder and who are still in Qualifying Service at the relevant Date of Grant, within 30 days (or, if Rule 4.3 applies, 42 days) following the third Business Day immediately preceding the relevant Invitation Date provided that an Option may not be granted to an applicant who, on the Date of Grant, is not eligible to participate in the Scheme by virtue of the provisions of paragraph 11 of Schedule 3.
- 5.2 No monetary payment to the Company or any Grantor shall be required from a Participant in consideration for the grant of an Option.
- 5.3 The grant of an Option hereunder shall be evidenced by a certificate issued by the Company to each Participant specifying the Date of Grant, the number of Scheme Shares over which the Option is granted and the Option Price thereof.
- 5.4 No Options may be granted under this Scheme after 1 July 2018 but any rights of Participants then subsisting shall remain in force.

6 Limits on the issue of Scheme Shares

6.1 The Board must make sure that the nominal amount of Shares over which Options are granted on any date does not exceed the limit set out in Rule 6.3. This limitation only applies to Options which are to be satisfied by the issue of new Shares or the transfer of treasury shares

6.2 In this Rule 6:

- (a) "allocate" means the issue of new shares or the transfer of treasury shares by the Company or the old company in respect of a person's rights under an award;
- (b) an "award" means any option or other right to acquire or receive shares whether conditional or unconditional and whether or not for payment;
- (c) an "employee share scheme" means any scheme for employees which has been approved by the Company or the old company in general meeting;
- (d) "equity share capital" has the same meaning as in section 548 of the Companies Act 2006 and, for the avoidance of doubt, includes any shares held as treasury shares;
- (e) the "old company" means United Utilities PLC (incorporated in England and Wales with No. 2366616);
- (f) "treasury shares" has the same meaning as in Chapter 6 of the Companies Act 2006;
- (g) no account will be taken of shares acquired by an employee or former employee (or the personal representatives of such a person) where the shares are acquired for a price equal to their market value at or about the date of acquisition and the cost of acquisition is borne by the employee or former employee (or his estate);
- (h) subject to (i), no account will be taken of an award if and to the extent that the Board considers that it will be satisfied by the transfer of existing shares (other than treasury shares);
- (i) any shares allocated or remaining to be allocated to the trustees of any trust which were used or which are to be used to satisfy awards granted under an employee share scheme must be treated as having been allocated or as remaining to be allocated in respect of those awards unless the shares were acquired by the trustees pursuant to a rights issue or other opportunity offered to the trustees in respect of shares other than shares previously allocated to them; and
- (j) where an award was granted to an individual in consideration of the release by the individual of an award previously granted to him under an employee share scheme, then the earlier award shall be ignored and the later award shall be deemed to have been granted at the same time as the earlier award.

6.3 The limit for this Rule is 10% of the nominal amount of the Company's equity share capital on the day before the Date of Grant, less the aggregate of the nominal amounts of:

- (a) shares allocated in respect of awards granted within the previous 10 years under any employee share scheme;
- (b) shares remaining to be allocated in respect of awards granted within the previous 10 years under any employee share scheme; and
- (c) shares allocated on the same date or within the previous 10 years under any employee share scheme otherwise than in respect of an award.

7 Option Price and variations in share capital

7.1 Subject to Rule 7.2, the Option Price in respect of any Scheme Share comprised in an Option shall be such amount as the Board may determine (subject, in the case of an Option to be granted by a Grantor, to the agreement of such Grantor) prior to the grant of such Option not being manifestly less than:

- (a) while ordinary shares in the Company of the same class as Scheme Shares are listed on the London Stock Exchange, either:
 - (i) 80 per cent. of the average of the middle market quotations of such an ordinary share as derived from the Daily Official Lists of the London Stock Exchange dated the three Business Days immediately preceding the relevant Invitation Date; or
 - (ii) the middle market quotation of such an ordinary share as derived from the Daily Official List of the London Stock Exchange dated such other day as HMRC may agree; or
- (b) in any other case, 80 per cent. of the Market Value of a Scheme Share on the relevant Invitation Date;

provided that, in the case of an Option requiring the Company to issue any unissued Scheme Share upon exercise thereof, the Option Price shall not be less than the nominal value of a Scheme Share.

7.2 In the event of a capitalisation issue or a rights issue or a subdivision, consolidation or reduction of share capital of the Company or any other variation of share capital, the number of Scheme Shares comprised in an Option and the Option Price thereof shall, subject to Rule 7.3, be adjusted by the Board in such manner and with effect from such date as it may determine (if at all) to be appropriate (not excluding retrospective adjustments where such variation occurs after the date of exercise of an Option but the record date relating to such variation precedes such date of exercise) provided that:

- (a) any such adjustments shall be made on the basis that the total Option Price originally payable by a Participant on full exercise of his Option shall as nearly as practicable remain unchanged;
- (b) no adjustment shall be made in the event of a capitalisation issue made for the purpose of a scrip dividend to which section 249 of the Income and Corporation Taxes Act 1988

applies, unless such scrip dividend is an enhanced scrip dividend in which event the adjustment shall be limited to that necessary to take account of so much of the ordinary share capital issued which would not have been issued but for such enhancement;

- (c) where the Option was granted by any Grantor, no adjustment shall be made without the prior written approval of such Grantor; and
- (d) no adjustment shall be made without the prior approval of HMRC

and provided further that the issue of shares or securities as consideration for an acquisition shall not be regarded as a circumstance requiring any such adjustment.

7.3 The Option Price of an Option may be adjusted to a price less than the nominal value of a Scheme Share provided that, in the case of an Option requiring the Company to issue unissued Scheme Shares, if at the date of exercise of such Option and the date of allotment of the relevant Scheme Shares the Board:

- (a) does not have authority to effect capitalisation of part of the reserves of the Company in an amount ("the Relevant Amount") equal to the difference between the adjusted Option Price payable in respect of the Scheme Shares to be issued on exercise and the nominal value of such Scheme Shares ("the Relevant Authority"); or
- (b) has the Relevant Authority, but the Company has no reserves for capitalisation; or
- (c) has the Relevant Authority, but the Company has insufficient reserves available for capitalisation to capitalise the Relevant Amount in respect of all the Scheme Shares to be issued in respect of which the Option is being exercised;

the adjusted Option Price of such Option shall be the nominal value of a Scheme Share. To the extent that any Option requiring the Company to issue unissued Scheme Shares is exercised at an Option Price which is less than the nominal value of a Scheme Share, the Board shall resolve to capitalise the Relevant Amount.

8 Exercise of Option

8.1 It shall be a condition of the exercise of an Option under this Scheme that the Scheme Shares acquired on such exercise shall be paid for with monies not exceeding the amount of Total Savings under the Savings Contract entered into by the Participant in connection with the grant of the Option concerned.

8.2 Subject to the provisions of this Rule 8 and of Rule 9, an Option may be exercised only within the following periods:

- (a) the period of six months following the Bonus Date under the relevant Savings Contract;

Any such renunciation shall be without prejudice to the rights of the Participant under the relative Savings Contract.

10 Changes in control, reconstruction and voluntary winding up of the company

10.1 If any person obtains control of the Company as a result of making either:

- (a) a general offer to acquire the whole of the issued ordinary share capital of the Company (excluding any such ordinary share capital already owned or controlled by that person) which is made on a condition such that if it is satisfied the person making the offer will have control of the Company, or
- (b) a general offer to acquire all the issued ordinary share capital of the Company of the same class as the Scheme Shares (excluding any such ordinary share capital already owned or controlled by that person),

Options may be exercised subject to and in accordance with Rule 8 within six months of the time when the person making the offer has obtained control of the Company and any condition subject to which the offer is made has been satisfied and if not so exercised shall then lapse, subject always to Rule 10.2. For the purposes of this Rule 10.1 a person shall be deemed to have obtained control of the Company if he and others acting in concert with him have together obtained control of it.

10.2 If any person becomes bound or entitled to acquire shares in the Company under section 979 of the Companies Act 2006, Options may be exercised subject to and in accordance with Rule 8 at any time when such person remains so bound or entitled and if not so exercised shall thereafter lapse.

10.3 If under section 899 of the Companies Act 2006 the Court sanctions a compromise or arrangement proposed for the purposes of or in connection with a scheme for the reconstruction of the Company or its amalgamation with any other company or companies, Options may be exercised subject to and in accordance with Rule 8 within six months of the Court sanctioning the compromise or arrangement and if not so exercised shall thereafter lapse.

10.4 Upon the passing of a resolution for the voluntary winding-up of the Company, Options may be exercised subject to and in accordance with Rule 8 within six months after the passing of the resolution and shall thereafter lapse.

11 Release of Options and grant of New Rights

11.1 If any company ("the Acquiring Company"):

- (a) obtains control of the Company as a result of making:
 - (i) a general offer to acquire the whole of the issued ordinary share capital of the Company (excluding any such ordinary share capital already owned or controlled by the Acquiring Company) which is made on a condition such that if it is satisfied the person making the offer will have control of the Company, or
 - (ii) a general offer to acquire all the issued ordinary share capital of the Company of the same class as the Scheme Shares (excluding any such ordinary share capital already owned or controlled by the Acquiring Company), or

- (b) obtains control of the Company in pursuance of a compromise or arrangement sanctioned by the Court under section 899 of the Companies Act 2006, or
- (c) becomes bound or entitled to acquire shares in the Company under sections 979 to 982 Companies Act 2006,

any Participant may, at any time within the appropriate period as set out in paragraph 38(3) of Schedule 3, by agreement with the Acquiring Company, release his Option in consideration of the grant to him of a right (a "New Right") which is equivalent to his Option but relates to shares in a different company (whether the Acquiring Company itself or some other company falling within sub-paragraph (b) or sub-paragraph (c) of paragraph 18 of Schedule 3).

11.2 If all of the conditions set out in this Rule 11.2 are met, the Board may determine that a Participant will be deemed to have agreed to the release of his Option in return for the grant of a New Right. The conditions are:

- (i) there is a scheme of arrangement under Section 899 of the Companies Act 2006 under which the Acquiring Company acquires Control of the Company;
- (ii) the persons owning shares in the Company immediately before the change of Control will immediately after the change of Control own at least 95 per cent. of the shares of the Acquiring Company;
- (iii) the Participant does not object to the release of his Option in return for the grant of a New Right; and
- (iv) HMRC agree to the operation of this Rule 11.2 in relation to the particular transaction.

11.3 The New Right shall not be regarded for the purposes of this Rule 11 as equivalent to the Option unless it would be so regarded for the purposes of sub-paragraph (4) of paragraph 39 of Schedule 3.

11.4 Where any New Right is granted pursuant to this Rule 11 it shall be regarded for the purposes of the SAYE Code (as defined in section 516(3) of the ITEPA 2003) as having been granted at the time when the corresponding Option was granted.

11.5 The provisions for the release by a Participant of his Option in consideration of the grant to him of a New Right pursuant to Rule 11.1 are in addition to and not in substitution for the right of a Participant to exercise his Option pursuant to the provisions of Rules 10.1, 10.2 and 10.3.

11.6 With effect from the release:

- (a) these Rules shall, in relation to the New Rights, be construed as if references to an Option and to Options were references to a New Right and New Rights;
- (b) The definition of Relevant Electronic System in Rule 1 and Rules 7.2, 8.1, 8.6 to 8.13 inclusive, 10, 11 and 13 shall, in relation to the New Right, be construed as if references to the Company and to Scheme Shares were references to the Acquiring Company or, as the case may require, the other company in respect of whose shares the New Right is

granted and to shares in the Acquiring Company or, as the case may be, such other company;

- (c) Rules 7.2 and 8.6 shall, in relation to the New Rights, be construed as if references to the Option Price were references to the price to be paid on exercise of the New Right for each share in respect of which the New Right has been granted which may be agreed between the Acquiring Company and the Participant; and
- (d) Rule 7.2 shall, in relation to the New Rights, be construed as if references to the Auditors were references to the auditors for the time being of the Acquiring Company or the other company in respect of whose shares the New Right is granted, as the case may be.

12 Non-transferability

- 12.1 No Option shall be capable of transfer or assignment by a Participant and, save as provided by Rule 11, if a Participant does or suffers any thing whereby he would or might be deprived of the legal or beneficial ownership of an Option, that Option shall forthwith lapse.

13 Administration

- 13.1 The Company shall keep available for issue sufficient authorised and unissued ordinary share capital, and/or shall have and maintain in place arrangements which, in the reasonable opinion of the Board, will enable the Company to procure the transfer of sufficient issued Scheme Shares, to satisfy the exercise in full of all Options granted by the Company and for the time being remaining capable of being exercised.
- 13.2 The Company shall bear the costs of establishing and administering this Scheme.
- 13.3 The Company shall maintain or cause to be maintained all necessary accounts and records relating to this Scheme.

14 Regulations and amendments

- 14.1 This Scheme shall be administered by the Board, who may from time to time make such regulations for its operation as they think fit not being inconsistent with these Rules as necessary. Any question concerning the interpretation of these Rules or of such regulations as aforesaid, including the eligibility of a person to participate or the extent to which he shall participate or continue to participate in this Scheme or as to whether an event has occurred upon which any Option has become exercisable or has lapsed, shall be determined by the Board and such decision shall be final and binding upon all Eligible Employees and Participants.
- 14.2 Subject to Rule 14.4, the Board shall be entitled by resolution to amend all or any of the provisions of this Scheme except that:
 - (a) (save as provided in Rules 7.2 and 14.3) no amendment to the advantage of current or prospective Participants shall be made, without the prior sanction of an ordinary resolution of the Company in general meeting, to:

- (i) the definition of Eligible Employee;
 - (ii) the time or times at which and the circumstances in which Options may be granted or exercised;
 - (iii) the basis of calculation of the Option Price;
 - (iv) the basis on which any adjustment may be made to the Option Price or to the number of Scheme Shares subject to Options or available for the Scheme;
 - (v) the basis of calculation of the total numbers of Scheme Shares available for the Scheme;
 - (vi) the basis of calculation of the maximum number of Scheme Shares which may be subject to Options granted to any one Eligible Employee; or
 - (vii) Rules 14.2 and 14.3; and
- (b) (save as provided in Rule 14.3) no amendment shall be effective which would materially prejudice the interests of Participants in relation to Options already granted to them unless with such prior consent or sanction of Participants as would be required under the provisions for the alteration of class rights contained in the Articles of Association of the Company for the time being if the Scheme Shares to be allotted on the exercise of the Options constituted a separate but single class of shares (or two or more classes of shares according to the respective Dates of Grant as the Board may deem appropriate) and such shares were entitled to such rights.

14.3 The Board may, without the sanction of an ordinary resolution of the Company in general meeting but subject always to Rule 14.4, make minor amendments to these Rules to benefit the administration of this Scheme and amendments, to take account of any change in legislation or to obtain or maintain favourable tax, exchange control or regulatory treatment for the Company, any other Participating Company or any existing, future or prospective Participant (including, without limitation, to obtain or maintain HMRC approval of this Scheme under Schedule 3).

14.4 For so long as it is intended that the Scheme be approved under the ITEPA 2003, no change to a key feature of the Scheme which is necessary in order to meet the requirements of Schedule 3 will have effect unless it has been approved by HMRC but the creation of a sub-scheme which is not intended to qualify for approval under the ITEPA 2003 does not require the approval of HMRC. The Company must tell HMRC immediately of any change.

15.1 Any notice or document to an Eligible Employee or Participant may be given either personally or through the internal post or by sending it by ordinary post, e-mail or facsimile or by other electronic means (including the internet and the intranet) to the address or number given by that person.

- 15.2 Where a notice or document is sent to an Eligible Employee or Participant by ordinary post, it will be treated as being received 72 hours after it was put into the post properly addressed and stamped. In all other cases, the notice or document will be treated as received when it is given.

- 3.3 The maximum number of Shares comprised in an Award to any Eligible Employee shall be determined by dividing the amount recommended by the Committee in accordance with Rule 2.1(b) or such lesser amount as the Trustees may decide by the Market Value of a Share on the applicable Date of Award.
- 3.4 In making any Award under the Plan the Trustees shall determine that the exercise or vesting of such Award shall be conditional on the satisfaction of one or more performance or other conditions determined by the Trustees on the recommendation of the Committee before such Award is made. Any such Performance Condition may provide that the Award shall become exercisable or, as the case may be, shall vest in respect of a given number or proportion of the Shares comprised in the Award according to whether, and the extent to which, such condition is met.
- 3.5 If prior to the satisfaction of any Performance Condition imposed pursuant to Rule 3.4, an event occurs which causes the Trustees reasonably to consider that any such Performance Condition would not, without some alteration or addition, achieve its original purpose, the Trustees may, after consulting with the Committee, make such alteration or addition to such Performance Condition as they consider fair and reasonable but so that such Performance Condition shall not be any more difficult to satisfy after such alteration or addition than it was as originally imposed.
- 3.6 An Award shall be made to an Eligible Employee by deed in such form as the Trustees may decide (an "Award Deed") which shall be executed by the Trustees and shall take effect on delivery of the Award Deed by the Trustees, provided that, unless the Eligible Employee has previously irrevocably agreed with the Trustees to be bound by the Rules and the terms of any Award which may be made to him, the Award shall be conditional upon the Eligible Employee so agreeing with the Trustees within 90 days after the date of delivery of the Award Deed by the Trustees and, if the Eligible Employee shall fail to execute such an agreement within such period, the Award shall lapse and be deemed never to have been made.
- 3.7 An Award shall be evidenced by an Award Certificate or such other notification (which may, but need not, constitute an Award Deed) issued by or on behalf of the Trustees to the Participant specifying:
- (a) the Date of Award;
 - (b) whether the Award is an Option Award or a Contingent Award;
 - (c) the maximum number of Shares to which the Award relates, being the maximum number of Shares which may be acquired on exercise of an Option Award or the maximum number of Shares which may vest pursuant to a Contingent Award;
 - (d) the Performance Period; and
 - (e) details of any Performance Conditions imposed in relation to the Award pursuant to Rule 3.4.
- 3.8 No monetary consideration shall be payable for the making or grant of an Award or in the respect of the vesting or exercise of any Award.

3.9 Each Award shall be personal to the Participant and shall not (save as provided in Rules 6.1 and 6.3) be capable of being transferred, assigned, charged, encumbered or in any way dealt in or of being listed or dealt in on any stock exchange and, if (save as aforesaid) any Award or any interest therein is or is purported to be transferred, assigned, charged, encumbered or in any way dealt in, such Award shall lapse and the Trustees shall not knowingly permit its vesting or exercise.

3.10 No Award shall be made after 1 July 2018.

3.11 The Company may in any such agreement between the Participant and the Trustees as is referred to in Rule 3.6, if and to the extent so permitted by law, make it a condition of the exercise of an Option Award that the Participant makes good to the Trustees or the Company or any other member of the Group or any other person (other than the Participant) all or such part as may be specified in the Award Deed of any secondary national insurance contributions for which the Trustees, the Company or any other member of the Group or any such other person is liable as a consequence of such exercise.

4 Certification of Performance Conditions

4.1 The Company shall or shall procure that, as soon as practicable after the end of the Performance Period in relation to any Awards, it shall be ascertained whether or not all or any of the Performance Conditions have been satisfied and the Company shall use its reasonable endeavours to cause a notice (a "Performance Certificate") to be issued to the Trustees within four months following the expiry of the relevant Performance Period notifying the Trustees whether or not the Awards, if they are Option Awards, are exercisable or, if they are Contingent Awards, have vested in accordance with the Plan and the Award Certificate and

(a) if the Performance Certificate shall notify the Trustees that none of the Performance Conditions has been satisfied, the Award shall lapse in its entirety forthwith upon receipt by the Trustees of the Performance Certificate; or

(b) if the Performance Certificate shall notify the Trustees that an Award is exercisable or has vested in accordance with Rule 4.1, it shall also notify the Trustees of the number of Shares in respect of which the Award, if it is an Option Award, may be exercised by the Participant or, if the Award is a Contingent Award, has vested and the Award shall lapse forthwith upon receipt by the Trustees of the Performance Certificate in respect of any Shares in respect of which it does not then become exercisable or does not then vest.

4.2 The Company shall give notice to the Participant of the information notified to the Trustees in accordance with Rule 4.1 relating to any Award made to him.

5 Exercise and Vesting of Award in normal circumstances

5.1 Save as otherwise provided in Rule 6, an Option Award shall only be capable of being exercised and a Contingent Award shall only be capable of vesting:

(a) if the Participant has been in Qualifying Service throughout the period commencing on the applicable Date of Award and ending at the end of the applicable Performance Period; and

- (b) if the Performance Certificate issued pursuant to Rule 4.1 shall certify that the Performance Conditions imposed pursuant to Rule 3.4 have been satisfied

but shall only be exercisable or vest to the extent specified in the relevant Performance Certificate.

5.2 An Award shall lapse on the happening of the earliest of the following events:

- (a) where Rule 4.1(a) applies, the receipt by the Trustees of the relevant Performance Certificate;
- (b) where Rule 4.1(b) applies, the receipt by the Trustees of the relevant Performance Certificate, but only to the extent determined in accordance with the relevant Performance Certificate;
- (c) in the case of an Option Award, the expiry of its Exercise Period, unless the Participant shall have died at any time before the expiry of the Exercise Period;
- (d) the Participant ceasing to be in Qualifying Service during the applicable Performance Period save to the extent (if any) to which the Trustees permit him (or his personal representatives) to exercise of the Option Award or permit the Award to vest in each case pursuant to Rule 6.1 or Rule 6.2;
- (e) in the case of an Option Award, the expiry of the period permitted for the exercise of the Option Award by the Participant's personal representatives in accordance with Rule 6.1, Rule 6.3 or Rule 6.4;
- (f) in the case of an Option Award, the expiry of the period permitted for exercise by the Participant of the Option Award in accordance with Rule 6.2 unless the Participant shall die during such period;
- (g) the expiry of the period specified in accordance with Rule 6.6;
- (h) the passing of a resolution for the voluntary winding up of the Company or the making of an order for its compulsory winding up;
- (i) the Participant becoming bankrupt;
- (j) in the case of an Option Award, the tenth anniversary of its Date of Award; and
- (k) in the case of an Option Award, the first anniversary of the death of the Participant.

6 Right to exercise and vesting of Award in special circumstances

- 6.1 In the event of the death of the Participant during the Performance Period of an Award while he is in Qualifying Service and prior to the occurrence of any such event as is referred to in any of Rules 6.6, 6.7, 6.8 and 6.9, the Trustees may, in their discretion but subject to the consent of the Committee, cause the Award to vest immediately to such extent as the Trustees may determine in accordance with Rule 6.10 and, in the case of an Option Award, may permit the personal

representatives of the Participant to exercise the Option Award to the extent so determined during such period (not exceeding 12 months) after the date of the Participant's death as they may determine.

6.2 In the event of a Participant ceasing to be in Qualifying Service during the Performance Period of an Award and prior to the occurrence of any such event as is referred to in any of Rules 6.6, 6.7, 6.8, and 6.9, by reason of:

- (a) retirement on or after reaching his normal retirement date (or if there is no such date, the date on which the Participant has reached the age at which he is no longer permitted to work without the consent of his employer) or, with the consent of the Committee, prior to that date;
- (b) redundancy (within the meaning of the Employment Rights Act 1996);
- (c) injury, disability or ill-health (evidenced to the satisfaction of the Company and the Trustees);
- (d) the company by which he is employed ceasing to be a member of the Group;
- (e) the undertaking in which he is employed being sold or transferred outside the Group; or
- (f) other special circumstances as determined by the Trustees with the consent of the Committee,

the Trustees may, in their discretion but subject to the consent of the Committee, permit the Award to vest after the issue of the Performance Certificate in respect of such Award at the conclusion of the Performance Period but so that the maximum number of Shares in respect of which the Award shall be capable of so vesting shall be reduced in accordance with Rule 6.11 and provided that, except in a case falling within Rule 6.2(f), the Trustees may, in their discretion but subject to the consent of the Committee, cause the Award to vest immediately to such extent as the Trustees may determine in accordance with Rule 6.10 and, in the case of an Option Award, may permit the Participant to exercise the Option Award to the extent so determined during, subject to Rule 6.13, such period as they may determine.

6.3 In the event of the death of the Participant:

- (a) after the end of the Performance Period of an Option Award and before the expiry of its Exercise Period; or
- (b) while he is entitled to exercise an Option Award pursuant to Rule 6.2,

his personal representatives may exercise that Option Award (in so far as it shall not have lapsed under any other Rule) during the period of 12 months following the date of the Participant's death, but, in the case of his death while he was entitled to exercise an Option Award pursuant to Rule 6.2, only to the extent to which he was permitted to exercise such Option Award in accordance with Rule 6.2.

- 6.4 In the event of the death of the Participant after he has ceased to be in Qualifying Service and before an Award has become exercisable or vested in accordance with Rule 6.2 and prior to the occurrence of any such event as is referred to in any of Rules 6.6, 6.7, 6.8 and 6.9, the Trustees may, in their discretion but subject to the consent of the Committee, cause the Award to vest immediately to such extent as the Trustees may determine in accordance with Rule 6.10 and, in the case of an Option Award, may permit the personal representatives of the Participant to exercise the Option Award to the extent so determined during such period (not exceeding 12 months) after the date of the Participant's death as they may determine.
- 6.5 If a Participant ceases to be in Qualifying Service during the Performance Period of an Award and prior to the occurrence of any such event as is referred to in any of Rules 6.6, 6.7, 6.8 and 6.9 for any reason other than those specified in Rules 6.1, 6.2, 6.3 and 6.4, the Award shall lapse immediately upon cessation of Qualifying Service.
- 6.6 In the event that notice is given to shareholders of the Company of a resolution to approve the reconstruction or demerger of the Company or of any other member of the Group, the Trustees may make such provision for the variation of the terms of any Award and/or the applicable Performance Condition(s) and/or for early exercise or early vesting (in whole or in part) of Awards as the Trustees shall, in the exercise of their discretion (having regard to the recommendation of the Committee), consider appropriate to take proper account of such circumstances, provided that:
- (a) in exercising such discretion for this purpose the Trustees shall have due regard to the object and purposes of the Company and the Trustees in establishing the Plan;
 - (b) no such provision shall be made without the consent of the Committee; and
 - (c) no such provision shall take effect so as to abrogate the rights of a Participant without the Trustees first obtaining his consent.
- 6.7 If a general offer is made to acquire the whole or part of the issued ordinary share capital of the Company (or such part of such capital as is not then owned by the offeror or any company controlled by the offeror and/or any persons acting In Concert with the offeror) as a result of which the offeror (or any such companies and/or persons as aforesaid) may gain control of the Company then the Trustees may (with the consent of the Committee) serve a notice on each Participant at any time before the later of the date on which control of the Company passes and the date on which any condition subject to which the offer is made has been satisfied ("the Take-over Date") which permits a Participant, to exercise any Option Award which has not yet become exercisable or causes a Contingent Award which has not yet vested to vest within the period commencing on the date of such notice and expiring on the Take-over Date provided that any such exercise or vesting shall be conditional upon and shall not take effect until immediately before the Take-over Date, to such extent as the Trustees may, in their discretion but subject to the consent of the Committee, determine in accordance with Rule 6.12, notwithstanding that such exercise or vesting is within the Performance Period of the Award. If the Take-over Date does not arise, the exercise or vesting of an Award pursuant to this Rule 6.7 shall be null and void and such Award shall remain in force and may be subsequently exercised in accordance with and subject to these Rules.
- 6.8 If during the Performance Period of an Award any person:

- (a) obtains control of the Company as a result of making a general offer:
 - (i) to acquire the whole of the issued share capital of the Company made subject to a condition such that if it is satisfied the person making the offer will have control of the Company; or
 - (ii) to acquire all the shares in the Company which are of the same class as the Shares;
- (b) obtains control of the Company in pursuance of a compromise or arrangement sanctioned by the Court under section 899 of the Companies Act 2006; or
- (c) becomes bound or entitled to acquire Shares under sections 974 to 991 (inclusive) of the Companies Act 2006;

then the Trustees may, in their discretion but subject to the consent of the Committee, permit the Participant to exercise an Option Award which has not yet become exercisable or may cause a Contingent Award which has not yet vested to vest within such reasonable period as the Trustees shall determine and notify to the Participant to such extent as the Trustees may, in their discretion but subject to the consent of the Committee, determine in accordance with Rule 6.12, notwithstanding that such exercise or vesting is within the Performance Period of the Award,

- 6.9 In the event of notice being given to shareholders of the Company during the Performance Period of any Award convening a meeting to consider a resolution for the members' voluntary winding up of the Company, the Trustees may, in their discretion but subject to the consent of the Committee, permit the Participant to exercise the Award if it is an Option Award or may cause the Award to vest at any time before the commencement of the winding up to such extent as the Committee may, in their discretion but subject to the consent of the Committee, determine in accordance with Rule 6.12, notwithstanding that such exercise or vesting is within the Performance Period.
- 6.10 An Award may only be exercised or vest in the circumstances set out in Rules 6.1, 6.2 or 6.4 if and to the extent that the Trustees, acting on the recommendation of the Committee, are satisfied that the Performance Conditions have been satisfied on such modified basis as they think fit over the period from the beginning of the Performance Period to the date on which the Participant ceased to be in Qualifying Service and, for the purpose of determining the number of Shares in respect of which the Award vests as a consequence of the extent (if any) to which the Performance Condition(s) have been so satisfied, the maximum number of Shares comprised in the Award shall be such reduced number as is determined in accordance with Rule 6.11.
- 6.11 For the purpose of calculating the number of Shares in respect of which an Award may be exercised by the Participant or which may be permitted to vest pursuant to any of Rules 6.1, 6.2 and 6.4, the maximum number of Shares comprised in the Award shall be reduced to the proportion of the number of Shares originally comprised in the Award which equals the proportion which the number of days which have elapsed from and including the first day of the applicable Performance Period to and including the day upon which the Participant ceased to be in Qualifying Service bears to the number of days in the Performance Period.

6.12 Awards may only be exercised or vest in the circumstances set out in Rule 6.7, 6.8 or 6.9 if and to the extent that the Trustees, acting on the recommendation of the Committee, consider it fair and reasonable taking into account the extent to which the Performance Conditions applied over such modified period as the Trustees consider appropriate have been satisfied and such other criteria as the Trustees in their discretion consider relevant.

6.13 If an Award which has become capable of exercise pursuant to Rule 6.2 and such exercise is or has been prevented by virtue of Rule 7.1 and the last day of the period allowed for exercise under the relevant Rule has elapsed, the Award shall be capable of exercise (but only to the extent allowed pursuant to Rule 6.2) for a period ending 30 days after the first day on which Rule 7.1 no longer applies to prevent the exercise of the Award.

7 Exercise and Vesting of Awards

7.1 No Option Award shall be exercised and no Shares shall be issued or transferred pursuant to the grant or vesting of any Award save in accordance with the then current model code on directors' dealings in listed securities traded on the London Stock Exchange or such other code of dealing in terms no less exacting than such model code as may be adopted by the Company. This restriction shall apply to all Participants and not only to directors of the Company.

7.2 All transfers of Shares to a Participant on the grant or vesting of an Award or on the exercise of an Option Award will be subject to the obtaining of any necessary consents under any relevant enactments or regulations for the time being in force and it shall be the responsibility of the Participant to comply with any requirements to be fulfilled in order to obtain or obviate any such consents.

7.3 An Option Award may only be exercised by a Participant giving notice to the Company in the form and manner prescribed by the Committee.

7.4 An Option Award shall be capable of exercise on one occasion only and, if an Option Award is exercised in respect of part only of the Shares then subject to that Option Award, that Option Award shall lapse in respect of the balance of such Shares. Exercise of an Option Award shall only be effective:

- (a) upon receipt of the duly completed form of exercise and
- (b) any payment, authority or other security required in accordance with Rule 7.6.

7.5 The exercise of an Option Award by a Participant and the execution by any Participant of such an agreement as is referred to in Rule 3.6 shall constitute the agreement and undertaking of the Participant with the Trustees that he will forthwith upon demand from the Company pay to the Company or as the Company may direct:

- (a) any amount of income tax or other tax of the United Kingdom or primary national insurance contributions of the United Kingdom for which the Participant may be liable or which may be payable in respect of the Participant as a consequence of the grant or exercise or vesting of any Award or any appropriation or transfer of any Shares to a Participant pursuant to the Plan or any payment to a Participant pursuant to the Plan and which the Trustees, the Company or any other member of the Group (past or

present) or any other person (other than the Participant) is required (whether such requirement is legally enforceable or not) to pay to HM Revenue & Customs or any other taxation authority; and

- (b) any amounts of secondary national insurance contributions for which the Trustees, the Company or any such other member of the Group or any such other person is liable as a consequence of the grant or exercise or vesting of any Award or any appropriation or transfer of any Shares to a Participant pursuant to the Plan or any payment to a Participant pursuant to the Plan to the extent that the Trustees, the Company or any such other member of the Group or any such other person may lawfully be entitled to require, or may lawfully have agreed with the Participant, that the Participant will make good the same to the Trustees, the Company or any other member of the Group (past or present) or any such other person;

and shall also constitute authority to the Trustees, the Company, each such other member of the Group and any such other person acting on their behalf to deduct any amount so demanded which remains unpaid from payments otherwise payable to the Participant, including but not limited to authority to deduct from wages or salary for the purposes of Part 2 of the Employment Rights Act 1996.

- 7.6 Without prejudice to the generality of Rule 7.5, the exercise of an Option Award, the vesting of a Contingent Award or the execution by any Participant of such an agreement as is referred to in Rule 3.6 shall constitute irrevocable authority from the Participant to the Trustees authorising the Trustees to sell such number of the Shares in respect of which the Option Award has been exercised or which have vested pursuant the Contingent Award as may be necessary to raise the required funds and to apply the same in discharge of any sum referred to in Rule 7.5(a) and/or (b) which may become due from the Participant as a consequence of such exercise or vesting.
- 7.7 Subject to Rules 7.6 and 7.9, upon the exercise of an Option Award becoming effective or upon a Contingent Award vesting, the Trustees shall vest beneficial ownership in the Participant of the number of Shares in respect of which the Option Award has been duly exercised or (as the case may be) the Contingent Award has vested, free from all liens, charges and encumbrances and together with the right to receive and retain, all dividends or other distributions paid or made on the ordinary share capital of the Company by reference to a record date occurring on or after the date on which such exercise or vesting became effective.
- 7.8 Subject to Rules 7.6 and 7.9, within 28 days after the exercise or vesting of an Award shall have become effective, the Trustees shall transfer to the Participant or as he may direct the legal title to the number of Shares acquired by the Participant pursuant to the exercise of an Option Award or pursuant to the vesting of a Contingent Award.
- 7.9 Notwithstanding any other provision of the Rules and/or the provisions of any Award Deed, the Trustees may, following consultation with the Committee, elect (by notice given by or on behalf of the Trustees to the Participant no later than the date upon which the relevant Performance Certificate is issued to the Trustees) to satisfy their obligations to transfer all or any Shares to which a Participant is entitled on exercise of an Option Award or on vesting of a Contingent Award by paying to the Participant an amount equal to the Market Value at the date of vesting or exercise of such number of the Shares in respect of which the relevant Award has become exercisable or vested as the Trustees shall determine. Any such payment shall be made by the

Trustees to the relevant Participant within 28 days of the relevant Award vesting or becoming exercisable and shall be subject to deduction of any income tax and/or primary national insurance contributions and/or any other tax for which the Trustees, the Company or any other member of the Group (past or present) or any other person (other than the Participant) is liable to account to HM Revenue & Customs or any other taxation authority in respect of any such payment and/or any secondary national insurance contributions which the Trustees may lawfully be entitled to require, or may lawfully have agreed with the Participant, that the Participant will make good to the Trustees, the Company or any such other member of the Group or any such other person in respect of any such payment.

- 7.10 Notwithstanding any other provision of these Rules, in addition to number of Shares over which an Award shall be capable of exercise or vest, as determined in accordance with the Performance Certificate issued in relation to such Award and/or as determined in accordance with the operation of Rule 6, as the case may be, the Trustees shall, subject to Rules 7.6 and 7.9, upon the exercise of such Award (in the case of an Option Award) becoming effective or upon the Award vesting (in the case of a Contingent Award) vest beneficial ownership in the Participant of such additional number of Shares which is equal to the product of the formula:

$A \times B$

where

"A" equals those Shares notionally added to the Award as at the time of issue of such Performance Certificate (or as at the time of exercise of the Award, if such exercise precedes the issue of such Performance Certificate) relating to such Award by virtue of the application of Rules 7.11 to 7.13 inclusive; and

"B" equals the percentage of the maximum number of Shares in respect of which the Award was originally granted (as specified in the relevant Award Certificate) represented by the number of those Shares in respect of which the Award has vested or is capable of exercise determined in accordance with the operation of Rule 4.1 and/or the operation of Rule 6 as the case may be. (For the avoidance of doubt, any Shares notionally forming part of an Award by virtue of Rule 7.13 shall not be taken into account in determining "B" for the purpose of this calculation).

- 7.11 Whenever a dividend or other cash distribution is (or has been) paid or made by the Company in respect of Shares at any time during the period starting at the commencement of the Performance Period relating to such Award and ending on the issue of the Performance Certificate relating to such Award, there shall, in respect of each such subsisting Award, be separately ascertained the whole number of Shares which may be (or may have been) purchased with a sum as nearly as possible equal to but not exceeding the aggregate cash amount of the dividend or distribution so paid or made, in respect of the number of Shares subject to the Award in question.
- 7.12 For the purpose of operating Rule 7.11, dividends or distributions which would have been paid or made but for any dividend waiver by the Trustees in force in relation to the Shares subject to Awards shall be taken into account and for the purpose of determining the number of whole Shares that may have been acquired with any distribution or dividend so made or paid, the price payable for a Share shall be the price per Share equal to the middle market quotation of a Share as derived from the Daily Official List of the London Stock Exchange for the day on which such

dividend or distribution is paid or made or, if such day is not a Business Day, the Business Day next following such day.

7.13 The number of Shares ascertained in accordance with Rule 7.11 shall in relation to:

- (a) dividends or distributions made or paid on or after the commencement of the Performance Period relating to any Award but before the Date of Award of the Award concerned, be notionally added to and form part of the Award with effect from its Date of Award; and
- (b) dividends or distributions made or paid after the Date of Award of the Award concerned, be notionally added to and notionally form part of the Award with effect from the date of payment of such dividend or making of such distribution;

and in each case shall be taken into account in any further application of Rule 7.11.

7.14 For the avoidance of doubt any Participant whose Award is enhanced by the operation of Rules 7.11 to 7.13 inclusive shall not be entitled to the Shares notionally added to his Award either legally or beneficially at any time and shall only have the right to acquire such number of Shares as is determined in accordance with Rule 7.10 upon exercise of the Option Award (in the case of Option Awards) or vesting of the Award (in the case of Contingent Awards) concerned and at no other time. Furthermore, for the avoidance of doubt Rule 7.11 shall not be applied in respect of any dividends or distributions made or paid in respect of Shares subject to any Award where the making or payment of such dividend or distribution occurs after the issue of the Performance Certificate relating to the Award in question.

7.15 Any new Shares issued under the Plan must rank equally in all respects with other Shares then in issue except for rights which attach to Shares by reference to a record time or date prior to the time or date of issue.

7.16 The Company must apply to the UK Listing Authority to have any new Shares issued under the Plan admitted to the Official List and to the London Stock Exchange for permission to trade in those Shares. The Company need not do so, however, if the Shares are not traded on the London Stock Exchange.

8 Variation of share capital

8.1 Upon any capitalisation issue or a rights issue or any reduction, sub-division or consolidation of the Company's share capital or any other variation of share capital or in such other circumstances as the Committee considers appropriate the number of Shares subject to an Award may be adjusted in such manner and with effect from such dates as the Trustees may determine to be appropriate (not excluding retrospective adjustments where such variation occurs after the Vesting Date in relation to the Award but the record date relating to such variation precedes such Vesting Date) provided that no adjustment shall be made in the event of a capitalisation issue made for the purpose of a scrip dividend to which section 249 Income and Corporation Taxes Act 1988 applies, unless such scrip dividend is an enhanced scrip dividend in which event the adjustment shall be limited to that necessary to take account of so much of the ordinary share capital issued which would not have been issued but for such enhancement and

provided further that the issue of shares or securities as consideration for an acquisition shall not be regarded as a circumstance requiring any such adjustment.

8.2 Notice of any such adjustment shall be given to the Participants.

9 Administration and amendment of the Plan

9.1 The decision of the Trustees as to any matter, question or dispute arising from the Plan (other than a matter to be certified by the Auditors) shall be final and binding on all Eligible Employees and Participants.

9.2 The Trustees shall have the power from time to time to make and vary such regulations (not being inconsistent with the Plan) for the implementation and administration of the Plan as they think fit.

9.3 The Plan may be altered in any respect by the Trustees except that:

(a) no amendment shall be effective which would materially prejudice the interests of Participants in relation to Awards already made or granted to them unless with such prior consent or sanction of Participants as would be required under the provisions for the alteration of class rights contained in the Articles of Association of the Company for the time being if the Shares the subject of the Awards constituted a separate but single class of shares (or two or more classes of shares according to the respective dates of award or grant as the Trustees may deem appropriate) and such shares were entitled to such rights; and

(b) save as provided in Rule 9.4, no amendment to the advantage of current or prospective Participants shall be made, without the prior sanction of an ordinary resolution of the Company in general meeting to:

(i) the definition of Eligible Employee;

(ii) the terms of Awards;

(iii) the basis on which any adjustment may be made to the number of Shares subject to any Award;

(iv) the limitation on the number of Shares available for the Plan;

(v) the maximum entitlement for any Eligible Employee; or

(vi) this Rule 9.3 or Rule 9.4; and

(c) no amendment shall be made without the prior approval of the Committee.

9.4 The Trustees may, without the sanction of an ordinary resolution of the Company in general meeting but subject to the prior approval of the Committee, make minor amendments to the Plan to benefit the administration thereof or make amendments to obtain or maintain favourable tax, exchange control or regulatory treatment for the Trustees, the Company, any other member of

the Group or any existing, future or prospective Participant or to accommodate legislative changes.

- 9.5 Notice of any material alteration made in accordance with Rule 9.3 or Rule 9.4 shall be given to all Participants affected by the relevant alteration.
- 9.6 Any notice or document to an Eligible Employee or Participant may be given either personally or through the internal post or by sending it by ordinary post, e-mail or facsimile or by other electronic means (including the internet and the intranet) to the address or number given by that person.
- 9.7 Where a notice or document is sent to an Eligible Employee or Participant by ordinary post, it will be treated as being received 72 hours after it was put into the post properly addressed and stamped. In all other cases, the notice or document will be treated as received when it is given.
- 9.8 All notices and documents given or sent to Eligible Employees or Participants will be given or sent at the risk of the addressee. Neither the Company nor any member of the Group nor the Trustees has any liability in respect of any notice or document given or sent, nor any obligation to check that the addressee actually receives it.
- 9.9 A notice or document to the Company or the Trustees must be given by such means as the Committee may from time to time decide. Such means may include, but not be limited to, delivering it personally or through the internal post to the recipient's registered office or principal place of business or by sending it by facsimile or e-mail or other electronic means (including the internet and the intranet).
- 9.10 Unless otherwise agreed by the Company, a notice or document given to the Company or the Trustees will only be effective once it is received by the recipient.
- 9.11 All notices and documents given or sent to the Company or the Trustees will be given or sent at the risk of the sender. Neither the Company nor any member of the Group nor the Trustees has any liability in respect of any notice or document given or sent, nor any obligation to check that the addressee actually receives it.
- 9.12 A Participant shall not be entitled to receive copies of any notice or other document sent by the Company to its shareholders.

10 Participants' legal entitlements

- 10.1 The terms of employment of a Participant by the Company or any other member of the Group shall not be affected by his participation in the Plan which shall not form part of such terms. In no circumstances shall a person ceasing to be in Qualifying Service by reason of dismissal or otherwise howsoever be entitled to or claim against the Trustees, the Company or any other member or former member of the Group any compensation for or in respect of any consequent diminution or extinction of his rights or benefits (actual or prospective) under any Awards then held by him or otherwise in connection with the Plan.
- 10.2 Any Award made to a Participant shall not be pensionable and shall not be brought into account for the purposes of calculating any salary-related benefits of the Participant.

11 **Limitations on the Company**

11.1 The Committee must make sure that the nominal amount of Shares over which Awards are granted on any date does not exceed either of the limits set out in Rules 11.3 and 11.4. This limitation only applies to Awards which are to be satisfied by the issue of new Shares or the transfer of treasury shares.

11.2 For the purposes of this Rule 11:

Where

this Rule applies, the Committee shall notify the Trustees of the matters set out in Rule 2.1 in relation to such proposed Award or Awards.

3 Making of Awards

- 3.2 The maximum notional number of Shares comprised in an Award to any Eligible Employee shall be determined by dividing the amount recommended by the Committee in accordance with Rule 2.1(b) or such lesser amount as the Trustees may decide by the Market Value of a Share on the applicable Date of Award.
- 3.3 In making any Award under the Plan the Trustees shall determine that the exercise of such Award shall be conditional on the satisfaction of one or more performance or other conditions determined by the Trustees on the recommendation of the Committee before such Award is made. Any such Performance Condition may provide that the Award shall become exercisable in respect of a given number or proportion of the Ordinary Shares comprised in the Award according to whether, and the extent to which, such condition is met.
- 3.4 If prior to the satisfaction of any Performance Condition imposed pursuant to Rule 3.3, an event occurs which causes the Trustees reasonably to consider that any such Performance Condition would not, without some alteration or addition, achieve its original purpose, the Trustees may, after consulting with the Committee, make such alteration or addition to such Performance Condition as they consider fair and reasonable but so that such Performance Condition shall not be any more difficult to satisfy after such alteration or addition than it was as originally imposed.
- 3.5 An Award shall be made to an Eligible Employee by deed in such form as the Trustees may decide (an "Award Deed") which shall be executed by the Trustees and shall take effect on delivery of the Award Deed by the Trustees, provided that, unless the Eligible Employee has previously irrevocably agreed with the Trustees to be bound by the Rules and the terms of any Award which may be made to him, the Award shall be conditional upon the Eligible Employee so agreeing with the Trustees within 90 days after the date of delivery of the Award Deed by the Trustees and, if the Eligible Employee shall fail to execute such an agreement within such period, the Award shall lapse and be deemed never to have been made.
- 3.6 An Award shall be evidenced by an Award Certificate or such other notification (which may, but need not, constitute an Award Deed) issued by or on behalf of the Trustees to the Participant specifying:
- (a) the Date of Award;
 - (b) the maximum notional number of Shares comprised in the Award;
 - (c) the Performance Period;
 - (d) details of any Performance Conditions imposed in relation to the Award pursuant to Rule 3.3; and

(e) the Fixed Payment Date, if any, relating to the Award.

- 3.7 No monetary consideration shall be payable for the making or grant of an Award or in the respect of the exercise or deemed exercise of any Award.
- 3.8 Each Award shall be personal to the Participant and shall not (save as provided in Rules 6.1 and 6.3) be capable of being transferred, assigned, charged, encumbered or in any way dealt in or of being listed or dealt in on any stock exchange and, if (save as aforesaid) any Award or any interest therein is or is purported to be transferred, assigned, charged, encumbered or in any way dealt in, such Award shall lapse and the Trustees shall not knowingly permit its vesting or exercise.
- 3.9 No Award shall be made after 1 July 2018.
- 3.10 The Company may in any such agreement between the Participant and the Trustees as is referred to in Rule 3.5, if and to the extent so permitted by law, in the Relevant Jurisdiction make it a condition of the exercise of an Award that the Participant makes good to the Trustees or the Company or any other member of the Group or any other person (other than the Participant) all or such part as may be specified in the Award Deed of any social security taxes or social security contributions arising in the Relevant Jurisdiction for which the Trustees, the Company or any other member of the Group or any such other person is liable as a consequence of such exercise.

4 Certification of Performance Conditions

- 4.1 The Company shall or shall procure that, as soon as practicable after the end of the Performance Period in relation to any Awards, it shall be ascertained whether or not all or any of the Performance Conditions have been satisfied and the Company shall use its reasonable endeavours to cause a notice (a "Performance Certificate") to be issued to the Trustees within four months following the expiry of the relevant Performance Period notifying the Trustees whether or not the Awards are exercisable in accordance with the Plan and the Award Certificate and
- (a) if the Performance Certificate shall notify the Trustees that none of the Performance Conditions has been satisfied, the Award shall lapse in its entirety forthwith upon receipt by the Trustees of the Performance Certificate; or
- (b) if the Performance Certificate shall notify the Trustees that an Award is exercisable in accordance with Rule 4.1, it shall also notify the Trustees of the notional number of Shares in respect of which the Award may be exercised by the Participant and the Award shall lapse forthwith upon receipt by the Trustees of the Performance Certificate in respect of any notional Shares in respect of which it does not then become exercisable.
- 4.2 The Company shall give notice to the Participant of the information notified to the Trustees in accordance with Rule 4.1 relating to any Award made to him.

5 Exercise of Award in normal circumstances

5.1 Save as otherwise provided in Rule 6, an Award shall only be capable of being exercised:

- (a) if the Participant has been in Qualifying Service throughout the period commencing on the applicable Date of Award and ending at the end of the applicable Performance Period; and
- (b) if the Performance Certificate issued pursuant to Rule 4.1 shall certify that the Performance Conditions imposed pursuant to Rule 3.3 have been satisfied

- (i) the Participant becoming bankrupt;

- (k) the first anniversary of the death of the Participant; and
- (l) where a Fixed Payment Date has been specified in relation to the Award concerned, the day immediately following the Fixed Payment Date so specified.

6.1 In the event of the death of the Participant during the Performance Period of an Award while he is in Qualifying Service and prior to the occurrence of any such event as is referred to in any of Rules 6.6, 6.7, 6.8 and 6.9, the Trustees may, in their discretion but subject to the consent of the Committee, cause the Award to be capable of exercise immediately to such extent as the Trustees may determine in accordance with Rule 6.10 and may permit the personal representatives of the Participant to exercise the Award to the extent so determined during such period (not exceeding 12 months) after the date of the Participant's death as they may determine.

6.2 In the event of a Participant ceasing to be in Qualifying Service during the Performance Period of an Award and prior to the occurrence of any such event as is referred to in any of Rules 6.6, 6.7, 6.8 and 6.9, by reason of:

- (a) retirement on or after reaching his normal retirement date (or if there is no such date, the date on which the Participant has reached the age at which he is no longer permitted to work without the consent of his employer) or, with the consent of the Committee, prior to that date;
- (b) redundancy (within the meaning of the Employment Rights Act 1996);
- (c) injury, disability or ill-health (evidenced to the satisfaction of the Company and the Trustees);
- (d) the company by which he is employed ceasing to be a member of the Group;
- (e) the undertaking in which he is employed being sold or transferred outside the Group; or
- (f) other special circumstances as determined by the Trustees with the consent of the Committee,

the Trustees may, in their discretion but subject to the consent of the Committee, permit the Award to be capable of exercise after the issue of the Performance Certificate in respect of such Award at the conclusion of the Performance Period but so that the maximum notional number of Shares in respect of which the Award shall be capable of being exercised shall be reduced in accordance with Rule 6.11 and provided that, except in a case falling within Rule 6.2(f), the Trustees may, in their discretion but subject to the consent of the Committee, cause the Award to be capable of exercise immediately to such extent as the Trustees may determine in accordance with Rule 6.10 and may permit the Participant to exercise the Award to the extent so determined during, subject to Rule 6.13, such period as they may determine.

6.3 In the event of the death of the Participant:

- (a) after the end of the Performance Period of an Award and before the expiry of its Exercise Period; or
- (b) while he is entitled to exercise an Award pursuant to Rule 6.2,

his personal representatives may exercise that Award (in so far as it shall not have lapsed under any other Rule) during the period of 12 months following the date of the Participant's death, but, in the case of his death while he was entitled to exercise an Award pursuant to Rule 6.2, only to the extent to which he was permitted to exercise such Award in accordance with Rule 6.2.

- 6.4 In the event of the death of the Participant after he has ceased to be in Qualifying Service and before an Award has become exercisable in accordance with Rule 6.2 and prior to the occurrence of any such event as is referred to in any of Rules 6.6, 6.7, 6.8 and 6.9, the Trustees may, in their discretion but subject to the consent of the Committee, cause the Award to be capable of exercise immediately to such extent as the Trustees may determine in accordance with Rule 6.10 and may permit the personal representatives of the Participant to exercise the Award to the extent so determined during such period (not exceeding 12 months) after the date of the Participant's death as they may determine.
- 6.5 If a Participant ceases to be in Qualifying Service during the Performance Period of an Award and prior to the occurrence of any such event as is referred to in any of Rules 6.6, 6.7, 6.8 and 6.9 for any reason other than those specified in Rules 6.1, 6.2, 6.3 and 6.4, the Award shall lapse immediately upon cessation of Qualifying Service.
- 6.6 In the event that notice is given to shareholders of the Company of a resolution to approve the reconstruction or demerger of the Company or of any other member of the Group, the Trustees may make such provision for the variation of the terms of any Award and/or the applicable Performance Condition(s) and/or for early exercise (in whole or in part) of Awards as the Trustees shall, in the exercise of their discretion (having regard to the recommendation of the Committee), consider appropriate to take proper account of such circumstances, provided that:
- (a) in exercising such discretion for this purpose the Trustees shall have due regard to the object and purposes of the Company and the Trustees in establishing the Plan;
 - (b) no such provision shall be made without the consent of the Committee; and
 - (c) no such provision shall take effect so as to abrogate the rights of a Participant without the Trustees first obtaining his consent.
- 6.7 If a general offer is made to acquire the whole or part of the issued ordinary share capital of the Company (or such part of such capital as is not then owned by the offeror or any company controlled by the offeror and/or any person acting In Concert with the offeror) as a result of which the offeror (or any such companies and/or persons as aforesaid) may gain control of the Company then the Trustees may (with the consent of the Committee) serve a notice on each Participant at any time before the later of the date on which control of the Company passes and the date on which any condition subject to which the offer is made has been satisfied (the "Take-over Date") which permits a Participant, to exercise any Award which has not yet become exercisable within the period commencing on the date of such notice and expiring on the Take-over Date provided that any such exercise shall be conditional upon and shall not take effect until immediately before the Take-over Date, to such extent as the Trustees may, in their discretion but subject to the consent of the Committee, determine in accordance with Rule 6.12, notwithstanding that such exercise is within the Performance Period of the Award. If the Take-over Date does not arise, the exercise of an Award pursuant to this Rule 6.7 shall be null and

void and such Award shall remain in force and may be subsequently exercised in accordance with and subject to these Rules.

6.8 If during the Performance Period of an Award any person:

- (a) obtains control of the Company as a result of making a general offer:
 - (i) to acquire the whole of the issued share capital of the Company made subject to a condition such that if it is satisfied the person making the offer will have control of the Company; or
 - (ii) to acquire all the shares in the Company which are of the same class as the Shares;
- (b) obtains control of the Company in pursuance of a compromise or arrangement sanctioned by the Court under section 899 of the Companies Act 2006; or
- (c) becomes bound or entitled to acquire Ordinary Shares under sections 974 to 991 (inclusive) of the Companies Act 2006;

then the Trustees may, in their discretion but subject to the consent of the Committee, permit the Participant to exercise an Award which has not yet become exercisable within such reasonable period as the Trustees shall determine and notify to the Participant to such extent as the Trustees may, in their discretion but subject to the consent of the Committee, determine in accordance with Rule 6.12, notwithstanding that such exercise is within the Performance Period of the Award.

6.9 In the event of notice being given to shareholders of the Company during the Performance Period of any Award convening a meeting to consider a resolution for the members' voluntary winding up of the Company, the Trustees may, in their discretion but subject to the consent of the Committee, permit the Participant to exercise the Award at any time before the commencement of the winding up to such extent as the Committee may, in their discretion but subject to the consent of the Committee, determine in accordance with Rule 6.12, notwithstanding that such exercise is within the Performance Period.

6.10 An Award may only be exercised in the circumstances set out in Rules 6.1, 6.2 and 6.4 if and to the extent that the Trustees, acting on the recommendation of the Committee, are satisfied that the Performance Conditions have been satisfied on such modified basis as they think fit over the period from the beginning of the Performance Period to the date on which the Participant ceased to be in Qualifying Service and, for the purpose of determining the notional number of Shares in respect of which the Award is capable of exercise as a consequence of the extent (if any) to which the Performance Condition(s) have been so satisfied, the maximum notional number of Shares comprised in the Award shall be such reduced notional number as is determined in accordance with Rule 6.11.

6.11 For the purpose of calculating the notional number of Shares in respect of which an Award may be exercised by the Participant pursuant to any of Rules 6.1, 6.2 and 6.4, the maximum notional number of Shares comprised in the Award shall be reduced to the proportion of the notional number of Shares originally comprised in the Award which equals the proportion which the

number of days which have elapsed from and including the first day of the applicable Performance Period to and including the day upon which the Participant ceased to be in Qualifying Service bears to the number of days in the Performance Period.

- 6.12 Awards may only be exercised in the circumstances set out in Rule 6.7, 6.8 or 6.9 if and to the extent that the Trustees, acting on the recommendation of the Committee, consider it fair and reasonable taking into account the extent to which the Performance Conditions applied over such modified period as the Trustees consider appropriate have been satisfied and such other criteria as the Trustees in their discretion consider relevant.
- 6.13 If an Award which has become capable of exercise pursuant to Rule 6.2 and such exercise is or has been prevented by virtue of Rule 7.1 and the last day of the period allowed for exercise under the relevant Rule has elapsed, the Award shall be capable of exercise (but only to the extent allowed pursuant to Rule 6.2) for a period ending 30 days after the first day on which Rule 7.1 no longer applies to prevent the exercise of the Award.

7 Exercise of Awards

- 7.1 No Award (other than an Award in respect of which the Award Certificate specifies a Fixed Payment Date) shall be exercised save in accordance with the then current model code on directors' dealings in listed securities traded on the London Stock Exchange or such other code of dealing in terms no less exacting than such model code as may be adopted by the Company. This restriction shall apply, as if, for the purpose of this Rule 7.1 only, the exercise of an Award involved the acquisition of securities by the Participant concerned that are governed by the model code or such other code of dealing referred to herein and shall apply to all Participants who are subject to the model code or such other code of dealing referred to herein at the time of exercise of the relevant Award even if they are not directors of the Company.
- 7.2 An Award may only be exercised by a Participant giving notice to the Company in the form and manner prescribed by the Committee.
- 7.3 An Award shall be capable of exercise on one occasion only and, if an Award is exercised in respect of part only of the notional Shares then subject to that Award, that Award shall lapse in respect of the balance of such notional Shares. Exercise of an Award shall only be effective upon receipt of the duly completed form of exercise.
- 7.4 The exercise of an Award by a Participant and the execution by any Participant of such an agreement as is referred to in Rule 3.5 shall constitute the agreement and undertaking of the Participant with the Trustees that he will forthwith upon demand from the Company pay to the Company or as the Company may direct:
- (a) any amount of income tax, social security taxes or contributions or other tax of the Relevant Jurisdiction for which the Participant may be liable or which may be payable in respect of the Participant as a consequence of the grant or exercise of any Award or any payment to a Participant pursuant to the Plan and which the Trustees, the Company or any other member of the Group (past or present) or any other person (other than the Participant) is required (whether such requirement is legally enforceable or not) to pay to the tax authorities in the Relevant Jurisdiction or any other taxation authority; and

- (b) any amounts of social security taxes or contributions of the Relevant Jurisdiction for which the Trustees, the Company or any such other member of the Group or any such other person is liable as a consequence of the grant or exercise of any Award or any payment to a Participant pursuant to the Plan to the extent that the Trustees, the Company or any such other member of the Group or any such other person may lawfully be entitled to require, or may lawfully have agreed with the Participant, that the Participant will make good the same to the Trustees, the Company or any other member of the Group (past or present) or any such other person;

and shall also constitute authority to the Trustees, the Company, each such other member of the Group and any such other person acting on their behalf to deduct any amount so demanded which remains unpaid from payments otherwise payable to the Participant, including but not limited to authority to deduct from wages or salary for the purposes of any legislation, custom or practice in the Relevant Jurisdiction.

- 7.5 Upon the exercise of an Award becoming effective or upon its deemed date of exercise pursuant to Rule 7.6 the Trustees shall pay, or make such other arrangements for paying, the Participant exercising such Award, the Cash Amount, such payment being subject to all applicable deductions in respect of income tax, social security contributions, social taxes or other taxes that are properly deductible in respect of the Cash Amount in the Relevant Jurisdiction. For the avoidance of doubt each Participant who has exercised his Award shall only be entitled to receive in his hands a cash sum equal to the Cash Amount less all applicable deductions referred previously in this Rule 7.5 and not a cash payment equal to the Cash Amount.

- 7.6 Subject only to the exercise of an Award occurring pursuant to any one of Rules 6.1 to 6.7 inclusive (in which case the exercise of the award shall take effect on receipt of the duly completed form of exercise), any Award in respect of which a Fixed Payment Date has been specified in the Award Certificate relating to such Award, shall irrespective of the actual date upon which written notice of exercise is served in accordance with Rule 7.2, be deemed for the purpose of these Rules to have been exercised on the Fixed Payment Date specified in relation to that Award.

- 7.7 Notwithstanding any other provision of these Rules, in addition to the number of notional Shares over which an Award shall be capable of exercise, as determined in accordance with the Performance Certificate issued in relation to such Award and/or as determined in accordance with Rule 6, as the case may be, upon exercise of such Award becoming effective the Trustees shall treat that Award as being exercised over such number of additional notional Shares which is equal to the product of the Formula:

(A X B)

where

"A" equals the number of notional Shares notionally added to the Award as at the time of issue of the Performance Certificate (or as at the time of exercise of the Award, if such exercise precedes the issue of such Performance Certificate) relating to such Award by virtue of the application of Rules 7.8 to 7.10 inclusive; and

"B" equals the percentage of the maximum number of notional Shares in respect of which the Award was originally granted (as specified in the relevant Award Certificate) represented by the number of those notional Shares in respect of which the Award is capable of exercise determined in accordance with the operation of Rule 4.1 and/or the operation of Rule 6 as the case may be. (For the avoidance of doubt, any notional Shares notionally forming part of an Award by virtue of Rule 7.10 shall not be taken into account in determining "B" for the purpose of this calculation).

7.8 Whenever a dividend or other cash distribution is (or has been) paid or made by the Company in respect of Shares at any time during the period starting at the commencement of the Performance Period relating to such Award and ending on the issue of the Performance Certificate relating to such Award, there shall, in respect of each such subsisting Award, be separately ascertained the whole number of Shares which may be (or may have been) purchased with a sum as nearly as possible equal to but not exceeding the aggregate cash amount of the dividend or distribution so paid or made in respect of a number of Shares equal to the number of notional Ordinary Shares subject to the Award in question.

7.9 For the purpose of operating Rule 7.8 and determining the number of whole Shares that may have been acquired with any distribution or dividend so made or paid, the price payable for a Share shall be the price per Share equal to the middle market quotation of a Share as derived from the Daily Official List of the London Stock Exchange for the day on which such dividend or distribution is paid or made or, if such day is not a Business Day, the Business Day next following such day.

7.10 A number of notional Shares equal to the number of Shares ascertained in accordance with Rule 7.8 shall in relation to:

(a) dividends or distributions made or paid on or after the commencement of the Performance Period relating to any Award but before the Date of Award of the Award concerned, be notionally added to and form part of the Award with effect from its Date of Award; and

(b) dividends or distributions made or paid after the Date of Award of the Award concerned, be notionally added to and notionally form part of the Award with effect from the date of payment of such dividend or making of such distribution;

and in each case shall be taken into account in any further application of Rule 7.8.

7.11 For the avoidance of doubt, Rule 7.8 shall not be applied in respect of any dividends or distributions made or paid in respect of a number of Shares equal to the notional Shares subject to any Award where the making or payment of such dividend or distribution occurs after the issue of the Performance Certificate relating to the Award in question.

8 Variation of share capital

8.1 Upon any capitalisation issue or a rights issue or any reduction, sub-division or consolidation of the Company's share capital or any other variation of share capital or in such other circumstances as the Committee considers appropriate, the notional number of Ordinary Shares subject to an Award may be adjusted in such manner and with effect from such dates as the Trustees may determine to be appropriate (not excluding retrospective adjustments where such

variation occurs after the Vesting Date in relation to the Award but the record date relating to such variation precedes such Vesting Date) provided that no adjustment shall be made in the event of a capitalisation issue made for the purpose of a scrip dividend to which section 249 Income and Corporation Taxes Act 1988 applies, unless such scrip dividend is an enhanced scrip dividend in which event the adjustment shall be limited to that necessary to take account of so much of the ordinary share capital issued which would not have been issued but for such enhancement and provided further that the issue of shares or securities as consideration for an acquisition shall not be regarded as a circumstance requiring any such adjustment.

8.2 Notice of any such adjustment shall be given to the Participants.

9 Administration and amendment of the Plan

9.1 The decision of the Trustees as to any matter, question or dispute arising from the Plan (other than a matter to be certified by the Auditors) shall be final and binding on all Eligible Employees and Participants.

9.2 The Trustees shall have the power from time to time to make and vary such regulations (not being inconsistent with the Plan) for the implementation and administration of the Plan as they think fit.

9.3 The Plan may be altered in any respect by the Trustees except that:

- (a) no amendment shall be effective which would materially prejudice the interests of Participants in relation to Awards already made or granted to them unless with such prior consent or sanction of Participants as would be required under the provisions for the alteration of class rights contained in the Articles of Association of the Company for the time being if the Shares the subject of the Awards constituted a separate but single class of shares (or two or more classes of shares according to the respective dates of award or grant as the Trustees may deem appropriate) and such shares were entitled to such rights; and
- (b) save as provided in Rule 9.4, no amendment to the advantage of current or prospective Participants shall be made, without the prior sanction of an ordinary resolution of the Company in general meeting to:
 - (i) the definition of Eligible Employee;
 - (ii) the terms of Awards;
 - (iii) the basis on which any adjustment may be made to the notional number of Shares subject to any Award;
 - (iv) the maximum entitlement for any Eligible Employee; or
 - (v) this Rule 9.3 or Rule 9.4; and
- (c) no amendment shall be made without the prior approval of the Committee

- 9.4 The Trustees may, without the sanction of an ordinary resolution of the Company in general meeting but subject to the prior approval of the Committee, make minor amendments to the Plan to benefit the administration thereof or make amendments to obtain or maintain favourable tax, exchange control or regulatory treatment for the Trustees, the Company, any other member of the Group or any existing, future or prospective Participant or to accommodate legislative changes.
- 9.5 Notice of any material alteration made in accordance with Rule 9.3 or Rule 9.4 shall be given to all Participants affected by the relevant alteration.
- 9.6 Any notice or document to an Eligible Employee or Participant may be given either personally or through the internal post or by sending it by ordinary post, e-mail or facsimile or by other electronic means (including the internet and the intranet) to the address or number given by that person.
- 9.7 Where a notice or document is sent to an Eligible Employee or Participant by ordinary post, it will be treated as being received 72 hours after it was put into the post properly addressed and stamped. In all other cases, the notice or document will be treated as received when it is given.
- 9.8 All notices and documents given or sent to Eligible Employees or Participants will be given or sent at the risk of the addressee. Neither the Company nor any member of the Group nor the Trustees has any liability in respect of any notice or document given or sent, nor any obligation to check that the addressee actually receives it.
- 9.9 A notice or document to the Company or the Trustees must be given by such means as the Committee may from time to time decide. Such means may include, but not be limited to, delivering it personally or through the internal post to the recipient's registered office or principal place of business or by sending it by facsimile or e-mail or other electronic means (including the internet and the intranet).
- 9.10 Unless otherwise agreed by the Company, a notice or document given to the Company or the Trustees will only be effective once it is received by the recipient.
- 9.11 All notices and documents given or sent to the Company or the Trustees will be given or sent at the risk of the sender. Neither the Company nor any member of the Group nor the Trustees has any liability in respect of any notice or document given or sent, nor any obligation to check that the addressee actually receives it.
- 9.12 A Participant shall not be entitled to receive copies of any notice or other document sent by the Company to its shareholders.

10 Participants' legal entitlements

- 10.1 The terms of employment of a Participant by the Company or any other member of the Group shall not be affected by his participation in the Plan which shall not form part of such terms. In no circumstances shall a person ceasing to be in Qualifying Service by reason of dismissal or otherwise howsoever be entitled to or claim against the Trustees, the Company or any other member or former member of the Group any compensation for or in respect of any consequent diminution or extinction of his rights or benefits (actual or prospective) under any Awards then held by him or otherwise in connection with the Plan.
- 10.2 Any Award made to a Participant shall not be pensionable and shall not be brought into account for the purposes of calculating any salary-related benefits of the Participant.
- 10.3 Until the time of exercise or deemed exercise of an Award, the Participant holding such Award shall have no beneficial or legal right to receive any payment or part payment of the Cash Amount relating to that Award.
- 10.4 No Award granted under the Plan shall confer any right or prospective right to acquire any Shares or interest in Shares. For the avoidance of doubt for the purpose of the Plan, Shares are used as a method of calculating the Cash Amount payable to a Participant under the Plan.

11 Termination

- 11.1 The Trustees or the Company may at any time resolve to terminate the Plan in which event no further Awards shall be made thereafter, but the subsisting rights of Participants shall remain in force.

We are well placed to build on recent achievements

On behalf of the board I am pleased to report good financial results for the year ended 31 March 2008. Revenue from continuing operations rose 18.9 per cent to £2,363 million while operating profit from continuing operations was up by 3.3 per cent at £663 million and underlying operating profit from continuing operations was up by 7.4 per cent at £677m.

The board is proposing a final dividend for the year of 31.47 pence per ordinary share – an increase of 3.87 per cent. Together with the interim dividend of 15.20 pence per ordinary share, the total ordinary dividend relating to the year is 46.67 pence. The final dividend will be paid to shareholders on 8 August 2008. Details of the revised dividend strategy from 2008/09 are on page 15.

Following the sale of United Utilities Electricity, principally comprising our electricity distribution assets and a review of our capital structure, we intend to return £1.5 billion or 170 pence per share to our shareholders. The return of value is scheduled for August 2008 and is summarised in the shareholder information section on page 112.

We say farewell to Norman Broadhurst who will leave the board in July after nine years. Norman has given valuable service to the

group and we thank him for his contribution, particularly as chairman of the audit committee. The board, meanwhile, has been strengthened by the appointment of Dr John McAdam who, subject to election at this year's annual general meeting, will immediately succeed me as chairman.

As part of our commitment to the highest standards of governance, we have introduced a community investment committee to approve and monitor the group's corporate responsibility strategy and action plan.

With a more focused portfolio, a sharper concentration on our core capabilities and renewed emphasis on operational performance, we are well placed to build on recent achievements and continue to meet expectations in the current financial year.

Business review: Chief executive officer's statement

A year of progress

We are pleased to report a good set of results for both our regulated and our non-regulated activities. Along with our achievement in meeting Ofwat's revised target for our capital investment programme and in out performing our leakage target, the figures mark a year of excellent progress for the group.

I wrote last year that we had started on a journey towards our vision of becoming a world class operator of utility infrastructure and I defined this in the context of three topics.

The first has been to reshape our portfolio to allow us to focus on our core skills – the operation of water, wastewater, gas and electricity infrastructure and the design and build of that infrastructure. As I explain in the strategic review on pages 10 to 11, this has now been done.

The second has been to set a capital structure and dividend policy appropriate for the future of the group. Following the sale of United Utilities Electricity, principally comprising our electricity distribution assets, and the review of our capital structure, we intend to return £1.5 billion to our shareholders, adjust our gearing to a level more appropriate to the business and implement a new dividend policy.

Once the value has been returned, our review of capital structure and dividend policy will have been completed.

The third is to raise our operational performance. Here we've made good progress, particularly in out performing Ofwat's leakage target and in raising our customer satisfaction scores to levels dramatically higher than any we achieved before 2006. There are, however, areas where there is more to be done. We need to improve compliance with environmental standards at our wastewater treatment works, manage better any unplanned supply interruptions to our customers and reduce incidents of sewer flooding. We are working hard to address these areas.

In respect of our non-regulated business activities, we secured the £1.5 billion contract to manage the electricity distribution assets of Electricity North West. This was in addition to extending our contracts for Southern Water and British Gas Trading.

To continue our momentum towards world class performance, we need to go further in instilling our company values. I defined these last year as 'team, trust, passion and commitment'. These are crucial in reinforcing the sense of public duty that has always been part of our

ethos at United Utilities, while also helping to sharpen the focus on operational and financial performance.

The key to this cultural change lies in our leadership and here we've made decisive changes. We have placed greater emphasis on leadership at every level and of the ten members of our top executive team, half have been recruited in the last two years. We've also established a wider group of senior leaders, responsible for bringing new thinking into United Utilities and for helping us to achieve the changes we need to make and to inspire our people to deliver it.

We're also working on the motivation of our people. This year we've taken further steps to measure our employees' sense of engagement and improve the areas where we're weak. As people become more committed and involved, they're more likely to demonstrate our values which in turn will propel us towards better operational performance and the fulfilment of our vision.

As we change and improve, we also seek to operate more sustainably. We know that sustainability makes good business sense and helps to attract and retain good people. We've committed ourselves to reducing our carbon emissions by 26 per cent by 2012*. I'm proud that our record on sustainability is one of the best in the industry and pleased that Ofwat is increasingly minded to factor climate change into the requirements of the next regulatory review. With this due in 2009, we continue to work with our regulator to ensure the best outcome for the business, our customers, the environment and our shareholders.

There is a long journey ahead, particularly in terms of the mindset and ethos of the organisation. I'm heartened by the progress of the last 12 months and confident of further gains in the year ahead.

Business description

United Utilities PLC (United Utilities) is registered in England and Wales. Our regulated subsidiary, United Utilities Water PLC (United Utilities Water), holds licences to provide water and sewage services to a population of some seven million people in north west England. We also apply our expertise in operating utility infrastructure in competitive markets.

Organisational structure

For management purposes, the group is organised into two principal operating divisions, being regulated and non-regulated activities.

Since 1 April 2007, we have reported through three business segments: regulated activities, non-regulated activities and other activities:

- regulated activities – comprise the regulated activities of United Utilities Water (water and wastewater);
- non-regulated activities – we apply the core utility skills of the regulated business through outsourcing contracts. In addition, this segment includes our interests in Northern Gas Networks and our overseas businesses; and
- other activities – includes United Utilities Property Solutions Limited, the property trading and management business of the group, which owns land and property assets. The segment also includes the results of other group holding companies.

Regulated activities

Our regulated activities comprise the operation of the licensed water and wastewater assets owned by United Utilities Water in north west England. This involves the removal and treatment of wastewater from, and the treatment and distribution of around 1.9 billion litres of water a day to, approximately 3.2 million homes and businesses.

Our water business is regulated in terms of price and performance. Ofwat reviews price limits every five years. The next price review (known as PR09) will take place in 2009 and will set price limits for the five years from 1 April 2010. Water companies will be required to submit their draft business plans for this period to Ofwat (and to publish summaries) in August 2008. Final business plans are expected to be submitted in April 2009 and Ofwat is planning to issue its draft determinations for comment in July 2009. Final determinations are expected in November 2009, following which water companies will have two months to decide whether to accept the determination or instead to have price limits referred to and set by the Competition Commission.

Our regulated activities are:

- capital intensive – improvements to the water and wastewater infrastructure are required in order to comply with applicable United Kingdom and European Union environmental and drinking water quality regulations. Capital investment (including infrastructure renewals expenditure) relating to water and wastewater in the year ended 31 March 2008 was £826 million;

Regulated business

We provide water to seven million people in the North West of England. We manage the catchment areas to collect and store water in our reservoirs before treating it and delivering it through over 42,000 kilometres of water pipes.

We are responsible for collecting and treating wastewater before returning it safely to the environment. 43,000 kilometres of sewers take the wastewater from homes and industry for treatment at one of 582 wastewater treatment works.

- subject to economic regulation – in general, our business is subject to incentive-based economic regulation. This imposes caps on increases in customer prices, rewards efficiency and high standards of customer service and penalises inefficiency and poor standards of customer service; and
- subject to environmental regulations – these govern the abstraction of water, the quality of drinking water supplied to our customers, the discharges we make into the water environment and the management of potentially contaminated land we own, occupy or work upon.

Further developments in the regulatory regime are expected to take effect in the next few years, in particular as a result of European Union environmental initiatives (including the Water Framework Directive, the Drinking Water Directive and the Environmental Liability Directive).

The wastewater business

United Utilities Water is responsible for the reception, conveyance, treatment and disposal of domestic wastewater, trade effluent (non-domestic wastewater) and surface water in north west England.

Our wastewater treatment works provide a range of treatments. These include primary, secondary and tertiary treatment involving a variety of physical, chemical and biological processes. These aim to ensure the constituents of wastewater are effectively modified before discharge. Fully treated final effluent is discharged into rivers, estuaries or via sea outfalls. The Environment Agency consents to and stringently monitors all these discharges to ensure they comply with all relevant limits. A by-product of the treatment of wastewater is sewage sludge, which we treat further to produce an end product that is suitable for recycling.

Our wastewater operations involve owning and managing assets, which include:

- 582 wastewater treatment works;
- 43,419 kilometres of sewers;
- 1,826 pumping stations;
- 143 detention tanks;

- 2,275 combined sewer overflows and 375 emergency overflows; and
- 42 sludge treatment facilities.

The water business

We obtain water from various sources including reservoirs, rivers and aquifers. A large proportion of water we supply flows freely by gravity and does not need to be pumped. However, due to the nature of the water catchment areas, being peaty moorlands or coal measure strata, enhanced treatment methods are required to ensure the water satisfies all regulatory and quality standards.

This untreated water is conveyed to treatment works by aqueducts. Treated water is delivered to our customers through a network of large diameter trunk mains to smaller trunk mains, service reservoirs, water towers and distribution mains.

We own, operate and manage the water network assets in north west England which include:

- 137 operational and one emergency impounding reservoirs and associated catchments;
- 95 operational and five emergency water treatment works;
- 450 service reservoirs and water towers storing treated water;
- 609 pumping stations; and
- 42,219 kilometres of clean water mains.

We own approximately 57,800 hectares of catchment land. The key reason for owning and managing this land is to protect and improve the quality of raw water supplies and thus reduce the risk of non-compliance at water treatment works and avoid unnecessary operating costs.

In the 2004 periodic review, we obtained funds of £10 million for an innovative approach to land management entitled the 'Sustainable Catchment Management Programme' (SCaMP). This programme seeks to restore moorland areas so as to meet the government's Public Service Agreement targets to bring Sites of Special Scientific Interest into good condition.

Business review: business description continued

At the same time, we seek to enter into long-term agreements with tenant farmers to reduce livestock to acceptable levels so that, once restored, the moorland areas will be protected for the future. This integrated holistic approach should bring multiple benefits. As well as delivering the government's biodiversity targets, it is anticipated that there will be improvements in raw water quality (relating in particular to colour) and potentially reduced risk of downstream flooding. The programme has just completed its third year and is being applied to all the farms we own on our Bowland and southern estates, and we have been successful in concluding agreements with tenant farmers covering over 90 per cent of the land area in the programme to enable this to happen. Substantial work is now underway in both areas. For further details see page 22.

For our regulated business as a whole, capital investment (including infrastructure renewals expenditure) for the year to 31 March 2008 was £826 million. This represents an increase in expenditure of 44.8 per cent when compared with the previous financial year and reflects the planned profile of the group's investment programme. Cumulative capital expenditure on water assets matched regulatory assumptions as at 31 March 2008.

Non-regulated activities

Our non-regulated activities apply the core utility skills of our regulated business through outsourcing contracts. Details of these contracts in the United Kingdom (UK) are contained on pages 5 and 21. We provide gas services which support the infrastructure for over six million people and in total, including all our businesses, we now serve a population of around 17 million people in the UK. In addition, we provide asset management and operational services in respect of our former electricity distribution business.

Our international business develops and operates contracts in selected overseas utility markets and provides services for over seven million people. In Australia, we focus on maintaining our current portfolio of contracts and securing long-term investment returns and operational sources of income while managing the overall exposure arising from the contracts.

Elsewhere, we focus on applying core skills on an asset-light basis, primarily in the Gulf region, with other existing overseas investments being managed alongside existing UK investments. We continue to manage our existing portfolio of water and wastewater operations through a number of joint ventures in parts of Australia, Estonia, Bulgaria, the Philippines and Poland.

Our connections business provides multi-utility connections, connecting domestic, industrial and commercial consumers to the existing utility network infrastructure. In providing this service, we design and install new electricity, water and gas infrastructure.

Our metering business provides installation and maintenance services for electricity and gas meters. We completed around 583,000 gas and electricity meter installations in the year ended 31 March 2008 under a contract with British Gas Trading to which an extension to 30 June 2010 was secured in January 2008. Under this contract, both gas and electricity meters are installed, with rental income then being received for up to 20 years after installation by a joint venture company (in which we have a 50 per cent interest) which owns the meter assets.

Our non-regulated activities have grown rapidly since they began in 2000. The discipline of operating within strict contractual frameworks ensures that significant focus is placed on improving performance both within our own regulated water and wastewater business and our non-regulated businesses for the benefit of our customers. This experience has improved our commercial skillsets and places us in a strong position from which to pursue other infrastructure outsourcing opportunities.

Non-regulated revenue for the year ended 31 March 2008 increased by 30.2 per cent to £949 million compared with the previous year. Our non-regulated strategy is to apply our core skills where opportunities are identified to generate additional shareholder value with little impact on our risk profile. In addition to our core UK utility outsourcing market, we are focusing our business development resources on specific opportunities in the UK municipal solid

waste treatment market, Australia and the fast developing Gulf region.

Having sold United Utilities Electricity, principally comprising our electricity distribution assets, we retained the asset operator function, consistent with our core skills strategy. The services we provide to the new asset owner are: operation, maintenance and repair of the electricity network; design and construction of new assets to replace and refurbish the existing network; design and construction of new connections to the network; and the provision of services ancillary to the distribution of electricity through the network. An asset services agreement is in place between Electricity North West Limited (formerly called United Utilities Electricity Limited) and United Utilities Electricity Services Limited. It has an initial eight-year term (which commenced on 1 April 2007) with the potential to extend the contract for a further five years, and contains a mechanism for price negotiation at 31 March 2010 following a regulatory review.

We hold major utility outsourcing contracts in the United Kingdom with Dŵr Cymru Welsh Water, Southern Water, Scottish Water and Northern Gas Networks (in which we hold a 15 per cent equity stake). We have a meter installation contract with British Gas Trading, as well as three Scottish private finance initiative operations (relating to water/wastewater infrastructure renewal contracts).

Principal property assets

At 31 March 2008, the key facilities of our non-regulated business included leased office accommodation at Clearwater, Lingley Mere and Old Trafford, Manchester. In addition to these sites, we occupy various properties in support of specific contracts, typically within the geographic boundaries of the contracts, both in the United Kingdom and overseas. These sites consist of offices, depots and other operational facilities that are primarily owned or leased by the client or commercial landlords. It is anticipated that we will be able to negotiate renewals of any expiring leases, or relocate the relevant facilities, without having a material adverse impact on the business.

Lingley Mere Business Park development

In February 2004, we entered into a 15-year joint venture agreement with Muse Developments Limited (formerly AMEC Developments Limited) to develop land at Lingley Mere, Warrington. Over a period of time, we will invest up to £20 million in this joint venture, mainly in the form of land.

Environmental issues

The contaminated land regime in Part IIA of the Environmental Protection Act 1990 places liability for the clean-up of contaminated land upon any person who caused the contamination or, in some circumstances, who knew of its presence and failed to prevent it. If no such person can be found after a reasonable enquiry has been made, liability for clean-up falls upon the current owner or occupier of the land. The regime provides for exemptions from liability in certain cases. We have a programme of improving, replacing and disposing of property when considered appropriate to meet the needs of our business operations.

None of the land we own or occupy or on which we are required to work is currently designated as contaminated but we own, or are required to work within sites that, by virtue of prior use, are potentially contaminated and may in the future be designated as contaminated land.

Our vision is to be a world class operator of utility infrastructure

To support our vision, we set out a clear strategy 18 months ago to focus on our core skills of managing water, wastewater, gas and electricity networks.

In line with this strategy, we reviewed our portfolio and sold businesses that were not aligned with these core skills. These included the business process outsourcing company, Vertex, the group's telecoms business, including its stake in THUS Group plc, and our facilities management and industrial liquid waste operations. As a result of these sales we are now a focused utility company.

We generated net equity proceeds of £1,050 million from the sale of United Utilities Electricity, which principally comprised our electricity distribution assets, achieving a substantial premium on the regulatory asset value. This represents a total sales price of £1,782 million less United Utilities Electricity's net debt of £686 million at fair value at the date of disposal, including United Utilities' group debt apportioned to the electricity business, and transaction costs of £46 million. In light of this sale, we reviewed our capital structure and dividend policy and details of the proposed £1.5 billion return to shareholders are provided on page 112.

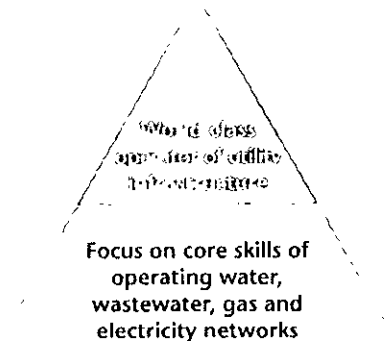

The four key elements of our strategy are: continuing to improve our operational performance; successfully delivering our 2005-10 regulatory contract; preparing for the 2009 water price review; and delivering growth in our non-regulated business. Our vision, strategy and objectives are part of our overall goal of delivering shareholder value.

Improving operational performance
We aspire to be in the top quarter of the UK water sector on the most important measures and have highlighted five key performance indicators by which our progress can be measured. These are:

- relative efficiency;
- security of water supply (leakage);
- pollution;
- sewer flooding; and
- overall customer satisfaction (in response to enquiries).

Over the last two years we have raised operational performance levels and,

in 2007/08, we met our regulatory leakage target for the second consecutive year. This was a tougher target than the previous year and represents a year-on-year improvement.

Successfully delivering our 2005-10 regulatory contract

We are investing over £3 billion between 2005 and 2010 to improve our network assets on behalf of our customers and the environment.

Successfully delivering the outputs required by our regulators is of key importance. Now that we have agreed a new strategy with Ofwat for processing and disposing of sewage sludge, our capital expenditure is broadly in line with regulatory assumptions as at 31 March 2008.

We have a clear plan for the remainder of this price review period and are confident of meeting our regulatory targets.

Preparing for the 2009 water price review

The 2009 water price review is a key value driver for United Utilities as it will set the price limits from 1 April 2010 to 31 March 2015.

We are currently developing our draft five-year business plan, scheduled for submission to Ofwat in August 2008. This plan forms the first element of our long-term vision for our business as it adapts to the changing climate and demographics of the North West.

Our carbon action plan is progressing well through schemes which, in addition to helping the environment, also contribute to improving the efficiency of the group. These schemes include increasing the efficiency of our pumping stations and using our wastewater processes to generate electricity and heat.

In December 2007, we published our Strategic Direction Statement (SDS) entitled 'where we are heading'. This outlines the key issues facing the business over the next 25 years and includes the outcome of a survey into our customers' willingness to pay. Covering 2,000 households and 500 businesses, the survey found that key concerns include supply interruptions, sewer flooding, odour and reductions in greenhouse gas emissions. Customers' priorities can help shape

future investment, enabling us to align expenditure to the areas they consider important. The SDS is part of our preparations for the forthcoming price review and we are already in active discussions with our regulators. The six key elements of our SDS are described on pages 19 and 20.

Investment in the water industry will be increasingly influenced by the need to adapt to climate change and flooding risk and to make further environmental improvements. We expect significant levels of capital investment to continue beyond 2010, generating future growth in our regulatory capital value.

Delivering the strategy for our non regulated business

We continue to seek opportunities to grow our non-regulated business by applying our core skills on an asset-light basis,

where we identify opportunities to generate additional shareholder value with little impact on the risk profile of the group. In addition to our core UK utility outsourcing market, we are focusing our business development resources on specific opportunities in the UK municipal solid waste treatment market, as well as Australia and in the fast-developing Gulf region.

Financial performance

United Utilities has delivered a good financial performance in the year ended 31 March 2008. Underlying profit before tax⁽²⁾ increased by 16.7 per cent to £476 million and underlying operating profit⁽²⁾ was up by 7.4 per cent to £677 million.

The group is pre-funded for its capital investment programme through to 2010. We recently improved our liquidity position by enhancing our committed medium-term bank facilities. This provides us with increased flexibility in terms of when and how we raise further debt finance.

Our regulated activities have delivered strong growth in the period with operating profit up 5.3 per cent, an increase of 8.3 per cent on an underlying basis⁽²⁾. This growth primarily reflects the regulated price increase, which supports the high levels of essential investment in our infrastructure. This investment enables us to deliver better service for customers and make environmental improvements.

Capital investment in our regulated water and wastewater operations, including infrastructure renewals expenditure, amounted to £826 million during the year. This is 44.8 per cent higher than last year as we are now in the peak phase of our capital expenditure programme. We have agreed a new strategy with Ofwat for processing and disposing of sludge, based on increasing capacity at an existing site rather than developing a new site. Our capital investment programme has been re-profiled to reflect this agreement and we are now broadly in line with regulatory assumptions. This new strategy will reduce our carbon footprint compared with the original solution. Our business improvement initiatives are delivering cost savings and we remain confident of delivering our regulatory outputs and meeting our efficiency targets across this price review period.

In our non-regulated activities, underlying operating profit⁽²⁾ was slightly higher than the prior year reflecting the first time inclusion of the results of the outsourcing contract with Electricity North West. We have a strong order book worth over £6 billion in revenue and we were pleased to announce recently that we have

In considering the results for the year, the directors have adjusted the group's statutory measures for fair value movements on debt and derivative instruments and those significant items identified as non-recurring. Operating profit and profit before taxation from continuing operations are reconciled to underlying operating profit from continuing operations and underlying profit before taxation from continuing operations as follows:

Notes

- (3) During the prior year, the group's regulated and non-regulated activities benefited from one-off credits worth £27.6 million and £3.0 million respectively. These credits were in respect of settlement of claims made by the group against contractors and the end of the statutory period of potential claims against the group. Although such claims are a regular occurrence in the ongoing business of United Utilities, these particular claims were unusual in size.
- (4) The interest associated with the cash proceeds from the sale of United Utilities Electricity has been deducted to provide a more representative view of underlying performance. Since the group intends to return £1.5 billion to shareholders later in the year, the cash proceeds from the sale are expected to result in a short-term net debt and interest reduction.

Business review: business performance

Group results continued

extended the contract with Southern Water through to March 2015. In January we also agreed an 18-month extension to our metering contract with British Gas Trading to June 2010. In addition, we have recently been selected as preferred bidder by Townsville City Council in Australia to undertake its water supply upgrade project.

Revenue and operating profit from continuing operations

Revenue from continuing operations rose 18.9 per cent to £2,363 million, reflecting the allowed price rise in the regulated business and the first year of the electricity distribution outsourcing contract in the non-regulated business.

Group operating profit from continuing operations increased by 3.3 per cent to £663 million, with group underlying operating profit from continuing operations² up by 7.4 per cent. This increase was underpinned by a strong performance in the regulated business.

Investment income and finance expense

Finance expense of £332 million was £74 million higher than in the prior year. This expense included a £43 million fair value loss on debt and derivative instruments, whereas the prior year included a £26 million fair value gain. This volatility in financing expense reflects the fact that, in order to hedge the interest cost implicit in the regulatory contracts, the group fixes interest rates for the duration of each five-year review period for the majority of its debt using interest rate swaps. IAS 39 limits the use of hedge accounting for these commercial hedges, thereby increasing the potential volatility in the income statement. In addition the impact of changes in credit spread on debt accounted for at fair value through profit or loss can result in significant additional volatility. However, this volatility has no cashflow impact. Interest expense on swaps (on a pre IAS 39 basis) and debt under the fair value option was £42 million, £16m lower than prior year.

Investment income was £147 million, compared with £118 million in the prior year partly reflecting the higher level of cash held following the sale of United Utilities Electricity. The underlying cost of net borrowing for continuing operations

of £207 million is lower than the prior year and reflects a lower average net debt and a reduction in the group's average net borrowing rate from around 6.3 per cent to 5.8 per cent. The group redeemed a €1 billion 6.625 per cent bond in November 2007 which has served to reduce the underlying cost of net borrowings, partly offset by the impact of higher inflation on the index-linked debt. However, the higher inflation rates will result in increased allowed revenues and growth in the regulatory capital value of United Utilities Water since both of these are linked to the UK Retail Price Index (RPI).

Profit before taxation

Profit before taxation¹⁾ decreased by 4.8 per cent to £478 million. Adjusting for the impact of restructuring costs, other one-off items, fair value movements in respect of debt and derivative instruments, and the expected short-term interest benefit associated with the cash proceeds from the sale of United Utilities Electricity, underlying profit before taxation² was £476 million, 16.7 per cent ahead of the results for the year ended 31 March 2007.

Taxation

The current tax charge relating to continuing operations is £89 million and the current tax effective rate is 18.5 per cent compared with 10.7 per cent in the prior year. The increase in current tax primarily relates to the fair value movement in derivatives, and is matched by an equal and opposite movement in deferred tax, resulting in no net impact on the total effective rate. Deferred tax has been calculated after taking into account the reduction in the corporation tax rate from 30 per cent to 28 per cent with effect from April 2008. The deferred tax credit on continuing operations arising from the adjustment of the opening deferred tax liability is £82 million. The overall deferred tax credit relating to continuing operations is £27 million compared with a deferred tax charge in the prior year of £90 million.

Excluding the impact of the change in corporation tax rate, the total tax charge relating to continuing operations would be £144 million or 30.0 per cent, compared with a £144 million charge or 28.6 per cent in the prior year. A total tax charge

of £62 million relating to continuing operations has been recognised for the year ended 31 March 2008.

The company is forecasting a one-off deferred tax charge in 2008/09 relating to the abolition of industrial buildings allowances. This one-off adjustment is anticipated to be over £200 million and is likely to result in a significant increase in the effective tax rate for the year ended 31 March 2009; however the cash impact will be spread over a period of approximately 20 years.

Discontinued operations

United Utilities Electricity, which principally comprised the group's electricity distribution assets, is treated as a discontinued operation in the results for the year ended 31 March 2008. In the period 1 April 2007 to the date of disposal on 19 December 2007, profit after tax generated from United Utilities Electricity assets was £122 million compared with £119 million for the year ended 31 March 2007. The profit on disposal of United Utilities Electricity amounted to £371 million.

United Utilities had previously announced its intention to dispose of its industrial liquid waste operations and facilities management operations in line with its strategy to focus on its core skills. The contribution from these operations has therefore been treated as discontinued. In 2007/08, the group completed the disposal of its industrial liquid waste operations to Group Tradebe, the parent company of Advanced Waste Solutions Limited and its facilities management operations were sold to Europa Facility Holdings Limited.

In the period 1 April 2007 to 26 October 2007, a loss after tax of £0.1 million was recorded from the group's industrial liquid waste operations compared with a profit after tax of £1.7 million for the year ended 31 March 2007. The facilities management operations made a profit after tax of £1.3 million for the period 1 April 2007 to 22 February 2008 compared with a profit after tax of £3.4 million for the year ended 31 March 2007. These results have all been included within discontinued operations in the

consolidated income statement.

United Utilities sold its 22.63 per cent stake in THUS Group plc earlier in the financial year, which completed its exit from the telecoms sector. The £10 million loss on disposal of the stake in THUS Group plc is treated as an adjustment to the consideration arising on the disposal of Your Communications and so both the loss and the group's share of THUS Group plc's results prior to disposal are disclosed as discontinued operations.

Earnings per share

Basic earnings per share relating to continuing operations increased by 15.6 per cent to 47.3 pence.

Dividends per share and future dividend policy

The board is proposing a final dividend of 31.47 pence per ordinary share in respect of the year ended 31 March 2008. Taken together with the interim dividend of 15.20 pence per ordinary share, the total proposed dividend for 2007/08 is 46.67 pence per ordinary share. This is an increase of 3.87 per cent, consistent with the group's previous policy of growing dividends in line with inflation (based on the issued share capital prior to the share reduction associated with the £1.5 billion proposed return of value to shareholders). The inflationary increase is based on the RPI element included within the allowed regulated price increase in United Utilities Water for the 2007/08 financial year (i.e. the movement in RPI between November 2005 and November 2006).

The proposed final dividend is expected to be paid on 8 August 2008 to shareholders on the register at the close of business on 27 June 2008. The ex-dividend date for the final dividend is 25 June 2008.

As announced at the group's half year results on 29 November 2007, the board has outlined a new dividend policy which will apply from 2008/09 to reflect the revised composition and earnings profile of the group. In light of the sale of United Utilities Electricity and the proposed £1.5 billion return of value to shareholders, the dividend per share from 2008/09 will be reduced by 30 per cent compared with the proposed 2007/08 dividend per share. Thereafter, the group's revised dividend

policy is intended to target a sustainable and growing level of dividends. The new target real growth rate of RPI+2 per cent will be applied from 2009/10 to the 2008/09 dividend per share.

Cashflow

Cash generated from the group's continuing operations for the year ended 31 March 2008 was £877 million compared with £811 million in the prior year. High levels of capital expenditure continue, principally in the regulated water and wastewater investment programmes. The group's net capital expenditure on property, plant and equipment for 2007/08 was £630 million, excluding infrastructure renewals expenditure which is included as an operating cost in the income statement under IFRS.

Cash and short-term deposits at 31 March 2008 amounted to £1,811 million which, inclusive of medium-term committed bank facilities and net of short-term debt, results in total available liquidity of £2,494 million. During the year United Utilities redeemed a €1 billion 6.625 per cent bond from existing cash resources primarily generated from issuances of index-linked debt.

The group retains an excellent pre-funded position for its capital investment programme through to 2010 and enhanced its liquidity further by arranging or extending the maturity dates of £500 million of committed medium-term bank credit facilities since 30 September 2007. Furthermore, the group is in discussions with the European Investment Bank with which it has a long-standing relationship regarding a new £400 million term loan for United Utilities Water.

Net debt, including derivatives, at 31 March 2008 was £2,903 million, a decrease of £741 million compared with 31 March 2007 (after adjusting for £482 million of net debt relating to discontinued operations which has exited the group). This movement principally reflects the receipt of cash proceeds from the sales of United Utilities Electricity and the group's stake in THUS Group plc, plus cashflow from operating activities, offset by expenditure on the regulated water and wastewater capital investment programmes and payments of interest,

tax and dividends. This reduction in net borrowings is expected to be short-term since the group intends to return £1.5 billion to shareholders.

Gearing (net borrowings divided by the regulatory capital value) decreased to 39 per cent at 31 March 2008, compared with 52 per cent at 31 March 2007. Following the proposed £1.5 billion return to shareholders, gearing will increase and is expected to move United Utilities towards the upper end of Ofwat's assumed range of 55 per cent to 65 per cent by the end of this regulatory review period. The board will continue to target an A3 credit rating for United Utilities Water.

In the year ended 31 March 2008, the group issued a total of £185 million of long-term, index-linked notes through its multi-issuer euro medium-term note programme. This comprised a £50 million issue at a real interest rate of 1.702 per cent with a 50.5 year maturity, a £100 million issue at a real interest rate of 1.585 per cent with a 50-year maturity and a £35 million issue at a real interest rate of 1.66 per cent with a 30-year maturity.

United Utilities now has index-linked funding totalling approximately £1.5 billion, including indexation of the principal. However, as a result of the current economic climate and the uncertainty in the monoline insurance sector, the group sees limited opportunity for further index-linked debt issuance.

The principal amount of the index-linked borrowings is adjusted to track movements in RPI. This form of liability is a good match for the group's regulated assets, which are also linked to RPI, and delivers a cashflow benefit to United Utilities since compensation for inflationary risk is provided via adjustment to the principal rather than through regular cash payments.

Liquidity and capital resources

Overview

The board has reviewed the group's business plan and considers that the group has sufficient liquidity to meet the anticipated financial commitments for at least the next twelve months.

The group's primary source of liquidity is cash generated from its ongoing business operations. As reflected in the consolidated cashflow statement on page 57, in the year ended 31 March 2008, net cash generated from the group's continuing operating activities was £877 million, compared with £811 million in 2006/07. The water regulator has established price increase limits to 2010 which provide certainty for a major element of the group's revenues from ongoing operations.

Liquidity

The table below details the group's short-term liquidity position at the year end. Short-term liquidity requirements are met from the group's normal operating cashflow and its short-term bank deposits. Further liquidity is provided by committed but undrawn credit facilities. This liquidity supports the company's US\$1.5 billion euro-commercial paper programme.

	£m
Cash and short-term deposits	1,810
Medium-term committed bank facilities	1,550
Short-term debt	(105)
Term debt maturing within one year	(761)
Total headroom/prefunding	2,494

The European Investment Bank is currently appraising a new £400 million term loan to United Utilities Water. This potential long-term loan is not reflected as committed funding in the table opposite.

The group also has access to the international debt capital markets through its €7 billion medium-term note programme which provides for the periodic issuance by United Utilities and United Utilities Water of debt instruments on terms and conditions determined at the time that the instruments are issued. The programme does not represent a funding commitment, with funding dependent on the successful issue of the debt securities. A detailed list of the group's borrowings is disclosed in note 17 to the consolidated financial statements.

Debt financing and interest rate management

The structure and sources of the group's gross debt is analysed in the chart opposite.

Long-term borrowings are structured or hedged to match earnings and assets, which are largely in sterling, indexed to UK retail price inflation and, in the case of revenues, subject to regulatory price reviews every five years.

Very long-term sterling inflation index-linked debt is the group's preferred form of funding as this provides a natural hedge to earnings and assets. At the year end, the group had in excess of £1.5 billion of such funding, representing approximately 21 per cent of the regulatory asset value of United Utilities Water, with an average real interest rate of 1.8 per cent. The long-term nature of this funding also provides a good match to the group's long-life infrastructure assets and is a key contributor to the group's average term debt maturity profile of in excess of 30 years.

Where debt is raised in a currency other than sterling and/or with a fixed interest rate it is generally swapped to create a floating rate sterling liability for the term of the liability.

The group's interest rate management policy is to seek to match the debt service costs to regulatory cashflow which is impacted by the general interest rate

environment at the time of each price control determination and is then fixed for the five-year period of that price control. To hedge the exposure to each price control determination, the group enters into interest rate swaps, around the time of each price control determination, to fix interest costs for a substantial proportion of the group's debt for the duration of that price control period. Residual interest rate exposure is hedged annually, largely through the use of exchange traded financial futures contracts.

Further details of the group's borrowings and interest rate management are provided in notes 4, 5, 17 and 18 to the consolidated financial statements.

Credit ratings

During the year, the group announced that the board intends to target an investment grade credit rating of A3 for United Utilities Water, which it believes best mirrors regulatory assumptions.

At the year end, United Utilities Water had stable long-term credit ratings of A3/A- and United Utilities had long-term stable credit ratings of Baa1/BBB+ from Moody's Investors Service and Standard and Poor's Ratings Services respectively.

Treasury policy

The group's treasury function operates within the policies approved by the board, and which are administered by the treasury committee through delegated authority from the board; it does not act as a profit centre and does not undertake any speculative trading activity.

Contractual obligations

Capital commitments of the group as at 31 March 2008 were £485 million, for which the group has contractual commitments for property, plant and equipment. The group also has obligations under its licence to comply with the capital programmes as specified by the regulators. Purchase obligations of the group as at 31 March 2008 total £15 million and primarily relate to services for which the group has purchase orders or contractual commitments.

Performance guarantees

The company and certain subsidiary undertakings have, in the normal course of business, given guarantees and entered into counter-indemnities in respect of bonds relating to the group's own contracts and given guarantees in respect of the group's share of certain contractual obligations of joint ventures.

Joint ventures

The group enters into joint ventures with consortium partners. The financial and legal structure of joint ventures is designed to limit the group's exposure to the extent of the equity investment and loans provided by the group, with no further recourse should the joint venture default. All joint venture arrangements have been incorporated into the group's results on a proportionate consolidation accounting basis.

Regulated activities

Performance summary

Regulated revenue increased by 7.2 per cent to

Regulated operating profit increased by 5.3 per cent to

with underlying operating profit⁽²⁾ up 8.3 per cent

(2) See footnote on page 12.

Revenue from regulated activities increased by 7.2 per cent to £1,416 million, principally as a result of allowed price increases of 8.3 per cent (including inflation) offset to a small extent by lower water consumption and trade effluent volumes and retrospective claims by unmetered customers. The increase in price supports the investment of significant sums in improving the infrastructure which provides vital clean water and wastewater services to customers.

Reported operating profit⁽¹⁾ for the year increased by 5.3 per cent. After adjusting for a number of one-off items in the current and prior years (as outlined in the underlying profit measures table on page 13), underlying operating profit for the year increased by 8.3 per cent to £614 million. This growth in underlying profit primarily reflects the allowed price increase offset by a higher depreciation expense as a consequence of increased capital spend and growth in infrastructure renewals expenditure which was 18.7 per cent higher than the prior year, in line with the planned profile of the renewals programme.

Capital investment in the period, including £120 million of infrastructure renewals expenditure, was £826 million. This represents a 44.8 per cent increase in expenditure compared with the prior year and reflects the peak phase of the 2005-10 investment programme. A revised strategy on processing and disposing of sewage sludge has recently been agreed with Ofwat. After adjusting for this strategy, cumulative capital expenditure on water and wastewater assets was broadly in line with regulatory assumptions as at 31 March 2008. The business remains on course to meet its regulatory efficiency targets and deliver its outputs across the 2005-10 period.

Efficiency initiatives

United Utilities Water is confident of meeting its regulatory efficiency targets despite increasing cost pressures in areas such as power and property rates.

This company's principal efficiency initiatives include an integrated performance management project, which increases

remote operational site management and optimises chemical and power usage, and its asset improvement programme which is improving the efficiency of operational pumps. These schemes are key elements of United Utilities' plan to mitigate its carbon emissions, alongside its combined heat and power assets which recycle energy generated from wastewater treatment processes.

Other key initiatives include a workforce management project, which is designed to improve data systems, deliver more efficient field operations and enhance customer service, and supply chain management which has now been centralised and is delivering procurement economies. There is a strong drive to improve customer service and the business is focusing on reducing the number of customer queries, improving staff productivity, implementing improved cash collection procedures and enhancing the overall customer experience.

Operational performance

United Utilities has a vision to be a world class operator of utility infrastructure and is targeting an upper quartile position among UK water companies on key operational measures in the medium-term. The business continues to upgrade its infrastructure and replaced 650 kilometres of water mains during 2007/08. United Utilities Water supplies a high quality of drinking water, with a mean zonal compliance water quality performance of 99.94 per cent for the year. United Utilities was ranked first among the UK's water and sewerage companies in 2006/07 by Ofwat for both water and sewerage in its most recent asset serviceability assessment, reflecting the group's long-term stewardship of its assets.

Although United Utilities has delivered real progress, there is more to do in improving operational performance. During 2007/08 there was a higher level of sewer flooding incidents influenced by adverse weather conditions. This together with environmental underperformance at our Fleetwood wastewater treatment works will lead to a lower Overall Performance Assessment (OPA) score from Ofwat for 2007/08, compared with the prior year.

Regulatory developments
Strategic direction statement
 Consistent with its approach to longer-term asset planning, in December 2007 United Utilities Water published its strategic direction statement (SDS) which considers the needs of the north west region out to 2035. The SDS enables this company to set its plans for the next price review period (2010-15) in this longer-term context, develop sustainable solutions and respond to future challenges.

The six key elements identified in the SDS are:

- **Responsible long-term stewardship of networks.** This includes protecting health and the environment, improving

understanding of network performance and investing in research and new technology with clear efficiency and service benefits.

- **Listening and responding to the views of customers and other stakeholders.** Ensuring that our plans meet their changing needs and priorities of customers and other stakeholders and provide good value for money. United Utilities recently undertook a substantial customer survey which identified key areas where customers are willing to pay for improvements including supply interruptions, sewer flooding, odour and reductions in greenhouse gas emissions. Customer priorities can help

shape future investment programmes, aligning expenditure to those areas that customers consider most important.

- **Making water resources more sustainable and resilient.** This means improving both our own and customers' water efficiency, ensuring United Utilities Water enhances and protects its network and developing water resources to help address increasing drought risk and meet supply and demand requirements.
- **An integrated approach to drainage to reduce flooding risk.** Storm water volumes entering the sewer system need to be reduced and the government's proposal to transfer responsibility for

Our performance against KPIs

Operational KPI	Performance update
Relative efficiency	We have closed the operational efficiency gap to the most efficient water companies over the last two years. For the water service the group has narrowed the gap from 16 per cent to 12 per cent and for the wastewater service from 27 per cent to 18 per cent (based on United Utilities' internal estimates). This is reflected in Ofwat's 2006/07 assessment of United Utilities as band B for the water service and band C for the wastewater service and represents a one band improvement for both services over the two-year period.
Security of water supply (leakage)	We outperformed the tougher economic level of leakage rolling target of 465 megalitres per day, as set by Ofwat for 2007/08. This is the second consecutive year that we have met or outperformed our leakage target. In addition, there were no water restrictions on customers during the year.
Pollution	One water and eight wastewater Category 1&2 incidents were recorded in 2007 compared with the base position of two water and 21 wastewater incidents in 2005. We again outperformed our target of a 50 per cent reduction in the medium-term.
Sewer flooding	We continue to remove properties from our sewer flooding register. We have set a medium-term target of reducing the number of properties on this register by 50 per cent compared with a start point of 641 properties in 2005/06. This target is based on properties at risk of experiencing at least one sewer flooding incident in ten years. Further progress has been made in 2007/08 with 434 properties now on the register. This represents a 32 per cent reduction over the last two years and the business remains on track to meet its medium-term target.
Overall customer satisfaction	Good progress was made in 2007/08 and 73 per cent of United Utilities' water and wastewater customers surveyed who had made an enquiry were satisfied with the overall service they received. This compares with a start point satisfaction level of less than 50 per cent in 2005. These satisfaction levels are based on a comprehensive independent survey conducted on behalf of United Utilities each month. Going forward, the business has a strong focus on resolving customer queries on the first contact which should improve customer satisfaction and lower the cost of service.

Business review: business performance

Regulated activities continued

private sewers from householders to water companies will facilitate a more integrated approach to this challenge.

- **Reduce the group's carbon impact.** We aim to halve its greenhouse gases by 2035, supported by achieving energy neutrality for its wastewater operations.
- **Bills to rise, on average, no faster than incomes.** United Utilities believes that the water and wastewater services it provides are already of good value, but there will be future upward pressure on costs.

Climate change and sustainability

The implications of climate change on drought and flood risk are set to feature strongly in United Utilities' plans for decades to come and these implications will be incorporated in the forthcoming price review submission. The importance of this is recognised by the government, which intends to publish a draft Floods and Water Bill for consultation later in the year.

2009 water price review

United Utilities Water's preparations for the forthcoming price review are well advanced and it is in active deliberations with its regulators and other key stakeholders. In March 2008, Ofwat published its methodology for the 2009 water price review which will set price limits for the five-year period starting 1 April 2010. In many respects, the methodology is similar to that used in previous price reviews but we are pleased to note the increased focus on the issues of climate change and sustainability.

Following the outcome of the group's recent capital structure review, the board announced that it will be targeting an A3 credit rating for United Utilities Water which it believes best mirrors Ofwat's assumptions for the 2005-10 regulatory period. The board believes this to be an appropriate investment grade rating to allow the group to raise finance to fund its substantial capital investment programmes.

United Utilities believes that Ofwat should ensure that companies can at least maintain an A3 rating and should consider recent developments in the credit markets. The raising of debt finance is particularly important given the likely scale of investment that is still required in the water industry to replace and refurbish

ageing infrastructure, address flooding risk and climate change and deliver further statutory environmental obligations and customer priorities. United Utilities believes significant investment will be required during the next price review period (2010-15) and beyond.

United Utilities has been consistent in its approach that the regulator should consider both short and long-term economic data in the price review. Sub-prime debt problems and US recession fears have seen higher risk premiums on the cost of debt and difficulties experienced by the monoline credit insurance industry have implications for the raising of further index-linked debt.

Unsatisfactory Intermittent Discharges (UIDs)

It is likely that there will be additional investment, mainly in respect of UID projects, that were not part of United Utilities' 2005-10 regulatory contract. A large proportion of this investment, if endorsed by Defra and Ofwat, is expected to fall into the 2010-15 period and be considered as part of the forthcoming price review. United Utilities estimates that the additional funding likely to be required to complete this UID programme, which is designed to meet statutory obligations and deliver environmental benefits, could be in the order of £700 million.

In Manchester city centre we are upgrading the water network at a cost of over £8 million. Customers living and working in Manchester will benefit from even better water quality, fewer leaks and improved water pressure.

Award winning waste management
Sheepshear Aggregate Recycling Centre, operated by our gas business, won two Rushlight Awards in 2007. These awards recognise technology and innovation that helps to address climate change, waste and pollution management.

The centre takes material excavated from gas mains works, sorts it and mixes the useable pieces with cement. This is then placed back in trenches to reinstate them once work is complete.

Non-regulated revenue in the year increased by 30.2 per cent to £949 million compared with the prior year, reflecting the contribution from the first year of the electricity distribution outsourcing contract. Underlying operating profit⁽²⁾ was slightly higher than last year. This reflects the first time inclusion of contribution from the group's electricity outsourcing activities, partly offset by the expected reduction in contribution from the Southern Water contract where the investment profile peaked in 2006/07. Reported operating profit was down 19.2 per cent compared with 2006/07 reflecting £12 million of restructuring costs, principally relating to planned efficiency delivery in gas and electricity outsourcing activities.

Business update

The non-regulated business incorporates the former United Utilities Contract Solutions' activities and applies the core utility skills of the regulated business through outsourcing contracts. We hold major water and wastewater utility outsourcing contracts, working on behalf of Dŵr Cymru Welsh Water, Southern Water and Scottish Water, and we are the leading utility infrastructure outsourcing company in the UK.

United Utilities also has three Scottish PFI operations and currently operates in Australia, Bulgaria, Estonia, Poland and the Philippines.

United Utilities holds the only outsourced contracts to operate electricity and gas distribution networks in the UK, working on behalf of Electricity North West and Northern Gas Networks (NGN). United Utilities' electricity outsourcing contract extends through to 2015 and is projected to generate revenues of around £1.5 billion over the eight-year period, with the potential for the contract to be extended by a further five years to 2020. United Utilities also has a 15 per cent stake in NGN, which provides a steady income stream. In addition, United Utilities has a meter installation contract with British Gas Trading which was extended to 30 June 2010 earlier in this year, building on a good performance on the contract to date. Furthermore this provides an enhanced revenue stream to United Utilities through rental income from meter ownership.

In May 2008, we were awarded a three-year contract to provide the Greater Manchester Waste Disposal Authority with water, electricity and gas connections to 27 sites across the Manchester region. Whilst this is a relatively small contract it is a useful addition to the portfolio.

United Utilities has a strong order book worth over £6 billion in revenue which secures long-term income streams for the group. This was enhanced further through the recent extension of the contract with Southern Water, which now runs through to 31 March 2015. Overall, the business is pleased with its performance across the contract portfolio, reinforced by positive feedback received from its customers during the year.

In line with its business development strategy, United Utilities was recently named preferred bidder for the water supply upgrade project in Townsville, Australia. The project involves upgrading the water facilities in Townsville and designing, building and operating two water treatment plants. Facilities are due to be completed and operational by mid 2010 and upon award, United Utilities expects to hold a 20-year operations and maintenance contract with a minimal equity investment requirement. The project forms part of an AUD\$300 million water and sewerage infrastructure programme in Townsville.

Other activities

Operating profit from other activities for the year ended 31 March 2008 was £1 million. This segment includes central costs and the contribution from United Utilities Property Solutions. This is the property sales and management business of United Utilities and it made an operating profit of £19 million in the year. It owns a land and property portfolio and is expected to continue to deliver a positive contribution for the next few years, although, due to the nature of the business, profits may not follow a smooth profile.

Corporate responsibility

Central to our vision of being a world class utility operator is our reputation for high standards in respect of business and ethics. Our success depends on reinforcing this reputation among all those with an interest in our business as well as in the communities in which we operate. Our commitment to such standards is reflected in our business principles which summarise our business philosophy and the main policies we apply across our operations.

Strategy and governance

Traditionally, our approach to corporate responsibility (CR) has centred on the environmental effects of the business, our employees and customers and our work in the community. Given the restructuring of the group in the last 18 months, we have reviewed our CR strategy with the aim of focusing on those areas that matter most to the business and where the work we do can support the group's wider vision. As a result, we are placing greater emphasis on two particular areas – climate change (where the water sector faces tougher challenges than most other industries) and promoting and attracting the skills we need to develop solutions to the future challenges of running our business.

To support this new policy, we have reviewed and reinforced our CR governance process. The changes include the introduction of a community investment committee of the board to approve and monitor the group's CR policy and action plan and report progress to the board. We have also strengthened our internal governance around all key CR policies and performance indicators.

The environment and sustainability

Our plans for tackling climate change include reducing our emissions of greenhouse gases and responding to the long-term effects of a changing climate. In 2007 we set out our carbon management strategy with targets for cutting emissions and influencing our stakeholders in support of these goals. To meet our targets, we are expanding our generation of renewable energy and making greater use of sewage gas as a source of energy. As for adapting to the impact of climate change, future investment plans will take greater account of the risk of flooding and the need to protect water resources.

We are also improving our performance in terms of waste management. We are using more products derived from waste thereby reducing volumes sent to landfill, as well as recycling sludge to generate heat and power.

The way we source resources is important in operating in a more sustainable manner. In 2007 we developed a sustainable supply chain strategy integrating sustainability into procurement decisions, overseen by a dedicated sustainable supply chain manager.

Our responsibilities extend to the land we own. We are now three years into a £10 million, five-year programme which aims to improve the condition of our Peak District and Bowland estates along with their wildlife habitats. Nearly a third of our land is designated Sites of Special Scientific Interest. At present, 83 per cent of this is rated 'favourable' or 'recovering' and we aim to raise the figure to 95 per cent by 2010.

The community

Other activities relate to our policy of developing and attracting relevant talent. As part of our work in education, we support schools and other establishments in promoting environmental science – now with a greater focus on climate change and encouraging a measurable change in behaviour both in schools and at home. By engaging and educating children in science and engineering subjects, we play a part in developing the skills, and encouraging the uptake of subjects, that could contribute to the future success of our business.

We encourage and support our employees to become involved in community activity by enabling them to volunteer in company time, by matching their fundraising efforts up to £250 and by making grants of up to £250 to community groups to which our people give their time. Our employees have been actively involved in a number of our partnerships this year, including Wateraid and the Changing Lives Challenge which supports The Youth Sport Trust and Hope Through Action to encourage leadership and make a lasting difference in people's lives.

We invested around £2.5 million in the communities in which we operate last year, including cash, time and in-kind help. Our activities have focused around our strategy and benefit communities impacted by our operational activities, through community partnerships with United Futures (a regeneration programme), with Groundwork UK and Mersey Basin Campaign.

Bryan Homan is one of 23 carbon champions across our business. He has been an outstanding role model to play a part in reducing our carbon emissions. He promoted a number of energy projects which

reduced our carbon footprint. Bryan is a member of the Carbon Champions group which is made up of employees from across the business who are committed to reducing our carbon footprint.

Leadership

We have been working over the past year to define what leadership across our business should look like. 150 of our most senior leaders have attended development workshops as part of this process and we are establishing a leadership communications forum aimed at sharing knowledge and information, with a membership of more than 600 people.

Employee engagement

Our employees are fundamental to our business success. It is vital they understand our business direction, feel pride in their work and are motivated to go the extra mile for our customers. Therefore we now measure how engaged our employees feel, rather than how satisfied they are with their jobs.

In 2007, 63 per cent of our people said they felt engaged and fully supported us. Our ambition for 2008 is to increase this score to 70 per cent through targeted action plans.

Health and safety

We recognise the importance of strong and consistent health and safety performance in protecting our people, assets and integrity. Last year we brought all the health and safety teams operating across our group into one central team. We now have consistent health and safety standards supported by improved checks and a greater safety awareness and competence among our employees. This will allow us to focus on reducing and measuring risk control rather than just dealing with accidents in isolation. In our new approach to health and safety management we will also be ensuring that our employees maintain the right knowledge, skills and competence levels to work as safely as possible.

Employee relations

Over the last year, the structure of our organisation has changed significantly and we have been meeting with the trade unions to discuss how we need to work together to develop a long-term relationship to support this change.

Developing our people

To attract, retain and develop skills and talent across the company a key part of our human resources strategy focuses on building our skills and talent pipeline.

This strategy details the skills, capabilities and numbers of people we need for future success. We intend to grow internal talent and attract talent from the external market to bridge any gaps we have.

A 'university' concept has been developed to provide development support in leadership, technical and core skills. This will be launched to employees during 2008.

In 2007, 47 apprentices and 11 graduates joined United Utilities, as a result of our successful recruitment campaigns. We are expecting a further 85 apprentices and 40 graduates to join the company in September 2008.

Benefits and lifestyle

We offer our employees a set of core benefits which range from holidays and pension schemes to health checks and family friendly benefits. Pension provision is a valued core benefit and 92.8 per cent of employees are members of schemes, some of which offer an Additional Voluntary Contribution facility.

We recognise the importance of work-life balance and have developed a range of initiatives that go beyond our legal obligations as an employer. These include our policies on maternity, paternity, adoption, family, personal and special leave. We offer flexible working, career breaks, part time working, job-share, home working and a range of additional benefits.

This year we extended the flexible benefits scheme to all our employees.

Doing our duty

Our business principles make it clear that in everything we do, we act with integrity and fairness and observe legal requirements. Any employee with serious concerns that we may not be adhering to these principles is encouraged to speak up via their line manager or by using a voicemail number that can be called in confidence. A full copy of our business principles document is available at www.unitedutilities.com.

Employees with disabilities

We are committed to fulfilling our obligations in accordance with the Disability Discrimination Act 1995 and best practice. As an equal opportunities employer, we give equal consideration to applicants with disabilities in our employment criteria and will modify equipment and working practices wherever it is safe and practical to do so. We are committed to providing full support and appropriate training for employees who become disabled during the course of their employment so that they can continue to work in a position appropriate to their experience and abilities.

RISK FACTORS

We are exposed to a variety of risks and uncertainties which, if they materialise, could adversely affect our reputation, profitability or financial position, and the pricing and liquidity of our securities. The principal risks and uncertainties to which we are exposed are summarised below, but other risks and uncertainties, or risks and uncertainties that are unforeseen or unforeseeable could also have an adverse impact on our reputation, profitability or financial position, and the pricing and liquidity of our securities.

risks relating to the group and our business

Regulation

We operate in a regulated industry and our water and wastewater businesses are substantially influenced by the service levels, regulatory targets and price determinations made by our primary regulator, Ofwat, and Ofwat's assessment of our delivery against those service levels, regulatory targets and price determinations. The most recent price determination in 2004 set price limits for the five years from April 2005. The next price determination in 2009 will take effect for five years from April 2010. Ofwat's price determinations limit the prices we can charge our customers.

An adverse price determination could occur for a number of reasons, including an inadequate allowed cost of capital or inadequate assumptions by Ofwat concerning our future operating and capital expenditure, as well as turnover forecasts proving not to be sufficiently accurate. In addition, unforeseen or unforeseeable costs may arise after a price determination which were not taken into account by Ofwat in setting price limits and cannot be passed on to our customers.

Scope for us to review a particular price determination within the relevant five-year period is limited. These review mechanisms can also be invoked by Ofwat to reduce the prices we can charge our customers.

Ofwat is empowered to impose fines on United Utilities Water of up to 10 per cent of our regulated turnover if we fail to comply with our regulatory obligations. For instance, if we provided sub-standard services to customers or failed to comply with reporting requirements, then in serious cases, our licences could be revoked.

Our businesses also operate or provide services to customers in regulated industries or in industries that are affected by general and specific laws and regulatory regimes.

We engage regularly with Ofwat and our other regulators within the applicable statutory framework, and endeavour to ensure the assumptions and projections underlying Ofwat's price determinations are accurate and achievable.

Operational performance and cost savings implicit in price determinations
Operating cost savings are implicit in Ofwat's price determinations. To assist the achievement of these operating cost savings, we introduced a business change programme. If these efficiencies are not achieved, this may adversely affect our group's profitability and may be reflected by less favourable outcomes in Ofwat's future price determinations.

Capital investment programmes
Our regulated business requires significant capital expenditure, particularly in relation to new and replacement plant and equipment for water and wastewater networks and treatment facilities. The price determinations made by Ofwat take into account the level of capital expenditure that Ofwat expects us to incur during the relevant five-year price review period and the associated funding costs.

Historically, we have financed this capital expenditure from operating cashflow and from external debt financing. There can be no assurance that operating cashflows will not decline or that, in the longer term, external debt financing or other sources of capital will be available at similar expense in order to meet these capital expenditure requirements.

If we are unable to deliver on our capital expenditure programmes or adverse legacy effects of earlier capital investment emerge or amounts budgeted in prior capital expenditure programmes prove insufficient to meet the actual capital expenditure required, our profitability or financial position may be adversely affected. In addition, our ability to meet regulatory and other environmental performance standards could be adversely affected by such failure, which may result in fines imposed by Ofwat of an amount of up to 10 per cent of regulated turnover, or other sanctions.

At the beginning of the 2005-10 price determination period, there had been around 3,000 intermittent discharges recorded in north west England from wastewater overflows, of which a number were determined by the Environment Agency as 'unsatisfactory' (UIDs). There have been ongoing discussions between United Utilities, Ofwat and the Environment Agency regarding the responsibility, scope and cost of the required solutions for a number of these UID's. The majority of these UID projects were not part of the 2005-10 regulatory contract and will require additional investment.

In October 2007 we submitted a funding submission, or change protocol, to Ofwat relating to discharges into inland waters. This submission followed a planning inquiry which dealt with a small number of such UID's but which was intended to establish precedent for a larger number of similar discharges that were under discussion. The required investment at the sites included in the change protocol submission requires confirmation by Defra. A response to this change protocol is expected later in the year. A further planning inquiry dealing with discharges to bathing waters was heard in December 2007. We will be making further submissions to Ofwat dealing with those UID's affected by that planning inquiry and as well as other UID's.

Taken together, we currently estimate that funding for capital expenditure of approximately £700 million is likely to be required in order to remedy these UID's. A large proportion of this capital expenditure is likely to fall into the 2010-15 regulatory period and so the funding of this investment will be considered as part of the forthcoming 2009 price review. This investment programme, if fully endorsed by Defra and Ofwat, should be funded through price limits and deliver additional growth in our regulatory capital values as well as benefits for customers and the environment. We cannot be certain, however, that all these additional costs will be recoverable on this basis and will not adversely affect our profitability or financial position.

Environmental laws

There are various environmental laws with which United Utilities must comply. These laws establish, amongst other things,

standards for water abstraction, drinking water, the discharge of sewage and other pollutants into the environment, and procedures governing operational development. We are required to obtain various environmental consents from regulators.

In particular, we are required to comply with laws intended to control the release of, or exposure to, contaminants that are potentially harmful to health, safety or the environment. Land that is designated as contaminated land may need to be remediated, and the group could be liable for the cost of remediation of land owned or occupied by it if the original polluter cannot pay. The group owns a significant number of sites and operates upon or within land owned, tenanted or trafficked by third parties. None of the group's land is currently designated as contaminated but it owns, or is required to work within or may in future own or be required to work within, sites that, by virtue of prior use, are potentially contaminated. Whilst we have implemented risk controls intended to effect compliance, it is possible that we may have liability in relation to contaminated land in future and could face sanctions imposed by the relevant regulator or the courts or claims by third parties.

While we endeavour to comply with all legal requirements, we cannot guarantee that in the future we will be in full compliance at all times with all applicable environmental laws and the terms and conditions in our environmental consents. Should we fail to comply, we could face fines imposed by the courts or otherwise face sanction by the relevant regulator or claims from third parties and additional costs to bring the group into compliance.

In addition to regulatory compliance proceedings, we could become involved in a range of third party legal proceedings relating to land use, environmental protection and water quality, which could include planning permission applications, for example, sewage treatment or water treatment works; challenges by third parties to decisions relating to the group that have been made by regulators; and civil actions by third parties for the alleged infringement of their common law rights, such as nuisance claims relating to odour or other matters. These risks could adversely affect

the way that we operate, prejudice our reputation and result in the imposition of substantial fines, damages and other costs, each of which could adversely affect our profitability and financial position.

The Water Act 2003 (the act) implemented changes to the regulatory regime. The scope and timing of the government's plans under the act to transfer ownership of parts of the sewerage system which are in private ownership to sewerage undertakers (including United Utilities) have yet to be finalised and we may incur costs as a result of such a transfer, for example in meeting the costs of any upgrading and maintenance work that may need to be carried out in respect of the transferred sewers. Further, the act has introduced new time-limited water abstraction licences which must be renewed upon expiry. The renewal of these licences is now subject to certain tests and our abstraction licences may not be renewed and additional costs could be incurred in implementing replacement projects.

Events, service interruptions, water shortages or contamination of water supplies could adversely affect profitability

We control and operate utility networks and maintain the associated assets with the objective of providing a continuous service. In exceptional circumstances the failure of an asset, or an element of a network, or supporting plant, or equipment could result in catastrophic damage, including significant loss of life and/or environmental damage and/or economic and social disruption. In less exceptional circumstances, the failure of a key asset could cause a significant interruption to the supply of services. Although we have continued to refine our risk management and business continuity procedures, it is only possible to be reasonably, but not absolutely, certain that such measures will be effective in preventing or when necessary managing large-scale incidents to the satisfaction of customers, regulators, government and the wider stakeholder community.

We are under a duty to supply water that is wholesome at the time of supply. The Drinking Water Inspectorate is required to take enforcement action against the group for any breach of quality standards or other statutory obligations. In addition, we may

be prosecuted and fined or face claims from third parties for supplying water that is unfit for human consumption.

Water supplies may be subject to interruption or contamination, including contamination from the presence of naturally occurring compounds and pollution from man-made sources or third parties' actions. We could be fined for breaches of statutory obligations or held liable to third parties for human exposure to hazardous substances in its water supplies or other environmental damage.

If a water supply provided by United Utilities is contaminated or interrupted and we are unable to substitute water supply from an uncontaminated water source, or to treat adequately the contaminated water source, we are required to provide an alternative water supply of equivalent quality, which could increase costs.

Water shortages may be caused by periods of below average rainfall, long-term increases in demand, short-term exceptional demand or operational problems involving water abstraction, transmission, treatment, storage or distribution. Environmental considerations such as climate change may exacerbate seasonal fluctuations in supply availability. A combination of any or all of these factors may require restrictions on the use or supply of water, including hosepipe bans and drought orders. If there are water shortages, we may incur additional costs in order to provide emergency reinforcement to supplies in areas of shortage, which may have an adverse effect on our profitability or financial position.

Although these costs may be recoverable in part through the regulatory price determination process, there can be no assurance of this. We actively monitor these risks and maintain insurance policies in relation to losses and liabilities likely to be associated with these risks, although there can be no assurance that cover will extend to the entirety of such losses or liabilities, or that coverage will continue to be available in the future.

Non-recovery of customer debt
We manage the billing, cash collection and debt management activities for over three million domestic and business wastewater and water customers. Legislation prohibits the disconnection of a water supply to

Business review: business performance continued

Risks factors continued

domestic premises for non-payment, as well as the limiting of a supply with the intention of enforcing payment in respect of certain connections, including those to domestic dwellings.

Non-recovery of customer debt may cause our profitability to suffer. Although allowance is made by Ofwat in its periodic price determinations for a proportion of debt deemed to be irrecoverable, we can also initiate a review during a price determination period when certain regulatory assumptions (including as to the level of non-recoverable debt) are materially inaccurate, although there can be no guarantee that these reviews will be successful.

Risks in our non-regulated business

Our non-regulated business provides services relating to the operation and management of assets for clients operating in a number of regulated sectors. These services include the maintenance and operation of electricity, gas and water networks, the design and construction of new assets, the design and construction of new connections to the relevant network and the provision of ancillary services. Adverse price determinations by the regulators of the clients to which we provide services, or the failure by United Utilities to meet operating performance targets, maintain service continuity or achieve specified operating efficiencies in relation to its regulated clients could have an adverse effect on our reputation, profitability or financial condition.

Rapid growth in our non-regulated business

Our non-regulated business is expanding into new markets domestically and internationally. The delivery of contracts, both existing and future, will be achieved by exploiting our core infrastructure management skills. The overstretching of such skills could lead to a loss of customers or the inability to meet contractual commitments, or to the incurrence of penalties, which may in turn have an adverse effect on our reputation, profitability or financial condition.

Pension scheme obligations

We participate in a number of pension schemes, principally in the UK. The principal schemes are funded defined benefit schemes and the assets of the schemes are held in trust funds independent of group finances.

Our current schemes had a combined deficit of £101 million as at 31 March 2008, compared with a surplus of £61 million (re-presented) as at 31 March 2007. This funding position may vary over time, in particular if short-term investment performance does not match changes to the value of the liabilities. However, further increases to the deficit may result in a liability

for the group, even though some of the additional deficit may be recoverable through the regulatory price determination process.

Operating risk

Managing our businesses is dependent on the ability to process a large number of transactions efficiently and accurately. Operational risk and losses can arise from, among other things: fraud; employee errors; supply chain disruption; failure to document transactions properly or to obtain proper internal authorisation; failure to comply with regulatory requirements and business principles; resource shortages; failure or under-performance of business processes, assets or equipment; natural disasters; the failure of internal or external systems; or the actions or inactions of third parties.

Although we have implemented risk controls and loss mitigation actions, and substantial resources are devoted to developing efficient procedures and to employee training, it is only possible to be reasonably, but not absolutely, certain that such procedures will be effective in controlling each of the operational risks we face.

Material litigation

We face the risk of litigation in connection with our businesses. In general, liability for litigation is difficult to assess or quantify; recovery may be sought for very large and/or indeterminate amounts and the existence and magnitude of liability may remain unknown for substantial periods of time. Litigation may be adverse to the group's reputation, profitability or financial position.

NOSS Consortium (NOSS), (of which North West Water International Limited (NWWIL), a wholly owned subsidiary of United Utilities, is a member and the sole remaining active participant, is party to arbitration proceedings in Thailand in relation to a design and construction contract dated 1 November 1993 between NOSS and the Bangkok Metropolitan Administration (BMA) to build a wastewater treatment plant and network in central Bangkok.

Following disagreements with the engineer (Dorsch Consult) and disputes with the BMA, NOSS terminated the contract with the BMA and served a notice of arbitration. NOSS has total claims against the BMA of approximately 6 billion baht (approximately £83 million). The BMA has counter-claimed for approximately 3 billion baht (approximately £44 million). Although there have been some delays in the arbitral process, the arbitration now appears set to proceed.

Changes in laws

We cannot accurately predict the impact of future changes in law or the introduction of new laws that could affect our businesses

anywhere in the world. From time to time, interpretation of existing laws may also change or the approach to their enforcement may become more rigorous. Future changes in law, the introduction of new laws and new judicial or regulatory interpretation of existing or future laws could affect our business and might impose additional costs which may not be recoverable through the regulatory price determination process.

Corporate information systems failure

Managing our business is dependent on the ability to access, utilise and communicate remotely via electronic software applications mounted upon corporate information technology hardware and communicating through internal and external networks. The ownership, maintenance and recovery of such applications, hardware and networks are not wholly under our control. Although we have implemented risk controls and loss mitigation actions, and substantial resources are devoted to enhancing the resilience of such applications, hardware and networks, it is only possible to be reasonably, but not absolutely, certain that such procedures will be effective in controlling their resilience and recovery. In the event that such recovery is not possible, or is protracted, this could have an adverse effect on our reputation, profitability or financial position.

Current capital market conditions

The current problems that are impacting the domestic and international debt and equity capital markets generally for all companies have resulted in the cost of capital increasing significantly over the period since the summer of 2007 and, in particular, made issuance of new debt capital more expensive and difficult.

If the current problems persist, it is likely that the costs we incur may be materially more than those experienced in respect of similar issues of debt capital in the recent past. This would increase our cost of capital, and adversely affect our profitability and financial position.

The intended return of approximately £1.5 billion to shareholders during August 2008 will, after it is implemented, result in a material reduction in the amount of liquidity (comprising cash and undrawn committed bank facilities), available to United Utilities. This means that we will need to raise new debt capital earlier than we might otherwise have needed to without the return of capital. We continually monitor developments in domestic and international capital markets and endeavour to raise capital at appropriate times and in a cost-effective manner.

Directors' report

The directors present their report and the audited financial statements of United Utilities PLC ('the company') and its subsidiaries (together referred to as 'the group') for the year ended 31 March 2008.

The company is a public limited company registered in England and Wales. Its registered office address is at Haweswater House, Lingley Mere Business Park, Lingley Green Avenue, Great Sankey, Warrington WA5 3LP.

The company is the holding company of a group which owns and operates water and wastewater assets and also manages infrastructure and business processes for other businesses, predominantly within the United Kingdom. In December 2007, the group sold its subsidiary company United Utilities Electricity Limited which owned the licensed electricity distribution network in the north west of England. On disposal, the group's eight-year term (commencing on 1 April 2007 and running to 31 March 2015) asset services agreement continued. Under this agreement the group will continue to be involved, amongst other matters, in the operation and maintenance of the north west's electricity network infrastructure. There is potential to extend the contract for a further five years subject to the agreement of the parties. There is also a requirement to agree appropriate costs for the final five years of the initial term (2010-15) following the electricity distribution price control in 2010. A failure to agree these could lead to a break in the contract but there is a contractual mechanism to cater for the agreement of these costs.

The business review (pages 2 to 26), which includes the chairman's and chief executive's statements (pages 2 to 3), provides a fuller description of the group's activities during the year and of likely future developments, and forms part of this directors' report. A summary of key performance indicators can be found in the highlights of the year and on page 19. The company's principal subsidiary undertakings, and the associated companies and joint ventures in which the group participates, are listed in note 13 to the consolidated financial statements.

The directors are recommending a final dividend of 31.47p for each ordinary share for the year ended 31 March 2008, which together with the interim dividend of 15.20p gives a total dividend for the year of 46.67p for each ordinary share (the interim and final dividends paid in respect of the 2007 financial year were 14.63p and 30.30p respectively). Subject to the final dividend being approved by shareholders at the annual general meeting, it will be paid on 8 August 2008 to shareholders on the register at the close of business on 27 June 2008. United Utilities Employee Share Trust Limited has waived its rights to dividends, including dividends paid in respect of the year ended 31 March 2008, and future dividends, in respect of the ordinary shares held by it, which as at 2 June 2008 amounted to 53,601 ordinary shares.

The names of the present directors and their biographical details are given on pages 29 to 30.

Several board changes occurred during the year. Sir Peter Middleton, non-executive director, stood down at the annual general meeting on 27 July 2007 and Paul Capell resigned from the board on 27 September 2007. Dr John McAdam was appointed as an additional non-executive director on 4 February 2008, as the intended successor to the chairman, Sir Richard Evans. Sir Richard Evans and Norman Broadhurst will retire from the board at the forthcoming annual general meeting.

Under the articles of association, a director appointed by the board must retire at the annual general meeting of the company next following such appointment. As a director appointed during the year, Dr John McAdam will be retiring and offering himself for re-appointment at the annual general meeting. The articles of association also provide that a director must retire at the third annual general meeting following his or her last appointment or re-appointment by shareholders. Both David Jones and Nick Salmon were last appointed at the annual general meeting held in 2005 and are therefore retiring and offering themselves for re-appointment at the 2008 annual general meeting.

Details of the board's policies and procedures regarding the appointment of directors are included in the corporate governance report on pages 35 to 36. Details of the interests in the company's shares held by the directors and persons connected with them are set out in the directors' remuneration report on pages 41 to 51.

The annual general meeting

The annual general meeting will be held on 25 July 2008 at the Bridgewater Hall, Manchester. Full details of the resolutions to be proposed to shareholders can be found in the accompanying circular which includes a letter from the chairman, the notice of meeting and explanatory notes on the resolutions to be proposed.

At the meeting, resolutions will be proposed, amongst other matters, to receive the annual report and financial statements; to approve the directors' remuneration report; to declare a final dividend; and to re-appoint Deloitte & Touche LLP as auditors.

In addition, shareholders will be asked to renew the directors' general authority to allot shares and the authority to issue shares without first applying statutory rights of pre-emption, and to authorise the company to make market purchases of its own shares. Shareholders will also be asked to approve the adoption of new articles of association, incorporating changes resulting from the implementation of the Companies Act 2006 and to authorise the making of limited political donations by the company and its subsidiaries.

Share capital, transfers of shares and voting rights

At 31 March 2008 the authorised share capital of the company was £1,300,000,000 divided into 1,300,000,000 ordinary shares of £1 each. All ordinary shares have the same rights, including the right to one vote at a general meeting, the right to an equal proportion of any dividend declared and payable, and to an equal amount of any surplus assets which are distributed in the event of a winding up.

The rights attaching to shares in the company are provided by the articles of association, which may be amended or replaced by means of a special resolution of the company in general meeting. The company annually renews its power to issue and buy back shares at its annual general meeting, and such resolutions will be proposed at the 2008 annual general meeting.

There are no restrictions on the transfer of shares in the company, nor any limitations on the holding of shares in the company, save that the articles of association give a limited right for the directors to suspend the transferability of shares if the holder of those shares has failed to provide information requested by the company in accordance with company law.

There are no arrangements known to the company by which financial rights carried by any shares in the company are held by a person other than the holder of the shares, nor are there known to the company any arrangements between holders of securities that may result in restrictions on the transfer of securities or on voting rights.

Major interests in shares

At 2 June 2008, the directors had been notified of the following interests in the company's issued ordinary share capital in accordance with the Disclosure and Transparency Rules of the Financial Services Authority:

Shareholder	Number of shares	% of issued share capital
Invesco PLC	44,644,578	5.07
Pictet Asset Management S.A.	44,072,064	5.00
Legal and General	35,472,365	4.02

Purchase of own shares

At the annual general meeting held on 27 July 2007, the company was authorised by shareholders to purchase, in the market, up to 88,003,259 of its own ordinary shares of £1 each. No shares were purchased pursuant to this authority during the year. This authority is normally renewable annually and approval will be sought from shareholders at the 2008 annual general meeting to renew the authority for a further period.

Change of control

The trustee of the United Utilities Employee Share Trust has the ability to exercise voting rights which relate to shares which it holds under the trust deed constituting the trust. In the event of a takeover offer which could lead to a change of control of the company, the trustee must consult with the company before accepting the offer or voting in favour of the offer. Subject to that requirement, the trustee may take into account a prescribed list of interests and considerations prior to making a decision in relation to the offer, including the interests of the beneficiaries under the trust.

Directors' indemnities and insurance

During the year the company put in place contractual entitlements for directors of the company and of its subsidiaries to claim indemnification by the company in respect of certain liabilities which might be incurred by them in the course of their duties as directors, including their duties as directors of any company which acts as trustee of any of the group's pension schemes. These arrangements comprise qualifying third party indemnity provision and qualifying pension scheme indemnity provision and have been established in accordance with the applicable provisions of the Companies Act 2006. The company also maintains an appropriate level of directors' and officers' liability insurance.

Political and charitable donations

The group's policy is not to make any donations for political purposes. However, the Companies Act 2006 requires certain types of expenditure on political events to be pre-approved by shareholders. At the 2005 annual general meeting, an authority was taken to cover such expenditure. Pursuant to that authority, in the year, the company incurred expenditure of £5,314 (2006/07: £nil) as part of the process of engaging in dialogue with government regionally and nationally. Resolutions to renew this authority for the company and its subsidiaries will be put to the 2008 annual general meeting.

Charitable donations by the group in the year amounted to £3,790,569 (2006/07: £3,080,070).

Employees

The company's policies on employee involvement and on equal opportunities for disabled employees are contained within the people section of the business review on page 23. The board encourages employees to own shares in the company. Details of employee share schemes are in the remuneration report on page 51.

Policy on payment of creditors

United Utilities PLC's policy is in line with the CBI Code of Prompt Payment (copies are available from the CBI, Centre Point, 103 New Oxford Street, London WC1A 1DW). Payment terms are specific to the type of contract and the relevant commercial arrangements, and are agreed with suppliers in advance.

As at 31 March 2008, the average credit period taken for trade purchases was 29 days for the group (2006/07: 23 days) and was 18 days (2006/07: re-presented 14 days) for the company. The prior year comparative figure for the company has been re-presented to bring the calculation in line with that utilised for the group (see note 22 page 102 of the financial statements).

Approach to technology development

The company is committed to using innovative, cost-effective and practical solutions for providing high quality services. It recognises the importance of ensuring that it properly focuses its investment in the development of technology, that it has the right skills to apply technology to achieve sustainable competitive advantage and that it continues to be alert to emerging technological opportunities.

Financial instruments

The risk management objectives and policies of the company can be found in note 18 to the financial statements.

Fixed assets

The group holds significant land assets; however, the vast majority of these are water catchment assets of which are an integral and essential part of the operation of the group's largest business segment. The nature of these assets, which are primarily moorland areas, and which could not be sold by the group, means that it is impractical to obtain meaningful market values for the land. Other land owned by the group does not have a market value materially different from historic cost.

Events occurring after the balance sheet date

Details of events after the balance sheet date are included in note 30 to the consolidated financial statements on page 111.

Information given to the auditors

Each of the persons who is a director at the date of approval of this report confirms that:

- (1) so far as he or she is aware, there is no relevant audit information of which the company's auditors are unaware; and
- (2) he or she has taken all the steps that he/she ought to have taken as a director in order to make himself/herself aware of any relevant audit information and to establish that the company's auditors are aware of that information.

This confirmation is given, and should be interpreted, in accordance with the provisions of s234ZA of the Companies Act 1985.

Re-appointment of auditors

The board is proposing that shareholders re-appoint Deloitte & Touche LLP as auditors at the forthcoming annual general meeting and authorise directors to fix the auditors' remuneration.

Approved by the board on 2 June 2008 and signed on its behalf by:

Tom Kcevil
Company secretary and general counsel

Corporate governance report

The Combined Code

United Utilities PLC is subject to the Combined Code on Corporate Governance which was published by the Financial Reporting Council in June 2006 (the 'Code').

During the financial year ended 31 March 2008, the company has complied fully with the provisions of Section 1 of the Code. This report (which incorporates a report from the audit committee, see pages 38 to 40), together with the remuneration report on pages 41 to 51, gives details of how the principles of the Code have been applied during the year.

The board of directors

The names of the directors who served during the year, and their full biographical details, are set out on pages 29 to 30. The board is scheduled to meet ten times each year with additional meetings called if required. The following table shows the number of meetings of the board and of the principal board committees, which are subject to Code requirements, which were attended by each of the directors during the year ended 31 March 2008. The figures in brackets show the maximum number of meetings which the directors could have attended.

Notes:

- n/a in the above table denotes that the director is not a member of that committee.
- Due to the timing of public holidays, the board meeting which was scheduled for the end of March 2008 actually took place on 1 April 2008. Attendance at that meeting is included in the above table. On accepting his appointment Dr John McAdam had unavoidable diary commitments which meant he was unable to attend the audit committee meeting held on 26 February 2008 and the remuneration committee held on 31 March 2008. Sir Richard Evans and Philip Green did not attend the meeting of the nomination committee held on 26 July 2007 when the job specification of the future chairman was the sole item of business. Sir Richard Evans did not chair the meeting of the nomination committee held on 29 January 2008 which dealt with the appointment of his successor as chairman.

Summary of approach to governance

The board recognises its responsibility to provide entrepreneurial and responsible leadership to the company within a framework of prudent and effective controls (which is described below) allowing assessment and management of the key issues and risks impacting the business. In addition to its scheduled meetings, the board met during the year specifically to consider and develop the company's strategy and long-term plan. The board has a formal schedule of matters reserved to it, which ensures that it takes all major strategy, policy and investment decisions affecting the group. Accordingly, the board sets the company's overall strategic direction, reviews management performance and assesses whether the company has the necessary financial and human resources in place to meet its objectives. It also reviews the company's business planning, approach to risk management and development of policies. Via the remuneration committee (whose

report is set out on pages 41 to 51) it is responsible for the directors' and senior managers' remuneration.

The board is responsible for promoting the long-term success of the company and ensuring that the principal goal of the company is to create shareholder value, while having regard to other stakeholder interests. The board takes responsibility for setting the company's values and standards. Accordingly, the long-term interests of shareholders, together with consideration of the wider interests of stakeholders represented by employees, customers, suppliers, the community and the environment are factored into the group's management processes. Appropriate account is also given, within the company's control and risk assessment processes, to social, environmental and ethical issues. The steps taken to achieve these goals are communicated to shareholders and other interested parties through dedicated communication and investor relations departments, the company's website (www.unitedutilities.com) and to employees via the intranet and through formal and informal briefings and newsletters. Through its vision, core values, formal policies and the 'business principles' statement, which sets out what the company expects from employees in the conduct of the company's business, the board seeks to engender a culture where business ethics, integrity and fairness are values that all employees endorse and apply in their everyday conduct.

The board has established a governance framework which encourages all directors to bring independent judgement to bear on issues of strategy, performance and resources, including key appointments and standards of conduct. Directors have a right to ensure that any concerns they have about the running of the company or a proposed action which cannot be resolved are recorded in the board minutes. In addition, upon resignation, a non-executive director is asked to provide a written statement addressed to the chairman should he or she have any concerns about the running of the company, which would then be circulated to the board.

The group's governance structure also seeks to ensure that decisions are made at the appropriate level by employees with the knowledge and skills to do so.

The directors of subsidiary operating companies (most notably United Utilities Water PLC) are legally responsible for those business entities and their regulatory obligations. Additionally, they are tasked with the delivery of the targets set within the budgets approved by the board and for the implementation of strategy and policy across their businesses.

The board's policy is that it is appropriate from a development perspective for executive directors or members of the executive leadership team to become non-executive directors of other companies, providing that any such appointment does not impact upon their obligations to the company or upon the performance of their duties. To this end, there is an embargo upon such individuals accepting more than one non-executive directorship of a FTSE 100 company or the chairmanship of such a company.

Principal committees of the board (summary)

The board has formally delegated specific responsibilities to certain committees, including the following: approvals; audit (see page 38); community investment; nomination (see page 35); remuneration (see page 41) and treasury. All board committees are provided with sufficient resources to undertake their duties, have authority to seek independent advice, if appropriate, and are supported by the company's secretariat.

In addition to the board committees featured in the Code, the board has delegated certain of its powers and functions to the following committees:

- **Approvals committee** This considers and approves expenditure and investment proposals within limits delegated by the board. Its members are the executive directors and the company secretary.
- **Community investment committee** This has responsibility for developing and overseeing the corporate responsibility strategy of the company and for approving its charitable donations. Its members are certain board directors and such executive leadership team members as may be appointed by the board from time to time. Two employee representatives are also invited to attend meetings and participate in its assessment of items of business. Its current chair is Tim Weller, with Catherine Bell and Gaynor Kenyon being its other members.
- **Treasury committee** This considers and approves borrowing, leasing, bond and other banking facilities within limits set by the board. It is chaired by Paul Heiden and its other members are the executive directors together with the treasurer. The treasury committee has sub-delegated some of its powers, subject to certain limits, to the chief financial officer and the treasurer.

Chairman and chief executive

The positions of chairman and chief executive are separate appointments and the board has agreed clearly defined responsibilities for these roles. It has also adopted a set of guiding principles to govern the working relationship between them. The chairman is primarily responsible for the working of the board, ensuring that the non-executive directors are fully engaged in their roles and that they provide an effective contribution to the operation of the board and the promotion of the success of the company. In essence, the responsibility of the chief executive officer is to manage the group's business and to implement board strategy and policy. Sir Richard Evans will stand down as chairman and as a director at the annual general meeting in July 2008. It is envisaged that he will be replaced by Dr John McAdam, subject to his re-appointment as a director at the annual general meeting. The board has considered the business commitments of Dr John McAdam and has determined that he will be able to devote the time and attention required to serve as chairman of the company.

Board balance and independence

The board aims to maintain a balance of executive and non-executive directors and, at the date of adoption of this statement, comprises the non-executive chairman, three executive directors and seven non-executive directors. After nine years' service as a non-executive director, Norman Broadhurst will step down from the board at the annual general meeting.

All seven of the non-executive directors are determined by the board to be independent in accordance with the Code and free from any business or other relationship which could compromise their independent judgement. The chairman is not deemed to be independent under the Code (following appointment to that role) although Sir Richard Evans was deemed to be independent at the time of his initial appointment to the board. Dr John McAdam was considered by the board to be independent at the date of his appointment to the board and up until the date of this report. The board considers Norman Broadhurst to be independent notwithstanding a close family tie with one of the company's advisers, his daughter being a tax partner in Deloitte & Touche LLP's Birmingham office. Deloitte & Touche LLP have confirmed in writing to the company that she had not, and would not, be involved with the United Utilities account in any way.

Senior independent director

Nick Salmon was appointed as senior independent director on 27 July 2007. The senior independent director is available to shareholders if they have concerns which dialogue with

management representatives has failed to resolve. The terms of reference for the senior independent director are available on the company's website. They include the authority to call a meeting of the non-executive directors if, in his opinion, it is necessary, the convening of a meeting of the non-executive directors without the chairman present at least annually to appraise the chairman's performance, and attendance at sufficient meetings with a range of major shareholders to listen to their views in order to help develop a balanced understanding of their issues and concerns.

The nomination committee and appointments to the board
The nomination committee meets at least once each year and otherwise as required. Its role is primarily to make recommendations to the board on the composition, balance and membership of the board and refreshment of the board's principal committees.

The nomination committee's terms of reference are available to shareholders on request and are also available on the company's website. The nomination committee evaluates the balance of skills, knowledge and experience on the board and, in the light of such evaluation, prepares descriptions of the roles and capabilities required for a particular appointment and makes recommendations to the board from time to time on its composition. It may use executive search consultants to assist it when considering board member succession. It is proposed, subject to shareholders approving the adoption of new articles of association at the annual general meeting, that the nomination committee will be responsible for considering the authorisation of directors' conflict situations in accordance with the Companies Act 2006.

The committee is chaired by the chairman of the company (except when succession issues surrounding that position are being considered). Its other members are the non-executive directors and the chief executive. As such, the substantial majority of the members are non-executive directors determined by the board to be independent in accordance with the Code.

During the financial year ended 31 March 2008, amongst other matters, the nomination committee prepared a job specification of the role and capabilities required for the appointment of a non-executive director who could succeed Sir Richard Evans. The brief expressly recognised the responsibilities of the chairman's role and the time commitment required. Having done so, it engaged the services of Whitehead Mann and made recommendations to the board as part of the final selection process which led to the appointment of Dr John McAdam as a non-executive director and as the proposed successor to Sir Richard Evans as chairman of the company. Additionally, the committee also considered the appointment and made a recommendation to the board to appoint Paul Capell. It also considered and made a recommendation that, in the light of Norman Broadhurst's proposed retirement at the 2008 annual general meeting, Paul Heiden replaced him as chairman of the audit committee which happened in February 2008.

The letters of appointment of the non-executive directors (which comply with the Code) are made available for inspection at the company's registered office during business hours and before the annual general meeting and are published on the company's website www.unitedutilities.com. They make it clear that no compensation is payable for loss of office and expressly set out the expected time commitment expected from non-executive directors. Non-executive directors are required to disclose to the company any significant commitments that might impede the performance of their duties to the company prior to appointment and to consult the chairman before accepting any positions that might impact upon their availability to perform their duties.

Corporate governance report continued

Details of the executive directors' service contracts and the basis of their appointments are set out in the directors' remuneration report.

Re-appointment of directors

The board initially appoints all new directors, after assessing the recommendation of the nomination committee and following an appropriate recruitment process. Further to the appointment of a new director, he or she is then required to retire and seek appointment at the next annual general meeting. The company's articles of association require all directors to retire and seek re-appointment at least every three years, and include additional provisions which require one third of the directors to retire at each annual general meeting, including those who are proposed for re-appointment at an annual general meeting and those who are not. Biographical details of directors being submitted for appointment or re-appointment are set out in the notes accompanying the relevant notice of meeting.

Non-executive directors are appointed for specified terms subject to re-appointment under the company's articles of association and to Companies Acts provisions relating to the removal of directors. The board explains to shareholders, in the notes accompanying a resolution to elect a non-executive director, why they believe that non-executive director should be appointed. The chairman will confirm to shareholders when proposing re-appointment that, following formal performance evaluation, the individual's performance continues to be effective and that they demonstrate commitment to the role. Any term beyond six years for a non-executive director will be subject to particularly rigorous review, and will take into account the need for progressive refreshing of the board. Any non-executive director serving for longer than nine years will be subject to annual re-appointment.

Information, support and advice

The chairman is responsible for ensuring that directors receive comprehensive information on a regular basis to enable them to perform their duties properly, supported by the company secretary. As part of the preparation process for board meetings, the chairman has implemented a programme of informal briefings with the non-executive directors and chief executive, the evening before the scheduled board meetings.

Board papers are generally distributed five days in advance of scheduled board meetings to enable directors to obtain a thorough understanding of the matters to be discussed, and seek clarification if required. All directors have access to the advice and services of the company secretary and his team, who are responsible to the board for ensuring that board procedures are complied with. The appointment and removal of the company secretary are matters reserved to the board.

The board has adopted a protocol under which directors have access, through the company secretary, to independent professional advice at the company's expense where they judge it necessary to discharge their responsibilities as directors and the company maintains an appropriate level of directors' and officers' insurance. In 2008, in line with emerging practice, the company established arrangements for the provision of indemnities for the benefit of its current directors and officers and those of its subsidiaries. These arrangements, which constitute qualifying third party indemnity provision and qualifying pension scheme indemnity provision, have been established in compliance with the relevant provisions of the Companies Act 2006 and include provision for the company to fund the costs incurred by directors in defending certain claims against them in relation to their duties as directors of the company or its subsidiaries.

Induction and training

New directors receive appropriate induction on joining the board, typically including meeting with members of the senior management team and visits to operational sites. During the year, separate induction programmes were organised for Dr Catherine Bell and Dr John McAdam. Major shareholders are also invited to meet with new non-executive directors and more generally shareholders will have the opportunity to meet Dr John McAdam at the annual general meeting in July. Directors are provided with details of seminars and training courses relevant to their role and are encouraged to attend those relevant to their roles and development needs. Additionally, where a special training need is identified, training is provided to the whole board on topics such as the Companies Act 2006.

Performance evaluation

During the year, the board conducted an evaluation of its own performance and that of its committees and individual directors. The process involved the completion by each director of a confidential questionnaire in a form consistent with previous years and which was modelled on the 'Chairman's Guide to the Board Performance Review' published by the Chairman's Forum. Each director was required to score the board's performance (and that of the principal committees) on 40 topics, including: contribution to strategy; risk management; financial and operational reporting; matters reserved for the board; communication; company and board advisers; relations with the group's regulators and investors; and board procedures. In addition, the members of the audit, nomination and remuneration committees, together with the managers and advisers to those committees, completed separate confidential questionnaires about the functioning of those committees.

The company secretary analysed the completed questionnaires and summarised the findings in a report for the chairman, which highlighted and prioritised the key areas of feedback and provided a comparison with the previous year's evaluation. The chairman subsequently conducted one-to-one discussions with each of the board members based on the summary report, after which the chairman reported back to the whole board on the evaluation process. The responses to the questionnaires demonstrated a high degree of consistency and the evaluation process affirmed the board's confidence in the group's system of corporate governance. Nevertheless there is always room for improvement and, arising from the 2007/2008 exercise, the board has asked that more work is undertaken by management in the area of succession planning. It has also decided to receive an enhanced number of presentations from senior managers responsible for operational areas and/or for managing or mitigating potential material risks to the group.

As part of good governance, the chairman holds meetings with the non-executive directors without the executive directors present. In turn, led by the senior independent director, the non-executive directors meet without the chairman present at least annually to appraise the chairman's performance. So far as senior management is concerned, the chief executive conducts annual appraisals with executive directors and the other members of the executive leadership team and has regular one-to-one discussions about their performance with them, as does the chairman with the chief executive.

Internal controls

Introduction

The board has overall responsibility for the company's system of risk management and internal controls and for reviewing its effectiveness. The schedule of written matters reserved to the board ensures that the directors are responsible for the control of, amongst other matters, all significant strategic, financial and organisational risks.

An overview of some of the principal risks surrounding the company is contained in the business review section of the annual report on pages 24 to 26. To manage these and other commercial and operational risks the company has an established risk management programme that assists management to identify, assess and mitigate business, financial, operational and compliance risks on a continuous basis. The board views management of risk as integral to good business practice. The programme is designed to support management's decision making and to improve the reliability of business performance and is supported by the dedicated team of internal risk specialists and internal auditors who report to the newly appointed director of audit and risk.

Internal controls

The board delegates the responsibility for designing, operating and monitoring both the system and the maintenance of effective internal control in each of the group's businesses to executive management. The system of internal control is based on an ongoing process of identifying, evaluating and managing key risks and includes the risk management processes referred to above. The system of internal control was in place throughout the year and up to the date of approval of the annual report and financial statements. The effectiveness of this system has been regularly reviewed throughout the year, and up to the date of the approval of the annual report and financial statements, by the executive leadership team and was periodically reviewed by the audit committee and the board, in accordance with the guidance in the Turnbull Report and the Internal Control Revised Guidance for Directors published by the Financial Reporting Council in October 2005. The system is also refined, as necessary, in response to changes in the company's business and the associated risks. Joint venture arrangements with other companies and participations via shareholdings in other businesses are outside the group's own formal control procedures. However, the group's exposure to them is assessed by line management (in most cases through representation on the boards of those operations).

Control systems

The main components of the group's internal control framework are summarised below. Their foundation is in the considerable value that the group places, throughout its activities, on seeking to ensure that employees are of the highest quality and integrity. Formal control is exercised through a management structure, which includes clear lines of responsibility and documented delegations of authority from the board. The systems of internal control include a series of group policies, operating and procedural manuals and processes, with which all relevant employees are expected to comply. Processes underpinning the financial reporting systems are managed and monitored by line and functional management through regular reporting. Separately, the effectiveness of these internal controls is reviewed by an internal audit function. It reports its results to the executive leadership team and directly to the audit committee. The work of the internal auditors is focused on the areas of perceived greatest risk to the company as determined by internal risk assessments, senior management and the audit committee.

Function of controls

The system of internal control ('the control system') is designed to manage rather than eliminate the risk of failure to achieve business objectives. It can only provide reasonable and not absolute assurance against material errors, losses, fraud or breaches of laws and regulations. The key features of the control system include:

- a control environment with clearly defined organisation structures operating within a framework of policies and procedures covering every aspect of the business;

- comprehensive business planning, risk assessment and financial reporting procedures, including the annual preparation of detailed operational budgets for the following year and projections for subsequent years;
- established procedures, set out in an internal control manual, for planning, approving and monitoring major capital expenditure, major projects and the development of new business which includes short and long-term budgets, risk evaluation, detailed appraisal and review procedures, defined authority levels and post-investment performance reviews;
- a monthly board review of financial and non-financial performance to assess progress towards objectives;
- monthly meetings prior to each board meeting of the executive leadership team, where the executive directors, and other senior executives responsible for running the group's businesses, amongst other matters, review performance and explore strategic and operational issues which are of group-wide importance;
- centralised treasury operations operating within defined limits and subject to regular reporting requirements and internal audit reviews;
- an internal audit function which provides independent scrutiny of internal control systems and risk management procedures;
- regular monitoring of risks and control systems throughout the year by the operating businesses, supported by the use of risks and issues databases;
- a monthly rolling review of group-wide risks and mitigating actions and controls by the executive leadership team. Arising from such reviews, plans are developed to enhance internal control and risk management further;
- a self-certification process whereby the operating businesses are required to confirm annually that the system of internal control is operating effectively;
- an annual risk assessment exercise involving self-assessment by management of all major business risks in terms of impact, likelihood and control strength; and
- health and safety performance reviews carried out by in-house health and safety professionals in addition to the normal health and safety risk assessment and management processes carried out within each of the operating businesses.

Annual review of risk management and internal control systems
In addition to the regular reports received by the audit committee and the board on internal controls and key risks and periodic reviews, the board conducts an annual review of the effectiveness of the systems of risk management and internal control in operation during the year and up to the date of the approval of the annual report and financial statements. Through operational reports from management the board reviews controls designed to mitigate risks, and would receive, via these reports, information in the event of any significant control failings occurring. The board, through the audit committee, also controls the review that is conducted by internal audit. Management of all the business divisions of the group are required to complete and sign-off control self-assessment questionnaires that confirm that the key internal controls are in place and are operating effectively. Where weaknesses have been identified plans and timetables for putting them right are also reported. Internal audit monitors and selectively checks the results of this exercise, ensuring that the representations made are consistent with the results of the internal audit function's work during the year. The results of this exercise are summarised for the audit committee and the board.

CONTROLS

Corporate governance report continued

In the event that any significant losses were incurred during any year as a result of the failure of internal controls, an analysis would be reported to the audit committee and the board and a plan would be implemented to take the necessary action to remedy any significant weaknesses. In the year ended 31 March 2008, there were no such losses and the board was satisfied with:

- the changes since the last annual assessment in the nature and extent of significant risks identified by management;
- the company's ability to respond to changes in its business and the external environment to the extent that such changes are events that management can materially influence; the scope and quality of management's ongoing monitoring of risks and of the system of internal control, and, where applicable, the work of its internal audit function and other providers of assurance;
- the extent and frequency of communication of the results of the monitoring to the board (or board committee(s)) which enables it to build up a cumulative assessment of the state of controls in the company and the effectiveness with which risk is being managed; and
- the company's external reporting processes.

Financial reporting and going concern

When releasing annual financial and interim financial statements, issuing interim management statements or trading updates, the directors aim to present a balanced and understandable assessment of the group's position and prospects. These statements are posted on the company's website (www.unitedutilities.com) at the same time as they are released to the London Stock Exchange. To encourage effective communication, individuals with an email address can register free of charge to receive an email alert upon the posting of each new release.

The directors have a reasonable expectation that the company has adequate resources available to it to continue in operational existence for the foreseeable future and have therefore continued to adopt the going concern basis in preparing the financial statements. This approach is based, amongst other matters, upon a review of the group's budget for 2008/09, on a review of the group's five-year business plan and investment programme, together with a review of the cash and committed borrowing facilities available to the group. The board also took into account potential contingent liabilities and other risk factors as interpreted by the guidance given in 'Going Concern and Financial Reporting: Guidance for Directors of Listed Companies registered in the United Kingdom', published in November 1994.

Members

The audit committee's members are Paul Heiden (chairman since 26 February 2008), Dr Catherine Bell, Norman Broadhurst (chairman until 26 February 2008), David Jones and Dr John McAdam. On taking up the position as chairman of the board (assuming he is re-appointed by shareholders), Dr John McAdam will formally step down from the committee. The board is satisfied that Paul Heiden has recent and relevant financial experience and that all members have extensive commercial experience and are independent within the meaning of the Code. Appointments to the committee are made by the board, on the recommendation of the nomination committee in consultation with the audit committee chairman. Appointments are initially for a period of up to three years, extendable by no more than two additional three-year periods, so long as committee members continue to be deemed to be independent. Notwithstanding the ninth

anniversary of his appointment, as part of succession planning it was agreed that Norman Broadhurst should continue as a member of the committee until July 2008, to ensure a smooth handover of the role of chairman to Paul Heiden. The terms of reference of the audit committee are available to shareholders on request and are also available on the company's website.

Attendees at meetings

The chief executive and chief financial officer of the group and other senior management attend committee meetings by invitation of the committee. Representatives of the group's external auditors and the director of audit and risk (whose responsibilities include internal audit and security) also attend meetings by invitation. During the year ended 31 March 2008, the external and internal auditors attended all audit committee meetings, had direct access to the committee during the meetings and time was also set aside for them to have private discussions with the committee, in the absence of management.

Audit committee compliance with the Code

The audit committee's terms of reference comply with the Code. During the year ended 31 March 2008, the formal calendar of matters considered by the committee embraced the Code requirements to:

- monitor the integrity of the financial statements of the company, and any formal announcements relating to the company's financial performance, including reviewing significant financial reporting judgements and any disclosures contained in them;
- review the company's internal financial controls and its internal control and risk management systems and to make recommendations to the board;
- monitor and review the effectiveness of the company's internal audit function;
- make recommendations to the board, for it to put to the shareholders for their approval in general meeting, in relation to the appointment, re-appointment and removal of the external auditors and to approve the remuneration and terms of engagement of the external auditors;
- review and monitor the external auditors' independence and objectivity and the effectiveness of the audit process, taking into consideration relevant UK professional and regulatory requirements; and
- review the company's policy on the engagement of the external auditors to supply non-audit services. In doing so, account is taken of relevant ethical guidance regarding the provision of non-audit services by the external auditors and pre-approval practices. In this context, the committee will report to the board any matters in respect of which it considers that action or improvement is needed and to make recommendations as to the steps to be taken.

Audit committee activities

An overview of the work undertaken by the audit committee during the year ended 31 March 2008 is described within the following sections of this report.

The audit committee met four times during the financial year ended 31 March 2008. It has a formal policy, endorsed by the board, to keep under review the independence and objectivity of the external auditors. The audit committee determined that it was satisfied that the independence of the external auditors had been maintained, having taken into account the external auditors' written representations and the committee's own enquiries. These were facilitated by a private meeting with the external auditors

without executive management being present. The independence policy sets out certain disclosure requirements by the external auditors to the audit committee, including restrictions on mutual hiring of personnel, rules for rotation of audit partners and procedures for the approval of non-audit services provided by the external auditors. The audit committee has monitored the application of the policy both during the year ended 31 March 2008 and up to the date of this report.

The audit committee reviewed the external auditors' audit scope, plans and materiality levels and the resources proposed to execute the plans. Having done so, the committee approved the terms of engagement and the audit fees. The committee also reviewed the findings of the external auditors and their management letters on internal financial controls.

The audit committee also assessed the qualifications, expertise and resources and independence of the external auditors and the effectiveness of the audit process. Through an embedded regular audit effectiveness review, the audit committee has continued to keep the performance of the company's auditors and audit effectiveness under review. Mindful of the costs associated with the company's compliance requirements, the audit committee continues to seek the most cost-effective approach to compliance and external audit generally.

The policy relating to the provision of non-audit services by the external auditors specifies the types of work from which the external auditors are excluded; for which the external auditors can be engaged without referral to the audit committee; and for which a case-by-case decision is required. The ratio of non-audit fees to audit fees was monitored by the committee throughout the year ended 31 March 2008. The audit committee is satisfied that this policy in respect of the provision of non-audit services was applied during the year ended 31 March 2008 and up to the date of this report.

Fees

As summarised above, the committee has established policies and procedures to pre-approve the engagement of the auditor to provide any audit or non-audit services and keep the nature and extent of non-audit services under review. All audit and audit-related services proposed to be provided by Deloitte & Touche LLP are pre-approved by the audit committee and reviewed annually. The provision of audit-related services is generally highly correlated with the role of independent auditors. Such services include assurance on non-statutory information, assurance work carried out in connection with reporting to a statutory regulator, analysis and interpretation of accounting principles, support for debt issues and similar transactions and other services that have a bearing on the group's financial statements on which the external auditors provide their opinion.

Non-audit services are allowed under the procurement of audit and non-audit services policy where they do not affect the independence of the external auditors, but do require the pre-approval of the audit committee prior to the engagement. Specific approval may be delegated to a designated member of the audit committee, with such approvals to be reported at the next audit committee meeting. In granting such approval, the designated member of the audit committee is required to consider the cumulative proportion of fees paid for such work compared with the statutory audit fees. In the financial year ended 31 March 2008 all such services were approved by the audit committee.

The company also maintains a list of prohibited services that cannot be provided by the group's auditors as they are considered by statute or in the group's opinion to be incompatible with the role of the independent auditors.

The fees paid or payable to the auditors in the year ended 31 March 2008 and the preceding year were as follows:

Year ended 31 March	2008 £'000	2007 £'000
Audit services:		
– Statutory audit	936	1,179
– Audit related regulatory reporting ⁽¹⁾	281	2,463
Further assurance services:		
– Compliance services ⁽²⁾	3,563	850
– Advisory services ⁽³⁾	40	100
Total	4,820	4,592

Notes:

(1) Audit-related regulatory reporting fees are fees billed for work on regulatory returns and assurance work reasonably related to the statutory audit, including the Sarbanes Oxley work in 2007.

(2) Compliance services fees mainly relate to transaction support and due diligence work.

(3) Advisory services fees are fees incurred for tax compliance, tax advice and related tax work. In addition to the above, fees relating to joint ventures of the group were paid to Deloitte & Touche LLP in 2008 totalling £20,600 (2006/07: £41,900).

For the year ended 31 March 2008, the substantial majority of non-audit related fees relate to the services provided by Deloitte & Touche LLP in their advisory capacity on the disposal of United Utilities Electricity where they provided vendor due diligence. Given the complex nature of the transaction and the need for separation of the business into the roles of asset owner and asset operator, the audit committee and the board concluded that Deloitte & Touche LLP, given their detailed knowledge of the business and industry, were best placed to advise the company on the transaction and that this was the most cost-effective option for the company. Furthermore, non-audit fees have been payable to Deloitte & Touche LLP in relation to their provision of due diligence services to United Utilities PLC to support the creation and listing of a new holding company to facilitate the necessary distributable reserves to allow the proposed return of capital to shareholders referred to on page 112.

Having undertaken a review of the nature and the amount of non-audit related work, the audit committee has satisfied itself that the services undertaken during the financial year ended 31 March 2008 did not prejudice the auditors' independence.

Other activities

The audit committee met prior to the board meetings at which the interim financial statements and the annual report and financial statements were approved. The committee reviewed significant accounting policies, financial reporting issues and judgements and, in conducting this review, considered reports from management, the external auditors, and internal audit.

At each of its meetings, the committee reviewed and considered reports from the director of audit and risk and/or the head of internal audit. Those reports included the status of the company's risk management systems, findings from the internal audit function concerning internal controls and reports on the status of the correction of any weaknesses in internal controls identified by the internal or external auditors.

The audit committee also reviewed and approved the remit, organisation, plans and resources of the company's internal audit function and carried out a review of the effectiveness of that function.

Corporate governance report continued

Disclosure policy

The audit committee reviews, at least annually, the arrangements by which employees may, in confidence, raise concerns about possible improprieties in matters of financial reporting or other matters. During the year, the audit committee approved a revised disclosure policy which, amongst other provisions, provides a confidential voicemail box for employees who want to report any concerns which they may have anonymously. The committee's objective is to ensure that arrangements are in place for the proportionate and independent investigation of such matters and for appropriate follow-up action.

Communication with shareholders

Annually, the company produces a stakeholder report for shareholders and other interested parties, which summarises the most important features of the group's activity during the year. This document, together with interim and annual reports and financial statements, are the principal annual communications with shareholders. Additionally, the internet is also used as a means of communicating information effectively and in an environmentally friendly way. Accordingly, a substantial amount of information about the company is available via its website www.unitedutilities.com.

Additionally, there is a programme of regular investor meetings and presentations which take place throughout the year, both in the UK and overseas. During the year, the board met or offered to meet with 86 different funds, representing 35 per cent of the company's issued share capital. Such briefings, together with regular announcements of significant events affecting the group and frequent updates on current trading, are part of a dedicated investor relations programme undertaken by the company to keep the company's equity and debt investors informed of developments affecting the group. The board regards this programme as an important contribution to improve continually investors' awareness of the business and for the board to maintain an understanding of investors' priorities. Board members also receive regular updates in their board papers about investor relations and reports from sector analysts. Additionally, the board commissions an annual survey of shareholders by Makinson Cowell. Non-executive directors also have the opportunity to attend meetings with major shareholders at either party's request.

Constructive use of the annual general meeting

The notice calling the annual general meeting and related papers are sent to shareholders at least 20 working days before the meeting. All directors normally attend annual general meetings, and presentations are made on the progress and performance of the business prior to the formal business of the meeting. Additionally, the board encourages shareholders to participate in meetings through question and answer sessions with individual directors or, where appropriate, the chairman of the relevant committee. To that end, the chairmen of the audit, nomination and remuneration committees will always endeavour to be available to answer questions relevant to the work of those committees.

Voting on all resolutions takes place by means of a poll which ensures that all shareholders' votes are taken into account, whether lodged in person at the meeting, or by proxy. The poll vote is scrutinised by the company's share registrars and the results are released to the London Stock Exchange and posted on the company's website on the next business day. Separate resolutions are proposed on each substantially separate issue. For each resolution, proxy appointment forms provide shareholders with the option to direct their proxy to vote either for or against the resolution or to withhold their vote. The proxy form and any announcement of the results of a vote will make it clear that a 'vote withheld' is not a vote in law and will not be counted in the calculation of the proportion of votes for and against the resolution.

The corporate governance statement and report of the audit committee were approved by the board on 2 June 2008.

Directors' remuneration report

Note: This report is unaudited save where stated.

Approach to reward

The company aims to ensure that its remuneration arrangements attract and keep people of the right calibre in order to achieve corporate success and to enhance shareholder value. Its overall approach is to attract, develop, motivate and keep talented people at all levels, pay competitive salaries and benefits to its employees and encourage employees to hold shares in the group. When pay levels are set, account is taken of the work that an employee does and the analogous remuneration for the same role in other companies. The company seeks to reward its people fairly and give them the opportunity to increase earnings by linking pay to achieving business and individual performance targets.

Aggregate remuneration

As detailed in this report, during the financial year, the aggregate remuneration paid to all directors was £4,039,062 (2006/07: £5,536,159). These figures include salaries, benefits-in-kind (excluding pensions), annual bonuses earned and accrued in the year ended 31 March 2008 but paid after the year end, and the value of long-term incentives earned for the period ended 31 March 2007 and paid during the year.

Non-executive directors (including the chairman)

A committee of the board decides the remuneration of all of the non-executive directors other than the chairman. Its members are the chairman (Sir Richard Evans) and the executive directors: Philip Green, Charlie Cornish, Tim Weller and Paul Capell (from 1 May 2007 to 27 September 2007). The committee may take independent advice and is also advised by the company's human resources director, Alison Clarke, who will typically provide research information on the level of fees paid in other similar organisations. The committee met once during the year to review the fees paid to non-executive directors, which were increased with effect from 1 September 2007 (see below). The remuneration committee (details of which are set out below) determines the remuneration of the chairman.

Terms of appointment

Non-executive directors' appointments are for an initial period of three years. They are subject to re-appointment at the first annual general meeting after their initial appointment and at an annual general meeting at least every three years thereafter (if they are to be re-appointed). After nine years in office, a non-executive

director is required to seek re-appointment each year at the annual general meeting. Non-executive directors have letters of appointment, as opposed to contracts of service. In the event of early termination, for whatever reason, they are not entitled to receive compensation for loss of office.

Non-executive directors' letters of appointment can be inspected at the group's registered office and on the group's website at www.unitedutilities.com. The letters set out the expected time commitment and non-executives agree to devote sufficient time to meet what is expected of them. Table 1 summarises the terms of appointment for each non-executive director.

Policy statement on non-executive directors' remuneration

The group's policy is to pay annual fees that reflect the responsibilities placed upon the non-executive directors. Fees are reviewed each year when account is taken of the level of fees paid in companies of similar size and complexity. There are separate annual fees for the chairman and the other non-executive directors. Additional fees are paid to the chairmen of the audit committee (Norman Broadhurst until 26 February 2008 and now Paul Heiden) and remuneration committee (David Jones). Non-executive directors do not participate in any annual bonus or incentive plans, pension schemes, healthcare arrangements, the group's long-term incentive plans or employee share schemes. The group repays the reasonable expenses that non-executive directors incur in carrying out their duties as directors.

Non-executive directors' fees

Non-executive directors' fees were increased on 1 September 2007. The base fee is £52,000 per year (2007: £50,000). On 27 July 2007, Nick Salmon replaced Sir Peter Middleton as the senior independent non-executive director. As deputy chairman, Sir Peter Middleton received a higher fee than any other non-executive director (save for the chairman). The position of deputy chairman was not replaced following Sir Peter Middleton's resignation from the board. The additional fees paid to each of the chairmen of the audit and remuneration committees are £10,000 per year.

The chairman's fee increased to £230,000 a year (2007: £220,000). The next review of non-executive directors' fees will be undertaken in September 2008.

Non-executive directors' remuneration for the year ended 31 March 2008 is set out in table 2.

Executive directors

The remuneration committee

The remuneration committee makes recommendations to the board on the group's framework of executive remuneration. It approves, on the board's behalf, the general recruitment terms, remuneration, benefits, employment conditions and severance terms for senior executive management. In particular, it decides the specific recruitment terms, remuneration benefits, employment conditions, pension rights, compensation payments and severance terms for the executive board directors and senior executives who form the executive leadership team.

The committee's members are David Jones, Dr John McAdam (with effect from 4 February 2008), Andrew Pinder and Nick Salmon. All are non-executive directors determined by the board to be independent in accordance with the Code. The committee's members have no personal financial interest in the company, other than as shareholders and in respect of the fees paid to them as non-executive directors. They have no conflicts of interest arising from cross-directorships and are not involved in the day-to-day running of the group's businesses. Sir Richard Evans attends meetings but is not a member of the committee. The committee's terms of reference are available to shareholders on request and are on the group's website at www.unitedutilities.com.

The committee has retained Hewitt New Bridge Street to advise it on executive remuneration. They also advise the group on the remuneration of a limited number of senior executives whose specific terms of employment do not fall within the remit of the remuneration committee. This is to ensure consistency of the application of the board's policies on executive remuneration and the general terms of employment approved by the remuneration committee. Mercer Human Resource Consulting advise the committee on pensions matters. They are also the actuaries to one of the group's pension schemes (United Utilities Pension Scheme) and advise the group on matters relating to its operation. Eversheds LLP provide legal advice on the operation of the company's share incentive and share option plans, including drafting the rules and advising on their interpretation. Slaughter and May provided advice to the committee on the effects of the proposed return of capital to shareholders by way of a scheme of arrangement on the company's share plans. Slaughter and May also provided advice to the company on general legal matters relating to the proposed scheme of arrangement (see page 112). Addleshaw Goddard LLP provided advice on individual termination arrangements. Both Addleshaw Goddard LLP and Eversheds LLP also provide general legal advice to the company.

The committee is assisted by the chief executive Philip Green and the company's human resources director Alison Clarke, who are consulted on proposals relating to the remuneration of the other executive directors and senior executives (other than in respect of their own remuneration). They and the company secretary attend meetings by invitation (except when the committee discusses matters relating to their own remuneration). The committee can and does seek advice or information directly from other employees where the committee feels that such additional contributions will assist the committee in its decision-making.

The committee follows the principles of good governance and the Code. It met five times in the year ended 31 March 2008. Individual attendance at the meetings is stated in the table in the corporate governance report on page 34. During the year, matters considered by the committee included:

- the 2007 salary review for executive directors and other senior executives;
- awards payable under the 2006/07 annual bonus plans and the measures and targets for subsequent years;
- the size of, and the performance conditions to apply to, the 2007/08 grant of awards under the performance share plan and the monitoring of ongoing performance against the conditions applying to previous awards;
- pension provision for executives;
- monitoring of executive shareholdings against target;
- the terms of appointment and departure of executive directors and other senior executives;
- the potential impact of the proposed return of capital upon share schemes; and
- the form and content of the 2006/07 directors' remuneration report.

The committee also reviewed the incentive arrangements for executive directors and members of the executive leadership team. Details of revised annual bonus arrangements, proposed changes to be made in 2008/09 to the level of performance share plan awards for executive directors and the total shareholder return performance measure are given later in this report. Following approval of the matching share plan at the 2007 annual general meeting, matching share plan awards were made to Philip Green, Tim Weller and Charlie Cornish. Details of these awards are stated later in this report on page 48 in table 11.

The board accepted the committee's recommendations without amendment. The chairman of the board ensures the company talks to its major shareholders, when appropriate, about matters relating to remuneration.

Policy statement on executive directors' remuneration
The board's policy for executive directors' and senior executives' remuneration is to:

- pay a basic salary which compares with other companies of comparable size and complexity;
- use short-term and long-term incentives to encourage executives to out-perform key targets, thereby linking their rewards to the interests of shareholders and other stakeholders and giving them the opportunity to increase their earnings;
- encourage executives to hold shares in the group; and
- reward executives fairly and responsibly for their contribution to the group's short-term and long-term performance and avoid paying more than is appropriate.

In deciding the executive directors' total remuneration package and the individual elements of it, the remuneration committee assesses both the performance of the individual and the company

as well as the range of pay in similar companies. In making these comparisons it considers the results carefully. The company aims to pay within a range of the mid-market rate over time but may pay higher salaries and total remuneration for out-performing individuals (or to attract or retain executives of the right calibre) and where the company itself out-performs. Account is also taken of a range of other factors, including the general increases in base salaries taking place within the company. Below mid-market pay may result from under-performance by an individual and/or the company or where an individual is new to the role.

Fixed rewards include basic salary, a car allowance or company car and fuel for private mileage, life, medical and permanent health insurance and pension benefits. Variable rewards take the form of an annual bonus where executives are incentivised to receive a proportion of their bonus in shares which are matched by a corresponding performance related award from the company and a long-term incentive plan (the performance share plan). The rewards are designed to establish a clear link between pay and performance by encouraging out-performance in both the short-term and long-term. They are based on business and individual performance, linking executives' rewards directly to the interests of shareholders and other stakeholders. Annual and long-term awards are non-pensionable.

The committee aims to achieve an appropriate balance of fixed and variable rewards. It recognises that the group operates in both a regulated and non-regulated environment and therefore needs to ensure that the structure of executive remuneration reflects the practices of the markets in which its executives operate and stakeholder expectations of how the company should be run. The board reviews its policy in the light of emerging best practice.

During the year ended 31 March 2008, the committee considered the balance of incentive remuneration between annual and long-term remuneration and the associated performance measures. The committee decided to make changes in respect of the 2008/09 remuneration structure with the objective of providing a greater focus on incentivising management to improve operational performance targets across all areas of the business. This was viewed as being particularly important given that the operational performance standards achieved during 2008/09 will be an important consideration for the company leading into the discussions with its key stakeholders, including the water regulator, for the next regulatory review period commencing April 2010. Although the proposed changes in respect of 2008/09 result in higher levels of remuneration in respect of annual performance it should be noted that there is a corresponding reduction in the quantum of future long-term incentive awards.

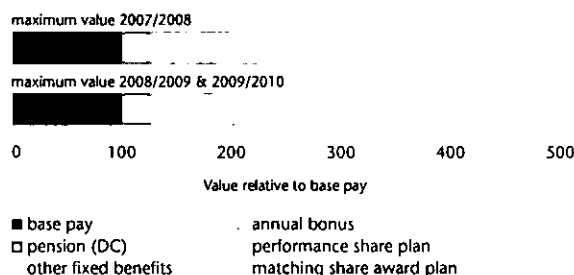

It is the board's policy that shareholders will be invited to approve all new long-term incentive schemes (as defined in the Listing Rules) and significant changes to existing schemes, save in the circumstances permitted by the Listing Rules. No changes were made to the terms and conditions of any existing share awards during the year. At the 2007 annual general meeting, shareholders approved the introduction of a matching share award plan. Details were given in the directors' remuneration report for 2007 and awards under the plan are described later in this report.

The group operates a defined contribution pension scheme which newly appointed directors (and senior executives) can join. Further details of pension benefits provided for executive directors are provided on pages 49 to 51 of this report.

Chart 1 sets out the impact of the board's policy on an executive director's annual total reward. It compares the arrangements for 2007/08 with the arrangements for 2008/09, expressed in terms of the maximum reward opportunity. The changes outlined in this report will maintain the proportion of the maximum reward opportunity that is 'at risk' to approximately 69 per cent in 2008/09.

Notes:

- The shading represents the value of each element of the reward package relative to base pay (base pay = 100).
- Pension refers to the defined contribution section of the pension scheme with a company contribution of 25 per cent of basic pay.
- The maximum values apply only where maximum annual bonus is achieved and the performance share plan and matching share award plan have paid out fully.
- The values for the performance share plan and matching share award plan assume a dividend reinvestment value of five per cent per year for each of the three years of the performance period and, in the case of the matching share award plan, that a director has invested to the full extent initially allowed i.e. 50 per cent of annual bonus paid for the previous year.

- Other benefits include the taxable value of the car or car allowance, private fuel and medical insurance.
- Paul Capell was appointed to the board on 1 May 2007 and resigned on 27 September 2007. His compensation for loss of office costs includes salary and payments paid through payroll and benefits provided after his resignation from the board, but while he was still employed by the company, until 31 December 2007.

Directors' remuneration report continued

The group expects executive directors and other senior executives to acquire and hold shares at least to the value of their basic salary within five years of appointment.

Detailed policy in relation to executive directors' remuneration is set out overleaf.

Table 3: Executive directors' salaries

Executive directors' emoluments and the value of the long-term incentives vesting during the year ended 31 March 2008 are set out in table 3.

A – Salary

The remuneration committee reviews salaries each year taking account of both company and personal performance. It commissions independent assessments of market rates based on the practice of other utility companies and companies of a similar size and complexity and takes account of the levels of pay awards elsewhere in the group. In this way it aims to establish whether an increase should apply and, if so, what it should be. It also considers whether there should be any departures from the norm, for example, to ensure that salaries are competitive and consistent with the application of board policy on executive remuneration.

The following changes were made to the annual salaries of executive directors during the year:

Table 3: Executive directors' salaries

	Salary at 31 March 2008 £'000	Salary at 31 March 2007 £'000	Date of change
Philip Green	748.0	695.0	1 Sept 2007
Paul Capell	n/a	n/a	n/a
Charlie Cornish	362.0	340.0	1 Sept 2007
Tim Weller	430.0	400.0	1 Sept 2007

Note:

• Paul Capell was appointed a director on 1 May 2007 on a salary of £350,000 and resigned on 27 September 2007. His salary was not reviewed during the period. He remained an employee until 31 December 2007.

The annual bonus is designed to motivate executive directors and other senior executives to achieve the company's key financial, operational and strategic objectives. Directors are rewarded according to the company's financial and operational performance for the year and the achievement of individual targets, which are set each year. The operational and individual targets may include performance against key stakeholder measures and personal objectives. Executives may be invited to join the matching share award plan and elect to receive up to 50 per cent of their bonus in the form of United Utilities shares. There is a match from the company whereby, for 2008/09, the first 20 per cent of bonus results in a two for one match by the company and the balance up to the other 30 per cent in a one for one match. The matching shares are released after three years subject to the achievement of performance conditions. If these conditions are not achieved, a partial release may, in some circumstances, be made. The performance conditions are on the basis of an equal weighting of total shareholder return (TSR) performance, as used in the performance share plan as described below, and the achievement of operational performance measures within the categories of quality and environment, customer service, finance and efficiency and employee related. Full details of the operational performance measures for the 2007/08 grant were disclosed in the 2007 remuneration report and included in the circular to shareholders prior to approval of the matching share plan at the 2007 annual general meeting.

(a) 2008/09

The remuneration committee has decided that, for the 2008/09 annual bonus plan, the maximum potential bonus will be increased from 100 to 130 per cent of salary for executive directors and from

60 to 70 per cent for other members of the executive leadership team. As noted above, this does not represent an increase in the overall quantum of reward as there is a corresponding reduction in the value of future long-term incentive awards. In addition, to participate fully in the matching share award plan, executives will have to elect to receive a greater proportion of their 2008/09 bonus in United Utilities shares (up to 61 per cent of the higher bonus opportunity) with no overall increase in the quantum of matching shares awarded by the company. For executive directors, company financial measures will account for bonus payments worth up to 65 per cent of salary. These financial measures were:

- group profit before restructuring costs, other non-recurring items, investment income, finance expense and taxation (PBEIT); and
- profit before restructuring costs, other non-recurring items and taxation (PBET) (weighted equally).

For each of the financial measures, one quarter of the maximum award allocated to that measure becomes payable once the threshold target is met. Awards increase in value on a straight-line basis until half of the maximum award is payable for achieving an intermediate target between the threshold and stretch targets. Awards continue to increase in value on a straight-line basis between the intermediate and stretch targets, at which point the maximum award is payable. The stretch targets are demanding and achievement represents results which exceed expectations.

The value of each executive director's annual bonus payment will also depend on operational performance in other areas of the company's activities. These measures include operational and customer service targets in the water and wastewater businesses; improving the group's corporate responsibility performance in the Dow Jones European and World Sustainability Index and achieving improvements in employee engagement measured by responses to questions in an externally conducted and verified employee opinion survey. These performance measures were chosen to complement the financial measures and to incentivise executives to achieve a series of balanced operational measures that are aligned to the interests of key stakeholders including customers, regulators and employees.

Personal objectives account for the balance of the bonus opportunity. The executive directors' annual bonus plan measures for 2008/09 are summarised in table 5.

(b) 2007/08

The 2007/08 annual bonus plan permitted a maximum bonus of 100 per cent of salary for executive directors and 60 per cent for other members of the executive leadership team. For executive directors, company financial measures PBEIT and PBET (weighted equally) accounted for bonus payments worth up to 50 per cent of salary.

For each of the financial measures, one quarter of the maximum award allocated to that measure became payable once the threshold target was met. Awards increased in value on a straight-line basis until half of the maximum award was payable for achieving an intermediate target between the threshold and stretch targets. Awards continued to increase in value on a straight-line basis between the intermediate and stretch targets, at which point the maximum award became payable. The stretch targets were intended to be demanding and achievement would represent results exceeding expectations.

Executive directors' annual bonus payment also depended on operational performance in other areas of the group's activities. In respect of the year ended 31 March 2008 the committee also considered the extent to which each director had contributed to the successful sale of United Utilities Electricity.

These measures include: operational targets in the water, wastewater and electricity distribution businesses; improving the group's corporate responsibility performance in the Dow Jones

C - Other benefits

Directors are paid a car allowance of £14,000 per year or are entitled to have the use of a company car and are reimbursed the cost of fuel for business and private use. They are also provided with medical, life and permanent health insurance.

D - Long-term incentives

(i) Performance share plan

Executive directors and other senior executives participate in the performance share plan. Awards are granted at the discretion of the plan's trustee (United Utilities Employee Share Trust Limited) on the recommendation of the remuneration committee. Each year, participants may be awarded a right to acquire a maximum number of shares worth up to a fixed percentage of their annual salary at the date of the award, at no cost to them. The number of shares awarded is based on the market price of shares at that time. The plan's rules provide for a maximum award of 100 per cent of annual salary which may be increased above this level in circumstances which the committee considers to be exceptional. Annual awards made to date to directors have not exceeded 100 per cent of salary. Participation in the plan has, with effect from 1 April 2007, been restricted to members of the executive leadership team only, with an award percentage of 60 per cent of salary for those executives who are not directors. For a limited number of senior managers below the executive leadership team level the company intends to arrange, during 2008/09, for payment of a proportion of annual bonuses earned in the form of United Utilities shares through a new plan. The shares will be released after a period of three years from when the bonus is earned subject to continued employment with the group and with no additional performance conditions. No executive directors will participate in the new plan and no newly issued or treasury shares will be used to facilitate awards.

With effect from 1 April 2008, as explained earlier in this report, the committee has decided to reduce the level of awards to executive directors from 100 per cent of salary to 70 per cent and for members of the executive leadership team from 60 per cent to 50 per cent. Grants are normally made within 42 days

of the publication of the group's results, and the main grant normally occurs after the publication of the preliminary results. A subsequent grant may be made after the publication of the interim results for executives who have become eligible after the main grant has been made.

The proportion of the award that will vest depends upon the company's performance against specified targets over a performance period. This period is not less than three years, beginning at the start of the financial year during which the award is made. There is no re-testing if the performance criteria are not met.

To date, the performance criteria have been: (i) the company's TSR performance when compared with the TSR performance of a comparator group or index of other companies; and (ii) underlying business performance.

TSR is widely used as an externally verifiable measure of a shareholder's return. Relating awards to the group's relative TSR performance supports the policy objectives of linking executives' rewards directly to the company's performance and shareholders' interests and gives executives the opportunity to increase their earnings by meeting and out-performing key long-term measures.

The remuneration committee has the discretion to make adjustments to the comparator group or to the period over which relative TSR is measured during the performance period in order to maintain the integrity of the plan: for example, following a takeover bid, takeover activity, merger/demerger announcement regarding a member of the comparator group an appropriate adjustment may be made. During the year, the remuneration committee considered the treatment of changes affecting companies in the comparator groups for awards made in 2004/05, 2005/06 and 2006/07.

External advisers regularly assess and report to the committee on the group's TSR performance and ranking in the comparator group and performance against the index. Their report at the end of the performance period enables the committee to determine the extent to which this performance condition has been met.

The vesting of awards is also subject to the remuneration committee being satisfied that the group's recorded TSR performance is consistent with underlying business performance. The committee tests whether this condition has been satisfied after the end of each performance period in accordance with the terms of each award. Reference may be made to actual against

Directors' remuneration report continued

planned performance in respect of key corporate financial measures. The committee takes account of the impact of the transition to International Financial Reporting Standards when assessing underlying business performance against the performance measures.

There is no automatic waiving of performance conditions if there is a change of control, capital reconstruction or winding up of the company. The extent, if any, to which awards will vest and any modifications of performance conditions are made, are at the trustee's discretion, with the consent of the remuneration committee.

When a participant's employment terminates during a performance period and the reason falls within the 'good leaver' provisions of the plan, the vesting of an award is at the trustee's discretion. If discretion is exercised, the maximum number of shares in an award is pro-rated to service in the performance period and vesting is subject to satisfying the performance conditions (modified if appropriate). Except in the case of the death of a participant, there is normally no early vesting of awards. Awards lapse where terminations during the performance period do not satisfy the good leaver provisions.

Participants normally have three months from the date at which the award vests in which to exercise their right to acquire the number of shares that have vested. Awards are normally satisfied by the transfer of shares from the trustee to participants. The trustee may periodically buy shares in the market to ensure that it can satisfy its liabilities when an award vests. These purchases are normally financed by the group making a loan to the trustee. The group takes account of the vesting timetable and likely scale of vesting in determining the financial assistance it provides for the trustee. The group reviews this arrangement from time to time to ensure its cost-effectiveness. Awards may also be satisfied by allotting shares. Details of the number of shares held by the trust at 2 June 2008 are given in the notes to table 16 on page 50.

(a) 2008/09 and 2007/08 grants

Grants made in respect of 2007/08 and to be made in respect of 2008/09 are based on a performance condition which measures the group's comparative TSR performance against a TSR index (the Index) rather than a comparator group ranking. Using an index allows for a meaningful comparison of performance to be made and a smoother sliding scale of vesting of awards. The Index is constructed by assessing the TSR performance of the following companies with their influence on the Index being weighted according to their relevance and size. Table 7 below reflects the composition of the Index in respect of the grant made during 2007/08. Any grant made in 2008/09 will be based upon the same Index approach with the composition of the Index adjusted to reflect any change in the comparator companies. For example, companies that have been acquired (e.g. Kelda Group) will be removed from the Index or new comparable companies may be included.

Table 7 TSR weighting of comparator companies

Company	Weighting
Kelda Group	100%
National Grid	25%
Northumbrian Water	75%
Pennon Group	75%
Scottish & Southern Energy	25%
Severn Trent	100%

None of the award would vest if United Utilities' performance fell below the Index; 25 per cent of the award would vest for a performance equal to the Index; and 100 per cent of the award would vest on out-performing the Index by 12 per cent over the three-year performance period. Vesting would be on a sliding scale for performance between these points. Any vesting of awards

would also be subject to the remuneration committee being satisfied that the group's recorded TSR performance was consistent with underlying business performance.

(b) 2006/07 grant

Awards to a maximum value of 80 per cent of annual salary were made to directors in respect of the 2006/07 performance share plan. The extent to which awards vest will be based on the group's TSR performance relative to the comparator group of companies over the period from 1 April 2006 to 31 March 2009. The TSR comparator group comprises the following 16 companies in addition to United Utilities: AMEC, AWG, Balfour Beatty, BG Group, British Energy, BT Group, Centrica, International Power, Kelda Group, National Grid, Northumbrian Water, Pennon Group, Scottish & Southern Energy, ScottishPower, Severn Trent and Viridian. The committee has taken account of corporate events affecting AWG, ScottishPower, Severn Trent and Viridian since the start of the performance period. Awards will vest after the end of the performance period provided that the remuneration committee is satisfied that the group's recorded TSR performance is consistent with the group's underlying business performance.

The vesting scale is shown in table 8.

(c) 2005/06 grant

Directors have awards to a maximum value of 80 per cent of annual salary in respect of the 2005/06 performance share plan. The extent to which awards vest will be based on the group's TSR performance relative to the comparator group of companies over the period 1 April 2005 to 31 March 2008. The TSR comparator group comprises the following 16 companies in addition to United Utilities: AMEC, AWG, BAA, Balfour Beatty, BG Group, BT Group, Centrica, International Power, Kelda Group, National Grid, Northumbrian Water, Pennon Group, Scottish & Southern Energy, ScottishPower, Severn Trent and Viridian. The committee has taken account of corporate events affecting AWG, BAA, ScottishPower, Severn Trent and Viridian since the start of the performance period. Awards will vest after the end of the performance period provided that the remuneration committee is satisfied that the group's recorded TSR performance is consistent with the group's underlying business performance.

Notes:

- The values shown for 1 April 2007 have been calculated using the mid-market price of a share at close of business on 30 March 2007 of 755.5 pence.
- The values shown for 31 March 2008 have been calculated using the mid-market price of an ordinary share at close of business on 31 March 2008 of 690.5 pence.
- The market price of a share at award is the mid-market price of an ordinary share at close of business on the last trading day immediately prior to the award date. This is used to calculate the maximum number of shares comprising the award.
- The contingent scheme interest at 1 April 2007 for the 2004/05 plan incorporates an adjustment in the number of shares in the award to take account of the second stage of the rights issue. The number of ordinary shares increased by a factor of 1.41559048 and the number of A shares reduced to zero. This reflects the position of shareholders taking up their rights and takes account of the subscription cost.
- The contingent scheme interest awarded during the year in respect of the 2006/07 plan comprises shares resulting from the notional reinvestment of notional dividend payable during the year on the number of shares subject to the award.
- The value of contingent scheme interest awarded during the year 2006/07 is the value of the notional dividends payable during the year.
- The contingent scheme interest awarded during the year in respect of the 2007/08 plan comprises the number of award shares granted, and the additional shares resulting from the notional reinvestment of notional dividend payable during the year on the number of shares subject to the award.
- The value of contingent scheme interest awarded during the year 2007/08 is the value of the initial award plus the value of notional dividends payable during the year.
- During the year 1 April 2007 to 31 March 2008 the share price ranged between 633.5 pence and 796.0 pence.
- Paul Capell's scheme interest lapsed after he ceased to be a director.

Directors' remuneration report continued

Details of executive directors' continuing scheme interests in the performance share plan, including those awarded during the year, are set out in table 10. Other than as set out below, no directors have any interests in any performance share plan.

(ii) Matching share award plan

The 2007 matching share award plan was approved at the 2007 annual general meeting and full details were disclosed in the remuneration report for 2007.

In accordance with the rules of that plan, all executive directors, except for Paul Capell, invested in shares and a conditional matched award of shares was made to them on 30 July 2007 which will transfer to them in whole or part after the end of the three-year performance period ending 31 March 2010, subject to their still being employed by the group at that date and the satisfaction of performance criteria. The number of shares subject to the matching share award will be increased by the notional reinvestment of dividends payable on the matched shares over the course of the three-year period. Details of their scheme interests are shown in table 11.

Chart 2 compares the group's annual TSR performance for the past five years against the FTSE 100 Index. This index was chosen as it is the most appropriate broad equity market index. This comparison also supplements the information on the group's TSR performance relative to the comparator groups in the performance share plan. The TSR indices used in the chart have been calculated in accordance with the Directors' Remuneration Report Regulations 2002 relative to a base date of 31 March 2003.

Share options

Grants of executive share options were made under the group share option plan 1999 up to and including 31 March 2002. From 1 April 2002, awards under the performance share plan have replaced further grants of executive share options.

Executive directors are eligible to participate in the all-employee Save As You Earn (SAYE) scheme (ShareSave). Neither the award nor the exercise of ShareSave options is dependent upon the satisfaction of performance conditions. The last grant of options was ShareSave 2004. No director who served during the year has any SAYE options.

Note:

- The value of the shareholding is based on a share price of 699.5 pence. This is the share price averaged over the final three months of the financial year.

Executive directors' shareholdings

Executive directors are expected to build up and retain a target shareholding equal to the value of their basic salary, normally within five years of appointment. Performance share plan awards are delivered in shares and executives can retain all the shares that vest if they make a cash payment to meet their PAYE statutory liabilities. The company prefers a flexible approach to the accumulation of a shareholding, which takes account of individual circumstances, and has decided not to require executives to retain a proportion of shares that vest under its incentive plans. Executive directors' interests in shares, as at 31 March 2008, are among those listed in table 16 on page 50. The value of these interests relative to their annual salaries is shown in table 12 on page 48.

Matched share investment scheme for Philip Green

Full details of the matched share investment scheme for Philip Green, introduced as part of his terms of appointment, were disclosed in the remuneration report for 2005/06. In accordance with the rules of that scheme, Philip Green invested in 100,000 shares and a conditional matched award of 100,000 shares was made to him on 16 January 2007 which will transfer to him at the end of the five-year retention period on 12 February 2011, subject to his still being employed by the group at that date. The number of shares subject to the matching share award will be increased by the notional reinvestment of dividends payable on the matched shares over the course of the five-year retention period.

Details of his scheme interests are shown in table 13.

Matched share investment scheme for Tim Weller

Full details of the matched share investment scheme for Tim Weller, introduced as part of his terms of appointment, were disclosed in the remuneration report for 2006/07. In accordance with the rules of that scheme, Tim Weller invested in 39,000 shares and a conditional matched award of 39,000 shares was made to him on 14 February 2007 which will transfer to him at the end of

the five-year retention period on 30 June 2011, subject to his still being employed by the group at that date. The number of shares subject to the matching share award will be increased by the notional reinvestment of dividends payable on the matched shares over the course of the five-year retention period.

Details of his scheme interests are shown in table 14.

Share interests

Details of beneficial interests as at 31 March 2008 and as at 2 June 2008 in the company's ordinary shares and options to subscribe for shares (other than such options set out above) held by the directors and their connected persons are set out on page 50 in table 16. Except as described below and, in the case of the options granted as part of the incentive schemes of the company, as set out above, none of the directors had any interest in any share capital of any other group company or in any debenture of any group company.

Pension arrangements

The company operates several pension schemes. The company has, with relevant pension scheme trustee agreement where required, made the rule changes necessary to ensure that the schemes qualify as registered pension schemes under the new legislative regime. The executive directors are all members of the United Utilities Pension Scheme (UUPS).

The remuneration committee recognises that pensions are an important but potentially costly element of remuneration. Decisions have previously been made to close entry to the defined benefit section of UUPS to newly recruited directors and other senior executives, not to introduce any new unfunded unapproved arrangements to provide pension benefits above those approved by HM Revenue & Customs and to close entry to the defined benefit executive section (which provides enhanced benefits for existing scheme members).

Directors' remuneration report continued

Special long-term incentive scheme for Charlie Cornish

Full details of the special long-term incentive scheme for Charlie Cornish, introduced to facilitate his retention, were disclosed in the remuneration report for 2006/07. In accordance with the rules of that scheme, an award equal in value to his annual salary was granted to Charlie Cornish on 16 March 2007 in the form of an option over 47,027 shares. The number of shares under option is subject to the notional reinvestment of dividends payable on them during and until the date the award vests.

Details of his scheme interest are shown in table 15.

Notes:

- Paul Capell was appointed as a director on 1 May 2007 and resigned on 27 September 2007 but at no time held any shares in the capital of the company other than as a participant in the ShareBuy scheme; the shares from which were sold automatically under the provisions of the plan after his employment ended.
- Sir Peter Middleton retired as a director on 27 July 2007.
- Dr John McAdam was appointed as a non-executive director on 4 February 2008.
- Each executive director is a member of the class of discretionary beneficiaries of the United Utilities Employee Share Trust (the Trust) and is therefore treated as having an interest in the 53,601 ordinary shares held by United Utilities Employee Share Trust Limited as a trustee of the Trust as at 31 March 2008 and as at 2 June 2008.

Newly appointed executive directors may join the defined contribution section of UUPS. They may make a regular contribution of up to seven per cent of basic pay and may make additional voluntary contributions. The group contributes up to 25 per cent of basic pay.

When scheme members reach the lifetime allowance they are given the choice of continuing to accrue benefits within the pension scheme (and pay the higher tax charge for which no compensation will be paid) or be paid a cash allowance instead of accruing further pension benefits. The cash allowances are calculated as a percentage of salary and do not exceed the cost of the group's pension contributions. A cash allowance of 12 per cent is payable in lieu of the standard defined contribution rate of 14 per cent and 22 per cent in lieu of the enhanced defined contribution rate of 25 per cent. As at 31 March 2008, no executive director had taken the cash alternative.

Directors' regular contribution rates are levied on their pensionable pay, provided the amount for the year, when added to the group's contribution, does not exceed the annual allowance.

During the year the company made available the opportunity to participate in a 'salary sacrifice' arrangement to all members of the company's pension schemes. The arrangement allows pension scheme members to cease making their regular pension contributions. Their gross salary is correspondingly reduced by the value of the regular contributions they would have made to the pension scheme. For members of the defined contribution section, the group makes an additional contribution equal to the regular contribution that would have been paid by the member.

Directors' pension arrangements

Philip Green, Charlie Cornish, Tim Weller and Paul Capell were members of the defined contribution section during the year.

Prior to participating in the salary sacrifice arrangement, Philip Green's regular contribution rate was three per cent of basic salary. The company contributed six per cent of basic salary to the pension scheme and an additional 19 per cent to his private pension plan. Charlie Cornish and Tim Weller contributed seven per cent and the company contributed 25 per cent of their basic salary to the pension scheme. Paul Capell joined the company pension scheme with a contribution rate of seven per cent that was matched at three per cent by the company. An additional lump sum payment equivalent to 22 per cent was paid to his own individual pension arrangement prior to the termination of his employment. The normal pension age for a director is 65.

Directors' accrued pension benefits

During the year ended 31 March 2008, the company paid contributions totalling £203,257 (2006/07: £182,349) to the defined contribution section of the pension scheme and to a personal pension plan for Philip Green. Contributions totalling £112,907 (2006/07: £96,900) for Charlie Cornish and £136,485 (2006/07: £85,073) for Tim Weller were made to the defined contribution section of the pension scheme. Contributions of £68,092 were paid to the defined contribution section of the pension scheme and to the personal pension plan for Paul Capell. These figures include amounts of £21,777, £24,698, £29,224 and £8,166 respectively for Philip Green, Charlie Cornish, Tim Weller and Paul Capell in substitution for their regular pension scheme contributions and for which there was a corresponding reduction in the amounts shown as their gross salaries in table 3.

Contracts of service and compensation for termination

The group's policy is that the executive directors normally have one-year notice periods. The group may offer a longer notice period if it considers it necessary to recruit a new director. If it offers an initial notice period of more than one year, it will usually reduce that to a rolling one-year notice period after the initial period has expired. At 31 March 2008, all current executive directors had one-year notice periods.

Contracts terminate automatically upon the director reaching the age of 65 unless the group agrees that a director may continue to work after attaining that age. No special arrangements apply if there is a change of control.

As at 31 March 2008, service contracts did not provide explicitly for termination payments (other than for holidays due but not taken), liquidated damages or payments in lieu of notice. If a contract is to be terminated, the remuneration committee will, in each circumstance, determine the compensation that will be paid, normally by reference to fixed elements of remuneration and the notice period. There is no automatic entitlement to payments under the annual bonus or performance share plan. Any annual bonus payment is at the discretion of the group. Performance share plan vesting is at the discretion of the trustees based on a recommendation from the remuneration committee and an award will not normally vest unless the termination is for a 'good leaver' reason such as retirement or because of ill health, or there are other special circumstances. Payments are then pro-rated and subject to the performance conditions on which awards were granted (modified if appropriate) being satisfied.

The committee will apply such mitigation it considers is fair and reasonable. It will take into account the best practice provisions of the Code and will take legal advice on the company's liability to pay compensation. The company's policy is to take a robust line on reducing compensation, and it may phase payments to reflect a departing employee's obligation to mitigate loss. The committee reviews this policy each year.

Details of executive directors' contracts as at 31 March 2008 are set out in table 17.

Table 17. Executive directors' service contracts as at 31 March 2008

	Date of contract	Unexpired term (to 65th birthday)	Notice period

Tim Weller	01.07.06	08.06.28	12 months (rolling)
Charlie Cornish	05.01.04	30.11.24	12 months (rolling)

Notes:

- No explicit contractual compensation for early termination (other than payment for outstanding holidays).

Non-executive directorships

The group recognises that its executive directors may be invited to become non-executive directors of companies outside the group and exposure to such non-executive duties can broaden experience and knowledge, which will be to the benefit of the group. Subject to board approval (which will not be given if the proposed appointment is with a competing company, would otherwise lead to a material conflict of interest or could have a detrimental effect on a director's performance), executive directors are allowed to accept one non-executive directorship and to retain the fee. Philip Green was appointed as a non-executive director of Lloyds TSB Bank plc on 10 May 2007 and received and retained £55,598 in fees for the period to 31 December 2007. Tim Weller was appointed a non-executive director of The Carbon Trust on 19 June 2007 and received and retained £13,338 in fees for the period to 31 March 2008.

Employee share schemes

The board believes that share ownership is an effective way of strengthening employees' involvement in the development of the business and bringing together their interests and those of shareholders. It offers employees the opportunity to build up a shareholding in the company.

The main all-employee scheme is the HM Revenue & Customs approved share incentive plan, 'ShareBuy'. This is a flexible way for employees to acquire shares in the company by buying 'partnership' shares up to the lower of £1,500 or ten per cent of taxable pay each year. The funds are deducted from pre-tax pay and passed to an independent trustee who makes a monthly purchase of shares at full market price. Employees can reinvest the dividends received from partnership shares to buy more shares under the plan. In 2004, the company introduced 'matching' shares. It gives one free share for every five partnership shares bought. The shares need to be held in trust for a five-year term in order to retain the maximum tax advantages.

Grants have in previous years also been made to employees through the SAYE share option savings scheme, ShareSave, whereby an employee is granted an option to buy shares at the end of a three-year or five-year term during which they can save up to £250 each month from their net pay. The option price is fixed at a price not lower than 20 per cent below the market price at the date of grant. The number of shares that can be bought is determined by the amount saved by the employee over the term. In addition to the executive directors, a limited number of senior executives also have the opportunity to acquire shares by participating in the group's performance share plan. This plan has replaced the grant of executive share options. Further information on the operation of the company's share schemes can be found in note 26 to the accounts on page 105.

Statement of directors' responsibilities

The directors are responsible for preparing the annual report, the directors' remuneration report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. The directors are required by the IAS Regulation to prepare the group financial statements under International Financial Reporting Standards (IFRSs) as adopted by the European Union and have also elected to prepare the parent company financial statements in accordance with IFRSs as adopted by the European Union. The financial statements are also required by law to be properly prepared in accordance with the Companies Act 1985 and Article 4 of the IAS Regulation.

International Accounting Standard 1 requires that financial statements present fairly for each financial year the company's financial position, financial performance and cashflows. This requires the faithful representation of the effects of transactions, other events and conditions in accordance with the definitions and recognition criteria for assets, liabilities, income and expenses set out in the International Accounting Standards Board's 'Framework for the preparation and presentation of financial statements'. In virtually all circumstances, a fair presentation will be achieved by compliance with all applicable IFRSs. However, directors are also required to:

- select and apply accounting policies properly;
- present information, including accounting policies, in a manner that provides relevant, reliable, comparable and understandable information; and
- provide additional disclosures when compliance with the specific requirements in IFRSs is insufficient to enable users to understand the impact of particular transactions, other events and conditions on the entity's financial position and financial performance.

The directors are responsible for keeping proper accounting records that disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 1985. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Under applicable law and regulations, the directors are also responsible for preparing the directors' report, directors' remuneration report and report on corporate governance that comply with that law and those regulations.

The directors are responsible for the maintenance and integrity of the corporate and financial information included on the company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

The directors confirm to the best of their knowledge that:

- a) the financial statements, prepared in accordance with the applicable set of accounting standards, give a true and fair view of the assets, liabilities, financial position and profit or loss of the group taken as a whole; and
- b) the business review, which is incorporated into the directors' report, includes a fair review of the development and performance of the business taken as a whole, together with a description of the principal risks and uncertainties.

It also includes an assessment of the significant estimates and judgements made by the directors in the preparation of the financial statements, and of whether the accounting policies are appropriate to the group's and company's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial statements and the part of the directors' remuneration report to be audited are free from material misstatement, whether caused by fraud or other irregularity or error. Accounting policies

The principal accounting policies adopted in the preparation of these financial statements are set out below.

a) Basis of preparation

The financial statements have been prepared in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union (EU), including International Accounting Standards (IAS) and Interpretations issued by the International Financial Reporting Interpretations Committee (IFRIC).

The financial statements have been prepared on the historical cost basis, except for the revaluation of financial instruments.

The preparation of financial statements, in conformity with generally accepted accounting principles (GAAP) under IFRS, requires management to make estimates and assumptions that affect the amounts of assets and liabilities at the date of the financial statements and the amounts of revenues and expenses during the reporting periods presented. Although these estimates are based on management's best knowledge of the amount, event or actions, actual results ultimately may differ from these estimates.

IFRS 7 'Financial Instruments: Disclosures', the Amendment to IAS 1 'Presentation of Financial Statements: Capital Disclosures' and IFRIC 11 'IFRS 2: Group and Treasury Share Transactions' have been adopted in the year.

The 2007 comparatives have been re-presented to reflect the following:

- re-presentation of the group's 2007 results to reflect the results of United Utilities Electricity, its industrial liquid waste and facilities management operations and its associate as discontinued operations (see notes 1 and 7);
- re-presentation of inventories to reflect properties previously held as current asset investments reclassified to inventories (see note 14);
- re-presentation of shareholders' equity to incorporate a category for other reserves to include revaluation of investments and fair value gains/(losses) on cashflow hedges and the associated tax on these items (see note 23); and
- adjustment for retirement benefits to reflect the group's participation in the Northern Gas Networks Pension Scheme. The group recorded a related deferred tax asset and investment offsetting the impact on net assets at 31 March 2007 to £nil (see note 19).

Operating profit

Operating profit is stated after charging operating expenses but before investment income and finance expense.

b) Basis of consolidation

The group financial statements consolidate the financial statements of the company and entities controlled by the company (its subsidiaries), made up to 31 March each year, and incorporate the results of its share of jointly controlled entities using proportionate consolidation.

The results of subsidiaries and joint ventures acquired or disposed of during the year are included in the consolidated income statement from the date control is obtained or until the date that control ceases, as appropriate.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring the accounting policies used under the relevant local GAAP into line with those used by the group.

Subsidiaries

Control is achieved where the company has the power to govern the financial and operating policies, generally accompanied by

a shareholding of more than one half of the voting rights, of an investee entity so as to obtain benefits from its activities.

In the parent company accounts, investments are held at cost less, where appropriate, provision for impairment.

On acquisition, the assets and liabilities and contingent liabilities of a subsidiary are measured at their fair values at the date of acquisition. Any excess of the cost of acquisition over the fair values of the identifiable net assets acquired is recognised as goodwill. Any deficiency of the cost of acquisition below the fair values of the identifiable net assets acquired is credited to the income statement in the period of acquisition. The interest of minority shareholders is stated at the minority's proportion of the fair values of the assets and liabilities recognised. Minority interests in the net assets of consolidated subsidiaries are identified separately from the group's equity therein. Minority interests consist of the amount of those interests at the date of the original business combination and the minority's share of changes in equity since the date of the combination. Losses applicable to the minority in excess of the minority's interest in the subsidiary's equity are allocated against the interests of the group except to the extent that the minority has a binding obligation and is able to make an additional investment to cover the losses.

All intra-group transactions, balances, income and expenses are eliminated on consolidation.

Associates

An associate is an entity over which the group, either directly or indirectly, is in a position to exercise significant influence by participating in, but not controlling, the financial and operating policies of the entity. Associates are accounted for using the equity method. Losses of an associate in excess of the group's interest in the associate are not recognised, except to the extent that the group has incurred obligations in respect of the associate. Unrealised profits and losses recognised by the group on transactions with an associate are eliminated to the extent of the group's interest in the associate concerned.

Joint ventures

Joint ventures are entities in which the group holds an interest on a long-term basis and which are jointly controlled with one or more parties under a contractual arrangement. The group's share of joint venture income, expenses, assets, liabilities and cashflows are included in the consolidated financial statements on a proportionate consolidation basis using the same accounting methods as adopted for subsidiaries.

c) Non-current assets held for sale

Non-current assets (and disposal groups comprising assets held for sale and the associated liabilities) classified as held for sale are measured at the lower of carrying amount and fair value less costs to sell.

Non-current assets (and disposal groups) are classified as held for sale if their carrying amount will be recovered through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset (or disposal group) is available for immediate sale in its present condition. Management must be committed to the sale which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

d) Intangible assets

Goodwill

Goodwill arising on consolidation is recognised as an asset.

Following initial recognition, goodwill is subject to impairment reviews, at least annually, and measured at initial value less accumulated impairment losses. Any impairment is recognised immediately in the income statement and is not subsequently reversed.

On disposal of a subsidiary, or jointly controlled entity, the attributable amount of goodwill is included in the determination of the gain or loss on disposal.

Goodwill written off to reserves under UK GAAP prior to 1998 has not been reinstated and is not included in determining any subsequent profit or loss on disposal.

Other intangible assets

Other intangible assets are measured initially at cost and are amortised on a straight-line basis over their estimated useful lives. Carrying amount is reduced by any provision for impairment where necessary.

On a business combination, as well as recording separable intangible assets already recognised in the balance sheet of the acquired entity at their fair value, identifiable intangible assets that arise from contractual or other legal rights are also included in the acquisition balance sheet at fair value.

Internal expenditure is capitalised as internally generated intangibles only if it meets the criteria of IAS 38 'Intangible Assets'.

Amortisation periods for categories of intangible assets are:

- Computer software 3-10 years; and
- Other intangible assets 2-20 years.

e) Property, plant and equipment

Property, plant and equipment comprises infrastructure assets (mains, sewers, impounding and pumped raw water storage reservoirs, dams, sludge pipelines and sea outfalls) and other assets (including properties and overground plant and equipment).

Water and wastewater infrastructure assets

Infrastructure assets comprise a network of water and wastewater systems. Expenditure on the infrastructure assets relating to increases in capacity or enhancements of the network are treated as additions. Amounts incurred in maintaining the operating capability of the network in accordance with defined standards of service are expensed in the year in which the expenditure is incurred. Infrastructure assets are depreciated by writing off their deemed cost, less the estimated residual value, evenly over their useful lives, which range from 15 to 300 years.

Employee costs incurred in implementing the capital schemes of the group are capitalised within infrastructure assets.

Other assets

All other property, plant and equipment is stated at historical cost less accumulated depreciation.

Historical cost includes expenditure that is directly attributable to the acquisition of the items. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the group and the cost of the item can be measured reliably. All other repairs and maintenance costs are charged to the income statement during the financial period in which they are incurred.

Freehold land and assets in the course of construction are not depreciated. Other assets are depreciated by writing off their cost less their estimated residual value evenly over their estimated useful lives, based on management's judgement and experience, which are principally as follows:

- Buildings 30-60 years;
- Operational assets 5-80 years; and
- Fixtures, fittings, tools and equipment 3-40 years.

Depreciation methods, residual values and useful lives are reassessed annually and, if necessary, changes are accounted for prospectively.

The gain or loss arising on the disposal or retirement of an asset is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in income.

f) Impairment of tangible and intangible assets excluding goodwill

Intangible assets with definite useful lives and property, plant and equipment are reviewed for impairment at each reporting date to determine whether there is any indication that those assets may have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. Where the asset does not generate cashflows that are independent from other assets, the group estimates the recoverable amount of the cash generating unit to which the asset belongs.

The recoverable amount is the higher of fair value less costs to sell, and value in use. Value in use represents the net present value of expected future cashflows, discounted on a pre-tax basis, using a rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cashflows have not been adjusted.

If the recoverable amount of an asset (or cash generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash generating unit) is reduced to its recoverable amount. Impairment losses in respect of non-current assets are recognised in the income statement within operating costs.

Where an impairment loss subsequently reverses, the reversal is recognised in the income statement and the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but not so as to exceed the carrying amount that would have been determined had no impairment loss been recognised in prior years.

g) Financial instruments

Financial assets and financial liabilities are recognised and derecognised on the group's balance sheet on the trade date when the group becomes a party to the contractual provisions of the instrument.

Cash and short-term deposits

Cash and short-term deposits include cash at bank and in-hand, deposits and other short-term highly liquid investments which are readily convertible into known amounts of cash, have a maturity of three months or less from the date of acquisition and which are subject to an insignificant risk of change in value. In the consolidated cashflow statement and related notes, cash and cash equivalents include cash and short-term deposits, net of bank overdrafts.

Financial investments

Investments (other than interests in associates, subsidiaries, joint ventures and fixed deposits) are initially measured at fair value, including transaction costs. Investments are classified as available-for-sale in accordance with IAS 39 'Financial Instruments Recognition and Measurement' and are measured at subsequent reporting dates at fair value. Gains and losses arising from changes in fair value are recognised directly in equity, until the security is disposed of or is determined to be impaired, at which time the cumulative gain or loss previously recognised in equity is included in the net profit or loss for the period.

Trade receivables

Trade receivables are measured at initial recognition at fair value, and are subsequently measured at amortised cost, less any impairment for irrecoverable amounts. Estimated irrecoverable amounts are based on historical experience of the receivables balance.

Accounting policies continued

Trade payables

Trade payables are initially measured at fair value and are subsequently measured at amortised cost.

Financial liabilities and equity

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the group after deducting all of its liabilities.

Equity instruments

Equity instruments issued by the group are recorded at the proceeds received, net of direct issue costs.

Bank borrowings

Interest-bearing bank loans and overdrafts are usually recorded at the proceeds received, net of direct issue costs. Finance charges, including premiums payable on settlement or redemption and direct issue costs, are accounted for on an amortised cost basis to the income statement using the effective interest method and are added to the carrying amount of the instrument to the extent that they are not settled in the period in which they arise. In some cases, borrowings are designated at fair value through profit or loss.

Financial liabilities designated at fair value through profit or loss
Borrowings are designated at fair value through profit or loss at inception where the complexity of the swaps means that they are disallowed from being allocated in a hedge relationship despite there being significant fair value offset between the hedged item and the derivative itself. The otherwise inconsistent accounting treatment that would have resulted allows the group to satisfy the criteria for this designation. Financial liabilities at fair value through profit or loss are stated at fair value, with any resultant gain or loss recognised in profit or loss. The net gain or loss recognised incorporates any interest paid on the financial liability. The treatment of financial liabilities designated at fair value through profit or loss is consistent with the group's documented risk management strategy. Where applicable, hedge accounting will be applied.

Derivative financial instruments and hedge accounting

Interest rate swap agreements and financial futures are used to manage interest rate exposure, while the group enters into cross-currency swaps to manage its exposure to fluctuations in foreign exchange rates. The group does not use derivative financial instruments for speculative purposes.

All financial derivatives are recognised in the balance sheet at fair value. Changes in the fair value of all derivative financial instruments are recognised in the income statement within finance expense as they arise, except for derivatives that are designated and effective in terms of cashflow hedging relationships, in which case the gains and losses are deferred in equity.

Fair value hedges

For an effective hedge of an exposure to changes in the fair value, the hedged item is adjusted for changes in fair value attributable to the risk being hedged with the corresponding entry in profit or loss. Gains or losses from remeasuring the derivative are recognised in profit or loss.

Where changes in the fair value of a derivative differ from changes in the fair value of the hedged item attributable to the risks being hedged, the hedge ineffectiveness is recorded in the income statement within finance expense.

Hedge accounting is discontinued prospectively when the hedging instrument is sold, terminated or exercised, where

the hedge relationship no longer meets the criteria for hedge accounting in accordance with IAS 39, or where the hedge designation is revoked. Any adjustment that has been recognised to the hedged item, for which the effective interest rate is used, is amortised to the income statement and is based on the recalculated effective interest rate at the time at which amortisation commences.

Cashflow hedges

Changes in the fair value of derivative financial instruments that are designated and effective as hedges of future cashflows are recognised directly in equity and the ineffective portion is recognised immediately in the income statement.

Hedge accounting is discontinued when the hedge designation is revoked, or the hedging instrument expires or is sold, terminated or exercised, or no longer qualifies for hedge accounting. At that time, any cumulative gain or loss on the hedging instrument recognised in equity is retained in equity until the forecast transaction occurs. If a hedged transaction is no longer expected to occur, the net cumulative gain or loss recognised in equity is transferred to net profit or loss for the period.

Net investment hedges

Exchange differences arising from the translation of net investments in foreign operations are recognised directly in equity. Gains and losses on those hedging instruments (which include foreign currency forward contracts) designated as hedges of net investments in foreign operations are recognised in equity to the extent that the hedging relationships are effective. These amounts are included in foreign exchange adjustments within the statement of recognised income and expense. Gains and losses relating to hedge ineffectiveness are recognised immediately in the income statement for the period. Gains and losses accumulated in the exchange reserve are included in the income statement when the foreign operations are disposed of.

h) Foreign currency translation

Transactions and balances

Transactions in foreign currencies are recorded at the exchange rates ruling on the dates of the transactions. At each balance sheet date, monetary assets and liabilities denominated in foreign currencies are translated into sterling at the relevant rates of exchange ruling on the balance sheet date. Gains and losses arising on retranslation are included in net profit or loss for the period. Exchange differences arising on investments in equity instruments classified as available for sale are included in the gains or losses arising from changes in fair value which are recognised directly in equity.

In order to hedge its exposure to certain foreign exchange risks, the group enters into forward contracts, options and other derivative instruments (see derivative financial instruments and hedge accounting in note g).

Group companies

On consolidation, the balance sheets of overseas subsidiaries and joint ventures (none of which has the currency of a hyperinflationary economy) are translated into sterling at exchange rates applicable at the balance sheet date. The income statements are translated into sterling using the average rate unless exchange rates fluctuate significantly in which case the exchange rate at the date the transaction occurred is used. Exchange differences resulting from the translation of such balance sheets at rates ruling at the beginning and end of the period, together with the differences between income statements translated at average rates and rates ruling at the period end, are dealt with as movements on the group's cumulative exchange reserve, a separate component of equity. Such translation

differences are recognised as income or expense in the period in which the operation is disposed of.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate. The group has elected to treat goodwill and fair value adjustments arising on acquisitions before the date of implementation of IFRS 3 'Business Combinations' (1 April 1999) as sterling denominated assets and liabilities.

i) Borrowing costs and finance income

All borrowing costs and finance income that are not directly attributable to the acquisition, issue or disposal of a financial asset or financial liability are recognised in the income statement in the period in which they are accrued.

Transaction costs that are directly attributable to the acquisition or issue of a financial asset or financial liability are included in the initial fair value of that instrument.

j) Long-term contract accounting

Where the outcome of a long-term contract can be estimated reliably, revenue and costs are recognised by reference to the stage of completion of the contract activity at the balance sheet date, as measured by the proportion that contract costs incurred for work performed to date bear to the estimated total contract costs. Variations in contract work, claims and incentive payments are included to the extent that they have been agreed with the customer.

Where the outcome of a long-term contract cannot be estimated reliably, contract revenue is recognised to the extent of contract costs incurred that it is probable will be recoverable. Contract costs are recognised as expenses in the period in which they are incurred.

When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognised as an expense immediately.

k) Taxation

The taxation expense represents the sum of current taxation and deferred taxation.

Current taxation

Current taxation, including UK corporation tax and foreign tax, is based on the taxable profit for the period and is provided at amounts expected to be paid or recovered using the tax rates and laws that have been enacted or substantially enacted at the balance sheet date.

Taxable profit differs from the net profit as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible.

Deferred taxation

Deferred taxation is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred taxation liabilities are provided, using the liability method, on all taxable temporary differences at the balance sheet date. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred taxation liabilities are recognised for taxable temporary differences arising on investments in subsidiaries and interests

in joint ventures, except where the group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred taxation is measured at the average tax rates that are expected to apply in the periods in which the temporary timing differences are expected to reverse based on tax rates and laws that have been enacted or substantially enacted at the balance sheet date.

The carrying amount of deferred taxation assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred taxation is charged or credited in the income statement, except when it relates to items charged or credited to equity, in which case the deferred taxation is also dealt with in equity.

l) Employee benefits

Retirement benefit obligations

The group operates a number of defined benefit pension schemes, which are independent of the group's finances, for the substantial majority of its employees. Actuarial valuations of the schemes are carried out as determined by the pension scheme trustees using the projected unit credit method at intervals of not more than three years, the rates of contribution payable and the pension cost being determined on the advice of the actuaries, having regard to the results of these valuations. In any intervening years, the actuaries review the continuing appropriateness of the contribution rates.

Defined benefit assets are measured at fair value while liabilities are measured at present value. The difference between the two amounts is recognised as a surplus or obligation in the balance sheet.

The cost of providing pension benefits to employees relating to the current year's service is included within the income statement within employee costs. The difference between the expected return on scheme assets and interest on scheme liabilities is included within the income statement within investment income.

All actuarial gains and losses are recognised outside the income statement in retained earnings and presented in the statement of recognised income and expense.

In addition, the group also operates defined contribution pension schemes. Payments are charged as employee costs as they fall due. The group has no further payment obligations once the contributions have been paid.

Share-based compensation arrangements

The group operates equity-settled, share-based compensation plans. In accordance with the transitional provisions, IFRS 2 'Share-based Payments' has been applied to all grants of equity instruments after 7 November 2002 that were unvested as of 1 April 2004.

The group issues equity-settled share-based payments to certain employees. Equity-settled share-based payments are measured at fair value at the date of grant. The fair value determined at the grant date is expensed on a straight-line basis over the vesting period, based on estimates of the number of options that are expected to vest. Fair value is based on both simulation and binomial models, according to the relevant measures of performance.

At each balance sheet date, the group revises its estimate of the number of options that are expected to become exercisable with the impact of any revision being recognised in the income statement, and a corresponding adjustment to equity over the remaining vesting period. The proceeds received net of

Accounting policies continued

any directly attributable transaction costs are credited to share capital (nominal value) and share premium when the options are exercised.

m) Provisions

Provisions are recognised when the group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and the amount can be reliably estimated.

Environmental expenditure that relates to current or future revenues is expensed or capitalised as appropriate. Expenditure that relates to an existing condition caused by past operations that does not contribute to current or future earnings is expensed. Liabilities for environmental remediation costs are recognised when there is a legal or constructive obligation, environmental assessments indicate that clean up is probable, and the associated costs can be reliably estimated.

n) Revenue recognition

Revenue represents the fair value of the income receivable in the ordinary course of business for goods and services provided. Where relevant, this includes an estimate of the sales value of units supplied to customers between the date of the last meter reading and the period end, exclusive of value added tax and foreign sales tax.

The group recognises revenue generally at the time of delivery and when collection of the resulting receivable is reasonably assured. Should the group consider that the criteria for revenue recognition are not met for a transaction, revenue recognition would be delayed until such time as the transaction becomes fully earned or collectibility is reasonably assured. Payments received in advance of revenue recognition are recorded as deferred income.

o) Grants and contributions

Grants and contributions receivable in respect of property, plant and equipment are treated as deferred income, which is credited to the income statement over the estimated economic lives of the related assets.

p) Leases

Leases are classified according to the substance of the transaction. A lease that transfers substantially all the risks and rewards of ownership to the lessee is classified as a finance lease. All other leases are classified as operating leases.

Finance leases

Finance leases are capitalised in the consolidated balance sheet at their fair value or, if lower, at the present value of the minimum lease payments, each determined at the inception of the lease. The corresponding liability is shown as a finance lease obligation to the lessor. Leasing repayments comprise both a capital and a finance element. Where the lease is of a fixed interest nature, the finance element is written off to the income statement so as to produce an approximately constant periodic rate of charge on the outstanding obligation. Where the lease is of a floating interest rate nature, the finance element written off to the income statement reflects the floating interest rate charge incurred during the period on the outstanding obligation. Such assets are depreciated over the shorter of their estimated useful lives and the period of the lease.

Operating leases

Operating lease rentals are charged to the income statement on a straight-line basis over the period of the lease.

q) Inventories

Inventories are stated at cost less any provision necessary to recognise damage and obsolescence. Finished goods and goods for resale are stated at the lower of cost; comprising, where applicable, direct materials, direct labour costs and appropriate

overheads incurred in bringing them to their present location and condition, and net realisable value.

Properties held for resale are included at the lower of cost and net realisable value. Cost includes the cost of acquiring and developing the sites.

Net realisable value represents the estimated selling price less all estimated costs of completion and costs to be incurred in marketing, selling and distribution.

r) Critical accounting judgements and key sources of estimation uncertainty

In the process of applying the group's accounting policies, the group is required to make certain estimates, judgements and assumptions that it believes are reasonable based upon the information available. These estimates and assumptions affect the amounts of assets and liabilities at the date of the financial statements and the amounts of revenues and expenses during the reporting periods presented.

On an ongoing basis, the group evaluates its estimates using historical experience, consultation with experts and other methods considered reasonable in the particular circumstances. Actual results may differ significantly from the estimates, the effect of which is recognised in the period in which the facts that give rise to the revision become known.

The following paragraphs detail the estimates and judgements the group believes to have the most significant impact on the annual results under IFRS.

Carrying value of property, plant and equipment

The estimated useful economic lives of property, plant and equipment (PPE) are based on management's judgement and experience. When management identifies that actual useful lives differ materially from the estimates used to calculate depreciation, that charge is adjusted prospectively. Due to the significance of PPE investment to the group, variations between actual and estimated useful lives could impact operating results both positively and negatively, although historically few changes to estimated useful lives have been required.

The group is required to evaluate the carrying values of PPE for impairment whenever circumstances indicate, in management's judgement, that the carrying value of such assets may not be recoverable. An impairment review requires management to make subjective judgements concerning the cashflows, growth rates and discount rates of the cash generating units under review.

Revenue recognition

The group recognises revenue generally at the time of delivery and when collection of the resulting receivable is reasonably assured. Should the group consider that the criteria for revenue recognition are not met for a transaction, revenue recognition would be delayed until such time as the transaction becomes fully earned or collectibility is reasonably assured. Payments received in advance of revenue recognition are recorded as deferred income.

United Utilities Water PLC raises bills and recognises revenue in accordance with its entitlement to receive revenue in line with the limits established by the periodic regulatory price review processes. For water and wastewater customers with water meters, the receivable billed is dependent upon the volume supplied including an estimate of the sales value of units supplied between the date of the last meter reading and the year end. Meters are read on a cyclical basis and the group recognises revenue for unbilled amounts based on estimated usage from the last billing through to the end of the financial year. The estimated usage is based on historical data, judgement and assumptions; actual results could differ from these estimates, which would

result in operating revenues being adjusted in the period that the revision to the estimates is determined. For customers who do not have a meter, the receivable billed is dependent upon the rateable value of the property, as assessed by an independent rating officer.

The customers of the electricity distribution business are the electricity supply companies that utilise United Utilities Electricity's distribution network to distribute electricity from generators to the end consumer. The receivable billed is dependent upon the volume of electricity distributed, including estimates of the units distributed to customers. The estimated usage is based on historical data, judgement and assumptions. Operating revenues are gradually adjusted to reflect actual usage in the period over which the meters are read.

For the group's other businesses, revenue is recognised in line with activity and performance, normally using amounts specified in contractual obligations and when recoverability is reasonably assured. In general:

- variable revenues, for example, revenues dependent upon customer volumes in the period, are recognised only when those variable activities are performed;
- performance incentives are recognised in revenue only to the extent that it is probable that the related economic benefits will flow to the group; and
- revenue received in advance of performance is recognised as deferred income. When performance occurs, the deferred income is released and simultaneously reported as revenue.

A breakdown of revenues by segment is contained in note 1 to the consolidated financial statements.

Provision for doubtful receivables

At each balance sheet date, the company and each of its subsidiaries evaluate the recoverability of trade receivables and record provisions for doubtful receivables based on experience. These provisions are based on, amongst other things, customer category and consideration of actual collection history. The actual level of receivables collected may differ from the estimated levels of recovery, which could impact operating results positively or negatively.

Accounting for provisions and contingencies

The group is subject to a number of claims incidental to the normal conduct of its business, relating to and including commercial, contractual and employment matters, which are handled and defended in the ordinary course of business. The group routinely assesses the likelihood of any adverse judgements or outcomes to these matters as well as ranges of probable and reasonably estimated losses. Reasonable estimates involve judgements made by management after considering information including notifications, settlements, estimates performed by independent parties and legal counsel, available facts, identification of other potentially responsible parties and their ability to contribute, and prior experience. A provision is recognised when it is probable that an obligation exists for which a reliable estimate can be made after careful analysis of the individual matter. The required provision may change in the future due to new developments and as additional information becomes available. Matters that either are possible obligations or do not meet the recognition criteria for a provision are disclosed in note 29, unless the possibility of transferring economic benefits is remote.

Retirement benefits

The group operates a number of defined benefit schemes, one of which has a defined contribution section, which are independent of the group's finances. Actuarial valuations of

the schemes are carried out as determined by the trustees at intervals of not more than three years. The pension cost under IAS 19 'Employee Benefits' is assessed in accordance with the advice of a firm of actuaries based on the latest actuarial valuation and assumptions determined by the actuary. The assumptions are based on information supplied to the actuary by the company, supplemented by discussions between the actuary and management. The assumptions are disclosed in note 19. Profit before taxation and net assets are affected by the actuarial assumptions used. These assumptions include investment returns on the schemes' assets, discount rates, pay growth and increases to pensions in payment and deferred pensions and may differ from actual results due to changing market and economic conditions and longer or shorter lives of participants.

Derivatives and borrowings

The group's default treatment is for borrowings to be carried at amortised cost, whilst derivatives are recognised separately on the balance sheet at fair value with movements in those fair values reflected through the income statement. This has the potential to introduce considerable volatility to both the income statement and balance sheet.

Therefore, where feasible, the group has taken advantage of the various provisions under IAS 39 to designate borrowings at fair value through the income statement or equity to reduce this volatility and better represent the economic hedges that exist between the group's borrowings and related derivative contracts.

In order to apply hedge accounting, it must be demonstrated that the derivative has been, and will continue to be, an effective hedge of the hedged risk within the debt item. Changes in the fair value of all derivatives are recognised in the income statement, except for derivatives that are designated and effective in terms of cashflow hedging relationships, in which case the gains and losses are deferred in equity. The group applies the fair value through profit or loss option where the complexity of the swaps means that they are disallowed from being accounted for in a hedge relationship despite there being significant fair value offset between the hedged item and the derivative itself. This area is considered to be of significance due to the magnitude of the group's level of borrowings.

Designated borrowings and derivatives valued at fair value are valued using a discounted cash flow valuation model. This model calculates the zero coupon curves for each currency as at the balance sheet date and uses these to determine future floating cashflows. Future fixed and floating cashflows are discounted using discount factors derived from the same zero coupon curves.

The valuation of debt designated as being within a fair value hedged relationship is calculated based upon the risk being hedged in line with IAS 39. The group looks to hedge cashflows which represents its floating rate exposure, and it is this portion which is used in the valuation model.

The valuation of debt designated at fair value through the profit or loss incorporates an assumed credit spread in the discount factor. Credit spreads are determined based upon indicative pricing data.

Cashflows denominated in foreign currencies are determined and discounted back based upon the zero coupon curve for that currency and then converted into sterling at the spot exchange rate observed at the balance sheet date.

Taxation

Assessing the outcome of uncertain tax positions requires judgements to be made regarding the result of negotiations with, and enquiries from, tax authorities in a number of jurisdictions.

International Financial Reporting Standards

At the date of authorisation of these financial statements, the following relevant standards and interpretations were in issue but not yet effective. The directors anticipate that the group will adopt these standards and interpretations on their effective dates.

The directors anticipate that the adoption of the following standards and interpretations will have a material impact on the group's financial statements:

- IAS 23 Amendment – 'Borrowing Costs'. On 29 March 2007, the International Accounting Standards Board (IASB) issued a revised IAS 23 'Borrowing Costs'. The main change from the previous version is the removal of the option of immediately recognising as an expense borrowing costs that relate to assets that take a substantial period of time to prepare for use or sale. The revised standard is effective for periods commencing on or after 1 January 2009. The group is, therefore, required to capitalise borrowing costs as part of the cost of qualifying assets from 1 April 2009. This amendment has not yet been endorsed by the EU.
- IFRIC 14 'IAS 19 – The Limit on a Defined Benefit Asset, Minimum Funding Requirements and Their Interaction'. On 5 July 2007, the IASB issued IFRIC 14, IAS 19, which provides clarification and guidance on determining the amount of surplus that can be recognised on the balance sheet in relation to a retirement benefit plan. This interpretation is effective for periods commencing on or after 1 January 2008. This interpretation will impact the amount that the group can recognise as a surplus in respect of its post-retirement defined benefit plans. This interpretation has not yet been endorsed by the EU.
- IFRS 3 'Business Combinations', issued in January 2008, is effective for periods commencing on or after 1 July 2009. This has not yet been adopted by the EU.

The directors anticipate that the adoption of the following standards and interpretations will have no material impact on the group's financial statements:

- IAS 32 'Financial Instruments: Presentation' and IAS 1 'Presentation of Financial Statements – Amendments', are effective for periods commencing on or after 1 January 2009. The latter has not yet been adopted by the EU.
- IFRS 8 'Operating Segments', issued in November 2006, is effective for periods commencing on or after 1 January 2009.
- IFRIC 12 'Service Concession Arrangements', issued in November 2006, is effective for periods commencing on or after 1 January 2008.
- IFRIC 13 'Customer Loyalty Programmes'.

Interpretations in issue but not considered relevant to the activities of the group are as follows:

- IFRIC 1 'Changes in Existing Decommissioning, Restoration and Similar Liabilities'.
- IFRIC 2 'Members' Shares in Cooperative Entities and Similar Instruments'.
- IFRIC 5 'Rights to Interests arising from Decommissioning, Restoration and Environmental Rehabilitation Funds'.
- IFRIC 6 'Liabilities Arising from Participating in a Specific Market – Waste Electrical and Electronic Equipment'.
- IFRIC 7 'Applying the Re-statement Approach under IAS 29 Financial Reporting in Hyperinflationary Economies'.

1 Segment reporting

The group's revenue predominantly arises from the provision of services.

For management purposes, the group is organised into two principal operating divisions, being regulated and non-regulated activities. These divisions form the basis on which the primary segment information is reported.

The regulated activities segment (formerly described as United Utilities North West) previously included the results of United Utilities Electricity (UUE). Following the sale of UUE, which principally comprised the group's electricity distribution assets, on 19 December 2007, the results of this business are treated as discontinued and are not included in the continuing operations regulated activities segment (see note 7). The regulated segment therefore only includes the regulated results of United Utilities Water PLC.

The non-regulated activities segment (formerly described as United Utilities Contract Solutions) previously included the contribution from the group's industrial liquid waste and facilities management operations. Following the sale of these operations on 26 October 2007 and 22 February 2008 respectively, these non-regulated activities are also treated as discontinued (see note 7). The non-regulated continuing operations segment therefore relates to the group's utility outsourcing contracts in the United Kingdom and overseas.

In April 2007, the operations and maintenance of UUE's assets was outsourced under an Asset Services Agreement to United Utilities Electricity Services Limited (UUES), a newly incorporated group company. UUES' results from this date are reported within continuing operations as part of the non-regulated activities segment. The results of UUE, including those for the year ended 31 March 2007, when UUE operated its own assets, have been reported in full as discontinued.

In addition, the other activities segment previously included some residual activities associated with UUE, but not related to regulated electricity distribution. These residual activities were sold, along with UUE, and hence have been treated as discontinued and are no longer included in the continuing operations other activities segment. The other activities segment therefore includes the results of United Utilities Property Solutions Limited, the parent company and other group holding companies.

Trading between segments is carried out on an arm's-length basis and transactions are priced accordingly. External market prices are used where available; where not available, margins generated are compared to those generated from external sales and adjusted where necessary.

7 Discontinued operations

In line with its declared strategy of concentrating on its core skills of managing water, wastewater, electricity and gas networks, the group completed the disposal of UUE to North West Electricity Networks Limited on 19 December 2007 for a total enterprise value of £1,782 million.

The group continues to seek opportunities to grow its non-regulated business by applying its core skills where it identifies opportunities to generate additional shareholder value with little impact on the risk profile of the group. In addition to the United Kingdom utility outsourcing market, United Utilities is currently focusing business development resources on specific opportunities in the United Kingdom municipal solid waste treatment market, Australia and the fast-developing Gulf region. In line with this strategy, the group sold its industrial liquid waste and facilities management operations and made its final exit from the telecoms sector during the year. On 26 October 2007, the group sold its industrial liquid waste operations to Group Tradebe for consideration of £3.7 million and on 22 February 2008, the group completed the sale of its facilities management operations to Europa Facility Holdings Limited for consideration of £9.0 million.

The results of UUE, the group's industrial liquid waste and facilities management operations and its share of results from its associate have been disclosed, along with the profit/(loss) on disposal, as discontinued operations in the group's financial statements. The detailed trading results and the profit/(loss) on disposal of each discontinued operation are shown below. Cashflows in relation to discontinued operations are separately disclosed in the group's cashflow statement.

Revenue from the discontinued operations was derived principally from customers located in the United Kingdom, the related net assets are also primarily located in the United Kingdom.

There is no tax charged on the profits resulting from the disposal of the discontinued operations during the year ended 31 March 2008 as these were tax exempt sales of shares.

Goodwill is subject to impairment testing annually, or more frequently if there are indications of impairment. The recoverable amounts of cash generating units (CGUs) are determined from value-in-use calculations that use amounts from approved budgets and plans for the next seven years and extrapolate cashflows for a further five years based on an estimated growth rate. The range of discount rates applied to the cashflow projections were 13.6 to 15.0 per cent (2007: 12.0 per cent). The growth rate used of 2.4 per cent (2007: 2.8 to 5.0 per cent) was based on industry growth rates, which does not exceed the long-term average growth rate.

Goodwill is allocated to the appropriate CGU according to the business segment. Goodwill was held entirely within the non-regulated business segment at both 31 March 2008 and 31 March 2007.

During the year ended 31 March 2007, an impairment of £0.8 million was recognised within discontinued operations in respect of goodwill relating to First Revenue Assurance LLC, a subsidiary of Vertex.

Prepayments and accrued income	230.7	2.9	2.2	235.8

The above analysis in respect of gross trade receivables reconciles to net trade receivables by deduction of the allowance for doubtful receivables of £171.7 million (2007: £147.7 million).

The group manages its regulated bad debt risk by providing against gross trade receivables. This allowance is calculated by reference to customer categories rather than on the age profile of gross debtor balances. It is therefore not possible to age the allowance for doubtful receivables.

Company At 31 March 2008	Aged less than one year £m	Aged between one year and two years £m	Aged greater than two years £m	Carrying value £m
Trade receivables	1.0	1.1	-	2.1
Amounts owed by subsidiary undertakings – gross	389.1	(103.6)	1,010.9	1,296.4
Prepayments and accrued income	11.5	-	-	11.5

Amounts owed by subsidiary undertakings – gross	(29.8)	531.7	486.9	988.8
Prepayments and accrued income	3.1	-	-	3.1

Amounts owed by subsidiary undertakings is a sum of all subsidiary balances where the total of intercompany tax, debt, interest and trade balances is in a net receivable position.

The above analysis in respect of gross amounts owed by subsidiary undertakings reconciles to net amounts due by deduction of the allowance for doubtful receivables of £10.1 million (2007: £nil).

Trade and other receivables is split as follows:

	Group		Company	
	2008 £m	2007 £m	2008 £m	2007 £m
Debtors in respect of unmetered water supplies	74.4	65.0	-	-

Trade and other receivables	484.4	439.8	1,299.9	993.6

The directors consider that the carrying amount of trade and other receivables approximates to their fair value, at both 31 March 2008 and 31 March 2007.

The group's average credit period taken on sales is 33 days (2007: 28 days).

(1) These borrowings were sold or repaid as part of the sale of United Utilities Electricity.

(2) Included within other debt issued by joint ventures are loans totalling £28.5 million (2007: £26.9 million) in cashflow hedge relationships.

Abbreviations used in the above table are defined on page 87.

Borrowings are unsecured. Funding raised in currencies other than sterling is generally swapped to sterling to match funding costs to income and assets.

Finance lease obligations

Finance lease obligations are payable as follows:

Group	Minimum lease payments		Present value of minimum lease payments	
	2008 £m	2007 £m	2008 £m	2007 £m
Amounts payable under finance leases:				
Within one year	12.7	12.0	12.7	12.0
In the second to fifth years inclusive	55.7	54.4	45.6	43.8
After five years	16.0	31.8	10.7	19.5
	84.4	98.2	69.0	75.3
Less future finance charges	(15.4)	(22.9)	-	-
Present value of lease obligations	69.0	75.3	69.0	75.3
Less amount due for settlement within 12 months			(12.7)	(12.0)
Amount due for settlement after 12 months			56.3	63.3

Finance lease obligations relate to operational assets. Interest rates implicit in the minimum lease payments were fixed on completion of the infrastructure build when the primary period of the lease commenced. In addition, contingent rentals are either payable or receivable, which adjusts the minimum lease payments to reflect changes in future market rates of interest. These contingent rentals are recognised as an increase or reduction in the finance expense in the period to which they relate. Contingent rentals recognised as a reduction in finance expense in the year totalled £2.6 million (2007: £3.4 million).

The net finance charge for the year, after adjusting for contingent rentals, was £3.2 million (2007: £2.9 million) (see note 5) and the effective borrowing rate (after adjusting for contingent rentals) for the year was 5.048 per cent (2007: 4.260 per cent). The average lease term is six years (2007: seven years).

In addition, the minimum lease payments are subject to adjustment for future tax changes. Any adjustment to the rentals is recognised as an increase or reduction in the future finance expense over the remaining term of the lease.

The group's obligations under finance leases are unsecured. The directors consider the fair value of the group's lease obligations approximate to their carrying value.

18 Financial instruments

Risk management

All of the group's activities involve analysis, management and, in some cases, acceptance of risk or a combination of risks. The most important types of financial risk are credit risk, liquidity risk and market risk. Market risk includes foreign exchange, interest rate and inflation risks.

The group's risk management policies are designed to identify and analyse these risks, to set appropriate risk limits and controls and to monitor the risks and limits continually by means of reliable and up-to-date systems. The group modifies and enhances its risk management policies and systems to reflect changes in markets and products. The board formulates the high level group risk management policy. The treasury committee is responsible for monitoring the implementation of the policy. The board has approved all of the classes of financial instruments used by the group. The group's treasury function, which is authorised to conduct the day-to-day treasury activities of the group, reports annually to the board and quarterly to the treasury committee.

The group's exposure to risk and its objectives, policies and processes for managing risk and the methods used for measuring risk have not changed since the prior year.

Credit risk

Credit risk is the risk that financial loss arises from the failure of a customer or counterparty to meet its obligations under a contract. It arises principally from trade finance (the supply of services to the public and other businesses) and treasury activities (the investment of essential liquidity). The group has policies and procedures to control and monitor credit risk. The group does not believe it is exposed to any material concentrations of credit risk.

The group looks to manage its risk from trade finance through the effective management of customer relationships. The Water Industry Act 1991 (as amended by the Water Industry Act 1999) prohibits the disconnection of a water supply for non-payment and the limiting of a supply with the intention of enforcing payment for certain premises including domestic dwellings. However, allowance is made by the water regulator in the price limits at each price review for a proportion of debt deemed to be irrecoverable. Concentrations of credit risk with respect to trade receivables are limited due to the group's customer base consisting of a large number of unrelated households and businesses. Due to this, the directors believe there is no further credit risk provision required in excess of the allowance for doubtful receivables (see note 15).

Notes to the consolidated financial statements continued

18 Financial instruments continued

The counterparties in respect of treasury activities consist of financial institutions and other bodies considered to have good credit ratings. Although the group is potentially exposed to credit loss in the event of non-performance by counterparties, such credit risk is measured and controlled through regular review of the credit ratings assigned to the counterparties by credit rating agencies, and by limiting the total amount of exposure to any one party. Management does not expect any counterparty to fail to meet its obligations, and there has not been any such failure during the year, or in the preceding year.

The maximum exposure to credit risk is represented by the carrying amount of each financial asset in the balance sheet. At 31 March the maximum exposure to credit risk for the group and the company was as follows:

	Re-presented Group		Re-presented Company	
	2008 £m	2007 £m	2008 £m	2007 £m
Cash and short-term deposits	1,810.5	2,403.3	663.8	336.7
Trade and other receivables	484.4	439.8	1,299.9	993.6
Investments	155.5	202.4	5,352.3	5,268.3
Derivative financial instruments	143.3	76.2	0.9	18.8
	2,593.7	3,121.7	7,316.9	6,617.4

Cash and short-term deposits and trade and other receivables are measured at amortised cost. Investments and derivative financial instruments are measured at fair value.

Liquidity risk

Liquidity risk is the risk that the group will not have sufficient funds to meet the obligations or commitments arising from its business operations and its financial liabilities. The group manages the liquidity profile of its assets, liabilities and commitments so that cashflows are appropriately balanced and all funding obligations are met when due. The board approves a liquidity framework within which the business operates. Performance against this framework is actively monitored and reported to the board monthly using a headroom figure.

At 31 March the headroom was as follows:

	Group	
	2008 £m	2007 £m
Cash and short-term deposits	1,810.5	2,403.3
Medium-term committed undrawn bank facilities	1,549.6	1,172.2
Short-term debt	(105.3)	(514.2)
Term debt maturing within one year	(760.4)	(983.3)
	2,494.4	2,078.0

Medium-term committed bank facilities excludes £50.0 million (2007: £125.0 million) of facilities expiring within one year.

The group and the company had available committed borrowing facilities as follows:

	Group		Company	
	2008 £m	2007 £m	2008 £m	2007 £m
Expiring within one year	50.0	125.0	25.0	80.0
Expiring after one year but in less than two years	350.0	100.0	300.0	50.0
Expiring after more than two years	1,245.0	1,075.0	720.0	720.0
Total undrawn borrowing facilities	1,645.0	1,300.0	1,045.0	850.0
Offsetting bank guarantees	(45.4)	(2.8)	(45.4)	(2.8)
Undrawn borrowing facilities	1,599.6	1,297.2	999.6	847.2

In addition to the committed facilities available, the group uses its \$1,500.0 million euro-commercial paper programme to help it manage its liquidity position.

Short-term deposits mature within three months. Bank overdrafts are repayable on demand.

Maturity analysis

Concentrations of risk may arise if large cashflows are concentrated within particular time periods. The maturity profile in the following table represents the forecast future contractual principal and interest cashflows in relation to the group's financial liabilities and derivatives on an undiscounted basis. Derivative cashflows have been shown net where there is a contractual agreement to settle on a net basis; otherwise the cashflows are shown gross.

Notes:

- (1) Forecast future cashflows are calculated, where applicable, utilising forward interest rates based on the interest environment at year end and are, therefore, susceptible to changes in market conditions. For index-linked debt it has been assumed that RPI will be 2.65 per cent over the life of each bond.
- (2) The carrying value of debt is calculated following various methods in accordance with IAS 39 and, therefore, this adjustment converts the undiscounted forecast future cashflows to the carrying value of debt in the balance sheet.

Market risk

Market risk is the risk that movements in market rates, including foreign exchange rates, interest rates and inflation will affect the group's profit. The management of market risk is undertaken with risk limits approved by the board.

The group borrows in the major global debt markets in a range of currencies at fixed and floating rates of interest, using derivatives, where appropriate, to generate the desired effective currency profile and interest basis.

The group uses a variety of financial instruments, including derivatives, when raising finance for its operations in order to manage any exposure arising from funding activity.

Interest rate risk

The group's fixed rate borrowings are exposed to a risk of change in their fair value due to changes in interest rates. The group's floating rate borrowings are exposed to a risk of change in cashflows due to changes in interest rates. The group uses interest rate swap contracts and financial futures to hedge these exposures. Investments in equity securities and short-term receivables and payables are not exposed to interest rate risk.

The group's policy is to structure debt in a way that best matches the cashflows generated by its underlying assets. As a UK regulated business, revenues are determined every five years based upon a real cost of capital. The preferred form of debt, therefore, is sterling index-linked debt. Where long-term debt is raised in a fixed rate form, the group will swap to floating rate, at inception over the life of the liability, through the use of interest rate swaps.

Under an interest rate swap, the group agrees with another party to exchange at specific intervals the difference between fixed rate and floating rate interest amounts calculated by reference to an agreed notional principal amount. The notional principal of these instruments reflects the extent of the group's involvement in the instruments, but does not represent its exposure to credit risk, which is assessed by reference to the fair value.

The group's revenues are determined based upon the real cost of capital fixed by the regulator for each five-year regulatory pricing period. The group fixes a material proportion of the floating cost of debt for the duration of the five-year regulatory pricing period, using a second layer of interest rate swaps to match the group's revenue stream.

Annually the group enters into futures contracts to hedge the remaining floating rate exposure not covered by the interest rate swaps for the current year.

Sensitivity analysis

As required by IFRS 7, the sensitivity analysis has been prepared on the basis of the amount of net debt and the interest rate hedge positions in place as at 31 March 2008 and 31 March 2007, respectively. As a result, this analysis relates to the position at the balance sheet date and is not indicative of the years then ended, as these factors would have varied throughout the year.

The following assumptions were made in calculating the interest sensitivity analysis:

- all fair value hedge relationships are fully effective and therefore there is no balance sheet sensitivity to interest rates with regard to the designated debt and swaps;
- all borrowings designated at fair value through profit or loss are effectively hedged by associated swaps and therefore there is no balance sheet sensitivity to interest rates (excluding the effect of accrued interest) with regard to the associated debt and swap instruments;
- the main balance sheet sensitivity to interest rates (excluding the effect of accrued interest) is in relation to the regulatory swaps which swap the majority of the floating rate exposure to fixed rate for the five-year regulatory period;
- the sensitivity of net finance expense to movements in interest rates is calculated on net floating rate exposures on debt and derivatives; and on deposits. The floating leg of a swap or any floating rate debt is treated as not having any interest rate already set, therefore a change in interest rates will have a full twelve-month impact on interest;
- the standard requires that a change in the relevant risk variable be applied to the risk exposures in existence at the balance sheet date, therefore deposits at the balance sheet date are taken and any debt or swaps maturing during the year are disregarded;
- index-linked debt is carried at amortised cost and therefore the balance sheet is not exposed to movements in interest rates. We have assumed that inflation is held constant;
- financial futures contracts entered into by the group to further manage the floating interest rate exposure are excluded from this analysis;
- the analysis excludes the impact of movements in market variables on the carrying value of pensions and other post-retirement obligations;
- management has assessed 100bp as a reasonably possible movement in UK interest rate; and
- all other factors are held constant.

Impact on profit before taxation and equity	2008 £m	Group 2007 £m	2008 £m	Company 2007 £m
100bp increase in interest rate	35.4	93.5	(3.3)	(8.1)
100bp decrease in interest rate	(42.2)	(96.5)	2.6	7.9

Brackets denote a reduction in profit.

Management assesses the net interest exposure and determines whether to mitigate this risk further. In 2008, the group entered into financial futures contracts in order to materially fix its net floating interest rate exposure. For a +/-100bp movement in interest rate, the net impact on finance expense included within the figures above was a reduction in profit of £1.1 million (2007: an increase in profit of £9.7 million). The trading of financial futures aims to reduce this exposure towards £nil in 2008.

Repricing analysis

The following tables categorise the group's borrowings, derivatives and cash deposits on the basis of when they reprice or, if earlier, mature. The repricing analysis demonstrates the group's exposure to floating rate risk prior to the effect of financial futures.

Currency risk

The group's assets are principally sterling denominated; however, the group has access to various international debt capital markets and raises foreign currency denominated debt. Where debt is denominated in a currency which is not sterling, the group's policy is generally to swap the foreign currency denominated cashflows into sterling through the use of foreign currency swaps. As a result, for the majority of foreign currency denominated borrowings, the group has no material exposure to movements in exchange rates.

Under a currency swap, the group agrees with another party to exchange the principal amount of two currencies, together with interest amounts in the two currencies agreed by reference to a specific interest rate basis and principal amount. The principal of these instruments reflects the extent of the group's involvement in the instruments but does not represent its exposure to credit risk, which is assessed by reference to the fair value.

As required by IFRS 7, the foreign exchange rate risk sensitivity analysis has been prepared on the basis of the net debt positions in place as at 31 March 2008 and 31 March 2007, respectively. As a result, this analysis relates to the position at the balance sheet date and is not indicative of the years then ended, as these factors would have varied throughout the year. The following assumptions were made in calculating the sensitivity analysis:

- management has assessed ten per cent to be a reasonably possible movement across all foreign exchange rates;
- as required by IFRS 7, the impact has been assessed for monetary items only;
- the sensitivity to JPY is the result of forward exchange contracts denominated in JPY. In calculating the sensitivity in movements in the GBP/JPY exchange rate, it has been assumed that the theoretical relationship between forward exchange rates, spot exchange rates and the interest rate differential between the two currencies holds true; and
- all other factors are held constant.

Impact on profit before taxation	2008 JPY £m	2007 JPY £m
Ten per cent increase in exchange rates	(2.3)	(0.9)
Ten per cent decrease in exchange rates	2.6	1.0

Brackets denote a reduction in profit.

Currency

JPY Japanese yen

For JPY, the impact on equity is £135.5 million increase for a ten per cent increase in exchange rates (2007: increase £55.2 million) and £165.9 million decrease for a ten per cent decrease in exchange rates (2007: decrease £67.5 million).

Notes to the consolidated financial statements continued

18 Financial instruments continued

The difference between the impact on equity and the impact on profit before taxation is due to the equity impact including movements in JPY denominated forward contracts which are used as hedging instruments in hedges of net investments in foreign operations, but excluding the impact of the retranslation of the investments which the forwards are hedging – due to the investments not being financial assets as defined by IFRS 7. Had the impact of the retranslation of the investments been included in the above analysis, the impact on profit before taxation and impact on equity would have been equal. Sensitivity analyses for United States dollar and euro have not been presented as, due to the swaps in place to hedge the risk, the group has no material exposure to these currencies. The company has no material exposure to currency risk.

Inflation risk

The group's index-linked borrowings and interest liabilities are exposed to a risk of change in the carrying value due to changes in the UK RPI. This form of liability is a good match for the group's regulated assets, which are also linked to RPI due to the revenue price cap imposed by the regulator. This price cap is linked to RPI and limits management's ability to change prices. By matching liabilities to assets, index-linked debt hedges the exposure to changes in RPI and delivers a cashflow benefit, as compensation for the inflation risk is provided through adjustment to the principal rather than in cash. Management looks to issue index-linked debt wherever possible, but has a limited counterparty base willing to invest in these instruments. As such, the ability to issue this form of debt is limited.

The carrying value of index-linked debt held by the group is as follows:

	2008 £m	2007 £m
Index-linked debt	1,533.4	1,396.1

As required by IFRS 7, the sensitivity analysis has been prepared on the basis of the amount of index-linked debt in place as at 31 March 2008 and 31 March 2007, respectively. As a result, this analysis relates to the position at the balance sheet date and is not indicative of the years then ended, as these factors would have varied throughout the year. The following table details the sensitivity of profit before taxation to changes in the RPI, excluding the hedging aspect of the group's regulatory assets, which are not financial assets as defined by IFRS 7:

	2008 £m	2007 £m
Impact on profit before taxation and equity		
One per cent increase in RPI	(15.7)	(14.3)
One per cent decrease in RPI	15.7	14.3

Brackets denote a reduction in profit.

The analysis assumes a one per cent change in RPI having a corresponding one per cent impact on this position over a twelve-month period. It should be noted, however, that there is a time lag by which current RPI changes impact on the profit and loss and the analysis above does not incorporate this factor. The portfolio of index-linked debt is either calculated on a three or eight-month lag basis. Therefore, at the balance sheet date the index-linked interest and principal adjustments impacting the income statement are fixed and based upon either the previous three or eight-month RPI.

The company has no material exposure to inflation risk.

Capital risk management

The group's objective when managing capital is to maintain a capital structure that enables its primary subsidiary, United Utilities Water PLC, to retain a credit rating of A3, which the group believes best mirrors the Water Services Regulation Authority's (Ofwat) assumptions in relation to capital structure.

One of Ofwat's primary duties is to ensure that water companies are able to finance their functions, in particular by securing a reasonable return on their capital. Therefore, mirroring Ofwat's assumptions for credit ratings (and hence capital structure) should safeguard the group's ability to earn a reasonable return on its capital, securing access to finance at a reasonable cost and enabling the group to continue as a going concern in order to provide returns for shareholders, credit investors and benefits for other stakeholders.

In order to maintain a credit rating of A3 the group needs to manage its capital structure with reference to the ratings methodology and measures used by the relevant rating agencies. The ratings methodology is normally based on a number of key ratios (such as Regulatory Capital Value (RCV) gearing and adjusted interest cover) and threshold levels as updated and published from time to time by the rating agencies.

Further detail on the precise measures and methodologies used to assess water companies' credit ratings can be found in the methodology papers published by the rating agencies.

The group's strategy of targeting a credit rating of A3 for United Utilities Water PLC was announced as part of the group's interim results announcement in November 2007. Consistent with this strategy and in order to adjust the RCV gearing levels in line with the rating agencies' tolerance levels for an A3 credit rating, the group announced that it intends to return £1.5 billion to shareholders (with a corresponding reduction in its equity base) during August 2008 and reduce its dividend per share by 30 per cent with effect from February 2009.

In determining fair values, assumptions are made with regard to credit spreads based upon indicative pricing data.

In respect of the total change during the period in the fair value of financial liabilities designated as at fair value through profit or loss for continuing operations of £5.7 million gain (2007: £28.0 million gain), £28.2 million gain (2007: £6.0 million loss) is attributable to changes in credit risk. The cumulative impact of changes in credit spread was £30.6 million profit (2007: £2.4 million profit). The difference between the carrying amount and the amount contracted to settle on maturity was a carrying amount decrease of £41.5 million (2007: a carrying amount increase of £55.1 million).

- (1) Included in the group fair value table for 2007 is a liability relating to a cashflow hedge, the notional and fair value of which is inconsequential. Within the year ended 31 March 2008, a movement in the fair value of the derivative of £1.5 million loss (2007: £2.8 million gain) was recognised and taken to reserves, gross of tax.
- (2) The fair value quoted includes £2.8 million interest receivable (2007: £4.0 million), (company: £2.8 million, 2007: £0.1 million). This interest receivable is also included within the fair value of trade and other receivables. The impact on the total fair value of financial instruments has been removed in the adjustment for accrued interest.
- (3) Fair values quoted include accrued interest of £37.5 million (2007: £61.5 million) in respect of the associated borrowings (company: £13.3 million, 2007: £13.4 million). This accrued interest is also included in the fair value of trade and other payables. The impact on the total fair value of financial instruments has been removed in the adjustment for accrued interest.

19 Retirement benefit obligations

The group participates in a number of pension schemes principally in the United Kingdom. The two major schemes are funded defined benefit schemes – the United Utilities Pension Scheme (UUPS) and the United Utilities Group of the Electricity Supply Pension Scheme (ESPS), both of which are closed to new employees. UUPS also includes a defined contribution section which constitutes less than 0.9 per cent of the total asset value. The assets of these schemes are held in trust funds independent of the group's finances.

The group has re-presented its balance sheet at 31 March 2007 to reflect its participation in the Northern Gas Networks Pension Scheme (NGNPS) on behalf of its subsidiary United Utilities Operations Limited. The directors have determined that the group should apply defined benefit accounting in respect of this scheme. At 31 March 2008, gross pension liabilities in respect of retirement benefit obligations for NGNPS were £200.6 million (2007: £191.5 million). Gross pension assets in respect of NGNPS at 31 March 2008 were £193.7 million (2007: £190.6 million). The group recorded a related deferred tax asset at 31 March 2008 of £1.9 million (2007: £0.3 million) (see note 20). The group does not have the responsibility to fund the net pension deficit and has reflected this by the recognition of an available for sale financial asset within investments of £5.0 million at 31 March 2008 (2007: £0.6 million) (see note 13).

The last actuarial valuations of the UUPS and NGNPS were carried out as at 31 March 2007 and the ESPS was carried out as at 30 November 2007. These valuations have been updated to take account of the requirements of IAS 19 'Employee Benefits' in order to assess the position at 31 March 2008 by projecting forward from the dates of the respective valuations, and have been performed by an independent actuary, Mercer Human Resource Consulting.

On 31 March 2005, the group made lump-sum payments of £216.0 million and £103.5 million to UUPS and ESPS respectively. The payments were in lieu of the estimated company contributions that were expected to have been payable for defined benefit members over the five years from 1 April 2005. Company contributions to UUPS and ESPS will now resume in respect of the defined benefit members from mid 2008. The group will continue to pay contributions in respect of the defined contribution members and insurance premiums. Other payments will be made by the group in accordance with the funding agreements between the trustees and the group. The group will continue to contribute to NGNPS. Overall, the group expects to contribute around £50.0 million of contributions to its schemes in the year ended 31 March 2009.

The group did not make any significant contributions to the UUPS or ESPS schemes for the year ended 31 March 2008. The group contributed £11.2 million to the NGNPS during the year. During the year, the group also contributed to its section of the Essex County Council Pension Fund until the sale of the group's facilities management operations. The group also operates a series of unfunded, unregistered retirement benefit schemes. The cost of the unfunded, unregistered retirement benefit schemes is included in the total pension cost, on a basis consistent with IAS 19 and the assumptions set out below. In accordance with these unfunded arrangements, the group made payments directly to former directors, including lump sum payments, of £0.9 million in the year ended 31 March 2008 (2007: £nil). The group also made contributions to the schemes of £nil (2007: £5.1 million) on behalf of the unfunded, unregistered retirement benefit schemes.

The total defined benefit pension expense for the period was £52.2 million (2007: £11.9 million). A pension obligation of £101.2 million is included in the balance sheet at 31 March 2008 (2007 re-presented: surplus of £61.3 million). Information about the pension arrangements for executive directors is contained in the directors' remuneration report.

The main financial assumptions used by the actuary were as follows:

The current male life expectancies at age 60 underlying the value of the accrued liabilities for the schemes are:

Group and Company	2008 years	2007 years
Retired member	24.9	23.8
Non-retired member	26.0	25.9

Recent studies have shown faster rates of life expectancy improvement than had previously been expected. Studies have also illustrated that mortality rates vary significantly according to the demographics of the schemes' members. These factors have been taken into account in the calculation of the defined benefit obligations of the group.

At 31 March, the fair value of the schemes' assets and liabilities recognised in the balance sheet were as follows:

To develop the expected long-term rate of return on asset assumptions, the group considered the current level of expected returns on risk-free investments, the historical level of the risk premium associated with the other asset classes in which the portfolio is invested and the expectations for future returns of each asset class. The expected return for each asset class was then weighted based on the actual asset allocation to develop the expected long-term rate of return on asset assumptions for the portfolio. The group's actual return on schemes' assets was a loss of £74.2 million (2007: £107.5 million gain) and the company's actual return on the schemes' assets was a loss of £43.8 million (2007: £39.3 million loss).

During the year, the group made £4.0 million (2007: £15.6 million) of contributions to defined contribution schemes, which are included in arriving at operating profit from continuing operations and a further £0.7 million (2007: £5.8 million) which are recognised within discontinued operations. The company made £1.0 million (2007: £0.3 million) of contributions to defined contribution schemes.

Various companies in the United Kingdom electricity business participate in the Electricity Supply Pension Scheme (ESPS), which is an industry-wide defined benefit scheme. The United Utilities Electricity Services Limited (UUES) section of the scheme was created in December 2007 to accommodate the transfer of employees from Electricity North West Limited (formerly United Utilities Electricity Limited) to UUES. At that date, the UUES section of the scheme was fully funded. The group makes cash contributions over the period of the Asset Services Agreement (ASA) between UUES and Electricity North West, which are fully recoverable from Electricity North West under the terms of the ASA. There is no obligation brought forward, or carried forward, for which the group is responsible. However, as the group is the employer, it is required to disclose the gross pension liabilities and assets associated with the scheme.

At 31 March 2008, gross pension liabilities in respect of retirement benefit obligations for the UUES section were £196.3 million (December 2007: £172.8 million). Gross pension assets in respect of the UUES section, at 31 March 2008, were £186.6 million (December 2007: £177.8 million). During the period from 19 December 2007 to 31 March 2008, no cash contributions have been made to the UUES section of the ESPS.

Certain deferred tax assets and liabilities have been offset in accordance with IAS 12 'Income Taxes'.

Following the Chancellor's 2008 Budget the group is forecasting a one-off deferred tax charge in 2008/09 relating to the abolition of industrial buildings allowances. This one-off charge is anticipated to be over £200 million.

During the year ended 31 March 2007, the directors reviewed the liabilities of the group and, after due consideration of their nature, considered it appropriate to reclassify certain liabilities, in respect of potential legal claims against the group and the cost of vacant properties, from accruals to provisions. The total effect increased provisions and decreased accruals and deferred income within trade and other payables by £38.3 million (company: £12.6 million) during the prior year.

The restructuring provision principally relates to severance and programme costs as a result of group reorganisation.

Other provisions principally relate to legal claims against the group and company and represent management's best estimate of the value of settlement and costs. It is estimated that these claims will be settled in more than one year.

The comparatives for the year ended 31 March 2007, for the group have been re-presented to incorporate within equity a category for other reserves to include revaluation of investments and fair value gains/(losses) on cashflow hedges and the associated tax on these items. The amounts were previously disclosed within retained earnings but are now classified within other reserves as the directors believe this provides a fairer presentation of these items. The comparatives for the year ended 31 March 2007 for the group have also been re-presented to reflect its participation in the Northern Gas Networks Pension Scheme. This adjustment had a net £nil impact on retained earnings (see note 19).

The amount of group profit for the financial year dealt with in the company's income statement is £1,311.3 million (2007: £106.7 million loss) after accounting for dividends received from subsidiary undertakings of £1,580.7 million (2007: £48.1 million) and a profit on disposal of its associate of £8.7 million (2007: loss on disposal of Vertex of £100.4 million).

24 Acquisition of subsidiary undertakings

The group made no material acquisitions during the year ended 31 March 2008.

On 30 March 2006, the group and company acquired 100 per cent of the issued share capital of 1st Software Limited for initial cash consideration of £25.3 million and deferred contingent consideration of up to £13.5 million. The group has the right to renew such leases and escalation of rents is via rent reviews over a minimum five-year period.

26 Share-based payments

The company operates several share option schemes. Options are exercisable at a price equal to the average quoted market price of the company's shares on the date of grant. Options are forfeited if the employee leaves the group through resignation or dismissal before the options vest.

Cash-settled share-based payments transactions are measured at fair value. Fair value is remeasured at each balance sheet date and at the date of settlement, with changes in fair value recognised in the profit or loss for the period.

Equity-settled share-based payments are measured at fair value at the date of grant. The fair value determined at the date of grant of equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the group's estimate of shares that will eventually vest.

Fair value is measured by use of both simulation and binomial models according to the relevant measures of performance. The models include adjustments, based on management's best estimate, for the effects of exercise restrictions, behavioural considerations and expected dividend payments. The option life is derived from the models based on these assumptions and other assumptions identified below.

The total expense included within operating profit from continuing operations in respect of equity-settled share-based payments was £2.6 million (2007: £3.9 million) and £nil (2007: £0.1 million) in respect of cash-settled share-based payments.

The United Utilities Employee Share Trust was established by a trust deed executed on 21 August 1996. The Trustees hold the trust fund for the benefit of the beneficiaries (being employees or former employees of the group's companies and their relatives) to the extent determined by the rules of the share schemes. As at 31 March 2008, the Trust held 53,601 (2007: 53,601) shares on trust and these shares will be used to satisfy awards payable under the group's performance share plan. All dividends payable on the shares during the current and prior years were waived.

Further details of the different types of share-based payments are as follows:

Continuing operations

Company share option scheme 1999

The company share option scheme 1999 is for senior executives (excluding, with effect from the introduction of the group's long-term incentive plan, executive directors and other executives participating in that plan and its successor, the performance share plan).

Options under the company share option scheme 1999 are exercisable in a period beginning no earlier than three years (five years for discounted options under the former executive share option scheme, which are no longer granted) and ending no later than ten years from the date of grant.

Employee ShareSave scheme

The employee ShareSave scheme is available to all eligible employees and is based on SAYE savings contracts with options exercisable within a six-month period from the conclusion of a three or five-year period as appropriate from the date of grant. Under the terms and conditions of this scheme, for every month (up to no more than six months) an employee fails to contribute the agreed monthly amount determined under the rules of the scheme the last date exercisable will be delayed by one month.

Performance share plan

The performance share plan (PSP) is for senior executives of the group. Options under the performance share plan are exercisable no earlier than three years from the 31 March preceding the date of grant and have an exercise period of three months. PSP awards are subject to a total shareholder return (TSR) performance condition (a market-based measure of performance).

Matching share award plan

The matching share award plan (MSP) is for senior executives of the group. Options under this scheme are exercisable no earlier than three years from the 31 March preceding the date of grant and have an exercise period of three months. MSP awards are 50 per cent subject to a TSR performance condition (a market-based measure of performance). The remaining 50 per cent of the award is subject to operational performance conditions.

Cash-settled share-based payments

The group issued, to certain employees, share appreciation rights (SARs) that require the group to pay the intrinsic value of the SARs to the employee at the date of exercise. At 31 March 2008, the group has recorded liabilities of £0.2 million (2007: £0.4 million) in respect of SARs.

The fair value of the SARs is determined using the Black-Scholes pricing model using the assumptions detailed below. The group recorded a total credit of £0.2 million (2007: £0.1 million expense) during the year in respect of SARs. At 31 March 2008, the total intrinsic value of the vested SARs was £nil (2007: £nil).

Other share-based payment plan

The main all-employee scheme is the HM Revenue and Customs approved share incentive plan, 'ShareBuy'. This is a flexible way for employees to acquire shares in the company by buying 'partnership' shares up to the lower of £1,500 or ten per cent of taxable pay each year. The funds are deducted from pre-tax pay and passed to an independent trustee who makes a monthly purchase of shares at full market price. Employees can reinvest the dividends on partnership shares to buy more shares under the plan. In 2004, the group introduced 'matching' shares. It gives one free share for every five partnership shares bought. The shares need to be held in trust for a five-year term in order to retain the maximum tax advantages.

Vertex performance share plan (Vertex PSP)

The Vertex PSP was for senior executives of the group. Options under the Vertex PSP are exercisable no earlier than three years from the 31 March preceding the date of grant and have an exercise period of three months. Vertex PSP awards are subject to both a TSR performance condition (a market-based measure of performance) and earnings before interest, taxation and amortisation (EBITA) and return on capital employed (ROCE) performance conditions (non-market based measures of performance).

The Vertex PSP scheme was discontinued in line with the disposal of Vertex on 26 March 2007 (see note 7). Accordingly, all Vertex PSP options will vest no later than 31 March 2009 and the remaining charge is considered to be inconsequential.

For those share option awards granted in the year ended 31 March 2008 and 31 March 2007, the assumptions used in the calculation of the fair values were as follows:

Shareholder information

£1.5 billion return of value to shareholders

As set out in the circular to shareholders published on 6 June 2008, the board intends to return to shareholders a total of £1.5 billion or 170 pence per share. This substantial total return is analysed in the table below:

Proposed return of value to shareholders	£m	Pence per share*
Net equity proceeds from sale**	1,050**	119
Additional return to create more efficient capital structure	450	51
Total proposed return via B share scheme	1,500	170

Notes:

* Based on 880 million ordinary shares in issue at the time the sale was agreed.

** £1,782 million sale price less United Utilities Electricity net debt of £686 million at fair value at the date of disposal, including United Utilities' group debt apportioned to the electricity business and transaction costs of £46 million.

The proposed return of value will be in the form of a redeemable B share scheme providing shareholders (other than shareholders in certain overseas jurisdictions) with a choice of receiving the return as capital or income and the option to spread the return over two financial years.

In order to implement the B share scheme and increase the group's distributable reserves, the company intends to propose a change to its corporate structure. The proposed change, which is subject to court and shareholder approval, involves a scheme of arrangement to introduce a new parent company above United Utilities PLC. The reserves created by the implementation of the new structure will be available for the proposed return of value and the declaration of future dividends.

The scheme of arrangement will involve the new parent company acquiring all of the shares in United Utilities PLC and issuing new shares. This will comprise the issue of new ordinary shares and redeemable B shares to facilitate the return of value. The number of new ordinary shares issued will be reduced from the existing number of ordinary shares, commensurate with the return of value, with a view to aiding comparability of share price and earnings per share before and after the return of value. Following the implementation of the new structure, United Utilities' shareholders will hold shares in the new parent company equivalent to their previous percentage holding in United Utilities PLC. The new structure will be implemented at the same time as the return of value.

The necessary steps to achieve the above corporate restructuring are expected to be completed during the summer, enabling the return of value to take place in August 2008.

Warning to shareholders

Over the last year, many companies have become aware that their shareholders have received unsolicited phone calls or correspondence concerning investment matters. These are typically from overseas based 'brokers' who target UK shareholders offering to sell them what often turn out to be worthless or high risk shares in US or UK investments. Shareholders are advised to be very wary of any unsolicited advice, offers to buy shares at a discount or offers of free company reports.

The Financial Services Authority (FSA) maintains on its website a list of unauthorised overseas firms who are targeting, or have targeted, UK investors and any approach from such organisations should be reported to the FSA so that this list can be kept up to date and any other appropriate action can be considered. If you deal with an unauthorised firm, you would not be eligible to receive payment under the Financial Services Compensation Scheme. More detailed information on this or similar activity can be found on the FSA website. www.moneymadeclear.fsa.gov.uk.

If you have any further questions about your dividend or shareholding, please call the helpline on +44 (0) 871 384 2041 or visit the website. www.unitedutilities.com.

Greenhouse gas emissions: these are measured in metric tonnes of carbon dioxide equivalent. This is derived by multiplying the amount of the gas emitted by its global warming potential (i.e. how much more effect it has compared to carbon dioxide).

Greenhouse gases are six gases that we measure for their contribution to global warming. Each gas has a different impact and these are expressed in terms of carbon dioxide emissions.

For further explanation please visit www.defra.gov.uk.

Wastewater – relative efficiency: as above.

Leakage – rolling annual average leakage: measured in Ml/d or megalitres per day. One megalitre equals one million litres.

Sewer flooding – number of properties on the at-risk register: a register that records properties at risk of experiencing one or two sewer flooding incidents in ten years.

Overall customer satisfaction – water (in response to enquiries): an internal assessment mechanism which measures the level of customer satisfaction in relation to the responses received from enquiries, which involves interviewing customers. Such sample interviews are conducted monthly.

Within this report we have worked to reduce our impact on the environment and have offset carbon emissions that cannot be eliminated.

UNITED UTILITIES PLC

(the 'Company')

(passed 1 July 2008)

At a Court Meeting of the Company duly convened and held on 1 July 2008, the following resolution was duly passed.

THAT the Scheme of Arrangement pursuant to sections 895 to 899 of the Companies Act 2006 dated 6 June 2008 proposed to be made between United Utilities PLC and the holders of the Scheme Shares (as defined in the Scheme of Arrangement), a copy of which has been signed by the Chairman for identification, is approved without modification.

At a General Meeting of the Company duly convened and held on 1 July 2008, the following resolution was duly passed as a special resolution.

THAT:

(A) the directors of the Company be and are hereby authorised to take all such action as they may consider necessary or appropriate for carrying into effect the scheme of arrangement dated 6 June 2008 in its original form or with or subject to any modification, addition or condition approved or imposed by the Court (the 'Scheme') proposed to be made between the Company and the Scheme Shareholders (as defined in the Scheme);

(B) for the purpose of giving effect to the Scheme:

(i) the share capital of the Company be reduced by cancelling and extinguishing the Scheme Shares (as defined in the Scheme);

(ii) forthwith and contingently upon such reduction of capital taking effect:

(a) the authorised share capital of the Company be increased to its former amount by the creation of such number of New United Utilities Shares (as defined in the Scheme) as shall be equal to the aggregate nominal amount of the Scheme Shares cancelled pursuant to paragraph (B)(i) of this resolution; and

(b) the Company shall apply the credit arising in its books of account as a result of such reduction of capital in paying up in full, at par, the number of

New United Utilities Shares created pursuant to paragraph (B) (ii) (a) of this resolution which shall be allotted and issued, credited as fully paid, to United Utilities Group PLC and/or its nominee(s); and

(c) the directors of the Company be and they are hereby generally and unconditionally authorised, for the purposes of section 80 of the Companies Act 1985, to allot the New United Utilities Shares referred to in paragraph (B) (ii) (a) and (b) of this resolution provided that (i) the maximum aggregate nominal amount of the shares which may be allotted hereunder shall be 1,000,000,000; (ii) this authority shall expire on 31 December 2008; and (iii) this authority shall be in addition to any subsisting authority conferred on the directors of the Company pursuant to the said section 80; and

(C) the articles of association of the Company be amended by the adoption and inclusion of the following new article as Article 171.

'171 Shares not otherwise subject to the Scheme

171.1 For the purpose of this article 171, references to the 'Scheme' are to the scheme of arrangement dated 6 June 2008 under Section 899 of the Companies Act 2006 between the company and its members subject to that scheme of arrangement in its original form or with or subject to any modification, addition or condition approved or imposed by the Court. Terms defined in the Scheme shall have the same meanings in this article. References to 'Spouse' include a civil partner under the UK Civil Partnership Act 2004.

171.2 Notwithstanding any other provision of these articles, if any United Utilities Shares are allotted and issued to any person (a 'new member') other than United Utilities Group and/or its nominee(s) after the time at which this article becomes effective they will:

(a) if allotment and issue is prior to the confirmation by the Court of the reduction of capital provided for under the Scheme, be allotted and issued subject to the terms of the Scheme and the new member, and any subsequent holder other than United Utilities Group and/or its nominee(s), shall be bound by the terms of the Scheme; and

(b) if allotment and issue is at or after confirmation by the Court of the reduction of capital provided for under the Scheme they will, provided the Scheme has become effective and that United Utilities Group is a member of the company and subject to article 171.3, be immediately transferred to United Utilities Group and/or its nominee(s) in consideration of and conditional on the issue or transfer to the new member of one United Utilities Group Ordinary Share for every one United Utilities Share so transferred. The United Utilities Group Ordinary Shares issued pursuant to this article 171.2(b) to the new member will be credited as fully paid and will rank equally in all respects with all United Utilities Group Ordinary Shares in issue at the time (other than as regards any dividend or other distribution payable, or return of capital made, by reference to a record time preceding the date of exchange) and be subject to the memorandum and articles of association of United Utilities Group.

171.3 Any new member may, prior to the issue of the United Utilities Shares to him or her pursuant to the exercise of an option or other right under one of the company's employee share schemes, give no less than two business days' written notice to the company of his or her intention to transfer some or all of those shares to his or her Spouse and may, if such notice has been validly given, on such shares being issued to him or her immediately transfer to his or her Spouse any such shares, provided that such shares will then be immediately transferred from that Spouse to United Utilities Group and/or its nominee(s)

pursuant to article 171.2(b) as if the Spouse were a new member.

171.4 The number of United Utilities Group Ordinary Shares to be issued or transferred to the new member under article 171.2(b) may be adjusted by the board in such manner as the auditors may determine to be appropriate on any reorganisation or material alteration of the share capital of either the company or of United Utilities Group or any other return of capital to holders of United Utilities Group Ordinary Shares effected after the Scheme Effective Date, provided always that any fractions of a United Utilities Group Ordinary Share shall be disregarded and shall be aggregated and sold for the benefit of the relevant new members and the proceeds of the sale will be distributed to those members pro rata to their fractional entitlements.

171.5 In order to give effect to any such transfer required by this article 171, the company may appoint any person to execute and deliver as transferor a form of transfer on behalf of the new member in favour of United Utilities Group and/or its nominee(s) and to agree for and on behalf of the new member to become a member of United Utilities Group. Pending the registration of United Utilities Group as a holder of any share to be transferred pursuant to this article 171, United Utilities Group shall be empowered to appoint a person nominated by the directors of the company to act as attorney on behalf of the new member in accordance with such directions as United Utilities Group may give in relation to any dealings with or disposal of such share (or any interest therein), exercising any rights attached thereto or receiving any distribution or other benefit accruing or payable in respect thereof and the registered holder of such share shall exercise all rights attached thereto in accordance with the directions of United Utilities Group but not otherwise.'

CHIEF EXECUTIVE'S REVIEW

Financial performance

United Utilities has delivered a good financial performance in the year ended 31 March 2008. Underlying profit before tax** increased by 17% to £476 million and underlying operating profit** was up by 7% to £571 million.

The group is pre-funded for its capital investment programme through to 2010. We recently improved our liquidity position by enhancing our committed medium-term bank facilities. This provides us with increased flexibility in terms of when and how we raise further debt finance.

Our regulated activities have delivered strong growth in the period with operating profit up 5%, an increase of 8% on an underlying basis**. This growth primarily reflects the regulated price increase which supports high levels of essential investment in our infrastructure. This investment enables us to deliver better service for customers and make environmental improvements.

Capital investment in our regulated water and wastewater operations, including infrastructure renewals expenditure, amounted to £826 million during the year. This is 45% higher than last year as we are now in the peak phase of our current capital expenditure programme. We have agreed a new strategy with Ofwat for processing and disposing of sewage sludge, based on increasing capacity at an existing site rather than developing a new site. Our capital investment programme has been re-profiled to reflect this agreement and we are now broadly in line with regulatory assumptions. This new strategy will reduce our carbon footprint compared with the original solution.

Our business improvement initiatives are delivering cost savings and we remain confident of delivering our regulatory outputs and meeting our efficiency targets across this price review period.

In our non-regulated activities, underlying operating profit** was slightly higher than the prior year reflecting the first time inclusion of the results of the outsourcing contract with Electricity North West. We have a strong order book worth over £6 billion in revenue and we were pleased to announce recently that we have extended the contract with Southern Water through to March 2015. In January we also agreed an 18 month extension to our metering contract with British Gas Trading to June 2010. In addition, we have recently been selected as preferred bidder by Townsville City Council in Australia to undertake its water supply upgrade project.

Sale of United Utilities Electricity, capital structure and £1.5 billion return to shareholders

Following the sale of United Utilities Electricity (UUE) and the review of the group's capital structure, as outlined in our half year results published on 22 November 2007, the Board intends to return to shareholders a total of £1.5 billion or 170 pence per share. We expect to issue a circular that contains further details of the corporate restructuring and the proposed £1.5 billion return on 6 June. The return of value to shareholders is scheduled for August 2008. The Board is targeting a credit rating of A1 for United Utilities Water PLC and, following the return of value, is anticipating a group net debt to regulatory capital value gearing level towards the upper end of Ofwat's range (55% to 65% for the 2005-10 price control period) by 2010.

Operational performance

Improving operational performance is an integral part of our vision to be a world class operator of utility infrastructure. We continue to make good progress. The business outperformed its 2007/08 leakage target of 465 megallitres per day, a tougher target than the previous year, underlining our commitment to higher performance. We are also pleased to report a 60% reduction in the number of serious pollution incidents compared with two years ago. We have continued to remove properties from our sewer flooding register and have

now achieved a net reduction of 32t over the last two years and remain on course to achieve our medium term target of a 50t reduction.

Since 2005, we have closed the operational efficiency gap to the most efficient water companies and this has been reflected in Ofwat's recent relative efficiency assessments. Improving customer service is a key area for us and since 2005 we have markedly improved customer satisfaction levels from below 50t to 73t. We believe there are more improvements to come.

Climate change and sustainability

United Utilities takes a long-term view of its operations and we see mitigation of and adaptation to climate change as key elements of our future plans. We were pleased to note Ofwat's increased focus on climate change and sustainability in its recently published methodology document relating to the next price review.

Our carbon action plan is progressing well through schemes which, in addition to helping the environment, also contribute to improving the efficiency of the group. These schemes include increasing the efficiency of our pumping stations and using our wastewater processes to generate electricity and heat.

Adaptation to climate change and flooding risk is now of increasing importance and will influence investment in the water industry in both the short and long term. We are actively involved in deliberations with our regulators ahead of the next price review and would expect significant levels of capital investment to continue beyond 2010.

Outlook

We are building on the performance improvements already achieved supported by our focus on core skills. The key elements of our strategy are to continue to improve operational performance, successfully execute our capital investment programme and meet our efficiency targets, prepare for the next water price review and deliver our non-regulated growth strategy. The Board expects United Utilities to continue to deliver a strong financial performance over the remainder of this regulatory period, underpinned by allowed price rises to fund substantial investment in our networks.

OPERATING PERFORMANCE

REGULATED ACTIVITIES

Financial highlights

* Regulated revenue increased by 7t to £1,416 million

* Regulated operating profit increased by 5t to £612 million, with underlying operating profit** up 8t

Revenue from regulated activities increased by 7t to £1,416 million, principally as a result of an allowed price increase of 8.3t (including inflation), offset to a small extent by lower water consumption and trade effluent volumes and retrospective claims by unmetered customers. The increase in price supports the investment of significant sums in improving the company's infrastructure which provides vital clean water and wastewater services to customers.

Reported operating profit for the year increased by 5t. After adjusting for a number of one-off items in the current and prior years (as outlined in the

underlying profit measures table), underlying operating profit** for the year increased by 8% to £614 million. This growth in underlying profit primarily reflects the allowed price increase offset by a higher depreciation expense as a consequence of increased capital spend and growth in infrastructure renewals expenditure which was 19% higher than the prior year, in line with the planned profile of the renewals programme.

Capital investment in the period, including £120 million of infrastructure renewals expenditure, was £826 million. This represents a 45% increase in expenditure compared with the prior year and reflects the peak phase of the company's 2005-10 investment programme. A revised strategy on processing and disposing of sewage sludge has recently been agreed with Ofwat. After adjusting for this strategy, cumulative capital expenditure on water and wastewater assets was broadly in line with regulatory assumptions as at 31 March 2008. The business remains on course to meet its regulatory efficiency targets and deliver its outputs across the 2005-10 period.

It is likely that there will be additional investment, mainly in respect of unsatisfactory intermittent discharge (UID) projects that were not part of United Utilities' 2005-10 regulatory contract. A large proportion of this investment, if endorsed by Defra and Ofwat, is expected to fall into the 2010-15 period and be considered as part of the forthcoming price review. United Utilities estimates that the additional funding likely to be required to complete this UID programme, which is designed to meet statutory obligations and deliver environmental benefits, could be in the order of £700 million.

Operational performance

United Utilities has a vision to be a world class operator of utility infrastructure and is targeting an upper quartile position among UK water companies on key operational measures in the medium term. The business continues to upgrade its infrastructure and replaced 650 kilometres of water mains during 2007/08. The company supplies a high quality of drinking water, with a mean zonal compliance water quality performance of 99.94% for the year. United Utilities was ranked first among the UK's water and sewerage companies in 2006/07 by Ofwat for both water and sewerage in its most recent asset serviceability assessment, reflecting the company's long-term stewardship of its assets.

United Utilities is making good progress against its key performance indicators and remains on course to meet its targets:

* Relative efficiency - United Utilities has closed the operational efficiency gap to the most efficient water companies over the last two years. For the water service, the company has narrowed the gap from 16% to 12% and for the wastewater service from 27% to 14% (based on United Utilities' internal estimates). This is reflected in Ofwat's 2006/07 assessment of United Utilities as band B for the water service and band C for the wastewater service and represents a one band improvement for both services over the two-year period.

* Security of water supply - United Utilities outperformed the tougher economic level of leakage rolling target of 465 megalitres per day, as set by Ofwat for 2007/08. This is the second consecutive year that United Utilities has met or outperformed its leakage target. In addition, there were no water restrictions on customers during the year.

* Pollution - one water and eight wastewater Category 1&2 incidents were

recorded in 2007 compared with the base position of two water and 21 wastewater incidents in 2005. The business has again outperformed its target of a 50% reduction in the medium term.

* Sewer flooding - United Utilities continues to remove properties from the sewer flooding register. It has set a medium term target of reducing the number of properties on this register by 50% compared with a start point of 641 properties in 2005/06. This target is based on properties at risk of experiencing at least one sewer flooding incident in ten years. Further progress has been made in 2007/08 with 434 properties now on the register. This represents a 32% reduction over the last two years and the business remains on track to meet its medium term target.

* Overall customer satisfaction - Good progress was made in 2007/08 and 73% of United Utilities' water and wastewater customers surveyed who had made an enquiry were satisfied with the overall service they received. This compares with a start point satisfaction level of less than 50% in 2005. These satisfaction levels are based on a comprehensive independent survey conducted on behalf of United Utilities each month. Going forward, the business has a strong focus on resolving customer queries on the first contact which should improve customer satisfaction and lower the cost of service.

Although United Utilities has delivered real progress, there is more to do in improving operational performance. During 2007/08 there was a higher level of sewer flooding incidents influenced by adverse weather conditions. This together with environmental underperformance at our Fleetwood wastewater treatment works will lead to a lower Overall Performance Assessment (OPA) score from Ofwat for 2007/08, compared with the prior year.

Efficiency initiatives

United Utilities is confident of meeting its regulatory efficiency targets despite increasing cost pressures in areas such as power and property rates.

The company's principal efficiency initiatives include an integrated performance management project, which increases remote operational site management and optimises chemical and power usage, and its asset improvement programme which is improving the efficiency of operational pumps. These schemes are key elements of United Utilities' plan to mitigate its carbon emissions, alongside its combined heat and power assets which recycle energy generated from wastewater treatment processes.

Other key initiatives include a workforce management project, which is designed to improve data systems, deliver more efficient field operations and enhance customer service, and supply chain management which has now been centralised and is delivering procurement economies. There is a strong drive to improve customer service and the business is focusing on reducing the number of customer queries, improving staff productivity, implementing improved cash collection procedures and enhancing the overall customer experience.

Regulatory developments

Strategic Direction Statement

Consistent with its approach to longer term asset planning, in December 2007 United Utilities published its strategic direction statement (SDS) which considers the needs of the North West region out to 2035. The SDS enables the

company to set its plans for the next price review period (2010-15) in this longer term context, develop sustainable solutions and respond to future challenges.

The six key elements identified in the SDS are:

* Responsible long-term stewardship of networks. This includes protecting health and the environment, improving the company's understanding of network performance and investing in research and new technology with clear efficiency and service benefits.

* Listening and responding to the views of customers and other stakeholders. Ensuring that the company's plans meet the changing needs and priorities of customers and other stakeholders and provide good value for money. United Utilities recently undertook a substantial customer survey which identified key areas where customers are willing to pay for improvements including supply interruptions, sewer flooding, odour and reductions in greenhouse gas emissions. Customer priorities can help shape future investment programmes, aligning expenditure to those areas that customers consider most important.

* Making water resources more sustainable and resilient. This means improving both our own and customers' water efficiency, ensuring the company enhances and protects its network and developing water resources to help address increasing drought risk and meet supply and demand requirements.

* An integrated approach to drainage to reduce flooding risk. Storm water volumes entering the sewer system need to be reduced and the government's proposal to transfer responsibility for private sewers from householders to water companies will facilitate a more integrated approach to this challenge.

* Reduce the group's carbon impact. The company aims to halve its greenhouse gases by 2035, supported by achieving energy neutrality for its wastewater operations.

* Bills to rise, on average, no faster than incomes. United Utilities believes that the water and wastewater services it provides are already of good value, but there will be future upward pressure on costs.

The implications of climate change on drought and flood risk are set to feature strongly in United Utilities' plans for decades to come and these implications will be incorporated in the company's forthcoming price review submission. The importance of this is recognised by the government which intends to publish a draft Floods and Water Bill for consultation later in the year.

2009 water price review

United Utilities' preparations for the forthcoming price review are well advanced and the company is in active deliberations with its regulators and other key stakeholders. In March 2008, Ofwat published its methodology for the 2009 water price review which will set price limits for the five year period starting 1 April 2010. In many respects, the methodology is similar to that used in previous price reviews but United Utilities is pleased to note the increased focus on the issues of climate change and sustainability.

Following the outcome of the group's recent capital structure review, the Board

announced that it will be targeting an A3 credit rating for United Utilities Water PLC which it believes best mirrors Ofwat's assumptions for the 2005-10 regulatory period. The board believes this to be an appropriate investment grade rating to allow the company to raise finance to fund its substantial capital investment programmes.

United Utilities believes that Ofwat should ensure that companies can at least maintain an A3 rating and should consider recent developments in the credit markets. The raising of debt finance is particularly important given the likely scale of investment that is still required in the water industry to replace and refurbish ageing infrastructure, address flooding risk and climate change and deliver further statutory environmental obligations and customer priorities. United Utilities believes significant investment will be required during the next price review period (2010-15) and beyond.

United Utilities has been consistent in its approach that the regulator should consider both short and long term economic data in the price review. Sub-prime debt problems and US recession fears have seen higher risk premiums on the cost of debt and difficulties experienced by the monoline credit insurance industry have implications for the raising of further index-linked debt.

NON-REGULATED ACTIVITIES

Financial highlights

* Non-regulated revenue increased by 38% to £348 million

* Non-regulated underlying operating profit** marginally increased to £57 million

Non-regulated revenue in the year increased by 38% to £348 million compared with the prior year, reflecting the contribution from the first year of the electricity distribution outsourcing contract. Underlying operating profit** was slightly higher than last year. This reflects the first time inclusion of contribution from the group's electricity outsourcing activities, partly offset by the expected reduction in contribution from the Southern Water contract where the investment profile peaked in 2005/07. Reported operating profit was down 19% compared with 2005/07 reflecting £12 million of restructuring costs, principally relating to the company's planned efficiency delivery in its gas and electricity outsourcing activities.

Business update

The non-regulated business incorporates the former United Utilities Contract Solutions' activities and applies the core utility skills of the regulated business through outsourcing contracts. United Utilities holds major water and wastewater utility outsourcing contracts, working on behalf of Dwr Cymru Helth Water, Southern Water and Scottish Water and is the leading utility infrastructure outsourcing company in the UK. United Utilities also has three Scottish PFI operations and currently operates in Bulgaria, Estonia, Poland, the Philippines and Australia.

United Utilities holds the only outsourced contracts to operate electricity and gas distribution networks in the UK, working on behalf of Electricity North West and Northern Gas Networks (NGN). United Utilities' electricity outsourcing contract extends through to 2015 and is projected to generate revenues of around £1.5 billion over the eight-year period, with the potential for the contract to be extended by a further five years to 2020. United Utilities also

has a 15% stake in NGN, which provides a steady income stream.

In addition, United Utilities has a meter installation contract with British Gas Trading which was extended to 30 June 2010 earlier this year, building on a good performance on the contract to date. Furthermore, this provides an enhanced revenue stream to United Utilities through rental income from meter ownership. Last month, the group was also awarded a three-year contract to provide the Greater Manchester Waste Disposal Authority with water, electricity and gas connections to 27 sites across the Manchester region. Whilst this is a relatively small contract, it is a useful addition to the contract portfolio.

United Utilities has a strong order book worth over £6 billion in revenue which secures long-term income streams for the group. This was further enhanced through the recent extension of the contract with Southern Water, which now runs through to 31 March 2015. Overall, the business is pleased with its performance across the contract portfolio, reinforced by positive feedback received from its customers during the year.

The group continues to seek opportunities to grow its non-regulated business by applying its core skills where it identifies opportunities to generate additional shareholder value with little impact on the risk profile of the group. In addition to the UK utility outsourcing market, United Utilities is currently focusing business development resources on specific opportunities in the UK municipal solid waste treatment market, Australia and the fast-developing Gulf region.

In line with its business development strategy, United Utilities was recently named preferred bidder for the water supply upgrade project in Townsville, Australia. The project involves upgrading the water facilities in Townsville and designing, building and operating two water treatment plants. Facilities are due to be completed and operational by mid-2010 and upon award, United Utilities expects to hold a 20-year operations and maintenance contract with a minimal equity investment requirement. The project forms part of a AUD\$300 million water and sewerage infrastructure programme in Townsville.

OTHER ACTIVITIES

Operating profit from other activities for the year ended 31 March 2008 was £1 million. This segment includes central costs and the contribution from United Utilities Property Solutions (UUPS). UUPS is the property sales and management business of United Utilities PLC and it made an operating profit of £19 million in the year. It owns a land and property portfolio and is expected to continue to deliver a positive contribution for the next few years, although due to the nature of the business, profits may not follow a smooth profile.

FINANCIAL PERFORMANCE

Revenue and operating profit from continuing operations

Revenue from continuing operations rose 12% to £7,363 million, reflecting the allowed price rise in the regulated business and the first year of the electricity distribution outsourcing contract in the non-regulated business.

Group operating profit from continuing operations increased by 3% to £663 million, with group underlying operating profit from continuing operations** up by 7%. This increase was underpinned by a strong performance in the regulated business.

Investment income and finance expense

Finance expense of £332 million was £74 million higher than in the prior year.

This expense included a £43 million fair value loss on debt and derivative instruments, whereas the prior year included a £26 million fair value gain. This volatility in financing expense reflects the fact that, in order to hedge the interest cost implicit in the regulatory contracts, the group fixes interest rates for the duration of each five-year review period for the majority of its debt using interest rate swaps. IAS 39 limits the use of hedge accounting for these commercial hedges, thereby increasing the potential volatility of the income statement. In addition, the impact of changes in credit spread on debt accounted for at fair value through profit or loss can result in significant additional volatility. However, this volatility has no cash flow impact. Interest expense on swaps (on a pre-IAS 39 basis) and debt under the fair value option was £42 million, £16 million lower than the prior year.

Investment income was £147 million, compared with £118 million in the prior year, partly reflecting the higher level of cash held following the sale of UWE. The underlying cost of net borrowings for continuing operations of £207 million is lower than the prior year and reflects a lower average net debt and a reduction in the group's average net borrowing rate from around 6.34 to 5.84. The group redeemed a Euro1 billion 6.625% bond in November 2007 which has served to reduce the underlying cost of net borrowings, partly offset by the impact of higher inflation on the index-linked debt. However, the higher inflation rates will result in increased allowed revenues and growth in the regulatory capital value of United Utilities Water since both of these are linked to the UK retail price index (RPI).

Profit before taxation

Profit before taxation decreased by 5% to £478 million. Adjusting for the impact of restructuring costs, other one-off items, fair value movements in respect of debt and derivative instruments and the expected short-term interest benefit associated with the cash proceeds from the sale of UWE, underlying profit before taxation** was £476 million, 17% ahead of the year ended 31 March 2007.

Taxation

The current tax charge relating to continuing operations is £89 million and the current tax effective rate is 19% compared with 11% in the prior year. The increase in current tax primarily relates to the fair value movement in derivatives, and is matched by an equal and opposite movement in deferred tax, resulting in no net impact on the total effective rate. Deferred tax has been calculated after taking into account the reduction in the corporation tax rate from 30% to 28% with effect from April 2008. The deferred tax credit on continuing operations arising from the restatement of the opening deferred tax liability is £82 million. The overall deferred tax credit relating to continuing operations is £27 million compared with a deferred tax charge in the prior year of £90 million.

Excluding the impact of the change in corporation tax rate, the total tax charge relating to continuing operations would be £114 million or 30%, compared with a £144 million charge or 29% in the prior year. A total tax charge of £62 million relating to continuing operations has been recognised for the year ended 31 March 2008.

The company is forecasting a one-off deferred tax charge in 2008/09 relating to the abolition of industrial buildings allowances. This one-off adjustment is anticipated to be over £200 million and is likely to result in a significant

increase in the effective tax rate for the year ended 31 March 2009; however the cash impact will be spread over a period of approximately 20 years.

Discontinued operations

UUE, which principally comprised the group's electricity distribution assets, is treated as a discontinued operation in the results for the year ended 31 March 2008. In the period 1 April 2007 to 19 December 2007, profit after tax generated from UUE was £122 million compared with £119 million for the year ended 31 March 2007. The profit on disposal of UUE amounted to £371 million.

United Utilities had previously announced its intention to dispose of its industrial liquid waste operations and facilities management operations in line with its strategy to focus on its core skills. The contribution from these operations has therefore also been treated as discontinued. In 2007/08, the group completed the disposal of its industrial liquid waste operations to Group Tradebe, the parent company of Advanced Waste Solutions Limited, and its facilities management operations were sold to Europa Facility Holdings Limited. In the period 1 April 2007 to 26 October 2007, a loss after tax of £0.1 million was recorded from the group's industrial liquid waste operations compared with a profit after tax of £1.7 million for the year ended 31 March 2007. The facilities management operations made a profit after tax of £1.3 million for the period 1 April 2007 to 22 February 2008 compared with a profit after tax of £3.4 million for the year ended 31 March 2007. These results have all been included within discontinued operations in the consolidated income statement.

United Utilities sold its 22,633 stake in THUS Group plc earlier in the financial year, which completed its exit from the telecoms sector. The £10 billion loss on disposal of the stake in THUS Group plc is treated as an adjustment to the consideration arising on the disposal of Your Communications and so both the loss and the group's share of THUS' results prior to disposal are disclosed as discontinued operations.

Earnings per share

Basic earnings per share relating to continuing operations increased by 161 to 47.3 pence.

Dividends per share and future dividend policy

The Board is proposing a final dividend of 31.47 pence per ordinary share in respect of the year ended 31 March 2008. Taken together with the interim dividend of 15.20 pence per ordinary share, the total proposed dividend for 2007/08 is 46.67 pence per ordinary share. This is an increase of 3.87%, consistent with the group's previous policy of growing dividends in line with inflation (based on the issued share capital prior to the share reduction associated with the £1.5 billion proposed return of value to shareholders, as summarised on page 15 of this announcement). The inflationary increase is based on the RPI element included within the allowed regulated price increase in United Utilities Water for the 2007/08 financial year (i.e. the movement in RPI between November 2005 and November 2006).

The proposed final dividend is expected to be paid on 8 August 2008 to shareholders on the register at the close of business on 27 June 2008. The ex-dividend date for the final dividend is 23 June 2008.

As announced at the group's half year results on 23 November 2007, the Board has outlined a new dividend policy which will apply from 2008/09 to reflect the revised composition and earnings profile of the group. In light of the sale of

UWE and the proposed £1.5 billion return of value to shareholders, the dividend per share from 2008/09 will be reduced by 30% compared with the proposed 2007/08 dividend per share. Thereafter, the group's revised dividend policy is intended to target a sustainable and growing level of dividends. The new target real growth rate of RPI-X will be applied from 2008/10 to the 2008/09 dividend per share.

Cashflow

Cash generated from the group's continuing operations for the year ended 31 March 2008 was £877 million compared with £831 million in the prior year. High levels of capital expenditure continue, principally in the regulated water and wastewater investment programmes. The group's net capital expenditure on property, plant and equipment for 2007/08 was £630 million, excluding infrastructure renewals expenditure which is included as an operating cost in the income statement under IFRS.

Cash and short-term deposits at 31 March 2008 amounted to £1,811 million which, inclusive of medium term committed bank facilities and net of short-term debt, results in total available liquidity of £2,484 million. During the year United Utilities redeemed a Euro1 billion 6.625% bond from existing cash resources primarily generated from issuances of index-linked debt.

The group retains an excellent pre-funded position for its capital investment programmes through to 2010 and enhanced its liquidity further by arranging or extending the maturity dates of £500 million of committed medium-term bank credit facilities since 30 September 2007. Furthermore, the group is in discussions with the European Investment Bank, with which it has a long-standing relationship, regarding a new £400 million term loan for United Utilities Water PLC.

Net debt, including derivatives at 31 March 2008 was £2,903 million, a decrease of £741 million compared with 31 March 2007 (after adjusting for £482 million of net debt relating to discontinued operations which has exited the group). This movement principally reflects the receipt of cash proceeds from the sales of UWE and the group's stake in THUS Group plc, plus cashflow from operating activities, offset by expenditure on the regulated water and wastewater capital investment programmes and payments of interest, tax and dividends. This reduction in net borrowings is expected to be short-term since the group intends to return £1.5 billion to shareholders, as outlined in its 2007/08 half year results announced on 29 November 2007. Details of the return will be published in the circular scheduled to be issued on 6 June, with the return of value expected in August 2008.

Gearing (net borrowings divided by the regulatory capital value) decreased to 39% at 31 March 2008, compared with 52% at 31 March 2007. Following the proposed £1.5 billion return to shareholders, gearing will increase and is expected to move United Utilities towards the upper end of Qwat's assumed range of 55% to 65% by the end of this regulatory review period. The Board will continue to target an A3 credit rating for United Utilities Water PLC.

In the year ended 31 March 2008, the group issued a total of £185 million of long-term, index-linked notes through its multi-issuer euro medium-term note programme. This comprised a £50 million issue at a real interest rate of 1.702% with a 50.5 year maturity, a £100 million issue at a real interest rate of 1.585% with a 50 year maturity and a £35 million issue at a real interest rate of 1.66% with a 30 year maturity.

United Utilities now has index-linked funding totalling approximately £1.5

billion, including indexation of the principal. However as a result of the current economic climate and the uncertainty in the nonline insurance sector, the group sees limited opportunity for further index-linked debt issuance.

The principal amount of the index-linked borrowings is adjusted to track movements in RPI. This form of liability is a good match for the group's regulated assets, which are also linked to RPI, and delivers a cashflow benefit to United Utilities since compensation for inflationary risk is provided via adjustment to the principal rather than through regular cash payments.

Underlying profit

In considering the results for the year, the directors have adjusted the group's statutory measures for fair value movements on debt and derivative instruments and those significant items identified as non-recurring. Operating profit and profit before taxation from continuing operations are reconciled to underlying operating profit from continuing operations and underlying profit before taxation from continuing operations as follows:

Notes

***During the prior year, the group's regulated and non-regulated activities benefited from one-off credits worth £27.6 million and £3.0 million respectively. These credits were in respect of settlement of claims made by the group against contractors and the end of the statutory period of potential claims against the group. Although such claims are a regular occurrence in the ongoing business of United Utilities, these particular claims were unusual in size.

****The interest associated with the cash proceeds from the sale of OUE has been deducted to provide a more representative view of underlying performance. Since the group intends to return £1.5 billion to shareholders later in the year, the cash proceeds from the sale are expected to result in a short-term net debt and interest reduction.

£1.5 billion return of value to shareholders

As a result of the sale of OUE and the review the group's capital structure.

outlined in its half year results published on 29 November 2007, the Board intends to return to shareholders a total of £1.5 billion or 170 pence per share. This substantial total return is analysed in the table below.

Proposed return of value to shareholders	£m	Pence per share ¹
Net equity proceeds from sale ²	1,050	112
Additional return to create more efficient capital structure	450	51
Total proposed return via B share scheme	1,500	170

¹ Based on 880 million ordinary shares in issue at the time the sale was agreed

² £1,782 million sale price less DUK net debt of £686 million at fair value at the date of disposal, including United Utilities' group debt apportioned to the electricity business, and transaction costs of £46 million

The proposed return of value will be in the form of a redeemable B share scheme providing shareholders (other than shareholders in certain overseas jurisdictions) with a choice of receiving the return as capital or income and the option to spread the return over two financial years.

In order to implement the B share scheme and increase the group's distributable reserves, the company intends to propose a change to its corporate structure. The proposed change, which is subject to court and shareholder approval, involves a scheme of arrangement to introduce a new parent company above United Utilities PLC. The reserves created by the implementation of the new structure will be available for the proposed return of value and the declaration of future dividends.

The scheme of arrangement will involve the new parent company acquiring all of the shares in United Utilities PLC and issuing new shares. This will comprise the issue of new ordinary shares and redeemable B shares to facilitate the return of value. The number of new ordinary shares issued will be reduced from the existing number of ordinary shares, commensurate with the return of value, with a view to aiding comparability of share price and earnings per share before and after the return of value. Following the implementation of the new structure, United Utilities' shareholders will hold shares in the new parent company equivalent to their previous percentage holding in United Utilities PLC. The new structure will be implemented at the same time as the return of value.

The necessary steps to achieve the above corporate restructuring are expected to be completed during the summer, enabling the return of value to take place in August 2008.

Indicative return timetable

5 June 2008	Circular expected to be posted to shareholders
June/July 2008	Court meeting and general meeting for scheme of arrangement to create new parent company
25 July 2008	Annual general meeting (AGM)
July/August 2008	Issue of redeemable B shares, listing of new parent

company and issue of new parent company ordinary shares

8 August 2008 Payment of 2007/08 final dividend under current policy

August 2008 Return of value - first option to redeem B shares

February 2009 Payment of 2008/09 interim dividend under new policy

April 2009 Return of value - all remaining B shares redeemed

The circular, which will detail the process and timetable for the return of value and the creation of the new parent company, is expected to be issued on 6 June. The creation of the new parent company will require court approval and shareholder approval at a general meeting. Details of the general meeting will be contained in the circular.

For management purposes, the group is organized into two principal operating divisions, being regulated and non-regulated activities. These divisions form the basis on which the above primary segment information is reported.

The regulated activities segment previously included the results of United Utilities Electricity (UUE). Following the sale of UUE, which principally comprised the group's electricity distribution assets, on 19 December 2007, the results of this business are treated as discontinued and are not included in the continuing operations regulated activities segment (see note 5). The regulated segment therefore only includes the regulated results of United Utilities Water PLC.

The non-regulated activities segment previously included the contribution from the group's industrial liquid waste and facilities management operations. Following the sale of these operations on 26 October 2007 and 22 February 2008 respectively, these non-regulated activities are also treated as discontinued (see note 5). The non-regulated continuing operations segment therefore relates to the group's utility outsourcing contracts in the United Kingdom and overseas.

In April 2007, the operations and maintenance of UWE's assets was outsourced under an Asset Services Agreement to United Utilities Electricity Services Limited (UUES), a newly incorporated group company. UUES' results from this date are reported within continuing operations as part of the non-regulated activities segment. The results of UWE, including those for the year ended 31 March 2007, when UWE operated its own assets, have been reported in full as discontinued.

In addition, the other activities segment previously included some residual activities associated with UWE, but not related to regulated electricity distribution. These residual activities were sold, along with UWE, and hence have been treated as discontinued and are no longer included in the continuing operations other activities segment. The other activities segment therefore includes the results of United Utilities Property Solutions Limited, the parent company and other group holding companies.

The group adopted IFRS 7 'Financial Instruments: Disclosures' during the year ended 31 March 2008 and accordingly the comparative results for the year ended 31 March 2007 have been re-presented to reflect the revised disclosure requirements.

The comparative results for the year ended 31 March 2007 have been re-presented to reflect the disclosure of United Utilities Electricity, the group's industrial liquid waste and facilities management operations and its associate within discontinued operations (see note 5).

The comparatives for the year ended 31 March 2007 have also been re-presented to reflect the removal of the category for current asset investments from the balance sheet. Properties previously held as current asset investments are now classified as inventories as the directors believe this provides a fairer presentation of the nature of these assets.

The comparatives for the year ended 31 March 2007 have also been re-presented to incorporate within equity a category for other reserves to include revaluation of investments and fair value gains/(losses) on cash flow hedges and the associated tax on these items. The amounts were previously disclosed within retained earnings but are now classified within other reserves as the

directors believe this provides a fairer presentation of these items.

The comparatives have been re-presented for retirement benefits to reflect the group's participation in the Northern Gas Networks Pension scheme. The group recorded a related deferred tax asset and investment offsetting the impact on net assets at 31 March 2007 to nil.

As previously reported, the group follows a policy of economic hedging its interest rate and currency exposures, with particular regard to the five-year

regulatory period, including the interest element of swaps and interest on debt under the fair value option within interest payable, as opposed to within fair value (losses)/gains, and adjusting for the reclassification of interest income and expenditure associated with the group's defined benefit pension schemes, would give an economic underlying cost of net borrowings of £207.4 million (2007: £240.7 million):

5. Discontinued operations

In line with its declared strategy of concentrating on its core skills of managing water, wastewater, electricity and gas networks, the group completed the disposal of United Utilities Electricity (UUE) to North West Electricity Networks Limited on 19 December 2007 for a total enterprise value of £1,792 million.

The group continues to seek opportunities to grow its non-regulated business by applying its core skills where it identifies opportunities to generate additional shareholder value with little impact on the risk profile of the group. In addition to the UK utility outsourcing market, United Utilities is currently focusing business development resources on specific opportunities in the UK municipal solid waste treatment market, Australia and the fast-developing Gulf region. In line with this strategy, the group sold its industrial liquid waste and facilities management operations and made its final exit from the telecoms sector during the year. On 26 October 2007, the

group sold its industrial liquid waste operations to Group Tradebe for consideration of £3.7 million and on 22 February 2008, the group completed the sale of its facilities management operations to Europa Facility Holdings Limited for consideration of £9.0 million.

The group sold its 22.63 per cent stake in THUS Group plc on 19 June 2007 for consideration of £75.8 million, which completed United Utilities' exit from the telecoms sector. The sale is treated as an adjustment to consideration arising on the disposal of Your Communications and, as such, both the loss on disposal and the group's share of THUS' results prior to the disposal are disclosed within discontinued operations.

On 26 March 2007, the group sold the Vertex business to a consortium of US-based private equity firms.

The results of UUE, the group's industrial liquid waste and facilities management operations and its share of results from its associate have been disclosed, along with the profit/(loss) on disposal, as discontinued operations in the group's financial statements. The detailed trading results and the profit/(loss) on disposal of each discontinued operation are shown below. Cashflows in relation to discontinued operations are separately disclosed in the group's cashflow statement.

There is no tax charged on the profits resulting from the disposal of the discontinued operations during the year ended 31 March 2008 as these were tax exempt sales of shares.
