## National Bank announces record net income for the third quarter of 2009

## HIGHLIGHTS FOR THE THIRD QUARTER OF 2009:

- Record net income of \$303 million for the third quarter of 2009, up 6% from the \$286 million in net income for the third quarter of 2008
- Diluted earnings per share of \$1.78 for the third quarter, an increase of 3% over the diluted earnings per share of \$1.73 for the same quarter of 2008
- Return on equity of 22.1%
- Tier 1 capital ratio of 10.5% as at July 31, 2009 compared to 9.4% as at October 31, 2008
- (1) The financial reporting method is explained in detail on page 3.

**MONTREAL, August 27, 2009** – National Bank today announced net income of \$303 million for the third quarter of fiscal 2009, up 6% from the \$286 million in net income posted in the third quarter of 2008. Diluted earnings per share were \$1.78 versus \$1.73 for the same quarter of 2008. The results for this quarter include \$1 million in after-tax costs related to holding asset-backed commercial paper (ABCP). In the third quarter of 2008, the Bank had recorded \$24 million in after-tax ABCP-related charges, including a provision for credit losses related to holding ABCP, an ABCP impairment charge, a gain on economic hedge transactions, financing costs, and professional fees. In addition, the Bank had recorded a \$57 million after-tax gain as a result of the merger between the Montréal Exchange Inc. and TSX Group Inc. Excluding specified items, third quarter net income would have been \$304 million compared to \$253 million in the third quarter of 2008, for an increase of 20%. Diluted earnings per share would have been \$1.79, up 18% from \$1.52 in the same quarter of 2008.

## HIGHLIGHTS EXCLUDING SPECIFIED ITEMS FOR THE THIRD QUARTER OF 2009<sup>(1)</sup>:

- Record net income of \$304 million for the third quarter of 2009, up 20% from the \$253 million in net income for the third quarter of 2008
- Diluted earnings per share of \$1.79 for the third quarter of 2009, an increase of 18% over the diluted earnings per share of \$1.52 for the same quarter of 2008
- Return on equity of 21.3%

For the first nine months of fiscal 2009, the Bank's net income stood at \$613 million compared to \$706 million for the same period of 2008. Excluding specified items, all related to the impact of ABCP in the first nine months of fiscal 2009, net income would have stood at \$818 million compared to \$719 million, a 14% increase over the same period of 2008 excluding a gain on the sale of the Bank's subsidiary in Nassau, a gain resulting from the merger between the Montréal Exchange Inc. and TSX Group Inc., and the charges related to holding ABCP. Diluted earnings per share stood at \$3.55 for the first nine months compared to \$4.30 for the same period of 2008. Excluding secified items, diluted earnings per share stood at \$4.83, up \$0.44 or 10% compared to the first nine months of 2008.

"Excellent performance in the Financial Markets segment and the quality of our credit portfolios contributed greatly to these exceptional results for the third quarter of 2009. As planned, the Bank continued to invest significantly in its 'One client, one bank' program, which will enhance the network in the Personal and Commercial and Wealth Management segments, among other things. The Bank also hired new employees in its branch network," stated the Bank's President and Chief Executive Officer, Louis Vachon.

## PERSONAL AND COMMERCIAL

- Total revenues reached \$588 million in the third quarter, up \$20 million or 4% from the same quarter of 2008.
- Significant investments were made to enhance customer service, in particular hiring new staff for the branch network, deploying new e beaking machines, and introducing smart cards.

er kine machines, and introducing smart cards. Surroundew is \$234 million compared to \$133 million in the third uarter of 10.8

The quality of the loan portfolio was maintained despite the economic situation, as reflected by the \$7 million increase in the segment's provision for credit losses, which rose to \$54 million for the quarter.

Consumer and business loan volumes experienced sustained growth, rising 8%, with the strongest growth in consumer loans and loans to small and medium-sized enterprises (SMEs). Business growth was tempered by a narrowing of the segment's net interest margin, which went from 2.65% in the third quarter of 2008 to 2.47% in the third quarter of 2009.

## WEALTH MANAGEMENT

- Total revenues for the quarter were \$187 million compared to \$203 million for the third quarter of 2008, as the results of the Wealth Management segment have been affected by lower transaction volumes, a narrower spread on deposits, and assets under management and administration that remained lower than in the same period of 2008.  Operating expenses fell \$6 million to total \$149 million for the third quarter of 2009.

## **FINANCIAL MARKETS**

- The Financial Markets segment demonstrated excellent performance with quarterly net income of \$167 million compared to \$165 million in the same quarter of 2008, when a net gain of \$57 million had been recorded as a result of the merger between the Montréal Exchange Inc. and TSX Group Inc. Excluding this gain, net income would have experienced growth of 55%. Including non-controlling interest, the segment's total revenues were \$409 million for the quarter versus \$391 million in the third quarter of 2008.
- There was a substantial increase in trading activity revenues, mainly due to the revenues generated from fixed-income securities.
- Revenues from banking services were 50% higher in the third quarter of 2009 than in the same quarter of 2008.

## OTHER

In the third quarter, there was a net loss of \$23 million versus a net loss of \$43 million in the same quarter of 2008, mostly due to substantially higher securitization revenues, which stood at \$95 million, \$35 million more than in the third quarter of 2008. In the third quarter of 2008, a \$29 million recovery of credit losses had been recorded.

## **CAPITAL MANAGEMENT**

- The Tier 1 capital ratio and total capital ratio were 10.5% and 14.1%, respectively, as at July 31, 2009, compared to 9.4% and 13.2% as at October 31, 2008, under Basel II.
- The Other heading includes a net loss of \$1 million attributable to charges related to holding ABCP. In the third quarter of 2008, the Bank had recorded \$24 million in net ABCP-related charges, including a provision for credit losses related to holding ABCP, an ABCP impairment charge, a gain on economic hedge transactions, financing costs, and professional fees.

## FINANCIAL REPORTING METHOD

The Bank uses certain measurements that do not comply with generally accepted accounting principles (GAAP) to assess results. Securities regulators require companies to caution readers that net income and any other measurements adjusted using non-GAAP criteria are not standard under GAAP and cannot be easily compared with similar measurements used by other companies.

All amounts below, except Note (4), are presented net of income taxes:

(1) During the third quarter ended July 31, 2009, the \$1 million cost related to holding ABCP included a loss on economic hedge transactions, ABCP financing costs, and a recovery of professional fees related to the ABCP file. During the quarter ended July 31, 2008, the following items were recognized with respect to ABCP: a \$10 million gain on economic hedge transactions, an \$8 million loss on available-for-sale securities, and \$11 million in ABCP financing costs and professional fees. During the nine months ended July 31, 2009, the following items were recognized related to holding ABCP: a \$129 million loss on available-for-sale securities related to holding ABCP: a \$129 million loss on available-for-sale securities related to ABCP (2008: \$8 million), losses on economic hedge transactions of \$19 million (2008: \$39 million), \$41 million in interest received or receivable on ABCP held (2008: nil) and ABCP

financing costs and professional fees of \$12 million (2008: \$40 million).

(2) During the quarter ended July 31, 2008, a \$15 million provision for credit losses related to holding ABCP was recorded. During the nine months ended July 31, 2009, an \$86 million provision for credit losses related to commitments to extend credit to clients holding ABCP was recorded (2008: \$15 million).

(3) During the quarter ended July 31, 2008, a \$57 million gain on available for-sale securities was recorded as a result of the merger between the Montréal Exchange Inc. and TSX Group Inc.

(4) During the nine months ended July 31, 2008, a net gain of \$32 million was recorded on the sale of the Bank's subsidiary in Nassau, Bahamas.

## CAUTION REGARDING FORWARD-LOOKING STATEMENTS

From time to time, National Bank of Canada (the Bank) makes written and oral forward-looking statements, such as those contained in the "Major Economic Trends and Challenges" section and under the heading "Medium-term objectives" in the "Overview" section of the 2008 Annual Report, in other filings with Canadian securities regulators and in other communications, for the purpose of describing the economic environment in which the Bank will operate during fiscal 2009 and the objectives it has set for itself for that period. All such statements are made pursuant to the "safe harbour" provisions of Canadian and U.S. securities legislation. These forward-looking statements include, among others, statements with respect to the economy (particularly the Canadian and U.S. economies), market changes, observations regarding the Bank's objectives and its strategies for achieving them, Bank projected financial returns and certain risks faced by the Bank. These forward-looking statements are typically identified by future or conditional verbs or words such as "outlook," "believe," "anticipate," "estimate," "project," "expect," "intend," "plan," and words and expressions of similar import.

By their very nature, such forward-looking statements require assumptions to be made and involve inherent risks and uncertainties, both general and specific. Assumptions about the performance of the Canadian and U.S. economies in 2009 and how that will affect the Bank's business are material factors considered in setting the Bank's strategic priorities and objectives and in determining its financial targets, including provisions for credit losses. Given the current financial and credit crisis, fiscal 2009 is characterized by an overall slowdown in the world economy, although some signs of recovery have been observed, and this is affecting the United States, Canada's largest trading partner. The financial crisis may result in lower levels of activity on capital markets and a higher cost of funds for financial institutions. There is a strong possibility that personal and commercial bankruptcies could increase in the coming quarters. In determining its expectations for economic growth, both broadly and in the financial services sector, the Bank primarily considers historical economic data provided by the Canadian and U.S. governments and their agencies. Tax laws in the countries in which the Bank operates, primarily Canada and the United States, are major factors it considers when establishing its effective tax rate. There is significant risk that express or implied projections contained in such statements will not materialize or will not be accurate. A number of factors could cause actual future results, conditions, actions or events to differ materially from the targets, expectations, estimates or intentions expressed in the forward-looking statements. Such differences may be caused by factors, many of which are beyond the Bank's control, which include, but are not limited to, the management of credit, market and liquidity risks; the strength of the Canadian and U.S. economies and the economies of other countries in which the Bank conducts business; the impact of the movement of the Canadian dollar relative to other currencies, particularly the U.S. dollar; the effects of changes in monetary policy, including changes in interest rate policies of the Bank of Canada and the U.S. Federal Reserve; the effects of competition in the markets in which the Bank operates; the impact of changes in the laws and regulations regulating financial services and enforcement thereof (including banking, insurance and securities); judicial proceedings, regulatory proceedings or claims, class actions or other recourses of various nature; the situation with respect to asset-backed commercial paper (ABCP), in particular the realizable value of underlying assets; the Bank's ability to obtain accurate and complete information from or on behalf of its clients or counterparties; the Bank's ability to successfully realign its organization, resources and processes; its ability to complete strategic acquisitions and integrate them successfully; changes in the accounting policies and methods the Bank uses to report its financial condition, including uncertainties associated with critical accounting assumptions and estimates; the Bank's ability to recruit and retain key officers; operational risks, including risks related to the Bank's reliance on third parties to provide components of the Bank's business as well as other factors that may affect future results, including changes in trade policies, timely development of new products and services, changes in estimates relating to reserves, changes in tax laws, technological changes, unexpected changes in consumer spending and saving habits; natural disasters; the possible impact on the business from public health emergencies, conflicts, other international events and other developments, including those relating to the war on terrorism; and the Bank's success in anticipating and managing the foregoing risks. A substantial amount of the Bank's business involves making loans or otherwise committing resources to specific companies, industries or countries. Unforeseen events affecting such borrowers, industries or countries could have a material adverse effect on the Bank's financial results, businesses, financial condition, or liquidity.

The foregoing list of risk factors is not exhaustive. Additional information about these factors can be found under "Risk Management" and "Factors That Could Affect Future Results" in the 2008 Annual Report. Investors and others who base themselves on the Bank's forward-looking statements should carefully consider the above factors as well as the uncertainties they represent and the risk they entail. The Bank also cautions readers not to place undue reliance on these forward-looking statements. Except as required by law, the Bank does not undertake to update any forward-looking statements, whether written or oral, that may be made from time to time, by it or on its behalf.

The forward-looking information contained in this document is presented for the purpose of interpreting the information contained herein and may not be appropriate for other purposes.

## FINANCIAL CONDITION AND OPERATING RESULTS

August 26, 2009 – The following text presents Management's discussion and analysis of the Bank's financial condition and operating results. This analysis was prepared in accordance with the requirements set out in National Instrument 51-102, *Continuous Disclosure Obligations*, of the Canadian Securities Administrators and is based on the unaudited interim consolidated financial statements prepared for the third quarter and the nine-month period ended July 31, 2009. Additional information about National Bank of Canada, including the Annual Information Form, can be obtained from the SEDAR website (www.sedar.com) and the Bank's website (www.nbc.ca).

## Analysis of Results

#### **CONSOLIDATED RESULTS**

National Bank reported net income of \$303 million for the third quarter of fiscal 2009, up 6% from the \$286 million in net income posted in the third quarter of 2008. Diluted earnings per share were \$1.78 versus \$1.73 for the same quarter of 2008. The results for this quarter include \$1 million in after-tax costs related to holding asset-backed commercial paper (ABCP). In the third quarter of 2008, the Bank had recorded \$24 million in after-tax ABCP-related charges, including a provision for credit losses related to holding ABCP, an ABCP impairment charge, a gain on economic hedge transactions, financing costs, and professional fees. In addition, the Bank had recorded a \$57 million after-tax gain as a result of the merger between the Montréal Exchange Inc. and TSX Group Inc. Excluding specified items, third quarter net income would have been \$304 million compared to \$253 million in the third quarter of 2008, for an increase of 20%. Diluted earnings per share would have been \$1.79, up 18% from \$1.52 in the same quarter of 2008.

The Bank's net income for the first nine months of the fiscal year stood at \$613 million compared to \$706 million for the same period of 2008. Excluding specified items, all related to the impact of ABCP in the first nine months of fiscal 2009, net income would have stood at \$818 million compared to \$719 million, a 14% increase over the same period of 2008 excluding a gain on the sale of the Bank's subsidiary in Nassau, a gain resulting from the merger between the Montréal Exchange Inc. and TSX Group Inc., and charges related to holding ABCP. Diluted earnings per share stood at \$3.55 for the first nine months of 2009 compared to \$4.30 for the same period of 2008. Excluding specified items, diluted earnings per share stood at \$4.83, up \$0.44 or 10% compared to the first nine months of 2008.

Return on common shareholders' equity was 22.1% in the third quarter of 2009 compared to 23.7% in the same quarter of 2008. Excluding specified items, return on common shareholders' equity would have been 21.3% in the third quarter of 2009 compared to 20.9% in the same quarter of 2008. For the first nine months of fiscal 2009, it stood at 15.2% compared to 20.4% in the same period of 2008. Excluding specified items, it would have been 20.0% for the first nine months of 2009.

#### **Total Revenues**

For the third quarter of 2009, the Bank's total revenues amounted to \$1,132 million compared to \$1,057 million in the third quarter of 2008. The increase was mainly due to an increase in other income owing to higher securitization revenues, trading revenues and lending fees.

Net interest income for the quarter totalled \$454 million versus \$446 million for the third quarter of 2008. Net interest income at Personal and Commercial advanced \$2 million to total \$353 million for the quarter. This growth came from the solid increase in loan volumes, especially consumer loans and loans to small and medium-sized enterprises (SMEs), and was tempered by a narrowing of the net interest margin, which went from 2.65% in the third quarter of 2008 and 2.53% in the second quarter of 2009 to 2.47% in the third quarter of 2009. The decrease was mainly due to the smaller spread on deposits. Net interest income at Wealth Management fell \$5 million, mainly due to the narrower spread on deposits. In the Financial Markets segment, the \$23 million increase in net interest income was mainly due to the trading revenues recorded in net interest income that increased by \$17 million compared to the third quarter of 2008.

Other income for the third quarter stood at \$678 million versus \$611 million for the same quarter of 2008. Trading revenues recorded as other income totalled \$41 million in the third quarter of 2009 compared to a loss of \$20 million in the third quarter of 2008. The net gains on available-for-sale securities reached \$31 million compared to net gains of \$86 million for the year-earlier quarter. This decrease reflects the gain resulting from the merger between the Montréal Exchange Inc. and TSX Group Inc. Underwriting and advisory fees totalled \$83 million for the quarter, up from \$74 million a year earlier, while securities brokerage commissions decreased \$4 million to total \$56 million. Securitization revenues totalled \$95 million versus \$60 million for the third quarter of 2008, owing to a higher volume of new securitizations and the favourable rate spread. Trust service and mutual fund fees were down \$8 million to total \$84 million due to the decline in value of assets under management and administration.

For the first nine months of fiscal 2009, total revenues amounted to \$3,039 million, as against \$2,872 million for the same period of 2008. Net interest income rose \$268 million to total \$1,501 million in the first nine months of 2009. Net interest income at Personal and Commercial advanced \$18 million to \$1,055 million for the nine-month period, mainly due to the growth in loans and deposits. The increase in net interest income from trading activities contributed up to \$249 million. Other income in the first nine months of fiscal 2009 totalled \$1,538 million versus \$1,639 million for the same nine-month period of 2008. Net losses on available-for-sale securities reached \$117 million versus net gains of \$122 million for the first nine months of fiscal 2008. This change was in large part due to charges attributable to the adjustment in the value of ABCP recorded during the first nine months of 2009, offset by a \$66 million decrease in trading losses recorded in other income which totalled \$35 million and securitization revenues which reached \$293 million, up \$129 million compared to the year-earlier period. Underwriting and advisory fees declined by \$15 million to total \$248 million, securities brokerage commissions fell \$18 million to total \$162 million, and trust service and mutual fund fees were down \$26 million to total \$239 million. These decreases are explained by lower transaction volumes, and by assets under management and administration that remained lower than in the same period of 2008.

6

#### **Operating Expenses**

In the third quarter of 2009, operating expenses totalled \$663 million, an increase of \$4 million or 1% over the year-earlier quarter. This variance was mainly due to higher salaries and staff benefits offset by a decrease in the professional fees that were incurred in 2008 for the Bank's business process review. The efficiency ratio was 58% for the quarter compared to 61% for the third quarter of 2008.

For the first nine months of fiscal 2009, operating expenses rose \$37 million, reaching \$1,962 million. This increase was mainly due to an increase in variable compensation of \$21 million and in other expenses of \$32 million, \$5 million of which came from the increase in tax on capital and salaries. Professional fees decreased \$27 million due to the business process review, technology development and ABCP-related charges recorded in 2008.

#### **Provision for Credit Losses**

In the third quarter of 2009, the Bank recorded a \$46 million provision for credit losses, \$16 million more than during the same quarter of 2008. This increase was mainly due to losses of \$10 million in personal loans and credit card receivables and to losses of \$8 million in corporate loans. The increase was partially offset by a \$3 million decrease in losses on credit granted to medium-sized businesses compared to the same quarter of 2008. During the third quarter of 2008, the Bank had recorded a \$23 million general allowance on ABCP-secured loans and a \$29 million recovery of corporate credit losses.

For the first nine months ended July 31, 2009, the Bank recorded a provision for credit losses of \$251 million, an increase of \$156 million compared to the same nine-month period of 2008. This variance was attributable to a \$126 million allowance related to commitments to extend credit to clients holding ABCP recorded in the first quarter of 2009, to a \$27 million increase in the provision for personal loan and credit card losses, and a \$20 million increase in the provision for losses on corporate loans.

As at July 31, 2009, gross impaired loans totalled \$380 million, a \$73 million increase since October 31, 2008, due mainly to corporate and personal loans. As at July 31, 2009, allowances for credit losses exceeded gross impaired loans by \$114 million versus \$162 million as at October 31, 2008.

#### **Income Taxes**

The income tax expense for the third quarter of 2009 was \$110 million compared to \$95 million in the same quarter of 2008. The tax rate for the third quarter of 2009 was 26%, unchanged from that of third quarter 2008. For the first nine months of fiscal 2009, the income tax expense was \$183 million, for an effective tax rate of 22%. For the same nine-month period in 2008, the income tax expense was \$190 million and the effective tax rate was also 22%.

## **Results by Segment**

#### Personal and Commercial

The Personal and Commercial segment contributed \$251 million in the third quarter of 2009, an increase of \$6 million over the same quarter of 2008. Net income posted a slight 1% increase, totalling \$134 million for the quarter, and total revenues advanced \$20 million to reach \$588 million. Loan volumes at Personal and Commercial rose 8% between the third quarter of 2008 and the third quarter of 2009. This growth was tempered by a narrowing of the net interest margin, which was mainly due to smaller spreads on deposits.

Total revenues at Personal Banking rose \$11 million to total \$396 million, mainly due to growth in fees collected on loan prepayments. Loan and deposit volumes posted strong growth that was offset by a narrowing of net interest margins. The reduced net interest margin on deposits was partially offset by a wider net interest margin on credit cards. At Commercial Banking, total revenues rose \$9 million and were mostly generated by greater financing activity among clients.

Operating expenses for Personal and Commercial amounted to \$337 million in the third quarter of 2009, up \$14 million from the same quarter of 2008, mainly due to substantial investments in sales force improvements, including branch hirings, deployments of new banking machines and the introduction of smart cards. The efficiency ratio remained unchanged at 57% for the third quarter of 2009 compared to the same quarter of 2008. The segment's provision for credit losses was up \$7 million to total \$54 million, mainly because of higher credit losses on personal loans and credit card receivables, tempered by lower losses on credit granted to enterprises.

For the first nine months of fiscal 2009, net income for the Personal and Commercial segment stood at \$392 million, a \$10 million increase over the \$382 million in net income recorded during the same nine months in 2008. Total revenues for the segment rose 3% to total \$1,707 million, mainly due to higher loan and deposit volumes. Total revenues at Personal Banking grew \$23 million or 2%. Total revenues at Commercial Banking rose \$23 million or 4%. The segment's provision for credit losses was \$14 million higher than in the same nine-month period of 2008. This increase was attributable to losses of \$18 million on credit card receivables and \$9 million on personal loans, offset by a \$13 million decrease in Commercial Banking losses. The efficiency ratio for the first nine months of 2009 was 58%, unchanged from the same nine-month period of 2008.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS FINANCIAL CONDITION AND OPERATING RESULTS (CONT.)

## Wealth Management

Net income for the Wealth Management segment totalled \$25 million in the third quarter of 2009, down \$6 million from \$31 million in the same quarter of 2008. Total revenues for the segment stood at \$187 million, as against \$203 million in the third quarter of 2008. This decrease was due to lower transaction volume, the narrower spread on deposits, and assets under management and administration that remained lower than in the same period of 2008. Operating expenses fell by \$6 million to stand at \$149 million in the third quarter of 2009, mainly due to a decrease in variable compensation.

For the first nine months of fiscal 2009, net income for Wealth Management totalled \$89 million compared to \$108 million in the same period of 2008, for a decrease that is explained by the same factors provided for the quarter. Total revenues stood at \$566 million, as against \$621 million for the first nine months of 2008. Operating expenses amounted to \$435 million, a \$19 million improvement when compared to the \$454 million in operating expenses recorded during the first nine months of 2008.

## **Financial Markets**

The Financial Markets segment posted net income of \$167 million in the third quarter of 2009, up \$2 million from the same quarter of 2008. Total revenues for the segment stood at \$404 million compared to \$362 million in the third quarter of 2008. Including non-controlling interest, third quarter revenues totalled \$409 million compared to \$391 million for the same quarter of 2008. Trading activity revenues were \$166 million for the quarter, up \$72 million from the third quarter of 2008, mainly due to higher revenues from fixed-income securities. The \$65 million decrease in gains on availablefor-sale securities reflects the gain recorded as a result of the merger between the Montréal Exchange Inc. and TSX Group Inc. recorded in the third guarter of 2008. Revenues from banking services increased \$22 million from the same quarter of 2008. The decline in other revenues was partially due to a \$25 million lower contribution from Maple Financial Group Inc. Third quarter operating expenses stood at \$163 million, up \$4 million from the year-earlier quarter due to the increase in variable compensation. For the third quarter of 2009, the segment recorded a provision for credit losses of \$8 million, owing primarily to certain manufacturing sector loans, whereas no charge had been recorded in 2008.

For the first nine months of fiscal 2009, net income for the segment totalled \$363 million, up \$44 million from the same period in 2008. Total revenues stood at \$1,018 million compared to \$859 million for the first nine months of 2008. Including non-controlling interest related to trading activities, revenues from Financial Markets totalled \$1,032 million, up \$96 million from the same period of 2008. This increase consisted mainly of higher trading activity revenues from fixed-income securities and higher revenues from banking services, partially offset by lower financial market fees, gains on securities as explained above, and other revenues. Operating expenses stood at \$502 million, up \$18 million when compared to the first nine months of fiscal 2008, due mainly to variable compensation. For the first nine months of 2009, the segment recorded a provision for credit losses of \$18 million versus recoveries of \$2 million recorded in the same period of 2008.

(2) Excluding non-controlling interest

#### Other

The Other heading of segment results posted a net loss of \$23 million in the third quarter of 2009 versus a net loss of \$43 million in the same quarter of 2008. Charges related to holding ABCP were negligible in the third quarter of 2009, whereas the 2008 results included a \$24 million net loss related to ABCP. This loss consisted of a provision for credit losses related to holding ABCP, an ABCP impairment charge, a gain on economic hedge transactions. financing costs, and professional fees. Excluding specified items, the third quarter net loss for the Other heading was \$22 million compared to a net loss of \$19 million for the third guarter of 2008. This difference was mainly attributable to the significant increase in revenues from securitization activities and to the decrease in technology expenses offset by the recovery of corporate credit losses recorded in the third guarter of 2008. For the first nine months of 2009, the net loss was \$231 million compared to a net loss of \$103 million in the same period one year earlier. This was mainly due to ABCP-related charges, including the cost of holding ABCP and the charge related to commitments to extend credit to clients holding ABCP offset by higher securitization revenues in 2009. Excluding specified items, the net loss for the first nine months of fiscal 2009 was \$26 million compared to a \$33 million net loss for the same period of 2008.

## **Cash Flows**

Due to the very nature of the Bank's business, most of its revenues and expenses are cash items. Moreover, certain activities, such as trading activities, generate significant cash flow movements that can impact several asset and liability items such as held-for-trading securities, securities sold short, or securities sold under repurchase agreements.

For the third quarter of 2009, cash and cash equivalents decreased \$1.3 billion compared to a \$0.8 billion decrease in the year-earlier quarter. As at July 31, 2009, cash and cash equivalents totalled \$1.9 billion versus \$2.9 billion a year earlier.

Operating activities in the third quarter required \$5.6 billion in cash due to a \$2.9 billion increase in held-for-trading securities, to a \$2.0 billion change in other items explained by a decrease in other liabilities consisting mainly of obligations other than deposits, and to a \$1.4 billion decrease in amounts due to clients, dealers and brokers. During the same quarter of 2008, operating activities required \$1.0 billion in cash, mainly due to a \$0.7 billion increase in held-for-trading securities and to a \$2.2 billion decrease in amounts due to clients, dealers and brokers offset by a \$1.7 billion decrease in amounts due from clients, dealers and brokers.

Financing activities in the third quarter of 2009 generated cash inflows of \$2.0 billion due to a \$2.3 billion increase in obligations related to securities sold short and a \$3.5 billion increase in securities sold under repurchase agreements offset by a \$3.6 billion decrease in deposits. During the same quarter of 2008, financing activities required \$0.3 billion in cash due to a \$1.7 billion decrease in deposits and a \$1.3 billion decrease in securities sold under repurchase agreements offset by insulation decrease in securities and debentures for \$0.9 billion and a \$1.5 billion increase in obligations related to securities sold short.

Lastly, investing activities generated cash inflows of \$2.3 billion during the third quarter of 2009, owing to a \$1.9 billion decrease in available-for-sale securities, a \$1.8 billion decrease in securities purchased under reverse repurchase agreements, and \$1.0 billion in proceeds from securitization of new assets and other transfers of receivables offset by a \$2.4 billion increase in loans. During the same quarter of 2008, investing activities generated cash inflows of \$0.5 billion due to a \$2.0 billion decrease in securities purchased under reverse repurchase agreements offset by a \$1.8 billion for the same quarter of 2008, investing activities generated cash inflows of \$0.5 billion due to a \$2.0 billion decrease in securities purchased under reverse repurchase agreements offset by a \$1.8 billion increase in loans.

## **Balance Sheet**

As at July 31, 2009, the Bank had total assets of \$134.6 billion compared to \$129.3 billion as at October 31, 2008. Loan and acceptance balances increased \$1.7 billion despite the increase in securitized loans. In addition, cash, deposits with financial institutions, securities, and securities purchased under reverse repurchase agreements increased \$6.2 billion owing to an increase in securities issued and guaranteed by the Government of Canada. The table below presents the main portfolios:

#### **Average Monthly Volumes**

(millions of dollars)

	July 2009	October 2008	July 2008
Loans and acceptances <sup>(1)</sup>		nin Northeanna	
Residential mortgages	24,298	23,930	23,952
Consumer loans	15,052	13,410	12,490
Credit card receivables	1,838	1,846	1,826
SME loans	15,720	14,891	14,528
Corporate loans	7,216	7,098	6,675
	64,124	61,175	59,471
Deposits			
Personal (balance)	34,539	33,098	32,777
Off-balance sheet personal			
savings (balance)	69,029	64,109	73,359
Business	13,707	13,666	13,395
20.00			

(1) Including securitized assets

Loans and acceptances rose \$2.9 billion, or 5%, from October 31, 2008, for total volumes of \$64.1 billion as at July 31, 2009. This growth was mainly attributable to an increase in consumer loans, which were up 12% from October 31, 2008 to total \$15.1 billion due to higher volumes of secured home equity lines of credit. Corporate loans were up 2% from October 31, 2008 to stand at \$7.2 billion as at July 31, 2009. Year over year, residential mortgage loan volumes increased 1% to total \$24.3 billion as at July 31, 2009. Consumer loan volumes grew 21% from July 31, 2008, and SME loan volumes increased \$1.2 billion, or 8%, year over year to total \$15.7 billion as at July 31, 2009. Corporate loans were up 8% from the same period last year.

Personal deposits totalled \$34.5 billion as at July 31, 2009, up \$1.4 billion or 4% from October 31, 2008. Off-balance sheet personal savings administered by the Bank totalled \$69.0 billion at the end of the third quarter of 2009, an increase of 8% from October 31, 2008. Business deposits remained relatively stable and totalled \$13.7 billion as at July 31, 2009. Year over year, personal deposits increased \$1.8 billion, or 5%, while off-balance sheet personal savings administered by the Bank were down \$4.3 billion. The decrease was mainly attributable to the decline in the fair value of assets under management and administration and to the transfer of assets to traditional banking products. Lastly, business deposits advanced slightly from one year earlier.

As at July 31, 2009, the Bank's shareholders' equity was \$6.3 billion compared to \$5.5 billion as at October 31, 2008. This increase is partially explained by the issuance of Series 24 and 26 First Preferred Shares for an amount of \$315 million. Moreover, accumulated other comprehensive income amounted to \$86 million as at July 31, 2009 versus a loss of \$62 million as at October 31, 2008. This change was attributable to \$34 million in gains on derivative financial instruments designated as cash flow hedges and \$130 million in unrealized gains on available-for-sale financial assets, net of fair value hedge transactions.

#### Shares and stock options as at July 31, 2009

	Number of shares	\$ million

### MASTER ASSET VEHICLES

On August 20, 2007, the Bank announced a number of measures to relieve its clients from the uncertainties related to the liquidity problem in the asset-backed commercial paper (ABCP) market. During the fourth quarter of 2007, the Bank purchased \$2,138 million of ABCP, issued by 26 trusts, including \$1,084 million from mutual funds and \$559 million from pooled funds administered by the Bank as well as the ABCP held by its individual retail clients and certain other clients. This amount was in addition to the \$156 million of ABCP already held by the Bank.

On December 23, 2007, the Pan-Canadian Investors Committee for Third-Party Structured ABCP approved an agreement in principle to restructure the affected series of ABCP issued by 20 trusts. On December 24, 2008, an agreement was reached with all key stakeholders, including the governments of Canada, Quebec, Ontario and Alberta, regarding the restructuring of \$32 billion of third-party ABCP. The restructuring plan was implemented on January 21, 2009.

### **Restructuring Plan**

The affected ABCP has been replaced with new longer-term floating rate notes with maturities designed to more closely match the maturities of the underlying assets, with pooling of certain assets as well as the establishment of margin funding facilities to support any collateral calls that may occur in the future.

The series of affected ABCP, supported in whole or in part by synthetic assets, have been pooled into the Master Asset Vehicles (I and II) as follows:

- Master Asset Vehicle I (MAV I) is a vehicle for investors who have elected to commit their pro rata share of a margin funding facility associated with their underlying assets.
- Master Asset Vehicle II (MAV II) is a vehicle for investors who have elected to commit less than or none of their pro rata share of a margin funding facility, in which case third parties will fund the remaining portion.

The margin funding facilities in MAV I and MAV II are provided by third party lenders such as Canadian banks, asset providers, noteholders and the governments of Canada, Quebec, Ontario and Alberta. The facilities provided by the governments rank senior to all other margin funding facilities and, in the event of margin calls, they would be the last in and the first out. These facilities are designed to reduce the risk that the vehicles will not be able to meet margin calls if future circumstances warrant them. The Bank committed to contribute \$911 million to these margin funding facilities. As at July 31, 2009, the margin funding facility had not been drawn.

The key parties to the restructuring have also agreed to enhance the transaction by including an 18-month post-closing moratorium for which margin calls will not occur.

In connection with the contribution to MAV I or MAV II of assets supported by the margin funding facility, investors have received a mix of Class A-1, Class A-2, Class B and Class C notes with an expected maturity in January 2017. Ineligible assets in MAV I and MAV II (MAVs) have been segregated, and noteholders holding series of ABCP secured in part by ineligible assets have received IA tracking notes that will track the performance of the underlying individual asset.

A third vehicle, which silos each series secured exclusively by traditional assets or by ineligible assets, has been created under Master Asset Vehicle III (MAV III). Two main types of notes are created in MAV III: TA tracking notes for traditional assets and IA tracking notes for ineligible assets. All tracking notes are tied to the net return and maturities of their respective underlying assets.

MAV I and MAV II Class A-1 and Class A-2 notes were granted a rating of "A" on January 21, 2009. On August 11, 2009, the MAV II Class A-2 notes were downgraded to BBB (low) and the rating "under review with negative implications" was maintained. MAV I Class A-2 notes were also placed "under review with negative implications." The ratings assigned to the Class A-1 notes issued by the MAVs were unaffected and remained at a rating of "A" and during the third quarter of 2009, credit spreads have improved.

As at July 31, 2009, the face value of the ABCP held by the Bank was \$1,974 million, of which \$1,691 million was designated as *Held-for-trading securities* under the fair value option, and \$283 million was classified in *Available-for-sale securities*. During the third quarter of 2009, a note of \$29 million was extinguished and the Bank received \$47 million in principal repayments. In the second quarter of 2009, a credit default swap excluded from the moratorium was terminated and the Bank's proportional share in the notes related to this derivative was \$43 million; the Bank also received a principal repayment related to the ABCP notes for an amount of \$69 million. The table below provides a breakdown of the ABCP face value as at July 31, 2009:

(millions of dollars)			
MAV I		· .	
Class A-1			605
Class A-2			553
Class B			94
Class C			39

IA tracking notes for ineligible assets		-	155
Total MAV III			247
ABCP not included in the Pan-Canadian restructurin	ig plan		148
TOTAL			1,974

#### **Establishing Fair Value**

To determine the value of the ABCP it is holding, the Bank established ranges of estimated fair value. The carrying value of the ABCP held by the Bank in an investment portfolio as at July 31, 2009, designated as *Held-for-trading securities* was \$1,152 million, and \$93 million was classified in *Available-for-sale securities*. The notes held in an investment portfolio with one or more embedded derivatives were designated as *Held-for-trading securities* under the fair value option, and the other notes were classified in *Available-for-sale securities*. The table below provides a breakdown of the carrying value of ABCP held as at July 31, 2009:

(millions of dollars)	
MAV I and MAV II	1,113
MAV III	86
ABCP not included in the Pan-Canadian restructuring plan	46
Carrying value of the notes	1,245
Margin funding facilities	(65)
TOTAL	1,180

Since the carrying value of ABCP held by the Bank as at January 31 and as at April 30, 2009 was within the range of the estimated fair value established as at July 31, 2009, no change was made to the carrying value during the third quarter of 2009.

For the first nine months of 2009, a loss of \$190 million was recorded in *Gains (losses) on available-for-sale securities* in the Consolidated Statement of Income following the implementation of the restructuring plan.

In establishing the fair value of the MAV notes and excluding ineligible assets, the Bank considered the quality of the underlying assets. The Bank determined the fair value using a discounted cash flow analysis. The discount rate was based 80% on CDX.IG index tranches and 20% on a basket of securities backed by assets such as credit card receivables, Residential Mortgage-Backed Securities (RMBS), Commercial Mortgage-Backed Securities (CMBS) and automobile loans. Credit ratings and coupons were based on the terms of the MAV notes. Maturities were based on the anticipated cash flows of underlying assets.

For ineligible assets, the fair value of the tracking notes was based on an analysis of the underlying assets of the notes and the market value of comparable instruments. For RMBS, fair values were based on the ABX index; for CMBS, CMBS indices, including the CMBX index, were chosen. As for derivative financial instruments, the Bank used valuation models which are commonly used by market participants with inputs that are based on factors observable in the markets: CDX.IG indices, base correlation and interest rates.

The Bank's valuation was based on its assessment of the conditions prevailing as at July 31, 2009, which may change in subsequent periods. The most important assumptions for determining the fair value of the notes are the observable discount rates and the credit ratings of the notes. Fair value sensitivities to these assumptions as at July 31, 2009 were as follows:

- A 10-basis-point change in the discount rate would result in a \$10 million decrease or increase in the fair value;
- A decrease in the credit rating by one letter grade would result in a fair value decrease within a range of \$70 million to \$90 million; and
- An increase in the credit rating by one letter grade would result in a fair value increase within a range of \$60 million to \$80 million.

Determining the fair value of ABCP is complex and involves an extensive process that includes the use of quantitative modelling and relevant assumptions. Possible changes that could have a material effect on the future value of the ABCP include: (1) changes in the value of the underlying assets, (2) developments related to the liquidity of the ABCP market, as no active market exists and (3) the impacts of a severe and prolonged economic slowdown in North America.

#### **Credit Facilities to Clients Holding MAV Notes**

The Bank offered improved credit facilities to its commercial and corporate clients who are holding MAV notes to help with their liquidity needs. These credit facilities cover up to 75% of the face value of the notes. The credit agreements also provide for an option in favour of the borrower that allows the borrower to assign to the Bank, on or after the maturity date of the credit facility, the restructured notes in payment of the principal of the credit facility. These credit facilities are available for a period of two to three years with the possibility of being extended by the Bank if borrowers maintain a normal banking relationship with the Bank during the period of the credit facility.

During the first quarter of 2009, the Bank recorded a provision for credit losses of \$126 million related to these new credit facilities. This amount was recorded in *Other liabilities* in the Consolidated Balance Sheet. A general allowance for credit risk for ABCP-secured loans of \$23 million was recorded during fiscal 2008. These allowances are based on the Bank's assessment of the value of the collateral at the maturity date of the loans and are mainly due to the credit facilities secured by notes backed by ineligible assets.

As at July 31, 2009, the outstanding improved credit facilities were \$255 million. In total, the collateral related to the credit facilities offered to clients was estimated as follows:

<b>Collateral</b> (millions of dollars)	Face value of the notes	Credit facilities related to notes backed by ineligible assets <sup>(1)</sup>	Credit facilities related to other notes included in the restructuring plar <sup>(2)</sup>
MAVII		•	
Class A-1	427		339
Class A-2	410	-	324
Class B	74	-	59
Class C	28	_	22
IA tracking notes for			
ineligible assets	131	102	·
Total MAV II	1,070	102	744
MAV III TA tracking notes for	•		
traditional assets IA tracking notes for	52	· <u>·</u>	32
ineligible assets	169	135	· · ·
Total MAV III	221	135	32
TOTAL	1,291	237	776

(1) These credit facilities represent 75% of the face value of the notes and are guaranteed by the notes.

(2) These credit facilities represent 75% of the face value of the notes, of which 30% are full recourse to the borrower and 45% guaranteed by the notes.

The Bank had also provided credit facilities to borrowers for their liquidity needs until the improved credit facilities were made available. As at July 31, 2009, these outstanding credit facilities represented \$50 million with recourse to the borrowers.

#### **Regulatory Investigation**

In early 2008, the Autorité des marchés financiers (AMF), the Ontario Securities Commission (OSC) and the Investment Dealers Association of Canada (now known as the Investment Industry Regulatory Organization of Canada – IIROC) acknowledged that they were carrying on an industry-wide investigation into the Canadian sale and distribution of third-party ABCP and the conduct of various market participants in the weeks leading to the failure of the market in mid-August 2007. Stemming from such an industry investigation, regulators may seek orders to sanction market participants.

The Bank's investment dealer subsidiary, National Bank Financial (NBF), has been notified of the preliminary findings of the regulators' staff. The enforcement notice identified matters that were the subject of the investigation and indicated that the securities regulators' staff is contemplating commencing proceedings in relation to those matters against NBF.

The enforcement notice affords NBF an opportunity to make representations before a decision is taken by the regulators' staff to commence proceedings. NBF intends to avail itself of this opportunity while continuing to cooperate fully with the securities regulators.

Refer also to Note 17 Litigation on page 45.

## **Off-Balance Sheet Arrangements**

In the normal course of business, the Bank is party to various financial arrangements that, under Canadian generally accepted accounting principles (GAAP), are not required to be recorded on the Consolidated Balance Sheet or are recorded under amounts other than their notional or contractual values. These arrangements include, among others, assets under administration and assets under management, variable interest entities (VIEs), derivative financial instruments, letters of guarantee and credit agreements. For a complete analysis of these types of arrangements, including their nature, business purpose and importance, see pages 46 to 49 of the 2008 Annual Report. For further information on the VIEs in which the Bank holds a significant variable interest but is not the primary beneficiary as defined in Accounting Guideline No. 15, Consolidation of Variable Interest Entities (AcG-15), see Note 13 to the 2008 audited consolidated financial statements. For more information on the guarantees and a description of obligations under certain indemnification agreements, refer to Note 28 to the 2008 audited consolidated financial statements and to Note 11 for securitization activities.

During the first nine months of the fiscal year, aside from new securitization activities described in Note 8 to the unaudited interim consolidated financial statements and the \$911 million margin funding facility that the Bank has committed to contribute under the ABCP restructuring plan completed on January 21, 2009, the Bank did not enter into any significant arrangements with VIEs that are not consolidated by the Bank. The ABCP restructuring plan provides for a moratorium on margin calls for a period of 18 months.

## Additional Disclosure – Financial Stability Board

The Superintendent of Financial Institutions has asked Canadian banks to apply certain Financial Stability Forum (now Financial Stability Board) recommendations published in April 2008. The recommendations were issued to enhance transparency and valuation with respect to certain exposures, in particular special purpose entities, subprime and Alt-A exposures, synthetic collateralized debt obligations, residential and commercial mortgagebacked securities, and leveraged financing structures.

The Bank does not market any specific mortgage financing program to subprime or Alt-A clients. Subprime loans are generally defined as loans granted to borrowers with a higher credit risk profile than prime borrowers, and the Bank does not grant this type of loan. Alt-A loans are granted to borrowers who cannot provide standard proof of income. The Bank's Alt-A loan volume was \$110 million as at July 31, 2009.

Credit derivative positions in collateralized debt obligations are provided in Table 4 in the "Additional Financial Information" section at the end of Management's Discussion and Analysis. The Bank does not have any significant direct position in residential and commercial mortgagebacked securities.

Leveraged finance loans are defined by the Bank as loans granted to large corporate and financial sponsor-backed companies that are typically non-investment grade with much higher levels of debt relative to the industry in which they operate. Leveraged finance is commonly employed to achieve a specific objective, for example, to make an acquisition, complete a buy-out or repurchase shares. Leveraged finance risk exposure takes the form of both funded and unfunded commitments. As at July 31, 2009, total commitments for this type of loan stood at \$209 million.

Details about other exposures are provided in Table 8 in the "Additional Financial Information" section at the end of Management's Discussion and Analysis.

## **Risk Management**

The Bank's objective is to maintain its financial performance by staying the course with prudent management and a sound balance between return and the risks assumed. The Bank views risk as an inherent part of its development and the diversification of its activities.

In order to manage the current financial and credit crisis, the Bank is taking additional steps to more closely monitor its liquidities and funding. In October 2008, the Bank of Canada announced that it was temporarily allowing participants in the Large Value Transfer System (LVTS) to substitute their non-mortgage loan portfolios denominated in Canadian dollars for current LVTS collateral, which is composed of marketable securities that may be used as collateral for other purposes. In order to benefit from this initiative, the Bank, as a participant in the LVTS, has granted the Bank of Canada a movable hypothec on the portfolio of non-mortgage loans denominated in Canadian dollars granted to Canadian residents. Since the beginning of fiscal 2009, the Bank has substituted this portfolio for LVTS collateral.

The Bank has enhanced control of its exposure to counterparty risk with certain U.S. and international entities most affected by the crisis by taking an overall prudent approach when extending credit facilities. Management of the credit portfolio also involves more frequent monitoring and updates. For more details, please refer to the Risk Management section on pages 57 to 65 of the 2008 Annual Report as well as to Note 5 to the consolidated financial statements concerning the management of risks associated with financial instruments presented on pages 106 to 115 of the 2008 Annual Report.

Information about risk management is also provided in Tables 1 to 7 of the "Additional Financial Information" section at the end of Management's Discussion and Analysis and in Note 7 to the unaudited interim consolidated financial statements, which covers loans.

The table below illustrates the VaR distribution of trading portfolios by risk category as well as the diversification effect. The table on the next page presents the potential before-tax impact of an immediate and sustained 100-basis-point increase or decrease on net interest income and on the economic value of the shareholders' equity of non-trading portfolios, assuming no further hedging is undertaken, and excludes the prepayment option inherent in fixed-rate mortgage loans.

### Global VaR by Risk Category<sup>(1)</sup>

(for the next 12 months)	(12)	(27)
Impact on shareholders' equity	155	2

### Daily Trading Revenues<sup>(1)</sup>

Daily trading revenues were positive more than 91% of the days in the quarter ended July 31, 2009. Net daily trading losses in excess of \$1 million were recorded on only 3 days, despite the uncertainty of markets during the quarter. None of these losses exceeded the VaR limit.

(1) Excluding the impact of economic hedge transactions undertaken to protect the ABCP portfolio

## Accounting Policies and Estimates

The unaudited interim consolidated financial statements have been prepared in accordance with Canadian GAAP. The reader is referred to Note 1 to the 2008 audited annual consolidated financial statements for more information on the significant accounting policies used to prepare the consolidated financial statements. Certain of these accounting policies are considered critical because they are important to the presentation of the Bank's financial position and operating results and require difficult, subjective and complex judgments and estimates because they relate to matters that are inherently uncertain. The key assumptions and bases for estimates made by Management in accordance with GAAP are described in the 2008 Annual Report. There have not been any changes to the Bank's significant accounting policies affecting fiscal 2009, other than those described in Note 2A to the unaudited interim consolidated financial statements. Information about future changes in accounting standards are presented in Note 2B to the unaudited interim consolidated financial statements.

#### International Financial Reporting Standards (IFRS)

In February 2008, the Canadian Accounting Standards Board confirmed that all publicly accountable enterprises would be required to report under IFRS in 2011. The Bank will adopt IFRS commencing November 1, 2011 with comparatives for the year commencing November 1, 2010. The Bank will issue its consolidated financial statements for the quarter ending January 31, 2012 prepared on an IFRS basis.

In order to prepare for the transition to IFRS, the Bank has established an enterprise-wide project, formed a dedicated project team and put in place a formal governance structure. The project team reports on a regular basis to a steering committee, which includes senior levels of management from all relevant departments. The Bank is currently in the planning phase of the conversion. This includes identifying the significant differences between existing Canadian GAAP and IFRS, identifying information technology requirements and operational impacts, developing a detailed project plan, assessing resource requirements and commencing training of staff.

## Disclosure on Internal Controls Over Financial Reporting

During the third quarter of 2009, no changes were made to the policies, procedures and other processes that comprise the Bank's internal control over financial reporting that had or could reasonably have a material impact on the Bank's internal control over financial reporting.

## Capital

Tier 1 and total capital ratios, according to the rules of the Bank for International Settlements (BIS) – Basel II, stood at 10.5% and 14.1%, respectively, as at July 31, 2009, compared to 9.4% and 13.2% as at October 31, 2008. The increase in the capital ratios was attributable to the issuance of two series of first preferred shares during the first quarter of 2009 in an amount of \$315 million, mitigated by the repurchase of \$250 million in subordinated debentures in the second quarter of 2009. If these ratios had been calculated using the former BIS rules (Basel I), they would have been 11.3% and 14.8%, respectively, as at July 31, 2009.

As at July 31, 2009, the risk-weighted assets calculated under the rules of Basel II were stable and amounted to \$58.3 billion compared to \$58.1 billion as at October 31, 2008. Risk-weighted assets calculated under Basel I would have been \$56.3 billion as at July 31, 2009.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS FINANCIAL CONDITION AND OPERATING RESULTS (CONT.)

Other information on capital is provided in the table below:

Total – Credit risk	75,301	29,189	19,334	6,426	2,628	132,878		

(1) The amounts drawn represent certain deposits with financial institutions, available-for-sale securities except equity securities, gross loans, customers' liability under acceptances and certain other assets.

(2) Undrawn commitments represent unused portions of authorized credit facilities in the form of loans, acceptances, letters of guarantee and documentary letters of credit.

(3) Represents securities purchased under reverse repurchase agreements and sold under repurchase agreements.

(4) Letters of guarantee and credit that represent the Bank's commitment to make payments in the event that a client cannot meet its financial obligations to third parties.

## TABLE 8 – SPECIAL PURPOSE ENTITIES

Special purpose entities are not operating entities; generally they do not have any employees and may include variable interest entities (VIEs) as defined in Accounting Guideline No.15, *Consolidation of Variable Interest Entities* (AcG-15). AcG-15 requires the consolidation of a VIE by its primary beneficiary, defined as the party that absorbs the majority of the entity's expected losses, receives the majority of the entity's expected residual returns, or both. The Bank has concluded interest rate swaps with certain entities.

#### N/A - Not applicable

(1) The Bank's exposure represents the retained rights relating to future excess interest as well as certain securities issued by the entity and acquired by the Bank.

(2) The main underlying assets are residential and commercial mortgages, car leases, car loans and other receivables. The assets are located in Canada. As at July 31, 2009, the notional committed amount of the global-style liquidity facility totalled \$505 million, representing the total amount of commercial paper outstanding. The Bank also provides a series-wide credit enhancement facility that is limited to certain asset classes for a notional committed amount of \$30 million. The maximum exposure to loss cannot exceed the amount of commercial paper outstanding. As at July 31, 2009, the Bank held \$146 million of the commercial paper and, consequently, the maximum potential amount of future payments as at July 31, 2009 is limited to \$359 million.

(3) Refer to the "Master Asset Vehicles" section on pages 10 to 12 of Management's Discussion and Analysis. The total amount of commercial paper outstanding totalled \$34 billion as at July 31, 2009.

- (4) Refer to Note 17 to the 2008 audited consolidated financial statements.
- (5) The underlying assets are private investments. The disclosed amount of total assets of the special purpose entities are those of the most recent available period.
- (6) For the consolidated special purpose entities, the Bank's exposure is net of the non-controlling interest.
- (7) The underlying assets are various financial instruments (trading portfolio). The total assets of the Innocap platform are presented on a net asset basis.
- (8) The underlying assets are various financial instruments and are presented on a net asset basis. Certain mutual funds are in a trading portfolio.
- (9) The underlying asset is a building located in Canada.
- (10) The investments are presented on an equity basis.
- (11) Refer to Note 21 to the 2008 audited consolidated financial statements. The average maturity of the underlying assets is four years.

## CONSOLIDATED FINANCIAL STATEMENTS NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (unaudited) (millions of dollars)

These unaudited interim consolidated financial statements should be read in conjunction with the audited consolidated financial statements for the year ended October 31, 2008. Certain comparative figures have been reclassified to conform with the presentation adopted in fiscal 2009.

## NOTE 1

## SIGNIFICANT ACCOUNTING POLICIES

These unaudited interim consolidated financial statements of the Bank have been prepared in accordance with Canadian generally accepted accounting principles (GAAP) and the accounting policies described in the Bank's most recent Annual Report for the year ended October 31, 2008, except for the recent accounting standards adopted and described in Note 2A. Under Canadian GAAP, additional disclosures are required in annual financial statements and therefore these unaudited interim consolidated financial statements should be read in conjunction with the audited consolidated financial statements for the year ended October 31, 2008 and the accompanying notes on pages 88 to 154 of the 2008 Annual Report.

## NOTE 2

## CHANGES IN ACCOUNTING POLICIES

### 2A. RECENT ACCOUNTING STANDARDS ADOPTED

### Goodwill and Intangible Assets

In January 2008, the CICA issued Handbook Section 3064, *Goodwill and Intangible Assets*. This new accounting standard reinforces the approach under which assets are recorded only if they satisfy the definition of an asset and the recognition criteria for an asset. It also clarifies the application of the concept of matching costs with revenues, so as to eliminate the practice of recognizing as assets items that do not meet the definition of an asset or satisfy the recognition criteria for an asset. The application of this standard did not have a significant impact on the Bank's consolidated financial statements.

## Credit Risk and the Fair Value of Financial Assets and Financial Liabilities

On January 20, 2009, the Emerging Issues Committee issued Abstract 173 (EIC-173), *Credit Risk and the Fair Value of Financial Assets and Financial Liabilities*. EIC-173 stipulates that an entity's own credit risk and the credit risk of the counterparty should be taken into account in determining the fair value of financial assets and financial liabilities, including derivative financial instruments. EIC-173 applies to the Bank effective November 1, 2008 and must be applied retrospectively without restatement of prior periods. In accordance with EIC-173, certain financial assets and financial liabilities, including derivative financial instruments. EIC-173, certain financial assets and financial liabilities, including derivative financial instruments, must be remeasured as at November 1, 2008. Any adjustment to the fair value must be recorded as an adjustment to the balance of retained earnings as at that date, except certain adjustments related to derivative financial instruments in a hedging relationship. In certain specific cases, any resulting difference would be recorded either in *Accumulated other comprehensive income* or as an adjustment to the carrying value of the hedged item. The Bank believes that the impact of EIC-173 is not material and is nevertheless continuing to improve its measurement models.

#### CONSOLIDATED FINANCIAL STATEMENTS

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONT.) (unaudited) (millions of dollars)

Note 2 Changes in Accounting Policies (cont.)

#### 2B. RECENT ACCOUNTING STANDARDS PENDING ADOPTION

### **Business Combinations, Consolidated Financial Statements and Non-Controlling Interests**

On January 5, 2009, three new sections of the CICA Handbook were issued: Section 1582, *Business Combinations*, Section 1601, *Consolidated Financial Statements* and Section 1602, *Non-Controlling Interests*. The main impacts of these standards are described below.

### **Business Combinations**

On the date when an acquirer obtains control of a business, the acquirer must measure the business acquired as a whole in order to determine its fair value. The acquirer must measure the identifiable assets acquired, the liabilities assumed, and any non-controlling interest in the acquiree at their acquisition-date fair values. Acquisition-related costs are accounted for as expenses in the periods in which the costs are incurred and the services received, except for costs to issue debt securities, which are capitalized and amortized using the effective interest method, or share capital, which are recognized as capital transactions. The standard provides for a measurement period after the acquisition date during which the acquirer may retrospectively adjust the provisional amounts recognized on the acquisition date. This new standard is applicable to the Bank prospectively to business combinations for which the acquisition date is on or after November 1, 2011. Earlier application is permitted if sections 1601 and 1602 are applied at the same time.

#### **Consolidated Financial Statements and Non-Controlling Interests**

Section 1601 provides guidance on the preparation of consolidated financial statements after the acquisition date and certain aspects of consolidation on the acquisition date. Section 1602 establishes standards for the accounting and presentation of non-controlling interests subsequent to a business combination. These new standards are applicable to the Bank effective November 1, 2011. Earlier application is permitted if Section 1582 is adopted at the same time.

### **Financial Instruments Disclosures**

In June 2009, the CICA amended Handbook Section 3862, *Financial Instruments – Disclosures*, to enhance disclosures about fair value measurements and about the liquidity risk of financial instruments.

All financial instruments measured at fair value have to be classified in fair value hierarchy levels, which are as follows:

- Level 1 valuation based on quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 valuation techniques with significant observable market parameters; and
- Level 3 valuation techniques with significant unobservable market parameters.

The amendments will be effective for the Bank's annual financial statements for the fiscal year ending October 31, 2009.

#### **Impairment of Financial Assets**

On July 29, 2009, the CICA issued a typescript of approved amendments to Handbook Section 3855, *Financial Instruments – Recognition and Measurement*. The amendments apply to annual financial statements relating to fiscal years beginning on or after November 1, 2008 with retroactive application to the beginning of the fiscal year. It is permitted, but not required, to apply these amendments to the interim financial statements relating to periods within the fiscal year of adoption only if those interim financial statements are issued on or after August 20, 2009. The Bank has chosen to adopt these amendments in the fourth quarter of the fiscal year ending October 31, 2009 with retroactive application to November 1, 2008. The amendments are as follows:

- The definition of the "loans and receivables" financial asset category, which is measured at cost or amortized cost calculated using the effective interest method, has been modified. As a result, debt instruments not quoted in an active market can be classified as loans and receivables, and impairment is measured using the incurred credit loss model of Section 3025, *Impaired Loans*. Loans and receivables that an entity intends to sell immediately or in the near term must be classified as held-for-trading, and loans and receivables for which the holder may not recover substantially all of its initial investment, other than because of credit deterioration, must be classified as available-for-sale.
- Reclassification of financial assets from the held-for-trading and available-for-sale categories into the loans and receivables category is permitted under certain circumstances.
- Reversal of an impairment loss relating to an available-for-sale debt instrument is required when, in a subsequent period, the fair value of the instrument increases and the increase can be objectively related to an event occurring after the loss was recognized.

The Bank is currently assessing the impact of the initial application of these amendments on its consolidated financial statements.

(unaudited) (millions of dollars)

Note 2 Changes in Accounting Policies (cont.)

### International Financial Reporting Standards (IFRS)

In February 2008, the Canadian Accounting Standards Board confirmed that all publicly accountable enterprises would be required to report under IFRS in 2011. The Bank will adopt IFRS commencing November 1, 2011 with comparatives for the year commencing November 1, 2010. The Bank will issue its consolidated financial statements for the quarter ending January 31, 2012 prepared on an IFRS basis.

In order to prepare for the transition to IFRS, the Bank has established an enterprise-wide project, formed a dedicated project team and put in place a formal governance structure. The project team reports on a regular basis to a steering committee which includes senior levels of management from all relevant departments. The Bank is currently in the planning phase of the conversion. This includes identifying the significant differences between existing Canadian GAAP and IFRS, identifying information technology requirements and operational impacts, developing a detailed project plan, assessing resource requirements and commencing training of staff.

## NOTE 3

## **INCOME FROM TRADING ACTIVITIES**

Income from trading activities comprises net interest income from trading activities, trading revenues recognized in Other income and the impact of non-controlling interest.

Net interest income comprises interest and dividends related to financial assets and liabilities associated with trading activities, net of interest expenses and interest income related to the financing of these financial assets and liabilities.

Other income comprises the realized and unrealized gains and losses on held-for-trading securities, income from derivative financial instruments held-for-trading purposes, and the change in fair value of financial instruments designated as held-for-trading.

The impact of non-controlling interest takes into account trading revenues and losses attributable to third parties.

### **Gross Unrealized Losses**

Financial assets classified as available-for-sale are measured periodically to determine whether there is objective evidence of impairment. Gross unrealized losses on equity securities are mainly caused by market price fluctuations or foreign exchange movements. The Bank has the ability and intent to hold these securities for a period of time sufficient to allow for any recovery of their fair value. As at July 31, 2009, the Bank concluded that the gross unrealized losses, recognized in *Other comprehensive income*, were temporary.

### **Impairment Charges**

During the quarter ended July 31, 2009, a \$7 million (\$19 million for the nine months ended July 31, 2009) impairment charge relating to a decline in value of available-for-sale securities, which the Bank considered as other than temporary, was recognized in *Gains (losses) on available-for-sale securities* in the Consolidated Statement of Income.

## Available-for-Sale Securities Presented at Cost

The Bank holds equity securities such as mutual fund units and other securities that are classified as available-for-sale but that must be presented at cost because they are not traded in an active market. As at July 31, 2009, these available-for-sale securities presented at cost in the Consolidated Balance Sheet totalled \$350 million. Some of these securities had a fair value that could be estimated. The difference between the estimated fair value and the cost represented an unrealized gain of \$19 million as at July 31, 2009.

## MASTER ASSET VEHICLES

On August 20, 2007, the Bank announced a number of measures to relieve its clients from the uncertainties related to the liquidity problem in the assetbacked commercial paper (ABCP) market. During the fourth quarter of 2007, the Bank purchased \$2,138 million of ABCP, issued by 26 trusts, including \$1,084 million from mutual funds and \$559 million from pooled funds administered by the Bank as well as the ABCP held by its individual retail clients and certain other clients. This amount was in addition to the \$156 million of ABCP already held by the Bank.

On December 23, 2007, the Pan-Canadian Investors Committee for Third-Party Structured ABCP approved an agreement in principle to restructure the affected series of ABCP issued by 20 trusts. On December 24, 2008, an agreement was reached with all key stakeholders, including the governments of Canada, Quebec, Ontario and Alberta, regarding the restructuring of \$32 billion of third-party ABCP. The restructuring plan was implemented on January 21, 2009.

#### **Restructuring Plan**

The affected ABCP has been replaced with new longer-term floating rate notes with maturities designed to more closely match the maturities of the underlying assets, with pooling of certain assets as well as the establishment of margin funding facilities to support any collateral calls that may occur in the future.

The series of affected ABCP, supported in whole or in part by synthetic assets, have been pooled into the Master Asset Vehicles (I and II) as follows:

- Master Asset Vehicle I (MAV I) is a vehicle for investors who have elected to commit their pro rata share of a margin funding facility associated with their underlying assets.
- Master Asset Vehicle II (MAV II) is a vehicle for investors who have elected to commit less than or none of their pro rata share of a margin funding facility, in which case third parties will fund the remaining portion.

The margin funding facilities in MAV I and MAV II are provided by third party lenders such as Canadian banks, asset providers, noteholders and the governments of Canada, Quebec, Ontario and Alberta. The facilities provided by the governments rank senior to all other margin funding facilities and, in the event of margin calls, they would be the last in and the first out. These facilities are designed to reduce the risk that the vehicles will not be able to meet margin calls if future circumstances warrant them. The Bank committed to contribute \$911 million to these margin funding facilities. As at July 31, 2009, the margin funding facility had not been drawn.

The key parties to the restructuring have also agreed to enhance the transaction by including an 18-month post-closing moratorium for which margin calls will not occur.

In connection with the contribution to MAV I or MAV II of assets supported by the margin funding facility, investors have received a mix of Class A-1, Class A-2, Class B and Class C notes with an expected maturity in January 2017. Ineligible assets in MAV I and MAV II (MAVs) have been segregated, and noteholders holding series of ABCP secured in part by ineligible assets have received IA tracking notes that will track the performance of the underlying individual asset.

A third vehicle, which silos each series secured exclusively by traditional assets or by ineligible assets, has been created under Master Asset Vehicle III (MAV III). Two main types of notes are created in MAV III: TA tracking notes for traditional assets and IA tracking notes for ineligible assets. All tracking notes are tied to the net return and maturities of their respective underlying assets.

MAV I and MAV II Class A-1 and Class A-2 notes were granted a rating of "A" on January 21, 2009. On August 11, 2009, the MAV II Class A-2 notes were downgraded to BBB (low) and the rating "under review with negative implications" was maintained. MAV I Class A-2 notes were also placed "under review with negative implications." The ratings assigned to the Class A-1 notes issued by the MAVs were unaffected and remained at a rating of "A" and during the third quarter of 2009, credit spreads have improved.

CONSOLIDATED FINANCIAL STATEMENTS NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONT.) (unaudited) (millions of dollars)

## Note 6 Master Asset Vehicles (cont.)

As at July 31, 2009, the face value of the ABCP held by the Bank was \$1,974 million, of which \$1,691 million was designated as *Held-for-trading securities* under the fair value option, and \$283 million was classified in *Available-for-sale securities*. During the third quarter of 2009, a note of \$29 million was extinguished and the Bank received \$47 million in principal repayments. In the second quarter of 2009, a credit default swap excluded from the moratorium was terminated and the Bank's proportional share in the notes related to this derivative was \$43 million; the Bank also received a principal repayment related to the ABCP notes for an amount of \$69 million. The table below provides a breakdown of the ABCP face value as at July 31, 2009:

(millions of dollars)	1.1.1		1					
MAV I				2	•

#### Establishing Fair Value

To determine the value of the ABCP it is holding, the Bank established ranges of estimated fair value. The carrying value of the ABCP held by the Bank in an investment portfolio as at July 31, 2009, designated as *Held-for-trading securities* was \$1,152 million, and \$93 million was classified in *Available-for-sale securities*. The notes held in an investment portfolio with one or more embedded derivatives were designated as *Held-for-trading securities* under the fair value option, and the other notes were classified in *Available-for-sale securities*. The table below provides a breakdown of the carrying value of ABCP held as at July 31, 2009:

MAV I and MAV II				 1,113
MAV III		. •	,	86
ABCP not included in the Pan-Ca	nadian restructuring plan			46
Carrying value of the notes				1,245
Margin funding facilities	#*************************************	•		(65
TOTAL				1,180
	· · · · · · · · · · · · · · · · · · ·			

Since the carrying value of ABCP held by the Bank as at January 31 and as at April 30, 2009 was within the range of the estimated fair value established as at July 31, 2009, no change was made to the carrying value during the third quarter of 2009.

For the first nine months of 2009, a loss of \$190 million was recorded in *Gains (losses) on available-for-sale securities* in the Consolidated Statement of Income following the implementation of the restructuring plan.

In establishing the fair value of the MAV notes and excluding ineligible assets, the Bank considered the quality of the underlying assets. The Bank determined the fair value using a discounted cash flow analysis. The discount rate was based 80% on CDX.IG index tranches and 20% on a basket of securities backed by assets such as credit card receivables, Residential Mortgage-Backed Securities (RMBS), Commercial Mortgage-Backed Securities (CMBS) and automobile loans. Credit ratings and coupons were based on the terms of the MAV notes. Maturities were based on the anticipated cash flows of underlying assets.

For ineligible assets, the fair value of the tracking notes was based on an analysis of the underlying assets of the notes and the market value of comparable instruments. For RMBS, fair values were based on the ABX index; for CMBS, CMBS indices, including the CMBX index, were chosen. As for derivative financial instruments, the Bank used valuation models which are commonly used by market participants with inputs that are based on factors observable in the markets: CDX.IG indices, base correlation and interest rates.

## Note 6 Master Asset Vehicles (cont.)

The Bank's valuation was based on its assessment of the conditions prevailing as at July 31, 2009, which may change in subsequent periods. The most important assumptions for determining the fair value of the notes are the observable discount rates and the credit ratings of the notes. Fair value sensitivities to these assumptions as at July 31, 2009 were as follows:

- A 10-basis-point change in the discount rate would result in a \$10 million decrease or increase in the fair value;

- A decrease in the credit rating by one letter grade would result in a fair value decrease within a range of \$70 million to \$90 million; and

- An increase in the credit rating by one letter grade would result in a fair value increase within a range of \$60 million to \$80 million.

Determining the fair value of ABCP is complex and involves an extensive process that includes the use of quantitative modelling and relevant assumptions. Possible changes that could have a material effect on the future value of the ABCP include: (1) changes in the value of the underlying assets, (2) developments related to the liquidity of the ABCP market, as no active market exists and (3) the impacts of a severe and prolonged economic slowdown in North America.

### **Credit Facilities to Clients Holding MAV Notes**

The Bank offered improved credit facilities to its commercial and corporate clients who are holding MAV notes to help with their liquidity needs. These credit facilities cover up to 75% of the face value of the notes. The credit agreements also provide for an option in favour of the borrower that allows the borrower to assign to the Bank, on or after the maturity date of the credit facility, the restructured notes in payment of the principal of the credit facility. These credit facilities are available for a period of two to three years with the possibility of being extended by the Bank if borrowers maintain a normal banking relationship with the Bank during the period of the credit facility.

During the first quarter of 2009, the Bank recorded a provision for credit losses of \$126 million related to these new credit facilities. This amount was recorded in *Other liabilities* in the Consolidated Balance Sheet. A general allowance for credit risk for ABCP-secured loans of \$23 million was recorded during fiscal 2008. These allowances are based on the Bank's assessment of the value of the collateral at the maturity date of the loans and are mainly due to the credit facilities secured by notes backed by ineligible assets.

As at July 31, 2009, the outstanding improved credit facilities were \$255 million. In total, the collateral related to the credit facilities offered to clients was estimated as follows:

Collateral (millions of dollars)		Face value of the notes	Credit facilities related to notes backed by ineligible assets <sup>(1)</sup>	Credit facilities related to other notes included in the restructuring plan <sup>(2</sup>
	1			
MAVII				
Class A-1		427	-	339
Class A-2		410		324
Class B		74	_	59
Class C	· ·	28	_	22
IA tracking notes for ineligible assets		131	102	-
Total MAV II		1,070	102	744
MAVIII		······································		
TA tracking notes for traditional assets		52	_	32
IA tracking notes for ineligible assets		169	135	<u> </u>
Total MAV III		221	135	32
TOTAL	· · · · · · · · · · · · · · · · · · ·	1,291	237	776

(1) These credit facilities represent 75% of the face value of the notes and are guaranteed by the notes.

(2) These credit facilities represent 75% of the face value of the notes, of which 30% are full recourse to the borrower and 45% guaranteed by the notes.

The Bank had also provided credit facilities to borrowers for their liquidity needs until the improved credit facilities were made available. As at July 31, 2009, these outstanding credit facilities represented \$50 million with recourse to the borrowers.

Note 6 Master Asset Vehicles (cont.)

## **Regulatory Investigation**

In early 2008, the Autorité des marchés financiers (AMF), the Ontario Securities Commission (OSC) and the Investment Dealers Association of Canada (now known as the Investment Industry Regulatory Organization of Canada – IIROC) acknowledged that they were carrying on an industry-wide investigation into the Canadian sale and distribution of third-party ABCP and the conduct of various market participants in the weeks leading to the failure of the market in mid-August 2007. Stemming from such an industry investigation, regulators may seek orders to sanction market participants.

The Bank's investment dealer subsidiary, National Bank Financial (NBF), has been notified of the preliminary findings of the regulators' staff. The enforcement notice identified matters that were the subject of the investigation and indicated that the securities regulators' staff is contemplating commencing proceedings in relation to those matters against NBF.

The enforcement notice affords NBF an opportunity to make representations before a decision is taken by the regulators' staff to commence proceedings. NBF intends to avail itself of this opportunity while continuing to cooperate fully with the securities regulators.

(2) Provisions taken for new credit facilities granted to clients holding ABCP. This general allowance is recorded in *Other liabilities* in the Consolidated Balance Sheet.

(3) The general allowance for credit risk was created taking into account the Bank's overall credit portfolio, except for an amount of \$22 million for ABCP-secured loans.

(4) The general allowance for credit risk was created taking into account the Bank's overall credit portfolio.

# NOTE 8

## TRANSFERS OF RECEIVABLES

### **New Securitization Activities**

Insured mortgage loans and credit card receivables

The Bank securitizes insured residential mortgage loans by creating mortgage-backed securities.

Under a 1998 agreement, the Bank also sells credit card receivables to a trust on a revolving basis.

The pre-tax gain or loss from securitization transactions, net of transaction fees, is recognized in the Consolidated Statement of Income under *Securitization revenues*.

Securitization activities for the guarter ended	July 31, 2009	April 30, 2009	July 31, 2008

Uninsured mortgage loans sold	81	349	75
Gain before income taxes	3	12	1

## FINANCIAL INSTRUMENTS DESIGNATED AS HELD-FOR-TRADING

#### Securities

Since the fourth quarter of 2008, and under the fair value option, the Bank has designated securities purchased to hedge certain derivative financial instruments as held-for-trading. The Bank adopted this option in accordance with its risk management strategy, which allows it to manage these securities and the derivative financial instruments involved together using the fair value basis and thereby considerably reduce financial risks. During the quarter ended July 31, 2009, the Bank designated securities with an initial cost of \$0.7 billion. The total fair value of these securities designated as held-for-trading was \$3.4 billion as at July 31, 2009. The change in fair value of \$57 million for the quarter was recorded as a loss in *Trading revenues (losses)* in the Consolidated Statement of Income (\$41 million gain for the nine months ended July 31, 2009).

In addition, during the first quarter of 2009, the Bank designated ABCP with one or more embedded derivatives as held-for-trading securities under the fair value option. As at July 31, 2009, the fair value of these notes is \$1.2 billion, and no change in fair value was recorded in the Consolidated Statement of Income in the third quarter of 2009.

#### Deposits

Certain deposits with one or more embedded derivatives are designated as held-for-trading under the fair value option. These deposits are included under liabilities in *Deposits* in the Consolidated Balance Sheet. The fair value of these deposits was \$763 million as at July 31, 2009. The \$61 million change in fair value for the quarter was recorded as a loss in *Trading revenues (losses)* in the Consolidated Statement of Income (\$57 million for the nine months ended July 31, 2009). The change in fair value for the quarter ended July 31, 2009 attributable to credit risk is a \$30 million unrealized loss (\$19 million for the nine months ended July 31, 2009).

To determine the change in fair value due to the change in credit risk for these financial liabilities, the Bank calculates, at the beginning of the period, the present value of the instrument's contractual cash flows using the following rates: first, using an observed discount rate that reflects the Bank's credit spread and, then, using a rate that excludes the Bank's credit spread. The difference between those two values is then compared to the difference obtained using the same rates at the end of the period.

The amount at maturity, which the Bank will be contractually required to pay to the holders of these deposits, may vary and will be different from the fair value as at July 31, 2009.

## NOTE 10

## SUBORDINATED DEBENTURES

On April 16, 2009, the Bank repurchased for cancellation subordinated debentures with a total value of \$250 million maturing on April 16, 2014.

## **Issuance of Preferred Shares**

On January 30, 2009, the Bank issued 4,000,000 First Preferred Shares, Series 26, with a non-cumulative preferential dividend at a quarterly amount of \$0.4125 per share. The initial dividend was paid on May 15, 2009 and was \$0.47918 per share. Furthermore, the Bank granted the underwriters an over-allotment option to purchase up to an additional 3,000,000 shares at an exercise price of \$25.00 at any time in the 30 days following the closing date. The underwriters exercised this option by purchasing 1,800,000 First Preferred Shares, Series 26. The Bank received a consideration of \$141 million, net of fees of \$4 million.

On January 14, 2009, the Bank issued 5,000,000 First Preferred Shares, Series 24, with a non-cumulative preferential dividend at a quarterly amount of \$0.4125 per share. The initial dividend was paid on May 15, 2009 and was \$0.55151 per share. Furthermore, the Bank granted the underwriters an over-allotment option to purchase up to an additional 3,000,000 shares at an exercise price of \$25.00 at any time in the 30 days following the closing date. The underwriters exercised this option by purchasing 1,800,000 First Preferred Shares, Series 24. The Bank received a consideration of \$165 million, net of fees of \$5 million.

On April 16, 2008, the Bank issued 6,000,000 First Preferred Shares, Series 20, with a non-cumulative preferential dividend at a quarterly amount of \$0.375 per share, for a consideration of \$146 million, net of fees of \$4 million. Furthermore, the Bank granted the underwriters an over-allotment option to purchase up to an additional 900,000 shares at the exercise price of \$25.00 at any time in the 30 days following the closing date. The underwriters exercised this option by purchasing 900,000 Preferred Shares, Series 20. The Bank received a consideration of \$22 million, net of fees of \$1 million.

#### **Dividend Reinvestment Plan**

The Bank has a dividend reinvestment plan for common and preferred shareholders. Participation in the plan is optional. Under the terms and conditions of the plan, participants acquire shares through the reinvestment of cash dividends paid on the shares they hold or through optional cash payments. The common shares are issued for an amount equal to the average of the closing prices of shares traded on the Toronto Stock Exchange during the five business days immediately preceding a dividend payment date. Since May 27, 2009, the issuance of such shares may take into account an issuance discount of up to 5%; the Board of Directors of the Bank has determined a 2% discount until such time as the Board of Directors elects otherwise. The Bank determines the amount of the applicable discount and the classes or series of eligible shares.

#### **Repurchase of Common Shares**

On February 1, 2008, the Bank had filed a normal course issuer bid to repurchase for cancellation up to 4,700,000 common shares over the 12-month period that ended January 30, 2009. On February 1, 2007, the Bank had filed a normal course issuer bid to repurchase for cancellation up to 8,102,000 common shares over the 12-month period that ended January 31, 2008.

During the nine-month periods ended July 31, 2009 and 2008, the Bank did not repurchase any shares.

#### **Regulatory Capital Ratios**

The Superintendent of Financial Institutions considers financial institutions to be well-capitalized if they maintain a Tier 1 capital ratio of 7% and a total regulatory capital ratio of 10%. The Bank maintained ratios that satisfied these requirements as at July 31, 2009 and 2008. In addition to regulatory capital ratios, banks are expected to meet an assets-to-capital multiple test. The assets-to-capital multiple is calculated by dividing a bank's total assets, including specified off-balance sheet items, by its total capital. The Bank met the assets-to-capital multiple test as at July 31, 2009 and 2008.

## NOTE 14

## STOCK-BASED COMPENSATION

## **Stock Option Plan**

During the nine months ended July 31, 2009, the Bank awarded 2,357,740 stock options (2008: 2,260,036) with a fair value of \$5.65 per option (2008: \$9.21).

As at July 31, 2009, a total of 8,056,813 stock options were outstanding.

The fair value of the options awarded was estimated on the award date using the discrete dividend Black-Scholes model. The following assumptions were used:

Nine months ended	1			July 31, 2009	July 31, 2008
Risk-free interest rate				3 3 3 9 1/	4 409/
		· · · · · · · · · · · · · · · · · · ·		2.23%	4.40%

Compensation expense recorded for the stock op	tions	3	4	3 9	8

## Stock Appreciation Rights (SAR) Plan

During the nine months ended July 31, 2009, the Bank awarded 56,892 SARs. A total of 200,799 SARs were outstanding as at July 31, 2009.

## Deferred Stock Unit (DSU) Plan

During the nine months ended July 31, 2009, the Bank awarded 44,416 DSUs. A total of 106,778 DSUs were outstanding as at July 31, 2009.

## Restricted Stock Unit (RSU) Plan

During the nine months ended July 31, 2009, the Bank awarded 715,816 RSUs. A total of 860,035 RSUs were outstanding as at July 31, 2009.

## **Deferred Compensation Plan of National Bank Financial**

During the nine months ended July 31, 2009, National Bank Financial awarded 111,980 units. A total of 1,071,471 units were outstanding as at July 31, 2009.

## NOTE 15

## **RESTRUCTURING CHARGES**

During fiscal 2008, the Board of Directors approved the organizational restructuring of the Bank. The objectives of the restructuring are to align the Bank's distribution models and operations with client needs and to simplify processes and increase the efficiency of corporate functions.

The payments related to the provision for restructuring charges are presented in the following table:

Nine months ended July 31					2009	2008
	· · · · · · · · · · · · · · · · · · ·		Severance pay	Other charges	Total	Total
Balance at beginning			51	10	61	7
Payments made during the first nine months		1	(36)	(10)	(46)	(3)
Balance at end		· · · ·	15	· . – ·	15	4

## NOTE 16

## EARNINGS PER SHARE

Diluted earnings per share is calculated by dividing net income available to common shareholders by the weighted average number of common shares outstanding after taking into account the dilution effect of stock options using the treasury stock method.

			Ouarter ended	Nir	ne months ended
	July 31, 2009	April 30, 2009	July 31, 2008	July 31, 2009	July 31, 2008
		-	· · ·		
Basic earnings per common share	· * *

Net income available to common shareholders	287	225	276	569	685
Weighted average basic number of		•			
common shares outstanding (thousands)	160,322	159,927	158,890	160,003	158,422
Adjustment to average number of common shares (thousands)					
Stock options <sup>(1)</sup>	967	187	583	417	644
Weighted average diluted number of					
common shares outstanding (thousands)	161,289	160,114	159,473	160,420	159,066
Diluted earnings per common share (dollars)	1.78	1.41	1.73	3.55	4.30

(1) For the quarter ended July 31, 2009, the calculation of diluted earnings per share excludes 4,006,391 average options outstanding with a weighted average exercise price of \$58.96 (5,767,474 average options outstanding with a weighted average exercise price of \$55.27 for the quarter ended April 30, 2009 and 4,309,528 average options outstanding with a weighted average exercise price of \$58.89 for the quarter ended July 31, 2008), as the exercise price of these options was greater than the average price of the Bank's common shares. For the nine-month period ended July 31, 2009, the calculation of diluted earnings per share excludes 5,225,730 average options outstanding with a weighted average exercise price of \$56.21 (4,014,041 average options outstanding with a weighted average exercise price of \$59.41 for the nine-month period ended July 31, 2008), as the exercise price of \$59.41 for the nine-month period ended July 31, 2008, as the exercise price of \$59.41 for the nine-month period ended July 31, 2008).

## NOTE 17

## LITIGATION

In the normal course of their business, the Bank and its subsidiaries are involved in various claims, including, in particular, court proceedings, investigations or claims of a regulatory nature, class actions or other legal remedies of varied natures. Several of the court proceedings are related to lending activities, which occur, in particular, when the Bank takes steps to recover its claims.

The Bank is also more specifically involved as a defendant in class actions instituted by consumers who contest, inter alia, certain transaction fees and the unsolicited increase of credit card limits or who wish to avail themselves of certain provincial legislative provisions relating to consumer protection. All of these involve several complex issues and their resolution could thus extend over several years. These class actions are defended vigorously by the Bank, which has serious grounds of contestation.

Even though it is impossible to determine the outcome of the claims instituted or which may be instituted against the Bank and its subsidiaries, the Bank considers that, according to the information at its disposal, while the amount of contingent liabilities pertaining thereto, taken individually or in the aggregate, could have an impact on its operating income for a particular year, it would not have a material adverse impact on the Bank's consolidated financial position.

#### Personal and Commercial

The Personal and Commercial segment comprises the branch network, credit cards, insurance, business banking services and real estate.

### Wealth Management

The Wealth Management segment comprises full-service retail brokerage, direct brokerage, mutual funds, trust services, investment management services and portfolio management.

#### **Financial Markets**

The Financial Markets segment encompasses corporate financing and lending, treasury operations, including asset and liability management for the Bank, and corporate brokerage.

#### Other

This heading comprises securitization transactions, certain non-recurring items, and the unallocated portion of centralized services.

### **Taxable Equivalent**

- (1) The accounting policies are the same as those presented in Note 1, with the exception of net interest income, other income and income taxes (recovery) of the operating segments, which are presented on a taxable equivalent basis. Taxable equivalent basis is a calculation method that consists in grossing up certain tax-exempt income by the amount of income tax that would have been otherwise payable. For all of the operating segments, net interest income was grossed up by \$32 million (2008: \$32 million) and other income by \$1 million (2008: \$12 million). An equivalent amount was added to income taxes (recovery). The impact of these adjustments is reversed under the *Other* heading.
- (2) For the nine months ended July 31, 2009, net interest income was grossed up by \$93 million (2008: \$96 million) and other income by \$13 million (2008: \$50 million). An equivalent amount was added to income taxes (recovery). The impact of these adjustments is reversed under the *Other* heading.

#### **Computershare Trust Company of Canada**

Share Ownership Management 1500 University, 7th Floor Montreal, Quebec H3A 3S8 Telephone: 1-888-838-1407 Fax: 1-888-453-0330 E-mail: <u>service@computershare.com</u> Website: www.computershare.com

#### **Direct Deposit Service for Dividends**

Shareholders may elect to have their dividend payments deposited directly via electronic funds transfer to their bank account at any financial institution that is a member of the Canadian Payments Association. To do so, they must send a written request to the transfer agent, Computershare Trust Company of Canada.

#### **Dividend Reinvestment and Share Purchase Plan**

National Bank has a dividend reinvestment and share purchase plan for Canadian holders of its common and preferred shares under which they can acquire common shares in the Bank without paying commissions or administration fees. Participants acquire shares through the reinvestment of cash dividends paid on the shares they hold or through optional cash payments of at least \$500 per payment, up to a maximum of \$5,000 per quarter. The plan grants up to 5% discount to common and preferred shareholders on the average subscription price of the common shares they acquire through the reinvestment of cash dividends paid on their shares; the Board of Directors of the Bank has determined a 2% discount until such time as the Board of Directors elects otherwise. The last quarterly payment was made on August 1, 2009, at which time the average subscription price, net of the discount, was \$55.72. For more information, please contact the Computershare Trust Company of Canada at 1-888-838-1407. National Bank's beneficial or non-registered common shareholders must contact their financial institution or broker for instructions on how to participate in the plan.

### Dividends

The dividends declared by the Bank constitute eligible dividends pursuant to the *Income Tax Act* (Canada).
