Alpine Securities Corporation
Salt Lake City, Utah

We have audited the accompanying statement of financial condition of Alpine Securities Corporation (the Company) as of September 30, 2009, and the related statements of income (loss), changes in stockholders' equity, and cash flows for the year then ended that the Company is filing pursuant to rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Alpine Securities Corporation as of September 30, 2009, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying supplementary information, as listed in the Table of Contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by rule 17a-5 under the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

ALPINE SECURITIES CORPORATION NOTES TO FINANCIAL STATEMENTS

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Business

Alpine Securities Corporation (the Company) was incorporated under the laws of the State of Utah on January 11, 1984 as a securities broker and dealer dealing principally in over-the-counter securities. The Company, located in Salt Lake City, Utah, is registered with the Securities and Exchange Commission (SEC) and is a member of the Financial Industry Regulatory Authority (FINRA). Security trades are made with both customers and other security brokers and dealers. Customers are located in states in which the Company is registered. Wholesale trading is conducted with other brokers and dealers throughout the United States. Revenue is derived principally from trading in securities on its own account and trading in securities for customers for which a commission is received. The Company also clears securities transactions for correspondents and charges a transaction fee per trade ticket.

Significant Accounting Policies

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Company considers cash and cash balances in accounts segregated under federal and other regulations in excess of required balances to be cash and cash equivalents.

Receivables

Receivables are recorded on a settlement date basis except for unsettled trades of marketable securities held in the Company's trading account. Receivables arising from these trades, if any, are accounted for on a trade date basis and are included as a component of receivable from clearing organizations.

Receivables are written-off when they are determined to be uncollectible. The Company has determined that an allowance for doubtful accounts of \$10,000 is necessary at September 30, 2009. This determination is based on the Company's historical losses, the existing economic conditions in the securities brokers and dealers industry, and the financial stability of its customers.

Trading Securities

Marketable securities in the Company's trading account are recorded on a trade date basis and valued at market value. The resulting difference between actual cost and market (or fair value) is included in income. The portion of gains and losses for the year that relate to trading securities held by the Company as of September 30, 2009 is a gain of \$130.

Furniture and Equipment

Property and equipment are recorded at cost less accumulated depreciation. Depreciation is provided using accelerated methods.

Revenue Recognition

Customer securities transactions are recorded on settlement date. Revenues and related commissions for transactions executed but unsettled are accrued on a trade date basis, which is the day each transaction is executed.

Income Taxes

The Company, with the consent of its stockholders, elected to be taxed as an S Corporation. The taxable income of the Company flows through to the stockholders' individual income tax returns.

ALPINE SECURITIES CORPORATION
NOTES TO FINANCIAL STATEMENTS (Continued)

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Significant Accounting Policies (Continued)

Concentration of Credit Risk

The Company maintains its cash in bank deposit accounts which, at times, may exceed federally insured limits. The Company has not experienced any losses in such accounts. The Company believes it is not exposed to any significant credit risk as cash balances are swept daily into a money market account backed by U.S. Government securities.

The Company is engaged in various trading and brokerage activities in which the counterparties are primarily broker-dealers. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 CASH SEGREGATED UNDER FEDERAL AND OTHER REGULATIONS

Cash of \$410,276 has been segregated in a special reserve bank account for the benefit of customers under rule 15c3-3 of the Securities and Exchange Commission (SEC). The reserve is calculated monthly using a formula as defined by the rule. The required reserve at September 30, 2009 was \$313,023.

Cash of \$244,081 has been segregated in a separate bank account for the purpose of returning correspondent property in the event the Company liquidates. The Company is required by the Financial Industry Regulatory Authority (FINRA) to have this reserve as part of the Company's clearing agreement with a correspondent firm. The reserve is calculated coincidental to the Company's SEC rule 15c3-3 computation using a formula as defined by FINRA. The required reserve at September 30, 2009 was \$190,445.

NOTE 3 DEPOSITS WITH CLEARING ORGANIZATION

The Company had deposit requirements with its clearing organizations totaling \$320,000 as of September 30, 2009.

NOTE 4 RECEIVABLE FROM AND PAYABLE TO CUSTOMERS

The customer receivable from and payable to account balances arose from transactions which are recorded on a settlement date basis. Securities owned by customers are held as collateral for receivables.

For purposes of this report, the Company has segregated the employee payable account balance from the customer account receivables and payables.

ALPINE SECURITIES CORPORATION
NOTES TO FINANCIAL STATEMENTS (Continued)

NOTE 5 PAYABLE TO SHAREHOLDERS

Shareholder related payable account balance arose from the ordinary course of business. For regulatory purposes, this account has been segregated into a separate financial statement account.

NOTE 6 RELATED PARTY TRANSACTIONS

The Company rents office space on a month-to-month basis from a related party. Three stockholders of the Company are also owners of the related party company. Rent expense for the year ended September 30, 2009 was \$12,000. The monthly rental at September 30, 2009 was \$1,000.

NOTE 7 NET CAPITAL REQUIREMENTS

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1; and prohibits a broker-dealer from engaging in securities transactions when its net capital falls below minimum requirements as defined by the rule. At September 30, 2009, the Company had net capital (calculated on trade date basis) of \$2,451,837 which was \$2,201,837 in excess of its required net capital of \$250,000. The Company's net capital ratio was .26 to 1.

NOTE 8 FINANCIAL INSTRUMENTS WITH OFF BALANCE SHEET RISK

In the normal course of business, the Company's customer activities involve the execution, settlement, and financing of various customer securities transactions. These activities may expose the Company to off-balance-sheet risk in the event the customer or other broker is unable to fulfill its contracted obligations and the Company has to purchase or sell the financial instrument underlying the contract at a loss.

NOTE 9 AVAILABILITY OF ANNUAL AUDIT REPORT

Pursuant to rule 17a-5 of the Securities and Exchange Commission, the Company's statement of financial condition as of September 30, 2009, is available for examination at the office of the Company in Salt Lake City, Utah and the Securities and Exchange Commission in Denver, Colorado.

NOTE 10 OTHER COMMITMENTS

The Company entered into a five year agreement beginning January, 2008 with another entity for integrated trade execution processing and financial reporting software and support services. Minimum monthly payments to be made by the Company are \$7,500.

The Company has a line of credit with a financial institution with a limit of \$450,000. The line of credit has not been utilized as of September 30, 2009.

ALPINE SECURITIES CORPORATION
NOTES TO FINANCIAL STATEMENTS (Continued)

NOTE 11 FAIR VALUE OF FINANCIAL INSTRUMENTS

SFAS No. 157 defines fair value as the price that would be received to sell an asset or the price paid to transfer a liability in an orderly transaction between market participants at the measurement date. SFAS No. 157 also establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are based on market pricing data obtained from sources independent of the Company. Unobservable inputs reflect management's judgment about the assumptions market participants would use in pricing the asset or liability. The fair value hierarchy includes three levels based on the objectivity of the inputs as follows:

- Level 1 inputs are quoted prices in active markets as of the measurement date for identical assets or liabilities that the Company has the ability to access. This category consists of securities owned and securities sold, not yet purchased.
- Level 2 inputs are inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability. The Company does not have any financial assets or liabilities utilizing Level 2 inputs as of September 30, 2009.
- Level 3 inputs are unobservable inputs for the asset or liability, and include situations where there is little, if any, market activity for the asset or liability. The Company does not have any financial assets or liabilities utilizing Level 3 inputs as of September 30, 2009.

The following table presents the Company's fair value hierarchy as of September 30, 2009 for assets and liabilities measured at fair value:

Description	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:			
Securities owned	\$ 4,650	\$ -	\$ -
Total	\$ 4,650	\$ -	\$ -

Gary K. Keddington, CPA
Brent E. Christensen, CPA
Jeffrey B. Hill, CPA
Gregory B. White, CPA**INDEPENDENT AUDITOR'S
REPORT ON INTERNAL
CONTROL REQUIRED BY SEC RULE
17a-5 OF THE SECURITIES AND
EXCHANGE COMMISSION**Stockholders
Alpine Securities Corporation
Salt Lake City, Utah

In planning and performing our audit of the financial statements of Alpine Securities Corporation (the Company) for the year ended September 30, 2009, in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company, including consideration of control activities for safeguarding securities. This study included tests of compliance with such practices and procedures as we considered relevant to the objectives stated in rule 17a-5(g) in the following:

1. Making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under rule 17a-3(a)(11) and the reserve required by rule 15c3-3(e).
2. Making the quarterly securities examinations, counts, verifications, and comparisons, and the recordation of differences required by rule 17a-13.
3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.
4. Obtaining and maintaining physical possession or control of all fully paid and excess margin securities of customers as required by rule 15c3-3.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls, and of the practices and procedures referred to in the preceding paragraph, and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control and the practices and procedures referred to above, errors or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures, as described in the second paragraph of this report, were adequate at September 30, 2009, to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, and other regulatory agencies that rely on rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.

In accordance with Rule 17a-5(e)(4) under the Securities Exchange Act of 1934, we have performed the procedures enumerated below with respect to the accompanying Schedule of Assessment and Payments to the Securities Investor Protection Corporation (SIPC) for the Year Ended September 30, 2009, which were agreed to by Alpine Securities Corporation. (the Company), the Securities and Exchange Commission, Financial Industry Regulatory Authority, Inc., and SIPC solely to assist you in evaluating the Company's compliance with Rule 17a-5(e)(4). The Company's management is responsible for the Company's compliance with those requirements. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of those parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose. The procedures we performed are as follows:

1. We compared the listed assessment payments with respective cash disbursement records entries noting no exceptions.
2. We compared the amounts reported on the audited Form X-17 A-5 for the year ended September 30, 2009, with the amounts reported in the Transitional Assessment Reconciliation (Form SIPC-7T) for the year ended September 30, 2009. We noted no exceptions.
3. We compared any adjustments reported in Form SIPC-7T with supporting schedules and working papers noting no exceptions.
4. We proved the arithmetical accuracy of the calculations reflected in Form SIPC-7T and in the related schedules and working papers supporting the adjustments noting no exception.

We were not engaged to, and did not conduct an examination, the objective of which would be the expression of an opinion on compliance. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the specified parties listed above and is not intended to be and should not be used by anyone other than the specified parties.
