**Courage. You can call it character.
You can call it determination.
Or you can just call it guts. But courage
changes everything. Ask any rider.
It's the stuff that gives you the confidence
to power forward, seize the road and
live your dream. And it's at the heart of
every hard decision. 2009 was a year
that called on Harley-Davidson to focus
our direction, move boldly and do the
right things to fuel our future.
After all, there's a reason we've been
around 107 years. We know what it
takes to succeed.**

HARLEY-DAVIDSON, INC. 2009 ANNUAL REPORT

COURAGE, FOCUS AND DIRECTION.

DEAR FELLOW SHAREHOLDERS: In the worst economic downturn in decades, 2009 was a year that required Harley-Davidson to respond with tough, courageous decisions.

We had two key priorities. First, we executed on our strategy to manage the business effectively in the near term and address the immediate challenges. But we needed to do more than simply persevere. We needed to establish a bold, clear strategic direction that would maximize our opportunities going forward and restore the Company as a strong business that could consistently grow over the long haul. We set that direction, and the word that best describes our new strategy is “focus.”

We wasted no time in bringing this strategy to life, moving quickly to focus our resources behind the unique strengths and growth potential of the Harley-Davidson brand.

In light of the 2009 landscape and the actions we took, our 2009 financial results were not surprising. Income from continuing operations of \$70.6 million, or \$0.30 per share, decreased 89.7 percent from the prior year, on a 23.1 percent drop in revenue from motorcycles and related products to \$4.29 billion. These results primarily reflect the impact of reduced motorcycle shipments, restructuring and Buell exit costs, and non-cash charges related to Harley-Davidson Financial Services. When the loss from MV Agusta discontinued operations is included, the Company reported a full-year net loss of \$55.1 million. At the same time, even with the decrease in profitability due to the reduction in motorcycle shipments and restructuring spending, the Company’s continuing operations generated \$609 million in cash flow from operating activities in 2009. This speaks well for the ability to generate cash, even in a challenging business environment.

ADDRESSING THE IMMEDIATE CHALLENGES

To address the immediate challenges of 2009 and the deep recession, we decreased Harley-Davidson motorcycle shipments to dealers by nearly 27 percent compared

to 2008. Managing supply in line with demand remains a top priority as a key underpinning of brand strength.

We embarked on a major consolidation and restructuring of our production operations to get our cost structure right at lower volumes.

We also succeeded in obtaining the funding needed to support the lending activities of Harley-Davidson Financial Services—another priority for us in 2009. Our ability to fund motorcycle loans for customers was a key strategic advantage in 2009 and was one of the reasons for our market share growth during the year. As a result of our actions, HDFS is on much stronger footing, and we believe we have provided for its anticipated funding needs for 2010.

STRATEGIC FOCUS

Looking out across a longer horizon, in October we unveiled our long-term “Delivering Results Through Focus” business strategy, with its four pillars: growth, continuous improvement, leadership development and sustainability. As part of this strategy to focus our efforts, we announced we would exit from the Buell product line and sell MV Agusta, focusing our resources on the Harley-Davidson brand, which includes continuing to expand the brand globally.

HIGH-POTENTIAL BRAND

The heart of our strategy is our strong belief that focusing our investment behind the powerful Harley-Davidson brand provides a superior path to tapping the full potential of the brand and to sustained long-term growth. The Harley-Davidson brand consistently ranks among the strongest globally, across many demographic groups. Even in today’s more practical, cautious consumer environment, people of all ages and backgrounds still dream about the Harley-Davidson experience. We see great potential to drive growth globally and in the U.S. through unique products and experiences, both through outreach to new customers and our commitment to core customers.

Our strategy is multi-generational and multi-cultural. It calls for us to grow sales to our core customers, while growing sales to outreach customers at a faster rate. Our Dark Custom products, including the Iron 883, are a strong draw for young adults, and motorcycles like the Street Glide, Tri Glide and Electra Glide Ultra Limited have earned the ongoing commitment of core riders.

In international markets we plan to add 100 to 150 dealer points through 2014, and in the same period increase international retail unit sales to more than 40 percent of total retail unit sales, up from about 33 percent in 2009.

Note regarding forward-looking statements

The Company intends that certain matters discussed by the Company are “forward-looking statements” intended to qualify for the safe harbor from liability established by the Private Securities Litigation Reform Act of 1995. These forward-looking statements can generally be identified as such by reference to this note or because the context of the statement will include words such as the Company “believes,” “anticipates,” “expects,” “plans,” or “estimates” or words of similar meaning. Similarly, statements that describe future plans, objectives, outlooks, targets, guidance or goals are also forward-looking statements. Such forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from those anticipated as of the date of this report. Certain of such risks and uncertainties are described in close proximity to such statements or elsewhere in this report, including under the caption “Risk Factors” in Item 1A of this report and under “Cautionary Statements” in Item 7 of this report. Shareholders, potential investors, and other readers are urged to consider these factors in evaluating the forward-looking statements and cautioned not to place undue reliance on such forward-looking statements. The forward-looking statements included in this report are made as of the date indicated or, if a date is not indicated, as of the date of the filing of this report (February 23, 2010) and the Company disclaims any obligation to publicly update such forward-looking statements to reflect subsequent events or circumstances.

Item 1. Business

Harley-Davidson, Inc. was incorporated in 1981, at which time it purchased the Harley-Davidson® motorcycle business from AMF Incorporated in a management buyout. In 1986, Harley-Davidson, Inc. became publicly held. Unless the context otherwise requires, all references to the “Company” include Harley-Davidson, Inc. and all of its subsidiaries. The Company operates in two segments: the Motorcycles & Related Products (Motorcycles) segment and the Financial Services (Financial Services) segment. The Company’s reportable segments are strategic business units that offer different products and services. They are managed separately based on the fundamental differences in their operations.

The Motorcycles segment designs, manufactures and sells at wholesale primarily heavyweight (engine displacement of 651+cc) touring, custom and performance motorcycles as well as a line of motorcycle parts, accessories, general merchandise and related services. The Company conducts business on a global basis, with sales in North America, Europe/Middle East/Africa, Asia/Pacific and Latin America. The Motorcycles segment includes the Harley-Davidson and Buell product lines. On October 15, 2009 the Company announced that it would exit from the Buell product line.

During 2008, the Company acquired Italian motorcycle manufacturer MV Agusta (MV). The results of MV were included in the Motorcycles segment. On October 15, 2009 the Company announced its intent to divest MV. The Motorcycles segment financial information has been adjusted to reflect MV as a discontinued operation for all periods presented. Please refer to the section titled “Overview” within Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations” for further discussion.

The Motorcycles segment discussion that follows is specific to the Harley-Davidson brand unless otherwise specifically noted.

The Financial Services segment consists of Harley-Davidson Financial Services (HDFS). HDFS provides wholesale and retail financing and, as an agent, provides insurance and insurance-related programs primarily to Harley-Davidson and Buell dealers and their retail customers. HDFS conducts business principally in the United States and Canada.

See Note 21 of Notes to Consolidated Financial Statements for financial information related to the Company’s business segments.

Motorcycles and Related Products

Motorcycles – The primary business of the Motorcycles segment is to design and manufacture premium motorcycles for the heavyweight market and sell them at wholesale. The Company's worldwide motorcycle sales generated approximately 75%, 78% and 79% of the total net revenue in the Motorcycles segment during each of the years 2009, 2008 and 2007, respectively.

Harley-Davidson branded motorcycle products emphasize traditional styling, design simplicity, durability and quality. The Company manufactures five families of motorcycles: Touring, Dyna®, Softail®, Sportster®, and VRSC. The first four of these motorcycle families are powered by an air-cooled, twin-cylinder engine with a 45-degree "V" configuration. The VRSC family is powered by a liquid-cooled, twin-cylinder engine with a 60-degree "V" configuration. The Company's Harley-Davidson engines range in displacement size from 883cc's to 1803cc's.

The total on-highway motorcycle market, including the heavyweight portion of the market, is comprised of the following four segments:

- standard (emphasizes simplicity and cost)
- performance (emphasizes handling and acceleration)
- custom (emphasizes styling and individual owner customization)
- touring (emphasizes comfort and amenities for long-distance travel)

The touring segment of the heavyweight market was pioneered by the Company and includes the Harley-Davidson Touring family of motorcycles, including three-wheeled motorcycles, which are generally equipped with fairings, windshields, saddlebags and/or Tour Pak® luggage carriers. The custom segment of the market includes motorcycles featuring the distinctive styling associated with classic Harley-Davidson motorcycles and includes the Company's Dyna, Softail and VRSC motorcycle families as well as a portion of the motorcycles in the Sportster family. The Company's Sportster family also serves the standard segment of the market.

The worldwide heavyweight motorcycle market is highly competitive. The Company's major competitors are based outside the U.S. In addition to these larger, established competitors, the Company has competitors headquartered in the U.S. These competitors generally offer heavyweight motorcycles with traditional styling that compete directly with many of the Company's products.

Competition in the heavyweight motorcycle market is based upon a number of factors, including price, quality, reliability, styling, product features, customer preference, warranties and availability of financing. In the U.S., suggested retail prices for the Company's Harley-Davidson motorcycles range from being comparable to being moderately higher than suggested retail prices for comparable motorcycles available in the market. The Company believes that its larger-displacement products continue to command a premium price. The Company emphasizes quality, reliability and styling in its products and generally offers a two-year warranty for its motorcycles. The Company regards its support of the motorcycling lifestyle across a wide demographic range in the form of events, rides, rallies including Harley Owners Group® (H.O.G.®) and through the availability of a line of motorcycle parts, accessories, and general merchandise as competitive advantages. Additionally, the Company considers the availability of financing through HDFS as a competitive advantage.

In the U.S., the Company competes most heavily in the touring and custom segments of the heavyweight motorcycle market. According to the Motorcycle Industry Council, these segments accounted for approximately 83%, 84% and 80% of total heavyweight retail unit registrations in the U.S. during 2009, 2008 and 2007, respectively. The larger-displacement custom and touring motorcycles are generally the most profitable for the Company. During 2009, the heavyweight portion of the market represented approximately 58% of the total U.S. motorcycle market (on- and off-highway motorcycles, scooters and three-wheeled motorcycles) in terms of new units registered.

For the last 22 years, Harley-Davidson motorcycles have led the industry in the U.S. for retail unit registrations of new heavyweight motorcycles. The following chart includes U.S. retail registration data for Harley-Davidson motorcycles for the years 2007 through 2009:

U.S. Heavyweight Motorcycle Registration Data^(a)
(Engine Displacement Size of 651+cc)
(Units in thousands)

	<u>2009</u>	<u>2008</u>	<u>2007</u>
Total market new registrations	304.0	479.8	516.1
Harley-Davidson new registrations	162.0	218.2	251.4
	53.3%	45.5%	48.7%

(a) U.S. industry data includes 651+cc models derived from submission of motorcycle retail sales by each major manufacturer to an independent third party. This third party data is subject to revision and update. 2009 and 2008 U.S. industry data includes three-wheeled vehicles. The Company did not ship three-wheeled vehicles until 2008 and does not believe three-wheeled vehicle retail registrations were significant in the U.S. for 2007. The retail registration data for Harley-Davidson motorcycles presented in this table may differ slightly from the Harley-Davidson retail sales data presented in Item 7 of this report. The Company's source for retail sales data in Item 7 of this report is sales and warranty registrations provided by Harley-Davidson dealers as compiled by the Company. The differences are not significant and generally relate to the timing of data submissions to the independent sources.

The European heavyweight motorcycle market (as defined below) is similar in size to the U.S. market; but, customer preferences vary across the region. For example, in Europe, the performance segment represented nearly 45% of the total heavyweight market in 2009 compared to approximately 15% in the U.S. Touring motorcycles popular in the U.S. represented less than 10% of the European heavyweight motorcycle market. The Company's traditional Harley-Davidson products compete primarily in the custom and touring segments. In addition, the Company offers products to compete in the standard and performance segments with motorcycles such as Harley-Davidson's XR1200™ and Nightster®.

The following chart includes European retail registration data for Harley-Davidson for the years 2007 through 2009:

European Heavyweight Motorcycle Registration Data^(a)
(Engine Displacement Size of 651+cc)
(Units in thousands)

	<u>2009</u>	<u>2008</u>	<u>2007</u>
Total market new registrations	313.6	389.7	387.9
Harley-Davidson new registrations	37.7	41.1	38.7
	12.0%	10.6%	10.0%

(a) Europe data includes retail sales in Austria, Belgium, Denmark, Finland, France, Germany, Greece, Italy, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland, and the United Kingdom. The Company derives its market registration data and market share calculations presented above from information provided by Giral S.A., an independent agency. This third party data is subject to revision and update. Europe industry data includes three-wheeled vehicles for all periods presented. The retail registration data for Harley-Davidson motorcycles presented in this table may differ slightly from the Harley-Davidson retail sales data presented in Item 7 of this report. The Company's source for retail sales data in Item 7 of this report is sales and warranty registrations provided by Harley-Davidson dealers as compiled by the Company. The differences are not significant and generally relate to the timing of data submissions to the independent sources.

The Company also competes in several other markets around the world. Based on Company data, the most significant of these markets in terms of volume are Canada, Japan, Australia and Brazil. In Canada, the Company's market share based on registrations was 39.1%, 41.9% and 39.0% during 2009, 2008 and 2007,

respectively (Source: Moped and Motorcycle Industry of Canada). Market share information for the remaining international markets has not been presented because the Company does not believe that definitive and reliable registration data is available at this time.

Parts & Accessories – Parts and Accessories (P&A) products are comprised of replacement parts (Genuine Motor Parts) and mechanical and cosmetic accessories (Genuine Motor Accessories). Worldwide P&A net revenue comprised 17.9%, 15.4% and 15.2% of net revenue in the Motorcycles segment in 2009, 2008 and 2007, respectively.

General Merchandise – Worldwide General Merchandise net revenue, which includes revenue from MotorClothes® apparel and accessories, comprised 6.6%, 5.6% and 5.3% of net revenue in the Motorcycles segment in 2009, 2008 and 2007, respectively.

Licensing – The Company creates an awareness of the Harley-Davidson brand among its customers and the non-riding public through a wide range of products for enthusiasts by licensing the name “Harley-Davidson” and other trademarks owned by the Company. The Company’s licensed products include t-shirts, vehicle and vehicle accessories, jewelry, small leather goods, toys and numerous other products. Although the majority of licensing activity occurs in the U.S., the Company continues to expand these activities in international markets. Royalty revenues from licensing, included in Motorcycles segment net revenue, were \$38.3 million, \$45.4 million and \$46.0 million in 2009, 2008 and 2007, respectively.

Harley-Davidson Museum – In 2008, the Company opened the Harley-Davidson Museum in Milwaukee, Wisconsin. The Museum is a unique experience that the Company believes builds and strengthens bonds between riders and the Company and enhances the brand among the public at large. The 130,000 square foot facility houses the Harley-Davidson Museum and Archives, a restaurant, café, retail store and special event space. The Museum gives the Company a new way to create memories for customers – through visiting, planning rides and hosting special events at the Museum.

Other Services – The Company also provides a variety of services to its independent dealers including service and business management training programs, customized dealer software packages and delivery of its motorcycles. Motorcycle rental and tour programs are available through the Company’s independent dealers.

International Sales – The Company’s revenue from the sale of motorcycles and related products to independent dealers and distributors located outside of the United States was approximately \$1.38 billion, \$1.73 billion and \$1.52 billion, or approximately 32%, 31% and 27% of net revenue of the Motorcycles segment, during 2009, 2008 and 2007, respectively.

Patents and Trademarks – The Company strategically manages its portfolio of patents, trade secrets, copyrights, trademarks and other intellectual property.

The Company and its subsidiaries own, and continue to obtain, patent rights that relate to its motorcycles and related products and processes for their production. Certain technology-related intellectual property is also protected, where appropriate, by license agreements, confidentiality agreements or other agreements with suppliers, employees and other third parties. The Company diligently protects its intellectual property, including patents and trade secrets, and its rights to innovative and proprietary technology. This protection, including enforcement, is important as the Company moves forward with investments in new products, designs and technologies. While the Company believes patents are important to its business operations and in the aggregate constitute a valuable asset, the success of the business is not dependent on any one patent or group of patents. The Company’s active patent portfolio has an average age for patents of approximately seven years. A patent review committee, which is comprised of a number of key executives, manages the patent strategy and portfolio of the Company.

Trademarks are important to the Company's motorcycle business and licensing activities. The Company has a vigorous worldwide program of trademark registration and enforcement to maintain and strengthen the value of the trademarks and prevent the unauthorized use of those trademarks. The HARLEY-DAVIDSON trademark and the Bar and Shield trademark are each highly recognizable to the public and are very valuable assets. The Company also owns the BUELL trademark and the trademark portfolio of MV which includes the MV AGUSTA and CAGIVA trademarks. Additionally, the Company uses numerous other trademarks, trade names and logos which are registered worldwide. The following are among the Company's trademarks: HARLEY-DAVIDSON, H-D, HARLEY, the Bar & Shield Logo, MOTORCLOTHES, the MotorClothes Logo, RIDER'S EDGE, HARLEY OWNERS GROUP, H.O.G., the H.O.G. Logo, SOFTAIL, SPORTSTER, V-ROD, BUELL and the Pegasus Logo. The HARLEY-DAVIDSON trademark has been used since 1903 and the Bar and Shield trademark since at least 1910. The BUELL trademark has been used since 1984. With the exception of the MV Agusta trademarks, substantially all of the Company's trademarks are owned by H-D Michigan, LLC, a subsidiary of the Company, which also manages the Company's trademark strategy and portfolio. The MV Agusta trademarks are presently owned by MV Agusta Motor S.p.A.

Marketing – The Company's products are marketed to retail customers primarily through promotions, customer events and advertising through national television, print, radio and direct mailings, as well as electronic advertising. Additionally, regional marketing efforts are accomplished through a cooperative program with its independent dealers. The Company also sponsors racing activities and special promotional events and participates in many major motorcycle consumer shows and rallies.

On an ongoing basis, the Company promotes its Harley-Davidson products and the related lifestyle through H.O.G., which has approximately 1.1 million members worldwide and the Company believes is the industry's largest company-sponsored motorcycle enthusiast organization. The Company formed H.O.G. in 1983 in an effort to encourage Harley-Davidson owners to become more actively involved in the sport of motorcycling. This group also sponsors many motorcycle events, including rallies and rides for Harley-Davidson motorcycle enthusiasts throughout the world.

In 2000, Rider's Edge – the Harley-Davidson Academy of Motorcycling was formed. Rider's Edge offers a series of rider education experiences that provide both new and experienced riders with deeper engagement in the sport of motorcycling by teaching basic and advanced motorcycling skills and knowledge in a way that is fun and involving. The courses are conducted by a network of select Harley-Davidson dealerships throughout the U.S. enabling students to experience the Harley-Davidson lifestyle, environment, people, and products as they learn.

The Company website (www.harley-davidson.com) is also utilized to market its products and services. The website features an online catalog which allows retail customers to create and share product wish lists, utilize a dealer locator and place catalog orders. Internet orders are sold and fulfilled by the participating authorized Harley-Davidson dealer selected by the retail customer. Dealers also handle any after-sale services that retail customers may require.

U.S. retail purchasers of new Harley-Davidson motorcycles include both core and outreach customers and are diverse in terms of age, gender and ethnicity and the Company has a multi-generational and multi-cultural marketing strategy. The Company defines its core customer base as men over the age of 35 and its outreach customers as women, young adults and ethnically diverse adults. The average U.S. retail purchaser of a new Harley-Davidson motorcycle has a median household income of approximately \$85,000. More than three-quarters of the U.S. retail sales of new Harley-Davidson motorcycles are to purchasers with at least one year of education beyond high school and 34% of the buyers have college/graduate degrees. The Company measures the success of its marketing strategy by internally monitoring market shares across its various customer definitions. (Sources: 2009 Company Studies)

Harley-Davidson and Buell Distribution – The Company's independent dealerships stock and sell the Company's motorcycles, P&A, general merchandise and licensed products, and perform service for the Company's motorcycles. The Company's independent dealers also sell a smaller portion of P&A, general merchandise and licensed products through “non-traditional” retail outlets. The “non-traditional” outlets, which are extensions of the

main dealership, consist of Secondary Retail Locations (SRLs), Alternate Retail Outlets (AROs), and Seasonal Retail Outlets (SROs). SRLs are satellites of the main dealership and are developed to meet additional retail and service needs of the Company's riding customers. SRLs also provide P&A, general merchandise and licensed products and are authorized to sell and service new motorcycles. AROs are located primarily in high traffic locations such as malls, airports or popular vacation destinations and focus on selling the Company's general merchandise and licensed products. SROs are located in similar high traffic areas, but operate on a seasonal basis out of temporary locations such as vendor kiosks. AROs and SROs are not authorized to sell new motorcycles.

The Company's North American region consists of the United States and Canada. In the United States, the Company distributes its motorcycles and related products to a network of independently-owned full-service Harley-Davidson dealerships and the Overseas Military Sales Corporation, an entity that retails the Company's products to members of the U.S. military. The Company distributes its motorcycles to its dealers in the U.S. based on dealer orders but subject to an allocation system that was designed to be forward-looking and market-driven in order to align the distribution of motorcycles with the demand in individual dealer markets. The allocation system can affect the number of units of particular models that dealers are able to order and the timing of shipments to dealers. In Canada, the Company sells its motorcycles and related products at wholesale to a single independent distributor, Deeley Harley-Davidson Canada/Fred Deeley Imports Ltd., which in turn sells to independent dealers in the Canadian market.

In the European region (consisting of Europe, the Middle East and Africa), the Company distributes all products sold to independent dealers or distributors through its subsidiary located in Oxford, England, or through one of its sales offices in the United Kingdom, France, Germany, Italy, Netherlands, Spain, Switzerland, Czech Republic or South Africa.

In the Asia Pacific region, the Company distributes all products sold to independent dealers in Japan and Australia through Company-owned subsidiaries in those countries, and the Company distributes all products sold to independent dealers and distributors for the remaining Asia Pacific markets in which its motorcycles are sold from its U.S. operations.

The Company distributes all products sold in the Latin America region to independent dealers and distributors in Mexico and Brazil through Company-owned subsidiaries in those countries, and the Company distributes all products sold to independent dealers for the remaining Latin American markets in which its motorcycles are sold from its U.S. operations.

The following table includes the number of worldwide Harley-Davidson and Buell independent dealers by geographic region:

	<u>North America Region</u>		<u>Europe Region</u>	<u>Asia Pacific Region</u>	<u>Latin America Region</u>
	<u>United States</u>	<u>Canada</u>			
Independent Distributors	—	1	3	—	—
Full Service Dealerships:					
HD only	389	25	52	110	16
Buell only	—	—	2	2	—
HD and Buell	<u>282</u>	<u>46</u>	<u>315</u>	<u>86</u>	<u>18</u>
	<u>671</u>	<u>71</u>	<u>369</u>	<u>198</u>	<u>34</u>
Non-traditional:					
SRL	87	3	2	4	6
ARO	83	5	8	6	15
SRO	<u>10</u>	<u>1</u>	<u>—</u>	<u>—</u>	<u>1</u>
	<u>180</u>	<u>9</u>	<u>10</u>	<u>10</u>	<u>22</u>

The majority of the Company's independent dealerships sell Harley-Davidson and Buell motorcycles exclusively. The Company expects the majority of the dealer network will continue to sell new Buell motorcycles into 2010 and provide ongoing service and replacement parts to Buell owners.

Overall, the Company believes the U.S. dealer network continues to remain profitable through dealers actively managing their expense structures despite pressure from a tough U.S. economy. During 2009, 28 dealer points in the U.S. dealer network closed, and the Company expects additional dealer points to close during 2010. Outside of the U.S., the Company's strategy calls for the international dealer network to expand by 100 to 150 dealer points by 2014.

MV Distribution – MV distributes its motorcycles and P&A to independent dealers primarily through subsidiaries located in Germany, Switzerland and the U.S. In Italy and France, MV distributes its products to independent dealers directly. All independent dealers also generally sell competitors' brands.

Seasonality – The timing of retail sales made by the Company's independent dealers tracks closely with regional riding seasons. The seasonality of wholesale shipments made by the Company is different depending on the geographic market.

The Company's independent dealers in the U.S. and Canadian markets typically build their inventory levels in the late fall and winter in anticipation of the spring and summer selling seasons. The availability of floor plan financing and financing assistance through HDFFS allows dealers to manage these seasonal increases in inventory. In the U.S., seasonal financing assistance is subsidized by the Company, and in Canada, seasonal financing assistance is sponsored by the region's single independent distributor, Deeley Harley-Davidson Canada/Fred Deeley Imports Ltd. As a result, the Company's wholesale shipments to these markets have historically not been affected to any material extent by seasonality.

In the majority of the remaining international markets, the Company's wholesale shipments track more closely with regional riding seasons. In general, the Company's independent dealers and distributors in these international markets do not build inventory levels in the non-riding seasons, and as a result, the Company's wholesale shipments to these markets are generally lower in the non-riding seasons than in the riding seasons.

The seasonality of the Company's wholesale shipments to markets outside the U.S. and Canada affects its ability to produce on a level scale throughout the year. The Company generally carries higher finished goods inventory levels during non-riding seasons outside of the U.S. and Canada in order to mitigate the effect of a more seasonal wholesale shipment pattern on production.

Retail Customer and Dealer Financing – The Company believes that HDFFS, as well as other financial services companies, provide adequate financing to Harley-Davidson and Buell independent distributors, dealers and their retail customers. HDFFS provides financing to the Company's Canadian distributor, Harley-Davidson and Buell independent dealers and to the retail customers of those dealers in the U.S. and Canada. The Company's independent distributors, dealers and their retail customers in the Europe, Asia/Pacific and Latin America regions are not serviced by HDFFS, but have access to financing through other established financial services companies.

Motorcycle Manufacturing – The Company's manufacturing strategy is designed to continuously improve product quality, increase productivity, reduce costs and increase flexibility to respond to changes in the marketplace. Several methods are employed to drive the Company's strategy, including lean manufacturing principles, supplier and employee engagement, flexible processes and optimized manufacturing footprint.

The Company recognizes that getting the right product at the right time to the customer is paramount. The Company believes flexible manufacturing, including flexible supply chains and flexible labor agreements, is the key element to enable improvements in the Company's ability to respond to customers in a cost effective manner. In order to competitively deliver products to customers worldwide, the Company is undertaking measures to restructure current operations and add capabilities that will support our global growth.

Raw Material and Purchased Components – The Company continues to establish and reinforce long-term, mutually beneficial relationships with its suppliers. Through these collaborative relationships, the Company gains access to technical and commercial resources for application directly to product design, development and manufacturing initiatives. This strategy has generated improved product quality, technical integrity, application of new features and innovations and faster manufacturing ramp-up of new vehicle introductions. The Company's continuing initiative to improve supplier productivity has been instrumental in delivering improvement in product cost. Through a continued focus on collaboration and strong supplier relationships, the Company believes it will be positioned to achieve strategic objectives and deliver cost improvement over the long-term.

The Company purchases all of its raw materials, principally steel and aluminum castings, forgings, steel sheets and bars, and certain motorcycle components, including electronic fuel injection systems, batteries, tires, seats, electrical components and instruments. Given the current economic conditions, and pressure on certain suppliers due to difficulties in the automotive industry and U.S. manufacturing sector in general, the Company is closely monitoring the overall viability of its supply base. However, at this time, the Company does not anticipate any difficulties in obtaining raw materials or components.

Research and Development – The Company believes research and development are significant factors in its ability to lead the custom and touring motorcycling markets. The Company's Harley-Davidson Product Development Center (PDC) brings employees from styling, purchasing and manufacturing together with regulatory professionals and supplier representatives to create a concurrent product and process development team. The Company incurred research and development expenses of \$143.1 million, \$163.5 million and \$185.5 million during 2009, 2008 and 2007, respectively.

Regulation – International, federal, state and local authorities have various environmental control requirements relating to air, water and noise pollution that affect the business and operations of the Company. The Company strives to ensure that its facilities and products comply with all applicable environmental regulations and standards.

The Company's motorcycles that are sold in the United States are subject to certification by the U.S. Environmental Protection Agency (EPA) for compliance with applicable emissions and noise standards and by the State of California Air Resources Board (CARB) with respect to CARB's more stringent emissions standards. Company motorcycles sold in California are also subject to evaporative emissions standards that are unique to California. The Company's motorcycle products have been designed to comply fully with all such applicable standards. The EPA has finalized new tail pipe emission standards for 2006 and 2010, respectively, which are harmonized with the California emissions standards. Harley-Davidson motorcycle products have been designed to comply with the new EPA standards and the Company believes it will comply with future requirements when they go into effect. Additionally, the Company's motorcycle products must and do in fact comply with the motorcycle emissions, noise and safety standards of the European Union, Japan and certain other foreign markets where they are sold. Because the Company expects that environmental standards will become even more stringent over time, the Company will continue to incur some level of research, development and production costs in this area for the foreseeable future.

The Company, as a manufacturer of motorcycle products, is subject to the U.S. National Traffic and Motor Vehicle Safety Act, which is administered by the U.S. National Highway Traffic Safety Administration (NHTSA). The Company has certified to NHTSA that its motorcycle products comply fully with all applicable federal motor vehicle safety standards and related regulations. The Company has from time to time initiated certain voluntary recalls. During the last three years, the Company has initiated 14 voluntary recalls related to Harley-Davidson motorcycles at a total cost of \$11.7 million. The Company reserves for all estimated costs associated with recalls in the period that the recalls are announced.

Employees – As of December 31, 2009, the Motorcycles segment had approximately 7,300 employees. Unionized employees at the motorcycle manufacturing facilities in Wauwatosa and Menomonee Falls, Wisconsin

and Kansas City, Missouri are represented by the United Steelworkers of America (USW), as well as the International Association of Machinist and Aerospace Workers (IAM). Unionized employees at the distribution and manufacturing facilities in Franklin and Tomahawk, Wisconsin are represented by the USW. Production workers at the motorcycle manufacturing facility in York, Pennsylvania are represented by the IAM. The collective bargaining agreement with the Wisconsin-USW and IAM will expire on March 31, 2012, the collective bargaining agreement with the Kansas City-USW and IAM will expire on July 29, 2012, and the collective bargaining agreement with the Pennsylvania-IAM will expire on February 2, 2017. Please refer to the Overview section of Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" for further discussion of the Company's restructuring activities and the impact on the number of employees.

Internet Access – The Company's internet website address is www.harley-davidson.com. The Company makes available free of charge (other than an investor's own internet access charges) through its internet website the Company's Annual Report on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K, and amendments to those reports, as soon as reasonably practicable after it electronically files such material with, or furnishes such material to, the United States Securities and Exchange Commission. In addition, the Company makes available, through its website, the following corporate governance materials: (a) the Company's Corporate Governance Policy; (b) Committee Charters approved by the Company's Board of Directors for the Audit Committee, Human Resources Committee and Nominating and Corporate Governance Committee; (c) the Company's Financial Code of Ethics; (d) the Company's Code of Business Conduct (the Code of Conduct) in eight languages including English; (e) the Conflict of Interest Process for Directors, Executive Officers and Other Employees (the Conflict Process); (f) a list of the Company's Board of Directors; (g) the Company's By-laws; (h) the Harley-Davidson Environmental Policy; (i) the Company's Policy for Managing Disclosure of Material Information; (j) the Company's Supplier Code of Conduct; and (k) the Sustainability Strategy Report. This information is also available from the Company upon request. The Company satisfies the disclosure requirements under the Code of Conduct, the Conflict Process and applicable New York Stock Exchange listing requirements regarding waivers of the Code of Conduct or the Conflict Process by disclosing the information in the Company's proxy statement for its annual meeting of shareholders or on the Company's website. The Company is not including the information contained on or available through its website as a part of, or incorporating such information by reference into, this Annual Report on Form 10-K.

Financial Services

HDFS is engaged in the business of financing and servicing wholesale inventory receivables and retail consumer loans, primarily for the purchase of Harley-Davidson and Buell motorcycles. HDFS is an agent for certain unaffiliated insurance carriers providing property/casualty insurance and also sells extended service contracts, gap coverage and debt protection products to motorcycle owners. HDFS conducts business principally in the United States and Canada.

Wholesale Financial Services – HDFS provides wholesale financial services to Harley-Davidson and Buell motorcycle dealers, including floorplan and open account financing of motorcycles and motorcycle parts and accessories. HDFS offers wholesale financial services to Harley-Davidson and Buell motorcycle dealers in the United States and Canada, and during 2009 approximately 94% of such dealers utilized those services. The wholesale finance operations of HDFS are located in Plano, Texas.

Retail Financial Services – HDFS provides retail financing to consumers, including installment lending for the purchase of new and used Harley-Davidson and Buell motorcycles. HDFS' retail financial services are available through most Harley-Davidson and Buell motorcycle dealers in the United States and Canada. HDFS' retail finance operations are principally located in Carson City, Nevada and Plano, Texas.

Insurance Services – HDFS is an agent for the sale of motorcycle insurance policies. In the U.S., HDFS also offers motorcycle insurance, extended service contracts, gap coverage and debt protection products through most Harley-Davidson and Buell motorcycle dealers. In Canada, HDFS offers primarily extended service contracts

through most Harley-Davidson and Buell motorcycle dealers. Motorcycle insurance that HDFS offers on behalf of multiple carriers is also marketed on a direct basis to motorcycle riders. HDFS insurance operations are principally located in Carson City, Nevada and Plano, Texas.

Funding – The Company believes a diversified and cost effective funding base are important to meet HDFS’ goal of providing credit while delivering appropriate returns and profitability. During 2009, the Financial Services operations were funded with unsecured debt, unsecured commercial paper, an asset-backed commercial paper conduit facility, and committed unsecured bank facilities and through the term asset-backed securitization market. HDFS also has a support agreement with the Company whereby, if required, the Company agrees to provide financial support in the form of advances and/or loans. Please refer to the section titled “Liquidity and Capital Resources as of December 31, 2009” within Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations” for further discussion.

Competition – The Company regards its ability to offer a package of wholesale and retail financial services in the U.S. and Canada as a significant competitive advantage. Competitors in the financial services industry compete for business based largely on price and, to a lesser extent, service. HDFS competes based on convenience, service, brand association, dealer relations, industry experience, terms and price.

In the United States, HDFS financed 48.8% of the new Harley-Davidson motorcycles retailed by independent dealers during 2009, as compared to 53.5% in 2008. In Canada, HDFS financed 33.2% of the new Harley-Davidson motorcycles retailed by independent dealers during 2009, as compared to 35.6% in 2008. Competitors for retail motorcycle finance business are primarily banks, credit unions and other financial institutions. In the motorcycle insurance business, competition primarily comes from national insurance companies and from insurance agencies serving local or regional markets. For insurance-related products such as extended service contracts, HDFS faces competition from certain regional and national industry participants as well as dealer in-house programs.

Competition for the wholesale motorcycle finance business primarily consists of banks and other financial institutions providing wholesale financing to Harley-Davidson and Buell motorcycle dealers in their local markets.

Trademarks – HDFS uses various trademarks and trade names for its financial services and products which are licensed from H-D Michigan, LLC, including HARLEY-DAVIDSON, H-D and the Bar & Shield logo.

Seasonality – In the U.S. and Canada, motorcycles are primarily used during warmer months. Accordingly, HDFS experiences seasonal variations. In general, from mid-March through August, retail financing volume increases while wholesale financing volume decreases as dealer inventories decline. From September through mid-March, there is generally a decrease in retail financing volume while dealer inventories generally build and turn over more slowly, substantially increasing wholesale finance receivables.

Regulation – The operations of HDFS (both U.S. and foreign) are subject, in certain instances, to supervision and regulation by state and federal administrative agencies and various foreign governmental authorities. Many of the statutory and regulatory requirements imposed by such entities are in place to provide consumer protection as it pertains to the selling of financial products and services. Therefore, operations may be subject to various regulations, laws and judicial and/or administrative decisions imposing requirements and restrictions, which among other things: (1) regulate credit granting activities, including establishing licensing requirements, in applicable jurisdictions; (2) establish maximum interest rates, finance charges and other charges; (3) regulate customers’ insurance coverage; (4) require disclosure of credit and insurance terms to customers; (5) govern secured transactions; (6) set collection, foreclosure, repossession and claims handling procedures and other trade practices; (7) prohibit discrimination in the extension of credit and administration of loans; (8) regulate the use and reporting of information related to a borrower; (9) require certain periodic reporting; (10) govern the use and protection of non-public personal information; and/or (11) regulate insurance solicitation and sales practices.

Depending on the provisions of the applicable laws and regulations, the interpretation of laws and regulations and the specific facts and circumstances involved, violations of or non-compliance with these laws may limit the ability of HDFS to collect all or part of the principal or interest on applicable loans, may entitle the borrower to rescind the loan or to obtain a refund of amounts previously paid, could subject HDFS to the payment of damages or penalties and administrative sanctions, including “cease and desist” orders, and could limit the number of loans eligible for HDFS securitization programs.

Such regulatory requirements and associated supervision could limit the discretion of HDFS in operating its business. Noncompliance with applicable statutes or regulations could result in the suspension or revocation of any charter, license or registration at issue, as well as the imposition of civil fines, criminal penalties and administrative sanctions. The Company cannot assure that the applicable laws or regulations will not be amended or construed differently, that new laws and regulations will not be adopted or that interest rates charged by HDFS will not rise to maximum levels permitted by law, the effect of any of which could be to adversely affect the business of HDFS or its results of operations.

A subsidiary of HDFS, Eaglemark Savings Bank (ESB), is a Nevada state thrift chartered as an Industrial Loan Company (ILC). As such, the activities of this subsidiary are governed by federal regulations and State of Nevada banking laws and are subject to examination by the Federal Deposit Insurance Corporation (FDIC) and Nevada state bank examiners. ESB originates retail loans and sells the loans to a non-banking subsidiary of HDFS. This process allows HDFS to offer retail products with many common characteristics across the United States and to similarly service loans to U.S. retail customers.

Employees – As of December 31, 2009, the Financial Services segment had approximately 600 employees.

Item 1A. Risk Factors

An investment in Harley-Davidson, Inc. involves risks, including those discussed below. These risk factors should be considered carefully before deciding whether to invest in the Company.

- **The Company may not be able to successfully execute its new long-term business strategy.** The Company may not be able to successfully execute the long-term business strategy that the Company announced on October 15, 2009. If the Company is not able, on a timely and cost effective basis, to successfully exit certain product lines and divest certain company assets as part of the strategy, the result could be increased costs and diversion of management attention from its focus. In addition, there is no assurance that the Company will be able to drive growth to the extent desired through its focus of efforts and resources on the Harley-Davidson brand or to enhance productivity and profitability to the extent desired through continuous improvement.
- **Expanding international sales subjects the Company to risks that may have a material adverse effect on its business.** Expanding international sales is a part of the Company’s long-term business strategy. International operations and sales are subject to various risks, including political and economic instability, local labor market conditions, the imposition of foreign tariffs and other trade barriers, the impact of foreign government regulations and the effects of income and withholding taxes, governmental expropriation and differences in business practices. The Company may incur increased costs and experience delays or disruptions in product deliveries and payments in connection with international operations and sales that could cause loss of revenues and earnings. Unfavorable changes in the political, regulatory and business climate could have a material adverse effect on the Company’s net sales, financial condition, profitability or cash flows.
- **The Company must effectively execute the Company’s restructuring plans within expected costs.** During 2009, the Company announced a combination of restructuring actions that are designed to reduce excess capacity, exit non-core business operations and lower the Company’s cost structure. Effectively executing these plans within expected costs and realizing expected benefits will depend upon a number of factors, including the time required to complete planned actions, effective

collaboration and agreement with the unions representing the Company's employees, the absence of material issues associated with workforce reductions, availability of and effective use of third party service providers to assist in implementing the actions, avoidance of unexpected disruptions in production, retention of key employees involved in implementing the restructuring plans and the ability of the Company to sell or lease vacated facilities.

- **The Company sells its products at wholesale and must rely on a network of independent dealers and distributors to manage the retail distribution of its products.** The Company depends on the capability of its independent dealers and distributors to develop and implement effective retail sales plans to create demand among retail purchasers for the motorcycles and related products and services that the dealers and distributors purchase from the Company. If the Company's independent dealers and distributors are not successful in these endeavors, then the Company will be unable to maintain or grow its revenues and meet its financial expectations. Further, independent dealers and distributors may experience difficulty in funding their day-to-day cash flow needs and paying their obligations because of weakened retail sales and tightening credit. If dealers are unsuccessful, they may exit or be forced to exit the business or, in some cases, the Company may seek to terminate relationships with certain dealerships. As a result, the Company could face additional adverse consequences related to the termination of dealer relationships. Additionally, liquidating a former dealer's inventory of new and used motorcycles can add downward pressure on new and used motorcycle prices. Further, the unplanned loss of any of the Company's independent dealers may lead to inadequate market coverage for retail sales of new motorcycles and for servicing previously sold motorcycles, create negative impressions of the Company with its retail customers, and adversely impact the Company's ability to collect wholesale receivables that are associated with that dealer.
- **The Company's dealers may experience a further decline in retail sales resulting from general economic conditions, tightening of credit, political events or other factors.** The motorcycle industry has been affected by general economic conditions over which motorcycle manufacturers have little control. These factors have caused a weaker retail environment leading to weaker demand for discretionary purchases, and the decision to purchase a motorcycle has been and may continue to be affected by these factors. The related tightening of credit has led to more limited availability of funds from financial institutions and other lenders and sources of capital which has adversely affected and could continue to adversely affect the ability of retail consumers to obtain loans for the purchase of motorcycles from lenders, including HDFFS. Should general economic conditions or motorcycle industry demand continue to decline, our results of operations and financial condition may be further substantially adversely affected. The motorcycle industry can also be affected by political conditions and other factors over which motorcycle manufacturers have little control.
- **The Company's dealers may experience a further decline in retail sales resulting from declining prices for used motorcycles and excess supplies of new motorcycles.** The Company has observed that prices for used Harley-Davidson motorcycles have declined in recent years, which has had and may continue to have the effect of reducing demand among retail purchasers for new Harley-Davidson motorcycles (at manufacturer's suggested retail prices). Also, while the Company has taken steps designed to reduce production of its new motorcycles in an effort to keep supply in line with demand, the Company's competitors could choose to supply additional new motorcycles to the market at reduced prices which could also have the effect of reducing demand for new Harley-Davidson motorcycles (at manufacturer's suggested retail prices). Ultimately, reduced demand among retail purchasers for new Harley-Davidson motorcycles leads to reduced shipments by the Company.
- **The Company may not be able to successfully execute its manufacturing strategy.** The Company's manufacturing strategy is designed to continuously improve product quality, increase productivity, reduce costs and increase flexibility to respond to changes in the marketplace. The Company believes flexible manufacturing, including flexible supply chains and flexible labor agreements, is the key element to enable improvements in the Company's ability to respond to customers in a cost effective manner. To implement this strategy, the Company must be successful in its continuous improvement

efforts which are dependent on the involvement of management, production employees and suppliers. Any inability to achieve these objectives could adversely impact the profitability of the Company's products and its ability to deliver the right product at the right time to the customer.

- **The Company and its independent dealers must balance the economies of level production with a more seasonal retail sales pattern.** The Company generally records the sale of a motorcycle when it is shipped to the Company's independent dealers and distributors. In the past few years, increased availability of Harley-Davidson motorcycles has resulted in the timing of retail purchases tracking more closely with regional motorcycle riding seasons. The seasonality of the Company's wholesale shipments affects its ability to continue to maintain relatively level production, inventories and shipments throughout the year. As a result, the Company and its independent dealers and distributors must balance the economies of level production with the inventory and other costs associated with a more seasonal retail sales pattern. Failure to balance the two, or any failure of the Company to adequately adjust its methods of distributing motorcycles among its independent dealers and distributors, may have a material adverse effect on the Company's business and results of operations.
- **The Company relies on third party suppliers to obtain raw materials and provide component parts for use in the manufacture of its motorcycles.** The Company cannot be certain that it will not experience supply problems such as unfavorable pricing or untimely delivery of raw materials and components. In certain circumstances, the Company relies on a single supplier to provide the entire requirement of a specific part, and a change in this established supply relationship may cause disruption in the Company's production schedule. In addition, the price and availability of raw materials and component parts from suppliers can be adversely affected by factors outside of the Company's control such as the supply of a necessary raw material. Further, Company suppliers may experience difficulty due to financial market disruption in funding their day-to-day cash flow needs because of tightening credit, and those suppliers who also serve the automotive industry may be experiencing financial difficulties due to a downturn in that industry, which could adversely affect their ability to supply the Company. These supplier risks may have a material adverse effect on the Company's business and results of operations.
- **Government actions to stabilize credit markets in 2009 are scheduled to end in 2010 which could have a negative impact on capital markets.** In 2009, the U.S. Government enacted legislation and created several programs to help stabilize credit markets and financial institutions and restore liquidity, including the Federal Reserve's Commercial Paper Funding Facility (CPFF) and the Federal Reserve Bank of New York's Term Asset-backed securities Loan Facility (TALF) program, both of which are scheduled to expire in 2010. The expiration of these programs could have a negative impact on capital markets and limit the Company's access to capital market funding. These negative consequences may in turn adversely affect the Company's business and results of operations in various ways, including through higher costs of capital, reduced funds available through its financial services operations to provide loans to independent dealers and their retail customers, and dilution to existing shareholders through the use of alternative sources of capital.
- **The Company's financial services operations rely on external sources to finance a significant portion of its operations.** Liquidity is essential to the Company's financial services business. The disruptions in the financial markets since 2008 have caused many lenders and institutional investors to reduce and, in some cases, cease to loan money to borrowers including financial institutions. The disruption has affected and could continue to affect the Company's choice of financing sources and its ability to raise capital on favorable terms or at all.

The Company's financial services operations may be negatively affected by the difficulty in raising funding in the long-term and short-term capital markets. These negative consequences may in turn adversely affect the Company's business and results of operations in various ways, including through higher costs of capital, reduced funds available through its financial services operations to provide loans to independent dealers and their retail customers, and dilution to existing shareholders through the use of alternative sources of capital.

- **The Company's financial services operations are highly dependent on accessing capital markets to fund their operations at competitive interest rates, the Company's access to capital and its cost of capital are highly dependent upon its credit ratings, and any negative credit rating actions will adversely affect its earnings and results of operations.** The ability of the Company and its financial services operations to access unsecured capital markets is influenced by their short-term and long-term credit ratings. If the Company's credit ratings are downgraded or its ratings outlook is negatively changed, the Company's cost of borrowing will increase, resulting in reduced earnings and interest margins, or the Company's access to capital may be disrupted or impaired.
- **The Company's financial services operations are exposed to credit risk on its retail and wholesale receivables.** Credit risk is the risk of loss arising from a failure by a customer to meet the terms of any contract with the Company's financial services operations. Credit losses are influenced by general business and economic conditions, including unemployment rates, bankruptcy filings and other factors that negatively affect household incomes, as well as contract terms, customer credit profiles and the new and used motorcycle market. The market turmoil since 2008 has resulted in the tightening of credit, a lack of consumer confidence, unemployment and increased market volatility, all of which have led to an increased level of commercial and consumer delinquencies. The Company's financial services operations had higher retail receivables outstanding during 2009 as compared to 2008, due to a reduction in off-balance sheet term asset-backed securitization activity throughout 2008 and the utilization of on-balance sheet term asset-backed securitizations during 2009, and therefore retained increased on-balance sheet credit risk from retail receivables. Further negative changes in general business, economic or market factors may have an additional adverse impact on the Company's financial services credit losses and future earnings. For example, the Company's financial services operations conduct business primarily in the United States and, as a result of recessionary conditions in the United States economy, delinquencies on receivables that the Company's financial services operations owns or services have increased. Credit losses have increased as a result of a higher frequency of loss and higher average loss per Harley-Davidson branded motorcycle resulting from continued pressure on values for repossessed Harley-Davidson branded motorcycles. In addition, if there are adverse circumstances that involve a material decline in values of Harley-Davidson-branded motorcycles, those circumstances or any related decline in resale values for Harley-Davidson-branded motorcycles could contribute to increased delinquencies and credit losses.
- **The Company has a number of competitors of varying sizes that are based both inside and outside the United States some of which have greater financial resources than the Company.** Many of the Company's competitors are more diversified than the Company, and they may compete in the automotive market or all segments of the motorcycle market. Also, the Company's manufacturer's suggested retail price for its motorcycles is generally higher than its competitors, and if price becomes a more important competitive factor for consumers in the heavyweight motorcycle market, the Company may be at a competitive disadvantage. In addition, the Company's financial services operations face competition from various banks, insurance companies and other financial institutions that may have access to additional sources of capital at more competitive rates and terms, particularly for borrowers in higher credit tiers. Failure to adequately address and respond to these competitive pressures worldwide and in the U.S. may have a material adverse effect on the Company's business and results of operations.
- **The Company's marketing strategy of appealing to and growing sales to multi-generational and multi-cultural customers worldwide may not continue to be successful.** The Company has been successful in marketing its products in large part by promoting the experience of motorcycling. To sustain and grow the business over the long-term, the Company must continue to be successful selling products and promoting the experience of motorcycling to both core customers and outreach customers such as women, young adults and ethnically diverse adults.
- **The Company's success depends upon the continued strength of the Harley-Davidson brand.** The Company believes that the Harley-Davidson brand has significantly contributed to the success of its

business and that maintaining and enhancing the brand is critical to expanding its customer base. Failure to protect the brand from infringers or to grow the value of the Harley-Davidson brand may have a material adverse effect on the Company's business and results of operations.

- **The Company's ability to remain competitive is dependent upon its capability to develop and successfully introduce new, innovative and compliant products.** The motorcycle market continues to advance in terms of cutting edge styling and new technology and, at the same time, be subject to increasing regulations related to safety and emissions. The Company must continue to distinguish its products from its competitors' products with unique styling and new technologies and to protect its intellectual property from imitators. In addition, these new products must comply with applicable regulations worldwide and satisfy the potential demand for products that produce lower emissions. The Company must make product advancements while maintaining the classic look, sound and feel associated with Harley-Davidson products. The Company must also be able to design and manufacture these products and deliver them to the marketplace in an efficient and timely manner. There can be no assurances that the Company will be successful in these endeavors or that existing and prospective customers will like or want the Company's new products.
- **The Company's Motorcycles segment is dependent upon unionized labor.** Substantially all of the hourly employees working in the Motorcycles segment are represented by unions and covered by collective bargaining agreements. Harley-Davidson Motor Company is currently a party to five collective bargaining agreements with local affiliates of the International Association of Machinists and Aerospace Workers and the United Steelworkers of America that expire March 31, 2012, July 29, 2012 and February 2, 2017. These collective bargaining agreements generally cover wages, healthcare benefits and retirement plans, seniority, job classes and work rules. There is no certainty that the Company will be successful in negotiating new agreements with these unions that extend beyond the current expiration dates or that these new agreements will be on terms as favorable to the Company as past labor agreements. Failure to renew these agreements when they expire or to establish new collective bargaining agreements on terms acceptable to the Company and the unions could result in work stoppages or other labor disruptions which may have a material adverse effect on customer relationships and the Company's business and results of operations.
- **The Company's operations are dependent upon attracting and retaining skilled employees, including executive officers. The Company's future success depends on its continuing ability to identify, hire, develop, motivate and retain skilled personnel for all areas of its organization.** The Company's current and future total compensation arrangements, which include benefits and cash bonuses, may not be successful in attracting new employees and retaining and motivating the Company's existing employees. If the Company does not succeed in attracting personnel or retaining and motivating existing personnel, including executive officers, the Company may be unable to develop and distribute products and services and effectively execute its plans and strategies.
- **The Company incurs substantial costs with respect to employee pension and healthcare benefits.** The Company's cash funding requirements and its estimates of liabilities and expenses for pensions and healthcare benefits for both active and retired employees are based on several factors that are outside the Company's control. These factors include funding requirements of the Pension Protection Act of 2006, the rate used to discount the future estimated liability, the rate of return on plan assets, medical costs, retirement age and mortality. Changes in these factors can impact the expense and cash requirements associated with these benefits which could have a material adverse effect on future results of operations, liquidity or shareholders' equity. In addition, costs associated with these benefits put the Company under significant cost pressure as compared to our competitors that may not bear the costs of similar benefit plans.
- **The Company manufactures products that create exposure to product liability claims and litigation.** To the extent plaintiffs are successful in showing that personal injury or property damage result from defects in the design or manufacture of the Company's products, the Company may be

subject to claims for damages that are not covered by insurance. The costs associated with defending product liability claims, including frivolous lawsuits, and payment of damages could be substantial. The Company's reputation may also be adversely affected by such claims, whether or not successful.

- **The Company must maintain its reputation of being a good corporate citizen and treating customers, employees, suppliers and other stakeholders fairly.** The Company has a history of good corporate governance. Prior to the enactment of the Sarbanes-Oxley Act of 2002 (the "Act"), the Company had in place many of the corporate governance procedures and processes now mandated by the Act and related rules and regulations, such as Board Committee Charters and a Corporate Governance Policy. In 1992, the Company established a Code of Business Conduct that defines how employees interact with various Company stakeholders and addresses issues such as confidentiality, conflict of interest and fair dealing. Failure to maintain this reputation may have a material adverse effect on the Company's business and results of operations.
- **The Company must invest in and successfully implement new information systems and technology.** The Company is continually modifying and enhancing its systems and technology to increase productivity and efficiency. When implemented, the systems and technology may not provide the benefits anticipated and could add costs and complications to ongoing operations, which may have a material adverse effect on the Company's business and results of operations.
- **The Company is and may in the future become subject to legal proceedings and commercial or contractual disputes.** These are typically claims that arise in the normal course of business. The uncertainty associated with substantial unresolved claims and lawsuits may harm the Company's business, financial condition, reputation and brand. The defense of the lawsuits may result in the expenditures of significant financial resources and the diversion of management's time and attention away from business operations. In addition, although we are unable to determine the amount, if any, that we may be required to pay in connection with the resolution of the lawsuits by settlement or otherwise, any such payment may have a material adverse effect on the Company's business and results of operations. Refer to the Company's disclosures concerning legal proceedings in the periodic reports that the Company files with the Securities and Exchange Commission for additional detail regarding lawsuits and other claims against the Company.
- **The Company must comply with governmental laws and regulations that are subject to change and involve significant costs.** The Company's sales and operations in areas outside the U.S. may be subject to foreign laws, regulations and the legal systems of foreign courts or tribunals. These laws and policies governing operations of foreign-based companies may result in increased costs or restrictions on the ability of the Company to sell its products in certain countries. The Company's international sales operations may also be adversely affected by United States laws affecting foreign trade and taxation.

The Company is subject to income and non-income based taxes in the United States and in various foreign jurisdictions. Significant judgment is required in determining our worldwide income tax liabilities and other tax liabilities. The Company believes that it complies with applicable tax law. If the governing tax authorities have a different interpretation of the applicable law or if there is a change in tax law, our financial condition and/or results of operations may be adversely affected.

The Company's domestic sales and operations are subject to governmental policies and regulatory actions of agencies of the United States Government, including the Environmental Protection Agency ("EPA"), SEC, National Highway Traffic Safety Administration, Department of Labor and Federal Trade Commission. In addition, the Company's sales and operations are also subject to laws and actions of state legislatures and other local regulators, including dealer statutes and licensing laws. Changes in regulations or the imposition of additional regulations may have a material adverse effect on the Company's business and results of operations.

The Company's motorcycle products use internal combustion engines. These motorcycle products are subject to statutory and regulatory requirements governing emissions and noise, including standards

imposed by the EPA, state regulatory agencies, such as California Air Resources Board, and regulatory agencies in certain foreign countries where the Company's motorcycle products are sold. The Company is also subject to statutory and regulatory requirements governing emissions and noise in the conduct of the Company's manufacturing operations. Any significant change to the regulatory requirements governing emissions and noise may substantially increase the cost of manufacturing the Company's products. Further, in response to concerns about global climate changes, the Company may face greater regulatory or customer pressure to develop products that generate less emissions. This may require the Company to spend additional funds on research, product development, implementation costs and subject the Company to the risk that the Company's competitors may respond to these pressures in a manner that gives them a competitive advantage.

The Company's financial services operations are governed by various foreign, federal and state laws that more specifically affect general financial and lending institutions. The financial services operations originate the majority of its consumer loans through its subsidiary, Eaglemark Savings Bank, a Nevada state thrift chartered as an industrial loan company. The U.S. Congress is currently considering several proposals that would impose additional regulation and supervision over the financial services industry. For example, the U.S. House Financial Services Committee has prepared a discussion draft of legislation that would impose additional oversight over the financial parent of an industrial loan company. This additional oversight may include regulation of HDFS and/or its subsidiaries by the Federal Reserve Board in addition to its current regulators, the FDIC and state banking authorities. Failure to comply with these regulations, changes in these or other regulations, or the imposition of additional regulations, could affect HDFS' earnings, limit its access to capital, limit the number of loans eligible for HDFS securitization programs and have a material adverse effect on HDFS' business and results of operations.

In addition, the Company is also subject to policies and actions of the New York Stock Exchange ("NYSE"). Many major competitors of the Company are not subject to the requirements of the SEC or the NYSE rules. As a result, the Company may be required to disclose certain information that may put the Company at a competitive disadvantage to its principal competitors.

- **Breaches of security involving consumers' personal data may adversely affect the Company's reputation, revenue and earnings.** The Company receives and stores personal information in connection with its financial services operations, the Harley Owners Group and other aspects of its business. Breach of the systems on which sensitive consumer information is stored or other unauthorized release of consumer information may adversely affect the Company's reputation and lead to claims against the Company.
- **The Company is exposed to market risk from changes in foreign exchange rates, commodity prices and interest rates.** The Company sells its products internationally and in most markets those sales are made in the foreign country's local currency. The Company is also subject to risks associated with changes in prices of commodities. Earnings from the Company's financial services business are affected by changes in interest rates. The Company uses derivative financial instruments to attempt to manage foreign currency exchange rates, commodity price and interest rate risks. Also, these transactions may expose us to credit risk in the event of default of a counterparty to the derivative financial instruments. There can be no assurance that in the future the Company will successfully manage these risks.

The Company disclaims any obligation to update these Risk Factors or any other forward-looking statements. The Company assumes no obligation (and specifically disclaims any such obligation) to update these Risk Factors or any other forward-looking statements to reflect actual results, changes in assumptions or other factors affecting such forward-looking statements.

Item 1B. Unresolved Staff Comments

None.

Item 2. Properties

The following is a summary of the principal operating properties of the Company as of December 31, 2009:

Motorcycles & Related Products Segment

<u>Type of Facility</u>	<u>Location</u>	<u>Approximate Square Feet</u>	<u>Status</u>
Corporate Office	Milwaukee, WI	515,000	Owned
Museum	Milwaukee, WI	130,000	Owned
Airplane hangar	Milwaukee, WI	14,600	Owned
Manufacturing ⁽¹⁾	Wauwatosa, WI	430,000	Owned
Product Development Center	Wauwatosa, WI	409,000	Owned
Distribution Center	Franklin, WI	255,000	Owned
Manufacturing ⁽¹⁾	Menomonee Falls, WI	881,600	Owned
Product Development and Office	East Troy, WI	79,000	Lease expiring 2010
Manufacturing ⁽²⁾	East Troy, WI	40,000	Lease expiring 2010
Manufacturing ⁽³⁾	Tomahawk, WI	211,000	Owned
Office	Ann Arbor, MI	3,400	Lease expiring 2014
Office	Cleveland, OH	23,000	Lease expiring 2014
Manufacturing and Materials Velocity Center ⁽⁴⁾	Kansas City, MO	450,000	Owned
Warehouse	Kansas City, MO	20,000	Lease expiring 2013
Materials Velocity Center	Manchester, PA	191,000	Owned
Manufacturing ⁽⁵⁾	York, PA	1,351,000	Owned
Motorcycle Testing	Talladega, AL	35,000	Lease expiring 2010
Motorcycle Testing	Naples, FL	82,000	Owned
Motorcycle Testing	Yucca, AZ	17,500	Lease expiring 2019
Office and Training Facility	Monterrey, Mexico	8,300	Lease expiring 2014
Manufacturing and Office ⁽⁶⁾	Manaus, Brazil	82,000	Lease expiring 2011
Office	Sao Paulo, Brazil	550	Lease expiring 2010
Office and Warehouse	Oxford, England	21,000	Lease expiring 2017
Office	Leiderdorp, The Netherlands	9,500	Lease expiring 2011
Office	Creteil, France	8,500	Lease expiring 2016

Office	Tokyo, Japan	14,000	Lease expiring 2010
Office	Akishima, Japan	13,000	Lease expiring 2028
Office	Shanghai, China	3,300	Lease expiring 2011
Office	Cape Town, South Africa	3,500	Lease expiring 2012
Office	Sydney, Australia	21,800	Lease expiring 2011
Manufacturing ⁽⁸⁾	Adelaide, Australia	485,000	Lease expiring 2011

- (1) Motorcycle powertrain production.
- (2) Buell® motorcycle assembly.
- (3) Fiberglass/plastic parts production and painting.
- (4) Motorcycle parts fabrication, painting and Dyna, Sportster® and VRSC assembly.
- (5) Motorcycle parts fabrication, painting and Softail® and touring model assembly.
- (6) Assembly of select models for the Brazilian market.
- (7) MV Agusta® and Cagiva® motorcycle assembly.
- (8) Motorcycle wheel production.

During 2009, the Company committed to a combination of restructuring activities designed to reduce administrative costs, eliminate excess capacity and exit non-core business operations. The Company expects that the impact of these restructuring activities, as well as the discontinuation of the Buell product line, the Company's intent to divest MV and the restructuring of the Company's York, Pennsylvania operations that the Company has announced, will have the following effects on the Company's operating properties:

- The manufacturing facility in Wauwatosa, Wisconsin will be closed and operations consolidated into the manufacturing facility in Menomonee Falls, Wisconsin by mid-2010.
- The distribution facility in Franklin, Wisconsin will be closed and distribution operations consolidated through a third-party provider. The transition is expected to be finalized in 2010.
- As a result of the Company's decision to stop production of the Buell product line, the leases for the Buell product development, office and manufacturing facilities in East Troy, Wisconsin were terminated effective mid-2010.
- The manufacturing campus at York, Pennsylvania will be consolidated into one facility and focused on the core areas of motorcycle assembly, metal fabrication and paint. Consolidation efforts began in 2009 and are expected to continue until 2012. In addition, certain areas of the York campus plus the materials velocity center in Manchester, Pennsylvania are expected to be sold to third-parties with the sale agreements effective in 2011. The operations of the materials velocity center will be outsourced to a third party.
- In early 2009, the Company relocated its previous testing operations in Mesa, Arizona to a new facility in Yucca, Arizona as a first step towards consolidating all three of its testing sites. Beginning in 2010 and continuing into 2011, the motorcycle testing facilities in Talladega, Alabama and Naples, Florida will be consolidated into the testing facility at Yucca, Arizona.
- As part of the Company's 2009 announcement to divest MV, the Company will vacate the following locations upon completion of the sale: the offices in Wesseling, Germany and Lugano, Switzerland, and the leased portion of the product development center in San Marino, Italy. The following facilities are expected to be sold in conjunction with the divestiture of MV: the manufacturing and office facilities in Varese, Italy; the warehouse in Morazzone, Italy; and the owned portion of the product development center in San Marino, Italy.

Financial Services Segment

<u>Type of Facility</u>	<u>Location</u>	<u>Approximate Square Feet</u>	<u>Status</u>
Office	Chicago, IL	26,000	Lease expiring 2022
Office	Plano, TX	61,500	Lease expiring 2014
Office	Carson City, NV	100,000	Owned
Storage	Carson City, NV	1,600	Lease expiring 2010

The Financial Services segment has three office facilities: Chicago, Illinois (corporate headquarters); Plano, Texas (wholesale, insurance and retail operations); and Carson City, Nevada (retail and insurance operations).

Item 3. Legal Proceedings

The Company is subject to lawsuits and other claims related to environmental, product and other matters. In determining required reserves related to these items, the Company carefully analyzes cases and considers the likelihood of adverse judgments or outcomes, as well as the potential range of possible loss. The required reserves are monitored on an ongoing basis and are updated based on new developments or new information in each matter.

Environmental Protection Agency Notice

The Company has received formal, written requests for information from the United States Environmental Protection Agency (EPA) regarding: (i) certificates of conformity for motorcycle emissions and related designations and labels, (ii) aftermarket parts, and (iii) warranty claims on emissions related components. The Company has submitted written responses to the EPA's inquiry and has engaged in discussions with the EPA. It is possible that a result of the EPA's investigation will be some form of enforcement action by the EPA that will seek a fine or other relief. However, at this time the Company does not know and cannot reasonably estimate the impact of any remedies the EPA might seek.

Shareholder Lawsuits:

In re Harley-Davidson, Inc. Securities Litigation was a consolidated shareholder securities class action lawsuit filed in the United States District Court for the Eastern District of Wisconsin. On October 2, 2006, the Lead Plaintiffs filed a Consolidated Class Action Complaint, which named the Company and certain former Company officers as defendants, that alleged securities law violations and sought unspecified damages relating generally to the Company's April 13, 2005 announcement that it was reducing short-term production growth and planned increases of motorcycle shipments. On December 18, 2006, the defendants filed a motion to dismiss the Consolidated Complaint. On October 8, 2009, the judge granted defendants' motion to dismiss, and the clerk of court entered judgment dismissing the consolidated lawsuit. No appeal was taken from the final judgment and the dismissal of the action is now final.

On August 25, 2005, a class action lawsuit alleging violations of the Employee Retirement Income Security Act (ERISA) was filed in the United States District Court for the Eastern District of Wisconsin. On October 2, 2006, the ERISA plaintiff filed an Amended Class Action Complaint, which named the Company, the Harley-Davidson Motor Company Retirement Plans Committee, the Company's Leadership and Strategy Council, and certain current or former Company officers or employees as defendants. In general, the ERISA complaint included factual allegations similar to those in the consolidated securities class action and alleged on behalf of participants in certain Harley-Davidson retirement savings plans that the plan fiduciaries breached their ERISA fiduciary duties. On December 18, 2006, the defendants filed a motion to dismiss the ERISA complaint. On October 8, 2009, the judge granted defendants' motion to dismiss, and the clerk of court entered judgment dismissing the class action lawsuit. No appeal was taken from the final judgment and the dismissal of the action is now final.

Three shareholder derivative lawsuits were filed in the United States District Court for the Eastern District of Wisconsin on June 3, 2005, October 25, 2005 (this lawsuit was later voluntarily dismissed) and December 2, 2005, and two shareholder derivative lawsuits were filed in Milwaukee County Circuit Court on July 22, 2005 and November 16, 2005, against some or all of the following current or former directors and officers of the Company: Jeffrey L. Bleustein, James L. Ziemer, James M. Brostowitz, Barry K. Allen, Richard I. Beattie, George H. Conrades, Judson C. Green, Donald A. James, Sara L. Levinson, George L. Miles, Jr., James A. Norling, James A. McCaslin, Donna F. Zarcone, Jon R. Flickinger, Gail A. Lione, Ronald M. Hutchinson, W. Kenneth Sutton, Jr. and John A. Hevey. The lawsuits also name the Company as a nominal defendant. In general, the shareholder derivative complaints include factual allegations similar to those in the class action complaints and allegations that officers and directors breached their fiduciary duties to the Company. On February 14, 2006, the state court consolidated the two state court derivative actions and appointed Lead Plaintiffs and Lead

Plaintiffs' counsel, and on April 24, 2006, the state court ordered that the consolidated state court derivative action be stayed until after motions to dismiss the federal securities class action are decided. On February 15, 2006, the federal court consolidated the federal derivative lawsuits with the securities and ERISA actions for administrative purposes. On February 1, 2007, the federal court appointed Lead Plaintiff and Co-Lead Plaintiffs' Counsel in the consolidated federal derivative action.

On November 24, 2009, both federal court derivative plaintiffs moved to voluntarily dismiss their lawsuits and all claims without prejudice. On November 30, 2009, the federal court entered orders granting the motions and dismissing the federal court derivative lawsuits without prejudice, and those cases are now closed. The parties have agreed that the lead plaintiff in the consolidated state court derivative action may have until February 19, 2010 to file an amended complaint in that action and that defendants may have until March 26, 2010 to respond to any amended complaint.

The Company believes the allegations in the state court derivative lawsuit are without merit and it intends to vigorously defend against the suit should the plaintiffs file an amended complaint. The Company is unable to predict the scope or outcome or quantify their eventual impact, if any, on the Company. At this time, the Company is also unable to estimate associated expenses or possible losses. The Company maintains insurance that may limit its financial exposure for defense costs and liability for an unfavorable outcome, should it not prevail, for claims covered by the insurance coverage.

York Environmental Matters:

The Company is involved with government agencies and groups of potentially responsible parties in various environmental matters, including a matter involving the cleanup of soil and groundwater contamination at its York, Pennsylvania facility. The York facility was formerly used by the U.S. Navy and AMF prior to the purchase of the York facility by the Company from AMF in 1981. Although the Company is not certain as to the full extent of the environmental contamination at the York facility, it has been working with the Pennsylvania Department of Environmental Protection (PADEP) since 1986 in undertaking environmental investigation and remediation activities, including an ongoing site-wide remedial investigation/feasibility study (RI/FS). In January 1995, the Company entered into a settlement agreement (the Agreement) with the Navy. The Agreement calls for the Navy and the Company to contribute amounts into a trust equal to 53% and 47%, respectively, of future costs associated with environmental investigation and remediation activities at the York facility (Response Costs). The trust administers the payment of the Response Costs incurred at the York facility as covered by the Agreement.

In February 2002, the Company was advised by the EPA that it considers some of the Company's remediation activities at the York facility to be subject to the EPA's corrective action program under the Resource Conservation and Recovery Act (RCRA) and offered the Company the option of addressing corrective action under a RCRA facility lead agreement. In July 2005, the York facility was designated as the first site in Pennsylvania to be addressed under the "One Cleanup Program." The program provides a more streamlined and efficient oversight of voluntary remediation by both PADEP and EPA and will be carried out consistent with the Agreement with the Navy. As a result, the RCRA facility lead agreement has been superseded.

Although the RI/FS is still underway and substantial uncertainty exists concerning the nature and scope of the additional environmental investigation and remediation that will ultimately be required at the York facility, the Company estimates that its share of the future Response Costs at the York facility will be approximately \$5.9 million. The Company has established reserves for this amount, which are included in accrued liabilities in the Consolidated Balance Sheets.

The estimate of the Company's future Response Costs that will be incurred at the York facility is based on reports of independent environmental consultants retained by the Company, the actual costs incurred to date and the estimated costs to complete the necessary investigation and remediation activities. Response Costs related to the remediation of soil are expected to be incurred over a period of several years ending in 2015. Response Costs related to ground water remediation may continue for some time beyond 2015.

Product Liability Matters:

Additionally, the Company is involved in product liability suits related to the operation of its business. The Company accrues for claim exposures that are probable of occurrence and can be reasonably estimated. The Company also maintains insurance coverage for product liability exposures. The Company believes that its accruals and insurance coverage are adequate and that product liability will not have a material adverse effect on the Company's consolidated financial statements.

Item 4. Submission of Matters to a Vote of Security Holders

None.

PART II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Harley-Davidson, Inc. common stock is traded on the New York Stock Exchange, Inc. The high and low market prices for the common stock, reported as New York Stock Exchange, Inc. Composite Transactions, were as follows:

<u>2009</u>	<u>Low</u>	<u>High</u>	<u>2008</u>	<u>Low</u>	<u>High</u>
First quarter	\$ 7.99	\$20.01	First quarter	\$34.17	\$46.61
Second quarter	\$12.90	\$22.74	Second quarter	\$34.10	\$41.75
Third quarter	\$14.99	\$25.56	Third quarter	\$32.18	\$48.05
Fourth quarter	\$20.76	\$30.00	Fourth quarter	\$11.54	\$39.30

The Company paid the following dividends per share:

	<u>2009</u>	<u>2008</u>	<u>2007</u>
First quarter	\$0.10	\$0.30	\$0.21
Second quarter	0.10	0.33	0.25
Third quarter	0.10	0.33	0.30
Fourth quarter	0.10	0.33	0.30
	<u>\$0.40</u>	<u>\$1.29</u>	<u>\$1.06</u>

As of February 1, 2010 there were 91,123 shareholders of record of Harley-Davidson, Inc. common stock.

The following table contains detail related to the repurchase of common stock based on the date of trade during the quarter ended December 31, 2009:

<u>2009 Fiscal Month</u>	<u>Total Number of Shares Purchased</u>	<u>Average Price Paid per Share</u>	<u>Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs</u>	<u>Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs</u>
September 28 to November 1	4,939	\$ 23	—	22,542,926
November 2 to November 29	—	\$—	—	22,542,926
November 30 to December 31	<u>55,893</u>	<u>\$ 29</u>	<u>—</u>	22,542,926
Total	<u>60,832</u>	<u>\$ 29</u>	<u>—</u>	

The Company has an authorization (originally adopted in December 1997) by its Board of Directors to repurchase shares of its outstanding common stock under which the cumulative number of shares repurchased, at the time of any repurchase, shall not exceed the sum of (1) the number of shares issued in connection with the exercise of stock options occurring on or after January 1, 2004 plus (2) one percent of the issued and outstanding common stock of the Company on January 1 of the current year, adjusted for any stock split. The Company did not purchase shares under this authorization during the fourth quarter ended December 31, 2009.

In December 2007, the Company's Board of Directors separately authorized the Company to buy back up to 20.0 million shares of its common stock with no dollar limit or expiration date. As of December 31, 2009, 16.7 million shares remained under this authorization.

The Harley-Davidson, Inc. 2009 Incentive Stock Plan (exhibit 10.18) and predecessor stock plans permit participants to satisfy all or a portion of the statutory federal, state and local withholding tax obligations arising in connection with plan awards by electing to (a) have the Company withhold Shares otherwise issuable under

the award, (b) tender back shares received in connection with such award or (c) deliver other previously owned Shares, in each case having a value equal to the amount to be withheld. During the fourth quarter of 2009, the Company acquired 60,832 shares of common stock that employees presented to the Company to satisfy withholding taxes in connection with the vesting of restricted stock awards.

Item 12 of this Annual Report on Form 10-K contains certain information relating to the Company's equity compensation plans.

The following information in this Item 5 is not deemed to be "soliciting material" or to be "filed" with the SEC or subject to Regulation 14A or 14C under the Securities Exchange Act of 1934 or to the liabilities of Section 18 of the Securities Exchange Act of 1934, and will not be deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent the Company specifically incorporates it by reference into such a filing: the SEC requires the Company to include a line graph presentation comparing cumulative five year Common Stock returns with a broad-based stock index and either a nationally recognized industry index or an index of peer companies selected by the Company. The Company has chosen to use the Standard & Poor's 500 Index as the broad-based index and the Standard & Poor's MidCap 400 Index as a more specific comparison. The Standard & Poor's MidCap 400 Index was chosen because the Company does not believe that any other published industry or line-of-business index adequately represents the current operations of the Company. The graph assumes a beginning investment of \$100 on December 31, 2004 and that all dividends are reinvested.

	2004 (\$)	2005 (\$)	2006 (\$)	2007 (\$)	2008 (\$)	2009 (\$)
Harley-Davidson, Inc.	100	86	119	80	31	47
Standard & Poor's MidCap 400 Index	100	113	124	135	86	118
Standard & Poor's 500 Index	100	105	121	128	81	102

⁽¹⁾ 2009, 2008, 2007 and 2006 results include the adoption of SFAS No. 158, "Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans" as of December 31, 2006. SFAS No.158 is codified into ASC Topic 715, "Compensation – Retirement Benefits."

⁽²⁾ 2009 and 2008 total assets include assets of discontinued operations of \$181.2 million and \$238.7 million, respectively.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

Harley-Davidson, Inc. is the parent company for the groups of companies doing business as Harley-Davidson Motor Company (HDMC), Harley-Davidson Financial Services (HDFS), Buell Motorcycle Company (Buell) and MV Agusta (MV). HDMC produces heavyweight custom and touring motorcycles. HDMC manufactures five families of motorcycles: Touring, Dyna®, Softail®, Sportster® and VRSC. HDFS provides wholesale and retail financing and insurance programs primarily to Harley-Davidson and Buell dealers and customers.

The Company operates in two business segments: Motorcycles & Related Products (Motorcycles) and Financial Services (Financial Services). The Company's reportable segments are strategic business units that offer different products and services. They are managed separately based on the fundamental differences in their operations.

The "% Change" figures included in the "Results of Operations" section were calculated using unrounded dollar amounts and may differ from calculations using the rounded dollar amounts presented.

Overview

The Company's 2009 financial results were affected by the difficult economy, as well as costs associated with restructuring the business. During 2009, the Company initiated several significant restructuring activities to reduce its cost structure and also initiated a plan to exit the Buell product line and divest MV. In connection with the decision to sell the MV business, its financial results have been presented as a discontinued operation for all periods presented.

Income and diluted earnings per share from continuing operations in 2009 were \$70.6 million and \$0.30, respectively, each down 89.7% compared to 2008. The results of continuing operations reflect the effects of lower Harley-Davidson motorcycle shipments, restructuring and Buell product line exit costs, and non-cash charges related to Financial Services. The loss from discontinued operations, which includes MV's operating losses and a fair value adjustment, was \$125.8 million net of tax, or \$0.54 per diluted share. Including discontinued operations, the Company incurred a net loss of \$55.1 million, or \$0.24 per diluted share for 2009.

Retail sales of Harley-Davidson motorcycles by independent dealers were also impacted by the difficult economy. Worldwide retail sales of new Harley-Davidson motorcycles declined 22.7% in 2009 compared to last year. In 2009, U.S. retail sales of Harley-Davidson motorcycles were down 25.8% and international retail sales were down 15.4% as compared to 2008. On an industry-wide basis, retail sales of heavyweight motorcycles in the United States declined 36.7% during 2009.

Please refer to the "Results of Operations 2009 Compared to 2008" for additional details concerning the results for 2009.

(1) Note Regarding Forward-Looking Statements

The Company intends that certain matters discussed in this report are "forward-looking statements" intended to qualify for the safe harbor from liability established by the Private Securities Litigation Reform Act of 1995. These forward-looking statements can generally be identified as such by reference to this footnote or because the context of the statement will include words such as the Company "believes," "anticipates," "expects," "plans," or "estimates" or words of similar meaning. Similarly, statements that describe future plans, objectives, outlooks, targets, guidance or goals are also forward-looking statements. Such forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from those anticipated as of the date of this report. Certain of such risks and uncertainties are described in close proximity to such statements or elsewhere in this report, including under the caption "Risk Factors" in Item 1A and under "Cautionary Statements" in Item 7 of this report. Shareholders, potential investors, and other readers are urged to consider these factors in evaluating the forward-looking statements and cautioned not to place undue reliance on such forward-looking statements. The forward-looking statements included in this report are made only as of the date of the filing of this report (February 23, 2010), and the Company disclaims any obligation to publicly update such forward-looking statements to reflect subsequent events or circumstances.

Restructuring Activities⁽¹⁾

During 2009, in response to the U.S. economic recession and worldwide slowdown in consumer demand, the Company committed to a volume reduction and a combination of restructuring actions that are expected to be completed in 2012. The actions were designed to reduce administrative costs, eliminate excess capacity and exit non-core business operations. The Company's significant planned actions include:

- consolidating its two engine and transmission plants in the Milwaukee area into its facility in Menomonee Falls, Wisconsin;
- closing its distribution facility in Franklin, Wisconsin and consolidating Parts and Accessories and General Merchandise distribution through a third party;
- discontinuing the domestic transportation fleet;
- consolidating its vehicle test facilities from three locations in Alabama, Arizona and Florida into one location in Arizona;
- restructuring its York, Pennsylvania motorcycle production facility to focus on the core operations of motorcycle assembly, metal fabrication and paint; and
- exiting the Buell product line.

The 2009 restructuring plans include a reduction of approximately 2,700 to 2,900 hourly production positions and approximately 720 non-production, primarily salaried positions within the Motorcycles segment and approximately 100 salaried positions in the Financial Services segment. These reductions began in 2009 and are expected to be completed during 2011.

During 2009, the Company incurred \$224.3 million in restructuring and impairment expense related to these activities and \$44.8 million in lower gross margins associated with Buell sales incentives and inventory adjustments that are not included in restructuring charges/expense. The Company expects total costs related to these restructuring activities (excluding the \$44.8 million of Buell exit costs affecting gross margins) to result in one-time restructuring and impairment expenses of \$430 million to \$460 million from 2009 to 2012 of which approximately 30% are expected to be non-cash. In 2010, the Company expects to incur restructuring expenses of \$175 million to \$195 million. The Company anticipates annual ongoing total savings from restructuring of approximately \$240 million to \$260 million upon completion of all announced restructuring activities. In the near-term, the Company estimates savings from these restructuring activities, measured against 2008 spending, to be as follows:

- 2009 - \$91 million (91% operating expense and 9% cost of sales);
- 2010 - \$135 million to \$155 million (70-80% operating expense and 20-30% cost of sales);
- 2011 - \$220 million to \$240 million (45-55% operating expense and 45-55% cost of sales);
- 2012 - \$230 million to \$250 (40-50% operating expense and 50-60% cost of sales); and
- Ongoing upon completion - \$240 million to \$260 million (40-50% operating expense and 50-60% cost of sales).

Discontinued Operations

As noted above, the financial results of MV have been presented as discontinued operations for all periods presented. During 2009, the Company wrote down the carrying value of MV's assets resulting in a non-cash charge of \$115.4 million, or \$73.4 million net of related tax benefits. This write-down included a reduction in the carrying value of goodwill, intangible assets and fixed assets associated with MV and reduced MV's net assets to their fair value, less estimated selling costs.

Outlook⁽¹⁾

On January 22, 2010, the Company announced that it expects to ship 201,000 to 212,000 Harley-Davidson motorcycles to dealers and distributors in 2010 which includes 52,000 to 57,000 during the first quarter of 2010. In addition, the Company announced its expectation for full-year 2010 gross profit margin of between 32.0% and 33.5%.

Regarding Financial Services, the Company believes that actions taken during 2009, including diversifying HDFS' debt structure and improving underwriting standards, will assist HDFS in moving to profitability during 2010 as the economy improves. The Company continues to believe that HDFS provides a strategic advantage for Harley-Davidson by providing a reliable source of financing for the Company's independent dealer network and dealers' retail customers.

Also on January 22, 2010 the Company announced its expected capital expenditures for 2010 to be approximately \$235 million to \$255 million including approximately \$95 million to \$110 million for capital expenditures made in connection with its restructuring activities in 2010. The Company anticipates it will have the ability to fund all capital expenditures in 2010 with internally generated funds.

During 2009, the Company announced its long-term business strategy, centered on the four key pillars of growth, continuous improvement, leadership development and sustainability. Under this strategy, the Company expects to drive growth through a focus of efforts and resources on the unique strengths of the Harley-Davidson brand, and to enhance productivity and profitability through continuous improvement. The strategy focuses Company resources on Harley-Davidson products and experiences, global expansion, demographic outreach and commitment to core customers. In addition, the Company will continue to expand its initiatives to enhance profitability through continuous improvement in manufacturing, product development and business operations. In connection with the announcement of this strategy, the Company has identified the following long-term factors as measures of success against the plan:

- Outperform the S&P 500 over the Company's planning horizon and longer term;
- International retail motorcycle unit sales to grow at a faster rate than domestic retail motorcycle unit sales over the long term:
 - The addition of 100 to 150 international independent dealer points through 2014; and
 - International retail motorcycle unit sales to exceed 40% of total retail motorcycle unit sales by 2014.
- Retail motorcycle unit sales to core customer base to grow over the long term from 2009 levels, but retail motorcycle unit sales to outreach customers to grow at a faster rate; and
- Earnings to grow at a faster rate than revenue for 2010 through 2014 including:
 - Productivity savings net of inflation of approximately \$20 million to \$50 million between now and 2014. This is in addition to estimated annual savings of announced restructuring activities discussed above; and
 - Selling, administrative and engineering expense to decrease as a percentage of revenue.

The following sections include a detailed discussion of the results of operations for 2009 and 2008.

Results of Operations 2009 Compared to 2008

Consolidated Results

<u>(in thousands, except earnings per share)</u>	<u>2009</u>	<u>2008</u>	<u>(Decrease)</u> <u>Increase</u>	<u>%</u> <u>Change</u>
Operating income from motorcycles & related products	\$ 314,055	\$ 976,402	\$(662,347)	(67.8)%
Operating (loss) income from financial services	(117,969)	82,765	(200,734)	(242.5)
Operating income	196,086	1,059,167	(863,081)	(81.5)
Investment income	4,254	11,296	(7,042)	(62.3)
Interest expense	21,680	4,542	17,138	377.3
Income before income taxes	178,660	1,065,921	(887,261)	(83.2)
Provision for income taxes	108,019	381,686	(273,667)	(71.7)
Income from continuing operations	70,641	684,235	(613,594)	(89.7)
Loss from discontinued operations, net of income taxes	(125,757)	(29,517)	(96,240)	326.0
Net (loss) income	<u>\$ (55,116)</u>	<u>\$ 654,718</u>	<u>\$(709,834)</u>	<u>(108.4)%</u>
Diluted earnings per share from continuing operations	\$ 0.30	\$ 2.92	\$ (2.62)	(89.7)%
Diluted loss per share from discontinued operations	\$ (0.54)	\$ (0.13)	\$ (0.41)	315.4%
Diluted (loss) earnings per share	\$ (0.24)	\$ 2.79	\$ (3.03)	(108.6)%

Operating results for both of the Company's segments was impacted by the difficult economic environment. Motorcycles operating income fell 67.8% during 2009 driven by a decrease in shipments of Harley-Davidson motorcycles and restructuring charges. Financial Services operating loss was driven primarily by increased provision for credit losses and a goodwill impairment. Please refer to the "Motorcycles and Related Products Segment" and "Financial Services Segment" discussions following for a more detailed discussion of the factors affecting operating income.

Interest expense of \$21.7 million includes a portion of interest expense related to the Company's \$600.0 million senior unsecured notes issued in February 2009. Prior to the end of the first quarter, the Company transferred the full proceeds from the issuance to HDFS in order to fund HDFS' operations. As HDFS diversified its debt structure through a combination of actions during 2009 (refer to "Liquidity" for additional discussion), its funding profile improved. During the fourth quarter of 2009, HDFS transferred the full proceeds back to the Company. As a result, interest expense for 2009 includes interest during the periods when the full proceeds were held outside of HDFS. Interest expense for the periods when the proceeds were held by HDFS is included in financial services interest expense.

The effective income tax rate for 2009 continuing operations was 60.5% compared to 35.8% for 2008. The increase in the effective income tax rate was due to a one-time charge for a change in Wisconsin tax law, the nondeductible goodwill impairment charge at HDFS and the impact of reduced earnings. For 2010, the Company expects its effective income tax rate to be approximately 36.5% for continuing operations.⁽¹⁾

Motorcycles and Related Products Segment

Harley-Davidson Motorcycle Retail Sales

Worldwide independent dealer retail sales of Harley-Davidson motorcycles decreased 22.7% during 2009 compared to 2008. Retail sales continue to be impacted on a global basis by difficult economic conditions. Retail sales of Harley-Davidson motorcycles decreased by 25.8% in the United States and 15.4% internationally during

2009 compared to 2008. On an industry-wide basis, the heavyweight (651+cc) portion of the market was down 36.6% in the United States and down 19.5% in Europe when compared to 2008. The following table includes retail unit sales of Harley-Davidson motorcycles:

**Harley-Davidson Motorcycle Retail Sales^(a)
Heavyweight (651+cc)**

	<u>2009</u>	<u>2008</u>	<u>Decrease</u>	<u>% Change</u>
North America Region

Latin America Region	5,850	8,037	(2,187)	(27.2)
Total Worldwide Retail Sales	<u>242,634</u>	<u>313,769</u>	<u>(71,135)</u>	<u>(22.7)%</u>

(a) Data source for retail sales figures shown above is sales warranty and registration information provided by Harley-Davidson dealers and compiled by the Company. The Company must rely on information that its dealers supply concerning retail sales and this information is subject to revision. Only Harley-Davidson motorcycles are included in the Harley-Davidson Motorcycle Retail Sales data.

(b) Data for Europe include Austria, Belgium, Denmark, Finland, France, Germany, Greece, Italy, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

The following table includes industry retail motorcycle registration data:

**Motorcycle Industry Retail Registrations
Heavyweight (651+cc)**

	<u>2009</u>	<u>2008</u>	<u>Decrease</u>	<u>% Change</u>
United States ^(a)	303,999	479,779	(175,780)	(36.6)%
Europe ^(b)	313,569	389,691	(76,122)	(19.5)%

(a) U.S. industry data includes 651+cc models derived from submission of motorcycle retail sales by each major manufacturer to an independent third party. This third party data is subject to revision and update. Industry data includes three-wheeled vehicles.

(b) Europe data includes Austria, Belgium, Denmark, Finland, France, Germany, Greece, Italy, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom. Industry retail motorcycle registration data includes 651+cc models derived from information provided by Giral S.A., an independent agency. This third party data is subject to revision and update. Industry data includes three-wheeled vehicles.

Industry retail registration data for the remaining international markets has not been presented because the Company does not believe definitive and reliable registration data is available at this time.

Motorcycle Unit Shipments

The following table includes wholesale motorcycle unit shipments for the Motorcycles segment:

	2009		2008		Decrease	% Change
United States	144,464	64.8%	206,309	68.0%	(61,845)	(30.0)%
International	78,559	35.2%	97,170	32.0%	(18,611)	(19.2)
Harley-Davidson motorcycle units	223,023	100.0%	303,479	100.0%	(80,456)	(26.5)%
Touring motorcycle units	84,104	37.7%	101,887	33.6%	(17,783)	(17.5)
Custom motorcycle units*	91,650	41.1%	140,908	46.4%	(49,258)	(35.0)
Sportster motorcycle units	47,269	21.2%	60,684	20.0%	(13,415)	(22.1)
Harley-Davidson motorcycle units	223,023	100.0%	303,479	100.0%	(80,456)	(26.5)%
Buell motorcycle units	9,572		13,119		(3,547)	(27.0)%

* Custom motorcycle units, as used in this table, include Dyna, Softail, VRSC and CVO models.

During 2009, the Company shipped 223,023 Harley-Davidson motorcycles, a decrease of 80,456 motorcycles, or 26.5%, from last year. The Company's shipments in the U.S. in 2009 continued to be negatively impacted by the challenging economic environment. On January 22, 2010, the Company announced that it expects full year 2010 shipments of Harley-Davidson motorcycle units to be between 201,000 to 212,000.⁽¹⁾ This represents a 5% to 10% reduction from 2009 shipments as a result of two key factors. First, the Company expects global economies to remain challenging, specifically in the U.S. with continued high unemployment and low consumer confidence. Second, the Company expects continued price competition from other manufacturers as they reduce excess inventories, in particular, old model year motorcycles. Additionally, the Company anticipates price competition at a local level as retailers discount excess inventory driven by contraction of the competitive dealer network.

The Company remains committed to balancing supply in line with demand for its Harley-Davidson motorcycles. The Company believes that its U.S. independent dealer network carried a 2009 year-end inventory level that was appropriate for the current economic environment.

Segment Results

The following table includes the condensed statement of operations for the Motorcycles segment (in thousands):

	2009	2008	(Decrease) Increase	% Change
Revenue:				
Harley-Davidson motorcycles	\$3,174,810	\$4,244,587	\$(1,069,777)	(25.2)%
Buell motorcycles	46,514	123,085	(76,571)	(62.2)
	3,221,324	4,367,672	(1,146,348)	(26.2)
Parts & Accessories	767,275	858,748	(91,473)	(10.7)
General Merchandise	282,210	313,838	(31,628)	(10.1)
Other	16,321	38,156	(21,835)	(57.2)
Total revenue	4,287,130	5,578,414	(1,291,284)	(23.1)
Cost of goods sold	2,900,934	3,647,270	(746,336)	(20.5)
Gross profit	1,386,196	1,931,144	(544,948)	(28.2)
Selling & administrative expense	702,854	774,135	(71,281)	(9.2)
Engineering expense	148,311	168,132	(19,821)	(11.8)
Restructuring expense and other impairments	220,976	12,475	208,501	N/M
Operating expense	1,072,141	954,742	117,399	12.3
Operating income from motorcycles	\$ 314,055	\$ 976,402	\$(662,347)	(67.8)%

The net increase in operating expense was primarily due the Company's previously announced restructuring activities and asset impairments partially offset by cost reduction initiatives. The Company estimates operating

expense savings related to restructuring activities were approximately \$83 million during 2009. For further information regarding the Company's previously announced restructuring activities and asset impairments, refer to Note 4 of Notes to Consolidated Financial Statements.

The following table includes the estimated impact of the significant factors affecting the comparability of gross profit from 2008 to 2009 (in millions):

	<u>Net Revenue</u>	<u>Cost of Goods Sold</u>	<u>Gross Profit</u>
2008	\$ 5,578	\$3,647	\$1,931
Volume	(1,276)	(773)	(503)
Price	(2)	—	(2)
Foreign currency exchange rates and hedging	(51)	(25)	(26)
Product mix	67	54	13
Raw material prices	—	(65)	65
Manufacturing costs	—	47	(47)
Buell exit costs	(29)	16	(45)
Total	<u>(1,291)</u>	<u>(746)</u>	<u>(545)</u>
2009	<u>\$ 4,287</u>	<u>\$2,901</u>	<u>\$1,386</u>

- Volume decreases were primarily the result of the 26.5% decrease in wholesale shipments of Harley-Davidson motorcycle units.
- Foreign currency exchange rates and hedging were affected by a weakening Euro and Australian dollar relative to the U.S. dollar during 2009.
- Product mix benefited revenue and gross profit due to a shift towards the Company's higher margin touring motorcycles.
- Manufacturing costs increased partially as the result of a higher fixed cost per unit due to allocating fixed costs to fewer units. Additionally, higher manufacturing costs were the result of increasing product cost associated with new models and increased product content, such as new features and options on the Company's motorcycles. These increased costs were partially offset by productivity gains.
- Buell exit costs consist of sales incentives to independent dealers and inventory write-downs. The sales incentives lowered revenue while the inventory write-downs increased cost of sales.

Financial Services Segment

Segment Results

The following table includes the condensed statements of operations for the Financial Services segment (in thousands):

	<u>2009</u>	<u>2008</u>	<u>Increase (Decrease)</u>	<u>% Change</u>
Interest income	\$ 434,152	\$290,083	\$ 144,069	49.7%
(Loss) income from securitizations	(13,676)	13,439	(27,115)	(201.8)
Other income	74,303	73,448	855	1.2
Financial services revenue	494,779	376,970	117,809	31.3
Interest expense	283,634	136,763	146,871	107.4
Provision for credit losses	169,206	39,555	129,651	327.8
Operating expenses	128,219	117,887	10,332	8.8
Restructuring expense	3,302	—	3,302	N/M
Goodwill impairment	28,387	—	28,387	N/M
Financial services expense	<u>612,748</u>	<u>294,205</u>	<u>318,543</u>	108.3
Operating (loss) income from financial services	<u>\$(117,969)</u>	<u>\$ 82,765</u>	<u>\$(200,734)</u>	(242.5)%

Interest income benefited from higher average retail and wholesale receivables outstanding, partially offset by lower wholesale lending rates. The increase in retail receivables outstanding was driven by a reduction in off-balance sheet term asset-backed securitization activity throughout 2008 due to capital market volatility and the utilization of on-balance sheet term asset-backed securitization structures during 2009. The increase in wholesale outstanding receivables resulted from an increased use of floorplan financing combined with a higher number of average days financed. Interest expense was higher in 2009 due primarily to increased borrowings to support the higher average outstanding retail and wholesale receivables as well as an increased cost of borrowing as compared to 2008.

During 2009, HDFS recorded a loss from securitizations compared to income from securitizations during 2008. The change from 2008 was due to reduced income earned from the investment in retained securitization interests and a larger other-than-temporary write down of certain retained securitization interests in 2009 compared to 2008. Income earned from the investment in retained securitization interests was \$28.5 million lower due to a reduction in outstanding off-balance sheet term asset-backed securitization transactions. There were no off-balance sheet term asset-backed securitization transactions completed during 2009 while the Company completed one off-balance sheet term asset-backed securitization transaction during 2008. For the 2008 off-balance sheet term-asset backed securitization transaction, the Company recognized a \$5.4 million loss. In addition, HDFS recognized a \$45.4 million write down of certain retained securitization interests during 2009 due to higher actual and anticipated credit losses partially offset by a slowing in actual and expected prepayment speeds. This compares to an other-than-temporary impairment of \$41.4 million in 2008.

HDFS reviews its assumptions for determining the fair value of the investment in retained securitization interests each quarter. Key assumptions include expected losses, prepayment speed and discount rate. HDFS determines these assumptions by reviewing historical trends and current economic conditions. Given the challenging U.S. economy, credit losses on HDFS' retail installment loans have increased, and as a result, the fair value of retained securitization interests has declined, and in some cases this decline is other-than-temporary. A write-down in the retained securitization interest generally represents a non-cash charge in the period in which it is recorded, but ultimately represents a reduction in the residual cash flow that HDFS expects to receive from its investment in retained securitization interests. The fair value of the investment in retained securitization interests was \$245.4 million at December 31, 2009.

Other income remained relatively flat in 2009 compared to 2008. During 2009, the Company recognized a \$5.9 million charge to earnings for the lower of cost or market valuation adjustment of its finance receivables held for sale prior to the reclassification to finance receivables held for investment as discussed below. This compares to a lower of cost or market valuation charge of \$37.8 million in 2008. This change was partially offset by a \$16.3 million decrease in servicing fee income resulting from fewer outstanding off-balance sheet term asset-backed securitization transactions and lower insurance commissions in 2009 compared to 2008.

The increase in the provision for credit losses during 2009 primarily resulted from the reclassification of \$3.14 billion of finance receivables held for sale to finance receivables held for investment at the end of the second quarter of 2009. The reclassification was due to the structure of the Company's May 2009 term asset-backed securitization transaction and management's intent to structure subsequent securitization transactions in a manner that would not meet the requirements of accounting sale treatment. The reclassification resulted in an additional provision for credit losses of \$72.7 million. In addition, the provisions for credit losses related to retail receivables and wholesale receivables increased by \$51.8 million and \$2.1 million, respectively, over 2008. The increase was primarily the result of higher expected incidence of loss, lower expected recovery values on repossessed motorcycles, and an increase in the finance receivables held for investment.

Annualized losses on HDFS' managed retail motorcycle loans were 2.86% in 2009 compared to 2.30% for 2008. The 30-day delinquency rate for managed retail motorcycle loans at December 31, 2009 increased to 6.51% from 6.29% at December 31, 2008. Managed retail loans include loans held by HDFS as well as those sold through off-balance sheet term asset-backed securitization transactions. The year-over-year increase in credit losses was driven by a higher frequency of loss and higher average loss per motorcycle resulting from

pressure on values for repossessed motorcycles. The Company expects that HDFS will continue to experience higher delinquencies and credit losses as a percentage of managed retail motorcycle loans into 2010.⁽¹⁾

Changes in the allowance for finance credit losses on finance receivables held for investment were as follows (in millions):

	<u>2009</u>	<u>2008</u>
Balance, beginning of period	\$ 40,068	\$ 30,295
Provision for finance credit losses	169,206	39,555
Charge-offs, net of recoveries	(59,192)	(29,782)
Balance, end of period	<u>\$150,082</u>	<u>\$ 40,068</u>

At December 31, 2009, the allowance for finance credit losses on finance receivables held for investment was \$133.3 million for retail receivables and \$16.8 million for wholesale receivables. The allowance for finance credit losses on finance receivables held for investment was \$28.4 million for retail receivables and \$11.7 million for wholesale receivables at December 31, 2008.

HDFS' periodic evaluation of the adequacy of the allowance for finance credit losses on finance receivables held for investment is generally based on HDFS' past loan loss experience, known and inherent risks in the portfolio, current economic conditions and the estimated value of any underlying collateral.

Operating expenses were also impacted by a restructuring charge of \$3.3 million in 2009 as detailed in Note 4 of Notes to Consolidated Financial Statements.

As discussed in Note 5 of Notes to Consolidated Financial Statements, during 2009, the Company recorded an impairment charge of \$28.4 million related to the goodwill associated with HDFS. As a result of the Company's lower retail sales volume projections and the decline in operating performance at HDFS during 2009 due to significant write-downs of its loan portfolio and investment in retained securitization interests, the Company performed an impairment test of the goodwill balance associated with HDFS as of June 28, 2009. The results of the impairment test indicated the current fair value of HDFS had declined below its carrying value.

Results of Operations 2008 Compared to 2007

Consolidated Results

<u>(in thousands, except earnings per share)</u>	<u>2008</u>	<u>2007</u>	<u>(Decrease) Increase</u>	<u>% Change</u>
Operating income from motorcycles & related products	\$ 976,402	\$1,213,392	\$(236,990)	(19.5)%
Operating income from financial services	82,765	212,169	(129,404)	(61.0)
Operating income	1,059,167	1,425,561	(366,394)	(25.7)
Investment income	11,296	22,258	(10,962)	(49.2)
Interest expense	4,542	—	4,542	N/M
Income before income taxes	1,065,921	1,447,819	(381,898)	(26.4)
Provision for income taxes	381,686	513,976	(132,290)	(25.7)
Income from continuing operations	684,235	933,843	(249,608)	(26.7)%
Loss from discontinued operations, net of income taxes . . .	(29,517)	—	(29,517)	N/M
Net income	<u>\$ 654,718</u>	<u>\$ 933,843</u>	<u>\$(279,125)</u>	<u>(29.9)%</u>
Diluted earnings per share from continuing operations	\$ 2.92	\$ 3.74	\$ (0.82)	(21.9)%
Diluted loss per share from discontinued operations	\$ (0.13)	\$ —	\$ (0.13)	N/M
Diluted earnings per share	\$ 2.79	\$ 3.74	\$ (0.95)	(25.4)%

Operating income for both of the Company's segments was impacted by the difficult economic environment including lower consumer confidence and significant disruptions in global capital markets. Motorcycles operating income fell 19.5% during 2008, driven by a decrease in shipments of Harley-Davidson motorcycles. In addition, lower operating income from Financial Services driven by lower securitization income and a write-down of finance receivables and investment in retained securitization interests contributed to the decrease in consolidated income from operations for 2008.

Investment income was lower during 2008 due to the decrease in average cash and marketable securities during the year. Interest expense during 2008 relates to debt incurred in connection with the acquisition of MV.

The Company's effective income tax rate for 2008 was 35.8% compared to 35.5% in 2007.

Diluted earnings per share from continuing operations during 2008 were down 21.9% from 2007 on lower net income which more than offset the positive impact of fewer weighted-average shares outstanding. Diluted earnings per share during 2008 were positively impacted by a decrease in the weighted-average shares outstanding, which were 234.5 million in 2008 compared to 249.9 million in 2007. The decrease in weighted-average shares outstanding was driven by the Company's repurchases of common stock over 2007 and 2008 through August.

Motorcycles & Related Products Segment

Harley-Davidson Motorcycle Retail Sales

Worldwide retail sales of Harley-Davidson motorcycles decreased 7.1% during 2008 relative to 2007. Retail sales of Harley-Davidson motorcycles decreased 13.0% in the United States while growing 10.3% internationally. On an industry-wide basis, the heavyweight (651+cc) portion of the market was down 7.0% in the United States while growing 0.5% in Europe when compared to the same periods in 2007. The following table includes retail unit sales of Harley-Davidson motorcycles:

Harley-Davidson Motorcycle Retail Sales^(a) Heavyweight (651+cc)

	2008	2007	(Decrease) Increase	% Change
North America Region				
United States	218,939	251,772	(32,833)	(13.0)%
Canada	16,502	14,779	1,723	11.7
Total North America Region	235,441	266,551	(31,110)	(11.7)
Europe Region (Includes Middle East and Africa)				
Europe ^(b)	40,725	38,866	1,859	4.8
Other	4,317	3,436	881	25.6

(a) Data source for retail sales figures shown above is sales warranty and registration information provided by Harley-Davidson dealers and compiled by the Company. The Company must rely on information that its dealers supply concerning retail sales and this information is subject to revision and update. Only Harley-Davidson motorcycles are included in the Harley-Davidson Motorcycle Retail Sales data.

(b) Data for Europe include Austria, Belgium, Denmark, Finland, France, Germany, Greece, Italy, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

The following table includes industry retail motorcycle registration data:

**Motorcycle Industry Retail Registrations
Heavyweight (651+cc)**

	<u>2008</u>	<u>2007</u>	<u>(Decrease)</u> <u>Increase</u>	<u>%</u> <u>Change</u>
United States ^{(a) (b)}	479,779	516,083	(36,304)	(7.0)%
Europe ^{(c)(d)}	389,691	387,943	1,748	0.5%

- (a) 2008 U.S. industry data includes three-wheeled vehicles. The Company did not ship three-wheeled vehicles until 2008 and does not believe three-wheeled vehicle retail registrations were significant in the U.S. for 2007.
- (b) U.S. industry data includes 651+cc models derived from submission of motorcycle retail sales by each major manufacturer to an independent third party. This third party data is subject to revision and update.
- (c) Europe data includes Austria, Belgium, Denmark, Finland, France, Germany, Greece, Italy, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom. Industry retail motorcycle registration data includes 651+cc models derived from information provided by Giral S.A., an independent agency. This third party data is subject to revision and update.
- (d) 2008 and 2007 Europe industry data includes three-wheeled vehicles.

Industry retail registration data for the remaining international markets has not been presented because the Company does not believe definitive and reliable registration data is available at this time.

Motorcycle Unit Shipments

The following table includes wholesale motorcycle unit shipments for the Motorcycles segment:

	<u>2008</u>		<u>2007</u>		<u>(Decrease)</u> <u>Increase</u>	<u>%</u> <u>Change</u>
Motorcycle Unit Shipments						
United States	206,309	68.0%	241,539	73.1%	(35,230)	(14.6)%
International	97,170	32.0%	89,080	26.9%	8,090	9.1
Harley-Davidson motorcycle units	<u>303,479</u>	<u>100.0%</u>	<u>330,619</u>	<u>100.0%</u>	<u>(27,140)</u>	(8.2)
Touring motorcycle units	101,887	33.6%	114,076	34.5%	(12,189)	(10.7)
Custom motorcycle units*	140,908	46.4%	144,507	43.7%	(3,599)	(2.5)
Sportster motorcycle units	60,684	20.0%	72,036	21.8%	(11,352)	(15.8)
Harley-Davidson motorcycle units	<u>303,479</u>	<u>100.0%</u>	<u>330,619</u>	<u>100.0%</u>	<u>(27,140)</u>	(8.2)
Buell motorcycle units	<u>13,119</u>		<u>11,513</u>		<u>1,606</u>	13.9%

* Custom motorcycle units, as used in this table, include Dyna, Softail, VRSC and CVO models.

During 2008, the Company shipped 303,479 Harley-Davidson motorcycles, a decrease of 27,140 motorcycles, or 8.2%, from last year. The Company's shipments in the U.S. in 2008 continued to be negatively impacted by the challenging economic environment, but were consistent with the Company's expectations to ship 23,000 to 27,000 fewer Harley-Davidson motorcycles in 2008 than were shipped in 2007. The Company's shipments in international markets grew during 2008, and the percentage of units shipped to international customers increased, consistent with the Company's strategic focus on global markets.

Segment Results

The following table includes the condensed statement of operations for the Motorcycles segment (in thousands):

	<u>2008</u>	<u>2007</u>	<u>(Decrease) Increase</u>	<u>% Change</u>
Net Revenue				
Harley-Davidson motorcycles	\$4,244,587	\$4,433,576	\$(188,989)	(4.3)%
Buell motorcycles	123,085	100,534	22,551	22.4
	<u>4,367,672</u>	<u>4,534,110</u>	<u>(166,438)</u>	<u>(3.7)</u>
Parts & Accessories	858,748	868,297	(9,549)	(1.1)
General Merchandise	313,838	305,435	8,403	2.8
Other	38,156	19,006	19,150	100.8
Net revenue	<u>5,578,414</u>	<u>5,726,848</u>	<u>(148,434)</u>	<u>(2.6)</u>
Cost of goods sold	<u>3,647,270</u>	<u>3,612,748</u>	<u>34,522</u>	<u>1.0</u>
Gross profit	1,931,144	2,114,100	(182,956)	(8.7)
Selling & administrative expense	774,135	710,065	64,070	9.0
Engineering expense	168,132	190,643	(22,511)	(11.8)
Restructuring expense	12,475	—	12,475	N/M
Operating expense	<u>954,742</u>	<u>900,708</u>	<u>54,034</u>	<u>6.0</u>
Operating income from motorcycles	<u>\$ 976,402</u>	<u>\$1,213,392</u>	<u>\$(236,990)</u>	<u>(19.5)%</u>

The net increase in operating expense was primarily due to higher international operating costs associated with the Company's international growth and a \$12.4 million restructuring charge incurred by the Company during 2008 (see Note 4 of Notes to Consolidated Financial Statements for further discussion).

The following table includes the estimated impact of the significant factors affecting the comparability of gross profit from 2007 to 2008 (in millions):

	<u>Net Revenue</u>	<u>Cost of Goods Sold</u>	<u>Gross Profit</u>
2007	\$5,727	\$3,613	\$2,114
Volume	(339)	(153)	(186)
Price	21	—	21
Foreign currency exchange rates and hedging	95	28	67
Product mix	70	42	28
Raw material prices	—	23	(23)
Manufacturing costs	—	94	(94)
Other	4	—	4
Total	<u>(149)</u>	<u>34</u>	<u>(183)</u>
2008	<u>\$5,578</u>	<u>\$3,647</u>	<u>\$1,931</u>

- Volume decreases to revenue and cost of goods sold were primarily the result of the 8.2% decrease in Harley-Davidson motorcycle units.
- Foreign currency exchange rates and hedging were affected primarily by a strengthening of the Euro relative to the U.S. dollar during 2008.
- Product mix benefited revenue and gross profit due to a shift away from the Company's Sportster motorcycles to custom motorcycles.

- Manufacturing costs increased partially as the result of a higher fixed cost per unit due to allocating fixed costs to fewer units. Additionally, higher manufacturing costs were the result of increasing product cost associated with new models and increased product content, such as new features and options on the Company's motorcycles.

Financial Services Segment

Segment Results

The following table includes the condensed statements of operations for the Financial Services segment (in thousands):

	<u>2008</u>	<u>2007</u>	<u>Increase (Decrease)</u>	<u>% Change</u>
Interest income	\$290,083	\$196,803	\$ 93,280	47.4%
Income from securitizations	13,439	97,576	(84,137)	(86.2)
Other income	73,448	121,817	(48,369)	(39.7)
Financial services income	<u>376,970</u>	<u>416,196</u>	<u>(39,226)</u>	<u>(9.4)</u>
Interest expense	136,763	81,475	55,288	67.9
Provision for credit losses	39,555	11,252	28,303	251.5
Operating expenses	117,887	111,300	6,587	5.9
Financial services expense	<u>294,205</u>	<u>204,027</u>	<u>90,178</u>	<u>44.2</u>
Operating income from financial services	<u>\$ 82,765</u>	<u>\$212,169</u>	<u>\$(129,404)</u>	<u>(61.0)%</u>

Interest income benefited from higher average retail outstanding receivables, partially offset by lower wholesale lending rates and slightly lower average wholesale outstanding receivables. Interest expense was higher due to increased borrowings to support growth in outstanding retail receivables, partially offset by lower borrowing rates. The increase in retail receivables outstanding was driven by a reduction in term asset-backed securitization activity during 2008 due to capital market volatility.

Income from securitizations during 2008 was lower as compared to 2007 due to a \$41.4 million write-down of certain retained securitization interests during 2008, a loss on the first quarter 2008 securitization transaction and the absence of a securitization transaction in the last three quarters of 2008. This compares to a \$9.9 million write-down and three securitization transactions completed in 2007.

During 2008, HDFFS sold \$540.0 million in retail motorcycle loans in a securitization transaction and recognized a loss of \$5.4 million, or 0.99% as a percentage of loans sold. This compares to a gain as a percentage of loans sold of 1.42%, or \$36.0 million, on \$2.53 billion of loans securitized in 2007. The loss in 2008 was driven by increased securitization funding costs due to capital market volatility and higher projected credit losses. In the 2008 securitization transaction, HDFFS retained \$54.0 million of the subordinated securities issued by the securitization trust. The subordinated securities that were retained have been included in the investment in retained securitization interests (a component of finance receivables held for investment) in the Consolidated Balance Sheets. The cash proceeds from the 2008 securitization transaction are net of the cost of the retained subordinated securities.

Income from securitizations was also negatively impacted in 2008 by a \$41.4 million write down of certain retained securitization interests. The write downs, which occurred in June and December of 2008 and are considered permanent impairments, resulted from a decline in the fair value of certain retained securitization interests due to higher actual and anticipated credit losses on those securitization portfolios and an increase in the discount rate from 12% to 18% in the fourth quarter of 2008. This compares to an impairment charge of \$9.9 million incurred in 2007. The fair value of the investment in retained securitization interests was \$330.7 million at December 31, 2008.

Other income decreased during 2008 as compared to 2007 primarily due to a \$37.8 million charge to earnings from the lower of cost or market value of its finance receivables held for sale. HDFS used discounted cash flow methodologies to estimate the fair value of finance receivables held for sale that incorporate appropriate assumptions for discount rate, funding costs and credit enhancement, as well as estimates concerning credit losses and prepayments that, in management's judgment, reflect assumptions marketplace participants would use. Any amount by which cost exceeds fair value is accounted for as a valuation adjustment with an offset to other income. The decline in fair value below cost was due to higher projected credit losses, increased funding costs and an increased discount rate in the fourth quarter of 2008 from 12% to 18%.

The \$28.3 million increase in the provision for credit losses primarily relates to an increase in the retail and wholesale receivable provisions of \$20.9 million and \$7.0 million, respectively.

Annualized losses on HDFS' managed retail motorcycle loans were 2.30% in 2008 compared to 1.91% for 2007. The 30-day delinquency rate for managed retail motorcycle loans at December 31, 2008 increased to 6.29% from 6.15% at December 31, 2007. Managed retail loans include loans held by HDFS as well as those sold through securitization transactions. The increase in losses was primarily due to a higher incidence of loss resulting from an increase in delinquent accounts.

Changes in the allowance for finance credit losses on finance receivables held for investment were as follows (in millions):

	<u>2008</u>	<u>2007</u>
Balance, beginning of period	\$ 30,295	\$27,283
Provision for finance credit losses	39,555	11,252
Charge-offs, net of recoveries	<u>(29,782)</u>	<u>(8,240)</u>
Balance, end of period	<u>\$ 40,068</u>	<u>\$30,295</u>

At December 31, 2008, the allowance for finance credit losses on finance receivables held for investment was \$28.4 million for retail receivables and \$11.7 million for wholesale receivables. The allowance for finance credit losses on finance receivables held for investment was \$25.9 million for retail receivables and \$4.4 million for wholesale receivables at December 31, 2007.

Other Matters

New Accounting Standards Not Yet Adopted

In June 2009, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 166, "Accounting for Transfers of Financial Assets, an amendment of FASB Statement No. 140." SFAS No. 166 amends the guidance within ASC Topic 860, "Transfers and Servicing," primarily by removing the concept of a qualifying special purpose entity as well as removing the exception from applying FASB Interpretation No. 46(R), "Consolidation of Variable Interest Entities." Upon the effective adoption date, formerly qualifying special purpose entities (as defined under previous accounting standards) must be evaluated for consolidation within an entity's financial statements. Additionally, the guidance within ASC Topic 860 will require enhanced disclosures about the transfer of financial assets as well as an entity's continuing involvement, if any, in transferred financial assets.

In June 2009, the FASB issued SFAS No. 167, "Amendments to FASB Interpretation No. 46(R)." SFAS No. 167 amends the guidance within ASC Topic 810, "Consolidations," by adding previously considered qualifying special purpose entities (the concept of these entities was eliminated by SFAS No. 166). In addition, companies must perform an analysis to determine whether the company's variable interest or interests give it a controlling financial interest in a variable interest entity. Companies must also reassess on an ongoing basis whether the company is the primary beneficiary of a variable interest entity.

The Company is required to adopt the new guidance contained within ASC 810 and ASC 860 as of January 1, 2010. The new guidance will require consolidation of the existing qualifying special purpose entities (QSPEs) that are not currently recorded on the Company's Consolidated Balance Sheet, resulting in an estimated increase in finance receivables and debt of \$1.89 billion. Consolidation of currently unconsolidated QSPEs will also result in an increase in the allowance for finance credit losses for newly consolidated finance receivables along with changes to the timing and line item reporting of income and expense in the Company's Consolidated Statement of Operations. Additionally, as part of the consolidation of these finance receivable securitization trusts, the investment in retained securitization interests will be eliminated and no future valuations will be required. In accordance with the new guidance, the Company will initially measure the assets and liabilities of the former QSPEs at their carrying values (the amounts at which the asset and liabilities would have been carried in the Consolidated Financial Statements if ASC Topic 810 had been effective when the Company first met the conditions as the primary beneficiary).

The cumulative effect of adopting these new accounting standards as of January 1, 2010, based on financial information as of December 31, 2009, would result in an estimated aggregate after-tax charge to retained earnings in the range of \$35.0 million to \$45.0 million, which includes the impact of establishing the initial allowance for finance credit losses. The actual impact of adopting the new accounting standards on January 1, 2010 could differ as several uncertainties in the application of these new standards are resolved. The Company does not believe the consolidation of the QSPEs will cause non-compliance with its or HDIFS' debt covenants.⁽¹⁾

Critical Accounting Estimates

The Company's financial statements are based on the selection and application of significant accounting policies, which require management to make significant estimates and assumptions. Management believes that the following are some of the more critical judgment areas in the application of accounting policies that currently affect the Company's financial condition and results of operations. Management has discussed the development and selection of these critical accounting estimates with the Audit Committee of the Board of Directors.

Goodwill – The Company reviews its goodwill for impairment, based on financial data related to the reporting unit to which it has been assigned, at least annually and whenever events or changes in circumstances indicate that the carrying value may not be recoverable. The impairment test involves comparing the fair value of the reporting unit associated with the goodwill to its carrying value, including goodwill. If the carrying amount of the reporting unit exceeds its fair value, goodwill must be adjusted to its implied fair value. In determining the fair value of a reporting unit, the Company utilizes widely accepted techniques such as discounted cash flow methodologies which require the Company to make assumptions and apply judgment to estimate macro economic factors, industry economic factors and the future profitability of current business strategies. Changes in these factors can have a significant impact on the impairment evaluation.

Asset Groups to Be Disposed of by Sale – Asset groups (assets and liabilities to be disposed of together as a group in a single transaction) classified as “held for sale” are measured at the lower of carrying amount or “fair value less cost to sell” and a loss should be recognized for any initial adjustment required to reduce the carrying amount to the “fair value less cost to sell” in the period the “held for sale” criteria are met. The “fair value less cost to sell” must be assessed each reporting period the asset group remains classified as “held for sale.” Gains or losses not previously recognized resulting from the sale of an asset group will be recognized on the date of sale. In determining the fair value of an asset group representing a business, the Company utilizes widely accepted techniques such as discounted cash flow methodologies which require the Company to make assumptions and apply judgment to estimate macro economic factors, industry economic factors and the future profitability of current business strategies. Changes in these factors can have a significant impact on the impairment evaluation. In addition, the determination of fair value for an asset group held for sale may be influenced by information received from market participants (interested buyers) having appropriate knowledge of the asset group. The appropriate level of knowledge may not be obtainable solely from public observations, but could be obtained in the course of a normal due diligence process.

Off-Balance Sheet Finance Receivable Securitizations – Prior to 2009, the Company sold retail motorcycle loans through securitization transactions utilizing Qualifying Special Purpose Entities (QSPEs) as defined by ASC Topic 860-40 “Transfers to Qualifying Special Purpose Entities” (ASC Topic 860-40). Upon sale of retail loans in a securitization transaction, HDFS received cash and retained an interest in excess cash flows, subordinated securities, and cash reserve account deposits, all of which are collectively referred to as retained interests in the securitized receivables. Retained interests are carried at fair value and are periodically reviewed for impairment. Market value quotes of fair value are generally not available for retained interests. Therefore, fair value is measured using discounted cash flow methodologies that incorporate management’s best estimate of key assumptions that, in management’s judgment, reflect the assumptions marketplace participants would use. The impact of changes to key assumptions is shown in Note 7 of Notes to Consolidated Financial Statements. HDFS retains servicing rights under retail loans that it has sold to the securitization trust and receives a servicing fee. The servicing fee paid to HDFS is considered adequate compensation for the services provided and is included in financial services revenue as earned.

Gains or losses on securitizations from the sale of retail loans were recorded as a component of financial services revenue and were based in part on certain assumptions including expected credit losses, prepayment speed and discount rates. Gains or losses on sales of retail loans also depended on the original carrying amount of the retail loans, which were allocated between the assets sold and the retained interests based on their relative fair value at the date of transfer.

Valuation of Finance Receivables Held for Sale – Finance receivables held for sale in the aggregate were carried at the lower of cost or estimated fair value. HDFS used discounted cash flow methodologies to estimate the fair value of finance receivables held for sale that incorporated appropriate assumptions for discount rate, funding costs and credit enhancement, as well as estimates concerning credit losses and prepayments that, in management’s judgment, reflected assumptions marketplace participants would use. Any amount by which cost exceeded fair value was accounted for as a valuation adjustment with an offset to other income.

Allowance for Finance Credit Losses on Finance Receivables Held for Investment – The allowance for uncollectible accounts is maintained at a level management believes is adequate to cover the losses of principal in the existing finance receivables held for investment portfolio. Management’s periodic evaluation of the adequacy of the retail or other small balance homogeneous loan allowance is generally based on HDFS’ past loan loss experience, known and inherent risks in the portfolio, current economic conditions and the estimated value of any underlying collateral. HDFS’ wholesale and other large loan allowance policy is based on a loan-by-loan review which considers the specific borrowers ability to repay and the estimated value of any underlying collateral.

Product Warranty – Estimated warranty costs are reserved for each motorcycle at the time of sale. The warranty reserve is an estimated cost per unit sold based upon historical Company claim data used in combination with other known factors that may affect future warranty claims. The Company updates its warranty estimates quarterly to ensure that the warranty reserves are based on the most current information available.

The Company believes that past claim experience is indicative of future claims; however, the factors affecting actual claims can be volatile. As a result, actual claims experience may differ from estimated which could lead to material changes in the Company’s warranty provision and related reserves. The Company’s warranty liability is discussed further in Note 1 of Notes to Consolidated Financial Statements.

Pensions and Other Postretirement Benefits – The Company has several defined benefit pension plans and several postretirement healthcare benefit plans, which cover substantially all employees of the Motorcycles segment. The Company also has unfunded supplemental employee retirement plan agreements (SERPA) with certain employees which were instituted to replace benefits lost under the Tax Revenue Reconciliation Act of 1993. Pension, SERPA and postretirement healthcare obligations and costs are calculated through actuarial valuations. The valuation of benefit obligations and net periodic benefit costs relies on key assumptions including discount rates, long-term expected return on plan assets, future compensation and healthcare cost trend rates.

The Company determines its discount rate assumptions by referencing high-quality long-term bond rates that are matched to the duration of its own benefit obligations. Based on this analysis, the discount rate for pension and SERPA obligations was decreased from 6.1% as of December 31, 2008 to 6.0% as of December 31, 2009. The discount rate for postretirement healthcare obligations was decreased from 6.1% to 5.65%. The Company determines its healthcare trend assumption for the postretirement healthcare obligation by considering factors such as estimated healthcare inflation, the utilization of healthcare benefits and changes in the health of plan participants. Based on the Company's assessment of this data as of December 31, 2009, the Company lowered its healthcare cost trend rate to 7.5% from 8% as of December 31, 2008. The Company expects the healthcare cost trend rate to reach its ultimate rate of 5% beginning in 2014.⁽¹⁾ These assumption changes were reflected immediately in the benefit obligation and will be amortized into net periodic benefit costs over future periods.

The following information is provided to illustrate the sensitivity of pension and postretirement healthcare obligations and costs to changes in these major assumptions (in thousands):

	<u>Amounts based on current assumptions</u>	<u>Impact of a 1% decrease in the discount rate</u>	<u>Impact of a 1% increase in the healthcare cost trend rate</u>
2009 Net periodic benefit costs			
Pension and SERPA	\$ 84,770	\$ 22,740	n/a
Postretirement healthcare	\$ 34,303	\$ 2,294	\$ 1,082
2009 Benefit obligations			
Pension and SERPA	\$1,284,722	\$186,371	n/a
Postretirement healthcare	\$ 377,282	\$ 37,180	\$11,387

This information should not be viewed as predictive of future amounts. The calculation of pension, SERPA and postretirement healthcare obligations and costs is based on many factors in addition to those discussed here. This information should be considered in combination with the information provided in Note 12 of Notes to Consolidated Financial Statements.

Stock Compensation Costs – The total cost of the Company's share-based awards is equal to the grant date fair value per award multiplied by the number of awards granted (adjusted for forfeitures). This cost is recognized as expense on a straight-line basis over the service periods of the awards. Forfeitures are initially estimated based on historical Company information and subsequently updated over the life of the awards to ultimately reflect actual forfeitures. As a result, changes in forfeiture activity can influence the amount of stock compensation cost recognized from period to period.

The Company estimates the fair value of option awards as of the grant date using a lattice-based option valuation model which utilizes ranges of assumptions over the expected term of the options, including stock price volatility, dividend yield and risk free interest rate.

The valuation model uses historical data to estimate option exercise behavior and employee terminations. The expected term of options granted is derived from the output of the option valuation model and represents the average period of time that options granted are expected to be outstanding.

The Company uses a weighted-average of historical and implied volatility to determine the expected volatility of its stock. The implied volatility is derived from options that are actively traded and the market prices of both the traded options and underlying shares are measured at a similar point in time to each other and on a date reasonably close to the grant date of the employee share options. In addition, the traded options have exercise prices that are both (a) near-the-money and (b) close to the exercise price of the employee share options. Finally, the remaining maturities of the traded options on which the estimate is based are at least one year.

Dividend yield was based on the Company's expected dividend payments and the risk-free rate was based on the U.S. Treasury yield curve in effect at the time of grant.

Changes in the valuation assumptions could result in a significant change to the cost of an individual option. However, the total cost of an award is also a function of the number of awards granted, and as result, the Company has the ability to control the cost of its equity awards by adjusting the number of awards granted.

Income Taxes – The Company accounts for income taxes in accordance with ASC Topic 740, "Income Taxes." Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and other loss carry-forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

The Company is subject to income taxes in the United States and numerous foreign jurisdictions. Significant judgment is required in determining the Company's worldwide provision for income taxes and recording the related deferred tax assets and liabilities. In the ordinary course of the Company's business, there are transactions and calculations where the ultimate tax determination is uncertain. Accruals for unrecognized tax benefits are provided for in accordance with the requirements of ASC Topic 740. An unrecognized tax benefit represents the difference between the recognition of benefits related to exposure items for income tax reporting purposes and financial reporting purposes. The unrecognized tax benefit is included within other long-term liabilities in the Consolidated Balance Sheets. The Company has a reserve for interest and penalties on exposure items, if applicable, which is recorded as a component of the overall income tax provision. The Company is regularly under audit by tax authorities. Although the outcome of tax audits is always uncertain, management believes that it has appropriate support for the positions taken on its tax returns and that its annual tax provision includes amounts sufficient to pay any assessments. Nonetheless, the amounts ultimately paid, if any, upon resolution of the issues raised by the taxing authorities may differ materially from the amounts accrued for each year.

Contractual Obligations

A summary of the Company's expected payments for significant contractual obligations as of December 31, 2009 is as follows (in thousands):

	<u>2010</u>	<u>2011 - 2012</u>	<u>2013 - 2014</u>	<u>Thereafter</u>	<u>Total</u>
Principal payments on debt	\$1,522,090	\$1,890,231	\$1,225,433	\$ 998,375	\$5,636,129
Interest payments on debt	265,687	452,547	291,421	235,167	1,244,822
Operating lease payments	11,985	12,023	8,559	17,002	49,569
	<u>\$1,799,762</u>	<u>\$2,354,801</u>	<u>\$1,525,413</u>	<u>\$1,250,544</u>	<u>\$6,930,520</u>

As described in Note 13 of Notes to Consolidated Financial Statements, as of December 31, 2009, the Company classified \$378.2 million related to its unsecured commercial paper and its Global Credit Facilities (as defined in "Liquidity and Capital Resources") as long-term debt as of December 31, 2009. This amount is classified as long term because it is supported by the Global Credit Facilities and is expected to remain outstanding for an uninterrupted period extending beyond one year; accordingly, the Company has assumed that this amount will be repaid in 2011.

As described in Note 13 of Notes to Consolidated Financial Statements, as of December 31, 2009, the Company classified \$205.0 million related to its Global Credit Facilities as current portion of long-term debt as of December 31, 2009. This amount relates to the Company's investment in MV and subsequent working capital advances. This amount is classified as current portion of long-term debt as the Company anticipates that it will be repaid in 2010.

Interest obligations include the impact of interest rate hedges outstanding as of December 31, 2009. Interest for floating rate instruments, as calculated above, assumes December 31, 2009 rates remain constant.

As of December 31, 2009, the Company had no material purchase obligations other than those created in the ordinary course of business related to inventory and property, plant and equipment which generally have terms of less than 90 days.

The Company has long-term obligations related to its pension, SERPA and postretirement healthcare plans at December 31, 2009. During 2009, the Company contributed \$233.2 million to its pension, SERPA and postretirement healthcare plans. The Company is currently evaluating additional contributions to further fund its pension plans even though no additional contributions are required in 2010. The Company expects it will continue to make on-going contributions related to current benefit payments for SERPA and postretirement healthcare plans. The Company's expected future contributions to these plans are provided in Note 15 of Notes to Consolidated Financial Statements.

As described in Note 14 of Notes to Consolidated Financial Statements, the Company has unrecognized tax benefits of \$77.8 million and accrued interest and penalties of \$27.4 million as of December 31, 2009. However, the Company cannot make a reasonably reliable estimate for the period of cash settlement for either the \$77.8 million of liability of unrecognized tax benefits or accrued interest and penalties of \$27.4 million.

Off-Balance Sheet Arrangements

As part of its term asset-backed securitization program prior to 2009, HDFS transferred retail motorcycle loans to a special purpose bankruptcy-remote wholly-owned subsidiary. The subsidiary sold the retail loans to a securitization trust in exchange for the proceeds from term asset-backed securities issued by the securitization trust. The term asset-backed securities, usually notes with various maturities and interest rates, are secured by future collections of the purchased retail installment loans. Activities of the securitization trust are limited to acquiring retail loans, issuing term asset-backed securities and making payments on securities to investors. Due to the nature of the assets held by the securitization trust and the limited nature of its activities, the securitization trusts are considered Qualifying Special Purpose Entities (QSPEs) as defined by the Financial Accounting Standards Board's (FASB) Accounting Standards Codification (ASC) Topic 860-40 "Transfers to Qualifying Special Purpose Entities" (ASC Topic 860-40). In accordance with ASC Topic 860-40, assets and liabilities of the QSPEs are not consolidated in the financial statements of the Company (see update below).

HDFS does not guarantee payments on the securities issued by the securitization trusts or the projected cash flows from the related loans purchased from HDFS. The Company's retained securitization interests, excluding servicing rights, are subordinate to the interests of securitization trust investors. Such investors have priority interests in the cash collections on the retail loans sold to the securitization trust (after payment of servicing fees) and in the cash reserve account deposits. These priority interests ultimately could impact the value of the Company's investment in retained securitization interests. Investors also do not have recourse to assets of HDFS for failure of the obligors on the retail loans to pay when due. Total investment in retained securitization interests at December 31, 2009 was \$245.4 million. The securitization trusts have a limited life and generally terminate upon final distribution of amounts owed to the investors in the term asset-backed securities. See Note 8 of Notes to Consolidated Financial Statements for further discussion of HDFS' term asset-backed securitization program.

As discussed under "New Accounting Standards Not Yet Adopted," the Company is required to adopt new guidance within ASC Topics 810 and 860 as of January 1, 2010 requiring the consolidation of qualifying special purpose entities previously utilized for its off-balance sheet term asset-backed securitization transactions.

Commitments and Contingencies

The Company is subject to lawsuits and other claims related to environmental, product and other matters. In determining required reserves related to these items, the Company carefully analyzes cases and considers the

likelihood of adverse judgments or outcomes, as well as the potential range of possible loss. The required reserves are monitored on an ongoing basis and are updated based on new developments or new information in each matter.

Environmental Protection Agency Notice

The Company has received formal, written requests for information from the United States Environmental Protection Agency (EPA) regarding: (i) certificates of conformity for motorcycle emissions and related designations and labels, (ii) aftermarket parts, and (iii) warranty claims on emissions related components. The Company has submitted written responses to the EPA's inquiry and has engaged in discussions with the EPA. It is possible that a result of the EPA's investigation will be some form of enforcement action by the EPA that will seek a fine or other relief. However, at this time the Company does not know and cannot reasonably estimate the impact of any remedies the EPA might seek.

Shareholder Lawsuits:

In re Harley-Davidson, Inc. Securities Litigation was a consolidated shareholder securities class action lawsuit filed in the United States District Court for the Eastern District of Wisconsin. On October 2, 2006, the Lead Plaintiffs filed a Consolidated Class Action Complaint, which named the Company and certain former Company officers as defendants, that alleged securities law violations and sought unspecified damages relating generally to the Company's April 13, 2005 announcement that it was reducing short-term production growth and planned increases of motorcycle shipments. On December 18, 2006, the defendants filed a motion to dismiss the Consolidated Complaint. On October 8, 2009, the judge granted defendants' motion to dismiss, and the clerk of court entered judgment dismissing the consolidated lawsuit. No appeal was taken from the final judgment and the dismissal of the action is now final.

On August 25, 2005, a class action lawsuit alleging violations of the Employee Retirement Income Security Act (ERISA) was filed in the United States District Court for the Eastern District of Wisconsin. On October 2, 2006, the ERISA plaintiff filed an Amended Class Action Complaint, which named the Company, the Harley-Davidson Motor Company Retirement Plans Committee, the Company's Leadership and Strategy Council, and certain current or former Company officers or employees as defendants. In general, the ERISA complaint included factual allegations similar to those in the consolidated securities class action and alleged on behalf of participants in certain Harley-Davidson retirement savings plans that the plan fiduciaries breached their ERISA fiduciary duties. On December 18, 2006, the defendants filed a motion to dismiss the ERISA complaint. On October 8, 2009, the judge granted defendants' motion to dismiss, and the clerk of court entered judgment dismissing the class action lawsuit. No appeal was taken from the final judgment and the dismissal of the action is now final.

Three shareholder derivative lawsuits were filed in the United States District Court for the Eastern District of Wisconsin on June 3, 2005, October 25, 2005 (this lawsuit was later voluntarily dismissed) and December 2, 2005, and two shareholder derivative lawsuits were filed in Milwaukee County Circuit Court on July 22, 2005 and November 16, 2005, against some or all of the following current or former directors and officers of the Company: Jeffrey L. Bleustein, James L. Ziemer, James M. Brostowitz, Barry K. Allen, Richard I. Beattie, George H. Conrades, Judson C. Green, Donald A. James, Sara L. Levinson, George L. Miles, Jr., James A. Norling, James A. McCaslin, Donna F. Zarcone, Jon R. Flickinger, Gail A. Lione, Ronald M. Hutchinson, W. Kenneth Sutton, Jr. and John A. Hevey. The lawsuits also name the Company as a nominal defendant. In general, the shareholder derivative complaints include factual allegations similar to those in the class action complaints and allegations that officers and directors breached their fiduciary duties to the Company. On February 14, 2006, the state court consolidated the two state court derivative actions and appointed Lead Plaintiffs and Lead Plaintiffs' counsel, and on April 24, 2006, the state court ordered that the consolidated state court derivative action be stayed until after motions to dismiss the federal securities class action are decided. On February 15, 2006, the federal court consolidated the federal derivative lawsuits with the securities and ERISA actions for administrative purposes. On February 1, 2007, the federal court appointed Lead Plaintiff and Co-Lead Plaintiffs' Counsel in the consolidated federal derivative action.

On November 24, 2009, both federal court derivative plaintiffs moved to voluntarily dismiss their lawsuits and all claims without prejudice. On November 30, 2009, the federal court entered orders granting the motions and dismissing the federal court derivative lawsuits without prejudice, and those cases are now closed. The parties have agreed that the lead plaintiff in the consolidated state court derivative action may have until February 19, 2010 to file an amended complaint in that action and that defendants may have until March 26, 2010 to respond to any amended complaint.

The Company believes the allegations in the state court derivative lawsuit are without merit and it intends to vigorously defend against the suit should the plaintiffs file an amended complaint. The Company is unable to predict the scope or outcome or quantify their eventual impact, if any, on the Company. At this time, the Company is also unable to estimate associated expenses or possible losses. The Company maintains insurance that may limit its financial exposure for defense costs and liability for an unfavorable outcome, should it not prevail, for claims covered by the insurance coverage.

York Environmental Matters:

The Company is involved with government agencies and groups of potentially responsible parties in various environmental matters, including a matter involving the cleanup of soil and groundwater contamination at its York, Pennsylvania facility. The York facility was formerly used by the U.S. Navy and AMF prior to the purchase of the York facility by the Company from AMF in 1981. Although the Company is not certain as to the full extent of the environmental contamination at the York facility, it has been working with the Pennsylvania Department of Environmental Protection (PADEP) since 1986 in undertaking environmental investigation and remediation activities, including an ongoing site-wide remedial investigation/feasibility study (RI/FS). In January 1995, the Company entered into a settlement agreement (the Agreement) with the Navy. The Agreement calls for the Navy and the Company to contribute amounts into a trust equal to 53% and 47%, respectively, of future costs associated with environmental investigation and remediation activities at the York facility (Response Costs). The trust administers the payment of the Response Costs incurred at the York facility as covered by the Agreement.

In February 2002, the Company was advised by the EPA that it considers some of the Company's remediation activities at the York facility to be subject to the EPA's corrective action program under the Resource Conservation and Recovery Act (RCRA) and offered the Company the option of addressing corrective action under a RCRA facility lead agreement. In July 2005, the York facility was designated as the first site in Pennsylvania to be addressed under the "One Cleanup Program." The program provides a more streamlined and efficient oversight of voluntary remediation by both PADEP and EPA and will be carried out consistent with the Agreement with the Navy. As a result, the RCRA facility lead agreement has been superseded.

Although the RI/FS is still underway and substantial uncertainty exists concerning the nature and scope of the additional environmental investigation and remediation that will ultimately be required at the York facility, the Company estimates that its share of the future Response Costs at the York facility will be approximately \$5.9 million. The Company has established reserves for this amount, which are included in accrued liabilities in the Consolidated Balance Sheets.

The estimate of the Company's future Response Costs that will be incurred at the York facility is based on reports of independent environmental consultants retained by the Company, the actual costs incurred to date and the estimated costs to complete the necessary investigation and remediation activities. Response Costs related to the remediation of soil are expected to be incurred over a period of several years ending in 2015. Response Costs related to ground water remediation may continue for some time beyond 2015.

Product Liability Matters:

Additionally, the Company is involved in product liability suits related to the operation of its business. The Company accrues for claim exposures that are probable of occurrence and can be reasonably estimated. The

Company also maintains insurance coverage for product liability exposures. The Company believes that its accruals and insurance coverage are adequate and that product liability will not have a material adverse effect on the Company's consolidated financial statements.

Liquidity and Capital Resources as of December 31, 2009

Over the long-term, the Company expects that its business model will continue to generate cash that will allow it to invest in the business, fund future growth opportunities and return value to shareholders.⁽¹⁾ The Company believes the Motorcycles operations will continue to be primarily funded through internally-generated cash flows. During 2009, the Company's Financial Services operations were funded with unsecured debt, unsecured commercial paper, an asset-backed commercial paper conduit facility, and committed unsecured bank facilities and through the term asset-backed securitization market. On January 22, 2010, the Company announced that it believes HDFS' anticipated 2010 funding needs have been met through actions taken during 2009.⁽¹⁾ These actions included:

- In February 2009, the Company accessed the unsecured debt capital markets with the issuance of \$600.0 million of senior unsecured five-year notes.
- In April 2009, HDFS increased the size of its asset-backed commercial paper conduit facility from \$500.0 million to \$1.20 billion and extended the maturity date until April 2010.
- In April 2009, the Company and HDFS entered into a new \$625.0 million 364-day credit facility to replace its \$950.0 million 364-day credit facility that was set to expire in July 2009. The new 364-day credit facility has a maturity date of April 2010.
- In May, July, October and December 2009, HDFS transferred a total of \$3.08 billion U.S. retail motorcycle finance receivables to four separate special purpose entities (SPEs), which in turn issued a total of \$2.46 billion of secured notes, with various maturities and interest rates, to investors. These term asset-backed securitization transactions were "eligible collateral" under the Federal Reserve Bank of New York's Term Asset-backed securities Loan Facility (TALF) program.
- In November 2009, HDFS issued \$500.0 million of medium-term notes.

In 2010, the Company and HDFS expect to renew a portion of the \$625.0 million 364-day credit facility and the asset-backed commercial paper conduit facility, both of which expire in April 2010.⁽¹⁾ Any new capital market funding is expected to be used to pre-fund 2011 funding requirements.⁽¹⁾

In addition to the funding achievements discussed above, the Company has taken steps to manage and preserve cash. During 2009, the Company's Board of Directors approved four quarterly dividends of \$0.10 per share, a decrease of \$0.23 per share from the dividend paid in the fourth quarter of 2008. The dividend reductions resulted in cash savings of approximately \$216 million.

Going forward, the Company's strategy will be to maintain a minimum of twelve months of its projected liquidity needs through a combination of cash and credit facilities. As a result, the Company will continue to carry higher cash balances until the U.S. economy, as well as the capital and credit markets and the Company's debt ratings, stabilize and improve.

The Company is currently reviewing its strategic options relative to its Financial Services operations in order to find more diversified and cost effective funding to meet HDFS' goal of providing credit while delivering appropriate returns and profitability. Although the Company believes it has obtained the funding necessary to support HDFS' operations for 2010⁽¹⁾, the Company recognizes that it must be able to adjust its business to the current lending environment. The Company intends to continue to diversify its funding profile through a combination of short-term and long-term funding vehicles, reduce its reliance on the term asset-backed securitization market and continue to pursue all avenues to obtain cost-effective funding. The Financial Services

operations may be negatively affected by the higher cost of funding and the increased difficulty of raising, or potential unsuccessful efforts to raise, funding in the short-term and long-term capital markets.⁽¹⁾ These negative consequences may in turn adversely affect the Company's business and results of operations in various ways, including through higher costs of capital, reduced funds available through its Financial Services operations to provide loans to independent dealers and their retail customers, and dilution to existing shareholders through the use of alternative sources of capital.

The Company has long-term obligations related to its pension, SERPA and postretirement healthcare plans at December 31, 2009. During 2009, the Company contributed \$233.2 million to its pension, SERPA and postretirement healthcare plans. The Company is currently evaluating additional contributions to further fund its pension plans even though no additional pension plan contributions are required in 2010. The Company expects it will continue to make on-going contributions related to current benefit payments for SERPA and postretirement healthcare plans. The Company's expected future contributions to these plans are provided in Note 15 of Notes to Consolidated Financial Statements.

Cash Flow Activity

The following table summarizes the operating, investing and financing cash flow activity of continuing operations for the three years ended December 31, 2009, 2008 and 2007 (in thousands):

	<u>2009</u>	<u>2008</u>	<u>2007</u>
Net cash provided by (used by) operating activities of continuing operations	\$ 609,010	\$ (608,029)	\$ 798,146
Net cash (used by) provided by investing activities of continuing operations	(863,487)	(294,875)	391,205
Net cash provided by (used by) financing activities of continuing operations	<u>1,381,937</u>	<u>1,293,390</u>	<u>(1,037,803)</u>
Total	<u>\$1,127,460</u>	<u>\$ 390,486</u>	<u>\$ 151,548</u>

Operating Activities

The increase in operating cash flow for 2009 compared to 2008 was due primarily to the classification of the Company's retail lending activities partially offset by lower net income and pension contributions.

U.S. retail motorcycle loans originated prior to June 28, 2009 were classified as held-for-sale based on the Company's intent to securitize these retail loans in off-balance sheet securitization transactions. Accordingly, the origination and collection of these retail loans as well as any proceeds from off-balance sheet securitization transactions were components of operating cash flows. The Company has not conducted an off-balance sheet securitization since the first quarter of 2008. At end of the second quarter of 2009, the Company made a decision to structure subsequent securitization transactions in a manner that will require "on-balance sheet" accounting (i.e., the Company no longer has intent to sell at the date of origination). As a result of that decision, the cash flows related to post-June retail lending activity are included within the investing cash flow section of the statement of cash flows.

As noted above, the Company contributed \$233.2 million to its pension plans during 2009 including the on-going contribution requirements related to current benefit payments for SERPA and postretirement healthcare plans.

Investing Activities

The Company's investing activities consist primarily of capital expenditures, net changes in finance receivables held for investment and short-term investment activity. Capital expenditures were \$116.7 million and

\$229.0 million during 2009 and 2008, respectively. Net changes in finance receivables held for investment reflect the Company's increased utilization of on-balance sheet term asset-backed securitization transactions. During the year ended December 31, 2009, the Company completed four such transactions.

As a result of the Company's higher cash balances as of December 31, 2009, the Company invested \$39.7 million in corporate bonds during December 2009. Sales and redemptions of marketable securities (net of purchases) in 2008 resulted in cash inflow of \$2.5 million compared to \$657.7 million in 2007.

Financing Activities

The Company's financing activities consist primarily of debt activity, dividend payments and share repurchases. In 2008, the Company repurchased 6.3 million shares of its common stock at a total cost of \$250.4 million. As of December 31, 2009, there were 16.7 million shares remaining on a board-approved share repurchase authorization. An additional board-approved share repurchase authorization is in place to offset option exercises.

The Company paid dividends of \$0.40 per share at a total cost of \$93.8 million during 2009, compared to dividends of \$1.29 per share at a total cost of \$302.3 million during 2008.

During 2009, debt increased by \$1.72 billion compared to 2008 in support of the higher finance receivables outstanding at HDFS and higher cash balances that the Company is maintaining in order to ensure a minimum of twelve months of its projected liquidity needs. The Company's total outstanding debt consisted of the following as of December 31, 2009, 2008 and 2007 (in thousands):

	<u>2009</u>	<u>2008</u>	<u>2007</u>
Unsecured commercial paper	\$ 325,099	\$1,416,449	\$ 842,618
Asset-backed conduit facility	—	500,000	—
Credit facilities	448,049	390,932	256,531
	<u>773,148</u>	<u>2,307,381</u>	<u>1,099,149</u>
Medium-term notes	2,103,396	1,607,506	1,000,806
Senior unsecured notes	600,000	—	—
On-balance sheet securitization debt	2,159,585	—	—
Total debt	<u>\$5,636,129</u>	<u>\$3,914,887</u>	<u>\$2,099,955</u>

In order to access the debt capital markets, the Company relies on credit rating agencies to assign short-term and long-term credit ratings. Generally, lower credit ratings result in higher borrowing costs and reduced access to debt capital markets. A credit rating agency may change or withdraw the Company's ratings based on its assessment of the Company's current and future ability to meet interest and principal repayment obligations. The Company's short-term debt ratings affect its ability to issue unsecured commercial paper. The Company's short- and long-term debt ratings as of December 31, 2009 were as follows:

	<u>Short-Term</u>	<u>Long-Term</u>	<u>Outlook</u>
Moody's	P2	Baa1	Negative
Standard & Poor's	A2	BBB	Stable
Fitch	F2	BBB+	Negative

Credit Facilities – In April 2009, the Company and HDFS entered into a new \$625.0 million 364-day credit facility (New 364-Day Credit Facility) to refinance and replace the existing \$950.0 million 364-day credit facility (2008 364-Day Credit Facility), which was set to mature in July 2009. The New 364-Day Credit Facility matures in April 2010. In connection with the New 364-Day Credit Facility, the Company and HDFS also amended the existing three-year credit facility agreement, which matures in July 2011. The amendments to the three-year

credit facility were to conform to the terms of the New 364-Day Credit Facility. The New 364-Day Credit Facility and the amended three-year credit facility agreement (together, the Global Credit Facilities) bear interest at various variable interest rates, which may be adjusted upward or downward depending on certain criteria, such as credit ratings. The Global Credit Facilities also require the Company to pay a fee based upon the average daily unused portion of the aggregate commitments under the Global Credit Facilities.

Commercial Paper – Subject to limitations, HDFFS could issue unsecured commercial paper of up to \$1.58 billion as of December 31, 2009. Outstanding unsecured commercial paper may not exceed the unused portion of the Global Credit Facilities. Maturities may range up to 365 days from the issuance date. HDFFS intends to finance the repayment of unsecured commercial paper as it matures by issuing traditional unsecured commercial paper or through other means, such as borrowing under the Global Credit Facilities, borrowing under its asset-backed commercial paper conduit facility and term asset-backed securitizations.⁽¹⁾

Asset-backed commercial paper conduit facility – During April 2009, HDFFS entered into a new revolving asset-backed conduit facility agreement (2009 Conduit Loan Agreement) to refinance and replace the existing \$500.0 million asset-backed conduit facility agreement (2008 Conduit Loan Agreement). The 2009 Conduit Loan Agreement provides for the extension of credit by a group of third-party bank sponsored conduits, some of which were party to the 2008 Conduit Loan Agreement. The 2009 Conduit Loan Agreement provides for total revolving borrowings of up to \$1.20 billion based on, among other things, the amount of eligible U.S. retail motorcycle loan collateral. As part of the April 2009 transaction, HDFFS increased the U.S. retail motorcycle loan collateral by \$354.4 million and also increased the debt issued to the third-party bank sponsored conduits from \$500.0 million to \$640.2 million. At December 31, 2009, HDFFS had no outstanding borrowings under the 2009 Conduit Loan Agreement.

This debt provides for interest on outstanding principal based on prevailing commercial paper rates, or LIBOR plus a specified margin to the extent the advance is not funded by a conduit lender through the issuance of commercial paper. The 2009 Conduit Loan Agreement also provides for an unused commitment fee based on the unused portion of the total aggregate commitment or \$1.20 billion. There is no amortization schedule; however, the debt is reduced monthly as available collections on the related finance receivable collateral are applied to outstanding principal with the balance due at maturity. Unless earlier terminated or extended by mutual agreement of HDFFS and the lenders, the 2009 Conduit Loan Agreement will expire on April 29, 2010, at which time HDFFS will be obligated to repay any amounts outstanding in full.

Medium-Term Notes – The Company has the following Medium-Term Notes (collectively the Notes) issued and outstanding at December 31, 2009 (in thousands):

<u>Principal Amount</u>	<u>Rate</u>	<u>Issue Date</u>	<u>Maturity Date</u>
\$ 200,000	5.00%	December 2005	December 2010
\$ 400,000	5.25%	December 2007	December 2012
\$1,000,000	6.80%	May 2008	June 2018
\$ 500,000	5.75%	November 2009	December 2014

The Notes provide for semi-annual interest payments and principal due at maturity. At December 31, 2009, 2008 and 2007, the Notes included a fair value adjustment increasing the balance by \$6.1 million, \$9.7 million and \$1.3 million, respectively, due to interest rate swap agreements designated as fair value hedges. The effect of the interest rate swap agreements is to convert the interest rate on a portion of the Notes from a fixed to a floating rate, which is based on 3-month LIBOR. Unamortized discounts on the Notes reduced the balance by \$2.7 million, \$2.2 million and \$0.5 million at December 31, 2009, 2008 and 2007, respectively.

Senior Unsecured Notes – In February 2009, the Company issued \$600.0 million of senior unsecured notes in an underwritten offering. The senior unsecured notes mature in February 2014 and have an annual interest rate of 15%. The senior unsecured notes provide for semi-annual interest payments and principal due at maturity.

Prior to the end of the first quarter, the Company transferred the full proceeds from the issuance to HDFS in order to fund HDFS' operations. As HDFS diversified its debt structure through a combination of actions during 2009, its funding profile improved. During the fourth quarter of 2009, HDFS transferred the full proceeds back to the Company.

On-Balance Sheet Securitization Debt – In 2009, HDFS transferred \$3.08 billion of U.S. retail motorcycle loans to four separate SPEs. The SPEs in turn issued \$2.46 billion of secured notes, respectively, with various maturities and interest rates to investors in on-balance sheet securitization transactions. These term asset-backed securitization transactions were “eligible collateral” under the TALF program. The notes are secured by future collections of the purchased U.S. retail motorcycle loans. The structure of these term asset-backed securitization transactions did not satisfy the requirements for accounting sale treatment under ASC Topic 860-40; therefore, the securitized U.S. retail motorcycle loans, resulting secured borrowings and other related assets and liabilities of the SPEs are included in the Company's consolidated financial statements as HDFS is the primary beneficiary of the SPEs.

The SPEs are separate legal entities and the U.S. retail motorcycle loans that have been included in the term asset-backed securitizations are only available for payment of the secured debt and other obligations arising from the term asset-backed securitization transactions and are not available to pay other obligations or claims of the Company's creditors until the associated secured debt and other obligations are satisfied. Cash and cash equivalent balances held by the SPEs are used only to support the on-balance sheet securitizations. There is no amortization schedule for the secured notes; however, the debt is reduced monthly as available collections on the related U.S. retail motorcycle loans are applied to outstanding principal. The notes expected life ranges from one to four years due to credit losses and prepayment speeds.

As of December 31, 2009, the assets of the SPEs totaled \$2.93 billion, of which \$2.75 billion of finance receivables were restricted as collateral for the payment of \$2.16 billion secured notes. Also included in the assets of the SPEs were \$164.1 million of cash restricted for payment on the outstanding debt at December 31, 2009.

Intercompany Borrowing – HDFS has a revolving credit line with the Company whereby HDFS may borrow up to \$210.0 million from the Company at a market interest rate. As of December 31, 2009, 2008 and 2007, HDFS had no outstanding borrowings owed to the Company under this agreement.

The Company has a support agreement with HDFS whereby, if required, the Company agrees to provide HDFS with financial support in order to maintain HDFS' fixed-charge coverage at 1.25 and minimum net worth of \$40.0 million. Support may be provided at the Company's option as capital contributions or loans. Accordingly, certain debt covenants may restrict the Company's ability to withdraw funds from HDFS outside the normal course of business. No amount has ever been provided to HDFS under the support agreement.

Operating and Financial Covenants – HDFS and the Company are subject to various operating and financial covenants related to the Global Credit Facilities, asset-backed commercial paper conduit facility and various operating covenants under the Notes. The more significant covenants are described below.

The covenants limit the Company's and HDFS' ability to:

- incur certain additional indebtedness;
- assume or incur certain liens;
- participate in a merger, consolidation, liquidation or dissolution; and
- purchase or hold margin stock.

Under the financial covenants of the Global Credit Facilities and the asset-backed commercial paper conduit facility, the debt to equity ratio of HDFS and its consolidated subsidiaries cannot exceed 10.0 to 1.0 and HDFS

must maintain a consolidated tangible net worth of not less than \$500.0 million. In addition, the Company must maintain a minimum interest coverage ratio of 2.5 to 1.0 and a maximum ratio of consolidated debt (excluding HDFS and certain intercompany debt) to consolidated EBITDA of 2.75 to 1. No financial covenants are required under the Notes.

At December 31, 2009, 2008 and 2007, HDFS and the Company remained in compliance with all of these covenants.

Cautionary Statements

The Company's ability to meet the targets and expectations noted in this Form 10-K depends upon, among other factors, the Company's ability to (i) execute its strategy and successfully exit certain product lines and divest certain company assets; (ii) effectively execute the Company's restructuring plans within expected costs and timing; (iii) successfully achieve with the Company's labor unions flexible and cost-effective agreements to accomplish restructuring goals and long-term competitiveness; (iv) manage the risks that our independent dealers may have difficulty obtaining capital and adjusting to the recession and slowdown in consumer demand; (v) manage supply chain issues; (vi) anticipate the level of consumer confidence in the economy; (vii) continue to have access to reliable sources of capital funding and adjust to fluctuations in the cost of capital; (viii) manage the credit quality, the loan servicing and collection activities, and the recovery rates of HDFS' loan portfolio; (ix) continue to realize production efficiencies at its production facilities and manage operating costs including materials, labor and overhead; (x) manage production capacity and production changes; (xi) provide products, services and experiences that are successful in the marketplace; (xii) develop and implement sales and marketing plans that retain existing retail customers and attract new retail customers in an increasingly competitive marketplace; (xiii) sell all of its motorcycles and related products and services to its independent dealers; (xiv) continue to develop the capabilities of its distributor and dealer network; (xv) manage changes and prepare for requirements in legislative and regulatory environments for its products, services and operations; (xvi) adjust to fluctuations in foreign currency exchange rates, interest rates and commodity prices; (xvii) adjust to healthcare inflation, pension reform and tax changes; (xviii) retain and attract talented employees; (xix) detect any issues with the Company's motorcycles or manufacturing processes to avoid delays in new model launches, recall campaigns, increased warranty costs or litigation; and (xx) implement and manage enterprise-wide information technology solutions and secure data contained in those systems. In addition, the Company could experience delays or disruptions in its operations as a result of work stoppages, strikes, natural causes, terrorism or other factors. These risks, potential delays and uncertainties regarding the costs could also adversely impact the Company's capital expenditure estimates (see "Liquidity and Capital Resources" section).

In addition, see "Risk Factors" under Item 1A. which includes a discussion of additional risk factors and a more complete discussion of some of the cautionary statements noted above.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

The Company is exposed to market risk from changes in foreign exchange rates and interest rates. To reduce such risks, the Company selectively uses derivative financial instruments. All hedging transactions are authorized and executed pursuant to regularly reviewed policies and procedures, which prohibit the use of financial instruments for trading purposes. Sensitivity analysis is used to manage and monitor foreign exchange and interest rate risk.

The Company sells its products internationally and in most markets those sales are made in the foreign country's local currency. As a result, the Company's earnings can be affected by fluctuations in the value of the U.S. dollar relative to foreign currency. The Company's most significant foreign currency risk relates to the Euro, the Australian dollar and the Brazilian Real. The Company utilizes foreign currency contracts to mitigate the effect of the Euro and the Australian dollar fluctuations on earnings. The foreign currency contracts are entered into with banks and allow the Company to exchange a specified amount of foreign currency for U.S. dollars at a future date, based on a fixed exchange rate. At December 31, 2009, the notional U.S. dollar value of outstanding Euro and Australian dollar foreign currency contracts was \$144.8 million. The Company estimates that a uniform 10% weakening in the value of the U.S. dollar relative to the currencies underlying these contracts would result in a decrease in the fair value of the contracts of approximately \$15.1 million as of December 31, 2009. Further disclosure relating to the fair value of derivative financial instruments is included in Note 9 of the Notes to Consolidated Financial Statements.

In addition, the Company financed its acquisition of MV Agusta and subsequent working capital requirements through 143.0 million of Euro-denominated debt (\$205.0 million at December 31, 2009). The carrying amount of debt is measured at each balance sheet date in the U.S. dollar and the corresponding gains or losses are recognized in the statement of operations.

The Company's earnings are affected by changes in interest rates. HDFFS utilizes interest rate swaps to reduce the impact of fluctuations in interest rates on its debt and securitization transactions. HDFFS also entered into derivative contracts to facilitate the April 2009 asset-backed conduit facility, certain of which do not qualify for hedge accounting treatment. Additionally, to facilitate its first quarter 2008 securitization transaction as well as its third quarter 2007 securitization transaction, HDFFS entered into derivative contracts. These derivatives, which hedge assets by an off-balance sheet Qualifying Special Purpose Entity, do not qualify for hedge accounting treatment. Changes in the fair value of these derivatives are recognized in current period earnings within other operating expenses. As of December 31, 2009, HDFFS had interest rate swaps outstanding with a notional value of \$1.16 billion. HDFFS estimates that a 10% decrease in interest rates would result in a \$1.4 million decrease in the fair value of the agreements.

MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rules 13a-15(f). Under the supervision and with the participation of management, including the principal executive officer and principal financial officer, management conducted an evaluation of the effectiveness of our internal control over financial reporting based on the criteria established in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on management's evaluation under the framework in *Internal Control – Integrated Framework*, management has concluded that the Company's internal control over financial reporting was effective as of December 31, 2009. Ernst & Young LLP, an independent registered public accounting firm, has audited the Consolidated Financial Statements included in this Annual Report on Form 10-K and, as part of its audit, has issued an attestation report, included herein, on the effectiveness of the Company's internal control over financial reporting.

REPORT OF THE AUDIT COMMITTEE

The Audit Committee of the Board of Directors reviews the Company's financial reporting process and the audit process. All of the Audit Committee members are independent in accordance with the Audit Committee requirements of the New York Stock Exchange, Inc.

The Audit Committee of the Board of Directors has reviewed and discussed with management its assessment of the effectiveness of the Company's internal control system over financial reporting as of December 31, 2009. Management has concluded that the internal control system was effective. Additionally, the Company's internal control over financial reporting as of December 31, 2009 was audited by Ernst & Young LLP, the Company's independent registered public accounting firm for the 2009 fiscal year. The audited financial statements of the Company for the 2009 fiscal year were also reviewed and discussed with management as well as with representatives of Ernst & Young LLP. The Audit Committee has also discussed with Ernst & Young LLP, the matters required to be discussed by AU Section 380 of the Public Company Accounting Oversight Board (PCAOB) Auditing Standards, other professional standards and regulatory requirements currently in effect. The Audit Committee has received the written disclosures and the letter from the independent registered public accounting firm required by Rule 3526 of the PCAOB, as currently in effect, and has discussed with representatives of Ernst & Young LLP the independence of Ernst & Young LLP. Based on the review and discussions referred to above, the Audit Committee has recommended to the Board of Directors that the audited financial statements for the 2009 fiscal year be included in the Company's Annual Report on Form 10-K for the 2009 fiscal year.

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM ON INTERNAL
CONTROL OVER FINANCIAL REPORTING**

To the Board of Directors and Shareholders of Harley-Davidson, Inc.:

We have audited Harley-Davidson, Inc.'s internal control over financial reporting as of December 31, 2009, based on criteria established in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). Harley-Davidson, Inc.'s management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Harley-Davidson, Inc. maintained, in all material respects, effective internal control over financial reporting as of December 31, 2009, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Harley-Davidson, Inc. as of December 31, 2009 and 2008, and the related consolidated statements of operations, shareholders' equity and cash flows for each of the three years in the period ended December 31, 2009 of Harley-Davidson, Inc. and our report dated February 23, 2010 expressed an unqualified opinion thereon.

/s/ Ernst & Young LLP
Milwaukee, Wisconsin
February 23, 2010

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of Harley-Davidson, Inc.:

We have audited the accompanying consolidated balance sheets of Harley-Davidson, Inc. as of December 31, 2009 and 2008, and the related consolidated statements of operations, shareholders' equity and cash flows for each of the three years in the period ended December 31, 2009. Our audits also included the financial statement schedule listed in the index at item 15(a). These financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Harley-Davidson, Inc. at December 31, 2009 and 2008, and the consolidated results of its operations and its cash flows for each of the three years in the period ended December 31, 2009, in conformity with U.S. generally accepted accounting principles. Also in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly in all material respects the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Harley-Davidson, Inc.'s internal control over financial reporting as of December 31, 2009, based on criteria established in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 23, 2010 expressed an unqualified opinion thereon.

HARLEY-DAVIDSON, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

Principles of Consolidation and Basis of Presentation – The consolidated financial statements include the accounts of Harley-Davidson, Inc. and its wholly-owned subsidiaries (the Company), including the accounts of the groups of companies doing business as Harley-Davidson Motor Company (HDMC), Buell Motorcycle Company (Buell), MV Agusta (MV) and Harley-Davidson Financial Services (HDFS). In addition, certain variable interest entities (VIEs) related to secured financing are consolidated as the Company is the primary beneficiary. All intercompany accounts and transactions are eliminated.

All of the Company's subsidiaries are wholly owned and are included in the consolidated financial statements. Substantially all of the Company's international subsidiaries use the respective local currency as their functional currency. Assets and liabilities of international subsidiaries have been translated at period-end exchange rates, and income and expenses have been translated using average exchange rates for the period.

In connection with term asset-backed securitization transactions prior to 2009, HDFS utilized Qualifying Special Purpose Entities (QSPEs) as defined by the Financial Accounting Standards Board's (FASB) Accounting Standards Codification (ASC) Topic 860-40 "Transfers to Qualifying Special Purpose Entities" (ASC Topic 860-40). Assets and liabilities of the QSPEs are not consolidated in the financial statements of the Company. For further discussion of QSPEs and off-balance sheet securitization transactions, see Note 7.

The Company operates in two principal business segments: Motorcycles & Related Products (Motorcycles) and Financial Services (Financial Services).

The Company's management has evaluated subsequent events after December 31, 2009 through February 23, 2010, which is the date the Company's financial statements were issued.

Use of Estimates – The preparation of financial statements in conformity with U.S. generally accepted accounting principles (U.S. GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Cash and Cash Equivalents – The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Marketable Securities – The Company had investments in marketable securities consisting primarily of \$39.7 million of corporate bonds at December 31, 2009 with contractual maturities of less than one year. The Company has classified its investments in marketable securities as available for sale, thus requiring the Company to carry them at their fair value with any unrealized gains or losses reported in other comprehensive income. As of December 31, 2009, fair value approximated carrying value and as such no adjustment was required. There were no marketable securities held at December 31, 2008.

Accounts Receivable – The Company's motorcycles and related products are sold to independent dealers and distributors outside the U.S. and Canada generally on open account and the resulting receivables are included in accounts receivable in the Company's Consolidated Balance Sheets. The allowance for doubtful accounts deducted from total accounts receivable was \$11.4 million and \$6.2 million as of December 31, 2009 and 2008, respectively. The Company's sales of motorcycles and related products in the U.S. and Canada are financed by the purchasing dealers or distributors through HDFS and the related receivables are included in finance receivables held for investment in the consolidated balance sheets.

Finance Receivables Held for Investment, Net – Retail and wholesale finance receivables held for investment are recorded in the financial statements at historical cost less an allowance for credit losses. The provision for finance credit losses on finance receivables held for investment is charged to earnings in amounts sufficient to maintain the allowance for uncollectible accounts at a level HDFS believes is adequate to cover the losses of principal in the existing portfolio. HDFS' periodic evaluation of the adequacy of the retail or other small balance homogeneous loan allowance is generally based on HDFS' past loan loss experience, known and inherent risks in the portfolio, current economic conditions and the estimated value of any underlying collateral. HDFS' wholesale and other large loan allowance evaluation includes a loan-by-loan review which considers the specific borrower's ability to repay and the estimated value of any collateral.

Finance Receivables Held for Sale – Prior to the second quarter of 2009, U.S. retail motorcycle loans intended for securitization at origination were classified as finance receivables held for sale. These finance receivables held for sale in the aggregate were carried at the lower of cost or estimated fair value. Any amount by which cost exceeded fair value was accounted for as a valuation adjustment with an offset to other income. Cash flows related to finance receivables held for sale were included in cash flows from operating activities.

Off-Balance Sheet Finance Receivables Securitizations – Prior to 2009, HDFS sold retail motorcycle loans through securitization transactions that qualified for accounting sale treatment under ASC Topic 860-40. Under the terms of securitization transactions, HDFS sold retail loans to a securitization trust utilizing the two-step process described below. The securitization trust issued notes to investors, with various maturities and interest rates, secured by future collections of purchased retail loans. The proceeds from the issuance of the term asset-backed securities were utilized by the securitization trust to purchase retail loans from HDFS.

Upon sale of the retail loans to the securitization trust, HDFS received cash, recorded a gain or loss on the transaction and also retained an interest in excess cash flows, subordinated securities, and the right to receive cash reserve account deposits in the future, collectively referred to as "investment in retained securitization interests." The investment in retained securitization interests is included with finance receivables held for investment in the consolidated balance sheets. The Company's continuing involvement in the securitized U.S. retail motorcycles loans is limited to its investment in retained securitization interests and servicing rights.

The interest in excess cash flows reflects the expected cash flows arising from U.S. retail motorcycle loans sold to the securitization trust less expected servicing fees, credit losses and contracted payment obligations owed to securitization trust investors. Key assumptions in determining the present value of projected excess cash flows are prepayments, credit losses and discount rate. The fair value of the interest in excess cash flows was \$77.4 million and \$135.5 million at December 31, 2009 and 2008, respectively.

As part of the first quarter 2008 securitization transaction, HDFS retained \$54.0 million of the subordinated securities issued by the securitization trust. These securities have a stated principal and fixed interest rate and are subordinated to the senior securities within the securitization trust. Fair value is determined using discounted cash flow methodologies. The fair value of the retained subordinated securities was \$53.1 million and \$47.2 million as of December 31, 2009 and 2008, respectively. Unrealized gains on the subordinated securities recorded in other comprehensive income were \$0.05 million, or \$0.03 million net of taxes, as of December 31, 2009. Unrealized losses on the subordinated securities were \$5.8 million, or \$3.8 million net of taxes, as of December 31, 2008.

Reserve account deposits represent interest-earning cash deposits which collateralize the trust securities. The funds are not available for use by HDFS until the reserve account balances exceed thresholds specified in the securitization agreements. The fair value of the reserve account deposits was \$114.8 million and \$147.9 million at December 31, 2009 and 2008, respectively.

HDFS retains servicing rights on the U.S. retail motorcycle loans that it has sold to the securitization trust and receives a servicing fee. The servicing fee paid to HDFS is considered adequate compensation for the

services provided and is included in financial services revenue as earned. HDFFS earned \$42.0 million, \$55.1 million, and \$60.8 million from contractually specified servicing fees, late fees, and ancillary fees during 2009, 2008, and 2007, respectively. These fees are recorded in financial services revenue.

Gains or losses on off-balance sheet term asset-backed securitizations of U.S. retail motorcycle loans were recognized in the period in which the sale occurred. The amount of the gain or loss depended on the proceeds received and the original carrying amount of the transferred U.S. retail motorcycle loans, allocated between the assets sold and the retained interests based on their relative fair values at the date of transfer.

The investment in retained securitization interests is measured in the same manner as an investment in debt securities that is classified as available-for-sale as defined by ASC Topic 320, "Investments – Debt and Equity Securities" (ASC Topic 320). As such, the investment in retained securitization interests is recorded at fair value and periodically reviewed for impairment. Market quotes of fair value are generally not available for retained interests; therefore, HDFFS estimates fair value based on the present value of future expected cash flows using HDFFS' best estimates of key assumptions for credit losses, prepayments and discount rates that, in management's judgment, reflect the assumptions marketplace participants would use. If the fair value of the investment in retained securitization interests is less than the amortized cost, an unrealized loss exists which indicates that the investment is other-than-temporarily impaired.

HDFFS utilized a two-step process to transfer U.S. retail motorcycle loans to a securitization trust. U.S. retail motorcycle loans are initially transferred to a special purpose, bankruptcy remote, wholly owned subsidiary which in turn sells the U.S. retail motorcycle loans to the securitization trust. The securitization trust is funded with cash obtained through the issuance of the term asset-backed securities. HDFFS has surrendered control of retail loans sold to the securitization trust. Securitization transactions have been structured such that: (1) transferred assets have been isolated from HDFFS by being put presumptively beyond the reach of HDFFS and its creditors, even in bankruptcy or other receivership; (2) each holder of a beneficial interest in the securitization trust has the right to pledge or exchange their interest; and (3) HDFFS does not maintain effective control over the transferred assets through either (a) an agreement that both entitles and obligates HDFFS to repurchase or redeem the transferred assets before their maturity other than for breaches of certain representations, warranties and covenants relating to the transferred assets, or (b) the ability to unilaterally cause the holder to return specific assets, other than through a customary cleanup call.

Activities of the securitization trust are limited to acquiring U.S. retail motorcycle loans, issuing term asset-backed securities, making payments on securities to investors and other activities permissible under ASC Topic 860, "Transfers and Servicing" (ASC Topic 860). Securitization trusts have a limited life and generally terminate upon final distribution of amounts owed to the investors in the term asset-backed securities. Historically, the life of securitization trusts purchasing U.S. retail motorcycle loans from HDFFS has approximated four years.

HDFFS does not guarantee payments on the securities issued by the securitization trusts or the projected cash flows from the U.S. retail motorcycle loans purchased from HDFFS. The Company's retained securitization interests, excluding servicing rights, are subordinate to the interests of securitization trust investors. Such investors have priority interests in the cash collections on the retail loans sold to the securitization trust (after payment of servicing fees) and in the cash reserve account deposits. These priority interests ultimately could impact the value of the Company's investment in retained securitization interests. Investors also do not have recourse to the assets of HDFFS for failure of the obligors on the retail loans to pay when due.

Due to the overall structure of the securitization transaction, the nature of the assets held by the securitization trust and the limited nature of its activities, the securitization trusts are considered QSPEs. Accordingly, gain or loss on sale is recognized upon transfer of retail loans to a QSPE and the assets and liabilities of the QSPEs are not consolidated in the financial statements of HDFFS. See Note 7 for further discussion of HDFFS' securitization program.

On-Balance Sheet Finance Receivable Securitizations – During 2009, the Company transferred U.S. retail motorcycle loans to four separate wholly-owned special purpose entities (SPEs). The SPEs in turn issued secured notes with various maturities and interest rates to investors in on-balance sheet securitization transactions. These term asset-backed securitization transactions were “eligible collateral” under the Federal Reserve Bank of New York’s Term Asset-backed securities Loan Facility (TALF) program. The notes are secured by future collections of the purchased U.S. retail motorcycle loans. The structure of these term asset-backed securitization transactions did not satisfy the requirements for accounting sale treatment under ASC Topic 860-40; therefore, the securitized U.S. retail motorcycle loans, resulting secured borrowings and other related assets and liabilities of the SPEs are included in the Company’s consolidated financial statements as the Company is the primary beneficiary of the SPEs.

The SPEs are separate legal entities and the U.S. retail motorcycle loans that have been included in the term asset-backed securitizations are only available for payment of the secured debt and other obligations arising from the term asset-backed securitization transactions and are not available to pay other obligations or claims of the Company’s creditors until the associated secured debt and other obligations are satisfied. Cash and cash equivalent balances held by the SPEs are used only to support the on-balance sheet securitizations. There is no amortization schedule for the secured notes; however, the debt is reduced monthly as available collections on the related U.S. retail motorcycle loans are applied to outstanding principal. See Note 8 for further discussion of HDFS’ on-balance sheet finance receivable securitizations.

Asset-Backed Commercial Paper Conduit Facility – In December 2008, HDFS sold for legal purposes U.S. retail motorcycle finance receivables to a SPE, which in turn issued debt to third-party bank-sponsored asset-backed commercial paper conduits. The SPE funded the purchase of the finance receivables from HDFS primarily with cash obtained through the issuance of the debt. In April 2009, HDFS replaced its December 2008 asset-backed commercial paper conduit facility agreement with a new agreement. As part of the April 2009 transaction, HDFS transferred additional U.S. retail motorcycle loans to the SPE and increased the debt issued to the third-party bank sponsored conduits.

HDFS is the primary beneficiary of the SPE, and the finance receivables sale does not satisfy the requirements for accounting sale treatment under ASC Topic 860-40. Therefore, the assets and associated debt are included in the Company’s financial statements. The assets of the SPE are restricted as collateral for the payment of the debt or other obligations arising in the transaction and are not available to pay other obligations or claims of the Company’s creditors. See Note 8 for further discussion of HDFS’ asset-backed commercial paper conduit facility.

Inventories – Inventories are valued at the lower of cost or market. Substantially all inventories produced or purchased in the United States are valued using the last-in, first-out (LIFO) method. Other inventories are valued at the lower of cost or market using the first-in, first-out (FIFO) method.

Property, Plant and Equipment – Property, plant and equipment is recorded at cost. Depreciation is determined on the straight-line basis over the estimated useful lives of the assets. The following useful lives are used to depreciate the various classes of property, plant and equipment: buildings – 30 to 40 years; building equipment and land improvements – 7 to 10 years; and machinery and equipment – 3 to 10 years. Accelerated methods of depreciation are used for income tax purposes.

Goodwill – Goodwill represents the excess of acquisition cost over the fair value of the net assets purchased. Goodwill is tested for impairment, based on financial data related to the reporting unit to which it has been assigned, at least annually or whenever events or changes in circumstances indicate that the carrying value may not be recoverable. The impairment test involves comparing the estimated fair value of the reporting unit associated with the goodwill to its carrying amount, including goodwill. If the carrying amount of the reporting unit exceeds its fair value, goodwill must be adjusted to its implied fair value. During 2009, the Company tested

its goodwill balances for impairment; see Notes 3 and 5 for additional discussion. During 2008, the Company tested its goodwill balances for impairment and no adjustments were recorded to goodwill as a result of those reviews.

Long-lived Assets – The Company periodically evaluates the carrying value of long-lived assets to be held and used when events and circumstances warrant such review. If the carrying value of a long-lived asset is considered impaired, a loss is recognized based on the amount by which the carrying value exceeds the fair value of the long-lived asset for assets to be held and used. The Company also reviews the useful life of its long-lived assets when events and circumstances indicate that the actual useful life may be shorter than originally estimated. In the event that the actual useful life is deemed to be shorter than the original useful life, depreciation is adjusted prospectively so that the remaining book value is depreciated over the revised useful life.

Asset groups classified as held for sale are measured at the lower of carrying amount or fair value less cost to sell, and a loss is recognized for any initial adjustment required to reduce the carrying amount to the fair value less cost to sell in the period the held for sale criteria are met. The fair value less cost to sell must be assessed each reporting period the asset group remains classified as held for sale. Gains or losses not previously recognized resulting from the sale of an asset group will be recognized on the date of sale.

Product Warranty and Safety Recall Campaigns – The Company currently provides a standard two-year limited warranty on all new motorcycles sold worldwide, except for Japan, where the Company provides a standard three-year limited warranty on all new motorcycles sold. The warranty coverage for the retail customer includes parts and labor and generally begins when the motorcycle is sold to a retail customer. The Company maintains reserves for future warranty claims using an estimated cost per unit sold, which is based primarily on historical Company claim information. Additionally, the Company has from time to time initiated certain voluntary safety recall campaigns. The Company reserves for all estimated costs associated with safety recalls in the period that the safety recalls are announced.

Changes in the Company’s warranty and safety recall liability were as follows (in thousands):

	<u>2009</u>	<u>2008</u>	<u>2007</u>
Balance, beginning of period	\$ 64,543	\$ 70,523	\$ 66,385
Warranties issued during the period	51,336	52,645	54,963
Settlements made during the period	(74,022)	(71,737)	(66,422)
Safety recalls and changes to pre-existing warranty liabilities	26,187	13,112	15,597
Balance, end of period	<u>\$ 68,044</u>	<u>\$ 64,543</u>	<u>\$ 70,523</u>

The liability for safety recall campaigns was \$6.7 million, \$4.6 million and \$3.7 million at December 31, 2009, 2008 and 2007, respectively.

Derivative Financial Instruments – The Company is exposed to certain risks relating to its ongoing business operations. The primary risks are foreign currency exchange rate risk, interest rate risk and commodity price risk. To reduce such risks, the Company selectively uses derivative financial instruments. All hedging transactions are authorized and executed pursuant to regularly reviewed policies and procedures, which prohibit the use of financial instruments for speculative trading purposes.

All derivative instruments are recognized on the balance sheet at fair value (see Note 9). In accordance with ASC Topic 815, “Derivatives and Hedging,” the accounting for changes in the fair value of a derivative instrument depends on whether it has been designated and qualifies as part of a hedging relationship and, further, on the type of hedging relationship. Changes in the fair value of derivatives that are designated as fair value hedges, along with the gain or loss on the hedged item, are recorded in current period earnings. For derivative

instruments that are designated as cash flow hedges, the effective portion of gains and losses that result from changes in the fair value of derivative instruments is initially recorded in other comprehensive income (OCI) and subsequently reclassified into earnings when the hedged item affects income. The Company assesses, at both the inception of each hedge and on an on-going basis, whether the derivatives that are used in its hedging transactions are highly effective in offsetting changes in cash flows of the hedged items. Any ineffective portion is immediately recognized in earnings. No component of a hedging derivative instrument's gain or loss is excluded from the assessment of hedge effectiveness. Derivative instruments which do not qualify for hedge accounting are recorded at fair value and any changes in fair value are recorded in current period earnings. Refer to Note 11 for a detailed description of the Company's derivative instruments.

Motorcycles and Related Products Revenue Recognition – Sales are recorded when products are shipped to wholesale customers (independent dealers and distributors) and ownership is transferred. The Company offers sales incentive programs to both wholesale and retail customers designed to promote the sale of motorcycles and related products. The total costs of these programs are recognized as revenue reductions and are accrued at the later of the date the related sales are recorded or the date the incentive program is both approved and communicated.

Financial Services Revenue Recognition – Interest income on finance receivables is recorded as earned and is based on the average outstanding daily balance for wholesale and retail receivables. Accrued interest is classified with finance receivables. Certain loan origination costs, including payments made to dealers for certain retail loans, are deferred and amortized over the estimated life of the contract.

Retail loans are generally charged-off at 120 days contractually past due. All retail finance receivables accrue interest until either collected or charged-off. Accordingly, as of December 31, 2009 and 2008, all retail finance receivables are accounted for as interest-earning receivables.

Wholesale loans are considered to be impaired when management concludes the dealer will not be able to make full payment. In making this determination, management considers the dealer's financial performance and payment ability and the fair value of any collateral. Impairment is determined based on the cash that HDFS expects to receive discounted at the loan's original rate, or the fair value of the collateral if the loan is collateral dependent. The accrual of interest on such loans is discontinued when the collection of the account becomes doubtful ("non-accrual status loans"). HDFS will resume accruing interest on these accounts when payments are current according to the terms of the loans and future payments are reasonably assured. As of December 31, 2009, total wholesale finance receivables accounted for as non-accrual status loans were not significant.

Insurance commissions and commissions on the sale of extended service contracts are recognized when contractually earned. Deferred revenue related to extended service contracts was \$14.6 million and \$15.3 million as of December 31, 2009 and 2008, respectively.

Research and Development Expenses – Expenditures for research activities relating to product development and improvement are charged against income as incurred and included within operating expenses in the consolidated statement of operations. Research and development expenses were \$143.1 million, \$163.5 million and \$185.5 million for 2009, 2008 and 2007, respectively.

Advertising Costs – The Company expenses the production cost of advertising the first time the advertising takes place. Advertising costs relate to the Company's efforts to promote its products and brands through the use of media. During 2009, 2008 and 2007, the Company incurred \$80.2 million, \$89.2 million and \$76.9 million in advertising costs, respectively.

Shipping and Handling Costs – The Company classifies shipping and handling costs as a component of cost of goods sold.

Reclassifications – The Company has adjusted the format of its statement of operations to present revenues and expenses together versus the previous format that aligned with the Company’s reportable segments. For all periods presented in the statement of operations, financial services expense has been disaggregated into financial services interest expense and financial services provision for credit losses, and the remaining amount has been combined with selling, administrative and engineering expense.

To conform with the current year presentation, restructuring expense for 2008 is presented separately in the statement of operations.

As discussed in Note 3, the Company announced in October 2009 its intent to divest the MV business. Accordingly, MV is now presented as a discontinued operation for all periods presented.

Share-Based Award Compensation Costs – The Company recognizes the cost of its share-based awards in its statement of operations. The total cost of the Company’s equity awards is equal to their grant date fair value and is recognized as expense on a straight-line basis over the service periods of the awards. The total cost of the Company’s liability for cash-settled awards is equal to their settlement date fair value. The liability for cash-settled awards is revalued each period based on a recalculated fair value adjusted for vested awards. Total share-based award compensation expense recognized by the Company during 2009, 2008 and 2007, including stock option and nonvested stock awards, was \$17.6 million, \$24.5 million and \$21.0 million, respectively, or \$11.0 million, \$15.3 million and \$13.0 million net of taxes, respectively.

Income Tax Expense – The Company recognizes interest and penalties related to unrecognized tax benefits in the provision for income taxes.

New Accounting Standards

Accounting Standards Recently Adopted

In December 2007, the FASB issued SFAS No. 141 (revised 2007), “Business Combinations,” which was codified into ASC Topic 805, “Business Combinations” (ASC Topic 805). ASC Topic 805 changes the accounting for business combinations in a number of areas including the treatment of contingent consideration, pre-acquisition contingencies, transaction costs, in-process research and development and restructuring costs. In addition, under ASC Topic 805, changes in an acquired entity’s deferred tax assets and uncertain tax positions after the measurement period will impact income tax expense. ASC Topic 805 is effective for the Company beginning in fiscal year 2009. This standard will change the Company’s accounting treatment for business combinations on a prospective basis.

In March 2008, the FASB issued SFAS No. 161, “Disclosures about Derivative Instruments and Hedging Activities, an amendment of FASB Statement No. 133,” which was codified into ASC Topic 815. ASC Topic 815 requires enhanced disclosures about an entity’s derivative and hedging activities. Entities are required to provide enhanced disclosures about: (a) how and why an entity uses derivative instruments; (b) how derivative instruments and related hedge items are accounted for under pre-codification guidance contained in SFAS No. 133, “Accounting for Derivative Instruments and Hedging Activity,” and its related interpretations; and (c) how derivative instruments and related hedge items affect an entity’s financial position, financial performance and cash flows. The Company adopted ASC Topic 815 as of January 1, 2009; see Note 11 for further discussion.

In June 2008, the FASB issued FASB Staff Position (FSP) Emerging Issues Task Force (EITF) 03-6-1, “Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities” (ASC Topic 260-10-55). ASC Topic 260-10-55 addresses whether instruments granted in share-based payment transactions are participating securities prior to vesting and, therefore, need to be included in the earnings allocation in computing earnings per share under the two-class method as described in SFAS No. 128, “Earnings Per Share” (ASC Topic 260). Under the guidance of ASC Topic 260-10-55, unvested share-based payment

awards that contain non-forfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are participating securities and must be included in the computation of earnings per share pursuant to the two-class method. All prior period earnings per share information must be adjusted retrospectively. The Company adopted ASC Topic 260-10-55 as of January 1, 2009; see Note 20 for further discussion.

In December 2008, the FASB issued FSP No. SFAS 132(R)-1, "Employers' Disclosures about Postretirement Benefit Plan Assets" (ASC Topic 715-20-65). ASC Topic 715-20-65 requires additional fair value disclosures about employers' pension and postretirement benefit plan assets consistent with guidance contained in ASC Topic 820. Specifically, employers are required to disclose information about how investment allocation decisions are made, the fair value of each major category of plan assets and information about the inputs and valuation techniques used to develop the fair value measurements of plan assets. The Company adopted ASC Topic 715-20-65 as of December 31, 2009; see Note 15 for further discussion.

In April 2009, the FASB issued three FSPs intended to provide additional application guidance and enhance disclosures regarding fair value measurements and impairments of securities:

- FSP No. FAS 157-4, "Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly" (ASC Topic 820-10-65-4);
- FSP No. FAS 107-1 and APB 28-1, "Interim Disclosures about Fair Value of Financial Instruments" (ASC Topic 825-10-65-1); and
- FSP No. FAS 115-2 and FAS 124-2, "Recognition and Presentation of Other-Than-Temporary Impairments" (ASC Topic 320-10-65-1).

ASC Topic 820-10-65-4 provides additional guidance for estimating fair value in accordance with SFAS No. 157, "Fair Value Measurements" (ASC Topic 820), when the volume and level of activity for the asset or liability have significantly decreased in relation to normal market activity. ASC Topic 820-10-65-4 also includes guidance on identifying circumstances that indicate a transaction is not orderly. The Company adopted ASC Topic 820-10-65-4 as of March 30, 2009. As the new standard only clarified existing guidance, there was no material effect on the Company's consolidated financial statements and notes.

ASC Topic 825-10-65-1 amends FASB Statement No. 107, "Disclosures about Fair Value of Financial Instruments" (ASC Topic 825), to require disclosures about fair value of financial instruments for interim reporting periods of publicly traded companies as well as in annual financial statements. This new standard also amends Accounting Principles Board (APB) Opinion No. 28, "Interim Financial Reporting" (ASC Topic 270), to require those disclosures in summarized financial information at interim reporting periods. The Company adopted ASC Topic 825-10-65-1 as of March 30, 2009; see Notes 9 and 11 for further discussion.

ASC Topic 320-10-65-1 amends the other-than-temporary impairment guidance for debt securities to make the guidance more operational and to improve the presentation and disclosure of other-than-temporary impairments on debt and equity securities in the financial statements. This new standard does not amend existing recognition and measurement guidance related to other-than-temporary impairments of equity securities. The Company adopted ASC Topic 320-10-65-1 as of March 30, 2009. Upon adoption, the Company recorded an increase to retained earnings of \$22.5 million (\$14.4 million, net of tax) and a decrease to accumulated other comprehensive income of \$22.5 million (\$14.4 million, net of tax). See Note 7 for further discussion of the effect of adopting ASC Topic 320-10-65-1 on the Company's consolidated financial statements and notes.

In June 2009, the FASB issued SFAS No. 165, "Subsequent Events" (ASC Topic 855). ASC Topic 855 establishes the criteria for subsequent events, including: (a) the period after the balance sheet date during which management of a reporting entity shall evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements; (b) the circumstances under which an entity shall recognize events or

transactions occurring after the balance sheet date in its financial statements; and (c) the disclosures that an entity shall make about events or transactions that occurred after the balance sheet date. The Company was required to adopt ASC Topic 855 as of June 28, 2009 and made the appropriate disclosure in Notes 1.

Accounting Standards Not Yet Adopted

In June 2009, the FASB issued SFAS No. 166, "Accounting for Transfers of Financial Assets, an amendment of FASB Statement No. 140." SFAS No. 166 amends the guidance within ASC Topic 860, "Transfers and Servicing," primarily by removing the concept of a qualifying special purpose entity as well as removing the exception from applying FASB Interpretation No. 46(R), "Consolidation of Variable Interest Entities." Upon the effective adoption date, formerly qualifying special purpose entities (as defined under previous accounting standards) must be evaluated for consolidation within an entity's financial statements. Additionally, the guidance within ASC Topic 860 will require enhanced disclosures about the transfer of financial assets as well as an entity's continuing involvement, if any, in transferred financial assets.

In June 2009, the FASB issued SFAS No. 167, "Amendments to FASB Interpretation No. 46(R)." SFAS No. 167 amends the guidance within ASC Topic 810, "Consolidations," by adding previously considered qualifying special purpose entities (the concept of these entities was eliminated by SFAS No. 166). In addition, companies must perform an analysis to determine whether the company's variable interest or interests give it a controlling financial interest in a variable interest entity. Companies must also reassess on an ongoing basis whether the company is the primary beneficiary of a variable interest entity.

The Company is required to adopt the new guidance contained within ASC 810 and ASC 860 as of January 1, 2010. The new guidance will require consolidation of the existing qualifying special purpose entities (QSPEs) that are not currently recorded on the Company's Consolidated Balance Sheet, resulting in an estimated increase in finance receivables and debt of \$1.89 billion. Consolidation of currently unconsolidated QSPEs will also result in an increase in the allowance for finance credit losses for newly consolidated finance receivables along with changes to the timing and line item reporting of revenue and expense in the Company's Consolidated Statement of Operations. Additionally, as part of the consolidation of these finance receivable securitization trusts, the investment in retained securitization interests will be eliminated and no future valuations will be required. In accordance with the new guidance, the Company will initially measure the assets and liabilities of the former QSPEs at their carrying values (the amounts at which the asset and liabilities would have been carried in the Consolidated Financial Statements if ASC Topic 810 had been effective when the Company first met the conditions as the primary beneficiary).

The cumulative effect of adopting these new accounting standards as of January 1, 2010, based on financial information as of December 31, 2009, would result in an estimated aggregate after-tax charge to retained earnings in the range of \$35.0 million to \$45.0 million, which includes the impact of establishing the initial allowance for finance credit losses. The actual impact of adopting the new accounting standards on January 1, 2010 could differ as several uncertainties in the application of these new standards are resolved.

2. Additional Balance Sheet and Cash Flow Information

The following information represents additional detail for selected line items included in the consolidated balance sheets at December 31 and the statements of cash flows for the years ended December 31.

Balance Sheet Information:

Inventories, net (in thousands):

	<u>2009</u>	<u>2008</u>
Components at the lower of FIFO cost or market		
Raw materials and work in process	\$104,641	\$140,854
Motorcycle finished goods	168,002	175,438
Parts and accessories and general merchandise	84,823	102,983
Inventory at lower of FIFO cost or market	357,466	419,275
Excess of FIFO over LIFO cost	(34,437)	(40,134)
	<u>\$323,029</u>	<u>\$379,141</u>

Inventory obsolescence reserves deducted from FIFO cost were \$34.7 million and \$24.1 million as of December 31, 2009 and 2008, respectively.

Property, plant and equipment, at cost (in thousands):

	<u>2009</u>	<u>2008</u>
Land and related improvements	\$ 59,922	\$ 59,603
Buildings and related improvements	474,891	469,580
Machinery and equipment	2,311,779	2,277,593
Construction in progress	112,498	131,257
	2,959,090	2,938,033
Less: accumulated depreciation	2,052,184	1,881,105
	<u>\$ 906,906</u>	<u>\$1,056,928</u>

Accrued liabilities (in thousands):

	<u>2009</u>	<u>2008</u>
Payroll, performance incentives and related expenses	\$137,523	\$158,128
Restructuring reserves	67,711	2,149
Warranty and recalls	68,044	64,543
Sales incentive programs	62,206	84,683
Income taxes	16,038	10,770
Fair value of derivative financial instruments	16,293	23,503
Other	146,269	159,690
	<u>\$514,084</u>	<u>\$503,466</u>

Components of accumulated other comprehensive loss, net of tax (in thousands):

	<u>2009</u>	<u>2008</u>
Cumulative foreign currency translation adjustment	\$ 46,103	\$ 15,171
Unrealized loss on investment in retained securitization interest	(3,484)	(2,671)
Unrealized net loss on derivative financial instruments	(8,940)	(7,701)
Unrecognized pension and postretirement benefit plan liabilities	(451,577)	(527,325)
	<u>\$(417,898)</u>	<u>\$(522,526)</u>

Cash Flow Information:

The reconciliation of net (loss) income to net cash provided by (used by) operating activities of continuing operations is as follows (in thousands):

	<u>2009</u>	<u>2008</u>	<u>2007</u>
Cash flows from operating activities:			
Net (loss) income	\$ (55,116)	\$ 654,718	\$ 933,843
Loss from discontinued operations	(125,757)	(29,517)	—
Income from continuing operations	70,641	684,235	933,843
Adjustments to reconcile net income to net cash provided by operating activities:			
Depreciation	246,344	220,755	204,172
Provision for employee long-term benefits	118,201	76,426	75,683
Contributions to pension and postretirement plans	(233,224)	(19,517)	(15,302)
Stock compensation expense	17,576	24,473	20,974
Loss (gain) on off-balance sheet securitizations	—	5,370	(36,033)
Net change in wholesale finance receivables	332,167	99,373	22,816
Origination of retail finance receivables held for sale	(1,180,467)	(2,788,463)	(2,919,937)
Collections on retail finance receivables held for sale	919,201	507,106	110,756
Proceeds from securitization of retail finance receivables ..	—	467,722	2,486,780
Impairment of retained securitization interests	45,370	41,403	9,932
Lower of cost or fair market value adjustment on finance receivables held for sale	5,895	37,764	—
Goodwill and other impairments	46,410	—	—
Pension and postretirement healthcare plan curtailment and settlement expense	37,814	—	—
Provision for credit losses	169,206	39,555	11,252
Deferred income taxes	6,931	(46,729)	(60,779)
Foreign currency adjustments	(22,234)	2,892	(14,581)
Other, net	76,445	53,978	23,977
Changes in current assets and liabilities:			
Accounts receivable, net	8,809	2,710	(26,399)
Finance receivables – accrued interest and other	(3,360)	(7,149)	(19,680)
Inventories	85,472	(42,263)	(48,019)
Accounts payable and accrued liabilities	(239,009)	45,998	41,210
Restructuring reserves	65,988	2,149	—
Derivative instruments	4,711	(11,962)	3,492
Other	30,123	(3,855)	(6,011)
Total adjustments	538,369	(1,292,264)	(135,697)
Net cash provided by (used by) operating activities of continuing operations	<u>\$ 609,010</u>	<u>\$ (608,029)</u>	<u>\$ 798,146</u>

Cash paid during the period for interest and income taxes (in thousands):

	<u>2009</u>	<u>2008</u>	<u>2007</u>
Interest	\$336,453	\$128,006	\$ 81,474
Income taxes	\$123,232	\$413,998	\$568,815

Interest paid represents interest payments of HDFFS (included in financial services expense) and interest payments of the Company (included in interest expense).

Non-cash investing activity during the period (in thousands):

	<u>2009</u>	<u>2008</u>	<u>2007</u>
Investment in retained securitization interests received in connection with securitizations during the year	\$—	\$87,171	\$170,173

3. MV Agusta Acquisition and Planned Divestiture

On August 8, 2008, the Company completed its purchase of privately-held Italian motorcycle maker MV Agusta (MV). The Company acquired 100 percent of MV shares for total consideration of €68.3 million (\$105.1 million), which included the satisfaction of existing bank debt for €47.5 million (\$73.2 million). The Company financed the transaction and MV's initial working capital requirements through €130.0 million of debt under existing credit facilities.

The operating results of MV, which were part of the Motorcycles segment, have been included in the Company's consolidated financial statements from the date of acquisition. Pro forma information reflecting this acquisition has not been disclosed as the pro forma impact on consolidated net income would not be material.

The following table summarizes the fair values of the MV assets acquired and liabilities assumed at the date of acquisition (in thousands):

Current assets, net of cash acquired	\$ 60,483
Property, plant and equipment	39,469
Goodwill	85,750
Intangible assets	52,811
Other noncurrent assets	3,739
Total assets	<u>242,252</u>
Current liabilities	123,119
Noncurrent liabilities	23,579
Total liabilities	<u>146,698</u>
Net assets acquired	<u>\$ 95,554</u>

In conjunction with the acquisition of MV, the Company recorded goodwill of \$85.8 million, none of which is tax deductible, and intangible assets with an initial fair value of \$52.8 million. Of the total intangible assets acquired, \$8.1 million was assigned to patents with useful lives of ten years, \$6.3 million was assigned to miscellaneous intangibles with useful lives of seven years and \$18.3 million was assigned to trademarks that are not subject to amortization. The remaining \$20.1 million was assigned to research and development assets that were written off subsequent to the acquisition date in accordance with pre-codification guidance contained in FASB Interpretation Number (FIN) 4, "Applicability of FASB Statement No. 2 to Business Combinations Accounted for by the Purchase Method." This resulted in a one-time expense of \$20.1 million.

In October 2009, the Company unveiled a new business strategy to drive growth through a focus of efforts and resources on the unique strengths of the Harley-Davidson brand and to enhance productivity and profitability through continuous improvement. The Company's Board of Directors approved and the Company committed to the divestiture of MV as part of this strategy. As a result, MV is now presented as a discontinued operation for all periods presented.

The following table summarizes the net revenue, pre-tax loss and loss per common share from discontinued operations for the periods noted (in thousands except per share amounts):

	<u>Twelve months ended December 31, 2009</u>	<u>August 8, 2008 - December 31, 2008</u>
Revenue	\$ 56,729	\$ 15,893
Loss before income taxes	\$(165,383)	\$(31,944)
Loss per common share	\$ (0.54)	\$ (0.13)

During 2009, the Company recorded an impairment charge of \$115.4 million which represented the excess of net book value of the held-for sale assets over the fair value less selling costs. The impairment charge is included in loss from discontinued operations and consisted of \$85.5 million goodwill impairment, \$19.8 million fixed asset impairment and \$10.1 million intangible asset impairment.

The effective tax rate for MV's income tax benefit during 2009 and 2008 was 24.0% and 7.3%, respectively. The 2009 income tax benefit includes a \$42.0 million benefit associated with expected tax deductions resulting from losses incurred on the Company's investments in and loans made to MV. These benefits were calculated net of \$26.0 million that the Company deemed to be uncertain tax benefits.

At December 31, 2009, assets of discontinued operations consisted of \$35.6 million of accounts receivable, net; \$36.0 million of inventories; \$31.2 million of property, plant and equipment, net; and \$78.4 million of other assets. At December 31, 2009, liabilities of discontinued operations consisted of \$55.7 million of accounts payable and accrued liabilities and \$13.8 million of other liabilities.

4. Restructuring Expense and Other Impairments

2009 Restructuring Plan

During 2009, in response to the U.S. economic recession and worldwide slowdown in consumer demand, the Company committed to a volume reduction and a combination of restructuring actions (2009 Restructuring Plan) in the Motorcycles and Financial Services segments which are expected to be completed by 2012. The 2009 Restructuring Plan was designed to reduce excess capacity, exit certain business operations and lower the Company's cost structure. The Company's planned actions include:

- consolidating its two engine and transmission plants in the Milwaukee area into its facility in Menomonee Falls, Wisconsin;
- closing its distribution facility in Franklin, Wisconsin and consolidating Parts and Accessories and General Merchandise distribution through a third party;
- discontinuing the domestic transportation fleet;
- consolidating its vehicle test facilities from three locations in Alabama, Arizona and Florida into one location in Arizona;
- restructuring its York, Pennsylvania motorcycle production facility to focus on the core operations of motorcycle assembly, metal fabrication and paint; and
- exiting the Buell product line.

The 2009 Restructuring Plan includes a reduction of approximately 2,700 to 2,900 hourly production positions and approximately 720 non-production, primarily salaried positions within the Motorcycles segment and approximately 100 salaried positions in the Financial Services segment. These reductions began in 2009 and are expected to be completed during 2011.

Restructuring charges consist of employee severance and termination costs, accelerated depreciation on the long lived assets that will be exited as part of the 2009 Restructuring Plan and other related costs. As of December 31, 2009, approximately 2,000 employees have left the Company under the 2009 Restructuring Plan.

The following table summarizes the 2009 Restructuring Plan reserve recorded in accrued liabilities as of December 31, 2009 (in thousands):

	Motorcycles & Related Products				Financial Services			Consolidated Total
	Employee Severance and Termination Costs	Accelerated Depreciation	Other	Total	Employee Severance and Termination Costs	Other	Total	
Restructuring expense	\$103,769	\$ 26,905	\$ 72,278	\$202,952	\$ 1,679	\$ 1,623	\$ 3,302	\$206,254
Utilized – cash	(29,885)	—	(40,856)	(70,741)	(1,460)	(1,197)	(2,657)	(73,398)
Utilized – noncash	(37,814)	(26,905)	—	(64,719)	—	(426)	(426)	(65,145)
Balance December 31, 2009	<u>\$ 36,070</u>	<u>\$ —</u>	<u>\$ 31,422</u>	<u>\$ 67,492</u>	<u>\$ 219</u>	<u>\$ —</u>	<u>\$ 219</u>	<u>\$ 67,711</u>

Other restructuring costs include items such as the exit costs for terminating supply contracts, lease termination and moving costs.

2008 Restructuring Plan

During the second quarter of 2008, the Company finalized a plan to ship fewer motorcycles to its worldwide dealer network in 2008 than it shipped in 2007. The Company executed this reduction through temporary plant shutdowns, adjusted daily production rates and a workforce reduction involving approximately 730 positions. As a result of the workforce reduction plan, the Company recorded a \$12.4 million charge during 2008. The total restructuring charge consisted of \$7.6 million of employee severance benefits and \$4.8 million of special retiree benefits for those individuals eligible to receive benefits. All employees and contract workers affected by the 2008 Restructuring Plan departed from the Company during 2008.

The following table summarizes the Company's 2008 Restructuring Plan reserve activity during 2008 and 2009 (in thousands):

	Employee Severance and Termination Costs
Original reserve	\$ 7,594
Utilized – cash	(5,445)
Balance, December 31, 2008	\$ 2,149
Utilized – cash	(2,149)
Balance, December 31, 2009	<u>\$ —</u>

Buell Asset Impairment

During October 2009, the Company unveiled a new strategy that is designed to strengthen the Harley-Davidson brand for long-term future growth by focusing exclusively on the Harley-Davidson brand. As a result, the Company announced it was exiting the Buell product line during the fourth quarter of 2009. The Company determined that an evaluation of the carrying value of the Buell fixed assets was necessary and the Company recorded a fixed asset impairment charge of \$18.0 million in 2009.

5. Goodwill

The changes in the carrying amount of goodwill in each of the Company's reporting segments for the years ended December 31, 2009 and 2008 were as follows (in thousands):

	<u>Motorcycles</u>	<u>Financial Services</u>	<u>Total</u>
December 31, 2007	\$32,560	\$ 28,840	\$ 61,400
Currency translation	(1,269)	—	(1,269)
December 31, 2008	\$31,291	\$ 28,840	\$ 60,131
Impairment	—	(28,387)	(28,387)
Currency translation	609	—	609
Other	(500)	(453)	(953)
December 31, 2009	<u>\$31,400</u>	<u>\$ —</u>	<u>\$ 31,400</u>

As a result of the Company's lower retail sales volume projections and the decline in operating performance at HDFFS during 2009 due to significant write-downs of its loan portfolio and investment in retained securitization interests, the Company performed an impairment test of the goodwill balance associated with HDFFS as of June 28, 2009. The results of the impairment test indicated the current fair value of HDFFS had declined below its carrying value and as such the Company recorded an impairment charge of \$28.4 million during 2009.

6. Finance Receivables

Finance receivables held for investment, net at December 31 for the past five years were as follows (in thousands):

	<u>2009</u>	<u>2008</u>	<u>2007</u>	<u>2006</u>	<u>2005</u>
Wholesale					
United States	\$ 787,891	\$1,074,377	\$1,132,748	\$1,206,753	\$1,040,220

	<u>4,811,812</u>	<u>1,864,889</u>	<u>2,012,585</u>	<u>1,896,111</u>	<u>1,593,565</u>
Investment in retained securitization interests	<u>245,350</u>	<u>330,674</u>	<u>407,742</u>	<u>384,106</u>	<u>349,659</u>
	<u>\$5,057,162</u>	<u>\$2,195,563</u>	<u>\$2,420,327</u>	<u>\$2,280,217</u>	<u>\$1,943,224</u>

Finance receivables held for sale at December 31 for the past five years were as follows (in thousands):

	<u>2009</u>	<u>2008</u>	<u>2007</u>	<u>2006</u>	<u>2005</u>
Retail					
United States	\$—	\$2,443,965	\$781,280	\$547,106	\$299,373

During the second quarter of 2009, the Company reclassified \$3.14 billion of finance receivables held for sale at the lower of cost or fair value to finance receivables held for investment, net, due to the Company's decision to structure securitization transactions in a manner that will not qualify for accounting sale treatment under the provisions of ASC Topic 860-40. Included in finance receivables held for sale at December 31, 2008 is a lower of cost or market adjustment of \$31.7 million. Included in the Company's Consolidated Balance Sheet at December 31, 2009 and 2008 are finance receivables of \$2.81 billion and \$649.8 million, respectively, which were restricted as collateral for the payment of secured borrowings, and other related obligations, as discussed in Note 8.

HDFS has cross-border outstandings to Canada as of December 31, 2009, 2008 and 2007 of \$77.1 million, \$75.8 million and \$92.2 million, respectively.

HDFS provides wholesale financing to the Company's independent dealers. Wholesale loans to dealers are generally secured by financed inventory or property and are originated in the U.S. and Canada. Effective January 1, 2008, the finance receivables and related assets of the international wholesale operations located in Oxford, England were transferred at book value to Harley-Davidson Europe Ltd., a subsidiary of HDMC. Beginning in 2008, HDMC assumed responsibility for the collection of all wholesale receivables in Europe.

HDFS provides retail financial services to customers of the Company's independent dealers in the United States and Canada. The origination of retail loans is a separate and distinct transaction between HDFS and the retail customer, unrelated to the Company's sale of product to its dealers. Retail loans consist of secured promissory notes and installment loans. HDFS holds either titles or liens on titles to vehicles financed by promissory notes and installment loans. As of December 31, 2009 and 2008, approximately 11% of gross outstanding finance receivables were originated in Texas.

At December 31, 2009 and 2008, unused lines of credit extended to HDFS' wholesale finance customers totaled \$1.16 billion and \$941.9 million, respectively. Approved but unfunded retail finance loans totaled \$123.9 million and \$263.1 million at December 31, 2009 and 2008, respectively.

Wholesale finance receivables are related primarily to motorcycles and related parts and accessories sales to independent dealers and are generally contractually due within one year. Retail finance receivables are primarily related to sales of motorcycles to the dealers' customers. On December 31, 2009, contractual maturities of finance receivables held for investment (excluding retained securitization interests) were as follows (in thousands):

	<u>United States</u>	<u>Canada</u>	<u>Total</u>
2010	\$1,237,998	\$113,302	\$1,351,300
2011	469,432	33,233	502,665
2012	525,964	37,263	563,227
2013	589,318	41,780	631,098
2014	660,328	46,845	707,173
Thereafter	<u>1,140,086</u>	<u>66,345</u>	<u>1,206,431</u>
Total	<u>\$4,623,126</u>	<u>\$338,768</u>	<u>\$4,961,894</u>

As of December 31, 2009, all finance receivables due after one year were at fixed interest rates.

The allowance for finance credit losses on finance receivables held for investment is comprised of individual components relating to wholesale and retail finance receivables. Changes in the allowance for finance credit losses on finance receivables held for investment for the years ended December 31 were as follows (in thousands):

	<u>2009</u>	<u>2008</u>	<u>2007</u>
Balance at beginning of year	\$ 40,068	\$ 30,295	\$27,283
Provision for finance credit losses	169,206	39,555	11,252
Charge-offs, net of recoveries	(59,192)	(29,782)	(8,240)
Balance at end of year	<u>\$150,082</u>	<u>\$ 40,068</u>	<u>\$30,295</u>

The increase in the provision for credit losses during 2009 primarily resulted from the reclassification of \$3.14 billion of finance receivables held for sale to finance receivables held for investment at the end of the second quarter of 2009. The reclassification was due to the structure of the Company's May 2009 term asset-backed securitization transaction and management's intent to structure subsequent securitization transactions in a manner that would not meet the requirements of accounting sale treatment. The reclassification resulted in an additional provision for credit losses of \$72.7 million.

The carrying value of retail and wholesale finance receivables contractually past due 90 days or more at December 31 for the past five years were as follows (in thousands):

	<u>2009</u>	<u>2008</u>	<u>2007</u>	<u>2006</u>	<u>2005</u>
United States	\$24,629	\$23,678	\$6,205	\$4,476	\$2,574
Canada	2,161	1,275	1,759	1,561	1,442
Europe	—	—	386	452	283
Total	<u>\$26,790</u>	<u>\$24,953</u>	<u>\$8,350</u>	<u>\$6,489</u>	<u>\$4,299</u>

7. Off-Balance Sheet Finance Receivable Securitization Transactions

During 2008 and 2007, the Company sold \$540.0 million and \$2.53 billion, respectively, of retail motorcycle loans through securitization transactions utilizing QSPEs (see Note 1). These sales resulted in cash proceeds of \$467.7 million and \$2.49 billion during 2008 and 2007, respectively. There were no off-balance sheet securitization transactions during 2009. The Company retains an interest in excess cash flows, subordinated securities and cash reserve account deposits, collectively referred to as investment in retained securitization interests (a component of finance receivables held for investment in the Company's Consolidated Balance Sheets). The Company retains servicing rights and receives annual servicing fees approximating 1% of the outstanding securitized retail loans. HDFFS serviced \$1.89 billion and \$3.25 billion of securitized retail loans as of December 31, 2009 and 2008, respectively. The total investment in retained securitization interests received in connection with securitizations during the year for the last three years is disclosed under non-cash investing activities in Note 2. In conjunction with sales prior to 2009, HDFFS had investments in retained securitization interests of \$245.4 million and \$330.7 million at December 31, 2009 and 2008, respectively.

The Company's investment in retained securitization interests, excluding servicing rights, is subordinate to the interests of securitization trust investors. Such investors have priority interests in the cash collections on the retail loans sold to the securitization trust (after payment of servicing fees) and in the cash reserve account deposits. These priority interests ultimately could impact the value of the Company's investment in retained securitization interests. Investors do not have recourse to the assets of HDFFS for failure of the obligors on the retail loans to pay when due. The investment in retained securitization interests is recorded at fair value. Key assumptions in the valuation of the investment in retained securitization interests and in calculating the gain or loss on current year securitizations are credit losses, prepayments and discount rate.

As discussed in Note 1, the Company adopted ASC Topic 320-10-65-1 on March 30, 2009. In accordance with the new standard, if management has no intent to sell the other-than-temporarily impaired investment and it is more likely than not that it will not be required to sell, only the credit loss component of the impairment is recognized in earnings, while the rest of the impairment is recognized as an unrealized loss in other comprehensive income. The credit loss component recognized in earnings is identified as the amount of cash flows not expected to be received over the remaining life of the investment as projected using assumptions for credit losses, prepayments and discounts rates as discussed below.

Upon adoption of ASC Topic 320-10-65-1, the Company recorded an increase to the opening balance of retained earnings of \$22.5 million (\$14.4 million, net of tax) and a decrease to accumulated other comprehensive income of \$22.5 million (\$14.4 million, net of tax) to reclassify the non-credit component of \$52.2 million of previously recognized impairments on its investment in retained securitization interests. The credit component of previously recognized impairments on its investment in retained securitization interests was \$29.7 million. The fair value of the investment in retained securitization interests did not change.

During the nine months from the date of adoption to December 31, 2009, the Company recorded other-than-temporary impairments related to its investment in retained securitization interests. The impairments were due to higher actual and anticipated credit losses partially offset by a slowing in actual and expected prepayment speeds on certain securitization portfolios. As prescribed by ASC Topic 320-10-65-1, the Company recognized the credit component of the other-than-temporary impairment in earnings and the non-credit component in other comprehensive income as the Company does not intend to sell the investment and it is more likely than not that the Company will not be required to sell it prior to recovery of its cost basis. The components of the impairment are as follows (in thousands):

	Nine months ended December 31, 2009
Total other-than-temporary impairment losses	\$22,240
Portion of loss reclassified from other comprehensive income	<u>6,000</u>
Net impairment losses recognized in earnings	<u>\$28,240</u>

The following activity only applies to other-than-temporary impairments on investment in retained securitization interests for which a component of the impairment is recognized in earnings and a component is recognized in other comprehensive income. The total credit component of other-than-temporary impairments recognized in earnings for all investment in retained securitization interests still held as of December 31, 2009 is as follows (in thousands):

	Nine months ended December 31, 2009
Balance, beginning of period	\$29,686
Credit component recognized in earnings during the period	28,240
Reductions due to sale/repurchase ⁽¹⁾	<u>(954)</u>
	<u>\$56,972</u>

(1) The Company exercised its 10% clean up call repurchase option for certain securitization trusts.

Prior to March 30, 2009, if an impairment existed and management deemed it to be other-than-temporary, the entire impairment was recorded in the consolidated statements of operations. During the three months ended March 29, 2009, the Company recorded an other-than-temporary impairment charge of \$17.1 million related to its investment in retained securitization interests which included both the credit and non-credit components.

During 2008, the Company recorded an other-than-temporary impairment charge of \$41.4 million related to its investment in retained securitization interests. The decline in fair value below amortized cost was due to higher actual and anticipated credit losses on certain securitization portfolios, and an increased discount rate in the fourth quarter of 2008 from 12% to 18%. This charge was recorded as a reduction of financial services revenue.

The following table summarizes the amortized cost, fair value and gross unrealized gains and losses of the investment in retained securitization interests (in thousands):

	December 31, 2009		
	Total Investment in Retained Securitization Interests	Investment in Retained Securitization Interests Currently in a Loss Position for less than 12 Months	Investment in Retained Securitization Interests Currently in a Gain Position
Amortized cost	\$250,793	\$161,857	\$88,936
Gross unrealized gains	1,645	—	1,645
Gross unrealized losses	(7,088)	(7,088)	—
Fair value	<u>\$245,350</u>	<u>\$154,769</u>	<u>\$90,581</u>

The unrealized loss position is primarily due to a difference between the discount rate used to calculate fair value at December 31, 2009 and the initial rate used to value the retained securitization interests at their inception. The discount rate used at December 31, 2009 to calculate fair value was 15%. A discount rate of 12% was used to calculate the portion of unrealized gain/loss on the securitization and the initial value of the investment in retained securitization interests. None of the investments in retained securitization interests have been in a continuous loss position for more than twelve months.

The investment in retained securitization interests has no stated contractual maturity date. Historically, the investment in retained securitization interests has a life of approximately four years.

At the date of the transaction, the following weighted-average key assumptions were used to calculate the loss on the securitization completed in 2008:

	<u>2008</u>
Prepayment speed (Single Monthly Mortality)	2.00%
Weighted-average life (in years)	1.95
Expected cumulative net credit losses	4.25%
Residual cash flows discount rate	12.00%

As of December 31, 2009 and 2008, respectively, the following weighted-average key assumptions were used to value the investment in retained securitization interests:

	<u>2009</u>	<u>2008</u>
Prepayment speed (Single Monthly Mortality)	1.71%	1.88%
Weighted-average life (in years)	2.07	2.09
Expected cumulative net credit losses	5.70%	4.63%
Residual cash flows discount rate	14.79%	17.89%

Expected cumulative net credit losses are a key assumption in the valuation of the investment in retained securitization interests. As of December 31, 2009, 2008 and 2007, respectively, weighted-average expected net credit losses for all active securitizations were 5.70%, 4.63% and 3.89%. The table below summarizes, as of December 31, 2009, 2008 and 2007, respectively, expected weighted-average cumulative net credit losses by year of securitization, expressed as a percentage of the original balance of loans securitized for all securitizations completed during the years noted.

<u>Expected weighted-average cumulative net credit losses (%) as of:</u>	<u>2008</u>	<u>2007</u>	<u>2006</u>	<u>2005</u>
December 31, 2009	5.75%	6.12%	5.32%	4.87%
December 31, 2008	4.50%	4.66%	4.78%	4.66%
December 31, 2007	—	3.88%	4.00%	4.13%

Detailed below at December 31, 2009 and 2008, is the sensitivity of the fair value to immediate 10% and 20% adverse changes in the weighted-average key assumptions for the investment in retained securitization interests (dollars in thousands):

	<u>2009</u>	<u>2008</u>
Carrying amount/fair value of retained interests	\$245,350	\$330,674
Weighted-average life (in years)	2.07	2.09
Prepayment speed assumption (monthly rate)	1.71%	1.88%
Impact on fair value of 10% adverse change	\$ (2,400)	\$ (5,700)
Impact on fair value of 20% adverse change	\$ (4,600)	\$ (11,300)
Expected cumulative net credit losses	5.70%	4.63%
Impact on fair value of 10% adverse change	\$ (36,400)	\$ (36,400)
Impact on fair value of 20% adverse change	\$ (72,200)	\$ (72,700)
Residual cash flows discount rate (annual)	14.79%	17.89%
Impact on fair value of 10% adverse change	\$ (4,500)	\$ (8,600)
Impact on fair value of 20% adverse change	\$ (9,000)	\$ (16,800)

These sensitivities are hypothetical and should not be considered to be predictive of future performance. Changes in fair value generally cannot be extrapolated because the relationship of change in assumption to change in fair value may not be linear. Also, in this table, the effect of a variation in a particular assumption on the fair value of the retained interest is calculated independently from any change in another assumption. In reality, changes in one factor may contribute to changes in another, which may magnify or counteract the sensitivities. Furthermore, the estimated fair values as disclosed should not be considered indicative of future earnings on these assets.

The table below provides information regarding certain cash flows received from and paid to all motorcycle loan securitization trusts during the years ended December 31, 2009 and 2008 (in thousands):

	<u>2009</u>	<u>2008</u>
Proceeds from new securitizations	\$ —	\$ 467,722
Servicing fees received	\$ 26,693	\$ 43,049
Other cash flows received on retained interests	\$ 69,418	\$ 132,594
10% clean-up call repurchase option	\$(161,390)	\$(150,240)

Managed retail motorcycle loans consist of all retail motorcycle installment loans serviced by HDFS including those held by securitization trusts and those held by HDFS. As of December 31, 2009 and 2008, managed retail motorcycle loans totaled \$5.59 billion and \$6.03 billion, respectively, of which \$1.89 billion and \$3.25 billion, respectively, were securitized. The principal amount of managed retail motorcycle loans 30 days or more past due was \$324.1 million and \$339.1 million at December 31, 2009 and 2008, respectively. The principal amount of securitized retail motorcycle loans 30 days or more past due was \$183.7 million and \$225.0 million at December 31, 2009 and 2008, respectively. Managed loans 30 days or more past due exclude loans reclassified as repossessed inventory. Credit losses, net of recoveries, of the managed retail motorcycle loans were \$167.4 million, \$138.7 million and \$106.5 million during 2009, 2008 and 2007, respectively. Securitized retail motorcycle loan credit losses, net of recoveries, were \$94.6 million, \$107.9 million and \$93.9 million during 2009, 2008 and 2007, respectively.

8. Secured Borrowings

Asset-Backed Commercial Paper Conduit Facility

In December 2008, HDFS transferred \$666.7 million of U.S. retail motorcycle finance receivables to a special purpose entity (SPE), which in turn issued \$500.0 million of debt to third-party bank-sponsored asset-backed commercial paper conduits. The SPE funded the purchase of the finance receivables from HDFS primarily with cash obtained through the issuance of the debt. In April 2009, HDFS replaced its December 2008 asset-backed commercial paper conduit facility agreement with a new agreement (2009 Conduit Loan Agreement).

As part of the April 2009 transaction, HDFS transferred an additional \$354.4 million of U.S. retail motorcycle loans to the SPE and increased the debt issued to the third-party bank sponsored conduits from \$500.0 million to \$640.2 million. HDFS is the primary beneficiary of the SPE, and the finance receivables transfer does not satisfy the requirements for accounting sale treatment under ASC Topic 860. Therefore, the assets and associated debt are included in the Company's financial statements. The SPE is a separate legal entity and as such the assets of the SPE are restricted as collateral for the payment of the debt or other obligations arising in the transaction and are not available to pay other obligations or claims of the Company's creditors.

The 2009 Conduit Loan Agreement provides for a total aggregate commitment of up to \$1.20 billion based on, among other things, the amount of eligible U.S. retail motorcycle loans held by the SPE as collateral. The interest rates for this debt provide for interest on the outstanding principal based on prevailing commercial paper rates, or LIBOR plus a specified margin to the extent the advance is not funded by a conduit lender through the issuance of commercial paper. The 2009 Conduit Loan Agreement also provides for an unused commitment fee based on the unused portion of the total aggregate commitment of \$1.20 billion. There is no amortization schedule; however, the debt is reduced monthly as available collections on the related finance receivables are applied to outstanding principal with the balance due at maturity. Unless earlier terminated or extended by mutual agreement of HDFS and the lenders, the 2009 Conduit Loan Agreement will expire on April 29, 2010, at which time HDFS will be obligated to repay any amounts outstanding in full.

At December 31, 2009, HDFS had no borrowings outstanding under the asset-backed commercial paper conduit facility. The SPE held \$55.2 million of finance receivables and \$3.6 million of cash collections restricted as collateral for the payment of fees associated with the unused portion of the total aggregate commitment of \$1.20 billion. The assets of the SPE totaled \$73.0 million at December 31, 2009, and are included primarily in finance receivables and other current assets in the Company's Consolidated Balance Sheet.

At December 31, 2008 the assets of the SPE totaled \$686.3 million. The SPE held finance receivables of \$649.8 million and cash collections of \$24.1 million restricted as collateral for the payment of \$500.0 million of short-term asset-backed commercial paper conduit facility debt, which is included in the Company's Consolidated Balance Sheet.

For the year ended December 31, 2009 and 2008, the SPE recorded interest expense on the debt of \$41.1 million and \$3.7 million, respectively, which is included in HDFS interest expense, a component of Financial Services expense. The weighted average interest rate of the outstanding asset-backed commercial paper conduit facility, which includes the impact of the interest rate swap agreements, was 8.33% and 6.97% at December 31, 2009 and 2008, respectively.

On-Balance Sheet Finance Receivable Securitizations

In 2009, HDFFS transferred \$3.08 billion of U.S. retail motorcycle loans to four separate SPEs. The SPEs in turn issued the following secured notes with the related maturity dates and interest rates (in thousands):

<u>Issue Date</u>	<u>Principal Amount</u>	<u>Weighted-Average Rate at Date of Issuance</u>	<u>Maturity Date</u>
May 2009	\$500,000	2.77%	May 2010 - January 2017
July 2009	\$700,000	2.11%	July 2010 - February 2017
October 2009	\$700,000	1.16%	October 2010 - April 2017
December 2009	\$562,499	1.55%	December 2010 - June 2017

These term asset-backed securitization transactions were “eligible collateral” under the Federal Reserve Bank of New York’s Term Asset-backed securities Loan Facility (TALF) program. The notes are secured by future collections of the purchased U.S. retail motorcycle loans. The structure of these term asset-backed securitization transactions did not satisfy the requirements for accounting sale treatment under ASC Topic 860; therefore, the securitized U.S. retail motorcycle loans, resulting secured borrowings and other related assets and liabilities of the SPEs are included in the Company’s consolidated financial statements as HDFFS is the primary beneficiary of the SPEs.

The SPEs are separate legal entities and the U.S. retail motorcycle loans that have been included in the term asset-backed securitizations are only available for payment of the secured debt and other obligations arising from the term asset-backed securitization transactions and are not available to pay other obligations or claims of the Company’s creditors until the associated secured debt and other obligations are satisfied. Cash and cash equivalent balances held by the SPEs are used only to support the on-balance sheet securitizations. There is no amortization schedule for the secured notes; however, the debt is reduced monthly as available collections on the related U.S. retail motorcycle loans are applied to outstanding principal. The expected life for each issuance ranges from one to four years due to estimated credit losses and prepayment speeds.

The assets of the SPEs totaled \$2.93 billion at December 31, 2009 and are included primarily in finance receivables held for investment and restricted cash (a component of other current assets) in the Company’s Consolidated Balance Sheet. At December 31, 2009, the SPEs held finance receivables of \$2.75 billion restricted as collateral for the payment of \$2.16 billion secured notes, of which \$921.1 million is classified as current portion of long term debt and \$1.24 billion is classified as long-term debt in the Company’s Consolidated Balance Sheet. The SPEs also held \$164.1 million of cash restricted for payment on the outstanding debt at December 31, 2009. During 2009, the SPEs recorded interest expense on the secured notes of \$17.3 million, which is included in HDFFS interest expense, a component of Financial Services expense.

9. Fair Value of Financial Instruments

The Company’s financial instruments consist primarily of cash and cash equivalents, marketable securities, trade receivables, finance receivables held for investment, net, finance receivables held for sale, trade payables, debt, foreign currency contracts and interest rate swaps (derivative instruments are discussed further in Note 11). Under U.S. GAAP certain of these items are required to be recorded in the financial statements at fair value, while others are required to be recorded at historical cost.

The following table summarizes the fair value and carrying value of the Company's financial instruments at December 31, 2009 (in thousands):

	2009		2008	
	Fair Value	Carrying Value	Fair Value	Carrying Value
Assets:				
Cash and cash equivalents	\$1,630,433	\$1,630,433	\$ 568,894	\$ 568,894
Marketable securities	\$ 39,685	\$ 39,685	\$ —	\$ —
Accounts receivable, net	\$ 269,371	\$ 269,371	\$ 265,319	\$ 265,319
Restricted cash	\$ 167,667	\$ 167,667	\$ —	\$ —
Derivatives	\$ 13,678	\$ 13,678	\$ 31,508	\$ 31,508
Finance receivables held for sale	\$ —	\$ —	\$2,443,965	\$2,443,965
Finance receivables held for investment	\$4,802,322	\$4,811,812	\$1,864,889	\$1,864,889
Investment in retained securitization interests	\$ 245,350	\$ 245,350	\$ 330,674	\$ 330,674
Liabilities:				
Accounts payable	\$ 162,515	\$ 162,515	\$ 303,272	\$ 303,272
Derivatives	\$ 16,293	\$ 16,293	\$ 23,503	\$ 23,503
Unsecured commercial paper	\$ 325,099	\$ 325,099	\$1,416,449	\$1,416,449
Asset-backed commercial paper conduit facility	\$ —	\$ —	\$ 500,000	\$ 500,000
Credit facilities	\$ 448,049	\$ 448,049	\$ 390,932	\$ 390,932
Medium-term notes	\$2,152,612	\$2,103,396	\$1,034,907	\$1,607,506
Senior unsecured notes	\$ 816,998	\$ 600,000	\$ —	\$ —
On-balance sheet securitization debt	\$2,166,056	\$2,159,585	\$ —	\$ —

Cash and Cash Equivalents, Restricted Cash, Accounts Receivable, Net and Accounts Payable – With the exception of certain money-market investments, these items are recorded in the financial statements at historical cost. The historical cost basis for these amounts is estimated to approximate their respective fair values due to the short maturity of these instruments.

Marketable Securities – Marketable securities are recorded in the financial statements at fair value. The fair value of marketable securities is based primarily on quoted market prices. Changes in fair value are recorded, net of tax, as other comprehensive income and included as a component of shareholders' equity.

Finance Receivables Held for Investment, Net – Retail and wholesale finance receivables included in finance receivables held for investment are recorded in the financial statements at historical cost less an allowance for credit losses. The fair value of retail finance receivables is generally calculated by discounting future cash flows using an estimated discount rate that reflects current credit, interest rate and prepayment risks associated with similar types of instruments. The historical cost basis of wholesale finance receivables approximates fair value because they either are short-term or have interest rates that adjust with changes in market interest rates.

The investment in retained securitization interests, which is a component of finance receivables held for investment in the Consolidated Balance Sheets, is recorded in the financial statements at fair value and is estimated based on the present value of future expected cash flows using management's best estimates of the key assumptions.

Finance Receivables Held for Sale – Finance receivables held for sale in the aggregate were recorded at the lower of cost or estimated fair value. HDFS used discounted cash flow methodologies to estimate the fair value of finance receivables held for sale that incorporate appropriate assumptions for discount rate, funding costs and credit enhancement, as well as estimates concerning credit losses and prepayments, that in management's judgment, reflected assumptions marketplace participants would have used.

Debt – Debt is generally recorded in the financial statements at historical cost. The carrying value of debt provided under credit facilities approximates fair value since the interest rates charged under the facilities are tied directly to market rates and fluctuate as market rates change. The carrying value of commercial paper approximates fair value due to its short maturity. The carrying value of debt provided under the asset-backed commercial paper conduit facility approximates the fair value since the interest rates charged on the outstanding portion are tied directly to market rates and fluctuate as market rates change.

The fair values of the medium-term notes maturing in December 2012, December 2014 and June 2018 are estimated based upon rates currently available for debt with similar terms and remaining maturities. The medium-term notes maturing in December 2010 are carried at fair value and include a fair value adjustment due to the interest rate swap agreement, designated as a fair value hedge, which effectively converts a portion of the note from a fixed to a floating rate.

The fair value of the senior unsecured notes is estimated based upon rates currently available for debt with similar terms and remaining maturities.

The fair value of the debt related to on-balance sheet securitization transactions is estimated based on pricing currently available for transactions with similar terms and maturities.

10. Fair Value Measurements

Certain assets and liabilities are recorded at fair value in the financial statements; some of these are measured on a recurring basis while others are measured on a non-recurring basis. Assets and liabilities measured on a recurring basis are those that are adjusted to fair value each time a financial statement is prepared. Assets and liabilities measured on a non-recurring basis are those that are adjusted to fair value when a significant event occurs. In determining fair value of assets and liabilities, the Company uses various valuation techniques. The availability of inputs observable in the market varies from instrument to instrument and depends on a variety of factors including the type of instrument, whether the instrument is actively traded, and other characteristics particular to the transaction. For many financial instruments, pricing inputs are readily observable in the market, the valuation methodology used is widely accepted by market participants, and the valuation does not require significant management discretion. For other financial instruments, pricing inputs are less observable in the market and may require management judgment.

The Company assesses the inputs used to measure fair value using a three-tier hierarchy. The hierarchy indicates the extent to which inputs used in measuring fair value are observable in the market. Level 1 inputs include quoted prices for identical instruments and are the most observable. Level 2 inputs include quoted prices for similar assets and observable inputs such as interest rates, foreign currency exchange rates, commodity rates and yield curves. Level 3 inputs are not observable in the market and include management's judgments about the assumptions market participants would use in pricing the asset or liability. The use of observable and unobservable inputs is reflected in the hierarchy assessment disclosed in the table below.

Recurring Fair Value Measurements

The following table presents information about the Company's assets and liabilities measured at fair value on a recurring basis as of December 31, 2009 and 2008 (in thousands):

	Balance as of December 31, 2009	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Cash equivalents	\$1,298,254	\$1,298,254	\$ —	\$ —
Derivatives	13,678	—	13,678	—
Investment in retained securitization interests . . .	245,350	—	—	245,350
	<u>\$1,557,282</u>	<u>\$1,298,254</u>	<u>\$13,678</u>	<u>\$245,350</u>
Liabilities:				
Derivatives	\$ 16,293	\$ —	\$16,293	\$ —
	<u>\$ 16,293</u>	<u>\$ —</u>	<u>\$16,293</u>	<u>\$ —</u>
	Balance as of December 31, 2008	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Cash equivalents	\$380,082	\$380,082	\$ —	\$ —
Derivatives	31,508	—	31,508	—
Investment in retained securitization interests . . .	330,674	—	—	330,674
	<u>\$742,264</u>	<u>\$380,082</u>	<u>\$31,508</u>	<u>\$330,674</u>
Liabilities:				
Derivatives	\$ 23,503	\$ —	\$23,503	\$ —
	<u>\$ 23,503</u>	<u>\$ —</u>	<u>\$23,503</u>	<u>\$ —</u>

The investment in retained securitization interests is valued using discounted cash flow methodologies incorporating assumptions that, in management's judgment, reflect assumptions marketplace participants would use at December 31, 2009 and 2008. The following table presents additional information about the investment in retained securitization interests which is measured at fair value on a recurring basis using significant unobservable inputs (Level 3) (in thousands):

	2009	2008
Balance, beginning of period	\$330,674	\$407,742
Realized (losses)/gains included in financial services revenue ^(a)	(13,683)	18,808
Unrealized gains (losses) included in other comprehensive income ^(b)	21,219	(29,090)
Sales, repurchases and settlements, net	(92,860)	(66,786)
Balance, end of period	<u>\$245,350</u>	<u>\$330,674</u>

(a) As discussed in Note 7, realized (losses)/gains included in financial services revenue includes an other-than-temporary impairment charge of \$45.4 and \$41.4 million for the year ended December 31, 2009 and 2008, respectively.

(b) For the year ended December 31, 2009, \$6.0 million of net unrealized losses were reclassified out of accumulated other comprehensive income into financial services revenue.

Non-Recurring Fair Value Measurements

At December 31, 2009, the assets and liabilities of MV, which are held for sale and presented as discontinued operations, were carried at the lower of cost or fair value (less estimated selling costs) using significant unobservable inputs (Level 3). During 2009, the Company recorded an impairment charge of \$115.4 million which represented the excess of net book value of the held-for sale assets over the expected fair value less selling costs.

The impairment charge is included in loss from discontinued operations and consisted of an \$85.5 million goodwill impairment, a \$19.8 million fixed asset impairment and a \$10.1 million intangible asset impairment. Please refer to Note 3 for information concerning the assets and liability balances of discontinued operations at December 31, 2009. In determining the fair value of MV, the Company utilized discounted cash flow methodologies which require the Company to make assumptions and apply judgment to estimate macro economic factors such as interest rates, motorcycle industry economic factors and the future profitability of MV's business strategies. In addition, the Company considered information gained through its efforts to sell MV.

At December 31, 2008, finance receivables held for sale in the aggregate were carried at the lower of cost or estimated fair value, and were measured at fair value on a non-recurring basis using significant unobservable inputs (Level 3). During 2008, the Company recorded non-cash charges of \$37.8 million due to a decline in the fair value below cost on finance receivables held for sale. The fair value of the finance receivables held for sale at December 31, 2008 was \$2.44 billion, which was net of a \$31.7 million valuation adjustment. There were no finance receivables held for sale at December 31, 2009. HDFFS used discounted cash flow methodologies to estimate the fair value of finance receivables held for sale that incorporated appropriate assumptions for discount rate, funding costs and credit enhancement, as well as estimates concerning credit losses and prepayments.

11. Derivative Instruments and Hedging Activities

The Company is exposed to certain risks relating to its ongoing business operations. The primary risks are foreign currency exchange rate risk, interest rate risk and commodity price risk. To reduce such risks, the Company selectively uses derivative financial instruments. All hedging transactions are authorized and executed pursuant to regularly reviewed policies and procedures, which prohibit the use of financial instruments for speculative trading purposes.

All derivative instruments are recognized on the balance sheet at fair value (see Note 9). In accordance with ASC Topic 815, the accounting for changes in the fair value of a derivative instrument depends on whether it has been designated and qualifies as part of a hedging relationship and, further, on the type of hedging relationship. Changes in the fair value of derivatives that are designated as fair value hedges, along with the gain or loss on the hedged item, are recorded in current period earnings. For derivative instruments that are designated as cash flow hedges, the effective portion of gains and losses that result from changes in the fair value of derivative instruments is initially recorded in other comprehensive income (OCI) and subsequently reclassified into earnings when the hedged item affects income. The Company assesses, at both the inception of each hedge and on an on-going basis, whether the derivatives that are used in its hedging transactions are highly effective in offsetting changes in cash flows of the hedged items. Any ineffective portion is immediately recognized in earnings. No component of a hedging derivative instrument's gain or loss is excluded from the assessment of hedge effectiveness. Derivative instruments which do not qualify for hedge accounting are recorded at fair value and any changes in fair value are recorded in current period earnings.

The Company sells its products internationally and in most markets those sales are made in the foreign country's local currency. As a result, the Company's earnings can be affected by fluctuations in the value of the U.S. dollar relative to foreign currency. The Company's most significant foreign currency risk relates to the Euro and the Australian dollar. The Company utilizes foreign currency contracts to mitigate the effect of the Euro and the Australian dollar fluctuations on earnings. The foreign currency contracts are entered into with banks and allow the Company to exchange a specified amount of foreign currency for U.S. dollars at a future date, based on a fixed exchange rate.

The Company utilizes natural gas contracts to hedge portions of the cost of natural gas consumed in the Company's motorcycle production operations.

The Company's earnings are affected by changes in interest rates. HDFFS utilizes interest rate swaps to reduce the impact of fluctuations in interest rates on its unsecured commercial paper by converting a portion from a floating rate basis to a fixed rate basis. Similarly, HDFFS utilizes interest rate swaps with its medium-term notes; however, the impact is to convert from a fixed rate basis to a floating rate basis. HDFFS also entered into

derivative contracts to facilitate its first quarter 2008 term asset-backed securitization transaction as well as its third quarter 2007 term asset-backed securitization transaction. These derivatives, which hedge assets held by an off-balance sheet QSPE, do not qualify for hedge accounting treatment. Additionally, to facilitate asset-backed commercial paper conduit facility agreements that the Company entered into in December 2008 and April 2009, HDFS entered into derivative contracts, certain of which do not qualify for hedge accounting treatment.

The following table summarizes the fair value of the Company's derivative financial instruments (in thousands):

	December 31, 2009		
	Notional Value	Asset Derivatives Fair Value ⁽¹⁾	Liability Derivatives Fair Value ⁽²⁾
Derivatives Designated As Hedging Instruments Under ASC Topic 815			
Foreign currency contracts ⁽³⁾	\$144,805	\$ —	\$ 6,599
Natural gas contracts ⁽³⁾	3,312	51	—
Interest rate swaps – unsecured commercial paper ⁽³⁾	177,800	—	9,694
Interest rate swaps – medium-term notes ⁽⁴⁾	150,000	6,072	—
Total	<u>\$475,917</u>	<u>\$6,123</u>	<u>\$16,293</u>
Derivatives Not Designated As Hedging Instruments Under ASC Topic 815			
	Notional Value	Asset Derivatives Fair Value ⁽¹⁾	Liability Derivatives Fair Value ⁽²⁾
Derivatives – securitization transactions	\$254,904	\$ 352	\$—
Derivatives – conduit facility	575,164	7,203	—
	<u>\$830,068</u>	<u>\$7,555</u>	<u>\$—</u>

- (1) Included in other current assets
(2) Included in accrued liabilities
(3) Derivative designated as a cash flow hedge
(4) Derivative designated as a fair value hedge

The following table summarizes the amount of gains and losses for the year ended December 31, 2009 related to derivative financial instruments designated as cash flow hedges (in thousands):

<u>Cash Flow Hedges</u>	Amount of Loss Recognized in OCI	
	2009	
Foreign currency contracts		\$(4,402)
Natural gas contracts		(1,329)
Interest rate swaps – unsecured commercial paper		(1,299)
Interest rate swaps – conduit facility		(1,447)
Total		<u>\$(8,477)</u>
	Amount of Gain/(Loss) Reclassified from AOCI into Income	
<u>Cash Flow Hedges</u>	2009	Expected to be Reclassified Over the Next Twelve Months
Foreign currency contracts ⁽¹⁾	\$13,520	\$ (4,686)
Natural gas contracts ⁽¹⁾	(2,713)	51
Interest rate swaps – unsecured commercial paper ⁽²⁾	(8,817)	(6,186)
Interest rate swaps – conduit facility ⁽²⁾	(6,452)	—
Total	<u>\$ (4,462)</u>	<u>\$(10,821)</u>

- (1) Gain/(loss) reclassified from accumulated other comprehensive income (AOCI) to income is included in cost of goods sold
(2) Gain/(loss) reclassified from AOCI to income is included in HDFS interest expense, a component of Financial Services expense

For the year ended December 31, 2009, the cash flow hedges were highly effective and, as a result, the amount of hedge ineffectiveness was not material. No amounts were excluded from effectiveness testing.

The following table summarizes the amount of gains and losses for the year ended December 31, 2009 related to derivative financial instruments designated as fair value hedges (in thousands):

<u>Fair Value Hedges</u>	<u>Amount of Loss Recognized in Income on Derivative 2009</u>
Interest rate swaps – medium-term notes ⁽¹⁾	\$(3,626)

<u>Fair Value Hedges</u>	<u>Amount of Gain Recognized in Income on Hedged Debt 2009</u>
Interest rate swaps – medium-term notes ⁽¹⁾	\$ 3,626

(1) Gain/(loss) recognized in income is included in HDFS interest expense, a component of Financial Services expense

The following table summarizes the amount of gains and losses for the year ended December 31, 2009 related to derivative financial instruments not designated as hedging instruments (in thousands):

<u>Derivatives not Designated as Hedges</u>	<u>Amount of Gain/(Loss) Recognized in Income on Derivative 2009</u>
Derivatives – securitization transactions ⁽¹⁾	\$ 1,177
Derivatives – conduit facility ⁽¹⁾	<u>(2,101)</u>
	<u>\$ (924)</u>

(1) Gain/(loss) recognized in income is included in HDFS operating expense, a component of Financial Services expense

12. Comprehensive Income

The following tables set forth the reconciliation of net (loss) income to comprehensive income for the years ended December 31 (in thousands):

	<u>2009</u>	<u>2008</u>	<u>2007</u>
Net (loss) income	\$(55,116)	\$ 654,718	\$ 933,843
Other comprehensive income, net of tax:			
Foreign currency translation adjustment	30,932	(44,012)	30,753
Investment in retained securitization interest:			
Unrealized net gains (losses) arising during the period	9,760	(18,838)	(11,945)
Less: net losses reclassified into net income	<u>(3,840)</u>	<u>—</u>	<u>(11,945)</u>
Derivative financial instruments:			
Unrealized net losses arising during period	(4,242)	(6,060)	(27,175)
Less: net losses reclassified into net income	<u>(3,003)</u>	<u>(1,239)</u>	<u>(14,205)</u>
Marketable securities			
Unrealized gains on marketable securities	—	—	1,252
Less: net losses reclassified into net income	<u>—</u>	<u>(76)</u>	<u>1,252</u>
Pension and postretirement benefit plans:			
Amortization of actuarial loss	11,761	7,376	11,521
Amortization of net prior service cost	2,679	3,116	3,447
Pension and postretirement plan funded status adjustment	29,111	(347,165)	47,346
Less: actuarial loss reclassified into net income due to settlement	(884)	—	—
Less: actuarial loss reclassified into net income due to curtailment	(8,393)	—	—
Less: prior service cost reclassified into net income due to curtailment	<u>(22,920)</u>	<u>75,748</u>	<u>62,314</u>
Comprehensive income	<u>\$ 63,925</u>	<u>\$ 266,827</u>	<u>\$1,003,247</u>

13. Debt

Debt with contractual terms less than one year is generally classified as short-term debt and consisted of the following as of December 31 (in thousands):

	<u>2009</u>	<u>2008</u>
Unsecured commercial paper	\$189,999	\$1,238,649
Asset-backed conduit facility	—	500,000
	<u>\$189,999</u>	<u>\$1,738,649</u>

Debt with a contractual term greater than one year is generally classified as long-term debt and consisted of the following as of December 31 (in thousands):

	<u>2009</u>	<u>2008</u>
Unsecured commercial paper	\$ 135,100	\$ 177,800
Bank borrowings		
Credit facilities	448,049	390,932
Secured debt		
On-balance sheet securitization debt	2,159,585	—
Unsecured notes		
5.00% Medium-term notes due in 2010 (\$200.0 million par value)	206,065	209,684
5.25% Medium-term notes due in 2012 (\$400.0 million par value)	399,734	399,643
5.75% Medium-term notes due in 2014 (\$500.0 million par value)	499,222	—
6.80% Medium-term notes due in 2018 (\$1,000.0 million par value)	998,375	998,179
15.00% senior unsecured notes due in 2014 (\$600.0 million par value)	600,000	—
Gross long-term debt	<u>5,446,130</u>	<u>2,176,238</u>
Less: current portion of long-term debt	<u>(1,332,091)</u>	<u>—</u>
Long-term debt	<u>\$ 4,114,039</u>	<u>\$2,176,238</u>

Current portion of long-term debt consists of \$206.1 million of medium-term notes due in December 2010, \$205.0 million of credit facilities debt related to the MV acquisition and subsequent working capital advances and \$921.0 of on-balance sheet securitization debt.

The Company has classified \$378.2 million and \$568.7 million related to its unsecured commercial paper and its Global Credit Facilities as long-term debt as of December 31, 2009 and 2008. This amount has been excluded from current liabilities because it is supported by the Global Credit Facilities and is expected to remain outstanding for an uninterrupted period extending beyond one year from the balance sheet date.

Commercial paper maturities may range up to 365 days from the issuance date. The weighted-average interest rate of outstanding commercial paper balances was 2.87% and 3.14% at December 31, 2009 and 2008, respectively. The December 31, 2009 and 2008 weighted-average interest rates include the impact of interest rate swap agreements.

In April 2009, the Company and HDFS entered into a new \$625.0 million 364-day credit facility (New 364-Day Credit Facility) to refinance and replace the existing \$950.0 million 364-day credit facility (2008 364-Day Credit Facility), which was set to mature in July 2009. The New 364-Day Credit Facility matures in April 2010. In connection with the New 364-Day Credit Facility, the Company and HDFS also amended the existing three-year credit facility agreement, which matures in July 2011. The amendments to the three-year credit facility were to conform to the terms of the New 364-Day Credit Facility. The New 364-Day Credit Facility and the amended three-year credit facility agreement (together, the Global Credit Facilities) bear interest at various variable interest rates, which may be adjusted upward or downward depending on certain criteria, such as credit ratings. The Global Credit Facilities also require the Company to pay a fee based upon the average daily unused portion of the aggregate commitments under the Global Credit Facilities. HDFS may issue unsecured commercial paper in the aggregate equal to the unused portion of the Global Credit Facilities.

During April 2009, HDFS entered into a new revolving asset-backed conduit facility agreement (2009 Conduit Loan Agreement) to refinance and replace the existing \$500.0 million asset-backed conduit facility agreement (2008 Conduit Loan Agreement). The 2009 Conduit Loan Agreement provides for the extension of credit by a group of third-party bank sponsored conduits, some of which were party to the 2008 Conduit Loan Agreement. The 2009 Conduit Loan Agreement provides for total revolving borrowings of up to \$1.20 billion based on, among other things, the amount of eligible U.S. retail motorcycle loan collateral. As part of the April

2009 transaction, HDFS increased the U.S. retail motorcycle loan collateral by \$354.4 million and also increased the debt issued to the third-party bank sponsored conduits from \$500.0 million to \$640.2 million. At December 31, 2009, HDFS had no outstanding borrowings under the 2009 Conduit Loan Agreement.

This debt provides for interest on outstanding principal based on prevailing commercial paper rates, or LIBOR plus a specified margin to the extent the advance is not funded by a conduit lender through the issuance of commercial paper. The 2009 Conduit Loan Agreement also provides for an unused commitment fee based on the unused portion of the total aggregate commitment or \$1.20 billion. There is no amortization schedule; however, the debt is reduced monthly as available collections on the related finance receivable collateral are applied to outstanding principal with the balance due at maturity. Unless earlier terminated or extended by mutual agreement of HDFS and the lenders, the 2009 Conduit Loan Agreement will expire on April 29, 2010, at which time HDFS will be obligated to repay any amounts outstanding in full.

In 2009, HDFS transferred \$3.08 billion of U.S. retail motorcycle loans to four separate SPEs. The SPEs in turn issued \$2.46 billion of secured notes, respectively, with various maturities and interest rates to investors in on-balance sheet securitization transactions. These term asset-backed securitization transactions were “eligible collateral” under the TALF program. The notes are secured by future collections of the purchased U.S. retail motorcycle loans. The structure of these term asset-backed securitization transactions did not satisfy the requirements for accounting sale treatment under ASC Topic 860-40; therefore, the securitized U.S. retail motorcycle loans, resulting secured borrowings and other related assets and liabilities of the SPEs are included in the Company’s consolidated financial statements as HDFS is the primary beneficiary of the SPEs. On-balance sheet securitization transactions are further discussed in Note 8.

HDFS’ Medium Term Notes (collectively the Notes) provide for semi-annual interest payments and principal due at maturity. At December 31, 2009 and 2008, the Notes included a fair value adjustment increasing the balance by \$6.1 million and \$9.7 million, respectively, due to interest rate swap agreements designated as fair value hedges. The effect of the interest rate swap agreements is to convert the interest rate on a portion of the Notes from a fixed to a floating rate, which is based on 3-month LIBOR. Unamortized discounts on the Notes reduced the balance by \$2.7 million and \$2.2 million at December 31, 2009 and 2008, respectively.

HDFS has a revolving credit line with the Company whereby HDFS may borrow up to \$210.0 million at market rates of interest. As of December 31, 2009 and 2008, HDFS had no borrowings owed to the Company under the revolving credit agreement.

The Company has a support agreement with HDFS whereby, if required, the Company agrees to provide HDFS with financial support in order to maintain HDFS’ fixed-charge coverage at 1.25 and minimum net worth of \$40.0 million. Support may be provided at the Company’s option as capital contributions or loans. Accordingly, certain debt covenants may restrict the Company’s ability to withdraw funds from HDFS outside the normal course of business. No amount has ever been provided to HDFS under the support agreement.

HDFS and the Company are subject to various operating and financial covenants related to the Global Credit Facilities, asset-backed commercial paper conduit facility and various operating covenants under the Notes. The more significant covenants are described below.

The covenants limit the Company’s and HDFS’ ability to:

- incur certain additional indebtedness;
- assume or incur certain liens;
- participate in a merger, consolidation, liquidation or dissolution; and
- purchase or hold margin stock.

Under the financial covenants of the Global Credit Facilities and the asset-backed commercial paper conduit facility, the debt to equity ratio of HDFS and its consolidated subsidiaries cannot exceed 10.0 to 1.0 and HDFS must maintain a consolidated tangible net worth of not less than \$500.0 million. In addition, the Company must maintain a minimum interest coverage ratio of 2.5 to 1.0 and a maximum ratio of consolidated debt (excluding HDFS and certain intercompany debt) to consolidated EBITDA of 2.75 to 1. No financial covenants are required under the Notes.

At December 31, 2009 and 2008, HDFS and the Company remained in compliance with all of these covenants.

14. Income Taxes

Provision for income taxes for the years ended December 31 consists of the following (in thousands):

	<u>2009</u>	<u>2008</u>	<u>2007</u>
Current:			
Federal	\$ 94,984	\$376,796	\$510,299
State	5,201	21,174	27,076
Foreign	1,395	29,044	35,229
	<u>101,580</u>	<u>427,014</u>	<u>572,604</u>
Deferred:			
Federal	(10,665)	(36,368)	(51,903)
State	22,690	(2,225)	(5,089)
Foreign	(5,586)	(6,735)	(1,636)
	<u>6,439</u>	<u>(45,328)</u>	<u>(58,628)</u>
Total	<u>\$108,019</u>	<u>\$381,686</u>	<u>\$513,976</u>

The components of income before income taxes for the years ended December 31 were as follows (in thousands):

	<u>2009</u>	<u>2008</u>	<u>2007</u>
Domestic	\$185,435	\$ 992,796	\$1,340,617
Foreign	(6,775)	73,125	107,202
	<u>\$178,660</u>	<u>\$1,065,921</u>	<u>\$1,447,819</u>

The provision for income taxes differs from the amount that would be provided by applying the statutory U.S. corporate income tax rate due to the following items for the years ended December 31:

	<u>2009</u>	<u>2008</u>	<u>2007</u>
Provision at statutory rate	35.0%	35.0%	35.0%
State taxes, net of federal benefit	2.7	1.5	1.5
Domestic manufacturing deduction	—	(1.0)	(1.3)
Research and development credit	(1.7)	(0.5)	(0.4)
Unrecognized tax benefits including interest and penalties	2.3	1.1	0.6
Valuation allowance adjustments	12.4	—	—
Goodwill impairment	5.6	—	—
Other	4.2	(0.3)	0.1
Provision for income taxes	<u>60.5%</u>	<u>35.8%</u>	<u>35.5%</u>

The principal components of the Company's deferred tax assets and liabilities as of December 31 include the following (in thousands):

	<u>2009</u>	<u>2008</u>
Deferred tax assets:		
Accruals not yet tax deductible	\$125,393	\$ 76,532
Pension and postretirement benefit plan obligations	202,332	291,328
Stock compensation	24,103	24,141
Net operating loss carryforward	22,170	22,490
Valuation allowance	(22,170)	—
Other, net	81,464	83,995
	<u>433,292</u>	<u>498,486</u>
Deferred tax liabilities:		
Depreciation, tax in excess of book	(70,018)	(66,034)
Other, net	(6,085)	(20,885)
	<u>(76,103)</u>	<u>(86,919)</u>
Total	<u>\$357,189</u>	<u>\$411,567</u>

The Company reviews its deferred tax asset valuation allowances on a quarterly basis, or whenever events or changes in circumstances indicate that a review is required. In determining the requirement for a valuation allowance, the historical and projected financial results of the legal entity or consolidated group recording the net deferred tax asset is considered, along with any positive or negative evidence such as tax law changes. Since future financial results and tax law may differ from previous estimates, periodic adjustments to the Company's valuation allowances may be necessary.

At December 31, 2009, the Company had approximately \$431.7 million state net operating loss carry-forwards expiring between 2013-2024. The Company had a deferred tax asset of \$22.2 million as of December 31, 2009 for the benefit of these losses. A valuation allowance of \$22.2 million has been established against the deferred tax asset due to a change in Wisconsin state law in the early part of 2009.

The Company recognizes interest and penalties related to unrecognized tax benefits in the provision for income taxes. Changes in the Company's gross liability for unrecognized tax benefits, excluding interest and penalties, were as follows (in thousands):

	<u>2009</u>	<u>2008</u>
Unrecognized tax benefits, beginning of period	\$79,027	\$72,519
Increase in unrecognized tax benefits for tax positions taken in a prior period	2,050	3,556
Decrease in unrecognized tax benefits for tax positions taken in a prior period	(2,715)	(377)
Increase in unrecognized tax benefits for tax positions taken in the current period	2,079	5,448
Settlements with taxing authorities	(2,595)	(2,119)
Unrecognized tax benefits, end of period	<u>\$77,846</u>	<u>\$79,027</u>

The amount of unrecognized tax benefits as of December 31, 2009 that, if recognized, would affect the effective tax rate was \$57.3 million.

The total gross amount of interest and penalties associated with unrecognized tax benefits recognized during 2009 in the Company's Consolidated Statements of Operations was \$5.3 million.

The total gross amount of interest and penalties associated with unrecognized tax benefits recognized at December 31, 2009 in the Company's Consolidated Balance Sheets was \$27.4 million.

The Company does not expect a significant increase or decrease to the total amounts of unrecognized tax benefits during the fiscal year ended December 31, 2010. However, the Company is under regular audit by tax authorities. The Company believes that it has appropriate support for the positions taken on its tax returns and that its annual tax provision includes amounts sufficient to pay any assessments. Nonetheless, the amounts ultimately paid, if any, upon resolution of the issues raised by the taxing authorities may differ materially from the amounts accrued for each year.

The Company or one of its subsidiaries files income tax returns in the United States federal and Wisconsin state jurisdictions and various other state and foreign jurisdictions. The Company is no longer subject to income tax examinations for Wisconsin state income taxes before 1998 or for United States federal income taxes before 2002.

15. Employee Benefit Plans and Other Postretirement Benefits

The Company has several defined benefit pension plans and several postretirement healthcare benefit plans, which cover substantially all employees of the Motorcycles segment. The Company also has unfunded supplemental employee retirement plan agreements (SERPA) with certain employees which were instituted to replace benefits lost under the Tax Revenue Reconciliation Act of 1993.

Pension benefits are based primarily on years of service and, for certain plans, levels of compensation. Employees are eligible to receive postretirement healthcare benefits upon attaining age 55 after rendering at least 10 years of service to the Company. Some of the plans require employee contributions to partially offset benefit costs.

Obligations and Funded Status:

The information following provides detail of changes in the benefit obligations, changes in the fair value of plan assets and funded status as of the Company's December 31, 2009 and 2008 measurement dates (in thousands):

	Pension and SERPA		Postretirement Healthcare Benefits	
	2009	2008	2009	2008
Change in benefit obligation				
Benefit obligation, beginning of period	\$1,178,283	\$1,033,635	\$ 372,631	\$ 332,139
Effects of change in measurement date	—	21,974	—	5,765
Service cost	47,308	51,363	11,390	13,078
Interest cost	74,578	68,592	22,449	21,640
Plan amendments	620	1,685	(9,559)	—
Actuarial losses (gains)	12,774	36,861	(7,279)	13,934
Plan participant contributions	5,593	6,920	991	952
Benefits paid, net of Medicare Part D subsidy	(52,224)	(42,747)	(18,341)	(19,758)
Special retiree benefits	—	—	—	4,881
Curtailments	17,790	—	5,001	—
Benefit obligation, end of period	<u>1,284,722</u>	<u>1,178,283</u>	<u>377,283</u>	<u>372,631</u>
Change in plan assets:				
Fair value of plan assets, beginning of period	690,558	1,067,865	96,606	136,080
Effects of change in measurement date	—	15,210	—	2,808
Actual return on plan assets	159,153	(357,793)	21,166	(41,045)
Company contributions	223,044	1,103	10,180	18,414
Plan participant contributions	5,593	6,920	991	952
Benefits paid	(52,224)	(42,747)	(19,800)	(20,603)
Fair value of plan assets, end of period	<u>1,026,124</u>	<u>690,558</u>	<u>109,143</u>	<u>96,606</u>
Funded status of the plans, December 31	<u>\$ (258,598)</u>	<u>\$ (487,725)</u>	<u>\$ (268,140)</u>	<u>\$ (276,025)</u>
Amounts recognized in the Consolidated Balance Sheets, December 31:				
Accrued benefit liability (other current liabilities)	\$ (13,266)	\$ (3,722)	\$ (3,668)	\$ (1,617)
Accrued benefit liability (other long-term liabilities)	<u>(245,332)</u>	<u>(484,003)</u>	<u>(264,472)</u>	<u>(274,408)</u>
Net amount recognized	<u>\$ (258,598)</u>	<u>\$ (487,725)</u>	<u>\$ (268,140)</u>	<u>\$ (276,025)</u>

Benefit Costs:

Components of net periodic benefit costs for the years ended December 31 (in thousands):

	Pension and SERPA			Postretirement Healthcare Benefits		
	2009	2008	2007	2009	2008	2007
Service cost	\$ 47,308	\$ 51,363	\$ 51,647	\$ 11,390	\$ 13,078	\$12,880
Interest cost	74,578	68,592	59,762	22,449	21,640	19,579
Expected return on plan assets	(86,225)	(88,061)	(80,835)	(11,175)	(11,232)	(9,984)
Amortization of unrecognized:						
Prior service cost (credit)	5,553	6,158	6,691	(1,299)	(1,123)	(1,123)
Net loss	12,755	6,414	11,675	5,924	5,501	6,938
Net curtailment loss	29,390	—	—	7,014	—	—
Settlement loss	1,411	—	—	—	—	—
Special retiree benefits	—	—	—	—	4,881	—
Net periodic benefit cost	<u>\$ 84,770</u>	<u>\$ 44,466</u>	<u>\$ 48,940</u>	<u>\$ 34,303</u>	<u>\$ 32,745</u>	<u>\$28,290</u>

In connection with the 2009 Restructuring Plan discussed in Note 4, the Company recorded a curtailment charge of \$36.4 million on its pension and post-retirement healthcare plans during 2009. In addition, the Company recorded a \$1.4 million settlement charge on its SERPA plans during 2009.

As discussed in Note 4, the Company recorded a restructuring reserve of \$4.8 million in 2008 related to postretirement healthcare benefits which is included as special retiree benefits in the table above.

Amounts included in accumulated other comprehensive income, net of tax, at December 31, 2009 which have not yet been recognized in net periodic benefit cost are as follows (in thousands):

	Pension and SERPA	Postretirement Healthcare Benefits	Total
Prior service cost (credit)	\$ 9,628	\$(10,796)	\$ (1,168)
Net actuarial loss	359,371	93,373	452,744
	<u>\$368,999</u>	<u>\$ 82,577</u>	<u>\$451,576</u>

Amounts expected to be recognized in net periodic benefit cost, net of tax, during the year the ended December 31, 2010 are as follows (in thousands):

	Pension and SERPA	Postretirement Healthcare Benefits	Total
Prior service cost (credit)	\$ 2,852	\$(2,228)	\$ 624
Net actuarial loss	14,811	5,669	20,480
	<u>\$17,663</u>	<u>\$ 3,441</u>	<u>\$21,104</u>

Assumptions:

Weighted-average assumptions used to determine benefit obligations and net periodic benefit cost as of December 31, 2009, December 31, 2008 and September 30, 2007 are as follows:

	Pension and SERPA			Postretirement Healthcare Benefits		
	2009	2008	2007	2009	2008	2007
Assumptions for benefit obligations:						
Discount rate	6.00%	6.10%	6.30%	5.65%	6.10%	6.30%
Rate of compensation	3.66%	3.66%	4.00%	n/a	n/a	n/a
Assumptions for net periodic benefit cost:						
Discount rate	6.10%	6.30%	5.90%	6.10%	6.30%	5.90%
Expected return on plan assets	8.25%	8.50%	8.50%	8.25%	8.50%	8.50%
Rate of compensation increase	3.64%	4.00%	3.31%	n/a	n/a	n/a

Pension and SERPA Accumulated Benefit Obligation:

Each of the Company's pension and SERPA plans has a separately determined accumulated benefit obligation (ABO) and plan asset value. The ABO is the actuarial present value of benefits based on service rendered and current and past compensation levels. This differs from the projected benefit obligation (PBO) in that it includes no assumption about future compensation levels. The total ABO for all the Company's pension and SERPA plans combined was \$1.21 billion and \$1.11 billion as of December 31, 2009 and 2008, respectively.

The following table summarizes information related to Company pension plans with a PBO in excess of the fair value of plan assets (in millions):

	December 31, 2009	December 31, 2008
Pension plans with PBOs in excess of fair value of plan assets:		
PBO	\$1,234.9	\$1,128.7
Fair value of plan assets	\$1,026.1	\$ 690.6
Number of plans	4	4

The following table summarizes information related to Company pension plans with an ABO in excess of the fair value of plan assets (in millions):

	December 31, 2009	December 31, 2008
Pension plans with ABOs in excess of fair value of plan assets:		
ABO	\$1,174.3	\$1,070.0
Fair value of plan assets	\$1,026.1	\$ 690.6
Number of plans	4	4

The Company's SERPA plans, which can only be funded as claims are paid, had projected and accumulated benefit obligations of \$49.8 million and \$38.9 million, respectively, as of December 31, 2009 and \$49.5 million and \$41.4 million, respectively, as of December 31, 2008.

Plan Assets:

The Company employs a total return investment approach whereby a mix of equities and fixed-income investments is used to maximize the long-term return of plan assets for a prudent level of risk. The investment portfolio contains a diversified blend of equity and fixed-income. The Company's overall targeted asset

allocation range at December 31, 2009 as a percentage of total market value was approximately 75% equity and 25% fixed-income. Equity holdings primarily include investments in small-, medium- and large-cap companies in the U.S. (including Company stock), investments in developed and emerging foreign markets and alternative investments such as private equity and real estate. Fixed-income holdings consist of U.S. government and agency securities, state and municipal bonds, corporate bonds from diversified industries and foreign obligations. In addition, cash balances are maintained at levels adequate to meet near term plan expenses and benefit payments. Investment risk is measured and monitored on an ongoing basis through quarterly investment portfolio reviews.

The following tables present the fair values of the plan assets related to the Company's pension and postretirement healthcare plans within the fair value hierarchy as defined in Note 10.

The fair values of the Company's pension plan assets as of December 31, 2009 are as follows (in thousands):

	Balance as of December 31, 2009	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Cash and cash equivalents	\$ 238,489	\$ —	\$238,489	\$ —
Equity holdings:				
U.S. companies	468,078	466,434	1,644	—
Foreign companies	79,879	79,286	593	—
Harley-Davidson common stock	32,095	32,095	—	—
Pooled equity funds	8,784	8,784	—	—
Limited partnership interests	30,332	—	—	30,332
Other	2,482	—	—	2,482
Total equity holdings	621,650	586,599	2,237	32,814
Fixed-income holdings:				
U.S. Treasuries	40,004	—	40,004	—
Federal agencies	42,817	—	42,817	—
Corporate bonds	76,624	—	76,624	—
Foreign bonds	5,966	—	5,966	—
Municipal bonds	574	—	574	—
Total fixed-income holdings	165,985	—	165,985	—
Total pension plan assets	<u>\$1,026,124</u>	<u>\$586,599</u>	<u>\$406,711</u>	<u>\$32,814</u>

Included in the pension plan assets are 1,273,592 shares of the Company's common stock at December 31, 2009. The market value of these shares as of December 31, 2009 was \$32.1 million.

The following table presents a reconciliation of the fair value measurements using significant unobservable inputs (Level 3) as of December 31, 2009 (in thousands):

	Total	Limited Partnership Interests	Other
Balance, beginning of period	\$29,513	\$26,931	\$2,582
Actual return on plan assets:			
Relating to assets still held at the reporting date	1,325	1,167	158
Purchases, sales and settlements	1,976	2,234	(258)
Balance, end of period	<u>\$32,814</u>	<u>\$30,332</u>	<u>\$2,482</u>

The fair values of the Company's postretirement healthcare plan assets, which did not contain any Level 3 assets, as of December 31, 2009, are as follows (in thousands):

	<u>Balance as of December 31, 2009</u>	<u>Quoted Prices in Active Markets for Identical Assets (Level 1)</u>	<u>Significant Other Observable Inputs (Level 2)</u>
Assets:			
Cash and cash equivalents	\$ 5,732	\$ —	\$ 5,732
Equity holdings:			
U.S. companies	78,304	77,846	458
Foreign companies	8,849	8,476	373
Pooled equity funds	967	967	—
Total equity holdings	<u>88,120</u>	<u>87,289</u>	<u>831</u>
Fixed-income holdings:			
U.S. Treasuries	3,271	—	3,271
Federal agencies	5,747	—	5,747
Corporate bonds	5,418	—	5,418
Foreign bonds	513	—	513
Municipal bonds	342	—	342
Total fixed-income holdings	<u>15,291</u>	<u>—</u>	<u>15,291</u>
Total postretirement healthcare plan assets	<u>\$109,143</u>	<u>\$87,289</u>	<u>\$21,854</u>

No plan assets are expected to be returned to the Company during the fiscal year-ended December 31, 2010.

For 2010, the Company's overall expected long-term rate of return on assets is 8.25%. The expected long-term rate of return is based on the portfolio as a whole and not on the sum of the returns on individual asset categories. The return is based on historical returns adjusted to reflect the current view of the long-term investment market.

Postretirement Healthcare Cost:

The weighted-average health care cost trend rate used in determining the accumulated postretirement benefit obligation of the health care plans was as follows:

	<u>2009</u>	<u>2008</u>
Healthcare cost trend rate for next year	7.5%	8.0%
Rate to which the cost trend rate is assumed to decline (the ultimate rate)	5.0%	5.0%
Year that the rate reaches the ultimate trend rate	2014	2014

This healthcare cost trend rate assumption can have a significant effect on the amounts reported. A one-percentage-point change in the assumed healthcare cost trend rate would have the following effects (in thousands):

	<u>One Percent Increase</u>	<u>One Percent Decrease</u>
Total of service and interest cost components in 2009	\$ 472	\$ (489)
Accumulated benefit obligation as of December 31, 2009	\$11,853	\$(11,193)

Future Contributions and Benefit Payments:

Due to significant declines in worldwide financial market conditions during 2008, the funded status of the Company’s pension and postretirement healthcare plans was adversely affected. During 2009, the Company contributed \$233.2 million to its pension, SERPA and postretirement healthcare plans. The Company is currently evaluating additional contributions to further fund its pension plans even though no additional contributions are expected to be required in 2010. The Company expects it will continue to make on-going contributions related to current benefit payments for SERPA and postretirement healthcare plans.

The expected benefit payments and Medicare subsidy receipts for the next five years and thereafter are as follows (in thousands):

	<u>Pension Benefits</u>	<u>SERPA Benefits</u>	<u>Postretirement Healthcare Benefits</u>	<u>Medicare Subsidy Receipts</u>
2010	\$ 50,288	\$13,265	\$ 24,931	\$ 887
2011	\$ 55,500	\$ 5,599	\$ 29,988	\$ 1,038
2012	\$ 59,183	\$ 7,685	\$ 32,256	\$ 1,244
2013	\$ 61,141	\$ 7,351	\$ 32,269	\$ 1,438
2014	\$ 63,409	\$ 5,334	\$ 32,485	\$ 1,635
2015-2019	\$370,199	\$19,201	\$166,102	\$11,362

Defined Contribution Plans:

The Company has various defined contribution benefit plans that in total cover substantially all full-time employees. Employees can make voluntary contributions in accordance with the provisions of their respective plan, which includes a 401(k) tax deferral option. The Company expensed \$3.4 million, \$14.4 million and \$11.7 million for matching contributions during 2009, 2008 and 2007, respectively.

16. Leases

The Company operates certain administrative, manufacturing, warehouse and testing facilities and equipment under lease arrangements that are accounted for as operating leases. Total rental expense was \$10.1 million, \$11.1 million and \$9.7 million for 2009, 2008 and 2007, respectively.

Future minimum operating lease payments at December 31, 2009 were as follows (in thousands):

2010	\$11,985
2011	6,871
2012	5,152
2013	4,900
2014	3,659
After 2014	<u>17,002</u>
Total operating lease payments	<u>\$49,569</u>

17. Commitments and Contingencies

The Company is subject to lawsuits and other claims related to environmental, product and other matters. In determining required reserves related to these items, the Company carefully analyzes cases and considers the likelihood of adverse judgments or outcomes, as well as the potential range of possible loss. The required reserves are monitored on an ongoing basis and are updated based on new developments or new information in each matter.

Environmental Protection Agency Notice

The Company has received formal, written requests for information from the United States Environmental Protection Agency (EPA) regarding: (i) certificates of conformity for motorcycle emissions and related designations and labels, (ii) aftermarket parts, and (iii) warranty claims on emissions related components. The Company has submitted written responses to the EPA's inquiry and has engaged in discussions with the EPA. It is possible that a result of the EPA's investigation will be some form of enforcement action by the EPA that will seek a fine or other relief. However, at this time the Company does not know and cannot reasonably estimate the impact of any remedies the EPA might seek.

Shareholder Lawsuits:

In re Harley-Davidson, Inc. Securities Litigation was a consolidated shareholder securities class action lawsuit filed in the United States District Court for the Eastern District of Wisconsin. On October 2, 2006, the Lead Plaintiffs filed a Consolidated Class Action Complaint, which named the Company and certain former Company officers as defendants, that alleged securities law violations and sought unspecified damages relating generally to the Company's April 13, 2005 announcement that it was reducing short-term production growth and planned increases of motorcycle shipments. On December 18, 2006, the defendants filed a motion to dismiss the Consolidated Complaint. On October 8, 2009, the judge granted defendants' motion to dismiss, and the clerk of court entered judgment dismissing the consolidated lawsuit. No appeal was taken from the final judgment and the dismissal of the action is now final.

On August 25, 2005, a class action lawsuit alleging violations of the Employee Retirement Income Security Act (ERISA) was filed in the United States District Court for the Eastern District of Wisconsin. On October 2, 2006, the ERISA plaintiff filed an Amended Class Action Complaint, which named the Company, the Harley-Davidson Motor Company Retirement Plans Committee, the Company's Leadership and Strategy Council, and certain current or former Company officers or employees as defendants. In general, the ERISA complaint included factual allegations similar to those in the consolidated securities class action and alleged on behalf of participants in certain Harley-Davidson retirement savings plans that the plan fiduciaries breached their ERISA fiduciary duties. On December 18, 2006, the defendants filed a motion to dismiss the ERISA complaint. On October 8, 2009, the judge granted defendants' motion to dismiss, and the clerk of court entered judgment dismissing the class action lawsuit. No appeal was taken from the final judgment and the dismissal of the action is now final.

Three shareholder derivative lawsuits were filed in the United States District Court for the Eastern District of Wisconsin on June 3, 2005, October 25, 2005 (this lawsuit was later voluntarily dismissed) and December 2, 2005, and two shareholder derivative lawsuits were filed in Milwaukee County Circuit Court on July 22, 2005 and November 16, 2005, against some or all of the following current or former directors and officers of the Company: Jeffrey L. Bleustein, James L. Ziemer, James M. Brostowitz, Barry K. Allen, Richard I. Beattie, George H. Conrades, Judson C. Green, Donald A. James, Sara L. Levinson, George L. Miles, Jr., James A. Norling, James A. McCaslin, Donna F. Zarcone, Jon R. Flickinger, Gail A. Lione, Ronald M. Hutchinson, W. Kenneth Sutton, Jr. and John A. Hevey. The lawsuits also name the Company as a nominal defendant. In general, the shareholder derivative complaints include factual allegations similar to those in the class action complaints and allegations that officers and directors breached their fiduciary duties to the Company. On February 14, 2006, the state court consolidated the two state court derivative actions and appointed Lead Plaintiffs and Lead Plaintiffs' counsel, and on April 24, 2006, the state court ordered that the consolidated state court derivative action be stayed until after motions to dismiss the federal securities class action are decided. On February 15, 2006, the federal court consolidated the federal derivative lawsuits with the securities and ERISA actions for administrative purposes. On February 1, 2007, the federal court appointed Lead Plaintiff and Co-Lead Plaintiffs' Counsel in the consolidated federal derivative action.

On November 24, 2009, both federal court derivative plaintiffs moved to voluntarily dismiss their lawsuits and all claims without prejudice. On November 30, 2009, the federal court entered orders granting the motions and dismissing the federal court derivative lawsuits without prejudice, and those cases are now closed. The

parties have agreed that the lead plaintiff in the consolidated state court derivative action may have until February 19, 2010 to file an amended complaint in that action and that defendants may have until March 26, 2010 to respond to any amended complaint.

The Company believes the allegations in the state court derivative lawsuit are without merit and it intends to vigorously defend against the suit should the plaintiffs file an amended complaint. The Company is unable to predict the scope or outcome or quantify their eventual impact, if any, on the Company. At this time, the Company is also unable to estimate associated expenses or possible losses. The Company maintains insurance that may limit its financial exposure for defense costs and liability for an unfavorable outcome, should it not prevail, for claims covered by the insurance coverage.

York Environmental Matters:

The Company is involved with government agencies and groups of potentially responsible parties in various environmental matters, including a matter involving the cleanup of soil and groundwater contamination at its York, Pennsylvania facility. The York facility was formerly used by the U.S. Navy and AMF prior to the purchase of the York facility by the Company from AMF in 1981. Although the Company is not certain as to the full extent of the environmental contamination at the York facility, it has been working with the Pennsylvania Department of Environmental Protection (PADEP) since 1986 in undertaking environmental investigation and remediation activities, including an ongoing site-wide remedial investigation/feasibility study (RI/FS). In January 1995, the Company entered into a settlement agreement (the Agreement) with the Navy. The Agreement calls for the Navy and the Company to contribute amounts into a trust equal to 53% and 47%, respectively, of future costs associated with environmental investigation and remediation activities at the York facility (Response Costs). The trust administers the payment of the Response Costs incurred at the York facility as covered by the Agreement.

In February 2002, the Company was advised by the EPA that it considers some of the Company's remediation activities at the York facility to be subject to the EPA's corrective action program under the Resource Conservation and Recovery Act (RCRA) and offered the Company the option of addressing corrective action under a RCRA facility lead agreement. In July 2005, the York facility was designated as the first site in Pennsylvania to be addressed under the "One Cleanup Program." The program provides a more streamlined and efficient oversight of voluntary remediation by both PADEP and EPA and will be carried out consistent with the Agreement with the Navy. As a result, the RCRA facility lead agreement has been superseded.

Although the RI/FS is still underway and substantial uncertainty exists concerning the nature and scope of the additional environmental investigation and remediation that will ultimately be required at the York facility, the Company estimates that its share of the future Response Costs at the York facility will be approximately \$5.9 million. The Company has established reserves for this amount, which are included in accrued liabilities in the Consolidated Balance Sheets.

The estimate of the Company's future Response Costs that will be incurred at the York facility is based on reports of independent environmental consultants retained by the Company, the actual costs incurred to date and the estimated costs to complete the necessary investigation and remediation activities. Response Costs related to the remediation of soil are expected to be incurred over a period of several years ending in 2015. Response Costs related to ground water remediation may continue for some time beyond 2015.

Product Liability Matters:

Additionally, the Company is involved in product liability suits related to the operation of its business. The Company accrues for claim exposures that are probable of occurrence and can be reasonably estimated. The Company also maintains insurance coverage for product liability exposures. The Company believes that its accruals and insurance coverage are adequate and that product liability will not have a material adverse effect on the Company's consolidated financial statements.

18. Capital Stock

Common Stock:

The Company is authorized to issue 800,000,000 shares of common stock of \$.01 par value. There were 234.3 million and 232.8 million common shares outstanding as of December 31, 2009 and 2008, respectively.

During 2008 and 2007, the Company repurchased 6.4 million and 20.4 million shares of its common stock at weighted-average prices of \$40 and \$56, respectively. These repurchases were made pursuant to the following authorizations (in millions of shares):

<u>Board of Directors' Authorization</u>	<u>Shares Repurchased</u>			<u>Authorization Remaining at December 31, 2009</u>
	<u>2009</u>	<u>2008</u>	<u>2007</u>	
1997 Authorization	—	—	0.7	5.8
2005 Authorization	—	—	2.8	—
2006 Authorization	—	3.1	16.9	—
2007 Authorization	—	3.3	—	16.7
Total	<u>—</u>	<u>6.4</u>	<u>20.4</u>	<u>22.5</u>

1997 Authorization – The Company has an authorization from its Board of Directors (originally adopted December 1997) to repurchase shares of its outstanding common stock under which the cumulative number of shares repurchased, at the time of any repurchase, shall not exceed the sum of (1) the number of shares issued in connection with the exercise of stock options occurring on or after January 1, 2004, plus (2) 1% of the issued and outstanding common stock of the Company on January 1 of the current year, adjusted for any stock split.

2005 Authorization – In April 2005, the Company's Board of Directors separately authorized the Company to buy back up to 20.0 million shares of its common stock with no dollar limit or expiration date. This authorization was exhausted during 2007.

2006 Authorization – In October 2006, the Company's Board of Directors separately authorized the Company to buy back up to 20.0 million shares of its common stock with no dollar limit or expiration date. This authorization was exhausted during 2008.

2007 Authorization – In December 2007, the Company's Board of Directors separately authorized the Company to buy back up to 20.0 million shares of its common stock with no dollar limit or expiration date. There are 16.7 million shares remaining under this authorization at December 31, 2009.

Preferred Stock:

The Company is authorized to issue 2,000,000 shares of preferred stock of \$1.00 par value. The Company has designated 500,000 of the 2,000,000 authorized shares of preferred stock as Series A Junior Participating preferred stock (Preferred Stock). Each share of Preferred Stock, none of which is outstanding, is entitled to 10,000 votes per share (subject to adjustment) and other rights such that the value of a one ten-thousandth interest in a share of Preferred Stock should approximate the value of one share of common stock.

Preferred Stock is reserved for issuance in connection with the Company's outstanding Preferred Stock purchase rights (Rights). On February 17, 2000, the Board of Directors of the Company declared a dividend of one Right for each outstanding share of common stock payable upon the close of business on August 20, 2000 to the shareholders of record on that date. Under certain conditions, each Right entitles the holder to purchase one ten-thousandth of a share of Preferred Stock at an exercise price of \$175, subject to adjustment. The Rights are only exercisable if a person or group: (1) has acquired 15% or more of the outstanding common stock or (2) has announced an intention to acquire 25% or more of the outstanding common stock (either (1) or (2) are a

Triggering Event). If there is a 15% acquiring party, then each holder of a Right, other than the acquiring party, will be entitled to purchase, at the exercise price, Preferred Stock having a market value of two times the exercise price.

In addition, prior to the acquisition of 50% or more of the outstanding common stock by an acquiring party, the Board of Directors of the Company may exchange the Rights (other than the Rights of an acquiring party which have become void), in whole or in part, at an exchange ratio of one share of common stock or one ten-thousandth of a share of Preferred Stock (or a share of the Company's preferred stock having equivalent rights, privileges, and preferences) per Right, subject to adjustment. The Rights expire upon the close of business on August 20, 2010, subject to extension.

19. Share-Based Awards

The Company has a share-based compensation plan which was approved by its Shareholders in April 2009 (Plan) under which the Board of Directors may grant to employees share-based awards including nonqualified stock options, stock appreciation rights (SARs), shares of restricted stock and restricted stock units (RSUs). The options and SARs granted under the Plan have an exercise price equal to the fair market value of the underlying stock at the date of grant and generally vest ratably over a four-year period with the first 25% becoming exercisable one year after the date of grant. The options and SARs expire 10 years from the date of grant. Shares of restricted stock and RSUs that have been issued under the Plan generally vest over periods ranging from 2 to 5 years with certain of the shares and RSUs subject to accelerated vesting should the Company meet certain performance conditions. Dividends are paid on shares of restricted stock and dividend equivalents are paid on RSUs. At December 31, 2009, there were 15.4 million shares of common stock available for future awards under the Plan.

Stock Options:

The Company estimates the grant date fair value of its option awards granted using a lattice-based option valuation model. The Company believes that the lattice-based option valuation model provides a more precise estimate of fair value than the Black-Scholes option pricing model. Lattice-based option valuation models utilize ranges of assumptions over the expected term of the options. The Company uses a weighted-average of implied and historical volatility to determine the expected volatility of its stock. The Company uses historical data to estimate option exercise and employee termination within the valuation model. The expected term of options granted is derived from the output of the option valuation model and represents the average period of time that options granted are expected to be outstanding. The risk-free rate for periods within the contractual life of the option is based on the U.S. Treasury yield curve in effect at the time of grant.

Assumptions used in calculating the lattice-based fair value of options granted during 2009, 2008 and 2007 were as follows:

	<u>2009</u>	<u>2008</u>	<u>2007</u>
Expected average term (in years)	7.5	5.9	5.1
Expected volatility	53% - 79%	37% - 44%	21% - 24%
Weighted average volatility	56%	39%	22%
Expected dividend yield	3.3%	2.0%	1.4%
Risk-free interest rate	0.3% - 2.8%	1.9% - 3.7%	4.7% - 5.1%

The following table summarizes the stock option transactions for the year ended December 31, 2009 (in thousands except for per share amounts):

	<u>Options</u>	<u>Weighted-Average Price</u>
Options outstanding, beginning of period	5,552	\$ 49
Options granted	3,420	\$ 13
Options exercised	—	\$—
Options forfeited	<u>(1,299)</u>	\$ 36
Options outstanding, end of period	<u>7,673</u>	\$ 35
Exercisable, end of period	<u>3,898</u>	\$ 47

The weighted-average fair value of options granted during the years ended December 31, 2009, 2008 and 2007 was \$5, \$10 and \$15, respectively.

As of December 31, 2009, there was \$19.6 million of unrecognized compensation cost related to stock options that is expected to be recognized over a weighted-average period of 2.7 years.

The following table summarizes the aggregate intrinsic value related to options outstanding, exercisable and exercised as of and for the years ended December 31 (in thousands):

	<u>2009</u>	<u>2008</u>	<u>2007</u>
Exercised	\$ —	\$1,044	\$12,010
Outstanding	\$35,713	\$ 11	\$ 9,613
Exercisable	\$ 5,183	\$ —	\$ 9,613

The Company's policy is to issue new shares of common stock upon the exercise of employee stock options. The Company has a continuing authorization from its Board of Directors to repurchase shares to offset dilution caused by the exercise of stock options which is discussed in Note 18.

Stock options outstanding at December 31, 2009 (options in thousands):

<u>Price Range</u>	<u>Weighted-Average Contractual Life</u>	<u>Options</u>	<u>Weighted-Average Exercise Price</u>
\$10.01 to \$20	9.1	2,705	\$12
\$20.01 to \$30	9.4	345	\$22
\$30.01 to \$40	7.0	1,342	\$38
\$40.01 to \$50	2.8	788	\$42
\$50.01 to \$60	4.4	1,423	\$52
\$60.01 to \$70	6.1	<u>1,070</u>	\$65
Options outstanding	6.8	<u>7,673</u>	\$35
Options exercisable	4.9	<u>3,898</u>	\$47

Stock Appreciation Rights (SARs)

SARs vest under the same terms and conditions as options; however, they are settled in cash equal to their settlement date fair value. As a result, SARs are recorded in the Company's consolidated balance sheets as a liability until the date of exercise.

The fair value of each SAR award is estimated using a lattice-based valuation model. In accordance with SFAS No. 123(R), the fair value of each SAR award is recalculated at the end of each reporting period and the liability and expense adjusted based on the new fair value and the percent vested.

The assumptions used to determine the fair value of the SAR awards at December 31, 2009 were as follows:

Expected average term (in years)	6.1
Expected volatility	40% - 47%
Expected dividend yield	1.6%
Risk-free interest rate	0.04% - 3.85%

The following table summarizes the SAR transactions for the year ended December 31, 2009 (in thousands except for per share amounts):

	SARs	Weighted-Average Price
Outstanding, beginning of period	195	\$ 47
Granted	260	\$ 13
Exercised	—	\$—
Forfeited	<u>(91)</u>	\$ 16
Outstanding, end of period	<u>364</u>	\$ 30
Exercisable, end of period	<u>20</u>	\$ 39

The weighted-average fair value of SARs granted during the years ended December 31, 2009 and 2008 was \$5 and \$10, respectively.

Restricted (Nonvested) Stock:

The fair value of restricted shares is determined based on the market price of the Company's shares on the grant date. The following table summarizes the restricted share transactions for the year ended December 31, 2009 (in thousands except for per share amounts):

	Restricted Shares	Grant Date Fair Value Per Share
Nonvested, beginning of period	1,049	\$51
Granted	1,195	\$13
Vested	(309)	\$23
Forfeited	<u>(330)</u>	\$19
Nonvested, end of period	<u>1,605</u>	\$35

As of December 31, 2009, there was \$18.9 million of unrecognized compensation cost related to restricted stock that is expected to be recognized over a weighted-average period of 2.7 years.

Restricted Stock Units (RSUs)

Restricted stock units vest under the same terms and conditions as restricted stock; however, they are settled in cash equal to their settlement date fair value. As a result, RSUs are recorded in the Company's consolidated balance sheets as a liability until the date of vesting.

The fair value of RSUs is determined based on the market price of the Company's shares on the grant date. The following table summarizes the restricted share transactions for the year ended December 31, 2009 (in thousands except for per share amounts):

	<u>Restricted Stock Unit</u>	<u>Weighted-Average Grant Date Fair Value Per Share</u>
Nonvested, beginning of period	73	\$53
Granted	101	\$12
Vested	(16)	\$29
Forfeited	<u>(24)</u>	\$46
Nonvested, end of period	<u>134</u>	\$27

20. Earnings Per Share

As discussed in Note 1, the Company was required to adopt ASC Topic 260-10-55 as of January 1, 2009. Under the guidance of ASC Topic 260-10-55, unvested share-based payment awards that contain non-forfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are participating securities and must be included in the computation of earnings per share pursuant to the two-class method as described in ASC Topic 260. The Company has a share-based compensation plan under which employees may be granted share-based awards including shares of restricted stock and restricted stock units (RSUs). Non-forfeitable dividends are paid on unvested shares of restricted stock and non-forfeitable dividend equivalents are paid on unvested RSUs. As such, shares of restricted stock and RSUs are considered participating securities under the two-class method of calculating earnings per share. The two-class method of calculating earnings per share did not have a material impact on the Company's earnings per share calculation as of December 31, 2009, 2008 and 2007.

The following table sets forth the computation of basic and diluted earnings per share from continuing operations for the years ended December 31 (in thousands except per share amounts):

	<u>2009</u>	<u>2008</u>	<u>2007</u>
<u>Numerator:</u>			
Income from continuing operations used in computing basic and diluted earnings per share	<u>\$ 70,641</u>	<u>\$684,235</u>	<u>\$933,843</u>
<u>Denominator:</u>			
Denominator for basic earnings per share-weighted-average common shares	232,577	234,225	249,205
Effect of dilutive securities – employee stock compensation plan	<u>996</u>	<u>252</u>	<u>677</u>
Denominator for diluted earnings per share-adjusted weighted-average shares outstanding	<u>233,573</u>	<u>234,477</u>	<u>249,882</u>
Earnings per common share from continuing operations:			
Basic	\$ 0.30	\$ 2.92	\$ 3.75
Diluted	\$ 0.30	\$ 2.92	\$ 3.74

Options to purchase 5.0 million, 5.2 million and 1.4 million weighted-average shares of common stock outstanding during 2009, 2008 and 2007, respectively, were not included in the Company's computation of dilutive securities because the exercise price was greater than the market price and therefore the effect would have been anti-dilutive.

21. Business Segments and Foreign Operations

Business Segments:

The Company operates in two business segments: Motorcycles and Financial Services. The Company's reportable segments are strategic business units that offer different products and services. They are managed separately based on the fundamental differences in their operations.

The Motorcycles segment designs, manufactures and sells at wholesale primarily heavyweight (engine displacement of 651+cc) touring, custom and performance motorcycles as well as a line of motorcycle parts, accessories, general merchandise and related services.

The Financial Services segment provides wholesale and retail financing and insurance and insurance-related programs primarily to Harley-Davidson and Buell dealers and their retail customers. HDFFS conducts business principally in the United States and Canada.

Information by industry segment is set forth below for the years ended December 31 (in thousands):

	<u>2009</u>	<u>2008</u>	<u>2007</u>
Revenue:			
Motorcycles	\$4,287,130	\$5,578,414	\$5,726,848
Financial Services	494,779	376,970	416,196
	<u>\$4,781,909</u>	<u>\$5,955,384</u>	<u>\$6,143,044</u>
Operating income (loss):			
Motorcycles ⁽¹⁾	\$ 314,055	\$ 976,402	\$1,213,392
Financial Services ^{(2) (3) (4)}	(117,969)	82,765	212,169
	<u>\$ 196,086</u>	<u>\$1,059,167</u>	<u>\$1,425,561</u>

- (1) Motorcycles operating income for 2009 includes total restructuring and impairment charges of \$221.0 million and \$12.4 million in restructuring charges for 2008 (see Note 4).
- (2) Financial Services operating loss for 2009 includes a restructuring charge of \$3.3 million (see Note 4).
- (3) Financial Services operating (loss) income for 2009 and 2008 includes a lower of cost or market adjustment of \$5.9 million and \$37.8 million, respectively (see Note 10).
- (4) Financial Services operating (loss) income for 2009, 2008 and 2007 includes an impairment charge of \$45.4 million, \$41.4 million and \$9.9 million, respectively (see Note 7).

Financial Services revenue includes \$14.7 million, \$18.0 million and \$27.7 million of interest that HDMC paid to HDFFS on wholesale finance receivables in 2009, 2008 and 2007, respectively. This interest was paid on behalf of HDMC's independent dealers as a way to enable dealers to manage seasonal increases in inventory. The offsetting cost of these interest incentives was recorded as a reduction to Motorcycles revenue.

Information by industry segment is set forth below as of December 31 (in thousands):

	<u>Motorcycles</u>	<u>Financial Services</u>	<u>Consolidated</u>
<u>2009</u>			
Total assets ^(a)	\$3,277,925	\$5,877,593	\$9,155,518
Depreciation	\$ 238,276	\$ 8,068	\$ 246,344
Capital expenditures	\$ 111,316	\$ 5,432	\$ 116,748
<u>2008</u>			
Total assets ^(b)	\$2,743,856	\$5,084,769	\$7,828,625

Capital expenditures	\$ 224,623	\$ 4,336	\$ 228,959
<u>2007</u>			
Total assets	\$2,209,531	\$3,447,075	\$5,656,606
Depreciation	\$ 197,655	\$ 6,517	\$ 204,172
Capital expenditures	\$ 232,139	\$ 9,974	\$ 242,113

(a) 2009 total assets for the Motorcycles segment includes assets of discontinued operations of \$181.2 million.

(b) 2008 total assets for the Motorcycles segment includes assets of discontinued operations of \$238.7 million.

Geographic Information:

Included in the consolidated financial statements are the following amounts relating to geographic locations for the years ended December 31 (in thousands):

	<u>2009</u>	<u>2008</u>	<u>2007</u>
Revenue from Motorcycles ^(a) :			
United States	\$2,910,094	\$3,844,053	\$4,208,016
Europe	700,882	888,020	790,150
Japan	255,901	279,369	229,759
Canada	175,964	256,640	230,230
Australia	137,626	168,122	162,689
Other foreign countries	106,663	142,210	106,004
	<u>\$4,287,130</u>	<u>\$5,578,414</u>	<u>\$5,726,848</u>
Revenue from Financial Services ^(a) :			
United States	\$ 466,161	\$ 348,461	\$ 381,001
Europe	3,164	3,166	13,638
Canada	25,454	25,343	21,557
	<u>\$ 494,779</u>	<u>\$ 376,970</u>	<u>\$ 416,196</u>
Long-lived assets ^(b) :			
United States	\$ 918,659	\$1,100,858	\$1,173,169
International	65,412	63,040	66,988
	<u>\$ 984,071</u>	<u>\$1,163,898</u>	<u>\$1,240,157</u>

(a) Revenue is attributed to geographic regions based on location of customer.

(b) Long-lived assets include all long-term assets except those specifically excluded under ASC Topic 280, "Segment Reporting," such as deferred income taxes and finance receivables.

22. Related Party Transactions

The Company has the following material related party transactions. A director of the Company is Chairman and Chief Executive Officer and an equity owner of Fred Deeley Imports Ltd. (Deeley Imports), the exclusive distributor of the Company's motorcycles in Canada. The Company recorded motorcycles and related products revenue and financial services revenue from Deeley Imports during 2009, 2008 and 2007 of \$177.2 million, \$258.3 million and \$231.9 million, respectively, and had accounts receivables balances due from Deeley Imports of \$13.9 million and \$31.5 million at December 31, 2009 and 2008, respectively. All such products were provided in the ordinary course of business at prices and on terms and conditions that the Company believes are the same as those that would result from arm's-length negotiations between unrelated parties.

23. Supplemental Consolidating Data

The supplemental consolidating data for the periods noted is presented for informational purposes. The supplemental consolidating data may be different than segment information presented elsewhere due to the allocation of intercompany eliminations to reporting segments. All supplemental data is presented in thousands.

Item 9. *Changes in and Disagreements With Accountants on Accounting and Financial Disclosure*

None.

Item 9A. *Controls and Procedures*

Evaluation of Disclosure Controls and Procedures

In accordance with Rule 13a-15(b) of the Securities Exchange Act of 1934 (the “Exchange Act”), as of the end of the period covered by this Annual Report on Form 10-K, the Company’s management evaluated, with the participation of the Company’s President and Chief Executive Officer and Senior Vice President and Chief Financial Officer, the effectiveness of the design and operation of the Company’s disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act). Based upon their evaluation of these disclosure controls and procedures, the President and Chief Executive Officer and Senior Vice President and Chief Financial Officer have concluded that the disclosure controls and procedures were effective as of the end of the period covered by this Annual Report on Form 10-K to ensure that information required to be disclosed by the Company in the reports it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time period specified in the Securities and Exchange Commission rules and forms, and to ensure that information required to be disclosed by the Company in the reports it files or submits under the Exchange Act is accumulated and communicated to the Company’s management, including its President and Chief Executive Officer and Senior Vice President and Chief Financial Officer, as appropriate, to allow timely decisions regarding disclosure.

Management’s Report on Internal Control over Financial Reporting

The report of management required under this Item 9A is contained in Item 8 of Part II of this Annual Report on Form 10-K under the heading “Management’s Report on Internal Control over Financial Reporting.”

Attestation Report of Independent Registered Public Accounting Firm

The attestation report required under this Item 9A is contained in Item 8 of Part II of this Annual Report on Form 10-K under the heading “Report of Independent Registered Public Accounting Firm on Internal Control over Financial Reporting.”

Changes in Internal Controls

There were no changes in the Company’s internal control over financial reporting that occurred during the quarter ended December 31, 2009 that have materially affected, or are reasonably likely to materially affect, the Company’s internal control over financial reporting.

PART III

Item 10. Directors, Executive Officers and Corporate Governance

The information included or to be included in the Company’s definitive proxy statement for the 2010 annual meeting of shareholders, which will be filed on or about March 12, 2010 (the Proxy Statement), under the captions “Questions and Answers about the Company – Who are our executive officers for SEC purposes?,” “Corporate Governance Principles and Board Matters – Audit Committee,” “Election of Directors,” “Section 16(a) Beneficial Ownership Reporting Compliance,” “Audit Committee Report,” and “Independence of Directors” is incorporated by reference herein.

The Company has adopted the Harley-Davidson, Inc. Financial Code of Ethics applicable to the Company’s chief executive officer, the chief financial officer, the principal accounting officer and the controller and other persons performing similar functions. The Company has posted a copy of the Harley-Davidson, Inc. Financial Code of Ethics on the Company’s website at www.harley-davidson.com. The Company intends to satisfy the disclosure requirements under Item 5.05 of the Securities and Exchange Commission’s Current Report on Form 8-K regarding amendments to, or waivers from, the Harley-Davidson, Inc. Financial Code of Ethics by posting such information on its website at www.harley-davidson.com. The Company is not including the information contained on or available through its website as a part of, or incorporating such information by reference into, this Annual Report on Form 10-K.

Item 11. Executive Compensation

The information included or to be included in the Proxy Statement under the captions “Executive Compensation” and “Human Resources Committee Report on Executive Compensation” is incorporated by reference herein.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

Information included or to be included in the Proxy Statement under the caption “Common Stock Ownership of Certain Beneficial Owners and Management” is incorporated by reference herein.

The following table provides information about the Company’s equity compensation plans (including individual compensation arrangements) as of December 31, 2009:

<u>Plan Category</u>	<u>Number of securities to be issued upon the exercise of outstanding options</u>	<u>Weighted-average exercise price of outstanding options</u>	<u>Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in the first column)</u>
Equity compensation plans approved by shareholders:			
Management employees	7,614,217	\$35.14	15,408,503
Equity compensation plans not submitted to shareholders:			
Union employees:			
Kansas City, MO	—	\$ —	26,718
York, PA	41,645	\$38.88	56,250
Non employees:			
Board of Directors	17,300	\$49.13	9,926
	<u>58,945</u>	<u>\$41.89</u>	<u>92,894</u>
Total all plans	<u>7,673,162</u>	<u>\$35.19</u>	<u>15,501,397</u>

Plan documents for each of the Company's equity compensation plans have been filed with the Securities and Exchange Commission on a timely basis and are included in the list of exhibits to this annual report on Form 10-K. Equity compensation plans not submitted to shareholders for approval were adopted prior to current regulations requiring such approval and have not been materially altered since adoption.

The material features of the union employees' stock option awards are the same as those of the management employees' stock option awards. Under the Company's management and union plans, stock options have an exercise price equal to the fair market value of the underlying stock at the date of grant, expire ten years from the date of grant and vest ratably over a four-year period, with the first 25 percent becoming exercisable one year after the date of grant.

Effective December 31, 2002, non-employee directors of the Company's Board of Directors were no longer eligible to receive stock options. Prior to December 31, 2002, under the Board of Directors' plan, each non-employee director who served as a member of the Board immediately following the annual meeting of shareholders was automatically granted an immediately exercisable stock option for the purchase of such number of shares of Common Stock equal to three times the annual retainer fee for directors divided by the fair market value of a share of Common Stock on the day of grant (rounded up to the nearest multiple of 100). Board of Directors' stock options have an exercise price equal to the fair market value of the underlying stock at the date of grant and expire ten years from the date of grant.

The Director Compensation Policy provides non-employee Directors with compensation that includes an annual retainer as well as a grant of share units. The payment of share units is deferred until a director ceases to serve as a director and the share units are payable at that time in actual Company stock. The Director Compensation Policy also provides that a non-employee Director may elect to receive 50% or 100% of the annual retainer to be paid in each calendar year in the form of Common Stock based upon the fair market value of the Common Stock at the time of the annual meeting of shareholders. Each Director must receive a minimum of one-half of his or her annual retainer in Company Common Stock until the Director reaches the Director stock ownership guidelines defined below.

In August 2002, the Board approved "Director and Senior Executive Stock Ownership Guidelines" (Ownership Guidelines) which were most recently revised in September 2009. The Ownership Guidelines stipulate that all Directors hold 15,000 shares of the Company's Common Stock and senior executives hold from 7,500 to 200,000 shares of the Company's Common Stock depending on their level. The Directors and senior executives have five years from the date they are elected a Director or promoted to a senior executive to accumulate the appropriate number of shares of the Company's Common Stock.

Item 13. Certain Relationships and Related Transactions, and Director Independence

The information included or to be included in the Proxy Statement under the caption "Certain Transactions" and "Corporate Governance Principles and Board Matters – Independence of Directors" is incorporated by reference herein.

Item 14. Principal Accounting Fees and Services

The information included or to be included in the Proxy Statement under the caption "Ratification of Selection of Independent Registered Public Accounting Firm – Fees Paid to Ernst & Young LLP" is incorporated by reference herein.

PART IV

Item 15. Exhibits and Financial Statement Schedules

(a) The following documents are filed as part of this Form 10-K:

(1) Financial Statements

Consolidated statements of operations for each of the three years in the period ended December 31, 2009	61
Consolidated balance sheets at December 31, 2009 and December 31, 2008	62
Consolidated statements of cash flows for each of the three years in the period ended December 31, 2009	63
Consolidated statements of shareholders' equity for each of the three years in the period ended December 31, 2009	64
Notes to consolidated financial statements	66

(2) Financial Statement Schedule

Schedule II – Valuation and qualifying accounts	127
---	-----

(3) Exhibits

Reference is made to the separate Index to Exhibits contained on pages 132 through 136 filed herewith

All other schedules are omitted since the required information is not present or is not present in amounts sufficient to require submission of the schedules.

CONTINUOUS IMPROVEMENT

We also believe we have significant opportunity to run our business more effectively and efficiently through continuous improvement in manufacturing, product development and business operations.

Our focus on continuous improvement goes beyond simply reducing costs. It extends to our ability to deliver the right bikes to the right markets at the right time, an essential capability when it comes to customer satisfaction and effectively managing supply in line with demand.

The transformation currently underway at our vehicle operations in York, Pa., demonstrates our commitment to reshaping the face of Harley-Davidson manufacturing, with much greater flexibility and significant savings from a more efficient operation.

Just as important is the transformation under way in Harley-Davidson product development. Our work focuses on product selection, cost reduction and time compression, to reduce time to market and consistently deliver on customer expectations.

These actions represent important early steps in what will be an ongoing journey in continuous improvement.

THE ROAD AHEAD

2009 was indeed a year that tested our company, but it was also a year of genuine achievement as we embarked on a new course. It was a year in which we took many courageous actions to position Harley-Davidson for the future.

Our accomplishments were possible only through the hard work, unwavering spirit and dedication of our employees, dealers and suppliers, who focus every day on delivering an outstanding experience for our customers. I thank all the members of our team for their many contributions.

As we execute on our strategy, we do not promise easy solutions. Consumers will likely continue to be cautious in an economic environment that remains challenging.

However, we believe our strategy and the performance measures we have laid out are based on an appropriate and prudent approach to the market. Delivering on our plans will take discipline, determination and intense focus, but we are confident we can achieve our goals through our strategy.

ONE COMPANY, ONE TEAM, ONE DIRECTION

When my journey here at Harley-Davidson began last May, it was obvious that people were passionate about the brand. As I have had the opportunity to get to know our customers, dealers and employees, join them at rallies and events and ride with them, it is clear the passion is far stronger and deeper than anything I could ever have imagined.

All of us at Harley-Davidson are fully committed—as one company, working as one team and pulling in one direction—to doing the right things for this company and for the collective future of all stakeholders. By aligning the organization behind a clear strategic direction, we are

moving with appropriate urgency and making great progress toward our goal to do just that. We appreciate the trust you have placed in us to move this company forward.

While there is still plenty of hard work ahead, I could not feel better about the progress we have made and the path we have chosen.

Sincerely,

KEITH E. WANDELL
PRESIDENT AND
CHIEF EXECUTIVE OFFICER

FOUR POINTS FOR FOUR FUTURE

The future is calling. And it's asking more from us than ever before. In 2009, we answered the call with Harley-Davidson's go-forward business strategy to "Deliver Results Through Focus."

WE'RE MOVING ON FOUR FRONTS TO POSITION HARLEY-DAVIDSON FOR SUSTAINED, MEANINGFUL, LONG-TERM RESULTS.

Based on four pillars—growth, continuous improvement, leadership development and sustainability—our strategy has a single-minded focus on the unique strengths of the Harley-Davidson brand, coupled with an unprecedented commitment of efforts and resources to enhance productivity, profitability and value.

At a high level, we will expand our strength as one of the most customer-centered brands in the world, anchor our leadership of the custom touring and cruiser motorcycle segments, and develop relevant products to attract customers in new demographic segments. We'll expand our global presence by accelerating our reach into key international markets. And, of course, we remain highly committed to our core customers. From product development to manufacturing to our dealer network, we are concentrating on motorcycles and market activities that create new demand for our motorcycles and related products.

WE BELIEVE OUR STRATEGY WILL EXPAND OUR STRENGTH AS ONE OF THE MOST CUSTOMER-CENTERED BRANDS IN THE WORLD.

These are fundamental points on a strategic agenda that we must execute in order to maximize our potential and take full advantage of our opportunities. In short, our strategy to deliver results through focus is about delivering the full Harley-Davidson experience in a harder-working, smarter and more effective way.

1

GROWTH Harley-Davidson is not only one of the strongest brands in the world, it is also, we believe, a brand with tremendous untapped potential. We have chosen to focus our investments behind the Harley-Davidson brand because we believe it provides a superior means for realizing the substantial long-term opportunities of the global motorcycle industry.

2

CONTINUOUS IMPROVEMENT We do many things very well at Harley-Davidson. But the reality is that there is tremendous opportunity to do many things even better—in our product development, our business processes and our manufacturing operations. Continuous improvement is about much more than reducing costs. We are driving out unnecessary steps and complexity and building in greater flexibility and efficiency in a product's path from design to dealership. It's how we get better at managing supply and demand, continuously improving quality, and responding faster and more effectively to the needs of our markets and the desires of riders.

3

LEADERSHIP DEVELOPMENT The third pillar of our strategy is leadership development, the foundation for our ability to compete and win for decades to come. We will only succeed with great people—individuals who will challenge the status quo, and who are creative, collaborative and accountable. To fulfill our brand and business potential, we must prepare strong, committed leaders who live our values and deliver every day.

4

SUSTAINABILITY The stature of our company—and the visibility of our brand in society—gives Harley-Davidson a particular obligation to seize the opportunities of sustainability and giving back. We are continually expanding the ways in which we incorporate social and environmental responsibility in our work, our manufacturing processes and our products.

MACHINES THAT FIT THE MINDSET.

Everyone has a vision of what a Harley-Davidson® motorcycle should be. And as we build on our position as the leader of two-wheeled authenticity, we're looking deep into the dreams of new riders, long-time customers and young customers alike to develop motorcycles that fit individual lives and lifestyles.

There's a powerful reason for this approach: it works. Motorcycles are all about emotion, and no motorcycles inspire as much of it as ours.

THE RIDE COMES FIRST

More than ever, we're developing products that appeal across generations and cultures. Dark Custom™ bikes like the Iron 883™ and the new Forty-Eight™, with their stripped-down, rebellious attitude, are drawing in young adult riders. Products like the Electra Glide® Ultra Limited,

Tri Glide™ and motorcycles from Custom Vehicle Operations™ deliver a premium experience for our core customers, giving them reasons to trade up and ways to extend the ride. And through customization and MotorClothes® riding gear, each riding experience can truly be individualized to fit the owner's mindset.

THE DISCIPLINE OF PRODUCT DEVELOPMENT

The best companies do more than move the market; they move ahead of it. To further strengthen our effectiveness at delivering twist-of-the-throttle emotion to diverse customers, we are transforming product development in ways that sharpen our focus on what riders want, deliver relevant products in each global market, improve speed to market and grow our family of riders.

TOP & BOTTOM Inspiration comes in many shapes and colors; the 2010 CVO™ Ultra Classic® Electra Glide motorcycle in Scarlet Red Pearl with Dark Slate flames for an ultimate custom touring ride, and the Iron 883 motorcycle, with its blacked-out street smarts.

A BOND THAT HAS NO BOUNDARIES.

LEFT Dave Grohl of the band Foo Fighters with his customized 2009 Tri Glide™ Ultra Classic® his latest motorcycle acquisition—one of five Harley-Davidson motorcycles in his personal collection.

CENTER Many customer journeys lead to Milwaukee. Randy Haase stops at Harley-Davidson's Juneau Avenue headquarters.

FAR RIGHT Harley Owners Group members in China, taking it to the streets at the country's second annual H.O.G. rally in Huangshan, Anhui province.

The devotion of our most loyal customers has brought us a long way. Their passion will continue to be a powerful force. We see it in the motorcycles they ride, the individuality they express and their dedication to the ultimate riding experience. When you have such an expansive and devoted global community of riders, it's more than a business advantage; it's an obligation we take very seriously to exceed expectations.

EXPANDING THE COMMUNITY

We're highly committed to keeping the Harley-Davidson experience rich and rewarding for our current riders and extending their journey. We're also focused on bringing in more riders like them. In fact, about a third of new Harley-Davidson motorcycle purchasers in the core rider segment are either new to motorcycling or coming to us from other brands.

Naturally, our motorcycles are key to attracting these riders, and so are the great rides, rallies and events that go

with them. The Harley Owners Group,[®] now with more than a million members in 1,458 chapters globally, is a compelling connection with riders wherever our motorcycles travel. H.O.G.[®] riding events like Million Mile Monday and the Pony Express Ride, and rallies from China to South Carolina, keep our most passionate customers riding more. We're also staying close to customers at major events like Daytona and Sturgis, where we're dialing up our focus to deliver a custom rally experience like never before.

OPPORTUNITY IS FOUND ON MANY ROADS.

For those who dream about their first Harley-Davidson motorcycle, there's a moment when desire turns into ownership. Bringing those moments closer within reach for young adults, women and diverse riders everywhere is one of the things we and our dealers enjoy the most.

NEW CUSTOMERS FOR LIFE

Young adults—those under age 35—hold our brand in virtually the same high esteem as long-time customers. For this new generation, we've created motorcycles, experiences and entire communities—both real-world and virtual—to immerse them in the brand, expand our universe of enthusiasts and make them customers for life.

Bikes like the Iron 883, one of our fastest-selling motorcycles in 2009, have done exceedingly well among young adults.

Our Rider's Edge® New Rider Course is instrumental in growing new relationships, helping more than 200,000 students take to the streets with confidence since 2000. Thirty-three percent of them are under age 35 and 37 percent are women. We continue to introduce ourselves to prospective owners through venues like the South By Southwest® music and culture festival, online communities, and Garage Party™ events just for women. And to help new customers feel confident on the machine of their dreams, we developed the Harley-Davidson Fit Shop, which enables dealers to outfit most any bike for any rider.

In short, we live by the belief that “every customer is a custom.” Every customer deserves an individualized experience in every aspect of ownership, whether they're a long-time rider or just getting started.

TOP Rising country music artist and devoted Harley-Davidson enthusiast Krista Marie, aboard her V-Rod Muscle® motorcycle at a 2009 Women's Ride for MDA.

BOTTOM LEFT The Forty-Eight motorcycle with its peanut tank, fat front tire and no-frills Dark Custom appeal.

BOTTOM RIGHT Chontell Brown, Michael Rawls and John Roberts of New Jersey take in the Daytona Bike Week scene.

OVER OUR HANDLEBARS, WE CAN SEE THE WHOLE WORLD.

LEFT The XR1200X™ motorcycle, with its race-inspired riding position and hard-hitting style, is part of the product appeal behind our market share growth in Europe.

CENTER Anoop Prakash, Managing Director of Harley-Davidson India, with media at the Delhi Auto Expo, introducing 12 Harley-Davidson motorcycle models destined for the India market in 2010.

RIGHT More leisure time, enthusiasm for the brand and rising disposable income equal opportunity in India for Harley-Davidson as the ultimate symbol of freedom of the open road.

Harley-Davidson is crossing borders like never before. Our brand has remarkable global strength and we're translating that appeal in ways that speak powerfully to local enthusiasts. Our motorcycles now roll out of dealerships in more than 70 countries on six continents. By 2014, our plans call for international retail sales of Harley-Davidson motorcycles to exceed 40 percent of our total retail unit sales.

BUILDING SUCCESS, MARKET BY MARKET

Europe continues to be a prime Harley-Davidson destination—an example of how

we're fueling demand in more mature international motorcycle markets. Today, we're a major player in Europe, climbing into the number three spot in the heavyweight segment in 2009 with a market share that's double what it was a decade ago. We did it through strong execution on the basics of product selection, distribution, effective marketing and retail execution, and above all, outstanding customer experiences.

A disciplined, systematic approach is also key to growing our global family in places like India, where we are taking

a primary role in defining the emerging leisure riding market. We've studied the market in depth, laid the groundwork and will start selling this summer. And consumer enthusiasm is greater than we ever imagined. We see long-term opportunities in India, as disposable incomes and aspirations rise. Over time, when riders look to hit the roads, we believe we will be at the leading edge of the market.

BEVVING UP STREET-LEVEL PASSION.

Dealers are the local heartbeat of Harley-Davidson. In cities and towns far and near, they are the vital connection between rider and machine, fulfilling dreams and building lifelong relationships.

THE HIGHER ROAD

Dealerships are destinations that bring the entire Harley-Davidson experience to the world. And dealers are more focused than ever on exceeding customer expectations every day. They and their teams understand the importance of personalizing every customer interaction, from sales, service and customization to great rides and events. They are dedicated to continuous improvement—learning best practices from one another and through Harley-Davidson University. And, with the adoption of advanced technology solutions, they are able to stay better

connected with customers and manage their businesses more effectively.

MANY POINTS OF CONNECTION

Because customers come into the family in all kinds of ways, dealers understand that every part of their dealership is an important opportunity to connect. Top caliber sales and service teams are a key to customer engagement; so are test rides and Authorized Rentals, which fuel dreams and inspire new bike purchases. And pre-owned motorcycles are just the ticket in for some riders, starting a lifetime of ownership and customization.

There's a reason Harley-Davidson dealers are the best in the industry. To them, Harley-Davidson is much more than a business; it's a way of life and a personal passion which shows at the street level in destinations around the world.

TOP LEFT Great service is a point of differentiation for Harley-Davidson dealers, including Harley-Davidson of North Texas in Carrollton and technician Tom Talamantez.

BOTTOM Harley-Davidson Borie, the oldest Harley-Davidson dealership in France, in its new store just outside Paris. Through great execution of all the details, Harley-Davidson new motorcycle retail sales rose in France in 2009.

TOP RIGHT Sharing passion for the brand and business experience at a recent Harley-Davidson dealer convention are dealers (from left): Joaquín R. Trejos, San José, Costa Rica; Irv Fossaeen, Onalaska, Wis.; Ferdinand Fischer, Vienna, Austria; Tan Lin Lin, Qingdao, China; and Tommie Loos, Johannesburg, South Africa.

WE'RE BUILDING THE BEST BIKES BETTER.

LEFT Harley-Davidson's Kansas City operations now build V-Rod® and Sportster® motorcycles on the same line for greater flexibility and efficiency.

RIGHT Attention to quality in every detail remains a top priority at our York facility, where we are transforming our operations for best-in-class capability.

To succeed as a manufacturer in today's global economy takes a lot more than the latest factory equipment or the right thickness of steel to form into motorcycle fenders and gas tanks. It takes a relentless commitment to customers and quality, a skilled and engaged workforce, the agility to flex with the needs of the marketplace and a drive to continually improve.

FOCUS ON QUALITY, FLEXIBILITY AND EFFICIENCY
Today, Harley-Davidson is focused like never before on achieving a best-in-class

manufacturing environment that maximizes flexibility and efficiency, enhances quality at every step and delivers value for our customers. At the heart of these efforts is a major restructuring of our production operations that began in 2009.

TRANSFORMATION IN PROGRESS

The biggest transformation is under way at our factory in York, Pa., and by 2012, we will have completely revamped how we build motorcycles there. This restructuring will reduce complexity and create

the flexibility to produce multiple product families on the same assembly line every day. The work that's under way at York will greatly improve our ability to build the right bikes at the right time to meet the needs of our customers.

Of course, the restructuring of our production operations is about more than efficiency; it reflects our commitment to build the best bikes better every day and deliver quality and value with each Harley-Davidson motorcycle we make.

WHEN YOU RIDE WITH US, WE SHARE A PURPOSE.

The Harley-Davidson family shares a powerful purpose: giving back. It's as ingrained in our nature as sharing an open stretch of road.

CHAMPIONING A CAUSE

In 2007, through The Harley-Davidson Foundation's \$1 million gift, we teamed up with the nonprofit Disabled American Veterans to fund a fleet of offices on wheels that help veterans get the government benefits to which they're entitled. At more than 1,700 stops over the last three years, including many at Harley-Davidson dealerships, DAV advisers helped some 48,000 veterans obtain \$540 million in benefits.

Giving back is also behind a remarkable thirty-year partnership with the Muscular Dystrophy Association. Since 1980, Harley-Davidson and MDA have shared the road in the battle against neuromuscular disease. As a national MDA sponsor, Harley-Davidson, together with riders, dealers,

employees and suppliers, has raised more than \$70 million for patient services and research through rides and events.

RESPECT

A shared purpose goes beyond philanthropy. Every day, we look for ways to incorporate sustainable practices into our business, our manufacturing operations and our products, to minimize the impact we have on the environment. For example, as noted in our 2009 Sustainability Report, we have reduced greenhouse gas emissions through changes to our heat-treating operations and saved enough natural gas to heat 1,312 homes a year. And the Harley-Davidson Museum—our newest facility—has been highly awarded for transforming a brownfield site into an environmentally sustainable community resource. It all adds up to respect—for our environment, our communities and our future.

TOP Harley's Heroes™ DAV Mobile Service Office staff counsel veterans at Ft. Washington Harley-Davidson during the Rolling Thunder rally in Washington, D.C.

BOTTOM Since opening in 2008, the Harley-Davidson Museum in Milwaukee has been recognized for its environmental sensitivity, including a 2009 GREENGUARD Indoor Air Quality Certification.

RIGHT Abbey Umali, Muscular Dystrophy Association National Goodwill Ambassador, and Bill Davidson, Harley-Davidson Vice President, Core Customer Marketing, share a moment at the National H.O.G. Rally in Oklahoma City.

FINANCIAL PERFORMANCE SUMMARY

In 2009, Harley-Davidson's revenue from motorcycles and related products on a continuing basis decreased 23.1 percent to \$4.29 billion compared to 2008 and income from continuing operations decreased 89.7 percent from the prior year to \$70.6 million. These results reflect the performance of the Company's motorcycle business, operating losses at Harley-Davidson Financial Services and the impact of restructuring charges.

Revenue from sales of Harley-Davidson motorcycles decreased to \$3.17 billion in 2009, a decline of 25.2 percent from 2008, on a 26.5 percent reduction in shipments of Harley-Davidson motorcycles. Revenue from Genuine Parts and Accessories in 2009 totaled \$767.3 million, a 10.7 percent decrease from the previous year, and General Merchandise revenue was \$282.2 million, a decrease of 10.1 percent compared to 2008.

During 2009, Harley-Davidson took actions to lower its cost structure through eliminating excess capacity, reducing

administrative costs and exiting non-core business operations. Consequently, 2009 results were significantly affected by non-recurring charges. Harley-Davidson expects restructuring activities announced in 2009 to deliver between \$240 million and \$260 million in annual ongoing savings upon completion of those restructuring activities.

Harley-Davidson's share price increased 48.5 percent during 2009 and the Company paid out dividends of \$0.40 per share in 2009. Harley-Davidson has paid a dividend every year since 1993.

HARLEY-DAVIDSON MOTORCYCLES

Worldwide retail sales of Harley-Davidson motorcycles declined 22.7 percent in 2009 compared to 2008.

In the United States, 2009 retail sales of 162,385 Harley-Davidson motorcycles decreased 25.8 percent from 2008 and overall U.S. heavyweight market registrations declined 36.6 percent. For the full year 2009, retail sales of Harley-Davidson

motorcycles in our international markets decreased 15.4 percent compared to 2008. For the same period, retail sales of Harley-Davidson motorcycles decreased 11.2 percent in the Europe Region, 27.2 percent in the Latin America Region, 30.9 percent in Canada and 9.0 percent in the Asia Pacific Region.

In 2009, the Company shipped 223,023 Harley-Davidson motorcycles worldwide, compared to 303,479 in 2008. In 2009, 35 percent of the Harley-Davidson motorcycles shipped went to international markets compared to 32 percent in 2008.

HARLEY-DAVIDSON FINANCIAL SERVICES

Financial Services incurred an operating loss of \$118.0 million in 2009 compared to operating income of \$82.8 million in 2008, largely due to a \$72.7 million credit loss provision for a one time reclassification of Held for Sale receivables to Held for Investment and a \$28.4 million goodwill impairment charge.

EUROPE⁽¹⁾

651+ CC MOTORCYCLE REGISTRATIONS
H-D vs. Industry, units in thousands

⁽¹⁾ U.S. industry data is derived from submissions of motorcycle retail sales by each major manufacturer to an independent third party. This third party data is subject to revision and update. 2009 and 2008 U.S. industry data includes three-wheeled vehicles. The Company did not ship three-wheeled vehicles until 2008 and does not believe three-wheeled vehicle retail registrations were significant in the U.S. for 2007 and prior.

Europe data includes registrations in Austria, Belgium, Denmark, Finland, France, Germany, Greece, Italy, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland, and the United Kingdom. The Company derives its Europe industry data from information provided by Giral S.A., an independent agency. This third party data is subject to revision and update. Europe industry data includes three-wheeled vehicles.

The retail registration data for Harley-Davidson motorcycles presented in these tables may differ slightly from the Harley-Davidson retail sales data presented elsewhere in this report. The Company's source for retail sales presented elsewhere in this report is sales and warranty registrations provided by Harley-Davidson dealers as compiled by the Company. The differences are not significant and generally relate to the timing of data submissions to the independent sources.
