Staying focused and building on our strengths.

Introducing new products, opening new offices, creating new services—these and other steps we have taken reflect our ability to stay focused on clients, their financial goals, and opportunities when challenges arise. This positive outlook is evident in the theme of our current marketing program: “You Can.” It represents the driving force behind our commitment to serving our clients, communities, and shareholders.

NEW PRODUCTS & SERVICES

We believe that developing personal face-to-face relationships with our clients is what sets us apart. However, as our society becomes more mobile and digital devices multiply, we deliver on our promise to partner with our clients to provide the right banking, investment and insurance solutions for every stage of life. New e-services will accommodate the lifestyles and service preferences of an increasing technologically-savvy clientele.

- **Mobile Banking** enables clients to check their balances, transfer funds, pay bills and conduct other business on the go, through their smart phone.
- **Personal FinanceWorks™** allows customers to create and monitor a budget, set financial goals, track spending habits, etc. in one place, through online banking.
- **New checking account offerings with special features and benefits** are being developed for clients desiring to do all their business online.
- **Secure Chat** gives our website visitors instant access to a customer service representative at the click of a mouse.

COMMUNITY

We remain faithful to our Core Values, particularly “Commitment to Communities.” This is apparent in programs like the Festival of Learning in our Guernsey/Noble County markets, where we distribute \$30,000 in scholarships to area high school students. It is visible, too, in our volunteer response to March of Dimes fundraisers, Relay for Life teams, Gus Macker Tournaments, and the numerous community and charity events that we sponsor.

YOU CAN WITH PEOPLES BANCORP

For banking, insurance and investments, 2009 was an unprecedented year. Yet our focus on extraordinary customer service and the endurance derived from our 107-year history enabled us to demonstrate that even in difficult times, the positive “You Can” attitude can truly be a force for progress. Our family of companies listed on this page work together to serve more clients and focus on delivering long-term shareholder value.

Keep it all together.
You Can.

\$

BANKING. INSURANCE. INVESTMENTS. | **Peoples Bank** FDIC

A Message from President and Chief Executive Officer

Mark F. Bradley

Fellow Shareholders,

The past two years of economic turmoil have challenged many businesses and consumers. In 2009, financial services companies, including Peoples Bancorp, continued to navigate through many challenges, including asset quality deterioration and depressed real estate prices, plus additional regulatory burden and FDIC insurance premium expense.

Our bottom line earnings were negatively impacted by these adverse conditions. In 2009, Peoples Bancorp's net income available to common shareholders was \$2.3 million or \$0.22 per diluted common share versus \$7.5 million or \$0.72 per common share in 2008. Two major factors caused earnings to be lower than our expectations: impairment charges on certain investment securities and elevated provision for loan losses, which built our loan loss reserve to 2.59% of total loans.

Impairment charges on certain investments totaled \$7.7 million in 2009, which reduced earnings per common share by \$0.50. We are confident that significant impairment charges like those experienced in 2009 will not repeat. Also, premium expense for FDIC insurance increased \$3.1 million over 2008, as all FDIC insured banks helped shoulder the burden of failed banks. Higher FDIC premiums will be likely over the next several years as the economy negatively impacts the banking industry.

Peoples Bancorp has strong capital and a solid earnings stream buried beneath the noise of recent earnings results. We remain focused on building on our strengths to help our clients with financial solutions that fit their needs.

We moved forward in 2009 to be ready for the time the economy is back on solid footing. Key priorities included improving asset quality, preserving capital, growing core deposits, realizing operating efficiencies and progressing on client-focused strategies. I am pleased to report that we achieved success in each of these areas.

Asset Quality:

We sought resolution to problem loans and successfully reduced nonperforming loans from year-end 2008 levels. Our efforts caused provision for loan losses to remain elevated, as additional loan chargeoffs were required to remove some loans from our books. We believe such actions were prudent, allowing us to reduce problem loans and some risk exposures.

While we experienced stabilization in asset quality, we keep a close watch on our commercial real estate loan portfolio. Many of our commercial borrowers continue to experience financial difficulty due to high unemployment and reduced consumer spending. Our lenders and loan review specialists are working to identify problem loans and resolve credit issues.

On the consumer side and consistent with directives from Washington, D.C. regarding loan modifications, Peoples Bank has been actively working to keep people in their homes by modifying many borrowers' loan payments to provide relief when possible. We have successfully worked with Fannie Mae and in our own loan portfolio to provide relief on hundreds of thousands of dollars of loans.

“Peoples Bancorp maintained a healthy capital position...”

In 2010, nonperforming asset reduction will continue to be a priority. Our efforts could be hampered by continued pressure on commercial borrowers and workout processes that move more slowly due to the weakened commercial real estate market.

Capital Strength:

A strong balance sheet is critical to the success of a financial services company, especially in times of economic stress. Peoples Bancorp maintained a healthy capital position, even with elevated provision for loan loss and investment securities impairment losses. At year-end 2009, Peoples Bancorp's Total Risk-Based Capital ratio stood at 16.80%, up from 13.19% at year-end 2008 and much higher than the 10% ratio needed to be considered “well-capitalized” by banking regulators.

In January 2009, Peoples Bancorp's participation in the U.S. Treasury's TARP Capital Purchase Program added \$39 million of preferred equity, which enhances Total Risk-Based Capital. This program continues to garner media attention and analysis by governmental officials.

So why did Peoples Bancorp access TARP capital? It has afforded us greater flexibility to work through asset quality issues and provided additional strength to continue lending in a difficult environment. We have made many loans and investments in our communities.

Is TARP capital part of our long-term capital plan? No. Our goal is to repay TARP capital sooner than the 3 to 5 years originally planned, but only if it makes sense to do so based on asset quality and capital levels. Until the economy shows more signs of stabilization or recovery, we believe TARP capital strengthens our balance sheet in times of economic uncertainty.

We also considered the importance of preserving all forms of equity in light of the general economy and recent operating results of the company. This led to the reduction of the quarterly dividend to common shareholders to \$0.10 per share for the third and fourth quarters of 2009, strengthening our capital position.

The lower dividend balances the need to maintain a dividend payout consistent with recent earnings levels and long-term capital needs. It also helps us continue to be a stronger competitor in the financial services industry. Considering Peoples Bancorp's history of dividend growth, it was a difficult decision to reduce the common dividend. The Board of Directors and management recognize the importance of dividends to our shareholders and will look at dividends as a way of increasing shareholder return for investors, especially when earnings begin to improve.

“We have taken steps to expand electronic banking options for our clients.”

Operating Performance:

There were several positive trends in Peoples Bancorp’s 2009 results of operations, including core deposit growth, increased revenue from net interest income and effective expense control.

Total revenue grew 4% in 2009, driven by net interest income growth, stable net interest margin and fee revenues similar to 2008. Operating expenses were controlled, with increases limited to higher FDIC expenses, professional fees associated with problem loans and employee medical benefit plan costs. Retail deposit growth helped reduce reliance on wholesale funding.

In these economic times, we continue to monitor expenses closely and seek additional efficiencies wherever possible, without impacting our ability to serve clients. We expect 2010 expenses to be lower than 2009’s results due to cost-savings initiatives implemented in recent months. Peoples Bancorp’s balance sheet is prepared for the expected eventual increase in interest rates, which also enhances future earnings potential.

Client-Focused Strategies:

A focus on serving clients resulted in expansion of our business franchise in 2009. From investments to insurance to banking, our market teams remain focused on establishing new relationships and expanding existing client relationships.

Clients of our new Zanesville, Ohio office (opened in May 2009) helped that office reach growth goals for deposits and loan production. This facility also fills in our footprint between our Guernsey and Fairfield County markets.

We also combined two aging offices in Nelsonville, Ohio by opening a new full-service banking office along more heavily traveled State Route 33. We believe the new location improves our ability to serve existing clients and reach out to prospective clients. We have similar plans in Lancaster, Ohio, where a new full-service office will open in late 2010 to replace a leased facility.

Peoples Bancorp recently welcomed two new leaders to our team: Daniel McGill, Executive Vice President and Chief Commercial Lending Officer and Richard Stafford, Executive Vice President of Retail Banking. Both Dan and Rick come to Peoples Bancorp with 20+ years of financial experience in serving clients and leading service initiatives. Along with the leadership of David Wesel, Executive Vice President of Investment and Insurance Services, we look forward to seeing the results of their efforts to enhance client relationships in commercial banking, including small business initiatives, and consumer financial services.

We have taken steps to expand electronic banking options for our clients. In January 2010, we introduced Peoples Mobile – our new mobile banking service that allows clients to complete transactions using their smart phones. We also enhanced our internet banking service to include a secure chat feature that allows customers to safely “talk” with a Customer Care associate via the internet. And finally, we provided internet banking

users the capability to manage all of their financial accounts at www.peoplesbancorp.com through Personal FinanceWorks™.

“We plan to build on our strengths to help clients...”

Although we believe face-to-face communication is still the best way to provide advisory-based financial services, we realize that electronic tools complement our financial professionals and add convenience for clients. We are proud to add these new services to our lineup and have already received positive feedback from many clients.

Outlook:

The economic outlook for 2010 and into 2011 will undoubtedly present a new set of challenges for companies and investors alike. National statistics may be showing some recovery from the recent recession, but we don't believe 2010 will feel like a recovery due to sustained high unemployment and depressed prices of commercial real estate.

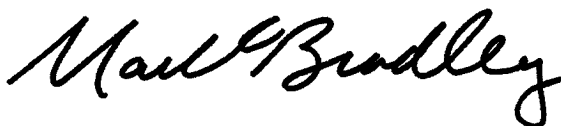

We have navigated through the worldwide financial meltdown with positive earnings and maintenance of our “well-capitalized” strength and stability. While we find 2009's bottom line results disappointing, we cannot lose sight of the ability of Peoples Bancorp to generate revenues through management of net interest margin, loan and deposit services, and growth of client relationships through investment and insurance services. We must continue to remember that current economic factors are temporary, although lingering much longer than any of us would like to see.

We remain optimistic and excited about the opportunities that await Peoples Bancorp. We are focused on asset quality, maintaining liquidity, preserving our capital position and growing our business through client-focused strategies. We anticipate additional challenges as we await improvement in economic conditions, but are confident we have the right people and processes in place to thrive when conditions return to more normal times.

Our clients continue to be Peoples Bancorp's primary source of strength. We appreciate their loyalty and remain committed to providing the high level of service that they have come to expect from Peoples Bancorp and our family of companies.

We plan to build on our strengths to help clients with financial solutions that fit their needs. We know that good execution and fiscal discipline build on those strengths, while also investing in client services that add to our growing customer base.

Thank you for your continued support and we look forward to 2010 with confidence to deliver value to our clients, communities and shareholders.

Director Emeritus FRANK L. CHRISTY

Frank L. Christy has been elected Director Emeritus of the Peoples Bancorp Board of Directors in recognition of his long and meritorious service as a Director. He had served the Board for more than ten years before retiring on September 24, 2009.

Mr. Christy has provided invaluable guidance to Peoples Bancorp Inc. through his leadership and continuing passion for excellence in customer service.

Moreover, he has demonstrated outstanding leadership not only in his work as a Director and committee chairman for the Board, but also in his businesses, in the community, in the state of Ohio, and beyond.

PART I

ITEM 1. BUSINESS

Corporate Overview

Peoples Bancorp Inc. is a financial holding company organized in 1980. Peoples operates principally through its wholly-owned subsidiary, Peoples Bank, National Association (“Peoples Bank”). At December 31, 2009, Peoples’ other wholly-owned subsidiaries included Peoples Investment Company and PEBO Capital Trust I. Peoples Bank also owned Peoples Insurance Agency, LLC (“Peoples Insurance”) and PBNA, L.L.C., an asset management company. Peoples Investment Company also owned Peoples Capital Corporation.

Peoples Bank was first chartered in 1902 as an Ohio banking corporation under the name “The Peoples Banking and Trust Company” in Marietta, Ohio, and was later reorganized as a national banking association under its current name in 2000. Peoples Insurance was first chartered in 1994 as an Ohio corporation under the name “Northwest Territory Property and Casualty Insurance Agency, Inc.” In late 1995, Peoples Insurance was awarded insurance agency powers in the State of Ohio, becoming the first insurance agency in Ohio to be affiliated with a financial institution. Peoples Insurance was converted from an Ohio corporation to an Ohio limited liability company under its current name in December 2009.

Peoples Investment Company, its subsidiary, Peoples Capital Corporation, and PBNA, L.L.C. were formed in 2001 to optimize Peoples’ consolidated capital position and provide new investment opportunities as a means of enhancing profitability. These opportunities include, but are not limited to, investments in low-income housing tax credit funds or projects, venture capital and other higher risk investments, which are either limited or restricted at Peoples Bank. Presently, the operations of these companies do not represent a material part of Peoples’ overall business activities.

Business Overview

Peoples makes available a complete line of banking, investment, insurance and trust solutions through its financial units – Peoples Bank, Peoples Insurance and Peoples Financial Advisors (a division of Peoples Bank). These products and services include the following:

- various demand deposit accounts, savings accounts, money market accounts and certificates of deposit
- commercial, consumer and real estate mortgage loans (both commercial and residential) and lines of credit
- debit and automated teller machine (“ATM”) cards
- corporate and personal trust services
- safe deposit rental facilities
- travelers checks, money orders and cashier’s checks
- full range of life, health and property and casualty insurance products
- custom-tailored fiduciary and wealth management services

Peoples’ financial products and services are offered through its financial service locations and ATMs in Ohio, West Virginia and Kentucky, as well as telephone and internet-based banking. Brokerage services are offered exclusively through an unaffiliated registered broker-dealer located at Peoples Bank’s offices. Peoples also makes available credit cards to consumers and businesses, as well as merchant credit card processing services, through joint marketing arrangements with third parties.

Since 1996, Peoples has undertaken a controlled and steady expansion strategy involving a combination of internal and external growth. This strategy has included the opening of *de novo* banking and loan production offices, acquisitions of existing banking offices, both individually and as part of entire institutions, and acquisitions of two insurance agencies. As a result, Peoples has experienced growth in total assets and its capital position, as well as expansion of its customer base and primary market area. This strategy has also provided opportunities for Peoples to integrate non-traditional products and services, such as insurance and investments, with the traditional banking products offered to its clients.

Since 2003, Peoples has taken steps to improve operating efficiency by redirecting resources to offices and markets with greater growth potential. These actions have included the consolidation of existing banking offices with acquired offices in close proximity to each other and sale of certain banking offices.

Recent Corporate Developments

In October 2008, the United States Department of the Treasury (the "U.S. Treasury") established the TARP Capital Purchase Program under the authority granted by the Emergency Economic Stabilization Act of 2008 (the "EESA"), which appropriated \$700 billion for the purpose of restoring liquidity and stability in the U.S. financial system. Under the TARP Capital Purchase Program, the U.S. Treasury made \$250 billion of capital available to U.S. financial institutions in the form of senior preferred stock investments and a warrant entitling the U.S. Treasury to buy the participating institution's common stock with a market price equal to 15% of the senior preferred stock.

In late 2008, Peoples received preliminary approval from the U.S. Treasury for a capital investment of \$39 million through the voluntary TARP Capital Purchase Program. At the time of this preliminary approval, Peoples was not authorized to issue preferred shares under its Amended Articles of Incorporation. The approved amount of capital, which represented 3% of Peoples' total risk-weighted assets, was the maximum that Peoples was allowed to receive under the TARP Capital Purchase Program.

On January 22, 2009, Peoples' shareholders adopted an amendment to Article FOURTH of Peoples' Amended Articles of Incorporation to authorize the issuance of up to 50,000 preferred shares. The preferred shares may be issued from time to time by Peoples' Board of Directors in one or more series, with each series to consist of such number of shares and to have such voting powers, designations, preferences, rights, qualifications, limitations and restrictions as determined by the Board of Directors. On January 28, 2009, Peoples' Board of Directors adopted an amendment to Peoples' Amended Articles of Incorporation to create a series of preferred shares designated as Peoples' Fixed Rate Cumulative Perpetual Preferred Shares, Series A, each without par value and having a liquidation preference of \$1,000 per share (the "Series A Preferred Shares"). These actions enabled Peoples to obtain final approval for the \$39 million capital investment through the TARP Capital Purchase Program.

On January 30, 2009, Peoples issued and sold to the U.S. Treasury (i) 39,000 of Peoples' Series A Preferred Shares, and (ii) a ten-year warrant (the "Warrant") to purchase 313,505 Peoples common shares, each without par value ("Common Shares"), at an exercise price of \$18.66 per share (subject to certain anti-dilution and other adjustments), for an aggregate purchase price of \$39 million in cash. This issuance and sale was a private placement exempt from the registration requirements of the Securities Act of 1933, as amended, pursuant to Section 4(2) thereof. Additional information regarding the Series A Preferred Shares and the Warrant can be found in Note 11 of the Notes to the Consolidated Financial Statements.

To finalize Peoples' participation in the TARP Capital Purchase Program, Peoples entered into certain agreements with the U.S. Treasury. Additional information regarding the TARP Capital Purchase Program and the restrictions imposed on Peoples can be found under the "TARP Capital Purchase Program" heading in the "Supervision and Regulation" section included later in this item.

Primary Market Area and Customers

Peoples considers its primary market area to consist of the counties where it has a physical presence and neighboring counties. This market area currently includes the counties of Athens, Belmont, Fairfield, Franklin, Gallia, Guernsey, Meigs, Morgan, Muskingum, Noble and Washington in Ohio; Cabell, Mason, Wetzel and Wood in West Virginia; and Boyd and Greenup in Kentucky. This market area encompasses the Metropolitan Statistical Areas ("MSA") of Parkersburg-Marietta-Vienna, WV-OH and Huntington-Ashland, WV-KY-OH, and portions of the Columbus OH and Wheeling, WV-OH MSAs. This primary market area largely consists of rural or small urban areas with a diverse group of industries and employers. Principal industries in this area include health care, education and other social services; plastics and petrochemical manufacturing; oil, gas and coal production; and tourism and other service-related industries. Because of this diversity, Peoples is not dependent upon any single industry segment for its business opportunities.

Lending Activities

Peoples originates various types of loans, including commercial and commercial real estate loans, residential real estate loans, home equity lines of credit, real estate construction loans, and consumer loans. In prior years, Peoples also originated and retained various credit card loans. In 2003, Peoples sold its existing credit card portfolio and entered into joint marketing alliances to serve the credit card needs of its customers and prospects, which reduces Peoples' risks since it does not own the loans.

Peoples' lending activities are focused principally on lending opportunities within its primary market areas, although Peoples occasionally originates loans outside its primary markets related to existing customer relationships. In general, Peoples retains the majority of loans it originates; however, certain longer-term fixed-rate mortgage loan originations, primarily one-to-four family residential mortgages, are sold into the secondary market.

Peoples' loans consist of credits to borrowers spread over a broad range of industrial classifications. At December 31, 2009, Peoples had no concentration of loans to borrowers engaged in the same or similar industries that exceeded 10% of total loans nor had any loans outstanding to non-U.S. entities.

Legal Lending Limit

Federal regulations impose a limit on the aggregate amount a financial institution may lend to one borrower, including certain related or affiliated borrowers. This legal lending limit is generally 15% of the institution's total capital, as defined by risk-based capital regulations, plus any allowance for loan losses not already included in total capital. At December 31, 2009, Peoples' legal lending limit was approximately \$28.4 million. During 2009, Peoples did not extend credit to any one borrower in excess of its legal lending limit.

Commercial Lending

Commercial, financial and agricultural loans ("commercial loans"), including loans secured by commercial real estate, represent the largest portion of Peoples' total loan portfolio, comprising approximately 63.0% of total loans at December 31, 2009. Commercial lending inherently involves a significant degree of risk of loss since commercial loan relationships generally involve larger loan balances than other loan classes. Additionally, repayment of commercial loans normally depends on adequate cash flows of a business, which can be negatively impacted by adverse changes in the general economy or in a specific industry.

COMMERCIAL LENDING PRACTICES. Loan terms include amortization schedules and interest rates commensurate with the purpose of each loan, the source of repayment and the risk involved. The majority of Peoples' commercial loans carry variable interest rates equal to an underlying index rate plus a margin. Peoples occasionally originates commercial loans with fixed interest rates for periods generally ranging from 3 to 5 years. The primary analytical technique used in determining whether to grant a commercial loan is the review of a schedule of cash flows to evaluate whether the borrower's anticipated future cash flows will be adequate to service both interest and principal due. Additionally, collateral is reviewed to determine its value in relation to the loan.

The Peoples Bank Board of Directors Loan Committee is required to approve loans secured by real estate of \$4 million or more, loans secured by all other assets of \$2 million or more and unsecured loans of \$1 million or more. Approval of the Peoples Bank Board of Directors Loan Committee is required for all new loans, regardless of amount, to borrowers whose aggregate debt to Peoples Bank, including the principal amount of the proposed loan, of \$5 million or more.

The Peoples Bank Board of Directors is required to approve all new loans of \$10 million or more and any loan, regardless of amount, to borrowers whose aggregate debt to Peoples Bank, including the principal amount of the proposed loan, of \$15 million or more.

Peoples evaluates all commercial loan relationships whenever a new loan causes the aggregate debt to Peoples to exceed \$250,000. On an annual basis, Peoples evaluates all loan relationships whose aggregate debt to Peoples is greater than \$500,000 for possible credit deterioration. This loan review process provides Peoples with opportunities to identify potential problem loans and take proactive actions to assure repayment of the loan or minimize Peoples' risk of loss, such as reviewing the relationship more frequently based upon the loan quality rating and aggregate debt outstanding. Upon detection of the reduced ability of a borrower to meet cash flow obligations, the loan is reviewed for possible downgrading or placement on nonaccrual status.

Real Estate Loans

While commercial loans comprise the largest portion of Peoples' loan portfolio, generating residential real estate loans remains a major focus of Peoples' lending efforts, whether the loans are ultimately sold into the secondary market or retained in Peoples' loan portfolio. At December 31, 2009, portfolio real estate loans comprised 20.5% of total loans. Peoples also had \$1.9 million of real estate loans held for sale and was servicing \$227.8 million of loans, consisting primarily of one-to-four family residential mortgages, previously sold in the secondary market.

Peoples originates both fixed-rate and adjustable-rate real estate loans. Typically, the longer-term fixed-rate real estate loans are sold in the secondary market, with Peoples retaining servicing rights on those loans. In select cases, Peoples may retain certain fixed-rate real estate loans or sell the loans without retaining the servicing rights.

REAL ESTATE LENDING PRACTICES. Peoples typically requires residential real estate loan amounts to be no more than 80% of the purchase price or the appraised value of the real estate securing the loan, which ever is lower, unless private mortgage insurance is obtained by the borrower for the percentage exceeding 80%. In limited circumstances, Peoples may lend up to 100% of the appraised value of the real estate, although such lending currently is limited to loans that qualify under established federally backed rural housing programs. The risk conditions of real estate loans are considered during underwriting for the purposes of establishing an interest rate commensurate with the risks inherent in mortgage lending and remaining equity of the home, if any.

Real estate loans are typically secured by first mortgages with evidence of title in favor of Peoples in the form of an attorney's opinion of the title or a title insurance policy. Peoples also requires proof of hazard insurance, with Peoples named as the mortgagee and loss payee. Licensed appraisals are required for all real estate loans.

Home Equity Lines of Credit

Peoples originates home equity lines of credit that provide consumers with greater flexibility in financing personal expenditures. At December 31, 2009, home equity lines of credit comprised 4.7% of Peoples' total loans. Peoples currently offers home equity lines of credit with a prime-based variable rate for the entire 10-year term of the loan. In prior years, Peoples also offered a home equity line of credit whose terms included a fixed rate for the first five years and converting to a variable interest rate for the remaining five years. At December 31, 2009, total outstanding principal balances and available credit amounts of these convertible rate home equity lines of credit were \$16.0 million and \$23.2 million, respectively, and weighted-average remaining maturity of 2.8 years.

HOME EQUITY LENDING PRACTICES. Home equity lines of credit are generally made as second mortgages by Peoples.

The maximum amount of a home equity line of credit is generally limited to 80% of the appraised value of the property less the balance of the first mortgage. Peoples will lend up to 90% of the appraised value of the property at higher interest rates that are commensurate with the additional risk being assumed in these situations. The home equity lines of credit are written with ten-year terms and are subject to review upon request for renewal.

Construction Loans

Peoples originates various construction loans to provide temporary financing during the construction phase for commercial and residential properties. At December 31, 2009, construction loans comprised 3.1% of Peoples' loan portfolio. Construction financing is generally considered to involve the highest risk since Peoples is dependent largely upon the accuracy of the initial estimate of the property's value at completion of construction and the estimated cost (including interest) of construction. If the estimated construction cost proves to be inaccurate, Peoples may be required to advance funds beyond the amount originally committed to enable completion of the project. In certain cases, such as real estate development projects, repayment of construction loans occurs as a result of subsequent sales of the developed real estate.

CONSTRUCTION LENDING PRACTICES. Peoples' construction lending is focused primarily on commercial and residential projects of select real estate developers and homebuilders. These projects include the construction of office, retail or industrial complexes and real estate development for either residential or commercial uses. The underwriting criteria for construction loans is generally the same as for non-construction loans.

To mitigate the risk of construction lending, Peoples requires periodic site inspections by a construction loan manager, appraiser or architect to ensure appropriate completion of the project prior to any disbursements. Construction loans are structured to provide sufficient time to complete construction, including consideration for weather or other variables that influence completion time, although Peoples generally requires the term to be less than two years.

Consumer Lending

Peoples' consumer lending activities primarily involve loans secured by automobiles, boats, recreational vehicles and other personal property. At December 31, 2009, consumer loans comprised 8.5% of Peoples' loan portfolio.

CONSUMER LENDING PRACTICES. Consumer loans generally involve more risk as to collectability than real estate mortgage loans because of the type and nature of the collateral and, in certain instances, the absence of collateral. As a result, consumer lending collections are dependent upon the borrower's continued financial stability, and are at more risk from adverse changes in personal circumstances. In addition, application of various state and federal laws, including bankruptcy and insolvency laws, could limit the amount that may be recovered under these loans. Credit approval for consumer loans typically requires demonstration of sufficiency of income to repay principal and interest due, stability of employment, credit history and sufficient collateral for secured loans. It is the policy of Peoples to review its consumer loan portfolio monthly and to charge-off loans that do not meet its standards, and to adhere strictly to all laws and regulations governing consumer lending. A qualified compliance officer is responsible for monitoring regulatory compliance performance and for advising and updating loan personnel.

Peoples makes credit life insurance and accident and health insurance available to all qualified borrowers, thus reducing risk of loss when a borrower's income is terminated or interrupted due to accident, disability or death.

Overdraft Privilege

Peoples grants Overdraft Privilege to qualified customers. Overdraft Privilege is a service that provides overdraft protection to retail deposit customers by establishing an Overdraft Privilege amount. After a 30-day waiting period to verify deposit ability, each new checking account usually receives an Overdraft Privilege amount of either \$400 or \$700, based on the type of account and other parameters. Once established, customers are permitted to overdraw their

checking account at Peoples' discretion, up to their Overdraft Privilege limit, with each item being charged Peoples' regular overdraft fee. Customers repay the overdraft with their next deposit. Overdraft Privilege is designed to allow Peoples to fill the void between traditional overdraft protection, such as a line of credit, and "check cashing stores". While Overdraft Privilege generates fee income, Peoples maintains an allowance for losses from checking accounts with overdrafts deemed uncollectible. This allowance, along with the related provision and net charge-offs, is included in Peoples' allowance for loan losses.

Investment Activities

Investment securities comprise a significant portion of Peoples' total assets. The majority of Peoples' investment activities are conducted through Peoples Bank, although Peoples and its non-banking subsidiaries engage in investment activities from time-to-time. Investment activity by Peoples Bank is subject to certain regulatory guidelines and limitations on the types of securities eligible for purchase. As a result, the investment securities owned by Peoples Bank include obligations of the U.S. Treasury, agencies and corporations of the U.S. government, including mortgage-backed securities, bank eligible obligations of any state or political subdivision in the U.S. and bank eligible corporate obligations, including private-label mortgage-backed securities. The investments owned by Peoples are comprised of common stocks issued by various unrelated banking holding companies and tax-exempt municipal obligations. The investments owned by Peoples' non-banking subsidiaries currently consist of tax credit funds and corporate obligations.

Peoples' investment activities are governed internally by a written, Board-approved policy, which is administered by Peoples' Asset-Liability Management Committee ("ALCO"). The primary purpose of Peoples' investment portfolio is to: (1) employ excess funds not needed for loan demand; (2) provide a source of liquid assets to accommodate unanticipated deposit and loan fluctuations and overall liquidity needs; (3) provide eligible securities to secure public and trust funds; and (4) earn the maximum overall return commensurate with the investment's risk and corporate needs. Investment strategies to achieve these objectives are reviewed and approved by the ALCO. In its evaluation of investment strategies, the ALCO considers various factors, including the interest rate environment, balance sheet mix, actual and anticipated loan demand, funding opportunities and Peoples' overall interest rate sensitivity. The ALCO also has much broader responsibilities, which are discussed in the "Interest Rate Sensitivity and Liquidity" section of "Management's Discussion and Analysis of Financial Condition and Results of Operation" included in Item 7 of in this Form 10-K.

Funding Sources

Peoples' primary sources of funds for lending and investing activities are interest-bearing and non-interest-bearing deposits. Cash flows from both the loan and investment portfolios, which include scheduled payments, as well as prepayments, calls and maturities, also provide a relatively stable source of funds. Peoples also utilizes a variety of short-term and long-term borrowings to fund asset growth and satisfy liquidity needs. Peoples' funding sources are monitored and managed through Peoples' asset-liability management process, which is discussed further in the "Interest Rate Sensitivity and Liquidity" section of "Management's Discussion and Analysis of Financial Condition and Results of Operation" included in Item 7 of this Form 10-K.

The following is a brief description of the various sources of funds utilized by Peoples:

Deposits

Peoples obtains deposits principally from individuals and businesses within its primary market area by offering a broad selection of deposit products to clients. Retail deposit account terms vary with respect to the minimum balance required, the time the funds must remain on deposit and service charge schedules. Interest rates paid on specific deposit types are determined based on (1) the interest rates offered by competitors, (2) the anticipated amount and timing of funding needs, (3) the availability and cost of alternative sources of funding and (4) the anticipated future economic conditions and interest rates. Retail deposits are attractive sources of funding because of their stability and relative cost in addition to providing opportunities for Peoples to build long-term client relationships through the cross-selling of its other products and services.

Peoples occasionally obtains deposits from clients outside Peoples' primary market area, generally in the form of certificates of deposit and often through deposit brokers. These deposits are used to augment Peoples' retail deposits to fund loans originated to customers located outside Peoples' primary market area, as well as provide diversity in funding sources. While these deposits may carry slightly higher interest costs than other wholesale funds, they do not require Peoples to secure the funds with collateral, unlike most other borrowed funds.

Additional information regarding the amounts and composition of Peoples' deposits can be found in the "Deposits" section of "Management's Discussion and Analysis of Financial Condition and Results of Operation" included in Item 7 of this Form 10-K and in Note 7 of the Notes to the Consolidated Financial Statements.

Borrowed Funds

Peoples obtains funds through a variety of short-term and long-term borrowings, which typically include advances from the Federal Home Loan Bank of Cincinnati (“FHLB”), Federal Funds purchased, advances from the Federal Reserve Discount Window and repurchase agreements. Occasionally, Peoples obtains funds from unrelated financial institutions in the form of loans or revolving lines of credit. Short-term borrowings are used generally to manage Peoples’ daily liquidity needs since they typically may be repaid, in whole or part, at any time without a penalty. Long-term borrowings provide cost-effective options for funding asset growth and satisfying capital needs, due to the variety of pricing and maturity options available.

Additional information regarding the amounts and composition of Peoples’ borrowed funds can be found in the “Borrowed Funds” section of “Management’s Discussion and Analysis of Financial Condition and Results of Operation” included in Item 7 of this Form 10-K and in Notes 8 and 9 of the Notes to the Consolidated Financial Statements.

Peoples has an established statutory business trust subsidiary (PEBO Capital Trust I) that was formed for the sole purpose of issuing preferred securities and investing the proceeds in junior subordinated debt securities of Peoples. The trust preferred securities qualify as Tier 1 capital for regulatory capital purposes, subject to certain quantitative limits and qualitative standards. Additional information can be found in Note 10 of the Notes to the Consolidated Financial Statements.

Competition

Peoples experiences intense competition within its primary market area due to the presence of several national, regional and local financial institutions and other service providers, including finance companies, insurance agencies and mutual funds. Competition within the financial service industry continues to increase as a result of mergers between, and expansion of, financial service providers within and outside of Peoples’ primary market areas. In addition, the deregulation of the financial services industry (see the discussion of the Gramm-Leach-Bliley Act of 1999 in the section of this item captioned “Supervision and Regulation-Bank Holding Company Act”) has allowed securities firms and insurance companies that have elected to become financial holding companies to acquire commercial banks and other financial institutions, which can create additional competitive pressure.

Peoples primarily competes based on client service, convenience and responsiveness to customer needs, available products, rates of interest on loans and deposits, and the availability and pricing of trust, brokerage and insurance services. However, some competitors may have greater resources and, as such, higher lending limits than Peoples, which adversely affects Peoples’ ability to compete. Peoples’ business strategy includes the use of a “needs-based” sales and service approach to serve customers and incentives intended to promote customers’ continued use of multiple financial products and services. In addition, Peoples continues to emphasize the integration of traditional commercial banking products with non-traditional financial products, such as insurance and investment products.

Peoples historically has focused on providing its full range of products and services in smaller metropolitan markets rather than major metropolitan areas. While management believes Peoples has developed a level of expertise in serving the financial service needs of smaller communities, Peoples’ primary market area has expanded into larger metropolitan areas, like central Ohio. These larger areas typically contain entrenched service providers with an existing customer base much larger than Peoples’ initial entry position. As a result, Peoples may be forced to compete more aggressively in order to grow its market share in these areas, which could reduce current and future profit potential from such markets.

Employees

At December 31, 2009, Peoples had 537 full-time equivalent employees.

Intellectual Property and Proprietary Rights

Peoples has registered the service marks “Peoples Bank (with logo)”, “Peoples Bancorp (with logo)”, “Peoples Financial Advisors (with logo)”, “Connect Card”, “Peoples Bank” and “peoplesbancorp.com” with the U.S. Patent and Trademark Office. These service marks currently have expiration dates ranging from 2014 to 2017. Peoples may renew the registrations of service marks with the U.S. Patent and Trademark Office generally for additional 10-year periods indefinitely, provided it continues to use the service marks and files appropriate maintenance and renewal documentation with the U.S. Patent and Trademark Office at times required by the federal trademark laws and regulations.

Peoples has a proprietary interest in the Internet Domain name “pebo.com”. Internet Domain names in the U.S. and in foreign countries are regulated, but the laws and regulations governing the Internet are continually evolving.

Supervision and Regulation

Peoples and its subsidiaries are subject to extensive supervision and regulation by federal and state agencies. The regulation of financial holding companies and their subsidiaries is intended primarily for the protection of consumers, depositors, borrowers, the federal deposit insurance fund and the banking system as a whole and not for the protection of shareholders. The following is a summary of the regulatory agencies, statutes and related regulations that have, or could have, a significant impact on Peoples' business. This discussion is qualified in its entirety by reference to such regulations and statutes.

Financial Holding Company

Peoples is a legal entity separate and distinct from its subsidiaries and affiliated companies. As a financial holding company, Peoples is subject to regulation under the Bank Holding Company Act of 1956, as amended (the "BHC Act"), and to inspection, examination and supervision by the Board of Governors of the Federal Reserve System (the "Federal Reserve Board").

The Federal Reserve Board also has extensive enforcement authority over financial holding companies. In general, the Federal Reserve Board may initiate enforcement actions for violations of laws and regulations and unsafe or unsound practices. The Federal Reserve Board may assess civil money penalties, issue cease and desist or removal orders and require that a financial holding company divest subsidiaries, including subsidiary banks. Peoples is also required to file reports and other information with the Federal Reserve Board regarding its business operations and those of its subsidiaries.

Subsidiary Bank

Peoples Bank is subject to regulation and examination primarily by the Office of the Comptroller of the Currency ("OCC") and secondarily by the Federal Reserve Board and the Federal Deposit Insurance Corporation ("FDIC"). OCC regulations govern permissible activities, capital requirements, dividend limitations, investments, loans and other matters. The OCC has the authority to impose sanctions on Peoples Bank and, under certain circumstances, may place Peoples Bank into receivership.

Peoples Bank is subject to certain restrictions imposed by the Federal Reserve Act and Federal Reserve Board regulations regarding such matters as the maintenance of reserves against deposits, extensions of credit to the financial holding company or any of its subsidiaries, investments in the stock or other securities of the financial holding company or its subsidiaries and the taking of such stock or securities as collateral for loans to any borrower.

Non-Banking Subsidiaries

Peoples' non-banking subsidiaries are also subject to regulation by the Federal Reserve Board and other applicable federal and state agencies. Peoples Insurance, as a licensed insurance agency, is subject to regulation by the Ohio Department of Insurance and the state insurance regulatory agencies of those states where it may conduct business.

Other Regulatory Agencies

SECURITIES AND EXCHANGE COMMISSION ("SEC") AND NASDAQ. Peoples is also under the jurisdiction of the SEC and certain state securities commissions for matters relating to the offering and sale of its securities. Peoples is subject to the disclosure and regulatory requirements of the Securities Act of 1933, as amended (the "Securities Act"), and the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and the regulations promulgated thereunder, as administered by the SEC. Peoples' Common Shares are listed on The NASDAQ Stock Market LLC ("NASDAQ") under the symbol "PEBO" and Peoples is subject to the rules for NASDAQ listed companies.

FEDERAL HOME LOAN BANK. Peoples Bank is a member of the FHLB, which provides credit to its members in the form of advances. As a member of the FHLB, Peoples Bank must maintain an investment in the capital stock of the FHLB in a specified amount. Upon the origination or renewal of an advance, the FHLB is required by law to obtain and maintain a security interest in certain types of collateral. The FHLB is required to establish standards of community investment or service that its members must maintain for continued access to long-term advances from the FHLB. The standards take into account a member's performance under the Community Reinvestment Act and its record of lending to first-time homebuyers.

THE FEDERAL DEPOSIT INSURANCE CORPORATION/DEPOSITORY INSURANCE. The FDIC is an independent federal agency which insures the deposits, up to prescribed statutory limits, of federally-insured banks and savings associations and safeguards the safety and soundness of the financial institution industry. Peoples Bank's deposits are insured up to applicable limits by Deposit Insurance Fund of the FDIC and subject to deposit insurance assessments to maintain the Deposit Insurance Fund.

The FDIC utilizes a risk-based assessment system that imposes insurance premiums based upon a four-tier risk matrix based upon a bank's capital level and supervisory, or CAMELS, rating. The assessment rate

determined by considering such information is then applied to the amount of the bank's deposits to determine the bank's insurance premiums. An increase in the assessment rate could have a material adverse effect on the earnings of the affected insured depository institutions. The FDIC may terminate insurance coverage upon a finding that the insured depository institution has engaged in unsafe or unsound practices, is in an unsafe or unsound condition, or has violated any applicable law, regulation, rule, order or condition enacted or imposed by the institution's regulatory agency.

U.S. TREASURY AND SPECIAL INSPECTOR GENERAL. As a result of Peoples' participation in the TARP Capital Purchase Program, Peoples is also subject to the regulatory authority granted to the U.S. Treasury and the Special Inspector General for the Troubled Assets Relief Program under EESA and the American Recovery and Reinvestment Act of 2009 (the "ARRA"), as discussed below under the caption "TARP Capital Purchase Program".

Bank Holding Company Act

In general, the BHC Act limits the business of bank holding companies to banking, managing or controlling banks and other activities that the Federal Reserve Board has determined to be so closely related to banking as to be a proper incident thereto. As a result of the Gramm-Leach-Bliley Act of 1999 – also known as the Financial Services Modernization Act of 1999 – which amended the BHC Act, bank holding companies that are financial holding companies may engage in any activity, or acquire and retain the shares of a company engaged in any activity that is either (1) financial in nature or incidental to such financial activity (as determined by the Federal Reserve Board in consultation with the OCC) or (2) complementary to a financial activity, and that does not pose a substantial risk to the safety and soundness of depository institutions or the financial system generally (as solely determined by the Federal Reserve Board). Activities that are financial in nature include securities underwriting and dealing, insurance underwriting and making merchant banking investments. In 2002, Peoples elected, and received approval from the Federal Reserve Board, to become a financial holding company.

In order for a financial holding company to commence any new activity permitted by the BHC Act, or to acquire a company engaged in any new activity permitted by the BHC Act, each insured depository institution subsidiary of the financial holding company must have received a rating of at least "satisfactory" in its most recent examination under the Community Reinvestment Act, which is more fully discussed in the section captioned "Community Reinvestment Act" included later in this item. In addition, financial holding companies like Peoples are permitted to acquire companies engaged in activities that are financial in nature and in activities that are incidental and complementary to financial activities without prior Federal Reserve Board approval.

The BHC Act and other federal and state statutes regulate acquisitions of commercial banks. The BHC Act requires the prior approval of the Federal Reserve Board for the direct or indirect acquisition of more than 5% of the voting shares of a commercial bank or its parent holding company. Under the Federal Bank Merger Act, the prior approval of the OCC is required for a national bank to merge with another bank or purchase the assets or assume the deposits of another bank. In reviewing applications seeking approval of merger and acquisition transactions, the bank regulatory authorities will consider, among other things, the competitive effect and public benefits of the transactions, the capital position of the combined organization, the applicant's performance record under the Community Reinvestment Act and fair housing laws and the effectiveness of the subject organizations in combating money laundering activities.

Under Federal Reserve Board policy, a financial holding company is expected to act as a source of financial strength to each subsidiary bank and to commit resources to support each such subsidiary bank. Under this policy, the Federal Reserve Board may require a financial holding company to contribute additional capital to an undercapitalized subsidiary bank and may disapprove of the payment of dividends to the shareholders if the Federal Reserve Board believes the payment of such dividends would be an unsafe or unsound practice.

Capital Adequacy and Prompt Corrective Action

The Federal Deposit Insurance Corporation Improvement Act of 1991 ("FDICIA"), among other things, identifies five capital categories for insured depository institutions and requires the respective federal regulatory agencies to implement systems for "prompt corrective action" for insured depository institutions that do not meet minimum capital requirements within such categories. The federal regulatory agencies, including the Federal Reserve Board and the OCC, have adopted substantially similar regulatory capital guidelines and regulations consistent with the requirements of FDICIA, as well as established a system of prompt corrective action to resolve certain of the problems of undercapitalized institutions. This system is based on five capital level categories for insured depository institutions: "well capitalized", "adequately capitalized", "undercapitalized", "significantly undercapitalized" and "critically undercapitalized".

The federal banking agencies may (or in some cases must) take certain supervisory actions depending upon a bank's capital level. For example, the banking agencies must appoint a receiver or conservator for a bank within 90 days after it

becomes “critically undercapitalized” unless the bank’s primary regulator determines, with the concurrence of the FDIC, that other action would better achieve regulatory purposes. Banking operations otherwise may be significantly affected depending on a bank’s capital category. For example, a bank that is not “well capitalized” generally is prohibited from accepting brokered deposits and offering interest rates on deposits higher than the prevailing rate in its market, and the holding company of any undercapitalized bank must guarantee, in part, specific aspects of the bank’s capital plan for the plan to be acceptable.

Both Peoples and Peoples Bank are subject to risk-based capital requirements and guidelines imposed by their respective primary regulatory agencies. These capital guidelines and regulations are based on the 1998 capital accord of the Basel Committee on Banking Supervision (the “Basel Committee”) and divide the capital of Peoples and Peoples Bank into two tiers:

- “Tier 1 capital” consists of (1) common shareholders’ equity; (2) qualifying perpetual preferred stock and trust preferred securities (up to 25% of total Tier 1 capital); and (3) minority interests in equity accounts of consolidated subsidiaries, less goodwill and certain other deductions including intangible assets and net unrealized gains and losses on available-for-sale securities.
- “Tier 2 capital” consists primarily of allowance for loan losses and net unrealized gains on certain available-for-sale equity securities, subject to limitations established by the guidelines, as well as any qualifying perpetual preferred stock and trust preferred securities amounts excluded from Tier 1 capital. Tier 2 capital may also include, among other things, certain amounts of hybrid capital instruments, mandatory convertible debt and subordinated debt.

In addition, each asset on Peoples and Peoples Bank’s balance sheets, as well as credit equivalent amounts of certain derivatives and off-balance sheet items, are assigned to one of several broad risk weight categories: 0%, 20%, 50%, 100% and in some cases 200%, resulting in a calculation of “total risk-weighted assets”.

Peoples and Peoples Bank are required to maintain sufficient capital to meet both a risk-based asset ratio test and leverage ratio test. From time to time, the regulatory agencies may require Peoples and Peoples Bank to maintain capital above these minimum levels should certain conditions exist, such as deterioration of their financial condition or growth in assets, either actual or expected. Additional information regarding Peoples and Peoples Bank’s risk-based capital requirements and ratios can be found in Note 17 of the Notes to the Consolidated Financial Statements.

In 2004, the Basel Committee published a new capital accord to replace its 1988 capital accord (“Basel II”). Basel II provides two approaches for setting capital standards for credit risk, sets capital requirements for operational risk and refines the existing capital requirements for market risk exposures. In November 2007, the U.S. federal regulatory agencies adopted a definitive final rule for implementing Basel II in the United States. The final rule applies only to internationally active banking organizations and organizations with consolidated total assets of at least \$250 billion or consolidated on-balance sheet foreign exposures of at least \$10 billion. Currently, Peoples and Peoples Bank are not required to comply with Basel II. In July 2008, the federal banking agencies proposed rules that would allow banks other than those subject to Basel II to elect to adopt the new risk weighting methodologies. Until such rules are finalized, Peoples is unable to predict whether it will adopt the new standards.

Community Reinvestment Act

The Community Reinvestment Act of 1977 (the “CRA”) requires depository institutions to assist in meeting the credit needs of their market areas consistent with safe and sound banking practice. Under the CRA, each depository institution is required to help meet the credit needs of its market areas by, among other things, providing credit to low and moderate-income individuals and communities. Depository institutions are periodically examined for compliance with the CRA and are assigned ratings. As of December 31, 2009, the OCC’s most recent performance evaluation of Peoples Bank resulted in an overall rating of “Outstanding”.

TARP Capital Purchase Program

As discussed in more detail above under the caption “Recent Corporate Developments,” Peoples elected to participate in the TARP Capital Purchase Program and received \$39 million of new equity capital from the U.S. Treasury on January 30, 2009. As part of its participation in the TARP Capital Purchase Program, Peoples agreed to various requirements and restrictions imposed on all participants in the TARP Capital Purchase Program. Among the terms of participation was a provision that the U. S. Treasury could change the terms of participation at any time.

On February 17, 2009, President Obama signed into law the ARRA enacted by the U.S. Congress. The ARRA, among other things, imposed certain new executive compensation and corporate expenditure limits on all current and future recipients of funds under the TARP Capital Purchase Program, including Peoples, as long as any obligation arising from the financial assistance provided to the recipient under the TARP Capital Purchase Program remains outstanding, excluding any period during which the U.S. Treasury holds only warrants to purchase common stock of a

TARP participation (the "Covered Period"). On June 10, 2009, the U.S. Treasury issued an interim final rule describing how participating institutions are to comply with the executive compensation and corporate governance standards imposed by the EESA, as amended by the ARRA. On December 7, 2009, the U.S. Treasury published technical amendments to the interim final rule (collectively, the interim final rule published on June 15, 2009 and the amendments published on December 7, 2009 are referred to as the "Interim Final Rule").

The current terms of participation in the TARP Capital Purchase Program include the following:

- Peoples must file with the SEC a registration statement under the Securities Act registering for resale the Series A Preferred Shares or, in the event the Series A Preferred Shares are deposited with a depository at the request of the U.S. Treasury, depository shares evidencing fractional interests in the Series A Preferred Shares; the Warrant to purchase 313,505 Common Shares; and any Common Shares issued from time to time upon exercise of the Warrant. On March 6, 2009, Peoples filed a Registration Statement on Form S-3 to register these securities, which Registration Statement became effective on April 7, 2009.
- As long as the Series A Preferred Shares remain outstanding, unless all accrued and unpaid dividends for all past dividend periods on the Series A Preferred Shares are fully paid, Peoples will not be permitted to declare or pay dividends on any Common Shares, any junior preferred shares or, generally, any preferred shares ranking *pari passu* with the Series A Preferred Shares (other than in the case of *pari passu* preferred shares, dividends on a pro rata basis with the Series A Preferred Shares), nor will Peoples be permitted to repurchase or redeem any Common Shares or preferred shares other than the Series A Preferred Shares.
- Unless the Series A Preferred Shares have been transferred to unaffiliated third parties or redeemed in whole, until January 20, 2012, the U.S. Treasury's approval is required for any increase in Common Share dividends or any share repurchases other than repurchases of the Series A Preferred Shares, repurchases of junior preferred shares, or repurchases of Common Shares in connection with the administration of any employee benefit plan in the ordinary course of business and consistent with past practice and purchases under certain other limited circumstances specified in the Securities Purchase Agreement with the U.S. Treasury.
- Peoples must comply with the U.S. Treasury's standards for executive compensation and corporate governance during the Covered Period. The current standards include the following:
 - compensation plans and arrangements for Senior Executive Officers (as defined in the Interim Final Rule) must not encourage unnecessary and excessive risks that threaten the value of the financial institution;
 - any bonus, retention award or incentive compensation paid (or under a legally binding obligation to pay) to a Senior Executive Officer or any of Peoples' next 20 most highly-compensated employees based on materially inaccurate financial statements or other materially inaccurate performance metric criteria must be subject to recovery, or "clawback", by Peoples;
 - Peoples is prohibited from paying or accruing any bonus, retention award or incentive compensation with respect to its five most highly-compensated employees, except for grants of long-term restricted stock that do not fully vest during the Covered Period and do not have a value which exceeds one-third of an employee's total annual compensation;
 - severance payments to a Senior Executive Officer and the next five most highly-compensated employees, generally referred to as "golden parachute" payments, are prohibited, except for payments for services performed or benefits accrued;
 - compensation plans that encourage manipulation of reported earnings to enhance the compensation of any employees are prohibited;
 - Peoples is prohibited from providing (formally or informally) "gross-ups" to a Senior Executive Officer or any of Peoples' next 20 most highly-compensated employees;
 - the U.S. Treasury may retroactively review bonuses, retention awards and other compensation previously paid to a Senior Executive Officer or any of Peoples' next 20 most highly-compensated employees to determine whether such payments were inconsistent with the purposes of TARP or otherwise contrary to the public interest;
 - Peoples' compensation committee consisting of independent directors must engage in risk analysis of Senior Executive Officer and all other employee compensation plans;
 - Peoples' Board of Directors must establish a company-wide policy regarding excessive or luxury expenditures, which was adopted on August 27, 2009, and post this policy on Peoples' website;

- Peoples’ proxy statements for annual shareholder meetings must permit a non-binding “say on pay” shareholder vote on the compensation of executives, as disclosed pursuant to the compensation disclosure rules of the SEC;
- executive compensation in excess of \$500,000 for each Senior Executive Officer must not be deducted for federal income tax purposes;
- Peoples must disclose to the U.S. Treasury and Peoples’ primary regulator the amount, nature and justification for offering to any of Peoples’ five most highly-compensated employees any perquisites whose total value exceeds \$25,000;
- Peoples must disclose to the U.S. Treasury and Peoples’ primary regulator whether Peoples’ Board of Directors or the Compensation Committee engaged a compensation consultant and the service performed by that compensation consult and any of its affiliates;
- Peoples must disclose to the U.S. Treasury the identity of Peoples’ Senior Executive Officers and next 20 most highly-compensated employees, identified by name and title and ranked in descending order of annual compensation;
- Peoples must limit any Employee Compensation Plan (as defined in the Interim Final Rule) that unnecessarily exposes Peoples to risk; and
- Peoples must comply with the executive compensation reporting and recordkeeping requirements established by the U.S. Treasury.

The ARRA permits such TARP recipients, subject to consultation with the appropriate federal banking agency, to repay to the U.S. Treasury any financial assistance received under the TARP Capital Purchase Program without penalty, delay or the need to raise additional replacement capital.

Detailed information regarding the Series A Preferred Shares and the Warrant can be found in Note 11 of the Notes to the Consolidated Financial Statements.

Dividend Restrictions

Current federal banking regulations impose restrictions on Peoples Bank’s ability to pay dividends to Peoples. These restrictions include a limit on the amount of dividends that may be paid in a given year without prior approval of the OCC and a prohibition on paying dividends that would cause Peoples Bank’s total capital to be less than the required minimum levels under the risk-based capital requirements imposed by the OCC. Peoples Bank’s regulators may prohibit the payment of dividends at any time if the regulators determine the dividends represent unsafe and/or unsound banking practices or reduce Peoples Bank’s total capital below adequate levels. For further discussion regarding regulatory restrictions on dividends, see Note 17 of the Notes to the Consolidated Financial Statements.

Peoples’ ability to pay dividends to its shareholders may also be restricted. Current Federal Reserve Board policy requires a financial holding company to act as a source of financial strength to each of its banking subsidiaries. Under this policy, the Federal Reserve Board may require Peoples to commit resources or contribute additional capital to Peoples Bank, which could restrict the amount of cash available for dividends. In 2009, the Federal Reserve Board issued guidance and regulations on the declaration and payment of dividends by bank holding companies, which included conditions under which a bank holding company must provide advance notification of its intention to declare and pay dividends.

Peoples also has entered into certain agreements that place restrictions on dividends. Specifically, Peoples will be prohibited from paying dividends on its Common Shares if it suspends interest payments related to the trust preferred securities issued by its trust subsidiary. Additional information regarding Peoples’ trust subsidiary can be found in Note 10 of the Notes to the Consolidated Financial Statements. The dividend rights of holders of Peoples’ Common Shares are also qualified and subject to the dividend rights of holders of Series A Preferred Shares described above under the caption “Supervision and Regulation – TARP Capital Purchase Program”.

Even when the legal ability exists, Peoples or Peoples Bank may decide to limit the payment of dividends in order to retain earnings for corporate use.

Customer Privacy and Other Consumer Protections

Peoples Bank is subject to regulations limiting the ability of financial institutions to disclose non-public information about consumers to nonaffiliated third parties. These limitations require disclosure of privacy policies to consumers and, in some circumstances, allow consumers to prevent disclosure of certain personal information to a nonaffiliated party. Peoples Bank is also subject to numerous federal and state laws aimed at protecting consumers, including the Home

Mortgage Disclosure Act, the Real Estate Settlement Procedures Act, the Equal Credit Opportunity Act, the Truth in Lending Act, the Bank Secrecy Act, the Community Reinvestment Act and the Fair Credit Reporting Act.

USA Patriot Act

The Uniting and Strengthening of America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 (the “USA Patriot Act”) and related regulations, among other things, require financial institutions to establish programs specifying procedures for obtaining identifying information from customers and establishing enhanced due diligence policies, procedures and controls designed to detect and report suspicious activity. Peoples Bank has established policies and procedures that Peoples believes comply with the requirements of the USA Patriot Act.

Monetary Policy

The Federal Reserve Board regulates money and credit conditions and interest rates in order to influence general economic conditions primarily through open market operations in U.S. government securities, changes in the discount rate on bank borrowings, and changes in the reserve requirements against depository institutions’ deposits. These policies and regulations significantly affect the overall growth and distribution of loans, investments and deposits, as well as interest rates charged on loans and paid on deposits.

The monetary policies of the Federal Reserve Board have had a significant effect on the operating results of financial institutions in the past and are expected to continue to have significant effects in the future. In view of the changing conditions in the economy, the money markets and the activities of monetary and fiscal authorities, Peoples can make no definitive predictions as to future changes in interest rates, credit availability or deposit levels.

Regulatory Reform

In June 2009, President Obama’s administration proposed a wide range of regulatory reforms that, if enacted, may have significant effects on the financial services industry in the United States. Key aspects of the proposed reforms include, among other things, proposals to: (i) reassess and increase capital requirements for banks and bank holding companies and examine the types of instruments that qualify as regulatory capital; (ii) combine the OCC and the Office of Thrift Supervision into a national bank supervisor with a unified federal bank charter; (iii) expand the current eligibility requirements for financial holding companies so that a financial holding company must be “well capitalized” and “well managed” on a consolidated basis; (iv) create a federal consumer financial protection agency to be the primary federal consumer protection supervisor with broad examination, supervision and enforcement authority with respect to consumer financial products and services; (v) further limit the ability of banks to engage in transactions with affiliates; and (vi) subject all “over-the-counter” derivatives markets to comprehensive regulation.

The U.S. Congress, state lawmaking bodies and federal and state regulatory agencies continue to consider a number of wide-ranging and comprehensive proposals for altering the structure, regulation and competitive relationships of the financial institutions, including rules and regulations related to the Obama administration’s proposals. Separate comprehensive financial reform bills intended to address the proposals of the Obama administration were introduced in both houses of Congress in the second half of 2009 and remain under review by both the U.S. House of Representatives and the U.S. Senate. Peoples cannot predict whether or in what form further legislation or regulations may be adopted or the extent to which Peoples’ business activities could be affected.

Website Access to Peoples’ SEC Filings

Peoples maintains an Internet website at www.peoplesbancorp.com (this uniform resource locator, or URL, is an inactive textual reference only and is not intended to incorporate Peoples’ Internet website into this Form 10-K). Peoples makes available free of charge on or through its website, its annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Exchange Act, as soon as reasonably practicable after Peoples electronically files each such report or amendment with, or furnishes it to, the SEC.

ITEM 1A. RISK FACTORS

The following are certain risks that management believes are specific to Peoples’ business. This should not be viewed as an all-inclusive list of risks or presenting the risk factors listed in any particular order.

- **Current conditions in the financial markets, the real estate markets and economic conditions generally may adversely affect Peoples’ business.**

Beginning in the latter half of 2007 and continuing into 2010, negative developments in the capital markets resulted in uncertainty in the financial markets and an economic downturn. The housing market declined, resulting in decreasing

home prices and increasing delinquencies and foreclosures. The credit performance of mortgage and construction loans resulted in significant write-downs of asset values by financial institutions, including government-sponsored entities and major commercial and investment banks. The declines in the performance and value of mortgage assets encompassed all mortgage and real estate asset types, leveraged bank loans and nearly all other asset classes, including equity securities. These write-downs have caused many financial institutions to seek additional capital or to merge with larger and stronger institutions. Some financial institutions have failed.

Concerns over the stability of the financial markets and the economy have resulted in decreased lending by some financial institutions to their customers and to each other. This tightening of credit has led to increased loan delinquencies, lack of customer confidence, increased market volatility and a widespread reduction in general business activity. Competition among depository institutions for deposits has increased significantly, and access to deposits or borrowed funds has decreased for many institutions. It has also become more difficult to assess the creditworthiness of customers and to estimate the losses inherent in Peoples' loan portfolio.

The United States remains in a recession. Business activity across a wide range of industries and regions is greatly reduced, and local governments and many companies are in serious difficulty due to the lack of consumer spending and the lack of liquidity in the credit markets. A worsening of current conditions would likely adversely affect Peoples' business and results of operations, as well as those of its customers. As a result, Peoples may experience increased foreclosures, delinquencies and customer bankruptcies, as well as more restricted access to funds.

- **Enactment of new legislation and increased regulatory oversight may significantly affect Peoples' financial condition and results of operations.**

The Federal Reserve Board, U.S. Congress, the U.S. Treasury, the FDIC and others have taken numerous actions to address the current liquidity and credit situation in the financial markets. These measures include actions to encourage loan restructuring and modification for homeowners; the establishment of significant liquidity and credit facilities for financial institutions and investment banks; the lowering of the federal funds rate; and coordinated efforts to address liquidity and other weaknesses in the banking sector. The long-term effect of actions already taken as well as new legislation is unknown. Continued or renewed instability in the financial markets could weaken public confidence in financial institutions and adversely affect Peoples' ability to attract and retain new customers.

Further, the U.S. Congress is considering several legislative proposals that, if enacted, could cause Peoples to make adverse changes to its business practices related to loans and deposits. Specifically, proposed legislation would alter contractual rights and obligations of both Peoples and its customers under existing loan contracts by reducing amounts customers are required to pay or limiting Peoples' ability to foreclose on collateral. Other legislation would impact how Peoples assesses certain fees on deposit accounts, such as overdraft fees. There can be no assurance that future legislation will not significantly impact Peoples' ability to collect on its current loans and/or foreclose on collateral or require changes to business practices that would reduce the amount of revenue recognized in future periods.

- **Adverse changes in national and/or local economic and political conditions could impact Peoples' earnings and financial condition.**

Peoples' success depends, to a certain extent, upon economic and political conditions, local and national, as well as governmental fiscal and monetary policies. Inflation, recession, unemployment, changes in interest rates, money supply and other factors beyond Peoples' control may adversely affect its asset quality, deposit levels and loan demand and, therefore, Peoples' financial condition and results of operations. Because a significant amount of Peoples' loans are secured by either commercial or residential real estate, additional decreases in real estate values could adversely affect the value of property used as collateral and Peoples' ability to sell the collateral upon foreclosure. Adverse changes in the economy may also have a negative effect on the ability of Peoples' borrowers to make timely repayments of their loans, which would have an adverse impact on Peoples' earnings and cash flows.

The local economies of the majority of Peoples' market area historically have been less robust than the economy of the nation as a whole and typically are not subject to the same fluctuations as the national economy. Adverse economic conditions in Peoples' market area, including the loss of certain significant employers, could reduce Peoples' growth rate, affect borrowers' ability to repay their loans and generally affect Peoples' financial condition and results of operations. Furthermore, continued declines in real estate values could cause additional loans to become under-collateralized and require further increases to the allowance for loan losses.

- **Adverse changes in the financial markets may adversely impact Peoples' results of operations.**

The global financial markets have experienced increased volatility and an overall loss of investor confidence for the last two years. While Peoples generally invests in securities with limited credit risk, certain investment securities Peoples hold possess higher credit risk since they represent beneficial interests in structured investments collateralized by residential mortgages, debt obligations and other similar asset-backed assets. Regardless of the level of credit risk, all investment securities are subject to changes in market value due to changing interest rates and implied credit spreads.

Over the last few years, structured investments, like Peoples' collateralized debt obligations, have been subject to significant market volatility due to the uncertainty of the credit ratings, deterioration in credit losses occurring within certain types of residential mortgages, changes in prepayments of the underlying collateral and the lack of transparency related to the investment structures and the collateral underlying the structured investment vehicles. These conditions have resulted in Peoples' recognizing impairment charges on certain investment securities during 2007, 2008 and 2009. Given recent market conditions and changing economic factors, Peoples may be required to recognize additional impairment changes on securities held in its investment portfolio in the future.

- **Recent levels of market volatility are unprecedented.**

For more than two years, the capital and credit markets have been experiencing unprecedented levels of volatility. In some cases, share prices and credit availability for certain issuers have declined without regard to those issuers' underlying financial strength. If current levels of market disruption and volatility continue or worsen, Peoples may experience a material adverse effect on its ability to access capital and on its business, financial condition and results of operations.

- **Defaults by larger financial institutions could adversely affect Peoples' business, earnings and financial condition.**

The commercial soundness of many financial institutions may be closely interrelated as a result of relationships between and among the institutions. As a result, concerns about, or a default or threatened default by, one institution could lead to significant market-wide liquidity and credit problems, losses or defaults by other institutions. This "systemic risk" may adversely affect Peoples' business.

Additionally, Peoples' investment portfolio continues to include investments in individual bank-issued trust preferred securities and collateralized debt obligations, comprised mostly of bank-issued trust preferred securities. Under current market conditions, the fair value of these security types is based predominately on the present value of cash flows expected to be received in future periods. Significant defaults by other financial institutions could adversely affect conditions within the financial services industry, thereby causing investors to require higher rates of return for these investments. These factors could cause Peoples to recognize additional impairment losses on its investment in bank-issued trust preferred securities in future periods.

- **Increases in FDIC insurance premiums may have a material adverse affect on Peoples' earnings.**

The number of bank failures increased significantly in 2008 and 2009, which dramatically increased resolution costs of the FDIC and depleted the Deposit Insurance Fund. Also during this period, the FDIC and U.S. Congress have instituted two temporary programs to further insure customer deposits at FDIC-member banks: deposit accounts are now insured up to \$250,000 per customer (up from \$100,000) and non-interest-bearing transactional accounts are fully insured (unlimited coverage). These actions have placed additional stress on the Deposit Insurance Funds. On January 1, 2014, the standard insurance amount will return to \$100,000 per depositor for all account categories except Individual Retirement Accounts and certain other retirement accounts, which will remain at \$250,000 per depositor.

Since late 2008, the FDIC has taken various actions intended to maintain a strong funding position and restore reserve ratios of the Deposit Insurance Fund. These actions included increasing assessment rates for all insured institutions, requiring riskier institutions to pay a larger share of premiums by factoring in rate adjustments based on secured liabilities and unsecured debt levels, imposing a special assessment on all insured depository institutions for the second quarter of 2009 and requiring insured depository institutions to prepay their quarterly risk-based assessments for the fourth quarter of 2009 and full years 2010 through 2012 on December 29, 2009. In January 2010, the FDIC issued an advance notice of proposed rule-making asking for comments on how the FDIC's risk-based deposit insurance assessment system could be changed to include the risks of certain employee compensation as criteria in the assessment system.

Peoples has limited ability to control the amount of premiums it is required to pay for FDIC insurance. If there are additional financial institution failures, the FDIC may be required to increase assessment rates from the recently increased levels or take actions similar to those taken during 2009. As a result, insured depository institutions, including Peoples, may be required to pay even higher FDIC premiums in future periods. Increases in FDIC insurance premiums may materially adversely affect Peoples' results of operations and ability to continue to pay dividends on its common shares at the current rate or at all.

- **The Series A Preferred Shares impact net income available to Peoples' common shareholders, and the Warrant may be dilutive to Peoples' common shareholders.**

The additional capital Peoples raised through its participation in the TARP Capital Purchase Program has provided further funding for its lending activities. Management also believes this capital has improved investor perceptions with regard to Peoples' financial position. However, such capital has increased Peoples' equity and the number of dilutive outstanding common shares. In addition, the dividends declared and the accretion of discount on the Series A Preferred

Shares reduces the net income available to Peoples' common shareholders and earnings per common share. The Series A Preferred Shares will also receive preferential treatment in the event of Peoples' liquidation, dissolution or winding up. Additionally, the ownership interest of Peoples' existing common shareholders will be diluted to the extent the Warrant Peoples issued to the U.S. Treasury is exercised. Although the U.S. Treasury has agreed not to vote any of the common shares it receives upon exercise of the Warrant, a transferee of any portion of the Warrant or of any common shares acquired upon exercise of the Warrant is not bound by this agreement.

- **If Peoples is unable to redeem the Series A Preferred Shares after five years, the cost of this capital will increase substantially.**

If Peoples is unable to redeem the Series A Preferred Shares prior to February 15, 2014, the cost of this capital will increase substantially on that date, from 5.0% per annum to 9.0% per annum. Depending on Peoples' financial condition at the time, this increase in the annual dividend rate on the Series A Preferred Shares could have a material negative effect on Peoples' liquidity.

- **Changes in interest rates may adversely affect Peoples' profitability.**

Peoples' earnings are dependent to a significant degree on net interest income, which is the amount by which interest income exceeds interest expense. Interest rates are highly sensitive to many factors that are beyond Peoples' control, including general economic conditions and policies of various governmental and regulatory agencies and, in particular, the Federal Reserve Board. Changes in monetary policy, including changes in interest rates, could influence not only the interest Peoples receives on loans and securities and the amount of interest it pays on deposits and borrowings, but such changes could also affect (i) Peoples' ability to originate loans and obtain deposits, (ii) the fair value of Peoples' financial assets and liabilities, and (iii) the average duration of Peoples' mortgage-backed securities portfolio. If the interest rates paid on deposits and other borrowings increase at a faster rate than the interest rates received on loans and other investments, Peoples' net interest income and, therefore, earnings could be adversely affected. Earnings could also be adversely affected if the interest rates received on loans and other investments fall more quickly than the interest rates paid on deposits and other borrowings.

Management uses various measures to monitor interest rate risk and believes it has implemented effective asset and liability management strategies to reduce the potential effects of changes in interest rates on Peoples' results of operations. Management also periodically adjusts the mix of assets and liabilities to manage interest rate risk. However, any substantial, unexpected, prolonged change in market interest rates could have a material adverse effect on Peoples' financial condition and results of operations. See the sections captioned "Interest Income and Expense" and "Interest Rate Sensitivity and Liquidity" in Item 7 of this Form 10-K for further discussion related to Peoples' interest rate risk.

- **Peoples' exposure to credit risk could adversely affect Peoples' earnings and financial condition.**

There are certain risks inherent in making loans. These risks include interest rate changes over the time period in which loans may be repaid, risks resulting from changes in the economy, risks inherent in dealing with borrowers and, in the case of loans secured by collateral, risks resulting from uncertainties about the future value of the collateral.

Commercial and commercial real estate loans comprise a significant portion of Peoples' loan portfolio. Commercial loans generally are viewed as having a higher credit risk than residential real estate or consumer loans because they usually involve larger loan balances to a single borrower and are more susceptible to a risk of default during an economic downturn. Since Peoples' loan portfolio contains a significant number of commercial and commercial real estate loans, the deterioration of one or a few of these loans could cause a significant increase in nonperforming loans, and ultimately could have a material adverse effect on Peoples' earnings and financial condition.

In deciding whether to extend credit or enter into other transactions with customers and counterparties, Peoples may rely on information provided to us by customers and counterparties, including financial statements and other financial information. Peoples may also rely on representations of customers and counterparties as to the accuracy and completeness of that information and, with respect to financial statements, on reports of independent auditors. For example, in deciding whether to extend credit to a business, Peoples may assume that the customer's audited financial statements conform with accounting principles generally accepted in the United States ("US GAAP") and present fairly, in all material respects, the financial condition, results of operations and cash flows of the customer. Peoples may also rely on the audit report covering those financial statements. Peoples' financial condition, results of operations and cash flows could be negatively impacted to the extent that Peoples relies on financial statements that do not comply with US GAAP or on financial statements and other financial information that are materially misleading.

- **Peoples' allowance for loan losses may be insufficient.**

Peoples maintains an allowance for loan losses to provide for probable loan losses based on management's quarterly analysis of the loan portfolio. The determination of the allowance for loan losses requires management to make various assumptions and judgments about the collectibility of Peoples' loan portfolio, including the creditworthiness of its

borrowers and the value of the real estate and other assets serving as collateral for the repayment of loans. Additional information regarding Peoples' allowance for loan losses methodology and the sensitivity of the estimates can be found in the discussion of Peoples' "Critical Accounting Policies" included in Item 7 of this Form 10-K.

Peoples' estimation of future loan losses is susceptible to changes in economic, operating and other conditions, including changes in interest rates, which may be beyond Peoples' control, and these losses may exceed current estimates. Peoples cannot fully predict the amount or timing of losses or whether the loan loss allowance will be adequate in the future.

If Peoples' assumptions prove to be incorrect, Peoples' allowance for loan losses may not be sufficient to cover losses inherent in its loan portfolio, resulting in additions which could have a material adverse impact on Peoples' financial condition and results of operations. In addition, federal and state regulators periodically review Peoples' allowance for loan losses as part of their examination process and may require management to increase the allowance or recognize further loan charge-offs based on judgments different than those of management. Any increase in the provision for loan losses would decrease Peoples' pretax and net income.

- **Changes in accounting standards, policies, estimates or procedures may impact Peoples' reported financial condition or results of operations.**

The accounting standard setters, including the Financial Accounting Standards Board, the SEC and other regulatory bodies, periodically change the financial accounting and reporting standards that govern the preparation of Peoples' Consolidated Financial Statements. These changes can be difficult to predict and can materially impact how Peoples records and reports its financial condition and results of operations. In some cases, Peoples could be required to apply a new or revised standard retroactively, resulting in the restatement of prior period financial statements.

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make significant estimates that affect the financial statements. Due to the inherent nature of these estimates, no assurance can be given that Peoples will not be required to recognize significant, unexpected losses due to actual results varying materially from management's estimates. Additional information regarding Peoples' critical accounting policies and the sensitivity of estimates can be found in the section captioned "Critical Accounting Policies" in Item 7 of this Form 10-K.

- **The financial services industry is very competitive.**

Peoples experiences significant competition in originating loans, principally from other commercial banks, savings associations and credit unions. Several of Peoples' competitors have greater resources, larger branch systems and a wider array of banking services. This competition could reduce Peoples' net income by decreasing the number and size of loans that Peoples originates and the interest rates it may charge on these loans. Moreover, technology and other changes are allowing businesses and individuals to utilize alternative methods to complete financial transactions that historically have involved banks. For example, consumers can now maintain funds in brokerage accounts or mutual funds that in the past had been held as bank deposits. Consumers can also complete transactions such as paying bills and/or transferring funds directly without the assistance of banks. The process of eliminating the use of banks to complete financial transactions could result in the loss of fee income, as well as the loss of customer deposits and the related income generated from those deposits. The loss of these revenue streams and the lower cost deposits as a source of funds could have a material adverse effect on Peoples' financial condition and results of operations. For a more complete discussion of Peoples' competitive environment, see "Competition" in Item 1 of this Form 10-K. If Peoples is unable to compete effectively, Peoples would lose market share, which could reduce income generated from deposits, loans and other products.

- **Peoples' ability to pay dividends is limited.**

Peoples is a separate and distinct legal entity from Peoples' subsidiaries. Peoples receives nearly all of its revenue from dividends from Peoples Bank, which are limited by federal banking laws and regulations. These dividends also serve as the primary source of funds to pay dividends on Peoples' common shares. The inability of Peoples Bank to pay sufficient dividends to Peoples could have a material, adverse effect on its business. In addition, Peoples' participation in the U.S. Treasury's TARP Capital Purchase Program currently restricts the ability to increase the dividend payable to holders of common shares above \$0.23 per share without prior approval of the U.S. Treasury. Further discussion of Peoples' ability to pay dividends can be found under the captions "Supervision and Regulation – TARP Capital Purchase Program" and "Supervision and Regulation – Dividend Restrictions" in Item 1 of this Form 10-K and Note 17 of the Notes to the Consolidated Financial Statements.

- **Government regulation significantly affects Peoples' business.**

The banking industry is heavily regulated under both federal and state law. Peoples is subject to regulation and supervision by the Federal Reserve Board, and Peoples Bank is subject to regulation and supervision by the OCC, and

secondarily the FDIC. These regulations are primarily intended to protect depositors and the federal deposit insurance funds, not Peoples' common shareholders. Peoples' non-bank subsidiaries are also subject to the supervision of the Federal Reserve Board, in addition to other regulatory and self-regulatory agencies including the SEC and state securities and insurance regulators. Regulations affecting banks and financial services businesses are undergoing continuous change, and management cannot predict the effect of those changes. Regulations and laws may be modified at any time, and new legislation may be enacted that affects Peoples and its subsidiaries. Any modifications or new laws could adversely affect Peoples' business. Further information about government regulation of Peoples' business can be found under the caption "Supervision and Regulation" in Item 1 of this Form 10-K.

Legislation has been proposed on both the federal and the state levels that could substantially increase the regulation of the financial services industry. A substantial overhaul of the regulatory system in the United States is possible within the next few years. Peoples is unable to predict the likelihood, timing or details of any of these initiatives. Any such action could affect Peoples in unpredictable ways and have a material adverse effect on its financial condition and results of operations.

- **Peoples is subject to several restrictions on compensation paid to Peoples' executive officers because of its participation in the TARP Capital Purchase Program.**

As a recipient of government funding under the TARP Capital Purchase Program, Peoples must comply with the executive compensation and corporate governance standards imposed by the ARRA and the standards established by the Secretary of the Treasury under the ARRA. The restrictions on executive compensation under these standards are more fully described in Item 1 of this Form 10-K under the caption "Supervision and Regulation – TARP Capital Purchase Program." These standards could impact Peoples' ability to hire or retain key executives or cause Peoples to make material changes to its current compensation plans and philosophy that could result in higher compensation costs in future periods.

- **Peoples' business could be adversely affected by material breaches in security of its systems.**

Peoples collects, processes and stores sensitive consumer data by utilizing computer systems and telecommunications networks operated by both us and third party service providers. Peoples has security and backup and recovery systems in place, as well as a business continuity plan, to ensure the computer systems will not be inoperable, to the extent possible. Peoples also has implemented security controls to prevent unauthorized access to the computer systems and requires Peoples' third party service providers to maintain similar controls. However, management cannot be certain these measures will be successful. A security breach of the computer systems and release of confidential information, such as customer account numbers and related information, could negatively affect customers' confidence in Peoples, which may cause a loss of business, and could result in Peoples' incurring financial losses for any fraudulent transactions completed by third parties due to the security breach.

- **Anti-takeover provisions may delay or prevent an acquisition or change in control by a third party.**

Provisions in the Ohio General Corporation Law and Peoples' amended articles of incorporation and code of regulations, including a staggered board and a supermajority vote requirement for significant corporate changes, could discourage potential takeover attempts and make attempts by shareholders to remove Peoples' Board of Directors and management more difficult. These provisions may also have the effect of delaying or preventing a transaction or change in control that might be in the best interests of Peoples' shareholders

- **Peoples and its subsidiaries are subject to examinations and challenges by tax authorities.**

In the normal course of business, Peoples and its subsidiaries are routinely subject to examinations and challenges from federal and state tax authorities regarding positions taken regarding their respective tax returns. State tax authorities have become increasingly aggressive in challenging tax positions taken by financial institutions, especially those positions relating to tax compliance and calculation of taxes subject to apportionment. Any challenge or examination by a tax authority may result in adjustments to the timing or amount of taxable net worth or taxable income or deductions or the allocation of income among tax jurisdictions.

Management believes it has taken appropriate positions on all tax returns filed, to be filed or not filed and does not anticipate any examination would have a material impact on Peoples' Consolidated Financial Statements. However, the outcome of such examinations and ultimate resolution of any resulting assessments are inherently difficult to predict. Thus, no assurance can be given that Peoples' tax liability for any tax year open to examination will not be different than what is reflected in Peoples' current and historical Consolidated Financial Statements. Further information can be found in the "Critical Accounting Policies – Income Taxes" section of "Management's Discussion and Analysis of Results of Operation and Financial Condition" included in this Form 10-K.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 2. PROPERTIES

Peoples' sole banking subsidiary, Peoples Bank, generally owns its offices, related facilities and unimproved real property. In Ohio, Peoples Bank operates offices in Marietta (4 offices), Belpre (2 offices), Lowell, Reno, Nelsonville, Athens (3 offices), The Plains, Middleport, Pomeroy (2 offices), Gallipolis, Cambridge (2 offices), Byesville, Quaker City, Flushing, Caldwell, McConnelsville, Baltimore, Carroll, Lancaster (2 offices), Westerville and Zanesville. In West Virginia, Peoples Bank operates offices in Huntington (2 offices), Parkersburg (3 offices), Vienna, Point Pleasant (2 offices), New Martinsville (2 offices) and Steelton. In Kentucky, Peoples Bank's office locations include Greenup, Summit, Ashland and Russell. Of these 45 offices, 15 are leased and the rest are owned by Peoples Bank.

Peoples Insurance Agency rents office space in various Peoples Bank offices. In addition, Peoples Insurance Agency leases office buildings in Marietta, Ohio, and Ashland, Kentucky.

Rent expense on the leased properties totaled \$894,000 in 2009, which excludes intercompany rent expense. The following are the only properties that have a lease term expiring on or before June 2011:

<u>Location</u>	<u>Address</u>	<u>Lease Expiration Date</u> ^(a)
Westerville Office	515 Executive Campus Drive Westerville, Ohio	April 2010
Lancaster Wheeling Street Office	117 West Wheeling Street Lancaster, Ohio	June 2010
Athens Union Street Office	152 West Union Street Athens, Ohio	January 2011
Lancaster Fair Avenue Office	2211 West Fair Avenue Lancaster, Ohio	March 2011
Marietta Kroger Office	40 Acme Street Marietta, Ohio	March 2011

^(a) Information represents the ending date of the current lease period. Peoples may have the option to renew the lease beyond this date under the terms of the lease agreement and intends to renew all expiring leases unless otherwise disclosed in this Item 2.

Additional information concerning the property and equipment owned or leased by Peoples and its subsidiaries is incorporated herein by reference from Note 5 of the Notes to the Consolidated Financial Statements.

ITEM 3. LEGAL PROCEEDINGS

In the ordinary course of their respective businesses or operations, Peoples or one of its subsidiaries may be named as a plaintiff, a defendant, or a party to a legal proceeding or any of their respective properties may be subject to various pending and threatened legal proceedings and various actual and potential claims. In view of the inherent difficulty of predicting the outcome of such matters, Peoples cannot state what the eventual outcome of any such matters will be; however, based on current knowledge and after consultation with legal counsel, management believes that these proceedings will not have a material adverse effect on the consolidated financial position, results of operations or liquidity of Peoples.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

None.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Peoples' common shares are traded on The NASDAQ Global Select Market under the symbol PEBO. At December 31, 2009, Peoples had 1,187 shareholders of record. The table presented below provides the high and low sales prices for Peoples' common shares as reported on The NASDAQ Global Select Market and the cash dividends per share declared for the indicated periods.

	High Sales	Low Sales	Dividends Declared
2009			
Fourth Quarter	\$ 13.52	\$ 8.51	\$ 0.10
Third Quarter	18.70	13.05	0.10
Second Quarter	19.01	12.25	0.23
First Quarter	19.92	7.25	0.23
2008			
Fourth Quarter	\$ 22.92	\$ 13.59	\$ 0.23
Third Quarter	29.25	17.33	0.23
Second Quarter	25.75	18.33	0.23
First Quarter	26.10	20.38	0.22

Peoples plans to continue to pay quarterly cash dividends, subject to certain regulatory restrictions described in Note 17 of the Notes to the Consolidated Financial Statements, as well as in the sections captioned "Supervision and Regulation-TARP Capital Purchase Program" and "Supervision and Regulation-Dividend Restrictions" of Item 1 of this Form 10-K. On January 28, 2010, Peoples' Board of Directors determined that, effective with the first calendar quarter of 2010, the decision as to whether a cash dividend should be declared in respect of Peoples' common shares would be made in the third month of each calendar quarter. Any dividends so declared would be paid to shareholders in the subsequent month. Historically, Peoples' Board of Directors had declared a cash dividend in respect of Peoples' common shares, when appropriate, in the second month of each calendar quarter.

Issuer Purchases of Equity Securities

The following table details Peoples' repurchases and purchases by "affiliated purchasers" as defined in Rule 10b-18(a)(3) under the Securities Exchange Act of 1934, as amended, of Peoples' common shares during the three months ended December 31, 2009:

	(a) Total Number of Common Shares Purchased	(b) Average Price Paid per Share	(c) Total Number of Common Shares Purchased as Part of Publicly Announced Plans or Programs ⁽¹⁾	(d) Maximum Number of Common Shares that May Yet Be Purchased Under the Plans or Programs ⁽¹⁾
October 1 – 31, 2009	2,727 ⁽²⁾	\$ 11.55 ⁽²⁾	–	–
November 1 – 30, 2009	–	\$ –	–	–
December 1 – 31, 2009	2,806 ⁽²⁾	\$ 9.98 ⁽²⁾	–	–
Total	5,533	\$ 10.75	–	–

⁽¹⁾ Peoples' Board of Directors has not authorized any stock repurchase plans or programs for 2009, due in part to the restrictions on stock repurchases imposed by the terms of the TARP Capital Investment.

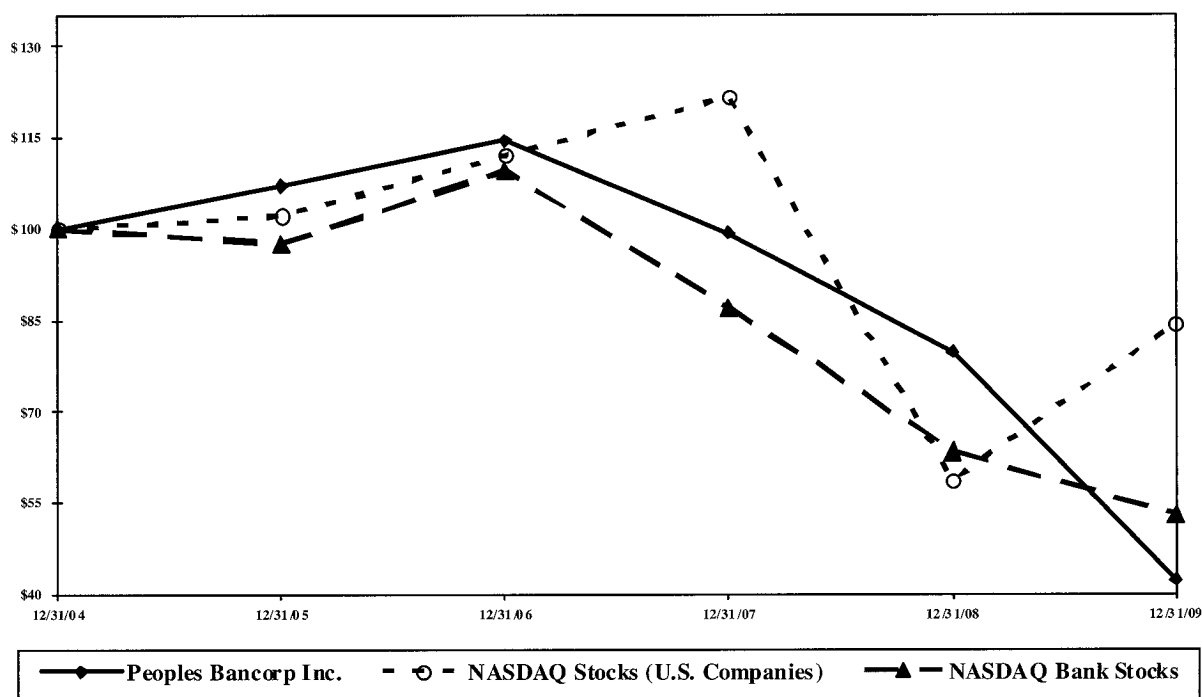

⁽²⁾ Information reflects solely common shares purchased in open market transactions by Peoples Bank under the Rabbi Trust Agreement establishing a rabbi trust holding assets to provide funds for the payment of the benefits under the Peoples

Performance Graph

The following Performance Graph and related information shall not be deemed “soliciting material” or to be “filed” with the Securities and Exchange Commission, nor shall such information be deemed to be incorporated by reference into any future filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, each as amended, except to the extent that Peoples specifically incorporates it by reference into such filing.

The following line graph compares the five-year cumulative total shareholder return of Peoples’ common shares, based on an initial investment of \$100 on December 31, 2004, and assuming reinvestment of dividends, against that of an index comprised of all domestic common shares traded on The NASDAQ Stock Market (“NASDAQ Stocks (U.S. Companies)”), and an index comprised of all depository institutions (SIC Code #602) and depository institution holding companies (SIC Code #671) that are traded on The NASDAQ Stock Market (“NASDAQ Bank Stocks”).

⁽¹⁾ Amounts relate to preferred shares issued and sold by Peoples in connection with its participation in the TARP Capital Purchase Program. Additional information regarding the preferred shares can be found in Note 11 of the Notes to the Consolidated Financial Statements.

⁽²⁾ These amounts represent non-GAAP measures since they exclude the balance sheet impact of intangible assets acquired through acquisitions on both total stockholders' equity and total assets. Additional information regarding the calculation of these measures can be found later in the Management's Discussion and Analysis section under the caption "Capital/Stockholders' Equity".

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

Forward-Looking Statements

Certain statements in this Form 10-K which are not historical fact are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, Section 21E of the Securities Exchange Act of 1934, as amended, and the Private Securities Litigation Reform Act of 1995. Words such as "anticipate", "estimates", "may", "feels", "expects", "believes", "plans", "will", "would", "should", "could" and similar expressions are intended to identify these forward-looking statements but are not the exclusive means of identifying such statements. Forward-looking statements are subject to risks and uncertainties that may cause actual results to differ materially. Factors that might cause such a difference include, but are not limited to:

- (1) continued deterioration in the credit quality of Peoples' loan portfolio could occur due to a number of factors, such as adverse changes in economic conditions that impair the ability of borrowers to repay their loans, the underlying value of the collateral could prove less valuable than otherwise assumed and assumed cash flows may be worse than expected, which may adversely impact the provision for loan losses;
- (2) competitive pressures among financial institutions or from non-financial institutions, which may increase significantly;
- (3) changes in the interest rate environment, which may adversely impact interest margins;
- (4) changes in prepayment speeds, loan originations, sale volumes and charge-offs, which may be less favorable than expected and adversely impact the amount of interest income generated;
- (5) general economic conditions and weakening in the real estate market, either nationally or in the states in which Peoples and its subsidiaries do business, which may be less favorable than expected;
- (6) political developments, wars or other hostilities, which may disrupt or increase volatility in securities markets or other economic conditions;
- (7) legislative or regulatory changes or actions, which may adversely affect the business of Peoples and its subsidiaries;
- (8) changes in accounting standards, policies, estimates or procedures may adversely affect Peoples' reported financial condition or results of operations;
- (9) adverse changes in the conditions and trends in the financial markets, which may adversely affect the fair value of securities within Peoples' investment portfolio;
- (10) a delayed or incomplete resolution of regulatory issues that could arise;
- (11) Peoples' ability to receive dividends from its subsidiaries;
- (12) Peoples' ability to maintain required capital levels and adequate sources of funding and liquidity;
- (13) the impact of larger or similar financial institutions encountering problems, which may adversely affect the banking industry and/or Peoples;
- (14) the impact of reputational risk created by these developments on such matters as business generation and retention, funding and liquidity;
- (15) the costs and effects of regulatory and legal developments, including the outcome of regulatory or other governmental inquiries and legal proceedings and results of regulatory examinations; and
- (16) other risk factors relating to the banking industry or Peoples as detailed from time to time in Peoples' reports filed with the Securities and Exchange Commission ("SEC"), including those risk factors included in the disclosure under the heading "ITEM 1A. RISK FACTORS" of Part I of this Form 10-K.

All forward-looking statements speak only as of the filing date of this Form 10-K and are expressly qualified in their entirety by the cautionary statements. Although management believes the expectations in these forward-looking statements are based on reasonable assumptions within the bounds of management's knowledge of Peoples' business and operations, it is possible that actual results may differ materially from these projections. Additionally, Peoples undertakes no obligation to update these forward-looking statements to reflect events or circumstances after the filing date of this Form 10-K or to reflect the occurrence of unanticipated events except as may be required by applicable legal requirements. Copies of documents filed with the SEC are available free of charge at the SEC's website at <http://www.sec.gov> and/or from Peoples Bancorp's website.

The following discussion and analysis of Peoples' Consolidated Financial Statements is presented to provide insight into management's assessment of the financial results. This discussion and analysis should be read in conjunction with the audited Consolidated Financial Statements and Notes thereto, as well as the ratios and statistics, contained elsewhere in this Form 10-K.

Summary of Recent Transactions and Events

The following is a summary of recent transactions or events that have impacted or are expected to impact Peoples' results of operations or financial condition:

- Peoples recognized other-than-temporary impairment losses on certain investment securities, totaling \$7.7 million, \$4.3 million and \$6.2 million in 2009, 2008 and 2007, respectively. These impairment losses related to Peoples' investments in collateralized debt obligation ("CDO") securities, individual bank-issued trust preferred securities and preferred stocks issued by the Federal National Mortgage Association ("Fannie Mae") and the Federal Home Loan Mortgage Corporation ("Freddie Mac").
- During 2009, the Board of Directors of the Federal Deposit Insurance Corporation ("FDIC") took steps to rebuild the Deposit Insurance Fund, which has been reduced substantially by the higher rate of bank failures in 2008 and 2009 compared to recent years. These actions affected all FDIC-insured depository institutions and included increasing base assessment rates beginning April 1, 2009, collecting a one-time special assessment on September 30, 2009, and requiring the prepayment of assessments for fourth quarter 2009 and full years 2010 through 2012 on December 29, 2009. As a result of the FDIC's actions, Peoples recorded FDIC insurance expense of \$3.4 million in 2009, of which \$930,000 related to the special assessment, versus \$361,000 and \$146,000 in 2008 and 2007, respectively. Additionally, Peoples prepaid \$9.0 million of FDIC assessments on December 29, 2009, which was recorded as a prepaid expense included in "Other Assets" on the Consolidated Balance Sheets. This prepayment did not have a material adverse effect on Peoples' liquidity, financial condition or results of operations.
- Peoples' Board of Directors declared quarterly cash dividends of \$0.10 per common share for both the third and fourth quarters of 2009. These dividends represented a reduction from the \$0.23 per common share paid in prior quarters in 2009. Management believes the lower dividend rate balances the need for Peoples to provide a return on shareholder investment and to maintain a dividend payout consistent with recent earnings levels and long-term capital needs.
- During the second quarter of 2009, Peoples Bank opened a new full-service office in Zanesville, Ohio and combined operations in Nelsonville, Ohio into a single facility. Peoples Bank also closed its Rutland, Ohio and Lower Salem, Ohio banking offices and consolidated those offices into existing nearby offices effective June 30, 2009. These actions were consistent with management's ongoing strategic focus of improving operating efficiencies by directing resources to areas with greater business development potential.
- As described in "ITEM 1. BUSINESS-Recent Corporate Developments", on January 30, 2009, Peoples received \$39 million of new equity capital from the U.S. Treasury's TARP Capital Purchase Program. The investment was in the form of newly-issued non-voting cumulative perpetual preferred shares and a related 10-year warrant sold by Peoples to the U.S. Treasury (the "TARP Capital Investment").
- Between August 2007 and December 2008, the Federal Reserve's Open Market Committee reduced the target Federal Funds rate 500 basis points and the Discount Rate 575 basis points, which caused a corresponding downward shift in short-term interest rates. During this period, longer-term rates did not decrease to the same extent as short-term rates, resulting in a steepening of the yield curve. In 2009, the Federal Reserve's Open Market Committee allowed the target Federal Funds Rate and Discount Rate to remain at their historically low levels of 0% to 0.25% and 0.50%, respectively, while the slope of the yield curve steepened slightly. These interest rate conditions have provided Peoples with opportunities to improve net interest income and margin by taking advantage of lower-cost funding available in the market place and reducing certain deposit costs.
- Since early 2008, Peoples' loan quality has been negatively impacted by worsening conditions within the commercial real estate market and economy as a whole, which has caused declines in commercial real estate values and deterioration in the financial condition of various commercial borrowers. These conditions led to Peoples downgrading the loan quality ratings on various commercial real estate loans through its normal loan review process. In addition, several impaired loans have become under-collateralized due to reductions in the estimated net realizable fair value of the underlying collateral. As a result, Peoples' provision for loan losses, net charge-offs and nonperforming loans in 2008 and 2009 were significantly higher than historical levels.
- During the fourth quarter of 2008, Peoples Bank sold its merchant credit card payment processing services to First Data Merchant Services Corporation ("First Data"). Peoples Bank will continue to serve the credit card processing needs of its commercial customers through a referral program with First Data. As a result of this transaction, Peoples recognized a pre-tax gain of \$500,000 in the fourth quarter of 2008, which was not material to Peoples' Consolidated Financial Statements.

- At the close of business on October 17, 2008, Peoples Bank completed the sale of its Grayson, Kentucky banking office to First National Bank of Grayson. This sale was consistent with Peoples' strategic plan to optimize its branch network for better growth opportunities. Under the terms of the agreement, Peoples received \$475,000 for the Grayson office's \$13.4 million of deposits and \$220,000 of fixed assets and sold \$2.0 million of loans at book value, resulting in a fourth quarter 2008 pre-tax gain of \$255,000. This sale was not material to Peoples' Consolidated Financial Statements.
- During 2008, Peoples systematically sold the preferred stocks issued by Fannie Mae and Freddie Mac held in Peoples' investment portfolio, due to the uncertainty surrounding these entities. These securities had a total recorded value of \$12.1 million at December 31, 2007. In July 2008, Peoples sold its remaining Fannie Mae preferred stocks, which completely eliminated all equity holdings in Fannie Mae and Freddie Mac. As a result of the sales, Peoples recognized cumulative pre-tax losses of \$1.2 million in 2008.
- Also during 2008 and continuing in 2009, Peoples sold selected lower yielding, longer-term investment securities, primarily obligations of U.S. government-sponsored enterprises, U.S. agency mortgage-backed securities and tax-exempt municipal bonds, as well as several small-lot mortgage-backed securities. The proceeds from these sales were reinvested into similar securities with less price volatility risk. These actions were intended to reposition the investment portfolio to reduce interest rate exposures and resulted in Peoples recognizing net pre-tax gains of \$1.4 million in 2009 and \$1.7 million in 2008.
- As described in "ITEM 3. LEGAL PROCEEDINGS" of Peoples' Annual Report on Form 10-K for the fiscal year ended December 31, 2007, in December 2007, Peoples resolved certain issues concerning its Ohio corporation franchise tax liability and associated calculations for the fiscal years ended December 31, 2001 through 2007 (the "Ohio Franchise Tax Settlement"). As a result, Peoples' franchise tax expense was reduced by \$782,000 during the fourth quarter of 2007.

The impact of these transactions or events, where significant, is discussed in the applicable sections of this Management's Discussion and Analysis.

Critical Accounting Policies

The accounting and reporting policies of Peoples conform to generally accepted accounting principles in the United States of America ("US GAAP") and to general practices within the financial services industry. A summary of significant accounting policies is contained in Note 1 of the Notes to the Consolidated Financial Statements. While all of these policies are important to understanding the Consolidated Financial Statements, certain accounting policies require management to exercise judgment and make estimates or assumptions that affect the amounts reported in the financial statements and accompanying notes. These estimates and assumptions are based on information available as of the date of the financial statements; accordingly, as this information changes, the financial statements could reflect different estimates or assumptions.

Management views critical accounting policies to be those that are highly dependent on subjective or complex judgments, estimates and assumptions, and where changes in those estimates and assumptions could have a significant impact on the financial statements. Management has identified the accounting policies described below as those that, due to the judgments, estimates and assumptions inherent in the policies, are critical to an understanding of Peoples' Consolidated Financial Statements and management's discussion and analysis of financial condition and results of operation.

Income Recognition

Interest income on loans and investment securities is recognized by methods that result in level rates of return on principal amounts outstanding, including yield adjustments resulting from the amortization of loan costs and premiums on investment securities and accretion of loan fees and discounts on investment securities. Since mortgage-backed securities comprise a sizable portion of Peoples' investment portfolio, a significant increase in principal payments on those securities could impact interest income due to the corresponding acceleration of premium amortization or discount accretion.

Peoples discontinues the accrual of interest on a loan when conditions cause management to believe collection of all or any portion of the loan's contractual interest is doubtful. Such conditions may include the borrower being 90 days past due on any contractual payments or current information regarding the borrower's financial condition and repayment ability. Any accrued interest deemed uncollectible that was recognized in income in the current year is reversed, which would reduce Peoples' net interest income. Interest received on nonaccrual loans is included in income only if principal recovery is reasonably assured.

Allowance for Loan Losses

In general, determining the amount of the allowance for loan losses requires significant judgment and the use of estimates by management. Peoples maintains an allowance for loan losses to absorb probable losses based on a quarterly analysis of the loan portfolio and estimation of the losses that are probable of occurrence within the loan portfolio. This formal analysis determines an appropriate level and allocation of the allowance for loan losses among loan types and resulting provision for loan losses by considering factors affecting losses, including specific losses, levels and trends in impaired and nonperforming loans, historical loan loss experience, current national and local economic conditions, volume, growth and composition of the portfolio, regulatory guidance and other relevant factors. Management continually monitors the loan portfolio through Peoples Bank's Loan Review Department and Loan Loss Committee to evaluate the adequacy of the allowance. The provision could increase or decrease each quarter based upon the results of management's formal analysis.

The amount of the allowance for loan losses for the various loan types represents management's estimate of probable losses from existing loans based upon specific allocations for individual lending relationships and historical loss experience for each category of homogeneous loans. The allowance for loan losses related to impaired loans is based on discounted cash flows using the loan's initial effective interest rate or the fair value of the collateral for certain collateral dependent loans. This evaluation requires management to make estimates of the amounts and timing of future cash flows on impaired loans, which consist primarily of loans placed on nonaccrual status, restructured or internally classified as substandard or doubtful. While allocations are made to specific loans and pools of loans, the allowance is available for all loan losses.

Individual loan reviews are based upon specific quantitative and qualitative criteria, including the size of the loan, the loan cash flow characteristics, loan quality ratings, value of collateral, repayment ability of borrowers, and historical experience factors. The historical experience factors utilized for individual loan reviews are based upon past loss experience, known trends in losses and delinquencies, the growth of loans in particular markets and industries, and known changes in economic conditions in particular lending markets.

Allowances for homogeneous loans (such as residential mortgage loans and consumer loans) are evaluated based upon historical loss experience, trends in losses and delinquencies, growth of loans in particular markets, and known changes in economic conditions in each lending market. As part of the process of identifying the pools of homogeneous loans, management takes into account any concentrations of risk within any portfolio segment, including any significant industrial concentrations. Consistent with the evaluation of allowances for homogeneous loans, the allowance relating to the Overdraft Privilege program is based upon management's monthly analysis of accounts in the program. This analysis considers factors that could affect losses on existing accounts, including historical loss experience and length of overdraft.

There can be no assurance the allowance for loan losses will be adequate to cover all losses, but management believes the allowance for loan losses at December 31, 2009, was adequate to provide for probable losses from existing loans based on information currently available. While management uses available information to provide for loan losses, the ultimate collectibility of a substantial portion of the loan portfolio, and the need for future additions to the allowance, will be based on changes in economic conditions and other relevant factors. As such, adverse changes in economic activity could reduce cash flows for both commercial and individual borrowers, which would likely cause Peoples to experience increases in problem assets, delinquencies and losses on loans.

Investment Securities

Presently, Peoples classifies the majority of its investment portfolio, which accounted for 38% of total assets at December 31, 2009, as available-for-sale. Correspondingly, Peoples carries these securities at fair value on its Consolidated Balance Sheets, with any unrealized gain or loss recorded in stockholders' equity as a component of comprehensive income. As a result, both the investment and equity sections of Peoples' Consolidated Balance Sheet are sensitive to changes in the overall market value of the investment portfolio, due to changes in market interest rates, investor confidence and other factors affecting market values.

While temporary changes in the fair value of available-for-sale securities are not recognized in earnings, Peoples is required to evaluate all investment securities with an unrealized loss on a quarterly basis to identify potential other-than-temporary impairment ("OTTI") losses. This analysis requires management to consider various factors that can involve judgment and estimation, including duration and magnitude of the decline in value, the financial condition of the issuer or pool of issuers and structure of the security.

In early 2009, the Financial Accounting Standards Board ("FASB") issued an accounting pronouncement that modified the general standards of accounting for OTTI losses. Prior to this pronouncement, if Peoples determined a loss to be "other-than-temporary", then an impairment loss was recognized in earnings equal to the entire difference between the investment's amortized cost basis and its fair value at the balance sheet date. Under the new standards

adopted by Peoples in the second quarter of 2009, an OTTI loss is recognized in earnings only when (1) Peoples intends to sell the debt security; (2) it is more likely than not that Peoples will be required to sell the security before recovery of its amortized cost basis or (3) Peoples does not expect to recover the entire amortized cost basis of the security. In situations where Peoples intends to sell or when it is more likely than not that Peoples will be required to sell the security, the entire OTTI loss must be recognized in earnings. In all other situations, only the portion of the OTTI losses representing the credit loss must be recognized in earnings, with the remaining portion being recognized in stockholders' equity as a component of other comprehensive income, net of deferred taxes.

Additional information regarding impairment losses recognized can be found later in this discussion under the caption "Net Impairment Losses".

Goodwill and Other Intangible Assets

In prior years, Peoples has grown through mergers and acquisitions accounted for under the purchase method of accounting. Under the purchase method, Peoples is required to allocate the cost of an acquired company to the assets acquired, including identified intangible assets, and liabilities assumed based on their estimated fair values at the date of acquisition. The excess cost over the net assets acquired represents goodwill, which is not subject to periodic amortization.

Customer relationship intangibles are required to be amortized over their estimated useful lives. The method of amortization reflects the pattern in which the economic benefits of the intangible assets are estimated to be consumed or otherwise used up. Since Peoples' acquired customer relationships are subject to routine customer attrition, the relationships are more likely to produce greater benefits in the near-term than in the long-term, which typically supports the use of an accelerated method of amortization for the related intangible assets. Management is required to evaluate the useful life of customer relationship intangibles to determine if events or circumstances warrant a change in the estimated life. Additionally, management is required to evaluate customer relationship intangibles for impairment when indicators of impairment exist, such as customer attrition greater than originally estimated. Should management determine the estimated life of any intangible asset is shorter than originally estimated or that impairment exists, Peoples would adjust the amortization of the asset or record an impairment charge in earnings.

Goodwill arising from business combinations represents the value attributable to unidentifiable intangible elements in the business acquired. Goodwill recorded by Peoples in connection with its acquisitions relates to the inherent value in the businesses acquired and this value is dependent upon Peoples' ability to provide quality, cost-effective services in a competitive market place. As such, goodwill value is supported ultimately by revenue that is driven by the volume of business transacted. A decline in earnings as a result of a lack of growth or the inability to deliver cost-effective services over sustained periods can lead to impairment of goodwill that could adversely impact earnings in future periods.

Goodwill is not amortized but is tested for impairment when indicators of impairment exist, or at least annually. Potential goodwill impairment exists when the fair value of the reporting unit (as defined by US GAAP) is less than its carrying value. An impairment loss is recognized in earnings only when the carrying amount of goodwill is less than its implied fair value. Peoples performs its required annual impairment test as of June 30 each year. Management concluded no impairment existed at June 30, 2009, since the fair value of Peoples' single reporting unit exceeded its carrying value.

Peoples is required to perform interim tests for goodwill impairment in subsequent quarters should events occur or circumstances change that indicate potential goodwill impairment exists, such as adverse changes to Peoples' business or a significant decline in Peoples' market capitalization.

In the second half of 2009, Peoples incurred OTTI losses and recorded higher provisions for loan losses than the first half of 2009. Additionally, Peoples' market capitalization at year-end was significantly lower than its book value. Management believed these conditions were indicators of potential goodwill impairment and performed an interim impairment test as of December 31, 2009. Based on its analysis, management concluded that the estimated fair value of Peoples' reporting unit was less than its carrying amount. As a result, management calculated the implied fair value of goodwill to determine the amount of any actual impairment and concluded no goodwill impairment existed at December 31, 2009, since the implied fair value of Peoples' goodwill exceeded its recorded value by approximately \$50.6 million, or 81%.

The significant assumptions made by management in estimating the reporting unit's fair value are (1) level of future cash flows over the next four years, (2) long-term growth rate of cash flows after year four and (3) the discount rate. Management's analysis at year-end 2009 indicated a 25% sustained decline in future cash flows, a 380 basis point decrease in long-term growth rate or a 280 basis point increase in the discount rate would cause the implied fair value of goodwill to equal its carrying value.

During the first quarter of 2010, Peoples' market capitalization has experienced a steady increase, which corroborates management's estimate of fair value and its conclusion that goodwill is not impaired. However, conditions in future periods could cause management to re-evaluate Peoples' recorded goodwill and conclude impairment exists. Given the current carrying amount of goodwill on the Consolidated Balance Sheets of \$62.5 million, any resulting impairment loss recognized could have a material, adverse impact on Peoples' financial condition and results of operations.

Peoples records mortgage servicing rights ("MSRs") in connection with its mortgage banking activities, which are intangible assets representing the right to service loans sold to third party investors. These intangible assets are recorded initially at fair value and subsequently amortized over the estimated life of the loans sold. MSRs are stratified based on their predominant risk characteristics and assessed for impairment at the strata level at each reporting date based on their fair value. At December 31, 2009, management concluded no portion of the recorded MSRs was impaired since the fair value exceeded the carrying value. However, future events, such as a significant increase in prepayment speeds, could result in a fair value that is less than the carrying amount, which would require the recognition of an impairment loss in earnings.

Income Taxes

Income taxes are provided based on the liability method of accounting, which includes the recognition of deferred tax assets and liabilities for the temporary differences between carrying amounts and tax bases of assets and liabilities, computed using enacted tax rates. In general, Peoples records deferred tax assets when the event giving rise to the tax benefit has been recognized in the Consolidated Financial Statements.

A valuation allowance is recognized to reduce any deferred tax assets that, based upon available information, it is more-likely-than-not all, or any portion, of the deferred tax asset will not be realized. Assessing the need for, and amount of, a valuation allowance for deferred tax assets requires significant judgment and analysis of evidence regarding realization of the deferred tax assets. In most cases, the realization of deferred tax assets is dependent upon Peoples generating a sufficient level of taxable income in future periods, which can be difficult to predict. Peoples' largest deferred tax assets involve differences related to Peoples' allowance for loan losses and realization of income tax credits received from Peoples' investments in low-income housing projects and funds. Given the nature of Peoples' deferred tax assets, management determined no valuation allowances were needed at either December 31, 2009 or 2008.

The calculation of tax liabilities is complex and requires the use of estimates and judgment since it involves the application of complex tax laws that are subject to different interpretations by Peoples and the various tax authorities. These interpretations are subject to challenge by the tax authorities upon audit or to reinterpretation based on management's ongoing assessment of facts and evolving case law.

From time-to-time and in the ordinary course of business, Peoples is involved in inquiries and reviews by tax authorities that normally require management to provide supplemental information to support certain tax positions taken by Peoples in its tax returns. Uncertain tax positions are initially recognized in the financial statements when it is more likely than not the position will be sustained upon examination by the tax authorities. Such tax positions are initially and subsequently measured as the largest amount of tax benefit that is greater than 50% likely of being realized upon ultimate settlement with the tax authority assuming full knowledge of the position and all relevant facts. Management believes it has taken appropriate positions on its tax returns, although the ultimate outcome of any tax review cannot be predicted with certainty. Still, no assurance can be given that the final outcome of these matters will not be different than what is reflected in the current and historical financial statements.

Fair Value Measurements

As a financial services company, the carrying value of certain financial assets and liabilities is impacted by the application of fair value measurements, either directly or indirectly. In certain cases, an asset or liability is measured and reported at fair value on a recurring basis, such as available-for-sale investment securities. In other cases, management must rely on estimates or judgments to determine if an asset or liability not measured at fair value warrants an impairment write-down or whether a valuation reserve should be established. Given the inherent volatility, the use of fair value measurements may have a significant impact on the carrying value of assets or liabilities, or result in material changes to the financial statements, from period to period.

Detailed information regarding fair value measurements can be found in Note 2 of the Notes to the Consolidated Financial Statements. The following is a summary of those assets and liabilities that may be affected by fair value measurements, as well as a brief description of the current accounting practices and valuation methodologies employed by Peoples:

Available-for-Sale Investment Securities

Investment securities classified as available-for-sale are measured and reported at fair value on a recurring basis. For most securities, the fair value is based upon quoted market prices or determined by pricing models that consider observable market data. However, the fair value of certain investment securities, such as collateralized debt obligations, must be based upon unobservable market data, such as non-binding broker quotes and discounted cash flow analysis or similar models, due to the absence of an active market for these securities. As a result, management's determination of fair value for these securities is highly dependent on subjective or complex judgments, estimates and assumptions, which could change materially between periods. Management occasionally uses information from independent third-party consultants in its determination of the fair value of more complex investment securities, such as the collateralized debt obligations. At December 31, 2009, nearly all of Peoples' available-for-sale investment securities were measured using observable market data, with less than 1% measured using non-observable data.

Impaired loans

For loans considered impaired, the amount of impairment loss recognized is determined based on a discounted cash flow analysis or the fair value of the underlying collateral if repayment is expected solely from the sale of the collateral. Management typically relies on the fair value of the underlying collateral due to the significant uncertainty surrounding the borrower's ability to make future payments. The vast majority of the collateral securing impaired loans is real estate, although it may also include accounts receivable and equipment, inventory or similar personal property. The fair value of the collateral used by management represents the estimated proceeds to be received from the sale of the collateral, less costs incurred during the sale, based upon observable market data and market value data provided by independent, licensed or certified appraisers.

Goodwill

The process of evaluating goodwill for impairment involves highly subjective or complex judgments, estimates and assumptions regarding the fair value of Peoples' reporting unit and, in some cases, goodwill itself. As a result, changes to these judgments, estimates and assumptions in future periods could result in materially different results.

Peoples currently possesses a single reporting unit for goodwill impairment testing. While quoted market prices exist for Peoples' common shares since they are publicly traded, these market prices do not necessarily reflect the value associated with gaining control of an entity. Thus, management takes into account all appropriate fair value measurements in determining the estimated fair value of the reporting unit. These measurements include valuations of recently acquired institutions based upon multiples of book value or earnings and discounted cash flow analysis.

For Peoples' December 31, 2009 goodwill impairment test, management estimated the fair value of Peoples' reporting unit using both an income approach and market approach. The income approach consisted of a discounted cash flow analysis of projected future earnings. The discount rate used represented the estimated cost of Peoples' common equity based upon observable market data. The market approach was based upon multiples of book value of recently acquired financial institutions, including distressed institutions. The fair values derived under both approaches were weighted to arrive at an overall estimated fair value. Management placed greater weight on the income approach due to the limited number of acquisitions occurring in 2009 involving healthy or non-distress entities compared to prior years. Consequently, the estimated fair value of Peoples' reporting unit could be materially different in future periods due to changes in either projected future earnings or the cost of common equity.

Should management determine the potential for goodwill impairment exists, the measurement of any actual impairment loss requires management to calculate the implied fair value of goodwill by deducting the fair value of all tangible and separately identifiable intangible net assets (including unrecognized intangible assets) from the fair value of the reporting unit. The fair value of net tangible assets is calculated using the methodologies described in Note 2 of the Notes to the Consolidated Financial Statements. Customer relationship intangibles are the only separately identifiable intangible assets included in the calculation of the implied fair value of goodwill. The amount of these intangibles represents the present value of future earnings stream attributable to the deposit relationships.

Mortgage Servicing Rights

MSRs are carried at the lower of cost or market value, and, therefore, can be subject to fair value measurements on a nonrecurring basis. MSRs do not trade in an active market with readily observable prices. Thus, management determines fair value based upon a valuation model that calculates the present value of estimated future net servicing income provided by an independent third party consultant. This valuation model is affected by various input factors, such as servicing costs, expected prepayment speeds and discount rates, which are subject to change between reporting periods. As a result, significant changes to these factors could result in a material change to the calculated fair value of MSRs.

Pension and Other Postretirement Benefit Plans

Peoples is required to recognize the funded status of defined benefit pension and other postretirement benefit plans on its Consolidated Balance Sheets as an asset for a plan's overfunded status or a liability for a plan's underfunded status, with fluctuations in the funded status recognized through comprehensive income in the year in which the change occurs. The funded status is based upon the fair value of plan assets compared to the projected benefit obligation. The determination of the projected benefit obligation and periodic benefit costs involves significant judgment and estimation of employees' length of service and future compensation levels, discount rate and expected rate of return on plan assets. While these variables are equally important, changes to the discount rate can have a greater impact on the projected benefit obligation, and thus the amount of the asset or liability recognized, as well as the amount of pension plan expense recorded each period.

EXECUTIVE SUMMARY

In 2009, net income available to common shareholders totaled \$2.3 million, versus \$7.5 million in 2008 and \$18.3 million in 2007, representing diluted earnings per common share of \$0.22, \$0.72 and \$1.74, respectively. The lower earnings in both 2009 and 2008 were largely the result of higher provisions for loan losses. Earnings for 2009 also included the impact of preferred dividends related to the TARP Capital Investment, which totaled \$1.9 million. Peoples also recognized OTTI losses in all three years, which negatively impacted net income available to common shareholders. Despite these challenges, Peoples generated positive results in several key areas, including growth and diversification of revenues, expansion of retail deposits and expense control.

Provision for loan losses totaled \$25.7 million in 2009, compared to \$27.6 million in 2008 and \$4.0 million in 2007. These provisions reflect the amounts needed to maintain the adequacy of the allowance for loan losses based on management's formal quarterly analysis. The higher provisions for loan losses in both 2008 and 2009 were largely attributable to declines in commercial real estate values securing existing impaired loans and the deteriorating financial condition of borrowers commensurate with recessionary economic conditions.

Net interest income grew 6% in 2009 and 8% in 2008, due mostly to greater reductions in Peoples' funding costs in comparison to asset yields in response to lower short-term market rates. Net interest margin compressed slightly in 2009 due to Peoples maintaining a higher volume of short-term assets, consisting of excess cash reserves held at the Federal Reserve Bank of Cleveland. In comparison, net interest margin expanded 19 basis points in 2008, reflecting the impact of the lower short-term market rates.

In 2009, non-interest income totaled \$32.1 million, unchanged from 2008, as significant growth in mortgage banking income was offset by declines in other non-interest revenue categories. Non-interest income increased 2% in 2008 compared to \$31.4 million for 2007, attributable to growth in several areas during 2008. The largest increase in 2008 occurred in electronic banking income, which increased 10% due to sustained growth in debit card activity.

Total non-interest expense was \$58.7 million, up \$5.2 million year-over-year. Most of this increase was due to \$3.1 million in additional FDIC insurance expense. Other significant factors included higher employee medical benefit costs and workout costs for problem loans. In 2008, non-interest expense increased \$2.0 million, largely the result of normal base salary adjustments, higher employee medical benefit costs, and the impact of the Ohio Franchise Tax Settlement on 2007 franchise tax expense.

Total assets were \$2.00 billion at both December 31, 2009 and 2008. Cash and cash equivalents were \$41.8 million at year-end 2009, versus \$35.6 million at December 31, 2008, as Peoples maintained excess cash reserves at the Federal Reserve Bank due to limited opportunities for attractive long-term asset investments. Gross portfolio loan balances decreased \$52.0 million in 2009, due primarily to charge-offs and normal commercial loan payoffs, coupled with lower demand for commercial loans due to economic conditions. During 2009, the combination of elevated charge-off levels and increases in specific reserves for impaired loans necessitated building the allowance for loan losses by \$4.3 million, to \$27.3 million, or 2.59% of total loans, at December 31, 2009. Total investment securities increased \$43.1 million, to \$751.9 million at December 31, 2009, mostly attributable to improved market value of Peoples' available-for-sale investment portfolio. Other assets increased \$5.4 million since year-end 2008 as a result of Peoples' reclassifying a \$5.0 million commercial real estate loan as other real estate owned upon the completion of the foreclosure process.

Total liabilities were \$1.76 billion at December 31, 2009, down \$57.9 million compared to year-end 2008. Total deposit balances increased \$29.5 million in 2009. Non-interest-bearing deposits increased \$18.0 million, or 10%, in 2009, while interest-bearing retail deposits grew \$10.3 million. This growth, coupled with funds from the TARP Capital Investment, enabled Peoples to reduce borrowed funds \$84.1 million, or 20%, during 2009, to \$345.6 million at year-end.

Stockholders' equity increased \$57.3 million, or 31% in 2009, compared to \$186.6 million at December 31, 2008. The TARP Capital Investment accounted for most of this growth, while the fair value of Peoples' available-for-sale investment portfolio increased \$21.2 million, net of deferred income tax, further contributing to higher stockholders' equity. The TARP Capital Investment also allowed Peoples to strengthen already healthy regulatory capital ratios, with the Total Risk-Based capital ratio increasing to 16.80% at December 31, 2009, from 13.19% at the prior year-end. Tangible common equity was 7.22% of tangible assets at year-end 2009, versus 6.21% at December 31, 2008, reflecting the impact of the higher fair value of Peoples' available-for-sale investment portfolio.

RESULTS OF OPERATION

Interest Income and Expense

Peoples earns interest income on loans and investments and incurs interest expense on interest-bearing deposits and borrowed funds. Net interest income, the amount by which interest income exceeds interest expense, remains Peoples' largest source of revenue. The amount of net interest income earned by Peoples is affected by various factors, including changes in market interest rates due to the Federal Reserve Board's monetary policy, the level and degree of pricing competition for both loans and deposits in Peoples' markets and the amount and composition of Peoples' earning assets and interest-bearing liabilities.

Peoples monitors net interest income performance and manages its balance sheet composition through regular Asset-Liability Management Committee ("ALCO") meetings. The asset/liability management process employed by the ALCO is intended to minimize the impact of future interest rate changes on Peoples' net interest income and earnings. However, the frequency and/or magnitude of changes in market interest rates are difficult to predict, and may have a greater impact on net interest income than adjustments by management.

As part of the analysis of net interest income, management converts tax-exempt income to the pre-tax equivalent of taxable income using an effective tax rate of 35%. Management believes the resulting fully tax-equivalent ("FTE") net interest income allows for a more meaningful comparison of tax-exempt income and yields to their taxable equivalents. Net interest margin, calculated by dividing FTE net interest income by average interest-earning assets, serves as the primary measure used in evaluating the net revenue stream generated by the mix and pricing of Peoples' earning assets and interest-bearing liabilities.

The following table details Peoples' average balance sheet for the years ended December 31:

	2009			2008			2007		
	Average Balance	Income/Expense	Yield/Rate	Average Balance	Income/Expense	Yield/Rate	Average Balance	Income/Expense	Yield/Rate

Net interest margin			3.48%			3.51%			3.32%

- (1) Average balances are based on carrying value.
- (2) Interest income and yields are presented on a fully tax-equivalent basis using a 35% federal tax rate.
- (3) Nonaccrual and impaired loans are included in the average loan balances. Related interest income earned on nonaccrual loans prior to the loan being placed on nonaccrual is included in loan interest income. Loan fees included in interest income were immaterial for all periods presented.
- (4) Loans held for sale are included in the average loan balance listed. Related interest income on loans originated for sale prior to the loan being sold is included in loan interest income.

The following table details the calculation of FTE net interest income for the years ended December 31:

<i>(Dollars in thousands)</i>	2009	2008	2007
Net interest income, as reported	\$ 61,843	\$ 58,479	\$ 53,921
Taxable equivalent adjustments	1,605	1,606	1,496
Fully tax-equivalent net interest income	\$ 63,448	\$ 60,085	\$ 55,417

The following table provides an analysis of the changes in net interest income:

<i>(Dollars in thousands)</i> Increase (decrease) in:	Change from 2008 to 2009 ⁽¹⁾			Change from 2007 to 2008 ⁽¹⁾		
	Rate	Volume	Total	Rate	Volume	Total
INTEREST INCOME:						
Short-term investments	\$ (93)	\$ 98	\$ 5	\$ (81)	\$ (24)	\$ (105)
Investment Securities: ⁽²⁾						
Taxable	(421)	5,837	5,416	1,037	2,423	3,460
Nontaxable	(86)	122	36	–	340	340

Net interest income	\$ 1,088	\$ 2,275	\$ 3,363	\$ 3,403	\$ 1,265	\$ 4,668

⁽¹⁾ The change in interest due to both rate and volume has been allocated to volume and rate changes in proportion to the relationship of the dollar amounts of the change in each.

⁽²⁾ Presented on a fully tax-equivalent basis.

In both 2008 and 2009, net interest income benefited from the Federal Reserve's actions to lower short-term interest rates, as Peoples experienced greater reductions in funding costs than asset yields. Growth in low-cost retail deposits allowed Peoples to repay maturing higher-cost wholesale funding, further contributing to the decline in funding costs. Net interest margin compressed slightly in 2009 as a result of Peoples maintaining excess cash reserves at the Federal Reserve Bank of Cleveland. These cash balances were maintained due to limited opportunities for attractive long-term asset investments and Peoples' planned paydowns of high-cost wholesale funding. In comparison, net interest margin expanded 19 basis points in 2008, reflecting the impact of the lower short-term market rates.

During the recent periods of changing interest rate conditions, Peoples has actively managed its balance sheet and interest rate risk profile to minimize the impact on earnings. These actions have included adjusting the mix of earning assets and funding sources when opportunities were presented from loan demand and retail deposit growth. However, average loan balances decreased in both 2008 and 2009, reflecting significant commercial loan payoffs during the second half of 2007 and elevated charge-off levels in 2008 and 2009. Total average loan balances in 2009 were also impacted by residential real estate loans being refinanced and sold to the secondary market. While these reductions in average loan balances negatively impacted interest income, Peoples took advantage of attractive investment opportunities that were available during 2008 and 2009, which accounted for the increase in average investment securities during both years.

A key component of management's funding strategy over the last few years has been to grow core retail deposit balances, primarily low-cost and non-interest-bearing deposits, to reduce the amount of, and reliance on, wholesale funding sources that typically carry higher market rates of interest. In addition, management has been adjusting the mix of wholesale funding by repaying higher-costing funds using other lower-cost borrowings and short-term assets. In the second half of 2007, management initiated a strategy of systematically borrowing funds in a given maturity range over a period of time in order to create a stream of smaller future maturities and reduce the concentration of funding maturity at one time.

This strategy accounted for much of the increase in average long-term borrowings in 2008 and 2009 compared to prior years.

Loan yields declined in both 2008 and 2009 from downward repricing of variable rate loans in response to lower short-term market interest rates, coupled with the impact of additional loans being placed on nonaccrual status. The average yield of Peoples' investment portfolio was held relatively stable, due to management's proactive actions during 2008 and 2009. The impact of lower loan yields was countered with an overall reduction in Peoples' cost of funds from the repayment of higher-costing funds using other lower-cost borrowings and short-term assets, coupled with the impact of lower short-term interest rates.

Detailed information regarding changes in Peoples' Consolidated Balance Sheets can be found under appropriate captions of the "FINANCIAL CONDITION" section of this discussion. Additional information regarding Peoples' interest rate risk and the potential impact of interest rate changes on Peoples' results of operations and financial condition can be found later in this discussion under the caption "Interest Rate Sensitivity and Liquidity".

Provision for Loan Losses

The provision for loan losses is based on management's formal quarterly evaluation of the loan portfolio and analysis of the adequacy of the allowance for loan losses described in the "Critical Accounting Policies" section of this discussion. This analysis considers various factors that affect losses, such as changes in Peoples' loan quality, historical loss experience and current economic conditions. The following table details Peoples' provision for loan losses:

<i>(Dollars in thousands)</i>	2009	2008	2007
Provision for checking account overdrafts	\$ 799	\$ 1,125	\$ 558
Provision for other loan losses	24,922	26,515	3,401
Total provision for loan losses	\$ 25,721	\$ 27,640	\$ 3,959
As a percentage of average gross loans	2.35%	2.48%	0.35%

The provision for loan losses recorded in both 2008 and 2009 was significantly higher than amounts recorded in 2007 and prior years. These elevated levels reflect the increases to the allowance for loan losses that occurred since mid-2008 and continued throughout 2009, due to changes in Peoples' loan quality, coupled with losses on impaired loans from declines in commercial real estate values during the same period.

Additional information regarding changes in the allowance for loan losses and loan credit quality can be found later in this discussion under the caption "Allowance for Loan Losses".

Net Impairment Losses

The following table details the net impairment losses recognized on available-for-sale securities:

<i>(Dollars in thousands)</i>	2009	2008	2007
Individual bank-issued trust preferred securities	\$ 4,000	\$ 2,080	\$ -
Collateralized debt obligations	3,707	1,920	2,875
Preferred stocks	-	260	3,195
Equity securities	-	-	100
Total net impairment losses	\$ 7,707	\$ 4,260	\$ 6,170

These impairment losses were the result of management determining certain securities were other-than-temporarily impaired. These determinations were made in connection with management's quarterly analysis of the investment portfolio described in the "Critical Accounting Policies" section of this discussion, which included evaluating the credit quality of underlying issuers and estimating cash flows to be received from the securities.

The losses attributable to individual bank-issued trust preferred securities involved two unrelated issuers who had deferred interest payments. Management deemed the securities a total loss since its analysis indicated it was probable Peoples would not recover the entire principal amounts. Subsequent to management's determinations, federal banking regulators closed the banking subsidiaries of both issuers, with the FDIC being appointed as receiver of the failed institutions.

Since 2007, the fair value of CDO securities, including those held in Peoples' investment portfolio, has been affected by the continued liquidity and credit concerns within the financial markets, as well as the downgrading of these securities by rating agencies. Additionally, several underlying issuers have either deferred or defaulted on the payment obligations, which reduced the overall cash flow stream in these structured investments. In the second half of 2009, management's

analysis indicated continued declines in the estimated cash flows to be received from two of Peoples' CDO securities, which led to both securities being deemed a total loss at year-end 2009. Additional information regarding Peoples' investments in CDO securities can be found later in this discussion under the caption "Investment Securities".

The preferred stock losses related to preferred stocks issued by Fannie Mae and Freddie Mac. The loss attributable to equity securities involved common stock issued by an unrelated bank holding company.

Management performed its quarterly analysis of the remaining investment securities with an unrealized loss at December 31, 2009, and concluded no other individual securities were other-than-temporarily impaired.

Non-Interest Income

Peoples generates non-interest income, which excludes gains and losses on investments and assets, from six primary sources: deposit account service charges, trust and investment activities, insurance sales revenues, electronic banking ("e-banking"), mortgage banking and bank owned life insurance ("BOLI").

In recent years, Peoples has placed increased emphasis on reducing its reliance on net interest income by growing non-interest income, especially fee-based revenues not affected by interest rate changes, and, thus, diversifying its revenue stream. In 2009, non-interest income was driven primarily by stronger mortgage banking income, as recessionary economic conditions and volatility in the financial markets negatively impacted other non-interest revenues. Total non-interest income accounted for 34.1% of Peoples' total revenues in 2009, compared to 35.4% in 2008 and 36.8% in 2007.

Service charges and other fees on deposit accounts, which are based on the recovery of costs associated with services provided, comprised the largest portion of Peoples' non-interest income. Management periodically evaluates its cost recovery fees to ensure they are reasonable based on operational costs and similar to fees charged in Peoples' markets by competitors. The following table details Peoples' deposit account service charges:

<i>(Dollars in thousands)</i>	2009	2008	2007
Overdraft fees	\$ 7,869	\$ 7,356	\$ 6,818
Non-sufficient funds fees	1,467	1,682	1,965
Other fees and charges	1,054	1,099	1,107
Total deposit account service charges	\$ 10,390	\$ 10,137	\$ 9,890

The amount of deposit account service charges, particularly overdraft and non-sufficient funds fees, is largely dependent on the timing and volume of customer activity. As a result, the amount ultimately recognized by Peoples can fluctuate from period to period. Peoples experiences some seasonal changes in overdraft and non-sufficient funds fees, primarily in the first and fourth quarters. Typically, the volume of overdraft and non-sufficient funds fees are lower in the first quarter attributable to customers receiving income tax refunds, while volumes generally increase in the fourth quarter in connection with the holiday shopping season.

Insurance income also comprises a significant portion of Peoples' total non-interest income. The following table details Peoples' insurance income:

<i>(Dollars in thousands)</i>	2009	2008	2007
Property and casualty insurance commissions	\$ 7,633	\$ 7,982	\$ 7,997
Life and health insurance commissions	661	645	596
Credit life and A&H insurance commissions	119	175	158
Performance based commissions	828	864	817
Other fees and charges	149	236	133
Total insurance income	\$ 9,390	\$ 9,902	\$ 9,701

Peoples' insurance income consists predominantly of commission revenue from the sale of property and casualty insurance to commercial customers. The lower property and casualty insurance commissions in 2009 were due largely to the effects of a contracting economy on commercial insurance needs and lower pricing margins from competition within the insurance industry. In 2008, these revenues remained stable as increased production more than offset the impact of lower pricing margins within the insurance industry. The bulk of the performance based commission income is received annually by Peoples during the first quarter and is based on a combination of factors, including loss experience of insurance policies sold, production volumes and overall financial performance of the insurance industry during the preceding year. As a result, the amount of contingent income recognized by Peoples is difficult to predict and could fluctuate from year to year.

Peoples' trust and investment income is comprised of revenue generated from its fiduciary activities and the sale of investment services. The following table details Peoples' trust and investment income for the years ended December 31 and market value of managed assets at year-end:

<i>(Dollars in thousands)</i>	2009	2008	2007
Fiduciary	\$ 3,760	\$ 4,113	\$ 4,099
Brokerage	962	1,026	884
Total trust and investment income	\$ 4,722	\$ 5,139	\$ 4,983
Trust assets under management	\$ 750,993	\$ 685,705	\$ 797,443
Brokerage assets under management	216,479	184,301	223,950
Total managed assets	\$ 967,472	\$ 870,006	\$ 1,021,393

Both fiduciary and brokerage revenues are based primarily on the value of assets under management. The market value of Peoples' managed assets was impacted by the downturn in the financial markets that occurred in the second half of 2008 and continued through most of 2009. The timing of these market values fluctuation was the key cause of the lower trust and investment income in 2009. During 2008, Peoples attracted over \$50 million in new assets, which generated additional revenue and offset the impact of lower market values in the second half of 2008.

Peoples' e-banking services include ATM and debit cards, direct deposit services and internet banking, and serve as alternative delivery channels to traditional sales offices for providing services to clients. In 2009, Peoples' customers used their debit cards to complete \$290 million of transactions, versus \$272 million in 2008 and \$231 million in 2007, representing increases of 7% and 17%, respectively. At December 31, 2009, Peoples had 40,663 deposit relationships with debit cards, or 57% of all eligible deposit accounts, compared to 39,279 relationships, or 57% of eligible accounts, at year-end 2008 and 37,427 relationships, or 53% of eligible accounts at December 31, 2007.

Peoples' mortgage banking income is comprised mostly of net gains from the origination and sale of long-term, fixed-rate real estate loans to the secondary market and is largely dependent on customer demand and interest rates in general. In 2009, Peoples' secondary market loan production was stronger than recent years, due mostly to customers taking advantage of opportunities offered by the secondary market to refinance existing loans. Long-term mortgage rates rose modestly during the second half of 2009, resulting in reduced refinancing activity. During 2009, Peoples sold \$95 million of residential real estate loans to the secondary market, versus \$32 million in 2008 and \$40 million in 2007.

Income generated by Peoples' BOLI investment serves to enhance operating efficiency by partially offsetting rising employee benefit costs. Changes in the interest rate environment can have an impact on the associated investment funds and thus the amount of BOLI income recognized by Peoples. Management monitors the performance of Peoples' BOLI and may make adjustments to improve the income streams and overall performance. Still, management believes BOLI provides a better long-term vehicle for funding future employee benefit costs, and offsetting the related expense, than alternative investment opportunities with similar risk characteristics.

Non-Interest Expense

Salaries and employee benefit costs represent Peoples' largest non-interest expense, accounting for over 50% of total non-interest expense, which is inherent in a service-based industry such as financial services.

The following table details Peoples' salaries and employee benefit costs:

<i>(Dollars in thousands)</i>	2009	2008	2007
Base salaries and wages	\$ 20,455	\$ 20,370	\$ 19,270
Employee benefits	5,037	3,983	3,574
Sales-based and incentive compensation	3,130	3,672	3,985
Stock-based compensation	149	498	391
Deferred personnel costs	(1,477)	(1,984)	(1,867)
Payroll taxes and other employment-related costs	2,100	1,982	2,199
Total salaries and employee benefit costs	\$ 29,394	\$ 28,521	\$ 27,552
Full-time equivalent employees:			
Actual at December 31	537	546	559
Average during the year	543	552	554

In 2009, Peoples limited salary increases for management, which has resulted in base salaries and wages remaining comparable to 2008. The majority of the sales-based and incentive compensation is attributable to Peoples' insurance and investment sales activities. However, lower accruals for Peoples' annual incentive award plan, which is based primarily upon corporate results, accounted for the decreased sales-based and incentive compensation in 2009 and 2008 over the prior year. Peoples' employee benefit costs have been impacted by a steady increase in employee medical benefit costs in recent years.

Stock-based compensation is generally recognized over the vesting period, typically ranging from 6 months to 3 years, although Peoples must immediately recognize the entire expense for awards to employees who are eligible for retirement at the grant date. The majority of Peoples' stock-based compensation expense is attributable to annual equity-based incentive awards to employees, which are awarded in the first quarter and based upon Peoples achieving certain performance goals during the prior year. In 2009, Peoples did not grant any equity-based incentive awards to employees or non-employee directors due to lower corporate performance results. As a result, the stock-based compensation expense recognized in 2009 was attributable to equity-based awards granted in prior years. Additional information regarding Peoples' stock-based compensation plans and awards can be found in Note 18 of the Notes to the Consolidated Financial Statements.

Deferred personnel costs represent the portion of current period salaries and employee benefit costs considered direct loan origination costs. These costs are recognized over the life of the loan through interest income as a yield adjustment. During 2009, decreased commercial loan originations as a result of recessionary economic conditions have resulted in lower deferred costs compared to the same periods in 2008.

Peoples' net occupancy and equipment expense was comprised of the following:

<i>(Dollars in thousands)</i>	2009	2008	2007
Depreciation	\$ 1,998	\$ 2,066	\$ 2,061
Repairs and maintenance costs	1,549	1,452	1,386
Net rent expense	837	671	660
Property taxes, utilities and other costs	1,372	1,351	1,191
Total net occupancy and equipment expense	\$ 5,756	\$ 5,540	\$ 5,298

Depreciation expense decreased modestly in 2009 due to existing assets becoming fully depreciated, coupled with fewer shorter-lived assets, such as computers and other office equipment, being placed in service. Management continues to monitor capital expenditures and explore opportunities to enhance Peoples' operating efficiency.

While actions taken by the FDIC resulted in higher FDIC insurance costs during 2009, FDIC insurance expense in both 2007 and 2008 benefited from the utilization of a \$1.0 million one-time credit received in 2007. This credit was received in connection with changes to the deposit insurance system for use to offset future insurance premiums, subject to certain limitations. Peoples utilized \$0.5 million of this credit during 2007 and the remainder during the first nine months of 2008. Despite the actions taken in 2009, the FDIC's plan to restore the Deposit Insurance Fund to its federally mandated level may not be successful during 2010, due to continued bank failures. Should this occur, the FDIC may consider increasing base assessments or imposing additional special assessments on all insured institutions similar to the one levied in the second quarter of 2009. These or similar actions, if taken, could materially increase the total FDIC insurance expense recognized by Peoples in future quarters.

Peoples' intangible asset amortization expense decreased in both 2009 and 2008 from the use of an accelerated method of amortization for its customer-related intangibles. As a result, amortization expense will continue to be lower in subsequent years based on the intangible assets included on Peoples' Consolidated Balance Sheets at December 31, 2009.

Professional fees expense, which includes the cost of accounting, legal and other third-party professional services, increased substantially in 2009 compared to 2008. This increase was due mainly to increased utilization of external legal services attributable to higher levels of under performing loans. Contributing to the year-to-date increase were legal and consulting fees incurred in the first quarter of 2009 associated with the TARP Capital Investment and preparation of proxy materials for the Special Meeting of Shareholders and Annual Meeting of Shareholders.

Marketing expense, which includes the cost of advertising, public relations and charitable contributions, decreased 18% in 2009, due to a general reduction in advertising and public relations activities. In comparison, marketing expense was down 15% in 2008, compared to 2007, due to the completion of Peoples' direct mail and gift campaigns, which had been initiated in late 2005.

Peoples' e-banking expense, which is comprised of bankcard and internet-based banking costs, increased in both 2008 and 2009 as a result of customers completing a larger percentage of their transactions using their debit cards and Peoples' internet banking service. These factors have also produced a greater increase in the corresponding e-banking revenues over

the same periods. Overall, management believes e-banking expense levels are reasonable considering Peoples' e-banking services have generated higher net revenues and have helped to improve overall relationship profitability, due to the lower transaction costs incurred by Peoples.

Peoples is subject to state franchise taxes, which are based largely on Peoples Bank's equity at year-end, in the states where it has a physical presence. Overall, state franchise taxes have remained consistent over the last two years, from relatively stable equity levels at Peoples Bank, although the 2007's franchise tax expense was lower due to the Ohio Franchise Tax Settlement. Peoples regularly evaluates the capital position of its direct and indirect subsidiaries from both a cost and leverage perspective. Ultimately, management seeks to optimize Peoples' consolidated capital position through allocation of capital, which is intended to enhance profitability and shareholder value.

In both 2008 and 2009, Peoples incurred additional loan-related expenses associated with the higher level of impaired and nonperforming loans. These expenses accounted for the 5% and 7% increases in other non-interest expense in 2009 and 2008, respectively, compared to prior year.

Income Tax Benefit/Expense

Peoples recognized an income tax benefit of \$1.1 million in 2009, versus income tax expense of \$160,000 in 2008 and \$5.6 million in 2007. These amounts primarily reflect the reduction in pre-tax income due to higher provisions for loan losses and OTTI charges in both 2008 and 2009, while income from tax-exempt sources and tax benefits received from Peoples' investments in tax credit funds remained consistent with prior years. A reconciliation of income tax expense and effective tax rate to the statutory tax rate can be found in Note 14 of the Notes to the Consolidated Financial Statements.

Management anticipates an effective tax rate in 2010 of approximately 20%. However, the amount of pre-tax income derived from tax-exempt sources will have a major impact on the annual effective tax rate.

FINANCIAL CONDITION

Cash and Cash Equivalents

Peoples considers cash and cash equivalents to consist of Federal Funds sold, cash and balances due from banks, interest-bearing balances in other institutions and other short-term investments that are readily liquid. The amount of cash and cash equivalents fluctuates on a daily basis due to customer activity and Peoples' liquidity needs. During 2009, Peoples maintained excess cash reserves at the Federal Reserve Bank of Cleveland rather than federal funds sold due to more favorable current short-term interest rates. These excess reserves are included in interest-bearing deposits in other banks on the Consolidated Balance Sheets and totaled \$11.4 million at year-end and \$8.2 million at September 30, 2009. No excess reserves were maintained in any period of 2008.

At December 31, 2009, total cash and cash equivalents was consistent with the prior quarter-end, totaling \$41.8 million. In 2009, cash and cash equivalents decreased \$6.2 million, as the majority of net cash provided by Peoples' operating and investing activities of \$23.3 million and \$7.8 million, respectively, was used in financing activities. Net cash provided by investing activities was the result of loan payments and payoffs exceeding new originations by \$24.7 million, of which a portion was used for purchases of new investment securities. Financing activities consumed \$24.9 million of net cash, as Peoples reduced borrowed funds by \$84.1 million, which was partially offset by \$68.4 million of funds from net deposit growth and the TARP Capital Investment.

In comparison, cash and cash equivalents decreased \$9.6 million in 2008, to \$35.6 million at December 31, 2008. Investing activities consumed \$168.9 million of net cash, while financing and operating activities provided net cash of \$123.8 million and \$35.6 million, respectively. Purchases of new investment securities exceeded the cash flows from sales, maturities, calls and principal payments and accounted for most of the cash used in investing activities.

Further information regarding the management of Peoples' liquidity position can be found later in this discussion under "Interest Rate Sensitivity and Liquidity."

Investment Securities

The following table details Peoples' available-for-sale investment portfolio at December 31:

<i>(Dollars in thousands)</i>	2009	2008	2007
Available-for-sale investment securities, at fair value:			
Obligations of:			
U.S. Treasury and government agencies	\$ 82	\$ 176	\$ 197
U.S. government sponsored agencies	4,473	8,442	74,470
States and political subdivisions	62,953	68,930	69,247
Residential mortgage-backed securities	558,825	511,201	356,605
Commercial mortgage-backed securities	24,188	25,951	-
U.S. government-backed student loan pools	59,442	44,985	-
Bank-issued trust preferred securities	13,826	17,888	19,185
Collateralized debt obligations	165	4,423	5,896
Preferred stocks	-	-	12,065
Equity securities	2,593	2,761	4,566
Total available-for-sale investment securities	\$ 726,547	\$ 684,757	\$ 542,231
Total amortized cost	\$ 706,444	\$ 696,855	\$ 535,979
Net unrealized gain (loss)	\$ 20,103	\$ (12,098)	\$ 6,252

Overall, the size and composition of the investment portfolio at December 31, 2009 was fairly consistent with year-end 2008. However, throughout 2008, management grew the investment portfolio to manage interest income and liquidity levels in response to lower loan balances caused by commercial loan payoffs and charge-offs, and significant deposit growth. Management also took action to reduce credit and interest rate exposures in Peoples' investment portfolio, which accounted for much of the change in the investment portfolio composition since December 31, 2007.

Peoples' investment in mortgage-backed securities has increased as the result of management reinvesting some of the principal runoff from the portfolio into these types of securities, as well as repositioning of the portfolio during 2008 and 2009 to reduce credit and interest rate exposures.

A significant portion of Peoples' residential and commercial mortgage-backed securities are comprised of securities either guaranteed by the U.S. government or issued by U.S. government-sponsored agencies, such as Fannie Mae and Freddie Mac. The remaining portion of Peoples' mortgage-backed securities consists of securities issued by other entities, including other financial institutions, which are not guaranteed by the U.S. government. The amount of these "non-agency" securities included in the residential and commercial mortgage-backed securities totals above were as follows:

<i>(Dollars in thousands)</i>	2009	2008	2007
Residential	\$ 153,621	\$ 192,133	\$ 46,990
Commercial	24,188	25,951	-
Total fair value	\$ 177,809	\$ 218,084	\$ 46,990
Total amortized cost	\$ 177,370	\$ 231,153	\$ 47,757
Net unrealized gain (loss)	\$ 439	\$ (13,069)	\$ (767)

The non-agency portfolio consists entirely of first lien residential and commercial mortgages and all securities are rated AAA or equivalent by Moody's, Standard & Poor's or Fitch. Approximately 96% of the portfolio consists of 2003 or earlier originations and 99% of the portfolio consists of underlying fixed-rate mortgages.

At December 31, 2009, Peoples' investment in individual bank-issued trust preferred securities consisted of holdings of 9 unrelated issuers. All of these securities remain current on contractual interest payment. In addition, an aggregate of \$10 million of these securities relate to issuers that were involved in the comprehensive capital assessment conducted by federal bank supervisors in the first half of 2009 – known as the Supervisory Capital Assessment Program or "government stress test".

Peoples previously invested in CDO securities issued by special purpose vehicles holding pools of collateral consisting of trust preferred and subordinated debt securities issued by banks, bank holding companies, insurance companies and real estate investment trusts. CDO securities are generally segregated into several classes, known as tranches, with the typical structure including senior, mezzanine and equity tranches. In these structures, an investor holding the equity tranche has the first loss position. Interest and principal collected from the collateral is distributed with a priority that provides the

highest level of protection to the senior-most tranches. In order to provide a high level of protection to the senior tranches, cash flows are diverted to higher-level tranches if certain tests are not met.

Peoples' CDO investment has been limited to two lower mezzanine tranche CDO securities issued in 2006 and 2007 and two equity tranche CDO securities issued in 2002 and 2003. During 2009, management determined the mezzanine tranche CDO securities were total losses based on the cash flows expected to be received. As a result, Peoples' CDO investment was limited to the two equity tranche CDO securities, which had an aggregate book value of \$1.0 million or approximately 25% of their original value.

At December 31, 2009, Peoples' investment portfolio included a single qualified school construction bond purchased during the fourth quarter of 2009. Qualified school construction bonds were created under the American Recovery and Reinvestment Act of 2009 enacted during the first quarter of 2009. Holders of these bonds receive federal income tax credits in lieu of interest, which significantly reduces borrowing costs for public school construction projects. The federal income tax credit rate is fixed for the life of the bonds. However, there currently exists uncertainty regarding ownership rights of associated tax credits if the bonds are sold or transferred. Given this uncertainty, management intends to hold this security to maturity and believes Peoples has the ability to do so. Consequently, this security was designated as "held-to-maturity" at the time of its purchase. In January 2010, Peoples purchased an additional \$2 million of qualified school construction bonds, which were also designated as "held-to-maturity".

Additional information regarding Peoples' investment portfolio can be found in Note 3 of the Notes to the Consolidated Financial Statements.

Loans

The following table details total outstanding loans at December 31:

<i>(Dollars in thousands)</i>	2009	2008	2007	2006	2005
Year-end loan balances:					
Commercial, mortgage	\$ 503,034	\$ 478,298	\$ 513,847	\$ 469,934	\$ 504,923
Commercial, other	159,915	178,834	171,937	191,847	136,331

Consumer	8.5%	7.9%	7.3%	6.4%	5.9%
Deposit account overdrafts	0.2%	0.2%	0.2%	0.1%	0.1%
Total percentage	100.0%	100.0%	100.0%	100.0%	100.0%

In 2008 and 2009, commercial real estate loan balances were impacted by payoffs and charge-offs offsetting new production. In addition, depressed conditions in the commercial real estate market and general economy resulted in lower commercial lending activity in both years. During the fourth quarter of 2009, several large commercial construction loans, with total outstanding balances of approximately \$40 million, were converted to term commercial mortgage loans, which accounted for the changes in commercial mortgage and real estate construction loan balances since year-end 2008.

The following table details the maturities of Peoples' commercial and construction loans at December 31, 2009:

<i>(Dollars in thousands)</i>	Due in One Year or Less	Due in One to Five Years	Due After Five Years	Total
Loan Type				
Commercial, mortgage:				
Fixed	\$ 27,606	\$ 74,375	\$ 73,545	\$ 175,526
Variable	26,505	39,456	261,547	327,508
Total	\$ 54,111	\$ 113,831	\$ 335,092	\$ 503,034
Commercial, other:				
Fixed	\$ 9,279	\$ 62,784	\$ 9,439	\$ 81,502
Variable	46,399	18,763	13,251	78,413
Total	\$ 55,678	\$ 81,547	\$ 22,690	\$ 159,915
Real estate, construction:				
Fixed	\$ 2,708	\$ 4,693	\$ 847	\$ 8,248
Variable	3,153	417	20,609	24,179
Total	\$ 5,861	\$ 5,110	\$ 21,456	\$ 32,427

Peoples' real estate loan balances in recent periods have been impacted by customer demand for long-term, fixed-rate mortgages, which Peoples generally sells to the secondary market with servicing rights retained. In 2009, residential real estate loan balances were impacted by existing residential real estate loans being refinanced and sold to the secondary market in response to historically low long-term fixed rates being offered during the first half of the year. As a result, Peoples' serviced loan portfolio has increased 26% since year-end 2008, to \$227.8 million at December 31, 2009.

In recent years, Peoples experienced steady growth in consumer loan balances, due mainly to the efforts in indirect lending. Peoples' indirect lending activity involves the origination of consumer loans primarily through automobile dealers and comprises a significant portion of its total consumer loans. Management remains committed to originating quality consumer loans based on sound underwriting practices and appropriate loan pricing discipline, which could limit opportunities for future growth.

Loan Concentration

Peoples categorizes its commercial loans according to standard industry classifications and monitors for concentrations in a single industry or multiple industries that could be impacted by changes in economic conditions in a similar manner. Peoples' commercial lending activities continue to be spread over a diverse range of businesses from all sectors of the economy, with no single industry comprising over 10% of Peoples' total loan portfolio.

Loans secured by commercial real estate, including commercial construction loans, continue to comprise nearly half of Peoples' loan portfolio. The following table provides information regarding the largest concentrations of commercial real estate loans within the loan portfolio at December 31, 2009:

<i>(Dollars in thousands)</i>	Outstanding Balance	Loan Commitments	Total Exposure	% of Total
Real estate, construction loans:				
Lodging and lodging related	\$ 14,790	\$ 2,362	\$ 17,152	38.5%
Land and land development	7,057	1,136	8,193	18.4%
Apartment complexes	1,286	343	1,629	3.7%
Other	9,294	8,242	17,536	39.4%
Total real estate, construction	\$ 32,427	\$ 12,083	\$ 44,510	100.0%

<i>(Dollars in thousands)</i>	Outstanding Balance	Loan Commitments	Total Exposure	% of Total
Commercial, mortgage loans:				
Lodging and lodging related	\$ 59,417	\$ 1,223	\$ 60,640	11.8%
Office buildings and complexes:				
Owner occupied	5,928	242	6,170	1.2%
Non-owner occupied	46,248	506	46,754	9.1%
Total office buildings and complexes	52,176	748	52,924	10.3%
Apartment complexes	64,415	1,428	65,843	12.8%
Retail facilities:				
Owner occupied	13,230	616	13,846	2.7%
Non-owner occupied	35,736	331	36,067	7.0%

Non-owner occupied	10,136	-	10,136	2.0%
Total light industrial facilities	39,785	182	39,967	7.8%
Assisted living facilities and nursing homes	39,317	-	39,317	7.7%
Land and land development	30,150	3,749	33,899	6.6%
Health care facilities	21,462	26	21,488	4.2%
Other	105,393	663	106,056	20.7%
Total commercial, mortgage	\$ 503,034	\$ 9,926	\$ 512,960	100.0%

Peoples' commercial lending activities continue to focus on lending opportunities inside its primary market areas, with loans outside Peoples' primary market areas comprising approximately 10% of total outstanding loan balances, at both December 31, 2009 and 2008. The majority of those out-of-market loans are still based in Ohio, West Virginia and Kentucky, with total outstanding balances of \$77.9 million and \$76.6 million at year-end 2009 and 2008, respectively. In all other states, the aggregate outstanding balance in each state was less than \$5.0 million, except Florida, which had outstanding balances of \$7.0 million at December 31, 2009. The Florida loans were generated primarily through existing central Ohio-based client relationships.

Allowance for Loan Losses

The amount of the allowance for loan losses for the various loan types represents management's estimate of expected losses from existing loans. These estimates are based upon the formal quarterly analysis of the loan portfolio described in the "Critical Accounting Policies" section of this discussion. While allocations are made to specific loans and pools of loans, the allowance is available for all loan losses.

The following details the allocation of the allowance for loan losses:

<i>(Dollars in thousands)</i>	2009	2008	2007	2006	2005
Commercial, mortgage	\$ 22,125				
Commercial, other	1,586				
Total commercial	23,711	\$ 19,757	\$ 14,147	\$ 12,661	\$ 11,883
Real estate, mortgage	1,619	1,414	419	957	1,400
Home equity lines of credit	528	526	433	247	426
Consumer	1,074	789	435	349	723
Deposit account overdrafts	325	445	284	295	288
Total allowance for loan losses	\$ 27,257	\$ 22,931	\$ 15,718	\$ 14,509	\$ 14,720
As a percentage of total loans	2.59%	2.08%	1.40%	1.28%	1.37%

The significant allocations to commercial loans reflects the higher credit risk associated with this type of lending and the size of this loan category in relationship to the entire loan portfolio. The higher allocations in 2008 and 2009 primarily

reflect the elevated level of charge-offs in both years, which resulted in higher loss factors for graded loans, along with continued deterioration in credit quality of various commercial loans based on the financial condition of the borrowers. Another significant contributing factor was the impact of distressed commercial real estate values and general economic conditions on specific reserves for impaired loans. Given the continued rate of loss being experienced on commercial real estate loans, in the fourth quarter of 2009, management refined its methodology for estimating inherent losses on Peoples' commercial loans by performing separate evaluations of, and allocations for, commercial mortgage loans and other commercial loans. This refinement did not have a significant impact on the allowance for loan losses.

The allowance allocated to the real estate and consumer loan categories is based upon Peoples' allowance methodology for homogeneous pools of loans. The fluctuations in these allocations have been directionally consistent with the changes in loan quality, loss experience and changes in loan balances in each category.

The following table details the changes in the allowance for loan losses for the years ended December 31:

<i>(Dollars in thousands)</i>	2009	2008	2007	2006	2005
Allowance for loan losses:					
Allowance for loan losses, January 1	\$ 22,931	\$ 15,718	\$ 14,509	\$ 14,720	\$ 14,760

Real estate, construction	0.00%	-0.01%	0.00%	0.08%	-0.01%
Home equity lines of credit	0.00%	0.01%	0.02%	0.01%	0.01%
Consumer	0.07%	0.04%	0.02%	0.02%	0.02%
Deposit account overdrafts	0.09%	0.09%	0.05%	0.06%	0.06%
Total net charge-offs to average loans	1.96%	1.83%	0.25%	0.35%	0.21%

Gross charge-offs were significantly higher in 2008 and 2009 compared to prior years, due largely to losses on a limited number of impaired commercial loan relationships attributable to lower collateral values and associated workout costs. The majority of these relationships were identified as being impaired during 2008. Gross recoveries for 2009 were higher than recent periods as a result of a \$1.0 million recovery on a single impaired commercial relationship during the second quarter of 2009. This recovery was the result of higher than expected proceeds from sale of the underlying collateral.

The following table details Peoples' nonperforming assets at December 31:

<i>(Dollars in thousands)</i>	2009	2008	2007	2006	2005
Loans 90+ days past due and accruing:					
Commercial, mortgage	\$ 164	\$ -	\$ -	\$ -	\$ -

Total nonaccrual loans	33,972	41,320	8,980	8,785	6,284
Total nonperforming loans	34,383	41,320	9,358	10,004	6,535
Other real estate owned					
Commercial	6,087	378	-	-	308
Residential	226	147	343	-	-
Total other real estate owned	6,313	525	343	-	308
Total nonperforming assets	\$ 40,696	\$ 41,845	\$ 9,701	\$ 10,004	\$ 6,843
Nonperforming loans as a percent of total loans	3.27%	3.74%	0.83%	0.88%	0.61%
Nonperforming assets as a percent of total assets	2.03%	2.09%	0.51%	0.53%	0.37%
Allowance for loan losses as a percent of nonperforming loans	79.3%	55.5%	168.0%	145.0%	225.2%

Peoples' nonaccrual commercial real estate loans primarily consist of non-owner occupied commercial properties and real estate development projects. The combination of increased unemployment and depressed commercial real estate values in certain markets continue to challenge Peoples' asset quality, as reflected by the higher level of nonperforming assets in 2008 and 2009, compared to prior years.

In 2009, Peoples placed additional commercial real estate loans on nonaccrual status, although the overall increase in nonperforming assets was offset by charge-downs and payoffs on existing nonaccrual loans. Additionally, Peoples completed the foreclosure process on a \$5.0 million commercial real estate loan in the fourth quarter of 2009 by acquiring ownership of the property securing the loan. This action resulted in the loan being reclassified as other real estate owned at December 31, 2009.

Several nonperforming loans have been charged down to estimated net realizable fair value of the underlying collateral, resulting in a lower allowance for loan losses to nonperforming loans ratio in recent quarters compared to Peoples' historical levels.

Interest income on loans classified as nonaccrual and renegotiated at each year-end that would have been recorded under the original terms of the loans was \$1,850,000; \$1,936,000 and \$786,000 for 2009; 2008 and 2007, respectively, of which \$41,000; \$20,000 and \$47,000, respectively, was actually recorded consistent with the income recognition policy described in the "Critical Accounting Policies" section of this discussion.

A loan is considered impaired when, based on current information and events, it is probable that Peoples will be unable to collect the scheduled payments of principal or interest according to the contractual terms of the loan agreement. The measurement of potential impaired loan losses is generally based on the present value of expected future cash flows

discounted at the loan's contractual effective interest rate, or the fair value of the collateral if the loan is collateral dependent. If foreclosure is probable, impairment loss is measured based on the fair value of the collateral, less selling costs. Information regarding Peoples' impaired loans is included in Note 4 of the Notes to the Consolidated Financial Statements.

Deposits

Peoples' deposit balances were comprised of the following at December 31:

<i>(Dollars in thousands)</i>	2009	2008	2007	2006	2005
Retail certificates of deposit	\$ 537,549	\$ 626,195	\$ 499,684	\$ 514,885	\$ 465,148
Money market deposit accounts	263,257	213,498	153,299	134,387	110,372
Interest-bearing transaction accounts	229,232	187,100	191,359	170,022	178,030
Savings accounts	122,465	115,419	107,389	114,186	131,221
Total retail interest-bearing deposits	1,152,503	1,142,212	951,731	933,480	884,771
Brokered certificates of deposits	45,383	44,116	59,589	129,128	41,786
Total interest-bearing deposits	1,197,886	1,186,328	1,011,320	1,062,608	926,557
Non-interest-bearing deposits	198,000	180,040	175,057	170,921	162,729
Total deposit balances	\$1,395,886	\$1,366,368	\$1,186,377	\$1,233,529	\$1,089,286

Overall, Peoples ability to attract and retain retail certificates of deposit ("CDs") in recent years has been challenged by progressively intense competition for deposits within its markets. During 2008, Peoples successfully grew retail CDs by attracting nearly \$108 million of funds from customers outside its primary market area as an alternative to higher-cost brokered deposits. Contributing to the higher retail CD balances in 2008 were \$35.7 million of funds deposited by customers through the Certificate of Deposit Account Registry System, or CDARS, program, with \$18 million attributable to a single commercial deposit during the fourth quarter of 2008. Given the growth in low-cost and non-interest-bearing core deposits in 2009, management decided to reduce the amount of these higher-cost balances, which resulted in lower retail CD balances at year-end 2009.

Money market balances have more than doubled since year-end 2005, due largely to Peoples offering a consumer money market product with a very competitive rate. Growth in money market balances also occurred in 2008 and 2009 due to customer preference for insured deposits over short-term investment alternatives and additional funds from trust customers. In prior years, Peoples' trust department had utilized money market funds offered by unaffiliated providers for its customers. In late 2008, the ultra-low short-term interest rates caused certain money market funds to be closed to new deposits, which resulted in an influx of trust funds. Management considers these additional trust funds to be a short-term, inexpensive funding source, although the amounts could change unexpectedly in future periods.

A significant portion of Peoples' interest-bearing transaction account balances is comprised of deposits from state and local governmental entities, which are subject to periodic fluctuations based on the timing of tax collections and subsequent expenditures or disbursements. While Peoples has experienced steady growth in these public funds over the last few years, management believes these balances could decrease slightly in 2010, as Peoples continues to emphasize growth of other low-cost deposits that do not require Peoples to pledge assets as collateral.

In late 2005, Peoples implemented a direct mail and free gift marketing campaign designed to attract new customers and increase non-interest-bearing deposits. This campaign, which ended during 2007, generated many new customer accounts and higher consumer balances. Peoples experienced continued success in growing non-interest-bearing deposit balances in 2008 and 2009, due largely to its focus on expanding core deposit balances as a means of reducing reliance on typically higher-costing, wholesale funding sources.

The maturities of CDs with total balances of \$100,000 or more at December 31 were as follows:

<i>(Dollars in thousands)</i>	2009	2008	2007	2006	2005
3 months or less	\$ 60,882	\$ 66,757	\$ 42,809	\$ 26,601	\$ 25,884
Over 3 to 6 months	25,637	50,545	33,411	47,738	25,628
Over 6 to 12 months	35,412	54,610	24,718	59,084	34,207
Over 12 months	93,002	63,345	43,386	89,049	82,174
Total	\$ 214,933	\$ 235,257	\$ 144,324	\$ 222,472	\$ 167,893

Borrowed Funds

In 2009, Peoples reduced total borrowed funds by 20%, to \$345.6 million at December 31, 2009. This reduction occurred as a result of Peoples using funds generated from retail deposit growth and the TARP Capital Investment to repay maturing long-term borrowings. Additional information regarding Peoples' borrowed funds can be found in Notes 8 and 9 of the Notes to the Consolidated Financial Statements.

Capital/Stockholders' Equity

In 2009, total stockholders' equity increased \$57.3 million, to \$244.0 million at year-end, due to the TARP Capital Investment and improvement in fair value of Peoples' available-for-sale investment portfolio.

At December 31, 2009, capital levels for both Peoples and Peoples Bank remained substantially higher than the minimum amounts needed to be considered well capitalized institutions under banking regulations. Since year-end 2008, regulatory capital ratios for both Peoples and Peoples Bank improved from already healthy levels, due to the TARP Capital Investment. Further information regarding Peoples and Peoples Bank's risk-based capital ratios can be found in Note 17 of the Notes to Consolidated Financial Statements.

In 2009, Peoples took steps to preserve capital by reducing the quarterly cash dividend to common shareholders in the second half of the year. As a result, Peoples declared cash dividends of \$0.66 per common share for 2009, compared to \$0.91 per common share for 2008. The decision to reduce the quarterly cash dividend was based largely on Peoples' desire to maintain a dividend payout consistent with then current earnings levels, as well as projected short-term earning levels and long-term capital needs.

Peoples historically has paid between 30% and 50% of quarterly earnings as dividends to shareholders. However, future dividend payments will continue to be determined each quarter based upon Peoples' performance and capital needs. In addition, other restrictions and limitations may prohibit Peoples from paying dividends even when sufficient cash is available. Further discussion regarding restrictions on Peoples' ability to pay future dividends can be found in Note 17 of the Notes to the Consolidated Financial Statements, as well as the "Supervision and Regulation – TARP Capital Purchase Program" and "Supervision and Regulation – Dividend Restrictions" sections under Item 1 of this Form 10-K.

In addition to traditional capital measurements, management uses tangible equity to evaluate the adequacy of Peoples' stockholders' equity. This non-GAAP financial measure and related ratios facilitate comparisons with peers since it removes the impact of intangible assets acquired through acquisitions on the Consolidated Balance Sheets. The following table reconciles the calculation of tangible equity reported in Peoples' Consolidated Financial Statements:

<i>(Dollars in thousands)</i>	2009	2008	2007	2006	2005
Tangible Equity:					
Total stockholders' equity, as reported	\$ 243,968	\$ 186,626	\$ 202,836	\$ 197,169	\$ 183,077
Less: goodwill and other intangible assets	65,599	66,406	68,029	68,852	69,280
Tangible equity	\$ 178,369	\$ 120,220	\$ 134,807	\$ 128,317	\$ 113,797
Tangible Common Equity:					
Tangible equity	\$ 178,369	\$ 120,220	\$ 134,807	\$ 128,317	\$ 113,797
Less: preferred stockholders' equity	38,543	–	–	–	–
Tangible common equity	\$ 139,826	\$ 120,220	\$ 134,807	\$ 128,317	\$ 113,797
Tangible Assets:					
Total assets, as reported	\$ 2,001,827	\$ 2,002,338	\$ 1,885,553	\$ 1,875,255	\$ 1,855,277
Less: goodwill and other intangible assets	65,599	66,406	68,029	68,852	69,280
Tangible assets	\$ 1,936,228	\$ 1,935,932	\$ 1,817,524	\$ 1,806,403	\$ 1,785,997
Tangible Book Value per Share:					
Tangible common equity	\$ 139,826	\$ 120,220	\$ 134,807	\$ 128,317	\$ 113,797
Common shares outstanding	10,374,637	10,333,884	10,296,748	10,651,985	10,518,980
Tangible book value per share	\$ 13.48	\$ 11.63	\$ 13.09	\$ 12.05	\$ 10.82

<i>(Dollars in thousands)</i>	2009	2008	2007	2006	2005
Tangible Equity to Tangible Assets Ratio:					
Tangible equity	\$ 178,369	\$ 120,220	\$ 134,807	\$ 128,317	\$ 113,797
Total tangible assets	\$ 1,936,228	\$ 1,935,932	\$ 1,817,524	\$ 1,806,403	\$ 1,785,997
Tangible equity to tangible assets	9.21%	6.21%	7.42%	7.10%	6.37%
Tangible Common Equity to Tangible Assets Ratio:					
Tangible common equity	\$ 139,826	\$ 120,220	\$ 134,807	\$ 128,317	\$ 113,797
Tangible assets	\$ 1,936,228	\$ 1,935,932	\$ 1,817,524	\$ 1,806,403	\$ 1,785,997
Tangible common equity to tangible assets	7.22%	6.21%	7.42%	7.10%	6.37%

Interest Rate Sensitivity and Liquidity

While Peoples is exposed to various business risks, the risks relating to interest rate sensitivity and liquidity are typically the most complex and dynamic risks that can materially impact future results of operations and financial condition. The objective of Peoples' asset/liability management ("ALM") function is to measure and manage these risks in order to optimize net interest income within the constraints of prudent capital adequacy, liquidity and safety. This objective requires Peoples to focus on interest rate risk exposure and adequate liquidity through its management of the mix of assets and liabilities, their related cash flows and the rates earned and paid on those assets and liabilities. Ultimately, the ALM function is intended to guide management in the acquisition and disposition of earning assets and selection of appropriate funding sources.

Interest Rate Risk

Interest rate risk ("IRR") is one of the most significant risks arising in the normal course of business of financial services companies like Peoples. IRR is the potential for economic loss due to future interest rate changes that can impact both the earnings stream as well as market values of financial assets and liabilities. Peoples' exposure to IRR is due primarily to differences in the maturity or repricing of earning assets and interest-bearing liabilities. In addition, other factors, such as prepayments of loans and investment securities or early withdrawal of deposits, can expose Peoples to IRR and increase interest costs or reduce revenue streams.

Peoples has assigned overall management of IRR to the ALCO, which has established an IRR management policy that sets minimum requirements and guidelines for monitoring and managing the level and amount of IRR. The objective of Peoples' IRR policy is to assist the ALCO in its evaluation of the impact of changing interest rate conditions on earnings and economic value of equity, as well as assist with the implementation of strategies intended to reduce Peoples' IRR. The management of IRR involves either maintaining or changing the level of risk exposure by changing the repricing and maturity characteristics of the cash flows for specific assets or liabilities.

The ALCO uses various methods to assess and monitor the current level of Peoples' IRR and the impact of potential strategies or other changes. However, the ALCO predominantly relies on simulation modeling in its overall management of IRR since it is a dynamic measure. Simulation modeling also estimates the impact of potential changes in interest rates and balance sheet structures on future earnings and projected fair value of equity.

The modeling process starts with a base case simulation using the current balance sheet and current interest rates held constant for the next twelve months. Alternate scenarios are prepared which simulate the impact of increasing and decreasing market interest rates, assuming parallel yield curve shifts. Comparisons produced from the simulation data, showing the changes in net interest income from the base interest rate scenario, illustrate the risks associated with the current balance sheet structure. Additional simulations, when deemed appropriate or necessary, are prepared using different interest rate scenarios than those used with the base case simulation and/or possible changes in balance sheet composition. Comparisons showing the earnings and equity value variance from the base case are provided to the ALCO for review and discussion.

The ALCO has established limits on changes in net interest income and the economic value of equity. In general, the ALCO limits the decrease in net interest income to 15% or less from base case for each 200 basis point shift in interest rates measured over a twelve-month period. The ALCO limits the negative impact on net equity to 20% or less given an immediate and sustained 200 basis point shift in interest rates.

The following table illustrates the estimated impact of an immediate and sustained change in interest rates (dollars in thousands):

Increase in Interest Rate (in Basis Points)	Estimated Increase (Decrease) in Net Interest Income				Estimated Increase (Decrease) in Economic Value of Equity			
	December 31, 2009		December 31, 2008		December 31, 2009		December 31, 2008	
300	\$ 2,836	4.6 %	\$ (1,713)	(2.9)%	\$ 2,974	1.1 %	\$ (5,386)	(2.4)%
200	3,010	4.8 %	(418)	(0.7)%	9,730	3.5 %	(1,048)	(0.5)%
100	2,100	3.4 %	84	0.1 %	9,447	3.4 %	2,946	1.3 %

This table uses a standard, parallel shock analysis for assessing the IRR to net interest income and the economic value of equity. A parallel shock means all points on the yield curve (one year, two year, three year, etc.) are directionally shocked the same amount of basis points – 100 basis points equal to 1%. While management regularly assesses the impact of both increasing and decreasing interest rates, the table above only reflects the impact of upward shocks due the fact a downward parallel shock of 100 basis points or more is not possible given that some short-term rates are currently less than 1%.

Although a parallel shock table can give insight into the current direction and magnitude of IRR inherent in the balance sheet, interest rates do not always move in a complete parallel manner during interest rate cycles. These nonparallel movements in interest rates, commonly called yield curve steepening or flattening movements, tend to occur during the beginning and end of an interest rate cycle. As a result, management conducts more advanced interest rate shock scenarios to gain a better understanding of Peoples' exposure to nonparallel rate shifts.

During 2009, management shifted the balance sheet from a generally neutral interest risk position to an asset sensitive position in anticipation of eventual rising interest rates. This change occurred largely as the result of management selectively extending maturities on the liability side of the balance sheet by issuing brokered deposits with maturities of five years or longer, while shortening the duration of the investment portfolio. The ALCO will continue to monitor Peoples' overall IRR position and take appropriate actions, when necessary, to preserve the current balance sheet risk position and minimize the impact of changes in interest rates on future earnings.

Liquidity

In addition to IRR management, another major objective of the ALCO is to maintain a sufficient level of liquidity. The ALCO defines liquidity as the ability to meet anticipated and unanticipated operating cash needs, loan demand and deposit withdrawals, without incurring a sustained negative impact on profitability. The ALCO's liquidity management policy sets limits on the net liquidity position and the concentration of non-core funding sources, both wholesale funding and brokered deposits.

Typically, the main source of liquidity for Peoples is deposit growth. Liquidity is also provided by cash generated from earning assets such as maturities, calls, principal payments and interest income from loans and investment securities. Peoples also uses various wholesale funding sources to supplement funding from customer deposits. These external sources also provide Peoples with the ability to obtain large quantities of funds in a relatively short time period in the event of sudden unanticipated cash needs. Peoples also has a contingency funding plan that serves as an action plan for management in the event of a short-term or long-term funding crisis caused by a single or series of unexpected events.

At December 31, 2009, Peoples had available borrowing capacity through its wholesale funding sources and unpledged investment securities totaling approximately \$185 million that can be used to satisfy liquidity needs, up from \$124 million at year-end 2008. This liquidity position excludes the \$11 million excess cash reserves at the Federal Reserve Bank of Cleveland and the impact of Peoples' ability to obtain additional funding by either offering higher rates on retail deposits or issuing additional brokered deposits. Management believes the current balance of cash and cash equivalents and anticipated cash flows from the investment portfolio, along with the availability of other funding sources, will allow Peoples to meet anticipated cash obligations, as well as special needs and off-balance sheet commitments.

Future Outlook

In 2009, financial services companies, including Peoples, continued to navigate through a variety of challenges resulting from the economic turmoil that has existed over the last two years. These challenges included asset quality deterioration, additional regulatory burden and FDIC premium expense, plus depressed real estate values. While national statistics may be showing signs of an economic recovery, management expects many of these challenges will persist in

2010. As a result, Peoples' key priorities will include improving asset quality, maintaining liquidity, preserving capital and realizing operating efficiencies, while continuing to grow its business through client-focused strategies.

One of Peoples' recent successes was a modest reduction in nonperforming loans compared to year-end 2008 levels. While nonperforming asset reduction will remain a priority in 2010, many of Peoples' commercial borrowers continue to experience financial difficulty due to current economic conditions and reduced consumer spending. Additionally, the market for selling commercial properties is expected to remain slower than prior years. These conditions could limit any improvement in Peoples' asset quality. Even still, Peoples will remain diligent in its workout efforts and could take more aggressive actions to resolve existing problem loans. However, such actions could require Peoples to recognize additional charge-offs, which may result in provision for loan losses remaining elevated in 2010.

Peoples also maintained sound capital positions, despite higher provision for loan losses and investment securities impairment losses, due in part to the capital received in the TARP Capital Investment. While the TARP Capital Investment has afforded Peoples greater flexibility to work through asset quality issues and provided additional strength to continue lending in a difficult environment, this capital is not part of Peoples' long-term capital plan. Consequently, management anticipates repaying the TARP Capital Investment sooner than the 3 to 5 years originally planned, but only if it makes sense to do so based on asset quality and capital levels.

In 2009, Peoples' interest rate strategies emphasized reducing funding costs by replacing higher-cost wholesale funding with lower-cost core deposits. In 2010, Peoples will continue to grow low-cost core deposits and price some higher-cost deposits more selectively, especially in segments like government deposits that require pledging of investments. Management anticipates a modest decrease in governmental deposits in 2010 in response to less aggressive pricing during the year. However, Peoples' ability to improve net interest income and margin may be limited as some contraction in earning asset levels could occur. Loan growth could be minimal given the impact of economic conditions on loan demand and possibility charge-offs could remain elevated.

Peoples' balance sheet is positioned for a rising interest rate environment, and management would expect net interest income and margin to benefit should interest rates increase during the year. Given the uncertainty surrounding the timing and magnitude of future interest rate changes, as well as the impact of competition for loans and deposits, Peoples' net interest margin and income remain inherently difficult to predict and manage.

Peoples' investment securities portfolio could remain a significant portion of the earning asset base in 2010. Given the limited opportunities to find attractive long-term investments, management believes it is likely the investment portfolio could experience a modest decrease in the early part of 2010. Most of the reduction could occur as a result of normal monthly cash flows generated by the portfolio, given the significant investment in mortgage-backed securities. However, Peoples could adjust the size or composition of the portfolio based on, among other factors, changes in the loan portfolio, liquidity needs and interest rate conditions.

In 2009, Peoples' non-interest income benefited from sizable growth in mortgage banking activity and related income. This increased activity was mostly attributable to significantly higher refinancing activity from customers taking advantage of historically low fixed interest rates. Management does not anticipate the same level of secondary market loan production in 2010, which would result in lower mortgage banking income. Non-interest income could be challenged further by new regulations governing overdraft fees that take effect on July 1, 2010, which impact Peoples' ability to assess overdraft fees on certain transactions without the prior consent of customers. Given the nature of this new regulation, management is unable to estimate the potential impact on Peoples' deposit account services charges and earnings. However, management continues to evaluate opportunities to mitigate the impact by enhancing other revenues and products to be offered to customers. Additionally, Peoples remains committed to customer-focused delivery of financial services and increasing cross-sale activity among its business lines, which could produce additional non-interest revenues.

Operating expenses were controlled in 2009, with the overall increase in total non-interest expense limited to higher FDIC expenses, professional fees associated with problem loans and employee medical benefit plan costs. During the second half of 2009, management intensified its cost control efforts and will be working to build on that progress in 2010. Some of the initiatives implemented include freezing virtually all base salaries and curtailing certain employee benefits. A key to achieving Peoples' 2010 operating goals will be reductions in various operating expenses and improvement in overall operating efficiency. Management continues to monitor expenses closely and seek additional efficiencies wherever possible, while at the same time evaluate opportunities to expand Peoples' customer base and grow the company in a disciplined manner commensurate with the greater value of capital in the current operating environment.

Growing retail deposit balances and reducing Peoples' reliance on higher-cost wholesale funding sources will remain a point of emphasis in 2010. Competition for deposits could make it difficult for Peoples to build on its recent success. Still, Peoples' sales associates are focused on developing long-term relationships and uncovering other financial needs of these new customers, while at the same time expanding relationships with existing customers.

Over the past couple decades, Peoples grew its business and revenues through strategic acquisitions and expansion. Management believes conditions in several markets served by Peoples could provide opportunities for potential growth. Further, management believes Peoples' capital position remains at levels that will support disciplined balance sheet growth opportunities. The evaluation of potential acquisitions will be more strenuous and selective, especially considering the value of capital during difficult economic times. Ultimately, any future expansion will be driven by growth opportunities in both deposits and loans.

The economic outlook for 2010, and even 2011, also indicates the potential for a new set of challenges for financial services companies in the coming year due to sustained high unemployment and depressed prices of commercial real estate. Management remains focused on building upon Peoples' strengths to help its clients with financial solutions that fit their needs, while also investing in client services that add to Peoples' growing customer base.

Off-Balance Sheet Activities and Contractual Obligations

Peoples routinely engages in activities that involve, to varying degrees, elements of risk that are not reflected in whole or in part in the Consolidated Financial Statements. These activities are part of Peoples' normal course of business and include traditional off-balance sheet credit-related financial instruments, interest rate contracts, operating leases, long-term debt and commitments to make additional capital contributions in low-income housing tax credit investments.

The following is a summary of Peoples' significant off-balance sheet activities and contractual obligations. Detailed information regarding these activities and obligations can be found in the Notes to the Consolidated Financial Statements as follows:

<u>Activity or Obligation</u>	<u>Note</u>
Off-balance sheet credit-related financial instruments	16
Low-income housing tax credit investments	16
Operating lease obligations	5
Long-term debt obligations	9
Junior subordinated notes held by subsidiary trusts	10

Traditional off-balance sheet credit-related financial instruments are primarily commitments to extend credit and standby letters of credit. These activities are necessary to meet the financing needs of customers and could require Peoples to make cash payments to third parties in the event certain specified future events occur. The contractual amounts represent the extent of Peoples' exposure in these off-balance sheet activities. However, since certain off-balance sheet commitments, particularly standby letters of credit, are expected to expire or only partially be used, the total amount of commitments does not necessarily represent future cash requirements.

Peoples also has commitments to make additional capital contributions in low-income housing tax credit funds, consisting of a pool of low-income housing projects. As a limited partner in these funds, Peoples receives federal income tax benefits, which assist Peoples in managing its overall tax burden. Since the future contributions are conditioned on certain future events, the total amount of future equity contributions at December 31, 2009, is not reflected on the Consolidated Balance Sheets.

Peoples continues to lease certain facilities and equipment under noncancellable operating leases with terms providing for fixed monthly payments over periods generally ranging from two to ten years. Several of Peoples' leased facilities are inside retail shopping centers or office buildings and, as a result, are not available for purchase. Management believes these leased facilities increase Peoples' visibility within its markets and afford sales associates additional access to current and potential clients.

The following table details the aggregate amount of future payments Peoples is required to make under certain contractual obligations as of December 31, 2009:

<i>(Dollars in thousands)</i>	Total	Payments due by period			
		Less than 1 year	1-3 years	3-5 years	More than 5 years
Long-term debt ⁽¹⁾	\$ 246,113	\$ 33,281	\$ 82,435	\$ 3,555	\$ 126,842
Junior subordinated notes held by subsidiary trust ⁽¹⁾	22,530	-	-	-	22,530
Operating leases	6,410	850	1,669	1,451	2,440
Time deposits	582,932	310,575	182,227	53,887	36,243
Total	\$ 857,985	\$ 344,706	\$ 266,331	\$ 58,893	\$ 188,055

⁽¹⁾ Amounts reflect solely the minimum required principal payments.

Management does not anticipate Peoples' current off-balance sheet activities and contractual obligations will have a material impact on future results of operations and financial condition based on past experience.

Effects of Inflation on Financial Statements

Substantially all of Peoples' assets relate to banking and are monetary in nature. As a result, inflation does not impact Peoples to the same degree as companies in capital-intensive industries in a replacement cost environment. During a period of rising prices, a net monetary asset position results in a loss in purchasing power and conversely a net monetary liability position results in an increase in purchasing power. The opposite would be true during a period of decreasing prices. In the banking industry, monetary assets typically exceed monetary liabilities. The current monetary policy targeting low levels of inflation has resulted in relatively stable price levels. Therefore, inflation has had little impact on Peoples' net assets.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Please refer to the section captioned "Interest Rate Sensitivity and Liquidity" under Item 7 of this Form 10-K, which section is incorporated herein by reference.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The Consolidated Financial Statements and accompanying notes, and the report of independent registered public accounting firm, are set forth immediately following Item 9B of this Form 10-K.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

No response required.

ITEM 9A. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

Peoples' management, with the participation of Peoples' President and Chief Executive Officer and Peoples' Executive Vice President, Chief Financial Officer and Treasurer, has evaluated the effectiveness of Peoples' disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) (the "Exchange Act") as of December 31, 2009. Based upon that evaluation, Peoples' President and Chief Executive Officer and Peoples' Executive Vice President, Chief Financial Officer and Treasurer have concluded that:

- (a) information required to be disclosed by Peoples in this Annual Report on Form 10-K and other reports Peoples files or submits under the Exchange Act would be accumulated and communicated to Peoples' management, including its President and Chief Executive Officer and its Executive Vice President, Chief Financial Officer and Treasurer, as appropriate to allow timely decisions regarding required disclosure;

- (b) information required to be disclosed by Peoples in this Annual Report on Form 10-K and other reports Peoples files or submits under the Exchange Act would be recorded, processed, summarized and reported within the timeframe specified in the SEC's rules and forms; and
- (c) Peoples' disclosure controls and procedures were effective as of the end of the fiscal year covered by this Annual Report on Form 10-K.

Management's Annual Report on Internal Control Over Financial Reporting

The "Report of Management's Assessment of Internal Control Over Financial Reporting" required by Item 308(a) of SEC Regulation S-K is included on page 55 of this Annual Report on Form 10-K.

Attestation Report of Independent Registered Public Accounting Firm

The "Report of Independent Registered Public Accounting Firm on Effectiveness of Internal Control Over Financial Reporting" required by Item 308(b) of SEC Regulation S-K is included on page 56 of this Annual Report on Form 10-K.

Changes in Internal Control over Financial Reporting

During the fourth quarter of Peoples' fiscal year ended December 31, 2009, no changes were made in Peoples' internal control over financial reporting that have materially effected, or are reasonably likely to materially effect, Peoples' internal control over financial reporting.

ITEM 9B. OTHER INFORMATION

On February 25, 2010, Peoples' Board of Directors established the 2010 corporate incentive performance goals for Peoples' executive officers, which maintained the "balanced scorecard" approach adopted in 2009. The "balanced scorecard" approach adopted is comprised of the following components and their corresponding weightings: (i) Earnings Per Share Available to Common Shareholders (30% weighting); (ii) Total Revenue (5% weighting); (iii) Efficiency Ratio (5% weighting); (iv) Tier 1 Common Capital Ratio (15% weighting); (v) Non-Performing Assets as a Percent of Loans and Other Real Estate Owned (15% weighting); and (vi) Discretionary Measure (30% weighting). The Discretionary Measure is unique to each executive officer and consists of quantitative and qualitative measures such as effectiveness in strategic planning and implementation of long-range plans, reduction in classified assets and other leadership-based factors. These measures are intended to reflect results achieved for shareholders while ensuring that the compensation arrangement does not encourage unnecessary and excessive risk-taking that could threaten the value of Peoples. The absolute minimum level of corporate performance remains in effect for 2010, but the Compensation Committee of the Board of Directors (the "Committee") retains the ability to award both cash and equity-based incentive compensation based on results achieved by the individual executive officer if the absolute minimum level of performance is not achieved.

There are three levels of incentive awards under the plans: threshold, target and maximum. Payouts as a percent of salary have been increased for achieving the threshold level of performance and decreased for achieving target and maximum levels of performance in an effort to reduce the magnitude of the potential incentives compared to risk-taking. Fifty percent of the payout level attributable to achievement of the performance goals in the balanced scorecard would be awarded to the executive officer in the form of an annual cash incentive. The remaining 50% of the payout level achieved would be in the form of restricted stock, 33% of which would be in the form of restricted stock with a two-year time-based vesting period and 67% of which would be in the form of restricted stock with a performance-based vesting based upon the achievement of an Earnings Per Share Available to Common Shareholders performance goal for the three-year period ending December 31, 2012. The Committee believes restricted stock awards better align the interests of management with those of the shareholders than other forms of equity. As a result, the Committee has increased the amount of the total performance-based compensation that would be awarded in equity-based awards from approximately one-third of aggregate incentive awards to one-half of the incentive awards, and from two forms of equity (split equally between SARs to be settled in stock and restricted stock) to a blend of time-vested and performance-vested restricted stock. The addition of performance-based vesting lengthens the performance period being measured for one-third of the total incentive award from one year to three years, making it easier to factor in risk and risk outcome. Additionally, the mandatory 25% deferral of the cash incentive award has been eliminated for 2010 since the retention benefit is now achieved through the use of time-vested and performance-vested restricted stock.

A summary of the incentive plan for Peoples' executive officers is included as Exhibit 10.2(b) to this Form 10-K.

Report of Management's Assessment of Internal Control Over Financial Reporting

Peoples' management is responsible for establishing and maintaining adequate internal control over financial reporting, as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934, as amended. Peoples' internal control over financial reporting has been designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation, integrity, and fair presentation of Peoples' Consolidated Financial Statements for external purposes in accordance with United States generally accepted accounting principles.

With the supervision and participation of its President and Chief Executive Officer and its Executive Vice President, Chief Financial Officer and Treasurer, management evaluated the effectiveness of its internal control over financial reporting as of December 31, 2009, using the framework set forth by the Committee of Sponsoring Organizations of the Treadway Commission.

No matter how well designed, internal control over financial reporting may not prevent or detect all misstatements. Projection of the evaluation of effectiveness to future periods is subject to risks, including but not limited to (a) controls may become inadequate due to changes in conditions; (b) a deterioration in the degree of compliance with policies or procedures; and (c) the possibility of control circumvention or override, any of which may lead to misstatements due to undetected error or fraud. Effective internal control over financial reporting can provide only a reasonable assurance with respect to financial statement preparation and reporting.

Management assessed the effectiveness of Peoples' internal control over financial reporting as of December 31, 2009, and, based on this assessment, has concluded Peoples' internal control over financial reporting is effective as of that date.

Peoples' independent registered public accounting firm, Ernst & Young LLP has audited the Consolidated Financial Statements included in this Annual Report and has issued an attestation report on Peoples' internal control over financial reporting.

Report of Independent Registered Public Accounting Firm on Effectiveness of Internal Control Over Financial Reporting

The Board of Directors and Shareholders of Peoples Bancorp Inc.

We have audited Peoples Bancorp Inc.'s internal control over financial reporting as of December 31, 2009, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). Peoples Bancorp Inc.'s management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Report of Management's Assessment of Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the company's internal control over financial reporting based on our audit.

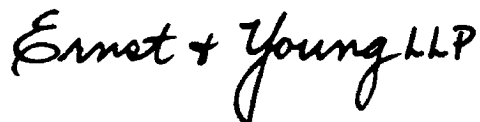

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Peoples Bancorp Inc. maintained, in all material respects, effective internal control over financial reporting as of December 31, 2009, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Peoples Bancorp Inc. as of December 31, 2009 and 2008, and the related consolidated statements of income, stockholders' equity, and cash flows for each of the three years in the period ended December 31, 2009, and our report dated March 1, 2010 expressed an unqualified opinion thereon.

Report of Independent Registered Public Accounting Firm on Consolidated Financial Statements

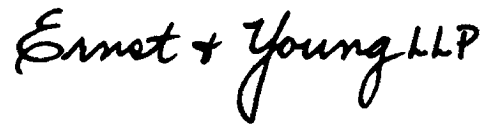

The Board of Directors and Shareholders of Peoples Bancorp Inc.

We have audited the accompanying consolidated balance sheets of Peoples Bancorp Inc. and subsidiaries as of December 31, 2009 and 2008, and the related consolidated statements of income, stockholders' equity, and cash flows for each of the three years in the period ended December 31, 2009. These financial statements are the responsibility of Peoples Bancorp Inc.'s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Peoples Bancorp Inc. and subsidiaries at December 31, 2009 and 2008, and the consolidated results of their operations and their cash flows for each of the three years in the period ended December 31, 2009, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Peoples Bancorp Inc.'s internal control over financial reporting as of December 31, 2009, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated March 1, 2010, expressed an unqualified opinion thereon.

The signature of Ernst & Young LLP is written in a cursive, handwritten style in black ink.

PEOPLES BANCORP INC. AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

Peoples Bancorp Inc. is a financial holding company that offers a full range of financial services and products, including commercial and retail banking, insurance, brokerage and trust services, through its principal operating subsidiary, Peoples Bank, National Association ("Peoples Bank"). Services are provided through 47 financial service locations and 39 automated teller machines in Ohio, West Virginia and Kentucky, as well as internet-based banking.

Note 1. Summary of Significant Accounting Policies

The accounting and reporting policies of Peoples Bancorp Inc. and Subsidiaries ("Peoples" refers to, Peoples Bancorp Inc. and its consolidated subsidiaries collectively, except where the context indicates the reference relates solely to Peoples Bancorp Inc.) conform to generally accepted accounting principles in the United States of America ("US GAAP") and to general practices within the banking industry. The preparation of the financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. Certain items in prior financial statements have been reclassified to conform to the current presentation, which had no impact on net income, comprehensive income or loss, net cash provided by operating activities or stockholders' equity.

The following is a summary of significant accounting policies followed in the preparation of the financial statements:

Consolidation: Peoples' Consolidated Financial Statements include subsidiaries in which Peoples has a controlling financial interest, principally defined as owning a voting interest greater than 50%. In addition, entities not controlled by voting interests or in which the equity investors do not bear the residual economic risks, but for which Peoples is the primary beneficiary are also consolidated.

The Consolidated Financial Statements include the accounts of Peoples and its consolidated subsidiaries, Peoples Bank and Peoples Investment Company, along with their wholly-owned subsidiaries. Peoples previously formed a statutory business trust described in Note 10 that is a variable interest entity for which Peoples is not the primary beneficiary. As a result, the accounts of this trust are not included in Peoples' Consolidated Financial Statements. All significant intercompany accounts and transactions have been eliminated.

Cash and Cash Equivalents: Cash and cash equivalents include cash and due from banks, interest-bearing deposits in other banks, Federal Funds sold and other short-term investments, all with original maturities of ninety days or less.

Investment Securities: Investment securities are recorded initially at cost, which includes premiums and discounts if purchased at other than par or face value. Peoples amortizes premiums and accretes discounts as an adjustment to interest income on a level yield basis. The cost of investment securities sold, and any resulting gain or loss, is based on the specific identification method and recognized as of the trade date.

Management determines the appropriate classification of investment securities at the time of purchase. Held-to-maturity securities are those securities that Peoples has the positive intent and ability to hold to maturity and are recorded at amortized cost. Available-for-sale securities are those securities that would be available to be sold in the future in response to Peoples' liquidity needs, changes in market interest rates, and asset-liability management strategies, among other considerations. Available-for-sale securities are reported at fair value, with unrealized holding gains and losses reported in stockholders' equity as a separate component of other comprehensive income or loss, net of applicable deferred income taxes. Trading securities are those securities bought and held principally for the purpose of selling in the near term. Trading securities are reported at fair value, with holding gains and losses recognized in earnings.

Certain restricted equity securities that do not have readily determinable fair values and for which Peoples does not exercise significant influence, are carried at cost. These cost method securities are reported as other investment securities on the Consolidated Balance Sheets and consist solely of shares of the Federal Home Loan Bank ("FHLB") of Cincinnati and the Federal Reserve Bank of Cleveland.

Management systematically evaluates investment securities for other-than-temporary declines in fair value on a quarterly basis. This analysis requires management to consider various factors, which include (1) duration and magnitude of the decline in value, (2) the financial condition of the issuer or issuers and (3) structure of the security.

An impairment loss is recognized in earnings only when (1) Peoples intends to sell the debt security; (2) it is more likely than not that Peoples will be required to sell the security before recovery of its amortized cost basis or (3) Peoples does not expect to recover the entire amortized cost basis of the security. In situations where Peoples intends

to sell or when it is more likely than not that Peoples will be required to sell the security, the entire impairment loss must be recognized in earnings. In all other situations, only the portion of the impairment loss representing the credit loss must be recognized in earnings, with the remaining portion being recognized in stockholders' equity as a component of other comprehensive income, net of deferred taxes.

Securities Sold Under Agreements to Repurchase: Peoples enters into sales of securities under agreements to repurchase ("Repurchase Agreements") with customers and other financial service companies, which are treated as financings. The obligations to repurchase securities sold are recorded as a liability on the Consolidated Balance Sheets and disclosed in Notes 8 and 9. Securities pledged as collateral under Repurchase Agreements are included in investment securities on the Consolidated Balance Sheets and are disclosed in Note 3. The fair value of the collateral pledged to a third party is continually monitored and additional collateral is pledged or returned, as deemed appropriate.

Loans: Loans originated that Peoples has the positive intent and ability to hold for the foreseeable future or to maturity or payoff are reported at the principal balance outstanding, net of deferred loan fees and costs and an allowance for loan losses. The foreseeable future is based upon current market conditions and business strategies, as well as balance sheet management and liquidity. As the conditions change, so may management's view of the foreseeable future. Net deferred loan costs were \$1.1 million and \$946,000 at December 31, 2009 and 2008, respectively.

A loan is considered impaired, based on current information and events, if it is probable that collection of principal and interest payments when due according to the contractual terms of the loan agreement is doubtful. Impaired loans include commercial loans placed on nonaccrual status, renegotiated or internally classified as substandard or doubtful (as those terms are defined by banking regulations) and meet the definition of impaired loans. The amount of impairment is based on the fair value of the underlying collateral if repayment is expected solely from the sale of the collateral. Amounts deemed uncollectible are charged-off against the allowance for loan losses. Consumer and residential real estate loans typically are not placed on nonaccrual, and instead are charged down to the net realizable value.

Loans acquired in a business combination that have evidence of deterioration of credit quality since origination and for which it is probable, at acquisition, that Peoples will be unable to collect all contractually required payments receivable are initially recorded at fair value (the present value of the amounts expected to be collected) with no valuation allowance. The difference between the undiscounted cash flows expected at acquisition and the investment in the loan, or the "accretable yield", is recognized as interest income on a level-yield method over the life of the loan. Contractually required payments for interest and principal that exceed the undiscounted cash flows expected at acquisition, or the "nonaccretable difference", are not recognized as a yield adjustment or as a loss accrual or a valuation allowance.

Over the life of these acquired loans, management continues to monitor each acquired loan portfolio for changes in credit quality. Increases in expected cash flows subsequent to acquisition are recognized prospectively over their remaining life as a yield adjustment on the loans. Subsequent decreases in expected cash flows are recognized as impairment, with the amount of the expected loss included in management's evaluation of the adequacy of the allowance for loan loss.

Loans Held for Sale: Loans originated and intended to be sold in the secondary market, generally one-to-four family residential loans, are carried at the lower of cost or estimated fair value determined on an aggregate basis. Gains and losses on sales of loans held for sale are included in mortgage banking income.

Peoples enters into interest rate lock commitments with borrowers and best efforts commitments with investors on loans originated for sale into the secondary markets. Peoples uses these commitments to manage the inherent interest rate and pricing risk associated with selling loans in the secondary market. The interest rate lock commitments generally terminate once the loan is funded, the lock period expires or the borrower decides not to contract for the loan. The best efforts commitments generally terminate once the loan is sold, the commitment period expires or the borrower decides not to contract for the loan. These commitments are considered derivatives which are generally accounted for by recognizing their estimated fair value on the Consolidated Balance Sheets as either a freestanding asset or liability. The valuation of such commitments does not consider expected cash flows related to the servicing of the future loan. Management has determined these derivatives do not have a material effect on Peoples' financial position, results of operations or cash flows.

Allowance for Loan Losses: The allowance for loan losses is a valuation allowance for management's estimate of the probable credit losses inherent in the loan portfolio. Management's evaluation of the adequacy of the allowance for loan loss and the appropriate provision for loan losses is based upon a quarterly evaluation of the portfolio. This formal analysis is inherently subjective and requires management to make significant estimates of factors affecting

loan losses, including specific losses, levels and trends in impaired and nonperforming loans, historical loan loss experience, current national and local economic conditions, volume, growth and composition of the portfolio, regulatory guidance and other relevant factors. Loans deemed to be uncollectible are charged against the allowance for loan losses, while recoveries of previously charged-off amounts are credited to the allowance for loan losses.

The amount of the allowance for the various loan types represents management's estimate of expected losses from existing loans based upon specific allocations for individual lending relationships and historical loss experience for each category of homogeneous loans adjusted for certain qualitative risk factors. The allowance for loan loss related to an impaired loan is based on discounted cash flows using the loan's initial effective interest rate or the fair value of the collateral for certain collateral dependent loans. This evaluation requires management to make estimates of the amounts and timing of future cash flows on impaired loans, which consist primarily of nonaccrual and restructured loans. While allocations are made to specific loans and pools of loans, the allowance is available for all loan losses.

Bank Premises and Equipment: Bank premises and equipment are stated at cost less accumulated depreciation. Depreciation is computed on the straight-line method over the estimated useful lives of the related assets owned. Major improvements to leased facilities are capitalized and included in bank premises at cost less accumulated depreciation, which is calculated on the straight-line method over the lesser of the remaining term of the leased facility or the estimated economic life of the improvement.

Bank Owned Life Insurance: Bank owned life insurance ("BOLI") represents life insurance on the lives of certain employees who have provided positive consent allowing Peoples Bank to be the beneficiary of such policies. These policies are recorded at their cash surrender value, or the amount that can be realized upon surrender of the policy. Income from these policies and changes in the cash surrender value are recorded in other income.

Investments in Affordable Housing Limited Partnerships: Investments in affordable housing consist of investments in limited partnerships that operate qualified affordable housing projects or that invest in other limited partnerships formed to operate affordable housing projects. These investments are considered variable interest entities for which Peoples is not the primary beneficiary. Peoples generally utilizes the effective yield method to account for these investments with the tax credits, net of the amortization of the investment, reflected in the Consolidated Statements of Income as a reduction of income tax expense. The unamortized amount of the investments is recorded in other assets. Peoples' investments in affordable housing limited partnerships were \$3.8 million and \$5.3 million at December 31, 2009 and 2008, respectively.

Other Real Estate Owned: Other real estate owned ("OREO"), included in other assets on the Consolidated Balance Sheets, is comprised primarily of commercial and residential real estate properties acquired by Peoples Bank in satisfaction of a loan. OREO obtained in satisfaction of a loan is recorded at the lower of cost or estimated fair value based on appraised value at the date actually or constructively received, less estimated costs to sell the property. Peoples had OREO totaling \$6.3 million at December 31, 2009, and \$525,000 at December 31, 2008.

Goodwill and Other Intangible Assets: Goodwill represents the excess of the cost of an acquisition over the fair value of the net assets acquired in the business combination. Goodwill is not amortized but is tested for impairment at least annually and updated quarterly if necessary. Based upon the most recently completed goodwill impairment test, Peoples concluded the recorded value of goodwill was not impaired as of December 31, 2009, based upon the estimated fair value of Peoples' single reporting unit.

Peoples' other intangible assets consist of customer relationship intangible assets, primarily core deposit intangibles, representing the present value of future net income to be earned from acquired customer relationships with definite useful lives. These intangible assets are amortized on an accelerated basis over their estimated lives ranging from 7 to 10 years.

Mortgage Servicing Rights: Mortgage servicing rights ("MSRs") represent the right to service loans sold to third party investors. MSRs are recognized separately as a servicing asset or liability whenever Peoples undertakes an obligation to service financial assets.

Peoples initially records MSRs at fair value at the time of the sale of the loans to the third party investor. Peoples follows the amortization method for the subsequent measurement of each class of separately recognized servicing assets and liabilities. Under the amortization method, Peoples amortizes the value of servicing assets or liabilities in proportion to and over the period of estimated net servicing income or net servicing loss and assesses servicing assets or liabilities for impairment or increased obligation based on fair value at each reporting date. The fair value of the mortgage servicing rights is determined by using a discounted cash flow model, which estimates the present value of the future net cash flows of the servicing portfolio based on various factors, such as servicing costs, expected prepayment speeds and discount rates.

MSRs are reported in other intangible assets on the Consolidated Balance Sheets. Serviced loans are not included in the Consolidated Balance Sheets. Loan servicing income included in mortgage banking income includes servicing fees received from the third party investors and certain charges collected from the borrowers.

Preferred Stock and Common Stock Warrant: As more fully described in Note 11, Peoples issued preferred stock and a common stock warrant, which are classified in stockholders' equity on the Consolidated Balance Sheets. The outstanding preferred stock has similar characteristics of an "Increasing Rate Security" as described by Securities and Exchange Commission ("SEC") Staff Accounting Bulletin Topic 5Q, Increasing Rate Preferred Stock. The proceeds received in conjunction with the issuance of the preferred stock and common stock warrant were allocated to the preferred stock and common stock warrant based on their relative fair values. Discounts on the increasing rate preferred stock are amortized over the expected life of the preferred stock (5 years), by charging imputed dividend cost against retained earnings and increasing the carrying amount of the preferred stock by a corresponding amount. The discount at the time of issuance is computed as the present value of the difference between dividends that will be payable in future periods and the dividend amount for a corresponding number of periods, discounted at a market rate for dividend yield on comparable securities. The amortization in each period is the amount which, together with the stated dividend in the period, results in a constant rate of effective cost with regard to the carrying amount of the preferred stock.

Common stock warrants are evaluated for liability or equity treatment. The common stock warrant outstanding is carried in stockholders' equity until exercised or expired based on the view of both the SEC and Financial Accounting Standards Board (the "FASB") that they would not object to classification of such warrants as permanent equity. This view is consistent with the objective of the Capital Purchase Program that equity in these securities should be considered part of equity for regulatory reporting purposes. The fair value of the common stock warrant used in allocating total proceeds received was determined based on a binomial model.

Trust Assets Under Management: Peoples Bank manages certain assets held in a fiduciary or agency capacity for customers. These assets under management, other than cash on deposit at Peoples Bank, are not included in the Consolidated Balance Sheets since they are not assets of Peoples Bank.

Interest Income Recognition: Interest income on loans and investment securities is recognized by methods that result in level rates of return on principal amounts outstanding. Amortization of premiums has been deducted from, and accretion of discounts has been added to, the related interest income. Nonrefundable loan fees and direct loan costs are deferred and recognized over the life of the loan as an adjustment of the yield.

Peoples discontinues the accrual of interest on loans when management believes collection of all or a portion of contractual interest has become doubtful, which generally occurs when a contractual payment on a loan is 90 days past due. When interest is deemed uncollectible, amounts accrued in the current year are reversed and amounts accrued in prior years are charged against the allowance for loan losses. Interest received on nonaccrual loans is included in income only if principal recovery is reasonably assured. A nonaccrual loan is restored to accrual status when it is brought current, has performed in accordance with contractual terms for a reasonable period of time, and the collectibility of the total contractual principal and interest is no longer in doubt.

Other Income Recognition: Service charges on deposits include cost recovery fees associated with services provided, such as overdraft and non-sufficient funds. Trust and investment income consists of revenue from fiduciary activities, which include fees for services such as asset management, recordkeeping, retirement services and estate management, and investment commissions and fees related to the sale of investments. Income from these activities is recognized at the time the related services are performed.

Insurance income consists of commissions and fees from the sales of insurance policies and related insurance services. Insurance commission income is recognized as of the effective date of the insurance policy, net of adjustments, including policy cancellations. Such adjustments are recorded when the amount can be reasonably estimated, which is generally in the period in which they occur. Contingent performance-based commissions from insurance companies are recognized when received and no contingencies remain.

Income Taxes: Peoples and its subsidiaries file a consolidated federal income tax return. Deferred income tax assets and liabilities are provided for temporary differences between the tax basis of an asset or liability and its reported amount in the Consolidated Financial Statements at the statutory Federal tax rate. A valuation allowance, if needed, reduces deferred tax assets to the expected amount most likely to be realized. Realization of deferred tax assets is dependent upon the generation of a sufficient level of future taxable income and recoverable taxes paid in prior years. The components of other comprehensive income or loss included in the Consolidated Statements of Stockholders' Equity have been computed based upon a 35% Federal tax rate.

A tax position is initially recognized in the financial statements when it is more likely than not the position will be sustained upon examination by the tax authorities. Such tax positions are initially and subsequently measured as the largest amount of tax benefit that is greater than 50% likely of being realized upon ultimate settlement with the tax authority assuming full knowledge of the position and all relevant facts. Penalties and interest incurred under the applicable tax law are classified as income tax expense. The amount of Peoples' uncertain income tax positions, unrecognized benefits and accrued interest were immaterial at both December 31, 2009 and 2008.

Advertising Costs: Advertising costs are generally expensed as incurred.

Earnings per Share: Basic earnings per common share are computed by dividing net income available to common shareholders by the weighted-average number of common shares outstanding. Diluted earnings per common share is computed by dividing net income available to common shareholders by the weighted-average number of common shares outstanding adjusted to include the effect of potentially dilutive common shares. Potentially dilutive common shares include incremental shares issuable upon exercise of outstanding stock options, SARs and non-vested restricted common shares using the treasury stock method.

Operating Segments: Peoples' business activities are currently confined to one reporting unit and reportable segment which is community banking. As a community banking entity, Peoples offers its customers a full range of products through various delivery channels.

Stock-Based Compensation: Compensation costs for stock options, restricted stock awards and stock appreciation rights are measured at the fair value of these awards on their grant date. The fair value of stock options and stock appreciation rights is estimated based upon a Black-Scholes model, while the market price of Peoples' common shares at the grant date is used to estimate the fair value of restricted stock awards. Compensation expense is recognized over the required service period, generally the vesting period for stock options and stock appreciation rights and the restriction period for restricted stock awards. Compensation expense for awards granted to employees who are eligible for retirement is recognized to the date the employee is first eligible to retire.

New Accounting Pronouncements: On June 29, 2009, the FASB issued an accounting pronouncement establishing the *FASB Accounting Standards Codification*TM (the "ASC") as the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities. This pronouncement was effective for financial statements issued for interim and annual periods ending after September 15, 2009, for most entities. On the effective date, all non-SEC accounting and reporting standards were superseded. Peoples adopted this new accounting pronouncement for the quarter ended September 30, 2009, as required, and adoption did not have a material impact on Peoples' financial statements taken as a whole.

On June 12, 2009, the FASB issued two related accounting pronouncements changing the accounting principles and disclosure requirements related to securitizations and special-purpose entities. Specifically, these pronouncements eliminate the concept of a "qualifying special-purpose entity", change the requirements for derecognizing financial assets and change how a company determines when an entity that is insufficiently capitalized or is not controlled through voting (or similar rights) should be consolidated. These pronouncements also expand existing disclosure requirements to include more information about transfers of financial assets, including securitization transactions, and where companies have continuing exposure to the risks related to transferred financial assets. These pronouncements will be effective as of the beginning of each reporting entity's first annual reporting period that begins after November 15, 2009, for interim periods within that first annual reporting period and for interim and annual reporting periods thereafter. Earlier application is prohibited. The recognition and measurement provisions regarding transfers of financial assets shall be applied to transfers that occur on or after the effective date. Peoples will adopt these new pronouncements on January 1, 2010, as required. Management does not anticipate adoption will have a material impact on Peoples' consolidated financial statements.

On May 28, 2009, the FASB issued an accounting pronouncement establishing general standards of accounting for and disclosure of subsequent events, which are events occurring after the balance sheet date but before the date the financial statements are issued or available to be issued. In particular, the pronouncement requires entities to recognize in the financial statements the effect of all subsequent events that provide additional evidence of conditions that existed at the balance sheet date, including the estimates inherent in the financial preparation process. Entities may not recognize the impact of subsequent events that provide evidence about conditions that did not exist at the balance sheet date but arose after that date. This pronouncement also requires entities to disclose the date through which subsequent events have been evaluated. This pronouncement was effective for interim and annual reporting periods ending after June 15, 2009. Peoples adopted the provisions of this pronouncement for the quarter ended June 30, 2009, as required, and adoption did not have a material impact on Peoples' financial statements taken as a whole.

On April 9, 2009, the FASB issued three related accounting pronouncements intended to provide additional application guidance and enhance disclosures regarding fair value measurements and impairments of securities. In particular, these pronouncements: (1) provide guidelines for making fair value measurements more consistent with the existing accounting principles when the volume and level of activity for the asset or liability have decreased significantly; (2) enhance consistency in financial reporting by increasing the frequency of fair value disclosures and (3) modify existing general standards of accounting for and disclosure of other-than-temporary impairment (“OTTI”) losses for impaired debt securities.

The fair value measurement guidance of these pronouncements reaffirms the need for entities to use judgment in determining if a formerly active market has become inactive and in determining fair values when markets have become inactive. The changes to fair value disclosures relate to financial instruments that are not currently reflected on the balance sheet at fair value. Prior to these pronouncements, fair value disclosures for these instruments were required for annual statements only. These disclosures now are required to be included in interim financial statements. The general standards of accounting for OTTI losses were changed to require the recognition of an OTTI loss in earnings only when an entity (1) intends to sell the debt security; (2) more likely than not will be required to sell the security before recovery of its amortized cost basis or (3) does not expect to recover the entire amortized cost basis of the security. In situations when an entity intends to sell or more likely than not will be required to sell the security, the entire OTTI loss must be recognized in earnings. In all other situations, only the portion of the OTTI losses representing the credit loss must be recognized in earnings, with the remaining portion being recognized in other comprehensive income, net of deferred taxes.

All three pronouncements were effective for interim and annual periods ending after June 15, 2009. Entities were permitted to early adopt the provisions of these pronouncements for interim and annual periods ending after March 15, 2009, but had to adopt all three concurrently. Peoples adopted these provisions of these pronouncements for the quarterly period ending June 30, 2009, as required. As a result of adoption, Peoples recorded a cumulative effect adjustment on April 1, 2009, which increased retained earnings by \$304,000, net of tax, for the non-credit portion of previously recorded OTTI losses, with a corresponding reduction in accumulated comprehensive income (loss) included in stockholders’ equity on the Consolidated Balance Sheet. The adoption of the remaining provisions of these pronouncements did not have any material impact on Peoples’ financial statements taken as a whole.

Note 2. Fair Values of Financial Instruments

The measurement of fair value under US GAAP uses a hierarchy intended to maximize the use of observable inputs and minimize the use of unobservable inputs. This hierarchy uses three levels of inputs to measure the fair value of assets and liabilities as follows:

Level 1: Quoted prices in active exchange markets for identical assets or liabilities; also includes certain U.S. Treasury and other U.S. government and agency securities actively traded in over-the-counter markets.

Level 2: Observable inputs other than Level 1 including quoted prices for similar assets or liabilities, quoted prices in less active markets, or other observable inputs that can be corroborated by observable market data; also includes derivative contracts whose value is determined using a pricing model with observable market inputs or can be derived principally from or corroborated by observable market data. This category generally includes certain U.S. government and agency securities, corporate debt securities, derivative instruments, and residential mortgage loans held for sale.

Level 3: Unobservable inputs supported by little or no market activity for financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation; also includes observable inputs for single dealer nonbinding quotes not corroborated by observable market data. This category generally includes certain private equity investments, retained interests from securitizations, and certain collateralized debt obligations.

Assets measured at fair value on a recurring basis comprised the following at December 31:

Fair Value Measurements at Reporting Date Using				
<i>(Dollars in thousands)</i>	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2009				
Obligations of:				
U.S. Treasury and government agencies	\$ 81	\$ -	\$ 81	\$ -
U.S. government sponsored agencies	4,473	-	4,473	-
States and political subdivisions	62,954	-	62,954	-
Residential mortgage-backed securities	558,826	-	558,826	-
Commercial mortgage-backed securities	24,188	-	24,188	-
U.S. government-backed student loan pools	59,440	-	59,440	-
Bank-issued trust preferred securities	13,826	-	12,826	1,000
Collateralized debt obligations	165	-	-	165
Equity securities	2,594	2,420	174	-
Total available-for-sale securities	\$ 726,547	\$ 2,420	\$ 722,962	\$ 1,165
December 31, 2008				
Obligations of:				
U.S. Treasury and government agencies	\$ 176	\$ -	\$ 176	\$ -
U.S. government sponsored agencies	8,442	-	8,442	-
States and political subdivisions	68,930	-	68,930	-
Residential mortgage-backed securities	511,201	-	511,201	-
Commercial mortgage-backed securities	25,952	-	25,952	-
U.S. government-backed student loan pools	44,985	-	44,985	-
Bank-issued trust preferred securities	17,888	-	16,888	1,000
Collateralized debt obligations	4,422	-	-	4,422
Equity securities	2,761	2,575	186	-
Total available-for-sale securities	\$ 684,757	\$ 2,575	\$ 676,760	\$ 5,422

The fair values used by Peoples are obtained from an independent pricing service and represent either quoted market prices for the identical securities (Level 1 inputs) or fair values determined by pricing models that consider observable market data, such as interest rate volatilities, LIBOR yield curve, credit spreads and prices from market makers and live trading systems. The investment securities measured at fair value using Level 3 inputs are comprised of four collateralized debt obligations, for which there is not an active market. Peoples uses multiple input factors to determine the fair value of these securities. Those input factors are discounted cash flow analysis, structure of the security in relation to current level of deferrals and/or defaults, changes in credit ratings, financial condition of the debtors within the underlying securities, broker quotes for securities with similar structure and credit risk, interest rate movements and pricing of new issuances.

The following is a reconciliation of activity for assets measured at fair value based on significant unobservable (non-market) information:

<i>(Dollars in thousands)</i>	Obligations of U.S. Government Sponsored Agencies	Bank-Issued Trust Preferred Securities	Collateralized Debt Obligations
Balance, December 31, 2007	\$ 2,078	\$ 1,030	\$ 5,896
Transfers into Level 3	-	2,083	-
Transfers out of Level 3	(2,078)	-	-
Other-than-temporary impairment loss included in earnings	-	(2,080)	(1,920)
Unrealized loss included in comprehensive income	-	(33)	446
Balance, December 31, 2008	\$ -	\$ 1,000	\$ 4,422
Other-than-temporary impairment loss included in earnings	-	-	(3,706)
Unrealized loss included in comprehensive income	-	-	(1,018)
Cumulative effect adjustment for non-credit portion of previously recorded OTTI losses	-	-	467
Balance, December 31, 2009	\$ -	\$ 1,000	\$ 165

Certain financial assets and financial liabilities are measured at fair value on a nonrecurring basis; that is, the instruments are not measured at fair value on an ongoing basis but are subject to fair value adjustments in certain circumstances (for example, when there is evidence of impairment). Financial assets measured at fair value on a non-recurring basis included the following:

Impaired Loans: Impaired loans are measured and reported at fair value when management believes collection of contractual interest and principal payments is doubtful. Management's determination of the fair value for these loans represents the estimated net proceeds to be received from the sale of the collateral based on observable market prices and market value provided by independent, licensed or certified appraisers (Level 2 Inputs). At December 31, 2009, impaired loans with an aggregate outstanding principal balance of \$26.6 million were measured and reported at a fair value of \$20.6 million. During 2009, Peoples recognized losses of \$13.2 million on these impaired loans through the allowance for loan losses.

The following table presents the fair values of financial assets and liabilities carried on Peoples' consolidated balance sheet, including those financial assets and financial liabilities that are not measured and reported at fair value on a recurring basis or non-recurring basis:

<i>(Dollars in thousands)</i>	2009		2008	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Financial assets:				
Cash and cash equivalents	\$ 41,773	\$ 41,773	\$ 35,598	\$ 35,598
Investment securities	751,866	751,866	708,753	708,753
Loans	1,026,675	892,182	1,081,101	1,088,322
Financial liabilities:				
Deposits	\$ 1,395,886	\$ 1,406,371	\$ 1,366,368	\$ 1,376,614
Short-term borrowings	76,921	76,921	98,852	98,852
Long-term borrowings	246,113	253,943	308,297	324,809
Junior subordinated notes held by subsidiary trust	22,530	25,968	22,495	26,009

The methodologies for estimating the fair value of financial assets and liabilities that are measured at fair value on a recurring or non-recurring basis are discussed above. For certain financial assets and liabilities, carrying value approximates fair value due to the nature of the financial instrument. These instruments include cash and cash equivalents, demand and other non-maturity deposits and overnight borrowings. Peoples used the following methods and assumptions in estimating the fair value of the following financial instruments:

Loans: The fair value of portfolio loans assumes sale of the notes to a third party financial investor. Accordingly, the value to Peoples if the notes were held to maturity is not included in the fair value estimate. Peoples considered

interest rate, credit and market factors in estimating the fair value of loans. In the current whole loan market, financial investors are generally requiring a much higher rate of return than the return inherent in loans if held to maturity given the lack of market liquidity. This divergence accounts for the majority of the difference in carrying amount over fair value.

Deposits: The fair value of fixed maturity certificates of deposit is estimated using a discounted cash flow calculation based on current rates offered for deposits of similar remaining maturities.

Long-Term Borrowings: The fair value of long-term borrowings is estimated using discounted cash flow analysis based on rates currently available to Peoples for borrowings with similar terms.

Junior Subordinated Notes Held by Subsidiary Trust: The fair value of the junior subordinated notes held by subsidiary trust is estimated using discounted cash flow analysis based on current market rates of securities with similar risk and remaining maturity.

Bank premises and equipment, customer relationships, deposit base, banking center networks, and other information required to compute Peoples' aggregate fair value are not included in the above information. Accordingly, the above fair values are not intended to represent the aggregate fair value of Peoples.

Note 3. Investment Securities

Available-for-sale

The following table summarizes Peoples' available-for-sale securities at December 31:

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Non-Credit Losses included in Other Comprehensive Income	Fair Value
<i>(Dollars in thousands)</i>					
December 31, 2009					
Obligations of:					
U.S. Treasury and government agencies	\$ 81	\$ 1	\$ -	\$ -	\$ 82
U.S. government sponsored agencies	4,384	89	-	-	4,473
States and political subdivisions	60,943	2,064	(54)	-	62,953
Residential mortgage-backed securities	546,131	17,576	(4,882)	-	558,825
Commercial mortgage-backed securities	23,656	675	(143)	-	24,188
U.S. government-backed student loan pools	52,972	6,547	(77)	-	59,442
Bank-issued trust preferred securities	16,073	47	(2,294)	-	13,826
Collateralized debt obligations	986	-	(655)	(166)	165
Equity securities	1,218	1,426	(51)	-	2,593
Total available-for-sale securities	\$ 706,444	\$ 28,425	\$ (8,156)	\$ (166)	\$ 726,547
December 31, 2008					
Obligations of:					
U.S. Treasury and government agencies	\$ 176	\$ 1	\$ (1)	\$ -	\$ 176
U.S. government sponsored agencies	8,160	282	-	-	8,442
States and political subdivisions	67,830	1,356	(256)	-	68,930
Residential mortgage-backed securities	519,744	4,618	(13,161)	-	511,201
Commercial mortgage-backed securities	26,835	5	(889)	-	25,951
U.S. government-backed student loan pools	47,915	21	(2,951)	-	44,985
Bank-issued trust preferred securities	20,742	992	(3,846)	-	17,888
Collateralized debt obligations	4,225	198	-	-	4,423
Equity securities	1,228	1,581	(48)	-	2,761
Total available-for-sale securities	\$ 696,855	\$ 9,054	\$ (21,152)	\$ -	\$ 684,757

At December 31, 2009, there were no securities of a single issuer, other than U.S. Treasury and government agencies and U.S. government sponsored agencies that exceeded 10% of stockholders' equity. At December 31, 2009 and 2008, investment securities having a carrying value of \$492.8 million and \$444.9 million, respectively, were pledged to secure public and trust department deposits and repurchase agreements in accordance with federal and state requirements. Peoples

also had investment securities pledged with carrying values of \$121.3 million and \$174.4 million at December 31, 2009 and 2008, respectively, to secure additional borrowing capacity at the Federal Home Loan Bank of Cincinnati and Federal Reserve Bank of Cleveland.

The gross gains and gross losses realized by Peoples from sales of available-for-sale securities for the years ended December 31 were as follows:

<i>(Dollars in thousands)</i>	2009	2008	2007
Gross gains realized	\$ 1,460	\$ 2,740	\$ 143
Gross losses realized	14	1,072	35
Net gain realized	\$ 1,446	\$ 1,668	\$ 108

The following table presents a summary of available-for-sale investment securities that had an unrealized loss at December 31:

<i>(Dollars in thousands)</i>	Less than 12 Months		12 Months or More		Total	
	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss
December 31, 2009

The unrealized losses at both December 31, 2009 and December 31, 2008, were attributable to changes in market interest rates and spreads since the securities were purchased. Management systematically evaluates investment securities for other-than-temporary declines in fair value on a quarterly basis.

During 2009, management concluded an individual bank-issued trust preferred security, with a book value of \$4.0 million, and two collateralized debt obligation investment securities ("CDOs"), with an aggregate book value of \$3.7 million, were other-than-temporarily impaired. These securities were deemed total losses based on management's evaluation of the underlying credit quality of the securities and estimations of cash flows expected to be collected from the securities, which indicated it was probable Peoples would not recover the amortized cost of the securities. As a result, Peoples recognized a non-cash impairment loss of \$7.7 million (\$5.0 million after-tax) in earnings for the year ended December 31, 2009.

The measurement of the credit loss incurred on the mezzanine tranche CDOs was based on a comparison of management's estimate of future cash flows versus the cash flows projected previously. In estimating future cash flows,

management considers the structure and term of the pool and the financial condition of the underlying issuers. Specifically, the evaluation incorporates factors such as over-collateralization and interest coverage tests, interest rates and appropriate risk premiums, the timing and amount of interest and principal payments and the allocation of payments to the various tranches. Current estimates of cash flows are based on the recent trustee reports, announcements of deferrals or defaults and assumptions regarding expected future default rates, prepayment and recovery rates and other relevant information. Additionally, management considers the impact on future cash flows should institutions identified as possessing a higher probability of default, based upon an evaluation of performance metrics, were to default in the near term. Key assumptions used include: (1) current defaults would have no recovery and (2) current deferrals considered as defaults with no expected recovery.

Management performed its analysis of the remaining securities with an unrealized loss at December 31, 2009, and concluded no other individual securities were other-than-temporarily impaired.

The following table summarizes the roll-forward of cumulative credit losses on available-for-sale securities for which a portion of an other-than-temporary impairment is recognized in other comprehensive income, including those securities for which a cumulative effect adjustment was recorded (dollars in thousands):

Balance, January 1, 2009	\$ 1,200
Cumulative effect adjustment for noncredit portion of previously recorded OTTI losses	(166)
Balance, December 31, 2009	\$ 1,034

The following table presents the amortized costs, fair value and weighted-average yield of securities by contractual maturity at December 31, 2009. The average yields are based on the amortized cost. In some cases, the issuers may have the right to call or prepay obligations without call or prepayment penalties prior to the contractual maturity date. Rates are calculated on a fully tax-equivalent basis using a 35% Federal income tax rate.

<i>(Dollars in thousands)</i>	Within 1 Year	1 to 5 Years	5 to 10 Years	Over 10 Years	Total

Held-to-Maturity

At December 31, 2009, Peoples' held-to-maturity investment consisted of a single qualified school construction bond and is classified as held-to-maturity because of Peoples' intent and ability to hold the security to maturity given uncertainty regarding ownership rights of associated tax credits. This security is carried at an amortized cost of \$963,000, has a cash coupon rate of 1.18%, tax credit rate of 6.04% and matures in 2025.

Note 4. Loans

Peoples Bank originates various types of loans including commercial loans, real estate loans and consumer loans, focusing primarily on lending opportunities in central and southeastern Ohio, west central West Virginia, and northeastern Kentucky markets.

The major classifications of loan balances, excluding loans held for sale, at December 31 were as follows:

<i>(Dollars in thousands)</i>	2009	2008
Commercial, mortgage	\$ 503,034	\$ 478,298
Commercial, other	159,915	178,834
Real estate, construction	32,427	77,917
Real estate, mortgage	264,918	279,413
Consumer	90,144	87,902
Deposit account overdrafts	1,620	1,668
Total loans	\$ 1,052,058	\$ 1,104,032

Peoples has acquired various loans through business combinations for which there was, at acquisition, evidence of deterioration of credit quality since origination and for which it was probable that all contractually required payments would not be collected. The carrying amounts of these loans at December 31 included in the loan balances above are summarized as follows:

<i>(Dollars in thousands)</i>	2009	2008
Commercial, mortgage	\$ 4,112	\$ 5,330
Commercial, other	896	1,277
Real estate, mortgage	20,242	23,781
Consumer	186	263
Total outstanding balance	\$ 25,436	\$ 30,651
Net carrying amount	\$ 24,734	\$ 29,900

Peoples Bank has pledged certain loans secured by 1-4 family and multifamily residential mortgages under a blanket collateral agreement to secure borrowings from the FHLB as discussed in Note 8. At December 31, 2009, the amount of such pledged loans totaled \$200.8 million. In February 2010, Peoples pledged commercial loans with outstanding balances totaling approximately \$233 million to secure borrowings with the Federal Reserve Bank of Cleveland.

Nonperforming/Past Due Loans

Nonperforming loans at December 31 were as follows:

<i>(Dollars in thousands)</i>	2009	2008
Loans 90+ days past due and accruing	\$ 411	\$ -
Nonaccrual loans	33,972	41,320
Total nonperforming loans	\$ 34,383	\$ 41,320

Certain loans included in the nonaccrual loan totals above are not considered impaired and evaluated individually by Peoples. These loans consist primarily of smaller balance homogenous consumer and residential real estate loans that are collectively evaluated for impairment and totaled \$1.7 million and \$1.8 million at December 31, 2009 and December 31, 2008, respectively.

Impaired Loans

The following tables summarize loans classified as impaired at or for the years ended December 31:

<i>(Dollars in thousands)</i>	2009	2008
Impaired loans with an allocated allowance for loan losses	\$ 18,188	\$ 11,504
Impaired loans with no allocated allowance for loan losses	15,052	28,146
Total impaired loans	\$ 33,240	\$ 39,650
Allowance for loan losses allocated to impaired loans	\$ 5,738	\$ 4,340

<i>(Dollars in thousands)</i>	2009	2008	2007
Average investment in impaired loans	\$ 38,109	\$ 25,644	\$ 16,412
Interest income recognized on impaired loans	\$ 19	\$ 108	\$ 826

Interest received on impaired loans is included in income if principal recovery is reasonably assured.

Related Party Loans

In the normal course of its business, Peoples Bank has granted loans to executive officers and directors of Peoples. Related party loans were made on substantially the same terms, including interest rates charged and collateral required, as those prevailing at the time for comparable loans with unrelated persons and did not involve more than normal risk of collectibility. At December 31, 2009, no related party loan was past due 90 or more days, renegotiated or on nonaccrual status. The following is an analysis of activity of related party loans for the year ended December 31, 2009:

<i>(Dollars in thousands)</i>	
Balance, December 31, 2008	\$ 13,187
New loans and disbursements	10,391
Repayments	(14,237)
Other changes	(558)
Balance, December 31, 2009	\$ 8,783

Allowance for Loan Losses

Changes in the allowance for loan losses for each of the three years in the period ended December 31, 2009, were as follows:

<i>(Dollars in thousands)</i>	2009	2008	2007
Balance, beginning of year	\$ 22,931	\$ 15,718	\$ 14,509
Charge-offs	(23,922)	(21,969)	(4,701)
Recoveries	2,527	1,542	1,951
Net charge-offs	(21,395)	(20,427)	(2,750)
Provision for loan losses	25,721	27,640	3,959
Balance, end of year	\$ 27,257	\$ 22,931	\$ 15,718

Note 5. Bank Premises and Equipment

The major categories of bank premises and equipment and accumulated depreciation at December 31 are summarized as follows:

<i>(Dollars in thousands)</i>	2009	2008
Land	\$ 5,699	\$ 5,764
Building and premises	31,358	30,737
Furniture, fixtures and equipment	18,377	17,626
Total bank premises and equipment	55,434	54,127
Accumulated depreciation	(30,590)	(29,016)
Net book value	\$ 24,844	\$ 25,111

Peoples depreciates its building and premises and furniture, fixtures and equipment over estimated useful lives generally ranging from 5 to 40 years and 2 to 10 years, respectively. Depreciation expense was \$1,998,000, \$2,066,000 and \$2,061,000, in 2009, 2008 and 2007, respectively.

Leases

Peoples leases certain banking facilities and equipment under various agreements with original terms providing for fixed monthly payments over periods generally ranging from two to ten years. Certain leases contain renewal options and rent escalation clauses calling for rent increases over the term of the lease. All leases which contain a rent escalation clause are accounted for on a straight-line basis. Rent expense was \$901,000, \$739,000 and \$748,000 in 2009, 2008 and 2007, respectively.

Peoples leases certain properties from related parties. Payments related to these leases totaled \$160,000, \$162,000 and \$183,000 in 2009, 2008 and 2007, respectively. The terms of these leases are substantially the same as those offered for comparable transactions with non-related parties at the time the lease transactions were consummated.

The future minimum payments under noncancellable operating leases with initial or remaining terms of one year or more consisted of the following at December 31, 2009:

<i>(Dollars in thousands)</i>		
2010	\$	850
2011		838
2012		831
2013		842
2014		609
Thereafter		2,440
Total payments	\$	6,410

Note 6. Goodwill and Other Intangible Assets

Goodwill

There were no changes in the carrying amount of goodwill for the years ended December 31, 2009 and 2008.

Peoples performed the required goodwill impairment tests and concluded the recorded value of goodwill was not impaired as of December 31, 2009, based upon the estimated fair value of the single reporting unit.

Other intangible assets

Other intangible assets were comprised of the following at December 31:

<i>(Dollars in thousands)</i>	Gross Intangible Asset	Accumulated Amortization	Net Intangible Asset
2009			
Core deposits	\$ 10,564	\$ (9,719)	\$ 845
Customer relationships	6,182	(5,112)	1,070
	\$ 16,746	\$ (14,831)	\$ 1,915
Mortgage servicing rights			1,164
Total other intangible assets			\$ 3,079
2008			
Core deposits	\$ 10,564	\$ (9,042)	\$ 1,522
Customer relationships	6,182	(4,537)	1,645
	\$ 16,746	\$ (13,579)	\$ 3,167
Mortgage servicing rights			719
Total other intangible assets			\$ 3,886

The estimated aggregate future amortization expense of core deposit and customer relationship intangible assets at December 31, 2009, is as follows:

<i>(Dollars in thousands)</i>	Core Deposits	Customer Relationships	Total
2010	\$ 472	\$ 446	\$ 918
2011	269	316	585
2012	104	202	306
2013	-	106	106
2014	-	-	-
Thereafter	-	-	-
Total	\$ 845	\$ 1,070	\$ 1,915

The following is an analysis of activity of MSR for the years ended December 31:

<i>(Dollars in thousands)</i>	2009	2008	2007
Balance, beginning of year	\$ 719	\$ 756	\$ 792
Amortization	(406)	(318)	(350)
Servicing rights originated	851	281	314
Balance, end of year	\$ 1,164	\$ 719	\$ 756

No valuation allowances were required at December 31, 2009, 2008 and 2007 for Peoples' MSR since the fair value exceeded the book value.

Note 7. Deposits

Peoples' deposit balances were comprised of the following at December 31:

<i>(Dollars in thousands)</i>	2009	2008
Retail certificates of deposit:		
\$100,000 or more	\$ 214,933	\$ 235,257
Less than \$100,000	322,616	390,938
Total retail certificates of deposit	537,549	626,195
Interest-bearing transaction accounts	229,232	187,100
Money market deposit accounts	263,257	213,498
Savings accounts	122,465	115,419
Total retail interest-bearing deposits	1,152,503	1,142,212
Brokered certificates of deposits	45,383	44,116
Total interest-bearing deposits	1,197,886	1,186,328
Non-interest-bearing deposits	198,000	180,040
Total deposit balances	\$ 1,395,886	\$ 1,366,368

The contractual maturities of certificates of deposits for each of the next five years and thereafter are as follows:

<i>(Dollars in thousands)</i>	Retail	Brokered	Total
2010	\$ 305,575	\$ 5,000	\$ 310,575
2011	118,882	-	118,882
2012	63,345	-	63,345
2013	24,099	-	24,099
2014	24,702	5,086	29,788
Thereafter	946	35,297	36,243
Total maturities	\$ 537,549	\$ 45,383	\$ 582,932

Included in the amount to mature in 2009 is \$5 million of brokered deposits with a total interest cost of 4.75% that matured in January 2010. Deposits from related parties approximated \$8.8 million and \$9.9 million at December 31, 2009 and 2008, respectively.

Note 8. Short-Term Borrowings

Peoples utilizes various short-term borrowings as sources of funds, which are summarized as follows:

<i>(Dollars in thousands)</i>	Retail		National		Other Short-Term
	Repurchase	FHLB	Repurchase	Market	
	Agreements	Advances	Agreements	Borrowings	
2009					
Ending balance	\$ 51,921	\$ 25,000	\$ -	\$ -	-
Average balance	52,905	6,867	-	-	150
Highest month end balance	53,931	25,000	-	-	10,000
Interest expense	468	13	-	-	1
Weighted-average interest rate:					
End of year	0.54%	0.09%	- %	- %	- %
During the year	0.88%	0.19%	- %	- %	0.67%
2008					
Ending balance	\$ 54,452	\$ 30,000	\$ -	\$ -	14,400
Average balance	39,329	102,146	-	-	1,195
Highest month end balance	56,079	186,100	-	-	14,400
Interest expense	813	2,557	-	-	13
Weighted-average interest rate:					
End of year	1.26%	0.34%	- %	- %	0.50%
During the year	2.07%	2.50%	- %	- %	1.09%
2007					
Ending balance	\$ 35,041	\$ 187,500	\$ -	\$ -	-
Average balance	34,770	197,915	4,425	-	33
Highest month end balance	36,515	264,400	7,000	-	-
Interest expense	1,526	10,065	242	-	2
Weighted-average interest rate:					
End of year	3.96%	2.50%	- %	- %	- %
During the year	4.39%	5.09%	5.47%	- %	6.06%

The FHLB advances consist of overnight borrowings and other advances with an original maturity of one year or less. These advances, along with the long-term advances disclosed in Note 9, are collateralized by residential mortgage loans and investment securities. Peoples' borrowing capacity with the FHLB is based on the amount of collateral pledged and the amount of FHLB common stock owned.

Peoples' national market repurchase agreements consist of agreements with unrelated financial service companies that have original maturities of one year or less.

Peoples' retail repurchase agreements consist of overnight agreements with Peoples' commercial customers and serve as a cash management tool.

Other short-term borrowings consist of Federal Funds purchased and advances from the Federal Reserve Discount Window. Federal Funds purchased are short-term borrowings from correspondent banks that typically mature within one to ninety days. Peoples has available Federal Funds of \$25 million from certain of its correspondent banks. Interest on Federal funds purchased is set daily by the correspondent bank based on prevailing market rates. The Federal Reserve Discount Window provides credit facilities to financial institutions, which are designed to ensure adequate liquidity by providing a source of short-term funds. Discount Window advances are typically overnight and must be secured by collateral acceptable to the lending Federal Reserve Bank.

Note 9. Long-Term Borrowings

Long-term borrowings consisted of the following at December 31:

<i>(Dollars in thousands)</i>	2009		2008	
	Balance	Weighted-Average Rate	Balance	Weighted-Average Rate
Callable national market repurchase agreements	\$ 145,000	4.01%	\$ 155,000	4.06%
Non-callable national market repurchase agreements	–	– %	5,000	4.97%
FHLB convertible rate advances	7,500	4.81%	24,500	5.38%
FHLB putable, fixed rate advances	10,000	3.20%	10,000	3.20%
FHLB amortizing, fixed rate advances	18,613	3.56%	23,797	3.94%
FHLB non-amortizing, non-callable, fixed rate advances	15,000	3.90%	40,000	4.62%
FHLB non-amortizing, callable, fixed rate advances	50,000	3.29%	50,000	3.29%
Total long-term borrowings	\$ 246,113	3.82%	\$ 308,297	4.09%

Peoples' national market repurchase agreements consist of agreements with unrelated financial service companies and have original maturities ranging from 3 to 10 years. In general, these agreements may not be terminated by Peoples prior to the maturity without incurring additional costs. The callable agreements contain call option features, in which the buyer has the right, at its discretion, to terminate the repurchase agreement after an initial period ranging from 3 months to 5 years. After the initial call period, the buyer has the right to terminate the agreement on a quarterly basis thereafter until maturity. If the buyer exercises its option, Peoples would be required to repay the agreement in whole at the quarterly date.

The FHLB advances consist of various borrowings with original maturities ranging from 3 to 20 years that generally may not be repaid prior to maturity without Peoples incurring a penalty. The rate on the convertible rate advances are fixed from initial periods ranging from one to four years, depending on the specific advance. After the initial fixed rate period, the FHLB has the option to convert each advance to a LIBOR based, variable rate advance. If the FHLB exercises its option, Peoples may repay the advance in whole or in part on the conversion date or any subsequent repricing date without a prepayment fee. At all other times, early repayment of any convertible rate advance would result in Peoples incurring a prepayment penalty. For the putable advances, the FHLB has the option, at its sole discretion following an initial period of three months, to terminate the debt and require Peoples to repay the advance prior to the final stated maturity. After the initial period, the FHLB has the option to terminate the debt on a quarterly basis. If the advance is terminated prior to maturity, the FHLB will offer Peoples replacement funding at the then-prevailing rate on an advance product then-offered by the FHLB, subject to normal FHLB underwriting criteria. As discussed in Note 8, long-term FHLB advances are collateralized by assets owned by Peoples.

The aggregate minimum annual retirements of long-term borrowings in the next five years and thereafter are as follows:

<i>(Dollars in thousands)</i>	Balance	Weighted-Average Rate
2010	\$ 33,281	4.27%
2011	45,212	4.50%
2012	37,223	4.18%
2013	2,033	3.68%
2014	1,522	3.54%
Thereafter	126,842	3.36%
Total long-term borrowings	\$ 246,113	3.82%

Note 10. Junior Subordinated Notes Held By Subsidiary Trust

Peoples previously formed a statutory business trust (the "Trust") for the purpose of issuing corporation-obligated mandatorily redeemable capital securities (the "Capital Securities" or "Trust Preferred Securities"), with 100% of the common equity in the Trust owned by Peoples. The proceeds from the Capital Securities and common equity were invested in junior subordinated debt securities of Peoples (the "Debentures").

The Debentures held by the trust are the sole assets of the trust. Distributions on the Capital Securities are payable semiannually at a rate per annum equal to the interest rate being earned by the Trust on the Debentures and are recorded as interest expense by Peoples. Since the Trust is a variable interest entity and Peoples is not deemed to be the primary beneficiary, the Trust is not included in Peoples' Consolidated Financial Statements. As a result, Peoples includes the Debentures as a separate category of long-term debt on the Consolidated Balance Sheets entitled "Junior Subordinated Notes Held by Subsidiary Trust" and the related expense as interest expense on the Consolidated Statements of Income.

Under the provisions of the Debentures, Peoples has the right to defer payment of interest on the Debentures at any time, or from time to time, for periods not exceeding five years. If interest payments on the Debentures are deferred, the dividends on the Capital Securities are also deferred and Peoples will be prohibited from paying dividends on its common shares. Interest on the Debentures is cumulative. Peoples has entered into agreements which, taken collectively, fully and unconditionally guarantee the Capital Securities subject to the terms of each of the guarantees.

The Capital Securities are mandatorily redeemable upon maturity of the Debentures on May 1, 2029, and Peoples has the right to redeem the Debentures, in whole or in part, after May 1, 2009. If redeemed prior to maturity, the redemption price of the Debentures will be the principal amount, plus any unpaid accrued interest, and a premium if redeemed before 2019.

Under the risk-based capital standards for bank holding companies adopted by the Board of Governors of the Federal Reserve System, the Trust Preferred Securities qualify as Tier 1 capital for regulatory capital purposes, subject to certain quantitative limits and qualitative standards. Specifically, the aggregate amount of trust preferred securities and certain other capital elements that qualify as Tier 1 capital is limited to 25% of core capital elements, net of goodwill, with the excess amount not qualifying for Tier 1 capital being included in Tier 2 capital. Additionally, trust preferred securities no longer qualify for Tier 1 capital within five years of their maturity.

The Capital Securities issued by the Trust at December 31 are summarized as follows:

<i>(Dollars in thousands)</i>	2009	2008
Capital Securities of PEBO Capital Trust I, 8.62%, due May 1, 2029, net of unamortized issuance costs	\$ 22,530	\$ 22,495
Amount qualifying for Tier 1 capital	\$ 22,530	\$ 22,495

Note 11. Stockholders' Equity

The following table details the progression in balances of Peoples' preferred, common and treasury stock during the years presented:

	Preferred Stock	Common Stock	Treasury Stock
Balance, December 31, 2006	–	10,889,242	237,257
Changes related to stock-based compensation awards:			
Exercise of stock options for common shares		5,703	(57,988)
Purchase of treasury stock			471,327
Common shares issued under dividend reinvestment plan		31,009	
Issuance of common stock related to acquisitions:			
Putnam Agency, Inc.			(4,662)
Barengo Insurance Agency, Inc.			(16,728)
Balance, December 31, 2007	–	10,925,954	629,206
Changes related to stock-based compensation awards:			
Exercise of stock options for common shares		7,475	(11,093)
Purchase of treasury stock			23,367
Common shares issued under dividend reinvestment plan		41,935	
Balance, December 31, 2008	–	10,975,364	641,480

	Preferred Stock	Common Stock	Treasury Stock
Balance, December 31, 2008	–	10,975,364	641,480
Issuance of preferred shares	39,000		
Changes related to stock-based compensation awards:			
Release of restricted common shares		3,415	
Changes related to deferred compensation plan:			
Purchase of treasury stock			17,984
Reissuance of treasury stock			(2,209)
Common shares issued under dividend reinvestment plan		53,113	
Balance, December 31, 2009	39,000	11,031,892	657,255

On January 22, 2009, Peoples' shareholders adopted an amendment to Article FOURTH of Peoples' Amended Articles of Incorporation to authorize the issuance of up to 50,000 preferred shares. The preferred shares may be issued by Peoples' Board of Directors in one or more series, from time to time, with each such series to consist of such number of shares and to have such voting powers, designations, preferences, rights, qualifications, limitations and restrictions as determined by the Board of Directors. On January 28, 2009, Peoples' Board of Directors adopted an amendment to Peoples' Amended Articles of Incorporation to create a series of preferred shares designated as Peoples' Fixed Rate Cumulative Perpetual Preferred Shares, Series A, each without par value and having a liquidation preference of \$1,000 per share (the "Series A Preferred Shares"). These actions enabled Peoples to obtain final approval for a \$39 million capital investment from the United States Department of the Treasury ("U.S. Treasury") through the TARP Capital Purchase Program established by the U.S. Treasury under the Emergency Economic Stabilization Act of 2008.

On January 30, 2009, Peoples issued and sold to the U.S. Treasury (i) 39,000 of Peoples' Series A Preferred Shares, and (ii) a ten-year warrant (the "Warrant") to purchase 313,505 Peoples common shares ("Common Shares"), at an exercise price of \$18.66 per share (subject to certain anti-dilution and other adjustments), for an aggregate purchase price of \$39 million in cash.

Under standardized TARP Capital Purchase Program terms, cumulative dividends on the Series A Preferred Shares will accrue on the liquidation preference at a rate of 5% per annum until February 14, 2014, and at a rate of 9% per annum thereafter. These dividends will be paid only if, as and when declared by Peoples' Board of Directors. The Series A Preferred Shares have no maturity date and rank senior to the Common Shares with respect to the payment of dividends and distributions and amounts payable upon liquidation, dissolution and winding up of Peoples. Subject to the approval of the Appropriate Federal Banking Agency (as defined in the Securities Purchase Agreement, which for Peoples is the Board of Governors of the Federal Reserve System), the Series A Preferred Shares are redeemable at the option of Peoples at 100% of their liquidation preference plus accrued and unpaid dividends, without penalty, delay or the need to raise additional replacement capital. The Series A Preferred Shares are generally non-voting.

The U.S. Treasury has agreed not to exercise voting power with respect to any Common Shares issued to it upon exercise of the Warrant. Any Common Shares issued by Peoples upon exercise of the Warrant will be issued from Common Shares held in treasury to the extent available. If no treasury shares are available, Common Shares will be issued from authorized but unissued Common Shares.

The Securities Purchase Agreement, pursuant to which the Series A Preferred Shares and the Warrant were sold, contains limitations on the payment of dividends on the Common Shares after January 30, 2009. Prior to the earlier of (i) January 30, 2012 and (ii) the date on which the Series A Preferred Shares have been redeemed in whole or the U.S. Treasury has transferred the Series A Preferred Shares to third parties which are not Affiliates (as defined in the Securities Purchase Agreement) of the U.S. Treasury, any increase in common share dividends by Peoples or any of its subsidiaries would be prohibited without the prior approval of the U.S. Treasury.

The American Recovery and Reinvestment Act of 2009 (the "ARRA") passed by the United States Congress and signed by the President on February 17, 2009, provides that the U.S. Treasury, subject to consultation with the Appropriate Federal Banking Agency, must permit a TARP recipient to repay any assistance previously provided under TARP, without regard to whether the TARP recipient has replaced those funds from any other source or to any waiting period. As a result, subject to consultation with the Federal Reserve Board, the U.S. Treasury must permit Peoples to redeem the Series A Preferred Shares at the appropriate redemption price without regard to whether the redemption price is to be paid from proceeds of a qualified equity offering or any other source or when the redemption date occurs. If the Series A Preferred Shares were redeemed, Peoples has the right to repurchase the Warrant at its appraised value. If Peoples chooses not to repurchase the Warrant, the U.S. Treasury must liquidate the related Warrant at the current market price.

Note 12. Comprehensive Income (Loss)

The components of other comprehensive income (loss) for the years ended December 31 were as follows:

<i>(Dollars in thousands)</i>	2009	2008	2007
Net income	\$ 4,190	\$ 7,455	\$ 18,314
Other comprehensive income (loss):			
<u>Available-for-sale investment securities:</u>			
Gross unrealized holding gain (loss) arising in the period	26,573	(20,941)	1,697
Related tax (expense) benefit	(9,301)	7,329	(594)
Non-credit losses arising on securities during the period	(166)	–	–
Related tax benefit	58	–	–
Less: reclassification adjustment for net loss included in earnings	(6,261)	(2,592)	(6,062)
Related tax benefit	2,190	907	2,122
Net effect on other comprehensive income (loss)	21,235	(11,927)	5,043
<u>Defined benefit plans:</u>			
Net gain (loss) arising during the period	1,151	(5,206)	1,327
Related tax (expense) benefit	(403)	1,822	(464)
Amortization of unrecognized loss and service cost on pension plan	148	13	162
Related tax expense	(52)	(4)	(57)
Net effect on other comprehensive income (loss)	844	(3,375)	968
Total other comprehensive income (loss), net of tax	22,079	(15,302)	6,011
Total comprehensive income (loss)	\$ 26,269	\$ (7,847)	\$ 24,325

Changes in the components of Peoples' accumulated other comprehensive income (loss) for years ended December 31, 2009, 2008 and 2007 were as follows:

<i>(Dollars in thousands)</i>	Unrealized Gain (Loss) on Securities	Unrecognized Net Pension and Postretirement Costs	Accumulated Comprehensive Income (Loss)
Balance, December 31, 2006	\$ (979)	\$ (2,018)	\$ (2,997)
Current period change, net of tax	5,043	968	6,011
Balance, December 31, 2007	\$ 4,064	\$ (1,050)	\$ 3,014
Current period change, net of tax	(11,927)	(3,375)	(15,302)
Balance, December 31, 2008	\$ (7,863)	\$ (4,425)	\$ (12,288)
Current period change, net of tax	21,235	844	22,079
Cumulative effect adjustment for non-credit portion of previously recorded OTTI losses	(304)	–	(304)
Balance, December 31, 2009	\$ 13,068	\$ (3,581)	\$ 9,487

Note 13. Employee Benefit Plans

Peoples sponsors a noncontributory defined benefit pension plan that covers substantially all employees hired before January 1, 2010. The plan provides retirement benefits based on an employee's years of service and compensation. For employees hired before January 1, 2003, the amount of postretirement benefit is based on the employee's average monthly compensation pay over the highest five consecutive years out of the employee's last ten years with Peoples while an eligible employee. For employees hired on or after January 1, 2003, the amount of postretirement benefit is based on 2% of the employee's annual compensation plus accrued interest. Effective January 1, 2010, the pension plan was closed to new entrants. Peoples also has a contributory postretirement benefit plan for former employees who were retired as of December 31, 1992. The plan provides health and life insurance benefits. Peoples' policy is to fund the cost of the benefits as they are incurred.

The following tables provide a reconciliation of the changes in the plans' benefit obligations and fair value of assets over the two-year period ending December 31, 2009, and a statement of the funded status as of December 31, 2009 and 2008:

<i>(Dollars in thousands)</i>	Pension Benefits		Postretirement Benefits	
	2009	2008	2009	2008
Change in benefit obligation:				
Obligation at January 1	\$ 12,938	\$ 11,868	\$ 226	\$ 246
Service cost	799	763	–	–
Interest cost	785	781	16	15
Plan participants' contributions	–	–	128	123
Actuarial loss (gain)	(82)	492	11	(35)
Benefit payments	(1,365)	(966)	(138)	(123)
Increase due to plan changes	–	–	–	–
Obligation at December 31	\$ 13,075	\$ 12,938	\$ 243	\$ 226
Accumulated benefit obligation at December 31	\$ 11,379	\$ 11,164	\$ –	\$ –
Change in plan assets:				
Fair value of plan assets at January 1	\$ 9,840	\$ 14,326	\$ –	\$ –
Actual return on plan assets	2,261	(3,520)	–	–
Employer contributions	1,150	–	10	–
Plan participants' contributions	–	–	128	123
Benefit payments	(1,365)	(966)	(138)	(123)
Fair value of plan assets at December 31	\$ 11,886	\$ 9,840	\$ –	\$ –
Funded status:				
Funded status at December 31	\$ (1,189)	\$ (3,098)	\$ (243)	\$ (226)
Unrecognized prior service cost	–	–	–	–
Unrecognized net loss	–	–	–	–
Net amount recognized	\$ (1,189)	\$ (3,098)	\$ (243)	\$ (226)
Amounts recognized in Consolidated Balance Sheets:				
Prepaid benefit costs	\$ –	\$ –	\$ –	\$ –
Accrued benefit liability	(1,189)	(3,098)	(243)	(226)
Net amount recognized	\$ (1,189)	\$ (3,098)	\$ (243)	\$ (226)
Amounts recognized in Accumulated Comprehensive Income (Loss):				
Unrecognized prior service cost	\$ 18	\$ 20	\$ 18	\$ 20
Unrecognized net loss	3,568	4,410	52	61
Total	\$ 3,586	\$ 4,430	\$ 70	\$ 81
Weighted-average assumptions at year-end:				
Discount rate	6.40%	6.30%	6.40%	6.30%
Rate of compensation increase	2.50%	2.50%	n/a	n/a

The estimated costs relating to Peoples' pension benefits that will be amortized from accumulated comprehensive income (loss) into net periodic cost over the next fiscal year are \$4,000 of prior service costs and \$238,000 of net loss.

Net Periodic Benefit Cost

The following table provides the components of net periodic benefit cost for the plans:

<i>(Dollars in thousands)</i>	Pension Benefits			Postretirement Benefits		
	2009	2008	2007	2009	2008	2007
Service cost	\$ 799	\$ 763	\$ 847	\$ –	\$ –	\$ –
Interest cost	785	781	757	16	15	26
Expected return on plan assets	(1,194)	(1,202)	(1,191)	–	–	–
Amortization of prior service cost	4	4	2	(3)	–	–
Amortization of net loss	145	10	160	(3)	(7)	3
Net periodic benefit cost	\$ 539	\$ 356	\$ 575	\$ 10	\$ 8	\$ 29

Weighted-average assumptions:

Discount rate	6.30%	6.70%	6.00%	6.30%	6.70%	6.00%
Expected return on plan assets	8.50%	8.50%	8.50%	n/a	n/a	n/a
Rate of compensation increase	2.50%	3.50%	3.50%	n/a	n/a	n/a

For measurement purposes, a 10% annual rate of increase in the per capita cost of covered benefits (i.e., health care cost trend rate) was assumed for 2009, grading down 1% per year to an ultimate rate of 5% in 2014. The health care trend rate assumption does not have a significant effect on the contributory defined benefit postretirement plan; therefore, a one percentage point increase or decrease in the trend rate is not material in the determination of the accumulated postretirement benefit obligation or the ongoing expense.

Determination of Expected Long-term Rate of Return

The expected long-term rate of return on the plans' total assets is based on the expected return of each category of the plan's assets. Management considers the long-term historical returns of the assets within the portfolio and adjusts the rate, as necessary, for expected future returns on the assets in the plans in determining the rate.

Plan Assets

Peoples' investment strategy, as established by Peoples' Retirement Plan Committee, is to invest assets based upon established target allocations, which include a target range of 60-75% allocation in equity securities, 24-39% in debt securities and approximately 1% of other investments. The assets are reallocated periodically to meet the target allocations. The investment policy is reviewed periodically, under the advisement of a certified investment advisor, to determine if the policy should be changed.

The following table provides the fair values of investments held in Peoples' pension plan at December 31, by major asset category:

<i>(Dollars in thousands)</i>	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)
2009			
Equity securities	\$ 9,357	\$ 9,357	\$ –
Debt securities	1,945	924	1,021
Other	584	–	584
Total fair value of pension assets	\$ 11,886	\$ 10,281	\$ 1,605
2008			
Equity securities	\$ 6,072	\$ 5,247	\$ 825
Debt securities	2,769	1,134	1,635
Other	999	–	999
Total fair value of pension assets	\$ 9,840	\$ 6,381	\$ 3,459

The equity securities measured at fair value consist primarily of stock mutual funds (Level 1 inputs) and common and collective trust funds (Level 2 inputs). Debt securities include corporate bonds and bond mutual funds (Level 1 inputs),

U.S. government and agency securities and obligations of state and political subdivisions (Level 2 inputs). Other investments consist of cash, money market deposits, and certificates of deposit (Level 2 inputs). For further information regarding levels of input used to measure fair value, please refer to Note 2.

Equity securities of Peoples' pension plan did not include any securities of Peoples or related parties in 2009 or 2008.

Cash Flows

Peoples has not determined if any contributions will be made to its pension plan in 2010; however, actual contributions are made at the discretion of the Retirement Plan Committee and Peoples' Board of Directors. Estimated future benefit payments, which reflect benefits attributable to estimated future service, for the years ending December 31 are as follows:

<i>(Dollars in thousands)</i>	Pension Benefits	Post- retirement Benefits
2010	\$ 920	\$ 31
2011	1,022	31
2012	1,604	28
2013	1,130	26
2014	1,402	24
2015 to 2019	7,153	94
Total	\$ 13,231	\$ 234

Retirement Savings Plan

Peoples also maintains a retirement savings plan, or 401(k) plan, which covers substantially all employees. The plan provides participants the opportunity to save for retirement on a tax-deferred basis. During 2009 and in prior years, Peoples made matching contributions equal to 100% of participants' contributions that did not exceed 3% of the participants' compensation, plus 50% of participants' contributions between 3% and 5% of the participants' compensation. Effective January 1, 2010, Peoples began making matching contributions equal to 100% of participants' contributions that do not exceed 2% of the participants' compensation. Matching contributions made by Peoples totaled \$775,000, \$776,000 and \$740,000 for the years ended December 31, 2009, 2008 and 2007, respectively.

Note 14. Income Taxes

Peoples' reported income tax (benefit) expense consisted of the following for the years ended December 31:

<i>(Dollars in thousands)</i>	2009	2008	2007
Current income tax	\$ 4,148	\$ 3,021	\$ 6,548
Deferred income tax	(5,212)	(2,861)	(988)
Total income tax (benefit) expense	\$ (1,064)	\$ 160	\$ 5,560

The reported income tax (benefit) expense and effective tax rate in the Consolidated Statements of Income differs from the amounts computed by applying the statutory corporate tax rate as follows for the years ended December 31:

<i>(Dollars in thousands)</i>	2009		2008		2007	
	Amount	Rate	Amount	Rate	Amount	Rate
Income tax computed at statutory federal tax rate	\$ 1,063	34.0%	\$ 2,665	35.0%	\$ 8,356	35.0%
Differences in rate resulting from:						
Tax-exempt interest income	(921)	(29.5)	(924)	(12.1)	(831)	(3.5)
Investments in tax credit funds	(625)	(20.0)	(689)	(9.0)	(640)	(2.7)
Bank owned life insurance	(357)	(11.4)	(554)	(7.3)	(581)	(2.4)
Change in valuation allowance	-	-	(321)	(4.2)	(635)	(2.6)
Other, net	(224)	(7.2)	(17)	(0.3)	(109)	(0.5)
Total income tax (benefit) expense	\$ (1,064)	-34.1%	\$ 160	2.1%	\$ 5,560	23.3%

Peoples' income tax returns are subject to review and examination by federal and state taxing authorities. Peoples is currently open to audit under the applicable statutes of limitations by the Internal Revenue Service for the years ended December 31, 2006 through 2008. The years open to examination by state taxing authorities vary by jurisdiction. The significant components of Peoples' deferred tax assets and liabilities consisted of the following at December 31:

<i>(Dollars in thousands)</i>	2009	2008
Deferred tax assets:		
Allowance for loan losses	\$ 10,002	\$ 8,548
Accrued employee benefits	1,482	2,103
Available-for-sale securities	-	4,234
Investments	2,229	-
AMT credit carryforward	3,676	2,069
Other	283	315
Total deferred tax assets	17,672	17,269
Deferred tax liabilities:		
Bank premises and equipment	1,317	1,183
Deferred income	1,170	1,013
Deferred net loan costs	389	331
Available-for-sale securities	7,036	-
Investments	-	351
Other	3,556	3,510
Total deferred tax liabilities	13,468	6,388
Net deferred tax asset	\$ 4,204	\$ 10,881

The AMT tax credit carryforward at December 31, 2009 and 2008 may be carried over indefinitely. No valuation allowance for deferred tax assets was required at December 31, 2009 as it is more likely than not that all of the deferred tax assets will be realized in future periods. The related federal income tax expense on securities transactions approximated \$506,000 in 2009, \$584,000 in 2008 and \$38,000 in 2007.

Note 15. Earnings Per Share

The calculations of basic and diluted earnings per common share for years ended December 31 were as follows:

<i>(Dollars in thousands, except per share data)</i>	2009	2008	2007
Net income	\$ 4,190	\$ 7,455	\$ 18,314
Preferred dividends	1,876	-	-
Net income available to common shareholders	2,314	7,455	18,314
Weighted-average common shares outstanding	10,363,975	10,315,263	10,462,933
Effect of potentially dilutive common shares	10,817	33,316	66,701
Total weighted-average diluted common shares outstanding	10,374,792	10,348,579	10,529,634
Earnings per common share:			
Basic	\$ 0.22	\$ 0.72	\$ 1.75
Diluted	\$ 0.22	\$ 0.72	\$ 1.74

As disclosed in Note 11, during 2009 Peoples issued a warrant to purchase 313,505 common shares, which remained outstanding at December 31, 2009. This warrant was excluded from the calculation of diluted earnings per common share since it was anti-dilutive. In addition, stock options and SARs covering 285,678; 282,604 and 142,306 common shares were excluded from the calculations for 2009, 2008 and 2007, respectively, since they were anti-dilutive.

Note 16. Financial Instruments with Off-Balance Sheet Risk

In the normal course of business, Peoples is party to financial instruments with off-balance sheet risk necessary to meet the financing needs of customers. These financial instruments include commitments to extend credit and standby letters of credit. The instruments involve, to varying degrees, elements of credit risk in excess of the amount recognized in the Consolidated Balance Sheets. The contract amounts of these instruments express the extent of involvement Peoples has in these financial instruments.

Loan Commitments and Standby Letters of Credit

Loan commitments are made to accommodate the financial needs of Peoples' customers. Standby letters of credit are instruments issued by Peoples Bank guaranteeing the beneficiary payment by Peoples Bank in the event of default by Peoples Bank's customer in the nonperformance of an obligation or service. Historically, most loan commitments and standby letters of credit expire unused. Peoples' exposure to credit loss in the event of nonperformance by the counter-party to the financial instrument for loan commitments and standby letters of credit is represented by the contractual amount of those instruments. Peoples uses the same underwriting standards in making commitments and conditional obligations as it does for on-balance sheet instruments. The amount of collateral obtained is based on management's credit evaluation of the customer. Collateral held varies, but may include accounts receivable, inventory, property, plant, and equipment, and income-producing commercial properties.

The total amounts of loan commitments and standby letters of credit at December 31 are summarized as follows:

<i>(Dollars in thousands)</i>	Contractual Amount	
	2009	2008
Home equity lines of credit	\$ 40,169	\$ 40,909
Unadvanced construction loans	12,921	49,615
Other loan commitments	113,072	110,670
Loan commitments	166,162	201,194
Standby letters of credit	\$ 44,048	\$ 46,788

Other

Peoples also has commitments to make additional capital contributions in low-income housing projects. Such commitments approximated \$0.9 million at December 31, 2009, and \$1.1 million at December 31, 2008. The maximum aggregate amounts Peoples could be required to make for each of the next five years are as follows: \$240,000 in 2010; \$234,000 in 2011; \$185,000 in 2012; \$125,000 in 2013 and \$66,000 in 2014.

Note 17. Regulatory Matters

The following is a summary of certain regulatory matters affecting Peoples and its subsidiaries:

Capital Requirements

Peoples and Peoples Bank are subject to various regulatory capital guidelines administered by the banking regulatory agencies. Under capital adequacy requirements and the regulatory framework for prompt corrective action, Peoples and its banking subsidiary must meet specific capital guidelines that involve quantitative measures of each entity's assets, liabilities, and certain off-balance sheet items as calculated under regulatory accounting practices. Peoples' and Peoples Bank's capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk weightings and other factors. Failure to meet future minimum capital requirements can initiate certain mandatory and possibly additional discretionary actions by the regulators that, if undertaken, could have a material effect on Peoples' financial results.

Quantitative measures established by regulation to ensure capital adequacy require Peoples and Peoples Bank to maintain minimum amounts and ratios of Total and Tier I capital (as defined in the regulations) to risk-weighted assets (as defined), and of Tier I capital (as defined) to average assets (as defined). Peoples and Peoples Bank met all capital adequacy requirements at December 31, 2009.

As of December 31, 2009, the most recent notifications from the banking regulatory agencies categorized Peoples and Peoples Bank as well capitalized under the regulatory framework for prompt corrective action. To be categorized as well capitalized, Peoples and Peoples Bank must maintain minimum Total risk-based, Tier I risk-based and Tier I leverage ratios as set forth in the table below. There are no conditions or events since these notifications that management believes have changed Peoples or Peoples Bank's category.

Peoples and Peoples Bank's actual capital amounts and ratios as of December 31 are also presented in the following table:

(3) Ratio represents Tier 1 capital to average assets

As more fully disclosed in Note 11, on January 30, 2009, Peoples received \$39.0 million of new equity capital from the sale of Series A Preferred Shares and the Warrant to U.S. Treasury as part of the TARP Capital Purchase Program. All of the proceeds from the sale of the Series A Preferred Shares and the Warrant qualified as Tier 1 capital for regulatory purposes.

Limits on Dividends

The primary source of funds for the dividends paid by Peoples is dividends received from Peoples Bank. The payment of dividends by Peoples Bank is subject to various banking regulations. The most restrictive provision requires regulatory approval if dividends declared in any calendar year exceed the total net profits of that year plus the retained net profits of the preceding two years. At December 31, 2009, Peoples Bank had approximately \$6.3 million of net profits available for distribution to Peoples as dividends without regulatory approval.

Federal Reserve Requirements

Peoples Bank is required to maintain a minimum level of reserves, consisting of cash on hand and non-interest-bearing balances with the Federal Reserve Bank of Cleveland, based on the amount of deposit liabilities. Average required reserve balances were approximately \$5.1 million and \$4.9 million for the years ended December 31, 2009 and 2008.

Note 18. Stock-Based Compensation

Under the Peoples Bancorp Inc. Amended and Restated 2006 Equity Plan (the "2006 Equity Plan") approved by shareholders, Peoples may grant, among other awards, nonqualified stock options, incentive stock options, restricted stock awards, stock appreciation rights or any combination thereof covering up to 500,000 common shares to employees and non-employee directors. Prior to 2007, Peoples granted nonqualified and incentive stock options to employees and nonqualified stock options to non-employee directors under the 2006 Equity Plan and predecessor plans. Since February 2007, Peoples has granted a combination of restricted common shares and stock appreciation rights ("SARs") to be settled in common shares to employees and restricted common shares to non-employee directors subject to the terms and conditions prescribed by the 2006 Equity Plan. In general, common shares issued in connection with stock-based awards are issued from treasury shares to the extent available. If no treasury shares are available, common shares are issued from authorized but unissued common shares.

Stock Options

Under the provisions of the 2006 Equity Plan and predecessor stock option plans, the exercise price per share of any stock option granted may not be less than the fair market value of the underlying common shares on the date of grant of the stock option. The most recent stock options granted to employees and non-employee directors occurred in 2006. The stock options granted to employees will vest three years from the grant date, while the stock options granted to non-employee directors vested six months from the grant date. All stock options granted to both employees and non-employee directors expire ten years from the date of grant.

The following summarizes the changes to Peoples' stock options for the year ended December 31, 2009:

	Number of Shares	Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Life	Aggregate Intrinsic Value
Outstanding at January 1	304,447	\$ 22.91		
Granted	—	—		
Exercised	—	—		
Expired	33,690	15.00		
Outstanding at December 31	270,757	\$ 23.90	3.5 years	\$ —
Exercisable at December 31	270,757	\$ 23.90	3.5 years	\$ —

The total intrinsic value of stock options exercised was \$0, \$61,000 and \$0.6 million in 2009, 2008 and 2007, respectively.

The following summarizes information concerning Peoples' stock options outstanding at December 31, 2009:

Range of Exercise Prices	Options Outstanding			Options Exercisable		
	Option Shares Outstanding	Weighted- Average Remaining Contractual Life	Weighted- Average Exercise Price	Option Shares Exercisable	Weighted- Average Exercise Price	
\$13.00 to \$22.24	51,491	0.8 years	\$ 15.14	51,491	\$ 15.14	
\$22.25 to \$23.49	48,603	3.2 years	22.32	48,603	22.32	
\$23.50 to \$25.99	44,824	2.4 years	23.95	44,824	23.95	
\$26.00 to \$28.24	45,767	4.5 years	27.06	45,767	27.06	
\$28.25 to \$28.49	39,538	5.8 years	28.25	39,538	28.25	
\$28.50 to \$32.00	40,534	4.7 years	29.03	40,534	29.03	
Total	270,757	3.5 years	\$ 23.90	270,757	\$ 23.90	

Stock Appreciation Rights

SARs granted to employees have an exercise price equal to the fair market value of Peoples' common shares on the date of grant and will be settled using common shares of Peoples. Additionally, the SARs granted will vest three years

from the grant date and expire ten years from the date of grant. The following summarizes the changes to Peoples' SARs for the year ended December 31, 2009:

	Number of Shares	Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Life	Aggregate Intrinsic Value
Outstanding at January 1	57,433	\$ 25.92		
Granted	-	-		
Exercised	-	-		
Forfeited	3,677	27.62		
Outstanding at December 31	53,756	\$ 25.80	7.6 years	\$ -
Exercisable at December 31	1,124	\$ 26.49	0.7 years	\$ -

The weighted-average estimated fair value of the SARs granted in 2008 and 2007 was \$5.46 and \$7.73, respectively. The following summarizes information concerning Peoples' SARs outstanding at December 31, 2009:

Exercise Prices	Number of Shares Outstanding	Weighted- Average Remaining Contractual Life	Weighted- Average Exercise Price	Number of Shares Exercisable
\$23.26	5,000	7.6 years	\$ 23.26	-
\$23.77	25,765	8.0 years	23.77	567
\$23.80 to \$27.99	3,000	8.2 years	24.52	-
\$29.25	19,991	6.9 years	29.25	557
Total	53,756	7.6 years	\$ 25.80	1,124

Restricted Shares

Under the 2006 Equity Plan, Peoples may award restricted common shares to officers, key employees and non-employee directors. In general, the restrictions on common shares awarded to non-employee directors expire after six months, while the restrictions on common shares awarded to employees expire after three years. The following summarizes the changes to Peoples' restricted common shares for year ended December 31, 2009:

	Number of Shares	Weighted- Average Grant Date Fair Value
Outstanding at January 1	15,578	\$ 26.10
Awarded	2,000	13.14
Released	3,415	25.16
Forfeited	172	26.26
Outstanding at December 31	13,991	\$ 24.48

The total intrinsic value of restricted stock released was \$37,000, \$158,000 and \$220,000 in 2009, 2008 and 2007, respectively.

Stock-Based Compensation

Peoples recognized stock-based compensation expense, which is included as a component of Peoples' salaries and employee benefits costs, based on the estimated fair value of the awards on the grant date. The following summarizes the amount of stock-based compensation expense and related tax benefit recognized for the years ended December 31:

	2009	2008	2007
Total stock-based compensation	\$ 149,000	\$ 498,000	\$ 391,000
Recognized tax benefit	(52,000)	(174,000)	(137,000)
Net expense recognized	\$ 97,000	\$ 324,000	\$ 254,000

In 2009, restricted common shares were the only stock-based compensation awards granted by Peoples. The estimated fair value of SARs granted in 2008 and 2007 was calculated at grant date using the Black-Scholes option pricing model with the following weighted-average assumptions:

	2008	2007
Risk-free interest rate	4.38%	4.82%
Dividend yield	3.88%	3.05%
Volatility factor of the market price of parent stock	26.3%	25.5%
Weighted-average expected life	10.0 years	10.0 years

The Black-Scholes option valuation model was originally developed for use in estimating the fair value of traded options, which have different characteristics than equity awards granted by Peoples, such as no vesting or transfer restrictions. The model requires the input of highly subjective assumptions, including the expected stock price volatility, which can materially affect the fair value estimate. The expected volatility and expected life assumptions were based solely on historical data. The expected dividend yield is computed based on the then current dividend rate, and the risk-free interest rate is based on U.S. Treasury zero-coupon issues with a remaining term approximating the expected life of the equity awards.

Total unrecognized stock-based compensation expense related to unvested awards was \$85,000 at December 31, 2009, which will be recognized over a weighted-average period of 0.8 years.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

The information concerning (a) directors of Peoples Bancorp Inc. (“Peoples”), (b) the procedures by which shareholders of Peoples may recommend nominees to Peoples’ Board of Directors, (c) the Audit Committee of Peoples’ Board of Directors and (d) the Board of Directors’ determination that Peoples has an “audit committee financial expert” serving on its Audit Committee required by Items 401, 407(c)(3), 407(d)(4) and 407(d)(5) of SEC Regulation S-K is included in the sections captioned “PROPOSAL NUMBER 1: ELECTION OF DIRECTORS”, “THE BOARD OF DIRECTORS AND COMMITTEES OF THE BOARD” and “NOMINATING PROCEDURES” of the definitive Proxy Statement of Peoples Bancorp Inc. relating to the Annual Meeting of Shareholders to be held April 22, 2010 (“Peoples’ Definitive Proxy Statement”), which sections are incorporated herein by reference. The procedures by which shareholders of Peoples may recommend nominees to Peoples’ Board of Directors have not changed materially from those described in Peoples’ definitive Proxy Statement for the 2009 Annual Meeting of Shareholders held on April 23, 2009.

The information regarding Peoples’ executive officers required by Item 401 of SEC Regulation S-K is included in the section captioned “EXECUTIVE OFFICERS” of Peoples’ Definitive Proxy Statement, which section is incorporated herein by reference.

The information required by Item 405 of SEC Regulation S-K is included under the caption “SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE” of Peoples’ Definitive Proxy Statement, which section is incorporated herein by reference.

The Board of Directors of Peoples has adopted charters for each of the Audit Committee, the Compensation Committee and the Governance and Nominating Committee.

In accordance with the requirements of Rule 4350(n) of The NASDAQ Stock Market LLC Marketplace Rules, the Board of Directors of Peoples has adopted a Code of Ethics covering the directors, officers and employees of Peoples and its affiliates, including, without limitation, the principal executive officer, the principal financial officer and principal accounting officer of Peoples. Peoples intends to disclose the following events, if they occur, in a Current Report on Form 8-K and on the “Corporate Governance & Ethics” page of Peoples’ Internet website at www.peoplesbancorp.com within four business days following their occurrence:

- (A) the date and nature of any amendment to a provision of Peoples’ Code of Ethics that
 - (i) applies to the principal executive officer, principal financial officer, principal accounting officer or controller of Peoples, or persons performing similar functions,
 - (ii) relates to any element of the code of ethics definition set forth in Item 406(b) of SEC Regulation S-K, and
 - (iii) is not a technical, administrative or other non-substantive amendment; and
- (B) a description (including the nature of the waiver, the name of the person to whom the waiver was granted and the date of the waiver) of any waiver, including an implicit waiver, from a provision of the Code of Ethics granted to the principal executive officer, principal financial officer, principal accounting officer or controller of Peoples, or persons performing similar functions, that relates to one or more of the elements of the code of ethics definition set forth in Item 406(b) of SEC Regulation S-K.

In addition, Peoples will disclose any waivers from the provisions of the Code of Ethics granted to a director or executive officer of Peoples in a Current Report on Form 8-K within four business days following their occurrence.

Each of the Code of Ethics, the Audit Committee Charter, the Governance and Nominating Committee Charter and the Compensation Committee Charter is posted on the “Corporate Governance & Ethics” page of Peoples’ Internet website. Interested persons may also obtain copies of the Code of Ethics without charge by writing to Peoples Bancorp Inc., Attention: Corporate Secretary, 138 Putnam Street, P.O. Box 738, Marietta, Ohio 45750-0738.

ITEM 11. EXECUTIVE COMPENSATION

The information required by this Item 11 is included in the sections captioned “COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION”, “EXECUTIVE COMPENSATION: COMPENSATION DISCUSSION AND ANALYSIS”, “LONG-TERM EQUITY-BASED INCENTIVE COMPENSATION”, “SUMMARY COMPENSATION TABLE FOR 2009”, “GRANTS OF PLAN-BASED AWARDS FOR 2009”, “OUTSTANDING EQUITY AWARDS AT FISCAL YEAR-END 2009”, “OPTION EXERCISES AND STOCK VESTED FOR 2009”,

“PENSION BENEFITS FOR 2009”, “NON-QUALIFIED DEFERRED COMPENSATION FOR 2009” and “OTHER POTENTIAL POST EMPLOYMENT PAYMENTS” of Peoples’ Definitive Proxy Statement, which sections are incorporated herein by reference.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The information required by this Item 12 regarding the security ownership of certain beneficial owners and management is included in the section captioned “SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT” of Peoples’ Definitive Proxy Statement, which section is incorporated herein by reference.

Equity Compensation Plan Information

The table below provides information as of December 31, 2009, with respect to compensation plans under which common shares of Peoples are authorized for issuance to directors, officers or employees in exchange for consideration in the form of goods or services. These compensation plans include:

- (i) the Peoples Bancorp Inc. 1995 Stock Option Plan (the “1995 Plan”);
- (ii) the Peoples Bancorp Inc. 1998 Stock Option Plan (the “1998 Plan”);
- (iii) the Peoples Bancorp Inc. 2002 Stock Option Plan (the “2002 Plan”);
- (iv) the Peoples Bancorp Inc. Amended and Restated 2006 Equity Plan (the “2006 Plan”); and
- (v) the Peoples Bancorp Inc. Second Amended and Restated Deferred Compensation Plan for Directors of Peoples Bancorp Inc. and Subsidiaries (the “Deferred Compensation Plan”).

All of these compensation plans were approved by the shareholders of Peoples.

Plan Category	(a) Number of common shares to be issued upon exercise of outstanding options, warrants and rights	(b) Weighted-average exercise price of outstanding options, warrants and rights	(c) Number of common shares remaining available for future issuance under equity compensation plans (excluding common shares reflected in column (a))
Equity compensation plans approved by shareholders	416,617 ⁽¹⁾	\$24.74 ⁽²⁾	396,732 ⁽³⁾
Equity compensation plans not approved by shareholders	-	-	-
Total	416,617	\$24.74	396,732

⁽¹⁾ Includes an aggregate of 324,513 common shares issuable upon exercise of options granted under the 1995 Plan, the 1998 Plan and the 2002 Plan and options and stock appreciation rights granted under the 2006 Plan and 92,104 common shares allocated to participants’ bookkeeping accounts under the Deferred Compensation Plan.

⁽²⁾ Represents weighted-average exercise price of outstanding options granted under the 1995 Plan, the 1998 Plan and the 2002 Plan and options and stock appreciation rights granted under the 2006 Plan. The weighted-average exercise price does not take into account the common shares allocated to participants’ bookkeeping accounts under the Deferred Compensation Plan.

⁽³⁾ Includes 395,055 common shares remaining available for future grants under the 2006 Plan at December 31, 2009. No common shares were available for future grants under the 1995 Plan, the 1998 Plan and the 2002 Plan at December 31, 2009. No amount is included for potential future allocations to participants’ bookkeeping accounts under the Deferred Compensation Plan since the terms of the Deferred Compensation Plan do not provide for a specified limit on the number of common shares which may be allocated to participants’ bookkeeping accounts.

Additional information regarding Peoples’ stock-based compensation plans can be found in Note 18 of the Notes to the Consolidated Financial Statements.

Since 1991, Peoples has maintained the Deferred Compensation Plan for Directors, which provides a non-employee director of Peoples the ability to defer all or part of the compensation, and related federal income tax, received for services provided as a director of Peoples or one of its subsidiaries. Since 1998, directors participating in the Deferred Compensation Plan have been permitted to allocate their deferrals between a cash account and a stock account. The cash account earns interest equal to Peoples Bank's three-year certificate of deposit interest rate. The stock account receives allocations of Peoples' common shares on the first business day of each calendar quarter based upon amounts deferred during the quarter and fair market value of Peoples' common shares and is credited with subsequent cash dividends on the common shares previously allocated to the account. The only right a participant in the Deferred Compensation Plan for Directors has with respect to his or her cash account and/or stock account is to receive distributions upon termination of service as a director. Distribution of the deferred amounts is made in a lump sum or annual installments. The stock account is distributed in common shares of Peoples or in cash and the cash account is distributed only in cash.

In addition, Peoples maintains the Peoples Bancorp Inc. Retirement Savings Plan, which is intended to meet the qualification requirements of Section 401(a) of the Internal Revenue Code of 1986, as amended.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

The information required by this Item 13 is included in the sections captioned "TRANSACTIONS WITH RELATED PERSONS", "PROPOSAL NUMBER 1: ELECTION OF DIRECTORS", "THE BOARD OF DIRECTORS AND COMMITTEES OF THE BOARD" and "COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION" of Peoples' Definitive Proxy Statement, which sections are incorporated by reference.

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

The information required by this Item 14 is included in the section captioned "INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM" of Peoples' Definitive Proxy Statement, which section is incorporated herein by reference.

PART IV

ITEM 15. EXHIBITS AND FINANCIAL STATEMENT SCHEDULES

(a)(1) Financial Statements:

The following consolidated financial statements of Peoples Bancorp Inc. and subsidiaries are included in Item 8:

	<u>Page</u>
Report of Independent Registered Public Accounting Firm (Ernst & Young LLP) on Effectiveness of Internal Control Over Financial Reporting	56

Our Core Values

Clients as a Focus • Commitment to Communities • Business with Integrity • Trust Among Clients, Communities & Associates • Continuous Will to Win • Development of Associate Skills

Our Mission

Our mission is to be the primary financial resource for our target clients. We grow these relationships by delivering trusted advice, extraordinary personal service, and a seamless, integrated suite of services that meets all their needs. Our target clients are businesses and consumers who value us as true financial partners.

Our success depends on empowering our skilled and dedicated personnel to meet and exceed our clients' needs. We win by serving clients, supporting those who serve clients, and delivering a competitive return to our shareholders.

We are a team and we are good teammates. We take care of our customers and we take care of each other.

LARRY J. ARMSTRONG (1939–2009)

The Board of Directors acknowledges the many contributions that the late Larry J. Armstrong made to the progress and positive image of Peoples Bank as a board member. His impact will long be remembered with heartfelt gratitude for his friendship and exemplary service.

Mr. Armstrong served Peoples Bank for over 20 years beginning September 18, 1987, when Peoples Bancorp Inc. acquired The First National Bank of Chesterhill, which later merged into The First National Bank of Southeastern Ohio, which merged in 2000 with Peoples Bank.

Mr. Armstrong provided thoughtful leadership as a longtime director. He was a loyal, caring man, and a person of integrity who will be missed by Peoples Bank's officers, directors and associates, in addition to his family and many friends.
