

UNITED STATES SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

Form 10-K

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

FOR THE FISCAL YEAR ENDED DECEMBER 31, 2009

10011612

1-12845 (Commission File no.)

Brightpoint, Inc.

(Exact name of registrant as specified in its charter)

Indiana (State or other jurisdiction of Incorporation or organization)

35-1778566 (I.R.S. Employer Identification No.)

7635 INTERACTIVE WAY, SUITE 200, INDIANAPOLIS, INDIANA 46278 (Address of principal executive offices including zip code)

Registrant's telephone number, including area code: (317) 707-2355

Securities registered pursuant to Section 12(b) of the Act:

Table with 2 columns: Title of each class, Name of each exchange on which registered. Rows include Common Stock, \$0.01 Par value and Preferred Share Purchase Rights.

Securities registered pursuant to Section 12(g) of the Act: NONE

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes [ ] No [x]

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes [ ] No [x]

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days. Yes [x] No [ ]

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K. [x]

Indicate by check mark whether the Registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes [ ] No [x]

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act. (Check one):

- Large accelerated filer [ ] Accelerated filer [x]
Non-accelerated filer [ ] Smaller reporting company [ ]

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes [ ] No [x]

The aggregate market value of the registrant's Common Stock held by non-affiliates as of June 30, 2009, which was the last business day of the registrant's most recently completed second fiscal quarter was \$503,165,437.

The number of shares of Common Stock outstanding as of February 22 2010: 70,161,430

DOCUMENTS INCORPORATED BY REFERENCE:

Portions of the registrant's proxy statement in connection with its annual meeting of shareholders to be held in 2010, are incorporated by reference in Items 10, 11, 12, 13 and 14 of Part III of this Form 10-K.

## PART I

### Item 1. Business.

#### General

Brightpoint, Inc. provides supply chain solutions to leading stakeholders in the global wireless technology industry. In 2009, we handled a total of approximately 83.5 million wireless devices. We handled approximately 64.3 million wireless devices through our logistic services business and approximately 19.2 million through our distribution business. We provide customized logistic services including procurement, inventory management, software loading, kitting and customized packaging, fulfillment, credit services and receivables management, call center and activation services, website hosting, e-fulfillment solutions, reverse logistics, transportation management and other services within the global wireless industry. Our customers include mobile network operators, mobile virtual network operators (MVNOs), resellers, retailers and wireless equipment manufacturers. We provide value-added distribution channel management and other supply chain solutions for wireless products manufactured by companies such as Apple, High Tech Computer Corp., Kyocera, LG Electronics, Motorola, Nokia, Research in Motion, Samsung and Sony Ericsson. We have operations centers and/or sales offices in various countries including Australia, Austria, Belgium, Colombia, Denmark, El Salvador, Finland, Germany, Guatemala, India, Italy, the Netherlands, New Zealand, Norway, Portugal, Singapore, Slovakia, South Africa, Spain, Sweden, Switzerland, the United Arab Emirates, the United Kingdom and the United States.

We were incorporated under the laws of the State of Indiana in August 1989 under the name Wholesale Cellular USA, Inc. and reincorporated under the laws of the State of Delaware in March 1994. In September 1995, we changed our name to Brightpoint, Inc. In June 2004, we reincorporated under the laws of the State of Indiana under the name of Brightpoint, Inc.

Our website is [www.brightpoint.com](http://www.brightpoint.com). We make available, free of charge, at this website our Code of Business Conduct, annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 ("Exchange Act"), as soon as reasonably practicable after we electronically file such material with, or furnish it to, the United States Securities and Exchange Commission (SEC). The information on the website listed above is not and should not be considered part of this annual report on Form 10-K and is not incorporated by reference in this document.

In addition, we will provide, at no cost, paper or electronic copies of our reports and other filings made with the SEC. Requests for such filings should be directed to Investor Relations, Brightpoint, Inc., 7635 Interactive Way, Suite 200, Indianapolis, Indiana 46278, telephone number: (877) 447-2355.

Unless the context otherwise requires, the terms "Brightpoint," "Company," "we," "our" and "us" means Brightpoint, Inc. and its consolidated subsidiaries.

#### Financial Overview and Recent Developments

*Revenue and units handled.* We saw a 1% increase in total wireless devices handled resulting from increased demand for prepaid and fixed fee wireless subscriptions and expanded service offerings in our Americas region as well as an increase in wireless devices sold through distribution in our EMEA region. However, revenue decreased 28% to \$3.2 billion for the year ended December 31, 2009 primarily due to a decrease in both wireless devices sold through distribution because of the loss of key customers as a result of industry consolidation in North America and a decrease in average selling price for wireless devices sold due to a shift in mix to lower priced handsets sold in the Europe, Middle East and Africa (EMEA) region.

*Spending and Debt Reduction Plan.* In February 2009, we announced a plan to reduce forecasted spending for the year by approximately \$40 to \$45 million and to reduce average daily debt by approximately \$100 million to \$150 million. This plan was comprised of \$12 to \$14 million of cost avoidance and \$28 to \$31 million of spending reductions. The spending reduction measures included, among other things, a substantial workforce reduction goal of at least 220 positions, or approximately 7% of our workforce. The majority of the foregoing reductions in spending are reflected in our 2009 results of operations as a reduction of selling, general, and administrative expenses (SG&A). SG&A expenses were \$212.7 million for the year ended December 31, 2009 which is a decrease of \$41.5 million (16%) from 2008. Fluctuations in foreign currencies favorably impacted SG&A expenses for the year ended December 31, 2009 by approximately \$6.5 million compared to 2008.

*Workforce reduction.* In 2009 we exceeded our global workforce reduction goal of 220 positions. We eliminated approximately 280 positions as part of our global workforce reduction. We incurred restructuring charges of \$13.5 million for the year ended December 31, 2009 primarily related to this global workforce reduction.

*Revised debt reduction.* On May 7, 2009 we revised our debt reduction target to have less than \$100 million of average daily debt outstanding during the fourth quarter of 2009. Because of our unanticipated share repurchase program and facility purchase discussed below, we further revised our debt reduction target for the fourth quarter of 2009 back up to approximately \$150.0 million to \$175.0 million of average daily debt outstanding. Average daily debt was \$167.7 million for the fourth quarter of 2009, which represents a decrease of approximately \$165.3 million from the fourth quarter of 2008. Interest expense was \$9.2 million for the year ended December 31, 2009, which is a decrease of approximately \$10.2 million from 2008. The significant reduction in interest expense was largely due to the decrease in average daily debt outstanding as well as lower overall interest rates.

*European Centers of Excellence.* We continue to focus on optimizing our European division operating and financial structure which will result in additional opportunities to improve our financial performance in the EMEA region. A main strategic component of this plan revolves around consolidating our current warehouse facilities and creating strategically located hubs or "Centers of Excellence" (supply chain delivery centers) to streamline our operations with the goal of becoming a low cost service provider of industry leading logistics services in the EMEA region. We anticipate having one or two centers established in 2010.

*EMEA Shared Services Center.* We have also made significant progress on our Shared Services model where we have centralized many business support (or back office) functions in EMEA the region. By the end of 2009, we had migrated certain back office functions from seven EMEA operating entities to the Shared Services Center. Most of the remaining EMEA operating entities are planned to be migrated to the Shared Services Center throughout 2010.

*Share Repurchase Program.* In July 2009, our Board of Directors approved the repurchase of up to \$50 million of Brightpoint common stock (the Share Repurchase Program). As of December 31, 2009, we had repurchased 3.2 million shares of Brightpoint common stock for an aggregate value of approximately \$16.5 million and at an average purchase price of \$5.22 per share under the Share Repurchase Program. In January 2010, our Board of Directors approved the increase of our Share Repurchase Program by \$30 million, allowing aggregate share repurchases of up to \$80 million. On January 15, 2010 we repurchased 9.2 million shares of Brightpoint common stock from Partner Escrow Holding A/S, an affiliate of NC Telecom Holding A/S (f/k/a Dangaard Holding A/S) for \$6.20 per share, for an aggregate of \$57.3 million, as part of the program. After this repurchase, Partner Escrow Holding A/S does not own any Brightpoint stock. Funds for most of the above repurchases were provided by borrowings available under our Global Line of Credit. As a result of the above repurchases, we have repurchased a total of 12.4 million shares at a weighted average price of \$5.95 per share under the Share Repurchase Program. This represents approximately 14% of our total shares previously outstanding. On February 22, 2010, our Board of Directors approved the increase of our Share Repurchase Program by \$25 million, allowing aggregate share repurchases of up to \$105 million. After this increase, there is approximately \$28.9 million of availability remaining under the Share Repurchase Program, which expires on July 31, 2011.

*Americas division headquarters purchase.* On October 16, 2009, we entered into an agreement to purchase our Americas division headquarters located in Plainfield, Indiana for \$31.0 million plus closing costs and commissions from KPJV 501 Airtech Parkway, LLC. We had been the tenant in an operating lease for the property. There were approximately ten years remaining on the initial lease term, with five year renewal option periods extending to 2044. The sum of the remaining minimum lease payments for the remaining ten years of the initial lease term was \$43.1 million. The purchase was financed using availability on our Global Credit Facility, and we are not currently pursuing any other financing agreement for the property.

## **Global Wireless Industry**

The global wireless industry's primary purpose is to provide mobile voice and data connectivity to subscribers. To enable this capability for the subscriber, the global wireless industry is generally organized as follows:

- *Mobile network operators:* build and operate wireless networks and provide voice and data access services to subscribers.
- *MVNOs:* resell voice and data access services, or airtime, from other mobile operators and do not directly build and operate their own wireless networks.

- *Infrastructure designers, manufacturers, builders, and operators:* companies who operate in this segment provide mobile operators with technology, equipment, and cell sites to host and operate the networks.
- *Component designers and manufacturers:* design technology and components that are embedded within a wireless device. Components include semiconductor chip sets, displays, antennae and others.
- *Content providers:* develop mobile content for use with wireless devices and provide consumers with content such as ring tones, messaging, music, streaming video and television, games and other applications.
- *Wireless device manufacturers:* design, manufacture, and market wireless devices, such as cellular phones, wireless personal digital assistants, smartphones, netbooks and e-readers, which connect subscribers to a wireless network.
- *Supply chain management providers, retailers and resellers:* supply chain management providers provide logistic and distribution services to physically move wireless devices and related products from manufacturers or mobile operators closer to, or directly into, the hands of mobile subscribers; retailers, value-added resellers and system integrators provide subscribers and potential subscribers with an access point, either physical or on-line, to purchase a subscription and/or a wireless device

Wireless voice and data services are available to consumers and businesses over regional, national and multi-national networks through mobile operators who utilize digital and analog technological standards, such as:

<u>Generation</u>	<u>Technology Standards</u>
1G Analog .....	AMPS
2G Digital.....	TDMA, CDMA, GSM, iDEN
2.5G Digital.....	GPRS, EDGE, CDMA 1xRTT
3G Digital.....	W-CDMA/UMTS, CDMA 1xEV-DO, HSDPA
3.5 G Digital.....	HC-SDMA, E-UTRA, WiMAX
4 G.....	LTE Advanced

Developments within the global wireless industry have allowed wireless subscribers to talk, send text messages, send and receive email, capture and transmit digital images and video recordings (multimedia messages), play games, download applications, browse the Internet, read books and watch television using their wireless devices. Wireless devices and services are also being used for monitoring services, point-of-sale transaction processing, machine-to-machine communications, local area networks, location monitoring, sales force automation and customer relationship management.

From 2008 to 2009, the estimated number of worldwide wireless subscribers increased from approximately 4.0 billion to approximately 4.5 billion. At the end of 2009, wireless penetration was estimated to be approximately 65% of the world's population. During 2009, shipments of wireless devices in the global wireless industry decreased by approximately 7% to an estimated 1.1 billion wireless devices. The replacement cycle remains the single biggest factor driving global wireless device sell-in demand. Compelling data centric services over fast networks should continue to fuel the future global demand for wireless devices. Ease of use and increased functionality of devices will continue to drive consumer demand for wireless devices and hence the replacement cycle. The convergence of telecommunications, computing and media is further accelerating the replacement cycle and driving demand. The industry data contained in this paragraph and elsewhere in this subsection is based on Company and industry analyst estimates.

We believe the following major trends are taking place within the global wireless industry, although there are no assurances that we will benefit from these trends (refer to Item 1A, "Risk Factors"):

*Smartphones.* We believe that some of the key drivers for the growth in volume of replacement devices shipped will be the migration to next generation systems and devices (3G, 3.5G and 4G) with streaming video and television, and increasing penetration of smartphones. Mobile data (mobile music, mobile TV, mobile banking, mobile advertising, and mobile social networking) and the availability of compelling content and enhanced device capabilities will continue to drive the replacement cycle. We expect smartphones to be 20%-25% of the total wireless devices shipped in 2010. While the new features, enhanced functionalities, smartphone penetration and migration to next generation systems are anticipated to increase both replacement device shipments and total wireless device shipments, general economic conditions, consumer

acceptance, component shortages, manufacturing difficulties, supply constraints, network capacity and other factors could negatively impact anticipated wireless device shipments.

*Increasing Subscribers.* We expect the number of subscribers worldwide to continue to increase. Increased wireless service availability or lower cost of wireless service compared to conventional fixed line systems and reductions in the cost of wireless devices may result in an increase in subscribers. In particular, markets or regions such as Africa, India, China and Eastern Europe are expected to increase their number of subscribers significantly. The emergence of new wireless technologies and related applications may further increase the number of subscribers in markets that have historically had high penetration rates. More mobile operators may offer services including seamless roaming, increased coverage, improved signal quality and greater and faster data handling capabilities through increased bandwidth, thereby attracting more subscribers to mobile operators which offer such services.

*Next Generation Systems.* In order to provide a compelling service offering for their current and prospective subscribers, mobile operators continue to expand and enhance their systems by migrating to next generation systems such as 3G, 3.5G and 4G. These systems allow subscribers to send and receive email, capture and transmit digital images and video recordings (multimedia messages), play games, browse the Internet, watch television and take advantage of services such as monitoring services, point-of-sale transaction processing, machine-to-machine communications, location monitoring, sales force automation and customer relationship management. In order to realize the full advantage of these services and capabilities, many current subscribers will need to replace their wireless devices. As a result, the continued rollout of next generation systems is expected to be a key driver for replacement sales of wireless devices. However, the ability and timing of mobile operators to rollout these new services and manufacturers to provide devices which utilize these technologies may have a significant impact on consumer adoption and the rate of sale of replacement devices.

*New or Expanding Industry Participants.* With the opportunities presented by enhanced voice and data capabilities and an expanding market for wireless devices, many companies are entering or expanding their presence in the global wireless industry. In addition, companies such as Google and Microsoft (wireless device operating systems providers) and High Tech Computer Corp. and Apple (wireless device manufacturers) are bringing feature-rich operating systems or wireless devices to market in order to provide subscribers with capabilities that emulate their desktop computer. Nokia, High Tech Computer Corp., Google, Microsoft, and Apple and their products may heighten competition with other existing manufacturers and provide consumers with more feature-rich products, broader selection and new market channels, which may result in increased wireless device shipments.

*Pricing Factors and Average Selling Prices.* Industry estimates are that in 2009 the global wireless industry's average selling price for wireless devices declined from 2008. A number of factors impacted the actual average selling prices including, but not limited to, consumer discretionary spending, geographic mix, changes in the product life cycle, decreasing manufacturing costs due to higher volumes, manufacturing efficiencies, reductions in material costs, consumer demand, manufacturers' promotional activities, operators' promotional activity and trends in pricing for service plans, product availability, fluctuations in currency exchange rates, product mix and device functionality. We anticipate that the global wireless industry's average selling prices for wireless devices may continue to decline despite the fact that manufacturers have been adding enhanced features; however, we are unable to estimate the rate of such decline. The decline in average selling prices could offset any growth in revenue from overall growth in wireless device shipments and have an adverse impact on both the industry's and our distribution revenues. However, changes in average selling prices of wireless devices have little to no impact on our revenue from logistic services, which are typically fee-based services.

## **Our Business**

Brightpoint, Inc. provides supply chain solutions to leading stakeholders in the global wireless technology industry. Our primary business is moving wireless devices closer to, or directly into, the hands of mobile subscribers. With approximately 83.5 million wireless devices handled in 2009, we believe we are the largest dedicated provider of customized supply chain solutions to mobile operators, MVNOs, resellers, retailers and wireless equipment manufacturers. Our business includes distribution channel management, logistic services, activation services and the sale of prepaid airtime. The majority of our business is conducted through product distribution and logistic services. While our activation services and prepaid airtime businesses are important to us, they are less significant than our other businesses in terms of revenue and units handled.

*Logistic Services.* Our logistic services include procurement, inventory management, software loading, kitting and customized packaging, fulfillment, credit services and receivables management, call center and activation services, website hosting, e-fulfillment solutions, reverse logistics, transportation management and other services. Generally, logistic services

are fee-based services. In many of our markets, we have contracts with mobile operators and wireless equipment manufacturers to which we provide our logistic services. These customers include, but are not limited to, operating companies or subsidiaries of Debitel (Denmark and Germany), Euroset (Finland), Kyocera (United States), MetroPCS (United States), Research in Motion (United States), Sprint (United States), T-Mobile (United States), T-Mobile Slovensko (Slovakia), TracFone (United States), and Vodafone (Australia, New Zealand and Germany).

During 2009, 2008 and 2007 logistic services accounted for approximately 11%, 10% and 9% of our total revenue and accounted for approximately 77%, 71% and 69% of the total wireless devices we handled. In 2009, 2008 and 2007 our logistic services gross margin was 44.1%, 37.3% and 28.4% and accounted for approximately 57%, 48%, and 38% of total gross profit. Cost of revenue for logistic services is primarily composed of costs such as freight, labor and rent expense. Since we generally do not take ownership of the inventory in our logistic services arrangements and the accounts receivable are lower due to the fee-based nature of these services, the invested capital requirements and the risks assumed in providing logistic services generally are significantly lower than our distribution business.

*Product Distribution.* In our product distribution activities, we provide distribution channel management services to leading wireless devices manufacturers through the purchase of a wide variety of wireless voice and data products for delivery to our customers. Distribution channel management is similar to our logistic services, however it requires an investment of working capital due to the fact that in these arrangements we take ownership of the products and receive them in our facilities or have them drop-shipped directly to our customers. We actively market and sell these products to our worldwide customer base of approximately 25,000 customers. Product distribution revenue includes the value of the product sold and generates higher revenue per unit, as compared to our logistic services revenue, which does not include the value of the product. We frequently review and evaluate wireless voice and data products in determining the mix of products purchased for distribution and attempt to acquire distribution rights for those products that we believe have the potential for enhanced financial return and significant market penetration. In 2009, 2008 and 2007 approximately 89%, 90%, and 91% of our total revenue was derived from product distribution. In 2009, 2008 and 2007 approximately 23%, 29% and 31%, of our total wireless devices handled were sold through product distribution. In 2009, 2008 and 2007 our gross margin on product distribution revenue was 4.2%, 4.4% and 4.3% and was approximately 43%, 52% and 62% of total gross profit. Cost of revenue for product distribution includes the costs of the products sold and other direct costs such as freight, labor and rent expense.

The wireless devices we distribute include a variety of devices designed to work on various operating platforms and feature brand names such as Apple, High Tech Computer Corp., Kyocera, LG Electronics, Motorola, Nokia, Research In Motion, Samsung, and Sony Ericsson. In 2009, 2008 and 2007 our sales of wireless devices through product distribution totaled 19.2 million, 24.2 million and 25.3 million devices. As the industry's average selling prices have continued to fluctuate, our average selling prices have also fluctuated due to the mix of wireless devices we sell and the markets in which we operate. In 2009, 2008 and 2007 our average selling price for wireless devices was approximately \$135, \$149, and \$141 per unit.

We also distribute accessories used in connection with wireless devices, such as batteries, chargers, memory cards, car-kits, cases and "hands-free" products. We purchase and resell original equipment manufacturer (OEM) and aftermarket accessories, either prepackaged or in bulk. Our accessory packaging services provide mobile operators and retail chains with custom packaged and/or branded accessories based on the specific requirements of those customers.

*Activation Services.* In our activation services business, we provide wireless activation solutions for our clients through retail, enterprise and online channels. We market these services under the Actify brand name in the United States and have activation agreements with AT&T, Sprint, T Mobile, Boost, and Verizon Wireless. We currently have agreements with the key Tier 1 U.S. operators to support the activation of wireless converged, embedded and mobile broadband devices. We establish and manage a network of authorized channel partners that include brick and mortar retailers, online retailers, corporate enterprise, value added resellers and OEMs. We provide our channel partners with access to authorized products and support them through commissions management, e-commerce procurement solutions, sales and marketing programs, merchandising programs, training programs, incentive programs and cooperative advertising. As our channel partners activate or upgrade subscribers through our agency agreements, they earn commissions. Through these agreements, we manage commissions from the mobile operators and pay the channel partners their pro-rata portion of the commissions after deducting our fees. For the mobile operators, we provide them with incremental points of sale and alternative distribution under a variable-cost model subscribers acquisition and retention. We provide additional managed services to serve corporate enterprise and OEM consumer and business channels, specializing in wireless procurement, ecommerce activations and account management services. Sales of wireless devices and related accessories to our network of channel partners are included in product distribution revenues and fees earned from commissions management services are included in logistic services revenues.

*Prepaid Airtime.* Through our prepaid airtime business model, we participate in the ongoing revenue stream generated by prepaid subscribers. We earn a fee from purchasing electronic activation codes from mobile operators and MVNOs and distributing them to retail channels. Much of our activity in the prepaid airtime business model is in our Europe and Americas Divisions. Sales of electronic activation codes to retail customers are included in logistic services revenues. In the fourth quarter of 2009 we began reporting the revenue associated with these agreements on a net basis as defined by Accounting Standards Codification (ASC) Section 605-45 (formerly Emerging Issues Task Force Issue No. 99-19) based on a change in the prepaid airtime business model. The revenue under these agreements was previously reported on a gross basis within logistic services revenue. We distribute prepaid airtime in many of our operations on behalf of mobile operators and MVNOs such as: Virgin Mobile (United States), Sonofon (Denmark), Tele2 (Sweden) and TeliaSonera (Sweden).

## **Our Strategy**

Our strategy is to continue to grow as a leader in providing supply chain solutions to the global wireless industry. Our objectives are to increase our earnings and market share, improve our return on invested capital within certain debt-to-total-capital parameters and to enhance customer satisfaction by increasing the value we offer relative to other service alternatives and service offerings by our competitors.

Our strategy incorporates industry trends such as increasing sales of replacement devices, increasing subscribers, the migration to next generation systems and new or expanding industry participants as described in detail in the section entitled "Global Wireless Industry." We will endeavor to grow our business through organic growth opportunities, new product and service offerings, start-up operations and joint ventures or acquisitions. In evaluating opportunities for growth, key components of our decision making process include anticipated long-term rates of return, short-term returns on invested capital and risk profiles as compared to the potential returns. No assurances can be given on the success of our strategy, and we reference Item 1A, "Risk Factors".

Key elements of our strategy include:

*Expand Existing Product and Service Offerings in Current Markets.* Our plan includes the transfer of our industry know-how, relationships, and capabilities from one market to another in an effort to expand our product and service offerings within our current markets. This is intended to enhance the service offerings and product lines of some of our operations, which have relatively limited product lines and service offerings as compared to the collective product and service offerings of the entire Company. Opportunities in expanding our product lines include wireless handsets, data devices, memory cards, SIM-cards and accessories. Opportunities in expanding our service offerings include product fulfillment, electronic prepaid recharge services, reverse logistics management, repair services, and online activation services. Adding new products and services to our portfolio as one of our key strategic initiatives ensures our focus on diversifying our vendor and customer base on a global basis. With our business focused on the wireless industry, we strive to be the most valuable partner to our vendors and customers by offering them a comprehensive menu of wireless supply chain services at the most competitive prices.

*Optimize Existing Global Business Model and Utilize Scale to Gain Efficiencies.* We believe we have opportunity to significantly increase the value of our company by optimizing and leveraging our existing operations. We are committed to focusing on leveraging our infrastructure, market share, and cost structure to increase the value we offer relative to other service alternatives and service offerings by our competitors. Our global platform and services allow us to be a low cost service provider to the global wireless industry.

A main strategic component of this plan will revolve around consolidating our current warehouse facilities and creating strategically located hubs or "Centers of Excellence" (supply chain delivery centers) to streamline our operations with the goal of becoming a low cost service provider of industry leading supply chain solutions in the European region. By the fourth quarter of 2009 we had made progress on establishing our first Center Of Excellence in the Nordic region. We have requested proposals from potential service providers and anticipate having one or two Tier 1 centers established in 2010. No assurances can be given on the success of the implementation of our Centers of Excellence. See Item 1A, "Risk Factors" – "OUR IMPLEMENTATION OF EUROPEAN CENTERS OF EXCELLENCE MAY NOT BE SUCCESSFUL."

*Expand into New Geographic Markets.* We estimate that the global wireless industry shipped approximately 1.1 billion wireless devices in 2009. We believe that the wireless devices shipped in the geographic markets where we currently operate (our addressable market) were less than one-third of the global industry shipments of devices in 2009. We believe we are in a position to enter into new markets, thereby expanding our addressable market. In 2010, we believe that there may be additional expansion opportunities primarily in Africa and Asia.

## Customers

We provide our products and services to a customer base of approximately 25,000 consisting of mobile operators, MVNOs, manufacturers, independent agents and dealers, retailers, and other distributors. During 2009, customers in each of our primary sales channels included the following:

*Mobile Operators and MVNOs:* Cellular South (United States), MetroPCS (United States), Sprint (United States), T-Mobile (United States), TracFone (United States), Verizon Wireless (United States), America Movil (Guatemala and El Salvador), SingTel (Australia), Vodafone (Australia, New Zealand and Germany), Reliance Infocomm (India), Tata TeleServices (India), Debitel AG (Europe), Netcom (Norway), Tele2 (Sweden), Telefonica (Spain) and T-Mobile Slovensko (Slovakia)

*Dealers and Agents:* Cellular Sales (United States), Russell Cellular (United States), Pro Cellular (United States), Telechoice (Australia), First Mobile Group (Australia and New Zealand), Dialect (Sweden) and Klartsvär (Sweden)

*Mass Retailers:* Best Buy (United States), Office Depot (United States) Radio Shack (United States), Harvey Norman (Australia), Coles Group (Australia), Woolworth's Group (Australia), Metro Group (Europe) and Pressbyran (Sweden)

*Other Distributors:* Wireless Channels (United States), Generation Next Group (formerly Computech) (Hong Kong and Singapore), Raduga Pte. Ltd (Singapore) and Excel International Limited (Hong Kong)

For 2009, 2008 and 2007 aggregate revenues generated from our five largest customers accounted for approximately 22%, 19% and 23% of our total revenue. No customer accounted for 10% or more of our revenue in 2009 or 2008. In 2009, 2008 and 2007, Generation Next Group, a customer of our Singapore operations accounted for approximately 9%, 7% and 10% of our total revenue and 31%, 29% and 29% of the Asia-Pacific division's revenue. See Item 1A, "Risk Factors" – "THE LOSS OR REDUCTION IN ORDERS FROM PRINCIPAL CUSTOMERS OR A REDUCTION IN PRICES WE ARE ABLE TO CHARGE THESE CUSTOMERS COULD MATERIALLY ADVERSELY AFFECT OUR BUSINESS."

We generally sell our products pursuant to customer purchase orders and subject to our terms and conditions. We generally ship products on the same day orders are received from the customer. Unless otherwise requested, substantially all of our products are delivered by common freight carriers. Because orders are filled shortly after receipt, backlog is generally not material to our business. Our logistic services are typically provided pursuant to agreements with terms between one and three years which generally may be terminated by either party subject to a short notice period.

## Purchasing and Suppliers

We have established key relationships with leading manufacturers of wireless voice and data equipment such as Apple, High Tech Computer Corp., Kyocera, LG Electronics, Motorola, Nokia, Research In Motion, Samsung and Sony Ericsson. We generally negotiate directly with manufacturers and suppliers in order to obtain inventories of brand name products. Inventory purchases are based on customer demand, product availability, brand name recognition, price, service, and quality. Certain of our suppliers may provide favorable purchasing terms to us, including credit, price protection, cooperative advertising, volume incentive rebates, stock balancing and marketing allowances. Product manufacturers typically provide limited warranties directly to the end consumer or to us, which we generally pass through to our customers.

Nokia products (our largest supplier of wireless devices and accessories) represented approximately 20%, 26% and 30% of total units handled in 2009, 2008 and 2007. Motorola products represented 19%, 21%, 29% of total units handled in 2009, 2008 and 2007. Samsung products represented approximately 16% and 15% of total units handled in 2009 and 2008 and less than 10% in 2007. Kyocera products represented approximately 11% of total units handled in 2009. None of the products we sold from our other suppliers accounted for 10% or more of our total units handled in 2009, 2008 and 2007. Loss of the applicable contracts with Nokia, Motorola, Samsung, Kyocera or other suppliers, or failure by Nokia, Motorola, Samsung, Kyocera or other suppliers to supply competitive products on a timely basis, at competitive prices and on favorable terms, or at all, may have a material adverse effect on our revenue and operating margins and our ability to obtain and deliver products on a timely and competitive basis. See — "Competition."

We maintain agreements with certain of our significant suppliers, all of which relate to specific geographic areas. Our agreements may be subject to certain conditions and exceptions including the retention by manufacturers of certain direct accounts and restrictions regarding our sale of products supplied by certain other competing manufacturers and to certain mobile operators. Typically our agreements with suppliers are non-exclusive. Our supply agreements may require us to

satisfy purchase requirements based upon forecasts provided by us, in which a portion of these forecasts may be binding. Our supply agreements generally can be terminated on short notice by either party. We purchase products from manufacturers pursuant to purchase orders placed from time to time in the ordinary course of business. Purchase orders are typically filled, subject to product availability, and shipped to our designated warehouses by common freight carriers. We believe that our relationships with our suppliers are generally good. Any failure or delay by our suppliers in supplying us with products on favorable terms and at competitive prices may severely diminish our ability to obtain and deliver products to our customers on a timely and competitive basis. If we lose any of our significant suppliers, or if any supplier imposes substantial price increases or eliminates favorable terms provided to us and alternative sources of supply are not readily available, it may have a material adverse effect on our results of operations.

## **Sales and Marketing**

We promote our product lines, our capabilities and the benefits of certain of our business models through advertising in trade publications and attending various international, national and regional trade shows, as well as through direct mail solicitation, media advertising and telemarketing activities. Our suppliers and customers use a variety of methods to promote their products and services directly to consumers, including Internet, print and media advertising.

Our sales and marketing efforts are coordinated in each of our three regional divisions by key personnel responsible for that particular division. Divisional management devotes a substantial amount of their time to developing and maintaining relationships with our customers and suppliers. In addition to managing the overall operations of the divisions, each division's sales and operations centers are managed by either general or country managers who report to the appropriate member of divisional management and are responsible for the daily sales and operations of their particular location. Each country has sales associates who specialize in or focus on sales of our products and services to a specific customer or customer category (e.g., mobile operator, MVNOs, dealers and agents, reseller, retailer, subscriber, etc.). In addition, in many markets we have dedicated a sales force to manage most of our mobile operator relationships and to promote our logistic services including our activation services and prepaid airtime business models. Including support and retail outlet personnel, we had 493 employees involved in sales and marketing at December 31, 2009, of which 146 are in our Americas division, 209 in our EMEA division, and 138 in our Asia-Pacific division.

## **Seasonality**

The operating results of each of our three divisions may be influenced by a number of seasonal factors in the different countries and markets in which we operate. These factors may cause our revenue and operating results to fluctuate on a quarterly basis. These fluctuations are a result of several factors, including, but not limited to:

- promotions and subsidies by mobile operators;
- the timing of local holidays and other events affecting consumer demand;
- the timing of the introduction of new products by our suppliers and competitors;
- purchasing patterns of customers in different markets;
- general economic conditions; and
- product availability and pricing.

Consumer electronics and retail sales in many geographic markets tend to experience increased volumes of sales at the end of the calendar year, largely because of gift-giving holidays. This and other seasonal factors have contributed to increases in our revenue during the fourth quarter in certain markets. Conversely, we have experienced decreases in demand in the first quarter subsequent to the higher level of activity in the preceding fourth quarter. Our operating results may continue to fluctuate significantly in the future. If unanticipated events occur, including delays in securing adequate inventories of competitive products at times of peak sales or significant decreases in sales during these periods, it could have a material adverse effect on our operating results. In addition, as a result of seasonal factors, interim results may not be indicative of annual results.

## Competition

We operate in a highly competitive industry and in highly competitive markets and believe that such competition may intensify in the future. The markets for wireless voice and data products are characterized by intense price competition and significant price erosion over the lives of products. We compete principally on the basis of value in terms of price, capability, time, product knowledge, reliability, customer service and product availability. Our competitors may possess substantially greater financial, marketing, personnel and other resources than we do, which may enable them to withstand substantial price competition, launch new products and implement extensive advertising and promotional campaigns.

The distribution of wireless devices and the provision of logistic services within the global wireless industry have, in the past, been characterized by relatively low barriers to entry. Our ability to continue to compete successfully will be largely dependent on our ability to anticipate and respond to various competitive and other factors effecting the industry, including new or changing outsourcing requirements; new information technology requirements; new product introductions; inconsistent or inadequate supply of product; changes in consumer preferences; demographic trends; international, national, regional and local economic conditions; and discount pricing strategies and promotional activities by competitors.

The markets for wireless communications products and integrated services are characterized by rapidly changing technology and evolving industry standards, often resulting in product obsolescence, short product life cycles and changing competition. Accordingly, our success is dependent upon our ability to anticipate and identify technological changes in the industry and successfully adapt our offering of products and services, to satisfy evolving industry and customer requirements. The wireless device industry is increasingly segmenting its product offering and introducing products with enhanced functionality that competes with other consumer electronic products. Examples include wireless devices with embedded mega-pixel cameras, which now compete to a certain extent with single function digital cameras, wireless devices with MP3 capabilities that compete with single function handheld audio players, and wireless devices with embedded navigation capabilities that compete with single function handheld navigation devices. These single function consumer electronic products are distributed through other distributors who may become our competitors as the wireless industry continues to introduce wireless devices with enhanced functionality. In addition, products that reach the market outside of normal distribution channels, such as gray market resellers, may also have an adverse impact on our operations.

Our current competition and specific competitors varies by service line and division as follows:

*Product Distribution.* Our product distribution business competes with broad-based wireless distributors who carry similar product lines and specialty distributors who may focus on segments within the wireless industry such as WLAN, Wi-Fi, navigation, and accessories. To a lesser extent we compete with information technology distribution companies who offer wireless devices in certain markets. Manufacturers also sell their products directly to large mobile operators and as mobile operator customers grow in scale, manufacturers may pose a competitive threat to our business.

For product distribution, specific competitors and the divisions in which they generally compete with us include BrightStar Corporation (all divisions), Tessco Technologies (Americas), D&H Distributing (Americas), Parktel (Americas), Cellnet Group Ltd. (Asia-Pacific), Axcom (EMEA), 20:20 Logistics (EMEA) and Ingram Micro (all divisions).

*Logistic Services.* Our logistic services business competes with general logistic services companies who provide logistic services to multiple industries and specialize more in the warehousing and transportation of finished goods. Manufacturers can also offer fulfillment services to our customers. Certain mobile operators have their own distribution and logistics infrastructure which competes with our outsource solutions.

For logistic services, specific competitors and the division in which they generally compete with us include ATC Technology Corporation (Americas), BrightStar Corporation (all divisions), CAT Logistics (Americas), Tessco Technologies (Americas), New Breed Logistics (Americas), UPS Logistics (Americas), Arvato Logistics Services (EMEA), CEVA Logistics (EMEA) and Kuehne + Nagel (EMEA).

*Activation Services.* Our activation services business competes with other specialists who establish and manage independent authorized retailers and value-added resellers and with mobile operators who have the infrastructure necessary to manage their indirect channels.

For activation services, specific competitors and the division in which they generally compete with us include American Wireless (Americas), Ingram Micro (Americas), LetsTalk (Americas), Simplexity (Americas), QDI (Americas), Wireless Channels (Americas) and Avenir S.A. (EMEA).

*Prepaid Airtime.* Our prepaid airtime business competes with broad-based wireless distributors who sell prepaid airtime, specialty distributors who focus on prepaid airtime and companies who manufacture or distribute electronic in-store terminals capable of delivering prepaid airtime. To a lesser extent we compete with mobile operators themselves as they distribute prepaid airtime through their own retail channels.

For prepaid airtime, specific competitors and the divisions in which they generally compete with us include American Wireless (Americas), InComm (Americas), Alphyra (EMEA) and Euronet (EMEA).

### **Information Systems**

The success of our operations is largely dependent on the functionality, architecture, performance and utilization of our information systems. We have implemented, and continue to implement, business applications that enable us to provide supply chain solutions for our customers and suppliers. These solutions include, but are not limited to, e-commerce; electronic data interchange (EDI); credit scoring, collection services, web-based order entry, account management, supply chain management; warehouse management, serialized inventory tracking, inventory management and reporting. During 2009, 2008 and 2007, we invested approximately \$8.3 million, \$10.7 million and \$8.6 million, in our information systems with the focus of increasing the functionality and flexibility of our systems. In 2008 we began implementing a global ERP system. Implementation of this system throughout all of our operating entities will continue throughout 2010 and into 2011. In 2010, we will also implement a global warehouse management and transportation management system. In the future, we intend to invest to further develop those solutions and integrate our internal information systems throughout all of our divisions. At December 31, 2009, there were approximately 228 employees in our information technology departments worldwide.

### **Employees**

As of December 31, 2009, we had 2,705 employees; 1,135 in our Americas division, 529 in our Asia-Pacific division, 937 in our EMEA division, and 104 in our Corporate division. Of these employees, nine were in executive officer positions, 1,492 were engaged in service operations, 493 were in sales and marketing and 711 were in finance and administration (including 228 information technology employees). Our distribution activities and logistic services are labor-intensive and we utilize temporary laborers, particularly in our Americas division, due to the seasonal demands of our business. At December 31, 2009, we had 983 temporary laborers; 711 in our Americas division, 133 in our Asia-Pacific division and 139 in our Europe division. Of these temporary laborers, approximately 861 were engaged in service operations, 63 were in sales and marketing and 59 were in finance and administration. Worldwide, none of our employees are covered by a collective bargaining agreement, except for national collective labor agreements in Finland. We believe that our relations with our employees are good. See Item 1A, "Risk Factors" — "WE ARE SUBJECT TO CERTAIN PERSONNEL RELATED ISSUES."

### **Segment and Geographic Financial Information**

Financial information concerning our segments and other geographic financial information is included in Note 1 to the Consolidated Financial Statements of this Annual Report on Form 10-K.

### **Item 1A. Risk Factors.**

There are many important factors that have affected, and in the future could affect our business, including the factors discussed below which should be reviewed carefully, in conjunction with the other information contained in this Form 10-K. Some of these factors are beyond our control and future trends are difficult to predict. In addition, various statements, discussions and analyses throughout this Form 10-K are not based on historical fact and contain forward-looking statements. These statements are also subject to certain risks and uncertainties, including those discussed below, which could cause our actual results to differ materially from those expressed or implied in any forward-looking statements made by us. Readers are cautioned not to place undue reliance on any forward-looking statement contained in this Form 10-K and should also be aware that we undertake no obligation to update any forward-looking information contained herein to reflect events or circumstances after the date of this Form 10-K or to reflect the occurrence of unanticipated events.

#### ***General risks related to our operations***

***The loss or reduction in orders from principal customers or a reduction in the prices we are able to charge these customers could cause our revenues to decline and impair our cash flows.*** Many of our customers in the markets we serve

have experienced severe price competition or have been acquired and, for these and other reasons, may seek to obtain products or services from us at lower prices than we have been able to provide these customers in the past. The loss of any of our principal customers, a reduction in the amount of product or services our principal customers order from us or our inability to maintain current terms, including prices, with these or other customers could cause our revenues to decline and impair our cash flows. Although we have entered into contracts with certain of our largest logistic services customers, we previously have experienced losses of certain of these customers through expiration or cancellation of our contracts with them, and there can be no assurance that any of our customers will continue to purchase products or services from us or that their purchases will be at the same or greater levels than in prior periods.

***We buy a significant amount of our products from a limited number of suppliers, and they may not provide us with competitive products at reasonable prices when we need them in the future.*** We purchase wireless devices and accessories that we sell from wireless communications equipment manufacturers, network operators and distributors. We depend on these suppliers to provide us with adequate inventories of currently popular brand name products on a timely basis and on favorable pricing and other terms. Our agreements with our suppliers are generally non-exclusive, require us to satisfy minimum purchase requirements, can be terminated on short notice and provide for certain territorial restrictions, as is common in our industry. We generally purchase products pursuant to purchase orders placed from time to time in the ordinary course of business. In the future, our suppliers may not offer us competitive products on favorable terms without delays. From time to time we have been unable to obtain sufficient product supplies from manufacturers in many markets in which we operate. Any future failure or delay by our suppliers in supplying us with products on favorable terms would severely diminish our ability to obtain and deliver products to our customers on a timely and competitive basis. If we lose any of our principal suppliers, or if these suppliers are unable to fulfill our product needs, or if any principal supplier imposes substantial price increases and alternative sources of supply are not readily available, this may result in a loss of customers and cause a decline in our results of operations.

***Our business could be harmed by consolidation of mobile operators.*** The past several years have witnessed a consolidation within the mobile operator community, and this trend is expected to continue. This trend could result in a reduction or elimination of promotional activities by the remaining mobile operators as they seek to reduce their expenditures, which could, in turn, result in decreased demand for our products or services. Moreover, consolidation of mobile operators reduces the number of potential contracts available to us and other providers of logistic services. We could also lose business or face price pressures if mobile operators that are our customers are acquired by other mobile operators that are not our customers.

***The current global economic downturn could cause a severe disruption in our operations.*** Our business has been negatively impacted by the current global economic downturn. If this downturn is prolonged, there could be several severely negative implications to our business that may exacerbate many of the risk factors we identified below including, but not limited to, the following:

- Counterparty risk:
  - Our customers, vendors and their suppliers (e.g. component manufacturers) may become insolvent and file for bankruptcy, which could negatively impact our results of operations.
- Liquidity:
  - The global economic downturn and the associated credit crisis could continue and reduce liquidity and this could have a negative impact on financial institutions and the global financial system, which would, in turn, have a negative impact on us, our customers and our creditors.
  - Credit insurers could drop coverage on our customers and increase premiums, deductibles and co-insurance levels on our remaining or prospective coverage.
  - Our suppliers could tighten trade credit which could negatively impact our liquidity.
  - We may not be able to borrow additional funds under our existing credit facilities if participating banks become insolvent or their liquidity is limited or impaired. In addition, we may not be able to retain our current accounts receivable factoring arrangement in Spain or secure new accounts receivable factoring agreements.
- Demand:
  - The global recession has resulted in severe job losses and lower consumer confidence, which could cause a decrease in demand for our products and services.
  - The global recession has also shifted consumer demand for wireless devices. In particular, demand in countries in Europe has shifted toward wireless devices that carry lower average selling price, which has adversely impacted our revenue and gross profit.

- Prices:
  - Certain markets have experienced and may continue to experience deflation, which could negatively impact our average selling price and revenue.

***Our operations could be harmed by fluctuations in regional demand patterns and economic factors.*** In particular, our EMEA division has been adversely impacted and our results have been negatively impacted. The demand for our products and services has fluctuated and may continue to vary substantially within the regions served by us. Additionally, average selling prices have declined in our EMEA division as consumer demand has shifted to lower average selling price devices. We believe that the enhanced functionality of wireless devices and the roll-out of next generation systems has had and will continue to have a favorable effect on overall subscriber growth and handset replacement demand. Economic slow-downs in regions served by us or changes in promotional programs offered by mobile operators may lower consumer demand, lengthen the replacement cycle and create higher levels of inventories in our distribution channels which results in lower than anticipated demand for the products and services that we offer and can decrease our gross and operating margins. A prolonged economic slow-down in the United States or any other region in which we have significant operations could negatively impact our results of operations and financial position.

***We have debt facilities that could prevent us from borrowing additional funds, if needed.*** Our global credit facility is secured by primarily all of our domestic assets and certain other foreign assets and stock pledges. Our borrowing availability is based primarily on a leverage ratio test, measured quarterly as total funded indebtedness over EBITDA adjusted as defined in the credit agreement. Consequently, any significant decrease in adjusted EBITDA could limit our ability to borrow additional funds to adequately finance our operations and expansion strategies. The terms of our global credit facility also include negative covenants that, among other things, may limit our ability to incur additional indebtedness, sell certain assets and make certain payments, including but not limited to, dividends, repurchases of our common stock and other payments outside the normal course of business, as well as prohibiting us from merging or consolidating with another corporation or selling all or substantially all of our assets in the United States or assets of any other named borrower. If we violate any of these loan covenants, default on these obligations or become subject to a change of control, our indebtedness under the credit agreement would become immediately due and payable, and the banks could foreclose on its security.

***We may have difficulty collecting our accounts receivable.*** We currently offer and intend to offer open account terms to certain of our customers, which may subject us to credit risks, particularly in the event that any receivables represent sales to a limited number of customers or are concentrated in particular geographic markets. The collection of our accounts receivable and our ability to accelerate our collection cycle through the sale of accounts receivable is affected by several factors, including, but not limited to:

- our credit granting policies,
- contractual provisions,
- our customers' and our overall credit rating as determined by various credit rating agencies,
- industry and economic conditions,
- the ability of the customer to provide security, collateral or guarantees relative to credit granted by us,
- the customer's and our recent operating results, financial position and cash flows; and
- our ability to obtain credit insurance on amounts that we are owed.

Adverse changes in any of these factors, certain of which may not be wholly in our control, could create delays in collecting or an inability to collect our accounts receivable which could impair our cash flows and our financial position and cause a reduction in our results of operations.

***We rely on our suppliers to provide trade credit terms to adequately fund our on-going operations and product purchases.*** Our business is dependent on our ability to obtain adequate supplies of currently popular product at favorable pricing and on other favorable terms. Our ability to fund our product purchases is dependent on our principal suppliers providing favorable payment terms that allow us to maximize the efficiency of our capital usage. The payment terms we receive from our suppliers is dependent on several factors, including, but not limited to:

- pledged cash requirements;

- our payment history with the supplier;
- the supplier's credit granting policies, contractual provisions;
- our overall credit rating as determined by various credit rating agencies;
- industry conditions;
- our recent operating results, financial position and cash flows; and
- the supplier's ability to obtain credit insurance on amounts that we owe them.

Adverse changes in any of these factors, some of which may not be in our control, could harm our operations.

***A significant percentage of our revenues are generated outside of the United States in countries that may have volatile currencies or other risks.*** We maintain operations centers and sales offices in territories and countries outside of the United States. The fact that our business operations are conducted in many countries exposes us to several additional risks, including, but not limited to:

- potentially significant increases in wireless product prices
- increased credit risks, customs duties, import quotas and other trade restrictions;
- potentially greater inflationary pressures;
- shipping delays;
- the risk of failure or material interruption of wireless systems and services; and
- possible wireless product supply interruption.

In addition, changes to our detriment may occur in social, political, regulatory and economic conditions or in laws and policies governing foreign trade and investment in the territories and countries where we currently have operations. U.S. laws and regulations relating to investment and trade in foreign countries could also change to our detriment. Any of these factors could have a negative impact on our business and operations. We purchase and sell products and services in a number of foreign currencies, many of which have experienced fluctuations in currency exchange rates. In the past, we entered into forward exchange swaps, futures or options contracts as a means of hedging our currency transaction and balance sheet translation exposures. However, our local management has had limited prior experience in engaging in these types of transactions. Even if done well, hedging may not effectively limit our exposure to a decline in operating results due to foreign currency translation. We cannot predict the effect that future exchange rate fluctuations will have on our operating results. We have ceased operations or divested several of our foreign operations because they were not performing to acceptable levels. These actions resulted in significant losses to us. We may in the future, decide to divest certain existing foreign operations, which could result in our incurring significant additional losses.

***Our operating results frequently vary significantly and respond to seasonal fluctuations in purchasing patterns.*** The operating results of each of our three divisions may be influenced by a number of seasonal factors in the different countries and markets in which we operate. These factors may cause our revenue and operating results to fluctuate on a quarterly basis. These fluctuations are a result of several factors, including, but not limited to:

- promotions and subsidies by mobile operators;
- the timing of local holidays and other events affecting consumer demand;
- the timing of the introduction of new products by our suppliers and competitors;
- purchasing patterns of customers in different markets;
- general economic conditions; and
- product availability and pricing.

Consumer electronics and retail sales in many geographic markets tend to experience increased volumes of sales at the end of the calendar year, largely because of gift-giving holidays. This and other seasonal factors have contributed to increases in our sales during the fourth quarter in certain markets. Conversely, we have experienced decreases in demand in the first quarter subsequent to the higher level of activity in the preceding fourth quarter. Our operating results may continue to fluctuate significantly in the future. If unanticipated events occur, including delays in securing adequate inventories of competitive products at times of peak sales or significant decreases in sales during these periods, our operating results could be harmed. In addition, as a result of seasonal factors, interim results may not be indicative of annual results.

***We make significant investments in the technology used in our business and rely on that technology to function effectively without interruptions.*** We have made significant investments in information systems technology and have focused on the application of this technology to provide customized distribution channel management and logistic services to wireless communications equipment manufacturers and network operators. Our ability to meet our customers' technical and performance requirements is highly dependent on the effective functioning of our information technology systems. Further, certain of our contractual arrangements to provide services contain performance measures and criteria that if not met could result in early termination of the agreement and claims for damages. In connection with the implementation of this technology we have incurred significant costs and have experienced significant business interruptions. Business interruptions can cause us to fall below acceptable performance levels pursuant to our customers' requirements and could result in the loss of the related business relationship or could result in incurring penalties for not meeting minimum performance levels. We may experience additional costs and periodic business interruptions related to our information systems as we implement new information systems in our various operations. Our sales and marketing efforts, a large part of which are telemarketing based, are highly dependent on computer and telephone equipment. We anticipate that we will need to continue to invest significant amounts to enhance our information systems in order to maintain our competitiveness and to develop new logistic services. Our property and business interruption insurance may not compensate us adequately, or at all, for losses that we may incur if we lose our equipment or systems either temporarily or permanently. In addition, a significant increase in the costs of additional technology or telephone services that are not recoverable through an increase in the price of our services could negatively impact our results of operations.

***Our future operating results will depend on our ability to continue to increase volumes and maintain margins.*** A large percentage of our total revenues is derived from sales of wireless devices, a part of our business that operates on a high-volume, low-margin basis. Our ability to generate these sales is based upon demand for wireless voice and data products and our having adequate supply of these products. The gross margins that we realize on sales of wireless devices could be reduced due to increased competition or a growing industry emphasis on cost containment. However, a sales mix shift to fee-based logistic services may place negative pressure on our revenue growth while having a positive impact on our gross margins. Therefore, our future profitability will depend on our ability to maintain our margins or to increase our sales to help offset future declines in margins. We may not be able to maintain existing margins for products or services offered by us or increase our sales. Even if our sales rates do increase, the gross margins that we receive from our sales may not be sufficient to make our future operations profitable.

***Our business growth strategy includes acquisitions.*** We have acquired businesses in the past and plan to continue to do so in the future based on our global business strategy. Prior or future acquisitions may not meet our expectations at the time of purchase, which could adversely affect our operations causing operating losses and subsequent write-downs due to asset impairments.

***Our business depends on the continued tendency of wireless equipment manufacturers and network operators to outsource aspects of their business to us in the future.*** We provide functions such as distribution channel management, inventory management, fulfillment, customized packaging, prepaid and e-commerce solutions, activation management and other outsourced services for many wireless manufacturers and network operators. Certain wireless equipment manufacturers and network operators have elected, and others may elect, to undertake these services internally. Additionally, our customer service levels, industry consolidation, competition, deregulation, technological changes or other developments could reduce the degree to which members of the global wireless industry rely on outsourced logistic services such as the services we provide. Any significant change in the market for our outsourced services could harm our business. Our outsourced services are generally provided under multi-year renewable contractual arrangements. Service periods under certain of our contractual arrangements are expiring or will expire in the near future. The failure to obtain renewals or otherwise maintain these agreements on terms, including price, consistent with our current terms could cause a reduction in our revenues and cash flows.

***We depend on third parties to manufacture products that we distribute and, accordingly, rely on their quality control procedures.*** Product manufacturers typically provide limited warranties directly to the end consumer or to us, which we

generally pass through to our customers. If a product we distribute for a manufacturer has quality or performance problems, our ability to provide products to our customers could be disrupted, causing a delay and/or reduction in our revenues.

***Rapid technological changes in the global wireless industry could render our services or the products we handle obsolete or less marketable.*** The technology relating to wireless voice and data equipment changes rapidly resulting in product obsolescence or short product life cycles. We are required to anticipate future technological changes in our industry and to continually identify, obtain and market new products in order to satisfy evolving industry and customer requirements. Competitors or manufacturers of wireless equipment may market products or services that have perceived or actual advantages over our service offerings or the products that we handle or render those products or services obsolete or less marketable. We have made and continue to make significant working capital investments in accordance with evolving industry and customer requirements including maintaining levels of inventories of currently popular products that we believe are necessary based on current market conditions. These concentrations of working capital increase our risk of loss due to product obsolescence.

***Natural disasters, epidemics, hostilities and terrorist acts could disrupt our operations.*** Although we have implemented policies and procedures designed to minimize the effects of natural disasters, epidemics, outbreak of hostilities or terrorist attacks in markets served by us or on our facilities, the actual effect of any such events on our operations cannot be determined at this time. However, we believe any of these events could disrupt our operations and negatively impact our business.

***The global wireless industry is intensely competitive and we may not be able to continue to compete successfully in this industry.*** We compete for sales of wireless voice and data equipment, and expect that we will continue to compete, with numerous well-established mobile operators, distributors and manufacturers, including our own suppliers. As a provider of logistic services, we also compete with other distributors, logistic services companies and electronic manufacturing services companies. Many of our competitors possess greater financial and other resources than we do and may market similar products or services directly to our customers. The global wireless industry has generally had low barriers to entry. As a result, additional competitors may choose to enter our industry in the future. The markets for wireless handsets and accessories are characterized by intense price competition and significant price erosion over the life of a product. Many of our competitors have the financial resources to withstand substantial price competition and to implement extensive advertising and promotional programs, both generally and in response to efforts by additional competitors to enter into new markets or introduce new products. Our ability to continue to compete successfully will depend largely on our ability to maintain our current industry relationships. We may not be successful in anticipating and responding to competitive factors affecting our industry, including new or changing outsourcing requirements, the entry of additional well-capitalized competitors, new products which may be introduced, changes in consumer preferences, demographic trends, international, national, regional and local economic conditions and competitors' discount pricing and promotion strategies. As wireless telecommunications markets mature and as we seek to enter into new markets and offer new products in the future, the competition that we face may change and grow more intense.

***We may not be able to grow at our historical or current rates or effectively manage future growth.*** Although we have experienced a revenue decline in 2009, in prior years we have experienced domestic and international growth. There can be no assurances as to our ability to achieve future growth. We will need to manage our expanding operations effectively, maintain or accelerate our growth as planned and integrate any new businesses which we may acquire into our operations successfully in order to continue our desired growth. If we are unable to do so, particularly in instances in which we have made significant capital investments, it could materially harm our operations. Our inability to absorb, through revenue growth, the increasing operating costs that we have incurred and continue to incur in connection with our activities and the execution of our strategy could cause our future earnings to decline. In addition, our growth prospects could be harmed by a decline in the global wireless industry generally or in one of our regional divisions, either of which could result in reduction or deferral of expenditures by prospective customers.

***Our business strategy includes entering into relationships and financing that may provide us with minimal returns or losses on our investments.*** We have entered into several relationships with wireless equipment manufacturers, mobile operators and other participants in our industry. We intend to continue to enter into similar relationships as opportunities arise. We may enter into distribution or logistic services agreements with these parties and may provide them with equity or debt financing. Our ability to achieve future profitability through these relationships will depend in part upon the economic viability, success and motivation of the entities we select as partners and the amount of time and resources that these partners devote to our alliances. We may ultimately receive only minimal or no business from these relationships and joint ventures, and any business we receive may not be significant or at the level we anticipated. The returns we receive from these relationships, if any, may not offset possible losses, our investments or the full amount of financings that we make upon

entering into these relationships. We may not achieve acceptable returns on our investments with these parties within an acceptable period or at all.

***Our implementation of European Centers of Excellence may not be successful.*** The success of our strategy to optimize our European operational and financial structure relies in large part on launching and effectively operating our Centers of Excellence (supply chain delivery centers). The creation and launch of these Centers of Excellence requires substantial capital expenditure and requires significant time and attention from our management and operational personnel. In the event we are unsuccessful at launching or operating these Centers of Excellence or in the event the Centers of Excellence fail to yield the anticipated operational efficiencies then our European strategy could be negatively impacted.

***We are subject to certain personnel related issues.*** Our success depends in large part on the abilities and continued service of our executive officers and other key employees. Although we have entered into employment agreements with several of our officers and employees, we may not be able to retain their services. We also have non-competition agreements with our executive officers and some of our existing key personnel. However, courts are sometimes reluctant to enforce non-competition agreements. The loss of executive officers or other key personnel could impede our ability to fully and timely implement our business plan and future growth strategy. In addition, in order to support our continued growth, we will be required to effectively recruit, develop and retain additional qualified management. Competition for such personnel is intense, and there can be no assurance that we will be able to successfully attract, assimilate or retain sufficiently qualified personnel. The failure to retain and attract necessary personnel could also delay or prevent us from executing our planned growth strategy.

We are subject to a number of regulatory and contractual restrictions governing our relations with certain of our employees, including national collective labor agreements for certain of our employees who are employed outside of the United States and individual employer labor agreements. These arrangements address a number of specific issues affecting our working conditions including hiring, work time, wages and benefits, and termination of employment. We could be required to make significant payments in order to comply with these requirements. The cost of complying with these requirements could be material.

Our business is labor-intensive, and we experience high personnel turnover. In addition, we are from time to time subject to shortages in the available labor force in certain geographical areas where we operate. A significant portion of our labor force is contracted through temporary agencies and a significant portion of our costs consists of wages to hourly workers. Growth in our business, together with seasonal increases in units, requires us to recruit and train personnel at an accelerated rate from time to time. We may not be able to continue to hire, train and retain a significant labor force of qualified individuals when needed, or at all. Our inability to do so, or an increase in hourly costs, employee benefit costs, employment taxes or commission rates, could cause our operating results to decline. In addition, if the turnover rate among our labor force increases further, we could be required to increase our recruiting and training efforts and costs, and our operating efficiencies and productivity could decrease.

***We rely to a great extent on trade secret and copyright laws and agreements with our key employees and other third parties to protect our proprietary rights.*** Our business success is substantially dependent upon our proprietary business methods and software applications relating to our information systems. We currently hold one patent relating to certain of our business methods.

With respect to other business methods and software, we rely on trade secret and copyright laws to protect our proprietary knowledge. We also regularly enter into non-disclosure agreements with our key employees and limit access to and distribution of our trade secrets and other proprietary information. These measures may not prove adequate to prevent misappropriation of our technology. Our competitors could also independently develop technologies that are substantially equivalent or superior to our technology, thereby eliminating one of our competitive advantages. We also have offices and conduct our operations in a wide variety of countries outside the United States. The laws of some other countries do not protect our proprietary rights to the same extent as the laws in the United States. In addition, although we believe that our business methods and proprietary software have been developed independently and do not infringe upon the rights of others, third parties might assert infringement claims against us in the future or our business methods and software may be found to infringe upon the proprietary rights of others.

***We depend on our computer and communications systems.*** As a multi-national corporation, we rely on our computer and communication network to operate efficiently. Any interruption of this service from power loss, telecommunications failure, weather, natural disasters or any similar event could negatively impact our business and operations. Additionally, hackers and

computer viruses have disrupted operations at many major companies. We may be vulnerable to similar acts of sabotage, which could materially harm our business and operations.

***The market price of our common stock may continue to be volatile.*** The market price of our common stock has fluctuated significantly from time to time. The trading price of our common stock could experience significant fluctuations in the future, including as a result of:

- actual or anticipated variations in our quarterly operating results or financial position;
- repurchases of common stock;
- commencement of litigation;
- the introduction of new services, products or technologies by us, our suppliers or our competitors;
- changes in other conditions or trends in the wireless voice and data industry;
- changes in governmental regulation and the enforcement of such regulation;
- changes in the assessment of our credit rating as determined by various credit rating agencies; and
- changes in securities analysts' estimates of our future performance or that of our competitors or our industry in general.

General market price declines or market volatility in the prices of stock for companies in the global wireless industry or in the distribution or logistic services sectors of the global wireless industry could also cause the market price of our common stock to decline.

***There are amounts of our securities issuable pursuant to our Amended and Restated 2004 Long-Term Incentive Plan that, if issued, could result in dilution to existing shareholders, reduce earnings and earnings per share in future periods and reduce the market price of our common stock.*** We have reserved a significant number of shares of common stock that may be issuable pursuant to our Amended and Restated 2004 Long-Term Incentive Plan. Grants made under this plan could result in dilution to existing shareholders.

## **Item 1B. Unresolved Staff Comments.**

None.

## **Item 2. Properties.**

We provide our supply chain solutions from our sales and operations centers located in various countries including Australia, Austria, Belgium, Colombia, Denmark, Finland, Germany, Guatemala, India, Italy, the Netherlands, New Zealand, Norway, Portugal, Singapore, Slovakia, South Africa, Spain, Sweden, Switzerland, United Arab Emirates, the United Kingdom, and the United States. All of these facilities are occupied pursuant to operating leases except for our primary North America distribution facility, which we purchased in the fourth quarter of 2009. The table below summarizes information about our sales and operations centers by operating division.

	<u>Number of Locations(1)</u>	<u>Aggregate Square Footage</u>
Americas.....	8	1,094,330
Asia-Pacific .....	9	152,560
Europe, Middle East and Africa .....	<u>15</u>	<u>474,956</u>
	32	<u>1,721,846</u>

(1) Refers to facilities operated by the Company that are greater than 1,000 square feet.

We believe that our existing facilities are adequate for our current requirements and that suitable additional space will be available as needed to accommodate future expansion of our operations.

### **Item 3. Legal Proceedings.**

The Company is from time to time involved in certain legal proceedings in the ordinary course of conducting its business. While the ultimate liability pursuant to these actions cannot currently be determined, the Company believes these legal proceedings will not have a material adverse effect on its financial position or results of operations. For more information on legal proceedings, see Note 11. Legal Proceedings, in the Notes to Consolidated Financial Statements.

### **Item 4. Submission of Matters to a Vote of Security Holders.**

During the fourth quarter of 2009, no matters were submitted to a vote of security holders.

## PART II

### Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities.

Our Common Stock is listed on the NASDAQ Global Select Market under the symbol CELL. The following tables set forth, for the periods indicated, the high and low sale prices for our Common Stock as reported by the NASDAQ Stock Market.

	<u>High</u>	<u>Low</u>
<b>2009</b>		
First Quarter	\$ 5.44	\$ 3.06
Second Quarter	6.83	4.14
Third Quarter	9.29	5.14
Fourth Quarter	9.03	6.91
<b>2008</b>		
First Quarter	\$ 15.32	\$ 8.02
Second Quarter	10.35	6.89
Third Quarter	8.75	6.21
Fourth Quarter	7.23	3.10

The Company has declared the following forward and reverse common stock splits. All of the forward stock splits were effected in the form of common stock dividends.

<u>Declaration Date</u>	<u>Dividend Payment or Stock Split Effective Date</u>	<u>Split Ratio</u>
August 31, 1995	September 20, 1995	5 for 4
November 12, 1996	December 17, 1996	3 for 2
January 28, 1997	March 3, 1997	5 for 4
October 22, 1997	November 21, 1997	2 for 1
June 26, 2002	June 27, 2002	1 for 7
July 29, 2003	August 25, 2003	3 for 2
September 15, 2003	October 15, 2003	3 for 2
August 12, 2005	September 15, 2005	3 for 2
December 5, 2005	December 30, 2005	3 for 2
May 9, 2006	May 31, 2006	6 for 5

At February 24, 2010, there were 324 shareholders of record.

We have not paid cash dividends on our Common Stock other than S corporation distributions made to shareholders during periods prior to the rescissions of S corporation elections. In addition, certain of our bank agreements require consent from the lender group prior to declaring or paying cash dividends, making capital distributions or other payments to shareholders. The Board of Directors intends to continue a policy of retaining earnings to finance the growth and development of the business and does not expect to declare or pay any cash dividends in the foreseeable future.

The information regarding equity compensation plans is incorporated by reference to Item 12 of this Form 10-K, which incorporates by reference the information set forth in the Company's Definitive Proxy Statement in connection with the 2010 Annual Meeting of Shareholders, which will be filed with the Securities and Exchange Commission no later than 120 days following the end of the 2009 fiscal year.

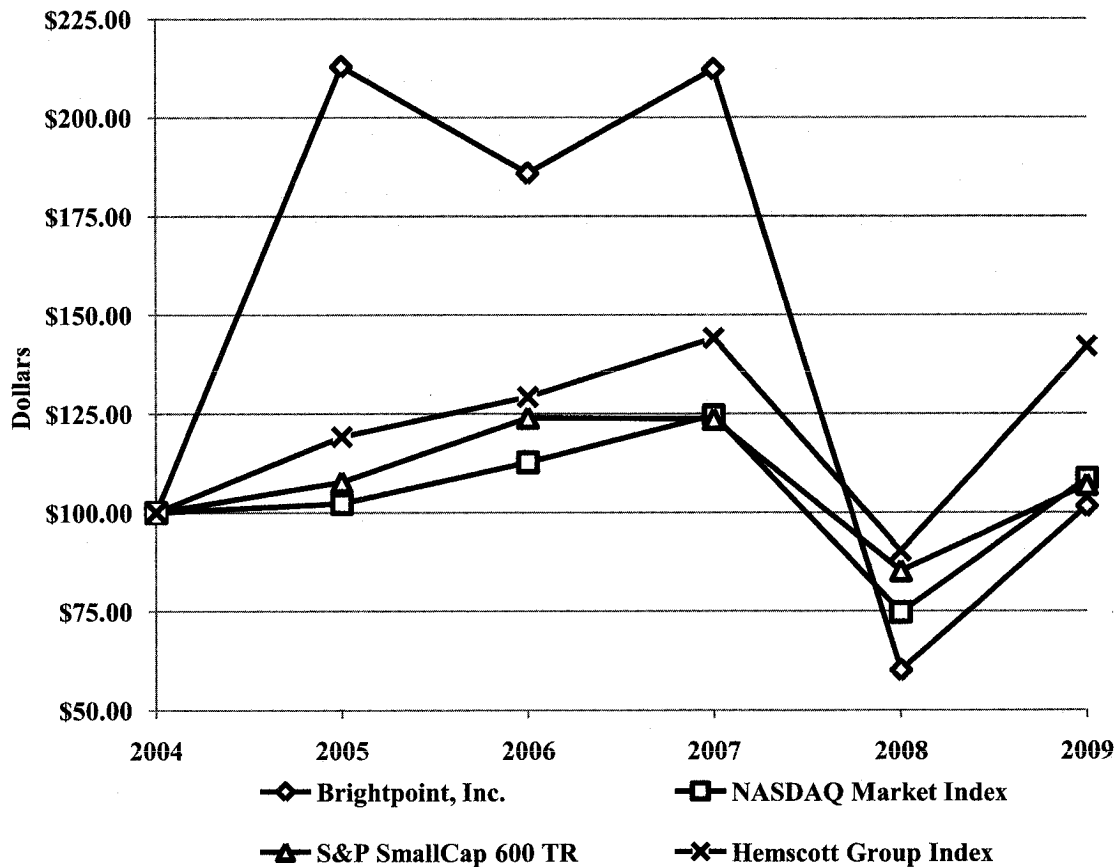

## Purchases of Equity Securities by the Issuer and Affiliated Purchasers

	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares purchased as Part of Publicly Announced Plans or Programs	Maximum Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs
October 1, 2009 – October 31, 2009	3,000,000	\$5.17	3,000,000	\$33,549,125
November 1, 2009 – November 30, 2009	-	-	-	\$33,549,125
December 1, 2009 – December 31, 2009	14,767	7.17	-	\$33,549,125
Total	3,014,767	\$5.18	3,000,000	\$33,549,125

On July 28, 2009 our Board of Directors approved the repurchase of up to \$50 million of our common shares under a share repurchase program with an expiration date of July 31, 2011. On October 1, 2009 we announced that we entered into a settlement agreement with NC Telecom Holding A/S ("NC Holding"), which provided for us to purchase 3 million Brightpoint shares from NC Holding for \$15.5 million. These shares were purchased under the previously announced Share Repurchase Program.

The following line graph compares, from January 1, 2005 through December 31, 2009, the cumulative total shareholder return on the Company's Common Stock with the cumulative total return on the stocks comprising the S&P SmallCap 600 Index, NASDAQ Market Value Index and the Hemscott Group Index (Electronics Wholesale). The comparison assumes \$100 was invested on January 1, 2005 in the Company's Common Stock and in each of the foregoing indices and assumes reinvestment of all cash dividends, if any, paid on such securities. The Company has not paid any cash dividends and, therefore, the cumulative total return calculation for the Company is based solely upon share price appreciation and not upon reinvestment of cash dividends. Historical share price is not necessarily indicative of future stock price performance.

**COMPARISON OF FIVE YEAR CUMULATIVE TOTAL RETURN AMONG BRIGHTPOINT, INC., NASDAQ MARKET INDEX, S&P SMALLCAP 600 INDEX AND HEMSCOTT GROUP INDEX**

(1) The consolidated statements of operations reflect the reclassification of the results of operations of our France, Poland, Philippines, Turkey and locally branded PC notebook business in Slovakia to discontinued operations for all periods presented in accordance with U.S. generally accepted accounting principles. Operating data includes certain items that were recorded in the years presented as follows: restructuring charges in 2009, 2008, 2007, 2006 and 2005; \$7.7 million non-cash gain on settlement of an indemnification claim in 2009; \$16.3 million of tax benefits in 2009; \$325.9 million goodwill impairment charge in 2008; \$18 million of charges related to valuation allowances on certain tax assets that are no longer expected to be utilized in 2008; and \$16.1 million of tax benefits in 2007. See Item 7, "Management's Discussion and Analysis of Financial Condition."

(2) Per share amounts for all periods have been adjusted to reflect the 6 for 5 Common Stock split (paid in the form of a stock dividend) effected on May 31, 2006, and the 3 for 2 common stock splits (paid in the form of stock dividends) effected on December 30, 2005 and September 15, 2005.

## Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.

### OVERVIEW AND RECENT DEVELOPMENTS

Brightpoint, Inc. is a global leader in providing supply chain solutions to the wireless industry. We provide customized logistic services including procurement, inventory management, software loading, kitting and customized packaging, fulfillment, credit services and receivables management, call center and activation services, website hosting, e-fulfillment solutions, reverse logistics, transportation management and other services within the global wireless industry. Our customers include mobile network operators, mobile virtual network operators (MVNOs), resellers, retailers and wireless equipment manufacturers. We provide value-added distribution channel management and other supply chain solutions for wireless products manufactured by companies such as Apple, High Tech Computer Corp., Kyocera, LG Electronics, Motorola, Nokia, Research in Motion, Samsung and Sony Ericsson. We have operations centers and/or sales offices in various countries including Australia, Austria, Belgium, Colombia, Denmark, Finland, Germany, Guatemala, El Salvador, India, Italy, the Netherlands, New Zealand, Norway, Portugal, Singapore, Slovakia, South Africa, Spain, Sweden, Switzerland, the United Arab Emirates, the United Kingdom, and the United States.

We measure our performance by focusing on certain key performance indicators such as the number of wireless devices handled, gross margin by service line, operating income, cash flow, cash conversion cycle, and liquidity. We also use return on invested capital (ROIC) and return on tangible capital (ROTC) to measure the effectiveness of the use of invested capital and tangible capital.

We manage our business based on two distinct service lines which include product distribution and logistic services. During 2009, wireless devices sold through distribution declined by 21%, and wireless devices handled through logistic services increased by 10%. Our distribution gross margin decreased by 0.2 percentage points to 4.2%, and our logistic services gross margin increased by 6.7 percentage points to 44.1%. We are focused on increasing the total volume of wireless devices handled as opposed to increasing volume in one specific service line as we believe that both service lines provide a reasonable return in relation to the capital invested and the risk assumed.

Significant developments and events in 2009 include:

*Spending and Debt Reduction Plan.* In February 2009, we announced a plan to reduce forecasted spending for the year by approximately \$40 to \$45 million and to reduce average daily debt by approximately \$100 million to \$150 million. This plan was comprised of \$12 to \$14 million of cost avoidance and \$28 to \$31 million of spending reductions. The spending reduction measures included, among other things, a substantial workforce reduction goal of at least 220 positions, or approximately 7% of the Company's workforce. The majority of the foregoing reductions in spending are reflected in the Company's 2009 results of operations as a reduction of selling, general, and administrative expenses (SG&A). We believe that we realized the previously stated forecasted spending reduction and cost avoidance targets in 2009. SG&A expenses were \$212.7 million for the year ended December 31, 2009 which is a decrease of \$41.5 million (16%) from 2008. Fluctuations in foreign currencies favorably impacted SG&A expenses for the year ended December 31, 2009 by approximately \$6.5 million compared to 2008.

*Workforce reduction.* In 2009 we exceeded our global workforce reduction goal of 220 positions. We eliminated approximately 280 positions as part of our global workforce reduction. We incurred restructuring charges of \$13.5 million for the year ended December 31, 2009 primarily related to this global workforce reduction.

*Revised debt reduction.* On May 7, 2009 we announced a revised debt reduction target of having less than \$100 million of average daily debt outstanding during the fourth quarter of 2009. Because of our unanticipated share repurchase program and facility purchase discussed below, we announced a further revised debt reduction target for the fourth quarter of 2009 back up to approximately \$150.0 million to \$175.0 million of average daily debt outstanding. Average daily debt was \$167.7 million for the fourth quarter of 2009, which represents a decrease of approximately \$165.3 million from the fourth quarter of 2008. Interest expense was \$9.2 million for the year ended December 31, 2009, which is a decrease of approximately \$10.2 million from 2008. The significant reduction in interest expense was largely due to the decrease in average daily debt outstanding as well as lower overall interest rates.

*Share Repurchase Program.* In July 2009, our Board of Directors approved the repurchase of up to \$50 million of Brightpoint common shares (the Share Repurchase Program). As of December 31, 2009, we had repurchased 3.2 million shares of Brightpoint common stock for an aggregate of approximately \$16.5 million and at an average purchase price of \$5.22 per share under the share repurchase program. The Share Repurchase Program will expire on July 31, 2011. In January

2010, our Board of Directors approved the increase of the Share Repurchase Program by \$30 million, allowing aggregate share repurchases of up to \$80 million. On January 15, 2010 we repurchased 9.2 million shares of Brightpoint stock from Partner Escrow Holding A/S, an affiliate of NC Telecom Holding A/S (f/k/a Dangaard Holding A/S) for \$6.20 per share as part of the program. Funds for most of the above repurchases were provided by borrowings from availability under our Global Line of Credit. After this repurchase, Partner Escrow Holding A/S does not own any Brightpoint stock. As a result of the above repurchases, we have repurchased a total of 12.4 million shares at a weighted average price of \$5.95 per share under the Share Repurchase Program. This represents approximately 14% of our total shares previously outstanding. On February 22, 2010, our Board of Directors approved the increase of our Share Repurchase Program by \$25 million, allowing aggregate share repurchases of up to \$105 million.

*Americas division headquarters purchase.* On October 16, 2009, we entered into an agreement to purchase our Americas division headquarters located in Plainfield, Indiana for \$31.0 million plus closing costs and commissions from KPJV 501 Airtech Parkway, LLC. We had been the tenant in an operating lease for the Property. There were ten years remaining on the initial lease term, with five year option renewal periods extending to 2044. The sum of the remaining minimum lease payments for the remaining ten years of the initial lease term was \$43.1 million. The purchase was financed using availability on our Global Credit Facility, and we are not currently pursuing any other financing agreement for the Property.

The consolidated statements of operations reflect the reclassification of the results of operations of our France, Poland and Turkey businesses to discontinued operations for all periods presented in accordance with U.S. generally accepted accounting principles. We exited our France business in the third quarter of 2009 and our Poland and Turkey businesses in the first quarter of 2009.

In the fourth quarter of 2009 we began reporting the revenue associated with certain prepaid airtime agreements on a net basis as defined by Accounting Standards Codification (ASC) Section 605-45 (formerly Emerging Issues Task Force Issue No. 99-19) based on a change in our prepaid airtime business model. The revenue under these agreements was previously reported on a gross basis within logistic services revenue and cost of revenue. Had the revenue from these agreements been reported on a net basis for all of 2009, total revenue would have been approximately \$3.1 billion and total gross margin would have been 8.8%. Logistic services revenue would have been \$296.8 million and logistic services gross margin would have been 53.1% for 2009. See footnote 12 in the Notes to the Consolidated Financial Statements for the impact of this change to the revenue reported for the first three quarters of 2009.

## 2009 RESULTS OF OPERATIONS

### Revenue and units handled by division and service line

	Year Ended December 31,

Total	64,306	100%	58,301	100%	10%
<b><i>Total wireless devices handled</i></b>					
Americas	58,983	71%	56,974	69%	4%
Asia-Pacific	9,106	11%	12,199	15%	(25%)
Europe, Middle East and Africa	15,391	18%	13,359	16%	15%
Total	83,480	100%	82,532	100%	1%

The following table presents the percentage changes in revenue for the year ended December 31, 2009 by service line compared to the prior year, including the impact to revenue from changes in wireless devices handled, average selling price, foreign currency, and acquisitions.

**2009 Percentage Change in Revenue vs. 2008**

Wireless devices handled	(1)	Average Selling Price	(2)	Non-handset based revenue	(3)	Foreign Currency	Total Percentage Change in Revenue
--------------------------	-----	-----------------------	-----	---------------------------	-----	------------------	------------------------------------

*Year ended December 31, 2009:*

Distribution	(17%)	(4%)	(5%)	(3%)	(29%)
Logistic services	3%	(3%)	(16%)	0%	(16%)
Total	(15%)	(4%)	(7%)	(2%)	(28%)

- (1) Handset-based volume represents the percentage change in revenue due to the change in quantity of wireless devices sold through our distribution business and the change in quantity of wireless devices handled through our logistic services business.
- (2) Average selling price represents the percentage change in revenue due to the change in the average selling price of wireless devices sold through our distribution business and the change in the average fee per wireless device handled through our logistic services business.
- (3) Non-handset distribution revenue represents the percentage change in revenue from accessories sold, freight and non-voice navigation devices sold through our distribution business. Non-handset based logistic services revenue represents the percentage change in revenue from the sale of prepaid airtime, freight billed, and fee based services other than fees earned from wireless devices handled. Changes in non-handset based revenue do not include changes in reported wireless devices.

The following table presents the percentage changes in revenue for our Americas division by service line for the year ended December 31, 2009 compared to the prior year, including the impact to revenue from changes in wireless devices handled, average selling price, and foreign currency.

**2009 Percentage Change in Revenue vs. 2008**

	<b>Wireless devices handled</b>	<b>Average Selling Price</b>	<b>Non-handset based revenue</b>	<b>Foreign Currency</b>	<b>Total Percentage Change in Revenue</b>
--	---------------------------------	------------------------------	----------------------------------	-------------------------	---

*Year ended December 31, 2009:*

Distribution	(37%)	2%	0%	(1%)	(36%)
Logistic services	3%	1%	0%	0%	4%
Total	(29%)	2%	0%	(1%)	(28%)

The decrease in wireless devices sold through distribution for the year ended December 31, 2009 was driven by weaker market conditions in North America and Latin America, the loss of key customers in North America due to industry consolidation and the loss of supplier relationships in Latin America. The increase in distribution average selling price for the year ended December 31, 2009 was driven by a shift in mix to smartphones compared to the prior year.

The increase in wireless devices handled through logistic services for the year ended December 31, 2009 was primarily driven by an expanded service offering and the growth, through increased market share and new market entry, of incumbent customers. Current economic conditions are increasing demand for prepaid and fixed fee wireless subscriptions, which are the primary product offering of certain Brightpoint logistics customers.

**Asia-Pacific**

(Amounts in 000s)

**Year Ended December 31,**

	<b>2009</b>	<b>% of Total</b>	<b>2008</b>	<b>% of Total</b>	<b>Change</b>
<b>REVENUE:</b>					
Distribution	\$ 834,906	96%	\$ 1,143,293	96%	(27%)

The following table presents the percentage changes in revenue for our Asia-Pacific division by service line for the year ended December 31, 2009 compared to the prior year, including the impact to revenue from changes in wireless devices handled, average selling price, and foreign currency.

**2009 Percentage Change in Revenue vs. 2008**

	<b>Wireless devices handled</b>	<b>Average Selling Price</b>	<b>Non-handset based revenue</b>	<b>Foreign Currency</b>	<b>Total Percentage Change in Revenue</b>
--	---------------------------------	------------------------------	----------------------------------	-------------------------	---

*Year ended December 31, 2009:*

Distribution	(31%)	6%	0%	(2%)	(27%)
Logistic services	22%	(24%)	(27%)	(1%)	(30%)
Total	(29%)	5%	(2%)	(1%)	(27%)

The decrease in wireless devices sold through distribution in our Asia-Pacific division for the year ended December 31, 2009 was driven by a decrease in market demand for lower priced handsets in Singapore as well as overall weaker market conditions. The increase in distribution average selling price for the year ended December 31, 2009 was driven by shift in mix to smartphones and better availability for these devices compared to the prior year.

The increase in wireless devices handled through logistic services for the year ended December 31, 2009 was primarily driven by an increase in wireless devices handled for our largest customer in each of Australia and New Zealand. Our customer in New Zealand was previously served under a distribution agreement. The decrease in average fulfillment fee per unit was primarily due to an unfavorable mix of services provided compared to the the prior year. The decrease in non-handset based logistic services revenue was primarily due to a decrease in repair services in India compared to the prior year.

Our results of operations for the Asia-Pacific region could be materially impacted in future periods as a result of a recently announced consolidation of network operators in the Asia-Pacific region. However, we are currently unable to quantify at this time what, if any, impact this consolidation would have on our future results of operations.

**Europe, Middle East and Africa**

(Amounts in 000s)

	Year Ended December 31,				Change
	2009	% of Total	2008	% of Total	
<b>REVENUE:</b>					
Distribution	\$ 1,544,509	92%	\$ 2,155,876	92%	(28%)
Logistic services	131,875	8%	192,235	8%	(31%)
Total	\$ 1,676,384	100%	\$ 2,348,111	100%	(29%)
<b>WIRELESS DEVICES HANDLED :</b>					
Distribution	9,766	63%	8,649	65%	13%
Logistic services	5,625	37%	4,710	35%	19%
Total	15,391	100%	13,359	100%	15%

The following table presents the percentage changes in revenue for the year ended December 31, 2009 by service line for our EMEA division compared to the prior year, including the impact to revenue from changes in wireless devices handled, average selling price, and foreign currency.

	2009 Percentage Change in Revenue vs. 2008				Total Percentage Change in Revenue
	Wireless devices handled	Average Selling Price	Non-handset based revenue	Foreign Currency	
<i>Year ended December 31, 2009:</i>					
Distribution	(4%)	(11%)	(9%)	(4%)	(28%)
Logistic services	(1%)	(2%)	(28%)	0%	(31%)
Total	(3%)	(10%)	(12%)	(4%)	(29%)

The decrease in distribution revenue attributable to the volume of wireless devices sold and average selling price for the year ended December 31, 2009 was primarily due to a decrease in the sale of higher end devices in Europe compared to the prior year. The decrease in sales of higher end devices in Europe was due to overall weaker market conditions compared to the prior year, the decision in 2009 of a major supplier of higher end devices to sell directly into certain markets in which we operate as well as lower operator subsidies of higher end devices compared to the prior year. The decrease in revenue attributable to wireless devices sold was partially offset by an increase in wireless devices sold through our Middle East business as a result of an expanded relationship with a major wireless device manufacturer. The decrease in non-handset based distribution revenue was primarily due to a decrease in sales of non-handset based navigation devices in Germany.

Non-handset based logistic services revenue for the year ended December 31, 2009 decreased due to lower revenue from the sale of prepaid airtime in Sweden. In the fourth quarter of 2009 we began reporting the revenue associated with these

agreements on a net basis as defined by Accounting Standards Codification (ASC) Section 605-45 (formerly Emerging Issues Task Force Issue No. 99-19) based on a change in our prepaid airtime business model. The revenue under these agreements was previously reported on a gross basis within logistic services revenue. Had the revenue from these agreements been reported on a gross basis for all of 2009, logistic services revenue for the EMEA region would have been \$153.4 million and non-handset based logistic services revenue for the EMEA region would have decreased by 17% from 2008.

### Gross Profit and Gross Margin

	Year Ended December 31,				Change
	2009	% of Total	2008	% of Total	
	(Amounts in 000s)				
Distribution	\$ 118,107	43%	\$ 174,971	52%	(32%)
Logistic services	157,712	57%	158,433	48%	0%
Gross profit	\$ 275,819	100%	\$ 333,404	100%	(17%)
Distribution	4.2%		4.4%		(0.2) points
Logistic services	44.1%		37.3%		6.8 points
Gross margin	8.7%		7.5%		1.2 points

The 1.2 percentage point increase in gross margin for the year ended December 31, 2009 was driven by a shift in mix to logistic services as well as a 6.8 percentage point increase in gross margin from our logistic services business, partially offset by a 0.2 percentage point decrease in gross margin from our distribution business.

The increase in gross margin from logistic services for the year ended December 31, 2009 was driven by an improved cost structure resulting from the impact of cost avoidance and spending reductions, operating efficiencies in our North America and EMEA operations and the change in reporting of revenue from certain prepaid airtime agreements discussed below.

The decrease in gross margin from distribution for the year ended December 31, 2009 was driven by non-recurring charges in our Spain and Netherlands operations during the second quarter of 2009 as well as lower volumes of handsets sold which resulted in lower vendor incentive rebates compared to the prior year.

In the fourth quarter of 2009 we began reporting the revenue associated with certain prepaid airtime agreements on a net basis as defined by Accounting Standards Codification (ASC) Section 605-45 (formerly Emerging Issues Task Force Issue No. 99-19) based on a change in the prepaid airtime business model that mitigates our general inventory risk. The revenue under these agreements was previously reported on a gross basis within logistic services revenue and cost of revenue. Had the revenue from these agreements been reported on a net basis for all of 2009, total gross margin would have been 8.8% and logistic services gross margin would have been 53.1%. Had revenue from these agreements been reported on a gross basis for the fourth quarter of 2009, total gross margin for 2009 would have been 8.6% and logistic services gross margin for 2009 would have been 41.6%.

### Selling General and Administrative (SG&A) Expenses

	Year Ended December 31,		
	2009	2008	Change
	(Amounts in 000s)		
SG&A expenses	\$ 212,741	\$ 254,239	(16%)
Percent of revenue	6.7%	5.7%	1.0 points

The decrease in SG&A expenses for the year ended December 31, 2009 compared to the prior year was primarily due to the impact of cost reduction initiatives in 2008 and 2009.

SG&A expense for the year ended December 31, 2009 includes \$2.7 million of incremental bad debt expense related to various issues in Europe including losses from uncollectible customer accounts and disputed accounts in excess of insured credit limits. Included in the \$2.7 million of incremental bad debt for the year ended December 31, 2009 is a \$0.7 million charge due to an isolated incident of transactional fraud in Italy. We will continue to pursue collection on these receivables, however we can give no assurances that we will be successful in our efforts. As of December 31, 2009, we had credit insurance on approximately 64% of our total outstanding receivables and over 80% of our outstanding receivables in the EMEA region. We consider most of the outstanding receivables that are not covered by credit insurance to be low risk to exposure for uncollectability.

SG&A expenses for the year ended December 31, 2009 included \$6.4 million of non-cash stock based compensation expense compared to \$6.6 million for the prior year. Fluctuations in foreign currencies favorably impacted SG&A expenses for the year ended December 31, 2009 by approximately \$6.5 million compared to 2008.

### Impairment of Long-Lived Assets

In the third quarter of 2009, we lost a significant product distribution business within our Latin America operation. As a result, we evaluated the long-lived assets of the Latin America operations for recoverability. We determined that the finite lived intangible asset acquired in conjunction with the acquisition of certain assets of CellStar was impaired. Accordingly, we recognized a \$1.5 million impairment charge, which represented the carrying value of the asset. The impairment will not result in any current or future cash expenditures.

### Amortization Expense

Amortization expense was \$15.9 million for the year ended December 31, 2009 compared to \$18.2 million for the prior year. The decrease in amortization expense year for the year ended December 31, 2009 was primarily due to fluctuations in foreign currencies.

### Restructuring Charge

Restructuring charge was \$13.5 million for the year ended December 31, 2009. The restructuring charge primarily consists of severance charges in connection with the global workforce reduction implemented as part of our previously announced 2009 Spending and Debt Reduction Plan.

### Operating Income (Loss) from Continuing Operations

	Year Ended December 31,				
	2009	% of Total	2008	% of Total	Change
	(Amounts in 000s)				
Americas	\$ 51,832	NM	\$ 38,669	NM	34%
Asia-Pacific	24,775	NM	24,992	NM	(1%)
Europe, Middle East and Africa	(7,897)	NM	(309,074)	NM	(97%)
Corporate	(36,407)	NM	(33,053)	NM	(10%)
Total	\$ 32,303	100%	\$ (278,466)	100%	(112%)

NM = Not meaningful

Operating Income as a Percent of Revenue by Division:

	<u>Year Ended December 31,</u>		<u>Change</u>
	<u>2009</u>	<u>2008</u>	
Americas	8.1%	4.3%	3.8 points
Asia-Pacific	2.9%	2.1%	0.8 points
Europe, Middle East and Africa	(0.5%)	(13.2)%	12.7 points
Total	1.0%	(6.3)%	7.3 points

Operating income in our Americas division increased \$13.2 million for the year ended December 31, 2009. The increase in operating income for the year ended December 31, 2009 was primarily due to the impact of cost reductions and cost avoidance initiatives in 2009 as well as operating efficiencies in our North America operations, partially offset by the \$1.5 million impairment charge. The increase in operating income as a percent of revenue of 3.8 percentage points for the year ended December 31, 2009 was driven by an increase in gross margin due to a shift in mix to logistic services as well as from an improved cost structure resulting from the impact of spending reductions and operating efficiencies in our North America operations.

Operating income in our Asia-Pacific division decreased \$0.2 million for the year ended December 31, 2009 primarily due to lower profitability from our business in India as well as an unfavorable mix of business in Australia compared to the prior year. The decrease in operating income due was partially offset by the impact of cost reduction and cost avoidance initiatives in 2009.

Operating loss in our EMEA division decreased \$301.2 million and 12.7 percentage points as a percent of revenue for the year ended December 31, 2009 primarily due to the impact of the \$325.9 million goodwill impairment charge recorded in the fourth quarter of 2008. Excluding the impact of this charge, operating income for the year ended December 31, 2008 was \$16.9 million. The decrease in operating income compared to the prior year was primarily due to lower average selling prices for wireless devices sold as described above, one-time charges in our Netherlands and Spain operations in the second quarter of 2009 and bad debt expense of \$2.7 million in our Europe operations primarily related to various issues in Europe including losses from uncollectible customer accounts and disputed accounts in excess of insured credit limits.

Operating loss from our corporate function increased \$3.4 million for the year ended December 31, 2009 primarily due to a \$2.1 million severance charge in connection with the departure of the Company's President of the Europe, Middle East and Africa region.

**Interest, net**

	<u>Year Ended December 31,</u>		<u>Change</u>
	<u>2009</u>	<u>2008</u>	
	(Amounts in 000s)		
Interest expense	\$ 9,963	\$ 24,032	(59%)
Interest income	(780)	(4,693)	(83%)
Interest, net	<u>\$ 9,183</u>	<u>\$ 19,339</u>	(53%)

Interest expense includes interest on outstanding debt, charges for accounts receivable factoring programs, fees paid for unused capacity on credit lines and amortization of deferred financing fees.

The decrease in interest expense for the year ended December 31, 2009 compared to the prior year was primarily due to lower average daily debt outstanding as well as lower interest rates on our Eurodollar denominated debt compared to the prior year.

**Gain on indemnification settlement**

On October 1, 2009 we entered into a settlement agreement with NC Holding, which provided the purchase of 3 million shares of Brightpoint common stock from NC Holding for \$15.5 million. These shares were purchased under the previously announced share repurchase program. Under the settlement agreement, our indemnification claims previously made against NC Holding pursuant to the Dangaard acquisition agreement were settled. We recorded a non-cash, non-taxable settlement

gain of approximately \$7.7 million as a result of the settlement agreement, which represented the difference between the price paid for the 3 million shares and the market value for the shares.

#### Other (Income) Expense

	<u>Year Ended December 31,</u>		
	<u>2009</u>	<u>2008</u>	<u>Change</u>
	(Amounts in 000s)		
Other income (expense)	\$ 545	\$ 3,478	(84%)

The decrease in other expense for the year ended December 31, 2009 was primarily due to a decrease in foreign currency translation losses compared to the prior year. Other expense for the year ended December 31, 2009 includes a \$0.5 million charge related to an isolated incident of transactional fraud in Italy.

Other expense for the year ended December 31, 2008 includes a \$0.9 million loss from the sale of shares of Tescos, Inc. common stock resulting from a privately negotiated transaction with Tescos, Inc. to sell those shares.

#### Income Tax Expense (Benefit)

	<u>Year Ended December 31,</u>		
	<u>2009</u>	<u>2008</u>	<u>Change</u>
	(Amounts in 000s)		
Income tax expense (benefit)	\$ (4,780)	\$ 25,108	(119%)
Effective tax rate	NM	NM	NM

NM = not meaningful

Income tax benefit was \$4.8 million for the year ended December 31, 2009 compared to income tax expense of \$25.1 million for the prior year.

In the fourth quarter of 2008, we recorded a valuation allowance on certain foreign tax credit carryforwards as we determined based on internal projections and industry forecasts that it was more likely than not that we would not be able to utilize these foreign tax credits prior to their expiration. While completing our U.S. tax return for the 2008 fiscal year, management determined that based on improved earnings in our U.S. operations as a result of spending reductions in our North America operations it was more likely than not that we would be able to utilize these foreign tax credits prior to their expiration. Income tax benefit for the year ended December 31, 2009 includes a \$10.9 million benefit for the reversal of the valuation allowance on these foreign tax credit carryforwards.

Income tax benefit for the year ended December 31, 2009 also includes a \$5.4 million benefit from the reversal of a reserve on an uncertain tax position in Germany that became more likely than not to be sustained, as well as \$2.0 million of discrete items such as income tax return true-ups and other changes in estimates of certain tax positions. The income tax benefit for the year ended December 31, 2009 is partially offset by \$7.2 million in charges related to valuation allowances on deferred tax assets resulting from previous net operating losses in certain countries that are no longer more likely than not to be utilized.

The effective tax rate excluding these items as well as the non-taxable \$7.7 million non-cash gain on the settlement of an indemnification claim with NC Telecom Holding A/S was 28.0% for 2009, which was lower than our anticipated income tax rate for 2009 primarily due to a favorable mix of income between taxing jurisdictions.

#### Discontinued Operations

The consolidated statements of operations reflect the reclassification of the results of operations of our France, Poland and Turkey businesses to discontinued operations for all periods presented in accordance with U.S. generally accepted accounting principles. We exited our Poland and Turkey operations in the first quarter of 2009 and our France operation in the third quarter of 2009. Details of discontinued operations for the year ended December 31, 2009 and 2008 are as follows (in thousands):

	<b>Year Ended December 31,</b>	
	<b>2009</b>	<b>2008</b>
Revenue	<u>\$ 26,239</u>	<u>\$ 229,303</u>
Loss from discontinued operations before income taxes	\$ (7,842)	\$ (16,597)
Income tax expense (benefit)	<u>135</u>	<u>(651)</u>
Loss from discontinued operations	\$ (7,977)	\$ (15,946)
Gain (loss) on disposal from discontinued operations (1)	<u>(522)</u>	<u>584</u>
Total discontinued operations, net of income taxes	<u>\$ (8,499)</u>	<u>\$ (15,362)</u>

(1) Gain on disposal of discontinued operations for the year ended December 31, 2008 includes an \$8.8 million write-down of inventory related to the locally branded PC notebook business in Slovakia.

We are evaluating alternatives for our operation in Italy. If we determine that we will exit this business, we will record appropriate charges related to the liquidation of this business at that time. Any charge related to the liquidation of this business will be classified within loss from discontinued operations in the period of abandonment.

## 2008 RESULTS OF OPERATIONS

### Revenue and units handled by division and service line

	Year Ended December 31,				
	2008	% of Total	2007	% of Total	Change

Europe, Middle East and Africa	13,359	16%	7,744	9%	73%
Total	82,532	100%	82,173	100%	0%

The following table presents the percentage changes in revenue for the year ended December 31, 2008 by service line compared to the prior year, including the impact to revenue from changes in wireless devices handled, average selling price, foreign currency, and acquisitions.

**2008 Percentage Change in Revenue vs. 2007**

	Wireless devices handled (1)	Average Selling Price (2)	Non-handset based revenue (3)	Foreign Currency	Subtotal (4)	Acquisitions	Total Percentage Change in Revenue
Distribution	(20%)	(6%)	1%	(1%)	(26%)	32%	6%
Logistic services	0%	(4%)	8%	3%	7%	13%	20%
Total	(18%)	(6%)	2%	(1%)	(23%)	30%	7%

- (1) Handset-based volume represents the percentage change in revenue due to the change in quantity of wireless devices sold through our distribution business and the change in quantity of wireless devices handled through our logistic services business.
- (2) Average selling price represents the percentage change in revenue due to the change in the average selling price of wireless devices sold through our distribution business and the change in the average fee per wireless device handled through our logistic services business.
- (3) Non-handset distribution revenue represents the percentage change in revenue from accessories sold, freight and non-voice navigation devices sold through our distribution business. Non-handset based logistic services revenue represents the percentage change in revenue from the sale of prepaid airtime, freight billed, and fee based services other than fees earned from wireless devices handled. Changes in non-handset based revenue does not include changes in reported wireless devices.
- (4) The subtotal represents the percent change in distribution revenue and logistic services revenue excluding the impact the acquisitions of the North America and Latin America operations of CellStar on March 31, 2007 and the acquisition of Dangaard Telecom on July 31, 2007.

Revenue and wireless devices handled by division:

<i>Americas</i> (Amounts in 000s)	Year Ended December 31,				
	2008	% of Total	2007	% of Total	Change
<b>REVENUE:</b>					
Distribution	\$ 705,229	79%	\$ 960,405	83%	(27%)
Logistic services	184,188	21%	195,028	17%	(6%)
Total	\$ 889,417	100%	\$ 1,155,433	100%	(23%)
<b>WIRELESS DEVICES HANDLED :</b>					
Distribution	5,397	9%	7,117	12%	(24%)
Logistic services	51,577	91%	52,492	88%	(2%)
Total	56,974	100%	59,609	100%	(4%)

The following table presents the percentage changes in revenue for our Americas division by service line for the year ended December 31, 2008 compared to the prior year, including the impact to revenue from changes in wireless devices handled, average selling price, foreign currency, and the CellStar acquisition.

**2008 Percentage Change in Revenue vs. 2007**

	<b>Wireless devices handled</b>	<b>Average Selling Price</b>	<b>Non-handset based revenue</b>	<b>Foreign Currency</b>	<b>Subtotal</b>	<b>CellStar Acquisition</b>	<b>Total</b>
Distribution	(42%)	5%	(2%)	0%	(39%)	12%	(27%)
Logistic services	(1%)	(3%)	(2%)	0%	(6%)	0%	(6%)
Total	(35%)	4%	(2%)	0%	(33%)	10%	(23%)

The decrease in distribution handset based volume for the year ended December 31, 2008 was primarily due to weaker market conditions in North America compared to the prior year as well as the loss of key customers including Dobson Communications, Suncom, and Rural Cellular Corporation as a result of industry consolidation.

The decrease in wireless devices handled through logistic services for the year ended December 31, 2008 was primarily due to lower volumes resulting from current economic conditions as well as by the sale of certain assets in Colombia, which resulted in approximately 3.6 million fewer wireless devices handled compared to the prior year. This decrease was partially offset by a full year of operations for the T-Mobile logistic services business which was launched during the second quarter of 2007. The decrease in average fulfillment fee per unit was primarily driven by the successful launch of the T-Mobile logistic services business.

Logistic services	47,924	4%	35,290	2%	36%
Total	<u>\$ 1,191,217</u>	<u>100%</u>	<u>\$ 1,530,415</u>	<u>100%</u>	<u>(22%)</u>
<b>WIRELESS DEVICES HANDLED :</b>					
Distribution	10,185	83%	13,064	88%	(22%)
Logistic services	2,014	17%	1,756	12%	15%
Total	<u>12,199</u>	<u>100%</u>	<u>14,820</u>	<u>100%</u>	<u>(18%)</u>

The following table presents the percentage changes in revenue for our Asia-Pacific division by service line for the year ended December 31, 2008 compared to the prior year, including the impact to revenue from changes in wireless devices handled, average selling price, and foreign currency.

**2008 Percentage Change in Revenue vs. 2007**

	<b>Wireless devices handled</b>	<b>Average Selling Price</b>	<b>Non-handset based revenue</b>	<b>Foreign Currency</b>	<b>Total</b>
Distribution	(21%)	(2%)	0%	(1%)	(24%)
Logistic services	4%	6%	26%	0%	36%
Total	(20%)	(2%)	1%	(1%)	(22%)

The decrease in wireless devices sold in our Asia-Pacific division for the year ended December 31, 2008 was driven by fewer devices sold in India due to lower availability of high demand products compared to prior year as well as fewer devices sold by our Singapore business. In the second half of the year, a strengthening of the US Dollar against other currencies allowed traders from other regions to sell wireless devices into the markets served by our Singapore business (primarily the Middle East) at prices lower than those available to us. The decrease in average selling price for the year ended December 31, 2008 was driven by our Singapore business as a result of a shift in mix to lower priced handsets due to a shift in market demand as well as lower availability of higher priced devices. This decrease in average selling price in Singapore was partially offset by an increase in average selling price in our Australia business due to a higher mix of converged devices sold compared to the prior year.

The increase in wireless devices handled through logistic services for the year ended December 31, 2008 was primarily due to an increase in wireless devices handled for our largest customer in Australia. The increase in average fulfillment fee per unit was due primarily to a favorable mix of wireless devices handled. The increase in non-handset based logistic services revenue was primarily due to an increase in revenue from repair services in India compared to prior year as well as an increase in revenue from non-handset based logistic services in our New Zealand operation.

**Europe, Middle East and Africa**

(Amounts in 000s)

	<b>Year Ended December 31,</b>				
	<b>2008</b>	<b>% of Total</b>	<b>2007</b>	<b>% of Total</b>	<b>Change</b>
<b>REVENUE:</b>					
Distribution	\$ 2,155,876	92%	\$ 1,316,169	91%	64%
Logistic services	192,235	8%	124,066	9%	55%
Total	<u>\$ 2,348,111</u>	<u>100%</u>	<u>\$ 1,440,235</u>	<u>100%</u>	<u>63%</u>
<b>WIRELESS DEVICES HANDLED :</b>					
Distribution	8,649	65%	5,079	66%	70%
Logistic services	4,710	35%	2,665	34%	77%
Total	<u>13,359</u>	<u>100%</u>	<u>7,744</u>	<u>100%</u>	<u>73%</u>

The following table presents the percentage changes in revenue for the year ended December 31, 2008 by service line for our EMEA division compared to the prior year, including the impact to revenue from changes in wireless devices handled, average selling price, foreign currency, and the Dangaard Telecom acquisition.

**2008 Percentage Change in Revenue vs. 2007**

	Wireless devices handled	Average Selling Price	Non-handset based revenue	Foreign Currency	Subtotal	Dangaard Telecom Acquisition	Total
Distribution	(2%)	(19%)	5%	(3%)	(19%)	83%	64%
Logistic services	0%	(8%)	20%	7%	19%	36%	55%
Total	(2%)	(18%)	6%	(2%)	(16%)	79%	63%

The increase in distribution revenue for the year ended December 31, 2008 was due to the July 2007 acquisition of Dangaard Telecom. Excluding the Dangaard Telecom operations, distribution revenue in our Europe division was estimated to have decreased 19% when assuming that revenue from legacy Brightpoint operations in overlapping countries (Germany, Norway, and Sweden) remained constant from the year ended December 31, 2007. The decrease in average selling price was due to a shift in demand to lower priced handsets in Europe compared to the prior year.

The increase in logistic services revenue for the year ended December 31, 2008 was primarily due to the acquisition of Dangaard Telecom. In order to conform to Brightpoint accounting policies and US GAAP, Dangaard Telecom changed its revenue recognition for arrangements where Dangaard Telecom serves as the "agent" in the transaction. The revenue from these arrangements is included in logistic services revenue. Excluding the Dangaard Telecom operations, logistic services revenue in our Europe division increased 19% due to an increase in revenue from the sale of prepaid airtime in Sweden as well as an increase in revenue from non-handset based logistic services agreements from the re-launch of our Middle East based business in which we resumed operations in August 2007.

**Gross Profit and Gross Margin**

	Year Ended December 31,				
	2008	% of Total	2007	% of Total	Change
	(Amounts in 000s)				
Distribution	\$ 174,971	52%	\$ 161,217	62%	9%
Logistic services	158,433	48%	100,657	38%	57%
Gross profit	<u>\$ 333,404</u>	<u>100%</u>	<u>\$ 261,874</u>	<u>100%</u>	27%
Distribution	4.4%		4.3%		0.1 points
Logistic services	37.3%		28.4%		8.9 points
Gross margin	7.5%		6.3%		1.2 points

The 1.2 percentage point increase in gross margin for the year ended December 31, 2008 was driven by both a 0.1 percentage point increase in gross margin from our distribution business and an 8.9 percentage point increase in gross margin from our logistic services business. The increases in gross profit and gross margin from logistic services were driven by incremental logistic services gross profit and gross margin from the Dangaard Telecom operations as well the impact of conforming Dangaard Telecom to Brightpoint accounting policies. In addition, gross margin from logistic services was positively impacted by an improved cost structure resulting from the impact of spending reductions in our North America operations. The increases in distribution gross profit and gross margin were primarily driven by a shift in mix toward higher margin distribution business in Europe resulting from the acquisition of Dangaard Telecom.

## Selling General and Administrative (SG&A) Expenses

	Year Ended December 31,		Change
	2008	2007	
	(Amounts in 000s)		
SG&A expenses	\$ 254,239	\$ 179,484	42%
Percent of revenue	5.7%	4.3%	1.4 points

The increase in SG&A expenses for the year ended December 31, 2008 compared to the prior year was primarily driven by the impact of the Dangaard Telecom and CellStar acquisitions. SG&A expenses included \$6.6 million and \$6.1 million of non-cash stock based compensation expense for the year ended December 31, 2008 and 2007, respectively.

## Amortization Expense

Amortization expense was \$18.2 million for the year ended December 31, 2008, compared to \$10.5 million for the prior year. The increase in amortization expense relates to finite-lived intangible assets acquired in connection with the CellStar and Dangaard Telecom transactions in 2007. We allocated the purchase price of the Dangaard Telecom and CellStar acquisitions based on the fair value of assets acquired and liabilities assumed. The assets acquired in connection with the Dangaard Telecom transaction included \$123.1 million of finite-lived intangible assets assigned to the customer relationships as of July 31, 2007. The acquired finite-lived intangible assets have a useful life of approximately fifteen years and are being amortized over the period that the assets are expected to contribute to our future cash flows. The assets are being amortized on an accelerated method based on the projected cash flows used for valuation purposes. We believe that these cash flows are most reflective of the pattern in which the economic benefit of the finite-lived intangible assets will be consumed.

## Goodwill Impairment Charge

Goodwill is subject to annual reviews for impairment based on a two-step test in accordance with Statement of Financial Accounting Standards No. 142, "Goodwill and Other Intangible Assets." We perform our annual goodwill impairment test in the fourth quarter of each year.

During the fourth quarter of 2008, there were severe disruptions in the credit markets and reductions in global economic activity which had significant adverse impacts on stock markets and on the outlook for the wireless industry, both of which contributed to a significant decline in Brightpoint's stock price and corresponding market capitalization. The result of our annual goodwill impairment test was that the carrying amount of the net assets allocated to the EMEA reporting unit exceeded the fair market value. The entire amount of goodwill allocated to that reporting unit was impaired, which resulted in an impairment charge of \$325.9 million. The impairment charge was approved by our Board of Directors in February 2009. The goodwill allocated to the EMEA reporting unit is primarily related to the acquisition of Dangaard Telecom in July 2007. The impairment charge resulted from factors impacted by current market conditions including: 1) lower market valuation multiples for similar assets; 2) higher discount rates resulting from turmoil in the credit and equity markets; and 3) current cash flow forecasts for the EMEA markets in which we operate. The impairment will not result in any current or future cash expenditures.

## Restructuring Charge

Restructuring charge was \$13.4 million for year ended December 31, 2008, compared to \$8.7 million in the prior year. The restructuring charge for 2008 consists of \$1.8 million in charges in connection with the previously announced sale of certain assets in Colombia, a \$1.1 million charge to write-off IT projects that were abandoned after the acquisition of Dangaard Telecom, a \$3.6 million charge in connection with consolidating the Brightpoint and Dangaard operations in Germany during the first quarter of 2008, a \$3.3 million charge related to the termination of the operating lease for our European headquarters in the fourth quarter of 2008, \$1.7 million of charges associated with the closure of our Reno, Nevada distribution facility in the fourth quarter of 2008, \$0.6 million of severance costs for other employees of our North America operations in the fourth quarter of 2008, and \$1.3 million of other charges in connection with the previously announced realignment of our European operations.

## Operating Income (Loss) from Continuing Operations

	Year Ended December 31,				
	2008	% of Total	2007	% of Total	Change
(Amounts in 000s)					
Americas	\$ 38,669	NM	\$ 43,709	69%	(12%)
Asia-Pacific	24,992	NM	33,114	52%	(25%)
Europe Middle East and Africa	(309,074)	NM	15,126	24%	(2143%)
Corporate	(33,053)	NM	(28,748)	(45%)	(15%)
Total	\$ (278,466)	100%	\$ 63,201	100%	(541%)

NM = Not meaningful

Operating Income (Loss) as a Percent of Revenue by Division:

	Year Ended December 31,		
	2008	2007	Change
Americas	4.3%	3.8%	0.5 points
Asia-Pacific	2.1%	2.2%	(0.1) points
Europe Middle East and Africa	(13.2%)	1.1%	(14.3) points
Total	(6.3%)	1.5%	(7.8) points

Operating income in our Americas division decreased \$5.0 million primarily due weaker market conditions in North America compared to the prior year as well as the decrease in revenue resulting from the loss of key customers including Dobson Communications, Suncom, and Rural Cellular Corporation as a result of industry consolidation. Operating income as a percent of revenue increased 0.5 percentage points as a result of an increase in gross margin from an improved cost structure resulting from the impact of spending reductions in our North America operations, partially offset by a \$1.8 million restructuring charge in connection with the sale of certain assets in Colombia and a \$1.7 million restructuring charge associated with the closure of our Reno, Nevada distribution facility in the fourth quarter of 2008.

Operating income in our Asia-Pacific division decreased \$8.1 million for the year ended December 31, 2008 primarily due to lower profitability from devices sold to customers served by our Singapore business. This decrease was partially offset by higher gross profit from our logistic services business in Australia compared to the prior year.

Operating income in our EMEA division decreased \$324.2 million and 14.3 percentage points as a percent of revenue for the year ended December 31, 2008 primarily due to the \$325.9 million goodwill impairment charge for the goodwill allocated to the EMEA reporting unit. Excluding the impact of the goodwill impairment charge, operating income for the year ended December 31, 2008 was relatively flat compared to the prior year despite the acquisition of Dangaard Telecom (which was only included in our operating results for the last five months of 2007) primarily due to lower than expected gross profit resulting from impact of selling through aged product at lower margins in an effort to improve overall aging of our inventory as well as overall weakness in the markets in which we operate. Excluding the impact of the goodwill impairment charge, operating income as a percent of revenue decreased 0.4 percentage points for the year ended December 31, 2008 primarily due to an increase in SG&A expenses for the year ended December 31, 2008 associated with the acquisition of Dangaard Telecom.

The increased operating loss from our corporate function for the year ended December 31, 2008 was due to an increase in professional fees and travel primarily due to our expanded global operations.

## Interest

The components of interest, net are as follows:

	<u>Year Ended December 31,</u>		
	<u>2008</u>	<u>2007</u>	<u>Change</u>
	(Amounts in 000s)		
Interest expense	\$ 24,032	\$ 17,793	35%
Interest income	(4,693)	(2,052)	129%
Interest, net	<u>\$ 19,339</u>	<u>\$ 15,741</u>	23%

Interest expense includes interest on outstanding debt, charges for accounts receivable factoring programs, fees paid for unused capacity on credit lines and amortization of deferred financing fees.

The increase in interest expense for the year ended December 31, 2008 compared to the prior year was primarily due to the debt assumed in the Dangaard Telecom acquisition. We made \$279.5 million of repayments of borrowings during the year ended December 31, 2008.

The increase in interest income for the year ended December 31, 2008 compared to the prior year is due to an inventory financing arrangement with certain customers in our Asia-Pacific division. The terms of these agreements have changed, and as a result, we do not expect to have interest income from them in the future.

## Other Expense

	<u>Year Ended December 31,</u>		
	<u>2008</u>	<u>2007</u>	<u>Change</u>
	(Amounts in 000s)		
Other income (expense)	\$ 3,478	\$ 848	310%

The increase in other expense was primarily due to foreign currency transaction losses. Other expense for the year ended December 31, 2008 also includes a \$0.9 million loss from the sale of shares of Tessco Technologies common stock resulting from a privately negotiated transaction with Tessco Technologies to sell these shares.

## Income Tax Expense

	<u>Year Ended December 31,</u>	
	<u>2008</u>	<u>2007</u>
	(Amounts in 000s)	
Income tax expense	\$ 25,108	\$ 248
Effective tax rate	NM	NM

NM=Not meaningful

Income tax expense for the year ended December 31, 2008 includes \$18 million of charges related to valuation allowances on certain tax assets that are no longer expected to be utilized. Excluding these charges and the goodwill impairment charge, which is not deductible for tax purposes, our effective tax rate was 29% for the year ended December 31, 2008, primarily due to a shift in mix of income between jurisdictions.

## Discontinued Operations

The consolidated statements of operations reflect the reclassification of the results of operations of our locally branded PC notebook business in Slovakia and our operations in France, Poland and Turkey to discontinued operations for all periods

presented in accordance with U.S. generally accepted accounting principles. We exited our locally branded PC notebook business in the third quarter of 2008. We exited our Poland and Turkey operations in the first quarter of 2009 and our France operation in the third quarter of 2009. There were no material impairments of tangible or intangible assets related to these discontinued operations.

Details of discontinued operations are as follows (in thousands):

	<b>Year Ended December 31,</b>	
	<b>2008</b>	<b>2007</b>
Revenue	<u>\$ 229,303</u>	<u>\$ 174,193</u>
Loss from discontinued operations before income taxes	\$ (16,597)	\$ 851
Income tax expense (benefit)	<u>(651)</u>	<u>218</u>
Loss from discontinued operations	\$ (15,946)	\$ 633
Gain (loss) on disposal from discontinued operations (1)	<u>584</u>	<u>742</u>
Total discontinued operations, net of income taxes	<u>\$ (15,362)</u>	<u>\$ 1,375</u>

- (1) Loss on disposal of discontinued operations for the year ended December 31, 2008 includes \$8.8 million write-down of inventory related to the locally branded PC notebook business in Slovakia.

## LIQUIDITY AND CAPITAL RESOURCES

### Consolidated Statement of Cash Flows

We use the indirect method of preparing and presenting our statements of cash flows. In our opinion, it is more practical than the direct method and provides the reader with a good perspective and analysis of our cash flows.

	<b>Year Ended December 31,</b>		
	<b>2009</b>	<b>2008</b>	<b>Change</b>
	(Amounts in 000s)		
Net cash provided by (used in):			
Operating activities	\$ 163,814	\$ 272,806	\$ (108,992)
Investing activities	(50,362)	(25,511)	(24,851)
Financing activities	(97,975)	(281,013)	183,038
Effect of exchange rate changes on cash and cash equivalents	8,347	(11,216)	19,563
Net increase (decrease) in cash and cash equivalents	<u>\$ 23,824</u>	<u>\$ (44,934)</u>	<u>\$ 68,758</u>

Net cash provided by operating activities was \$163.8 million in 2009, a decrease of \$109.0 million compared to prior year primarily due to \$125.6 million less cash provided by working capital in 2009 compared to the prior year. Cash provided by working capital was \$229.6 million for year ended December 31, 2008. A large customer within our EMEA division experienced IT difficulties at the end of December 2007, resulting in \$62.2 million of anticipated payments being delayed into the first quarter of 2008. Had this payment been received in 2007, cash provided by working capital in 2008 would have been \$167.4 million.

The decrease in cash provided by working capital compared to the prior year was partially offset by \$16.6 million more cash used in operating activities before changes in operating assets and liabilities in 2009 compared to the prior year.

Net cash used for investing activities was \$50.4 million for 2009, an increase of \$24.9 million compared to prior year primarily due to the purchase of our primary North American distribution facility for \$31.0 million plus closing costs and

commissions in October 2009. Excluding the impact of the purchase, net cash used for investing activities for the year ended December 31, 2009 was flat compared to the prior year.

Net cash used in financing activities was \$98.0 million, a decrease of \$183.0 million compared to prior year primarily due to \$199.8 million less cash used for repayments of long-term debt compared the prior year. The decrease in cash used for repayments of long-term debt is partially offset by \$15.7 million more cash used for repurchases of treasury stock during the year, primarily as part of our Share Repurchase Program.

### Cash Conversion Cycle

	<b>Year Ended December 31,</b>	
	<b>2009</b>	<b>2008</b>
Days sales outstanding in accounts receivable	29	27
Days inventory on-hand	24	24
Days payable outstanding	(46)	(36)
Cash Conversion Cycle Days	<u>7</u>	<u>15</u>

A key source of our liquidity is our ability to invest in inventory, sell the inventory to our customers, collect cash from our customers and pay our suppliers. We refer to this as the cash conversion cycle. The cash conversion cycle is measured by the number of days it takes to effect the cycle of investing in inventory, selling the inventory, paying suppliers and collecting cash from customers. The components in the cash conversion cycle are days sales outstanding in accounts receivable, days inventory on hand, and days payables outstanding. The cash conversion cycle, as we measure it, is the netting of days sales outstanding in accounts receivable and days inventory on hand with the days of payable outstanding. Circumstances when the cash conversion cycle decreases generally generate cash for the Company. Conversely, circumstances when the cash conversion cycle increases generally consume cash in the form of additional investment in working capital.

During 2009, the cash conversion cycle decreased to 7 days from 15 days in 2008. Days payable outstanding for the year ended December 31, 2009 increased 10 days from the prior year. The increase in days payable outstanding was primarily due to the timing of payments due to certain vendors compared to the prior year.

The detail calculation of the components of the cash conversion cycle is as follows:

- (A) Days sales outstanding in accounts receivable = Ending accounts receivable for continuing operations divided by average daily revenue (inclusive of value-added taxes for foreign operations) for the period.
- (B) Days inventory on-hand = Ending inventory for continuing operations divided by average daily cost of revenue (excluding indirect product and service costs) for the period.
- (C) Days payables outstanding = Ending accounts payable for continuing operations divided by average daily cost of revenue (excluding indirect product and service costs) for the period.

(Dollar amounts in thousands)

	<b>Year Ended December 31,</b>	
	<b>2009</b>	<b>2008</b>
<b><u>Days sales outstanding in accounts receivable:</u></b>		
Continuing operations revenue	\$ 3,185,283	\$ 4,428,745
Value-added taxes invoiced for continuing operations	183,406	260,514
Total continuing operations revenue and value-added taxes	\$ 3,368,689	\$ 4,689,259
Daily sales including value-added taxes	9,357	13,026
Continuing operations ending accounts receivable	\$ 380,586	\$ 467,678
Agency accounts receivable (1)	(112,158)	(114,440)
Accounts receivable excluding agency receivables	\$ 268,428	\$ 353,238
Days sales outstanding in accounts receivable(A)	29	27
<b><u>Days inventory on-hand:</u></b>		
Continuing operations cost of revenue	\$ 2,909,464	\$ 4,095,341
Indirect product and service costs	(167,031)	(196,172)
Total continuing operations cost of products sold	\$ 2,742,433	\$ 3,899,169
Daily cost of products sold	7,618	10,831
Continuing operations ending inventory	\$ 212,911	\$ 283,275
Agency inventory (1)	(27,090)	(26,726)
Inventory excluding agency inventory	\$ 185,821	\$ 256,549
Days inventory on-hand(B)	24	24
<b><u>Days payables outstanding in accounts payable:</u></b>		
Daily cost of products sold	\$ 7,618	\$ 10,831
Continuing operations ending accounts payable	\$ 485,579	\$ 515,376
Agency accounts payable (1)	(137,010)	(117,688)
Accounts payable excluding agency payables	\$ 348,569	\$ 397,688
Days payable outstanding(C)	46	36
Cash conversion cycle days (A+B-C)	7	15

- (1) Agency accounts receivable, inventory and accounts payable represent amounts on our balance sheet that include the full value of the product for which the revenue associated with these transactions is recorded under the net method (excluding the value of the product sold).

### **Borrowings**

The table below summarizes borrowing capacity that was available to us as of December 31, 2009 (in thousands):

	<b>Gross Availability</b>	<b>Outstanding</b>	<b>Letters of Credit &amp; Guarantees</b>	<b>Net Availability</b>
Global Term Loans	\$ 97,017	\$ 97,017	\$ --	\$ --
Global Credit Facility	300,000	--	797	299,203
Other	46,500	--	38	46,462
Total	\$ 443,517	\$ 97,017	\$ 835	\$345,665

## Liquidity analysis

We measure liquidity as the total of unrestricted cash and unused borrowing availability, and we use this measurement as an indicator of how much access to cash we have to either grow the business through investment in new markets, acquisitions, or through expansion of existing service or product lines or to contend with adversity such as unforeseen operating losses potentially caused by reduced demand for our products and services, material uncollectible accounts receivable, or material inventory write-downs, as examples. The table below shows our liquidity calculation.

	December 31,		
	2009	2008	% Change
	(Amounts in 000s)		
Unrestricted cash	\$ 80,536	\$ 56,632	42%
Unused borrowing availability	345,665	344,609	0%
Liquidity	\$ 426,201	\$ 401,241	6%

At December 31, 2009 we were in compliance with the covenants in each of our credit agreements. Our Global Credit Facility contains two financial covenants that are sensitive to significant fluctuations in earnings: a maximum leverage ratio and a minimum interest coverage ratio. The leverage ratio is calculated at the end of each fiscal quarter, and is calculated as total debt (including guarantees and letters of credit) divided by trailing twelve month bank adjusted earnings before interest, taxes, depreciation and amortization (bank adjusted EBITDA). The interest coverage ratio is also calculated as of the end of each fiscal quarter, and is calculated as trailing twelve month bank adjusted EBITDA divided by trailing twelve month net cash interest expense.

Ratio	Global Credit Facility covenant	Company ratio at December 31, 2009
Maximum leverage ratio	Not to exceed 3.0:1.0	1.0:1.0
Minimum interest coverage ratio	Not below 4.0:1.0	12.4:1.0

We believe that we will continue to be in compliance with our debt covenants for the next 12 months.

Capital expenditures were \$49.2 million, \$21.6 million and \$20.2 million for 2009, 2008 and 2007. Capital expenditures for 2009 include the purchase of our primary North American distribution facility for \$31.0 million plus closing costs and commissions in October 2009. The remaining capital expenditures for 2009 and for 2008 and 2007 were primarily related to investments in our information technology infrastructure and software upgrades as well as equipment and leasehold improvements for new facilities.

Expenditures for capital resources historically have been composed of information systems, leasehold improvements and warehouse equipment. We expect this pattern to continue in future periods. We expect our level of capital expenditures to be affected by our geographic expansion activity, the anticipated implementation of a new transportation and warehouse management system throughout Europe and the implementation of our Centers of Excellence and related consolidation of existing facilities in EMEA.

We believe that existing capital resources and cash flows provided by future operations will enable us to maintain our current level of operations and our planned operations including capital expenditures for the foreseeable future. We believe that our existing balances, our anticipated cash flows from operations and our unused borrowing availability will be sufficient to meet our working capital and operating resource expenditure requirements for the next twelve months.

## OFF-BALANCE SHEET ARRANGEMENTS

We have an agreement with an unrelated third-party for the factoring of specific accounts receivable in Spain in order to reduce the amount of working capital required to fund such receivables. Our Credit Agreement permits the factoring of up to \$250 million of receivables in our operations outside of the U.S. The factoring of accounts receivable under this agreement is accounted for as a sale in accordance with ASC 860, *Transfers and Servicing*, and accordingly, is accounted for as an off-balance sheet arrangement. Proceeds on the transfer reflect the face value of the account less a discount. The discount is recorded as a charge in "Interest, net" in the Consolidated Statement of Operations in the period of the sale.

Net funds received reduced accounts receivable outstanding while increasing cash. We are the collection agent on behalf of the third parties for these arrangements and have no significant retained interests or servicing liabilities related to the accounts receivable that we have sold.

At December 31, 2009, we had sold \$5.0 million of accounts receivable under this factoring arrangement in Spain, which represents the face amount of total outstanding receivables at that date. Fees paid under these programs were \$0.8 million for the year ended December 31, 2009.

As previously disclosed in our Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2009, the factoring agreement for our Germany operation terminated in July 2009. At December 31, 2008 we had sold \$50.6 million of accounts receivable under this agreement. We successfully renegotiated shorter payment terms with the customer for which the accounts receivable were previously factored under this agreement.

## CONTRACTUAL OBLIGATIONS AND COMMITMENTS

Our disclosures regarding cash requirements of contractual obligations and commercial commitments are located in various parts of our regulatory filings. Information in the following table provides a summary of our contractual obligations and commercial commitments as of December 31, 2009.

	Payments due by Period				
	Total	Less than 1 Year	1 to 3 Years	3 to 5 Years	Thereafter
	(Amounts in 000s)				
Operating leases	\$ 44,201	\$12,180	\$16,821	\$8,875	6,325
Total borrowings	97,017	--	97,017	--	--
Interest on third party debt and lines of credit (1)	7,271	3,794	3,477	--	--
Purchase obligations(2)	--	--	--	--	--
Pension obligation	4,168	--	246	245	3,677
Letters of credit	3,610	3,610	--	--	--
<b>Total</b>	<b>\$156,267</b>	<b>\$ 19,584</b>	<b>\$117,561</b>	<b>\$ 9,120</b>	<b>\$ 10,002</b>

- (1) Interest on third party debt is calculated based on the interest rate as of December 31, 2009 and repayments of outstanding debt in accordance with our credit agreement. Interest does not include the effects of any prepayments of borrowings permitted under the credit agreement. Prepayments could significantly decrease interest obligations in future years.
- (2) Purchase obligations exclude agreements that are cancelable without penalty.

In addition to the amounts shown in the table above, \$1.9 million of unrecognized tax benefits have been recorded as liabilities in accordance with FIN 48, and we are uncertain as to if or when such amounts may be settled.

## CRITICAL ACCOUNTING ESTIMATES

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and related disclosures at the date of the financial statements and reported amounts of revenue and expenses during the reporting period. Some of those judgments can be subjective and complex. Consequently, actual results could differ from those estimates. We consider an accounting estimate to be critical if:

- The accounting estimate requires us to make assumptions about matters that were highly uncertain at the time the estimate was made; and
- Changes in the estimate are reasonably likely to occur from period to period as new information becomes available, or use of different estimates that we reasonably could have used in the current period, would have a material impact on our financial condition or results of operations.

We continually evaluate the accounting policies and estimates we use to prepare the consolidated financial statements. Our estimates are based on historical experience, information from third-party professionals and various other assumptions we

believe to be reasonable. Management has discussed the development and selection of these critical accounting estimates with the Audit Committee and the Audit Committee has reviewed the foregoing disclosure. In addition, there are other items within our financial statements that require estimation, but are not deemed critical based on the criteria above. Changes in estimates used in these and other items could have a material impact on our financial statements in any one period.

### **Deferred Taxes and Effective Tax Rates**

We estimate the effective tax rates and associated liabilities or assets for each legal entity in accordance with ASC 740. We use tax-planning to minimize or defer tax liabilities to future periods. In recording effective tax rates and related liabilities and assets, we rely upon estimates, which are based upon our interpretation of United States and local tax laws as they apply to our legal entities and our overall tax structure. Audits by local tax jurisdictions, including the United States Government, could yield different interpretations from our own and cause the Company to owe more or less taxes than originally recorded. We utilize internal and external skilled resources in the various tax jurisdictions to evaluate our position and to assist in our calculation of tax expense and related liabilities.

For interim periods, we accrue our tax provision at the effective tax rate that we expect for the full year. As the actual results from our various businesses vary from our estimates earlier in the year, we adjust the succeeding interim period's effective tax rates to reflect our best estimate for the year-to-date results and for the full year. As part of the effective tax rate, if we determine that a deferred tax asset arising from temporary differences is not likely to be utilized, we will establish a valuation allowance against that asset to record it at the expected realizable value. At December 31, 2009, total deferred tax assets were \$53.1 million, net of \$22.5 million of valuation allowances.

### **Goodwill and Long-lived Asset Impairment**

We assess goodwill for impairment annually, or more frequently if indicators of impairment are present. We perform our annual impairment analysis during the fourth quarter. In our impairment analysis we estimate the fair value of an enterprise based on the present value of anticipated future cash flows. Based on the impairment analysis for the Americas and Asia-Pacific reporting units in the fourth quarter of 2009, we determined that there was no impairment of the goodwill allocated to those reporting units. A 10% change in the anticipated future cash flows for either reporting unit would not have resulted in any impairment.

Under U.S. generally accepted accounting principles, we test our long-lived assets for impairment whenever there are indicators that the carrying value of the assets may not be recoverable. For long-lived assets recoverability testing, we determine whether the sum of the estimated undiscounted cash flows attributable to the assets in question is less than their carrying value. If less, we recognize an impairment loss based on the excess of the carrying amount of the assets over their respective fair values. Fair value is determined by future cash flows, appraisals or other methods. If the assets determined to be impaired are to be held and used, we recognize an impairment charge to the extent the anticipated net cash flows attributable to the asset are less than the asset's carrying value. The fair value of the asset then becomes the asset's new carrying value, which we depreciate over the remaining estimated useful life of the asset.

In the third quarter of 2009, we lost a significant product distribution business within our Latin America operation. As a result, we evaluated the long-lived assets of the Latin America operations for recoverability. We determined that the finite lived intangible asset acquired in conjunction with the acquisition of certain assets of CellStar was impaired. Accordingly, we recognized a \$1.5 million impairment charge, which represented the carrying value of the asset. The impairment will not result in any current or future cash expenditures.

We continue to evaluate lower profitability programs that do not currently meet our requirements for returns on invested capital. Exiting these programs might result in future impairment charges for the related long-lived assets.

## SEASONALITY

We are subject to seasonal patterns that generally affect the wireless device industry. Wireless devices are generally used by businesses, governments and consumers. For businesses and governments, purchasing behavior is affected by fiscal year ends, while consumers are affected by holiday gift-giving seasons. For the global wireless device industry, seasonal patterns for wireless device units handled have been as follows:

Year	1st Quarter	2nd Quarter	3rd Quarter	4th Quarter
2009	23%	24%	26%	27%
2008	24%	25%	25%	26%
2007	23%	23%	25%	29%

The industry data above is based on Company and industry analyst estimates.

The seasonal patterns for wireless devices handled by us have been as follows:

Year	1st Quarter	2nd Quarter (1)	3rd Quarter (1)	4th Quarter (1)
2009	22%	23%	26%	29%
2008	26%	24%	24%	26%
2007	18%	24%	26%	32%

- (1) Our calculation of seasonality for the year ended December 31, 2007 has not been adjusted to include pro-forma results of operations for the U.S. operations and the Miami-based Latin America business of CellStar Corporation and pro-forma results of operations for Dangaard Telecom.

## FORWARD LOOKING AND CAUTIONARY STATEMENTS

Certain information in this Form 10-K may contain forward-looking statements regarding future events or the future performance of the Company. These risk factors include, without limitation, uncertainties relating to customer plans and commitments, including, without limitation, (i) the loss or reduction in orders from principal customers or a reduction in the prices we are able to charge these customers could cause our revenues to decline and impair our cash flows; (ii) we buy a significant amount of our products from a limited number of suppliers, and they may not provide us with competitive products at reasonable prices when we need them in the future; (iii) our business could be harmed by consolidation of mobile operators; (iv) the current economic downturn could cause a severe disruption in our operations; (v) fluctuations in regional demand patterns and economic factors could harm our operations; (vi) our debt facilities could prevent us from borrowing additional funds, if needed; (vii) collections of our accounts receivable; (viii) our reliance on suppliers to provide trade credit facilities to adequately fund our on-going operations and product purchases; (ix) a significant percentage of our revenues are generated outside of the United States in countries that may have volatile currencies or other risks; (x) the impact that seasonality may have on our business and results; (xi) we make significant investments in the technology used in our business and rely on that technology to function effectively without interruptions; (xii) our future operating results will depend on our ability to maintain volumes and margins; (xiii) our ability to expand and implement our future growth strategy, including acquisitions; (xiv) uncertainty regarding whether wireless equipment manufacturers and wireless network operators will continue to outsource aspects of their business to us; (xv) our reliance upon third parties to manufacture products which we distribute and reliance upon their quality control procedures; our ability to retain existing logistic services customers at acceptable returns upon expiration of existing agreements; (xvi) rapid technological changes in the wireless industry could render our services or the products we handle obsolete or less marketable; (xvii) effect of natural disasters, epidemics, hostilities or terrorist attacks on our operations; (xviii) intense industry competition; (xix) our ability to manage and sustain future growth at our historical or current rates; (xx) our ability to continue to enter into relationships and financing that may provide us with minimal returns or losses on our investments; (xxi) our implementation of European Centers of Excellence may not be successful; (xxii) our ability to attract and retain qualified management and other personnel, the cost of complying with labor agreements and high rate of personnel turnover; (xxiii) protecting our proprietary information; (xxiv) our dependence on our computer and communications systems; (xxv) uncertainty regarding future volatility in our Common Stock price; (xxvii) potential dilution to existing shareholders from the issuance of securities under our long-term incentive plans (xxviii) the existence of anti-takeover measures. Because of the aforementioned uncertainties affecting our future operating results, past performance should not be considered to be a reliable indicator of future performance, and investors should not use historical trends to anticipate future results or trends. The words "believe," "expect," "anticipate," "estimate" "intend," "likely", "will", "should" and "plan" and similar expressions identify forward-looking statements. Readers are cautioned not to place undue reliance on any of these forward-looking statements, which

speak only as of the date that such statement was made. We undertake no obligation to update any forward-looking statement.

## **Item 7A. Quantitative and Qualitative Disclosures about Market Risk**

### **Concentration of Credit Risk**

Financial instruments, which potentially subject us to concentrations of credit risk, consist principally of cash investments, forward currency contracts and accounts receivable. We maintain cash investments primarily in AAA rated money market mutual funds and overnight repurchase agreements, which have minimal credit risk. We use high credit-quality financial institutions when purchasing forward currency contracts in order to minimize credit risk exposure. Concentrations of credit risk with respect to accounts receivable are limited due to the large number of geographically dispersed customers. We perform ongoing credit evaluations of our customers' financial condition and generally do not require collateral to secure accounts receivable. In many circumstances, we have obtained credit insurance to mitigate our credit risk.

### **Exchange Rate Risk Management**

A substantial portion of our revenue and expenses are transacted in markets worldwide and may be denominated in currencies other than the U.S. dollar. Accordingly, our future results could be adversely affected by a variety of factors, including changes in specific countries' political, economic or regulatory conditions and trade protection measures.

Our foreign currency risk management program is designed to reduce, but not eliminate, unanticipated fluctuations in earnings and cash flows caused by volatility in currency exchange rates by hedging. Generally, through the purchase of forward contracts, we hedge transactional currency risk, but do not hedge foreign currency revenue or future operating income. Also, we do not hedge our investment in foreign subsidiaries, where fluctuations in foreign currency exchange rates may affect our comprehensive income or loss. An adverse change (defined as a 10% strengthening of the U.S. dollar) in all exchange rates, relative to our foreign currency risk management program, would not have had a material impact on our results of operations for 2009 or 2008. At December 31, 2009, we had no cash flow or net investment hedges open. Our sensitivity analysis of foreign currency exchange rate movements does not factor in a potential change in volumes or local currency prices of our products sold or services provided. Actual results may differ materially from those discussed above.

### **Interest Rate Risk Management**

We are exposed to potential loss due to changes in interest rates. Investments with interest rate risk include short-term marketable securities. Debt with interest rate risk includes the fixed and variable rate debt. To mitigate interest rate risks, we utilize interest rate swaps to convert certain portions of our variable rate debt to fixed interest rates.

We are exposed to interest rate risk associated with our borrowing arrangements. Our risk management program seeks to reduce the potentially adverse effects that market volatility may have on interest expense. We use interest rate swaps to manage interest rate exposure. At December 31, 2009, swaps with a total notional amount of \$50 million were outstanding. These swaps have maturity dates ranging from 2010-2012. These derivative instruments are designated as hedges under ASC 815, *Derivatives & Hedging*. Changes in market value, when effective, are recorded in "Accumulated other comprehensive income" in our Consolidated Balance Sheet. Amounts are recorded to interest expense as settled. A 10% increase in short-term borrowing rates during the quarter would have resulted in only a nominal increase in interest expense. The fair value liability associated with those swaps was \$3.4 million at December 31, 2009.

## 1. Nature of Business and Summary of Significant Accounting Policies

### *Nature of Business*

Brightpoint, Inc. (the Company) provides supply chain solutions to leading stakeholders in the global wireless technology industry. The Company provides customized logistic services including procurement, inventory management, software loading, kitting and customized packaging, fulfillment, credit services and receivables management, call center and activation services, website hosting, e-fulfillment solutions, reverse logistics, transportation management and other services within the global wireless industry. The Company's customers include mobile network operators, mobile virtual network operators (MVNOs), resellers, retailers and wireless equipment manufacturers. The Company provides value-added distribution channel management and other supply chain solutions for wireless products manufactured by companies such as Apple, High Tech Computer Corp., Kyocera, LG Electronics, Motorola, Nokia, Research in Motion, Samsung and Sony Ericsson. The Company has operations centers and/or sales offices in various countries including Australia, Austria, Belgium, Colombia, Denmark, Finland, Germany, Guatemala, El Salvador, India, Italy, the Netherlands, New Zealand, Norway, Portugal, Singapore, Slovakia, South Africa, Spain, Sweden, Switzerland, the United Arab Emirates, the United Kingdom, and the United States.

The Company is incorporated under the laws of the State of Indiana.

### *Principles of Consolidation*

The Consolidated Financial Statements include the accounts of the Company and its subsidiaries, all of which are wholly-owned. Significant intercompany accounts and transactions have been eliminated in consolidation. During 2008 the Company acquired the remaining 24% non-controlling interest of the Moobi Norway A/S subsidiary for approximately \$2.9 million.

The Company has evaluated subsequent events through February 26, 2010, which is the date these financial statements were issued.

### *Use of Estimates*

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of any contingent assets and liabilities at the financial statement date and reported amounts of revenue and expenses during the reporting period. On an on-going basis, the Company reviews its estimates and assumptions. The Company's estimates were based on its historical experience and various other assumptions that the Company believes to be reasonable under the circumstances. Actual results are likely to differ from those estimates under different assumptions or conditions, but management does not believe such differences will materially affect the Company's financial position or results of operations.

### *Revenue Recognition*

The Company recognizes revenue in accordance with Financial Accounting Standards Board (FASB) Accounting Standard Codification (ASC) Section 605-10-S99 (formerly SEC Staff Accounting Bulletin (SAB) 104, *Revenue Recognition*). Revenue is recognized when the title and risk of loss have passed to the customer, there is persuasive evidence of an arrangement, delivery has occurred or services have been rendered, the sales price is fixed or determinable, and collectibility is reasonably assured. The amount of revenue is determined based on either the gross method or the net method. The amount under the gross method includes the value of the product sold while the amount under the net method does not include the value of the product sold.

For distribution revenue, which is recorded using the gross method, the criteria of FASB ASC 605-10-S99 are generally met upon shipment to customers, including title transfer; and therefore, revenue is recognized at the time of shipment. In some circumstances, the customer may take legal title and assume risk of loss upon delivery; and therefore, revenue is recognized on the delivery date. In certain countries, title is retained by the Company for collection purposes only, which does not impact the timing of revenue recognition in accordance with the provisions of FASB ASC 605-10-S99. Sales are recorded net of discounts, rebates, returns and allowances. The Company does not have any material post-shipment obligations (e.g. customer acceptance) or other arrangements.

For logistic services revenue, the criteria of FASB ASC 605-10-S99 are met when the Company's logistic services have been performed and, therefore, revenue is recognized at that time. In general, logistic services are fee-based services. The Company has certain arrangements for which it records receivables, inventory and payables based on the gross amount of the transactions; however, the Company records revenue for these logistic services at the amount of net margin because it is acting as an agent for mobile operators as defined by FASB ASC 605-45 (formerly Emerging Issues Task Force (EITF) Issue No. 99-19), *Reporting Revenue Gross as a Principal versus Net as an Agent*).

The Company also records revenue from the sale of prepaid airtime within logistic services. In the fourth quarter of 2009, the Company began recognizing revenue for the sales of certain prepaid airtime using the net method as general inventory risk has been mitigated. Prior to the fourth quarter of 2009, the Company recognized revenue for the sales of prepaid airtime under these agreements using the gross method (based on the full sales price of the airtime to its customers). If these prepaid airtime transactions were recorded using the net method, logistic services revenue would have been lower by \$61.3 million, \$102.0 million and \$90.2 million for 2009, 2008 and 2007.

In other logistic services arrangements, the Company performs certain services on behalf of its independent dealer/agents as the independent dealer/agents acquire subscribers on behalf of mobile operators. The Company receives a fee from the mobile operator for these services. In the event activation occurs through an independent dealer/agent, a portion of the fee is passed on to the dealer/agent. These arrangements may contain provisions for residual commissions based on subscriber usage. These agreements may also provide for the reduction or elimination of commissions if subscribers deactivate service within stipulated periods. The Company recognizes revenue for activation services upon activation of the subscriber's service and residual commissions when earned. An allowance is established for estimated wireless service deactivations as a reduction of accounts receivable and revenues. In circumstances where the Company is acting as an agent for mobile operators as defined by FASB ASC 605-45, the Company recognizes the revenue using the net method. Performance penalty clauses may be included in certain contracts whereby the Company provides logistic services. In general, these penalties are in the form of reduced per unit fees or a specific dollar amount. In the event the Company has incurred performance penalties, revenues are reduced accordingly within each calendar month.

### ***Gross Profit***

The Company determines its gross profit as the difference between revenue and cost of revenue. Cost of revenue includes the direct product costs and other costs such as freight, labor and rent expense.

### ***Vendor Programs***

The Company has three major types of incentive arrangements with various suppliers: price protection, volume incentive rebates, and marketing, training and promotional funds. The Company follows FASB ASC 605-50 (formerly EITF 02-16, *Accounting by a Customer (Including a Reseller) for Certain Consideration Received from a Vendor* and formerly EITF 03-10, *Application of Issue No. 02-16 by Resellers to Sales Incentives Offered to Consumers by Manufacturers*), in accounting for vendor programs. To the extent that the Company receives excess funds from suppliers for reimbursement of its costs, the Company recognizes the excess as a liability due to the supplier, which is applied to future costs incurred on behalf of the supplier.

- *Price protection*: consideration is received from certain, but not all, suppliers in the form of a credit memo based on market conditions as determined by the supplier. The amount is determined based on the difference between original purchase price from the supplier and revised list price from the supplier. The terms of the price protection varies by supplier and product, but is typically less than one month from original date of purchase. This amount is accrued as a reduction of trade accounts payable until a credit memo is received and applied as a debit to the outstanding accounts payable. This same amount is either a reduction of inventory cost or is a reduction of cost of sales for those wireless devices already sold.
- *Volume incentive rebates*: consideration is received from certain suppliers when purchase or sell-through targets are attained or exceeded within a specified time period. The amount of rebate earned in any financial reporting period is accrued as a vendor receivable, which is classified as a reduction of trade accounts payable. This same amount is either a reduction of inventory cost or is a reduction of cost of sales for those devices already sold. In certain markets, the amount of the rebate is determined based on actual volumes purchased for the incentive period to date at the established rebate percentage without minimum volume purchase requirements. In other markets, where the arrangement has a tiered rate structure for increasing volumes, the rate of the rebate accrual is determined based on the actual volumes purchased plus

reasonable, predictable estimates of future volumes within the incentive period. In the event the future volumes are not reasonably estimable, the Company records the incentive at the conclusion of the rebate period or at the point in time when the volumes are reasonably estimable. Upon expiration of the rebate period an adjustment is recognized through inventory or cost of sales for devices already sold if there is any variance between estimated rebate receivable and actual rebate earned. To the extent that the Company passes-through rebates to its customers, the amount is recognized as a liability in the period that it is probable and reasonably estimable

- *Marketing, training and promotional funds:* consideration is received from certain suppliers for cooperative arrangements related to market development, training and special promotions agreed upon in advance. The amount received is generally in the form of a credit memo, which is applied to trade accounts payable. The same amount is recorded as a current liability. Expenditures made pursuant to the agreed upon activity reduce this liability. To the extent that the Company incurs costs in excess of the established supplier fund, the Company recognizes the amount as a selling expense.

### ***Cash and Cash Equivalents***

All highly liquid investments with original maturities of three months or less when purchased are considered to be cash equivalents.

### ***Concentrations of Risk***

Financial instruments that potentially expose the Company to concentrations of credit risk consist primarily of trade accounts receivable. These receivables are generated from product sales and services provided to mobile operators, agents, resellers, dealers and retailers in the global wireless industry and are dispersed throughout the world, including Africa, North America, Latin America, Asia, the Middle East, the Pacific Rim and Europe. The Company performs periodic credit evaluations of its customers and provides credit in the normal course of business to a large number of its customers. However, consistent with industry practice, the Company does not generally require collateral from its customers to secure trade accounts receivable.

No customer accounted for 10% or more of the Company's revenue in 2009 or 2008. In 2007, Generation Next Group (formerly Computech), a customer of the Company's Singapore operations accounted for approximately 10% of the Company's total revenue and 29% of the Asia-Pacific division's revenue. The loss or a significant reduction in business activities by the Company's customers could have a material adverse affect on the Company's revenue and results of operations.

The Company is primarily dependent upon wireless equipment manufacturers for its supply of wireless voice and data equipment. Nokia products represented approximately 20%, 26% and 30% of total units handled in 2009, 2008 and 2007. Motorola products represented 19%, 21%, 29% of total units handled in 2009, 2008 and 2007. Samsung products represented approximately 16% and 15% of total units handled in 2009 and 2008 and less than 10% in 2007. Kyocera products represented approximately 11% of total units handled in 2009. For its distribution business, the Company is dependent on the ability of its suppliers to provide an adequate supply of products on a timely basis and on favorable pricing terms. The loss of certain principal suppliers or a significant reduction in product availability from principal suppliers could have a material adverse effect on the Company. The Company also relies on its suppliers to provide trade credit facilities and favorable payment terms to adequately fund its on-going operations and product purchases. In certain circumstances, the Company has issued cash-secured letters of credit on behalf of certain of its subsidiaries in support of their vendor credit facilities. The payment terms received from the Company's suppliers is dependent on several factors, including, but not limited to, the Company's payment history with the supplier, the supplier's credit granting policies, contractual provisions, the Company's overall credit rating as determined by various credit rating agencies, the Company's recent operating results, financial position and cash flows and the supplier's ability to obtain credit insurance on amounts that the Company owes them. Adverse changes in any of these factors, certain of which may not be wholly in the Company's control, could have a material adverse effect on the Company's operations. The Company believes that its relationships with its suppliers are satisfactory; however, it has periodically experienced inadequate supply of certain models from certain wireless device manufacturers.

### ***Allowance for Doubtful Accounts***

The Company evaluates the collectibility of its accounts receivable on an on-going basis. In circumstances where the Company is aware of a specific customer's inability to meet its financial obligations, the Company records a specific allowance against amounts due to reduce the net recognized receivable to the amount the Company reasonably believes will be collected. For all other customers, the Company recognizes allowances for doubtful accounts based on the length of time the receivables are past due, the current business environment and the Company's historical experience. In the majority of circumstances, the Company has obtained credit insurance to mitigate its credit risk.

### ***Inventories***

Inventories primarily consist of wireless devices and accessories and are stated at the lower of cost (first-in, first-out method) or market. In-bound freight expense is capitalized for inventory held in stock and expensed at the time the inventory is sold. At each balance sheet date, the Company evaluates its ending inventories for excess quantities and obsolescence, considering any stock balancing, price protection or rights of return that it may have with certain suppliers. This evaluation includes analyses of sales levels by product and projections of future demand. The Company writes off inventories that are considered obsolete. Remaining inventory balances are adjusted to approximate the lower of cost or market. The Company had no individually significant inventory valuation adjustments during year ended December 31, 2009. During the year ended December 31, 2008, the Company had \$8.8 million of inventory valuation adjustments related to its locally branded PC notebook business in Slovakia. The Company has abandoned that business, and the results of operations for this business have been reclassified to discontinued operations in accordance with U.S. generally accepted accounting principles as further discussed in footnote 5.

### **Derivative Instruments and Hedging Activities**

The Company is exposed to certain risks relating to its ongoing business activities. The primary risks managed by the use of derivative instruments are interest rate risk and foreign currency fluctuation risk. Interest rate swaps are entered into in order to manage interest rate risk associated with the Company's variable rate borrowings. Forward contracts are entered into to manage the foreign currency risk associated with various commitments arising from trade accounts receivable, trade accounts payable and fixed purchase obligations. The volume and impact to the Consolidated Balance Sheets and Statements of Operations of these contracts is immaterial. The Company holds the following types of derivatives at December 31, 2009 that have been designated as hedging instruments:

<u>Derivative</u>	<u>Risk Being Hedged</u>
Interest rate swap	Cash flows of interest payments on variable rate debt

Derivatives are held only for the purpose of hedging such risks, not for speculation. Generally, the Company enters into hedging relationships such that the cash flows of items and transactions being hedged are expected to be offset by corresponding changes in the values of the derivatives. At December 31, 2009, a hedging relationship exists related to \$50.0 million of the Company's variable rate debt. The swap is accounted for as a cash flow hedge. This interest rate swap transaction effectively locks in a fixed interest rate for variable rate interest payments that are expected to be made from January 1, 2010 through January 31, 2012. Under the terms of the swap, the Company will pay a fixed rate and will receive a variable rate based on the three month USD LIBOR rate plus a credit spread. There was an immaterial loss due to the ineffective portion of the interest rate swaps included in the results of operations for the year ended December 31, 2009. The ineffective portion of the interest rate swaps relates to prepayments on the Company's variable rate debt in the second quarter of 2009. The unrealized gain associated with the effective portion of the interest rate swaps included in other comprehensive income was approximately \$0.8 million for the year ended December 31, 2009. Approximately \$0.4 million of unrealized losses are expected to be reclassified into earnings during the year ended December 31, 2010.

The fair value of interest rate swaps in the Consolidated Balance Sheets is a liability of \$3.4 million. The fair value of the interest rate swap maturing within one year is included in "Accrued expenses" in the Consolidated Balance Sheets. The fair value of the interest rate swap maturing after one year is included in "Other long-term liabilities" in the Consolidated Balance Sheets.

### ***Fair Value of Financial Instruments***

The carrying amounts at December 31, 2009 and 2008, of cash and cash equivalents, pledged cash, accounts receivable, other current assets, accounts payable and accrued expenses approximate their fair values because of the short maturity of those instruments. The carrying amount at December 31, 2009 and 2008 of the Company's borrowings approximate their fair value because these borrowings bear interest at a variable (market) rate.

The Company utilizes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value of certain financial assets and financial liabilities into three broad levels. The following is a brief description of those three levels:

- Level 1: Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Inputs, other than quoted prices that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.
- Level 3: Unobservable inputs that reflect the reporting entity's own assumptions.

The following table summarizes the bases used to measure certain financial assets and financial liabilities at fair value on a recurring basis in the balance sheet (in thousands):	<b>Balance at Decem ber 31, 2009</b>	<b>Quoted prices in active markets (Level 1)</b>	<b>Significant other observable inputs (Level 2)</b>
<b>Financial instruments classified as assets</b>			
Forward foreign currency contracts	\$ 499	\$ -	\$ 499
<b>Financial instruments classified as liabilities</b>			
Interest rate swaps	\$ 3,417	\$ -	\$ 3,417
Forward foreign currency contracts	469	-	469
	<b>Balance at Decem ber 31, 2008</b>	<b>Quoted prices in active markets (Level 1)</b>	<b>Significant other observable inputs (Level 2)</b>
<b>Financial instruments classified as assets</b>			
Forward foreign currency contracts	\$ 63	\$ -	\$ 63
<b>Financial instruments classified as liabilities</b>			
Interest rate swaps	\$ 4,657	\$ -	\$ 4,657
Forward foreign currency contracts	1,051	-	1,051

### ***Property and Equipment***

Property and equipment are stated at cost and depreciation is computed using the straight-line method over the estimated useful lives of the assets, generally three to seven years. Leasehold improvements are stated at cost and depreciated ratably over the shorter of the lease term of the associated property or the estimated life of the leasehold improvement. Maintenance and repairs are charged to expense as incurred.

### ***Long-Lived Tangible and Finite-Lived Intangible Assets***

The Company follows the principles of FASB ASC 360 (formerly SFAS 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*). The Company periodically considers whether indicators of impairment of long-lived tangible and finite-lived intangible assets are present. If such indicators are present, the Company determines whether the sum of the estimated undiscounted cash flows attributable to the assets in question is less than their carrying value. If less, the Company recognizes an impairment loss based on the excess of the carrying amount of the assets over their respective fair values. Fair value is determined by discounted future cash flows, appraisals or other methods. If the assets determined to be impaired are to be held and used, the Company recognizes an impairment charge to the extent the asset's carrying value is greater than the anticipated future cash flows attributable to the asset. The fair value of the asset then becomes the asset's new carrying value, which, if applicable, the Company depreciates or amortizes over the remaining estimated useful life of the asset. At December 31, 2009 and 2008, the finite-lived intangible assets total \$98.1 million and \$107.3 million, net of accumulated amortization of \$44.6 million and \$27.8 million and are currently being amortized over three to thirteen years. Fluctuations in foreign currencies increased intangible assets by approximately \$7.3 million in 2009 compared to 2008. The following sets forth amortization expense for finite-lived intangible assets the Company expects to recognize over the next five years (in thousands):

<b>2010</b>	15,692
<b>2011</b>	14,809
<b>2012</b>	11,955
<b>2013</b>	9,916
<b>2014</b>	8,297

In the third quarter of 2009, the Company lost a significant product distribution customer within its Latin America operation. As a result, the Company evaluated the long-lived assets of the Latin America operations for recoverability. The Company determined that the finite lived intangible asset acquired in conjunction with the acquisition of certain assets of CellStar was impaired. Accordingly, the Company recognized a \$1.5 million impairment charge, which represented the carrying value of the asset. The impairment will not result in any current or future cash expenditures. For the years ended December 31, 2008 and 2007, the Company incurred no impairment charges for long-lived tangible and finite-lived intangible assets.

### ***Goodwill***

The Company follows the principles of FASB ASC 350-20 (formerly SFAS 142, *Goodwill and Other Intangible Assets*). Goodwill is not amortized but rather tested annually for impairment. The Company's reporting units are its three geographic segments, the Americas, EMEA, and Asia-Pacific.

In the fourth quarter of 2009 and 2007, the Company performed the required annual impairment test on its goodwill and incurred no impairment charges. During the fourth quarter of 2008, there were severe disruptions in the credit markets and reductions in global economic activity which had significant adverse impacts on stock markets and on the outlook for the wireless industry, both of which contributed to a significant decline in Brightpoint's stock price and corresponding market capitalization. The result of the Company's annual goodwill impairment test was that the carrying amount of the net assets allocated to the Europe, Middle East, and Africa (EMEA) reporting unit exceeded the fair market value. The Company calculated fair value for the EMEA reporting unit based on the market price of similar groups of net assets and the expected investment returns on the group of net assets. The entire amount of goodwill allocated to that reporting unit was impaired, which resulted in an impairment charge of \$325.9 million. The goodwill allocated to the EMEA reporting unit was primarily related to the acquisition of Dangaard Telecom in July 2007. The impairment charge resulted from factors impacted by current market conditions including: 1) lower market valuation multiples for similar assets; 2) higher discount rates resulting from turmoil in the credit and equity markets; and 3) current cash flow forecasts for the EMEA markets in which the Company operates.

The changes in the carrying amount of goodwill by reportable segment for the year ended December 31, 2009 and 2008 are as follows (in thousands):

	<b>Americas</b>	<b>EMEA</b>	<b>Asia-Pacific</b>	<b>Total</b>
Balance at December 31, 2007	\$49,133	\$298,538	\$ 1,975	\$ 349,646
Goodwill from acquisitions	765	44,219	--	44,984
Goodwill impairment charge	--	(325,947)	--	(325,947)
Effects of foreign currency fluctuation	--	(16,810)	(434)	(17,244)
Balance at December 31, 2008	49,898	--	1,541	51,439
Balance at December 31, 2008	49,898	--	1,541	51,439
Effects of foreign currency fluctuation	--	--	438	438
Balance at December 31, 2009	\$ 49,898	\$ --	\$ 1,979	\$ 51,877

### ***Foreign Currency Translation***

The functional currency for most of the Company's foreign subsidiaries is the respective local currency. Revenue and expenses denominated in foreign currencies are translated to the U.S. dollar at average exchange rates in effect during the period, and assets and liabilities denominated in foreign currencies are translated to the U.S. dollar at the exchange rate in effect at the end of the period. Foreign currency transaction gains and losses are included in the Consolidated Statements of Operations as a component of "Other (income) expenses." Currency translation of assets and liabilities (foreign investments) from the functional currency to the U.S. dollar are included as a component of "Accumulated other comprehensive income" in the Consolidated Balance Sheet and the Consolidated Statement of Shareholders' Equity.

### ***Income Taxes***

The Company accounts for income taxes under the asset and liability method, which requires the recognition of deferred tax assets and liabilities for the expected future tax consequence of events that have been recognized in the Company's financial statements or income tax returns. Income taxes are recognized during the year in which the underlying transactions are reflected in the Consolidated Statements of Operations. Deferred taxes are provided for temporary differences between amounts of assets and liabilities as recorded for financial reporting purposes and amounts recorded for tax purposes. After determining the total amount of deferred tax assets, the Company determines whether it is more likely than not that some portion of the deferred tax assets will not be realized. If the Company determines that a deferred tax asset is not likely to be realized, a valuation allowance will be established against that asset to record it at its expected realizable value. The Company recognizes uncertain tax positions when it is more likely than not that the tax position will be sustained upon examination by relevant taxing authorities, based on the technical merits of the position. The amount recognized is measured as the largest amount of benefit that is greater than 50 percent likely of being realized upon ultimate settlement.

## Earnings Per Share

Basic earnings per share is based on the weighted average number of common shares outstanding during each period, and diluted earnings per share is based on the weighted average number of common shares and dilutive common share equivalents outstanding during each period. The following is a reconciliation of the numerators and denominators of the basic and diluted earnings per share computations (in thousands, except per share data):

	Year December 31,		
	2009	2008	2007
Income (loss) from continuing operations attributable to common shareholders	\$ 35,055	\$ (326,752)	\$ 46,018
Discontinued operations, net of income taxes	(8,499)	(15,362)	1,375
Net income (loss) attributable to common shareholders	<u>\$ 26,556</u>	<u>\$ (342,114)</u>	<u>\$ 47,393</u>
<b>Earnings (loss) per share - basic:</b>			
Income (loss) from continuing operations attributable to common shareholders	\$ 0.44	\$ (4.17)	\$ 0.76
Discontinued operations, net of income taxes	(0.11)	(0.20)	0.02
Net income (loss) attributable to common shareholders	<u>\$ 0.33</u>	<u>\$ (4.37)</u>	<u>\$ 0.78</u>
<b>Earnings (loss) per share - diluted:</b>			
Income (loss) from continuing operations attributable to common shareholders	\$ 0.43	\$ (4.17)	\$ 0.73
Discontinued operations, net of income taxes	(0.10)	(0.20)	0.02
Net income (loss) attributable to common shareholders	<u>\$ 0.33</u>	<u>\$ (4.37)</u>	<u>\$ 0.75</u>
Weighted average shares outstanding for basic earnings per share	80,422	78,202	61,174
Net effect of dilutive share options, restricted share units, and restricted shares based on the treasury share method using average market price	825	-	2,397
Weighted average shares outstanding for diluted earnings per share	<u>81,247</u>	<u>78,202</u>	<u>63,571</u>

At December 31, 2009, 2008 and 2007, approximately 0.6 million, 4.1 million and 0.2 million stock options and restricted stock units were excluded from the computation of dilutive earnings per share because the effect of including these shares would have been anti-dilutive to diluted earnings per share.

## Recently Issued Accounting Pronouncements

In May 2009, the FASB issued SFAS 165, *Subsequent Events*, codified in Accounting Standards Codification (ASC) 855, to provide authoritative accounting literature for subsequent events which was previously addressed only in auditing literature. SFAS 165 addresses events that occur after the balance sheet date but before the issuance of the financial statements. It distinguishes between subsequent events that should be recognized in the financial statements and those that should not. Also, it requires disclosure of the date through which subsequent events were evaluated and disclosures for certain non-recognized events. The provisions of SFAS 165 were effective for the Company on June 30, 2009. The adoption of SFAS 165 did not have a material effect on its financial statements.

In December 2007, the FASB issued SFAS 141 (R). This statement amends ASC 805, *Business Combinations*, and provides revised guidance for recognizing and measuring identifiable assets and goodwill acquired, liabilities assumed, and any noncontrolling interest in the acquiree. It also provides disclosure requirements to enable users of the financial statements to evaluate the nature and financial effects of the business combination. The provisions of SFAS 141(R) were effective for the Company on January 1, 2009. The adoption of SFAS 141(R) did not have a material impact on its financial statements since the provisions of SFAS 141 (R) are applied prospectively.

In December 2007, the FASB issued SFAS 160, *Noncontrolling Interests in Consolidated Financial Statements – an amendment of ARB 51*. SFAS 160 updates ASC 810, *Consolidation*, to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. It also amends certain of ARB 51's consolidation procedures for consistency with the requirements of SFAS 141(R). The provisions of SFAS 160 were effective for the Company on January 1, 2009 and have been applied retrospectively. The adoption of SFAS 160 did not have a material impact on its financial statements.

### ***Operating Segments***

The Company has operations centers and/or sales offices in various countries including Australia, Austria, Belgium, Colombia, Denmark, El Salvador, Finland, France, Germany, Guatemala, India, Italy, the Netherlands, New Zealand, Norway, Portugal, Russia, Singapore, Slovakia, South Africa, Spain, Sweden, Switzerland, United Arab Emirates, the United Kingdom and the United States. All of the Company's operating entities generate revenue from the distribution of wireless devices and accessories and/or the provision of logistic services. The Company identifies its reportable segments based on management responsibility of its three geographic divisions: the Americas, Asia-Pacific and Europe, the Middle East, and Africa (EMEA). The Company's operating components have been aggregated into these three geographic reporting segments.

The Company evaluates the performance of and allocates resources to these segments based on income from continuing operations before income taxes. A summary of the Company's operations by segment is presented below (in thousands) for 2009, 2008 and 2007:

	Americas	Asia-Pacific	Europe Middle East and Africa	Corporate and Reconciling Items	Total
<b>2009:</b>					
Distribution revenue	\$ 448,086	\$ 834,906	\$ 1,544,509	\$ -	\$ 2,827,501
Logistic services revenue	192,276	33,631	131,875	-	357,782
Total revenue from external customers	\$ 640,362	\$ 868,537	\$ 1,676,384	\$ -	\$ 3,185,283
Income (loss) from continuing operations before income taxes	\$ 51,200	\$ 24,001	\$ (16,231)	\$ (28,695)	\$ 30,275
Depreciation and amortization	11,650	1,956	20,413	2,604	36,623
Capital expenditures	38,331	3,218	5,767	1,862	49,178
Total segment assets	244,103	199,357	546,748	23,783	1,013,991
<b>2008:</b>					
Distribution revenue	\$ 705,229	\$ 1,143,293	\$ 2,155,876	\$ -	\$ 4,004,398
Logistic services revenue	184,188	47,924	192,235	-	424,347
Total revenue from external customers	\$ 889,417	\$ 1,191,217	\$ 2,348,111	\$ -	\$ 4,428,745
Income (loss) from continuing operations before income taxes	\$ 34,571	\$ 30,203	\$ (337,961)	\$ (28,096)	\$ (301,283)
Depreciation and amortization	9,950	2,143	22,532	2,109	36,734
Goodwill impairment charge	-	-	325,947	-	325,947
Capital expenditures	4,476	1,778	10,155	5,233	21,642
Total segment assets	244,922	198,779	690,882	11,777	1,146,360

	\$ 82,328	\$ 56,463

(1) Consists of property and equipment, net of accumulated depreciation.

**2. Stock Based Compensation**

The Company has equity compensation plans, which reserve shares of common stock for issuance to executives, key employees, directors and others.

***Amended 2004 Long-Term Incentive Plan***

During 2004, the Company's shareholders approved the 2004 Long-Term Incentive Plan (LTI Plan) whereby officers, other key employees of the Company and others are eligible to be granted non-qualified incentive stock options, performance units, restricted stock, other stock-based awards, and/or cash awards. No participant may be granted under the LTI Plan, during any year, options or any other awards relating to more than 2.0 million shares of common stock in the aggregate. In 2009, the Company's shareholders voted to amend the LTI Plan to increase the shares eligible for issuance by 7.0 million shares. There are 13.2 million common shares reserved for issuance under the LTI Plan, of which approximately 11.1 million and 4.6 million were authorized but unissued at December 31, 2009 and 2008. Under this LTI Plan, 8.9 million shares remained available for grant as of December 31, 2009.

For the above plans, the Compensation and Human Resources Committee of the Board of Directors determines the time(s) at which the grants will be awarded, selects the officers or other recipients of awards and determines the number of shares covered by each grant, as well as, the purchase price, time of exercise of options (not to exceed ten years from the date of the

grant) and other terms and conditions. The Board of Directors has delegated authority to the Company's Chief Executive Officer to grant up to approximately 0.6 million of awards to non-officer employees per calendar year.

### Stock Options

The exercise price of stock options granted under the LTI Plan may not be less than the fair market value of a share of common stock on the date of the grant. Options generally become exercisable in periods ranging from one to three years after the date of the grant. The Company did not grant stock options under its equity compensation plans during 2009:

	Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life	Aggregate Intrinsic Value as of December 31
Outstanding at January 1	477,264	\$ 7.73		
Granted	-	-		
Exercised	(31,314)	7.19		
Forfeited	(9,750)	10.74		
Expired	(87,151)	7.23		
Outstanding at December 31	349,049	\$ 7.82	0.42	\$ 106,186
Exercisable at December 31	297,434	\$ 7.15	0.16	\$ 106,186

The following table summarizes information about the fixed price stock options outstanding at December 31, 2009:

Range of Exercise Prices	Number Outstanding at December 31, 2009	Weighted Average Remaining Contractual Life	Weighted Average Exercise Price	Exercisable	
				Number Outstanding at December 31, 2009	Weighted Average Exercise Price
\$ 6.78 - \$ 7.07	184,804	0.13 years	\$ 6.78	184,804	\$ 6.78
\$ 7.08 - \$ 13.43	164,245	0.74 years	8.99	112,630	7.75
	349,049		\$ 7.82	297,434	\$ 7.15

### Restricted Stock Units

During 2009, the Company granted 1,382,273 shares of restricted stock units with a weighted average grant date fair value of \$4.85 per share:

	Restricted Stock Units	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life	Aggregate Intrinsic Value as of December 31
Outstanding at January 1	1,349,804	\$ -		
Granted	1,382,273	-		
Released	(491,360)	-		
Forfeited	(327,445)	-		
Outstanding at December 31	1,913,272	\$ -	1.2	\$ 14,062,549

### Restricted Stock Awards

During 2009, the Company granted 39,816 restricted stock awards with a weighted average grant date fair value of \$5.94 per share:

	Restricted Stock Awards	Weighted Average Grant Date Fair Value	Weighted Average Remaining Contractual Life
Outstanding at January 1	747,007	\$ 9.70	
Granted	39,816	5.94	
Released	(30,007)	18.62	
Forfeited	-	-	
Outstanding at December 31	756,816	\$ 9.15	3.3

The weighted average fair value of restricted stock units granted during 2008 and 2007 was \$10.89 and \$10.99 per share. The Company did not grant any restricted stock awards during 2008. The weighted average fair value of restricted stock awards granted during 2007 was \$13.73 per share.

The Company typically grants performance based equity awards during the first quarter of the fiscal year. A portion of the restricted stock units granted are subject to forfeiture if certain performance goals are not achieved. Those restricted stock units no longer subject to forfeiture typically vest in three equal annual installments beginning with the first anniversary of the grant.

The total intrinsic value of options exercised and restricted stock released (vested) during 2009, 2008 and 2007 was \$3.0 million, \$6.6 million and \$7.5 million. As of December 31, 2009, total compensation cost related to non-vested awards not yet recognized was \$10.6 million of which approximately one-third will be recognized in each of the next three fiscal years. In addition, the Company will recognize compensation expense for any new awards granted subsequent to December 31, 2009.

### 3. Income Tax Expense

For financial reporting purposes, income from continuing operations before income taxes, by tax jurisdiction, is comprised of the following (in thousands):

	Year ended December 31,		
	2009	2008	2007
United States	\$ 23,147	\$ (3,349)	\$ 11,944
Foreign	7,128	(297,934)	34,668
	<u>\$ 30,275</u>	<u>\$ (301,283)</u>	<u>\$ 46,612</u>

The reconciliation for 2009, 2008 and 2007 of income tax expense (benefit) computed at the U.S. Federal statutory tax rate to the Company's effective income tax rate is as follows:

	<b>2009</b>	<b>2008</b>	<b>2007</b>
Tax at U.S. Federal statutory rate	<b>35.0%</b>	34.0%	35.0%
State and local income taxes, net of U.S. Federal benefit	<b>1.5</b>	(0.2)	1.8
Net benefit of tax on foreign operations	<b>(6.4)</b>	(37.3)	(9.1)
Release of valuation allowance	<b>(35.9)</b>	(3.5)	(29.4)
Other (1)	<b>(10.0)</b>	(1.3)	2.5
Effective income tax rate	<b>(15.8%)</b>	(8.3%)	0.8%

(1) Other is primarily comprised of the impact of permanent differences between income before income tax and taxable income.

Income tax benefit for the year ended December 31, 2009 includes a \$10.9 million benefit for the reversal of a valuation allowance on certain foreign tax credit carryforwards in addition to a \$5.4 million benefit from the reversal of a reserve on an uncertain tax position in Germany that became more likely than not to be sustained.

Income tax benefit for the year ended December 31, 2009 is partially offset by \$7.2 million in charges related to valuation allowances on deferred tax assets resulting from previous net operating losses in certain countries that are no longer more likely than not to be utilized.

Significant components of the provision for income tax expense (benefit) from continuing operations are as follows (in thousands):

	<b>Year ended December 31,</b>		
	<b>2009</b>	<b>2008</b>	<b>2007</b>
Current:			
Federal	\$ 3,022	\$ 166	\$ 5,692
State	240	330	1,643
Foreign	11,388	23,055	16,284
	<b>\$ 14,650</b>	<b>\$ 23,551</b>	<b>\$ 23,619</b>
Deferred:			
Federal	(7,418)	13,472	(14,664)
State	(1,175)	173	(315)
Foreign	(10,837)	(12,088)	(8,392)
	<b>(19,430)</b>	<b>1,557</b>	<b>(23,371)</b>
	<b>\$ (4,780)</b>	<b>\$ 25,108</b>	<b>\$ 248</b>

During 2009, 2008 and 2007 there was an income tax expense (benefit) recorded in discontinued operations of \$0.1 million, (\$0.7) million, and \$0.2 million.

Components of the Company's net deferred tax assets are as follows (in thousands):

	<b>Year ended December 31,</b>	
	<b>2009</b>	<b>2008</b>
Deferred tax assets:		
Current:		
Allowance for doubtful accounts	\$ 2,061	\$ 1,440
Accrued liabilities and other	16,660	6,882
Unrealized losses in Other Comprehensive Income	-	2,210
Net operating losses and other carryforwards	4,370	3,231
Valuation allowance	(2,018)	--
Noncurrent:		
Depreciation and other long-term assets	11,424	2,302
Unrealized losses in Other Comprehensive Income	1,681	--
Net operating losses and other carryforwards	41,470	37,627
Valuation allowance	(22,530)	(26,142)
Total deferred tax assets	<b>53,118</b>	<b>27,550</b>
Deferred tax liabilities:		
Current:		
Other current liabilities	(1,461)	(127)
Noncurrent:		
Depreciation	(11,830)	(2,221)
Intangibles and long-term liabilities	(18,731)	(22,063)
Total deferred tax liabilities	<b>(32,022)</b>	<b>(24,411)</b>
Net deferred assets	<b>\$ 21,096</b>	<b>\$ 3,139</b>

Income tax payments for continuing operations were \$14.2 million, \$25.7 million and \$14.7 million in 2009, 2008 and 2007 respectively.

At December 31, 2009, the Company had foreign net operating loss carryforwards of approximately \$169.5 million, of which approximately \$41.3 million expire between 2009 and 2024 and \$128.2 million have no expiration date. The Company also has U.S. foreign tax credits of \$8.0 million of which \$5.4 million expire during 2012 and \$2.6 million expire between 2013 and 2019. The Company determined that a portion of the deferred tax asset related to net operating loss carryforwards is not likely to be realized, and a valuation allowance has been established against that asset to record it at its expected realizable value. United States income taxes have not been provided on accumulated but undistributed earnings of its non-U.S. subsidiaries as these earnings are considered to be indefinitely reinvested and, accordingly, no provision for U.S. federal or state income taxes or foreign withholding taxes has been made. Upon distribution of those earnings, the Company would be subject to U.S. income taxes (subject to a reduction for foreign tax credits) and withholding taxes payable to the various foreign countries. Determination of the unrecognized deferred tax liability related to these undistributed earnings is not practicable because of the complexities of its hypothetical calculation.

The Company's unrecognized tax benefits for the period ending December 31, 2009, were \$2.0 million (\$0.1 in interest and penalties and \$1.9 million of tax positions), which if recognized, would impact the effective tax rate. Interest and penalties related to income taxes are classified as tax expense. Accrued interest was \$0.1 million at December 31, 2009 and 2008. Interest recognized in the statement of operations for December 31, 2009 was \$0.1 million. The Company's accrued penalties were immaterial. A reconciliation of the beginning and ending amount of unrecognized tax benefits are as follows (in thousands):

	2009	2008	2007
Beginning balance	\$1,671	\$ 2,231	\$2,173
Additions based on tax positions related to the current year	759	200	659
Additions for tax positions of prior years	5,029	399	--
Reductions for tax positions of prior years	(504)	(1,096)	(510)
Lapse of statute of limitations	(213)	(63)	--
Settlements	(5,387)	--	(91)
Translation and Other	511	--	--
Ending balance	<u>\$1,866</u>	<u>\$1,671</u>	<u>\$2,231</u>

The Company and its subsidiaries file in the U.S. Federal, various state and various foreign jurisdictions. The Company remains subject to examination within U.S. Federal and major state jurisdictions for years after 2005 and significant foreign tax jurisdictions for years after 2000. The Company does not anticipate that total unrecognized tax benefits will significantly change within the next 12 months.

#### 4. Restructuring

In February 2009, the Company announced that it initiated its 2009 Spending and Debt Reduction Plan. Included in this plan was a global workforce reduction of 220 positions.

##### *Europe Realignment*

The balance of the restructuring reserve at December 31, 2008 related to the plan to realign the Company's European operations that was announced on June 30, 2008. Reserve activity for the realignment of the Company's European operations and for the workforce reduction included in the 2009 Spending and Debt Reduction Plan for the year ended December 31, 2009 is as follows (in thousands):

	Employee Terminations	Lease Termination Costs	Total
Balance at December 31, 2008	\$ 3,325	\$ 3,445	\$ 6,770
Restructuring charge	12,910	127	13,037
Foreign currency translation	751	(60)	691
Total activity:	<u>16,986</u>	<u>3,512</u>	<u>20,498</u>
Less:			
Cash usage	(11,352)	(3,512)	(14,864)
Non-cash usage	-	-	-
Balance at December 31, 2009	<u>\$ 5,634</u>	<u>\$ -</u>	<u>\$ 5,634</u>

Restructuring charge was \$13.0 million for the year ended December 31, 2009. The restructuring charge consists of the following:

- \$10.7 million of severance charges in connection with the global workforce reduction announced as part of the Company's 2009 Spending and Debt Reduction Plan. The Company reduced its workforce by approximately 260 positions in its EMEA division in 2009 as part of this plan.
- A \$2.1 million severance charge in connection with the departure of the Company's President of the Europe, Middle East and Africa region.
- A \$0.4 million charge associated with the exit of our headquarters facility in Europe.
- A \$0.8 million benefit associated with the favorable settlement of the operating lease of the Company's redundant warehouse and office facility in Germany.
- \$0.6 million of other charges associated with our 2009 Spending and Debt Reduction Plan.

### **Americas Realignment**

In addition to the realignment of the Company's European operations discussed above, the Company also began initiatives to better leverage its cost structure in the Americas region. The Americas realignment includes severance for employees in our Americas operations (\$0.7 million) as well as a benefit related to the closure of the Company's distribution facility in Reno, Nevada (\$0.3 million). The Company reduced its workforce by approximately 20 positions in its Americas division in 2009.

Reserve activity for the realignment of the Company's Americas operations for the year ended December 31, 2009 is as follows (in thousands):

	<u>Employee Terminations</u>	<u>Lease Termination Costs</u>	<u>Total</u>
Balance at December 31, 2008	\$ 236	\$ 897	\$ 1,133
Restructuring charge	689	(265)	424
Total activity:	925	632	1,557
Less:			
Cash usage	(852)	(632)	(1,484)
Balance at December 31, 2009	<u>\$ 73</u>	<u>\$ --</u>	<u>\$ 73</u>

The Company continues to evaluate the "right size" of its on-going operations in relation to desired profitability targets. The Company may determine that additional reductions in spending, including further reductions in workforce, are necessary. Additional reductions in workforce and other spending could result in additional restructuring charges.

### **5. Divestitures and Discontinued Operations**

The Company records the results of operations and related disposal costs, gains and losses for significant components that the Company has abandoned or sold in discontinued operations for all periods presented. The consolidated statements of operations reflect the reclassification of the results of operations of the Company's locally branded PC notebook business in Slovakia and the Company's operations in France, Poland and Turkey to discontinued operations for all periods presented in accordance with U.S. generally accepted accounting principles. The Company exited its locally branded PC notebook business in the third quarter of 2008. The Company exited its Poland and Turkey operations in the first quarter of 2009 and its France operation in the third quarter of 2009. There were no material impairments of tangible or intangible assets related to these discontinued operations.

Details of discontinued operations are as follows (in thousands):

	<b>Year Ended December 31,</b>		
	<b>2009</b>	<b>2008</b>	<b>2007</b>
Revenue	<u>\$ 26,239</u>	<u>\$ 229,303</u>	<u>\$ 174,193</u>
Income (loss) from discontinued operations before income taxes	<u>\$ (7,842)</u>	<u>\$ (16,597)</u>	<u>\$ 851</u>
Income tax expense (benefit)	<u>135</u>	<u>(651)</u>	<u>218</u>
Income (loss) from discontinued operations	<u>\$ (7,977)</u>	<u>\$ (15,946)</u>	<u>\$ 633</u>
Gain (loss) on disposal from discontinued operations (1)	<u>(522)</u>	<u>584</u>	<u>742</u>
Total discontinued operations, net of income taxes	<u>\$ (8,499)</u>	<u>\$ (15,362)</u>	<u>\$ 1,375</u>

- (1) Loss on disposal of discontinued operations for the year ended December 31, 2008 includes \$8.8 million write-down of inventory related to the locally branded PC notebook business in Slovakia. There were no impairments of any tangible or intangible assets related to this business.

The Company is evaluating alternatives for its operation in Italy. If the Company determines that it will exit this business, the Company will record appropriate charges related to the liquidation of this business at that time. Any charge related to the liquidation of this business will be classified within loss from discontinued operations in the period of abandonment.

## 6. Property and Equipment

The components of property and equipment are as follows (in thousands):

	<b>December 31,</b>	
	<b>2009</b>	<b>2008</b>
Information systems equipment and software	<u>\$ 115,135</u>	<u>\$ 107,911</u>
Furniture and equipment	<u>39,813</u>	<u>35,161</u>
Leasehold & building improvements	<u>18,225</u>	<u>14,521</u>
Land & buildings	<u>25,608</u>	<u>--</u>
	<u>198,781</u>	<u>157,593</u>
Less accumulated depreciation	<u>(116,453)</u>	<u>(101,130)</u>
	<u>\$ 82,328</u>	<u>\$ 56,463</u>

Depreciation expense charged to continuing operations was \$18.4 million, \$17.5 million and \$14.1 million in 2009, 2008 and 2007.

On October 16, 2009, the Company purchased its Americas division headquarters located in Plainfield, Indiana for \$31.0 million plus closing costs and commissions from KPJV 501 Airtech Parkway, LLC. The Company had been the tenant in an operating lease for the property. There were ten years remaining on the initial lease term, with five year renewal option periods extending to 2044. The sum of the remaining minimum lease payments for the remaining ten years of the initial lease term was \$43.1 million. The purchase was financed using availability on the Company's Global Credit Facility. The Company is not currently pursuing any other financing agreement for the property.

## 7. Lease Arrangements

The Company leases its office and warehouse space as well as certain furniture and equipment under operating leases. Total rent expense charged to continuing operations for these operating leases was \$16.7 million, \$19.6 million and \$14.8 million for 2009, 2008 and 2007. As discussed in Note 6 above, in October 2009 the Company purchased its Americas division headquarters. The Company had been the tenant in an operating lease for the property. Rent expense associated with the Company's Americas division headquarters was approximately \$2.6 million for 2009 and \$3.2 million for 2008 and 2007.

The aggregate future minimum payments on the above leases are as follows (in thousands):

<u>Year ending December 31,</u>	
2010	\$ 12,180
2011	10,184
2012	6,637
2013	5,418
2014	3,457
Thereafter	6,325
	<u>\$ 44,201</u>

## 8. Borrowings

The table below summarizes the borrowings that were available to the Company as of December 31, 2009 (in thousands):

	<u>Gross Availability</u>	<u>Outstanding</u>	<u>Letters of Credit &amp; Guarantees</u>	<u>Net Availability</u>
Global Term Loans	\$ 97,017	\$ 97,017	\$ --	\$ --
Global Credit Facility	300,000	--	797	299,203
Other	46,500	--	38	46,462
Total	<u>\$ 443,517</u>	<u>\$ 97,017</u>	<u>\$ 835</u>	<u>\$345,665</u>

On February 16, 2007, the Company entered into a credit agreement (Credit Agreement) by and among the Company (and certain of its subsidiaries identified therein), Banc of America Securities LLC, as sole lead arranger and book manager, General Electric Capital Corporation, as syndication agent, ABN AMRO Bank N.V., as documentation agent, Wells Fargo Bank, N.A., as documentation agent, Bank of America, N.A., as administration agent and the other lenders party thereto. The Credit Agreement established a five year senior secured revolving credit facility with a line of credit in the initial amount of \$165.0 million (Global Credit Facility). The Global Credit Facility contained an uncommitted accordion facility pursuant to which the Company was able to increase the total commitment under the revolving credit facility to \$240.0 million. The Credit Agreement is subject to certain financial covenants and is secured by a lien on certain of the Company's property and a pledge of the voting stock issued by certain of its subsidiaries. The Credit Agreement matures in February 2012.

On July 31, 2007 the parties to the Credit Agreement entered into the First Amendment to the Credit Agreement (the "First Amendment"), which, among other things, resulted in: (i) an increase in the amount available under the Global Credit Facility from \$240.0 million to \$300.0 million, (ii) the extension to the domestic borrowers of a term loan in an original principal amount of \$125.0 million, (iii) the extension to the foreign borrowers, including one of the Dangaard companies, of a term loan in an original principal amount equivalent to \$125.0 million (denominated in Euros) (together with (ii), "the Global Term Loans"), (iv) the addition to the Credit Agreement of two Dangaard Telecom companies as foreign borrowers and five other Dangaard Telecom companies as foreign guarantors, and (v) increased commitments, in certain cases, from existing members of the bank group, and new commitments from other lenders who became new members of the bank group upon the closing of the First Amendment.

The Global Credit Facility and the Global Term Loans bear interest at a base rate plus an adjustment based on the Company's consolidated leverage ratio. The base rate for borrowings under the Global Credit Facility is LIBOR plus the applicable rate. The weighted average interest rate at December 31, 2009 including the effect of interest rate swaps was approximately 3.6%.

At December 31, 2009, the Company and its subsidiaries were in compliance with the covenants in each of its credit agreements. For the years ended December 31, 2009, 2008 and 2007, interest expense, which approximates cash payments of interest, was \$10.0 million, \$24.0 million and \$17.8 million. Interest expense includes interest on outstanding debt, charges for accounts receivable factoring programs, fees paid for unused capacity on credit lines and amortization of deferred financing fees.

Principal payments on the debt discussed above, excluding the effects of permitted prepayments which may be made under the Credit Agreement, for the next five years are expected to be as follows (in thousands):

<u>Year ending December 31,</u>	
2010	\$ --
2011	39,146
2012	57,871
2013	--
2014	--
	<u>\$ 97,017</u>

## 9. Guarantees

Guarantees are recorded at fair value and disclosed, even when the likelihood of making any payments under such guarantees is remote.

In some circumstances, the Company purchases inventory with payment terms requiring letters of credit. As of December 31, 2009, the Company has issued \$3.6 million in standby letters of credit. These standby letters of credit are generally issued for a one-year term. The underlying obligations for which these letters of credit have been issued are recorded in the financial statements at their full value. Should the Company fail to pay its obligation to one or all of these suppliers, the suppliers may draw on the standby letter of credit issued for them. As of December 31, 2009 the maximum future payments under these letters of credit are \$3.6 million.

The Company has entered into indemnification agreements with its officers and directors, to the extent permitted by law, pursuant to which the Company has agreed to reimburse its officers and directors for legal expenses in the event of litigation and regulatory matters. The terms of these indemnification agreements provide for no limitation to the maximum potential future payments. The Company has a directors and officers insurance policy that may, in certain instances, mitigate the potential liability and payments.

## 10. Shareholder's Equity

The Company has authorized 1.0 million shares of preferred stock, which remain unissued. The Board of Directors has not yet determined the preferences, qualifications, relative voting or other rights of the authorized shares of preferred stock.

### *Treasury Stock*

As of December 31, 2009 the Company has repurchased a total of 10.3 million shares of its common stock at a weighted average price of \$8.21 totaling \$84.6 million.

On July 28, 2009 the Company announced that its board of directors approved the repurchase of up to \$50 million of Brightpoint common shares (the Share Repurchase Program). The share repurchase program will expire on July 31, 2011. On October 1, 2009 the Company entered into a settlement agreement with NC Telecom Holding A/S (NC Holding), which provided for Brightpoint to purchase 3 million shares of Brightpoint common stock from NC Holding for \$15.5 million. These shares were purchased under the Share Repurchase Program. Under the settlement agreement, the Company's indemnification claims previously made against NC Holding pursuant to the 2007 Dangaard Telecom acquisition agreement have been settled. The Company recorded a non-cash settlement gain of approximately \$7.7 million as a result of the settlement agreement, which represented the difference between the price paid for the 3 million shares and the fair value of the shares.

Through December 31, 2009 the Company had repurchased 3.2 million Brightpoint shares worth an aggregate of approximately \$24.2 million for approximately \$16.5 million in cash and at an average purchase price of \$5.22 per share under the Share Repurchase Program.

In January 2010, the Company's board of directors approved the increase of its previously announced share repurchase plan by \$30 million, allowing aggregate share repurchases of up to \$80 million. On January 15, 2010 the Company repurchased 9.2 million shares of Brightpoint stock from Partner Escrow Holding A/S, an affiliate of NC Telecom Holding A/S (f/k/a Dangaard Holding A/S) for \$6.20 per share as part of the program. Funds for the repurchases were provided by borrowings from availability under the Company's Global Line of Credit. In February 2010, the Company repurchased an additional 334,304 shares for an aggregate purchase price of \$2.4 million through open market transactions. On February 22, 2010, the

Company's Board of Directors approved the increase of the Share Repurchase Program by \$25 million, allowing aggregate share repurchases of up to \$105 million.

As a result of these transactions, the Company has repurchased a total of 12,732,364 shares at a weighted average price of \$5.98 per share under the share repurchase program. This represents approximately 14% of the Company's total shares outstanding.

Repurchases may be made from time to time through open market or privately negotiated transactions or otherwise. This is the only share repurchase program currently in place. After the above repurchases and the \$25 million increase approved in February, the Company has approximately \$28.9 million available under the Share Repurchase Program. The Company believes that it will have sufficient liquidity to complete the Share Repurchase Program.

## **11. Legal Proceedings and Contingencies**

### *LN Eurocom*

On June 11, 2008 LN Eurocom ("LNE") filed a lawsuit in the City Court of Frederiksberg, Denmark against Brightpoint Smartphone A/S and Brightpoint International A/S, each a wholly-owned subsidiary of the Company (collectively, "Smartphone"). The lawsuit alleges that Smartphone breached a contract relating to call center services performed or to be performed by LNE. The total amount now claimed is approximately 13 million DKK (approximately \$2.5 million as of December 31, 2009). Smartphone disputes this claim and intends to vigorously defend this matter.

### *Fleggaard group of companies*

The former headquarters of Dangaard Telecom was located in premises rented from a member of the Fleggaard group of companies, which was a former shareholder of Dangaard Telecom. A fire in March 2006 caused by another tenant in the building destroyed the headquarters and Dangaard Telecom had to leave the building while awaiting renovation of its space. Because of Fleggaard's failure to renovate the space, Dangaard Telecom terminated the lease. Fleggaard has disputed the lease termination and has claimed \$1.4 million in damages. Dangaard Telecom continues to dispute this claim and intends to vigorously defend this matter.

### *Norwegian tax authorities*

Dangaard Telecom's subsidiary, Dangaard Telecom Norway AS Group, received notice from the Norwegian tax authorities regarding tax claims in connection with certain capital gains. The Norwegian tax authorities have claimed \$2.7 million. Dangaard Telecom Norway AS Group has disputed this claim; however, The Norwegian Tax Authorities ruled against Dangaard Telecom Norway AS in April 2008. On February 3, 2009, the Norwegian Tax Authorities determined that the capital gains were within Brightpoint Norway's core business and, therefore, that Brightpoint Norway was responsible for tax on the gain in the amount of 8.1 million NOK (approximately \$1.4 million as of December 31, 2009). Brightpoint Norway has filed its appeal of this determination by the initiation of court proceedings. On February 19, 2010 the magistrate hearing the appeal ruled in favor of the Norwegian Tax Authorities. Brightpoint Norway is currently analyzing the ruling and determining whether it will appeal the ruling to a higher authority. The former shareholders of Dangaard Telecom agreed to indemnify Dangaard Holding with respect to 80% of this claim when Dangaard Holding acquired Dangaard Telecom, and Dangaard Holding agreed in the purchase agreement with the Company to transfer and assign these indemnification rights to the Company (or enforce them on our behalf if such transfer or assignment is not permitted).

### *German tax authorities*

Dangaard Telecom's subsidiary, Dangaard Telecom Germany Holding GmbH, received notice from the German tax authorities regarding tax claims in connection with the deductibility of certain stock adjustments and various fees during the period 1998 to 2002. Dangaard Telecom Germany Holding GmbH agreed to pay part of the claim, and the current amount in dispute is \$1.8 million. Dangaard Telecom Germany Holding GmbH continues to dispute this claim and intends to defend this matter vigorously. The former shareholders of Dangaard Telecom are obliged to indemnify Dangaard Holding with respect to any such tax claims. Due to the claim's limited size, however, it will be below an agreed upon threshold, therefore the indemnification would not be activated by this claim if no other claims for indemnification have been or are asserted.

### *Sofaer Global Hedge Fund*

In September 2009, Sofaer Global Hedge Fund ("Sofaer GHF") filed a complaint against Brightpoint, Inc. and Brightpoint's CEO Robert Laikin ("Laikin") in the U.S. District Court in Indiana alleging that Laikin made materially false and misleading statements to Michael Sofaer ("Sofaer"), the head of Sofaer GHF. The central allegation is that Sofaer GHF reasonably and detrimentally relied upon Laikin's statements in making a \$10 million loan to Chinatron Group Holdings Ltd., a company that

owed money to Brightpoint and in which John Maclean Arnott is the Managing Director. Sofaer GHF brought the action for damages resulting from Brightpoint's alleged fraudulent misrepresentations and based upon their alleged detrimental reliance (promissory estoppel) upon these statements, from which Brightpoint is claimed to have benefited. The Company disputes these claims and intends to vigorously defend this matter.

### *Drillisch*

On January 29, 2010, Drillisch AG ("Drillisch") commenced litigation against Brightpoint Germany GmbH ("Brightpoint Germany") with the Krefeld District Court seeking approximately EUR 1.8 million (approximately \$2.6 million as of December 31, 2009) in damages. Drillisch claims Brightpoint Germany failed to provide Drillisch credits for Brightpoint Germany's alleged failure to achieve certain outbound shipping service levels it claims Brightpoint Germany owed to it and several of its affiliates in connection with Brightpoint Germany's performance of logistics services. Brightpoint Germany disputes this claim and intends to vigorously defend this matter.

## 12. Quarterly Results of Operations (Unaudited)

2009	First	Second	Third	Fourth
Revenue	\$ 696,444	\$ 715,314	\$ 867,915	\$ 905,610
Gross profit	61,413	61,091	72,197	81,119
Income (loss) from continuing operations	(2,708)	3,784	14,664	19,315
Net income (loss)	(3,073)	167	11,170	18,292
Net income (loss) attributable to common shareholders	(3,073)	167	11,170	18,292
Earnings per share-basic:				
Income (loss) from continuing operations	\$ (0.03)	\$ 0.05	\$ 0.18	\$ 0.25
Net income (loss)	\$ (0.03)	\$ -	\$ 0.14	\$ 0.24
Earnings per share-diluted:				
Income (loss) from continuing operations	\$ (0.03)	\$ 0.05	\$ 0.18	\$ 0.24
Net income (loss)	\$ (0.03)	\$ 0.01	\$ 0.14	\$ 0.23

2008	First	Second	Third	Fourth
Revenue	\$ 1,142,074	\$ 1,158,415	\$ 1,166,910	\$ 961,347
Gross profit	86,798	85,779	85,029	75,799
Income (loss) from continuing operations	3,675	4,815	8,478	(343,359)
Net income (loss)	914	(2,138)	5,513	(346,041)

Earnings per share-basic:				
Income (loss) from continuing operations	\$ 0.05	\$ 0.06	\$ 0.11	\$ (4.35)
Net income (loss)	\$ 0.01	\$ (0.03)	\$ 0.07	\$ (4.38)
Earnings per share-diluted:				
Income (loss) from continuing operations	\$ 0.05	\$ 0.06	\$ 0.10	\$ (4.35)
Net income (loss)	\$ 0.02	\$ (0.03)	\$ 0.06	\$ (4.38)

Note: Information in any one quarterly period should not be considered indicative of annual results due to the effects of seasonality on the Company's business in certain markets. The 2009 information presented above reflects:

- the restructuring charges as more fully described in Note 4 to the Consolidated Financial Statements;
- a \$7.7 million non-cash, non-taxable gain on the settlement of an indemnification claim with Nordic Capital in the fourth quarter of 2009 as more fully described in Note 10 to the Consolidated Financial Statements;
- a \$3.2 million income tax benefit for the reversal of a valuation allowance on certain foreign tax credit carryforwards that are more likely than not be able to utilized prior to their expiration;
- and \$7.2 million income tax expense related to valuation allowances on deferred tax assets resulting from previous net operating losses in certain countries.

Prior to the fourth quarter of 2009, the Company reported revenue for the sales of prepaid airtime under certain agreements using the gross method (based on the full sales price of the airtime to its customers). This change only impacts the reporting of revenue and cost of revenue and does not impact gross profit. Below summarizes the Company's revenue for the first three quarters of 2009 had the revenue from these agreements been reported on a net basis for each period:

<b>2009</b>	<b>First</b>	<b>Second</b>	<b>Third</b>
Revenue	\$ 679,700	\$ 695,707	\$ 846,005
Gross profit	61,413	61,091	72,197

### 13. Accounts Receivable Factoring

The Company has an agreement with an unrelated third-party for the factoring of specific accounts receivable in Spain in order to reduce the amount of working capital required to fund such receivables. The Company's Credit Agreement permits the factoring of up to \$250 million of receivables in operations outside of the U.S. The factoring of accounts receivable under this agreement is accounted for as a sale in accordance with ASC 860, *Transfers and Servicing*, and accordingly, is accounted for as an off-balance sheet arrangement. Proceeds on the transfer reflect the face value of the account less a discount. The discount is recorded as a charge in "Interest, net" in the Consolidated Statement of Operations in the period of the sale.

Net funds received reduced accounts receivable outstanding while increasing cash. The Company is the collection agent on behalf of the third party for the arrangement and has no significant retained interests or servicing liabilities related to the accounts receivable that have been sold.

As previously disclosed in the Company's Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2009, the factoring agreement for the Germany operation terminated in July 2009. As of December 31, 2008 the Company had sold \$50.6 million of accounts receivable under this agreement.

At December 31, 2009 and 2008, the Company had sold \$5.0 million and \$59.8 million of accounts receivable pursuant to these agreements, which represents the face amount of total outstanding receivables at those dates. Fees paid pursuant to these agreements were \$0.8 million and \$3.1 million for the years ended December 31, 2009 and 2008.

### 14. Accumulated Other Comprehensive Income (loss)

The components of accumulated other comprehensive income (loss) are as follows (in thousands):

	<b>2009</b>	<b>2008</b>	<b>2007</b>
Currency translation of foreign investments	\$ 18,562	\$ 269	\$ 45,170
Unrealized gain on marketable securities classified as available for sale, net of tax:	-	-	1,159
Unrealized loss on derivative instruments, net of tax:	(2,064)	(2,817)	(1,598)
Pension benefit obligation, net of tax:	(760)	(560)	(428)
Total accumulated other comprehensive income (loss):	<u>\$ 15,738</u>	<u>\$ (3,108)</u>	<u>\$ 44,303</u>

## Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders  
Brightpoint, Inc.

We have audited the accompanying Consolidated Balance Sheets of Brightpoint, Inc. as of December 31, 2009 and 2008, and the related Consolidated Statements of Operations, Shareholders' Equity and Cash Flows for each of the three years in the period ended December 31, 2009. Our audits also include the financial statement schedule listed in Item 15(a)(2). These financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Brightpoint, Inc. as of December 31, 2009 and 2008 and the consolidated results of its operations and its cash flows for each of the three years in the period ended December 31, 2009, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly in all material respects the financial information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Brightpoint, Inc.'s internal control over financial reporting as of December 31, 2009, based on the criteria established in Internal Control — Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 26, 2010 expressed an unqualified opinion thereon.

## Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders  
Brightpoint, Inc.

We have audited Brightpoint, Inc.'s internal control over financial reporting as of December 31, 2009, based on criteria established in Internal Control — Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). Brightpoint, Inc.'s management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material misstatement exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Brightpoint, Inc. maintained, in all material respects, effective internal control over financial reporting as of December 31, 2009, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Consolidated Balance Sheets of Brightpoint, Inc. as of December 31, 2009 and 2008 and the related Consolidated Statements of Operations, Shareholders' Equity, and Cash Flows for each of the three years in the period ended December 31, 2009 and the financial statement schedule listed in Item 15(a)(2) of Brightpoint, Inc. and our report dated February 26, 2010 expressed an unqualified opinion thereon.

## **Item 9. Changes in and disagreements with Accountants on Accounting and Financial Disclosure.**

None.

## **Item 9A. Controls and Procedures.**

### **Disclosure Controls and Procedures**

The Company, under the supervision and with the participation of its management, including its Principal Executive Officer and Principal Financial Officer has evaluated the effectiveness of its disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) as of the end of the period covered by this annual report on Form 10-K. Based on that evaluation, the Principal Executive Officer and Principal Financial Officer have concluded that the Company's disclosure controls and procedures are effective.

### **Changes in Internal Control Over Financial Reporting**

The Principal Executive Officer and Principal Financial Officer also conducted an evaluation of the Company's internal control over financial reporting (as defined in Exchange Act Rule 13a-15(f)) ("Internal Control") to determine whether any changes in Internal Control occurred during the quarter ended December 31, 2009 that have materially affected or which are reasonably likely to materially affect Internal Control. Based on that evaluation, there has been no change in the Company's internal control over financial reporting during the most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, internal control over financial reporting.

### **Management's Report on Internal Control Over Financial Reporting**

Management evaluated the effectiveness of the Company's internal control over financial reporting as of December 31, 2009 using the criteria set forth in Internal Control - Integrated Framework founded by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation, management of Brightpoint, Inc. has concluded that the Company's internal control over financial reporting was effective as of December 31, 2009.

The management of Brightpoint, Inc. is responsible for the preparation and integrity of the Company's Consolidated Financial Statements, establishing and maintaining adequate internal control over financial reporting for the Company and all related information appearing in this Annual Report on Form 10-K. The Company maintains accounting and internal control systems which are intended to provide reasonable assurance that assets are safeguarded against loss from unauthorized use or disposition, transactions are executed in accordance with management's authorization and accounting records are reliable for preparing financial statements in accordance with U.S. generally accepted accounting principles. A staff of internal auditors regularly monitors, on a worldwide basis, the adequacy and effectiveness of internal accounting controls. The Vice-President of Internal Audit reports directly to the audit committee of the board of directors.

Because of its inherent limitations, internal control over financial reporting can provide only reasonable assurance that the objectives of the control system are met and may not prevent or detect misstatements. In addition, any evaluation of the effectiveness of internal controls over financial reporting in future periods is subject to risk that those internal controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

The financial statements for each of the years covered in this Annual Report on Form 10-K have been audited by independent registered public accounting firm, Ernst & Young LLP. Additionally, Ernst & Young LLP has provided an independent assessment as to the fairness of the financial statements and an attestation report on the Company's internal control over financial reporting as of December 31, 2009.

**Audit Committee Oversight**

The Board of Directors has appointed an Audit Committee whose current three members are not employees of the Company. The Board of Directors has also adopted a written charter that establishes the roles and responsibilities of the Audit Committee. Pursuant to its charter, the Audit Committee meets with certain members of management, internal audit and the independent auditors to review the results of their work and satisfy itself that its responsibilities are being properly discharged. The independent auditors have full and free access to the Audit Committee and have discussions with the Audit Committee regarding appropriate matters, with and without management present.

**Item 9B. Other Information.**

None.

## **PART III**

### **Item 10. Directors and Executive Officers of the Registrant.**

The information required by this item is incorporated by reference to the Company's Definitive Proxy Statement related to the Company's Annual Meeting of Shareholders to be held in 2010, which will be filed with the Securities and Exchange Commission no later than 120 days following the end of the 2009 fiscal year.

#### **Code of Business Conduct**

We have adopted a Code of Business Conduct that applies to our employees, including our Directors and Executive Officers. Copies of our Code of Business Conduct are available on our website ([www.brightpoint.com](http://www.brightpoint.com)) and are also available without charge upon written request directed to Investor Relations, Brightpoint, Inc., 7635 Interactive Way, Suite 200, Indianapolis, Indiana 46278. If we make changes to our Code of Business Conduct in any material respect or waive any provision of the Code of Business Conduct for any of our Directors or Executive Officers, we expect to provide the public with notice of any such change or waiver by publishing a description of such event on our corporate website, [www.brightpoint.com](http://www.brightpoint.com), or by other appropriate means as required by applicable rules of the United States Securities and Exchange Commission.

### **Item 11. Executive Compensation.**

The information required by this item is incorporated by reference to the Company's Definitive Proxy Statement related to the Company's Annual Meeting of Shareholders to be held in 2010, which will be filed with the Securities and Exchange Commission no later than 120 days following the end of the 2009 fiscal year.

### **Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Shareholder Matters.**

The information required by this item is incorporated by reference to the Company's Definitive Proxy Statement related to the Company's Annual Meeting of Shareholders to be held in 2010, which will be filed with the Securities and Exchange Commission no later than 120 days following the end of the 2009 fiscal year.

### **Item 13. Certain Relationships and Related Transactions, and Director Independence.**

The information required by this item is incorporated by reference to the Company's Definitive Proxy Statement related to the Company's Annual Meeting of Shareholders to be held in 2010, which will be filed with the Securities and Exchange Commission no later than 120 days following the end of the 2009 fiscal year.

## Item 14. Principal Accountant Fees and Services.

The information required by this item is incorporated by reference to the Company's Definitive Proxy Statement related to the Company's Annual Meeting of Shareholders to be held in 2010, which will be filed with the Securities and Exchange Commission no later than 120 days following the end of the 2009 fiscal year.

## PART IV

## Item 15. Exhibits and Financial Statement Schedules.

### (a) (1) Financial Statements

The consolidated financial statements of Brightpoint, Inc. are filed as part of this report under Item 8.

### (a) (2) Financial Statement Schedules

#### Schedule II – Valuation and Qualifying Accounts

All other schedules are omitted because they are not applicable or the required information is shown in the financial statements or notes thereto.

### (a) (3) Exhibits

(A) Each of the named subsidiaries is not necessarily a “significant subsidiary” as defined in Rule 1-02 (w) of Regulation S-X, and Brightpoint has several additional subsidiaries not named above. The unnamed subsidiaries, considered in the aggregate as a single subsidiary, would not constitute a “significant subsidiary” at the end of the year covered by this report.

**CONSENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

We consent to the incorporation by reference in the following Registration Statements:

- Registration Statement (Form S-8 No. 333-87863) pertaining to the Brightpoint, Inc. 1994 Stock Option Plan, as amended, the 1996 Brightpoint, Inc. Stock Option Plan, as amended, the Brightpoint, Inc. Non-employee Director Stock Option Plan and the Brightpoint, Inc. Employee Stock Purchase Plan,
- Registration Statement (Form S-8 No. 333-108496) pertaining to the Brightpoint, Inc. Amended and Restated Independent Director Stock Compensation Plan
- Registration Statement (Form S-8 No. 333-118769) pertaining to the Brightpoint, Inc. 2004 Long-Term Incentive Plan, and
- Registration statement (Form S-8 No. 333-160388) pertaining to an additional 9,173,953 shares under the 2004 Long-Term Incentive Plan, as amended

of our reports dated February 26, 2010, with respect to the consolidated financial statements and schedule listed in Item 15(a) (2) of Brightpoint, Inc. and the effectiveness of internal control over financial reporting of Brightpoint, Inc., included in this Annual Report (Form 10-K) for the year ended December 31, 2009.

*Ernst + Young LLP*

Indianapolis, Indiana  
February 26, 2010

**Certification of Principal Executive Officer**

I, Robert J. Laikin, certify that:

1. I have reviewed this report on Form 10-K of Brightpoint, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Chairman of the Board and Chief Executive Officer  
(Principal Executive Officer)

**Certification of Principal Financial Officer**

I, Anthony W. Boor, certify that:

1. I have reviewed this report on Form 10-K of Brightpoint, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**CAUTIONARY STATEMENTS**

Certain information in this Form 10-K may contain forward-looking statements regarding future events or the future performance of the Company. These risk factors include, without limitation, uncertainties relating to customer plans and commitments, including, without limitation, (i) the loss or reduction in orders from principal customers or a reduction in the prices we are able to charge these customers could cause our revenues to decline and impair our cash flows; (ii) we buy a significant amount of our products from a limited number of suppliers, and they may not provide us with competitive products at reasonable prices when we need them in the future; (iii) our business could be harmed by consolidation of mobile operators; (iv) the current economic downturn could cause a severe disruption in our operations; (v) fluctuations in regional demand patterns and economic factors could harm our operations; (vi) our debt facilities could prevent us from borrowing additional funds, if needed; (vii) collections of our accounts receivable; (viii) our reliance on suppliers to provide trade credit facilities to adequately fund our on-going operations and product purchases; (ix) a significant percentage of our revenues are generated outside of the United States in countries that may have volatile currencies or other risks; (x) the impact that seasonality may have on our business and results; (xi) we make significant investments in the technology used in our business and rely on that technology to function effectively without interruptions; (xii) our future operating results will depend on our ability to maintain volumes and margins; (xiii) our ability to expand and implement our future growth strategy, including acquisitions; (xiv) uncertainty regarding whether wireless equipment manufacturers and wireless network operators will continue to outsource aspects of their business to us; (xv) our reliance upon third parties to manufacture products which we distribute and reliance upon their quality control procedures; our ability to retain existing logistic services customers at acceptable returns upon expiration of existing agreements; (xvi) rapid technological changes in the wireless industry could render our services or the products we handle obsolete or less marketable; (xvii) effect of natural disasters, epidemics, hostilities or terrorist attacks on our operations; (xviii) intense industry competition; (xix) our ability to manage and sustain future growth at our historical or current rates; (xx) our ability to continue to enter into relationships and financing that may provide us with minimal returns or losses on our investments; (xxi) our implementation of European Centers of Excellence may not be successful; (xxii) our ability to attract and retain qualified management and other personnel, the cost of complying with labor agreements and high rate of personnel turnover; (xxiii) protecting our proprietary information; (xxiv) our dependence on our computer and communications systems; (xxvi) uncertainty regarding future volatility in our Common Stock price; (xxvii) potential dilution to existing shareholders from the issuance of securities under our long-term incentive plans (xxviii) the existence of anti-takeover measures. Because of the aforementioned uncertainties affecting our future operating results, past performance should not be considered to be a reliable indicator of future performance, and investors should not use historical trends to anticipate future results or trends. The words “believe,” “expect,” “anticipate,” “estimate” “intend,” “likely”, “will”, “should” and “plan” and similar expressions identify forward-looking statements. Readers are cautioned not to place undue reliance on any of these forward-looking statements, which speak only as of the date that such statement was made. We undertake no obligation to update any forward-looking statement.

Anurag Gupta	45	President, Europe, Middle East and Africa
Eliza Hermann (1)(2)	48	Class I Director
Cynthia L. Lucchese (3)	49	Class I Director
Gov. Thomas J. Ridge (4)	64	Class III Director
Marisa E. Pratt (3)	45	Class II Director
Richard W. Roedel (1)(3)	60	Class II Director
Jerre L. Stead (1)(2)	67	Class III Director
Kari-Pekka Wilska (4)	62	Class III Director

- (1) Member of the Corporate Governance and Nominating Committee.
- (2) Member of the Compensation and Human Resources Committee.
- (3) Member of the Audit Committee.
- (4) Member of the Strategy Committee.

**Robert J. Laikin** founder of Brightpoint, has served as a member of our board of directors since its inception in August 1989 and serves on its Strategy Committee. Mr. Laikin has been Chairman of the Board and Chief Executive Officer of Brightpoint since January 1994. Mr. Laikin was President of Brightpoint from June 1992 until September 1996 and Vice President and Treasurer of Brightpoint from August 1989 until May 1992. From July 1986 to December 1987, Mr. Laikin was Vice President and, from January 1988 to February 1993, President of Century Cellular Network, Inc., a company engaged in the retail sale of cellular telephones and accessories.

**J. Mark Howell** On June 30, 2008, Mr. Howell returned to his role as President of Brightpoint Americas. Previously, on July 31, 2007, Mr. Howell became our co-chief operating officer and President, Americas. Mr. Howell had served as President of Brightpoint, Inc. since September 1996, President, Americas since March 2001 and was our Chief Operating Officer from August 1995 to April 1998 and from July 1998 to March 2003. He was Executive Vice President, Finance, Chief Financial Officer, Treasurer and Secretary of Brightpoint from July 1994 until September 1996. From July 1992 until joining Brightpoint in 1994, Mr. Howell was corporate controller for ADESA Corporation, a company that owns and operates automobile auctions in the United States and Canada. Prior thereto, Mr. Howell was an accountant with Ernst & Young LLP.

**Anthony W. Boor** has served as Brightpoint's Executive Vice President, Chief Financial Officer and Treasurer since October 2005 and, prior thereto, from June 2005 to October 2005, he served as our acting Chief Financial Officer and acting principal financial officer. From July 2001 until his current appointment, Mr. Boor also served as the Senior Vice President and Chief Financial Officer of our Americas division. Mr. Boor was previously Vice President and Controller of Brightpoint North America L.P. from July 1999 to July 2001 and Director of Business Management of Brightpoint North America from August 1998 to July 1999. Prior to joining Brightpoint, Mr. Boor was employed in various financial positions with Macmillan Publishing, Day Dream, Inc., Ernst & Young LLP, New Mexico State Fairgrounds and The Downs at Albuquerque, KPMG, LLP and Ernst & Whinney. Mr. Boor is a certified public accountant.

**Steven E. Fivel** has served as our Executive Vice President, General Counsel and Secretary since January 1997. From December 1993 until January 1997, Mr. Fivel was an attorney with an affiliate of Simon Property Group, a publicly-held real estate investment trust. From February 1988 to December 1993, Mr. Fivel was an attorney with Melvin Simon & Associates, Inc., a privately-held shopping center development company.

**R. Bruce Thomlinson** has served since August 2007 as President Asia Pacific, Middle East and Africa. From August 2005 until August 2007, Mr. Thomlinson served as our President, Asia-Pacific and President, International Operations, the latter of which he relinquished upon the closing of the Dangaard Telecom acquisition. Prior thereto, until July 2005, he served as President of our Asia-Pacific division from October 1998 and as managing director of Brightpoint Australia, one of our wholly-owned subsidiaries, from October 1996. Prior to joining our management team, Mr. Thomlinson held the position of managing director/director for Hatadicorp Pty Ltd., a company he co-owned from 1989 until it was acquired by Brightpoint in October 1996.

**John Alexander du Plessis Currie** has served as our Executive Vice President and Chief Information Officer since November 2007. Prior thereto he served as our President, Emerging Markets from February 2006 until November 2007. From August 2002 to December 2005, Mr. Currie was the Chairman and Chief Executive Officer of Persequor Limited, a holding company for investments in wireless telecommunications that we subsequently acquired and which is now one of our wholly-owned subsidiaries. From January 1998 to August 2002, Mr. Currie served as the managing director of Brightpoint Middle East FZE, then one of our wholly-owned subsidiaries. Mr. Currie also serves on the board of directors of several of our subsidiaries.

**Anurag Gupta** began his role as President, Europe, Middle East and Africa in January 2010. Mr. Gupta joined Brightpoint as Senior Vice President of Global Strategy and Business Development in April 2003. Before joining Brightpoint, he worked for Motorola, Inc. Mr. Gupta has 20 years of experience in the telecommunications industry in leadership roles at Motorola and Brightpoint in several business areas including: business development, P&L management, strategy, Investor Relations, corporate communications, business planning, product development & marketing, and other various management roles.

**Eliza Hermann** has been a member of our board of directors since January 2003, and is currently chairperson of our Compensation and Human Resources Committee and a member of our Corporate Governance and Nominating Committee. She also serves as a Non-Executive Director on the board of the National Health Service for Hertfordshire in the UK, where she is chairperson of the Finance and Performance Committee, and she holds a Crown appointment as an independent Civil Service Commissioner. She was formerly employed by BP plc from 1985-2008 where she served most recently as Vice President Human Resources at global headquarters for 7 years, and was previously part of the business leadership in the oil and gas exploration and production division for over 10 years. She has particular experience in developing and implementing business strategy, emerging market entry, mergers and acquisitions including pre deal due diligence and post deal integration, and in all aspects of human resources. Throughout her career she has focused on international business, having led projects in over 20 countries in Asia, Europe, the Middle East, the countries of the former Soviet Union, and in North and South America. She was instrumental in the establishment of several Joint Ventures in Russia and Central Asia, and during the late 1990's she was integrally involved in the merger of British Petroleum and Amoco Corporation, participating in the organization design and cultural integration of the two companies.

**Cynthia L. Lucchese** has been a member of our board of directors since August 2009 and is a member of our Audit Committee. Ms. Lucchese was elected Senior Vice President and Chief Financial Officer of Hillenbrand effective February 2008. From 2005 to 2007, she served as Senior Vice President and Chief Financial Officer for Thoratec Corporation. Prior to that, she worked 10 years for Guidant Corporation, now a part of Boston Scientific

Corporation, in a variety of senior finance roles, including Vice President and Treasurer, Corporate Controller and Chief Accounting Officer, and Vice President of Finance and Administration of the Guidant Sales Corporation. Ms. Lucchese also serves on the Audit Committee of the Indiana Sports Corporation, a not-for-profit entity.

**Marisa Pratt** has served as a member of our board of directors since January 2003 and is currently a member of our Audit Committee. Since 2009, Ms. Pratt has held the position of Senior Director of Global Finance at IHS Inc. Prior to that, Ms. Pratt was employed by Eli Lilly and Company, a pharmaceutical company, in various finance and treasury related positions. Ms. Pratt served as Vice President of Corporate Services and Chief Financial Officer of Eli Lilly Canada beginning in October of 2002 and she also served as a member of Eli Lilly Canada's Senior Management team and as the Product Team's Director of Finance.

**Governor Thomas J. Ridge** Governor Ridge has served as a member of our board of directors since September 2009 and is a member of our Strategy Committee. Governor Ridge is President and Chief Executive Officer of Ridge Global, LLC, Washington, D.C., a global strategic consulting company. He has held that position since July 2006. From April 2005 to July 2006, he was President and Chief Executive Officer of Thomas Ridge LLC. From October 2001 to February 2005, Governor Ridge was Secretary of the U.S. Department of Homeland Security. Prior to his service as Secretary of Homeland Security, he was Governor of Pennsylvania from 1995 to 2001. He is a director of The Hershey Company, Exelon Corporation and Vonage Holdings Corp.

**Richard W. Roedel** has served as a member of our board of directors and as chairman of our Audit Committee since October 2002 and currently serves as a member of our Corporate Governance and Nominating Committee. Mr. Roedel is a director, and chairman of the Audit Committee of Sealy Corporation, Lorillard, Inc. and Broadview Network Holdings, Inc., and is a director and member of the Audit Committee of IHS Inc. and Luna Innovations Incorporated, where he also serves as non-executive chairman. He is also a director of the Association of Audit Committee Members, Inc., a non-profit organization. Mr. Roedel was a director and chairman of the Audit Committee of Dade Behring Holdings, Inc. from October 2002 until November 2007 when Dade was acquired by Siemens AG. Mr. Roedel served in various capacities while with Take-Two Interactive Software, Inc. from November 2002 to June 2005, including as its chairman and chief executive officer. From 1999 to 2000, Mr. Roedel was chairman and chief executive officer of the accounting firm BDO Seidman LLP, the United States member firm of BDO International. Before becoming chairman and chief executive officer, he was the managing partner of BDO Seidman's New York metropolitan area from 1994 to 1999, the managing partner of its Chicago office from 1990 to 1994 and an audit partner from 1985 to 1990. Mr. Roedel is a certified public accountant.

**Jerre L. Stead** has served as a member of our board of directors since June 2000 and currently serves as our lead independent director. Mr. Stead is a member of our Compensation and Human Resources Committee and chairman of our Corporate Governance and Nominating Committee. Mr. Stead has been Chairman of IHS Inc. since December 2000 and its Chief Executive Officer since September 2006. From August 1996 to June 2000, Mr. Stead served as Chairman of the Board and Chief Executive Officer of Ingram Micro Inc., a worldwide distributor of information technology products and services. Mr. Stead served as Chairman, President and Chief Executive Officer of Legent Corporation, a software development company from January 1995 until its sale in September 1995. From 1993 through 1994, Mr. Stead was Executive Vice President of American Telephone and Telegraph Company, a telecommunications company, and Chairman and Chief Executive Officer of AT&T Global Information Solutions, a computer and communications company, formerly NCR Corp. Mr. Stead was President of AT&T Global Business Communications Systems, a communications company, from 1991 to 1993. Mr. Stead was Chairman, President and Chief Executive Officer from 1989 to 1991 and president from 1987 to 1989 of Square D Company, an industrial control and electrical distribution products company. In addition, he held numerous positions during a 21-year career at Honeywell. Mr. Stead is currently a Director of Armstrong Holdings, Inc., Conexant Systems, Mobility Electronics, Inc. and TBG Group.

***Kari-Pekka Wilska*** has served as a member of our board of directors since November 2005 and is chairperson of our Strategy Committee. Since November 2005, Mr. Wilska has been a venture partner in Austin Ventures, a venture capital fund that focuses on investing in Texas. Mr. Wilska served in a variety of leadership positions in Nokia's U.S. mobile phone operations from 1993 to 2004, including as President of Nokia, Inc. (Nokia Americas) from 1999 to December 2004 and as President of Vertu Ltd., a subsidiary of Nokia, Inc. From November 2004 until December 2005, Mr. Wilska served as a director of Zarlink Semiconductor Inc., and from December 2005 until it was merged with LSI Corporation, Mr. Wilska served as a director of Agere Systems, a global leader in semiconductors and software solutions for storage, mobility and networking markets. From June 2004 until its merger with American Tower Corporation in August 2005, Mr. Wilska served as a director of SpectraSite, Inc. Mr. Wilska also serves on the boards of directors of 724 Solutions Inc., BlackSand Inc., Sotto Wireless Inc., Mavenir Systems Inc., and PulseWave RF Inc.
