LETTER TO OUR SHAREHOLDERS

2009 was an unprecedented year for the global economy as markets remained weak and the economic outlook uncertain. For Alamo Group, 2009 presented a host of challenges that impacted our results. However, we are proud of the way our Company met these challenges and ended the year in many ways stronger than we started. Despite the obstacles, we remained profitable and positioned the Company to take advantage of the weaker market conditions. As a result, even with lower sales, we achieved higher margins, lower overhead, reduced debt, strong cash flow, an improved balance sheet, a broader product offering and a better market position.

Our sales were certainly impacted by the weak economic conditions which affected nearly all of our market segments, resulting in a 20% decrease compared to 2008. While our profits were actually up for the year, this was heavily influenced by a large, non-operating gain. However, even adjusting for this, our earnings were reasonable given the decline in sales, the amount of restructuring and severance costs we incurred as we adjusted our operations to the lower market activity and the acquisition and reorganization costs related to the purchase of Bush Hog. Achieving this level of profitability in the context of challenging market conditions and a decrease in sales was an accomplishment on its own.

Throughout the year, we worked diligently to offset the sales declines through ongoing cost control initiatives aimed at constantly adjusting our operations to meet changes in demand levels. Over the course of the year the initiatives we undertook in this area resulted in a \$7 million reduction in our operating expenses and a 1.6% gain in gross margin percentage. Equally important, we managed our asset levels in line with lower market activity.  By closely controlling inventory, tightly managing receivables and constraining our capital spending, we generated strong cash flows which we utilized to improve our balance sheet by significantly lowering our debt, net of cash, from \$99.5 million at the end of 2008 to \$32.0 million at the end of 2009. As a result, we are now operating as a leaner, stronger company compared to the start of the year. The obstacles of 2009 certainly provided the impetus for these improvements, but we remain dedicated to continuing these initiatives as we believe they will further benefit us when the economy improves.

Despite the short-term challenges we faced, we never lost sight of the longer-term perspective and continued to invest in new product development and upgrades that will further differentiate us from our competitors. This was not limited to internal developments, as we made one of our largest acquisitions ever in 2009, Bush Hog. This is one of the premier agricultural mowing equipment companies in North America and an excellent addition to Alamo Group that strengthens our overall product offering. This is one example of how we took advantage of the difficult market conditions to continue moving our Company forward. This acquisition, combined with our existing product offering, gives us a stronger market presence and greater economies of scale, which we believe will enhance our performance in 2010 and even more in the years to come as we complete our reorganization initiatives and the market returns to more normalized levels of activity.

While we are pleased with these accomplishments, we are certainly not complacent with our current status. The outlook for the markets we serve and the overall economy remains uncertain. Even if the adverse conditions have bottomed out, we expect the recovery to be slow and will continue to focus on managing our business to match this environment. Not only do we believe we are now right-sized for this reduced level of demand, we have

also become more adept at adjusting our operations to short-term variations. And, as our markets strengthen, our results should grow even faster as margins should improve with increased volumes while overheads should remain lower than they were prior to this downturn. As a result, with the combination of the initiatives we have taken and the addition of Bush Hog, we feel confident that our results will show improvement in both sales and earnings in 2010 and beyond.

In closing, we want to take this opportunity to thank our customers, employees, suppliers and shareholders for their patience and support during these challenging times. We are committed to justifying the trust you have shown in us.

* EBITDA is a non-GAAP financial measure. Defined for this purpose as income from operations plus depreciation, amortization, adjustments for gain on bargain purchase and goodwill impairment.

ALAMO GROUP OPERATING DIVISIONS

Alamo Group is a leader in the design, manufacture, distribution and service of high quality equipment for right-of-way maintenance and agriculture. The Company, founded in 1969, has over 2,340 employees and operates eighteen plants in North America, Europe and Australia as of December 31, 2009. The Corporate offices of Alamo Group are located in Seguin, Texas. The Company's business is divided into three operating divisions: North American Industrial, North American Agricultural and European.

NORTH AMERICAN INDUSTRIAL DIVISION

The North American Industrial Division produces a wide range of equipment focused on maintenance along highways, airports and other right-of-ways and public areas. The main products include mowing equipment, street sweepers, grading/excavating equipment, vacuum trucks, snow removal equipment and related aftermarket parts and services. Brands in this sector include Alamo Industrial, Tiger, Schwarze, Nite-Hawk, Gradall, VacAll, Henke and Schulte. Sales are primarily through independent dealers who sell to governmental entities and related contractors.

NORTH AMERICAN AGRICULTURAL DIVISION

Alamo's North American Agricultural Division manufactures a variety of implements for use by farms and ranches and, to a lesser extent, contractors, landscapers and various other end-users. Our products include mowing equipment, front-end loaders, backhoes, tillage equipment, box blades, augers, rock removal equipment, snow throwers and hay cutting and processing equipment, as well as an extensive range of agricultural aftermarket parts. Sales are through a large network of independent agricultural dealers and distributors. Brands in this division include Bush Hog, Rhino, SMC, Schulte, Herschel, Valu-Bilt and M&W.

EUROPEAN DIVISION

Alamo's European Division services both the agricultural and right-of-way maintenance markets. This Division makes and sells a broad range of boom arm mounted flail and rotary cutters for verge and hedge maintenance, rotary mowers, front-end loaders, backhoes, other agricultural implements, vacuum trucks, high pressure cleaning systems, trenchers and related spare parts. Sales are primarily through a network of independent dealers and distributors to farms, governmental entities, contractors and various other end-users. Our brands in this segment include Bomford, McConnel, Spearhead, Twose, Rousseau, Faucheux, SMA, Rivard and Forges Gorce.

PART I

Item 1. Business

Unless the context otherwise requires, the terms “the Company,” “we,” “our” and “us” refer to Alamo Group Inc. and its subsidiaries on a consolidated basis.

General

The Company is a leader in the design, manufacture, distribution and service of high quality equipment for right-of-way maintenance and agriculture. The Company’s products include tractor-mounted mowing and other vegetation maintenance equipment, street sweepers, excavators, vacuum trucks, snow removal equipment, pothole patchers, zero turn radius mowers, agricultural implements and related aftermarket parts and services. The Company emphasizes high quality, cost effective products for its customers and strives to develop and market innovative products while constantly monitoring and seeking to contain its manufacturing and overhead costs. The Company has a long-standing strategy of supplementing its internal growth through acquisitions of businesses or product lines that currently complement, command, or have the potential to achieve a meaningful share of their niche markets. The Company has 2,340 employees and operates a total of eighteen plants in North America, Europe and Australia. The Company sells its products primarily through a network of independent dealers and distributors, governmental end-users, related independent contractors, as well as to the agricultural and commercial turf markets. The Company operates primarily in the United States, England, France, Canada and Australia.

The predecessor corporation to Alamo Group Inc. was incorporated in the State of Texas in 1969, as a successor to a business that began selling mowing equipment in 1955, and Alamo Group Inc. was reincorporated in the State of Delaware in 1987.

History

Since its founding in 1969, the Company has focused on satisfying customer needs through geographic market expansion, product development and refinement, and selected acquisitions. The Company’s first products were based on rotary cutting technology. Through acquisitions, the Company added flail cutting technology in 1983 and sickle-bar cutting technology in 1984. The Company added to its presence in the industrial and governmental vegetation markets with the acquisition of Tiger Corporation (“*Tiger*”) in late 1994.

The Company entered the agricultural mowing markets in 1986 with the acquisition of Rhino Products Inc. (“*Rhino*”), a leading manufacturer in this field. With this acquisition, the Company embarked on a strategy to increase the *Rhino* dealer distribution network during a period of industry contraction. The addition of M&W Gear Company (“*M&W*”) in early 1995 allowed the Company to enter into the manufacturing and distribution of tillage equipment, which complements the *Rhino* distribution network. *M&W* has been integrated into the agricultural marketing group, utilizing the same sales force to cross sell *Rhino* and *M&W* products.

In 1991, the Company began its international expansion with the acquisition of McConnel Ltd. (“*McConnel*”), a United Kingdom (“U.K.”) manufacturer of vegetation maintenance equipment, principally hydraulic boom-mounted hedge and grass cutters and related parts. Bomford-Turner Ltd. (“*Bomford*”), also a U.K. company, was acquired in 1993. *Bomford* is a manufacturer of heavy-duty, tractor-mounted grass and hedge mowing equipment. *McConnel* and *Bomford* sell their products to dealers and distributors through their respective sales forces.

In 1994, the Company acquired Signalisation Moderne Autoroutiere S.A. (“*SMA*”) located in Orleans, France. *SMA* manufactures and sells principally a line of heavy-duty, tractor-mounted grass and hedge mowing equipment and associated replacement parts primarily to departments of the French government. This acquisition, along with the acquisitions of Forges Gorce, a flail blade manufacturer in France, in 1996 and Rousseau Holdings S.A. (“*Rousseau*”), a leading French manufacturer of hedge and verge mowers, in 2004, when combined with *McConnel* and *Bomford*, has made the Company one of the largest manufacturers in the European market for the kind of equipment sold by the Company.

In 1995, the Company expanded its business in the agricultural market with the acquisition of Herschel Corporation (“*Herschel*”), a leading manufacturer and distributor of aftermarket farm equipment replacement and wear parts.

In 2000, the Company acquired Schwarze Industries, Inc. ("*Schwarze*"). *Schwarze* is a manufacturer of a broad range of street sweeping equipment which is sold to governmental agencies and contractors. The Company believes the *Schwarze* sweeper products fit the Company's strategy of identifying product offerings with brand recognition in the industrial markets the Company serves. In 2004, the Company purchased the pothole patcher from Wildcat Manufacturing, Inc. The product line was merged into the *Schwarze* operation and is complementary to its current product offerings.

In 2000, the Company purchased the product line and associated assets of Twose of Tiverton Ltd. ("*Twose*") in the U.K. and incorporated its production into the existing facilities at *McConnel* and *Bomford* while maintaining its own sales force and dealer distribution network. *Twose* was a small regional manufacturer of power arm flail mowers and parts, as well as harrows and rollers, which strengthened the Company's market leadership position in the U.K.

In 2000, the Company acquired Schulte Industries Ltd. and its related entities ("*Schulte*"). *Schulte* is a Canadian manufacturer of mechanical rotary mowers, snow blowers, and rock removal equipment. *Schulte* strengthened the Company's Canadian presence in both marketing and manufacturing. It also expanded the Company's range of large, heavy-duty rotary mowers.

In 2001, the Company acquired all of the assets of SMC Corporation ("*SMC*"). *SMC* manufactures front-end loaders and backhoes principally for Original Equipment Manufacturer ("*OEM*") customers and its own *SMC* brand. This acquisition expanded the product range of our agricultural division by branding a line of loaders for *Rhino*.

In 2002, the Company purchased inventory, fixed assets and certain other assets of Valu-Bilt Tractor Parts ("*Valu-Bilt*"), a subsidiary of Quality Stores, Inc., located in Des Moines, Iowa. *Valu-Bilt* is a distributor of new, used and rebuilt tractor parts and other agricultural spare and wear parts sold directly to customers through its catalog and the internet and on a wholesale basis to dealers. Subsequent to the purchase, the operations of *Valu-Bilt* in Des Moines, Iowa, were consolidated into the Company's *Herschel* facility in Indianola, Iowa.

In 2002, the Company purchased substantially all of the assets of Faucheux Industries S.A. ("*Faucheux*"), a leading French manufacturer of front-end loaders and attachments. The Company acquired *Faucheux* out of administration, a form of bankruptcy in France. This acquisition broadened the range of our agricultural implements in the French market which we have expanded in the U.K. as well.

In 2005, the Company, through its European subsidiary Alamo Group (EUR) Ltd., acquired 100% of the issued and outstanding stock of Spearhead Machinery Limited ("*Spearhead*") and subsequently merged its manufacturing operations into *Bomford's* facility. *Spearhead* manufactures a range of tractor-mounted vegetation maintenance equipment, including reach mowers, flail mowers and rotary cutters. This acquisition extends our product lines and market coverage in Europe.

In early 2006, the Company purchased substantially all of the assets of the Gradall excavator business ("*Gradall*") of JLG Industries, Inc. including their manufacturing plant in New Philadelphia, Ohio. *Gradall* is a leading manufacturer of both wheeled and crawler telescopic excavators in North America. This acquisition has enhanced our Industrial Division products which are sold to governmental buyers and related contractors for maintenance along right-of-ways.

In 2006, the Company purchased the vacuum truck and sweeper lines of Clean Earth Environmental Group, LLC and Clean Earth Kentucky, LLC (collectively referred to as "*VacAll*"). This includes the product lines, inventory and certain other assets that relate to this business. The production of the vacuum truck line was moved to the *Gradall* facility in New Philadelphia, Ohio, and the sweeper line was merged into the *Schwarze* product line in Huntsville, Alabama.

In, 2006, the Company acquired 100% of the ownership interests in Nite-Hawk Sweepers LLC ("*Nite-Hawk*"), a manufacturer of truck mounted sweeping equipment primarily for the contract sweeping market, which has expanded its presence in that market and complements its *Schwarze* sweeper line.

On March 6, 2007, the Company purchased Henke Manufacturing Corporation ("*Henke*"), a manufacturer of specialty snow removal attachments. *Henke's* products are mounted on both heavy industrial equipment and medium to heavy-duty trucks. The primary end-users are governmental agencies, related contractors and other industrial users.

On May 30, 2008, the Company acquired Rivard Developpement S.A.S. (“*Rivard*”), a leading French manufacturer of vacuum trucks, high pressure cleaning systems and trenchers. The acquisition broadened the Company’s product offering to its customers in Europe and other markets we serve.

On October 22, 2009, the Company acquired substantially all the assets of Bush Hog, LLC. (“*Bush Hog*”), a leading agricultural equipment manufacturer of rotary cutters, finishing mowers, zero turn radius mowers (“ZTRs”), front-end loaders, backhoes, landscape equipment and a variety of other implements. This acquisition, combined with the Company’s range of agricultural mowers, creates one of the largest manufacturers of agricultural mowers in the world.

Marketing and Marketing Strategy

The Company believes that within the U.S. it is a leading supplier to governmental markets, a major supplier in the U.S. agricultural market, and one of the largest suppliers in the European market for its niche product offerings. The Company’s products are sold through the Company’s various marketing organizations and extensive worldwide dealer and distributor networks under the *Alamo Industrial*[®], *Terrain King*[®], *Tiger*[™], *Gradall*[®], *VacAll*[™], *Schwarze*[®], *Nite-Hawk*[™], *Henke*[®], *Bush Hog*[®], *Rhino*[®], *M&W*[®], *SMC*[™], *Herschel*[™], *Valu-Bilt*[®], *Fuerst*[®], *Schulte*[®], *McConnel*[®], *Bomford*[®], *Spearhead*[™], *Twose*[™], *SMA*[®], *Forges Gorce*[™], *Faucheux*[™], *Rousseau*[™] and *Rivard*[®] trademarks as well as other trademarks and trade names.

Products and Distribution Channels

North American Industrial

Alamo Industrial equipment is principally sold through independent dealers to governmental end-users, related independent contractors and, to a lesser extent, utility and other dealers serving right-of-way maintenance operators and other applications in the U.S. and other countries. Governmental agencies and contractors that perform services for such agencies purchase primarily hydraulically-powered, tractor-mounted mowers, including boom-mounted mowers, other types of cutters and replacement parts for heavy-duty, intensive use applications, including maintenance around highway, airport, recreational and other public areas. A portion of *Alamo Industrial*’s sales includes tractors, which are not manufactured by *Alamo Industrial*.

Tiger equipment includes heavy-duty, tractor- and truck-mounted mowing and vegetation maintenance equipment and replacement parts. *Tiger* sells to state, county and local governmental entities and related contractors, primarily through a network of independent dealers. *Tiger*’s dealer distribution network is independent of *Alamo Industrial*’s dealer distribution network. A portion of *Tiger*’s sales includes tractors, which are not manufactured by *Tiger*.

Schwarze equipment includes air, mechanical broom, and regenerative air sweepers along with high-efficiency environmental sweepers, pothole patchers and replacement parts. *Schwarze* sells its products primarily to governmental agencies and independent contractors, either directly or through its independent dealer network. A portion of *Schwarze*’s sales includes chassis which are not manufactured by *Schwarze*. The Company believes that *Schwarze* complements *Alamo Industrial* because the dealer and/or end-user for both products in many cases are the same.

Gradall produces a range of models based on high-pressure hydraulic telescoping booms which are sold through dealers primarily to governmental agencies, contractors and to a lesser extent the mining industry, steel mills and other specialty applications in the U.S. and other countries. Many of these products are designed for excavation, grading, shaping and similar tasks involved in land clearing, road building or maintenance. These products are available mounted on various types of undercarriages: wheels for full-speed highway travel, wheels for on/off road use, and crawlers.

VacAll produces catch basin cleaners and roadway debris vacuum systems. These units are powerful and versatile with uses including, but not limited to, removal of wet and dry debris, spill elimination and cleaning of sludge beds. *VacAll* also offers a line of sewer cleaners. *VacAll* products are primarily sold through dealers to industrial and commercial contractors as well as governmental agencies. A portion of *VacAll's* sales includes chassis which are not manufactured at the *Gradall* facility.

Nite-Hawk manufactures parking lot sweepers with its unique and innovative hydraulic design. By eliminating the auxiliary engine, *Nite-Hawk* sweepers have proven to be fuel efficient, environmentally conscious, and cost effective to operate. *Nite-Hawk* focuses mainly on and sells direct to parking lot contractors. A portion of *Nite-Hawk's* sales includes chassis which are not manufactured by *Nite-Hawk*.

Henke designs and manufactures snow plows and heavy-duty snow removal equipment, hitches and attachments for trucks, loaders and graders sold primarily through independent truck and industrial dealers. *Henke's* primary end-users are governmental agencies, related contractors and other industrial users.

North American Agricultural

Bush Hog, *Rhino* and *M&W* equipment is generally sold to farmers and ranchers to clear brush, maintain pastures and unused farmland, shred crops and till fields and for haymaking. It is also sold to other customers, such as mowing contractors and construction contractors, for non-agricultural purposes. *Bush Hog* and *Rhino* equipment consists principally of a comprehensive line of tractor-powered equipment, including rotary cutters, finishing mowers, flail mowers, disc mowers, ZTR ride-on mowers, front-end loaders, backhoes, rotary tillers, posthole diggers, scraper blades and replacement parts. This equipment is primarily sold through farm equipment dealers, as well as original equipment manufacturers ("OEMs") and other distributors.

SMC equipment includes a broad line of front-end loaders and backhoes that fit many tractors on the market today. The majority of the products are sold to OEMs and, to a lesser extent, as *Rhino* branded equipment.

Herschel/Valu-Bilt aftermarket replacement parts are sold for many types of farm equipment and tractors and certain types of mowing and construction equipment. *Herschel* products include a wide range of cutting parts, plain and hard-faced replacement tillage tools, disc blades and fertilizer application components. *Herschel* replacement tools and parts are sold throughout the United States, Canada and Mexico to five major customer groups: farm equipment dealers; fleet stores; wholesale distributors; OEMs; and construction equipment dealers. *Valu-Bilt* complements the *Herschel* product lines while also expanding the Company's offering of aftermarket agricultural parts and added catalog and internet sales direct to end-users.

Schulte equipment includes heavy-duty mechanical rotary mowers, snow blowers, rock removal equipment and related replacement parts. *Schulte* serves both the agricultural and industrial markets primarily in Canada and the U.S. *Schulte* also sells some of the Company's other product lines in their markets and some of its products through independent distributors throughout the world.

European

McConnel equipment principally includes a broad line of hydraulic, boom-mounted hedge and grass cutters, as well as other tractor attachments and implements such as hydraulic backhoes, cultivators, subsoilers, buckets and other digger implements and related replacement parts. *McConnel* equipment is sold primarily in the U.K., Ireland and France and in other parts of Europe and, to a lesser extent, throughout the world through independent dealers and distributors.

Bomford equipment includes hydraulic, boom-mounted hedge and hedgerow cutters, industrial grass mowers, agricultural seedbed preparation cultivators and related replacement parts. *Bomford* equipment is sold to governmental agencies, contractors and agricultural end-users in the U.K., Ireland and France and, to a lesser extent, other countries in Europe, North America, Australia and the Far East. *Bomford's* sales network is similar to that of *McConnel* in the U.K. *Rhino* sells some of *Bomford's* product line in the U.S.

SMA equipment includes hydraulic, boom-mounted hedge and hedgerow cutters and related replacement parts. *SMA's* principal customers are French local authorities. *SMA's* product offerings include certain quick-attach boom mowers manufactured by the Company in the U.K. to expand its

presence in agricultural dealerships. *Forges Gorce* manufactures flail blades which are sold to some of the Company's subsidiaries as well as to other customers.

Twose equipment includes light-duty power arm mowers, agricultural implements and related replacement parts. *Twose* products are manufactured at the Company's U.K. facilities. These products are sold through *Twose's* dealer distribution network in the U.K. and through *Faucheux's* and other independent distributors internationally.

The addition of *Spearhead* expanded the Company's product lines, particularly rotary cutters, and market coverage in Europe and increased utilization of our U.K. manufacturing facilities.

Faucheux equipment includes front-end loaders, backhoes, attachments and related parts. Historically, the majority of *Faucheux* sales have been in France, but the Company has expanded market coverage to other countries.

Rousseau sells hydraulic and mechanical boom mowers, primarily in France through its own sales force and dealer distribution network to mainly agricultural and governmental markets. These products have also been introduced into other markets outside of France.

Rivard manufactures vacuum trucks, high pressure cleaning systems and trenchers. *Rivard's* equipment is primarily sold in France and certain other markets, mainly in Europe, to governmental entities and related contractors. It also complements our product offerings in North America.

Replacement Parts

In addition to the sales of *Herschel* replacement parts, the Company derives a significant portion of its revenues from sales of replacement parts for each of its wholegoods lines. Replacement parts represented approximately 24%, 23% and 26% of the Company's total sales for the years ended December 31, 2007, 2008 and 2009, respectively. The percentage increase in 2009 was mainly from a change in sales mix between wholegoods and parts. Proprietary replacement parts generally are more profitable and less cyclical than wholegoods.

While the Company believes that the end-users of its products evaluate their purchases on the basis of price, reputation and product quality, such purchases are also based on a dealer's service, support of and loyalty to the dealer based on previous purchase experiences, as well as other factors such as product and replacement part availability.

Product Development

The Company's ability to provide innovative responses to customer needs, to develop and manufacture new products, and to enhance existing product lines is important to its success. The Company continually conducts research and development activities in an effort to improve existing products and develop new products. As of December 31, 2009, the Company employed 131 people in its various engineering departments, 57 of whom are degreed engineers and the balance of whom are support staff. Amounts expended on research and development activities were approximately \$4,762,000 in 2009, \$5,443,000 in 2008 and \$5,185,000 in 2007. As a percentage of sales, research and development was approximately 1.0% in 2009, 1.0% in 2008 and 1.0% in 2007, and is expected to continue at similar levels in 2010.

Seasonality

The Company's sales, both product and spare parts, are generally higher in the second and third quarters of the year because a substantial number of the Company's products are used for maintenance activities such as vegetation maintenance, highway right-of-way maintenance, construction, and street and parking lot sweeping. Usage of this equipment is lower in harsh weather. The Company utilizes a rolling twelve-month sales forecast provided by the Company's marketing departments and order backlog in order to develop a production plan for its manufacturing facilities. Additionally, many of the Company's marketing departments attempt to equalize demand for products throughout the calendar year by offering seasonal sales programs which may provide additional incentives, including discounts and extended payment terms, under these programs.

Competition

The Company's products are sold in highly competitive markets throughout the world. The principal competitive factors are price, quality, availability, service and reputation. The Company competes with

several large national and international companies that offer a broad range of equipment and replacement parts, as well as numerous small, privately-held manufacturers and suppliers of a limited number of products, mainly on a regional basis. Some of the Company's competitors are significantly larger than the Company and have substantially greater financial and other resources at their disposal. The Company believes that it is able to compete successfully in its markets by effectively managing its manufacturing costs, offering high quality products, developing and designing innovative products and, to some extent, avoiding direct competition with significantly larger potential competitors. There can be no assurance that the Company's competitors will not substantially increase the resources devoted to the development and marketing of products competitive with the Company's products or that new competitors with greater resources will not enter the Company's markets.

Unfilled Orders

As of December 31, 2009, the Company had unfilled customer orders of \$71,333,000 compared to \$64,071,000 at December 31, 2008. The 11% increase was a result of the acquisition of *Bush Hog*. The Company continues to be affected by soft market conditions due to the downturn in the global economy. Management expects that substantially all of the Company's backlog as of December 31, 2009 will be shipped during fiscal year 2010. The amount of unfilled orders at a particular time is affected by a number of factors, including manufacturing and shipping schedules which, in most instances, are dependent on the Company's seasonal sales programs and the requirements of its customers. Certain of the Company's orders are subject to cancellation at any time before shipment; therefore, a comparison of unfilled orders from period to period is not necessarily meaningful and may not be indicative of future actual shipments. No single customer is responsible for supplying more than 10% of the aggregate revenue of the Company.

Sources of Supply

The principal raw materials used by the Company include steel, other metals and hydraulic tubing. During 2009, the raw materials needed by the Company were available from a variety of sources in adequate quantities and at prevailing market prices. No one supplier is responsible for supplying more than 10% of the principal raw materials used by the Company.

While the Company manufactures many of the parts for its products, a significant percentage of parts, including most drivelines, gear boxes, industrial engines, and hydraulic components, are purchased from outside suppliers which manufacture to the Company's specifications. In addition, the Company, through its subsidiaries, purchases tractors and truck chassis as a number of the Company's products are mounted and shipped with a tractor or truck chassis. Tractors and truck chassis are generally available, but some delays in receiving tractors or truck chassis can occur throughout the year. Some of the U.S. truck chassis and industrial engines used in the Company's products and manufactured after January 1, 2010, will be required to meet Tier IV federal guidelines for emission controls, which will increase the cost of our units and our working capital requirements. Other jurisdictions, particularly in Europe, have already implemented similar requirements. The Company sources its purchased goods from international and domestic suppliers. No single supplier is responsible for supplying more than 10% of the purchased goods used by the Company.

Patents and Trademarks

The Company owns various U.S. and international patents. While the Company considers its patents to be advantageous to its business, it is not dependent on any single patent or group of patents. The Company amortizes approximately \$79,000 annually in patents and trademarks relating to the industrial segment. The net book value of the patents and trademarks was \$5,803,000 and \$3,982,000 as of December 31, 2009 and 2008, respectively.

Products manufactured by the Company are advertised and sold under numerous trademarks. *Alamo Industrial*[®], *Terrain King*[®], *Gradall*[®], *VacAll*[™], *Henke*[®], *Bush Hog*[®], *Rhino*[®], *McConnel*[®], *Bomford*[®], *SMA*[®], *Schwarze*[®], *Nite-Hawk*[™], *Tiger*[™], *Schulte*[®], *Forges Gorce*[™], *Twose*[™], *Faucheux*[™], *Herschel*[™], *Valu-Bilt*[®], *Rivard*[®], *Rousseau*[™] and *Spearhead*[™] trademarks are the primary marks for the Company's products. The Company also owns other trademarks which it uses to a lesser extent, such as *M&W*[®], *SMC*[™], *Fuerst*[®], *Triumph*[®], *Mott*[®], *Turner*[®], and *Dandl*[®]. Management believes that the Company's trademarks are well known in its markets and are valuable and that their value is increasing with the development of its business. The Company actively protects its trademarks against infringement and believes it has applied for or registered its trademarks in the appropriate jurisdictions.

Environmental and Other Governmental Regulations

Like other manufacturers, the Company is subject to a broad range of federal, state, local and foreign laws and requirements, including those concerning air emissions, discharges into waterways, and the generation, handling, storage, transportation, treatment and disposal of hazardous substances and waste materials, as well as the remediation of contamination associated with releases of hazardous substances at the Company's facilities and offsite disposal locations, workplace safety and equal employment opportunities. These laws and regulations are constantly changing, and it is impossible to predict with accuracy the effect that changes to such laws and regulations may have on the Company in the future. Like other industrial concerns, the Company's manufacturing operations entail the risk of noncompliance, and there can be no assurance that the Company will not incur material costs or other liabilities as a result thereof.

The Company knows that its Indianola, Iowa property is contaminated with chromium which most likely resulted from chrome plating operations which were discontinued before the Company purchased the property. Chlorinated volatile organic compounds have also been detected in water samples on the property, though the source is unknown at this time. The Company voluntarily worked with an environmental consultant and the state of Iowa with respect to these issues and believes it completed its remediation program in June 2006. The work was accomplished within the Company's environmental liability reserve balance. We requested a "no further action" classification from the state. We received a conditional "no further action" letter in January of 2009. When we demonstrate stable or improving conditions below residential standards by monitoring existing wells, an unconditional "no further action" letter will be requested.

On December 31, 2009, the Company had an environmental reserve in the amount of \$1,608,000 related to the acquisition of *Gradall's* facility in New Philadelphia, Ohio. Three specific remediation projects that were identified prior to the acquisition are in process of remediation with a remaining reserve balance of \$143,000. The Company has a reserve of \$277,000 concerning a potential asbestos issue that is expected to be abated over time. The balance of the reserve, \$1,188,000, is mainly for potential ground water contamination/remediation that was identified before the acquisition and believed to have been generated by a third party company located near the *Gradall* facility.

Certain other assets of the Company contain asbestos that may have to be remediated over time. Management has made its best estimate of the cost to remediate these environmental issues. However, such estimates are difficult to estimate including the timing of such costs. The Company believes that any subsequent change in the liability associated with the asbestos removal will not have a material adverse effect on the Company's consolidated financial position or results of operations.

The Company knows that *Bush Hog's* main manufacturing property in Selma, Alabama is contaminated with chlorinated volatile compounds which most likely resulted from painting and cleaning operations during the 1960s and '70s. The contaminated areas are primarily in the location of underground storage tanks and underneath the former waste storage area. Under the Asset Purchase Agreement, *Bush Hog's* prior owner agreed to remove the underground storage tanks at its cost and is liable for remediating the identified contamination in accordance with the regulations of the Alabama Department of Environmental Management. An environmental consulting firm has been retained by the prior owner and is administering the cleanup.

The Company is subject to various other federal, state, and local laws affecting its business, as well as a variety of regulations relating to such matters as working conditions, equal employment opportunities, and product safety. A variety of state laws regulate the Company's contractual relationships with its dealers, some of which impose restrictive standards on the relationship between the Company and its dealers, including events of default, grounds for termination, non-renewal of dealer contracts and equipment repurchase requirements. The Company believes it is currently in material compliance with all such applicable laws and regulations.

Employees

As of December 31, 2009, the Company employed 2,340 employees. In the U.S. the Company has collective bargaining agreements at the *Gradall* facility which cover 140 employees and will expire in March 2010 and at the *SMC* facility covering 38 employees which will expire on June 30, 2012. The Company's European operations, *McConnel*, *Bomford*, *SMA*, *Forges Gorce*, *Faucheux*, *Rousseau* and *Rivard*, also have various collective bargaining agreements covering 900 employees. The Company considers its employee relations to be satisfactory.

Financial Information about Segments

See Note 15 of the accompanying consolidated financial statements.

International Operations and Geographic Information

See Note 16 of the accompanying consolidated financial statements.

Available Information

The Company files annual, quarterly and current reports, proxy statements and other information with the Securities and Exchange Commission (the "SEC"). You may read and copy any document we file with the SEC at the SEC's Public Reference Room at 100 F Street, NE, Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for information on the operation of the Public Reference Room. The SEC maintains a website that contains annual, quarterly and current reports, proxy and information statements and other information that issuers (including the Company) file electronically with the SEC. The SEC's website is <http://www.sec.gov>.

The Company's website is www.alamo-group.com. The Company makes available free of charge through its website, via a link to the SEC's website at www.sec.gov, its annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and any amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), as soon as reasonably practicable after such material is electronically filed with, or furnished to, the SEC. The Company also makes available through its website, via a link to the SEC's website, statements of beneficial ownership of the Company's equity securities filed by its directors, officers, 10% or greater shareholders and others required to file under Section 16 of the Exchange Act.

The Company also makes available on its website its most recent annual report on Form 10-K, its quarterly reports on Form 10-Q for the current fiscal year, its most recent proxy statement and its most recent annual report to stockholders, although in some cases these documents are not available on our site as soon as they are available on the SEC's site. You will need to have on your computer the Adobe Acrobat Reader® software to view the documents, which are in PDF format. In addition, the Company posts on its website its Charters for its Audit Committee, Compensation Committee and Nominating/Corporate Governance Committee, as well as its Corporate Governance Policies and its Code of Conduct and Ethics for its directors, officers and employees. You can obtain a written copy of these documents, excluding exhibits, at no cost, by sending your request to the Corporate Secretary, Alamo Group Inc., 1627 E. Walnut Street, Seguin, Texas 78155, which is the principal corporate office of the Company. The telephone number is (830) 379-1480 ext. 1670. The information on the Company's website is not incorporated by reference into this report.

Forward-Looking Information

Part I of this Annual Report on Form 10-K and the "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in Part II of this Annual Report contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. In addition, forward-looking statements may be made orally or in press releases, conferences, reports or otherwise, in the future by or on behalf of the Company.

Statements that are not historical are forward-looking. When used by us or on our behalf, the words "will," "estimate," "believe," "intend," "could," "should," "anticipate," "project," "forecast," "plan," "may" and similar expressions generally identify forward-looking statements made by us or on our behalf. Forward-looking statements involve risks and uncertainties. These uncertainties include factors that affect all businesses operating in a global market, as well as matters specific to the Company and the markets we serve. Certain particular risks and uncertainties that continually face us include the following:

- budget constraints and revenue shortfalls which could affect the purchases of our type of equipment by governmental customers and related contractors;
- market acceptance of new and existing products;
- our ability to maintain good relations with our employees;
- our ability to hire and retain quality employees; and
- decreases in the prices of agricultural commodities, which could affect our customers' income levels.

In addition, we are subject to risks and uncertainties facing the industry in general, including the following:

- impact of tighter credit markets on the Company, its dealers and end-users;
- changes in business and political conditions and the economy in general in both domestic and international markets;
- increase in unfunded pension plan liability due to financial market deterioration;
- price and availability of critical raw materials, particularly steel and steel products;
- increased competition;
- our ability to develop and manufacture new and existing products profitably;
- adverse weather conditions such as droughts and floods which can affect the buying patterns of our customers and related contractors;
- increased costs of complying with new regulations which affect public companies;
- the potential effects on the buying habits of our customers due to animal disease outbreaks such as mad cow and other epidemics;
- impairment in the carrying value of goodwill;
- adverse market conditions and credit constraints which could affect our customers, such as cutbacks on dealer stocking levels;
- changes in market demand;
- financial market changes including increases in interest rates and fluctuations in foreign exchange rates;
- actions of competitors;
- the inability of our suppliers, customers, creditors, public utility providers and financial service organizations to deliver or provide their products or services to us;
- seasonal factors in our industry;
- unforeseen litigation;
- changes in domestic and foreign governmental policies and laws, including increased levels of government regulation and changes in agricultural policies;
- government actions including budget levels, regulations and legislation, relating to the environment, commerce, infrastructure spending, health and safety; and
- amount of farm subsidies and farm payments.

We wish to caution readers not to place undue reliance on any forward-looking statement and to recognize that the statements are not predictions of actual future results. Actual results could differ materially from those anticipated in the forward-looking statements and from historical results, due to the risks and uncertainties described above and under "Risk Factors," as well as others not now anticipated. The foregoing statements are not exclusive and further information concerning us and our businesses, including factors that could potentially materially affect our financial results, may emerge from time to time. It is not possible for management to predict all risk factors or to assess the impact of such risk factors on the Company's businesses.

Executive Officers of the Company

Certain information is set forth below concerning the executive officers of the Company, each of whom has been elected to serve until the 2010 annual meeting of directors or until his successor is duly elected and qualified.

| <u>Name</u> | <u>Age</u> | <u>Position</u> |
|--------------------|------------|---|
| Ronald A. Robinson | 57 | President and Chief Executive Officer |
| Dan E. Malone | 49 | Executive Vice President and Chief Financial Officer |
| Robert H. George | 63 | Vice President, Secretary and Treasurer |
| Richard J. Wehrle | 53 | Vice President and Controller |
| Donald C. Duncan | 58 | Vice President and General Counsel |
| Geoff Davies | 62 | Vice President, Alamo Group Inc. and Managing Director, Alamo Group (EUR) Ltd. |
| Richard D. Pummell | 63 | Vice President, Alamo Group Inc. and Executive Vice President Alamo Group (USA) Inc., Agricultural Division |

Ronald A. Robinson was appointed President, Chief Executive Officer and a director of the Company on July 7, 1999. Mr. Robinson had previously been President of Svedala Industries, Inc., the U.S. subsidiary of Svedala Industries AB of Malmo, Sweden, a leading manufacturer of equipment and systems for the worldwide construction, mineral processing and materials handling industries. Mr. Robinson joined Svedala in 1992 when it acquired Denver Equipment Company of which he was Chairman and Chief Executive Officer.

Dan E. Malone was appointed Executive Vice President, Chief Financial Officer on January 15, 2007. Prior to joining the Company, Mr. Malone held the position of Executive Vice President, Chief Financial Officer & Corporate Secretary at Igloo Products Corporation, from 2002 to January 2007. Mr. Malone was Vice President and Chief Financial Officer of The York Group, Inc. from 2000 to 2002 and held various financial positions from 1987 to 2000 with Cooper Industries, Inc. and its various subsidiaries.

Robert H. George joined the Company in May 1987 as Vice President and Secretary/Treasurer and has served the Company in various executive capacities since that time. Prior to joining the Company, Mr. George was Senior Vice President of Frost National Bank from 1978 to 1987.

Richard J. Wehrle has been Vice President and Controller of the Company since May 2001. Prior to his appointment, Mr. Wehrle served in various accounting management capacities within the Company since 1988.

Donald C. Duncan has been General Counsel of the Company since January 2002 and was elected Vice President in February 2003. Prior to joining the Company, Mr. Duncan was counsel for various publicly held companies in Houston, Texas and most recently was Associate General Counsel for EGL, Inc. from 2000 to 2001 and Senior Counsel for Weatherford International Inc. from 1997 to 1999.

Geoff Davies, OBE and PhD, has been Managing Director of Alamo Group (EUR) Ltd. since December 1993 and was elected Vice President of the Company in February 2003. From 1988 to 1993, Dr. Davies served *McConnel* Ltd., a U.K. company acquired by Alamo Group in 1991, in various capacities including serving as its Marketing Director from February 1992 until December 1993.

Richard D. Pummell was elected Vice President of Alamo Group Inc. in November 2009. Mr. Pummell joined the Company in 2005 as Executive Vice President of Alamo Group (USA) Inc. and is in charge of the Agricultural division. Prior to joining the Company, Mr. Pummell was Vice President for Global Supply and General Manager of Metso Minerals.

Item 1A. Risk Factors

You should carefully consider each of the risks described below, together with all of the other information contained in this Annual Report on Form 10-K, before making an investment decision with respect to the Company's securities. If any of the following risks develop into actual events, the Company's business, financial condition or results from operations could be materially and adversely affected and you could lose all or part of your investment.

Risks related to our business

Deterioration of industry conditions could harm our business, results of operations and financial condition.

Our business depends to a large extent upon the prospects for the mowing, right-of-way maintenance and agricultural markets in general. Future prospects of the industry depend largely on factors outside of our control. Any of those factors could adversely impact demand for our products, which could adversely impact our business, results of operations and financial condition. These factors include the following:

- weakness in worldwide economy;
- the price and availability of raw materials, purchased components and energy;
- budget constraints and revenue shortfalls for our governmental customers;
- changes in domestic and foreign governmental policies and laws, including increased levels of governmental regulation;
- the levels of interest rates;
- the value of the U.S. dollar relative to the foreign currencies in countries where we sell our products and in which we don't have a manufacturing presence;
- impact of tighter credit markets on the Company, its dealers and end-users;
- impairment in the carrying value of goodwill; and
- increase in unfunded pension plan liability due to financial market deterioration.

In addition, our business is susceptible to a number of factors that specifically affect agricultural customer spending patterns, including the following:

- animal disease outbreaks, epidemics and crop pests;
- weather conditions, such as droughts and floods;
- changes in farm incomes;
- cattle and agricultural commodity prices;
- changes in governmental agricultural policies worldwide;
- the level of worldwide farm output and demand for farm products; and
- limits on agricultural imports.

A downturn in general economic conditions and outlook in the United States and around the world could adversely affect our net sales and earnings.

The strength and profitability of our business depends on the overall demand for our products and upon economic conditions and outlook, including but not limited to economic growth rates; consumer spending levels; financing availability, pricing and terms for our dealers and end-users; employment rates; interest rates; inflation; consumer confidence and general economic and political conditions and expectations in the United States and the foreign economies in which we conduct business. Slow or negative growth rates, inflationary pressures, higher commodity costs and energy prices, reduced credit availability or unfavorable credit terms for our dealers and end-user customers, increased unemployment rates, and continued recessionary economic conditions and outlook could cause consumers to continue to reduce spending, which may cause them to delay or forego purchases of our products and could have an adverse effect on our net sales and earnings.

We depend on governmental sales and a decrease in such sales could adversely affect us.

A substantial portion of our revenues is derived from sales to federal, state and local governmental entities. These sales depend primarily on the levels of budgeted and appropriated expenditures for highway, airport, roadside and parks maintenance by various governmental entities and are affected by changes in local and national economic conditions.

Our dependence on, and the price and availability of, raw materials as well as purchased components may adversely affect our business, results of operations and financial condition.

We are subject to fluctuations in market prices for raw materials such as steel and energy. Additionally, although most of the raw materials and purchase components we use are commercially available from a number of sources, we could experience disruptions in the availability of such materials. If we are unable to purchase materials we require or are unable to pass on price increases to our customers or otherwise reduce our cost of goods sold, our business, results of operations and financial condition may be adversely affected. In addition, higher energy costs may negatively affect spending by farmers, including their purchases of our products.

Impairment in the carrying value of goodwill could negatively impact our consolidated results of operations and net worth.

The Company estimates the fair value of its reporting units using a discounted cash flow analysis. This analysis requires the Company to make significant assumptions and estimates about the extent and timing of future cash flows, discount rates and growth rates. The cash flows are estimated over a significant future period of time, which makes those estimates and assumptions subject to an even higher degree of uncertainty. The Company also utilizes market valuation models and other financial ratios, which require the Company to make certain assumptions and estimates regarding the applicability of those models to its assets and businesses. The Company believes that the assumptions and estimates used to determine the estimated fair values of each of its reporting units are reasonable. However, different assumptions could materially affect the estimated fair value. The Company recognized goodwill impairment in the North American Industrial segment of \$14,104,000 in 2009 and \$5,010,000 in the North American Agricultural segment in 2008. No goodwill impairment was recorded in 2007. As of December 31, 2009, goodwill was \$35,207,000, which represents 9% of total assets. During the 2009 impairment analysis review, it was noted that even though the Schwarze reporting unit's fair value was above carrying value it was not materially different. On December 31, 2009, there was approximately \$6.8 million of goodwill related to the Schwarze reporting unit. This reporting unit would be most likely affected by changes in the Company's assumptions and estimates. The calculation of fair value could increase or decrease depending on changes in the inputs and assumptions used, such as changes in the reporting unit's future growth rates, discount rates, etc.

We operate in a highly competitive industry, and some of our competitors and potential competitors have greater resources than we do.

Our products are sold in highly competitive markets throughout the world. We compete with several large national and international companies that offer a broad range of equipment and replacement parts that compete with our products, as well as numerous small, privately-held manufacturers and suppliers of a limited number of products mainly on a regional basis. Some of our competitors are significantly larger than we are and have substantially greater financial and other resources at their disposal. We believe that we are able to compete successfully in our markets by, to some extent, avoiding direct competition with significantly larger potential competitors. There can be no assurance that our competitors will not substantially increase the resources devoted to the development and marketing of products competitive with our products or that new competitors with greater resources will not enter our markets. Any failure to effectively compete could have an adverse effect on our business, results of operations and financial condition.

We operate and source internationally, which exposes us to the political, economic and other risks of doing business abroad.

We have operations in a number of countries outside of the United States. Our international operations are subject to the risks normally associated with conducting business in foreign countries, including but not limited to the following:

- limitations on ownership and on repatriation of earnings;
- import and export restrictions, tariffs and quotas;
- additional expenses relating to the difficulties and costs of staffing and managing international operations;
- labor disputes and uncertain political and economic environments and the impact of foreign business cycles;
- changes in laws or policies;

- delays in obtaining or the inability to obtain necessary governmental permits;
- potentially adverse consequences resulting from the applicability of foreign tax laws;
- cultural differences;
- increased expenses due to inflation;
- weak economic conditions in foreign markets where our subsidiaries distribute their products;
- changes in currency exchange rates; and
- disruptions in transportation and port authorities.

Our international operations may also be adversely affected by laws and policies of the United States and the other countries in which we operate affecting foreign trade, investment and taxation.

In addition, political developments and governmental regulations and policies in the countries in which we operate directly affect the demand for our products. For example, decreases or delays in farm subsidies to our agricultural customers, or changes in environmental policies aimed at limiting mowing activities, could adversely affect our business, results of operations and financial condition.

Our acquisition strategy may not be successful, which may adversely affect our business, results of operations and financial condition.

We intend to grow internally and through the acquisition of businesses and assets that will complement our current businesses. To date, a material portion of our growth has come through acquisitions. We cannot be certain that we will be able to identify attractive acquisition targets, obtain financing for acquisitions on satisfactory terms or successfully acquire identified targets. Competition for acquisition opportunities may also increase our costs of making acquisitions or prevent us from making certain acquisitions. These and other acquisition-related factors may adversely impact our business, results of operations and financial condition.

We may be unable to complete or integrate existing or future acquisitions effectively, and businesses we have acquired, or may acquire in the future, may not perform as expected.

We may not be successful in integrating acquired businesses into our existing operations and achieving projected synergies. We could face many risks in integrating acquired businesses, but not limited to the following:

- we may incur substantial costs, delays or other operational or financial challenges in integrating acquired businesses, including integrating each company's accounting, information technology, human resource and other administrative systems to permit effective management;
- we may be unable to achieve expected cost reductions, to take advantage of cross-selling opportunities, or to eliminate redundant operations, facilities and systems;
- we may need to implement or improve controls, procedures and policies appropriate for a public company;
- acquisitions may divert our management's attention from the operation of our businesses;
- we may not be able to retain key personnel of acquired businesses;
- there may be cultural challenges associated with integrating management and employees from the acquired businesses into our organization; and
- we may encounter unanticipated events, circumstances or legal liabilities.

Our integration of acquired businesses requires significant efforts from the management of each entity, including coordinating existing business plans and research and development efforts. Integrating operations may distract management's attention from the day-to-day operation of the combined companies. Ultimately, our attempts to integrate the operations, technology and personnel of acquired businesses may not be successful. If we are unable to successfully integrate acquired businesses, our future results may be negatively impacted.

In addition, we may be adversely affected if businesses that we have acquired, or that we acquire in the future, do not perform as expected. An acquired business could perform below our expectations for a number of reasons, including legislative or regulatory changes that affect the areas in which the acquired business specializes, the loss of customers and dealers, general economic factors that directly affect the acquired business, and the cultural incompatibility of its management team. Any or all of these reasons could adversely affect our business, results of operation and financial condition.

The agricultural industry and the mowing and growth maintenance industry are seasonal and are affected by the weather, and seasonal fluctuations may cause our results of operations and working capital to fluctuate from quarter to quarter.

In general, agricultural and governmental end-users typically purchase new equipment during the first and second calendar quarters. Other products such as street sweepers, excavators, snow blowers, front-end loaders and pothole patchers have different seasonal patterns, as do replacement parts in general. In attempting to achieve efficient utilization of manpower and facilities throughout the year, we estimate seasonal demand months in advance and manufacturing capacity is scheduled in anticipation of such demand. We utilize a rolling twelve-month sales forecast provided by our marketing divisions and order backlog in order to develop a production plan for our manufacturing facilities. Additionally, many of our marketing departments attempt to equalize demand for their products throughout the calendar year by offering seasonal sales programs which may provide additional incentives, including discounts and extended payment terms, on equipment that is ordered during off-season periods. Because we spread our production and wholesale shipments throughout the year to take into account the factors described above, sales in any given period may not reflect the timing of dealer orders and retail demand.

Weather conditions and general economic conditions may affect the timing of purchases and actual industry conditions might differ from our forecasts. Consequently, we cannot assure that sudden or significant declines in industry demand would not adversely affect our working capital or results of operations.

If we do not retain key personnel and attract and retain other highly skilled employees, our business may suffer.

Our continued success will depend on, among other things, the efforts and skills of our executive officers, including our president and chief executive officer, and our ability to attract and retain additional highly qualified managerial, technical, manufacturing and sales and marketing personnel. We do not maintain "key man" life insurance for any of our employees, and all of our senior management are employed at will. We cannot assure you that we will be able to attract and hire suitable replacements for any of our key employees. We believe the loss of a key executive officer or other key employee could have an adverse effect on our business, results of operations and financial condition.

We are subject on an ongoing basis to the risk of product liability claims and other litigation arising in the ordinary course of business.

Like other manufacturers, we are subject to various claims, including product liability claims, arising in the ordinary course of business, and we are a party to various legal proceedings that constitute routine litigation incidental to our business. We may be exposed to product liability claims in the event that the use of our products results, or is alleged to result, in bodily injury, property damage, or both. We cannot assure you that we will not experience any material product liability losses in the future or that we will not incur significant costs to defend such claims. While we currently have product liability insurance, we cannot assure you that our product liability insurance coverage will be adequate for any liabilities that may ultimately be incurred or that it will continue to be available on terms acceptable to us. A successful claim brought against us in excess of available insurance coverage or a requirement to participate in a product recall may have a materially adverse effect on our business.

We are subject to environmental, health and safety and employment laws and regulations and related compliance expenditures and liabilities.

Like other manufacturers, the Company is subject to a broad range of federal, state, local and foreign laws and requirements, including those concerning air emissions, discharges into waterways, and the generation, handling, storage, transportation, treatment and disposal of hazardous substances and waste materials, as well as the remediation of contamination associated with releases of hazardous substances at our facilities and offsite disposal locations, workplace safety and equal employment opportunities. These laws and regulations are constantly changing, and it is impossible to predict with accuracy the effect that changes to such laws and regulations may have on us in the future. Like other industrial concerns, our manufacturing operations entail the risk of noncompliance, and there can be no assurance that we will not incur material costs or other liabilities as a result thereof.

The Company knows that its Indianola, Iowa property is contaminated with chromium which most likely resulted from chrome plating operations which were discontinued before the Company purchased the property. Chlorinated volatile organic compounds have also been detected in water samples on the property, though the source is unknown at this time. The Company voluntarily worked with an environmental consultant and the state of Iowa with respect to these issues and believes it completed its remediation program in June 2006. The work was accomplished within the Company's environmental liability reserve balance. We requested a "no further action" classification from the state. We received a conditional "no further action" letter in January of 2009. When we demonstrate stable or improving conditions below residential standards by future monitoring of existing wells, an unconditional "no further action" letter will be requested.

On December 31, 2009, the Company had an environmental reserve in the amount of \$1,608,000 related to the acquisition of *Gradall's* facility in New Philadelphia, Ohio. Three specific remediation projects that were identified prior to the acquisition are in process of remediation with a remaining reserve balance of \$143,000. The Company has a reserve of \$277,000 concerning a potential asbestos issue that is expected to be abated over time. The balance of the reserve, \$1,188,000, is mainly for potential ground water contamination/remediation that was identified before the acquisition and believed to have been generated by a third party company located near the *Gradall* facility.

Certain other assets of the Company contain asbestos that may have to be remediated over time. Management has made its best estimate of the cost to remediate these environmental issues. However, such estimates are difficult to estimate including the timing of such costs. The Company believes that any subsequent change in the liability associated with the asbestos removal will not have a material adverse effect on the Company's consolidated financial position or results of operations.

The Company knows that *Bush Hog's* main manufacturing property in Selma, Alabama is contaminated with chlorinated volatile compounds which most likely resulted from painting and cleaning operations during the 1960s and '70s. The contaminated areas are primarily in the location of underground storage tanks and underneath the former waste storage area. Under the Asset Purchase Agreement, *Bush Hog's* prior owner, agreed to remove the underground storage tanks at its cost and is liable for remediating the identified contamination in accordance with the regulations of the Alabama Department of Environmental Management. An environmental consulting firm has been retained by the prior owner and is administering the cleanup.

We have incurred and will continue to incur capital and other expenditures to comply with the laws and regulations applicable to our operations. In particular, if we fail to comply with any environmental regulations, then we could be subject to future liabilities, fines or penalties or the suspension of production at our manufacturing facilities. If unexpected obligations at these or other sites or more stringent environmental laws are imposed in the future, our business, results of operations and financial condition may be adversely affected.

Fluctuations in currency exchange rates may adversely affect our financial results.

Our earnings are affected by fluctuations in the value of the U.S. dollar as compared to foreign currencies, predominantly in European countries, Canada and Australia, as a result of the sale of our products in international markets. While we do hedge against such fluctuations to an extent (primarily in the U.K. market), we cannot assure you that we will be able to effectively manage these risks. Significant long-term fluctuations in relative currency values, such as a devaluation of the Euro against the U.S. dollar, could have an adverse effect on our future results of operations or financial condition.

Risks related to investing in our common stock

Because the price of our common stock may fluctuate significantly and its trading volume has generally been low, it may be difficult for you to resell our common stock when desired or at attractive prices.

The trading price of our common stock has and may continue to fluctuate. The closing prices of our common stock on the NYSE during 2009 ranged from \$17.15 to \$9.37 per share, and during 2008 from \$25.98 to \$10.80 per share. Our stock price may fluctuate in response to the risk factors set forth herein and to a number of events and factors, such as quarterly variations in operating and financial results, litigation, changes in financial estimates and recommendations by securities analysts, the operating and stock performance of other companies that investors may deem comparable to us, news reports relating to us or trends in our industry or general economic conditions. Furthermore, the trading volume of our common stock has generally been low, which may increase the volatility of the market price for our stock. The stock price volatility and low trading volume may make it difficult for you to resell your shares of our common stock when desired or at attractive prices.

You may experience dilution of your ownership interests due to the future issuance of additional shares of our common stock.

We may issue shares of our previously authorized and unissued securities which will result in the dilution of the ownership interests of our present stockholders. We are currently authorized to issue 20,000,000 shares of common stock. On December 31, 2009, 11,746,929 shares of our common stock were issued and outstanding, and there were outstanding options to purchase an additional 539,480 shares of our common stock. We also have additional shares available for grant under our 2005 Incentive Stock Option Plan and our 2009 Equity Incentive Plan. Additional stock option or other compensation plans or amendments to existing plans for employees and directors may be adopted. Issuance of these shares of common stock may dilute the ownership interests of our then existing stockholders. We may also issue additional shares of our common stock in connection with the hiring of personnel, future acquisitions, such as the 1,700,000 shares issued as consideration for the acquisition of *Bush Hog*, future private placements of our securities for capital raising purposes or for other business purposes. This would further dilute the interests of our existing stockholders.

Future sales, or the possibility of future sales, of a substantial amount of our common stock may depress the price of the shares of our common stock.

Future sales, or the availability for sale in the public market, of substantial amounts of our common stock could adversely affect the prevailing market price of our common stock and could impair our ability to raise capital through future sales of equity securities. If we or our existing stockholders sell substantial amounts of our common stock in the public market or if there is a perception that these sales may occur, the market price of our common stock could decline.

There is no assurance that we will continue declaring dividends or have the available cash to make dividend payments.

Although we have paid a cash dividend of \$0.06 per share in each quarter since the third quarter of 1999, there can be no assurance that we will continue to declare dividends or that funds will continue to be available for this purpose in the future. The declaration and payment of dividends are restricted by the terms of our amended and restated revolving credit agreement and are subject to the discretion of our Board of Directors, are not cumulative, and will depend upon our profitability, financial condition, capital needs, future prospects, and other factors deemed relevant by our Board of Directors.

Provisions of our corporate documents may have anti-takeover effects that could prevent a change in control.

Provisions of our charter, bylaws and Delaware law could make it more difficult for a third party to acquire us, even if doing so would be beneficial to our stockholders. These provisions include supermajority voting requirements, prohibiting the stockholder from calling stockholder meetings, removal of directors for cause only and prohibiting shareholder actions by written consent. Our Certificate of Incorporation and By-laws state that any amendment to certain provisions, including those provisions regarding the removal of directors and limitations on action by written consent discussed above, be

approved by the holders of at least two-thirds of our common stock. We are also afforded the protections of Section 203 of the Delaware General Corporation Law, which would prevent us from engaging in a business combination with a person who becomes a 15% or greater shareholder for a period of three years from the date such person acquired such status unless certain board or shareholder approvals were obtained. For more information, see "Description of Capital Stock."

Certain stockholders own a significant amount of our common stock, and their interests may conflict with those of our other stockholders.

As of December 31, 2009, Capital Southwest Venture Corporation, a subsidiary of Capital Southwest Corporation, beneficially owned approximately 24% of our outstanding common stock and five other investors, Third Avenue Management LLC, Duroc, LLC, Dimensional Fund Advisors LP, Tradewinds Global Investor, LLC and Met Investors Advisory, LLC, beneficially own over 44% of our outstanding common stock. As a result, either Capital Southwest or the other major stockholders combined could be able to significantly influence the direction of the Company, the election of our Board of Directors and the outcome of any other matter requiring stockholder approval, including mergers, consolidations and the sale of all or substantially all of our assets, and together with other beneficially owned investors, to prevent or cause a change in control of the Company. In addition, the interests of Capital Southwest and other major stockholders may conflict with the interests of our other stockholders.

Item 1B. Unresolved Staff Comments

The Company has no unresolved staff comments to report pursuant to Item 1B.

Item 2. Properties

As of December 31, 2009, the Company utilized nine principal manufacturing plants located in the United States, seven in Europe, one in Canada, and one in Australia. The facilities are listed below:

| <u>Facility</u> | <u>Square Footage</u> | | <u>Principal Types of Products Manufactured And Assembled</u> |
|---|-----------------------|--------|--|
| Selma, Alabama | 1,016,700 | Owned | Mechanical Rotary mowers, finishing mowers, zero turn radius mowers, backhoes, front-end loaders for <i>Bush Hog</i> |
| New Philadelphia, Ohio | 430,000 | Owned | Telescopic Excavators for <i>Gradall</i> and Vacuum Trucks for <i>VacAll</i> |
| Gibson City, Illinois | 275,000 | Owned | Mechanical Mowers for <i>Rhino</i> and <i>M&W</i> , Mechanical Rotary Mowers, Blades and Post Hole Diggers for <i>Rhino</i> , and Deep Tillage Equipment |
| Seguin, Texas | 230,000 | Owned | Hydraulic and Mechanical Rotary and Flail Mowers, Sickle-Bar Mowers, and Boom-Mounted Equipment for <i>Alamo Industrial</i> |
| Indianola, Iowa | 200,000 | Owned | Distribution and Manufacturing of Aftermarket Farm Equipment Replacement and Wear Parts for <i>Herschel/Valu-Bilt</i> |
| Neuville, France | 195,000 | Leased | Hydraulic and Mechanical Boom-Mounted Hedge and Grass Cutters for <i>Rousseau</i> |
| Ludlow, England | 160,000 | Owned | Hydraulic Boom-Mounted Hedge and Grass Cutters and other Equipment for <i>McConnel and Twose</i> |
| Chartres, France | 136,000 | Owned | Front-end Loaders, Backhoes and Attachments for <i>Faucheux and McConnel</i> |
| Huntsville, Alabama | 136,000 | Owned | Air and Mechanical Sweeping Equipment for <i>Schwarze</i> |
| Salford Priors, England | 106,000 | Owned | Tractor-Mounted Power Arm Flails and other Equipment for <i>Bomford and Twose and Spearhead</i> |
| Daumeray, France | 100,000 | Leased | Vacuum trucks, high pressure cleaning systems and trenchers for <i>Rivard</i> |
| Leavenworth, Kansas | 70,000 | Owned | Snow Plows and Heavy-duty Snow Removal Equipment for <i>Henke</i> |
| Sioux Falls, South Dakota | 66,000 | Owned | Hydraulic and Mechanical Mowing Equipment for <i>Tiger</i> |
| Englefeld, Saskatchewan, Canada | 64,000 | Owned | Mechanical Rotary Mowers, Snow Blowers, and Rock Removal Equipment for <i>Schulte</i> |
| Sioux Falls, South Dakota | 59,000 | Owned | Front-end Loaders and Backhoes for OEMs, <i>SMC</i> and <i>Rhino</i> |
| Kent, Washington | 42,800 | Leased | Truck Mounted Sweeping Equipment for the contractor market branded <i>Nite-Hawk</i> |
| Orleans, France | 40,000 | Owned | Heavy-Duty, Tractor-Mounted Grass and Hedge Mowing Equipment for <i>SMA</i> |
| Ipswich, Australia | 15,000 | Leased | Air and Mechanical Sweeping Equipment for <i>Schwarze</i> |
| Peschadoires, France | 12,000 | Owned | Replacement Parts for Blades, Knives and Shackles for <i>Forges Gorce</i> |
| Warehouses & Sales Offices, Seguin, Texas | 58,000 | Owned | Service Parts Distribution and Sales Office |
| Offices | 10,400 | Owned | Corporate Office |
| | 5,600 | Leased | |
| Total | 3,427,500 | | |

Approximately 90% of the manufacturing, warehouse and office space is owned. During 2009, the Company closed its warehouse operations in Memphis, Tennessee and this 15,000 sq. ft. facility is for sale. Except as otherwise stated herein, the Company considers each of its facilities to be well maintained, in good operating condition and adequate for its present level of operations.

Item 3. Legal Proceedings

The Company is subject to various legal actions which have arisen in the ordinary course of its business. The most prevalent of such actions relate to product liability, which is generally covered by insurance after various self-insured retention amounts. While amounts claimed might be substantial and the ultimate liability with respect to such litigation cannot be determined at this time, the Company believes that the ultimate outcome of these matters will not have a material adverse effect on the Company's consolidated financial position or results of operations; however, the ultimate resolution cannot be determined at this time.

The Company knows that its Indianola, Iowa property is contaminated with chromium which most likely resulted from chrome plating operations which were discontinued before the Company purchased the property. Chlorinated volatile organic compounds have also been detected in water samples on the property, though the source is unknown at this time. The Company voluntarily worked with an environmental consultant and the state of Iowa with respect to these issues and believes it completed its remediation program in June 2006. The work was accomplished within the Company's environmental liability reserve balance. We requested a "no further action" classification from the state. We received a conditional "no further action" letter in January of 2009. When we demonstrate stable or improving conditions below residential standards by future monitoring of existing wells, an unconditional "no further action" letter will be requested.

As of December 31, 2009, the Company had an environmental reserve in the amount of \$1,608,000 related to the acquisition of *Gradall's* facility in New Philadelphia, Ohio. Three specific remediation projects that were identified prior to the acquisition are in process of remediation with a remaining reserve balance of \$143,000. The Company has a reserve of \$277,000 concerning a potential asbestos issue that is expected to be abated over time. The balance of the reserve, \$1,188,000, is mainly for potential ground water contamination/remediation that was identified before the acquisition and believed to have been generated by a third party company located near the *Gradall* facility.

Certain other assets of the Company contain asbestos that may have to be remediated over time. Management has made its best estimate of the cost to remediate these environmental issues. However, such estimates are difficult to estimate including the timing of such costs. The Company believes that any subsequent change in the liability associated with the asbestos removal will not have a material adverse effect on the Company's consolidated financial position or results of operations.

The Company knows that *Bush Hog's* main manufacturing property in Selma, Alabama is contaminated with chlorinated volatile compounds which most likely resulted from painting and cleaning operations during the 1960s and '70s. The contaminated areas are primarily in the location of underground storage tanks and underneath the former waste storage area. Under the Asset Purchase Agreement, *Bush Hog's* prior owner, agreed to remove the underground storage tanks at its cost and is liable for remediating the identified contamination in accordance with the regulations of the Alabama Department of Environmental Management. An environmental consulting firm has been retained by the prior owner and is administering the cleanup.

Item 4. [Reserved]

PART II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

The Company's common stock trades on the New York Stock Exchange under the symbol: ALG. On February 26, 2010, there were 11,746,929 shares of common stock outstanding, held by approximately 116 holders of record, but the total number of beneficial owners of the Company's common stock exceeds this number. On February 26, 2010, the closing price of the common stock on the New York Stock Exchange was \$17.81 per share.

The following table sets forth, for the period indicated, on a per share basis, the range of high and low sales prices for the Company's common stock as quoted by the New York Stock Exchange. These price quotations reflect inter-dealer prices, without adjustment for retail markups, markdowns or commissions, and may not necessarily represent actual transactions.

| Quarter Ended | 2009 | | | Quarter Ended | 2008 | | |
|--------------------|----------|---------|-------------------------|--------------------|----------|----------|-------------------------|
| | High | Low | Cash Dividends Declared | | High | Low | Cash Dividends Declared |
| March 31, 2009 | \$ 18.04 | \$ 9.22 | \$.06 | March 31, 2008 | \$ 21.40 | \$ 17.34 | \$.06 |
| June 30, 2009 | 13.25 | 9.90 | .06 | June 30, 2008 | 26.46 | 19.27 | .06 |
| September 30, 2009 | 17.16 | 9.98 | .06 | September 30, 2008 | 23.46 | 15.84 | .06 |
| December 31, 2009 | 17.33 | 13.10 | .06 | December 31, 2008 | 17.22 | 10.69 | .06 |

On January 5, 2010, the Board of Directors of the Company declared a quarterly dividend of \$.06 per share which was paid on February 3, 2010, to holders of record as of January 19, 2010. The Company expects to continue its policy of paying regular cash dividends, although there is no assurance as to future dividends as they depend on future earnings, capital requirements and financial condition. In addition, the payment of dividends is subject to restrictions under the Company's bank revolving credit agreement. See "Management's Discussion and Analysis of Financial Condition and Results of Operations - Liquidity and Capital Resources" in Item 7 of Part II of this Annual Report on Form 10-K for a further description of the bank revolving credit agreement.

The Company was authorized by its Board of Directors in 1997 to repurchase up to 1,000,000 shares of the Company's common stock to be funded through working capital and credit facility borrowings. There were no shares repurchased in 2008 or in 2009. The authorization to repurchase up to 1,000,000 shares remains available, less 42,600 shares previously purchased.

Information relating to compensation plans under which equity securities of the Company are authorized for issuance is set forth in Part III, Item 13 of this Annual Report on Form 10-K.

Stock Price Performance Graph

The information contained in this Stock Performance Graph section shall not be deemed to be "soliciting material" or "filed" with the SEC or subject to the liabilities of Section 18 of the Exchange Act except to the extent that Alamo Group Inc. specifically incorporates it by reference into a document filed under the Securities Act or the Exchange Act.

The following graph and table set forth the cumulative total return to the Company's stockholders of our Common Stock during a five-year period ended December 31, 2009, as well as the performance of an overall stock market index (the S&P 500 Index) and the Company's selected peer group index (the Russell 2000 Index).

The Company believes a representative industry peer group of companies with a similar business segment profile does not exist. The SEC has indicated that companies may use a base other than industry or line of business for determining its peer group index, such as an index of companies with similar market capitalization. Accordingly, the Company has selected the Russell 2000 Index, a widely used small market capitalization index, to use as a representative peer group.

Item 7. Management's Discussion and Analysis of Financial Condition And Results of Operations

The following discussion should be read in conjunction with the consolidated financial statements of the Company and the notes thereto included elsewhere in this Annual Report on Form 10-K.

The following tables set forth, for the periods indicated, certain financial data:

| Net sales (data in thousands): | Fiscal Year Ended December 31, | | |
|--------------------------------|--------------------------------|------------|------------|
| | 2009 | 2008 | 2007 |
| North American | | | |
| Industrial | \$ 173,905 | \$ 254,787 | \$ 253,203 |
| Agricultural | 92,415 | 120,232 | 117,652 |
| European | 180,167 | 182,116 | 133,531 |
| Total net sales | \$ 446,487 | \$ 557,135 | \$ 504,386 |

Cost and profit margins, as percentages of net sales:

| | | | |
|--|-------|-------|-------|
| Cost of sales | 78.8% | 80.4% | 80.6% |
| Gross profit | 21.2% | 19.6% | 19.4% |
| Selling, general and administrative expenses | 17.0% | 14.9% | 14.6% |
| Income from operations | 7.2% | 3.8% | 4.7% |
| Income before income taxes | 6.4% | 3.1% | 3.6% |
| Net income | 3.8% | 2.0% | 2.5% |

Results of Operations

Fiscal 2009 compared to Fiscal 2008

The Company's net sales in the fiscal year ended December 31, 2009 ("2009") were \$446,487,000, a decrease of \$110,648,000 or 19.9% compared to \$557,135,000 for the fiscal year ended December 31, 2008 ("2008"). The decrease was primarily attributable to the general weakness in the worldwide economy which began in the fourth quarter of 2008 and continues to affect the markets the Company serves. The acquisitions of *Rivard* and *Bush Hog* were accretive to the Company's sales for 2009.

North American Industrial sales (net) were \$173,905,000 in 2009 compared to \$254,787,000 in 2008, an \$80,882,000 or 31.7% decrease. The decrease came from lower sales of excavator, vacuum truck, sweeper and mowing equipment as governmental entities continue to be affected by budget constraints and revenue shortfalls. Sales to cities and counties remained steadier than those to state agencies.

North American Agricultural sales (net) were \$92,415,000 in 2009 compared to \$120,232,000 in 2008, representing a decrease of \$27,817,000 or 23.1%. The decrease was due to market uncertainty and tighter credit as dealers were reluctant to stock inventory at historical levels. The acquisition of *Bush Hog* on October 22, 2009 added \$10,863,000 in sales.

European sales (net) decreased \$1,949,000 or 1.1% to \$180,167,000 in 2009 compared to \$182,116,000 in 2008. This decrease was mainly due to changes in the exchange rates and softness in the French markets and to a lesser extent was offset by higher export sales outside our core markets. The *Rivard* acquisition added \$23,858,000 to sales for 2009.

Gross margins for 2009 were \$94,561,000 (21.2% of net sales) compared to \$109,414,000 (19.6% of net sales) in 2008, a decrease of \$14,853,000. The decrease was due to reduced sales during 2009, which was somewhat offset by the *Rivard* acquisition. Gross margin percentages improved over 2008 as a result of favorable pricing in both raw and purchase components and continued improvement in efficiency initiatives.

Selling, general and administrative expenses ("SG&A") were \$76,099,000 (17.0% of net sales) in 2009 compared to \$83,059,000 (14.9% of net sales) in 2008. The decrease of \$6,960,000 in SG&A in 2009 primarily came from reductions in workforce net of \$1,158,000 in severance costs, lower insurance premiums and professional fees, and reduced commissions from lower sales volumes. *Bush Hog* acquisition costs were \$828,000 in 2009 and, during the fourth quarter of 2009, the Company also incurred \$1,383,000 at *Bush Hog* relating to severance and restructuring costs. The acquisitions of *Rivard* and *Bush Hog* added \$3,230,000 and \$2,204,000 respectively to the SG&A expense for 2009.

The Company recorded a \$27,689,000 bargain purchase gain relating to the acquisition of *Bush Hog*, which was completed in October of 2009. The purchase price consideration was 1,700,000 unregistered shares of Alamo Group stock at a closing price of \$16.09 per share plus the assumption of certain liabilities and other considerations.

Goodwill impairment for 2009 was non-cash \$14,104,000 compared to non-cash \$5,010,000 in 2008. In 2009, the Company wrote off the goodwill at *Gradall/VacAll* and just over 75% of the goodwill at *Nite-Hawk* in its Industrial Division after performing its required impairment test review. The Company wrote off the entire goodwill relating to its Agricultural Division in 2008.

Interest expense for 2009 was \$4,766,000 compared to \$7,450,000 in 2008, a \$2,684,000 or a 36% decrease. The decrease was due primarily to reduced borrowings along with lower interest rates in 2009.

Other Income (expense) net, was \$625,000 during 2009 compared to income of \$1,513,000 in 2008. The gains in both 2009 and 2008 are entirely from changes in exchange rates.

Provision for Income Taxes was \$11,528,000 (40.3% of income before income taxes) for 2009 compared to \$6,227,000 (36.1% of income before income taxes) in 2008. The increase in the effective tax rate for 2009 was from increased state taxes in the United States and from the non-deductible tax write-off of goodwill in the Industrial Division.

Net Income for 2009 was \$17,091,000 compared to \$10,999,000 in 2008 due to the factors described above.

Fiscal 2008 compared to Fiscal 2007

The Company's net sales in the fiscal year ended December 31, 2008 ("2008") were \$557,135,000, an increase of \$52,749,000 or 10.5% compared to \$504,386,000 for the fiscal year ended December 31, 2007 ("2007"). The increase was primarily attributable to the acquisitions of *Rivard* and *Henke* in the amount of \$41,615,000, and continued demand for our products in most of the Company's segments. The Company's sales during the last quarter of 2008 were negatively impacted by the decline in the worldwide economy.

North American Industrial sales (net) were \$254,787,000 in 2008 compared to 253,203,000 in 2007, a \$1,584,000 or 0.6% increase. The increase came from the acquisition of *Henke* in the amount of \$1,662,000. The Industrial segment did experience higher sales in the first half of 2008 from the excavator and vacuum truck business. Sweeper market sales were soft throughout the year due to the weak retail market and related cutback in parking lot sweeper activity. Also negatively impacting this segment were late deliveries of key components from suppliers.

North American Agricultural sales (net) were \$120,232,000 in 2008 compared to \$117,652,000 in 2007, representing an increase of \$2,580,000 or 2.2%. The increase was mainly due to steady market conditions, specifically mowing and front-end loader equipment. During the third quarter of 2008, this division experienced delays in deliveries of key components from suppliers which prevented us from delivering to our customers in a timely fashion. Drought conditions in the southern part of the U.S. also had a negative impact on sales during most of the year along with lower commodity prices in late 2008.

European sales (net) increased \$48,585,000 or 36.4% to \$182,116,000 in 2008 compared to \$133,531,000 in 2007. This increase was mainly from the acquisition of *Rivard* in the amount of \$39,953,000, and to a lesser extent higher export sales outside our core markets, along with improved agricultural market conditions in the first half of 2008. The European segment was negatively affected by changes in international currency rates.

Gross Margins for 2008 were \$109,414,000 (19.6% of net sales) compared to \$97,711,000 (19.4% of net sales) in 2007, an increase of \$11,703,000. The increase was due to the acquisitions of *Rivard* and *Henke* along with steady market conditions for the first nine months of 2008. Negatively affecting the Company's gross margin were higher steel, steel products and energy prices.

Selling, general and administrative expenses ("SG&A") were \$83,059,000 (14.9% of net sales) in 2008 compared to \$73,874,000 (14.6% of net sales) in 2007. The increase of \$9,185,000 in SG&A in 2008 primarily came from the addition of *Rivard* and *Henke*, in the amount of \$5,525,000 along with increased sales commissions from higher sales.

Goodwill impairment for 2008 was \$5,010,000 compared to zero in 2007. The Company wrote off the entire goodwill in its Agricultural Division after performing its required impairment test review. The severe decline in market values of the Company, along with uncertainty in the economy going forward, was the cause for the write-down.

Interest expense for 2008 was \$7,450,000 compared to \$8,338,000 in 2007, an \$888,000 or a 10.7% decrease. The decrease was due to lower interest rates in 2008.

Other Income (expense), net was \$1,513,000 of income during 2008 versus income of \$813,000 in 2007. The income in 2008 was entirely from changes in exchange rates. The income in 2007 was mainly from exchange rate gains of \$703,000 and a gain of \$150,000 relating to the sale of the Company's investment in a small business along with a loss on the sale of the Guymon property held for sale.

Provision for Income Taxes was \$6,227,000 (36.1% of income before income taxes) for 2008 compared to \$5,670,000 (31.4% of income before income taxes) in 2007. The increase in the effective tax rate for 2008 was from increased state taxes in the United States and from the non-deductible tax write-off of goodwill.

Net Income for 2008 was \$10,999,000 compared to \$12,365,000 in 2007 due to the factors described above.

Liquidity and Capital Resources

In addition to normal operating expenses, the Company has ongoing cash requirements which are necessary to conduct the Company's business, including inventory purchases and capital expenditures. The Company's inventory and accounts payable levels, particularly in its North American Agricultural Division, build in the first quarter and early spring and, to a lesser extent, in the fourth quarter in anticipation of the spring and fall selling seasons. Accounts receivable historically build in the first and fourth quarters of each year as a result of pre-season sales. These sales balance the Company's production during the first and fourth quarters. Some of the Company's recent acquisitions which are not involved in vegetation maintenance have helped to soften this seasonality pattern.

As of December 31, 2009, the Company had working capital of \$182,369,000, which represents an increase of \$2,050,000 from working capital of \$180,319,000 as of December 31, 2008. The increase in working capital was primarily from higher accounts receivable and inventory associated with the acquisition of *Bush Hog* offset by decreases in accounts receivable and inventory in the Company's North American and European operations.

Capital expenditures were \$3,453,000 for 2009, compared to \$6,553,000 for 2008. For 2010, capital expenditures are expected to be higher compared to 2009. The Company expects to fund capital expenditures from operating cash flows or through its revolving credit facility, described below.

The Company was authorized by its Board of Directors in 1997 to repurchase up to 1,000,000 shares of the Company's common stock to be funded through working capital and credit facility borrowings. There were no shares repurchased in 2008 or in 2009. The authorization to repurchase up to 1,000,000 shares remains available less 42,600 shares previously purchased.

Net cash provided by operating activities was \$72,086,000 for 2009, compared to \$8,724,000 for 2008. The increase of cash from operating activities resulted primarily from reduced accounts receivable and inventory levels from initiatives implemented in 2009.

Net cash used by financing activities was \$56,965,000 for 2009, compared to net cash provided of \$19,550,000 for 2008. The difference was mainly from reduced borrowings under the Company's revolving line of credit.

On August 25, 2004, the Company entered into a five-year \$70 million Amended and Restated Revolving Credit Agreement with its lenders, Bank of America, JPMorgan Chase Bank, and Guaranty Bank. This contractually-committed, unsecured facility allows the Company to borrow and repay amounts drawn at floating or fixed interest rates based upon Prime or LIBOR rates. Proceeds may be used for general corporate purposes or, subject to certain limitations, acquisitions. The loan agreement contains among other things the following financial covenants: Minimum Fixed Charge Coverage Ratios, Minimum Consolidated Tangible Net Worth, Consolidated Funded Debt to EBITDA Ratio and Minimum Asset Coverage Ratio, along with limitations on dividends, other indebtedness, liens, investments and capital expenditures.

On February 3, 2006, the Company amended and restated the credit agreement to increase the Company's existing credit facility from \$70 million to \$125 million. Pursuant to the terms of the Amended and Restated Revolving Credit Agreement, the Company has the ability to request an increase in commitments by \$25 million. In addition, the existing credit facility was modified in other respects, including reducing the asset coverage ratio and lowering the interest margins.

On March 30, 2006, the Company entered into the Fourth Amendment of the Amended and Restated Revolving Credit Agreement, dated March 30, 2006 (the "Amended and Restated Revolving Credit Agreement"), between the Company and Bank of America, N.A., JPMorgan Chase Bank and Guaranty Bank, as its lenders. Pursuant to the terms of the Amended and Restated Revolving Credit Agreement, the Company added Gradall Industries, Inc., formerly Alamo Group (OH) Inc., and N.P. Real Estate Inc. as members of the Obligated Group. The Amendment also allows for capital expenditures not to exceed \$14 million for the fiscal year ending 2006 and \$10 million in the aggregate during each fiscal year thereafter.

On May 7, 2007, the Company entered into the Fifth Amended and Restated Revolving Credit Agreement with Bank of America, N.A., JPMorgan Chase Bank, Guaranty Bank and Rabobank, as its lenders. The Amended and Restated Revolving Credit Agreement provides for a \$125 million unsecured revolving line of credit for five years with the ability to expand the facility to \$175 million, subject to bank approval. In addition to the extended term of the loan to 2012, other major changes were improvements in the leverage ratio, minimum asset coverage ratio and increase in annual allowable capital expenditures up to \$17.5 million. The banks agreed to eliminate the fixed charge coverage ratio and minimum net worth requirement along with a reduction in the applicable interest rate margin. The applicable interest margin fluctuates quarterly either up or down based upon the Company's leverage ratio.

On October 14, 2008, the Company entered into the Sixth Amendment and Waiver under the Amended and Restated Revolving Credit Agreement. The purpose of the amendment and waiver was to clarify company names within the Obligated Group after merging or dissolving some subsidiaries, to define operating cash flow and defining quarterly operating cash flow for *Rivard* through March 31, 2009. Beginning June 30, 2009, *Rivard's* actual operating cash flow was used in the calculation of consolidated operating flow.

On November 6, 2009, the Company entered into the Seventh Amendment of the Amended and Restated Revolving Credit Agreement with Bank of America, N.A., Wells Fargo Bank, N.A., BBVA Compass Bank, and Rabobank, as its lenders. Prior to the execution of this Amendment, BBVA Compass Bank acquired certain assets of Guaranty Bank which included this credit facility and JPMorgan Chase Bank assigned its interest to Well Fargo Bank, N.A. The purpose of the amendment was to add *Bush Hog* as a member of the Obligated Group and pledge a first priority security interest in certain U.S. assets (accounts receivable, inventory, equipment, trademarks and trade names) of the Borrower and each member of the Obligated Group. The Lenders agreed to increase the operating leverage ratio during the next three quarters and to add a new EBIT to Interest Expense covenant in exchange for a commitment fee and an increase in the Applicable Interest Margin over LIBOR or Prime Rate advances.

As of December 31, 2009, there was \$41,000,000 borrowed under the revolving credit facility. On December 31, 2009, \$877,000 of the revolver capacity was committed to irrevocable standby letters of credit issued in the ordinary course of business as required by vendors' contracts resulting in approximately \$81,000,000 in available borrowings.

On May 13, 2008, Alamo Group Europe Limited expanded its overdraft facility with Lloyd's TSB Bank plc from £ 1.0 million to £ 5.5 million. The facility was renewed effective November 1, 2009 and outstandings currently bear interest at Lloyd's Base Rate plus 1.4% per annum. The facility is unsecured but guaranteed by the U.K. subsidiaries of Alamo Group Europe Limited. As of December 31, 2009, there were no outstanding balances in British pounds borrowed against the U.K. overdraft facility.

There are additional lines of credit: for the Company's French operations in the amount of 8,200,000 Euros, which includes the *Rivard* credit facilities; for our Canadian operation in the amount of 3,500,000 Canadian dollars; and for our Australian operation in the amount of 800,000 Australian dollars. As of December 31, 2009, no Euros were borrowed against the French line of credit; 2,706,000 Canadian dollars were outstanding on the Canadian line of credit; and 200,000 Australian dollars were outstanding under its facility. The Canadian and Australian revolving credit facilities are guaranteed by the Company.

As of December 31, 2009, the Company is in compliance with the terms and conditions of its credit facilities.

Management believes the bank credit facilities and the Company's ability to internally generate funds from operations should be sufficient to meet the Company's cash requirements for the foreseeable future. However, the challenges affecting the banking industry and credit markets in general can potentially cause changes to credit availability which creates a level of uncertainty.

Inflation

The Company believes that inflation generally has not had a material impact on its operations or liquidity. The Company is exposed to the risk that the price of energy, steel and other purchased components may increase and the Company may not be able to increase the price of its products correspondingly. If this occurs, the Company's results of operations would be adversely impacted.

Recent Accounting Pronouncements

FASB Statement No. 166

In June 2009, the Financial Accounting Standards Board ("FASB") issued Statement No. 166, "Accounting for Transfers of Financial Assets – an amendment of FASB Statement No. 140." According to ASC Topic 105, "Generally Accepted Accounting Principles," Statement No. 166 shall continue to represent authoritative guidance until it is integrated into the Codification. Statement No. 166 amends and clarifies provisions related to the transfer of financial assets in order to address application and disclosure issues. In general, Statement No. 166 clarifies the requirements for derecognizing transferred financial assets, removes the concept of a qualifying special-purpose entity and related exceptions, and requires additional disclosures related to transfers of financial assets. Statement No. 166 is effective for fiscal years, and interim periods within those fiscal years, beginning after November 15, 2009, and earlier application is prohibited. The adoption of Statement No. 166 effective January 1, 2010 is not expected to have a material effect on our financial position or results of operations.

FASB Statement No. 167

In June 2009, the FASB issued Statement No. 167, "Amendments to FASB Interpretation No. 46(R)." According to ASC Topic 105, Statement No. 167 shall continue to represent authoritative guidance until it is integrated into the Codification. Statement No. 167 amends provisions related to variable interest entities to include entities previously considered qualifying special-purpose entities, as the concept of these entities was eliminated by Statement No. 166. This statement also clarifies consolidation requirements and expands disclosure requirements related to variable interest entities. Statement No. 167 is effective for fiscal years, and interim periods within those fiscal years, beginning after November 15, 2009, and earlier application is prohibited. The adoption of Statement No. 167 effective January 1, 2010 is not expected to have a material effect on our financial position or results of operations.

Fair Value Measurements and Disclosures

In January 2010, the provisions of ASC Topic 820 were modified to require additional disclosures, including transfers in and out of Level 1 and 2 fair value measurements and the gross basis presentation of the reconciliation of Level 3 fair value measurements. This guidance is effective for interim and annual reporting periods beginning after December 15, 2009, except for disclosures related to Level 3 fair value measurements, which are effective for fiscal years beginning after December 15, 2010 (including interim periods). Early adoption is permitted. We have adopted all of these provisions of ASC Topic 820 effective December 31, 2009. Since only disclosures are affected by these requirements, the adoption of these provisions will not affect our financial position or results of operations.

Off-Balance Sheet Arrangements

The Company does not have any obligation under any transaction, agreement or other contractual arrangement to which an entity unconsolidated with the Company is a party, that has or is reasonably likely to have a material effect on the Company's financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors.

Contractual and Other Obligations

The following table shows the Company's approximate obligations and commitments to make future payments under contractual obligations as of December 31, 2009:

| (in thousands) Contractual Obligations | Total | Payment due by period | | | |
|---|------------|-----------------------|--------------|--------------|----------------------|
| | | Less than 1 Year | 1-3 Years | 3-5 Years | More than 5 Years |
| Long-term debt obligations | \$ 46,556 | \$ 3,901 | \$ 41,424 | \$ 446 | \$ 785 |
| Capital lease obligations | 3,233 | 1,552 | 1,365 | 316 | — |
| Interest obligations | 6,062 | 2,153 | 3,726 | 110 | 73 |
| Operating lease obligations | 3,085 | 1,488 | 1,328 | 254 | 15 |
| Purchase obligations | 60,292 | 60,292 | — | — | — |
| Total | \$ 119,228 | \$ 69,386 | \$ 47,843 | \$ 1,126 | \$ 873 |

Definitions:

- (A) *Long-term debt obligation* means a principal payment obligation under long-term borrowings.
- (B) *Capital lease obligation* means a principal payment obligation under a lease classified as a capital lease.
- (C) *Interest obligation* represents interest due on long-term debt and capital lease obligations. Interest on long-term debt assumes all floating rates of interest remain the same as those in effect at December 31, 2009 and include the effect of the Company's interest rate derivative arrangements on future cash payments for the remaining period of those derivatives.
- (D) *Operating lease obligation* means a payment obligation under a lease classified as an operating lease.
- (E) *Purchase obligation* means an agreement to purchase goods or services that is enforceable and legally binding on the registrant that specifies all significant terms, including: fixed or minimum quantities to be purchased; fixed, minimum or variable price provisions; and the approximate timing of the transactions.

In addition, the Company sponsors various pension plans that may obligate it to make contributions from time to time. We expect to make a cash contribution to our pension plans in 2010.

Critical Accounting Estimates

Management's Discussion and Analysis of Financial Condition and Results of Operations are based upon our Consolidated Financial Statements, which have been prepared in accordance with U.S. Generally Accepted Accounting Principles ("GAAP"). The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses, and related disclosure of contingent assets and liabilities. Management bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

Critical Accounting Policies

An accounting policy is deemed to be critical if it requires an accounting estimate to be made based on assumptions about matters that are highly uncertain at the time the estimate is made, and if different estimates that reasonably could have been used, or changes in the accounting estimates that are reasonably likely to occur periodically, could materially impact the financial statements. Management believes the following critical accounting policies reflect its more significant estimates and assumptions used in the preparation of the Consolidated Financial Statements. For further information on the critical accounting policies, see Note 1 of our Notes to Consolidated Financial Statements.

Allowance for Doubtful Accounts

The Company evaluates the collectability of its accounts receivable based on a combination of factors. In circumstances where it is aware of a specific customer's inability to meet its financial obligations, the Company records a specific reserve to reduce the amounts recorded to what it believes will be collected. For all other customers, it recognizes reserves for bad debt based on historical experience of bad debts as a percent of revenues for each business unit, adjusted for relative improvements or deteriorations in the aging and changes in current economic conditions.

The Company evaluates all receivables that are over 60 days old and will reserve specifically on a 90-day basis. The Company has a secured interest on most of its wholegoods that each customer purchases. This allows the Company, in times of a difficult economy when the customer is unable to pay or has filed for bankruptcy (usually Chapter 11), to repossess the customer's inventory. This also allows Alamo Group to maintain only a reserve over its cost, which usually represents the margin on the original sales price.

The allowance for doubtful accounts balance was \$2,548,000 on December 31, 2009, and \$2,430,000 on December 31, 2008. The increase was mainly from the Company's European operations.

Sales Discounts

On December 31, 2009, the Company had \$3,803,000 in reserves for sales discounts compared to \$6,849,000 on December 31, 2008 on product shipped to our customers under various promotional programs. The decrease was due primarily to lower sales activity of the Company's agricultural products during the pre-season, which runs from September to December of each year with orders shipped through the first quarter of 2010. The Company reviews the reserve quarterly based on analysis made on each program outstanding at the time.

The Company bases its reserves on historical data relating to discounts taken by the customer under each program. Historically, between 85% and 95% of the Company's customers who qualify for each program actually take the discount that is available.

Inventories – Obsolete and Slow Moving

The Company had a reserve of \$9,060,000 on December 31, 2009 and \$8,978,000 on December 31, 2008 to cover obsolete and slow moving inventory. The increase in the reserve was mainly from the Company's U.S. operations. The obsolete and slow moving inventory policy states that the reserve is to be calculated as follows: 1) no inventory usage over a three-year period is deemed obsolete and reserved at 100 percent; and 2) slow moving inventory with little usage requires a 100 percent reserve on items that have a quantity greater than a three-year supply. There are exceptions to the obsolete and slow moving classifications if approved by an officer of the Company, based on specific identification of an item or items that are deemed to be either included or excluded from this classification. In cases where there is no historical data, management makes a judgment based on a specific review of the inventory in question to determine what reserves, if any, are appropriate. New products or parts are generally excluded from the reserve policy until a three year history has been established.

The reserve is reviewed and, if necessary, adjustments are made on a quarterly basis. The Company relies on historical information when available to support its reserve. The Company does not adjust the reserve balance until the inventory is liquidated.

Warranty

The Company's warranty policy is generally to provide its customers warranty for up to one year on all wholegood units and 90 days on parts.

Warranty reserve, as a percentage of sales, is generally calculated by looking at the current twelve months' expenses and prorating that amount based on twelve months' sales with a ninety-day to six-month lag period. The Company's historical experience is that an end-user takes approximately 90 days to six months from the receipt of the unit to file a warranty claim. A warranty reserve is established for each different marketing group. Reserve balances are evaluated on a quarterly basis and adjustments made when required.

The current liability warranty reserve balance was \$6,337,000 on December 31, 2009 and \$4,764,000 on December 31, 2008. The increase came mainly from the acquisition of Bush Hog.

Goodwill

Goodwill must be tested for impairment at least annually. In the fourth quarter of each year, or when events and circumstances warrant such a review, the Company tests the goodwill of all of its reporting units for impairment. The goodwill impairment test is determined using a two-step process. The first step is to identify if a potential impairment exists by comparing the fair value of a reporting unit with its carrying amount, including goodwill (Step 1). If the fair value of a reporting unit exceeds its carrying value amount, goodwill of the reporting unit is not considered to have a potential impairment and the second step is not necessary. However, if the carrying amount of the reporting unit exceeds its fair value, the second step (Step 2) is performed to determine if goodwill is impaired and to measure the amount of impairment loss to recognize, if any. Step 2 compares the implied fair value of goodwill with the carrying amount of goodwill. If the implied value of goodwill is less than the carrying amount of goodwill, then a charge is recorded to reduce goodwill to the implied goodwill. The implied goodwill is calculated based on a hypothetical purchase price allocation similar to the requirements of SFAS No. 141, Business Combinations, in that it takes the implied fair value of the reporting unit and allocates such fair value to the fair value of the assets and liabilities of the reporting unit.

The Company estimates the fair value of its reporting units using a discounted cash flow analysis. This analysis requires the Company to make significant assumptions and estimates about the extent and timing of future cash flows, discount rates and growth rates. The cash flows are estimated over a significant future period of time, which makes those estimates and assumptions subject to an even higher degree of uncertainty. The Company also utilizes market valuation models and other financial ratios, which require the Company to make certain assumptions and estimates regarding the applicability of those models to its assets and businesses. The Company believes that the assumptions and estimates used to determine the estimated fair values of each of its reporting units are reasonable. However, different assumptions could materially affect the estimated fair value. The Company recognized goodwill impairment in the North American Industrial segment of \$14,104,000 in 2009 and \$5,010,000 in the North American Agricultural segment in 2008. No goodwill impairment was recorded in 2007. As of December 31, 2009, goodwill was \$35,207,000, which represents 9% of total assets. During the 2009 impairment analysis review, it was noted that even though the *Schwarze* reporting unit's fair value was above carrying value it was not materially different. On December 31, 2009, there was approximately \$6.8 million of goodwill related to the *Schwarze* reporting unit. This reporting unit would be most likely affected by changes in the Company's assumptions and estimates. The calculation of fair value could increase or decrease depending on changes in the inputs and assumptions used, such as changes in the reporting unit's future growth rates, discount rates, etc.

See Note 6 to the Consolidated Financial Statements for more information regarding goodwill.

Item 7A. Quantitative and Qualitative Disclosures about Market Risk

The Company is exposed to various financial market risks. Market risk is the potential loss arising from adverse changes in market prices and rates. The Company does not enter into derivative or other financial instruments for trading or speculative purposes.

Foreign Currency Risk

International Sales

A portion of the Company's operations consists of manufacturing and sales activities in international jurisdictions. The Company primarily manufactures its products in the United States, the U.K., France, Canada and Australia. The Company sells its products primarily within the markets where the products are produced, but certain of the Company's sales from its U.K. operations are denominated in other European currencies. As a result, the Company's financials, specifically the value of its foreign assets, could be affected by factors such as changes in foreign currency exchange rates or weak economic conditions in the other markets in which the subsidiaries of the Company distribute their products.

To mitigate the short-term effect of changes in currency exchange rates on the Company's functional currency-based sales, the Company's U.K. subsidiaries regularly enter into foreign exchange forward contracts to hedge approximately 90% of its future net foreign currency cash receipts over a period of six months. As of December 31, 2009, the Company had \$2,223,000 outstanding in forward exchange

contracts related to accounts receivable. A 15% fluctuation in exchange rates for these currencies would change the fair value by approximately \$334,000. However, since these contracts hedge foreign currency denominated transactions, any change in the fair value of the contracts should be offset by changes in the underlying value of the transaction being hedged.

On December 31, 2009, the fair value of these agreements were in a favorable position; therefore, the derivative financial instruments were recorded as a gain of \$66,000, which has been recognized in other income (expense), net.

Exposure to Exchange Rates

The Company's earnings are affected by fluctuations in the value of the U.S. dollar as compared to foreign currencies, predominantly in European countries, Canada and Australia, as a result of the sale of its products in international markets. Foreign currency forward contracts in the U.K. are used to hedge against the earnings effects of such fluctuations. On December 31, 2009, the result of a uniform 10% strengthening in the value of the U.S. dollar relative to the currencies in which the Company's sales are denominated would result in a decrease in gross profit of \$4,891,000 for the year ended December 31, 2009. Comparatively, on December 31, 2008, the result of a uniform 10% strengthening in the value of the dollar relative to the currencies in which the Company's sales are denominated would have resulted in a decrease in gross profit of approximately \$4,902,000 for the year ended December 31, 2008. This calculation assumes that each exchange rate would change in the same direction relative to the U.S. dollar. In addition to the direct effects of changes in exchange rates, which are a changed dollar value of the resulting sales, changes in exchange rates may also affect the volume of sales or the foreign currency sales price as competitors' products become more or less attractive. The Company's sensitivity analysis of the effects of changes in foreign currency exchange rates does not factor in a potential change in sales levels or local currency prices. The translation adjustment during 2009 was a gain of \$6,595,000. On December 31, 2009, the British pound closed at .6187 relative to the U.S. dollar, and the Euro closed at .6985 relative to the U.S. dollar. By comparison, on December 31, 2008, the British pound closed at .6853 relative to the U.S. dollar, and the Euro closed at .7159 relative to the U.S. dollar. No assurance can be given as to future valuation of the British pound or Euro or how further movements in those or other currencies could affect future earnings or the financial position of the Company.

Interest Rate Risk

The majority of the Company's long-term debt bears interest at variable rates. Accordingly, the Company's net income is affected by changes in interest rates. Assuming the current level of borrowings at variable rates and a two hundred basis point change in the 2009 average interest rate under these borrowings, the Company's 2009 interest expense would have changed by approximately \$820,000. In the event of an adverse change in interest rates, management could take actions to mitigate its exposure. Further, this analysis does not consider the effects of the change in the level of overall economic activity that could exist in such an environment. However, the challenges affecting the banking industry and credit markets in general can potentially cause changes to credit availability which creates a level of uncertainty.

Item 8. Financial Statements and Supplementary Data

The financial statements and supplementary data described in Item 15 of this report and included on pages 44 through 79 of this report are incorporated herein by reference.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

On or about January 16, 2009, the independent registered public accounting firm for the Company was changed from Ernst & Young LLP to KPMG LLP. Information regarding this change in the independent registered public accounting firm was disclosed in our Current Report on Form 8-K dated January 23, 2009. There were no disagreements or any reportable events requiring disclosure under Item 304(a) of Regulation S-K.

Item 9A. Controls and Procedures

Disclosure Controls and Procedures. An evaluation was carried out under the supervision and with the participation of Alamo's management, including our President and Chief Executive Officer, Executive Vice President and Chief Financial Officer (Principal Financial Officer), and Vice President and Corporate Controller (Principal Accounting Officer), of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1933). Based upon the evaluation, the President & Chief Executive Officer, Executive Vice President & Chief Financial Officer (Principal Financial Officer), and Vice President & Corporate Controller (Principal Accounting Officer) concluded that the Company's design and operation of these disclosure controls and procedures were effective at the end of the period covered by this report.

Management's Annual Report on Internal Control Over Financial Reporting. Management's report on the Company's internal control over financial reporting is included on page 40 of this Annual Report on Form 10-K and incorporated by reference herein. The Company's independent public accounting firm has audited and issued a report on the Company's internal control over financial reporting which is included on page 41 of this Annual Report on Form 10-K and incorporated by reference herein.

Changes in Internal Controls over Financial Reporting. There have not been any changes in Alamo's internal control over financial reporting (as such term is defined by paragraph (d) of Rule 13-a-15) under the Securities Exchange Act during the fourth fiscal quarter that have materially affected, or are reasonably likely to materially affect, Alamo's internal control over financial reporting.

Item 9B. Other Information

None.

PART III

Item 10. Directors, Executive Officers and Corporate Governance

There is incorporated in this Item 10, by reference, that portion of the Company's definitive proxy statement for the 2010 Annual Meeting of Stockholders, which appears therein under the captions "Item 1: Election of Directors," "Information Concerning Directors," and "Section 16(a) Beneficial Ownership Reporting Compliance." See also the information under the caption "Executive Officers of the Company" in Part I of this Report.

The Board of Directors has delegated certain responsibilities to three Committees of the Board. The Committees are the Audit Committee, Compensation Committee and Nominating/Corporate Governance Committee. The Board of Directors has also adopted Corporate Governance guidelines and a Code of Conduct and Ethics for all employees, including the Chief Executive Officer, Principal Financial Officer, Principal Accounting Officer and those individuals performing similar functions.

The Committee Charters, Code of Conduct and Ethics, and Corporate Governance Guidelines may be found on the Company's website (www.alamo-group.com) under the "Our Commitment" tab and are also available without charge in print by sending a request to the Corporate Secretary, Alamo Group Inc., 1627 E. Walnut Street, Seguin, Texas, 78155, which is the principal executive office of the Company. The telephone number is 830-379-1480. The Company will post any amendments to the Code of Conduct and Ethics, and any waivers that are required to be disclosed by the rules of either the SEC or the New York Stock Exchange ("NYSE"), on the Company's website.

Item 11. Executive Compensation

There is incorporated in this Item 11, by reference, that portion of the Company's definitive proxy statement for the 2010 Annual Meeting of Stockholders which appears under the caption "Executive Compensation."

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

There is incorporated in this Item 12, by reference, that portion of the Company's definitive proxy statement for the 2010 Annual Meeting of Stockholders which appears under the caption "Beneficial Owners of Common Stock."

Information on Alamo Group Inc.'s Equity Compensation Plans

The following table provides information on the shares that are available under the Company's stock compensation plans and, in the case of plans where stock options may be granted, the number of shares of common stock issuable upon exercise of those stock options.

The numbers in the table are as of December 31, 2009, the last day of Alamo Group Inc.'s 2009 fiscal year.

| Equity Compensation Plan Category | A Number of Securities to be issued upon exercise of outstanding options, warrants and rights | B Weighted-average exercise price of outstanding options, warrants and rights | C Number of Securities that remain available for future issuance under equity compensation plans (excluding securities reflected in column A) |
|--|--|--|--|
| Plans approved by stockholders | | | |
| <i>First Amended and Restated 1994 Incentive Stock Option Plan</i> | 59,980 | \$13.58 | — |
| <i>First Amended and Restated 1999 Non-Qualified Stock Option Plan</i> | 161,000 | \$15.05 | — |
| <i>2005 Incentive Stock Option Plan</i> | 285,500 | \$18.77 | 214,500 |
| <i>2009 Equity Incentive Plan</i> | 25,000 | \$11.45 | 367,000 |
| Equity compensation plans not approved by stockholders | — | — | — |
| Total | 531,480 | | 581,500 |

Item 13. Certain Relationships, Related Transactions and Director Independence

Information regarding certain relationships and related transactions is set forth under the caption "Certain Relationships and Related Transactions" in the Company's definitive proxy statement for the 2010 Annual Meeting of Stockholders and such information is incorporated by reference herein. There were no such reportable relationships or related party transactions in the fiscal year ended December 31, 2009. In 1999, the Company approved a supplemental retirement benefit for Donald J. Douglass which is paid on a quarterly basis over a period of fourteen and one-half years that began in the year 2000. The remaining balances on December 31, 2009 and 2008 were \$308,000 and \$363,000, respectively, and are included in the Accrued liabilities and Other long-term liabilities sections of the Company's balance sheets.

Information regarding director independence is set forth under the caption "Proposal 1 – Election of Directors" in the Company's definitive proxy statement for the 2010 Annual Meeting of Stockholders and such information is incorporated by reference herein.

Item 14. Principal Accountant Fees and Services

Information regarding principal accountant fees and services is set forth under the caption "Proposal 2 – Appointment of Auditors" in the Company's definitive proxy statement for the 2010 Annual Meeting of Stockholders and such information is incorporated by reference herein.

Report of Management on Internal Control over Financial Reporting

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934. The Company's internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with U.S. generally accepted accounting principles.

Because of its inherent limitations, internal controls over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

The Company's management assessed the effectiveness of the Company's internal control over financial reporting as of December 31, 2009 using the framework in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this assessment, the Company's management concludes that, as of December 31, 2009, the Company's internal controls over financial reporting were effective based on the framework in Internal Control – Integrated Framework.

Bush Hog, LLC. ("*Bush Hog*") was acquired by Alamo Group Inc. in October 2009. The scope of management's assessment of and conclusion on the effectiveness of internal control over financial reporting did not include the internal controls of *Bush Hog* which is included in the 2009 consolidated financial statements of Alamo Group Inc. and constituted \$60.4 million of assets and \$10.9 million of sales for the year ended December 31, 2009.

KPMG LLP, an independent registered public accounting firm, has issued an attestation report on the effectiveness of internal control over financial reporting, which is included herein.

Date: March 15, 2010

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders Alamo Group Inc:

We have audited Alamo Group Inc.'s internal control over financial reporting as of December 31, 2009, based on criteria established in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Alamo Group Inc.'s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Report of Management on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Alamo Group Inc. maintained, in all material respects, effective internal control over financial reporting as of December 31, 2009, based on criteria established in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

Alamo Group Inc. acquired Bush Hog LLC during 2009, and management's assessment of and conclusion on the effectiveness of internal control over financial reporting did not include the internal controls of Bush Hog LLC. ("*Bush Hog*"), which is included in the 2009 consolidated financial statements of Alamo Group Inc. and constituted \$60.4 million of assets and \$10.9 million of sales for the year ended December 31, 2009. Our audit of internal control over financial reporting of Alamo Group Inc. also excluded an evaluation of the internal control over financial reporting of Bush Hog LLC.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of Alamo Group Inc. and subsidiaries as of December 31, 2009, and the related consolidated statements of income, stockholders' equity, and cash flows for the year ended December 31, 2009, and our report dated March 15, 2010 expressed an unqualified opinion on those consolidated financial statements.

KPMG LLP

San Antonio, Texas
March 15, 2010

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders Alamo Group Inc:

We have audited the accompanying consolidated balance sheet of Alamo Group Inc. and subsidiaries as of December 31, 2009, and the related consolidated statements of income, stockholders' equity, and cash flows for the year ended December 31, 2009. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Alamo Group Inc. and subsidiaries as of December 31, 2009, and the results of their operations and their cash flows for the year ended December 31, 2009, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Alamo Group Inc.'s internal control over financial reporting as of December 31, 2009, based on criteria established in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated March 15, 2010, expressed an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

As discussed in Note 1 to the consolidated financial statements, the Company adopted Accounting Standards Topic 805, *Business Combinations*, during the year ended December 31, 2009.

KPMG LLP

San Antonio, Texas

March 15, 2010

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders of Alamo Group Inc.

We have audited the accompanying consolidated balance sheet of Alamo Group Inc. and subsidiaries as of December 31, 2008, and the related consolidated statements of income, stockholders' equity, and cash flows for each of the two years in the period ended December 31, 2008. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Alamo Group Inc. and subsidiaries as of December 31, 2008, and the consolidated results of their operations and their cash flows for each of the two years in the period ended December 31, 2008, in conformity with U.S. generally accepted accounting principles.

As discussed in Note 1 to the financial statements in 2007 the Company changed its method of accounting for income taxes.

Alamo Group Inc.
Notes to Consolidated Financial Statements

1. SIGNIFICANT ACCOUNTING POLICIES

Description of the Business and Segments

The Company manufactures, distributes and services high quality tractor-mounted mowing and other vegetation maintenance equipment, street sweepers, excavators, vacuum trucks, snow removal equipment, pothole patchers, zero turn radius mowers, agricultural implements and related aftermarket parts and services.

The Company manages its business in three principal reporting segments: North America Agricultural, North American Industrial and European, which are discussed in Footnotes 15 and 16.

Basis of Presentation and Principles of Consolidation

The accompanying consolidated financial statements include the accounts of Alamo Group Inc. and its subsidiaries (the "Company" or "Alamo Group"), all of which are wholly owned. All significant intercompany accounts and transactions have been eliminated in consolidation.

We have evaluated subsequent events that occurred after December 31, 2009 through the filing of this Form 10-K. Any material subsequent events that occurred during this time have been properly recognized or disclosed in our financial statements.

Certain reclassifications have been made to prior year balances in order to conform to the current year's presentation.

Financial Accounting Standards Board (FASB) "Accounting Standards Codification™" (the Codification or ASC)

The Codification is the single source of authoritative generally accepted accounting principles (GAAP) recognized by the FASB, to be applied by nongovernmental entities in the preparation of financial statements in conformity with GAAP. Rules and interpretive releases of the Securities and Exchange Commission (SEC) under authority of federal securities laws are also sources of authoritative GAAP for SEC registrants. The Codification became effective for interim and annual periods ending after September 15, 2009 and superseded all previously existing non-SEC accounting and reporting standards.

All other non-grandfathered non-SEC accounting literature not included in the Codification is nonauthoritative. All of our references to GAAP now use the specific Codification Topic or Section rather than prior accounting and reporting standards. The Codification did not change existing GAAP and, therefore, did not affect our financial position or results of operations.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Judgments related to asset impairment and certain reserves are particularly subject to change. Actual results could differ from those estimates.

Foreign Currency

The Company translates the assets and liabilities of foreign-owned subsidiaries at rates in effect at the end of the year. Revenues and expenses are translated at average rates in effect during the reporting period. Translation adjustments are included in accumulated other comprehensive income within the statement of stockholders' equity.

The Company enters into foreign currency forward contracts to hedge its exposure to certain foreign currency transactions. The Company does not hold or issue financial instruments for trading purposes. Changes in the market value of the foreign currency instruments are recognized in the financial statements upon settlement of the hedged transaction. On December 31, 2009, the Company had \$2,223,000 in outstanding forward exchange contracts related to sales. The unrealized gain of the December 31, 2009 contracts that the Company expects to incur during the first quarter of 2010 is approximately \$41,000, net of taxes. Foreign currency transaction gains or losses are included in Other income (expense), net. For 2009, 2008 and 2007, such transactions netted gains of \$625,000, \$1,513,000, and \$703,000, respectively.

Cash Equivalents

Cash equivalents are highly liquid investments with a maturity date no longer than 90 days.

Concentrations of Credit Risk

Financial instruments which potentially subject the Company to concentrations of credit risk consist principally of accounts receivable. The credit risk is limited because of the large numbers and types of customers and their geographic dispersion.

Inventories

Inventories of U.S. operating subsidiaries are principally stated at the lower of cost (last-in, first-out method) ("LIFO") or market, and the Company's international subsidiaries' inventories are stated at the lower of cost (first-in, first-out) ("FIFO") or market.

Property, Plant and Equipment

Property, plant, and equipment are stated on the basis of cost. Major renewals and betterments are charged to the property accounts while replacements, maintenance and repairs, which do not improve or extend the lives of the respective assets, are expensed to the current period. Depreciation is provided at amounts calculated to amortize the cost of the assets over their estimated useful economic lives using the straight-line method.

Goodwill

Goodwill consists of the excess of the purchase price over the fair value of identifiable net assets of businesses acquired. In the fourth quarter of each year, or when events and circumstances warrant such a review, the Company tests the goodwill of all of its reporting units for impairment. The goodwill impairment test is determined using a two-step process. The first step is to identify if a potential impairment exists by comparing the fair value of a reporting unit with its carrying amount, including goodwill (Step 1). If the fair value of a reporting unit exceeds its carrying value amount, goodwill of the reporting unit is not considered to have a potential impairment and the second step is not necessary. However, if the carrying amount of the reporting unit exceeds its fair value, the second step (Step 2) is performed to determine if goodwill is impaired and to measure the amount of impairment loss to recognize, if any. Step 2 compares the implied fair value of goodwill with the carrying amount of goodwill. If the implied value of goodwill is less than the carrying amount of goodwill, then a charge is recorded to reduce goodwill to the implied goodwill. The implied goodwill is calculated based on a hypothetical purchase price allocation, in that it takes the implied fair value of the reporting unit and allocates such fair value to the fair value of the assets and liabilities of the reporting unit.

The Company estimates the fair value of its reporting units using a discounted cash flow analysis. This analysis requires the Company to make significant assumptions and estimates about the extent and timing of future cash flows, discount rates and growth rates. The cash flows are estimated over a significant future period of time, which makes those estimates and assumptions subject to an even higher degree of uncertainty. The Company also utilizes market valuation models and other financial ratios, which require the Company to make certain assumptions and estimates regarding the applicability of those models to its assets and businesses. The Company believes that the assumptions and estimates used to determine the estimated fair values of each of its reporting units are reasonable. However, different assumptions could materially affect the estimated fair value. The Company recognized goodwill impairment in the North American Industrial segment of \$14,104,000 in 2009 and \$5,010,000 in the North American Agricultural segment in 2008. No goodwill impairment was recorded in 2007. As of December 31, 2009, goodwill was \$35,207,000, which represents 9% of total assets. During the 2009 impairment analysis review, it was noted that even though the *Schwarze* reporting unit's fair value was above

carrying value it was not materially different. As of December 31, 2009, there was approximately \$6.8 million of goodwill related to the *Schwarze* reporting unit. This reporting unit would be most likely affected by changes in the Company's assumptions and estimates. The calculation of fair value could increase or decrease depending on changes in the inputs and assumptions used, such as changes in the reporting unit's future growth rates, discount rates, etc.

See Note 6 to the Consolidated Financial Statements for more information regarding goodwill.

Intangible Assets

The Company's definite-lived intangible assets consist primarily of patents and trade names. The gross carrying value of definite-lived intangible assets was \$1,147,000 on December 31, 2009 and \$1,391,000 on December 31, 2008 and 2007. Accumulated amortization of definite-lived intangible assets was \$1,088,000 and \$1,009,000 on December 31, 2009 and 2008, respectively. Amortization expense of definite-lived intangible assets was \$79,000 in 2009, \$99,000 in 2008, and \$104,000 in 2007. Annual amortization expense is expected to be \$79,000 in 2010, 2011, 2012; \$45,000 in 2013; and \$2,000 in 2014.

Intangible assets with indefinite useful lives not subject to amortization consist of the *Gradall* trade name valued at \$3,600,000 and the *Bush Hog* trade name valued at \$1,900,000 on December 31, 2009.

The Company tests its indefinite-lived intangible assets for impairment on an annual basis at year-end, or more frequently if an event occurs or circumstances change that indicate that the fair value of an indefinite-lived intangible asset could be below its carrying amount. The impairment test consists of comparing the fair value of the indefinite-lived intangible asset, determined using the relief from royalty method, with its carrying amount. An impairment loss would be recognized for the carrying amount in excess of its fair value.

Identifiable intangible assets are recorded at estimated cost. Definite-lived intangible assets are amortized over their estimated useful lives.

Pensions

In connection with the February 3, 2006 purchase of all the net assets of the *Gradall* excavator business, the Company assumed sponsorship of two *Gradall* non-contributory defined benefit pension plans, both of which were frozen with respect to both future benefit accruals and future new entrants.

The *Gradall* Company Hourly Employees' Pension Plan covers approximately 310 former employees and 210 current employees who (i) were formerly employed by JLG Industries, Inc., (ii) were covered by a collective bargaining agreement and (iii) first participated in the plan before April 6, 1997. An amendment ceasing all future benefit accruals was effective April 6, 1997.

The *Gradall* Company Employees' Retirement Plan covers approximately 220 former employees and 120 current employees who (i) were formerly employed by JLG Industries, Inc., (ii) were not covered by a collective bargaining agreement, and (iii) first participated in the plan before December 31, 2004. An amendment ceasing future benefit accruals for certain participants was effective December 31, 2004. A second amendment discontinued all future benefit accruals for all participants effective April 24, 2006.

The Company recognizes the funded status of the defined benefit pension plans as a liability in its statement of financial position and recognizes any changes in that funded status in the year in which the changes occur through other comprehensive income.

Related Party Transactions

There were no reportable relationships or related party transactions for the years ended December 31, 2009 and 2008. During 1999, the Company approved a supplemental retirement benefit for Donald J. Douglass which is paid on a quarterly basis over a period of fourteen and one-half years that began in the year 2000. The balance on December 31, 2009 and 2008 was \$308,000 and \$363,000, respectively, and is included in the Accrued liabilities and Other long-term liabilities sections of the Company's consolidated balance sheet.

Revenue Recognition

The Company recognizes revenue when each of the following four criteria are met: 1) a contract or sales arrangement exists; 2) products have been shipped per agreed terms and title has been transferred or services have been rendered; 3) the prices of the products or services are fixed or determinable; and 4) collectability is reasonably assured. Pre-season sales orders are solicited in the fall in advance of the dealer's sales season in the spring and summer. Pre-season sales orders are shipped beginning in the fall and continuing through the spring and represent an opportunity for the Company's factories to level their production/shipping volumes through the winter months. These pre-season shipments carry descending discounts in conjunction with delayed payment terms of up to six months from the dealer's requested delivery date. Revenue from sales is recorded net of a provision for discounts that are anticipated to be earned and deducted at time of payment by the customer. These approximated discounts represent an average of historical amounts taken and are adjusted as program terms are changed. The reserves for discounts are reviewed and adjusted quarterly. From time to time, revenue is recognized under a bill and hold arrangement.

Accounting for Internal Use Software

The Company capitalizes certain costs associated with the development and installation of internal use software. Internal use software costs are expensed or capitalized depending on whether they are incurred in the preliminary project stage, application development stage or the post-implementation stage. Amounts capitalized are amortized over the estimated useful lives of the software.

The book value of capitalized software net of depreciation is approximately \$1,516,000 and \$1,911,000 on December 31, 2009 and December 31, 2008, respectively. Software depreciation expense was \$721,000, \$992,000 and \$982,000 in 2009, 2008 and 2007, respectively. Internal use software is amortized for financial reporting purposes using the straight-line method over the estimated life of two to seven years.

Shipping and Handling Costs

The Company's policy is to include shipping and handling costs in costs of goods sold.

Advertising

We charge advertising costs to expense as incurred. Advertising and marketing expense related to operations for fiscal years 2009, 2008 and 2007 was approximately \$4,378,000, \$5,735,000 and \$4,871,000, respectively. Advertising and marketing expenses are included in Selling, General and Administrative expenses ("SG&A").

Research and Development

Product development and engineering costs charged to SG&A amounted to \$4,762,000, \$5,443,000, and \$5,185,000 for the years ended December 31, 2009, 2008 and 2007, respectively.

Legal Costs

The Company's policy is to accrue for legal costs expected to be incurred in connection with loss contingencies.

Federal Income Taxes

Deferred tax assets and liabilities are determined based on differences between the financial reporting basis and tax basis of assets and liabilities and are measured by applying enacted statutory tax rates applicable to the future years in which deferred tax assets or liabilities are expected to be settled or realized. In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management considers the scheduled reversals of deferred tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based upon projections of future taxable income over the periods in which the deferred tax assets are deductible, management believes it is more likely than not that we will realize the benefits of these deductible differences.

We do not provide for a U.S. income tax liability on undistributed earnings of our foreign subsidiaries. The earnings of non-U.S. subsidiaries, which reflect full provision for non-U.S. income taxes, are currently indefinitely reinvested in non-U.S. operations or will be remitted substantially free of additional tax.

Business Combinations

Effective January 1, 2009, we adopted the new provisions of ASC Topic 805, "Business Combinations," which address the recognition and measurement of (i) identifiable assets acquired or liabilities assumed, and any non-controlling interest in the acquiree, and (ii) goodwill acquired or gain from a bargain purchase. In addition, acquisition-related costs are accounted for as expenses in the period in which the costs are incurred and the services are received. These provisions were applied to the acquisition of certain assets and liabilities of Bush Hog LLC in the fourth quarter of 2009, which is discussed in Note 20.

Stock-Based Compensation

Prior to January 1, 2006, we recognized compensation cost for share-based awards based on the minimum value taking into account the exercise price of the option and the fair market value of our common stock on the date of grant. Effective January 1, 2006, we began using the modified-prospective transition method. However, for unvested equity awards outstanding as of the date of January 1, 2006, we continue to amortize those awards using the minimum value method. Beginning January 1, 2006 measurement and recognition of compensation expense for all share-based payment awards made to employees and directors is recognized based on estimated fair values. We use the Black-Scholes pricing model to determine the fair value of the stock options on the grant dates for stock awards made on or after January 1, 2006, and we amortize the fair value of share-based payments on a straight-line basis over the requisite service periods of the award, which is generally the vesting period.

The Black-Scholes valuation model requires us to make assumptions and judgments about the variables used in the calculation. These variables and assumptions include the fair value of our common stock, expected term, the expected volatility, the risk-free interest rate, expected dividends, and the estimated rate of forfeitures of unvested stock options.

The Company calculated the fair value for options using a Black-Scholes option-pricing model with the following weighted-average assumptions for 2009, 2008, and 2007:

| | December 31, | | |
|--------------------------------|--------------|-----------|-----------|
| | 2009 | 2008 | 2007 |
| Risk-free interest rate | 2.67% | 3.13% | 5.00% |
| Dividend yield | 1.20% | 1.20% | 0.96% |
| Volatility factors | 42.8% | 43.6% | 34.5% |
| Weighted-average expected life | 7.5 years | 9.0 years | 5.0 years |

Subsequent Events

In May 2009, ASC Topic 855, "Subsequent Events," was issued, which established general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. In particular, guidance was provided regarding (i) the period after the balance sheet date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements, (ii) the circumstances under which an entity should recognize events or transactions occurring after the balance sheet date in its financial statements, and (iii) the disclosures that an entity should make about events or transactions that occur after the balance sheet date. The provisions of Topic 855 are to be applied prospectively and are effective for interim or annual financial periods ending after June 15, 2009. The adoption of the provisions of Topic 855 in the second quarter of 2009 did not affect our financial position or results of operations but did result in additional disclosures, which are provided above under "Basis of Presentation and Principles of Consolidation."

Fair Value Measurements and Disclosures

In January 2010, the provisions of ASC Topic 820 were modified to require additional disclosures, including transfers in and out of Level 1 and 2 fair value measurements and the gross basis presentation of the reconciliation of Level 3 fair value measurements. This guidance is effective for interim and annual reporting periods beginning after December 15, 2009, except for disclosures related to Level 3 fair value measurements, which are effective for fiscal years beginning after December 15, 2010 (including interim periods). Early adoption is permitted. We have adopted all of these provisions of ASC Topic 820 effective December 31, 2009. Since only disclosures are affected by these requirements, the adoption of these provisions did not affect our financial position or results of operations.

2. EARNINGS PER SHARE

The following table sets forth the reconciliation from basic to diluted average common shares and the calculations of net income per common share. Net income for basic and diluted calculations does not differ.

| (in thousands, except per share amounts) | 2009 | 2008 | 2007 |
|---|-----------|-----------|-----------|
| Net income | \$ 17,091 | \$ 10,999 | \$ 12,365 |
| Average common shares: | | | |
| Basic (weighted-average outstanding shares) | 10,330 | 9,847 | 9,781 |
| Dilutive potential common shares from stock options | 33 | 103 | 172 |
| Diluted (weighted-average outstanding shares) | 10,363 | 9,950 | 9,953 |
| Basic earnings per share | \$ 1.65 | \$ 1.12 | \$ 1.26 |
| Diluted earnings per share | \$ 1.65 | \$ 1.11 | \$ 1.24 |

Stock options totaling 304,533 shares in 2009, 188,523 shares in 2008, and 56,988 shares in 2007 were not included in the diluted earnings per share calculation because the effect would have been anti-dilutive.

3. VALUATION AND QUALIFYING ACCOUNTS

Valuation and qualifying accounts included the following:

| (in thousands) | Balance Beginning of Year | Net Charged to Costs and Expenses | Translations, Reclassifications and Acquisitions | Net Write-Offs or Discounts Taken | Balance End of Year |
|------------------------------------|---------------------------------|--|--|--------------------------------------|---------------------------|
| 2009 | | | | | |
| Allowance for doubtful accounts | \$ 2,430 | \$ 546 | \$ 114 | \$ (543) | \$ 2,548 |
| Reserve for sales discounts | 6,849 | 25,514 | 5 | (28,565) | 3,803 |
| Reserve for inventory obsolescence | 8,978 | 1,515 | 163 | (1,596) | 9,060 |
| Reserve for warranty | 4,764 | 6,609 | 1,615 | (6,651) | 6,337 |
| 2008 | | | | | |
| Allowance for doubtful accounts | \$ 1,922 | \$ 948 | \$ 18 | \$ (458) | \$ 2,430 |

| Reserve for warranty | 4,084 | 6,476 | 102 | (6,569) | 4,093 |

Allowance for Doubtful Accounts

The Company evaluates the collectability of its accounts receivable based on a combination of factors. In circumstances where it is aware of a specific customer's inability to meet its financial obligations, the Company records a specific reserve to reduce the amounts recorded to what it believes will be collected. For all other customers, it recognizes reserves for bad debt based on historical experience of bad debts as a percent of revenues for each business unit, adjusted for relative improvements or deteriorations in the aging and changes in current economic conditions.

The Company evaluates all receivables that are over 60 days old and will reserve specifically on a 90-day basis. The Company has a secured or insured interest on most of its wholegoods that each customer purchases. This allows the Company, in times of a difficult economy when the customer is unable to pay or has filed for bankruptcy (usually Chapter 11), to repossess the customer's inventory. This also allows Alamo Group to maintain only a reserve over its cost, which usually represents the margin on the original sales price.

The allowance for doubtful accounts balance was \$2,548,000 on December 31, 2009, and \$2,430,000 on December 31, 2008. The increase was mainly from the Company's European operations.

Sales Discounts

On December 31, 2009, the Company had \$3,803,000 in reserves for sales discounts compared to \$6,849,000 on December 31, 2008 on product shipped to our customers under various promotional programs. The decrease was due primarily to lower sales activity of the Company's agricultural products during the pre-season, which runs from September to December of each year with orders shipped through the first quarter of 2010. The Company reviews the reserve quarterly based on analysis made on each program outstanding at the time.

The Company bases its reserves on historical data relating to discounts taken by the customer under each program. Historically, between 85% and 95% of the Company's customers who qualify for each program actually take the discount that is available.

Inventories – Obsolete and Slow Moving

The Company had a reserve of \$9,060,000 on December 31, 2009 and \$8,978,000 on December 31, 2008 to cover obsolete and slow moving inventory. The increase in the reserve was mainly from the Company's U.S. operations. The obsolete and slow moving inventory policy states that the reserve is to be calculated as follows: 1) no inventory usage over a three-year period is deemed obsolete and reserved at 100 percent; and 2) slow moving inventory with little usage requires a 100 percent reserve on items that have a quantity greater than a three-year supply. There are exceptions to the obsolete and slow moving classifications if approved by an officer of the Company, based on specific identification of an item or items that are deemed to be either included or excluded from this classification. In cases where there is no historical data, management makes a judgment based on a specific review of the inventory in question to determine what reserves, if any, are appropriate. New products or parts are generally excluded from the reserve policy until a three year history has been established.

Warranty

The Company's warranty policy is generally to provide its customers warranty for up to one year on all wholegood units and 90 days on parts.

Warranty reserve, as a percentage of sales, is generally calculated by looking at the current twelve months' expenses and prorating that amount based on twelve months' sales with a ninety-day to six-month lag period. The Company's historical experience is that an end-user takes approximately 90 days to six months from the receipt of the unit to file a warranty claim. A warranty reserve is established for each different marketing group. Reserve balances are evaluated on a quarterly basis and adjustments made when required.

The current liability warranty reserve balance was \$6,337,000 on December 31, 2009 and \$4,764,000 on December 31, 2008. The increase came mainly from the acquisition of Bush Hog.

4. INVENTORIES

Inventories valued at LIFO represented 63% and 57% of total inventory for the years ended December 31, 2009 and 2008, respectively. The excess of current costs over LIFO-valued inventories was \$9,106,000 and \$12,791,000 on December 31, 2009 and December 31, 2008, respectively. The \$3,685,000 decrease in LIFO reserve during 2009 came from reductions in inventory levels within U.S. operations. The impact of the application of the LIFO method on the Statement of Income for the years ended December 31, 2009, was a decrease to cost of sales of \$3,685,000, and an increase in 2008 and 2007 of \$3,729,000 and \$413,000, respectively. Inventories consisted of the following on a cost basis, net of reserves:

| (in thousands) | December 31, | |
|--------------------------|-------------------|-------------------|
| | 2009 | 2008 |
| Finished goods and parts | \$ 102,681 | \$ 104,819 |
| Work in process | 10,611 | 16,247 |
| Raw materials | 11,030 | 11,182 |
| | <u>\$ 124,322</u> | <u>\$ 132,248</u> |

5. PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment consist of the following:

| (in thousands) | December 31, | | Useful Lives |
|--------------------------------|--------------|-----------|-----------------|
| | 2009 | 2008 | |
| Land | \$ 9,226 | \$ 8,572 | |
| Buildings and improvements | 58,862 | 52,261 | 10-20 yrs. |
| Machinery and equipment | 54,478 | 47,304 | 3-15 yrs. |
| Office furniture and equipment | 6,065 | 5,340 | 3-7 yrs. |
| Computer software | 9,078 | 8,785 | 2-7 yrs. |
| Transportation equipment | 4,367 | 3,690 | 3 yrs. |
| | 142,076 | 125,952 | |
| Accumulated depreciation | (72,215) | (64,168) | |
| | \$ 69,861 | \$ 61,784 | |

Property, Plant and Equipment net, increased \$8,077,000 in 2009 mainly from the *Bush Hog* acquisition. Property, plant and equipment on December 31, 2009 and December 31, 2008 include \$18,364,000 and \$18,037,000, respectively, for items listed above that are held under capital leases. Accumulated depreciation relating to the capital leases on December 31, 2009 and 2008 was \$7,233,000 and \$6,335,000, respectively. Amortization related to the capital lease is included in depreciation expense.

6. GOODWILL

The changes in the carrying amount of goodwill for the twelve months ended December 31, 2007, 2008 and 2009 are as follows:

| (in thousands) | |
|-------------------------------|-----------|
| Balance at December 31, 2006 | \$ 42,336 |
| Translation adjustment | 1,610 |
| Balance at December 31, 2007 | \$ 43,946 |
| Acquisition (<i>Rivard</i>) | 12,787 |
| Translation adjustment | (3,616) |
| Goodwill impairment | (5,010) |
| Balance at December 31, 2008 | \$ 48,107 |
| Translation adjustment | 1,204 |
| Goodwill impairment | (14,104) |
| Balance at December 31, 2009 | \$ 35,207 |

7. ACCRUED LIABILITIES

Accrued liabilities consist of the following balances:

| (in thousands) | December 31, | |
|-----------------------------|--------------|-----------|
| | 2009 | 2008 |
| Salaries, wages and bonuses | \$ 13,391 | \$ 9,311 |
| Warranty | 6,337 | 5,409 |
| State taxes | 5,463 | 5,599 |
| Retirement | 2,313 | 2,373 |
| Accrued interest | 176 | 521 |
| Other | 4,333 | 2,846 |
| | \$ 32,013 | \$ 26,059 |

8. LONG-TERM DEBT

The components of long-term debt are as follows:

| (in thousands) | December 31, | |
|--------------------------------|--------------|-----------|
| | 2009 | 2008 |
| Bank revolving credit facility | \$ 41,000 | \$ 95,000 |
| Capital lease obligations | 3,233 | 4,594 |
| Other notes payable | 5,556 | 4,476 |
| Total debt | 49,789 | 104,070 |
| Less current maturities | 5,453 | 4,186 |
| Total long-term debt | \$ 44,336 | \$ 99,884 |

On August 25, 2004, the Company entered into a five-year \$70 million Amended and Restated Revolving Credit Agreement with its lenders, Bank of America, JPMorgan Chase Bank, and Guaranty Bank. This contractually-committed, unsecured facility allows the Company to borrow and repay amounts drawn at floating or fixed interest rates based upon Prime or LIBOR rates. Proceeds may be used for general corporate purposes or, subject to certain limitations, acquisitions. The loan agreement contains among other things the following financial covenants: Minimum Fixed Charge Coverage Ratios, Minimum Consolidated Tangible Net Worth, Consolidated Funded Debt to EBITDA Ratio and Minimum Asset Coverage Ratio, along with limitations on dividends, other indebtedness, liens, investments and capital expenditures.

On February 3, 2006, the Company amended and restated the credit agreement to increase the Company's existing credit facility from \$70 million to \$125 million. Pursuant to the terms of the Amended and Restated Revolving Credit Agreement, the Company has the ability to request an increase in commitments by \$25 million. In addition, the existing credit facility was modified in other respects, including reducing the asset coverage ratio and lowering the interest margins.

On March 30, 2006, the Company entered into the Fourth Amendment of the Amended and Restated Revolving Credit Agreement, (the "Amended and Restated Revolving Credit Agreement"), between the Company and Bank of America, N.A., JPMorgan Chase Bank and Guaranty Bank, as its lenders. Pursuant to the terms of the Amended and Restated Revolving Credit Agreement, the Company added *Gradall Industries, Inc.*, formerly *Alamo Group (OH) Inc.*, and *N.P. Real Estate Inc.* as members of the Obligated Group. The Amendment also allows for capital expenditures not to exceed \$14.0 million for the fiscal year ending 2006 and \$10.0 million in the aggregate during each fiscal year thereafter.

On May 7, 2007, the Company entered into the Fifth Amended and Restated Revolving Credit Agreement with Bank of America, N.A., JPMorgan Chase Bank, Guaranty Bank and Rabobank, as its lenders. The Amended and Restated Revolving Credit Agreement provides for a \$125 million unsecured revolving line of credit for five years with the ability to expand the facility to \$175 million, subject to bank approval. In addition to the extended term, other major changes were improvements in the leverage ratio, minimum asset coverage ratio and increase in annual allowable capital expenditures. The banks agreed to eliminate the fixed charge coverage ratio and minimum net worth requirement. The applicable interest margin fluctuates quarterly either up or down based upon the Company's leverage ratio.

On October 14, 2008, the Company entered into the Sixth Amendment and Waiver under the Amended and Restated Revolving Credit Agreement. The purpose of the amendment and waiver was to clarify company names within the Obligated Group after merging or dissolving some subsidiaries, to define operating cash flow and defining quarterly operating cash flow for *Rivard* through March 31, 2009. Beginning June 30, 2009, *Rivard's* actual operating cash flow will be used in the calculation of consolidated operating cash flow.

On November 6, 2009, the Company entered into the Seventh Amendment of the Amended and Restated Revolving Credit Agreement with Bank of America, N.A., Wells Fargo Bank, N.A., BBVA Compass Bank, and Rabobank, as its lenders. Prior to the execution of this Amendment, BBVA Compass Bank acquired certain assets of Guaranty Bank which included this credit facility and JPMorgan Chase Bank assigned its interest to Well Fargo Bank, N.A. The purpose of the amendment was to add *Bush Hog* as a member of the Obligated Group and pledge a first priority security interest in certain U.S. assets (accounts receivable, inventory, equipment, trademarks and trade names) of the Borrower and each member of the Obligated Group. The Lenders agreed to increase the operating leverage ratio

during the next three quarters and to add a new EBIT to Interest Expense covenant in exchange for a commitment fee and an increase in the Applicable Interest Margin over LIBOR or Prime Rate advances.

As of December 31, 2009, there was \$41,000,000 borrowed under the revolving credit facility. On December 31, 2009, \$877,000 of the revolver capacity was committed to irrevocable standby letters of credit issued in the ordinary course of business as required by vendors' contracts resulting in approximately \$81,000,000 in available borrowings.

On May 13, 2008, Alamo Group Europe Limited expanded its overdraft facility with Lloyd's TSB Bank plc from £ 1.0 million to £ 5.5 million. The facility was renewed on November 1, 2009 and outstandings currently bear interest at Lloyd's Base Rate plus 1.4% per annum. The facility is unsecured but guaranteed by the U.K. subsidiaries of Alamo Group Europe Limited. As of December 31, 2009, there were no outstanding balances in British pounds borrowed against the U.K. overdraft facility.

There are additional lines of credit: for the Company's French operations in the amount of 8,200,000 Euros, which includes the *Rivard* credit facilities; for our Canadian operation in the amount of 3,500,000 Canadian dollars; and for our Australian operation in the amount of 800,000 Australian dollars. As of December 31, 2009, no Euros were borrowed against the French line of credit; 2,706,000 Canadian dollars were outstanding on the Canadian line of credit; and 200,000 Australian dollars were outstanding under its facility. The Canadian and Australian revolving credit facilities are guaranteed by the Company. The Company's borrowing levels for working capital are seasonal with the greatest utilization generally occurring in the first quarter and early spring.

As of December 31, 2009, the Company is in compliance with the terms and conditions of its credit facilities.

The aggregate maturities of long-term debt, as of December 31, 2009, are as follows: \$5,453,000 in 2010; \$1,341,000 in 2011; \$41,448,000 in 2012; \$470,000 in 2013; \$292,000 in 2014; and \$785,000 thereafter.

The fair value of the Company's debt is based on secondary market indicators. Since the Company's debt is not quoted, estimates are based on each obligation's characteristics, including remaining maturities, interest rate, credit rating, collateral, amortization schedule and liquidity. The carrying amount approximates fair value.

9. DERIVATIVES AND HEDGING

Most of the Company's outstanding debt is advanced from a revolving credit facility that accrues interest at a contractual margin over current market interest rates. The Company's financing costs associated with this credit facility can materially change with market increases and decreases of short-term borrowing rates, specifically London Inter Bank Operating Rate ("LIBOR"). During the second quarter of 2007, the Company entered into two interest rate swap agreements with JPMorgan that hedge future cash flows related to its outstanding debt obligations. One swap has a three-year term and fixed the LIBOR base rate at 4.910% covering \$20 million of this debt. The other has a four-year term and fixed the LIBOR base rate at 4.935% covering an additional \$20 million of these variable rate borrowings. On November 5, 2009, JPMorgan transferred the swap transactions to Bank of America. The terms of the hedging instrument remain the same. As of December 31, 2009, the Company had \$41 million outstanding under its revolving credit facility and the two interest rate swap contracts designated as cash flow hedges which are effectively hedging \$40 million of these borrowings from changes in underlying LIBOR base rates. The fair market value of these hedges, which is the amount that would have been paid or received by the Company had it prematurely terminated these swap contracts on December 31, 2009, was a \$1,266,000 liability. This is included in Other long-term liabilities with an offset in Accumulated other comprehensive income, net of taxes. On December 31, 2009, ineffectiveness related to the interest rate swap agreements was not material.

10. FAIR VALUE MEASUREMENTS

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants. There is a three-tier fair value hierarchy based upon the observability of inputs used in valuation techniques. Observable inputs (highest level) reflect market data obtained from independent sources, while unobservable inputs (lowest level) reflect internally developed market assumptions. In Fair value measurements are classified under the following hierarchy:

Level 1 – Quoted prices for identical instruments in active markets.

Level 2 – Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs or significant value-drivers are observable in active markets.

Level 3 – Model-derived valuations in which one or more significant inputs or significant value-drivers are unobservable

When available, the Company uses quoted market prices to determine fair value, and the Company classifies such measurements within Level 1. In some cases where market prices are not available, the Company makes use of observable market-based inputs to calculate fair value, in which case the measurements are classified with Level 2. If quoted or observable market prices are not available, fair value is based upon internally developed models that use, where possible, current market-based parameters such as interest rates, yield curves, currency rates, etc. These measurements are classified within Level 3.

Fair value measurements are classified to the lowest level input or value-driver that is significant to the valuation. A measurement may therefore be classified within Level 3 even though there may be significant inputs that are readily observable.

Derivative financial instruments

The fair value of interest rate swap derivatives is primarily based on third-party pricing service models. These models use discounted cash flows that utilize the appropriate market-based forward swap curves and zero-coupon interest rates. Interest rate swap derivatives are Level 2 measurements and have a fair value of \$1,266,000 in a liability position as of December 31, 2009.

The fair value of foreign currency forward contracts is based on a valuation model that discounts cash flows resulting from the differential between the contract price and the market-based forward rate and is a Level 2 measurement and has a fair value of \$66,000 in an asset position as of December 31, 2009.

11. INCOME TAXES

The jurisdictional components of income before taxes consist of the following:

| (in thousands) | December 31, | | |
|-----------------------------|------------------|------------------|------------------|
| | 2009 | 2008 | 2007 |
| Income before income taxes: | | | |
| Domestic | \$ 10,894 | \$ 2,176 | \$ 4,023 |
| Foreign | 17,725 | 15,050 | 14,012 |
| | <u>\$ 28,619</u> | <u>\$ 17,226</u> | <u>\$ 18,035</u> |

The components of income tax expense (benefit) consist of the following:

| (in thousands) | December 31, | | |
|--------------------|------------------|-----------------|-----------------|
| | 2009 | 2008 | 2007 |
| Current: | | | |
| Domestic | \$ (1,059) | \$ 891 | \$ 943 |
| Foreign | 5,017 | 4,789 | 3,703 |
| State | (381) | 458 | 377 |
| | <u>3,577</u> | <u>6,138</u> | <u>5,023</u> |
| Deferred: | | | |
| Domestic | 7,221 | (242) | 414 |
| Foreign | (641) | 331 | 233 |
| State | 1,371 | — | — |
| | <u>7,951</u> | <u>89</u> | <u>647</u> |
| Total income taxes | <u>\$ 11,528</u> | <u>\$ 6,227</u> | <u>\$ 5,670</u> |

The difference between income tax expense (benefit) for financial statement purposes and the amount of income tax expense computed by applying the domestic statutory income tax rate of 34% to income loss before income taxes consist of the following:

| (in thousands) | December 31, | | |
|---------------------------------|------------------|-----------------|-----------------|
| | 2009 | 2008 | 2007 |
| Domestic statutory rate at 34% | \$ 9,730 | \$ 5,857 | \$ 6,132 |
| Increase (reduction) from: | | | |
| Jurisdictional rate differences | (581) | (634) | (827) |
| Goodwill impairment | 2,686 | 424 | — |
| Valuation allowance | (793) | — | — |
| Stock based compensation | 138 | 144 | 148 |
| U.S. state taxes | 647 | 324 | 247 |
| Other, net | (299) | 112 | (30) |
| Provision for income taxes | <u>\$ 11,528</u> | <u>\$ 6,227</u> | <u>\$ 5,670</u> |
| Effective tax rate | 40% | 36% | 31% |

Deferred income taxes arise from temporary differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. The components of the Company's deferred income tax assets and liabilities consist of the following:

| (in thousands) | December 31, | |
|--|-------------------|-----------------|
| | 2009 | 2008 |
| Current: | | |
| Deferred tax assets: | | |
| Inventory basis differences | \$ — | \$ 1,062 |
| Accounts receivable reserve | 283 | 281 |
| Employee benefit accruals | 413 | 712 |
| Product liability and warranty reserves | 935 | 751 |
| Expenses not deductible for tax purposes | 433 | — |
| Foreign net operating loss | 630 | — |
| Other | 424 | 83 |
| | 3,118 | 2,889 |
| Deferred tax liabilities: | | |
| Inventory basis differences | (2,431) | — |
| Expenses deductible for tax purposes | (733) | (240) |
| | (3,164) | (240) |
| Net current deferred tax asset | \$ (46) | \$ 2,649 |
| Non-Current: | | |
| Deferred tax assets: | | |
| Environmental reserve | \$ 611 | \$ 611 |
| Pension liability | 2,845 | 3,229 |
| Derivative liability | 481 | 927 |
| Stock based compensation | 221 | 168 |
| Foreign net operating loss | — | 791 |
| Valuation allowance | — | (1,703) |
| | 4,158 | 4,023 |
| Deferred tax liabilities: | | |
| Depreciation | (6,949) | (252) |
| Intangible assets | (277) | (1,442) |
| Deferred revenue | (355) | (497) |
| | (7,581) | (2,191) |
| Net non-current tax asset (liability) | \$ (3,423) | \$ 1,832 |

As of December 31, 2009, the Company had foreign deferred tax assets consisting of foreign net operating losses and other tax benefits available to reduce future taxable income in a foreign jurisdiction. The net operating loss ("NOL") has an unlimited carry-forward.

In assessing the realizability of deferred tax assets, the Company considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. Based on the expectation of future taxable income and that the deductible temporary differences will offset existing taxable temporary differences, the Company believes it is more likely than not that it will realize the benefits of these deductible differences.

Deferred income taxes have not been provided on the future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and the respective tax bases of the Company's foreign subsidiaries, based on the determination that such differences are essentially permanent in duration in that the earnings of the subsidiaries are expected to be indefinitely reinvested in foreign operations. As of December 31, 2009, the cumulative undistributed earnings of these subsidiaries approximated \$92,397,000. If these earnings were not considered indefinitely reinvested, deferred income taxes would have been recorded after the consideration of foreign tax credits. At this time, it is not practicable to estimate the amount of additional income taxes that might be payable on those earnings, if distributed.

The Company adopted the provisions of FASB ASC Section 740-10-25 (formerly FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes") on January 1, 2007. As of January 1, 2007, the Company recognized a liability approximating \$379,000 for unrecognized tax positions, which included penalty and interest of \$134,000. During 2008, the Company recognized an additional liability of \$120,000 related to state income tax exposures. During 2009, the Company reduced their liability for unrecognized tax positions after a reevaluation of these liabilities under the measurement criteria of ASC 740.

The Company adopted the policy to include interest and penalty expense related to income taxes as interest and other expense, respectively. As of December 31, 2009, no interest or penalties has been or is required to be accrued. The Company's open tax years for its federal income tax returns are for the years ended December 31, 2007, 2008 and 2009. The Company's open tax years for its state income tax returns range from December 31, 2006 to December 31, 2009

12. COMMON STOCK

The Company was authorized by its Board of Directors in 1997 to repurchase up to 1,000,000 shares of the Company's common stock to be funded through working capital and credit facility borrowings. No shares were repurchased in 2008 or 2009. The authorization to repurchase up to 1,000,000 shares remains available less 42,600 shares, previously purchased.

Subsequent to December 31, 2009, the Company declared and paid a dividend of \$.06 per share.

13. STOCK OPTIONS

Incentive Options

On April 28, 1994, the stockholders approved the 1994 Incentive Stock Option Plan ("1994 ISO Plan") for key employees. Each option becomes vested and exercisable for up to 20% of the total optioned shares each year after grant. Under the terms of this plan, the exercise price of the shares subject to each option granted would not be less than the fair market value of the common stock at the date the option is granted.

There are 59,980 shares outstanding under this option plan. No further option grants can be made under this plan.

On May 3, 2005, the stockholders of the Company approved the 2005 Incentive Stock Option Plan ("2005 ISO Plan") and the Company reserved 500,000 shares of common stock for options to be issued under the 2005 ISO Plan. During the years ended December 31, 2009, 2008 and 2007, options to purchase 99,000 shares, 39,000 shares and 74,000 shares, respectively, were granted under this plan. Each option becomes vested and exercisable for up to 20% of the total optioned shares one year following the grant of the option and for an additional 20% of the total optioned shares after each succeeding year until the option is fully exercisable at the end of the fifth year.

Following is a summary of activity in the Incentive Stock Option Plans for the periods indicated:

| | 2009 | | 2008 | | 2007 | |
|--|---------|-----------------|----------|-----------------|---------|-----------------|
| | Shares | Exercise Price* | Shares | Exercise Price* | Shares | Exercise Price* |
| Options outstanding at beginning of year | 253,980 | \$ 20.44 | 277,080 | \$ 18.26 | 211,400 | \$ 15.63 |
| Granted | 99,000 | 11.45 | 39,000 | 22.55 | 74,000 | 24.83 |
| Exercised | — | — | (49,100) | 9.76 | (8,320) | 9.71 |
| Cancelled | (7,500) | 20.04 | (13,000) | 20.71 | — | — |
| Options outstanding at end of year | 345,480 | 18.73 | 253,980 | 20.44 | 277,080 | 18.26 |
| Options exercisable at end of year | 156,780 | \$ 18.74 | 118,180 | \$ 17.55 | 124,680 | \$ 13.72 |
| Options available for grant at end of year | 214,500 | | 307,000 | | 338,000 | |

*Weighted Averages

Options outstanding and exercisable at December 31, 2009 were as follows:

| Qualified Stock Options | Options Outstanding | | | Options Exercisable | |
|-------------------------|---------------------|-----------------------------------|-----------------|---------------------|-----------------|
| | Shares | Remaining Contractual Life (yrs)* | Exercise Price* | Shares | Exercise Price* |
| Range of Exercise Price | | | | | |
| \$11.45 - \$17.85 | 157,480 | 7.76 | \$ 12.26 | 59,980 | \$ 13.58 |
| \$19.79 - \$25.18 | 188,000 | 7.43 | 22.57 | 96,800 | 21.92 |
| Total | 345,480 | | | 156,780 | |

*Weighted Averages

The weighted-average grant-date fair values of options granted during 2009, 2008, and 2007 were \$5.08, \$10.72 and \$8.76, respectively. As of December 31, 2009, there was \$1,105,000 of total unrecognized compensation cost related to non-vested share-based compensation arrangements granted under the plans. That cost is expected to be recognized over a period of five years.

Non-qualified Options

On May 4, 2005, the Company granted additional options under the FAR 1999 NQSO Plan to purchase 5,000 shares of the Company's Common Stock each to Messrs. Goldress, Morris, Skaggs and Thomas, at an exercise price of \$19.79 per share, being the closing price of the Company's Common Stock on the grant date. Each option becomes vested and exercisable for up to 20% of the total optioned shares one year following the grant of the option and for an additional 20% of the total optioned shares after each succeeding year until the option is fully exercisable. During 2006, 2008 and 2009, no options were exercised. During 2007, 5,000 of these shares were exercised.

On August 8, 2006, the Company granted additional options under the FAR 1999 NQSO Plan to purchase 2,500 shares of the Company's Common Stock to Mr. Grzelak, at an exercise price of \$25.02 per share, being the closing price of the Company's Common Stock on the grant date. The option becomes vested and exercisable for up to 20% of the total optioned shares one year following the grant of the option and for an additional 20% of the total optioned shares after each succeeding year until the option is fully exercisable. No options have been exercised.

On May 7, 2007, the Company granted additional options under the FAR 1999 NQSO Plan to purchase 5,000 shares of the Company's Common Stock to each Messrs. Douglass, Goldress, Grzelak, Martin, Morris and Skaggs, at an exercise price of \$25.18 per share, being the closing price of the Company's Common Stock on the grant date. Each option becomes vested and exercisable for up to 20% of the total optioned shares one year following the grant of the option and for an additional 20% of the total optioned shares after each succeeding year until the option is fully exercisable. No options were exercised in 2008 or 2009.

On May 11, 2009, the Company granted additional options under the FAR 1999 NQSO Plan to purchase 8,000 shares of the Company's Common Stock to each Messrs. Douglass, Goldress, Grzelak, Martin, Morris and Skaggs, and 12,000 shares to Mr. Malone at an exercise price of \$11.45 per share, being the closing price of the Company's Common Stock on the grant date. Each option becomes vested and exercisable for up to 20% of the total optioned shares one year following the grant of the option and for an additional 20% of the total optioned shares after each succeeding year until the option is fully exercisable.

On May 7, 2009, the stockholders of the Company approved the 2009 Equity Incentive Plan and the Company reserved 400,000 shares of common stock for this plan. On May 11, 2009, the Company granted options under this plan to purchase 25,000 shares to Mr. Robinson at an exercise price of \$11.45 per share. This option becomes vested and exercisable for up to 20% of the total optioned shares one year following the grant of the option and for an additional 20% of the total optioned shares after each succeeding year until the option is fully exercisable at the end of the fifth year. Also on May 11, 2009, the Company granted Restricted Stock Units of 8,000 shares to certain employees. These shares vest for 25% of the total award one year following the award date and for an additional 25% of total awarded shares each succeeding year until fully vested.

Following is a summary of activity in the Non-Qualified Stock Option Plans for the periods indicated:

| | 2009 | | 2008 | | 2007 | |
|--|-----------|-----------------|----------|-----------------|----------|-----------------|
| | Shares | Exercise Price* | Shares | Exercise Price* | Shares | Exercise Price* |
| Options outstanding at beginning of year | 226,000 | \$ 12.62 | 302,000 | \$ 11.71 | 305,000 | \$ 10.72 |
| Granted | 85,000 | 11.45 | — | — | 30,000 | 25.18 |
| Exercised | (125,000) | 8.94 | (76,000) | 8.98 | (27,000) | 14.28 |
| Cancelled | — | — | — | — | (6,000) | 17.23 |
| Options outstanding at end of year | 186,000 | 14.57 | 226,000 | 12.62 | 302,000 | 11.71 |
| Options exercisable at end of year | 79,000 | \$ 15.17 | 194,500 | \$ 10.76 | 248,000 | \$ 9.66 |
| Options available for grant at end of year | 367,000 | | 63,500 | | 63,500 | |

*Weighted Averages

Options outstanding and exercisable as of December 31, 2009 were as follows:

| Non-Qualified Stock Options | Options Outstanding | | | Options Exercisable | |
|-----------------------------|---------------------|----------------------------------|-----------------|---------------------|-----------------|
| | Shares | Remaining Contractual Life(yrs)* | Exercise Price* | Shares | Exercise Price* |
| Range of Exercise Price | | | | | |
| \$8.9375 - \$12.10 | 140,000 | 7.64 | \$11.71 | 55,000 | \$12.10 |
| \$13.96 - \$19.79 | 13,500 | 5.26 | 18.71 | 10,500 | 18.40 |
| \$25.02 - \$25.18 | 32,500 | 7.92 | \$25.17 | 13,500 | \$25.16 |
| Total | 186,000 | | | 79,000 | |

*Weighted Averages

The weighted-average grant-date fair values of options granted during 2009 and 2007 were \$5.08 and \$8.88, respectively. There were no options granted in 2008. As of December 31, 2009, there was \$247,000 of total unrecognized compensation cost related to non-vested share-based compensation arrangements granted under the plans. That cost is expected to be recognized over a period of five years.

During 2009, 2008 and 2007, 125,000, 76,000, and 27,000 non-qualified options, respectively, were exercised, \$1,117,188, \$682,413, and \$385,610 of cash receipts were received, respectively, and tax deductions of \$289,000, \$951,000, and \$294,000 were realized, respectively, for the tax deductions from option exercises.

Restricted Stock Units

Following is a summary of activity in the Restricted Stock Units for the periods indicated:

| | Shares | Price | Weighted-average remaining contractual term (in years) |
|--|--------|----------|--|
| Options outstanding at beginning of year | — | — | — |
| Granted | 8,000 | \$ 11.45 | 3.35 |
| Vested | — | — | — |
| Forfeited or Cancelled | — | — | — |
| Options outstanding at end of year | 8,000 | \$ 11.45 | — |

During fiscal 2009, the Company issued restricted stock units covering 8,000 shares of common stock with a value at the date of grant of \$91,600. The 8,000 restricted stock units vest 25% after one year following the award date and for an additional 25% of total awarded shares each succeeding year until fully vested. The expense related to the restricted stock units was \$6,300 in 2009.

14. RETIREMENT BENEFIT PLANS

Defined Benefit Plans

In connection with the February 3, 2006 purchase of all the net assets of the *Gradall* excavator business, the Company assumed sponsorship of two *Gradall* non-contributory defined benefit pension plans, both of which are frozen with respect to both future benefit accruals and future new entrants.

The *Gradall* Company Hourly Employees' Pension Plan covers approximately 310 former employees and 210 current employees who (i) were formerly employed by JLG Industries, Inc., (ii) were covered by a collective bargaining agreement and (iii) first participated in the plan before April 6, 1997. An amendment ceasing all future benefit accruals was effective April 6, 1997.

The *Gradall* Company Employees' Retirement Plan covers approximately 220 former employees and 120 current employees who (i) were formerly employed by JLG Industries, Inc., (ii) were not covered by a collective bargaining agreement and (iii) first participated in the plan before December 31, 2004. An amendment ceasing future benefit accruals for certain participants was effective December 31, 2004. A second amendment discontinued all future benefit accruals for all participants effective April 24, 2006.

The following tables set forth the change in plan assets, change in projected benefit obligation, rate assumptions and components of net periodic benefit cost as of December 31 with respect to these plans. The measurement dates of the assets and liabilities of both plans were December 31 of the respective years presented.

| (in thousands) | Year ended December 31, 2009 | | |
|--|--------------------------------------|----------------------------------|------------|
| | Hourly Employees' Pension Plan | Employees' Retirement Plan | Total |
| Change in projected benefit obligation | | | |
| Benefit obligation at beginning of year | \$ 8,848 | \$ 14,254 | \$ 23,102 |
| Service cost | 8 | 4 | 12 |
| Interest cost | 518 | 863 | 1,381 |
| Liability actuarial (gain)/loss | 309 | 497 | 806 |
| Benefits paid | (616) | (562) | (1,178) |
| Benefit obligation at end of year | 9,067 | 15,056 | 24,123 |
| Change in fair value of plan assets | | | |
| Fair value of plan assets at beginning of year | 4,961 | 9,460 | 14,421 |
| Return on plan assets | 967 | 1,939 | 2,906 |
| Employer contributions | 249 | 85 | 334 |
| Benefits paid | (616) | (562) | (1,178) |
| Fair value of plan assets at end of year | 5,561 | 10,922 | 16,483 |
| Underfunded status – December 31, 2009 | \$ (3,506) | \$ (4,134) | \$ (7,640) |
| Accumulated benefit obligation – December 31, 2009 | \$ 9,067 | \$ 15,056 | \$ 24,123 |

| (in thousands) | Year ended December 31, 2008 | | |
|--|--------------------------------------|----------------------------------|------------|
| | Hourly Employees' Pension Plan | Employees' Retirement Plan | Total |
| Change in projected benefit obligation | | | |
| Benefit obligation at beginning of year | \$ 7,556 | \$ 13,128 | \$ 20,684 |
| Service cost | 8 | 4 | 12 |
| Interest cost | 492 | 830 | 1,322 |
| Liability actuarial (gain)/loss | 1,398 | 834 | 2,232 |
| Benefits paid | (606) | (541) | (1,147) |
| Benefit obligation at end of year | 8,848 | 14,255 | 23,103 |
| Change in fair value of plan assets | | | |
| Fair value of plan assets at beginning of year | 7,272 | 12,372 | 19,644 |
| Return on plan assets | (1,706) | (2,867) | (4,573) |
| Employer contributions | — | 497 | 497 |
| Benefits paid | (606) | (541) | (1,147) |
| Fair value of plan assets at end of year | 4,960 | 9,460 | 14,421 |
| Underfunded status – December 31, 2008 | \$ (3,888) | \$ (4,794) | \$ (8,682) |
| Accumulated benefit obligation – December 31, 2008 | \$ 8,848 | \$ 14,255 | \$ 23,103 |

The Company recognizes the overfunded or underfunded status (i.e., the difference between the fair value of plan assets and the projected benefit obligations) of defined benefit postretirement plans as an asset or liability in its statement of financial position and recognize changes in the funded status in the year in which the changes occur. The Company measures the funded status of a plan as of the date of its year-end statement of financial position.

The underfunded status of the plan of \$7,640,000 and \$8,682,000 as of December 31, 2009 and 2008, respectively, is recognized in the accompanying consolidated balance sheets as long-term accrued pension liability because plan assets are less than the value of benefit obligations expected to be paid.

The accumulated benefit obligation for our pension plans represents the actuarial present value of benefits based on employee service and compensation as of a certain date and does not include an assumption about future compensation levels.

In determining the projected benefit obligation and the net pension cost, we used the following significant weighted-average assumptions:

Assumptions used to determine benefit obligations at December 31:

| | Hourly Employees' Pension Plan | | Employees' Retirement Plan | |
|---|---|-------------|---------------------------------------|-------------|
| | 2009 | 2008 | 2009 | 2008 |
| Discount rate | 5.67% | 6.15% | 5.83% | 6.14% |
| Composite rate of compensation increase | N/A | N/A | N/A | N/A |

Assumptions used to determine net periodic benefit cost for the years ended December 31:

| | Hourly Employees' Pension Plan | | Employees' Retirement Plan | |
|---|---|-------------|---------------------------------------|-------------|
| | 2009 | 2008 | 2009 | 2008 |
| Discount rate | 6.15% | 6.20% | 6.14% | 6.30% |
| Long-term rate of return on plan assets | 7.75% | 7.75% | 7.75% | 7.75% |
| Composite rate of compensation increase | N/A | N/A | N/A | N/A |

The Company employs a building block approach in determining the expected long-term rate on return on plan assets. Historical markets are studied and long-term historical relationships between equities and fixed-income are preserved consistent with the widely accepted capital market principle that assets with higher volatility generate a greater return over the long run. Current market factors such as inflation and interest rates are evaluated before long-term market assumptions are determined. The long-term portfolio return is established via a building block approach with proper consideration of diversification and rebalancing. Peer data and historical returns are reviewed to check for reasonability and appropriateness.

The following table presents the components of net periodic benefit cost (gains are denoted with parentheses and losses are not):

| (in thousands) | Year ended December 31, 2009 | | |
|------------------------------------|-----------------------------------|-------------------------------|---------|
| | Hourly Employees' Pension Plan | Employees' Retirement Plan | Total |
| Service cost | \$ 8 | \$ 4 | \$ 12 |
| Interest cost | 518 | 863 | 1,381 |
| Expected return on plan assets | (372) | (715) | (1,087) |
| Amortization of prior service cost | — | — | — |
| Amortization of net (gain)/loss | 130 | 117 | 247 |
| Net periodic benefit cost | \$ 284 | \$ 269 | \$ 553 |

| (in thousands) | Year ended December 31, 2008 | | |
|------------------------------------|-----------------------------------|-------------------------------|----------|
| | Hourly Employees' Pension Plan | Employees' Retirement Plan | Total |
| Service cost | \$ 8 | \$ 4 | \$ 12 |
| Interest cost | 492 | 830 | 1,322 |
| Expected return on plan assets | (540) | (958) | (1,498) |
| Amortization of prior service cost | — | — | — |
| Amortization of net (gain)/loss | (70) | (58) | (128) |
| Net periodic benefit cost | \$ (110) | \$ (182) | \$ (292) |

The Company estimates that \$119,000 of unrecognized actuarial expense will be amortized from accumulated other comprehensive income into net periodic benefit costs during 2010.

The Company employs a total return investment approach whereby a mix of equities and fixed income investments are used to maximize the long-term return of plan assets for a prudent level of risk. Risk tolerance is established through careful consideration of plan liabilities, plan funded status, and corporate financial condition. The investment portfolio contains a diversified blend of equity and fixed income investments. Furthermore, equity investments are diversified across U.S. and non-U.S. stocks, as well as growth, value, and small and large capitalizations. Other assets such as real estate, private equity, and hedge funds are used judiciously to enhance long-term returns while improving portfolio diversification. Derivatives may be used to gain market exposure in an efficient and timely manner; however, derivatives may not be used to leverage the portfolio beyond the market value of the underlying investments. Investment risk is measured and monitored on an ongoing basis through quarterly investment portfolio reviews, annual liability measurements, and periodic asset/liability studies.

The pension plans' weighted-average asset allocations as a percentage of plan assets at December 31 are as follows:

| | Hourly Employees' Pension Plan | | Employees' Retirement Plan | |
|------------------------|-----------------------------------|------|-------------------------------|------|
| | 2009 | 2008 | 2009 | 2008 |
| Equity securities | 60% | 53% | 57% | 52% |
| Debt securities | 37% | 41% | 42% | 43% |
| Short-term investments | 2% | 5% | 0% | 4% |
| Other | 1% | 1% | 1% | 1% |
| Total | 100% | 100% | 100% | 100% |

As of December 31, 2009, we used the following valuation techniques to measure fair value for assets. There were no changes to these methodologies during 2009: Level 1 - Assets were valued using the closing price reported in the active market in which the individual security was traded. Level 2 - Assets were valued using quoted prices in markets that are not active, broker dealer quotations, net asset value of shares held by the plans, and other methods by which all significant input were observable at the measurement date. Level 3 - Assets were valued using valuation reports from the respective institutions at the measurement date. The following table presents the hierarchy levels for our postretirement benefit plan investments as of December 31, 2009:

| (in thousands) | December 31, 2009 | Quoted Prices in Active Markets for Identical Assets (Level 1) | Significant Other Observable Inputs (Level 2) | Significant Unobservable Inputs (Level 3) |
|-------------------|----------------------|---|---|--|
| Equity securities | \$ 9,548 | \$ 9,548 | \$ - | \$ - |
| Debt securities | 6,619 | 6,619 | - | - |
| Other | 316 | 316 | - | - |
| Total | \$ 16,483 | \$ 16,483 | \$ - | \$ - |

Expected benefit payments are estimated using the same assumptions used in determining our benefit obligation as of December 31, 2009. The following table illustrates the estimated pension benefit payments which reflect expected future service, as appropriate, that are projected to be paid:

| (in thousands) | Hourly Employees' Pension Plan | Employees' Retirement Plan | Total |
|-------------------------|-----------------------------------|-------------------------------|----------|
| 2010 | \$ 652 | \$ 644 | \$ 1,296 |
| 2011 | 654 | 717 | 1,371 |
| 2012 | 652 | 748 | 1,400 |
| 2013 | 648 | 784 | 1,432 |
| 2014 | 647 | 863 | 1,510 |
| Years 2015 through 2019 | \$ 3,219 | \$ 5,033 | \$ 8,252 |

Defined Contribution Plans

The Company has three defined contribution plans, The *Gradall* Salaried Employees' Savings and Investment Plan ("Salary Plan"), The *Gradall* Hourly Employees' Savings and Investment Plan ("Hourly Plan") and The International Association of Machinist and Aerospace Retirement Plan ("IAM Plan"). The Company contributed \$254,000 and \$484,000 to the IAM Plan for the plan years ended December 31, 2009 and 2008, respectively. The Company converted the Salary Plan into its 401(k) retirement and savings plan and put the Hourly Plan into a separate 401(k) retirement and savings plan.

The Company provides a defined contribution 401(k) retirement and savings plan for eligible U.S. employees. Company matching contributions are based on a percentage of employee contributions. Company contributions to the plan during 2009, 2008 and 2007 were \$1,330,000, \$1,520,000, and \$1,194,000, respectively. A U.S. subsidiary of the Company had an Hourly Employee Pension Plan of Trust covering collective bargaining which was terminated on December 31, 2006. As of January 1, 2006 the employees were added to the existing 401(k) retirement and salary plan.

Three of the Company's international subsidiaries also participate in a defined contribution and savings plan covering eligible employees. The Company's international subsidiaries contribute between 3% and 7.5% of the participant's salary up to a specific limit. Total contributions made to the above plan were \$537,000, \$620,000, and \$596,000 for the year ended December 31, 2009, 2008 and 2007, respectively.

15. SEGMENT REPORTING

The Company reports three business segments: Industrial, Agricultural and European. The Company's sales are principally within the United States, United Kingdom, France, Canada and Australia. The Company sells its products primarily through a network of independent dealers and distributors, governmental end-users, related independent contractors, as well as to the agricultural and commercial turf markets.

The Company has included a summary of the financial information by reporting segment. The following table presents the revenues, income from operations (loss), goodwill and total identifiable assets by reporting segment for the years ended December 31, 2009, 2008 and 2007:

| (in thousands) | December 31, | | |
|----------------------------------|--------------|------------|------------|
| | 2009 | 2008 | 2007 |
| Net Revenue | | | |
| Industrial | \$ 173,905 | \$ 254,787 | \$ 253,203 |
| Agricultural | 92,415 | 120,232 | 117,652 |
| European | 180,167 | 182,116 | 133,531 |
| Consolidated | \$ 446,487 | \$ 557,135 | \$ 504,386 |
| Income from Operations | | | |
| Industrial | \$ (12,441) | \$ 9,716 | \$ 12,236 |
| Agricultural | 28,734 | (3,400) | 1,800 |
| European | 15,754 | 15,029 | 9,801 |
| Consolidated | \$ 32,047 | \$ 21,345 | \$ 23,837 |
| Goodwill | | | |
| Industrial | \$ 13,128 | \$ 26,755 | \$ 27,424 |
| Agricultural | — | — | 5,874 |
| European | 22,079 | 21,352 | 10,648 |
| Consolidated | \$ 35,207 | \$ 48,107 | \$ 43,946 |
| Total Identifiable Assets | | | |
| Industrial | \$ 126,630 | \$ 179,000 | \$ 170,510 |
| Agricultural | 122,094 | 78,793 | 84,210 |
| European | 129,239 | 128,339 | 95,910 |
| Consolidated | \$ 377,963 | \$ 386,132 | \$ 350,630 |

16. INTERNATIONAL OPERATIONS AND GEOGRAPHIC INFORMATION

Following is selected financial information on the Company's international operations which include Europe, Canada and Australia:

| (in thousands) | December 31, | | |
|---|--------------|------------|------------|
| | 2009 | 2008 | 2007 |
| Net sales | \$ 209,721 | \$ 215,733 | \$ 166,340 |
| Income from operations | 17,776 | 13,898 | 13,382 |
| Income before income taxes and allocated interest expense | 17,740 | 15,077 | 14,076 |
| Identifiable assets | 153,968 | 148,706 | 123,855 |

Following is other selected geographic financial information on the Company's operations:

| (in thousands) | December 31, | | |
|--|-------------------|-------------------|-------------------|
| | 2009 | 2008 | 2007 |
| Geographic net sales: | | | |
| United States | \$ 231,981 | \$ 331,671 | \$ 329,120 |
| United Kingdom | 38,332 | 44,306 | 42,486 |
| France | 115,395 | 99,685 | 65,764 |
| Canada | 17,756 | 22,255 | 19,018 |
| Australia | 11,400 | 11,175 | 12,046 |
| Mexico | 1,337 | 2,187 | 2,436 |
| Other | 30,286 | 45,856 | 33,516 |
| Total net sales | \$ 446,487 | \$ 557,135 | \$ 504,386 |
| Geographic location of long-lived assets: | | | |
| United States | \$ 59,094 | \$ 63,449 | \$ 66,075 |
| United Kingdom | 14,483 | 13,335 | 17,920 |
| France | 33,588 | 34,383 | 17,404 |
| Canada | 6,542 | 5,824 | 11,400 |
| Australia | 265 | 45 | 88 |
| Total long-lived assets | \$ 113,972 | \$ 117,036 | \$ 112,887 |

Net sales are attributed to countries based on the location of customers.

17. COMPREHENSIVE INCOME (LOSS)

For 2009, 2008 and 2007 the Company's Comprehensive Income was \$26,243,000, (\$14,110,000), and \$18,096,000, respectively.

The components of Accumulated Other Comprehensive Income are as follows:

| (in thousands) | December 31, | | |
|--|-----------------|-------------------|------------------|
| | 2009 | 2008 | 2007 |
| Foreign currency translation adjustments | \$ 8,148 | \$ 1,553 | \$ 19,674 |
| Derivatives net of taxes | (744) | (1,560) | (760) |
| Actuarial (loss) gain on defined benefit pension plan, net of taxes | (2,257) | (3,998) | 2,190 |
| Accumulated other comprehensive income (loss) | \$ 5,147 | \$ (4,005) | \$ 21,104 |

18. COMMITMENTS AND CONTINGENCIES

Leases

The Company leases office space and equipment under various operating leases, which generally are expected to be renewed or replaced by other leases. The Company has certain capitalized leases consisting principally of leases of buildings. As of December 31, 2009, future minimum lease payments under these non-cancelable leases and the present value of the net minimum lease payments for the capitalized leases are:

| (in thousands) | Operating Leases | Capitalized Leases |
|--|---------------------|-----------------------|
| 2010 | \$ 1,487 | \$ 1,727 |
| 2011 | 900 | 1,209 |
| 2012 | 429 | 265 |
| 2013 | 187 | 265 |
| 2014 | 67 | 66 |
| Thereafter | 15 | — |
| Total minimum lease payments | \$ 3,085 | \$ 3,532 |
| Less amount representing interest | | 299 |
| Present value of net minimum lease payments | | \$ 3,233 |
| Less current portion | | 1,552 |
| Long-term portion | | \$ 1,681 |

Rental expense for operating leases was \$1,693,000 for 2009, \$1,787,000 for 2008, and \$1,625,000 for 2007.

Purchase obligations of \$60,292,000 represent an estimate of goods and services to be purchased under outstanding purchase orders not reflected on the Company's balance sheet. New purchase obligations should be received and paid for during the current fiscal year.

Other

The Company is subject to various unresolved legal actions that arise in the ordinary course of its business. The most significant of such actions relates to product liability, which is generally covered by insurance after various self-insured retention ("SIR") amounts. While amounts claimed might be substantial and the liability with respect to such litigation cannot be determined at this time, the Company believes that the outcome of these matters will not have a material adverse effect on the Company's consolidated financial position or results of operations; however, the ultimate resolution cannot be determined at this time.

The Company is subject to numerous environmental laws and regulations concerning air emissions, discharges into waterways, and the generation, handling, storage, transportation, treatment and disposal of waste materials. The Company's policy is to comply with all applicable environmental, health and safety laws and regulations, and the Company believes it is currently in material compliance with all such applicable laws and regulations. These laws and regulations are constantly changing, and it is impossible to predict with accuracy the effect that changes to such laws and regulations may have on the Company in the future. Like other industrial concerns, the Company's manufacturing operations entail the risk of noncompliance, and there can be no assurance that the Company will not incur material costs or other liabilities as a result thereof.

The Company knows that its Indianola, Iowa property is contaminated with chromium which most likely resulted from chrome plating operations which were discontinued before the Company purchased the property. Chlorinated volatile organic compounds have also been detected in water samples on the property, though the source is unknown at this time. The Company voluntarily worked with an environmental consultant and the state of Iowa with respect to these issues and believes it completed its remediation program in June 2006. The work was accomplished within the Company's environmental liability reserve balance. We requested a "no further action" classification from the state. We received a conditional "no further action" letter in January of 2009. When we demonstrate stable or improving conditions below residential standards by future monitoring of existing wells, an unconditional "no further action" letter will be requested.

On December 31, 2009, the Company had an environmental reserve in the amount of \$1,608,000 related to the acquisition of *Gradall's* facility in Ohio. Three specific remediation projects that were identified prior to the acquisition are in process of remediation with a remaining reserve balance of \$143,000. The Company has a reserve of \$277,000 concerning a potential asbestos issue that is expected to be abated over time. The balance of the reserve, \$1,188,000, is mainly for potential ground water contamination/remediation that was identified before the acquisition and believed to have been generated by a third party company located near the *Gradall* facility.

Certain other assets of the Company contain asbestos that may have to be remediated over time. Management has made its best estimate of the cost to remediate these environmental issues. However, such estimates are difficult to estimate including the timing of such costs. The Company believes that any subsequent change in the liability associated with the asbestos removal will not have a material adverse effect on the Company's consolidated financial position or results of operations.

The company knows that *Bush Hog's* main manufacturing property in Selma, Alabama is contaminated with chlorinated volatile compounds which most likely resulted from painting and cleaning operations during the 1960s and '70s. The contaminated areas are primarily in the location of underground storage tanks and underneath the former waste storage area. Under the Asset Purchase Agreement, *Bush Hog's* prior owner, agreed to remove the underground storage tanks at its cost and is liable for remediating the identified contamination in accordance with the regulations of the Alabama Department of Environmental Management. An environmental consulting firm has been retained by the prior owner and is administering the cleanup.

The Company is subject to various other federal, state, and local laws affecting its business, as well as a variety of regulations relating to such matters as working conditions, equal employment opportunities and product safety. A variety of state laws regulate the Company's contractual relationships with its dealers, some of which impose restrictive standards on the relationship between the Company and its dealers, including events of default, grounds for termination, non-renewal of dealer contracts and

equipment repurchase requirements. The Company believes it is currently in material compliance with all such applicable laws and regulations.

19. QUARTERLY FINANCIAL DATA (Unaudited)

Summarized quarterly financial data for 2009 and 2008 is presented below. Seasonal influences affect the Company's sales and profits, with peak business occurring in May through August.

(in thousands, except per share amounts)

| | 2009 | | | | 2008 | | | |
|------------------------------|------------|------------|------------|------------|------------|------------|------------|------------|
| | First | Second | Third | Fourth | First | Second | Third | Fourth |
| Sales | \$ 110,143 | \$ 113,243 | \$ 110,318 | \$ 112,783 | \$ 133,781 | \$ 152,160 | \$ 148,707 | \$ 122,487 |
| Gross profit | 21,727 | 24,329 | 25,649 | 22,856 | 24,981 | 30,504 | 29,610 | 24,319 |
| Net income | 1,543 | 2,992 | 4,583 | 7,973 | 2,832 | 5,565 | 4,453 | (1,851) |
| Earnings per share | | | | | | | | |
| Diluted | \$ 0.15 | \$ 0.30 | \$ 0.46 | \$ 0.70 | \$ 0.29 | \$ 0.56 | \$ 0.45 | \$ (0.19) |
| Average shares | | | | | | | | |
| Diluted | 9,963 | 9,986 | 10,086 | 11,417 | 9,921 | 9,957 | 9,970 | 9,921 |
| Dividends per share | \$ 0.06 | \$ 0.06 | \$ 0.06 | \$ 0.06 | \$ 0.06 | \$ 0.06 | \$ 0.06 | \$ 0.06 |
| Market price of common stock | | | | | | | | |
| High | \$ 18.04 | \$ 13.25 | \$ 17.16 | \$ 17.33 | \$ 21.40 | \$ 26.46 | \$ 23.46 | \$ 17.22 |
| Low | \$ 9.22 | \$ 9.90 | \$ 9.98 | \$ 13.10 | \$ 17.34 | \$ 19.27 | \$ 15.84 | \$ 10.69 |

The sum of quarterly earnings per share may not equal total year earnings per share due to rounding of earnings per share amounts, and differences in weighted-average shares and equivalent shares outstanding for each of the periods presented.

The fourth quarter 2009 results include the following items: (1) a pre-tax charge of \$14.1 million related to goodwill impairment, (2) a pre-tax benefit of \$3.7 million related to LIFO liquidation, and (3) a \$27.7 million gain on bargain purchase of *Bush Hog*. The fourth quarter 2008 results include a pre-tax charge of \$5.0 million related to goodwill impairment.

20. ACQUISITIONS AND INVESTMENTS

Bush Hog

On October 22, 2009 ("Closing Date"), the Company acquired the majority of the assets and assumed certain liabilities of the Bush Hog, LLC, a Delaware limited liability company ("*Bush Hog*") located in Selma, Alabama. The purchase included substantially all of the ongoing business of *Bush Hog*, including the *Bush Hog* brand name and all related product names and trademarks (the "Acquisition"). The purchase price consideration was 1.7 million unregistered shares of Alamo Group common stock which represented approximately 14.5% of the outstanding stock of Alamo Group. The closing price on October 22, 2009 was \$16.09 per share.

The Acquisition has been accounted for in accordance with ASC Topic 805, *Business Combinations* ("ASC Topic 805"). Accordingly, the total purchase price has been allocated on a provisional basis to assets acquired and net liabilities assumed in connection with the Acquisition based on their estimated fair values as of the completion of the Acquisition. These allocations reflect various provisional estimates that were available at the time and are subject to change during the purchase price allocation period as valuations are finalized.

The fair value of the net assets acquired was approximately \$53.1 million, which exceeds the preliminary estimated purchase price of \$25.4 million. Accordingly, the Company recognized the excess of the fair value of the net assets over the purchase price of approximately \$27.7 million as a gain on bargain purchase. The gain on bargain purchase of \$27.7 million is shown separately within income from operations in the Consolidated Statements of Income. The recorded amounts are provisional and subject to change. The Company continues to evaluate the purchase price allocation, including the opening fair value of inventory, accounts receivable, property, plant & equipment, accrued liabilities and deferred taxes, which may require the Company to adjust the recorded gain.

The Company believes that it was able to acquire *Bush Hog* for less than the fair value of its assets because of (i) the Company's unique position as a market leader in this industry segment and (ii) the seller's intent to exit its *Bush Hog* operations. *Bush Hog* was an unprofitable venture, and the seller

approached the Company in an effort to sell *Bush Hog* and exit the agricultural equipment manufacturing business that no longer fit its strategy. With the seller's intent to exit the agricultural manufacturing business segment and the Company's position as a market leader, the Company was able to agree on a favorable purchase price.

The primary reason for the *Bush Hog* acquisition was to help the Company further the goal of becoming the largest manufacturer of agricultural mowers in the world. This acquisition enabled the Company to expand its market presence, expand its product offerings and enter new markets.

The following table summarizes the provisional amounts recognized for assets acquired and liabilities assumed as of the Closing Date. A single estimate of fair value results from a complex series of judgments about future events and uncertainties and relies heavily on estimates and assumptions. The Company's judgments used to determine the estimated fair value assigned to each class of assets acquired and liabilities assumed, as well as asset lives, can materially impact the Company's results of operations. Certain estimated values are not yet finalized and are subject to change, which could be significant. The Company will finalize the amounts recognized as information necessary to complete the analyses is obtained. The Company expects to finalize these amounts as soon as possible but no later than one year from the acquisition date. The following are estimated fair value of assets acquired and liabilities assumed as of the Acquisition date (in thousands):

| | |
|---|-----------|
| Accounts receivable | \$ 25,571 |
| Inventory | 21,875 |
| Prepaid expenses | 395 |
| Property, plant & equipment | 12,743 |
| Other liabilities | (9,357) |
| Net assets acquired | 51,227 |
| Intangible asset | |
| <i>Bush Hog</i> trade name | 1,900 |
| Total assets acquired | 53,127 |
| Less: Fair value of 1.7 million unregistered shares | 25,438 |
| Gain on Bargain purchase | \$ 27,689 |

In accordance with the closing documents, the Company received a 50% undivided interest in the Accounts Receivable of *Bush Hog*, subject to any net working capital adjustment. The post closing net working capital adjustment was \$3.8 million which increased accounts receivable and the gain on bargain purchase. The Company will collect payments on the acquired accounts receivable and remit 50% of the collections to the seller less the \$3.8 million. The *Bush Hog* accounts receivable were recorded at 50% of the fair value, plus the working capital adjustment.

As of the acquisition date, the fair value of accounts receivable was \$25.6 million. The gross contractual amount receivable was \$34.6 million of which \$9.0 million was not expected to be collected.

The intangible asset relates to the appraised value of the *Bush Hog* name at closing and has an indefinite life.

Under 805-10, acquisition related costs (i.e., advisory, legal, valuation and other professional fees) are not included as a component of consideration transferred, but are accounted for as expenses in the periods in which the costs are incurred. The Company incurred \$828,000 of acquisition related costs. The Company will incur integration expenses during 2010 relating to manufacturing process changes and computer conversion, but it is expected to be immaterial.

In the period between the Closing Date and December 31, 2009, *Bush Hog* generated approximately \$10.9 million of net revenue and \$1.5 million net loss. The Company has included the operating results of *Bush Hog* in its consolidated financial statements since the Closing Date.

The following table presents unaudited supplemental pro forma information as if the acquisition of *Bush Hog* had occurred on January 1, 2009 for the year ended December 31, 2009 and January 1, 2008 for the year ended December 31, 2008:

| (in thousands, except per share amounts) | 2009 | 2008 |
|--|-------------|-------------|
| Net sales | \$ 561,740 | \$ 708,412 |
| Net loss | \$ (10,516) | \$ (10,771) |
| Diluted loss per share | \$ (0.92) | \$ (0.93) |

The unaudited pro forma financial information is presented for informational purposes only and is not intended to represent or be indicative of the consolidated results of operations of the Company that would have been reported had the acquisition been completed as of the beginning of the periods presented, and should not be taken as being representative of the future consolidated results of operations of the Company.

The company knows that *Bush Hog's* main manufacturing property in Selma, Alabama is contaminated with chlorinated volatile compounds which most likely resulted from painting and cleaning operations during the 1960s and '70s. The contaminated areas are primarily in the location of underground storage tanks and underneath the former waste storage area. Under the Asset Purchase Agreement, *Bush Hog's* prior owner agreed to remove the underground storage tanks at its cost and is liable for remediating the identified contamination in accordance with the regulations of the Alabama Department of Environmental Management. An environmental consulting firm has been retained by the prior owner and is administering the cleanup.

Rivard Developpement

On May 30, 2008 ("Closing Date"), the Company purchased Rivard Developpement S.A.S. ("*Rivard*"), a leading French manufacturer of vacuum trucks, high-pressure cleaning systems and trenchers. The purchase price was approximately €15 million (approximately U.S. \$23 million) plus the assumption of certain liabilities. The Company has allocated the purchase price to the acquired assets and liabilities assumed and recorded goodwill of approximately €9 million (approximately U.S. \$15 million) related to this acquisition. We finalized the purchase price allocation during the second quarter of 2009. The majority of the purchase price was funded utilizing the Company's cash reserves in Europe, with the balance from bank credit facilities. *Rivard's* sales in 2007 were €40 million (approximately U.S. \$62 million), and the company has 275 full-time employees. *Rivard* is located in Daumeray, France and was founded in 1952.

The following table summarizes the estimated fair value of the assets acquired and liabilities assumed at the Closing Date:

| (in thousands) | <u>Rivard</u> |
|-------------------------------|----------------------|
| | 2008 |
| Current assets | \$ 24,203 |
| Property, plant and equipment | 5,905 |
| Intangible assets | 14,119 |
| Total assets acquired | 44,227 |
| Current liabilities | 19,985 |
| Deferred pension liability | — |
| Other liabilities | 1,657 |
| Deferred income taxes | — |
| Total liabilities assumed | 21,642 |
| Net assets acquired | \$ 22,585 |

The Company has included the operating results of *Rivard* in its consolidated financial statements since the Closing Date.

The unaudited pro forma statement of income of the Company assuming the transactions were completed at January 1, 2008 is as follows:

| <u>(in thousands, except per share amounts)</u> | <u>December 31,</u> <u>2008</u> |
|---|------------------------------------|
| Net sales | \$ 582,968 |
| Net income | 11,138 |
| Diluted earnings per share | \$ 1.12 |

The unaudited pro forma financial information is presented for informational purposes only and is not intended to represent or be indicative of the consolidated results of operations of the Company that would have been reported had the acquisition been completed as of the beginning of the period presented, and should not be taken as being representative of the future consolidated results of operations of the Company.

 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
6. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**CERTIFICATION PURSUANT TO
18 U.S.C. SECTION 1350,
AS ADOPTED PURSUANT TO
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002**

In connection with the Annual Report of Alamo Group Inc. (the "Company") on Form 10-K for the period ended December 31, 2008 as filed with the Securities and Exchange Commission on the date hereof (the "Report"), I, Ronald A. Robinson, President & Chief Executive Officer of the Company, certify, pursuant to 18 U.S.C. ss. 1350, as adopted pursuant to ss. 906 of the Sarbanes-Oxley Act of 2002, that:

1. The Form 10-K fully complies with the requirements of section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m or 78o(d)); and
2. The information contained in the Form 10-K fairly presents, in all material respects, the financial condition and results of operations of the Company.
