ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE
SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended December 31, 2009

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE
SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number ~~0-29486~~ 1-33006

MERGE HEALTHCARE INCORPORATED

(Exact name of Registrant as specified in its charter)

Delaware
(State or other jurisdiction
of incorporation or organization)

39-1600938
(I. R. S. Employer Identification No.)

6737 West Washington Street, Suite 2250, Milwaukee, Wisconsin 53214-5650
(Address of principal executive offices, including zip code)

(Registrant's telephone number, including area code) (414) 977-4000

Securities registered under Section 12(b) of the Exchange Act:

Title of Each Class	Name of Each Exchange on Which Registered
Common Stock, \$0.01 par value per share	NASDAQ Global Market
Securities registered under Section 12(g) of the Exchange Act: NONE	

Indicate by check mark if the Registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.
Yes No

Indicate by check mark if the Registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act.
Yes No

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of Registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer, or a smaller reporting company. See the definitions of "accelerated filers", "large accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

The aggregate market value for the Registrant's voting and non-voting common equity held by non-affiliates of the Registrant as of June 30, 2009, based upon the closing sale price of the Common Stock on June 30, 2009, as reported on the NASDAQ Global Market, was approximately \$116,910,210. Shares of Common Stock held by each officer and director and by each person who owns ten percent or more of the outstanding Common Stock have been excluded in that such persons may be deemed to be affiliates. This determination of affiliate status is not necessarily a conclusive determination for other purposes.

The number of shares outstanding of the Registrant's common stock, par value \$0.01 per share, as of March 10, 2010: 75,228,395

DOCUMENTS INCORPORATED BY REFERENCE

Certain of the information required by Part III is incorporated by reference from the Registrant's Proxy Statement for its 2010 Annual Meeting of Shareholders.

PART I

This Annual Report on Form 10-K and other written or oral statements made by us or on behalf may include forward-looking statements that reflect our current views with respect to future events and future financial performance. Certain statements in this Annual Report on Form 10-K are "forward-looking statements." You can identify these forward-looking statements by our use of the words "believes," "anticipates," "forecasts," "projects," "could," "plans," "expects," "may," "will," "would," "intends," "estimates" and similar expressions, whether in the negative or affirmative. We wish to caution you that any forward-looking statements made by us or on our behalf are subject to uncertainties and other factors that could cause such statements to be wrong. We cannot guarantee that we actually will achieve these plans, intentions or expectations. Actual results or events could differ materially from the plans, intentions and expectations disclosed in the forward-looking statements that we make and we cannot guarantee future results, levels of activity, and/or performance of achievements. We do not assume any obligation to update or revise any forward-looking statements that we make, whether as a result of new information, future events or otherwise.

Factors that may impact forward-looking statements include, among others, the risks and other matters set forth in the section entitled "Item 1A Risk Factors" in this Annual Report on Form 10-K. Although we have attempted to list comprehensively these important factors, we also wish to caution investors that other factors may prove to be important in the future in affecting our business and operating results. New factors emerge from time to time, and it is not possible for us to predict all of these factors, nor can we assess the impact each factor or combination of factors may have on our business.

Item 1. BUSINESS

Overview

Merge Healthcare Incorporated, a Delaware corporation, and its subsidiaries or affiliates (collectively "Merge," "we," "us," or "our") develops healthcare information software solutions and delivers related services. Our solutions are designed to help solve some of the toughest challenges in health information exchange today, such as the incorporation of medical images and diagnostic information into broader health IT applications, the interoperability of proprietary software solutions, advanced clinical tools like computer aided detection, the profitability of outpatient imaging practices in the face of declining reimbursement and the ability to improve the efficiency and cost effectiveness of clinical trials.

We sell these solutions through two segments. Our Direct segment sells finished applications to hospitals, imaging centers and specialty clinics located in the U.S., as well as global pharmaceutical, medical device, biotech and contract research organizations, and also distributes certain products through the Internet via our website. Our Indirect segment sells software development toolkits, technologies and Computer Aided Detection (CAD) applications to companies that develop, manufacture or resell health IT or medical imaging software or devices as well as finished applications to value added resellers (VARs) and foreign distributors. For revenue and other financial information regarding our segments, as well as our geographic areas of operation, refer to Item 8, "Note 1—Basis of Presentation and Significant Accounting Policies, Segment Reporting" and "Note 16 — Segment Information" of this Annual Report on Form 10-K.

We were founded in 1987 and are incorporated in Delaware. Our principal executive offices are located at 6737 West Washington Street, Suite 2250, Milwaukee, Wisconsin 53214-5650, and our telephone number there is (414) 977-4000. Our website address is www.merge.com. We make available free of charge within the "Investor Relations" portion of our website under the caption "SEC Filings," our annual reports on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K, including any amendments to those reports, as filed with or furnished to the SEC by way of a direct link to our Company on the SEC Internet site at www.sec.gov. Materials we file with or furnish to the SEC may also be read and copied at the SEC's Public Reference Room at 100 F Street, NE, Room 1580, Washington, D.C. 20549. Information on the operation of the Public Reference Room may be obtained by calling the SEC at 1-800-SEC-0330. Also, the SEC Internet site contains reports, proxy and information statements, and other information that we file electronically with the SEC.

Business

Our business is health information technology software, which can involve any aspect of development or distribution of applications that provide electronic health information exchange. In July 2009, we acquired etrials

Worldwide Inc. (formerly NASDAQ: ETWC) to expand the addressable market for solutions that we sell to the clinical trials industry. Upon completion of the acquisition, we renamed the entity Merge eClinical. In September 2009, we acquired Confirma, Inc., a privately-held company that specializes in CAD for the MRI modality. Upon completion of the acquisition, we renamed the entity Merge CAD. Other significant business actions taken in 2009 include:

- The retention of our Chinese operations in January 2009. We signed an agreement to sell the operations in the spring of 2008. However, when the Chinese government did not approve the sale, we retained these operations;
- Expansion of our international network of VARs and distributors, adding 34 net new contracts in 2009; and
- The completion of a registered direct equity offering in November 2009. The offering raised \$25.2 million in net proceeds which were used in part to retire all of our outstanding debt.

Our overall product lines consist of:

- Software development toolkits, technologies and platforms, which provide software developers with resources to speed new product development and to enhance existing products;
- Diagnostic workstation software applications, which bring specialized reading and review tools to the clinician's desktop;
- Radiology Information Systems (RIS) and related applications, which manage the business workflow of an imaging enterprise;
- Picture Archiving and Communication Systems (PACS) and related applications, which manage the image workflow of an imaging enterprise;
- Advanced image post-processing applications like CAD, which automate the reading of complex MR imaging studies;
- Hosted software solutions for clinical trials data management, including Electronic Data Capture (EDC), Interactive Voice/Web Response (IVR/IWR) and electronic patient reported outcomes (ePRO) software and devices; and
- Anesthesia Information Management Systems (AIMS) and data input device, which collect and integrate all peri-operative anesthesia information into an electronic health record.

We generate revenue through licensing software, upgrading and/or renewing those licenses, ongoing service and support of the solutions, project or hourly consultative fees and pay-per-study managed services. This revenue has historically involved large upfront fees; however, our customers increasingly prefer "pay as you go" pricing options.

Our software solutions follow industry standards such as Digital Imaging and Communications in Medicine (DICOM), which ensures that images from any DICOM-compliant modality can be displayed, moved and stored within a standard set of guidelines; and Health Level 7 (HL7), which provides standards for the movement of other health information file formats. In addition, Merge participates in the Integrating the Healthcare Enterprise (IHE), an organization dedicated to developing standard profiles for health information exchange. Our long-time involvement with the standards committees and continuous development of products like our DICOM and HL7 toolkits have enabled Merge to stay closely tied to industry innovation. Interoperability through standards has become more important to companies over the past year, and we feel well-positioned to be a part of these growth opportunities.

Our ability to go to market through our Indirect and Direct segments, including the eCommerce channel, allows us to participate in the latest technology trends arising in the OEM market, innovate quickly into the direct market and then receive customer feedback for efficient ongoing development. In 2009, we incurred research and development expenses of \$5.2 million and \$5.0 million within our Indirect and Direct segments, respectively.

Acquisition of AMICAS, Inc.

We have entered into an Agreement and Plan of Merger (the Merger Agreement) dated as of February 28, 2010 by and among Merge, Project Ready Corp., a Delaware corporation and our wholly-owned direct subsidiary, and AMICAS, Inc. (AMICAS), pursuant to which we will acquire all of the outstanding shares of AMICAS for \$6.05 per share in cash, or an aggregate consideration of approximately \$248 million (the Acquisition). Under the terms of the Merger Agreement, we will commence a cash tender offer for all of AMICAS' outstanding common stock. If the tender offer is consummated, we will then consummate a merger pursuant to which any untendered shares of AMICAS common stock (other than those shares held by AMICAS' stockholders who have properly exercised their dissenters' rights) will be converted into the right to receive the same \$6.05 per share cash price. The tender offer and merger are subject to certain closing conditions, including, but not limited to, a successful tender of approximately 54% of the outstanding shares of common stock of AMICAS, antitrust clearance and other regulatory approvals. There is no financing condition to the consummation of the Acquisition. AMICAS is a leading independent provider of image and information management solutions for image-intensive specialties in health care. AMICAS offers a comprehensive suite of image and information management solutions that are designed to drive productivity and quality improvements for image-intensive specialties across the continuum of care. AMICAS solutions are installed at thousands of facilities across the United States — ranging from the largest integrated delivery networks (IDN's) to independent imaging centers. AMICAS' solution suite includes radiology PACS, cardiology PACS, radiology information systems, cardiovascular information management systems, revenue cycle management solutions and workflow and enterprise content management tools designed to manage integration of the imaging component into the electronic medical record. AMICAS is focused on two primary markets: ambulatory imaging businesses and acute care facilities. We anticipate that the Acquisition will be completed in the second quarter of 2010.

Direct Segment Products and Services Description

Merge has four main product lines in the Direct segment:

- Fusion RIS/PACS MX™ automates image and information workflow for imaging practices from procedure scheduling, through the procedure, the image reading and reporting by a radiologist, the distribution of the report and finally the generation of a bill for the exam. This solution contains several optional modules to enhance the workflow, including a referring physician web portal, billing and business analytics. The Fusion RIS™ and Fusion PACS™ can also be licensed and utilized separately. The Fusion PACS™ contains an integrated digital mammography application, also sold as a standalone clinical workstation called Merge Mammo™. Product innovation in 2009 focused on the addition of hosted services, embedded revenue cycle management and a web portal module utilizing “zero-client” technology. We believe our solutions are differentiated by the tight integration of all of these elements and the ability of customers to use the solutions across different locations.
- eFilm Workstation® is one of the most widely used diagnostic workstations in the world, with over 100,000 downloads since 2000 and global brand name recognition. eFilm Workstation is a desktop diagnostic, image and analysis tool for viewing and interpreting medical images, and is used in ways as disparate as teaching imaging, testing new imaging products, veterinary imaging, technologist quality control, remote reading and CD burning of images. In 2009, we added eFilm Archive™ to bring image storage to eFilm Workstation customers, as well as localizing the product into several languages.
- The Frontiers AIMS™ peri-operative management solution builds an electronic record of the patient's surgical experience while allowing the anesthesiologist to maintain patient contact. An electronic surgical dashboard application alerts the entire operating room to the status of each patient. In 2009, we completed an upgrade of the base system, adding customer-specified updates.
- Our etrials product line includes EDC, IVR/IWR and eDiaries. These products can be licensed and utilized separately. These adaptive, web-based tools work together to coordinate data capture, logistics, patient interaction and trial management – turning data into intelligence and shortening the pathway to an actionable study endpoint. All etrials solutions are sold via a software-as-a-service (SaaS) model and may include engineering and professional services. In addition, we can provide technology transfer agreements for the licensing of our solutions for use by contract research organizations and sponsors of clinical trials. In 2009, we released a web portal to enable clinical trials

managers to combine all data across a study into one dashboard. With this solution, the core clinical data from a trial is captured, managed and synchronized through one platform and one vendor.

In addition to our software products, we provide our end-user customers services such as installation, training and maintenance and support. In the clinical trials market, these professional and technical services can be a significant portion of a contract. In connection with our software annual maintenance and support services, we may provide software updates (including minor feature enhancements and bug fixes), upgrades, telephone support and other services depending on the type of maintenance and support purchased.

Indirect Segment Products, Technologies and Services Descriptions

Our Indirect segment contains three major product lines, as detailed below. The Indirect segment also includes the distribution of any of our products internationally through VARs or distributors.

- A brand leader in the Indirect segment is our Merge-COM™ software development toolkit line of products. These toolkits are used by most of the modality vendors and health information technology software providers as a way to economically jump start the development of new imaging applications. The toolkits are available in all the major development languages and platforms, and are continuously updated to meet the industry's rigorous standards. In fulfillment of our ongoing commitment to the standard, we released upgrades to the toolkit twice in 2009. We also expanded our toolkit capabilities by releasing an HL7 toolkit.
- As an accompaniment to toolkits, we offer clinical applications, which vendors rebrand, localize, integrate and/or develop upon to create their own end user solutions. Cedara Open Eyes™ is a development platform that incorporates reusable software libraries and toolkits to accelerate our internal development as well as that of our OEM partners. Virtually all of our OEM partners, directly or through our applications, use one or more components of the Open Eyes suite within their business applications. We also offer a complete web-enabled PACS solution, Cedara I-Reach™, as well as a number of PACS review workstations that can be tailored easily into modules and plug-ins for the needs of different OEM customers. In 2009, we launched Cedara WebAccess™ for zero client web viewing. Cedara WebAccess has been sold to some of the major HIT companies, and has served as base technology for our direct portal solutions.
- Our CADstream™ application provides CAD post-processing of certain MRI studies. We believe that CADstream is recognized globally as the leader in breast MRI CAD. In addition to breast and prostate applications, we launched a commercially-available liver-CAD application in December of 2009. We believe it is the first MRI-CAD for liver application on the market. All three applications can be licensed and utilized together or separately.

In addition to our software products, we provide services to our OEMs, VARs and distributors, including consulting engineering services, professional services and maintenance and support services. Our professional services include installation and training, as well as product consulting. In connection with our software, we offer annual maintenance and support services pursuant to which we may provide software updates and upgrades and telephone support, depending on the type of maintenance and support purchased.

Markets

Our business model allows us to deliver solutions to many different healthcare market segments on a global basis. Although healthcare is a basic global requirement, it cannot be delivered on a global level. In each country, the government is the largest payer for services and, as such, exerts some national control. In 2009, healthcare spending grew at dramatically different rates depending on a country's particular government priorities, population health needs and infrastructure status. For example, according to the Centers for Medicare and Medicaid Services (CMS), healthcare in the US increased from 15.9% of the country's GDP in 2007 to 16.2% in 2008, which represented a market of over \$2.3 trillion. In comparison, according to Medical Products Outsourcing, China healthcare spending has jumped in the past few years from less than 1% of its GDP to 5% in 2009, which represents a market of \$170 billion. Details on some of our market segments include:

- Our largest product market remains the North American RIS/PACS market. According to a 2009 Frost and Sullivan report, the market size was \$1.1 billion in 2008. Although this represents a decrease of

8.2% from the prior year, the market is expected to grow at a compounded annual rate of 3.7% to reach \$1.4 billion in 2015. Market trends include the following:

- A current downturn due to economic pressure and the dynamics of the PACS replacement market; and
 - Expected growth starting slowly in 2010 which is expected to arise from adoption of RIS/PACS solutions in the lower tiers of the market and PACS replacements at the higher end of the market.
- Our CAD product line accompanies PACS solutions as a post-processing application. According to “US Markets for Computer-Aided Diagnostic Imaging Products,” a report recently issued by the Medtech Insight division of Elsevier Business Intelligence, the current market size is approximately \$120 million. CAD industry revenues dropped 10% in 2009 as a result of the overall decline in the capital equipment market. However, the market is expected to grow at a compounded annual rate of 11.1% to reach an estimated \$185 million by the year 2013, led by the development of new CAD applications.
 - The overall US health IT market changed dramatically in 2009 due to the passing of the American Recovery and Reinvestment Act (ARRA) and the HITECH Act within it. According to INPUT research, the market size, which was \$7.6 billion in 2009, will grow to \$9.6 billion in 2014. This market trend is closely aligned to the adoption of Electronic Health Records (EHRs) to meet HITECH funding requirements. Almost 40% of hospitals delayed or cancelled 2009 capital projects according to a MEDACorp survey conducted with Leerink Swan (Oct. 2009). However, 40% of hospitals say they do not meet “meaningful use” requirements, as defined by HITECH, and 87% plan to accelerate spending to meet a 2011 deadline.
 - The primary market for our Indirect solutions continues to be medical imaging and device manufacturers. According to a Global Markets Direct study published in June 2009, the global market for medical imaging technology was about \$15.8 billion in 2008 and is expected to grow at a 7% compounded annual rate to reach \$24.6 billion in 2015. A survey of medical device industry executives by Emergo Group Inc. found that 71.7% expect medical imaging technology sales to increase in 2010.
 - The clinical trials market is driven mainly by the global pharmaceutical market, which was estimated by industry analysts IMS Health and BCC Research to be over \$820 billion in 2009. This market is expected to grow to more than \$1 trillion by 2013.
 - According to market reports from Frost & Sullivan, the market for our solutions in the clinical trial space is currently \$500 million and growing 16.4% per year.

In addition to the global economic environment, we believe the following market trends will impact our business:

- Interoperability with other Health IT systems and vendors. The HITECH Act, and particularly the provisions relating to “condition of meaningful use”, has driven increased concern about the incorporation of imaging information into the electronic health record (EHR). In addition, the Act provides \$1.2 billion of incentives to promote the use of Health Information Exchanges (HIEs). These applications require even broader interoperability. As a result, many of the proprietary software applications that have been the core of widely used healthcare IT solutions now need to have new interfacing capabilities incorporated in them.
- Mobile information technologies. The number of applications built for the Apple iPhone® has grown exponentially in the last year, to the point where Apple announced in November 2009 that there are now over 10,000 apps which have received over 2 billion downloads. In addition, competitors of the iPhone are being introduced in both smart phone format and tablet PC format.
- Telemedicine. An ABI research report indicates that remote patient monitoring devices are projected to grow at a 77% compounded annual rate to almost \$940 million in 2014. These requirements are driving market opportunity for web-based and mobile solutions.

Medical, Regulatory and Government Standards and Reforms

As a highly regulated and socially essential industry worldwide, healthcare is subject to constantly changing political, technological, economic and regulatory influences. These influences have become stronger over the past few years in both their direct impact on our product approval processes and in their impact on our customers. 2009 contained many new government regulations, such as:

- The HITECH Act. This legislation, passed in February 2009, appropriated almost \$20 billion to providers who can demonstrate by 2011 that they are using health IT applications in meaningful ways that reduce overall healthcare costs. The application, an EHR, sparked a lot of market interest in EHR solutions, but minimal actual purchasing.
- The U.S. government's attempt to pass widespread healthcare reform. While this legislation is still under consideration, there has been a lot of industry concern about the implications of various proposals. The proposed reform legislation also contains provisions which reduce some of the annual reimbursement changes supported by the CMS, causing additional confusion. For example, CMS proposed changing the 2010 utilization factor for medical imaging equipment costing more than \$1 million from 50% to 90%. This would cause a dramatic reduction in reimbursement for MRI, PET and CT services, because the utilization factor is a key component in calculating the general reimbursement rate for any facility. In the House of Representatives proposed version of healthcare reform, however, the utilization rate is to change from 50% to 75% starting in 2013. In the Senate's version it is to change from 50% to 65% in 2010 and transition to 75% over 10 years.
- The U.S. Food and Drug Administration's (FDA) role in the healthcare industry. The FDA is responsible for regulating the medical device industry under the Federal Food, Drug and Cosmetic Act. It has regulatory jurisdiction over computer software applications when they are labeled or intended to be used in the diagnosis of disease or other medical conditions. The FDA has come under increasing scrutiny over its backlog, the thoroughness of its approval process and its ability to monitor product safety after approval. We monitor the FDA and all global regulatory requirements closely.
- Global healthcare reform. Major economies like Russia and China have passed major healthcare legislation in 2009. These have and will continue to generate increased healthcare spending in these countries. For example, China has committed to provide basic healthcare for all citizens, investment in healthcare infrastructure and eliminating disparities between rural and urban healthcare services. As a result, it is estimated that the government will invest \$126 billion in healthcare from 2009 to 2011.

We believe that we have positioned ourselves to provide value added services to our customers amidst potential changes in industry standards and regulations. However, we cannot predict the impact of new proposals, healthcare reforms or standards on our business, our financial condition or our results of operations. See Item 1A, "Risk Factors" on Form 10-K of this Annual Report for a description of various industry standards and regulatory risks.

Competition

Merge product lines each participate in highly competitive markets. However, we believe there is no single company that competes against us in every one of our product lines, and do not currently consider there to be a competitor to our overall company.

At the product line level, competition is as follows:

- Our direct RIS/PACS solutions compete with over 35 other companies in the North American PACS market, according to Frost and Sullivan. Of these companies, Merge is identified as a Tier 2 vendor along with 6 other vendors, including NovaRad Corporation and DR Systems.
- Our eCommerce product line faces a number of small competitors, some of which offer their products as "freeware". These open source solutions are difficult to compete against on price, but most are not FDA approved for diagnostic review.

- Our CAD product line for breast, liver and/or prostate cancer diagnostic support competes with iCAD, InVivo (Philips), Sentinelle and Hologic. We are not aware of any other vendor currently selling MRI-CAD for liver.
- Our eClinical product line is in a highly competitive market. The leaders are Phase Forward and Medidata. In addition, there are many smaller EDC companies in this market.
- Our OEM toolkits face a limited number of competitors. We believe we are the only vendor to provide a combined DICOM and HL7 toolkit.
- Our OEM technologies most often compete with internal development departments. Some of our portal technologies face competition from companies such as ZioSoft and Calgary Scientific.

Our ability to compete successfully depends on a number of factors, both within and beyond our control. They include: existing customer relationships, ongoing rapid product innovation; product quality and performance; price; experienced sales, marketing and service professionals; and product and policy decisions developed by competitors.

Strategy

In 2009, our major strategic initiatives focused on:

- International expansion through VAR and distributor relationships;
- Ongoing innovation and Intellectual Property (IP) portfolio expansion;
- Continued innovation in web portal and mobile technologies; and
- Synergistic acquisitions.

We have expanded our product portfolio through the acquisitions previously discussed, including our proposed acquisition of AMICAS, and we expect to make future acquisitions. Mergers and acquisitions of high-technology companies are inherently risky. No assurance can be given that our previous acquisitions, our AMICAS acquisition or our future acquisitions will be successful or will not materially adversely affect our financial condition or operating results. Prior acquisitions have resulted in a wide range of outcomes, from successful introduction of new products and technologies to an inability to do so. The risks associated with acquisitions are more fully discussed in "Item 1A. Risk Factors," including the risk factor entitled "If we are unable to successfully identify or effectively integrate acquisitions, our financial results may be adversely affected."

Employees

As of December 31, 2009, we had approximately 385 employees world-wide. Competition for technical personnel in the industry in which we compete is intense. We believe that our future success depends in part on our continued ability to hire, assimilate, and retain qualified personnel.

Sales, Marketing and Distribution

We employ quota carrying sales teams for both our Direct and Indirect segments. In each of these, we have specialty sales teams for particular product lines. In addition, we have sales teams dedicated to establishing and maintaining VAR and distributor relationships outside of the U.S. Where feasible, we have concentrated inside and telesales staff in one location in order to bring economies of scale in management and process. Our sales teams are complemented by a staff of lead generation and marketing employees. These teams have the benefit of online tools and resources that streamline and track the sales process.

Our marketing efforts are mainly electronic, utilizing our website and our extensive email database of eStore customers for our communication campaigns, as well as our website for online communities and certain social media. Beyond electronic media, we employ consistent media relations efforts for market communication. In addition, we participate in the major industry trade shows for our respective product lines. We also have an active User Group for our U.S. imaging center and hospital customers. This group has become mostly self-managed. Our customers vote for the officers, who dedicate significant time to planning the meeting and communicating customer priorities to us.

Intellectual Property Rights

We currently own 44 patents issued by the intellectual property offices of various jurisdictions. We continue to expand our IP portfolio and have applied for 35 additional patents. There can be no assurance that these patents will afford any commercial benefits. We do not, however, rely principally on patent protection with respect to our products. We also rely on a combination of copyright and trade secret laws, employee and third party confidentiality agreements, product license agreements and other measures to protect intellectual property rights pertaining to our systems and technology.

We currently hold 23 registered trademarks in the United States and 40 non-U.S. trademarks. These trademarks help protect our product brand assets.

Item 1A. RISK FACTORS

Discussion of our business and operating results included in this annual report on Form 10-K should be read together with the risk factors set forth below. They describe various risks and uncertainties to which we are or may become subject. These risks and uncertainties, together with other factors described elsewhere in this report, have the potential to affect our business, financial condition, results of operations, cash flows, strategies or prospects in a material and adverse manner. New risks may emerge at any time, and we cannot predict those risks or estimate the extent to which they may affect financial performance. We undertake no obligation to update or revise the statements.

Our business could be harmed by adverse general economic and market conditions which could lead to reduced spending on information technology products.

We have seen our markets become increasingly affected by the continuing global macroeconomic downturn. The downturn, which first started in the U.S., has also impacted our customers in other parts of the world. We believe that it is likely that this economic downturn will continue to persist; however, we cannot predict its severity, duration or impact on our future operating results. As our business expands globally, we have become increasingly subject to the risks arising from adverse changes in domestic and global economic and political conditions. Economic growth in the U.S. and other countries has slowed since the second half of 2008, which caused our customers to delay or reduce information technology purchases. As a result of slowing global economic growth, the credit market crisis, declining consumer and business confidence, shifts in consumer spending patterns, increased unemployment, reduced levels of capital expenditures, fluctuating commodity prices, bankruptcies and other challenges currently affecting the global economy, our clients might experience deterioration of their businesses, cash flow shortages and difficulty obtaining financing. If economic conditions in the U.S. and other countries continue to deteriorate, customers may continue to delay or further reduce purchases. This could result in additional reductions in sales of our products, longer sales cycles, slower adoption of new technologies and increased price competition. In addition, weakness in the end-user market could negatively affect the cash flow of our OEM and VAR customers who could, in turn, delay paying their obligations, which would increase our credit risk exposure and cause a decrease in operating cash flows. Also, if OEM and VAR customers experience excessive financial difficulties and/or insolvency, and we are unable to successfully transition end-users to purchase products from other vendors or directly from us, sales could decline significantly. Any of these events would likely harm our business, results of operations and financial condition.

Continued disruption in credit markets and world-wide economic changes may adversely affect our business, financial condition, and results of operations.

Continued disruptions in the financial and credit markets may adversely affect our business and financial results. The tightening of credit markets may reduce the funds available to our customers to buy our products and services. It may also result in customers extending the length of time in which they pay and in our having higher customer receivables with increased default rates. General concerns about the fundamental soundness of domestic and foreign economies may also cause customers to reduce their purchases, even if they have cash or if credit is available to them.

We may not successfully complete our acquisition of AMICAS.

Our acquisition of AMICAS is subject to a number of conditions including, without limitation, a successful tender of more than 54% of the outstanding shares of common stock of AMICAS, antitrust clearance and other regulatory approvals. There is no guarantee that these conditions will be satisfied and that we will complete the Acquisition. In connection with the Acquisition, we have already incurred and anticipate incurring significant

indebtedness, issuing substantial amounts of new equity securities and incurring significant costs related to the acquisition, debt offering and stock issuances. We anticipate total costs of these transactions to be incurred by both parties, including the break-up fee already paid to a former potential acquiror of AMICAS, will approximate \$32 million. In addition, we would become liable to AMICAS for significant termination fees if we fail to obtain the necessary financing or otherwise breach our obligations under our AMICAS acquisition agreement. As a result, if we fail to complete the Acquisition after incurring these costs, our business will be materially and adversely affected. In addition, our acquisition of AMICAS is not subject to a financing condition.

We may not be able to realize the anticipated benefits from the AMICAS Acquisition.

We may not be able to realize the anticipated benefits from the AMICAS Acquisition. Achieving those benefits depends on the timely, efficient and successful execution of a number of post-acquisition events, including integrating AMICAS' diversified businesses into our company. Factors that could affect our ability to achieve these benefits include:

- The failure of AMICAS' businesses to perform in accordance with our expectations;
- Difficulties in integrating and managing personnel, financial reporting and other systems used by AMICAS' businesses into our company;
- Any future goodwill impairment charges that we may incur with respect to the assets of AMICAS;
- Failure to achieve anticipated synergies between our business units and the business units of AMICAS;
- The loss of AMICAS' customers or our customers; and
- The loss of any of the key employees of AMICAS or our company.

If AMICAS' businesses do not operate as we anticipate, it could materially harm our business, financial condition and results of operations. In addition, as a result of the AMICAS Acquisition, we will assume all of AMICAS' liabilities. We may learn additional information about AMICAS' business that adversely affects us, such as unknown or contingent liabilities, issues relating to internal controls over financial reporting and issues relating to compliance with the Sarbanes-Oxley Act or other applicable laws. As a result, there can be no assurance that the AMICAS Acquisition will be successful or will not, in fact, harm our business. Among other things, if AMICAS' liabilities are greater than projected, or if there are obligations of AMICAS of which we are not aware at the time of completion of the acquisition, our business could be materially adversely affected.

The successful integration of AMICAS' businesses into our company following the AMICAS Acquisition will present significant challenges.

We anticipate that the AMICAS Acquisition will place significant demands on our administrative, operational and financial resources, and we cannot assure you that we will be able to successfully integrate AMICAS' businesses into our company. Our failure to successfully integrate AMICAS with our company, and to manage the challenges presented by the integration process successfully, may prevent us from achieving the anticipated benefits of the acquisition and could have a material adverse effect on our business.

We will incur significant indebtedness in connection with our proposed acquisition of AMICAS, which could harm our operating flexibility and competitive position.

We will incur substantial additional indebtedness to finance the AMICAS Acquisition. We anticipate financing the acquisition through the sale of high yield notes or a bridge financing. The terms of this indebtedness will contain limitations on the amount of additional indebtedness that we and our subsidiaries may incur and place other restrictions on the operation of our business. The indebtedness will require significant interest and principal payments. Our level of debt as a result of the AMICAS Acquisition and the limitations imposed on us by the debt agreements related to such indebtedness could adversely affect our operating flexibility and put us at a competitive disadvantage. Our substantial debt level may adversely affect our future performance, because, among other things:

- We may be placed at a competitive disadvantage relative to our competitors, some of which have lower debt service obligations and greater financial resources than we do;
- Our ability to complete future acquisitions may be limited;
- We will have to use a portion of our cash flow for debt service rather than for operations;

- We may not be able to obtain further debt financing and may have to pay more for financing;
- We may not be able to take advantage of business opportunities;
- The indebtedness may bear interest at variable interest rates, making us vulnerable to increases in interest rates; and
- We will be more vulnerable to adverse economic conditions.

Our ability to make scheduled payments of principal, to pay interest on, or to refinance our indebtedness and to satisfy our other debt obligations will depend upon our future operating performance, which may be affected by factors beyond our control. In addition, there can be no assurance that future borrowings or equity financing will be available to us on favorable terms or at all for the payment or refinancing of our indebtedness. If we are unable to service our indebtedness, our business, financial condition and results of operations would be materially adversely affected.

Our future capital needs are uncertain and our ability to access additional financing may be negatively impacted by the volatility and disruption of the capital and credit markets and adverse changes in the global economy.

Our capital requirements in the future will depend on many factors, including:

- Acceptance of and demand for our products;
- The extent to which we invest in new technology and product development;
- The costs of developing new products, services or technologies;
- Our interest and principal payment obligations under the indebtedness that we will incur in connection with our acquisition of AMICAS;
- The number and method of financing of acquisitions and other strategic transactions; and
- The costs associated with the growth of our business, if any.

If adverse global economic conditions persist or worsen, we could experience a decrease in cash flows from operations and may need additional financing to fund operations. Due to the existing uncertainty in the capital markets (including debt, private equity, venture capital and traditional bank lending), access to additional debt or equity may not be available on acceptable terms or at all. In addition, the terms of the indebtedness that we incur in connection with our acquisition of AMICAS may restrict our ability to incur additional indebtedness. If we cannot raise funds on acceptable terms when necessary, we may not be able to develop or enhance products and services, execute our business plan, take advantage of future opportunities or respond to competitive pressures or unanticipated customer requirements.

We may incur additional debt in the future.

We must continue to enhance and expand our product and service offerings in order to maintain our competitive position, satisfy our working capital obligations and to increase our market share. As a result, the continuing operations of our business may require substantial capital infusions. For example, in June 2008, we borrowed \$20.0 million from Merrick RIS, LLC, an affiliate of Merrick Ventures, LLC, in exchange for a \$15.0 million senior secured term note (which was repaid in full on November 18, 2009) and 21,085,715 shares of our common stock. Our ability to obtain additional debt in the future may be difficult or on disadvantageous terms. We currently do not have a credit facility and such a facility may be difficult to obtain in the future given the amount of indebtedness that we will incur in connection with our acquisition of AMICAS and future market conditions. Unless we can achieve cash flow levels sufficient to support our operations, we may require additional borrowings or the sale of debt or equity securities, sale of non-strategic assets, or some combination thereof, to provide funding for our operations. Our ability to borrow in the future is dependent upon our ability to manage business operations and generate sufficient cash flows to service such debt. If we are unable to generate sufficient working capital or obtain alternative financing, we may not be able to borrow or otherwise obtain additional funds to finance our operations when needed, our financial condition and operating results would be materially adversely affected.

Healthcare industry consolidation could impose pressure on our software prices, reduce our potential client base and reduce demand for our software.

Many hospitals and imaging centers have consolidated to create larger healthcare enterprises with greater market power. If this consolidation trend continues, it could reduce the size of our potential customer base and give the resulting enterprises greater bargaining power, which may lead to erosion of the prices for our software. In addition, when hospitals and imaging centers combine, they often consolidate infrastructure, and consolidation of our customers could erode our revenue base.

We may experience significant fluctuations in revenue growth rates and operating results.

We may not be able to accurately forecast our growth rate. We base expense levels and investment plans on sales estimates and review all estimates on a quarterly basis. Many of our expenses and investments are fixed and we may not be able to adjust spending quickly enough if sales are lower than expected.

Our revenue growth may not be sustainable and our percentage growth rates may decrease or fluctuate significantly. Our revenue and operating profit growth depends on the continued growth of demand for our products and services offered through us or our OEM and VAR customers, and our business is affected by general economic and business conditions worldwide. A softening of demand, whether caused by changes in customer preferences or a weakening of the U.S. or global economies, may result in decreased revenue or growth.

Our net sales and operating results will also fluctuate for many other reasons, including due to risks described elsewhere in this section and the following:

- Demand for our software solutions and services;
- Our sales cycle;
- Economic cycles;
- The level of reimbursements to our end-user customers from government sponsored healthcare programs (principally, Medicare and Medicaid);
- Accounting policy changes mandated by regulating entities;
- Delays due to customers' internal budgets and procedures for approving capital expenditures, by competing needs for other capital expenditures and the deployment of new technologies and personnel resources;
- Our ability to retain and increase sales to existing customers, attract new customers and satisfy our customers' demands;
- Our ability to fulfill orders;
- The introduction of competitive products and services;
- Price decreases;
- Changes in the usage of the Internet and eCommerce, including in non-U.S. markets;
- Changes to regulatory approval processes and/or requirements;
- Timing, effectiveness and costs of expansion and changes in our systems and infrastructure;
- The outcomes of legal proceedings and claims involving us; and
- Variations in the mix of products and services offered by us.

Delays in the expected sales or installation of our software may have a significant impact on our anticipated quarterly revenues and, consequently, our earnings since a significant percentage of expenses are relatively fixed. Additionally, we sometimes depend, in part, upon large contracts with a small number of OEM customers to meet sales goals in any particular quarter. Delays in the expected sales or installation of solutions under these large contracts may have a significant impact on our quarterly net sales and consequently our earnings, particularly because a significant percentage of expenses are fixed.

The length of our sales and implementation cycles may adversely affect our operating results.

We have experienced long sales and implementation cycles. How and when to implement, replace, expand or substantially modify medical imaging management software, or to modify or add business processes, are major decisions for our end-user target market. The sales cycle for our software ranges from six to 18 months or more from initial contact to contract execution. Our end-user implementation cycle has generally ranged from three to nine months from contract execution to completion of implementation. During the sales and implementation cycles, we will expend substantial time, effort and resources preparing contract proposals, negotiating the contract and implementing the software, and may not realize any revenues to offset these expenditures. Additionally, any decision by our customers to delay or cancel purchases or the implementation of our software may adversely affect net sales.

We operate in competitive markets, which may adversely affect our market share and financial results.

Some of our competitors are focused on sub-markets within targeted industries, while others have significant financial and information-gathering resources with recognized brands, technological expertise and market experience. We believe that competitors are continuously enhancing their products and services, developing new products and services and investing in technology to better serve the needs of their existing customers and to attract new customers.

We face competition in specific industries and with respect to specific offerings. We may also face competition from organizations and businesses that have not traditionally competed with us, but that could adapt their products and services to meet the demands of our customers. Increased competition may require us to reduce the prices of our offerings or make additional capital investments that would adversely affect margins. If we are unable or unwilling to do so, we may lose market share in target markets and our financial results may be adversely affected.

We face aggressive competition in many areas, and our business will be harmed if we fail to compete effectively.

The markets for medical imaging solutions are highly competitive and subject to rapid technological change. We may be unable to maintain our competitive position against current and potential competitors. Many of our current and potential competitors have greater financial, technical, product development, marketing and other resources, and we may not be able to compete effectively with them. In addition, new competitors may emerge and our system and software solution offerings may be threatened by new technologies or market trends that reduce the value of our solutions.

We often compete with our OEM customers' own internal software engineering groups. The size and competency of these groups may create additional competition. In the area of RIS and PACS workflow applications, many competitors offer portions of an integrated radiology solution through their RIS and PACS. Additionally, certain competitors are integrating RIS and PACS technologies through development, partnership and acquisition activities.

The development and acquisition of additional products, services and technologies, and the improvement of our existing products and services, require significant investments in research and development. For example, our current product candidates are in various stages of development and may require significant further research, development, pre-clinical or clinical testing, regulatory approval and commercialization. If we fail to successfully sell new products and update existing products, our operating results may decline as existing products reach the end of their commercial life cycles.

If we are unable to successfully identify or effectively integrate acquisitions, our financial results may be adversely affected.

We have in the past and may in the future acquire and make investments in companies, products or technologies that we believe complement or expand our existing business and assist in quickly bringing new products to market. In 2009, we completed 2 significant acquisitions, etrials on July 20, 2009 and Confirma on September 1, 2009. There can be no assurance that we will be able to identify suitable candidates for successful acquisitions at acceptable prices. In addition, our ability to achieve the expected returns and synergies from past and future acquisitions and alliances depends in part upon our ability to integrate the offerings, technology, administrative functions, and personnel of these businesses into our business in an efficient and effective manner. We cannot predict whether we will be successful in integrating acquired businesses or that our acquired businesses will perform at anticipated levels. In addition, our past and future acquisitions may subject us to unanticipated risks

or liabilities, or disrupt operations and divert management's attention from day-to-day operations. In addition, we may use our capital stock to acquire acquisition targets, which could be dilutive to the existing stockholders and cause a decline in the price of our Common Stock.

In making or attempting to make acquisitions or investments, we face a number of risks, including risks related to:

- Identifying suitable candidates, performing appropriate due diligence, identifying potential liabilities and negotiating acceptable terms;
- Reducing our working capital and hindering our ability to expand or maintain our business, if acquisitions are made using cash;
- The potential distraction of our management, diversion of our resources and disruption to our business;
- Retaining and motivating key employees of the acquired companies;
- Managing operations that are distant from our current headquarters and operational locations;
- Entering into industries or geographic markets in which we have little or no prior experience;
- Competing for acquisition opportunities with competitors that are larger or have greater financial and other resources than us;
- Accurately forecasting the financial impact of a transaction;
- Assuming liabilities of acquired companies, including existing or potential litigation related to the operation of the business prior to the acquisition;
- Maintaining good relations with the customers and suppliers of the acquired company; and
- Effectively integrating acquired companies and achieving expected synergies.

In addition, any acquired business, products or technologies may not generate sufficient revenue and net income to offset the associated costs of such acquisitions, and such acquisitions could result in other adverse effects. Moreover, from time to time, we may enter into negotiations for the acquisition of businesses, products or technologies but be unable or unwilling to consummate the acquisitions under consideration. This can be expensive and could cause significant diversion of managerial attention and resources.

Our acquisitions could trigger certain provisions contained in agreements between third parties and acquired companies that could permit such parties to terminate that agreement.

The companies we acquire may be a party to agreements that permit a counter-party to terminate an agreement or receive payments because the acquisition would cause a default or violate an anti-assignment, change of control or similar clause in such agreements. If this happens, we may have to seek to replace that agreement with a new agreement or make additional payments under such agreements. However, we may be unable to replace a terminated agreement on comparable terms or at all. Depending on the importance of such agreement to the acquired business, the failure to replace a terminated agreement on similar terms or at all, and requirements to pay additional amounts, may increase our costs of operating the acquired business or prevent us from operating the acquired business.

We have incurred and may continue to incur significant costs associated with acquisition activities.

In the year ended December 31, 2009, we incurred \$1.2 million of acquisition related costs. All such direct acquisition costs have been expensed as incurred by us. In addition, we believe we may incur charges to operations, in the quarters following an acquisition, to reflect costs associated with integrating acquired companies. We may incur additional material charges in subsequent quarters associated with acquisitions. We anticipate that our acquisition activities will require significant cash outflows directly related to completing acquisitions as well as costs related to integration efforts. If the benefits of an acquisition do not exceed the costs of integrating the businesses, our financial results may be adversely affected.

A portion of our business relies upon a network of independent contractors and distributors whose actions could have an adverse effect on our business.

We obtain some critical information from independent contractors. In addition, we rely on a network of VAR's and distributors to sell our offerings in locations where we do not maintain a sales office or sales team. These independent contractors and distributors are not our employees. As a result, we have limited ability to monitor and direct their activities. The loss of a significant number of these independent contractors or dealers could disrupt our sales, marketing and distribution efforts. Furthermore, if any actions or business practices of these individuals or entities violate our policies or procedures or otherwise are deemed inappropriate or illegal, we could be subject to litigation, regulatory sanctions or reputation damage, any of which could adversely affect our business and require us to terminate relationships with them.

Our investments in technology may not be sufficient and may not result in an increase in our revenues or decrease in our operating costs.

As the technological landscape continues to evolve, it may become increasingly difficult for us to make timely, cost-effective changes to our offerings in a manner that adequately differentiates them from those of our competitors. We cannot provide any assurance that our investments have been or will be sufficient to maintain or improve our competitive position or that the development of new or improved technologies and products by our competitors will not have a material adverse effect on our business.

Our performance and future success depends on our ability to attract, integrate and retain qualified technical, managerial and sales personnel.

We are dependent, in part, upon the services of our senior executives and other key business and technical personnel. We do not currently maintain key-man life insurance on our senior executives. The loss of the services of any of our senior executives or key employees could have a material adverse effect on our business. Our commercial success will depend upon, among other things, the successful recruiting and retention of highly skilled technical, managerial and sales personnel with experience in similar business activities. Competition for the type of highly skilled individuals that we seek is intense. We may not be able to retain existing key employees or be able to find, attract and retain skilled personnel on acceptable terms.

We may not be able to adequately protect our intellectual property rights or may be accused of infringing intellectual property rights of third parties.

We regard our trademarks, service marks, copyrights, patents, trade secrets, proprietary technology and similar intellectual property as critical to our success. We rely on trademark, copyright and patent law, trade secret protection and confidentiality and/or license agreements with employees, customers and others to protect our proprietary rights. Effective intellectual property protection may not be available in every country in which our products and services are made available. We also may not be able to acquire or maintain appropriate intellectual property rights in all countries where we do business.

We may not be able to discover or determine the extent of any unauthorized use of our proprietary rights. Third parties that license our proprietary rights also may take actions that diminish the value of these rights. Such claims, whether or not meritorious, may result in the expenditure of significant financial and managerial resources, injunctions against us or the payment of damages. We may need to obtain licenses from third parties who allege that we have infringed on their rights, but such licenses may not be available on terms acceptable to us or at all. In addition, we may not be able to obtain or utilize on favorable terms, or at all, licenses or other rights with respect to intellectual property we do not own in providing services under commercial agreements. These risks have been amplified by the increase in third parties whose sole or primary business is to assert such claims.

We also rely on proprietary know how and confidential information and employ various methods, such as entering into confidentiality and non-compete agreements with our current employees and with certain third parties to whom we have divulged proprietary information to protect the processes, concepts, ideas and documentation associated with our solutions. Such methods may not afford sufficient protection, and we may not be able to protect trade secrets adequately or ensure that other companies would not acquire information that we consider proprietary.

We have foreign exchange rate risk.

Our international operating results are exposed to foreign exchange rate fluctuations. While the functional currency of most of our international operations is the U.S. Dollar, certain account balances are maintained in the

local currency. Upon remeasurement of such accounts or through normal operations, results may differ materially from expectations, and we may record significant gains or losses on the remeasurement of such balances. As we expand international operations, our exposure to exchange rate fluctuations may increase.

We may not be successful in our efforts to expand into international markets.

Our international activities are significant to our revenues and profits, and we plan to further expand internationally. In 2009, our international revenues were \$15.5 million, or about 23% of total revenues. We also plan to expand the international revenues of AMICAS after the Acquisition. We have relatively little experience operating in these or future markets and may not benefit from any first-to-market advantages or otherwise succeed. It is costly to establish, develop and maintain international operations and websites and promote our brand internationally. Our international operations may not be profitable on a sustained basis.

In addition to risks described elsewhere in this section, our international sales and operations are subject to a number of risks, including:

- Local economic and political conditions;
- Foreign government regulation of healthcare and government reimbursement of health services;
- Local restrictions on sales or distribution of certain products or services and uncertainty regarding liability for products and services;
- Local import, export or other business licensing requirements;
- Local limitations on the repatriation and investment of funds and foreign currency exchange restrictions;
- Shorter payable and longer receivable cycles and the resultant negative impact on cash flow;
- Local laws and regulations regarding data protection, privacy, network security and restrictions on pricing;
- Difficulty in staffing, developing and managing foreign operations as a result of distance, language and cultural differences;
- Different employee/employer relationships and the existence of workers' councils and labor unions;
- Laws and policies of the U.S. and other jurisdictions affecting trade, foreign investment, loans and taxes; and
- Geopolitical events, including war and terrorism.

Litigation or regulatory actions could adversely affect our financial condition.

From April 2006 to November 2009, we were subject to a formal SEC investigation related to our announcement, on March 17, 2006, that we would investigate allegations of improprieties related to financial reporting and revise our results of operations for the fiscal quarters ended June 30, 2005, and September 30, 2005. On November 4, 2009, the SEC filed a Complaint in federal court charging Merge with record-keeping violations but did not charge Merge with fraud nor assess any civil penalty against Merge. The Complaint enjoined Merge from making any future violations of the reporting, record-keeping and internal controls provisions under the Securities Exchange Act of 1934. In addition, two of Merge's former executives were charged with accounting fraud in the Complaint.

On June 1, 2009, we were served with a Summons and Complaint in the Milwaukee County Circuit Court, State of Wisconsin, captioned William C. Mortimore and David M. Nosay v. Merge Technologies Inc. n/k/a Merge Healthcare Inc. [sic], Case Number 09CV008356, Case Code 30301. The Complaint includes a demand for a jury trial and alleges that Merge unreasonably refused Mortimore and Noshay's request for indemnification; requests the court order that they are entitled to indemnification under Wisconsin Statute Section 180.0851(2); alleges breaches of certain employment agreements; and a breach of the covenant of good faith and fair dealing. Monetary damages are unspecified. We intend to vigorously defend this action. However, any adverse outcome could negatively impact our business and operating results.

As a result of lawsuits and regulatory matters, including the matter discussed above, we have incurred and may continue to incur substantial expenses. In addition to the matter discussed above, we are, from time to time, parties to legal proceedings, lawsuits and other claims incident to our business activities. Such matters may include, among other things, assertions of contract breach or intellectual property infringement, claims for indemnity arising in the course of our business and claims by persons whose employment has been terminated. Such matters are subject to many uncertainties and outcomes are not predictable with assurance. The defense of these actions may be both time consuming and expensive. If any of these legal proceedings were to result in an unfavorable outcome, it could have a material adverse effect on our business, financial position and results of operations.

We may be subject to product liability claims if people or property is harmed by the products and services that we sell.

Some of the products we sell or manufacture may expose us to product liability claims relating to personal injury, death or environmental or property damage and may require product recalls or other actions. Certain third parties, primarily our customers, also sell products or services using our products. This may increase our exposure to product liability claims. Although we maintain liability insurance, we cannot be certain that coverage will be adequate for liabilities actually incurred or that insurance will continue to be available on economically reasonable terms or at all. In addition, some of our agreements with vendors and sellers do not indemnify us from product liability.

We provide customers with certain warranties that could result in higher costs than anticipated.

Software products such as ours that are used in a wide range of clinical and health information systems settings may contain a number of errors or “bugs,” especially early in their product life cycle. Our products include clinical information systems used in patient care settings where a low tolerance for errors or bugs exists. Testing of products is difficult due to the wide range of environments in which systems are installed. The discovery of defects or errors in our software products or in our implementation of integrated solutions may cause delays in product delivery, poor client references, payment disputes, contract cancellations or additional expenses and payments to rectify problems. Any of those factors may result in delayed acceptance of, or the return of, our software products.

We depend on licenses from third parties for rights to some technology we use, and if we are unable to continue these relationships and maintain our rights to this technology, our business could suffer.

Some of the technology used in our software depends upon licenses from third party vendors. These licenses typically expire within one to five years, can be renewed only by mutual consent and may be terminated if we breach the license and fail to cure the breach within a specified period of time. We may not be able to continue using the technology made available to us under these licenses on commercially reasonable terms or at all. As a result, we may have to discontinue, delay or reduce software shipments until we obtain equivalent technology, which could hurt our business. Most of our third party licenses are nonexclusive. Our competitors may obtain the same right to use any of the technology covered by these licenses and use the technology to compete directly with us. In addition, if our vendors choose to discontinue support of the licensed technology in the future or are unsuccessful in their continued research and development efforts, particularly with regard to the Microsoft Windows/Intel platform on which most of our products operate, we may not be able to modify or adapt our own software.

We are subject to government regulation, changes to which could negatively impact our business.

We are subject to regulation in the U.S. by the Food and Drug Administration (FDA), including periodic FDA inspections, in Canada under Health Canada’s Medical Devices Regulations, and in other countries by corresponding regulatory authorities. We may be required to undertake additional actions in the U.S. to comply with the Federal Food, Drug and Cosmetic Act (the Act), regulations promulgated under the Act, and any other applicable regulatory requirements. For example, the FDA has increased its focus on regulating computer software intended for the use in a healthcare setting. If our software solutions are deemed to be actively regulated medical devices by the FDA, we could be subject to more extensive requirements governing pre- and post-marketing activities. Complying with these regulations could be time consuming and expensive, and may include:

- Requiring us to receive FDA clearance of a pre-market notification submission demonstrating substantial equivalence to a device already legally marketed, or to obtain FDA approval of a pre-market approval application establishing the safety and effectiveness of the software;

- Requiring us to comply with rigorous regulations governing the pre-clinical and clinical testing, manufacture, distribution, labeling and promotion of medical devices; and
- Requiring us to comply with the Act regarding general controls, including establishment registration, device listing, compliance with good manufacturing practices, reporting of specified malfunctions and adverse device events.

Similar obligations may exist in other countries in which we do business, including Canada. Any failure by us to comply with other applicable regulatory requirements, both domestic and foreign, could subject us to a number of enforcement actions, including warning letters, fines, product seizures, recalls, injunctions, total or partial suspension of production, operating restrictions or limitations on marketing, refusal of the government to grant new clearances or approvals, withdrawal of marketing clearances or approvals and civil and criminal penalties.

Changes in federal and state regulations relating to patient data could depress the demand for our software and impose significant software redesign costs.

Federal regulations under the Health Insurance Portability and Accountability Act (HIPAA) impose national health data standards on healthcare providers that conduct electronic health transactions, healthcare clearinghouses that convert health data between HIPAA compliant and non-compliant formats and health plans. Collectively, these groups are known as covered entities. The HIPAA regulations prescribe transaction formats and code sets for electronic health transactions, protect individual privacy by limiting the uses and disclosures of individually identifiable health information and require covered entities to implement administrative, physical and technological safeguards to ensure the confidentiality, integrity, availability and security of individually identifiable health information in electronic form. Although we are not a covered entity, most of our customers are, and they require that our software and services adhere to HIPAA regulations. Any failure or perceived failure of our software or services to meet HIPAA regulations could adversely affect demand for our software and services and potentially require us to expend significant capital, research and development and other resources to modify our software or services to address the privacy and security requirements of our clients.

States and foreign jurisdictions have adopted, or may adopt, privacy standards that are similar to or more stringent than the federal HIPAA privacy regulations. This may lead to different restrictions for handling individually identifiable health information. As a result, our customers may demand IT solutions and services that are adaptable to reflect different and changing regulatory requirements, which could increase our development costs. In the future, federal, state or foreign governmental authorities may impose new data security regulations or additional restrictions on the collection, use, transmission and other disclosures of health information. We cannot predict the potential impact that these future rules may have on our business; however, the demand for our software and services may decrease if we are not able to develop and offer software and services that can address the regulatory challenges and compliance obligations facing our clients.

Proposed federal U.S. government reductions in Medicare and Medicaid reimbursement rates for radiology procedures could negatively affect revenues of our hospital and imaging clinic customers, which could reduce our customers' ability to purchase our software and services.

A significant portion of our net sales are derived directly or indirectly from sales to end-users in the U.S., including hospitals, diagnostic imaging centers and specialty clinics, many of which generate some or all of their revenues from government sponsored healthcare programs, principally, Medicare and Medicaid. We believe that the implementation of the reimbursement reductions contained in the Deficit Reduction Act has adversely impacted our end-user customers' revenues per examination, which has caused some of them to respond by reducing their investments or postponing investment decisions, including investments in our software solutions and services, including maintenance. A JACR study in September 2009 of the effects of the DRA indicated that MR volumes for radiology dropped 2% in 2007 from an 8.4% annual growth rate in 2002-2006, and MR payments to radiologists dropped 30% from an 11% annual growth. This indicates the dramatic impact of legislation on our industry.

The risk of more Medicare imaging reimbursement cuts remains. Cuts proposed for 2010 include overall physician fee schedule reductions, general modality reimbursement cuts, the utilization change noted above and specific code level reimbursement decreases. These cuts compound reimbursement losses. For example, a radiologist completing a myocardial perfusion study would see a 50% drop in reimbursement based on these changes. We believe the medical community will continue to contest these reductions. For example, the American College of Cardiology has filed a lawsuit against the Department of Health and Human Services regarding one of the proposed physician fee changes. It is unclear if any of these proposed changes will remain intact for 2010, will

be superseded by broader healthcare legislation or will be reversed with future CMS changes or legislation. As such, our direct customers are faced with an inability to accurately forecast their revenue streams. In turn, this creates risk for us in their ability to pay for ongoing maintenance and upgrades and/or expand their solutions.

There are a limited number of stockholders who have significant control over our common stock, allowing them to have significant influence over the outcome of all matters submitted to stockholders for approval, which may conflict with our interests and the interests of other stockholders.

Our directors, officers and principal stockholders (stockholders owning 10% or more of our common stock) beneficially owned approximately 30.5 million, or 39.5 %, of the outstanding shares of common stock and stock options that could have been converted to common stock at December 31, 2009, and such stockholders will have significant influence over the outcome of all matters submitted to our stockholders for approval, including the election of directors and other corporate actions. Also, on November 18, 2009, we repaid in full our \$15.0 million senior secured term note from Merrick RIS, LLC (Merrick), an affiliate of Merrick Ventures, LLC, including a prepayment penalty of \$2,700 and accrued interest of \$395. As of December 31, 2009, Merrick and its affiliates owned approximately 37.4% of our Common Stock. The influence of our large stockholders could impact our business strategy and also have the effect of discouraging others from attempting us to take over, thereby increasing the likelihood that the market price of the common stock will not reflect a premium for control.

In addition, we engage from time to time in transactions with certain of our significant stockholders. In June 2008, in exchange for \$20 million, we issued (i) a \$15 million senior secured note payable to Merrick RIS, LLC, an affiliate of Merrick Ventures, and (ii) 21,085,715 shares of our common stock at a price per share of \$0.35 to Merrick. In November 2009, we completed a stock offering and used a portion of the proceeds to prepay in full our senior secured note due June 2010 held by Merrick RIS, LLC, which included all amounts owed under the Note of \$15.0 million and an additional amount \$3.1 million payable as a result of the prepayment of the note. Merrick RIS, LLC beneficially owns, as of December 31, 2009, 37.4% of our outstanding common stock. Michael W. Ferro, Jr., our Chairman of the Board, and trusts for the benefit of Mr. Ferro's family members beneficially own a majority of the equity interest in Merrick RIS, LLC. Mr. Ferro also serves as the chairman and chief executive officer of Merrick RIS, LLC. In addition, Justin C. Dearborn, our Chief Executive Officer and a Director, served as Managing Director and General Counsel of Merrick Ventures, LLC, an affiliate of Merrick RIS, LLC.

Our large stockholders may have interests that differ from other shareholders.

Merrick RIS, LLC beneficially owns, as of December 31, 2009, 37.4% of our outstanding common stock. Michael W. Ferro, Jr., our Chairman of the Board, and trusts for the benefit of Mr. Ferro's family members beneficially own a majority of the equity interest in Merrick RIS, LLC. Mr. Ferro also serves as the chairman and chief executive officer of Merrick RIS, LLC. Accordingly, Mr. Ferro indirectly owned or controlled the senior secured note payable and all of the shares of common stock owned by Merrick RIS, LLC. In addition, prior to joining the Company, Justin C. Dearborn, our Chief Executive Officer and a Director, served as Managing Director and General Counsel of Merrick Ventures, LLC, an affiliate of Merrick RIS, LLC. Due to its stock ownership, Merrick RIS, LLC has significant influence over our business, including the election of our directors. In June 2008, in exchange for \$20 million, we issued (i) a \$15 million senior secured note payable to Merrick RIS, LLC, an affiliate of Merrick Ventures, and (ii) 21,085,715 shares of our Common Stock at a price per share of \$0.35 to Merrick. In November 2009, we completed a stock offering and used a portion of the proceeds to prepay in full our senior secured note due June 2010 held by Merrick RIS, LLC, which included all amounts owed under the note of \$15.0 million and an additional amount of \$3.1 million payable as a result of the prepayment of the note. Effective as of January 1, 2009, we entered into a consulting agreement with Merrick RIS, LLC. Services provide by Merrick Ventures, LLC under the consulting agreement include investor relations, financial analysis and strategic planning. The cost of this consulting agreement in 2009 was \$460,000. Effective January 1, 2010, we entered into an amendment to extend the term of the consulting agreement through December 31, 2011, and modified the payment terms from a flat fee arrangement per quarter to a per transaction or success based arrangement.

On March 31, 2009, we entered into a value added reseller agreement with Merrick Healthcare Solutions, LLC (Merrick Healthcare). Under terms of the agreement, Merrick Healthcare purchased software licenses from us for \$400,000. Payment of the entire balance was made on the date of the agreement. We recognized \$400,000 in revenue in the first quarter of 2009 related to this transaction.

In addition, in February 2010, we entered into a VAR agreement with Merrick Healthcare under which we may market, resell, or supply certain of their products and services. Under terms of the agreement, products and services will be purchased on a per unit basis from Merrick Healthcare.

As a result of these relationships, the interests of Merrick RIS, LLC and its affiliates may differ from those of our other stockholders. Merrick Ventures, LLC and its affiliates are in the business of making investments in companies and maximizing the return on those investments. They currently have, and may from time to time in the future acquire, interests in businesses that directly or indirectly compete with certain aspects of our business or our suppliers' or customers' businesses. Merrick's significant ownership of our voting stock will enable it to influence or effectively control us.

The market price of our Common Stock may decline as a result of acquisitions.

The market price of our Common Stock may decline after acquisitions, including AMICAS, are completed. Some of the issues that we could face are:

- The integration of an acquired business is unsuccessful or takes longer or is more disruptive than anticipated;
- We do not achieve the expected synergies or other benefits of the acquisition as rapidly or to the extent anticipated, if at all;
- The effect of the acquisition on our financial results does not meet the expectations of Merge, financial analysts or investors; or
- After the acquisition, the business does not perform as anticipated.

In connection with the acquisitions of etrials and Confirma in the third quarter of 2009, we issued 9.4 million additional shares of our Common Stock. The increase in the number of outstanding shares of our Common Stock may lead to sales of such shares or the perception that such sales may occur, either of which may adversely affect the market price of our Common Stock. We will not be using our Common Stock as consideration for the AMICAS Acquisition, but we anticipate issuing additional Common Stock to the purchasers of our new class of Preferred Stock that will fund a portion of the purchase price for the AMICAS Acquisition.

Shares of our common stock eligible for public sale may have a negative impact on the market price of our common stock, and dilute our stockholders' percentage ownership and voting power.

Sales of a substantial number of shares of our common stock in the public market, or the perception that these sales may occur, could cause the market price of our common stock to decline. In addition, the sale of these shares could impair our ability to raise capital, should we wish to do so, through the sale of additional common or preferred stock. As of December 31, 2009, we had 74,791,753 shares of common stock outstanding. In addition, as of December 31, 2009, we had outstanding options to purchase 5,021,995 shares of our common stock, of which 2,076,212 options were then exercisable, and 426,664 shares granted under restricted stock awards. Future sales of shares of our common stock by existing holders of our common stock or by holders of outstanding options, upon the exercise thereof, could have a negative impact on the market price of our common stock. As additional shares of common stock become available for sale in the public market, due to the exercise of options or the issuance of shares as a result of acquisitions, the market supply of shares of common stock will increase, which could also decrease the market price.

We are unable to estimate the number of shares that may be sold because this will depend on the market price for our common stock, the personal circumstances of the sellers and other factors. Any sale of substantial amounts of our common stock or other securities in the open market may adversely affect the market price of such securities and may adversely affect our ability to obtain future financing in the capital markets as well as create a potential market overhang.

Because we do not intend to pay cash dividends, stockholders will benefit from an investment in our stock only if it appreciates in value.

We currently intend to retain future earnings, if any, and do not expect to pay any cash dividends in the foreseeable future. As a result, the success of an investment in our common stock will depend upon any future appreciation in its value. There is no guarantee that our common stock will appreciate in value or even maintain the price at stockholders have purchased and will purchase shares.

The trading price of our common stock has been volatile and may fluctuate substantially in the future.

The price of our common stock has been, and may continue to be, volatile. The trading price of our common stock may continue to fluctuate widely as a result of a number of factors, some of which are not in our control, including:

- Our ability to meet or exceed the expectations of analysts or investors;
- Changes in our forecasts or earnings estimates by analysts;
- Quarter-to-quarter variations in our operating results;
- Announcements regarding clinical activities or new products by us or our competitors;
- General conditions in the healthcare IT industry;
- Governmental regulatory action and healthcare reform measures, including changes in reimbursement rates for imaging procedures;
- Rumors about our performance or software solutions;
- Announcements regarding acquisitions, including our AMICAS Acquisition;
- Uncertainty regarding our ability to service existing debt;
- Price and volume fluctuations in the overall stock market, which have particularly affected the market prices of many software, healthcare and technology companies; and
- General economic conditions.

In addition, the market for our common stock may experience price and volume fluctuations unrelated or disproportionate to our operating performance. These fluctuations could have a significant impact on our business due to diminished incentives for management and diminished currency for acquisitions.

Certain provisions of our charter and Delaware law could make a takeover difficult and may prevent or frustrate attempts by our stockholders to replace or remove our management team.

We have an authorized class of 1,000,000 shares of undesignated preferred stock and one authorized share of Series 3 Special Voting Stock preferred stock. These shares may be issued by our board of directors, on such terms and with such rights, preferences and designation as the board of directors may determine, and a new class of preferred stock will be issued to fund, in part, the AMICAS Acquisition. Issuance of such preferred stock, depending upon the rights, preferences and designations thereof, may have the effect of delaying, deterring or preventing a change in control of us. In addition, we are subject to provisions of Delaware corporate law which, subject to certain exceptions, will prohibit us from engaging in any “business combination” with a person who, together with affiliates and associates, owns 15% or more of our common stock for a period of three years following the date that the person came to own 15% or more of our common stock, unless the business combination is approved in a prescribed manner.

These provisions of our certificate of incorporation, and of Delaware law, may have the effect of delaying, deterring or preventing a change in control, may discourage bids for our common stock at a premium over market price and may adversely affect the market price, and the voting and other rights of the holders, of our common stock. In addition, these provisions make it more difficult to replace or remove our current management team in the event our stockholders believe this would be in our best interest and the best interests our stockholders.

Item 1B. UNRESOLVED STAFF COMMENTS

None.

Item 2. PROPERTIES

Our principal facilities by operating segment are set forth in the following table:

Segment	Location	Square Footage	Annual Lease Payments (millions of \$)
Direct	Milwaukee, Wisconsin*	36,000	0.4
Direct	Morrisville, North Carolina	17,000	0.2
Direct	Chicago, Illinois*	16,000	0.3
Direct	Hudson, Ohio	10,000	0.1
Indirect	Mississauga, Ontario	24,000	0.6
Indirect	Bellevue, Washington	19,000	0.5

* Square footage in these facilities includes space for our Corporate employees and assets

We actively monitor our real estate needs in light of our current utilization and projected growth. We believe that we can acquire any necessary additional facility capacity on reasonably acceptable terms within a relatively short timeframe. We devote capital resources to facility improvements and expansions as we deem necessary to promote growth and most effectively serve our customers.

Item 3. LEGAL PROCEEDINGS

From April 2006 to November 2009, we were subject to a formal SEC investigation related to our announcement, on March 17, 2006, that we would investigate allegations of improprieties related to financial reporting and revise our results of operations for the fiscal quarters ended June 30, 2005, and September 30, 2005. On November 4, 2009, the SEC filed a Complaint in federal court charging Merge with record-keeping violations but did not charge Merge with fraud nor assess any civil penalty against Merge. The Complaint enjoined Merge from making any future violations of the reporting, record-keeping and internal controls provisions under the Securities Exchange Act of 1934. In addition, two of Merge's former executives were charged with accounting fraud in the Complaint.

On June 1, 2009, Merge Healthcare was served with a Summons and Complaint in the Milwaukee County Circuit Court, State of Wisconsin, captioned William C. Mortimore and David M. Noshay v. Merge Technologies Inc. n/k/a Merge Healthcare Inc. [sic], Case Number 09CV008356, Case Code 30301. The Complaint includes a demand for a jury trial and alleges that Merge unreasonably refused Mortimore and Noshay's request for indemnification; requests the court order that they are entitled to indemnification under Wisconsin Statute Section 180.0851(2); alleges breaches of certain employment agreements; and alleges a breach of the covenant of good faith and fair dealing. Monetary damages being sought are unspecified.

In addition to the matters discussed above, we are, from time to time, parties to legal proceedings, lawsuits and other claims incident to our business activities. Such matters may include, among other things, assertions of contract breach or intellectual property infringement, claims for indemnity arising in the course of our business and claims by persons whose employment has been terminated. Such matters are subject to many uncertainties and outcomes are not predictable with assurance. Consequently, we are unable to ascertain the ultimate aggregate amount of monetary liability, amounts which may be covered by insurance or recoverable from third parties, or the financial impact with respect to these matters as of the date of this report.

Item 4. RESERVED**PART II****Item 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES**

Our Common Stock trades on the NASDAQ Global Market (NASDAQ).

The following table sets forth for the periods indicated, the high and low sale prices of our Common Stock as reported by the NASDAQ:

Common Stock Market Prices

<i>2009</i>	<u>4th Quarter</u>	<u>3rd Quarter</u>	<u>2nd Quarter</u>	<u>1st Quarter</u>
High	\$ 4.25	\$ 4.78	\$ 4.48	\$ 1.84
Low	\$ 2.93	\$ 2.98	\$ 1.25	\$ 1.07
<i>2008</i>				
High	\$ 1.75	\$ 1.60	\$ 1.37	\$ 1.26
Low	\$ 0.26	\$ 0.60	\$ 0.26	\$ 0.33

According to the records of American Stock Transfer & Trust Company, our registrar and transfer agent, we had 376 shareholders of record of Common Stock as of March 10, 2010.

Stock Price Performance Graph

The graph below compares the cumulative total return on our common stock with the Russell 2000 Index and the NASDAQ Computer Index (U.S. companies) for the period from December 31, 2004 to December 31, 2009. The comparison assumes that \$100 was invested on December 31, 2004 in our Common Stock and in each of the comparison indices, and assumes reinvestment of dividends, where applicable. We have selected the Russell 2000 index for comparison purposes as we do not believe we can reasonably identify an appropriate peer group index. The comparisons shown in the graph below are based upon historical data. The stock price performance shown in the graph below is not indicative of, nor intended to forecast, the potential future performance of our common stock.

COMPARISON OF THE 5 YEAR CUMULATIVE TOTAL RETURNS FOR THE FIVE YEAR PERIOD ENDED DECEMBER 31, 2009

Date	Merge Healthcare Incorporated (Nasdaq: MRGE)	Nasdaq Computer Index (^IXCO)	Russell 2000 Index (^RUT)
12/31/2004	\$100	\$100	\$100
12/30/2005	\$113	\$103	\$103
12/29/2006	\$29	\$109	\$121
12/31/2007	\$5	\$133	\$118
12/31/2008	\$6	\$71	\$77
12/31/2009	\$15	\$121	\$96

Dividend Policy

On June 12, 2008, we announced the redemption of all preferred share purchase rights outstanding as a result of our Shareholder Rights Plan, which was established in 2006. As provided for in the plan, we redeemed the rights for \$0.001 per right. As a result, shareholders of record on June 23, 2008 received a dividend payment in July 2008 totaling \$57,000 and this plan is no longer in effect. We currently do not intend to declare or pay any cash dividends on our Common Stock in the foreseeable future.

Repurchases of Shares

None.

Item 6. SELECTED FINANCIAL DATA

The following selected historical financial data is qualified in its entirety by reference to, and should be read in conjunction with, our consolidated financial statements and the related notes thereto appearing elsewhere herein and Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" in this Annual Report on Form 10-K.

	Years Ended December 31,				
	2009(1)	2008	2007	2006	2005(2)
	(in thousands, except for share and per share data)				
Statements of Operations Data:					
Net sales	\$ 66,841	\$ 56,735	\$ 59,572	\$ 74,322	\$ 82,538
Operating income (loss)(3)(4)	8,963	(21,697)	(171,238)	(252,087)	4,377
Income (loss) before income taxes	150	(23,743)	(171,808)	(249,473)	5,113
Income tax expense (benefit)	(135)	(60)	(240)	9,450	8,373

	2009	2008	2007	2006	2005
	(in thousands)				
Balance Sheet Data:					
Working capital	\$ 18,231	\$ 8,254	\$ 878	\$ 27,101	\$ 56,964
Total assets	100,249	54,737	61,635	234,875	500,045
Long-term debt obligations	-	14,230	-	-	-
Shareholders' equity	68,137	8,841	24,405	189,925	442,592

- (1) Includes the results of etrials and Confirma from July 20, 2009 and September 1, 2009, the respective dates of the business combinations.
- (2) Includes the results of Cedara from June 1, 2005, the date of our business combination.
- (3) For the year ended December 31, 2005 we incurred a charge for acquired in-process research and development of \$13.0 million.
- (4) For the years ended December 31, 2007 and 2006, we incurred charges of \$122.4 million and \$214.1 million, respectively, related to the impairment of goodwill.

Item 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The discussion below contains "forward-looking statements. We have used words such as "believes," "intends," "anticipates," "expects" and similar expressions to identify forward-looking statements. These statements are based on information currently available to us and are subject to a number of risks and uncertainties that may cause our actual results of operations, financial condition, cash flows, performance, business prospects and opportunities and the timing of certain events to differ materially from those expressed in, or implied by, these statements. These risks, uncertainties and other factors include, without limitation, those matters discussed in Item 1A of Part I of this Annual Report on Form 10-K. Except as expressly required by the federal securities laws, we undertake no obligation to update such factors or to publicly announce the results of any of the forward-looking statements contained herein to reflect future events, developments, or changed circumstances, or for any other reason. The following discussion should be read in conjunction with our consolidated financial statements and notes thereto appearing elsewhere in this Annual Report on Form 10-K and Item 1A, "Risk Factors".

Management's Discussion and Analysis is presented in the following order:

- Overview
- Revenues and Expenses
- Results of Operations
- Liquidity and Capital Resources
- Material Off Balance Sheet Arrangements
- Critical Accounting Policies

Overview

We develop software solutions that automate healthcare data and diagnostic workflow to create a more comprehensive electronic record of the patient experience. Our products, ranging from standards-based development toolkits to fully integrated clinical applications, have been used by healthcare providers worldwide for over 20 years. We have significantly expanded our product offerings in the second half of 2009 through strategic acquisitions.

On September 1, 2009, we completed the acquisition of Confirma, Inc. (Confirma), a provider of computer systems for processing and presentation of data from magnetic resonance imaging (MRI) studies. Under terms of the agreement, we acquired all the outstanding shares of Confirma in exchange for 5.4 million shares of Merge Common Stock. Total consideration for the transaction was \$16.2 million. Upon completion of the acquisition, we renamed this entity Merge CAD.

On July 20, 2009, we completed the acquisition of etrials Worldwide, Inc. (etrials), a provider of clinical trials software and services. Under the terms of the Merger Agreement, we acquired all of the outstanding shares of common stock of etrials for consideration per share of \$0.80 in cash, without interest, and 0.3448 shares of Merge Common Stock. Total consideration for the transaction was \$25.1 million. Upon completion of the acquisition, we renamed this entity Merge eClinical.

On June 30, 2009, we enhanced our financial reporting process to allow us to obtain discrete operating results for our business units. As a result, effective in the third quarter of 2009, we have reportable segments, which we have designated as Direct and Indirect. These reportable segments are based on business unit operations that have similar economic characteristics. The Direct segment primarily sells directly to the end-users located primarily in the U.S. and Canada, and also distributes certain products through the Internet via our website. This segment consists of the Merge Fusion U.S. and Merge eClinical business units. The Indirect segment primarily sells software products and related services to Original Equipment Manufacturers, Value Added Resellers and distributors worldwide. This segment consists of the Merge OEM, Merge CAD and Merge Fusion EMEA business units.

We have seen our markets become increasingly affected by the continuing global macroeconomic downturn. The downturn, which first started in the U.S., has also impacted our customers in other parts of the world. We believe that the initiatives undertaken to reduce our operating expenses have appropriately positioned our recurring cost structure. We believe it is likely that this economic downturn will continue to persist; however,

we cannot predict its severity, duration or impact on our future operating results. We are also monitoring the increasing regulatory and legislative activity surrounding healthcare and health information technology as discussed more fully above. Due to the complexity of the reform legislation and its potential impact on us as both a vendor and employer, it is difficult to forecast any potential net impact on our customers and market, and thus we remain cautious about the impact on our business.

We will attempt to use the current economic environment as an opportunity to expand our market share and to continue moving into similar, related, or adjacent markets to those in which we currently are active, as well as invest in international growth. We continue to develop new products and are pleased with the breadth and depth of our product lines and service capabilities.

Effective as of February 28, 2010, we entered into a Merger Agreement to acquire AMICAS. Under the terms of the Merger Agreement, we will commence to tender offer to acquire all of the outstanding shares of common stock of AMICAS for consideration per share of \$6.05 in cash, without interest, which is expected to be approximately \$248 million. We plan to finance the transaction with \$200 million of financing from Morgan Stanley Senior Funding, Inc., with whom we have executed a definitive commitment letter, through the sale of high yield notes or a bridge financing, in addition to cash already available at the two companies and the issuance of preferred and common stock with respect to which we have received \$40 million of pre-funded proceeds from investors. Although we have not entered into a formal Preferred Stock Agreement with these investors, we have signed commitment letters that provide the investors a 2% commitment fee, the issuance of up to 9 million shares of Common Stock (subject to \$50 million of total proceeds being received) and cumulative dividends at an anticipated rate of 15%, among other negotiated terms. We have placed \$30 million of the pre-funded proceeds in escrow pursuant to the Merger Agreement and may be required to release the escrow under certain circumstances. In connection with these transactions, we have already incurred and anticipate incurring significant costs related to the acquisition, debt offering and preferred stock. We anticipate total costs of these transactions to be incurred by both parties, including a break-up fee owed to a former potential acquiror of AMICAS, will approximate \$32 million. The Merger Agreement contains certain conditions to our obligation to complete the tender offer, including a successful tender of approximately 54% of the outstanding shares of common stock of AMICAS, antitrust clearance and other regulatory approvals. We anticipate the acquisition will close in the second quarter of 2010.

Revenues and Expenses

The following is a brief discussion of our revenues and expenses:

Net Sales

Net sales consist of software and other sales, net of estimated returns and allowances, and professional services and maintenance. Software and other sales consist of software and purchased component revenue recognized in sales to OEM customers, healthcare facilities and imaging centers. Professional services and maintenance consists of hosted clinical trial SaaS offering, installation, custom engineering services, training, consulting, project management and software maintenance and support.

Cost of Sales

Cost of sales consists of purchased components, third-party royalties, costs to service and support our customers and amortization of patents and purchased and developed software, including related impairments. The cost of software and other includes purchased components and third-party royalties included in software and hardware sales to our customers. The cost of services and maintenance includes headcount and related costs and direct third-party costs incurred in our performance of SaaS offerings, installation, custom engineering services, training, consulting and software maintenance and support. Depreciation and amortization, including any impairment, is assessed on capital equipment used to fulfill contract obligations and our purchased and developed software assets. Depreciation and amortization are recorded over the respective asset's useful life. Each quarter we test our purchased and developed software for impairment by comparing its fair value (estimated using undiscounted future cash flows) to the carrying value of the software. If the carrying value of the software exceeds its fair value, we record an impairment charge in the period in which the impairment is incurred equal to the amount of the difference between the carrying value and estimated undiscounted future cash flows.

Sales and Marketing Expense

Sales and marketing expense includes the costs of our sales and marketing departments, commissions and costs associated with trade shows.

Research and Development Expense

Research and development expense consists of expenses incurred for the development of our proprietary software and technologies. The costs reflected in this category are reduced by capitalized software development costs. The amortization of capitalized software development costs and any related impairments are included in cost of sales.

General and Administrative Expense

General and administrative expense includes costs for information systems, accounting, administrative support, management personnel, bad debt expense, legal fees and general corporate matters.

Acquisition-Related Expenses

Acquisition-related expenses are costs incurred to effect business combinations, including banking, legal, accounting, valuation and other professional or consulting fees.

Goodwill and Trade Name Impairment, Restructuring and Other Expenses

Goodwill and trade name impairment, restructuring and other expenses consist of impairment of goodwill and trade names, severance to involuntarily terminated employees resulting from our restructuring initiatives, loss on disposal of subsidiaries and impairment of non-cancelable building leases associated with restructuring activities.

Depreciation, Amortization and Impairment

Depreciation and amortization, including any impairment, is assessed on capital equipment, leasehold improvements and our customer relationships intangible asset. Depreciation and amortization are recorded over the respective asset's useful life. We also record impairment of these long-lived assets whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable based primarily upon whether expected future undiscounted cash flows are sufficient to support recovery of the assets.

Other Income (Expense)

Other income (expense) is comprised of interest income earned on cash and cash equivalent balances, interest expense and amortization of costs and discounts incurred from borrowings, foreign exchange gains or losses on foreign currency payables and receivables at our Nuveen, Netherlands branch and at our subsidiaries located in Mississauga, Ontario and Shanghai, China. In addition, we also record any other-than-temporary impairment charges recognized on our equity investments in non-public companies in other income (expense).

Results of Operations

In addition to the acquisitions of etrials and Confirma, the following operational activities and economic considerations, other than those previously discussed, have significantly impacted the comparability of the results of operations for the periods discussed herein:

- In November 2009, we sold in a registered direct offering 9.1 million shares of Common Stock for aggregate net proceeds of \$25.2 million. We used the net proceeds from this offering to repay our \$15.0 million note payable (the Note), including a \$2.7 million prepayment penalty and \$0.4 million of accrued interest. The net impact of these transactions was an increase in cash of \$7.1 million and a charge to other income (expense) of \$3.3 million.
- Concurrent with the acquisition of etrials in July 2009, we completed a restructuring initiative to reduce our workforce by approximately 35 individuals based upon an assessment of ongoing personnel needs. As a result, we incurred \$1.7 million of severance and related costs in the third quarter of 2009.
- In the third quarter of 2008, we exited our operations in India.
- In the second quarter of 2008, we completed a private placement pursuant to which we raised net proceeds of \$16.6 million (which included a two-year \$15.0 million Note).
- In the second quarter of 2008, we disposed of our French subsidiary.
- During 2008, we completed two restructuring initiatives, in which we incurred in aggregate \$6.8 million in expenses. These initiatives included workforce reductions in all parts of the organization as well as elimination of facilities (see Note 12 of the notes to consolidated financial statements included herein).

- Our Canadian operations primarily invoice customers in U.S. dollars, whereas the majority of operating expenses, which include approximately one-fourth of our current workforce, are denominated in the Canadian dollar. During late 2008, the U.S. dollar to Canadian dollar exchange rate significantly strengthened. As a result, we have experienced an approximate 7% reduction in average cost for our Canadian dollar denominated expenses in 2009 compared to 2008. There was no such change in our Canadian dollar denominated expenses in 2008 compared to 2007, since the average U.S. dollar to Canadian dollar exchange rate did not significantly change.

Year Ended December 31, 2009 Compared to Year Ended December 31, 2008

The results of operations in 2009 include those of Merge eClinical (included in the Direct segment) since July 20, 2009 and Merge CAD (included in the Indirect segment) since September 1, 2009. The following table sets forth selected, summarized consolidated financial data for the periods indicated, as well as comparative data showing increases and decreases between the periods. All amounts, except percentages, are in thousands.

	Years Ended December 31,				Change	
	2009	% ⁽¹⁾	2008	% ⁽¹⁾	\$	%

(1) Percentages are of total net sales, except for cost of sales and gross margin, which are based upon related net sales.

(2) NM denotes percentage is not meaningful.

(3) Gross margin for software and other sales includes depreciation, amortization and impairment expense recorded in cost of sales.

Net Sales

Net sales, by segment, are as follows (in thousands):

	Years Ended December 31,				Change	
	2009	%	2008	%	\$	%
Indirect						
Software and other	\$ 24,025	35.9%	\$ 16,772	29.6%	\$ 7,253	43.2%
Services and maintenance	9,380	14.1%	11,738	20.7%	(2,358)	-20.1%
Total net sales	33,405	50.0%	28,510	50.3%	4,895	17.2%
Direct						
Software and other	9,012	13.5%	10,789	19.0%	(1,777)	-16.5%
Services and maintenance	24,424	36.5%	17,436	30.7%	6,988	40.1%
Total net sales	33,436	50.0%	28,225	49.7%	5,211	18.5%
Total net sales	\$ 66,841		\$ 56,735		\$ 10,106	

Software and Other Sales. Total software and other sales in 2009 were \$33.0 million, an increase of approximately \$5.4 million, or 19.9%, from \$27.6 million in 2008. Indirect sales increased \$7.3 million, primarily due to the fact that sales were negatively affected in 2008 because of customer concerns with our financial viability. We believe that these concerns were largely alleviated with the financing transaction completed in June 2008. In addition, 2009 Indirect sales, when compared to 2008, include \$1.5 million of additional sales from Eklin Medical Systems, Inc. (Eklin), resulting from a new agreement with this customer in the second quarter of 2009. In addition, net sales from Merge CAD were \$0.8 million in 2009. Direct sales decreased \$1.8 million primarily as a result of the downturn in general macroeconomic conditions in North America and 2009 having fewer contracts with significant hardware components compared to 2008. In the future, we anticipate that the revenue recognized from software and other sales may vary significantly on a quarterly basis.

Services and Maintenance Sales. Total services and maintenance sales in 2009 were \$33.8 million, an increase of \$4.6 million, or 15.9%, from \$29.2 million in 2008. Direct sales increased \$7.0 million primarily due to \$5.8 million of sales by Merge eClinical from the date of its acquisition. Indirect sales decreased \$2.4 million due to a decline in the number of custom engineering services projects in 2009, primarily as a result of the reluctance of OEM customers to start new projects in the current economic environment and a shift in our strategic focus with respect to such customers. Indirect services and maintenance sales in 2009 include \$1.5 million from Merge CAD from the date of its acquisition.

Gross Margin

Gross Margin – Software and Other Sales. Gross margin on software and other sales was \$26.0 million in 2009, an increase of \$6.8 million, or 35.6%, from \$19.2 million in 2008. Gross margin as a percentage of software and other sales increased to 78.7% in 2009 from 69.5% in 2008, primarily due to the mix of sales by our segments. Indirect sales, which typically consist of software only or minimal hardware component contracts that generate higher margins, were 72.7% of software and other sales in 2009 compared to 60.9% in 2008. In addition, the hardware component of Direct sales decreased to 18.1% of sales in 2009 compared to 29.8% in 2008. We expect our gross margin on software and other sales going forward to fluctuate depending on the mix of sales between the segments and the percentage of hardware components included in sales through the Direct segment.

Gross Margin – Services and Maintenance Sales. Gross margin on services and maintenance sales was \$21.5 million in 2009, an increase of \$4.0 million, or 22.7%, from \$17.5 million in 2008. Gross margin as a percentage of sales increased to 63.5% in 2009 from 60.0% in 2008 primarily due to a decrease in salaries and other related expenses (including travel and entertainment) as a result of our restructuring initiatives. As the majority of service and maintenance costs are fixed, we expect gross margins going forward to fluctuate depending on billable utilization of our resources.

Sales and Marketing

Sales and marketing expense decreased \$0.1 million, or 1.2%, to \$9.2 million in 2009 from \$9.3 million in 2008. Salaries, commissions and other related expenses (including travel and entertainment) remained relatively constant as decreases from 2008 restructuring and subsidiary disposal activities were offset by an increases due to 2009 acquisitions. We experienced a \$0.2 million decrease in Canadian related costs due to the strengthening of the

average exchange rate for the U.S. dollar compared to the Canadian dollar in 2009 (primarily in the first half of 2009). We anticipate that sales and marketing expenses will increase in 2010, when compared to 2009, due to the additional headcount and related expenses associated with our 2009 acquisitions.

Product Research and Development

Product research and development expense decreased \$2.5 million, or 19.3%, to \$10.7 million in 2009 from \$13.2 million in 2008. Salaries and related expenses (including travel and entertainment) and third-party costs decreased by \$2.0 million as decreases from 2008 restructuring and subsidiary disposal activities were offset by an increase due to 2009 acquisitions. Additionally, Canadian related costs decreased \$0.5 million due to strengthening of the average exchange rate for the U.S. dollar compared to the Canadian dollar. We anticipate that product research and development expenses will increase in 2010, when compared to 2009, due to the additional headcount associated with our 2009 acquisitions.

General and Administrative

General and administrative expense decreased \$7.5 million, or 36.4 %, to \$13.0 million in 2009 from \$20.5 million in 2008. Salaries and related expenses (including travel and entertainment) decreased by \$1.1 million as decreases from 2008 restructuring and subsidiary disposal activities were offset by an increase due to 2009 acquisitions. In addition, legal costs decreased in 2009 by \$4.4 million (2008 included a \$3.0 million charge related to the settlement of a class action lawsuit), accounting and other professional fees decreased by \$1.5 million and share-based compensation expense decreased in 2009 by \$0.4 million. We anticipate that the quarterly general and administrative expenses will increase in 2010, when compared to 2009, due to the additional headcount associated with our 2009 acquisitions.

Acquisition-Related Expenses

Acquisition-related expenses are costs incurred to effect business combinations, including banking, legal, accounting, valuation and other professional or consulting fees. In 2009, we incurred \$1.2 million of such expenses related to our acquisitions.

Trade name Impairment, Restructuring and Other Expenses

In 2009, we recorded \$1.6 million in trade name impairment, restructuring and other expenses, including \$1.7 million in restructuring expenses related to the initiative announced in July 2009, and \$0.3 million due to the abandonment of a portion of a facility leased by Merge CAD. These charges were offset by a \$0.4 million reduction in expense related to updated estimates of obligations due under prior restructuring activities and other facilities previously abandoned. In 2008, we recorded \$11.8 million in trade name impairment, restructuring and other expenses, including \$8.7 million in restructuring charges related to the initiatives announced in February 2008 and June 2008, a \$1.1 million trade name impairment charge associated with renaming our Cedara Software business unit and a \$1.7 million charge associated with the disposal of our French subsidiary. We also recorded a \$0.4 million charge in 2008 related to a change in estimate associated with subleasing a facility.

Depreciation, Amortization and Impairment

Depreciation, amortization and impairment expense decreased \$0.7 million, or 21.6 %, to \$2.8 million in 2009 from \$3.5 million in 2008, as a result of a \$0.5 million impairment of fixed assets held for sale in 2008 and a \$0.6 million decrease in depreciation due to assets being disposed of or becoming fully depreciated. These decreases are offset by an increase of \$0.6 million of depreciation and amortization resulting from fixed assets and intangible assets acquired in our 2009 acquisitions.

Other Income (Expense), Net

Other income (expense), net increased by approximately \$6.8 million, to \$8.8 million of net expense in 2009 from \$2.0 million of net expense in 2008. The net expense in 2009 is due to \$2.7 million of interest expense and amortization of issuance costs and note discount associated with the \$15.0 million Note, a \$3.3 million loss on early extinguishment of the Note (including a prepayment penalty of \$2.7 million and write-off of \$0.4 million of remaining debt issuance costs and note discount) and a realized loss of \$3.6 million related to the sale of our investment in Eklin. These expenses were offset by a \$0.5 million gain on the sale of certain patents that were no longer necessary to support our business and \$0.3 million in foreign currency exchange gains. The net other expense in 2008 is primarily attributable to \$1.8 million of interest expense and amortization of issuance costs and note discount associated with the note payable issued pursuant to the Merrick financing transaction and a \$1.4

million impairment charge related to our investment in Eklin, offset by \$0.8 million in foreign exchange gains and \$0.3 million of interest income.

Income Tax Benefit

We recorded an income tax benefit resulting in an effective tax rate of (90.0)% in 2009, compared to an effective rate of (0.3)% in 2008. Our effective tax rates in 2009 and 2008 differ significantly from statutory rates primarily due to recording a valuation allowance for deferred tax assets that are not more-likely-than-not to be realized, primarily in the U.S., utilizing deferred tax assets that are fully reserved with a valuation allowance, primarily in Canada and the expected recovery of previously paid alternative minimum taxes due to a change in U.S. tax law in 2009. Our expected effective income tax rate is volatile and may move up or down with changes in, among other items, operating income and the results of changes in tax law and regulations of the U.S. and the foreign jurisdictions in which we operate.

Year Ended December 31, 2008 Compared to Year Ended December 31, 2007

The following table sets forth selected, summarized consolidated financial data for the periods indicated, as well as comparative data showing increases and decreases between the periods. All amounts, except percentages, are in thousands.

(1) Percentages are of total net sales, except for cost of sales and gross margin, which are based upon related net sales.

(2) NM denotes percentage is not meaningful.

(3) Gross margin for software and other sales includes amortization and impairment expense recorded in cost of sales.

Net Sales

Net sales, by segment, are as follows (in thousands):

	Years Ended December 31,				Change	
	2008	%	2007	%	\$	%
Indirect						
Software and other	\$ 16,772	29.6%	\$ 15,117	25.4%	\$ 1,655	10.9%
Services and maintenance	11,738	20.7%	10,407	17.4%	1,331	12.8%
Total net sales	28,510	50.3%	25,524	42.8%	2,986	11.7%
Direct						
Software and other	10,789	19.0%	14,473	24.3%	(3,684)	-25.5%
Services and maintenance	17,436	30.7%	19,575	32.9%	(2,139)	-10.9%
Total net sales	28,225	49.7%	34,048	57.2%	(5,823)	-17.1%
Total net sales	\$ 56,735		\$ 59,572		\$ (2,837)	

Software and Other Sales. Net software and other sales for 2008 were \$27.6 million, a decrease of approximately \$2.0 million, or 6.9%, from \$29.6 million in 2007. Direct software and other sales decreased \$3.7 million, primarily as a result of the delay of certain product deliverables during the first two quarters of 2008. This decrease was offset by a \$1.7 million increase in Indirect sales, primarily due to recognition of software revenue upon delivery of, or relief from delivery of, certain contract elements associated with contracts signed in 2007 or earlier.

Service and Maintenance Sales. Net service and maintenance sales in 2008 were \$29.2 million, a decrease of \$0.8 million, or 2.7%, from \$30.0 million in 2007. Direct service and maintenance sales decreased \$2.1 million in 2008, as a result of a decrease in services to install software products, as well as a decrease in renewals of maintenance contracts of certain customers, primarily due to customer concerns with our financial viability. Indirect service and maintenance sales increased \$1.3 million as a result of an increase in customer contracts involving custom engineering services in 2008.

Gross Margin

Gross Margin – Software and Other Sales. Gross margin on software and other sales was \$19.1 million in 2008, an increase of approximately \$4.8 million, or 33.7%, from \$14.3 million in 2007. Gross margin as a percentage of software and other sales increased to 69.5% in 2008 from 48.4% in 2007. The increase in gross margin as a percentage of sales is primarily due to the mix in sales from our business units and a decrease in amortization expense in 2008. Indirect sales, which typically consist of software only contracts at higher margins, were 60.9% of software and other sales in 2008 compared to 51.1% in 2007. The decrease in amortization is primarily due to the fact that amortization in 2007 included impairment of certain of our purchased and capitalized software projects of \$4.7 million due to significant risk of technological obsolescence associated with certain projects, the majority of which were still in development at the time of impairment, compared to a \$0.4 million impairment on purchased software in 2008. There was also a decrease in recurring amortization associated with gross purchased and capitalized software costs in 2008 as a result of the 2007 impairment charges.

Gross Margin – Services and Maintenance Sales. Gross margin on services and maintenance sales was \$17.5 million in 2008, an increase of \$1.6 million, or 10.1%, from \$15.9 million in 2007. Gross margin as a percentage of services and maintenance sales increased to 60.0% in 2008 from 53.0% in 2007, due to the decrease in salaries and other related expenses (including travel and entertainment) as a result of our restructuring activities during February and June of 2008.

Sales and Marketing

Sales and marketing expense decreased \$9.3 million, or 49.8%, to \$9.3 million in 2008 from \$18.6 million in 2007. As a result of ongoing cost reductions previously discussed, including the restructuring initiatives announced in 2008, salaries and consultant fees, commissions and other related expenses (including travel and entertainment) decreased by \$6.4 million and share-based compensation expense decreased by \$0.7 million. In addition, we incurred \$0.8 million less in direct marketing costs as a result of cash saving efforts. Also, \$1.2 million

of the decrease was due to a reduction in sales and marketing expenses at our French subsidiary, which we disposed of in April 2008.

Product Research and Development

Product research and development expense decreased \$7.8 million, or 37.1%, to \$13.2 million in 2008 from \$21.0 million in 2007, primarily due to a \$7.3 million reduction in salaries, consultant fees and related expenses (including travel and entertainment) and a decrease in share-based compensation expense of \$0.7 million as a result of our restructuring initiatives in 2008. In addition, \$0.6 million of the decrease was due to a reduction in product research and development expenses of our French subsidiary, which we disposed of in April 2008. Offsetting this decrease was the fact that we did not capitalize any software development costs, which reduce costs in the applicable period, in 2008 compared to \$0.8 million of capitalized costs in 2007.

General and Administrative

General and administrative expense decreased \$9.0 million, or 30.6%, to \$20.5 million in 2008 from \$29.5 million in 2007, primarily due to a \$4.7 million reduction in our salaries and related expenses (including travel and entertainment) and a share-based compensation expense decrease of \$1.1 million as a result of our restructuring initiatives in 2008. Also, legal, accounting and other professional fees, including the settlement cost of the class action lawsuit and reimbursement of certain fees from our directors and officers liability insurance carrier, decreased \$2.5 million in 2008, due to a decline in activities and costs associated with the settlement of the class action lawsuit and prior restatement of financial statements. Additionally, general and administrative expenses decreased by \$0.4 million in 2008 due to a decrease in costs incurred by our French subsidiary, which we disposed of in April 2008, and \$0.3 million due to a decrease in costs associated with our Indian subsidiaries, which we disposed of or shut down in the third quarter of 2008.

Goodwill and Trade Name Impairment, Restructuring and Other Expenses

As discussed in Note 12 to the consolidated financial statements, we recorded \$8.8 million of restructuring charges in 2008 related to the initiatives announced in February 2008 and June 2008. In addition, as discussed in Note 4 to the consolidated financial statements, we recorded a \$1.1 million trade name impairment charge associated with renaming our Merge OEM business unit. We also incurred a \$1.7 million charge associated with the disposal of our French subsidiary in 2008, as discussed in Note 7 to the consolidated financial statements. In addition, we recorded a \$0.4 million charge in 2008 related to a change in estimate associated with subleasing a facility. In 2007 we recorded a goodwill impairment charge of \$122.4 million and a trade name impairment charge of \$0.8 million.

Depreciation, Amortization and Impairment

Depreciation, amortization and impairment expense decreased \$4.7 million, or 57.0%, to \$3.5 million in 2008 from \$8.2 million in 2007. Decreased depreciation, amortization and impairment expenses were primarily attributable to a \$4.3 million impairment of customer relationships in 2007 as well as a decrease in continuing amortization in 2008 as a result of the 2007 impairment charge.

Other Income (Expense), Net

Other income (expense), net was \$2.0 million of expense in 2008 compared to \$0.6 million of expense in 2007. In 2008, we incurred \$1.8 million of interest expense and amortization of issuance costs and note discount applicable to the \$15.0 million note payable issued on June 4, 2008 (as discussed in Note 6 to the consolidated financial statements), and \$1.4 million of impairment charges on our equity investments, offset by \$0.3 million in interest income and \$0.9 million in foreign exchange gains. In 2007, we incurred \$1.2 million of impairment charges on our equity investments and \$0.5 million in foreign exchange losses, offset by \$1.2 million in interest income. The decrease in interest income in 2008 compared to 2007 is attributable to a decrease in the average balance of our cash and cash equivalents in 2008 compared to 2007 as well as a decrease in the yield on cash and cash equivalents. The foreign exchange gain in 2008 was primarily due to the strengthening of the U.S. dollar compared to the Canadian dollar in the fourth quarter of 2008.

Income Tax Benefit

The net income tax benefit of (0.3)% recorded in 2008 is primarily due to changes in deferred taxes resulting from the impairment of indefinite lived trade names, offset by income and capital gains taxes payable in India which we were not able to offset with either U.S. or Canadian losses. Our effective tax rate for the period differed significantly from the statutory rate primarily due to a valuation allowance for deferred tax assets which we

have concluded are not more-likely-than-not to be realized. Our effective tax rate of (0.1)% in 2007 differed significantly from the statutory rate primarily due to the impairment of nondeductible goodwill and a valuation allowance for deferred tax assets that are not more-likely-than-not to be realized.

Liquidity and Capital Resources

Our cash and cash equivalents were \$19.6 million at December 31, 2009, an increase of \$1.8 million, or 9.9%, from our balance of \$17.8 million at December 31, 2008. In addition, working capital was \$18.2 million at December 31, 2009, an increase of \$9.9 million from working capital of \$8.3 million at December 31, 2008.

In November 2009, we received cash proceeds of \$25.2 million, net of transaction costs and agency fees, upon closing of a registered direct offering in which we sold 9.1 million shares of our Common Stock. Of the funds received, \$18.1 million was used to repay the note payable to Merrick, including a prepayment penalty of \$2.7 million and accrued interest of \$0.4 million. Merrick and its affiliates owned approximately 37.4% of our Common Stock as of December 31, 2009.

In 2009, we sold for cash proceeds of \$0.5 million certain patents that had been identified as no longer necessary to support the business.

On July 20, 2009, we completed the acquisition of etrials. Total consideration for the transaction was approximately \$25.1 million of which approximately \$9.1 million was cash.

Under the terms of the Merger Agreement with AMICAS, we will acquire all of the outstanding shares of common stock of AMICAS for consideration per share of \$6.05 in cash, without interest, or approximately \$248 million. We plan to finance the acquisition with either the sale of high yield notes or a bridge financing. In addition, we anticipate total costs of the acquisition and related debt and preferred stock issued to be incurred by both parties, including a break-up fee owed to a former potential acquirer of AMICAS, will approximate \$32 million.

Operating Cash Flows

Cash used in operating activities was \$1.0 million in 2009, compared to \$13.6 million in 2008. Our negative operating cash flow in 2009 was primarily due to the impact of non-cash charges of \$13.3 million, being more than offset by a \$1.8 million increase in accounts receivable, a \$4.0 million decrease in accounts payable, a \$7.8 million decrease in deferred revenue and a \$0.8 million decrease in accrued wages.

Termination benefits and contract exit costs paid in 2009 associated with our restructuring initiatives totaled \$1.9 million. As of December 31, 2009, we had \$0.9 million remaining payments associated with restructuring activities.

Investing Cash Flows

Cash used in investing activities was \$2.8 million in 2009, which was due to cash consideration for acquisitions, net of cash acquired, of \$2.8 million and purchases of capital equipment of \$1.1 million, offset by a decrease in restricted cash of \$0.2 million and proceeds of \$0.9 million received from the sale of our equity investment in Eklin.

Financing Cash Flows

Cash provided by financing activities was \$5.6 million in 2009 and was primarily due to proceeds, net of transaction costs and agency fees, of \$25.2 million received from our registered direct offering, offset by the repayments of \$19.6 million in debt, including the Note of \$15.0 million and \$4.6 million of other debt that we paid subsequent to completion of our acquisitions.

Contractual Obligations

Total outstanding commitments as of December 31, 2009 (in thousands), were as follows:

Contractual Obligations	Total	Payment due by period			
		Less than 1 Year	1 – 3 Years	3 – 5 Years	More than 5 Years
Operating leases	\$ 11,112	\$ 2,228	\$ 3,219	\$ 1,992	\$ 3,673
Capital leases (including interest)	227	173	54	-	-
Total	<u>\$ 11,339</u>	<u>\$ 2,401</u>	<u>\$ 3,273</u>	<u>\$ 1,992</u>	<u>\$ 3,673</u>

The above obligations include operating lease payments, net of sub-lease income of \$0.2 million, \$0.4 million, \$0.1 million and zero in the respective periods indicated above related to facilities that we have either ceased to use or abandoned as of December 31, 2009. Unrecognized tax benefits totaling \$6.5 million as of December 31, 2009 are not included in the table because the timing of their resolution cannot be estimated.

Except for \$0.6 million of restricted cash (primarily letters-of-credit related to three of our leased facilities) at December 31, 2009, we do not have any other significant long-term obligations, contractual obligations, lines of credit, standby letters of credit, guarantees or standby repurchase obligations.

General

We believe our current cash and cash equivalent balances will be sufficient to meet our operating, financing and capital requirements through at least the next 12 months, except that we will need to issue at least \$240 million of debt and equity in order to finance our acquisition of AMICAS. Any projections of future cash inflows and outflows are subject to uncertainty. In the event that it is necessary to raise additional capital to meet our short term or long term liquidity needs, such capital may be raised through additional debt, equity offerings or sale of certain assets. If we raise additional funds through the issuance of equity, equity-related or debt securities, such securities may have rights, preferences or privileges senior to those of our Common Stock. Furthermore, because of the low trading price of our Common Stock, the number of shares of any new equity or equity-related securities that may be issued may result in significant dilution to existing shareholders. In addition, the issuance of debt securities could increase the liquidity risk or perceived liquidity risk that we face. We cannot, however, be certain that additional financing, or funds from asset sales, will be available on acceptable terms. If adequate funds are not available or are not available on acceptable terms, we will likely not be able to take advantage of opportunities, develop or enhance services or products or respond to competitive pressures. Any projections of future cash inflows and outflows are subject to uncertainty. In particular, our uses of cash in 2010 and beyond will depend on a variety of factors such as the costs to implement our business strategy, the amount of cash that we are required to devote to defend and address any regulatory proceedings, and potential merger and acquisition activities. For a more detailed description of risks and uncertainties that may affect our liquidity, see Item 1A., "Risk Factors" in this Annual Report on Form 10-K.

Material Off Balance Sheet Arrangements

We have no material off balance sheet arrangements.

Critical Accounting Policies

Our consolidated financial statements are impacted by the accounting policies used and the estimates, judgments, and assumptions made by management during their preparation. We base our estimates and judgments on our experience, our current knowledge (including terms of existing contracts), our beliefs of what could occur in the future, our observation of trends in the industry, information provided by our customers and information available from other sources. Actual results may differ from these estimates under different assumptions or conditions.

We have identified the following accounting policies and estimates as those that we believe are most critical to our financial condition and results of operations and that require management's most subjective and complex judgments in estimating the effect of inherent uncertainties: revenue recognition, allowance for sales returns and doubtful accounts, other long-lived assets, goodwill and other intangible asset valuation, investments, share-based compensation expense, income taxes, guarantees and loss contingencies.

Revenue Recognition

Revenues are derived primarily from the licensing of software, sales of hardware and related ancillary products, SaaS offerings, installation and engineering services, training, consulting, and software maintenance and support. Inherent to software revenue recognition are significant management estimates and judgments in the interpretation and practical application of the complex rules to individual contracts. These interpretations generally would not influence the amount of revenue recognized, but could influence the timing of such revenues. In addition, revenue results are difficult to predict, and any shortfall in revenue or delay in recognizing revenue could cause our operating results to vary significantly from period to period. Significant areas of judgment include:

- The determination of deliverables specified in a multiple-element arrangement and treatment as separate units of accounting ;
- Whether separate arrangements with the same customer executed within a short time frame of each other are a single arrangement;
- The assessment of the probability of collection and the current credit worthiness of each customer since we generally do not request collateral from customers;
- The determination of whether the fees are fixed and determinable;
- Whether or not installation, engineering or consulting services are significant to the software licensed; and
- The amount of total estimated labor hours, based on management's best estimate, to complete a project we account for under the input method of percentage of completion accounting. We review our contract estimates periodically to assess revisions in contract values and estimated labor hours, and reflect changes in estimates in the period that such estimates are revised under the cumulative catch-up method.

Typically, our contracts contain multiple elements, and while the majority of our contracts contain standard terms and conditions, there are instances where our contracts contain non-standard terms and conditions. As a result, contract interpretation is sometimes required to determine the appropriate accounting. We analyze our multiple element arrangements to determine the vendor-specific objective evidence (VSOE) of fair value of each element, the amount of revenue to be recognized upon shipment, if any, and the period and conditions under which deferred revenue should be recognized. As a result, if facts and circumstances change that affect our current judgments, our revenue could be materially different in the future.

Allowance for Doubtful Accounts and Sales Returns

Based upon past experience and judgment, we establish allowances for doubtful accounts related to our accounts receivable and customer credits with respect to our sales returns. We determine collection risk and record allowances for bad debts based on the aging of accounts and past transaction history with customers. In addition, our policy is to allow sales returns when we have preauthorized the return. We have determined an allowance for estimated returns and credits based on our historical experience of returns and customer credits. We monitor our collections, write-offs, returns and credit experience to assess whether adjustments to our allowance estimates are necessary. Changes in trends in any of the factors that we believe impact the realizability of our receivables or modifications to our credit standards, collection, return and credit, authorization practices or other related policies may impact our estimates.

Other Long-Lived Assets

Other long-lived assets, including property and equipment and customer intangibles, are amortized over their expected lives, which are estimated by us. For our customer intangibles, the method of amortization we use reflects the pattern in which the economic benefits of the intangible asset are consumed or otherwise used up. If that pattern cannot be reliably determined, a straight-line amortization method is used. We also make estimates of the impairment of long-lived assets whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable, based primarily upon whether expected future undiscounted cash flows are sufficient to support the asset's recovery. If the actual useful life of a long-lived asset is shorter than the useful life estimated by us, the asset may be deemed to be impaired, and, accordingly, a write-down of the value of the asset determined by a discounted cash flow analysis, or a shorter amortization period, may be required.

Goodwill and Other Intangible Assets

We review goodwill and indefinite lived intangible assets for impairment annually or more frequently if impairment indicators arise. Our policy provides that goodwill and indefinite lived intangible assets will be reviewed for impairment as of October 1st or December 31st of each year, depending on the reporting unit in which the assets reside. In calculating potential impairment losses, we evaluate the fair value of goodwill and intangible assets using either quoted market prices or, if not available, by estimating the expected present value of their future cash flows. Identification of, and assignment of assets and liabilities to, a reporting unit require our judgment and estimates. In addition, future cash flows are based upon our assumptions about future sales activity and market acceptance of our products. If these assumptions change, we may be required to write down the gross value of our remaining indefinite lived intangible assets to a revised amount.

Investments

We hold certain securities in a publicly traded entity and private companies, which are classified as non-current assets. In determining fair value for these investments, we utilize valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs, to the extent possible. The investment in the publicly traded equity security, over which we do not exert significant influence, is classified as “available-for-sale” and reported at fair value. Unrealized gains and losses are based on changes in quoted market prices and reported within the accumulated other comprehensive income component of shareholders’ equity.

The investments in equity securities of private companies, over which we do not exert significant influence, are reported at cost or fair value, if an other-than-temporary loss has been determined. In calculating the potential impairment losses, we evaluate the fair value of investments by comparing them to certain public company metrics such as revenue multiples, information obtained from independent valuations, and inquires and estimates made by us. If assumptions or estimates used by us change, we may be required to write down the carrying value of the asset to a revised amount. Any loss due to impairment in value is recorded when such loss occurs.

Share-based Compensation Expense

We calculate share-based compensation expense based on the estimated grant-date fair value using the Black-Scholes option pricing model, and recognize the expense on a straight-line basis over the vesting period, net of estimated forfeitures. The fair value of stock-based awards is based on certain assumptions, including:

- Expected volatility, which we base on the historical volatility of our stock and other factors; and
- Estimated option life, which represents the period of time the options granted are expected to be outstanding and is based, in part, on historical data.

We also estimate employee terminations (option forfeiture rate), which is based, in part, on historical data, employee class and the type of award. We evaluate the assumptions used to value stock options and restricted stock awards on a quarterly basis. The estimation of share-based awards that will ultimately vest requires judgment, and to the extent actual results or updated estimates differ from our current estimates, such amounts will be recorded as a cumulative adjustment in the period estimates are revised. Although we believe our assumptions used to calculate share-based compensation expense are reasonable, these assumptions can involve complex judgments about future events, which are open to interpretation and inherent uncertainty. In addition, significant changes to our assumptions could significantly impact the amount of expense recorded in a given period.

Income Taxes

As part of the process of preparing our consolidated financial statements, we are required to estimate income taxes in each of the jurisdictions in which we operate. Our provision for income taxes is determined using the asset and liability approach for accounting for income taxes. A current liability is recognized for the estimated taxes payable for the current year. Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using the enacted tax rates in effect for the year in which the timing differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of changes in tax rates or tax laws are recognized in the provision for income taxes in the period that includes the enactment date.

Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount more-likely-than-not to be realized. Changes in valuation allowances will flow through the statement of operations unless related to deferred tax assets that expire unutilized or are modified through translation, in which case both the deferred tax asset and related valuation allowance are similarly adjusted. Where a valuation allowance was established through purchase accounting for acquired deferred tax assets, any future change outside the measurement period will be credited or charged to income tax expense.

The determination of our provision for income taxes requires significant judgment, the use of estimates, and the interpretation and application of complex tax laws. We are subject to income taxes in the U.S. and numerous foreign jurisdictions. Significant judgment is required in determining our worldwide provision for income taxes and recording the related tax assets and liabilities. In the ordinary course of our business, there are transactions and calculations for which the ultimate tax determination is uncertain. In spite of our belief that we have appropriate support for all the positions taken on our tax returns, we acknowledge that certain positions may be successfully challenged by the taxing authorities. We determine the appropriate amount of tax benefits to be recognized with respect to uncertain tax positions. Unrecognized tax benefits are evaluated quarterly and adjusted based upon new information, resolution with taxing authorities and expiration of the statute of limitations. The provision for income taxes includes the impact of changes in the liability for our uncertain tax positions. Although we believe our recorded tax assets and liabilities are reasonable, tax laws and regulations are subject to interpretation and inherent uncertainty; therefore, our assessments can involve both a series of complex judgments about future events and rely on estimates and assumptions. Although we believe these estimates and assumptions are reasonable, the final determination could be materially different than that which is reflected in our provision for income taxes and recorded tax assets and liabilities.

Guarantees

We recognize the fair value of guarantee and indemnification arrangements issued or modified by us, as applicable. In addition, we must continue to monitor the conditions that are subject to the guarantees and indemnifications in order to identify if a loss has occurred. If we determine it is probable that a loss has occurred, then any such estimable loss would be recognized under those guarantees and indemnifications.

Under our standard software license agreements, we agree to indemnify, defend and hold harmless our licensees from and against certain losses, damages and costs arising from claims alleging the licensees' use of our software infringes the intellectual property rights of a third party. Historically, we have not been required to pay material amounts in connection with claims asserted under these provisions, and, accordingly, we have not recorded a liability relating to such provisions. We also represent and warrant to licensees that our software products will operate substantially in accordance with published specifications, and that the services we perform will be undertaken by qualified personnel in a professional manner conforming to generally accepted industry standards and practices. Historically, only minimal costs have been incurred relating to the satisfaction of product warranty claims.

Other guarantees include promises to indemnify, defend and hold harmless each of our executive officers, non-employee directors and certain key employees from and against losses, damages and costs incurred by each such individual in administrative, legal or investigative proceedings arising from alleged wrongdoing by the individual while acting in good faith within the scope of his or her job duties on our behalf.

Loss Contingencies

We have accrued for costs as of December 31, 2009 and may, in the future, accrue for costs associated with certain contingencies when such costs are probable and reasonably estimable. Liabilities established to provide for contingencies are adjusted as further information develops, circumstances change, or contingencies are resolved.

Recent Accounting Pronouncements

We describe below recent pronouncements that have had or may have a significant effect on our financial statements. We do not discuss recent pronouncements that are not anticipated to have an impact on or are unrelated to our financial condition, results of operations, or related disclosures.

In December 2007, the Financial Accounting Standards Board (FASB) issued new guidance requiring an acquirer in a business combination to recognize the assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree at their fair values at the acquisition date, with limited exceptions. This guidance is set forth in ASC Topic No. 805, *Business Combinations*. All business combinations will be accounted for prospectively by

applying the acquisition method, including combinations among mutual entities and combinations by contract alone. In April 2009, the FASB amended and clarified the initial recognition and measurement, subsequent measurement and accounting, and related disclosures arising from contingencies in a business combination. Assets and liabilities arising from contingencies in a business combination are to be recognized at their fair value on the acquisition date if fair value can be determined during the measurement period. If fair value cannot be determined, the existing guidance for contingencies and other authoritative literature should be followed. This new guidance is effective for periods beginning on or after December 15, 2008, and applies to business combinations occurring after the effective date. We adopted this ASC effective January 1, 2009. We have applied the provisions to all of our business combinations in 2009 and will apply the provisions prospectively for any future business combinations.

In May 2009, the FASB issued guidance regarding general standards of accounting for and disclosure of an event that occurs after the balance sheet date but before financial statements are issued or are available to be issued. This guidance is set forth in ASC Topic No. 855, *Subsequent Events* (ASC No. 855). ASC No. 855 sets forth the period after the balance sheet date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements, the circumstances under which an entity should recognize events or transactions occurring after the balance sheet date in its financial statements, and the disclosures that an entity should make about events or transactions that occurred after the balance sheet date. We adopted this standard effective June 15, 2009 and have evaluated any subsequent events through the date of this filing. We do not believe there are any material subsequent events, other than those addressed in these Notes, which would require further disclosure.

In June 2009, the Financial Accounting Standards Board ("FASB") issued Update No. 2009-01, which establishes the FASB Accounting Standards Codification ("ASC") as the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). The ASC is effective for interim and annual periods ending after September 15, 2009. We adopted the ASC when referring to GAAP as of September 30, 2009. The adoption did not have an impact on our consolidated results.

In October 2009, the FASB issued ASC Update No. 2009-13, *Multiple-Deliverable Revenue Arrangements* (Update No. 2009-13). ASU No. 2009-13, amends existing revenue recognition accounting pronouncements that are currently within the scope of FASB ASC Subtopic No. 605-25, *Multiple Element Arrangements*. This Update provides accounting principles and application guidance on whether multiple deliverables exist, how the arrangement should be separated, and the consideration allocated. This new approach is effective for fiscal years beginning after June 15, 2010 and may be applied retrospectively or prospectively for new or materially modified arrangements. In addition, early adoption is permitted. We are currently evaluating the potential impact of Update No. 2009-13 on our consolidated financial statements.

In October 2009, the FASB issued ASC Update No. 2009-14, *Certain Arrangements That Contain Software Elements* (Update No. 2009-14). Update No. 2009-14 amends the scope of ASC Subtopic No. 985-605, *Revenue Recognition*, to exclude tangible products that include software and non-software components that function together to deliver the product's essential functionality. This Update shall be applied on a prospective basis for revenue arrangements entered into or materially modified in fiscal years beginning on or after June 15, 2010. Earlier application is permitted as of the beginning of a company's fiscal year provided the company has not previously issued financial statements for any period within that year. An entity shall not elect early application of Update No. 2009-14 unless it also elects early application of Update No. 2009-13. We are currently evaluating the potential impact of Update No. 2009-14 on our consolidated financial statements.

Item 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest Rate Risk

Our cash and cash equivalents are exposed to financial market risk due to fluctuations in interest rates, which may affect our interest income. As of December 31, 2009, our cash and cash equivalents included money market funds and short-term deposits, including certain cash that is restricted, totaling approximately \$19.6 million, and earned interest at a weighted average rate of 0.3% in 2009. The value of the principal amounts is equal to the fair value for these instruments. Due to the short-term nature of our investment portfolio, our interest income is subject to changes in short-term interest rates. At current investment levels, our pre-tax results of operations would vary by approximately \$0.2 million for every 100 basis point change in our weighted average short-term interest rate. We do not use our portfolio for trading or other speculative purposes.

Foreign Currency Exchange Risk

We have sales and expenses in Canada, China and Europe that are denominated in currencies other than the U.S. Dollar and, as a result, have exposure to foreign currency exchange risk. We do not enter into derivative financial instruments for trading or speculative purposes. In the event our exposure to foreign currency risk increases to levels that we do not deem acceptable, we may choose to hedge those exposures.

Item 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

Report of Independent Registered Public Accounting Firm

Board of Directors and Shareholders
Merge Healthcare Incorporated
Milwaukee, Wisconsin

We have audited the accompanying consolidated balance sheets of Merge Healthcare Incorporated and subsidiaries (the Company) as of December 31, 2009 and 2008 and the related consolidated statements of operations, shareholders' equity, cash flows, and comprehensive income (loss) for each of the two years in the period ended December 31, 2009. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Merge Healthcare Incorporated at December 31, 2009 and 2008, and the results of its operations, cash flows, and comprehensive income (loss) for each of the two years in the period ended December 31, 2009, in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 1 to the consolidated financial statements, the Company changed its method of accounting for business combinations with the adoption of the guidance of Accounting Standards Codification Topic 805, Business Combinations effective January 1, 2009.

We have also audited the presentation of net sales in the direct and indirect segments for the year ended December 31, 2007 as disclosed in Note 16. In our opinion, such disclosures are appropriate and Accounting Standards Codification Topic 280 on segment disclosures has been properly applied. We were not engaged to audit, review or apply any procedures to the 2007 financial statements other than with respect to the presentation of net sales in the direct and indirect segments and accordingly, we do not express an opinion or any other form of assurance on the 2007 financial statements taken as a whole.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Merge Healthcare Incorporated's internal control over financial reporting as of December 31, 2009, based on criteria established in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) and our report dated March 12, 2010 expressed an unqualified opinion thereon.

Milwaukee, Wisconsin
March 12, 2010

/s/ BDO Seidman, LLP

Report of Independent Registered Public Accounting Firm*

The Board of Directors and Shareholders
Merge Healthcare Incorporated:

We have audited the accompanying consolidated balance sheets of Merge Healthcare Incorporated and subsidiaries (the Company) as of December 31, 2007 and 2006, and the related consolidated statements of operations, shareholders' equity, comprehensive loss and cash flows for each of the years in the three-year period ended December 31, 2007. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2007 and 2006, and the results of its operations and its cash flows for each of the years in the three-year period ended December 31, 2007, in conformity with U.S. generally accepted accounting principles.

As discussed in Note 1 to the consolidated financial statements, effective January 1, 2007, the Company adopted the provisions of Financial Accounting Standards Board Interpretation No. 48, *Accounting for Uncertainty in Income Taxes*. Also, as discussed in Notes 1 and 6 to the consolidated financial statements, effective January 1, 2006, the Company adopted the provisions of Statement of Financial Accounting Standards No. 123 (revised 2004), *Share-Based Payment*.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 1 to the consolidated financial statements, the Company has suffered recurring losses from operations and negative cash flows that raise substantial doubt about its ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 1. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of December 31, 2007, based on criteria established in *Internal Control—Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated March 31, 2008 expressed an adverse opinion on the Company's internal control over financial reporting.

Merge Healthcare Incorporated and Subsidiaries
Notes to Consolidated Financial Statements
(In thousands, except for share and per share data)

(1) Basis of Presentation and Significant Accounting Policies

Nature of Operations

Merge Healthcare Incorporated, a Delaware corporation, and its subsidiaries (which we sometimes refer to collectively as Merge, we, us, or our) develop solutions that automate healthcare data and diagnostic workflow to enable a better electronic record of the patient experience, and to enhance product development for health IT, device and pharmaceutical companies and deliver related services.

Principles of Consolidation

The consolidated financial statements include the financial statements of our wholly owned subsidiaries, and include the results of etrials Worldwide, Inc. (etrials) since July 20, 2009, and the results of Confirma, Inc. (Confirma) since September 1, 2009. All intercompany balances and transactions have been eliminated in consolidation.

We have certain minority equity stakes in various companies accounted for as cost method investments. The operating results of these companies are not included in our results of operations.

Reclassifications

Where appropriate, certain reclassifications have been made to the prior periods' financial statements to conform to the current year presentation. Specifically, we have reclassified \$649 of certain accrued expenses from other current liabilities to accounts payable in the balance sheet as of December 31, 2008 in order to conform to current year presentation.

Use of Estimates

Our consolidated financial statements are prepared in accordance with United States of America (U.S.) generally accepted accounting principles (GAAP). These accounting principles require us to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Estimates are used when accounting for items and matters such as revenue recognition and allowances for uncollectible accounts receivable and sales returns, inventory obsolescence, depreciation and amortization, long-lived and intangible asset valuations, impairment assessments, restructuring reserves, taxes and related valuation allowance, income tax provisions, stock-based compensation, and contingencies. We believe that the estimates, judgments and assumptions are reasonable, based on information available at the time they are made. Actual results could differ from those estimates.

Segment Reporting

Our Chief Executive Officer has been identified as the chief operating decision maker, and relies on the information derived from our financial reporting process to assess the performance and allocate resources within Merge Healthcare. On June 30, 2009, we completed enhancements to our financial reporting process to allow us to obtain discrete operating results for our business units. This business unit information was used by our Chief Executive Officer in the third quarter of 2009 to assess performance and allocate resources within Merge. As a result, effective in the third quarter of 2009, we have reportable segments, which we have designated as Direct and Indirect. These reportable segments are based on business unit operations that have similar economic characteristics.

The Direct segment primarily sells directly to the end-users located primarily in the U.S. and Canada, and also distributes certain products through the Internet via our website. This segment consists of the Merge Fusion U.S. and Merge eClinical business units. The Indirect segment primarily sells software products and related services to Original Equipment Manufacturers, Value Added Resellers (VARs) and distributors world-wide. This segment consists of the Merge OEM and Merge CAD business units in addition to the Europe, Middle East and Africa operations of the Merge Fusion business unit (Merge Fusion EMEA).

Merge Healthcare Incorporated and Subsidiaries
Notes to Consolidated Financial Statements (continued)
(In thousands, except for share and per share data)

Functional Currency

The functional currency of all our foreign subsidiaries is the United States of America dollar (U.S. Dollar). Foreign currency denominated revenues and expenses are translated at weighted average exchange rates throughout the year. Foreign currency denominated monetary assets and liabilities are translated at rates prevailing at the balance sheet dates. Translation adjustments arising from the use of differing exchange rates from period to period are included as a component of other comprehensive income (loss). Foreign exchange gains and losses on transactions during the year are reflected in the consolidated statements of operations, as a component of other income (expense), net.

Fair Value of Financial Instruments

Our financial instruments include cash and cash equivalents, accounts receivable, marketable and non-marketable securities, accounts payable, note payable, and certain accrued liabilities. The carrying amounts of these assets and liabilities approximate fair value due to the short maturity of these instruments, except for the non-marketable equity securities. The estimated fair values of the non-marketable equity securities have been determined from information obtained from independent valuations and management estimates.

We use a three-tier value hierarchy to prioritize the inputs used in measuring fair value of our financial assets and liabilities. These tiers include: Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, defined as inputs other than quoted prices in active markets that are directly or indirectly observable; and Level 3, defined as unobservable inputs in which little or no market data exists, therefore, requiring an entity to develop its own assumptions.

We also consider additional information in estimating fair value when the volume and level of activity for the asset or liability have significantly decreased, or circumstances indicate a transaction is not suitable for fair value measurement. We disclose the required information about fair value of financial instruments in our interim financial statements as well as in our annual financial statements. See Note 5 for further discussion of the fair value of our financial instruments.

Derivative Financial Instruments

As part of the 2008 financing transaction with Merrick RIS, LLC (Merrick) discussed in Note 6, the note payable to Merrick, which was repaid in full in 2009, included change of control and default provisions. These provisions were considered put options which were required to be bifurcated from the debt instrument and accounted for separately as derivative instruments. The fair value of these options is recorded in long-term liabilities as of December 31, 2008. As of December 31, 2009, we had no derivative financial instruments outstanding.

Cash and Cash Equivalents

Cash and cash equivalents consist of balances with banks (including restricted cash) and liquid short-term investments with original maturities of ninety days or less and are carried on the balance sheet at cost plus accrued interest. As of December 31, 2009, restricted cash consists primarily of a letters-of-credit relating to three of our leased facilities.

Inventory

Inventory, consisting principally of raw materials and finished goods (primarily purchased third-party hardware), is stated at the lower of cost or market. Cost is determined using the first-in, first-out method.

Merge Healthcare Incorporated and Subsidiaries
Notes to Consolidated Financial Statements (continued)
(In thousands, except for share and per share data)

Other Current Assets

Other current assets consist primarily of revenue recognized that has not yet been billed to a customer, taxes receivable and other non-trade receivables, all of which are due within the next twelve months. The balances are comprised of the following as of December 31, 2009 and 2008:

	December 31,	
	2009	2008
Unbilled A/R	\$ 2,054	\$ 270
Taxes receivable	331	322
Other non-trade receivables	1,205	129
	\$ 3,590	\$ 721

As of December 31, 2009, the other non-trade receivables balance includes \$694 of tenant improvement allowance provided by the landlord of our Mississauga, Ontario location, for which we expect to receive payment in the first quarter of 2010.

Property and Equipment

Property and equipment are stated at cost. Depreciation on property and equipment is calculated on the straight-line method over the estimated useful lives of the assets. Useful lives of our major classes of property and equipment are two to three years for computer equipment and five to seven years for office equipment. Leasehold improvements are amortized using the straight-line method over the shorter of the estimated life of the asset or the term of the lease.

Long-Lived Assets

Long-lived assets, including property and equipment and customer intangibles, are amortized over their expected lives, which are estimated by us. For our customer intangibles, the method of amortization we use reflects the pattern in which the economic benefits of the intangible asset are consumed or otherwise used up. If that pattern cannot be reliably determined, a straight-line amortization method is used. We also make estimates of the impairment of long-lived assets whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable, based primarily upon whether expected future undiscounted cash flows are sufficient to support the asset's recovery. If the actual useful life of a long-lived asset is shorter than the useful life estimated by us, the asset may be deemed to be impaired, and, accordingly, a write-down of the value of the asset determined by a discounted cash flow analysis, or a shorter amortization period, may be required. We have reviewed long-lived assets with estimable useful lives and determined that their carrying values as of December 31, 2009 are recoverable in future periods.

Purchased and Developed Software

All research and development costs incurred prior to the point at which management believes a project has reached technological feasibility are expensed as incurred. Software development costs incurred subsequent to reaching technological feasibility are capitalized and reported at the lower of unamortized cost or net realizable value.

Amortization of purchased and developed software is provided on a product basis over the expected economic life of the related software, generally five years, using the straight-line method. This method generally results in greater amortization than the method based on the ratio that current gross revenues for a product bear to the total of current and anticipated future gross revenues for that product. We assess the recoverability of purchased and developed software costs quarterly by determining whether the net book value of such costs can be recovered through future net operating cash flows based on the sales of the respective products.

Investments

At December 31, 2009, we held certain securities in a publicly traded entity and private companies which are classified as non-current assets. The investment in the publicly traded equity security, over which we do not exert significant influence, is classified as "available-for-sale" and reported at fair value. Unrealized gains and

Merge Healthcare Incorporated and Subsidiaries
Notes to Consolidated Financial Statements (continued)
(In thousands, except for share and per share data)

losses are reported within the accumulated other comprehensive income component of shareholders' equity. The investments in equity securities of private companies, over which we do not exert significant influence, are reported at cost or fair value, if an other-than-temporary loss has been determined. Any loss due to impairment in value is recorded when such loss occurs. See Note 5 for further discussion of the fair values of our investments.

Goodwill and Other Intangible Assets

We review goodwill and indefinite lived intangible assets for impairment annually or more frequently if impairment indicators arise. Our policy provides that goodwill and indefinite lived intangible assets will be reviewed for impairment as of October 1st or December 31st of each year, depending on the reporting unit in which the assets reside. In calculating potential impairment losses, we evaluate the fair value of goodwill and intangible assets using either quoted market prices or, if not available, by estimating the expected present value of their future cash flows. Identification of, and assignment of assets and liabilities to, a reporting unit require our judgment and estimates. In addition, future cash flows are based upon our assumptions about future sales activity and market acceptance of our products. If these assumptions change, we may be required to write down the gross value of our remaining indefinite lived intangible assets to a revised amount. See Note 4 for a discussion of the impairment of goodwill, trade names and other intangible assets during the years ended December 31, 2009, 2008 and 2007.

Warranties

We generally provide up to twelve months of warranty on our hardware sales. We have provided for expected hardware warranty costs based on our historical experience. Accrued warranty was \$5 and \$125 at December 31, 2009 and 2008, respectively.

Guarantees

We recognize the fair value of guarantee and indemnification arrangements issued or modified by us, as applicable. In addition, we must continue to monitor the conditions that are subject to the guarantees and indemnifications in order to identify if a loss has occurred. If we determine it is probable that a loss has occurred, then any such estimable loss would be recognized under those guarantees and indemnifications.

Under our standard software license agreements, we agree to indemnify, defend and hold harmless our licensees from and against certain losses, damages and costs arising from claims alleging the licensees' use of our software infringes the intellectual property rights of a third party. Historically, we have not been required to pay material amounts in connection with claims asserted under these provisions, and, accordingly, we have not recorded a liability relating to such provisions. We also represent and warrant to licensees that our software products will operate substantially in accordance with published specifications, and that the services we perform will be undertaken by qualified personnel in a professional manner conforming to generally accepted industry standards and practices. Historically, only minimal costs have been incurred relating to the satisfaction of product warranty claims.

Other guarantees include promises to indemnify, defend and hold harmless each of our executive officers, non-employee directors and certain key employees from and against losses, damages and costs incurred by each such individual in administrative, legal or investigative proceedings arising from alleged wrongdoing by the individual while acting in good faith within the scope of his or her job duties on our behalf.

Income Taxes

As part of the process of preparing our consolidated financial statements, we are required to estimate income taxes in each of the jurisdictions in which we operate. Our provision for income taxes is determined using the asset and liability approach for accounting for income taxes. A current liability is recognized for the estimated taxes payable for the current year. Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using the enacted tax rates in effect for the year in which the timing differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of changes in tax rates or tax laws are recognized in the provision for income taxes in the period that includes the enactment date.

Merge Healthcare Incorporated and Subsidiaries
Notes to Consolidated Financial Statements (continued)
(In thousands, except for share and per share data)

Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount more-likely-than-not to be realized. Changes in valuation allowances will flow through the statement of operations unless related to deferred tax assets that expire unutilized or are modified through translation, in which case both the deferred tax asset and related valuation allowance are similarly adjusted. Where a valuation allowance was established through purchase accounting for acquired deferred tax assets, any future change outside the measurement period will be credited or charged to income tax expense.

The determination of our provision for income taxes requires significant judgment, the use of estimates, and the interpretation and application of complex tax laws. We are subject to income taxes in the U.S. and numerous foreign jurisdictions. Significant judgment is required in determining our worldwide provision for income taxes and recording the related tax assets and liabilities. In the ordinary course of our business, there are transactions and calculations for which the ultimate tax determination is uncertain. In spite of our belief that we have appropriate support for all the positions taken on our tax returns, we acknowledge that certain positions may be successfully challenged by the taxing authorities. We determine the appropriate amount of tax benefits to be recognized with respect to uncertain tax positions. Unrecognized tax benefits are evaluated quarterly and adjusted based upon new information, resolution with taxing authorities and expiration of the statute of limitations. The provision for income taxes includes the impact of changes in the liability for our uncertain tax positions. Although we believe our recorded tax assets and liabilities are reasonable, tax laws and regulations are subject to interpretation and inherent uncertainty; therefore, our assessments can involve both a series of complex judgments about future events and rely on estimates and assumptions. Although we believe these estimates and assumptions are reasonable, the final determination could be materially different than that which is reflected in our provision for income taxes and recorded tax assets and liabilities.

Accumulated Other Comprehensive Income

Foreign currency translation adjustments and unrealized gains or losses on our available-for-sale securities, net of applicable taxes, are included in accumulated other comprehensive income, and are further detailed in Note 5 for the years ended December 31, 2009 and 2008.

Revenue Recognition

Revenues are derived primarily from the licensing of software, sales of hardware and related ancillary products, hosted clinical trial software-as-a-service (SaaS) offerings, installation and engineering services, training, consulting, and software maintenance and support. Inherent to software revenue recognition are significant management estimates and judgments in the interpretation and practical application of the complex rules to individual contracts. These interpretations generally would not influence the amount of revenue recognized, but could influence the timing of such revenues. Typically, our contracts contain multiple elements, and while the majority of our contracts contain standard terms and conditions, there are instances where our contracts contain non-standard terms and conditions. As a result, contract interpretation is sometimes required to determine the appropriate accounting, including whether the deliverables specified in a multiple-element arrangement should be treated as separate units of accounting for revenue recognition purposes, and if so, the relative fair value that should be allocated to each of the elements and when to recognize revenue for each element.

We recognize revenue on software arrangements involving multiple elements, including separate arrangements with the same customer executed within a short time frame of each other, based on the vendor-specific objective evidence (VSOE) of fair values of those elements. For the majority of our business, we determine the fair value of the maintenance and support portion of the arrangement based on the substantive renewal price of the maintenance offered to customers, which generally is stated in the contract. The fair value of installation, engineering services, training, and consulting is based upon the price charged when these services are sold separately. For sales transactions where the software is incidental or the only contract deliverable is engineering or other services, as well as hardware transactions where no software is involved, we recognize revenue based on either VSOE of fair value or other third-party evidence (TPE) of fair value of those elements.

Revenue from multiple-element arrangements is recognized using the residual method. Under the residual method, revenue is recognized in a multiple element arrangement when fair value exists for all of the undelivered elements in the arrangement, even if fair value does not exist for one or more of the delivered elements in the arrangement, assuming all other conditions for revenue recognition have been satisfied. If evidence of fair value

Merge Healthcare Incorporated and Subsidiaries
Notes to Consolidated Financial Statements (continued)
(In thousands, except for share and per share data)

cannot be established for the maintenance and support element of a sale, and it represents the only undelivered element, all contract elements are deferred and recognized ratably over the related maintenance and support period.

Provided that evidence of an arrangement exists, fees are fixed or determinable, collection of the related receivable is probable, fair value for the undelivered elements exist and there are no other contract considerations resulting in the deferral of revenue, we typically recognize revenue in the following manner:

- Software licenses and hardware are recognized upon delivery, while installation, engineering services, training, and consulting services are recognized as performed and maintenance and support is recognized ratably over the period in which the services are performed. This is the primary method used for sales from our Indirect segment as software products are typically fully functional upon delivery and do not require significant modification or alteration. Any subsequent software royalties associated with such contracts are generally recognized as reported by the customer. Revenue is also recognized in this manner for certain Direct segment sales and the majority of sales of additional modules to existing customers.
- Software licenses sold through annual contracts that include software maintenance and support are deferred and recognized ratably over the one-year period.
- Revenues derived from SaaS offerings are generally recognized using the proportional performance method as we provide software application-hosting and related services to customers under fixed-price contracts. Such contracts are entered into by certain Direct segment customers with clinical trial products comprising the vast majority. These contracts consist of master agreements containing general terms and conditions and separately negotiated addendums (called task orders) which include services, software subscription and usage fees, and hosting fees. Customers generally have the ability to terminate contracts upon 30 days notice. However, these contracts typically require payment of fees earned from all services provided through the termination date. In the event that a customer cancels a task order, all deferred revenue is recognized and certain termination related fees may be charged.
- If services are considered essential to the functionality of the software, revenue is recognized based on service hours expended through project completion and maintenance and support is recognized thereafter ratably over the applicable period.

If services are considered essential, we recognize revenue using either the proportional performance guidelines or percentage of completion accounting, as appropriate. Revenue is determined by the input method based upon the amount of labor hours expended compared to the total labor hours expended plus the estimated amount of labor hours to complete the project. Total estimated labor hours are based on management's best estimate of the total amount of time it will take to complete a project. These estimates require the use of judgment. A significant change in one or more of these estimates could affect the profitability of one or more of our contracts. We review our contract estimates periodically to assess the possible need for revisions in contract values and estimated labor hours, and reflect changes in estimates in the period that such estimates are revised under the cumulative catch-up method. When estimates indicate a loss, such loss is recognized in the current period in its entirety. Because of the inherent uncertainties in estimating total labor hours, it is possible that the estimates will change and could result in a material change of revenue recognized in the applicable period. We record a loss for a contract at the point it is determined that the total estimated contract costs will exceed management's estimates of contract revenues. As of December 31, 2009, we have not experienced any material losses on uncompleted contracts.

We assess collectability based on a number of factors, including past transaction history with the customer and the credit worthiness of the customer. We must exercise our judgment when we assess the probability of collection and the current credit worthiness of each customer. If the financial condition of our customers were to deteriorate, it could affect the timing and the amount of revenue we recognize on a contract. In addition, in certain transactions prior to 2007, we negotiated with customers a provision that included our receipt of ownership in the customer's common stock as part of the sale. We generally do not request collateral from customers. We have provided for an allowance for estimated returns and credits based on our historical experience of returns and customer credits.

Merge Healthcare Incorporated and Subsidiaries
Notes to Consolidated Financial Statements (continued)
(In thousands, except for share and per share data)

Deferred revenue is comprised of deferrals for license fees, support and maintenance and other services. Long-term deferred revenue as of December 31, 2009 represents license fees, support and maintenance and other services to be earned or provided beginning January 1, 2011. Revenue recognized that has not yet been billed to a customer results in an asset as of the end of the respective period. The majority of such asset is comprised of clinical trial SaaS offering contracts where certain amounts are billable upon the achievement of milestones or in accordance with predetermined payment schedules. As of December 31, 2009 and 2008, there was \$2,054 and \$270 recorded within other current assets.

We record reimbursable out-of-pocket expenses in both services and maintenance net sales and as a direct cost of services and maintenance. The reimbursement by customers of shipping and handling costs are recorded in software and other net sales and the associated cost as a cost of sale. We account for sales taxes on a net basis.

Share-Based Compensation

We calculate share-based compensation expense based on the estimated grant-date fair value using the Black-Scholes option pricing model, and recognize the expense on a straight-line basis over the vesting period, net of estimated forfeitures. We evaluate the assumptions used to value stock options and restricted stock awards on a quarterly basis. The estimation of share-based awards that will ultimately vest requires judgment, and to the extent actual results or updated estimates differ from our current estimates, such amounts will be recorded as a cumulative adjustment in the period estimates are revised. We consider many factors when estimating expected forfeitures, including types of awards, employee class, and historical experience.

Recent Accounting Pronouncements

We describe below recent pronouncements that have had or may have a significant effect on our financial statements. We do not discuss recent pronouncements that are not anticipated to have an impact on or are unrelated to our financial condition, results of operations, or related disclosures.

In December 2007, the Financial Accounting Standards Board (FASB) issued new guidance, as set forth in ASC Topic No. 805, *Business Combinations*, requiring an acquirer in a business combination to allocate the purchase price of an acquired business, on a preliminary basis, to the identified assets and liabilities acquired based on their estimated fair values at the dates of acquisition, with any residual amounts allocated to goodwill. Goodwill is allocated to our reporting units based on the reporting units that will benefit from the acquired assets and liabilities. Purchase price allocations are considered preliminary until we have obtained all required information to complete the allocation. Although the time required to obtain the necessary information will vary with circumstances specific to an individual acquisition, the "allocation period" for finalizing purchase price allocations would not exceed one year from the date of consummation of an acquisition. Adjustments to the allocation of purchase price may decrease those amounts allocated to goodwill and, as such, may increase those amounts allocated to other tangible or intangible assets, which may result in higher depreciation, depletion or amortization expense in future periods. Revisions to preliminary purchase price allocations, if any, are reflected retrospectively. Assets acquired in a business combination that will be sold are valued at fair value less cost to sell. Results of operating these assets are recognized currently in the period in which those operations occur. In April 2009, the FASB amended and clarified the initial recognition and measurement, subsequent measurement and accounting, and related disclosures arising from contingencies in a business combination. Assets and liabilities arising from contingencies in a business combination are to be recognized at their fair value on the acquisition date if fair value can be determined during the measurement period. If fair value cannot be determined, the existing guidance for contingencies and other authoritative literature should be followed. This new guidance is effective for periods beginning on or after December 15, 2008, and applies to business combinations occurring after the effective date. We adopted this ASC effective January 1, 2009. We have applied the provisions to all of our business combinations in 2009 and will apply the provisions prospectively for any future business combinations.

In May 2009, the FASB issued guidance regarding general standards of accounting for and disclosure of an event that occurs after the balance sheet date but before financial statements are issued or are available to be issued. This guidance is set forth in ASC Topic No. 855, *Subsequent Events* (ASC No. 855). ASC No. 855 sets forth the period after the balance sheet date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements, the circumstances under which an entity should recognize events or transactions occurring after the balance sheet date in its financial

Merge Healthcare Incorporated and Subsidiaries
Notes to Consolidated Financial Statements (continued)
(In thousands, except for share and per share data)

statements, and the disclosures that an entity should make about events or transactions that occur after the balance sheet date. We adopted this standard effective June 15, 2009 and have evaluated any subsequent events through the date of this filing. We do not believe there are any material subsequent events, other than those addressed in these Notes, which would require further disclosure.

In June 2009, the Financial Accounting Standards Board (“FASB”) issued Update No. 2009-01, which establishes the FASB Accounting Standards Codification (“ASC”) as the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). The ASC is effective for interim and annual periods ending after September 15, 2009. We adopted the ASC when referring to GAAP as of September 30, 2009. The adoption did not have an impact on our consolidated results.

In October 2009, the FASB issued ASC Update No. 2009-13, *Multiple-Deliverable Revenue Arrangements* (Update No. 2009-13). Update No. 2009-13, amends existing revenue recognition accounting pronouncements that are currently within the scope of FASB ASC Subtopic No. 605-25, *Multiple Element Arrangements*. Under the new guidance, when VSOE or third party evidence for deliverables in an arrangement cannot be determined, a best estimate of the selling price is required to separate deliverables and allocate arrangement consideration using the relative selling price method. The new guidance includes new disclosure requirements on how the application of the relative selling price method affects the timing and amount of revenue recognition. This new approach is effective for fiscal years beginning after June 15, 2010 and may be applied retrospectively or prospectively for new or materially modified arrangements. In addition, early adoption is permitted. We are currently evaluating the potential impact of Update No. 2009-13 on our consolidated financial statements.

In October 2009, the FASB issued ASC Update No. 2009-14, *Certain Arrangements That Contain Software Elements* (Update No. 2009-14). Update No. 2009-14 amends the scope of ASC Subtopic No. 985-605, *Revenue Recognition*, to exclude tangible products that include software and non-software components that function together to deliver the product’s essential functionality. This Update shall be applied on a prospective basis for revenue arrangements entered into or materially modified in fiscal years beginning on or after June 15, 2010. Earlier application is permitted as of the beginning of a company’s fiscal year provided the company has not previously issued financial statements for any period within that year. An entity shall not elect early application of Update No. 2009-14 unless it also elects early application of Update No. 2009-13. We are currently evaluating the potential impact of Update No. 2009-14 on our consolidated financial statements.

(2) Acquisitions

etrial's Worldwide, Inc.

On July 20, 2009, we completed the acquisition of etrial's, a provider of clinical trials software and services to pharmaceutical, biotechnology, medical device, and contract research organizations. The transaction was announced on June 1, 2009, upon the execution of a definitive agreement, and closed on July 20, 2009. Under the terms of the Merger Agreement, we acquired all of the outstanding shares of common stock of etrial's for consideration per share of \$0.80 in cash, without interest, and 0.3448 shares of our Common Stock. Upon completion of the acquisition, we renamed this entity Merge eClinical. Our consolidated statements of operations include etrial's sales of \$5,799 and net income of \$149 for the period July 20, 2009 through December 31, 2009.

Reasons for the Transaction

Our acquisition of etrial's will allow us to create an organization capable of providing clinical trial sponsors and contract research organizations (CROs) comprehensive and configurable solutions that integrate critical imaging technologies with electronic eclinical capabilities to address the needs of all the stakeholders in clinical trials utilizing imaging.

Acquisition Accounting

The transaction consideration was valued at approximately \$25,077, including the exchange of 3,942,732 shares at a market price of \$4.04 per share, and \$9,149 in cash. The fair value of stock issued was based upon the NASDAQ closing price of our Common Stock on July 20, 2009. The acquisition was accounted for using the acquisition method of accounting. We were considered the accounting acquirer, requiring the purchase

Merge Healthcare Incorporated and Subsidiaries
Notes to Consolidated Financial Statements (continued)
(In thousands, except for share and per share data)

consideration to be allocated to etrials' net tangible and intangible assets based on their respective fair values as of the closing date, with the residual reflected as goodwill. The allocation of the purchase consideration is based upon estimates made by us with the assistance of independent valuation specialists. The purchase price allocation, based on etrials' assets and liabilities as of July 20, 2009, was as follows:

	<u>Estimated Fair Value</u>
Cash	\$ 6,077
Other tangible assets	4,565
Liabilities assumed	(5,215)
Purchased and developed software	3,950
Customer relationships	2,640
In-process research and development	760
Trade names	270
Goodwill	<u>12,030</u>
Total consideration	<u>\$ 25,077</u>

The amounts allocated to purchased and developed software, customer relationships, trade names and in-process research and development (IPR&D) are estimated by us based on the work performed by independent valuation specialists, primarily through the use of discounted cash flow techniques. Appraisal assumptions utilized under these methods include a forecast of estimated future net cash flows, as well as discounting the future net cash flows to their present value. Acquired intangible assets are being amortized over the estimated useful lives as set forth in the following table:

	<u>Years</u>
Proprietary technology	7.0
Customer relationships	10.0
Trade names	6.0
IPR&D	5.0
Goodwill	Indefinite

The asset lives are determined based on projected future economic benefits and expected life cycles of the acquired intangible assets. Amortization on the value assigned to IPR&D commenced upon completion of the associated research and development efforts.

The value assigned to acquired IPR&D is determined by identifying the acquired specific IPR&D projects that will be continued, and for which (1) technological feasibility has not been established at the acquisition date, (2) there is no alternative future use, and (3) the fair value is estimable with reasonable reliability. The nature of the efforts to develop the in-process technology into the commercially viable products principally relates to the completion of all planning, designing, prototyping, verification and testing activities that are necessary to establish that the technology can be produced to meet its design specification, including function, features and technical performance requirements. At the date of the business combination, etrials had an in-process project meeting the above criteria involving an electronic data capture (EDC) platform. Upon the projects reaching general availability in 2009, we commenced amortization of the associated value assigned to IPR&D, using a useful life of five years. Total amortization expense was \$13 in the year ended December 31, 2009.

The amount assigned to goodwill is not being amortized, but is tested for impairment annually or under certain circumstances that may indicate a potential impairment. The \$12,030 assigned to goodwill is not deductible for federal income tax purposes.

Upon completion of the etrials acquisition, we assumed \$1,770 in debt, which was repaid in full in the third quarter of 2009.

Merge Healthcare Incorporated and Subsidiaries
Notes to Consolidated Financial Statements (continued)
(In thousands, except for share and per share data)

Confirma, Inc.

On September 1, 2009, we completed the acquisition of Confirma, a provider of computer systems for processing and presentation of data from magnetic resonance imaging (MRI) studies. The transaction was announced on August 7, 2009, upon the execution of a definitive agreement, and closed on September 1, 2009. Under the terms of the Merger Agreement, we acquired all outstanding shares of Confirma in exchange for 5,422,104 shares of our Common Stock. Upon completion of the acquisition, we renamed this entity Merge CAD. Our consolidated statements of operations include Confirma sales of \$2,398 and net loss of \$1,840 for the period September 1, 2009 through December 31, 2009.

Reasons for the Transaction

Our acquisition of Confirma creates an organization providing advanced applications for visualization and analysis of MRI studies that has the capability to widen the global adoption of this type of technology through our international distribution network.

Acquisition Accounting

The transaction consideration was valued at approximately \$16,225, including the exchange of 5,422,104 shares at a market price of \$3.01 per share, of which 46,628 shares were placed in escrow. The transaction consideration excludes \$96 for claims against the escrow. The fair value of stock issued was based upon the NASDAQ closing price of our Common Stock on September 1, 2009. The acquisition was accounted for using the acquisition method of accounting. We were considered the accounting acquirer, requiring the purchase consideration to be allocated to Confirma's net tangible and intangible assets based on their respective fair values as of the closing date, with the residual reflected as goodwill. The allocation of the purchase consideration is based upon estimates made by us with the assistance of independent valuation specialists. The purchase price allocation, based on Confirma's assets and liabilities as of September 1, 2009, was as follows:

	<u>Estimated Fair Value</u>
Cash	\$ 2,696
Other tangible assets	3,451
Liabilities assumed	(9,867)
Purchased and developed software	4,300
Customer relationships	2,100
Trade names	300
Goodwill	<u>13,245</u>
Total consideration	<u>\$ 16,225</u>

The amounts allocated to purchased and developed software, customer relationships and trade names are estimated by us based on the work performed by independent valuation specialists, primarily through the use of discounted cash flow techniques. Appraisal assumptions utilized under these methods include a forecast of estimated future net cash flows, as well as discounting the future net cash flows to their present value. Acquired intangible assets are being amortized over the useful lives as set forth in the following table:

	<u>Years</u>
Proprietary Technology	5.3
Customer Relationships	9.5
Trade names	10.0
Goodwill	Indefinite

The asset lives are determined based on projected future economic benefits and expected life cycles of the acquired intangible assets. The amount assigned to goodwill is not being amortized, but is tested for impairment annually or under certain circumstances that may indicate a potential impairment. The \$13,245 assigned to goodwill is not deductible for federal income tax purposes.

Merge Healthcare Incorporated and Subsidiaries
Notes to Consolidated Financial Statements (continued)
(In thousands, except for share and per share data)

Upon completion of the Confirma acquisition, we assumed \$2,800 in debt, which was repaid in full in the third quarter of 2009.

Pro forma Results

The following unaudited pro forma condensed combined results of operations for the years ended December 31, 2009 and 2008, respectively, are based on the historical financial statements of Merge, etrials and Confirma giving effect to the business combination as if it had occurred at the beginning of the periods presented. Therefore, this pro forma data has been adjusted to exclude pre-acquisition intangible amortization, share-based compensation and warrant expense of etrials and Confirma, while including amortization of intangible assets purchased in the respective acquisitions during the entire applicable periods. This data is not necessarily indicative of the results of operations that would have been generated if the transaction had occurred at the beginning of the respective periods. Moreover, this data is not intended to be indicative of future results of operations.

	Years Ended	
	2009	2008
Revenue	\$ 83,951	\$ 91,121
Net loss	(5,256)	(44,602)
Loss per share:		
Basic	\$ (0.08)	\$ (0.80)
Diluted	\$ (0.08)	\$ (0.80)

We completed 2 insignificant acquisitions in 2009, with total transaction consideration of \$2,593. As a result of these acquisitions, we recorded purchased and developed software, customer relationships, and goodwill of \$1,020, \$340 and \$3,475, respectively. The operating results of these acquisitions are included in our consolidated financial statements from the respective dates of the acquisitions. The pro forma results displayed above have not been adjusted for these acquisitions, as they were determined to be immaterial both individually and in aggregate.

(3) Accounts Receivable

Substantially all receivables are derived from sales and related services, support and maintenance of our products to health IT, device and pharmaceutical companies located throughout the U.S. and in certain foreign countries as indicated in Note 16.

Our accounts receivable balance is reported net of an allowance for doubtful accounts and an allowance for sales returns. We provide for an allowance for estimated uncollectible accounts and sales returns based upon historical experience and management's judgment. As of December 31, 2009 and 2008, the allowances for estimated uncollectible accounts and sales returns were \$1,287 and \$1,378, respectively.

The following table shows the changes in our allowance for doubtful accounts and sales returns.

Description	Balance at beginning of period	Additions charged to revenue and expenses	Deductions	Balance at end of period
For year ended December 31, 2009:				
Allowance for doubtful accounts and sales returns	\$ 1,378	\$ 416	\$ (507)	\$ 1,287
For year ended December 31, 2008:				
Allowance for doubtful accounts and sales returns	\$ 2,209	\$ 316	\$ (1,147)	\$ 1,378
For year ended December 31, 2007:				
Allowance for doubtful accounts and sales returns	\$ 2,553	\$ 1,100	\$ (1,444)	\$ 2,209

Merge Healthcare Incorporated and Subsidiaries
Notes to Consolidated Financial Statements (continued)
(In thousands, except for share and per share data)

(4) Goodwill, Trade Names and Intangible Assets

Goodwill is our primary intangible asset and is not subject to amortization. The changes in carrying amount of goodwill by segment for the year ended December 31, 2009, are as follows:

	<u>Indirect</u>	<u>Direct</u>	<u>Total</u>
Balance at January 1, 2009	\$ -	\$ -	\$ -
Goodwill due to etrials acquisition	-	12,030	12,030
Goodwill due to Confirma acquisition	13,245	-	13,245
Goodwill due to insignificant acquisitions	-	3,474	3,474
Balance at December 31, 2009	<u>\$ 13,245</u>	<u>\$ 15,504</u>	<u>\$ 28,749</u>

In 2009, we did not record any impairment of our goodwill since the fair value of our reporting units substantially exceeds the carrying value.

On June 4, 2008, we announced that we were renaming our business units. As a result of this action, the Cedara trade name was impaired. We recorded a charge of \$1,060 during the second quarter of 2008 in trade name impairment, restructuring and other expense within our consolidated statement of operations.

During the year ended December 31, 2007, several material events occurred that resulted in an environment of uncertainty surrounding Merge, and diverted the attention of certain board members and management from our business operations for periods of time. This uncertainty lead us to question whether we might not be able to recover the intangible assets' carrying amounts or that the fair value of our single reporting unit did not support the carrying value of goodwill.

We evaluated whether or not the circumstances indicated that the carrying amounts of our property and equipment and customer relationships were recoverable, based primarily on whether future undiscounted cash flows were sufficient to support the asset's recovery. As a result of certain analyses and impairment tests performed in accordance with ASC Topic 350, *Intangibles – Goodwill and Other*, the Audit Committee of our Board of Directors determined that there was an impairment to certain intangible assets. We completed these assessments of fair value utilizing the assistance of independent valuation specialists. Based on our assessments, our goodwill was fully impaired as of December 31, 2007. The following table details all impairment charges recorded during the year ended December 31, 2007:

<u>Asset Impaired</u>	<u>Statement of Operations Classification</u>		
	<u>Cost of Sales</u>	<u>Operating Costs and Expenses</u>	<u>Total</u>
	<i>Year ended December 31, 2007</i>		
Purchased software	\$ 1,091	\$ -	\$ 1,091
Capitalized software	3,470	-	3,470
Patents	133	-	133
Customer relationships	-	4,252	4,252
Trade names	-	800	800
Goodwill	-	122,371	122,371
Total	<u>\$ 4,694</u>	<u>\$ 127,423</u>	<u>\$ 132,117</u>

Merge Healthcare Incorporated and Subsidiaries
Notes to Consolidated Financial Statements (continued)
(In thousands, except for share and per share data)

Other than capitalized software development costs, our intangible assets subject to amortization are summarized as of December 31, 2009 and 2008 as follows:

	Weighted- Average Remaining Amortization Period (Years)	December 31, 2009		December 31, 2008	
		Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
Purchased technology	4.4	\$ 20,694	\$ (9,350)	\$ 11,424	\$ (6,888)
Customer relationships	7.4	8,556	(2,382)	3,550	(1,259)
Trade names	7.8	570	(29)		
Total		<u>\$ 29,820</u>	<u>\$ (11,761)</u>	<u>\$ 14,974</u>	<u>\$ (8,147)</u>

The estimated asset lives are determined based on projected future economic benefits and expected life cycles of the purchased software, customer relationships and trade names.

Amortization expense for purchased software, which is being expensed within cost of sales on a ratable basis over the life of the related intangible asset, was \$2,462, \$2,517 and \$3,938 in the years ended December 31, 2009, 2008 and 2007, respectively. Included within the expense are purchased software impairment charges of \$398 and \$1,091 during the years ended December 31, 2008 and 2007, respectively, as a result of our net realizable value analysis associated with certain product lines. Customer relationships and trade names amortization expense, which is being expensed in the depreciation, amortization and impairment classification of operating costs and expenses over the life of the related intangible asset, was \$1,226, \$1,000 and \$6,220 in the years ended December 31, 2009, 2008 and 2007, respectively. The expense in 2007 includes an impairment charge of \$4,252.

In the year ended December 31, 2009, we increased the gross carrying amount of purchased software, customer relationships and trade names by \$10,030, \$5,080 and \$570, respectively, related to significant acquisitions and insignificant asset purchases completed in 2009.

The estimated future amortization expense of purchased software, customer relationships and trade names as of December 31, 2009 is as follows:

For the year ended December 31:	2010	5,091
	2011	3,403
	2012	2,203
	2013	2,180
	2014	2,066
	Thereafter	3,116

As of December 31, 2009, we had gross capitalized software development costs of \$7,415 and accumulated amortization of \$6,138. As of December 31, 2008, we had gross capitalized software development costs of \$6,813 and accumulated amortization of \$5,696. The weighted average remaining amortization period of capitalized software development costs was 3.3 years as of December 31, 2009. In the year ended December 31, 2009, we recorded \$760 of capitalized software development costs (which had been valued as part of the etrials acquisition as IPR&D) upon the projects reaching general availability in 2009. In the years ended December 31, 2008 and 2007, we capitalized software development costs of zero and \$817, respectively. Amortization expense, including impairments, related to capitalized software development costs of \$600, \$762 and \$4,599 was recorded in amortization and related impairment cost of sales during the years ended December 31, 2009, 2008 and 2007, respectively. We recorded an impairment of \$3,470 in the year ended December 31, 2007, as a result of our net realizable value analysis associated with certain projects (some of which were still in development at the time of impairment) or as we no longer anticipated future sales of certain products.

In the year ended December 31, 2009, we received cash proceeds of \$510 from the sale of patents which we determined were not necessary to support our business.

Merge Healthcare Incorporated and Subsidiaries
Notes to Consolidated Financial Statements (continued)
(In thousands, except for share and per share data)

(5) Fair Value Measurement

Non-Current Investments

The following tables set forth our non-current investments that are carried at fair value:

	Level 1	Level 2	Level 3	Balance at December 31, 2009
Investment in publicly traded equity securities	\$ 110	\$ -	\$ -	\$ 110
Investments in equity securities of private companies	-	-	413	413
Total	\$ 110	\$ -	\$ 413	\$ 523

	Level 1	Level 2	Level 3	Balance at December 31, 2008
Investment in publicly traded equity securities	\$ 318	\$ -	\$ -	\$ 318
Investments in equity securities of private companies	-	-	5,372	5,372
Total	\$ 318	\$ -	\$ 5,372	\$ 5,690

Due to the acquisition of Eklin Medical Systems, Inc. (Eklin) by VCA Antech, Inc. in July 2009, we sold our equity investment in Eklin for proceeds of \$1,335. We received cash of \$886 in the third quarter of 2009, with the remaining balance of \$449 being held in an escrow account for up to two years to satisfy any remaining obligations which may arise from the transaction. We have recorded a charge of \$3,624 in the year ended December 31, 2009 related to the realized loss on the sale of our investment in Eklin. As a result of the evaluation of our Level 3 investments in the year ended December 31, 2008, we determined there was a significant change in the fair value and recorded an impairment charge of \$1,435. Both the realized loss and the impairment charge are included in the other, net line of our condensed consolidated statements of operations. The following table sets forth the change in the fair value of our Level 3 non-current investments for the periods indicated:

	Year Ended December 31,	
	2009	2008
Balance at January 1	\$ 5,372	\$ 6,807
Sale of investment	(1,335)	-
Impairment charge	-	(1,435)
Realized loss	(3,624)	-
Balance at December 31	\$ 413	\$ 5,372

Unrealized gains or losses on our available-for-sale (publicly traded) security, as well as foreign currency translation adjustments, are components of accumulated other comprehensive income as set forth in the following table:

	December 31,	
	2009	2008
Cumulative translation adjustment	\$ 1,936	\$ 1,936
Net unrealized loss on available-for-sale security	(337)	(129)
Total accumulated other comprehensive income	\$ 1,599	\$ 1,807

(6) Debt and Other Transactions with Related Party

On June 4, 2008, we completed a private placement by which we raised net proceeds of \$16,639 through a transaction with Merrick RIS, LLC (Merrick), an affiliate of Merrick Ventures, LLC (Merrick Ventures), pursuant to an agreement that was executed on May 21, 2008. Based on the terms of the private placement, we received \$20,000 from Merrick in exchange for a \$15,000 senior secured term note (the Note) and 21,085,715 shares of our Common Stock. On November 18, 2009, we repaid the Note in full, including a prepayment penalty of \$2,700 and

Merge Healthcare Incorporated and Subsidiaries
Notes to Consolidated Financial Statements (continued)
(In thousands, except for share and per share data)

accrued interest of \$395. As a result, a total of \$3,329, including the prepayment penalty and remaining balances of the issuance costs and note discount, was expensed to the other, net line of our statement of operations. Interest on the note was 13.0% per annum, payable quarterly in arrears.

Michael W. Ferro, Jr. and trusts for the benefit of Mr. Ferro's family members beneficially own a majority of the equity interest in Merrick Ventures. Mr. Ferro, who is the chairman of our board of directors, also serves as the chairman and chief executive officer of Merrick Ventures. Accordingly, Mr. Ferro indirectly owns or controls all of the shares owned by Merrick. As of December 31, 2009, Merrick and its affiliates owned approximately 37.4% of our Common Stock.

The fair values of the equity, Note and put options were determined utilizing the assistance of independent valuation specialists. The proceeds of \$20,000 were reduced by the value of the put options and the remaining amount was allocated to the equity and Note based on the relative fair value of each instrument. In addition, transaction costs of \$2,386 were allocated to the equity and Note using the same relative fair value allocation. Closing fees of \$750 due Merrick were treated as a reduction of proceeds, and as such, a portion of the closing fees was included as a discount on the Note.

We recorded a note payable of \$13,945 and equity of \$4,825 (net of related issuance costs of \$654) upon completion of the financing transaction. The note discount of \$1,055 (of which \$545 relates to closing fees due Merrick) and financing costs of \$1,187 (which were recorded as a long-term asset) were amortized using the effective interest method at a rate of approximately 21.13%.

In the year ended December 31, 2009, we recorded interest expense of \$2,716, including amortization of financing costs of \$523 and amortization of note discount of \$465. In the year ended December 31, 2008, we recorded interest expense of \$1,742, including amortization of financing costs of \$319 and amortization of note discount of \$285. We paid interest to Merrick of \$1,858 and \$975 in the years ended December 31, 2009 and 2008, respectively.

Effective January 1, 2009, we entered into a consulting agreement with Merrick, under which we received certain consulting services for cash consideration of \$100 per quarter, plus reasonable expenses, for a one year term. We paid \$458 to Merrick for such services in 2009, and recognized \$460 in expense within the general and administrative expense classification of operating costs and expenses in 2009. As of December 31, 2009, we have \$2 recorded in accounts payable covering obligations under this agreement. As a result of work performed related to our acquisitions of etrials and Confirma, we paid Merrick a success fee of \$200 and expensed such amount within the acquisition related expense classification of operating costs and expenses in 2009. Effective January 1, 2010, we entered into an amendment to extend the term of the consulting agreement with Merrick through December 31, 2011, and modified the payment terms from a flat fee arrangement per quarter to a per transaction or success based arrangement.

On March 31, 2009, we entered into a value added reseller agreement with Merrick Healthcare Solutions, LLC (Merrick Healthcare). Under terms of the agreement, Merrick Healthcare purchased software licenses from us for \$400. Payment of the entire balance was made on the date of the agreement. We recognized \$400 in revenue in the first quarter of 2009 related to this transaction.

In February 2010, we entered into a VAR agreement with Merrick Healthcare under which we may market, resell, or supply certain of their products and services. Under terms of the agreement, products and services will be purchased on a per unit basis from Merrick Healthcare. The agreement is in effect for 12 months and renews automatically at the end of the term unless terminated by either party at least 30 days prior to the end of the current term.

(7) Other Long-Lived Assets

On April 11, 2008, we signed an agreement to sell our French subsidiary, Merge Healthcare France SARL, to local management for no cash consideration. A loss on the disposition of the French subsidiary of \$1,639 was recognized in the consolidated statement of operations in trade name impairment, restructuring and other expense during the year ended December 31, 2008. This transaction did not meet the accounting requirements for classification as a discontinued operation and, therefore, was accounted for as a disposal.

Merge Healthcare Incorporated and Subsidiaries
Notes to Consolidated Financial Statements (continued)
(In thousands, except for share and per share data)

On August 29, 2008, we sold our Cedara Software Services (India) Private Limited subsidiary (CSSI) located in India for \$700. Included in the sale were fixed assets with a gross value of \$506, and accumulated depreciation of \$90 as of August 29, 2008. We received cash of \$499 (net of fees) at closing, with the remaining \$200 placed in escrow to cover any remaining liabilities and expenses. This transaction did not meet the accounting requirements for classification as a discontinued operation and, therefore, was accounted for as a disposal.

In addition, we recorded a \$542 charge in depreciation, amortization and impairment within our consolidated statement of operations during the second quarter of 2008 based on the fair value of certain fixed assets that were held for sale. These assets had been disposed of as of December 31, 2008.

(8) Shareholders' Equity

Series 3 Special Voting Preferred Stock

In June 2005, Merge issued one share of Series 3 Special Voting Preferred Stock to Computershare Trust Company of Canada, which serves as a trustee in voting matters on behalf of the holders of Merge Cedara ExchangeCo Limited (ExchangeCo) exchangeable shares. This share was cancelled in April 2009.

Series B Junior Participating Preferred Stock

On September 6, 2006, Merge implemented a Shareholder Rights Plan. The Shareholder Rights Plan included the declaration of a dividend of one preferred share purchase right on each outstanding share of our Common Stock and the distribution of one such right with respect to each outstanding exchangeable share of our subsidiary, ExchangeCo. The adoption of the plan was intended to discourage discriminatory, coercive or unfair take-over bids and to provide the Board of Directors time to pursue alternatives to maximize shareholder value in the event of an unsolicited take-over bid. The rights become exercisable upon certain triggering events caused by a third party, person or group. Merge could redeem the rights for \$0.001 per right.

On June 12, 2008, we announced the redemption of all preferred share purchase rights outstanding. As provided for in the plan, we redeemed the rights for \$0.001 per right. As a result, shareholders of record on June 23, 2008 received a dividend payment (in the third quarter of 2008) totaling \$57 and this plan is no longer in effect.

Exchangeable Shares

As part of our business combination with Cedara Software Corp. (Cedara) in June 2005, Merge issued 5,581,517 shares of our Common Stock to the shareholders of Cedara and granted rights for the issuance of 13,210,168 shares of Common Stock to shareholders of Cedara that held ExchangeCo exchangeable shares. The exchangeable shares were exchangeable on a one-for-one basis for our Common Stock. On February 13, 2009, we exercised our call right regarding redemption of the outstanding exchangeable shares. Final redemption occurred on April 15, 2009, and the exchangeable shares were delisted from the Toronto Stock Exchange following the close of trading on April 16, 2009. The respective weighted average number of these shares has been included within the number of shares of Common Stock used to calculate basic net income (loss) per share (see Note 14).

Registered Direct Offering

On November 18, 2009, we sold 9,084,032 shares of our common stock pursuant to a registered direct public offering at a price of \$3.00 per share. Proceeds from the transaction, net of \$2,077 in agency fees and other direct offering expenses, were \$25,175. We used \$18,095 of the proceeds to repay our Note, including principal of \$15,000, a prepayment penalty of \$2,700, and accrued interest of \$395.

Merge Healthcare Incorporated and Subsidiaries
Notes to Consolidated Financial Statements (continued)
(In thousands, except for share and per share data)

(9) Share-Based Compensation

The following table summarizes share-based compensation expense related to share-based awards recognized during the years ended December 31, 2009, 2008 and 2007:

	Years Ended December 31,		
	2009	2008	2007
Share-based compensation expense included in the statement of operations:			
Services and maintenance (cost of sales)	\$ 50	\$ 81	\$ 414
Sales and marketing	407	443	1,188
Product research and development	335	401	1,071
General and administrative	894	1,266	2,336
Goodwill and trade name impairment, restructuring and other expenses	-	1,970	-
Total	\$ 1,686	\$ 4,161	\$ 5,009

In 2007, there is a difference of \$14 between the above amounts and the total amount of share-based compensation recorded in additional paid-in capital in the statement of shareholders' equity due to share-based compensation incurred by product research and development personnel (who worked on capitalizable software development projects during this period). Such costs were included in capitalized developed software, and, therefore, not recorded as expense in the statement of operations.

The \$1,970 of expense recorded during the year ended December 31, 2008 relates to the acceleration of certain stock options and restricted stock for certain former officers as outlined in the respective individual's employment agreement or restricted stock purchase agreement. In addition, these individuals, as of their respective separation dates, agreed to voluntarily forfeit any unexercised vested stock options.

Share-Based Compensation Plans

We maintain four share-based employee compensation plans, including our employee stock purchase plan (ESPP), and one director option plan under which we grant restricted stock awards and options to acquire shares of our Common Stock to certain employees, non-employees, non-employee directors and to existing stock option holders in connection with the consolidation of option plans following an acquisition.

Our 2005 Equity Incentive Plan (EIP) provides for awards of Common Stock, non-statutory stock options, incentive stock options, stock unit and performance unit grants and stock appreciation rights to eligible participants to equate to a maximum of 10.5 million shares of our Common Stock, of which incentive stock option grants are limited to 5.0 million shares. Under the EIP, new stock option grants have an exercise price equal to the fair market value of our Common Stock at the date of grant with the exception of the options granted in 2005 to replace existing Cedara options (Replacement Options). The Replacement Options, which we granted pursuant to a merger agreement with Cedara, had the same economic terms as the Cedara options that they replaced, adjusted for a conversion ratio and currency. The majority of the options issued under the EIP vest over a three or four-year period. As of December 31, 2009, incentive stock options to purchase 203,250 shares of our Common Stock, non-statutory stock options to purchase 4,712,334 shares of our Common Stock and restricted stock awards of 426,664 were outstanding under this plan.

Upon approval of the EIP, we stated that we did not plan to issue any more options under our other stock option plans. Our 1996 Employee Stock Option Plan provided for the grant of options to purchase a maximum of 3,265,826 shares of our Common Stock. Our 1998 Director Stock Option Plan, for our non-employee directors, provided for the granting of options to purchase a maximum of 300,000 shares of our Common Stock. In addition, our Board of Directors adopted an equity compensation plan in connection with our acquisition on July 17, 2003 of RIS Logic. As of December 31, 2009, options to purchase 106,411 shares of our Common Stock were outstanding under these plans.

Stock Options

We use the Black-Scholes option pricing model to estimate the fair value of stock option awards on the date of grant utilizing the assumptions noted in the following table. We expense the cost of stock option awards on a straight-line basis over the vesting period. Expected volatilities are based on the historical volatility of our stock

Merge Healthcare Incorporated and Subsidiaries
Notes to Consolidated Financial Statements (continued)
(In thousands, except for share and per share data)

and other factors. We use historical data to estimate option exercises and employee terminations within the valuation model. The expected term of options represents the period of time that options granted are expected to be outstanding. The risk-free rate for periods during the contractual life of the option is based on the U.S. Treasury rates in effect at the grant date.

	Years Ended December 31,		
	2009	2008	2007
Dividend yield	0%	0%	0%
Expected volatility	100%	60% - 100%	55% - 65%
Risk-free interest rate	1.7% - 2.3%	1.6% - 3.2%	4.2% - 4.9%
Expected term (in years)	4.0	4.0	3.5 - 4.0
Weighted-average grant date fair value	\$ 2.36	\$ 0.65	\$ 3.91

The assumptions above are based on multiple factors, including the historical exercise patterns of employees in relatively homogeneous groups with respect to exercise and post-vesting employment termination behaviors, expected future exercise patterns for these same homogeneous groups, and the volatility of our stock price. SFAS No. 123(R) requires forfeitures to be estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates.

At December 31, 2009, there was \$2,771 of unrecognized compensation cost related to stock option share-based payments. We expect this compensation cost to be recognized over a weighted-average period of 2.8 years.

Stock option activity for the year ended December 31, 2009, was as follows:

	Number of Options	Weighted- Average Exercise Price	Weighted-Average Remaining Contractual Term (In Years)	Aggregate Intrinsic Value
Options outstanding, December 31, 2008	4,696,574	\$ 4.01	6.2	\$ 894
Options granted	625,000	3.46		
Options exercised	-	-		
Options forfeited and expired	(299,579)	10.27		
Options outstanding, December 31, 2009	<u>5,021,995</u>	\$ 3.57	5.5	\$ 6,822
Options exercisable, December 31, 2009	2,076,212	\$ 5.77	4.7	\$ 2,044
Options exercisable, December 31, 2008	1,352,778	\$ 9.04	4.0	\$ 18
Options exercisable, December 31, 2007	1,831,917	\$ 10.08	4.6	\$ 1

Other information pertaining to option activity was as follows:

	Years Ended December 31,		
	2009	2008	2007
Total fair value of stock options vested	\$ 5,419	\$ 5,384	\$ 3,155
Total intrinsic value of stock options exercised	\$ -	\$ -	\$ 108

Merge Healthcare Incorporated and Subsidiaries
Notes to Consolidated Financial Statements (continued)
(In thousands, except for share and per share data)

The following table summarizes information about stock options outstanding at December 31, 2009:

Range of exercise prices	Options Outstanding			Options Exercisable		
	Number of shares	Weighted-average remaining contractual life in years	Weighted-average exercise price	Number of shares	Weighted-average exercise price	
\$0.57 – \$0.68	1,400,000	5.7	\$ 0.65	375,000	\$ 0.64	
\$1.05 – \$1.47	1,545,000	7.7	1.46	540,000	1.46	
\$3.01 – \$6.01	1,153,063	4.6	4.18	344,717	5.03	
\$6.24 – \$9.78	581,422	3.0	6.87	477,360	6.97	
\$12.96 – \$24.88	342,510	2.1	17.44	339,135	17.37	
	<u>5,021,995</u>	5.5	\$ 3.57	<u>2,076,212</u>	\$ 5.77	

Restricted Stock Awards

We have also granted restricted stock awards to employees under the EIP. A restricted stock award is an award of shares of our Common Stock that is subject to time-based vesting during a specified period, which is generally three years. Restricted stock awards are independent of option grants and may be subject to forfeiture if employment terminates prior to the vesting of the awards. Participants have full voting and dividend rights with respect to shares of restricted stock.

We expense the cost of the restricted stock awards, which is determined to be the fair market value of the restricted stock awards at the date of grant, on a straight-line basis over the vesting period. For these purposes, the fair market value of the restricted stock award is determined based on the closing price of our Common Stock on the grant date.

The following table presents a summary of the activity of our restricted stock awards:

	Number of Shares	Weighted-Average Grant-date Fair Value	Weighted-Average Remaining Vesting Term (In Years)
Restricted stock outstanding, December 31, 2008	479,997	\$ 1.50	1.9
Restricted stock granted	-	-	-
Restricted stock vested	(53,333)	1.50	-
Restricted stock forfeited	-	-	-
Restricted stock outstanding, December 31, 2009	<u>426,664</u>	\$ 1.50	0.9

For the year ended December 31, 2009 the expense for restricted stock awards included in the consolidated statement of operations was \$263. As of December 31, 2009, there was \$186 of unrecognized compensation cost related to unvested restricted stock award share-based payments. We expect this compensation cost to be recognized over a weighted-average period of 0.9 years.

Employee Stock Purchase Plan

We maintain an ESPP that allows eligible employees to purchase shares of our Common Stock through payroll deductions of up to 10% of eligible compensation on an after-tax basis. The eligible employees receive a 5% discount from the market price at the end of each calendar quarter. There is no stock-based compensation expense associated with our ESPP.

Employees contributed \$110, \$100, and \$88 during the years ended December 31, 2009, 2008, and 2007, respectively, to purchase shares of our Common Stock under the employee stock purchase plan.

Merge Healthcare Incorporated and Subsidiaries
Notes to Consolidated Financial Statements (continued)
(In thousands, except for share and per share data)

(10) Commitments and Contingencies

From April 2006 to November 2009, we were subject to a formal SEC investigation related to our announcement, on March 17, 2006, that we would investigate allegations of improprieties related to financial reporting and revise our results of operations for the fiscal quarters ended June 30, 2005, and September 30, 2005. On November 4, 2009, the SEC filed a Complaint in federal court charging Merge with record-keeping violations but did not charge Merge with fraud nor assess any civil penalty against Merge. The Complaint enjoined Merge from making any future violations of the reporting, record-keeping and internal controls provisions under the Securities Exchange Act of 1934. In addition, two of Merge's former executives were charged with accounting fraud in the Complaint.

On June 1, 2009, Merge Healthcare was served with a Summons and Complaint in the Milwaukee County Circuit Court, State of Wisconsin, captioned William C. Mortimore and David M. Nosay v. Merge Technologies Inc. n/k/a Merge Healthcare Inc. [sic], Case Number 09CV008356, Case Code 30301. The Complaint includes a demand for a jury trial and alleges that Merge unreasonably refused Mortimore and Noshay's request for indemnification; requests the court order that they are entitled to indemnification under Wisconsin Statute Section 180.0851(2); alleges breaches of certain employment agreements; and a breach of the covenant of good faith and fair dealing. Monetary damages being sought are unspecified. We have retained litigation counsel, notified our appropriate insurers and intend to vigorously defend this action.

In addition to the matter discussed above, we are, from time to time, parties to legal proceedings, lawsuits and other claims incident to our business activities. Such matters may include, among other things, assertions of contract breach or intellectual property infringement, claims for indemnity arising in the course of our business and claims by persons whose employment has been terminated. Such matters are subject to many uncertainties and outcomes are not predictable with assurance. Consequently, we are unable to ascertain the ultimate aggregate amount of monetary liability, amounts which may be covered by insurance or recoverable from third parties, or the financial impact with respect to these matters as of the date of this report.

(11) Capital Leases and Operating Leases

We assumed certain capital lease obligations associated with our acquisitions in 2009. As of December 31, 2009, the remaining obligations under these capital leases totaled \$205. Equipment acquired under these capital leases had a cost of \$438 and accumulated depreciation of \$99 at December 31, 2009. Depreciation expense related to equipment acquired under capital leases was \$99 in the year ended December 31, 2009, and is included in the depreciation, amortization and impairment line of operating costs and expenses in our condensed consolidated statement of operations.

Payments due under our capital lease obligations are set forth in the following table for the periods indicated:

		<u>Capital Leases</u>
For the year ended December 31:	2010	\$ 173
	2011	46
	2012	8
	Thereafter	-
		227
	Less: Amount representing interest	22
	Present value of future minimum lease payments	205
	Less: Current portion of capital lease obligation	130
	Capital lease obligation, net of current portion	\$ 75

We have non-cancelable operating leases at various locations. Our significant operating leases are all facility leases as set forth in the following table:

Merge Healthcare Incorporated and Subsidiaries
Notes to Consolidated Financial Statements (continued)
(In thousands, except for share and per share data)

Location	Square Footage	End of Lease Term
Milwaukee, Wisconsin	36,000	April 2011
Mississauga, Ontario	24,000	February 2020
Bellevue, Washington	19,000	December 2011
Morrisville, North Carolina	17,000	September 2016
Chicago, Illinois	16,000	November 2013
Hudson, Ohio	10,000	December 2011

In the third quarter of 2009, we entered into a new 10-year lease in Mississauga, Ontario, the primary location of Merge OEM. We began occupancy of the new leased space in the fourth quarter of 2009. Under terms of the lease, the landlord provided a tenant improvement allowance of \$694, which is recorded in other current assets in our consolidated balance sheet as of December 31, 2009. We also entered into a new 7-year lease in our Morrisville, North Carolina location in the third quarter of 2009, which is the primary location of Merge eClinical. In addition, we abandoned approximately 5,000 square feet of leased space in our Bellevue, Washington facility, which is the primary location of Merge CAD. As a result of this action, we recorded a charge of \$255 in the goodwill and trade name impairment, restructuring and other line of our statement of operations in the third quarter of 2009.

Total rent expense for the years ended December 31, 2009, 2008 and 2007 was \$1,420, \$1,877, and \$2,052, respectively, net of sub-lease income of zero, zero, and \$168, respectively. Future minimum lease payments under all non-cancelable operating leases as of December 31, 2009, are:

2010	2,442
2011	2,222
2012	1,444
2013	1,239
2014	828
Thereafter	3,673
Total minimum lease payments	<u>\$ 11,848</u>

Income to be received under non-cancelable sub-leases as of December 31, 2009 is \$214, \$220, \$226 and \$75 for the years ended December 31, 2010, 2011, 2012 and 2013, respectively. The above obligations include lease payments related to facilities that we have either ceased to use or abandoned as of December 31, 2009. The related obligations for such facilities have been recorded as restructuring related accruals in our consolidated balance sheet as of December 31, 2009.

(12) Restructuring

We incurred \$1,545, \$8,749, and \$960 of restructuring charges during the years ended December 31, 2009, 2008, and 2007, respectively, in goodwill and trade name impairment, restructuring and other expenses in our statements of operations.

First Quarter 2008 Initiative

On February 14, 2008, we announced a reduction in our worldwide headcount, including consultants, by approximately 160 individuals with the majority of those reductions having been completed on or before the announcement. This restructuring plan was designed to better align our costs with our anticipated revenues going forward and included personnel terminations from all parts of the organization. In 2008, we recognized restructuring related charges in our consolidated financial statements of \$1,423, consisting of \$1,139 in severance and related employee termination costs and \$284 in contract exit costs, primarily consisting of future lease payments on our Burlington, Massachusetts leased office, which we vacated during the first quarter of 2008. In 2009, we recorded a credit of \$84 related to this restructuring initiative as a result of an update to our estimate of contract exit cost obligations.

Merge Healthcare Incorporated and Subsidiaries
Notes to Consolidated Financial Statements (continued)
(In thousands, except for share and per share data)

Second Quarter 2008 Initiative

On June 4, 2008, we announced a change in executive management, reorganization of our operating business units and reduction in headcount by approximately 60 individuals. This restructuring plan was designed primarily to align our corporate costs and infrastructure with the size of the organization as well as to align business unit costs with anticipated revenues going forward. In 2008, we recognized restructuring related charges in our consolidated financial statements of \$7,326, consisting of \$4,541 in severance and related employee termination costs, \$1,970 of share-based compensation expense associated with the accelerated vesting of stock options and restricted stock for certain former officers and \$815 in contract exit costs. In 2009, we recorded a credit of \$90 related to this restructuring initiative as a result of an update to our estimate of contract exit cost obligations associated with the prior leased facility in Mississauga, Ontario. The contract exit costs primarily consist of future lease payments on the Alpharetta, Georgia office, which we abandoned in the second quarter of 2008. The severance costs are primarily related to payments to former officers. See Note 8 for further discussion of share-based compensation expense related to certain executive terminations.

Third Quarter 2009 Initiative

On July 20, 2009, we completed a restructuring initiative to reduce our workforce by approximately 35 individuals. This action was taken concurrent with the acquisition of etrials based upon our assessment of ongoing personnel needs. As a result, we incurred \$935 and \$784 of severance and related costs in our Indirect and Direct segments, respectively, in the third quarter of 2009.

(In thousands, except for share and per share data)

The tax effects of temporary differences that give rise to significant portions of the deferred tax assets and deferred tax liabilities at December 31, 2009 and 2008 are presented as follows:

	December 31,	
	2009	2008
Deferred tax assets:		
Accrued wages	\$ 290	\$ 531
Deferred revenue	(267)	585
Depreciation	2,822	2,564
Research and experimentation credit carryforwards	4,892	3,951
Other credit carryforwards	2,295	2,627
Domestic loss carryforwards	52,933	21,185
Foreign loss carryforwards	13,565	13,658
Nonqualified stock options	1,422	1,744
Other	3,500	2,716
Total gross deferred tax assets	<u>81,452</u>	<u>49,561</u>
Less: asset valuation allowance	<u>(69,555)</u>	<u>(42,387)</u>
Net deferred tax asset	<u>11,897</u>	<u>7,174</u>
Deferred tax liabilities:		
Software development costs and intangible assets	(2,365)	(181)
Intangibles—customer contracts & tradenames	(2,231)	(764)
Other	(2,538)	(1,466)
Total gross deferred liabilities	<u>(7,134)</u>	<u>(2,411)</u>
Net deferred tax asset	<u>\$ 4,763</u>	<u>\$ 4,763</u>
Included on balance sheet:		
Current assets: deferred income taxes	\$ 142	\$ 217
Non-current asset: deferred income taxes	4,689	4,585
Non-current liabilities: deferred income taxes	(68)	(39)
Net deferred income taxes	<u>\$ 4,763</u>	<u>\$ 4,763</u>

At December 31, 2009, we had U.S. federal net operating loss, capital loss, research credit and foreign tax credit carryforwards of \$137,761, \$3,607, \$3,014 and \$709 respectively, state net operating loss, capital loss and research credit carryforwards of \$72,745, \$3,607 and \$631, respectively, foreign federal and provincial net operating loss carryforwards of \$37,914 and \$36,348, respectively, foreign and provincial capital loss carryforwards of \$4,623 and \$4,623, respectively, and foreign federal and provincial research credit carryforwards of \$1,619 and \$259, respectively. The U.S. federal net operating loss, research credit and foreign tax credit carryforwards expire in varying amounts beginning in 2010 and continuing through 2029, 2028 and 2018, respectively. The state net operating loss carryforwards expire in varying amounts beginning in 2010, and continuing through 2029 and the credit carryforwards expire in varying amounts beginning 2012 and continuing through 2024. The U.S. federal and state capital loss carryforwards will expire in 2013. The foreign tax credits expire in varying amounts beginning in 2012, and continuing through 2016. The foreign federal and provincial net operating loss carryforwards expire in varying amounts beginning in 2010, and continuing through 2028. Foreign and provincial capital losses may be carried forward indefinitely.

Management has an obligation to review, at least annually, the components of our deferred tax assets. This review is to ascertain that, based upon the information available at the time of the preparation of financial statements, it is more likely than not, that we expect to utilize these future deductions and credits. In the event that management determines that it is more likely than not these future deductions, or credits, will not be utilized, a valuation allowance is recorded, reducing the deferred tax asset to the amount expected to be realized.

Management's analysis for 2009 resulted in a valuation allowance of \$69,555 at December 31, 2009 for a majority of our Canadian and U.S. deferred tax assets. This decision is based upon many factors, both quantitative and qualitative, such as (1) significant unutilized operating loss and credit carryforwards, (2) limited cash refund carryback opportunities, (3) uncertain future operating profitability and (4) substantial organization and operating

Merge Healthcare Incorporated and Subsidiaries
Notes to Consolidated Financial Statements (continued)
(In thousands, except for share and per share data)

restructuring. We also considered the effect of U.S. Internal Revenue Code (Code) Section 382 on our ability to utilize existing net operating loss and tax credit carryforwards. Section 382 imposes limits on the amount of tax attributes that can be utilized where there has been an ownership change as defined under the Code. We experienced an ownership change on June 4, 2008 and determined a majority of our U.S. and state net operating loss, capital loss and credit carryforwards will be subject to future limitation. The future limitation is in addition to any past limitations applicable to the net operating loss and credit carryforwards of previously acquired businesses. While application of Section 382 is complex and continues to be fully evaluated, we currently estimate deferred tax assets of \$4 million related to net operating loss, capital loss and research tax credit carryforwards may be unrealizable due to Section 382 limitations. In addition, the acquired net operating loss and tax credit carryforwards of etrials and Confirma will be subject to future limitation under Section 382 as a result of their being acquired by us. While we are presently evaluating the impact of Section 382 on these acquired deferred tax assets, the valuation allowance established as of December 31, 2009 is considered necessary to reduce our deferred tax assets to the amount expected to be realized, based upon all available information at such time.

The net increase in the valuation allowance for the years ending December 31, 2009, 2008, and 2007 was \$27,168, \$1,462 and \$10,907, respectively. The 2009 increase was primarily attributable to valuation allowances established in connection with acquired net operating loss and credit carryforwards.

There exist potential tax benefits for us associated with stock-based compensation. At December 31, 2009 and 2008, we had \$1,022 and \$988, respectively, of excess tax benefits related to vesting of restricted stock awards, nonqualified stock option exercises and disqualifying dispositions of employee incentive stock options. The income tax benefit related to excess tax benefits of stock-based compensation will be credited to paid-in-capital, when recognized, by reducing taxes payable.

The total amount of unrecognized tax benefits as of December 31, 2009, 2008 and 2007 was \$6,506, \$6,485 and \$6,070, respectively. We recognize interest and penalties in the provision for income taxes. Total accrued interest and penalties as of December 31, 2009 were \$214 and \$56, respectively. Total accrued interest and penalties as of December 31, 2008 were \$178 and \$56, respectively. Total interest included in tax expense for the years ended December 31, 2009, 2008 and 2007 were \$36, \$28 and \$13, respectively. Total penalties included in tax expense for the years ended December 31, 2009, 2008 and 2007 were \$0, \$11 and \$0, respectively.

The following is a tabular reconciliation of the total amounts of unrecognized tax benefits for the years ended December 31, 2009, 2008 and 2007:

	December 31,		
	2009	2008	2007
Balance at January 1	\$ 6,485	\$ 6,070	\$ 5,747
Gross increases - tax positions in current year	21	415	323
Balance at December 31	<u>\$ 6,506</u>	<u>\$ 6,485</u>	<u>\$ 6,070</u>

The total amount of unrecognized tax benefits at December 31, 2009 and December 31, 2008 that, if recognized, would affect the effective tax rate is \$6,140 and \$6,120, respectively. The total amount of unrecognized tax benefits at December 31, 2007 that, if recognized in fiscal years beginning after December 15, 2008, would affect the effective tax rate is \$5,706.

We do not anticipate a significant change to the total amount of unrecognized tax benefits within the next twelve months.

We file income tax returns in the U.S., various states and foreign jurisdictions. We are not currently under examination in the U.S. and Canada federal taxing jurisdictions for which years ending after 2005 remain subject to examination. Years prior to 2006 remain subject to examination to the extent net operating loss and tax credit carryforwards have been utilized after 2005, or remain subject to carryforward.

We have recorded income tax expense on all profits, except for undistributed profits of non-U.S. subsidiaries, which are considered indefinitely reinvested. Determination of the amount of unrecognized deferred tax liability related to indefinitely reinvested profits is not feasible.

Merge Healthcare Incorporated and Subsidiaries
Notes to Consolidated Financial Statements (continued)
(In thousands, except for share and per share data)

(14) Earnings Per Share

Basic and diluted net loss per share is computed by dividing loss available to common shareholders by the weighted average number of shares of Common Stock outstanding. Diluted earnings per share excludes the potential dilution that could occur based on the exercise of stock options and restricted stock awards, including those with an exercise price of more than the average market price of our Common Stock, because such exercise would be anti-dilutive. The following table sets forth the computation of basic and diluted earnings per share for the years ended December 31, 2009, 2008, and 2007.

	Years Ended December 31,		
	2009	2008	2007
Numerator:			
Net income (loss)	\$ 285	\$ (23,683)	\$ (171,568)
Denominator:			
Weighted average number of shares of Common Stock outstanding- basic	60,910,268	46,717,546	33,913,379
Effect of stock options	1,353,839	-	-
Effect of restricted stock	473,714	-	-
Denominator for net income (loss) per share - diluted	<u>62,737,821</u>	<u>46,717,546</u>	<u>33,913,379</u>
Net income (loss) per share - basic	<u>\$ 0.00</u>	<u>\$ (0.51)</u>	<u>\$ (5.06)</u>
Net income (loss) per share - diluted	<u>\$ 0.00</u>	<u>\$ (0.51)</u>	<u>\$ (5.06)</u>

The weighted average number of shares of Common Stock outstanding used to calculate basic and diluted net loss includes exchangeable share equivalent securities for the years ended December 31, 2009, 2008, and 2007, of 207,529, 1,475,802, and 2,307,178, respectively.

As a result of the loss in the years ended December 31, 2008 and 2007, incremental shares from the assumed conversion of employee stock options totaling zero, and 43,996, respectively, have been excluded from the calculation of diluted loss per share as their inclusion would have been anti-dilutive. As a result of the loss in the years ended December 31, 2008 and 2007, incremental shares from the assumed conversion of restricted stock awards totaling 1,086,719 and 172,323, respectively, have been excluded from the calculation of diluted loss per share as their inclusion would have been anti-dilutive.

For the years ended December 31, 2009, 2008, and 2007, options to purchase 2,076,995, 3,296,574, and 3,850,352 shares of our Common Stock, respectively, had exercise prices greater than the average market price of the shares of Common Stock, and, therefore, are not included in the above calculations of net income (loss) per share.

The following potentially dilutive Common Stock equivalent securities, including securities that may be considered in the calculation of diluted earnings per share, were outstanding as of December 31, 2009, 2008 and 2007.

	December 31,		
	2009	2008	2007
Stock options	5,021,995	4,696,574	4,081,060
Restricted stock awards	426,664	479,997	1,699,995
	<u>5,448,659</u>	<u>5,176,571</u>	<u>5,781,055</u>

(15) Employee Benefit Plan

We maintain defined contribution retirement plans (a 401(k) profit sharing plan for the U.S. employees and RRSP for the Canadian employees), covering employees who meet the minimum service requirements and have elected to participate. We made matching contributions (under the 401(k) profit sharing plan for the U.S. employees and DPSP for the Canadian employees) equal to a maximum of 3.0% in the years ended December 31, 2009, 2008 and 2007. Our matching contributions totaled \$469, \$386, and \$730 for the years ended December 31, 2009, 2008, and 2007, respectively.

Merge Healthcare Incorporated and Subsidiaries
Notes to Consolidated Financial Statements (continued)
(In thousands, except for share and per share data)

(16) Segment Information

On June 30, 2009, we enhanced our financial reporting process to allow us to obtain discrete operating results for our business units. As a result, effective in the third quarter of 2009, we have reportable segments, which we have designated as Direct and Indirect. These reportable segments are based on business unit operations that have similar economic characteristics. The Direct segment primarily sells directly to the end-users located primarily in the U.S. and Canada, and also distributes certain products through the Internet via our website. This segment consists of the Merge Fusion U.S., Merge eClinical and Requisite business units. The Indirect segment primarily sells software products and related services to Original Equipment Manufacturers, Value Added Resellers and distributors world-wide. This segment consists of the Merge OEM, Merge CAD and Merge Fusion EMEA business units.

We evaluate the performance of these segments based on their respective revenues and operating income. The following table provides segment information for the period indicated.

	Year Ended December 31, 2009		
	Indirect	Direct	Total
Net sales:			
Software and other	\$ 24,025	\$ 9,012	\$ 33,037
Service and maintenance	9,380	24,424	33,804
Total net sales	\$ 33,405	\$ 33,436	\$ 66,841
Expenses	23,773	26,582	50,355
Segment income	\$ 9,632	\$ 6,854	16,486
Net corporate/other expenses (1)			16,336
Income before income taxes			\$ 150

(1) Net corporate/other expenses include public company costs, share-based compensation, certain amortization not attributable to business segments, corporate administration costs, acquisition-related expenses and net interest expense.

	Indirect	Direct	Corporate/ Other	Consolidated
Depreciation and amortization				
Year ended December 31, 2009	\$ 1,452	\$ 2,668	\$ 1,969	\$ 6,089
Assets as of December 31, 2009	\$ 38,438	\$ 46,271	\$ 15,540	\$ 100,249

The following tables provide revenue by segment for the periods indicated. Segment profit will not be restated for periods prior to December 31, 2008, as there were significant operational changes during 2008 that will not allow us to capture comparable historical information through our financial reporting system, and it would be impracticable for us to do so. The 2008 and 2007 net sales amounts below have been restated based on our updated segment reporting structure in 2009.

Merge Healthcare Incorporated and Subsidiaries
Notes to Consolidated Financial Statements (continued)
(In thousands, except for share and per share data)

	Year Ended December 31, 2008		
	Indirect	Direct	Total
Net sales:			
Software and other	\$ 16,772	\$ 10,789	\$ 27,561
Service and maintenance	11,738	17,436	29,174
Total net sales	\$ 28,510	\$ 28,225	\$ 56,735

	Year Ended December 31, 2007		
	Indirect	Direct	Total
Net sales:			
Software and other	\$ 15,117	\$ 14,473	\$ 29,590
Service and maintenance	10,407	19,575	29,982
Total net sales	\$ 25,524	\$ 34,048	\$ 59,572

Cash in Excess of Federally Insured Amount

Substantially all of our cash and cash equivalents are held at a few financial institutions located in the U.S., Canada and the Netherlands. Deposits held with these banks exceed the amount of insurance provided on such deposits. Generally these deposits may be redeemed upon demand and, therefore, bear minimal risk.

Net Sales and Accounts Receivable

The majority of our clients are OEMs, imaging centers, hospitals, contract research organizations, health IT, device and pharmaceutical companies. If significant adverse macro-economic factors were to impact these organizations, it could materially adversely affect us. Our access to certain software and hardware components is dependent upon single and sole source suppliers. The inability of any supplier to fulfill our supply requirements could affect future results.

Foreign sales account for approximately 23%, 24%, and 22% of our net sales for the years ended December 31, 2009, 2008, and 2007, respectively. For the years ended December 31, 2009, 2008, and 2007, sales in foreign currency represented approximately 2%, 5%, and 6%, respectively, of our net sales.

The following tables present certain geographic information, based on location of customer:

	Net Sales for the Years Ended December 31,		
	2009	2008	2007
United States of America	\$ 51,318	\$ 43,305	\$ 46,330
Europe	7,216	6,924	7,244
Japan	3,407	3,717	3,232
Korea	1,534	443	263
Canada	1,361	1,206	1,236
Other	2,005	1,140	1,267
Total net sales	\$ 66,841	\$ 56,735	\$ 59,572

	Long-Lived Assets at December 31,	
	2009	2008
United States of America	\$ 3,342	\$ 1,762
Canada	527	185
Europe	5	16
Other	3	11

Long-lived assets represent property, plant and equipment, net of related depreciation. Long-lived assets in service at the China office were not material as of December 31, 2009 and 2008.

Diluted income (loss) per share	(0.23)	(0.45)	0.01	0.03

Net loss for the quarterly period ended December 31, 2009, includes a charge of \$3,329 for the extinguishment of our debt, including prepayment penalty and the write-off of the remaining balances of the issuance costs and note discount.

(18) Subsequent Events

Effective as of February 28, 2010, we entered into a Merger Agreement to acquire AMICAS, Inc. (AMICAS). Under the terms of the Merger Agreement, we will commence to tender offer to acquire all of the outstanding shares of common stock of AMICAS for consideration per share of \$6.05 in cash, without interest, which is expected to be approximately \$248 million. We plan to finance the transaction with \$200,000 of financing from Morgan Stanley Senior Funding, Inc., with whom we have executed a definitive commitment letter, through the sale of high yield notes or a bridge financing, in addition to cash already available at the two companies and the issuance of preferred and common stock with respect to which we have received \$40,000 of pre-funded proceeds from investors. Although we have not entered into a formal Preferred Stock Agreement with these investors, we have signed commitment letters that provide the investors a 2% commitment fee, the issuance of up to 9 million shares of Common Stock (subject to \$50,000 of total proceeds being received) and cumulative dividends at an anticipated rate of 15%, among other negotiated terms. We have placed \$30,000 of the pre-funded proceeds in escrow pursuant to the Merger Agreement and may be required to release the escrow under certain circumstances. In connection with these transactions, we have already incurred and anticipate incurring significant costs related to the acquisition, debt offering and preferred stock. We anticipate total costs of these transactions to be incurred by both parties, including a break-up fee owed to a former potential acquiror of AMICAS, will approximate \$32,000. The Merger Agreement contains certain conditions to our obligation to complete the tender offer, including a successful tender of approximately 54% of the outstanding shares of common stock of AMICAS, antitrust clearance and other regulatory approvals. We anticipate the acquisition will close in the second quarter of 2010.

Item 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

Not applicable.

Item 9A. CONTROLS AND PROCEDURES

(a) Disclosure Controls and Procedures

Disclosure controls and procedures are controls and other procedures of a registrant designed to ensure that information required to be disclosed by the registrant in the reports that it files or submits under the Exchange Act is properly recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include processes to accumulate and evaluate relevant information and communicate such information to a registrant's management, including its principal executive and financial officers, as appropriate, to allow for timely decisions regarding required disclosures.

A control system, no matter how well conceived and operated, can provide only reasonable, not absolute assurance that the objectives of the control system are met. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected.

We evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of December 31, 2009, as required by Rule 13a-15 of the Exchange Act. This evaluation was carried out under the supervision and with the participation of our management, including our principal executive officer and principal financial officer. Based on this evaluation, our principal executive officer and principal financial officer have concluded that, as of December 31, 2009, our disclosure controls and procedures were effective to ensure (1) that information required to be disclosed by us in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms, and (2) information required to be disclosed by us in our reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our principal executive officer and principal financial officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. This evaluation did not include an assessment of the controls related to our Merge eClinical and Merge CAD business units, which were acquired on July 20, 2009 and September 1, 2009, respectively. These businesses represented 12% of our consolidated total assets as of December 31, 2009, excluding intangible assets which were part of our 2009 assessment, and 12% of our consolidated net sales for the year ended December 31, 2009.

(b) Management's Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting. Our internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of our financial statements for external reporting purposes in accordance with GAAP.

Management assessed the effectiveness of our internal control over financial reporting as of December 31, 2009, using the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission in *Internal Control - Integrated Framework*. Based on its assessment, management concluded that our internal control over financial reporting was effective as of December 31, 2009. The effectiveness of our internal control over financial reporting as of December 31, 2009 has been audited by BDO Seidman, LLP, an independent registered public accounting firm, as stated in its report which is included below.

(c) Report of Independent Registered Public Accounting Firm

Board of Directors and Shareholders
Merge Healthcare Incorporated
Milwaukee, Wisconsin

We have audited Merge Healthcare Incorporated's internal control over financial reporting as of December 31, 2009, based on criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). Merge Healthcare Incorporated's management is responsible for maintaining effective internal control over financial reporting and for its assessment

of the effectiveness of internal control over financial reporting, included in the accompanying Item 9A, Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

As indicated in the accompanying Item 9A, Management's Report on Internal Control over Financial Reporting, management's assessment of and conclusion on the effectiveness of internal control over financial reporting did not include the internal controls of Merge eClinical and Merge CAD ("the acquired subsidiaries"), which were acquired on July 20, 2009 and September 1, 2009, respectively, and which are included in the consolidated balance sheet of Merge Healthcare Incorporated as of December 31, 2009, and the related consolidated statements of operations, shareholders' equity and cash flows for the year then ended. The acquired subsidiaries constituted 12% and 6% of total assets and net assets, respectively, as of December 31, 2009, and 12% of revenues for the year then ended. Management did not assess the effectiveness of internal control over financial reporting of the acquired subsidiaries because of the timing of the acquisitions which were completed on July 20, 2009 and September 1, 2009, respectively. Our audit of internal control over financial reporting of Merge healthcare Incorporated also did not include an evaluation of the internal control over financial reporting of the acquired subsidiaries.

In our opinion, Merge Healthcare Incorporated maintained, in all material respects, effective internal control over financial reporting as of December 31, 2009, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Merge Healthcare Incorporated as of December 31, 2009 and 2008, and the related consolidated statements of operations, shareholders' equity, cash flows and comprehensive income (loss) for each of the two years in the period ended December 31, 2009 and our report dated March 12, 2010 expressed an unqualified opinion on those consolidated financial statements.

/s/ BDO Seidman, LLP

Milwaukee, Wisconsin
March 12, 2010

(d) Changes in Internal Control Over Financial Reporting

There were no changes with respect to our internal control over financial reporting that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting during the quarter ended December 31, 2009.

Item 9B. OTHER INFORMATION

None.

PART III

As permitted by SEC rules, we have omitted certain information required by Part III from this Report on Form 10-K, because we will file (pursuant to Section 240.14a-101) our definitive proxy statement for our 2010 annual shareholder meeting (Proxy Statement) not later than April 30, 2010, and are, therefore, incorporating by reference in this Annual Report on Form 10-K such information from the Proxy Statement.

Item 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

The information required by this Item 10 will be included under the captions “Election of Directors” and “Information Concerning Directors, Nominees and Executive Officers” in our Proxy Statement for our 2009 annual meeting of shareholders. Information concerning the compliance of our officers, directors and 10% shareholders with Section 16(a) of the Securities Exchange Act of 1934 is incorporated by reference to the information to be contained in the 2009 proxy statement under the caption “Information Concerning Directors, Nominees and Executive Officers — Section 16(a) Beneficial Ownership Reporting Compliance.” The information regarding Audit Committee members and “Audit Committee Financial Experts” is incorporated by reference to the information to be contained in the 2010 proxy statement under the caption “Information Concerning Directors, Nominees and Executive Officers — Board Committees.” The information regarding our Code of Business Ethics is incorporated by reference to the information to be contained in the 2010 proxy statement under the heading “Information Concerning Directors, Nominees and Executive Officers — Code of Business Conduct and Ethics.”

Merge Healthcare's Code of Ethics

All of our employees, including the Chief Executive Officer, Chief Financial Officer, our Controllers, and persons performing similar functions, including all Directors and employees, are required to abide by Merge Healthcare's Code of Ethics to ensure that our business is conducted in a consistently legal and ethical manner. This Code of Ethics along with our Whistleblower Policy form the foundation of a comprehensive process that includes compliance with all corporate policies and procedures, an open relationship among colleagues that contributes to good business conduct, and the high integrity level of our employees. Our policies and procedures cover all areas of professional conduct, including employment policies, conflicts of interest, intellectual property and the protection of confidential information, as well as strict adherence to all laws and regulations applicable to the conduct of our business. Employees are required to report any conduct that they believe in good faith to be an actual or apparent violation of Merge Healthcare's Code of Ethics. The Sarbanes-Oxley Act of 2002 requires audit committees to have procedures to receive, retain and treat complaints received regarding accounting, internal accounting controls or auditing matters and to allow for the confidential and anonymous submission by employees of concerns regarding questionable accounting or auditing matters. We have such procedures in place as set forth in the Merge Healthcare Incorporated Whistleblower Policy and the Code of Ethics. The Code of Ethics is included on the Company's website, www.merge.com (Investor Relations link).

Item 11. EXECUTIVE COMPENSATION

The information required by this item is incorporated herein by reference to the information set forth under the caption “Compensation of Executive Officers and Directors” in our Proxy Statement.

Item 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The information required by this item is incorporated herein by reference to the information set forth under the caption “Security Ownership of Certain Beneficial Owners and Management” in our Proxy Statement. For information regarding our share-based compensation plans, please see Note 9 of the notes to consolidated financial statements.

Item 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

The information required by this item is incorporated herein by reference to the information set forth under the caption “Related Party Transactions” in our Proxy Statement.

Item 14. PRINCIPAL ACCOUNTING FEES AND SERVICES

The information required by this item is incorporated herein by reference to the information set forth under the caption "Accounting Fees and Services" in our Proxy Statement.

PART IV

Item 15. EXHIBITS AND FINANCIAL STATEMENTS SCHEDULES

(a) The following documents are filed as part of this annual report:

Financial Statements filed as part of this report pursuant to Part II, Item 8 of this Annual Report on Form 10-K:

- Consolidated Balance Sheets at December 31, 2009 and 2008;
- Consolidated Statements of Operations for each of the three years ended December 31, 2009, 2008 and 2007;
- Consolidated Statements of Shareholders' Equity for each of the three years ended December 31, 2009, 2008 and 2007;
- Consolidated Statements of Cash Flows for each of the three years ended December 31, 2009, 2008 and 2007;
- Consolidated Statements of Comprehensive Loss for each of the three years ended December 31, 2009, 2008 and 2007; and
- Notes to Consolidated Financial Statements.

CONSENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors and Shareholders
Merge Healthcare Incorporated
Milwaukee, Wisconsin

We hereby consent to the incorporation by reference in the Registration Statements on Form S-3 (Nos. 333-125603, 333-161689 and 333-161691) and Form S-8 (Nos. 333-34884, 333-100104, 333-107997, 333-40882, 333-107991 and 333-125386) of Merge Healthcare Incorporated of our reports dated March 12, 2010 relating to the consolidated financial statements and the effectiveness of Merge Healthcare Incorporated's internal control over financial reporting, which appear in this Form 10-K.

/s/ BDO Seidman, LLP

Milwaukee, Wisconsin
March 12, 2010

CONSENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors
Merge Healthcare Incorporated:

We consent to the incorporation by reference in the registration statements (Nos. 333-34884, 333-100104, 333-107997, 333-40832, 333-40882, 333-107991, 333-125386) on Form S-8 and (Nos. 333-125603, 333-161689, 333-161691) on Form S-3 of Merge Healthcare Incorporated of our report dated March 31, 2008, with respect to the consolidated balance sheets of Merge Healthcare Incorporated and subsidiaries (the Company) as of December 31, 2007 and 2006, and the related consolidated statements of operations, shareholders' equity, comprehensive loss, and cash flows for each of the years in the three-year period ended December 31, 2007, which report appears in this December 31, 2009 Annual Report on Form 10-K of Merge Healthcare Incorporated.

Our report on the consolidated financial statements refers to the adoption of the provisions of Statement of Financial Accounting Standards No. 123 (revised 2004), *Share-Based Payment*, on January 1, 2006 and the adoption of the provisions of Financial Accounting Standards Board Interpretation No. 48, *Accounting for Uncertainty in Income Taxes*, on January 1, 2007.

Our report on the consolidated financial statements also refers to the assumption that the Company will continue as a going concern. The Company has suffered recurring losses from operations and negative cash flows that raise substantial doubt about its ability to continue as a going concern. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

CERTIFICATION

Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

I, Justin C. Dearborn, certify that:

1. I have reviewed this annual report on Form 10-K of Merge Healthcare Incorporated;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation;
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's Board of Directors (or such other persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

The aggregate market value for the Registrant's voting and non-voting common equity held by non-affiliates of the Registrant as of June 30, 2009, based upon the closing sale price of the Common Stock on June 30, 2009, as reported on the NASDAQ Global Market, was approximately \$116,910,210. Shares of Common Stock held by each officer and director and by each person who owns ten percent or more of the outstanding Common Stock have been excluded in that such persons may be deemed to be affiliates. This determination of affiliate status is not necessarily a conclusive determination for other purposes.

The number of shares outstanding of the Registrant's common stock, par value \$0.01 per share, as of March 10, 2010: 75,228,395

EXPLANATORY NOTE

This Form 10-K/A, Amendment No. 1, is being filed by Merge Healthcare Incorporated (“Merge,” “we,” “us,” or “our”) to amend our Annual Report on Form 10-K for the year ended December 31, 2009, filed with the United States Securities and Exchange Commission (“SEC”) on March 12, 2010, to reflect changes to the audit report originally reissued by KPMG LLP in connection with the filing of our Form 10-K. Except for the audit report of KPMG LLP and their consent included in Exhibit 23.2, no other changes have been made to our Form 10-K. Also, this Form 10-K/A has not been updated to reflect events that occurred after the date of the original annual report. As such, this Form 10-K/A should be read in conjunction with our Form 10-K filing made with the SEC on March 12, 2010.

Updated certifications of our principal executive and financial officer are included as exhibits to this amendment.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

Item 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

THE FORM 10-K/A, AMENDMENT NO. 1 FILED WITH THE SEC ON MARCH 17, 2010 INCLUDED CONSOLIDATED FINANCIAL STATEMENTS, ACCOMPANYING NOTES THERETO AND THE AUDIT REPORT AND CONSENT OF BDO SEIDMAN, LLP, AS ALSO FILED WITH THE FORM 10-K FILED WITH THE SEC ON MARCH 12, 2010. DUE TO THIS FACT AND IN THE INTERESTS OF LOWERING THE COSTS AND ENVIRONMENTAL IMPACT ASSOCIATED WITH THE REPEAT PRINTING OF SAID CONSOLIDATED FINANCIAL STATEMENTS, ACCOMPANYING NOTES THERETO AND THE AUDIT REPORT AND CONSENT OF BDO SEIDMAN, LLP, THESE HAVE BEEN INTENTIONALLY OMITTED FROM THIS FORM 10-K/A, AMENDMENT NO. 1.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders
Merge Healthcare Incorporated:

We have audited the accompanying consolidated statements of operations, shareholders' equity, comprehensive loss and cash flows of Merge Healthcare Incorporated and subsidiaries (the Company) for the year ended December 31, 2007. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the statements of operations and cash flows of the Company for the year ended December 31, 2007 in conformity with U.S. generally accepted accounting principles.

We were not engaged to audit, review, or apply any procedures to the adjustments to retrospectively apply the changes in segment disclosures described in note 1 and note 16 and, accordingly, we do not express an opinion or any other form of assurance about whether such adjustments are appropriate and have been properly applied. Those adjustments were audited by a successor auditor.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in note 1 to the consolidated financial statements included in the Form 10-K for the annual period ended December 31, 2007, the Company has suffered recurring losses from operations and negative cash flows that raise substantial doubt about its ability to continue as a going concern. Management's plans in regard to these matters are also described in note 1. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

March 31, 2008

CONSENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors
Merge Healthcare Incorporated:

We consent to the incorporation by reference in the registration statements (Nos. 333-34884, 333-100104, 333-107997, 333-40832, 333-40882, 333-107991, 333-125386) on Form S-8 and (Nos. 333-125603, 333-161691, 333-161689) on Form S-3 of Merge Healthcare Incorporated of our report dated March 31, 2008, with respect to the consolidated statements of operations, shareholders' equity, comprehensive loss, and cash flows of Merge Healthcare Incorporated and subsidiaries (the Company) for the year ended December 31, 2007, which report appears in this December 31, 2009 Annual Report on Form 10-K of Merge Healthcare Incorporated.

Our report on the consolidated financial statements also refers to the assumption that the Company will continue as a going concern. The Company has suffered recurring losses from operations and negative cash flows that raise substantial doubt about its ability to continue as a going concern. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

CERTIFICATION

Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

I, Justin C. Dearborn, certify that:

1. I have reviewed this annual report on Form 10-K of Merge Healthcare Incorporated;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation;
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's Board of Directors (or such other persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

CERTIFICATION OF PRINCIPAL EXECUTIVE OFFICER AND PRINCIPAL FINANCIAL OFFICER

**Pursuant to 18 U.S.C. Section 1350, as Adopted Pursuant to
Section 906 of the Sarbanes-Oxley Act of 2002**

In connection with the Annual Report of MERGE HEALTHCARE INCORPORATED (Company) on Form 10-K for the year ended December 31, 2009, as filed with the SEC on the date hereof (Report), Justin C. Dearborn, as principal executive officer of the Company, and Steven M. Oreskovich, as principal financial officer of the Company, each hereby certify, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that, to the best of their knowledge:

(1) The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and

(2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

The aggregate market value for the Registrant's voting and non-voting common equity held by non-affiliates of the Registrant as of June 30, 2009, based upon the closing sale price of the Common Stock on June 30, 2009, as reported on the NASDAQ Global Market, was approximately \$116,910,210. Shares of Common Stock held by each officer and director and by each person who owns ten percent or more of the outstanding Common Stock have been excluded in that such persons may be deemed to be affiliates. This determination of affiliate status is not necessarily a conclusive determination for other purposes.

The number of shares outstanding of the Registrant's common stock, par value \$0.01 per share, as of April 28, 2010: 82,758,904

EXPLANATORY NOTE

This Amendment No. 2 on Form 10-K/A is being filed by Merge Healthcare Incorporated (“Merge Healthcare,” “we,” “us,” or “our”) to provide the disclosure required by Part III of our Annual Report on Form 10-K for the year ended December 31, 2009, filed with the United States Securities and Exchange Commission (“SEC”) on March 12, 2010, as amended March 17, 2010 (“Amendment No. 1”). No other changes have been made to our Form 10-K except for the required disclosure provided for Part III. This Form 10-K/A should be read in conjunction with our Form 10-K filing made with the SEC on March 12, 2010 and with our Form 10-K/A, Amendment No. 1 filing made with the SEC on March 17, 2010. This Form 10-K/A has not been updated to reflect events that occurred after the date of the original Annual Report on Form 10-K and Amendment No. 1 thereto.

Updated certifications of our principal executive and financial officer are included as exhibits to this Amendment No. 2.

Item 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

BOARD OF DIRECTORS

The following table lists the names of the six (6) current Directors, their respective ages and positions with us, followed by a brief biography of each individual, including their business experience during the past five (5) years.

<u>Name</u>	<u>Age</u>	<u>Position</u>
Dennis Brown	62	Director
Justin C. Dearborn	40	Director and Chief Executive Officer
Michael W. Ferro, Jr.	43	Chairman of Board
Gregg G. Hartemayer	57	Director
Richard A. Reck	60	Director
Neele E. Stearns, Jr.	74	Director

Dennis Brown presently serves as Senior Executive, Vice President and Chief Financial Officer for Karl's Event Rental Inc. and previously served as vice president of finance, chief financial officer and treasurer of Apogent Technologies Inc. (which we refer to as "Apogent"), a New York Stock Exchange company from January 2003 to December 2004. Fisher Scientific International Inc. acquired Apogent in August 2004, and after completion of a transition period, Mr. Brown retired from Apogent in December 2004. From December 2000 through January 2003, Mr. Brown served as a financial consultant to Apogent. Mr. Brown also served as vice president of finance, chief financial officer and treasurer of Apogent's predecessor, Sybron International Corporation (which we refer to as "Sybron"), a publicly traded company formerly headquartered in Milwaukee, Wisconsin, from January 1993 through December 2000, at which time Sybron's life sciences group was relocated to Portsmouth, New Hampshire, and Sybron was renamed Apogent. Mr. Brown is a Fellow of the Chartered Institute of Management Accountants (England). Mr. Brown has served on our Board since May 2003 and previously served on our Board from the date of our initial public offering in February 1998 until May 2000. The Board of Directors (the "Board") has concluded that Mr. Brown should be a Director of Merge Healthcare because of his extensive industry experience, including being vice president of finance, chief financial officer and treasurer of Apogent.

Justin C. Dearborn served as managing director and general counsel of Merrick Ventures, LLC (with its operating entities and affiliates, are referred to collectively to as "Merrick Ventures") from January 2007 until his appointment as Chief Executive Officer of Merge Healthcare on June 4, 2008. Prior to joining Merrick Ventures, Mr. Dearborn worked over nine years for Click Commerce, Inc. (which we refer to as "Click Commerce"), a publicly traded software and services company that was acquired by Illinois Tool Works Inc. ("ITW") in October 2006. From May 2003 until May, 2005, Mr. Dearborn served as vice president of Corporate Legal Affairs and Human Resources at Click Commerce. Mr. Dearborn was appointed corporate secretary of Click Commerce on May 2, 2003. Prior to Click Commerce, Mr. Dearborn worked at Motorola, Inc. where he specialized in intellectual property transactions and also held management positions in Motorola's Semiconductor and Corporate Groups. Mr. Dearborn holds a B.A. from Illinois State University and a J.D. from DePaul University. He has practiced law in the state of Illinois but no longer holds a license to practice law. Mr. Dearborn has served on our Board since his appointment as Chief Executive Officer of Merge Healthcare on June 4, 2008. The Board has concluded that Mr. Dearborn should be a Director of Merge Healthcare because of his diverse experience in operational, financial and legal roles.

Michael W. Ferro, Jr. has served as a Director and Chairman of our Board since June 4, 2008. Since May 2007, Mr. Ferro has served as chairman and chief executive officer of Merrick Ventures, a private investment firm. From June 1996 until October 2006, Mr. Ferro served as chief executive officer and chairman of the board of Click Commerce. Mr. Ferro is currently a member of the board of trustees of the Chicago Museum of Science and Industry, the Field Museum, the Joffrey Ballet, Northwestern University and the Lyric Opera of Chicago. He also serves on the boards of directors of the Chicago Community Trust, Children's Memorial Hospital, Northwestern Memorial Foundation, Big Shoulders Foundation, and AfterSchool Matters. Mr. Ferro holds a B.A. from the University of Illinois. The Board has concluded that Mr. Ferro should be a Director of Merge Healthcare because of his extensive experience in investing in and advising public and private companies. Additionally, his and Merrick's significant stock ownership in Merge Healthcare aligns his interests with those of other stockholders.

Gregg G. Hartemayer has served as a Director of our Board since June 4, 2008 and is a member of our Audit, Nominating and Governance Committee and our Compensation Committee. Since May 2007, Mr. Hartemayer has served as a special advisor to Merrick Ventures. Prior to his association with Merrick Ventures, he served in various capacities at Arthur Anderson LLP, and its then affiliate, Accenture for 28 years. Mr. Hartemayer retired from Accenture in February 2004 where he was chief executive for Global Technology, Outsourcing and Global Delivery. Mr. Hartemayer holds an M.B.A. and a B.A. in Mathematics from the University of Michigan. The Board has concluded that Mr. Hartemayer should be a Director of Merge Healthcare because of his demonstrated financial experience with Arthur Anderson LLP and Accenture. Mr. Hartemayer's public accounting experience is also beneficial to Merge Healthcare.

Richard A. Reck is the president of Business Strategy Advisors LLC, a business strategy consulting firm, and has served in such capacity since August 2002. Mr. Reck joined the certified public accounting firm of KPMG LLP in June 1973 and remained employed there until his retirement as a partner in July 2002. He currently serves on the boards of Interactive Intelligence, Inc., a publicly held software company, and Advanced Life Sciences Holdings Inc., a publicly held biopharmaceutical company, as well as the boards of several private and not-for-profit entities. Mr. Reck is a certified public accountant and holds a B.A. in Mathematics from DePauw University and an M.B.A. in Accounting from the University of Michigan. Mr. Reck has served as a Director of our Board since April 2003. The Board has concluded that Mr. Reck should be a Director of Merge Healthcare because of his financial and executive experience with the above entities and other experience as a member of the board of directors of other public and private entities.

Neele E. Stearns, Jr. has served as a Director of our Board since June 4, 2008 and is Chair of our Audit Committee. Since February 2001, Mr. Stearns has served as chairman of Financial Investments Corporation, a private equity investment firm. From July 2004 to April 2007, he also served as the chief executive officer of Boulevard Healthcare, LLC, an owner and operator of nursing homes, of which he is still chairman. From September 15, 2003 to January 15, 2004, Mr. Stearns took a leave of absence from Financial Investments Corporation to serve as interim chairman and chief executive officer of Footstar, Inc. In March 2004, Footstar filed for U.S. Chapter 11 bankruptcy, at which time, Mr. Stearns remained as a director of Footstar, Inc. until it emerged from bankruptcy in February 2006. Previously, Mr. Stearns was chairman of the Board of Wallace Computer Services, Inc., then a provider of printed products and print management services, from January 2000 through November 2000 as well as serving as a director from 1996 until its sale to Moore Corporation Limited in 2003. Prior to 1995, he was president and chief executive officer of CC Industries, Inc., a diversified holding company. Mr. Stearns served on the board of Maytag Corporation from 1989 through its sale to Whirlpool Corporation in March 2006. Mr. Stearns holds an M.B.A. from Harvard Business School and a B.A. in Economics from Carleton College. The Board has concluded that Mr. Stearns should be a Director of Merge Healthcare because of his significant executive experience referred to above.

Role and Composition of the Board of Directors

General. The Board, which is elected by the shareholders, is the ultimate decision-making body of Merge Healthcare, except with respect to those matters reserved to the shareholders. It selects the Chief Executive Officer and other members of the senior management team, which senior management team is charged with the conduct of Merge Healthcare's business. Having selected the senior management team, the Board acts as an advisor and counselor to senior management and ultimately monitors its performance. The function of the Board to monitor the performance of senior management is facilitated by the presence of outside Directors of stature who have substantive knowledge of Merge Healthcare's business.

Our business, property and affairs are managed under the direction of our Board. Members of our Board are kept informed of our business through discussions with our Chairman and Chief Executive Officer and other officers, by reviewing materials provided to them, by visiting our offices and by participating in meetings of the Board and its Committees.

In 2009, the Board met thirteen (13) times and had three (3) Committees: the Audit Committee, the Nominating and Governance Committee and the Compensation Committee. All of the Directors attended at least seventy five percent (75%) of the meetings of the Board, and at least seventy five percent (75%) of the meetings of all committees on which they served in 2009.

It is the general policy of Merge Healthcare that all major decisions be considered by the Board as a whole. As a consequence, the Committee structure of the Board is limited to those Committees considered to be basic to, or required for, the operation of a publicly owned company. Currently, these Committees are the Audit Committee, Compensation

Committee, and the Nominating and Governance Committee. The membership of these Committees is rotated from time to time.

Selection Criteria. Although neither the Nominating and Governance Committee nor the Board has a diversity policy, the Board is committed to a diversified membership, in terms of both the individuals involved and their various experiences and areas of expertise. The Nominating and Governance Committee has not established specific minimum age, education, years of business experience or specific types of skills for potential director candidates, but, in general, expects qualified candidates will have ample experience and a proven record of business success and leadership. Candidates are selected by the Nominating and Governance Committee for, among other things, their integrity, independence, diversity of experience, leadership and their ability to exercise sound judgment. Final approval of a candidate is determined by the full Board. The Nominating and Governance Committee considers candidates suggested by our shareholders for election as a Director, provided that the recommendations are made according to the procedures required under our Bylaws. Shareholder nominees whose nominations comply with these procedures will be evaluated by the Nominating and Governance Committee in the same manner as the Nominating and Governance Committee's nominees.

Director Compensation. The Nominating and Governance Committee makes recommendations to the Board regarding the compensation of Directors.

Executive Sessions. Executive sessions or meetings of outside Directors without management present are held regularly at the Board's discretion and consistent with NASDAQ Global Market Rules.

Merge Healthcare's Code of Ethics

All of our employees, including the Chief Executive Officer, Chief Financial Officer, our Controllers, and persons performing similar functions, including all Directors and employees, are required to abide by Merge Healthcare's Code of Ethics to ensure that our business is conducted in a consistently legal and ethical manner. This Code of Ethics along with our Whistleblower Policy form the foundation of a comprehensive process that includes compliance with all corporate policies and procedures, an open relationship among colleagues that contributes to good business conduct, and the high integrity level of our employees. Our policies and procedures cover all areas of professional conduct, including employment policies, conflicts of interest, intellectual property and the protection of confidential information, as well as strict adherence to all laws and regulations applicable to the conduct of our business.

Employees are required to report any conduct that they believe in good faith to be an actual or apparent violation of Merge Healthcare's Code of Ethics. The Sarbanes-Oxley Act of 2002 requires audit committees to have procedures to receive, retain and treat complaints received regarding accounting, internal accounting controls or auditing matters and to allow for the confidential and anonymous submission by employees of concerns regarding questionable accounting or auditing matters. We have such procedures in place as set forth in the Merge Healthcare Incorporated Whistleblower Policy and the Code of Ethics.

Both our Code of Ethics and our Whistleblower Policy are available to our shareholders on our web site at www.merge.com/about/governance.aspx and in print. To request copies of these documents, make such request in writing to the General Counsel and Corporate Secretary, Merge Healthcare Incorporated, 6737 West Washington Street, Suite 2250, Milwaukee, Wisconsin 53214-5650. Future material amendments relating to the Code of Ethics and/or the Whistleblower Policy will be disclosed on our web site.

Committee Membership

The table below provides 2009 membership and meeting information for each of the Board Committees.

<u>Name</u>	<u>Audit</u>	<u>Compensation</u>	<u>Nominating and Governance</u>
Dennis Brown	X	X*	X
Justin C. Dearborn			
Michael W. Ferro, Jr.			
Richard A. Reck	X	X	X*
Gregg G. Hartemayer	X	X	X
Neele E. Stearns, Jr.	X*		

(*) Represents Committee Chairperson.

The Audit Committee

The Audit Committee is comprised of entirely independent Directors in accordance with the listing standards of the NASDAQ Global Market and applicable rules of the United States Securities and Exchange Commission (“Commission”). Under its Charter, the Audit Committee is responsible for reviewing with the independent registered public accounting firm and management the adequacy and effectiveness of internal controls over financial reporting. The Audit Committee reviews and consults with management and the independent registered public accounting firm on matters related to the annual audit, the published financial statements, earnings releases and the accounting principles applied. The Audit Committee is also responsible for appointing, retaining and evaluating Merge Healthcare’s independent public accounting firm. The Committee is directly responsible for the compensation, retention and oversight of Merge Healthcare’s independent public accounting firm and evaluates the independent public accounting firm’s qualifications, performance and independence. The Committee reviews reports from management relating to the status of compliance with laws, regulations and internal procedures. The Audit Committee is also responsible for reviewing and discussing with management Merge Healthcare’s policies with respect to risk assessment and risk management.

The Audit Committee Charter is available on our website at www.merge.com/about/governance.aspx and in print upon request. The Audit Committee met thirteen (13) times in 2009.

The Board has determined that each of the members of the Audit Committee is an “audit committee financial expert” for purposes of the Commission’s rules.

The Compensation Committee

The Compensation Committee is comprised entirely of independent Directors in accordance with the listing standards of the NASDAQ Global Market and each Committee member is a “non–employee director” as defined in Rule 16b–3 under the Securities Exchange Act of 1934, as amended (“Exchange Act”) and is an “outside director” as defined in Section 162(m) of the Internal Revenue Code. The Committee determines Merge Healthcare’s compensation philosophy and oversees and administers Merge Healthcare’s executive compensation programs. Its responsibilities also include overseeing Merge Healthcare’s compensation and benefit plans and policies, administering its stock plans (including reviewing and approving equity grants) and reviewing and approving annually all compensation programs for Merge Healthcare’s executive officers.

The Compensation Committee Charter is available on our website at www.merge.com/about/governance.aspx and in print upon request. The Compensation Committee met five (5) times in 2009.

The Nominating and Governance Committee

The Nominating and Governance Committee is comprised entirely of independent Directors. Under the terms of its Charter, the Nominating and Governance Committee is responsible for matters of corporate governance and matters relating to the practices, policies and procedures of the Board. This includes identifying, recruiting and recommending director candidates as well as considering nominees recommended by shareholders. The Committee is responsible for

recommending corporate governance guidelines and otherwise taking a leadership role in shaping the corporate governance of Merge Healthcare.

The Committee advises on the structure of Board meetings and recommends matters for consideration by the Board. The Committee also advises on and recommends director compensation, which is ultimately approved by the full Board.

The Nominating and Governance Committee Charter is available on our website at www.merge.com/about/governance.aspx and in print upon request. The Nominating and Governance Committee did not convene in 2009.

During the last year, there have not been any material changes to the procedures by which shareholders may recommend nominees to Merge Healthcare's Board.

Compensation Committee Interlocks and Insider Participation

During fiscal 2009 and as of the date hereof, none of the members of the Compensation Committee was or is an officer or employee of Merge Healthcare, and no executive officer of Merge Healthcare served or serves on the Compensation Committee or Board of any company that employed or employs any member of Merge Healthcare's Compensation Committee or Board.

MANAGEMENT

Executive Officers

The names of our current executive officers, and their respective ages and positions are as follows:

<u>Name</u>	<u>Age</u>	<u>Position</u>
Justin C. Dearborn	40	Chief Executive Officer, Director
Nancy J. Koenig	45	President, Merge Fusion
Ann Mayberry-French	49	General Counsel and Corporate Secretary
Steven M. Oreskovich	38	Chief Financial Officer
Antonia A. Wells	51	President, Merge OEM

Mr. Dearborn's biography appears above under the heading "Board of Directors."

Nancy J. Koenig was appointed President of Merge Fusion in June of 2008. Ms. Koenig comes to Merge Healthcare from Merrick Healthcare Solutions (a Merrick Ventures portfolio company), where she served as its chief executive officer. Prior to joining Merrick Ventures in the fall of 2007, Ms. Koenig was the president of Click Commerce during its integration as a subsidiary of ITW. Ms. Koenig joined Click Commerce in 1999 as the director of business consulting and held various positions, including serving as the head of Click Commerce's European Operations, its vice president of Product Operations and Marketing and its executive vice president – Operations. Ms. Koenig became Click Commerce's president in 2006.

Ann G. Mayberry-French was appointed General Counsel and Corporate Secretary in August of 2008. Ms. Mayberry-French comes to Merge Healthcare from Modine Manufacturing Company where she served as senior counsel. Prior to joining Modine Manufacturing Company, Ms. Mayberry-French was the general counsel and secretary of Assurant Health for seven years. Ms. Mayberry-French has over 27 years of experience in the healthcare and health insurance industry, including business management of managed care services and federal government contracting. Ms. Mayberry-French is a Registered Nurse and has been licensed to practice law in Kentucky, Ohio and Wisconsin. She currently maintains a license to practice only in Wisconsin, but is also admitted in Ohio and Kentucky.

Steven M. Oreskovich was appointed Chief Financial Officer in June 2008. Prior to his appointment as Chief Financial Officer, Mr. Oreskovich served as our Vice President of Internal Audit since January 2007, as our Chief Accounting Officer and interim Treasurer and interim Secretary from July 2006 to January 2007 and as our Vice President and Corporate Controller from April 2004 to July 2006. Prior to joining our Company, Mr. Oreskovich served as vice president of finance and operations at Truis, Inc., a company that provided customer intelligence solutions for business-to-business enterprises, from April 2000 to January 2003. Prior to that, Mr. Oreskovich worked as an auditor at

PriceWaterhouseCoopers LLP from September 1994 to April 2000. Mr. Oreskovich holds a B.S. degree in Accounting from Marquette University and is a C.P.A.

Antonia A. Wells was appointed President of Merge OEM in June 2008. Prior to her appointment as President Merge OEM, Ms. Wells served as Merge OEM Vice President of Customer Operations since June 2005. Since joining us in 1999, Ms. Wells has been responsible for Merge OEM's contract management, quality/regulatory affairs, manufacturing, order management, professional services and internal infrastructure. Ms. Wells has over 25 years of business management experience, including leadership roles in IT, enterprise system implementation, process re-engineering, and human resources.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires our executive officers, members of our Board, and persons who own more than ten percent (10%) of a registered class of our equity securities, to file initial statements of beneficial ownership (Form 3), and statements of changes in beneficial ownership (Forms 4 or 5). The Commission requires executive officers, directors and greater than ten percent (10%) shareholders to furnish us with copies of all these forms filed with the Commission.

To our knowledge, based solely upon our review of the copies of these forms received by us, or written representations from certain reporting persons that no additional forms were required for those persons, we believe that all of our executive officers and Directors complied with their reporting obligations during 2009, with the exception that one late Form 4, which was filed on February 26, 2009 on behalf of Merrick RIS, LLC and Michael W. Ferro, Jr., jointly, with respect to a purchase made on February 23, 2009.

Item 11. Executive Compensation

COMPENSATION DISCUSSION AND ANALYSIS

INTRODUCTION

This item describes our executive compensation program for 2009 and certain elements of the 2010 program. We use this program to attract, motivate, and retain colleagues whom the Board has selected to lead our business.

This section of the Annual Report explains how the Compensation Committee made its compensation decisions for our officers who also comprise our named executive officers. Those Named Executive Officers are our Chief Executive Officer, Justin C. Dearborn; our President, Merge Fusion, Nancy J. Koenig; our Vice President, General Counsel and Corporate Secretary, Ann Mayberry-French; our Chief Financial Officer, Steven M. Oreskovich; and our President, Merge OEM, Antonia A. Wells.

MARKET AND BUSINESS CONDITIONS

Although the global economy rebounded somewhat toward the end of 2009, our business remained affected by the downturn that started in 2008. Healthcare in particular showed country-by-country challenges and opportunities as a direct result of the local government investment. In 2009 our major market, the U.S., passed dramatic healthcare legislation intended to spark new investment in health IT. While it originally served to freeze the market as elements of the legislation were further defined, market conditions improved toward the end of 2009 and major market segments are forecasted for growth in 2010 onward. At the same time, legislation aimed at reducing reimbursement to our customers hindered their ability to invest in our solutions. Merge Healthcare improved its financial position during the second half of 2008 and continued to grow top line revenue throughout 2009. Management successfully limited overhead while growing revenue in order to improve our financial strength and sustain future performance. In 2009 we continued to operate two operational units: Indirect (selling customized software solutions to original equipment manufacturers in the healthcare information technology industry, CAD solutions and Merge solutions internationally) and Direct (selling software solutions to end-users such as radiologists, diagnostic imaging centers and hospitals, as well as clinical trials solutions to pharmaceutical companies and CROs). These business units are focused on providing software solutions in the health care market space. Our business structure is designed to provide each global business unit with the authority and accountability to make decisions as part of the overall Merge Healthcare global business – quickly and with agility –

in the best interest of its stakeholders, including our customers. We believe this business model has contributed to improved performance and increased shareholder value.

PHILOSOPHY AND GOALS OF OUR EXECUTIVE COMPENSATION PROGRAM

Compensation Philosophy

The primary objectives of our executive compensation policies are as follows:

- to attract and retain talented executives by providing compensation that is in alignment with the compensation provided to executives at companies of comparable size and growth trajectory in the health care information technology industry, while maintaining compensation within levels that are consistent with our annual budget, financial objectives and operating performance; and
- to provide appropriate incentives for executives to work toward the achievement of our annual financial performance and business goals, based primarily on diluted earnings per share.

Our incentive compensation programs are designed to reward executive and other employee contributions based on the success of our organization. Specifically, they are designed to reward achievement of our annual financial performance and business goals and creation of shareholder value.

Compensation Mix

Historically, we have used a mix of short-term compensation (base salaries and annual cash incentive bonuses) and long-term compensation (stock option grants and restricted stock awards) to meet the objectives of our compensation programs. We do not have a fixed policy for allocating between long-term and short-term compensation or between cash and non-cash compensation. Because we believe that it is important to align the interests of our executives with those of our shareholders, equity incentive compensation has made up a portion of each current executive's overall compensation package. In the near term, we plan to continue to use primarily short-term compensation (base salaries and annual cash incentive bonuses) as well as long-term compensation, as appropriate.

The compensation that we pay our Named Executive Officers consists of base salary, cash incentive compensation and stock option awards. The following discussion explains the reason we pay each element of compensation, how the amount of each element is determined, and how each element fits into our overall compensation philosophy and affects decisions regarding other elements.

We seek to pay executives a base salary in alignment with salaries of executives at companies of comparable position in the healthcare information technology industry and at a rate that fits within our annual budget, financial objectives and operating performance. We have not historically attempted to make base salary a certain percentage of total compensation.

In light of the Company's 2009 annual performance and the public sentiment regarding corporate bonus payouts for substandard, annual corporate performance, the Compensation Committee determined that Merge Healthcare's performance did not warrant cash incentive payments for 2009.

In early 2010, the Compensation Committee established targets for bonuses for Merge Healthcare's Named Executive Officers. However, due to the Company's acquisition of AMICAS, Inc., such targets are no longer in effect. The Company intends to report the new targets for 2010 bonuses in a Current Report on Form 8-K once such targets have been determined.

Role of the Compensation Committee

The Compensation Committee of our Board is responsible for administering our compensation practices and ensuring they are designed to drive corporate performance. Our Compensation Committee reviews compensation policies affecting our executive officers annually, taking into consideration our financial performance, our position within the health care information technology industry, the executive compensation policies of similar companies in similar industries and, when reviewing individual compensation levels, certain individual factors, including the executive's level

of experience and responsibility and the personal contribution that the individual has made to our success. Further, our Compensation Committee also considers the global economic trends and the macroeconomic environment.

Annually, our Compensation Committee reviews the base salaries of all executive officers and based on these reviews, may adjust these salaries to ensure external competitiveness and to reflect the executive's individual position and performance, as well as the performance of our Company. In addition to these factors, our Compensation Committee considers the recommendations of our Chief Executive Officer when adjusting base salaries of our Named Executive Officers other than himself. We may also make base salary adjustments during the year if the scope of an executive officer's responsibility changes relative to the other executives.

Modifications To Our Executive Compensation Program

The Committee continues to focus its efforts to refine the executive compensation structure and process consistent with evolving good governance practices.

Beginning in June 2008, in connection with the investment by Merrick RIS, LLC ("Merrick") in our Company, several changes occurred in the makeup of our senior management team. Specifically, effective on the closing of the Merrick investment, Mr. Dearborn became our Chief Executive Officer, Mr. Oreskovich became our Chief Financial Officer, Ms. Koenig became our President of Merge Fusion and Ms. Wells became our President of Merge OEM. In connection with these changes, the Compensation Committee proposed and the Board accepted several modifications to our executive officer and director compensation programs to ensure that we offer competitive compensation that will help us to retain our executive officers and to reflect the views of the current members of our Board and the Compensation Committee on appropriate compensation structures.

During 2008, we also implemented a different director compensation program than previously utilized for our Directors as set forth in the Director compensation discussion.

We have entered into employment agreements with four (4) Named Executive Officers: Mr. Dearborn, Ms. Koenig, Mr. Oreskovich and Ms. Wells. The agreements formalize and confirm the base compensation, target annual bonus amounts and the stock option grants that we agreed to in connection with the hiring of Mr. Dearborn and Ms. Koenig, and Mr. Oreskovich's and Ms. Wells' promotions. The agreements provide for twelve (12) months' base salary as severance upon a termination other than for cause or other than due to the executive officer's death or disability, conditioned on the executive officer's execution of a release agreement. The agreements do not include a definition of "cause." In addition, upon a change of control of Merge Healthcare, all of the executive officers' stock options will vest. We proposed the amounts of these severance benefits and the triggering events based on the subjective judgments and experiences of the members of the Compensation Committee indicating that these amounts are consistent with market practice and that the triggering events are likely to involve circumstances in which it is customary and appropriate to offer the protections embodied in the employment agreements.

We established the terms of the compensation arrangements with four (4) of our Named Executive Officers at the time of the closing of the Merrick investment, as noted above. Under the employment agreements, Mr. Dearborn receives an annual base salary of \$250,000 and has a target annual bonus equal to his base salary. Ms. Koenig receives an annual base salary of \$200,000 and has a target annual bonus equal to her base salary. Ms. Wells receives an annual base salary of CAD\$200,000 and has a target annual bonus equal to her annual base salary. Mr. Oreskovich receives an annual base salary of \$200,000 and has a target annual bonus equal to 50% of his annual base salary. The compensation arrangement for Ms. Mayberry-French was determined upon her date of hire. Those arrangements are as follows: Ms. Mayberry-French was hired at an annual salary of \$150,000 and received a salary increase effective on January 1, 2009, due to additional responsibility for the Human Resources function of Merge Healthcare Ms. Mayberry-French now receives an annual salary of \$160,000 and has a target annual bonus of thirty five percent (35%) of her base salary. Achievement of bonus for each of the current executive officers is tied to factors defined by the Compensation Committee for the 2009 annual bonus program and could result in a bonus amount that is more or less than the targeted bonus.

Board Leadership Structure and Risk Oversight

We separate the roles of Chief Executive Officer and Chairman of the Board of Directors in recognition of the differences between the two roles. The Chief Executive Officer is responsible for setting the strategic direction for the Company and the day to day leadership and performance of the Company, while the Chairman of the Board of Directors provides

guidance to the Chief Executive Officer and sets the agenda for Board meetings and presides over meetings of the full Board. We also believe that separation of the positions reinforces the independence of the Board in its oversight of the business and affairs of the Company, and creates an environment that is more conducive to objective evaluation and oversight of management's performance, increasing management accountability and improving the ability of the Board to monitor whether management's actions are in the best interests of the Company and its stockholders. We do not have a lead independent director.

The Board's role in the Company's risk oversight process includes receiving regular reports from members of senior management on areas of material risk to the Company, including operational, financial, legal and regulatory, and strategic and reputational risks. The full Board (or the appropriate committee in the case of risks that are under the purview of a particular committee) receives these reports to enable it to understand our risk identification, risk management and risk mitigation strategies. The Company's Compensation Committee is responsible for overseeing the management of risks relating to the Company's executive compensation plans and arrangements. The Audit Committee oversees management of financial risks. The Nominating and Governance Committee manages risks associated with the independence of the Board and potential conflicts of interest. While each committee is responsible for evaluating certain risks and overseeing the management of such risks, the entire Board is regularly informed of such risks through committee reports at the Board meeting following a given committee meeting. This enables the Board and its committees to coordinate the risk oversight role, particularly with respect to risk interrelationships.

In addition to the Company's formal compliance program, the Board encourages management to promote a corporate culture that understands risk management and incorporates it into the overall corporate strategy and day-to-day business operations. The Company's risk management structure also includes an ongoing effort to assess and analyze the most likely areas of future risk for the Company. As a result, the Board (and its committees) periodically asks the Company's executives to discuss the most likely sources of material future risks and how the Company is addressing any significant potential vulnerability. The Company has reviewed its compensation policies and practices for its employees and does not believe such policies and practices are reasonably likely to have a material adverse effect on the Company.

COMPENSATION COMMITTEE REPORT

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K set forth above with management and, based on such review and discussions, the Compensation Committee recommended to our Board that the Compensation Discussion and Analysis be included in this Proxy Statement.

The Compensation Committee

Dennis Brown, Chairperson
Gregg G. Hartemayer
Richard A. Reck

COMPENSATION OF EXECUTIVE OFFICERS AND DIRECTORS

Summary Compensation Tables

The following table relates to the compensation earned by our current Named Executive Officers for the fiscal years ended December 31, 2007, 2008 and 2009.

Name and Principal Position	Year	Salary (\$)	Bonus ⁽¹⁾ (\$)	Stock Awards ⁽²⁾ (\$)	Option Awards ⁽²⁾ (\$)	Non Equity Incentive Plan Compensation ⁽³⁾ (\$)	All Other Compensation (\$)	Total (\$)
Justin C. Dearborn ⁽⁴⁾ Chief Executive Officer	2009	250,000	—	—	—	—	17,453 ⁽⁵⁾	267,453
	2008	143,109	—	—	37,880	—	7,018 ⁽⁵⁾	188,007
Steven M. Oreskovich ⁽⁶⁾ Chief Financial Officer and Treasurer	2009	200,000	—	—	—	—	14,475 ⁽⁵⁾	214,475
	2008	189,583	—	26,343	183,051	—	10,222 ⁽⁵⁾	389,199
	2007	175,000	130,000	2,734	165,166	5,469	9,514 ⁽⁵⁾	487,883
Nancy J. Koenig ⁽⁴⁾ President, Merge Fusion	2009	200,000	—	—	—	—	4,687 ⁽⁵⁾	204,687
	2008	114,487	—	—	11,203	—	2,236 ⁽⁵⁾	127,926
Antonia A. Wells ⁽⁷⁾ President, Merge OEM	2009	199,123	—	—	—	—	11,223 ⁽⁸⁾	205,931
	2008	160,474	—	26,343	68,390	—	5,975 ⁽⁸⁾	261,182
Ann G. Mayberry– French ⁽⁹⁾ Vice President, General Counsel & Corporate Secretary	2009	160,000	—	—	—	—	15,535 ⁽⁵⁾	175,535
	2008	60,288	—	—	7,737	—	4,882 ⁽⁵⁾	72,907

- (1) For 2007, reflects a retention bonus of \$105,000 for Mr. Oreskovich, and a discretionary bonus of \$25,000 for Mr. Oreskovich.
- (2) Our Named Executive Officers were not granted any stock or option awards in the fiscal year ended December 31, 2009. The dollar amounts for the awards represent the grant-date value calculated in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 718 (“FASB ASC 718”) for each Named Executive Officer. Assumptions used in the calculation of these amounts are included in Note 8 to our audited financial statements for the fiscal year ended December 31, 2009 included in our Annual Report on Form 10-K filed with the Commission on March 12, 2010, as amended March 17, 2010.
- (3) Represents the cash incentive award earned under our 2007 performance-based cash bonus plan.
- (4) Mr. Dearborn and Ms. Koenig each began employment with us at the consummation of the Merrick transaction, effective June 4, 2008.
- (5) For 2009, represents our matching contribution under our 401(k) employee retirement savings plan (\$6,510 for Mr. Dearborn, \$6,000 for Mr. Oreskovich, and \$4,800 for Ms. Mayberry–French) and medical, dental, optical, long term disability and life insurance benefits (\$10,943 for Mr. Dearborn, \$8,475 for Mr. Oreskovich, \$4,687 for Ms. Koenig, and \$10,735 for Ms. Mayberry–French). For 2008, represents our matching contribution under our 401(k) employee retirement savings plan (\$1,875 for Mr. Dearborn, \$5,688 for Mr. Oreskovich, and \$1,125 for Ms. Mayberry–French) and medical, dental, optical and life insurance benefits (\$5,143 for Mr. Dearborn, \$4,534 for Mr. Oreskovich, \$2,236 for Ms. Koenig, and \$3,757 for Ms. Mayberry–French). For 2007, represents our matching contribution under our 401(k) employee retirement savings plan (\$5,250 for Mr. Oreskovich) and medical, dental, optical and life insurance benefits (\$4,264 for Mr. Oreskovich).
- (6) At the consummation of the Merrick transaction effective June 4, 2008, Mr. Oreskovich was promoted to the position of Chief Financial Officer and Treasurer. Prior to that time, Mr. Oreskovich held the position of Vice President of Internal Audit.
- (7) At the consummation of the Merrick transaction effective June 4, 2008, Ms. Wells was promoted to the position of President, Merge OEM. Prior to that time, Ms. Wells held the position of Vice President, Customer Operations of our Cedara business division.
- (8) For 2009, represents our contribution of \$5,931 under our Deferred Profit Sharing Plan (“DPSP”) for Canadian employees and the payment of \$5,292 in medical, dental, optical and life insurance and related costs for the benefit of Ms. Wells. For 2008, represents our contribution of \$2,207 under our Deferred Profit Sharing Plan (“DPSP”) for Canadian employees and the payment of \$3,768 in medical, dental, optical and life insurance and related costs for the benefit of Ms. Wells.
- (9) Ms. Mayberry–French began her employment with us effective August 4, 2008.

Grants Of Plan-Based Awards For Fiscal Year 2009

Merge Healthcare did not grant any plan-based equity or non-equity awards to its Named Executed Officers in fiscal 2009.

Outstanding Equity Awards At 2009 Fiscal Year-End

The following table contains information concerning equity awards held by our current Named Executive Officers that were outstanding as of December 31, 2009.

Name	OPTION AWARDS				STOCK AWARDS	
	Number of Securities Underlying Unexercised Options (#) Exercisable	Number of Securities Underlying Unexercised Options (#) Unexercisable	Option Exercise Price (\$)	Option Expiration Date	Number of Shares or Units of Stock That Have Not Vested (#) ⁽¹⁾	Market Value of Shares or Units of Stock That Have Not Vested (\$) ⁽²⁾

	11,500	17,500	4.99	04/02/2013		
	50,000	150,000	0.68	06/03/2014		
Ann G. Mayberry-French	25,000	75,000	1.47	08/18/2014		

(1) One hundred percent (100%) of the restricted stock will vest on November 24, 2010.

(2) Reflects the value as calculated using the closing market price of our Common Stock as of the last trading day in fiscal year 2009, December 31, 2009 (\$3.36).

In 2009, none of our Named Executive Officers exercised any of their vested options.

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE IN CONTROL

Description of Agreements Providing for Potential Payments

Prior to the closing of the investment by Merrick in our Company, we had in place agreements that required us to provide compensation to certain of our executive officers in the event of a termination of employment. These agreements generally called for increased payments if the termination of employment occurred in connection with a change of control.

With respect to the restricted stock award agreements of Mr. Oreskovich and Ms. Wells, the restrictions lapse and the restricted stock becomes fully vested upon resignation for good reason (as defined in the agreement). The agreements

also provide for the lapse of the restrictions and full vesting upon: (a) the executive officer's termination of employment due to disability; (b) the executive officer's termination of employment by us without cause; (c) the executive officer's involuntary termination of employment within 365 days after a change in control; (d) the executive officer's resignation for good reason within 365 days of a change in control; or (e) the sale by us of the business unit with respect to which the Named Executive Officer primarily performs services.

A number of former officers of Merge Healthcare had employment agreements with the potential for payment of certain amounts upon termination or a change in control. However, concurrent with the Merrick transaction described below, such former officers entered into severance agreements with us, which resulted in us paying a lower amount to them upon their separation from Merge Healthcare. For descriptions of the Named Executive Officer's employment agreements, see "Modifications To Our Executive Compensation Program" above.

COMPENSATION OF NON-EMPLOYEE DIRECTORS

Following the Merrick transaction discussed below, our non-employee Directors no longer receive cash compensation. Instead, the Directors received stock options, which options vest over sixteen equal quarterly increments and have an exercise price equal to the closing price of Merge Healthcare's shares on the date of grant. For 2008, our current Chairman of the Board was awarded an option grant to purchase 400,000 shares of our Common Stock, our current Chairman of the Audit Committee was awarded an option grant to purchase 300,000 shares of our Common Stock, and each of our other current non-employee Directors were awarded an option grant to purchase 225,000 shares of our Common Stock. Our Directors were not granted any option awards in 2009.

Director Compensation For Fiscal Year 2009

Our Directors did not receive any cash or equity compensation for their service on the Board in fiscal 2009.

OUTSTANDING EQUITY AWARDS OF DIRECTORS AT FISCAL YEAR END

The following table contains information concerning equity awards held by our Directors that were outstanding as of December 31, 2009.

Name	Option Awards ⁽¹⁾			Aggregate Number of Securities Underlying Options (#)
	Number of Securities Underlying Options (#)	Exercise Price of Option Awards (\$ / Share)	Expiration Date	
Dennis Brown	5,000	9.78	05/21/2013	295,000
	10,000	16.19	05/20/2014	
	15,000	17.50	06/01/2015	
	15,000	6.59	12/27/2016	
	10,000	5.52	01/30/2017	
	15,000	6.01	05/10/2017	
	225,000 ⁽²⁾	1.47	08/18/2018	
Michael W. Ferro, Jr.	400,000 ⁽³⁾	0.57	11/19/2018	400,000
Gregg G. Hartemayer	225,000 ⁽²⁾	1.47	08/18/2018	225,000
Richard A. Reck	411	7.46	04/23/2013	285,411
	5,000	9.78	05/21/2013	
	10,000	16.19	05/20/2014	
	15,000	17.50	06/01/2015	
	15,000	6.59	12/27/2016	
	15,000	6.01	05/10/2017	
	225,000 ⁽²⁾	1.47	08/18/2018	
Neele E. Stearns, Jr.	300,000 ⁽⁴⁾	1.47	08/18/2018	300,000

- (1) All options are fully vested and exercisable, with the exception of the options granted on August 19, 2008 with an August 18, 2018 expiration date, and the options granted on November 20, 2008 with a November 19, 2018 expiration date, which options vest and are exercisable as noted below.
- (2) Options vest in sixteen (16) equal quarterly increments of 14,062.5 shares, with the first increment vesting on the date of grant, August 19, 2008, with subsequent increments vesting on November 30, February 28, May 31 and August 31 thereafter.
- (3) Options vest in sixteen (16) equal quarterly increments of 25,000 shares, with the first increment vesting on the date of grant, November 20, 2008, with subsequent increments vesting on February 28, May 31, August 31 and November 30 thereafter.
- (4) Options vest in sixteen (16) equal quarterly increments of 18,750 shares, with the first increment vesting on the date of grant, August 19, 2008, with subsequent increments vesting on November 30, February 28, May 31 and August 31 thereafter.

Item 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The following table shows, as of April 28, 2010, the beneficial ownership of shares of our Common Stock, by: (i) each person that is known to us to beneficially own or exercise the voting or dispositive control of five percent (5%) or more of our outstanding Common Stock; (ii) each of our Directors and Named Executive Officers; and (iii) all of our Directors and Named Executive Officers as a group. Except pursuant to marital property laws or as otherwise indicated in the footnotes to the table, each of the shareholders named below has sole voting and investment power with respect to

the shares shown as beneficially owned by such shareholder. In general, a person is deemed to be a “beneficial owner” of a security if that person has or shares the power to vote or direct the voting of such security, or the power to dispose of or to direct the disposition of such security. A person is also deemed to be a beneficial owner of any securities of which the person has the right to acquire the beneficial ownership within sixty (60) days.

<u>Name and Address of Beneficial Owner</u> ⁽¹⁾	<u>Shares Beneficially Owned</u> ⁽²⁾	<u>Percentage of Total Outstanding</u>
Merrick RIS, LLC / Michael W. Ferro, Jr. ⁽³⁾	30,090,137	36.4%
NorthPointe Capital, LLC ⁽⁴⁾	5,625,779	6.8%
Dennis Brown	594,427	(*)
Justin C. Dearborn	290,022	(*)
Gregg G. Hartemayer	201,140	(*)
Nancy J. Koenig	122,160	(*)
Ann G. Mayberry–French	53,462	(*)
Steven M. Oreskovich ⁽⁵⁾	363,092	(*)
Richard A. Reck	422,549	(*)
Neele E. Stearns, Jr.	371,610	(*)
Antonia A. Wells	244,680	(*)
All Directors and Named Executive Officers as a Group (10 persons)	32,753,279	39.6%

(*) Less than 1% of outstanding Common Stock.

⁽¹⁾ The business address of each beneficial owner who is also a Director or Named Executive Officer of Merge Healthcare is c/o Merge Healthcare Incorporated, 6737 West Washington Street, Suite 2250, Milwaukee, Wisconsin 53214–5650. The business address for Merrick RIS, LLC is 233 North Michigan Avenue, Suite 2330, Chicago, Illinois 60601. The business address of NorthPointe Capital, LLC is 101 West Big Beaver, Suite 745, Troy, Michigan 48084.

⁽²⁾ Share amounts include the following numbers of shares of Common Stock which may be acquired upon the exercise of stock options which are currently exercisable or exercisable within sixty (60) days of April 28, 2010: 175,000 for Mr. Ferro; 182,500 for Mr. Brown; 250,000 for Mr. Dearborn; 112,500 for Mr. Hartemayer; 100,000 for Ms. Koenig, 25,000 for Ms. Mayberry–French; 285,000 for Mr. Oreskovich; 172,911 for Mr. Reck; 150,000 for Mr. Stearns; 180,000 for Ms. Wells; and 1,632,911 for all Directors and Named Executive Officers as a group.

⁽³⁾ Merrick RIS, LLC also holds 10,000 shares of Series A Preferred Stock of Merge Healthcare, representing 24% of the shares of Series A Preferred Stock issued by Merge Healthcare in connection with its acquisition of AMICAS, Inc.

⁽⁴⁾ As reported on a Schedule 13G/A filed with the Commission on April 7, 2010, by NorthPointe Capital, LLC, a registered investment advisor, of which NorthPointe Capital, LLC has sole voting power with respect to 4,508,056 of the number of shares beneficially owned and sole dispositive power with respect to 5,625,779 of the number of shares beneficially owned.

⁽⁵⁾ Includes 53,333 shares of Restricted Common Stock granted on November 24, 2007, which shares shall become 100% vested and non-forfeitable on the third anniversary of the grant date.

EQUITY COMPENSATION PLAN SUMMARY

The following table provides information about the Company’s equity compensation plans as of December 31, 2009.

	<u>Number of securities to be issued upon exercise of outstanding options</u>	<u>Weighted-average exercise price of outstanding options</u>	<u>Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in the first column)</u>
Equity compensation plans approved by shareholders	5,021,995 ⁽¹⁾	\$3.57	2,593,506 ⁽²⁾
Equity compensation plans not approved by shareholders	—	—	—
Total	<u>5,021,995</u>	<u>\$ —</u>	<u>2,593,506</u>

(1) Represents outstanding options to purchase the Company’s common stock.

(2) Represents options available to purchase the Company’s common stock under the 2005 Equity Incentive Plan.

Item 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS AND DIRECTOR INDEPENDENCE

REVIEW OF RELATED PERSON TRANSACTIONS

The Company adopted written policies and procedures regarding related person transactions. For purposes of these policies and procedures:

- A “related person” means any of our Directors, executive officers, nominees for director, holder of five percent (5%) or more of our Common Stock or any of their immediate family members; and
- A “related person transaction” generally is a transaction (including any indebtedness or a guarantee of indebtedness) in which we were or are to be a participant and the amount involved exceeds \$50,000, and in which a related person had or will have a direct or indirect material interest.

Each of our executive officers, Directors or nominees for director is required to disclose certain information relating to related persons transactions for review, approval or ratification by our Audit Committee. Disclosure to our Audit Committee should occur before, if possible, or as soon as practicable after the related person transaction is effected, but in any event as soon as practicable after the executive officer, Director or nominee for director becomes aware of the related person transaction. Our Audit Committee’s decision whether or not to approve or ratify a related person transaction is to be made in light of its determination that consummation of the transaction is not or was not contrary to the best interests of Merge Healthcare. Any related person transaction must be disclosed to our full Board.

TRANSACTIONS WITH RELATED PERSONS

Software License Agreement with Merrick Healthcare Solutions

Effective March 31, 2009, we entered into a software license agreement with Merrick Healthcare Solutions, an entity doing business as Olivia Greets. Olivia Greets is wholly owned by Merrick. This transaction was approved by the Audit Committee in accordance with its written policies and procedures regarding related person transactions. The revenue generated by this agreement is estimated to be \$400,000, exclusive of optional services, which may be purchased by Olivia Greets, over its term.

Repayment of Merrick Term Note

On November 18, 2009, the Company used \$18.1 million of the net proceeds from its registered direct public offering of 9,084,032 shares of its common stock to prepay in full the term note that was held by Merrick RIS, LLC (“Merrick”) pursuant to the securities purchase agreement that the Company entered into with Merrick in May of 2008. As a result of the prepayment, the Company was required to pay 118% of the outstanding \$15.0 million principal of the term note and accrued and unpaid interest of \$395,000. Prior to its repayment, the term note had an interest rate of 13.0% per annum, and was to become payable in a single installment in June 2010. In connection with the prepayment of the term note, Merrick waived certain piggyback registration rights and Michael W. Ferro, Jr. agreed not to offer or sell any of the Company’s common stock held by him (or any securities convertible into, exercisable for or exchangeable or exercisable for shares of common stock) prior to 90 days following November 13, 2009, subject to certain exceptions.

Merrick beneficially owns, as of April 28, 2010, 36.1% of the Company’s outstanding common stock (excluding 175,000 shares of common stock which may be acquired upon the exercise of stock options which are currently exercisable or exercisable within sixty (60) days by Michael W. Ferro, Jr.). Michael W. Ferro, Jr., the Company’s Chairman of the Board, and trusts for the benefit of Mr. Ferro’s family members beneficially own a majority of the equity interest in Merrick. Mr. Ferro also serves as the chairman and chief executive officer of Merrick. Accordingly, Mr. Ferro indirectly owned and controlled the term note and indirectly owns all of the shares of common stock owned by Merrick. In addition, Justin C. Dearborn, the Chief Executive Officer and Director of the Company, served as Managing Director and General Counsel of Merrick Ventures, LLC, an affiliate of Merrick, from January 2007 until his appointment as Chief Executive Officer on June 4, 2008.

Amendment of Merrick Consulting Agreement

In January of 2009, the Company entered into a Consulting Agreement with Merrick which was effective as of January 1, 2009, had a one year term and which allowed the Company to take advantage of certain consulting services offered by Merrick to the Company. These services included, but were not limited to, investor relations, financial analysis and strategic planning. Effective on January 1, 2010, the Company and Merrick entered into an amendment to extend the term of this Consulting Agreement through December 31, 2011, and modified the payment terms from a flat fee arrangement per quarter to a per transaction or success based arrangement. The Audit Committee of the Company considered the amendment to the Consulting Agreement prior to its execution and approved its terms. The fees under the Consulting Agreement in 2009 were approximately \$400,000.

Merrick's Debt and Equity Investment in Connection with our Acquisition of AMICAS, Inc.

On April 28, 2010, Merrick purchased an aggregate principal amount of \$5.0 million of the \$200 million of 11.75% senior secured notes due 2015 that we offered in a private placement pursuant to Rule 144A and Regulation S under the Securities Act of 1933, as amended. The notes purchased by Merrick were purchased at the same purchase price per note as the other investors in the offering. Merrick has agreed for a period of 180 days from the closing of the offering not to, without the prior written consent of Morgan Stanley & Co. Incorporated, offer, sell or contract to sell, or otherwise dispose of, directly or indirectly, or announce the offering of, the notes purchased by it in the offering.

In addition, Merrick subscribed for and purchased 1.8 million shares of our common stock at the purchase price of \$2.07 per share and 10,000 shares of our Series A Preferred Stock at the same purchase price as the of \$627.40 per share in a private placement to fund a portion of our acquisition of AMICAS, Inc. The shares of common stock and Series A Preferred Stock purchased by Merrick were purchased at the same purchase price per share as the other investors in the private placement.

DIRECTOR INDEPENDENCE

Our Board follows the NASDAQ Global Market Rules regarding the independence of directors. The Board recognizes that independent directors play an important role in assuring investor confidence. As such, the Board has determined that each of Messrs. Brown, Hartemayer, Reck, and Stearns is independent under the listing standards of the NASDAQ Global Market.

Item 14. PRINCIPAL ACCOUNTING FEES AND SERVICES

AUDIT AND NON-AUDIT FEES

The following table presents fees for professional services rendered by BDO Seidman, LLP for the audit of Merge Healthcare's annual financial statements for the years ended December 31, 2008 and December 31, 2009.

	<u>2009</u>	<u>2008</u>
Audit fees ⁽¹⁾	\$767,814	\$337,000
Audit-related fees	—	—
Tax	—	—
All other fees	—	—
Total fees	<u>\$767,814</u>	<u>\$337,000</u>

- (1) Audit fees include fees for the annual financial statement audit, quarterly reviews, comfort letters, consents and review of, and assistance with, Current Reports on Form 8-K. In 2008, management's report on internal control over financial reporting was not subject to attestation by BDO Seidman, LLP pursuant to temporary rules of the Commission that permitted us to provide only a report from management.

POLICY ON AUDIT COMMITTEE PRE-APPROVAL OF AUDIT AND PERMISSIBLE NON-AUDIT SERVICES OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Consistent with the Commission and the Public Company Accounting Oversight Board (“PCAOB”) requirements regarding auditor independence, the Audit Committee has responsibility for appointing, setting compensation and overseeing the work of the independent registered public accounting firm. In recognition of this responsibility, the Audit Committee has established a policy to pre-approve all audit and permissible non-audit services provided by the independent registered public accounting firm.

Prior to engagement of the independent registered public accounting firm for each year’s audit, management will submit a list to the Audit Committee for its approval of services and related fees expected to be rendered and fees expected to be incurred during that year within each of four (4) categories of services to the Audit Committee for approval.

- **Audit** services include audit work performed on the financial statements and internal control over financial reporting, as well as work that generally only the independent registered public accounting firm can reasonably be expected to provide, including quarterly reviews, comfort letters, statutory audits, and discussions surrounding the proper application of financial accounting and/or reporting standards.
- **Audit-Related** services are for assurance and related services that are traditionally performed by the independent registered public accounting firm, including due diligence related to mergers and acquisitions, employee benefit plan audits, and special procedures required to meet certain regulatory requirements.
- **Tax** services include all services, except those services specifically related to the audit of the financial statements, performed by the independent registered public accounting firm’s tax personnel, including tax analysis; assisting with coordination of execution of tax-related activities, primarily in the area of corporate development; supporting other tax-related regulatory requirements; and tax compliance and reporting. The Company generally does not request such services from the independent registered public accounting firm.
- **All Other** services are those services not captured in the audit, audit-related or tax categories. The Company generally does not request such services from the independent registered public accounting firm.

The Audit Committee requires the independent registered public accounting firm and management to report actual fees versus the budget periodically throughout the year by category of service. During the year, circumstances may arise when it may become necessary to engage the independent registered public accounting firm for additional services not contemplated in the original pre-approval categories. In those instances, the Audit Committee requires specific pre-approval before engaging the independent registered public accounting firm. The Audit Committee may delegate pre-approval authority to one or more of its members. The member to whom such authority is delegated must report any pre-approval decisions to the Audit Committee at its next scheduled meeting.

AUDIT COMMITTEE REPORT

The information contained in this report shall not be deemed to be “soliciting material” or “filed” or incorporated by reference in future filings with the Commission, or subject to the liabilities of Section 18 of the Exchange Act, except to the extent that we specifically incorporate it by reference into a document filed under the Securities Act of 1933, as amended, or the Exchange Act.

We, the members of the Audit Committee, represent the following:

1. The Audit Committee has reviewed and discussed Merge Healthcare’s audited financial statements with management;
2. The Audit Committee has discussed with BDO Seidman, LLP, Merge Healthcare’s independent registered public accounting firm for fiscal year 2009, the matters required to be discussed by Statement of Auditing Standards No. 61 (Codification of Statements on Auditing Standards), as may be modified or supplemented;
3. The Audit Committee has received the written disclosures and the letter from BDO Seidman, LLP required by the Public Company Accounting Oversight Board rule that relates to independence (Rule 3526), as may be

modified or supplemented, and has discussed with BDO Seidman, LLP, its independence as Merge Healthcare's independent registered public accounting firm; and

4. Based on the review and discussions referred to above, the Audit Committee recommended to our Board that the audited financial statements be included in Merge Healthcare's Annual Report on Form 10-K for the year ended December 31, 2008, for filing with the Commission.

CERTIFICATION

Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

I, Justin C. Dearborn, certify that:

1. I have reviewed the annual report on Form 10-K of Merge Healthcare Incorporated, as amended by Amendment No. 1 and this Amendment No. 2 (together, this "report");
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation;
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's Board of Directors (or such other persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
