REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Administrative Committee
Revised Profit Sharing Plan for the
Employees of the Government Employees Companies
Chevy Chase, Maryland

We have audited the accompanying statements of net assets available for plan benefits of the Revised Profit Sharing Plan for the Employees of the Government Employees Companies (the "Plan") as of December 31, 2009 and 2008, and the related statements of changes in net assets available for plan benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2009 and 2008, and the changes in net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying Supplemental Schedule of Assets Held for Investment Purposes at December 31, 2009 and the Schedule of Reportable Transactions for the year ended December 31, 2009 are presented for the purpose of additional analysis and are not required parts of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"). These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in our audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

REVISED PROFIT SHARING PLAN
FOR THE EMPLOYEES OF THE GOVERNMENT EMPLOYEES COMPANIES

NOTES TO THE FINANCIAL STATEMENTS

Years ended December 31, 2009 and 2008

NOTE A – DESCRIPTION OF PLAN

The following description of the Revised Profit Sharing Plan for the Employees of the Government Employees Companies (the Plan) provides only general information. Participants should refer to the Plan document for a complete description. The Government Employees Companies (the Companies) include GEICO Corporation and certain of its subsidiaries.

Non-highly compensated participants may contribute up to 50 percent of earnings and highly compensated participants are limited to 6 percent, subject to the maximum dollar amount permitted by the Internal Revenue Code. Eligible participants may also make additional “catch-up” contributions as allowed by the Internal Revenue Code. Participants may allocate their contributions between tax-deferred accounts and, beginning November 1, 2007, Roth accounts. At the discretion of the Board of Directors of GEICO Corporation, the Companies may contribute an amount to be shared by all eligible employees based on each individual’s planning center performance and earnings.

Employees automatically become eligible to make a 401(k) elective contribution to the Plan upon their date of hire and are generally eligible to receive a Company contribution after completing one year of service. Vesting is based on years of service at the following rates: 20 percent after two years, 40 percent after three years, 60 percent after four years, 80 percent after five years, and 100 percent after six years.

Withdrawals may be made from after-tax employee contributions and vested employer contributions made prior to January 1, 1993, subject to certain restrictions. Vested employer contributions made after January 1, 1993 can only be withdrawn under hardship conditions or after attainment of age 55. Tax-deferred contributions can only be withdrawn under hardship conditions or after attainment of age 59½. Roth contributions and earnings can be withdrawn tax free after the employee has completed five years of participation and the attainment of age 59½. The five year period begins with the first day of the employee’s taxable year in which he or she first made the Roth contribution. The employee can withdraw his contributions or earnings in any combination he desires before the five year period and attainment of age 59½ but the earnings are subject to taxation.

On termination of service due to death, disability or retirement, a participant or beneficiary may elect to receive an amount equal to the value of the participant’s vested interest in his or her account in either a lump-sum amount or in monthly or annual installments which provide payments for a period certain of 5, 10 or 15 years. For termination of service due to other

NOTE A – DESCRIPTION OF PLAN - CONTINUED

reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

The Plan allows participants to borrow funds from their vested accounts subject to certain restrictions. Payroll deductions are required to repay loans over five years or less except in the case of a mortgage-related loan which may be repaid over a period of up to fifteen years. The interest rate is fixed for the term of the loan at the commercial rate of interest charged by area banks on loans which are made under similar circumstances. When a participant terminates, any loan balance must be repaid prior to any account distribution.

Although they have not expressed any intent to do so, the Companies have the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

NOTE B – SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States.

Subsequent Events: The Plan has performed an evaluation of subsequent events and has considered relevant matters in the preparation of the financial statements and footnotes.

Use of Estimates: Preparation of financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Investments: Investments, except for participant loans and fully benefit-responsive investment contracts, are stated at aggregate fair value based upon quoted market prices. Participant loans are stated at their outstanding principal balances, which approximates fair value. Fully benefit-responsive investment contracts are reported in investments at fair value and in net assets at contract value with an adjustment from fair value to contract value. Contract value is the relevant

FOR THE EMPLOYEES OF THE GOVERNMENT EMPLOYEES COMPANIES

NOTES TO THE FINANCIAL STATEMENTS

NOTE B – SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

measurement attribute for that portion of net assets available for benefits because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The appreciation or depreciation in the aggregate fair value of investments is attributable to those investments stated at quoted market prices, and is reflected in the statements of changes in net assets. Net realized gains and losses on security sales are determined using the average cost of investments.

Fully benefit-responsive investment contracts consisted of the Vanguard Retirement Savings Trust (VRST) until April 7, 2009 when all balances were transferred to the Vanguard Prime Money Market Fund. The VRST is a collective trust fund investing primarily in investment contracts issued by insurance companies and commercial banks and similar types of fixed-principal investments. The fair value of the VRST is determined from the aggregate market values of its underlying investments.

Administrative Expenses: Most administrative expenses are paid by the Companies. Other deductions may include administrative expenses for record-keeping and transaction fees, which are paid by the Plan from forfeitures.

New Accounting Standard: In 2009, the Financial Accounting Standards Board established the FASB Accounting Standards Codification (the Codification) as the source of accounting principles generally accepted in the United States of America (GAAP) through the integration of then current accounting standards from several sources into a single source. The Codification did not affect the content or application of GAAP that was in effect and had no material impact on the Plan financial statements.

NOTE C – INVESTMENT OPTIONS

Participants can direct all contributions to their accounts to a variety of investment alternatives. In the event that a participant does not make an election to direct employee or employer contributions, such contributions are invested in a default fund which was the Vanguard Treasury Money Market Fund - U.S. Treasury Portfolio until December 31, 2008. Beginning January 2, 2009, the default fund became the Vanguard Target Retirement Fund with the target date closest to the year in which the participant will turn age 65.

NOTES TO THE FINANCIAL STATEMENTS

NOTE D – INVESTMENTS - CONTINUED

A three-level hierarchy exists that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure the assets or liabilities fall within different levels of the hierarchy, the classification is based on the lowest input that is significant to the fair value measurement of the asset or liability. Classification of assets and liabilities within the hierarchy considers the markets in which the assets and liabilities are traded and the reliability and transparency of the assumptions used to determine fair value. The hierarchy requires the use of observable market data when available. The levels of the hierarchy and those investments included in each are as follows:

Level 1 – Inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities traded in active markets.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability and market-corroborated inputs.

Level 3 – Inputs to the valuation methodology are unobservable for the asset or liability and are significant to the fair value measurement.

These valuation techniques involve some level of management estimation and judgment. Where appropriate, adjustments are included to reflect the risk inherent in a particular methodology, model or input used and are reflective of the assumptions that market participants would use in valuing assets or liabilities.

NOTE E – WITHDRAWALS AND FORFEITURES

Following is a summary of terminations, withdrawals and forfeitures for the years ending December 31:

	<u>2009</u>	<u>2008</u>
Terminations and Withdrawals	\$76,306,698	\$97,052,032
Forfeitures	4,258,898	4,274,366

Forfeitures represent only non-vested company contributions. Forfeitures in excess of the Trustee's record-keeping fees are allocated proportionately among remaining active participants as of December 31 of each year based on the participant's earnings for that year.

NOTE F – FEDERAL TAXES

The Plan is exempt from taxation in accordance with the provisions of Section 501(a) of the Internal Revenue Code. Employer contributions and income earned from Plan investments are not taxable to participants until distributed. Employee contributions made from earnings on a pre-tax basis will be taxed upon distribution. Employee contributions made from earnings on an after-tax basis (which were permitted prior to 1998) will not be subject to additional income tax upon distribution. Pre-tax distributions and earnings may be subject to an excise tax when distributed.

The Plan obtained its latest determination letter on June 12, 2007, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is currently designed and being operated in compliance with applicable requirements of the Internal Revenue Code.

NOTE G – PARTY IN INTEREST TRANSACTIONS

The Plan includes investments in shares of mutual funds and shares of a fund of common stock issued by Berkshire Hathaway Inc., the ultimate parent company of GEICO Corporation. The funds are managed by an affiliate of Vanguard Fiduciary Trust Company (VFTC). VFTC acts as trustee for only those investments as defined by the Plan. Transactions in such investments qualify as party-in-interest transactions which are exempt from the prohibited transaction rules.

Change in net assets available for plan benefits per Form 5500	<u>\$ 310,987,838</u>	<u>\$ (246,026,696)</u>

NOTE I – RISKS AND UNCERTAINTIES

The Plan includes investments in various securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for plan benefits.
