Report of Independent Registered Public Accounting Firm

Plan Administrator and Participants Elano Profit Sharing Plan:

We have audited the accompanying Statements of Net Assets Available for Plan Benefits of the Elano Profit Sharing Plan (the "Plan") as of December 31, 2009 and 2008, and the related Statements of Changes in Net Assets Available for Plan Benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of the Elano Profit Sharing Plan as of December 31, 2009 and 2008, and the changes in net assets available for plan benefits for the years then ended, in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule H, line 4i – schedule of assets (held at end of year) as of December 31, 2009 and schedule H, line 4a – schedule of delinquent participant contributions for the year ended December 31, 2009 are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements, and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Notes to Financial Statements December 31, 2009 and 2008

(1) Description of the Plan

The Elano Profit Sharing Plan (the "Plan") is a defined contribution plan covering all employees of the Elano Division of Unison Industries, LLC (the "Company"), whose ultimate parent is General Electric Company ("GE"), who have been credited with at least ninety days of service. The Plan is subject to applicable provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

MG Trust Company, L.L.C. ("MG Trust") is the Plan's custodian and trustee and Ascensus, Inc. is the record-keeper.

The following description of the Plan is provided for general information purposes only. The complete terms of the Plan are provided in the Elano Profit Sharing Plan document (the "Plan Document"). Additional Plan information including benefits, investment options, vesting provisions and effects of plan termination is included in Plan handbooks and other material distributed to participants.

Participant Contributions and Investment Options

Effective November 2009, participants are permitted to allocate their account balances in increments of 1% (prior to November 2009 in increments of 5%) to one or more of the following investment options:

- (a) GE Common Stock Fund This fund primarily invests in shares of GE Common Stock, with a small portion of the fund held in cash or other short-term investments to provide liquidity.
- (b) State Street Global Advisors (SSgA) S&P 500 Index Fund This fund seeks to replicate the total return of the Standard & Poor's 500 Composite Stock Price Index (the "Index"). The fund invests primarily in stocks in the Index in proportion to their weightings in the Index.
- (c) GE Institutional Income Fund This fund seeks maximum income consistent with prudent investment management and the preservation of capital by investing at least 80% of its net assets in debt securities under normal market conditions.
- (d) GE Institutional International Equity Fund This fund seeks long-term capital appreciation. The fund invests primarily in securities issued in at least three foreign countries, including both developed and emerging markets. It normally invests in established companies, but it may invest in companies of varying sizes.
- (e) GE Institutional U.S. Equity Fund This fund seeks long-term growth of capital. The fund invests primarily in equity securities of U.S. companies. To a lesser extent, the fund may also invest in foreign securities and debt securities.
- (f) GE Institutional Strategic Investment Fund This fund seeks to maximize total return by following an asset allocation strategy contemplating shifts among a range of investments including U.S. and foreign stocks, bonds, money market instruments, and other debt securities.
 - On June 12, 2009 the GE Institutional Strategic Investment Fund replaced the GE Aggressive Allocation Fund, the GE Moderate Allocation Fund and the GE Conservative Allocation Fund. This fund seeks to maximize total return by following an asset allocation strategy contemplating shifts among a range of investments including U.S. and foreign stocks, bonds, money market instruments, and other debt securities.
- (g) American Funds Growth Fund of America This fund seeks to provide shareholders with growth of capital by investing in companies with a history of rapidly growing earnings and generally higher price-to-earnings ratios.
- (h) Columbia Acorn Select Fund This fund seeks long-term growth of capital by investing in a limited number of U.S. companies (between 20-40) with market capitalizations under \$20 billion at the time of purchase.

Notes to Financial Statements

December 31, 2009 and 2008

(i) Vanguard Target Retirement Funds – On November 2, 2009, the Vanguard Target Retirement Funds were added as new investment options for the Plan. The Vanguard Target Retirement Funds is a group of mutual funds that separately invest in up to seven other Vanguard stock, bond, and money market mutual funds.

Vanguard Target Retirement 2010

Vanguard Target Retirement 2015

Vanguard Target Retirement 2020

Vanguard Target Retirement 2025

Vanguard Target Retirement 2030

Vanguard Target Retirement 2035

Vanguard Target Retirement 2040

Vanguard Target Retirement 2045

Vanguard Target Retirement 2050

The Vanguard Target Retirement Income Fund is designed for investors currently in retirement, and its investments are expected to remain stable over time. The other Vanguard Target Retirement Funds are designed for investors who plan to retire close to the year indicated in the Funds' names. These Funds' asset allocations will become more conservative over time as the target retirement date draws closer.

(j) Galliard Capital Management Stable Value Fund ("Stable Value Fund") – This fund's primary objective is to preserve principal while achieving a rate of return competitive with rates earned over an extended period of time by comparable fixed income investment products. This fund invests primarily in pooled investment contracts with short-term maturities. On February 27, 2009, the Galliard Capital Management Stable Value Fund replaced the State Street Stable Income Fund.

Audited financial statements and prospectuses or other disclosure documents of the registered investment companies ("mutual funds") are made available to participants annually.

Participants may elect to defer up to 15% of their pre-tax compensation subject to limitations imposed by law. In addition, hourly participants may elect to make after-tax contributions in an amount equal to 3% of their compensation. Participants may also contribute amounts as "rollover" provisions representing distributions from other qualified defined benefit or defined contribution plans of a former employer.

All eligible employees who are projected to attain age 50 before the end of the year will be eligible to make additional catch-up contributions in accordance with certain regulations.

The Internal Revenue Code limits participant pre-tax contributions. The limits for participants were generally \$16,500 and \$15,500 in 2009 and 2008, respectively. For participants eligible to make catch-up contributions, the 2009 and 2008 limits on catch-up contributions were generally \$5,500 and \$5,000, respectively.

Employer Contributions

The Company will make a matching contribution in an amount equal to 6% of their eligible compensation for eligible hourly employees contributing 3% of their eligible compensation on an after tax basis.

Notes to Financial Statements
December 31, 2009 and 2008

The Company may, in its sole discretion, make profit sharing contributions for eligible salaried employees in an amount determined by its board of directors. Participants must be (a) employed by the Company on the last day of the year or (b) not employed on the last day of the year because of death, retirement, or termination of employment on account of disability during the plan year in order to share in the contribution. The Company is not required to make any profit sharing contribution for any plan year.

For December 31, 2009 and 2008, the Company made profit sharing contributions of \$1,433,092 and \$1,409,747 respectively, which represented 15% of participant eligible participants' compensation for both years.

Vesting

The Plan provides for participants to be 20% vested in Company contributions after completion of two years of service, plus an additional 20% for the completion of each subsequent year of service during the following four years. Participants are always 100% vested in their pre-tax and after-tax contributions, catch up contributions and rollover contributions, plus any earnings they generate.

Forfeitures

As of December 31, 2009 and 2008, forfeited non-vested amounts (including unrealized appreciation) totaled \$25,121 and \$16,500, respectively. During 2009, forfeitures amounting to \$15,712 and \$10,176 were utilized to pay Plan expenses and reduce Company contributions, respectively. In 2008, forfeitures amounting to \$34,315 and \$19,303 were utilized to pay Plan expenses and reduce Company contributions, respectively. Gains/(Losses) on earnings of forfeiture balances were \$643 and (\$3,777) during 2009 and 2008, respectively. Additions to forfeiture balances were \$51,411 and \$35,458 during 2009 and 2008. There were other reductions in forfeitures of \$17,545 in 2009. There were no such reductions in 2008.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocation of (a) employer matching contributions and (b) earnings. The benefit to which a participant is entitled is the value of the participant's vested account.

Loans to Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 minus their highest outstanding balance of loans from the Company and GE and its subsidiaries (Affiliated Plans) during the past 12 months or 50% of their vested account balance. There is a \$50 charge for each loan.

The period of repayment of any loan is up to 4.5 years from the effective date of the loan unless the loan is used to acquire a principal residence for which a term of up to 10 years may be permissible. Loans are secured by the remaining balance in the participant's account and bear interest at an effective annual percentage rate which is 1% above the prime interest rate in effect as of the last business day before the month in which the loan is requested. Repayment, with interest, is made through payroll deductions.

In the event of a loan default, the amount of the outstanding balance will be reported to the IRS in the year of default as ordinary income.

Loans to participants at December 31, 2009 and 2008 were \$547,803 and \$556,343, respectively. Interest from loans to participants for the years ended December 31, 2009 and 2008 was \$33,821 and \$41,851, respectively.

Notes to Financial Statements December 31, 2009 and 2008

Payment of Benefits

Subject to certain limitations, a participant (or designated beneficiary) may withdraw all or a portion of his or her after-tax contributions, including earnings thereon. Generally, before-tax contributions and rollovers may not be withdrawn while employed by the Company prior to age 59½. Company contributions may be withdrawn while a participant is employed by the Company prior to age 70½. In the case of a hardship, a participant may elect to withdraw, as applicable, all or a portion of pre-tax contributions, excluding earnings thereon, after-tax contributions (hourly employees only) and, rollover contributions, including earnings thereon. In order to make a hardship withdrawal, a participant must first withdraw the maximum after-tax contributions and nontaxable loans. A participant who makes a hardship withdrawal will be suspended from the Plan for 6 months after the hardship distribution.

On termination of service due to death, disability, or retirement, a participant (or designated beneficiary) may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant may elect to receive the value of the vested interest in his or her account as a lump-sum distribution, or if he or she qualifies, as an installment or a direct rollover.

Administrative and Investment Advisor Costs

Expenses related to the administration of the Plan, including record-keeping expenses and Trustee's fees, are liabilities of the Plan. However, the Company may choose to pay these expenses. For the mutual funds, investment advisers are reimbursed for costs incurred or receive a management fee for providing investment advisory services. These reimbursed costs and management fees are reflected in the net appreciation/(depreciation) in the fair value of investments on the Statement of Changes in Net Assets Available for Plan Benefits.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Plan's investment in the Stable Value Fund included in the Statements of Net Assets Available for Plan Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Plan Benefits is prepared on a contract value basis.

(b) Accounting Changes

The Financial Accounting Standards Board (FASB) has made the Accounting Standards Codification (ASC) effective for financial statements issued for interim and annual periods ending after September 15, 2009. The ASC combines all previously issued authoritative U.S. generally accepted accounting principles (GAAP) into one codified set of guidance organized by subject area. In these financial statements, references to previously issued accounting standards have been replaced with the relevant ASC references. Subsequent revisions to GAAP by the FASB will be incorporated into the ASC through issuance of Accounting Standards Updates (ASU).

(c) Investments

Plan investments are reported at fair value. See notes 3 and 4 for additional information.

Notes to Financial Statements December 31, 2009 and 2008

Investment transactions are recorded on a trade date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Earnings from the Stable Value Fund are reinvested in the fund and reflected in dividends and interest.

(d) Fair Value Measurements

We adopted ASC 820, Fair Value Measurement and Disclosures for all financial investments accounted for at fair value.

For financial assets and liabilities fair valued on a recurring basis, fair value is the price the Plan would receive to sell an asset or pay to transfer a liability in an orderly transaction with a market participant at the measurement date. In the absence of active markets for the identical assets and liabilities, such measurements involve developing assumptions based on market observable data and, in the absence of such data, internal information that is consistent with what market participants would use in a hypothetical transaction that occurs at the measurement date.

Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect our market assumptions. Preference is given to observable inputs. These two types of inputs create the following fair value hierarchy:

Level 1 - Quoted prices for identical investments in active markets.

Level 2 - Quoted prices for similar investments in active markets; quoted prices for identical or similar investments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.

Level 3 - Significant inputs to the valuation model are unobservable.

We maintain policies and procedures to value investments using the best and most relevant data available. In addition, we retained independent pricing vendors to assist in valuing certain instruments.

The following section describes the valuation methodologies we use to measure investments at fair value.

When available, we use quoted market prices to determine the fair value of investment securities, and they are included in Level 1. Level 1 securities primarily include registered investment companies.

The Plan's ownership in the collective funds and the GE Common Stock Fund are carried at fair value based on the investment's net asset value per unit and included in Level 2.

When quoted market prices are unobservable, we obtain pricing information from an independent pricing vendor. The pricing vendor uses various pricing models for each asset class that are consistent with what other market participants would use. The pricing vendor considers available market observable inputs in determining the evaluation for a security. Thus, certain securities may not be priced using quoted prices, but rather determined from market observable information. In infrequent circumstances, our pricing vendors may provide us with valuations that are based on significant unobservable inputs, and in those circumstances we classify the investment securities in Level 3.

See note 4 for additional information.

(e) Loans to Participants

Loans to participants equal the outstanding principal balance plus accrued interest, which approximates fair value.

Notes to Financial Statements December 31, 2009 and 2008

(f) Payment of Benefits

Benefit payments are recorded when paid to participants.

(g) Expenses

Substantially all expenses related to administration of the Plan are paid by the Company, with the exception of the Plan's loan expenses, which are paid by the Plan's trustee out of the respective participant's investment fund's assets.

(h) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management of the Plan to make estimates and assumptions that affect the reported amount of assets, liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

(i) Reclassifications

Certain prior year amounts have been reclassified to conform to current year presentation.

Notes to Financial Statements December 31, 2009 and 2008

The Plan's investments (including gains and losses on investments bought, sold, as well as held during the year) appreciated/(depreciated) during 2009 and 2008 as follows:

	<u>2009</u>		<u>2008</u>
GE Common Stock Fund Mutual funds	\$ 354,111 5,744,315	\$	(7,579,487) (14,000,507)
Total	\$ 6,098,426	. \$_	(21,579,994)

Dividends and interest for the years ended December 31, 2009 and 2008 were \$1,023,252 and \$1,800,336, respectively.

The average yield of the underlying assets earned by the Plan from the Stable Value Fund was 3.02% and 2.96% at December 31, 2009 and 2008, respectively. The average crediting interest rate was 2.88% and 3.48% at December 31, 2009 and 2008, respectively.

(4) Fair Value Measurements

We adopted ASC 820 effective January 1, 2008 for all financial investments accounted for at fair value. This guidance establishes a new framework for measuring fair value and expands related disclosures. Broadly, the framework requires fair value to be determined based on the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants. It also established a three-level valuation hierarchy based upon observable and non-observable inputs.

The following table presents the Plan's investments measured at fair value on a recurring basis at December 31, 2009:

		Level 1	Level 2 Level 3 (in thousands)			Level 3 ds)	<u>Total</u>
GE Common Stock Fund	\$		\$	9,364	\$	\$_	9,364
Mutual funds		32,801			_		32,801

Notes to Financial Statements December 31, 2009 and 2008

The following table presents the Plan's investments measured at fair value on a recurring basis at December 31, 2008:

		Level 1	Level 2 (in the	ousar	Level 3 ands)	Total
GE Common Stock Fund	\$	\$	7,438	. \$_	\$	7,438

Transfers in and out of Level 3 are considered to occur at the beginning of the period. There were no transfers during 2009 or 2008.

(5) Risks and Uncertainties

The Plan offers a number of investment options including GE Common Stock Fund, a variety of mutual funds and a collective trust fund. The funds invest in U.S. equities, international equities, and fixed income securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is reasonable to expect that changes in the values of investment securities will occur (including in the near term) and that such changes could materially affect participant account balances and amounts reported in the Statements of Net Assets Available for Plan Benefits.

The Plan's exposure to a concentration of credit risk is limited by the opportunity to diversify investments across ten participant-directed fund elections. Additionally, the investments within each participant-directed fund election are further diversified into varied financial instruments, with the exception of GE Common Stock Fund, which primarily invests in a single security.

(6) Related Party Transactions (Parties in Interest)

The record-keeping function for the underlying investments held by the Plan are performed by Ascensus, Inc. Certain investments of the Plan are shares of mutual funds that are advised by GE Asset Management Incorporated ("GEAM") and distributed by GE Investment Distributors, Inc., affiliates of the Company. GEAM provides investment advisory services for certain investments in the Plan. Another investment in the Plan is an investment fund comprised of shares of common stock issued by GE, the ultimate parent of the Company.

Certain fees paid to related parties for services to the Plan were paid by the Plan or an Affiliated Plan. Mutual fund and collective trust fund operating expenses, which include expenses paid to GEAM and Ascensus, Inc., come out of the fund's assets and are reflected in the fund's share/unit price and dividends.

(7) Income Tax Status

The Internal Revenue Service has notified the Company by a letter dated March 14, 2003 that the Plan is qualified under the appropriate sections of the Internal Revenue Code. The Plan has been amended since that letter was issued. However, Plan management and legal counsel for the Plan have no reason to believe that those amendments have adversely affected the validity of the determination letter.

Notes to Financial Statements
December 31, 2009 and 2008

The portion of a participant's compensation contributed to the Plan as a pre-tax contribution and the Company's matching contribution and profit sharing contribution are not subject to Federal income tax when such contributions are credited to participant accounts, subject to certain limitations. These amounts and any investment earnings may be included in the participant's gross taxable income for the year in which such amounts are withdrawn from the Plan.

During 2009, the Company identified errors related to compensation for 1 participant which was not properly reflected on the payroll system. The error resulted in the late remittance of employee contributions and employer match in the amounts of \$2 and \$5, respectively, as prescribed by Department of Labor regulations. In addition, an audit of retroactive payments identified two other instances where employee contributions and employer match were not remitted on time in the amounts of \$31 and \$62, respectively. The Company made contributions to the affected participants' accounts to compensate those employees an aggregate of \$108 for potential lost income due to the delays. The Company has taken corrective actions.

(8) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan, to the extent permitted by law, to discontinue contributions and to terminate the Plan in accordance with the provisions of ERISA. If the Plan is terminated or has a partial termination, net assets will be distributed to participants and beneficiaries in proportion to their respective account balances.

(9) Reconciliation of Financial Statements to Form 5500

Loans to participants are classified as investments per the Form 5500. The following is a reconciliation of total investments per the financial statements at December 31, 2009 and 2008 to the annual report filed on Form 5500, Schedule H as required by the Department of Labor:
