(Supplemental schedules not listed are omitted due to the absence of conditions under which they are required.)

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Trustees and Participants of
Kmart Retirement Savings Plan for Puerto Rico Employees:

We have audited the accompanying statements of net assets available for benefits of Kmart Retirement Savings Plan for Puerto Rico Employees (the "Plan") as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstance, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2009 and 2008, and the changes in net assets available for benefits for the year ended December 31, 2009 in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2009, is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplementary information by fund in the statements of net assets available for benefits and the statement of changes in net assets available for benefits is presented for the purpose of additional analysis rather than to present the net assets available for benefits and changes in net assets available for benefits of the individual funds. The supplemental schedule and supplementary information by fund are the responsibility of the Plan's management. Such supplemental schedule and supplementary information by fund have been subjected to the auditing procedures applied in our audits of the basic financial statements and, in our opinion, are fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

KMART RETIREMENT SAVINGS PLAN FOR PUERTO RICO EMPLOYEES

NOTES TO FINANCIAL STATEMENTS YEARS ENDED DECEMBER 31, 2009 AND 2008

1. DESCRIPTION OF PLAN

History and Purpose - Kmart Holding Corporation (“Kmart” or the “Company”) established the Kmart Retirement Savings Plan for Puerto Rico Employees (the “Plan”) by the execution and adoption of a plan document (the “Plan Document”), dated April 1, 2005. The Plan was established for the benefit of employees of Kmart who reside in the Commonwealth of Puerto Rico. Prior to April 1, 2005, Kmart Puerto Rico employees participated in the Kmart Retirement Savings Plan (the “Kmart RSP”). The Plan Document has been amended from time to time, and was fully amended and restated as of October 1, 2008. The following description of the Plan provides only general information. Participants should refer to the Plan Document for complete information.

Plan assets are held for safekeeping and commingled for investment purposes with the participating plans under The Sears Holdings 401(k) Savings Plan Master Trust (the “Master Trust”), based on a custodial arrangement between the trustee for this Plan and the trustee for the Master Trust. The other participating plans in the Master Trust currently include Sears Holdings 401(k) Savings Plan (the “Sears Plan”) and the Sears Puerto Rico Savings Plan (the “Sears Puerto Rico Plan”).

In March 2005, Kmart merged with Sears, Roebuck and Co. and became a wholly-owned subsidiary of Sears Holdings Corporation (“Holdings”). Kmart continues to sponsor the Plan.

Administration - The administration of the Plan’s operations is the sole responsibility of the Plan Administrator. The Sears Holdings Corporation Administrative Committee (“Administrative Committee”) is Plan Administrator for all purposes of the Employee Retirement Income Security Act of 1974 (“ERISA”). The members of this committee are employees of Sears Holdings Corporation and Sears Holdings Management Corporation.

Banco Popular de Puerto Rico has been appointed and serves as trustee of the Plan’s trust (the “PR Trust”). State Street Bank and Trust Company (“State Street”) serves as the trustee (the “Master Trustee”) for the Master Trust and holds the investments of the Plan under the terms of a trust agreement. State Street is the custodian of the PR Trust. Prior to July 1, 2008, CitiStreet LLC, a joint venture of State Street Corporation and Citigroup, served as the Plan recordkeeper. Effective July 1, 2008, ING Group acquired 100% of CitiStreet LLC and renamed it as ING Institutional Plan Services (“ING”). In its new form, ING continues as the Plan’s recordkeeper.

Kmart, the Administrative Committee, and the Sears Holdings Corporation Investment Committee (“Investment Committee”) (also consisting of employees of Sears Holdings Corporation and Sears Holdings Management Corporation), are the named fiduciaries under the Plan. The Investment Committee has authority relating to the acquisition, retention, and disposition of Plan assets and the appointment, retention, and termination of investment managers. Towers Watson Investment Services, Inc. (formerly Watson Wyatt Investment Consulting) has been appointed to serve as investment advisor.

Certain expenses incurred in connection with the operation of the Plan are paid from Master Trust assets. Brokers’ commissions and related expenses on transactions in portfolio securities are also paid

from Master Trust assets. Compensation to members of the Investment Committee is paid by the applicable employer, not the Plan or Master Trust.

Eligibility - An employee of Kmart, Kmart Management Corporation, or Kmart Corporation (the “Employers”) who principally performs services for an Employer at one or more of the Employer’s various locations in Puerto Rico (which does not include an employee where service is only incidental, minor, or irregular) is eligible for participation on the first day of the third month following the date of hire.

Participants’ Contributions and Investment Options - An eligible employee becomes a participant by electing to make contributions to the Plan and properly completing the enrollment process. Except as may be limited by applicable Puerto Rico law, a participant may contribute up to an aggregate 10 percent of eligible annual compensation through a combination of pre-tax and after-tax contributions. Participants turning age 50 or older during a plan year are eligible to make an additional pre-tax “catch-up” contribution up to the applicable Puerto Rico Internal Revenue Code catch-up contribution limit.

Participants may direct that pre-tax and after-tax contributions be invested in any combination of the following investment funds: the Sears Holdings Corporation Stock Fund (“Holdings Stock Fund”), which invests principally in Sears Holdings Corporation stock; the Stable Value Fund; the Bond Fund; the S&P 500 Index Fund; the Small-Mid Cap Value Fund; the Small-Mid Cap Growth Fund; the Large Cap Value Fund; the Large Cap Growth Fund; the International Equity Fund; any of five Target Retirement Funds; and the Self-Managed Brokerage Fund, through which a participant may invest in any number of mutual funds, common stock and other investments. Participants are immediately fully vested in their contributions and earnings thereon.

The Kmart Stable Value Fund and the Kmart Conservative and Moderate Portfolios have continued in the Plan as legacy funds, to which participants could make no further contributions. Assets remaining invested in these funds were transferred to comparable investment options over a three-year period that ended on March 31, 2009.

Employer Contributions - Through payroll periods ending January 31, 2009, the Company matching contribution was fixed at 100 percent of a participant’s pre-tax and/or after-tax contributions up to the first three percent of eligible compensation and 50 percent of the pre-tax and/or after-tax contributions the participant made on the next two percent of eligible compensation. The Plan was amended to suspend the employer matching contribution on any pre-tax or after-tax contributions for payroll periods that end after January 31, 2009, until further amendment of the Plan.

Prior to the suspension of matching contributions, the Plan allowed for the Company matching contribution to be made quarterly and to be payable in cash or stock, or a combination of both. If in cash, it was invested based on participants’ pre-tax contribution elections, or after-tax elections if there is no pre-tax election. If in stock, it was invested in the Holdings Stock Fund. Contributions are available for diversification immediately upon deposit. Contributions for the year ended December 31, 2009 were in cash.

Prior to the suspension of matching contributions, to be eligible for the Company matching contribution, a participant must have had one year of service and been credited with 1,000 hours of service by that date. Effective for pay periods on or after April 1, 2005, participants are immediately fully vested in Company matching contributions. For assets transferred from the Kmart RSP, participants are or become vested in Company contributions made prior to April 1, 2005 based on the applicable vesting schedules in effect prior to April 1, 2006, the date of that transfer. Participants should refer to the Plan document for a more complete description of the Plan’s vesting provisions.

The Plan includes a provision that allows for discretionary matching contributions. Discretionary matching contributions, if any, are subject to a three-year cliff vesting schedule. There were no discretionary matching contributions in 2009 and 2008.

Participant Accounts - Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, allocation of the Company's contribution and earnings and losses thereon, and is charged with withdrawals and an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan Document.

Participant Loans - Active participants may borrow from their Plan up to the lesser of \$50,000 or 50 percent of the vested account balance. Loans are repaid through payroll deductions over any number of months or up to five years (or fifteen years for a loan for the initial purchase of a principal residence of the participant). The interest rate is the prime rate plus one percent as of the date the loan is issued.

Withdrawals - Upon termination of employment, a participant is entitled to a complete withdrawal of his or her account as of the latest posting valuation preceding the date on which payment is made. Partial in-service withdrawals are permitted in accordance with the withdrawal provisions set forth in the Plan Document and do not terminate participation but are subject to restrictions on participant balances.

Forfeited Accounts - At December 31, 2009 and 2008, forfeited nonvested employer contributions totaled \$570 and \$441, respectively. Forfeitures are used to reinstate previously forfeited balances of rehired employees, pay reasonable expenses of the Plan, and offset future employer contributions. For the year ended December 31, 2009, no forfeitures were used to offset employer contributions.

Termination of Participation - Active participation in the Plan ceases after termination of employment. Any participant terminating with account balances in excess of \$1,000, who defers distribution of his or her account balances, remains a participant until the participant receives a full distribution of his or her account balances.

Amendment, Suspension, or Termination of the Plan - Although it has not expressed any intent to do so, the Board of Directors of the Company may, at its sole discretion, amend, suspend, or terminate the Plan at any time, provided, however, that no amendment, suspension, or termination of the Plan shall have any effect of diverting the assets of the funds to purposes other than the exclusive benefit of participants and their beneficiaries, or the payment of reasonable administrative expenses of the Plan. Further, the Board of Directors of the Company approved the delegation of amendment authority to the Administrative Committee. In the event of the Plan's termination, each participant's account balance will be fully vested. The assets of the Plan shall be distributed to Plan participants on the basis of their respective interests in the Plan, as soon as practicable, to the extent permitted by the Internal Revenue Code.

ERISA - The Plan is subject to certain provisions of Titles I and II of ERISA relating to reporting and disclosure, participation and vesting, and fiduciary responsibility. The Plan is not subject to the minimum funding standards of Titles I and II and the provisions of Title IV of ERISA, which provide for insurance of benefits payable on Plan termination.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following are the significant accounting policies followed by the Plan:

Basis of Accounting - The Plan's financial statements are prepared in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Master Trust Investment and Income Recognition - Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date and interest income is recorded as earned.

The Master Trust's investment in various common collective trusts is broadly diversified among various market capitalizations, growth and value investment styles, yields, maturities, and market indices. These common collective trusts are primarily invested in publicly traded securities and have a variety of investment asset classes including equity funds, fixed income funds, and balanced funds.

Fully Benefit-Responsive Investment Contracts - The statements of net assets available for benefits present investment contracts at fair value, as well as an additional line item showing an adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Investments in the Stable Value Fund and the legacy Kmart Stable Value and Kmart Conservative and Moderate Portfolio funds are valued at fair value and then adjusted to contract value (deposits made, plus interest accrued at the contract rate, less withdrawals and fees) as described above.

Through late February 2008, the Stable Value Fund was invested in three stable value funds that were common collective investment trust funds ("trusts"). The trusts invested in guaranteed investment contracts, synthetic guaranteed investment contracts, bank investment contracts, other investment contracts, repurchase agreements, other common collective trusts, short-term investment funds or other cash equivalents. Effective in late February 2008, the investments in the Stable Value Fund were sold with 90% reinvested in three portfolios of bond investments and 10% in liquid assets comprised of a stable value common collective investment trust fund and a short-term investment fund. On behalf of the Master Trust, the Stable Value Fund investment manager entered into four synthetic investment ("wrapper") contracts with high quality insurance companies and banks ("wrapper providers") that serve to substantially offset the price fluctuations in the three portfolios of underlying assets caused by movements in interest rates. The wrapper contracts obligate the wrapper providers to maintain the contract value of the portfolios of underlying investments. Contract value is generally equal to the principal amounts invested in the portfolios, plus interest accrued at a crediting rate established under the contract, less any adjustments for withdrawals. Under the terms of the wrapper contracts, gains and losses on the underlying investments are amortized through adjustments to future contract interest crediting rates, which are reset quarterly and which cannot be less than 0%. Primary variables impacting future crediting rates of the Stable Value Fund include the current yield, duration, and existing difference between market and contract value of the underlying assets within the wrap contract.

The liquid assets may comprise from 0% to 15% of the Stable Value Fund and provide for daily participant cash flows and expenses. The average yield of the Stable Value Fund for the years ended December 31, 2009 and 2008 was 2.39% and 3.97%, respectively. The crediting interest rate at December 31, 2009 and 2008 was 2.85% and 3.61%, respectively.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their Stable Value Fund (the "Fund") investment at contract value. Contract value represents contributions made to the Fund, plus earnings, less participant withdrawals and administrative expenses. Company-initiated events, outside the normal operation of the Plan, may limit the ability of the Fund to transact at contract value. Examples of such events include, but are not limited to, failure of the Plan or its trust to qualify for federal income tax exemption under ERISA; communications given to Plan participants designed to induce them to not invest in the Fund, or to transfer assets out of the Fund; and complete or partial termination of the Plan, or adoption of a competing plan.

Through March 31, 2009, the Master Trust held investments in two fully benefit-responsive group annuity contracts with Prudential Insurance Company of America ("Prudential"). These investments were held in the legacy Kmart Stable Value Fund and the Kmart Conservative and Moderate Portfolio funds of the Plan. By letter dated February 14, 2006, Holdings gave formal notice to Prudential to terminate the contracts. Prudential agreed to liquidate the assets in four annual installments over a three-year period ending March 31, 2009, in accordance with contract provisions. Such payments were not subject to a market value adjustment. Prudential did not terminate the contracts at any amount less than contract value. These provisions of the Prudential contracts did not impact the participants' ability to transfer money from this investment. Prudential maintained the balances in individual separate accounts. Group annuity contracts are included in the financial statements at fair value as determined by Prudential and then adjusted to contract value. Fair value of the contracts was calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations. The accounts were credited daily with interest on the balances in the separate accounts. The interest rate received was established quarterly by Prudential but could not be less than three percent and was not based upon the investment performance in the separate accounts as defined by the contract with Prudential. For 2009, the average annualized earnings yield through March 31, 2009 for these contracts was 3.20%, and the average crediting rate on March 31, 2009 was 3.20%. For 2008, the average earnings yield for these contracts, computed by dividing the annualized actual earnings credited to the plan on the last day of the plan year by the end of plan year fair value, was 3.18%, and the average crediting rate, computed by dividing the annualized earnings credited to participants on the last day of the plan year by the end of plan year fair value, was 3.18%.

Interfund Transactions - All interfund transactions are made at fair value and are eliminated in combination.

Payment of Benefits - Benefit payments to participants are recorded upon distribution. Amounts allocated to accounts of participants who have elected to withdraw from the Plan but have not yet been paid at December 31, 2009 and 2008 were \$0 and \$4,600, respectively.

New Accounting Pronouncements - In June 2009, the Financial Accounting Standards Board, or FASB, issued the FASB Accounting Standards Codification ("Codification"). Beginning in the third quarter of 2009, the Codification became the single source for all authoritative generally accepted accounting principles, or GAAP, recognized by the FASB and is required to be applied to financial statements issued for annual periods ending after September 15, 2009. SEC rules and interpretive releases also continue to be sources of authoritative GAAP for SEC registrants. The Codification does not change GAAP and did not impact the financial statements of the Plan.

Disclosures about Fair Value Measurements - In January 2010, the FASB issued Accounting Standards Update No. 2010-06, "Improving Disclosures about Fair Value Measurements." The update clarifies existing disclosure and requires additional disclosures regarding fair value measurements. Effective for reporting periods beginning after December 15, 2009, entities will be required to disclose significant transfers into and out of Level 1 and 2 measurements in the fair value hierarchy and the reasons for those transfers. Effective for reporting periods beginning after December 15, 2010, entities be required to provide separate disclosures about purchases, sales, issuances, and settlements relating to Level 3 investment measurements. As this update only relates to financial statement disclosures, we do not expect it will have an impact on the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

In September 2009, the FASB issued Accounting Standards Update No. 2009-12, "Fair Value Measurements and Disclosures: Investments in Certain Entities that Calculate Net Asset per Share (or its Equivalent)." The update is effective with the first reporting period ending after December 15, 2009 and expands the required disclosures for certain investments with a reported net asset value (NAV). The standard permits, as a practical expedient, an entity holding investments in certain entities that calculate net asset value per share or its equivalent for which the fair value is not readily determinable, to measure the fair value of such investments on the basis of that net asset value per share or its equivalent without adjustment. The standard requires enhanced disclosures about the nature and risks of investments within its scope. Such disclosures include the nature of any restrictions on an investor's ability to redeem its investments at the measurement date, any unfunded commitments, and the investment strategies of the investee. This update was adopted by the Plan on a prospective basis for the year ended December 31, 2009. The adoption did not have a material impact on the fair value determination and disclosure of the applicable investments.

Disclosures About Derivative Instruments and Hedging Activities - In March 2008, the FASB issued a new standard regarding disclosures about derivative instruments and hedging activities. The standard supplements previously required disclosures with additional qualitative and quantitative information, including information regarding our use of derivatives and the effects of derivative positions on the earnings of the Plan. As of January 1, 2009, we adopted the new standard (see Note 7, "Derivative Financial Instruments"). There was no impact on the statement of net assets and statement of changes in net assets available for benefits upon adoption of this new standard.

Disclosures About Credit Derivatives - In September 2008, the FASB updated accounting standards regarding disclosures about credit derivatives and certain guarantees. This update expanded disclosures for certain derivatives subject to previously issued accounting standards for derivative instruments. This update was adopted by the Plan on a prospective basis for the year ended December 31, 2008 (see Note 7, "Derivative Financial Instruments"). The adoption had no impact on the statements of net assets available for benefits and statements of changes in net assets available for benefits.

3. INTEREST IN MASTER TRUST

Certain of the Plan's investment assets are held in a trust account with the Master Trustee and consist of an undivided interest in an investment account of The Sears Holdings 401(k) Savings Plan Master Trust, a master trust established by the Sears, Roebuck and Co. on January 1, 2005, and administered by the Master Trustee. Use of the Master Trust permits the commingling of the Plan's assets with the assets of the Sears Plan and the Sears Puerto Rico Savings Plan. Although assets of all plans are commingled in the Master Trust, the Master Trustee maintains supporting records for the purpose of allocating the net gain or loss of the investment account to the participating plans. The net investment income of the investment assets and administrative expenses are allocated daily by the Master Trustee to each participating plan based on the relationship of the interest in each plan to the total of the interests of all participating plans.

Net assets of the Master Trust as of December 31, 2009 and 2008 are summarized as follows:

(thousands of dollars)	December 31	
	2009	2008
Assets:		
Investments at fair value:		
Sears Holdings Corporation common shares*	\$ 173,033	\$ 89,122
Other common and preferred stock	404,006	268,745
Registered investment companies	117,769	92,298
Common/collective trusts	1,433,018	1,246,499
Group annuity contracts		82,152
Synthetic investment contracts	778	852
Fixed income securities	832,072	783,359
Swaps loss position		(6,595)
Short-term investments	15,299	
Collective short-term investment fund	88,051	256,735
Participant-directed brokerage account	37,341	27,450
Participant notes receivable	60,326	62,810
Total investments at fair value	<u>3,161,693</u>	<u>2,903,427</u>
Receivables:		
Dividend and interest	6,309	7,608
Currency contract receivables		2,474
Due from brokers and others	<u>71,601</u>	<u>43,316</u>
Total receivables	<u>77,910</u>	<u>53,398</u>
Cash	<u>698</u>	<u>8,551</u>
Total assets	<u>3,240,301</u>	<u>2,965,376</u>
Liabilities:		
Currency contract payables		2,385
Due to brokers and others	<u>32,946</u>	<u>153,960</u>
Total liabilities	<u>32,946</u>	<u>156,345</u>
Net assets in Master Trust at fair value	3,207,355	2,809,031
Adjustment from fair value to contract value for fully benefit-responsive investment contracts	<u>(9,534)</u>	<u>15,767</u>
Net assets in Master Trust	<u>\$ 3,197,821</u>	<u>\$ 2,824,798</u>
Plan's interest in Master Trust net assets	<u>\$ 3,908</u>	<u>\$ 3,689</u>
Plan's percentage interest in Master Trust net assets	<u>0.1%</u>	<u>0.1%</u>

* Party-in-interest

The Plan's interest in Master Trust net assets of \$3.9 million and \$3.7 million exceeds five percent of the Plan's net assets available for benefits as of December 31, 2009 and 2008, respectively.

The net investment earnings of the Master Trust for the year ended December 31, 2009 are summarized below:

(thousands of dollars)	
Dividend, interest and other income	\$ 45,830
Net appreciation (depreciation) in fair value of investments:	
Sears Holdings Corporation common shares*	97,970
Other common and preferred stock	135,887
Registered investment companies	25,882
Common/collective trusts	253,790
Group annuity contracts	619
Corporate notes and bonds	9,823
Government-backed and government agency bonds	1,067
Government notes and bonds	(1,088)
Foreign and yankee bonds	1,812
Swaps, options, futures and other	3,487
Short-term investments	1
Participant-directed brokerage accounts	9,137
Net appreciation in fair value of investments	<u>538,387</u>
Investment income of Master Trust	<u>\$ 584,217</u>
Plan's interest in Master Trust investment income	<u>\$ 694</u>

* Party-in-interest

4. FAIR VALUE MEASUREMENTS

We determine fair value of the underlying investments in the Master Trust based on a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy and the Plan's methodology for determining the fair value of the underlying investments in the Master Trust are described as follows:

Level 1 inputs: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities. An active market for the asset or liability is one in which transactions for the asset or liability occur with sufficient frequency and volume to provide ongoing price information.

Common and preferred stocks, registered investment companies (mutual funds), and U.S. government treasury and agency notes and bonds are actively traded and valued using quoted market prices. Participant-directed brokerage accounts are mainly comprised of these types of investments, and as a result, are classified as Level 1.

Level 2 inputs: Inputs other than quoted market prices included in Level 1 that are observable, either directly or indirectly, for the asset or liability. Level 2 inputs include, but are not limited to, quoted prices for similar assets or liabilities in an active market, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted market prices that are observable for the asset or liability, such as interest rate curves and yield curves observable at commonly quoted intervals, volatilities, credit risk, and default rates.

Common collective trusts are portfolios of underlying assets held by investment managers and are valued at the unit value reported by the investment managers as of the end of each period presented. Corporate bonds, asset and mortgage-backed securities, U.S. government treasury and agency notes and bonds, and other debt securities are valued using quoted market prices. These securities do not trade with sufficient frequency and volume, however, and therefore their prices are considered a Level 2 input. Interest rate and credit default swaps are valued using forward curves and credit risk spreads observable at commonly quoted intervals.

Level 3 inputs: Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

The fair value of group annuity contracts is determined by calculating the present value of future contract payments using market-based discount rates. Fair market value of synthetic investment contracts is estimated to be the difference between the current cost and replacement cost of the wrap contracts, discounted using market yields over the term of the investment. (The underlying investments in the synthetic investment contracts are assigned a fair value hierarchy based on the level of input of each individual investment.) Participant notes receivable are stated at the outstanding loan balance.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables set forth by level within the fair value hierarchy the Master Trust investment assets at fair value on a recurring basis, as of December 31, 2009 and 2008. Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. At December 31, 2009, total Master Trust investment assets at fair value classified within Level 3 were \$62.7 million, and consist primarily of participant notes receivable. At December 31, 2008, total Master Trust investment assets at fair value classified within Level 3 were \$148.1 million, which consists primarily of group annuity contracts and participant notes receivable. Such amounts were 2.0% and 5.1% of total Master Trust investments at fair value as of December 31, 2009 and 2008, respectively.

(thousands of dollars)	Investment Assets at Fair Value as of December 31, 2009			
	Level 1	Level 2	Level 3	Total
Sears Holdings Corporation common shares	\$ 173,033	\$ -	\$ -	\$ 173,033
Other common and preferred stock	403,881	125		404,006
Registered investment companies	117,769			117,769
Common/collective trusts		1,433,018		1,433,018
Synthetic investment contracts			778	778
Fixed income securities:				
Corporate bonds		304,126	1,576	305,702
Government-backed and agency bonds		182,294		182,294
Government notes and bonds		275,973		275,973
Other debt securities		68,103		68,103
Short-term investments		15,299		15,299
Collective short-term investment fund		88,051		88,051
Participant-directed brokerage account	37,341			37,341
Participant notes receivable			60,326	60,326
Total investment assets at fair value	<u>\$ 732,024</u>	<u>\$ 2,366,989</u>	<u>\$ 62,680</u>	<u>\$ 3,161,693</u>

(thousands of dollars)	Investment Assets at Fair Value as of December 31, 2008			
	Level 1	Level 2	Level 3	Total
Sears Holdings Corporation common shares	\$ 89,122	\$ -	\$ -	\$ 89,122
Other common and preferred stock	268,745			268,745
Registered investment companies	92,298			92,298
Common/collective trusts		1,246,499		1,246,499
Group annuity contracts			82,152	82,152
Synthetic investment contracts			852	852
Fixed income securities	182,537	598,585	2,237	783,359
Swaps		(6,595)		(6,595)
Collective short-term investment fund		256,735		256,735
Participant-directed brokerage account	27,450			27,450
Participant notes receivable			62,810	62,810
Total investment assets at fair value	<u>\$ 660,152</u>	<u>\$ 2,095,224</u>	<u>\$ 148,051</u>	<u>\$ 2,903,427</u>

The table below sets forth a summary of changes in the fair value of the Master Trust's Level 3 investment assets for the years ended December 31, 2008 and 2009.

(thousands of dollars)	Changes in Fair Value of Level 3 Investment Assets				
	Group Annuity Contracts	Synthetic Investment Contracts	Fixed Income Securities	Participant Notes Receivable	Total
Balance, January 1, 2008	\$ 169,507	\$ -	\$ 3,485	\$ 66,310	\$ 239,302
Plan year 2008 changes:					
Realized gains	5,826		15		5,841
Unrealized gains (losses) relating to instruments still held at the reporting date	396		(579)		(183)
Purchases, issuances, and settlements	(93,577)	852	(684)	(3,500)	(96,909)
Transfers in and/or out of Level 3					
Balance, December 31, 2008	<u>82,152</u>	<u>852</u>	<u>2,237</u>	<u>62,810</u>	<u>148,051</u>
Plan year 2009 changes:					
Realized gains (losses)	7,417		(39)		7,378
Unrealized gains relating to instruments still held at the reporting date	(7,411)	(74)	(24)		(7,509)
Purchases, issuances, and settlements	(82,158)		(598)	(2,484)	(85,240)
Transfers in and/or out of Level 3					
Balance, December 31, 2009	<u>\$ -</u>	<u>\$ 778</u>	<u>\$ 1,576</u>	<u>\$ 60,326</u>	<u>\$ 62,680</u>

5. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Master Trust investments are shares of common/collective trusts managed by State Street Bank and Trust Company ("State Street") and a synthetic investment contract issued and guaranteed by State Street (see Note 2). State Street is the trustee as defined by the Plan and, therefore, transactions with State Street qualify as party-in-interest transactions. Fees for State Street investment management services for the collective short-term investment fund are offset against investment income. Fees incurred by the Master Trust for investment management services for the other State Street common/collective trusts and for the interest rate guarantee on the synthetic investment contract were \$1.1 million and \$1.2 million for the years ended December 31, 2009 and 2008, respectively.

Effective in 2008, the Master Trust holds a synthetic investment contract issued and guaranteed by ING Life Insurance and Annuity Company (“ING Life”) (see Note 2), which is related to the Plan’s recordkeeper through its parent, ING Group. Fees paid to ING Life were \$0.2 million and \$ 0.1 million for the years ended December 31, 2009 and 2008, respectively.

The Master Trust holds shares of common stock of Sears Holdings Corporation, parent of the sponsoring employer. At December 31, 2009 and 2008, the Master Trust held 2,073,498 shares with a fair value of \$173.0 million and a cost basis of \$204.1 million, and 2,292,840 shares with a fair value of \$89.1 million and a cost basis of \$237.1 million, respectively. Holdings has not paid dividends on its common stock since inception.

6. INCOME TAXES

The Plan was established for employees of Kmart who perform services at Kmart locations in Puerto Rico. The Department of Treasury of the Commonwealth of Puerto Rico has determined and informed Kmart by a letter dated January 17, 2006 that the Plan, as then designed, was in compliance with Section 1165(a) of the Puerto Rico Internal Revenue Code of 1994. The Plan has been further amended subsequent to the receipt of this letter. The October 1, 2008 fully amended and restated Plan Document was submitted on October 20, 2008 to the Pension Plan Division of the Department of Treasury of the Commonwealth of Puerto Rico for an updated favorable determination letter. On January 30, 2009, the First Amendment to the Plan (regarding suspension of the matching contribution) was submitted for a favorable determination as well, and although still processing the October 20, 2008 submission of the restated Plan document, the Department of Treasury issued a favorable decision on the First Amendment dated July 10, 2009. Puerto Rico legal counsel for the Plan has submitted the Second Amendment for a determination letter and will be submitting the Third Amendment for a determination letter as well.

The Plan Administrator and the Plan’s Benefits Counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Puerto Rico Internal Revenue Code and consequently is exempt from local taxes; therefore, no provision for taxes has been provided for in the Plan’s financial statements. However, the Plan Administrator has identified certain insignificant errors in the operation of the Plan, which the Plan Administrator is in the process of reviewing to determine the appropriate correction methodology.

7. DERIVATIVE FINANCIAL INSTRUMENTS

Derivative financial instruments are used by the Master Trust’s Bond Fund investment manager as follows:

Foreign Currency Exchange Contracts - The Master Trust has entered into forward contracts to purchase and sell foreign currencies in the normal course of its investing activities to manage the currency exposure associated with the Master Trust’s foreign equity and fixed income investments. The terms of the contracts generally do not exceed one year. The credit risk associated with these contracts is minimal as they are entered into with a limited number of highly rated counterparties.

The Master Trust reflects the fair value of all forward contracts as an asset or liability in its statement of net assets. The fair values associated with the foreign currency contracts have been estimated by valuing the net position of the contracts using the applicable spot rates and forward rates as of the reporting date. In the financial statements of the Master Trust, forward contracts to purchase foreign currency are shown as currency contract receivables and forward contracts to sell foreign currency are shown as currency contract payables. Changes in fair value are accounted for as net appreciation (depreciation) in fair value of investments.

Futures Contracts - The Master Trust enters into futures contracts in the normal course of its investing activities to manage market risk associated with fixed income investments and to achieve overall investment portfolio objectives. These contracts involve elements of market risk in excess of amounts recognized in the Master Trust's statements of net assets available for benefits. The credit risk associated with these contracts is minimal as they are traded on organized exchanges and settled daily.

During 2009 and 2008, the Master Trust was a party to futures contracts held for trading purposes for U.S. Treasury Bonds, U.S. Treasury Notes, Eurobonds, Eurodollars, Eurocurrency, and Eurosterling. Upon entering into a futures contract, the Master Trust is required to deposit either in cash or securities an amount ("initial margin") equal to a certain percentage of the nominal value of the contract. Subsequent payments are then made or received by the Master Trust, depending on the daily fluctuation in the value of the underlying contracts.

At December 31, 2009, the Master Trust had no open futures contracts and no collateral owned and included in the investments of the Master Trust were pledged to counterparties.

At December 31, 2008, the Master Trust had futures contracts with notional amounts of \$72.0 million, which was comprised of futures contracts to purchase (sell) U.S. Treasury Bonds, U.S. Treasury Notes, Eurobonds, Eurodollars, and Eurosterling of (\$1.2 million), \$30.4 million, \$1.0 million, \$40.6 million, and \$1.2 million, respectively. Notional amounts do not quantify risk or represent assets or liabilities of the Master Trust, but are used in the calculation of cash settlements under the contracts. U.S. Treasury Bonds owned and included in the investments of the Master Trust valued at \$4.9 million at December 31, 2008 were pledged to the counterparties as collateral on the futures contracts.

The fair value of the futures contracts in the Master Trust is \$0 at December 31, 2008 as settlements are by cash daily. Changes in fair value are accounted for as net appreciation (depreciation) in fair value of investments.

Credit Default Swaps - The Master Trust enters into credit default swaps to hedge its exposure to certain fixed income investments, as well as to synthetically replicate the returns of certain fixed income investments. A credit default swap is a contract that involves the payment or receipt of an annual default premium for a specific issuer of corporate bonds and requires the party receiving the premium to pay the notional value of the corporate bonds if the issuer defaults. Swap contracts are entered into directly between the parties and consequently involve counterparty credit risk. The investment manager's policy is to execute swaps only with counterparties whose credit rating is A+ or better.

At December 31, 2009, the Master Trust held no credit default swaps and no investments in the Master Trust were pledged as collateral to the Master Trust's brokers.

At December 31, 2008, the Master Trust held credit default swaps with a total fair value of \$(6.3) million based on the mark-to-market value of the various underlying credit indices and corporate entities. The Master Trust held credit default swaps with notional amounts of \$34.4 million at December 31, 2008, including those for which protection was (purchased) sold and with potential (income) loss in the event of default as follows: U.S. Investment Grade Credit Fixed Income Index, (\$6.4 million) and \$28.0 million; U.S. High Yield Fixed Income Index, \$8.9 million; ABX Sub Prime Mortgage Index, \$.9 million; and various corporate bonds, \$3.0 million.

At December 31, 2008, cash owned and included in the investments of the Master Trust, with a value of \$7.5 million, was pledged as collateral to the Master Trust's brokers as performance security on credit default and other swaps.

Changes in the fair value of credit default swaps are accounted for as net appreciation (depreciation) in the fair value of assets.

8. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of the net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2009 and 2008:

(thousands of dollars)	December 31	
	2009	2008
Net assets available for benefits per the financial statements	\$ 3,908	\$ 3,809
Adjustment from contract value to fair value for fully benefit-responsive investment contracts	<u>11</u>	<u>(15)</u>
Net assets available for benefits at fair value per Form 5500	<u>\$ 3,919</u>	<u>\$ 3,794</u>

The following is a reconciliation of the increase in net assets available for benefits per the financial statements to the Form 5500 for the year ended December 31, 2009:

(thousands of dollars)	
Net increase in net assets available for benefits per the financial statements	\$ 99
Adjustment from contract value to fair value for fully benefit-responsive investment contracts:	
Current year	11
Prior year reversal	<u>15</u>
Net income per Form 5500	<u>\$ 125</u>
