Report of Independent Registered Public Accounting Firm

To the Participants and Trustees of the Shell Provident Fund

In our opinion, the accompanying statements of net assets available for benefits and the related statements of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of Shell Provident Fund (the "Plan") at December 31, 2009 and 2008, and the changes in net assets available for benefits for the years ended, in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

SHELL PROVIDENT FUND

NOTES TO FINANCIAL STATEMENTS

NOTE 1 - PLAN DESCRIPTION:

General

The Shell Provident Fund (the Plan) is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended, and is described more fully in the Plan Instrument (the Regulations) and Trust Agreement, which govern the Plan. The assets of the Plan were formerly held in a participating trust in the Shell Savings Group Trust (Group Trust). On February 25, 2008, the Shell Savings Group Trust was terminated and the Shell Provident Fund became the legal as well as beneficial owner of all the Trust assets and liabilities. In order to streamline administration, on June 26, 2009, the Pennzoil-Quaker State Savings and Investment Plan was merged into the Shell Provident Fund resulting in a transfer into the Plan of \$35,659,764 including \$122,172 in loans.

Eligibility

Employees of Shell Oil Company and certain affiliated companies (Contributing Companies) may elect to contribute up to 50 percent of their eligible compensation on a pre-tax basis and up to 25 percent on an after-tax basis to the Plan, subject to IRS limitations for all contributions. All new employees or rehired employees who do not elect otherwise are automatically enrolled to contribute 3% of their base pay on a pre-tax basis. The Contributing Companies make contributions to each participant's account based on their base and variable pay after the period of service shown in the following table:

1 year accredited service	2.5%
6 years of accredited service	5.0%
9 years of accredited service	10.0%

Participant and company contributions are credited to individual participants' accounts, with participants directing the investment of their account balances into various investment options including short-term investments, a company stock fund, Common / Collective funds, registered investment company shares (mutual funds), and a BrokerageLink account. Effective December 1, 2009, Barclays Global Investors, N.A. (BGI) was acquired by BlackRock, Inc. For participants who do not select an investment election, contributions are credited to a BlackRock LifePath Fund (default fund) based on their date of birth.

Investment managers of the investment options invest funds at their discretion, as governed by the Regulations, investment manager agreements and prospectuses. The BrokerageLink account provides participants access to zero coupon, mortgage-backed, corporate, and government bonds, US Treasuries, certificates of deposit, and various mutual funds. Investments in the Plan are valued daily at the end of each business day.

Vesting and Withdrawals

Participants are immediately vested in all contributions to their accounts plus actual earnings or losses thereon. Participants may withdraw their account balances upon termination of service or may delay distribution until as late as April 1 following the year in which they reach age 70½. Active employees age 59½ or older may elect to withdraw their entire account balances or any portion thereof, without incurring any suspension of company contributions. Active employees may withdraw their own after-tax contributions without any time or limit restriction.

A variable payment option, which provides unlimited monthly, quarterly, semi-annual or annual drawdowns of a participant's account, is available for certain qualified Plan distributions.

Employees may elect to roll over an account from another qualified retirement plan into the Plan if certain requirements are met. An employee may withdraw funds that were rolled into the Plan in a valid rollover at any time.

Participant Loans

Participants may borrow from their accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000, after considering the highest loan balance during the previous twelve months, or 50 percent of their account balance. The loans are secured by the balance in the participants' accounts and bear interest at a rate established by the Plan Administrator, generally based upon the Prime Rate. Interest rates on loans issued during 2009 ranged from 3.25 percent to 4.00 percent and 4.00 percent to 7.75 percent during 2008.

Forfeited Accounts

Participants of the Shell Trading Savings Plan that merged into the Plan on December 29, 2004 retained their 5-year vesting criteria related to Company contributions prior to the merger. Therefore, forfeited amounts were used to reduce current and future company contributions. In addition, the Pennzoil-Quaker State Company Savings and Investment Plan merged into the Provident Fund on June 26, 2009, which resulted in an increase of \$214,772 in the forfeiture account. Forfeited nonvested accounts totaled \$93,530 and \$94 as of December 31, 2009 and 2008, respectively. Company contributions and plan expenses were reduced by \$143,879 and \$16,309 from forfeited nonvested accounts for the years ended December 31, 2009 and 2008, respectively.

Administration of Plan Assets

Audit, investment manager, custodian fees, recordkeeping, and other internal costs directly related to oversight of daily Plan operations are paid by the Plan or by Shell Oil Company (Shell) on the Plan's behalf. When expenses are paid by Shell on the Plan's behalf, Shell is reimbursed by the Plan for such expenses. Unreimbursed expenses incurred by Shell totaled \$30,512 and \$334,784 at December 31, 2009 and 2008, respectively, and are included in accounts payable. Other indirect costs (including Trustee/Administrator salaries and data processing expenses) are absorbed by the Contributing Companies.

The Plan is intended to be an ongoing part of the benefit plans of the Contributing Companies. However, the right is reserved to amend or terminate the Plan. Should the Plan be terminated, participants will receive payment of their account balances.

The Trustees as defined by the Plan are employees of a consolidated subsidiary of Royal Dutch Shell plc, and therefore, qualify as parties-in-interest. In addition, the Plan invests in Royal Dutch plc Shell stock, which qualifies as a party-in-interest transaction.

NOTE 2 - ACCOUNTING POLICIES:

The financial statements of the Plan are prepared under the accrual method of accounting.

Investments of the Plan are presented on the following basis:

Shares of mutual funds are valued at the net asset value, which approximates market value, of shares held by the Plan at year-end;

Participant loans are valued at amortized cost which approximates fair value;

Common / Collective funds are valued based on the net asset value of the trust units held by the Plan at year end;

All other investments are stated at market value based on vendor quoted prices.

The Plan presents in the statement of changes in net assets the net appreciation (depreciation) in the fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments.

Brokerage commissions, transfer taxes, and other fees are added to the cost of purchases or deducted from the proceeds of sales. Purchases and sales of securities are recorded on a tradedate basis. Interest income is recorded on the accrual basis. Dividends are recorded on the exdividend date. Participant distributions or withdrawals are recorded when paid.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

NOTE 3 - INVESTMENT IN THE PLAN:

The following table presents investments representing 5% or more of the total Plan net assets at December 31, 2009 and December 31, 2008:

		December 31,			
		2009 (In milli			
Thrift Fund	\$	1,810	\$	1,961	
Royal Dutch Shell Stock Fund		1,003		954	
U.S. Equity Index Fund		756		623	

NOTE 4 - LINE OF CREDIT OF THE PLAN:

The Thrift Fund and Royal Dutch Shell Stock Fund (RDSF) have an available line of credit to fund redemptions as needed. At December 31, 2009 and December 31, 2008 the Shell Provident Fund had no amounts outstanding under the line of credit.

NOTE 5 - RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 6- FEDERAL INCOME TAX EXEMPTION:

The Internal Revenue Service (IRS) issued a favorable determination letter dated April 7, 2003, stating the Plan is qualified under Section 401(a) and the Trust is exempt from taxation under Section 501(a) of the Internal Revenue Code (the Code). It is anticipated that the IRS will issue a favorable letter for those plan amendments not covered by the latest letter in subject areas upon which they have agreed to rule. It is the opinion of counsel that the amendments falling within the subject areas upon which the IRS has indicated it will not rule do not violate Sections 401(a) and 501(a) of the Code.

NOTE 7 - RECONCILIATION OF THE FINANCIALS TO SCHEDULE H OF FORM 5500:

The following is a reconciliation of the Plan's net assets available for benefits per the financial statements at December 31, 2009 and 2008 to Schedule H of Form 5500:

December 31	
-------------	--

	<u>2009</u>	<u>2008</u>
Net assets per financial statements	\$8,224,946,991	\$6,924,714,809
Deemed distributions of participant loans	(3,096,888)	(2,895,647)
Net assets available for benefits per Schedule H	\$8,221,850,103	\$6,921,819,162

The following is a reconciliation of total expenses paid per the financial statements for the year ending December 31, 2009 to Schedule H of Form 5500:

	<u>2009</u>
Total deductions per the financial statements	\$ 461,616,352
Deemed distributions of participant loans – offset during plan year	201,241
Total expenses paid per Schedule H of Form 5500	\$ 461,817,593

Amounts allocated to deemed distributions of participant loans are recorded as an investment in the financial statements and recorded as an expense on Schedule H on Form 5500.

NOTE 8 - FAIR VALUE MEASUREMENT:

ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the assets or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement

The following sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2009:

Investments at Fair Value as of December 31, 2009

Investments in		Level 1	Level 2	L	evel 3		Total

	<u>*</u>	3,492,583,967	\$ 3,306,946,629	\$	125,765,227	\$ 6,925,295,823
Total investments at fair value	Ψ	3,432,000,007	 0,000,0			

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2009 and December 31, 2008.

Level 3 Assets Rollforward

D. J. Cont. December 21 2007	\$126,438,173
Balance at December 31,2007	<u>(\$672,946)</u>
Loan repayments and withdrawals (net)	\$125,765,227
Balance at December 31, 2008	* *==**
Loan repayments, withdrawals,	\$ 10,003 <u>,795</u>
and transfers from other plans (net)	\$135,769,022
Balance at December 31, 2009	<u>vivep vep</u>

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Common stocks, corporate bonds, U.S. government securities, and rights / warrants: Valued at the closing price reported on the active market on which the individual securities are traded.

Common / Collective funds are valued based on the net asset value of the trust units held by the Plan at year end.

Registered Investment Companies (mutual funds): Valued at the net asset value ('NAV") of shares held by the plan at year-end.

Participant Loans: Valued at amortized cost, which approximates fair value.

Short-Term Investments: Short-Term investments, including commercial paper having 60 days or less to maturity are recorded at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 9 – SUBSEQUENT EVENTS:

Management has evaluated all subsequent event transactions and events after the Statement of Net Assets Available for Benefits date through the date on which these financial statements were available to be issued and, except as already included in the notes to the financial statements, has determined that no additional items require disclosure.
