### Report of Independent Registered Public Accounting Firm

To the Employee Benefits Committee Roma Bank 401(k) Savings Plan

We have audited the accompanying statements of net assets available for benefits of Roma Bank 401(k) Savings Plan (the "Plan") as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2009 and 2008, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule of Assets (Held at End of Year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental information is the responsibility of the Plan's management. This supplemental information has been subjected to the auditing procedures applied in the audits of the basic financial statements, and in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Clark, New Jersey June 29, 2010

#### 1. DESCRIPTION OF THE PLAN

The following brief description of the provisions of the Plan is provided for general information purposes only. Participants should refer to the Plan Agreement for more complete information.

#### **Eligibility**

Roma Bank 401(K) Savings Plan is a voluntary defined contribution plan which covers all eligible employees who have elected to participate. All employees are eligible to participate in the Plan after performance of 1,000 hours of service in a 12 consecutive month period and attainment of the age of 21. The participant becomes eligible the first day of the payroll period following the eligibility month. The plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

#### **Contributions**

Roma Bank ("Employer Company") has voluntarily agreed to contribute 50% of the first 6% of compensation contributed by participating employees as a matching Employer Contribution. A participant may also elect to contribute voluntarily up to 25% of his or her salary, subject to applicable limits established in the Internal Revenue Code, which will not be matched by the Employer Company beyond the extent noted above. Compensation includes total remuneration paid including wages, overtime and commissions.

#### **Participants Accounts**

Each participant's account is credited with the participant's contributions, plan earnings (including appreciation or depreciation of Plan Assets) and an allocation of the Employer Company's contribution. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account. Loan and disbursement processing fees are charged to the respective participant accounts. Other administrative expenses are allocated based on transactions made.

#### **Vesting**

Participants are 100% vested immediately in the employee's contribution and rollover contributions and actual earnings thereon. Employer contributions and actual earning, thereon, vest 20% a year over a five year period.

#### Retirement, Disability and Pre-retirement Death Benefits

Upon termination of employment, a participant may leave his or her account with the Plan and defer commencement of receipt of his or her vested balance until April 1 of the calendar year following the calendar year in which he or she attains age 70½, except to the extent that the vested account balance as of the date of termination is less than \$1,000 which case the interest in the Plan will be cashed out. Participants may make withdrawals from their accounts at any time after terminating employment and may continue to change investment instructions with respect to their remaining account balance and make withdrawals. Participants may elect, in lieu of a lump sum payment, to be paid in annual installments with the right to take a lump sum the vested balance of their account at any time during such payment period. Normal retirement age is 65.

If a participant is disabled in accordance with the definition of disability under the Plan, he or she will be entitled to the same withdrawal rights as if terminating employment.

Upon death, the value of a participant's account will be payable to his or her beneficiary. This payment will be made in the form of a lump sum, unless the payment would exceed \$500 and the participant had elected prior to death that the payment be made in annual installments over a period not to exceed 5 years (10 years if a spouse is the beneficiary). If such an election is not in effect at the time of death, the beneficiary may elect to receive the benefit in form of annual installments over a period not to exceed 5 years (10 years if a spouse is the beneficiary) or make withdrawals as often as once per year, except that any balance remaining must be withdrawn by the 5<sup>th</sup> anniversary (10<sup>th</sup> anniversary if a spouse is the beneficiary) of the participant's death.

There were no distributions due participants as of December 31, 2009 and 2008.

#### Participant Loans

In accordance with the Plan, the minimum amount a participant can borrow is \$1,000. The maximum amount the participant can borrow is the lesser of (i) \$50,000 or (ii) one-half (1/2) of the vested balance of the participant's account. Interest rates charged on participant loans range between 5.00% and 9.25%. Participant loan balances, included in investments, at December 31, 2009 and 2008, and totaled \$137,767 and \$145,337 respectively.

#### **Forfeited Accounts**

At December 31, 2009 and 2008 forfeited non-vested accounts totaled \$4,983 and \$2,687, respectively. Forfeitures of employer matching non-vested accounts are used to pay future plan expenses. During the years ended December 31, 2009 and 2008, forfeitures applied against plan expenses amounted to \$0.00 and \$0.00, respectively.

#### **Investment Options (Unaudited)**

Participants may direct that contributions be invested in any one, or combination, of the following investment options during 2009:

#### A. Common Collective Trusts:

- 1. Wells Fargo Stable Value Fund The Fund seeks safety of principal and consistency of returns with minimal volatility. The Fund invests in financial instruments issued by highly rated companies. These include guaranteed investment contracts (GICs), security backed contracts (synthetic GICs) and cash equivalents. The fund is for conservative investors seeking more income than money market funds without the price fluctuation of stock or bond funds.
- 2. Sunrise Retirement Capital Preservation Fund The Fund targets 10% of its assets in a diversified mix of equity mutual funds and 90% in fixed income mutual funds. The equity allocation includes mutual funds that invest in U.S. large cap equity securities. The fixed income exposure will be invested in intermediate and short-term fixed income, as well as money market mutual funds.

#### **Investment Options (Cont'd)**

- 3. Sunrise Retirement Income Fund The Fund targets 25% of its assets in a diversified mix of equity mutual funds and 75% in fixed income mutual funds. The equity allocation includes mutual funds that invest in U.S. large cap and small cap equity securities. The fixed income exposure will be invested in intermediate and short term fixed income, as well as money market mutual funds.
- 4. Sunrise Retirement Diversified Income Fund The fund targets 40% of its assets in a diversified mix of equity mutual funds and 60% in fixed income mutual funds. The equity allocation includes mutual funds that invest in U.S. large cap, mid cap and small cap equity securities, as well as non U.S. equity securities. The fixed income exposure will be invested in intermediate term fixed income and money market mutual funds.
- 5. Sunrise Retirement Balanced Fund The Fund targets 55% of its assets in a diversified mix of equity mutual funds and 45% in fixed income mutual funds. The equity allocation includes mutual funds that invest in U.S. large cap, mid cap and small cap equity securities, as well as non U.S. equity securities. The fixed income exposure will be invested in intermediate term fixed income and money market mutual funds. This Fund's strategic asset class targets include: 30% U.S. large cap equity; 15% U.S. mid/small cap equity; 10% non U.S. equity; 42% fixed income; and, 3% cash equivalents.
- 6. Sunrise Retirement Balanced Equity Fund The Fund targets 70% of its assets in a diversified mix of equity mutual funds and 30% in fixed income mutual funds. The equity allocation includes mutual funds that invest in U.S. large cap, mid cap and small cap equity securities, as well as non U.S. equity securities. The fixed income exposure will be invested in intermediate term fixed income and money market mutual funds. This Fund's strategic asset class targets include: 35% U.S. large cap equity; 22% U.S. mid/small cap equity; 13% non U.S. equity; 27% fixed income; and, 3% cash equivalents.
- 7. Sunrise Retirement Diversified Equity & Income Fund The Fund targets 85% of its assets in a diversified mix of equity mutual funds and 15% in fixed income mutual funds. The equity allocation includes mutual funds that invest in U.S. large cap, mid cap and small cap equity securities, as well as non U.S. equity securities. The fixed income exposure will be invested in intermediate term fixed income and money market mutual funds. This Fund's strategic asset class targets include: 40% U.S large-cap equity; 28% U.S. mid/small cap equity; 17% non U.S. equity; 12% fixed income; and 3% cash equivalents.
- 8. Sunrise Retirement Diversified Equity Fund The Fund seeks to be 97% invested in a diversified mix of equity mutual funds, including mutual funds that invest in U.S. large cap, mid cap and small cap equity securities, as well as non U.S. equity securities. The balance will be invested in a money market portfolio. The Fund's strategic asset class targets include: 42% large cap equity; 35% U.S. mid/small cap equity; 20% non U.S. equity; and, 3% cash equivalents.

#### **Investment Options** (Cont'd)

#### B. Mutual Funds:

- 1. AIM Capital Development Fund (A) The fund seeks long-term growth of capital. The Fund invests primarily in common stocks of mid-cap companies. The Fund may be appropriate for investors with a long-term investment horizon.
- 2. Artio International Equity Fund II (A) The Fund seeks long term growth of capital. The Fund invests primarily in a wide variety of international equity securities issued throughout the world, normally excluding the U.S. The Fund may be appropriate for investors with a long-term investment horizon who are willing to accept the risks of investing in stocks and the additional risks associated with foreign investments.
- 3. PIMCO Total Return Fund The fund seeks maximum total return, consistent with preservation of capital and prudent investment management. The Fund invests, under normal circumstances, primarily in a diversified portfolio of fixed income instruments of varying maturities. The Fund may be appropriate for investors whose goals include greater stability of principal or higher current income than can be expected from investing in common stocks.
- 4. SSGA S&P Index Fund The Fund seeks to replicate the total return of the S&P 500 Index. The Fund invests primarily in stocks in the Index in proportion to their weightings in the Index. The Fund may be appropriate for investors with a long-term investment horizon.
- 5. T. Rowe Price Blue Chip Growth Fund The fund seeks to provide long-term capital growth. Income is a secondary objective. The Fund invests primarily in the common stocks of large and medium-sized blue chip companies that have the potential for above-average growth in earnings and are well established in their respective industries. The Fund may be appropriate for investors with a long-term investment horizon.
- 6. American Beacon Large Cap Value Fund The Fund seeks long-term capital appreciation and current income. The Fund invests in equity securities of large market capitalization U.S. companies that appear to possess above-average earnings growth potential and dividend yields, as well as below-average price to earnings and price to book value ratios. The Fund may be appropriate for investors with a long-term investment horizon.
- 7. Federated Kaufmann Fund (A) The Fund seeks capital appreciation by investing primarily in stocks of small and medium sized companies that are traded on national security exchanges, NASDAQ and on the over-the-counter market. Up to 30% of its net assets may be invested in foreign securities. The Fund may be appropriate for investors with a long-term investment horizon.

#### **Investment Options (Cont'd)**

- 8. Loomis Sayles Small Cap Value Fund The Fund seeks long-term capital growth by investing primarily in equity securities of companies with market capitalizations that fall within the capitalization range of the Russell 2000 Index. The Fund may be appropriate for investors with a long-term investment horizon who are willing to accept the risks of investing in stocks and the additional risks associated with investing in small companies.
- C. Employer Stock Fund. The Employer Stock Fund consists primarily of Roma Financial Corp. common stock, the parent of the Sponsor Company.

#### Valuation of Account

The Plan uses a unit system for valuing each Investment Fund. Under this system, units represent each participant's share in any Investment Fund. The unit value is determined as of the close of business each regular business day (daily valuation).

#### 2. SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

#### **Basis of Accounting**

The financial statements of the Roma Bank 401(K) Savings Plan Employees' Savings and Profit Sharing Plan and Trust (the "Plan") are prepared on the accrual basis of accounting.

As described in Accounting Standards Codification Topic 962 Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans (the FSP), investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive contracts because contract value is the amount participants would receive if they were to initiate permitted transaction under the terms of the plan. The plan invests in investment contracts through common/collective trust funds. The contract values for these common/collective trust funds are based on the net asset value of the fund as reported by the investment advisor. As required by the FSP, the Statement of Net Assets Available for Plan Benefits presents the fair value of the investment in the common/collective trust fund as well as the adjustment of the investment in the common/collective trust fund from fair value to contract value relating to fully benefit responsive investment contracts. The Statements of Changes in Net Assets Available for Plan benefits are prepared on a contract value basis.

#### Valuation of Investments and Income Recognition

The Plan's investments are stated at fair value. See Note 8 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

#### **Investment Fees**

Net investment returns reflect certain fees paid by the investment funds to their affiliated investment advisors, transfer agents, and others as further described in each fund prospectus or other published documents.

These fees are deducted prior to allocation of the Plan's investment earnings activity and thus are not separately identifiable as an expense.

#### **Uses of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Participants' loans are valued at cost, which approximates fair value.

#### Payments of benefits

Benefit payments are recorded when paid.

#### **Administrative Costs**

Administrative costs of the plan are absorbed by Roma Bank, the Plan Sponsor.

#### 3. RELATED PARTY TRANSACTIONS

The plan owns shares of Roma Financial Corporation common stock. The Sponsor Company pays for fees for benefit consulting, accounting and other administrative services. In addition, participants pay for administrative fees and loan fees to Bank of New York, Pentegra, State Street Invested Services and Barclay Investor Services.

The President and CEO of Pentegra is a member of the Board of Directors of Roma Bank and Roma Financial Corporation. The director is considered independent by NASDAQ and the Securities and Exchange Commission.

#### 4. INVESTMENTS

Investments that represent 5% or more of the Plan's net assets available for benefits consist of the following at December 31, 2009 and 2008:

	December 31,				
	20	09	20	008	
	Cost	Fair Value	Cost	Fair Value	
Roma Financial Corp.,					
common stock	\$1,901,468	\$1,836,786	\$1,942,820	\$1,860,328	
T. Rowe Price Blue Chip Growth	370,590	518,254	315,295	326,755	
Loomis Sayles Small Cap Value	296,981	399,562	267,734	287,151	
American Beacon LargeCap Value	286,872	364,706	258,924	265,391	
Pimco Total Return Fund	366,556	386,486	218,116	220,500	
Sunrise Retirement Income Fund	246,661	274,339	197,091	197,091	
Wells Fargo Stable Value Fund	245,062	251,133	-	*	

<sup>\*</sup>Investments are less than 5% of net assets at the indicated date.

The net appreciation (depreciation) in the fair value of investments (including gains and losses on investments brought, sold and held during the year) for each significant class of investment consists of the following of the years ended December 31:

	2009	2008	
Common/Collective Trusts	\$ 72,680	\$	(53,099)
Mutual Funds	362,595		(656,599)
Employer Stock Fund	(33,177)		(431,782)
Total	\$ 402,098	\$ (	(1,141,480)

Any interest and dividend income from the underlying assets of the common/collective trust funds are included in net appreciation (depreciation) for the common/collective trust fund.

#### 5. PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

#### 6. INCOME TAX STATUS

The Plan is operating under a prototype non-standardized 401(K) profit sharing plan prepared by Pentegra Services, Inc. The prototype plan obtained its latest determination letter dated March 18, 2004, in which the Internal Revenue Service stated that the prototype plan, as then designed, complied with the applicable requirements of the Internal Revenue Code.

The Plan's administrator and the Plan's advisors believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue code. Therefore, they believe that the Plan is qualified and the related trust is tax-exempt.

#### 7. RISKS AND UNCERTAINTIES

The plans hold investments in Roma Financial Corporation common stock, mutual funds shares and asset allocation funds whose values are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated certain investments and the level of uncertainties related to changes in the value of investments it is at least reasonably possible that changes in risk in the near term would materially affect investment assets reported in participant account balances and in the statement of net assets available for benefits.

#### 8. FAIR VALUE MEASUREMENTS

FASB Accounting Standards Codification Topic 820, Fair Value Measurement establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The Hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC Topic 820 are described below:

The Plan measures its investments at fair value on a recurring basis in accordance with accounting principles generally accepted in the United States of America.

Fair value is defined as the price that would be received to sell an asset or the price that would be paid to transfer a liability in an orderly transaction between market participants at the measurement date. The framework that the authoritative guidance establishes for measuring fair value includes a hierarchy used to classify the inputs used in measuring fair value. The hierarchy prioritizes the inputs used in determining valuations into three levels. The level in the fair value hierarchy within which the fair value measurement falls is determined based on the lowest level input that is significant to the fair value measurement. The levels of the fair value hierarchy area are as follows.

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and, inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

An asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Common/collective trusts: Valued by the trustee based on the current market values of the underlying assets of the common-collective trusts based on information reported by the investment advisor using audited financial statements of the common/collective trust funds at year end.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at year end.

Participant loans: Valued based on unobservable inputs, as observable inputs are not available, using discounted cash flows to determine fair value.

Stable Value Fund: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

#### 8. FAIR VALUE MEASUREMENTS (Cont'd)

For financial assets measured at fair value on a recurring basis, the fair value measurements by level within the fair value hierarchy used at December 31, 2009 are as follows:

Description	(Level 1)	<u>n</u>	Level 2)	(L	evel 3)	Total
Mutual funds Common collective trusts Common stock Participant loans Stable Value Fund	\$ 1,994,012 - 1,836,786		527,361 251,113		137,767	\$ 1,994,012 527,361 1,836,786 137,767 251,113
Total	\$ 3,830,798	\$	778,494	\$	137,767	\$ 4,747,059

For financial assets measured at fair value on a recurring basis, the fair value measurements by level within the fair value hierarchy used at December 31, 2008 are as follows:

Description	(Level 1)	(Level 2)	(Level 3)	Total	
Mutual funds Common collective trusts Common stock Participant loans	\$ 1,302,870 - 1,860,328	349,146	145,337	\$ 1,302,870 349,146 1,860,328 145,337	
Stable Value Fund	_	168,621		168,621	
Total	\$ 3,163,198	\$ 517,767	\$ 145,337	\$ 3,826,302	

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2009 and 2008:
