### REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To Benefits Administration Committee of the UBS Financial Services Incorporated of Puerto Rico Savings Plus Plan

We have audited the accompanying statements of net assets available for benefits of the UBS Financial Services Incorporated of Puerto Rico Savings Plus Plan (the "Plan") as of December 31, 2009 and 2008 and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2009 and 2008, and the changes in its net assets available for benefits for the years then ended, in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental Schedule of Assets (Held at End of Year) as of December 31, 2009, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

Mitchell: Titus, LLP

Notes to Financial Statements December 31, 2009 and 2008

#### NOTE 1 DESCRIPTION OF THE PLAN

The following description of the UBS Financial Services Incorporated of Puerto Rico Savings Plus Plan (the "Plan") provides only general information. Participants should refer to the Prospectus/Summary Plan Description for a more complete description of the provisions of the Plan and detailed definitions of various Plan terms.

#### General

The Plan is a defined contribution plan which covers employees of UBS Financial Services Incorporated of Puerto Rico (the "Company"), or any of its subsidiaries or affiliates which have adopted the Plan who are residents of and work in Puerto Rico. The Company is a wholly owned subsidiary of UBS Financial Services Inc. ("UBS Financial Services"), which is a wholly owned subsidiary of UBS Americas Inc. ("UBS Americas"), which in turn is a wholly owned subsidiary of UBS AG ("UBS"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

The Plan became effective January 1, 2000 and has been amended from time to time. Although it is anticipated that the Plan will continue indefinitely, the Board of Directors of the Company can amend, suspend or terminate the Plan at any time, provided that such action does not reduce the accrued benefits of any participant.

An employee is eligible to participate in the Plan on the first day of service performed for the Company. At December 31, 2009 and 2008, there were 437 and 414 Plan participants, respectively.

The Plan is established under the laws of Puerto Rico and is subject to Puerto Rico contribution limits. All other features of the Plan are similar to those of the UBS Financial Services Inc. 401(k) Plus Plan ("UBS 401(k)").

The Plan's assets are invested in a master trust which in turn invests in mutual funds, commingled funds, separately-managed accounts, venture capital and partnerships, guaranteed investment contracts (GICs), and the UBS Company Stock Fund (the "UBS Stock Fund").

Notes to Financial Statements December 31, 2009 and 2008

#### NOTE 1 DESCRIPTION OF THE PLAN (continued)

#### General (continued)

Certain accounting and other administrative services are provided by affiliates of the Company at no charge to the Plan.

#### Master Trust

The UBS Financial Services Inc. Master Investment Trust (the "Master Trust") was established on January 1, 2000 for the Plan and the UBS 401(k). Effective April 1, 2003, the Master Trust merged with the UBS Financial Services Inc. Pension Plan Trust (the "Pension Plan") to create one trust consisting of the Plan, the UBS 401(k) and the Pension Plan. The investments of all three plans are all held in the Master Trust, which is administered by The Northern Trust Company (the "Trustee"). Use of the Master Trust permits the commingling of trust assets for investment and administrative purposes. Although assets of all three plans are commingled in the Master Trust, the Trustee maintains separate supporting records for the purpose of tracking the individual activity of the Plan/UBS 401(k) (combined) and the Pension Plan.

#### **Participant Contributions**

A participant's contributions can consist of "pre-tax contributions," which reduce the participant's taxable compensation, Roth 401(k) contributions, "after-tax contributions," which do not reduce a participant's taxable compensation and "rollovers," which are transfers from other Puerto Rico tax qualified retirement plans.

For each plan year, a participant is eligible to make pre-tax contributions through payroll deductions up to 100% of their eligible compensation. The dollar amount of a participant's contributions cannot exceed certain Plan and Puerto Rico Internal Revenue Code (the "Code") limits. Eligible compensation is defined as 499-R-2/W-2 Puerto Rico earnings (subject to certain adjustments), not to exceed \$245,000 and \$230,000 for 2009 and 2008, respectively, as adjusted pursuant to the U.S. Internal Revenue Code. Pre-tax contributions are limited by the Code to \$9,000 and \$8,000 for 2009 and 2008, respectively. As a result of Law 92 that went into effect on May 16, 2006, participants who attained age 50 on or before December 31, 2009 are limited to pre-tax contributions of \$10,000 and \$9,000 for 2009 and 2008, respectively. These limits will be subject to change in future years to be consistent with U.S. and Puerto Rico Code limits.

Notes to Financial Statements December 31, 2009 and 2008

#### NOTE 1 DESCRIPTION OF THE PLAN (continued)

#### Participant Contributions (continued)

Participants are also permitted to make after-tax contributions of up to 10% of their eligible compensation provided that the maximum combined rate of a participant's pre- and after-tax contributions does not exceed 100% and 20% for 2009 and 2008. After-tax contributions may be considered in determining the Company's matching contribution.

Additionally, participants may make rollover contributions to the Plan. A rollover contribution is a transfer from another Puerto Rico tax-qualified retirement plan. The amount rolled over will be credited to a participant's account and will be treated similar to appreciation on pre-tax contributions for plan accounting and Puerto Rico income tax purposes.

#### **Company Contributions**

Each year, the Company uses pre- and after-tax contributions in determining the amount of the Company's matching contribution for each participant. The Company match is calculated by multiplying each participant's pre-tax, Roth 401(k), and after-tax contributions (up to 6% of eligible compensation) by 100% and is limited to \$3,000. Company match contributions and earnings are invested according to the participant's investment elections in effect for Company Contributions which can be different or similar to their pre-tax, Roth 401(k), and after-tax contribution elections.

The Company also provides a retirement contribution (basic profit-sharing contribution) equal to a percentage of the participant's eligible compensation based on the participant's years of service with the Company as of the beginning of the Plan year. The retirement contribution is invested according to the participant's investment election in effect for Company Contributions which can be different or similar to their pre-tax, Roth 401(k), and after-tax contribution elections. If a participant's investment election was not in place, the default investment was the target year Lifecycle funds as of February 1, 2008 or the UBS Stable Value Fund for January 2008 and prior.

Notes to Financial Statements December 31, 2009 and 2008

#### NOTE 1 DESCRIPTION OF THE PLAN (continued)

The Qualified Deferred Payment ("QDP") feature is a supplemental profit-sharing contribution provided to participants who satisfy certain eligibility requirements. The amount of the contribution is based on a participant's age at the beginning of the Plan year. QDP contributions and earnings are invested according to the participant's investment elections in effect for Company Contributions which can be different or similar to their pre-tax, Roth 401(k), and after-tax contribution elections. If a participant's investment election is not in place, the same procedures as for the retirement contribution are followed.

#### Limitation on Contributions for Highly-Compensated Employees ("HCEs")

The Code limits the amount of pre-tax contributions that can be made to the Plan for HCEs. As a result of those limitations, the ability of an HCE to make pre-tax contributions may be restricted. To meet those limitations, the Plan may be required to refund pre-tax contributions that had previously been made by the HCEs.

#### **Investment Options**

Participants can select from approximately 90 investment options to invest their account balances and future contributions. The investment options are organized into three tiers. The three tiers, as described in the Plan's Investment Guide, are as follows:

- 1. The Lifecycle Tier is comprised of six target-year lifecycle funds. This tier is intended for participants who want minimal involvement in setting and monitoring their asset allocation. The participant chooses the year in which they expect to utilize their retirement assets and then invests in the fund that most closely matches their retirement time horizon. The fund manager chooses the asset allocation strategy and adjusts the investment mix over time. The Plan's Investment Committee monitors the Lifecycle Tier funds' performance.
- 2. The Core Tier is comprised of fourteen funds including the UBS Stock Fund, each with a distinct asset class and investment style. This tier is intended for participants who are interested in making their own asset allocation decisions. The participant sets their asset allocation strategy and uses Core Tier funds to build their portfolio. The participant is responsible for adjusting their asset allocation strategy and investment mix over time as needed. The Plan's Investment Committee monitors the Core Tier funds' performance.

Notes to Financial Statements December 31, 2009 and 2008

#### NOTE 1 DESCRIPTION OF THE PLAN (continued)

3. The Mutual Fund Window Tier is comprised of the remaining investment options and consists of a wide array of funds offered by American Funds, PIMCO Advisors and UBS Global Asset Management (US) Inc. ("UBS GAM"). This tier is intended for participants who want flexibility in setting and monitoring their asset allocation and are willing and able to evaluate investment options. The Plan's Investment Committee monitors the performance of the fund families within the tier on an annual basis but does not monitor the performance of each fund.

The UBS mutual funds' investment advisor, administrator and distributor is UBS GAM, a direct, wholly owned subsidiary of UBS Americas. UBS GAM earns management fees from the UBS GAM Funds offered in the Mutual Fund Window Tier and the UBS Select Money Market Fund offered in the Core Tier. These fees were paid by the participants.

The S&P 500 Index Fund offered in the Core Tier was managed and administered by the UBS Fiduciary Trust Company, which was a direct, wholly owned subsidiary of UBS Americas. UBS sold its interest in UBS Fiduciary Trust Company in October 2008 to Wilmington Trust Company. UBS Fiduciary Trust earns management fees from the S&P 500 Index Fund. These fees are paid by the Company and they amounted to \$1,862 and \$1,534 for 2009 and 2008, respectively.

Additionally, Dwight Asset Management, a qualified professional asset manager, independently selected UBS GAM as a sub-investment manager for a portfolio of fixed income securities within the Stable Value Fund, a separately-managed account. As such, management fees from the Stable Value Fund are paid by participants invested in the Stable Value Fund including that portion of the fees related to assets management by UBS GAM.

#### Participant Accounts

Under the Plan each participant has two accounts—their Employee Account and their Company Account. The two accounts are managed by the employee as a single account. Only one asset allocation can be selected and is applicable to both accounts. The participant's Employee Account reflects all contributions made by the participant in addition to income, gains, losses, withdrawals, distributions, loans and expenses attributable to these contributions.

Notes to Financial Statements December 31, 2009 and 2008

#### NOTE 1 DESCRIPTION OF THE PLAN (continued)

The participant's Company Account reflects their share of the Company's contributions from the Company match, the Company retirement contribution and the QDP for each plan year and the income, gains, losses, withdrawals, distributions, and expenses attributable to those Company contributions.

#### Vesting

Participants are immediately vested in their Employee Account. A participant is fully vested in the Company match, retirement and QDP contributions and earnings thereon after either attaining three years of service, reaching age 65, becoming totally and permanently disabled, or upon death.

Forfeited balances of terminated participants' unvested Company Accounts are used to reduce the Company's contributions to the Plan. Forfeited balances as of December 31, 2009 and 2008 of \$2,795 and \$1,950 were applied to Company contributions made in the following plan year.

#### Distributions and Withdrawals

After-tax contributions, including any income and loss thereon, may be withdrawn by participants at any time in accordance with the provisions of the Plan. Withdrawals of pre-tax contributions or vested Company contributions are permitted, subject to certain limitations as set forth in the Code. All withdrawals or a portion thereof are subject to taxation as set forth in the Code.

Upon termination of service, a participant may elect to receive a distribution of the vested portion of their account in a lump-sum amount or in installments over a period of up to 10 years. Distributions consist of common stock or cash from the UBS Stock Fund and cash from all other funds.

#### **Participant Loans**

Participants may obtain loans from the Plan. The minimum amount that may be borrowed is \$1,000 and the maximum amount is limited to the lesser of 50% of the value of participant's vested account balance or \$50,000, reduced by the participant's highest outstanding loan balance over the previous 12 months. Interest rates were 2.62%-12.50% as of December 31, 2009 and 6.00% - 9.25% as of December 31, 2008. Repayment period for the loans depends on the type of loan. Short-term non-hardship loans and short-term hardship loans may be repaid over a period of one to five years while the repayment period for primary residence loans is 10 to 20 years. Roth 401(k) contributions are not loanable amounts.

Notes to Financial Statements December 31, 2009 and 2008

#### NOTE 1 DESCRIPTION OF THE PLAN (continued)

Loans are payable in equal installments representing a combination of interest and principal by withholding from the participant's paychecks. The outstanding principal amount of any loan can be repaid on any business day. In the event a participant has a loan outstanding under the Plan, various limitations exist on such participant's right to receive further loans under the Plan.

#### Plan Termination

While the Company has not expressed any intent to terminate the Plan, it is free to do so at any time, subject to the provisions of ERISA. In the event the Plan is wholly or partially terminated, or upon the complete discontinuance of contributions under the Plan by any entity that is a part of the Company, each participant affected shall become fully vested in their Company Account. Any unallocated assets of the Plan then held by the Trustee shall be allocated among the appropriate Company Accounts and Employee Accounts of the participants and will be distributed in such a manner as the Company may determine.

#### NOTE 2 SIGNIFICANT ACCOUNTING POLICIES

#### Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States.

#### Reclassifications

Certain prior-year amounts in the statements of net assets available for benefits have been reclassified to conform to the current year presentation.

Notes to Financial Statements December 31, 2009 and 2008

#### NOTE 2 SIGNIFICANT ACCOUNTING POLICIES (continued)

#### New Accounting Pronouncements

On June 30, 2009 the Financial Accounting Standards Board ("FASB") released SFAS No. 168, The FASB Accounting Standards Codification ("ASC") and the Hierarchy of Generally Accepted Accounting Principles ("GAAP"). The ASC is now the single source of authoritative U.S. GAAP recognized by the FASB, replacing all previous U.S. GAAP. The ASC does not change U.S. GAAP, however it significantly changes the way in which the accounting literature is organized. The statement is effective for the Plan's financial statements as of December 31, 2009. The adoption of SFAS 168 did not have a material impact on the Plan's financial statements.

In April 2009, the FASB issued FASB Staff Position 157-4, Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly ("FSP 157-4"). FSP 157-4 amended FASB Statement No. 157 (codified as ASC 820) to provide additional guidance on estimating fair value when the volume and level of activity for an asset or liability have significantly decreased in relation to its normal market activity. FSP 157-4 also provided additional guidance on circumstances that may indicate that a transaction is not orderly and on defining major categories of debt and equity securities to comply with the disclosure requirements of ASC 820. The Plan adopted the guidance in FSP 157-4 for the reporting period ended December 31, 2009. Adoption of FSP 157-4 did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In May 2009, the FASB issued FASB Statement No. 165, Subsequent Events, which was codified into ASC 855, Subsequent Events, to provide general standards of accounting for and disclosure of events that occur after the balance sheet date, but before financial statements are issued or are available to be issued. ASC 855 was amended in February 2010. The Plan has adopted ASC 855, as amended.

Notes to Financial Statements December 31, 2009 and 2008

#### NOTE 2 SIGNIFICANT ACCOUNTING POLICIES (continued)

In September 2009, the FASB issued Accounting Standards Update 2009-12, Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent) (ASU 2009-12). ASU 2009-12 amended ASC 820 to allow entities to use net asset value (NAV) per share (or its equivalent), as a practical expedient, to measure fair value when the investment does not have a readily determinable fair value and the net asset value is calculated in a manner consistent with investment company accounting. The Plan adopted the guidance in ASU 2009-12 for the reporting period ended December 31, 2009 and utilized the practical expedient to measure the fair value of investments within the scope of this guidance based on the investment's NAV. Adoption of ASU 2009-12 did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In January 2010, the FASB issued ASU 2010-06, Fair Value Measurements and Disclosures – Improving Disclosures about Fair Value Measurements. The standard requires entities to disclose additional information regarding assets and liabilities that are transferred between levels of the fair value hierarchy and to present information about purchases, sales, issuances and settlements on a gross basis in the reconciliation of fair value measurements using significant unobservable inputs ("Level 3 Reconciliation"). Additionally, the standard clarified existing guidance regarding the level of disaggregation of fair value measurements and disclosures regarding the valuation techniques and inputs utilized in estimating Level 2 and Level 3 fair value measurements. This guidance is effective for the Plan's financial statements on January 1, 2010, except for the disclosures regarding purchases, sales, issuances and settlements in the Level 3 Reconciliation, which will be effective for the Plan's financials on January 1, 2011. The Plan is evaluating the possible effect of this standard on the Plan's financial statements.

In February 2010, the FASB issued ASU 2010-09, Subsequent Events – Amendments to Certain Recognition and Disclosure Requirements. This ASU provides amendments to Subtopic 855-10, Subsequent Events – Overall, which establishes general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. The new guidance eliminates the requirement to disclose the date through which a registered company has evaluated subsequent events.

#### Payments of Benefits

Benefits to participants are recorded when paid.

Notes to Financial Statements December 31, 2009 and 2008

#### NOTE 2 SIGNIFICANT ACCOUNTING POLICIES (continued)

#### Administrative Expenses

The Plan's administrative expenses are paid by the Plan or the Company, as provided by the Plan's provisions. Administrative expenses paid by the Plan include recordkeeping, trustee, legal, audit, and investment consulting. Expenses relating to the Plan's investments (investment management fees and commissions) are charged to the specific investment fund to which the expense relates.

#### Investment Valuation and Income Recognition

The Plan records its investment in the Master Trust at fair value, which represents the Plan's interest in the net assets of the Master Trust.

Investments held by the Master Trust are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

The Plan invests in synthetic investment contracts. These investment contracts are recorded at fair value (see Note 5); however, since the contracts are fully benefit-responsive an adjustment is reflected in the statements of net assets available for benefits to present these investments at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value of the fully benefit-responsive investment contract represents contributions plus earnings, less participant withdrawals and administrative expenses.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the exdividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

#### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the accompanying notes. Actual results could differ from those estimates.

Notes to Financial Statements December 31, 2009 and 2008

#### NOTE 3 COMPANY CONTRIBUTIONS

The Company's contributions to the Plan are as follows:

Year Ended December 31				
2009			2008	
\$	602,718	\$	624,604	
	903,339		942,119	
	152,500		325,000	
	(2,795)		(1,950)	
\$	1,655,762	\$	1,889,773	
	\$	\$ 602,718 903,339 152,500 (2,795)	\$ 602,718 \$ 903,339 152,500 (2,795)	

Forfeitures consist of units of the investment options forfeited in accordance with the vesting provisions of the Plan. Forfeited units are converted to cash at applicable daily closing prices. The Company's net contribution for each Plan year is made by the following September.

#### NOTE 4 MASTER TRUST

The Master Trust holds the investments of the Plan, UBS 401(k) and the Pension Plan. Each participating retirement plan has a divided interest in the Master Trust. As such, investment and related income and expenses are allocated to the Plan based upon its individual interests in the investments of the Master Trust. The Trustee accounts for the Pension Plan's investment income and expenses in a separate account from the Plan and UBS 401(k)/combined. (See Note 5 for a schedule of investments.)

The following table represents investment income earned by the Master Trust for the years ended December 31:

	2009	 2008
Plan and UBS 401(k)		
Net realized and unrealized		
appreciation(depreciation) of investments:		
UBS Stock Fund	\$ (22,258,761)	\$ (393,884,936)
Other investments	320,859,305	 (603,546,043)
	298,600,544	(997,430,979)
Interest and dividend income	33,344,812	 57,056,920
Total Plan and UBS 401(k) investment income (loss)	 331,945,356	(940,374,059)
Pension Plan Net realized and unrealized appreciation(depreciation) of investments:		
Other investments	69,881,682	(154,521,489)
Interest and dividend income	10,002,629	 10,291,513
Total Pension Plan investment income	79,884,311	 (144,229,976)
Master Trust investment income (loss)	\$ 411,829,667	\$ (1,084,604,035)

Notes to Financial Statements December 31, 2009 and 2008

#### NOTE 5 FAIR VALUE MEASUREMENT

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction (i.e., exit price).

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical financial instruments (Level 1) and the lowest priority to unobservable inputs (Level 3). In some cases, the inputs used to measure fair value might fall in different levels of the fair value hierarchy. The level in the fair value hierarchy within which the fair value measurement in its entirety falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety. Assessing the significance of a particular input to the fair value measurement in its entirety requires considerable judgment and involves considering a number of factors specific to the financial instrument.

Level 1: Inputs are quoted prices (unadjusted) in active markets for identical financial instruments that the reporting entity has the ability to access at the measurement date. An active market for the financial instrument is a market in which transactions for the financial instrument occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the financial instrument, either directly or indirectly.

Level 3: Unobservable inputs for the financial instrument.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Equity securities: Actively traded securities are valued at the closing price reported on the active market on which the individual securities are traded. The value of certain equity securities for which there is no active market are based on the unit price of shares held.

Mutual funds, commingled funds: Valued at the net asset value of shares held by the Plan at year end.

Notes to Financial Statements December 31, 2009 and 2008

#### NOTE 5 FAIR VALUE MEASUREMENT (continued)

Participant loans: Valued at amortized cost, which approximates fair value.

Short-term investment funds: Valued at their outstanding balances, which approximate fair value.

Guaranteed investment contracts: The fair value of synthetic guaranteed investment contracts equals the fair value of the underlying assets plus the fair value of the wrapper contract. The fair value of the underlying assets primarily consisting of commingled investment funds that are valued based on the net asset values of shares held. The value of the wrapper contract is calculated by adjusting the current wrap contract fee less contract fee submitted with market re-bid multiplied by the contract book value, discounted using duration equivalent swap rate.

Venture Capital and Partnerships: Valued at fair value using methods determined in good faith by General Partners of the funds.

Government Securities, Corporate Debt Obligations, and Municipal Securities: Valued based on yields currently available on comparable securities of issues with similar credit ratings.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to Financial Statements December 31, 2009 and 2008

#### NOTE 5 FAIR VALUE MEASUREMENT (continued)

At December 31, 2009, the investments held by the Master Trust within the fair value hierarchy are as follows:

	Act	noted Prices in ive Markets for lentical Assets (Level 1)	Obser	ficant Other vable Inputs Level 2)	Unobs Inj	ificant ervable puts vel 3)	Total

Settlements	13,417	(772,153)	(737,144)	(323,349)	(1,819,229)	264,178
Ending Balance as of December 31, 2009	<u> </u>	\$ 4,344,633	\$ 3,927,302	\$ -	\$ 8,271,935	\$ 1,211,578

#### NOTE 6 INVESTMENT CONTRACTS WITH INSURANCE COMPANIES

The Stable Value Portfolio (the "Fund") holds investments in synthetic GICs, commingled funds and cash and cash equivalents. These contracts provide for the payment of a specified rate of interest to the portfolio and for the repayment of principal when the contract matures. Contract value represents contributions to the Fund plus interest accrued less redemptions. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0% percent. The interest rates for the years ended December 31, 2009 and 2008 ranged from 1.00% to 1.25% and 1.19% to 5.34%, respectively. Generally, interest rates reset monthly.

Notes to Financial Statements December 31, 2009 and 2008

## NOTE 6 INVESTMENT CONTRACTS WITH INSURANCE COMPANIES (continued)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include all or some of the following: (i) amendments to the Plan documents or the Plan's administration, including reduction or elimination of employer matching contributions; (ii) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions; (iii) complete or partial termination of the Plan or its merger with another plan; (iv) the failure of the Plan or the Master trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA; (v) unless made in accordance with the withdrawal provisions of the Plan, the withdrawal from the contract resulting from events at the direction of the Plan sponsor ("employer initiated event") such as withdrawals due to the removal of a specifically identifiable group of employees from coverage under the participating plan (such as a group layoff or early retirement incentive program), or the closing or sale of a subsidiary, employing unit or affiliate, the bankruptcy or insolvency of a plan sponsor, Fund, Trustee or Investment Manager, the merger of the Plan with another plan, or the plan sponsor's establishment of another tax qualified defined contribution plan; (vi) any change in law, regulation, ruling, administrative or judicial position or accounting requirement, in any case applicable to the Plan or Fund, and (vii) the delivery of the any communication to Plan participants designed to influence a participant not to invest in the Fund. Based on information provided by the investment manager the Company does not believe that the occurrence of any such events that would limit the Plan's ability to transact at contract value with participants is probable.

These contracts are subject to certain restrictions or penalties in the event of early withdrawal or liquidation.

	December 31			
	2009	2008		
Average yields:		F 0.50/		
Based on actual earnings	3.18%	5.85%		
Based on interest rate credited to participants	1.02%	1.21%		

#### NOTE 7 RISKS AND UNCERTAINTIES

The Plan invests in various investment instruments. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Notes to Financial Statements December 31, 2009 and 2008

#### NOTE 8 RELATED PARTY TRANSACTIONS

The Plan also invests in the common stock of the Company. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

#### NOTE 9 PUERTO RICO INCOME TAXES

The Plan has received a favorable determination letter from the Puerto Rico Department of Treasury (the "Treasury") dated August 24, 2001, stating that the Plan is qualified under Sections 1165(a) and 1165(e) of the Code of 1994 and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the Treasury, the Plan was amended and restated. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code, and therefore, believes that the Plan, as amended, is qualified and the Master Trust is tax exempt. The Plan has not been qualified nor is intended to be qualified under sections 401(a) or 401(k) of the United States Internal Revenue Service Code.

#### NOTE 10 RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2009 to the Form 5500:

Net assets available for benefits per the financial statements	\$ 32,387,345
Adjustment from contract value to fair value for fully	
benefit-responsive investment contracts	(245,029)
Net assets available for benefits per the Form 5500	\$ 32,142,316

The accompanying financial statements present fully benefit-responsive investment contracts at contract value. The Form 5500 requires fully benefit-responsive investment contracts to be reported at fair value. Therefore, the adjustment from contract value to fair value for fully benefit-responsive investment contracts represents a reconciling item.

Notes to Financial Statements December 31, 2009 and 2008

#### NOTE 10 RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of total additions per the financial statements to total income per the Form 5500 for the year ended December 31, 2009:

Total additions per the financial statements	\$ 8,241,617
Add: Adjustment from fair value to contract value for fully benefit-	245,029
responsive investment contracts at December 31, 2009	
Less: Adjustment from fair value to contract value for fully benefit-	
responsive investment contracts at December 31, 2008	 (390,604)
Total income per the Form 5500	\$ 8,096,042

#### NOTE 11 SUBSEQUENT EVENTS

Effective February 1, 2010, a new investment line-up was introduced in the Plan. This included a new streamlined number of investment options in the Core Tier and a self-directed window product offered through Hewitt Financial Services, the Plan's recordkeeper.

EIN: 13-3074649 Plan # 003

Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) As of December 31, 2009
