To the Dealers appointed
from time to time pursuant to a
Terms Agreement or Appointment Agreement
under the Global Debt Program of the
Inter-American Development Bank

Ladies and Gentlemen:

I have participated in the proceedings of the Inter-American Development Bank (the "Bank") to establish the Global Debt Program of the Bank, as it may be amended, restated, or superseded from time to time (the "Program"), and to authorize the issue and sale of Notes thereunder (the "Notes") with reference to a Prospectus dated January 8, 2001 (the "Prospectus"). In connection with such proceedings, I have examined, among other documents, the following:

- 1) The Agreement Establishing the Inter-American Development Bank (the "Bank Agreement") and the By-Laws of the Bank;
- 2) The Global Borrowing Authorization, Resolution DE-17/09, authorizing the issuance and sale of the Notes;
- 3) The Prospectus;
- 4) The Standard Provisions, dated as of January 8, 2001 (the "Standard Provisions");
- 5) The Global Agency Agreement, dated January 8, 2001, as amended, among the Bank, Kredietbank S.A. Luxembourgeoise, and Citibank, N.A. (the "Global Agency Agreement"); and
- 6) The Uniform Fiscal Agency Agreement, dated as of July 20, 2006, as amended, between the Bank and the Federal Reserve Bank of New York (the "FRBNY Fiscal Agency Agreement").

Pursuant to Section 5(e)(ii) of the Standard Provisions, I am of the opinion that:

- a) The Bank is an international organization duly established and existing under the Bank Agreement;
- b) The Bank has obtained all governmental approvals required pursuant to the Bank Agreement in connection with the offering, issue and sale of the Notes;

- c) The creation, issue, sale and delivery of the Notes, and the execution of any Notes in definitive form, have been duly authorized, and when duly issued and delivered, and in the case of Notes in definitive form, duly executed, authenticated, issued and delivered, the Notes will constitute valid and legally binding obligations of the Bank in accordance with their terms;
- d) Any applicable Terms Agreement or Appointment Agreement, as the case may be, as of its date, will be duly authorized, executed and delivered by the Bank;
- e) Each of the Global Agency Agreement, and the FRBNY Fiscal Agency Agreement has been duly authorized, executed and delivered by the Bank and constitutes a valid and legally binding obligation of the Bank;
- f) Under existing law, it is not necessary in connection with the public offering and sale of the Notes to register the Notes under the U.S. Securities Act of 1933, as amended, or to qualify an indenture with respect thereto under the U.S. Trust Indenture Act of 1939, as amended.

While I assume no responsibility with respect to the statements in the Prospectus, nothing has come to my attention which has caused me to believe that the Prospectus, as of its date and as of the date hereof, and excluding the financial statements or other financial data, contains any untrue statement of a material fact or omits to state any material fact necessary in order to make the statements therein, in the light of the circumstances under which they were made, not misleading.

This letter does not relate to the financial statements or other financial data contained in the Prospectus.

In rendering the foregoing opinion, I have relied, with respect to matters of New York law, upon the opinion of Sullivan & Cromwell LLP and, with respect to matters of English law, upon the opinion of Linklaters LLP, each delivered on this date in accordance with the Standard Provisions. Also, I have assumed that signatures on all documents examined by me are genuine.

This letter is furnished by me as Chief Counsel of the Bank to Dealers appointed from time to time under the Program and is solely for their benefit.

Very truly yours,

(e) Fixed Rate Day Count
Fraction(s):

(f) Calculation of Interest Amount:

As soon as practicable and in accordance with the procedure specified herein, the Calculation Agent will determine the IDR Rate and calculate the amount of interest payable (the "Interest Amount") with respect to each Authorized Denomination for the relevant Interest Period.

The Interest Amount with respect to any Interest Period shall be a USD amount calculated on the relevant Valuation Date (as defined below) as follows:

for the Interest Period from and including the Interest Commencement Date to but excluding October 30, 2010:

IDR 624,775 per Authorized Denomination
divided by
the IDR Rate; and

for the Interest Period from and including October 30, 2010 to but excluding the Maturity Date:

IDR 626,487 per Authorized Denomination
divided by
the IDR Rate

(and rounding, if necessary, the entire resulting figure to the nearest two decimal places, with USD 0.005 being rounded upwards).

The "IDR Rate" means the rate determined by the Calculation Agent that is equal to the USD/IDR spot rate at 11:00 a.m. Singapore time, expressed as the amount of IDR per one USD, for settlement in two IDR Business Days, reported on Reuters page ABSIRFIX01 (or such other page or service as may replace any such page for the purposes of displaying the USD/IDR reference rate) at or around 11:30 a.m. Singapore time on the Valuation Date (such

date, subject to adjustment as described below).

The “Valuation Date” means the date that is five IDR Business Days prior to the applicable Interest Payment Date or Maturity Date. If the scheduled date of the Valuation Date (the “Scheduled Valuation Date”) is not an IDR Business Day, the Valuation Date will be the first preceding day prior to the Scheduled Valuation Date that is an IDR Business Day; provided that if the Scheduled Valuation Date is an Unscheduled Holiday, then the Valuation Date will be the first following day that is an IDR Business Day. Notwithstanding the preceding sentence, if the Valuation Date has not occurred on or before the fourteenth consecutive day after the Scheduled Valuation Date, then the Valuation Date will be the next day that would have been an IDR Business Day but for the Unscheduled Holiday.

“Unscheduled Holiday” means a day that is not an IDR Business Day and that the market was not aware of such fact (by means of a public announcement or by reference to other publicly available information) until a time later than 9:00 a.m., Singapore time, two IDR Business Days prior to the Scheduled Valuation Date.

“IDR Business Day” means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for business in Jakarta and Singapore.

Fallback Provisions:

Should no USD/IDR reference rate appear on Reuters page ABSIRFIX01 (or on such replacement page as described above) on the Valuation Date, then the USD/IDR reference rate for such Valuation Date shall be determined by the Calculation Agent by requesting quotations for the mid USD/IDR spot foreign exchange rate at or about 11:00 a.m. Singapore time on the first IDR Business Day following the Valuation Date from five banks active in the USD/IDR currency and foreign exchange markets (such banks, the “Reference Banks”) as selected by the Calculation Agent.

If five or four quotations are provided as requested, the USD/IDR reference rate will be the arithmetic mean (rounded to the nearest whole Indonesian Rupiah, 0.5 being rounded upwards) of the remaining three or two such quotations, as the case may be, for such rate provided by the Reference Banks, after disregarding the highest such quotation and the lowest such quotation (provided that, if two or more such quotations are the highest such quotations, then only one of such quotations shall be disregarded, and if one or more such quotations are the lowest quotations, then only one of such lowest quotations will be disregarded).

If only three or two such quotations are provided as requested, the USD/IDR reference rate shall be determined as described above except that the highest and lowest quotations will not be disregarded.

If only one or no such quotations are provided as requested, or if the Calculation Agent determines in its sole discretion that no suitable Reference Banks active in the USD/IDR currency or foreign exchange markets will provide quotes, the Calculation Agent shall be entitled to calculate the USD/IDR reference rate acting in good faith in a commercially reasonable manner, having taken into account relevant market practice, by reference to such additional sources as it deems appropriate; and in such case the Calculation Agent shall notify the Bank and the Global Agent as soon as reasonably practicable that the USD/IDR reference rate is to be so determined.

(g) Calculation Agent:

See "7. Identity of Calculation Agent" under "Other Relevant Terms"

(h) Notification:

If the Interest Amount payable on any Fixed Rate Interest Payment Date or the Redemption Amount, as the case may be, is calculated in any manner other than by utilizing the USD/IDR reference rate that appears on Reuters page ABSIRFIX01 (or on such replacement page as described above), the Global Agent on behalf of the Bank shall give notice as soon as reasonably practicable to the Noteholders in accordance with Condition 14

(Notices).

14. Relevant Financial Center: Jakarta, Singapore and New York

15. Relevant Business Day: Jakarta, Singapore and New York

16. Redemption Amount (Condition 6(a)):

The Redemption Amount with respect to each Authorized Denomination will be a USD amount calculated by the Calculation Agent with respect to the Maturity Date as follows:

Authorized Denomination
divided by
the IDR Rate

(and rounding, if necessary, the entire resulting figure to the nearest 2 decimal places, with USD 0.005 being rounded upwards).

Payment of the Redemption Amount will occur on the scheduled Maturity Date or, if later in the event of any such adjustment described above, on the date that is five Relevant Business Days after the Valuation Date upon which the IDR Rate is actually obtained, with no accrued interest payable in respect of any postponement described above.

17. Issuer's Optional Redemption (Condition 6(c)):

No

18. Redemption at the Option of the Noteholders (Condition 6(f)):

No

19. Early Redemption Amount (including accrued interest, if applicable) (Condition 9):

In the event the Notes become due and payable as provided in Condition 9 (Default), the Early Redemption Amount with respect to each Authorized Denomination will be a USD amount equal to the Redemption Amount that is determined in accordance with "16. Redemption Amount" plus accrued and unpaid interest, if any, as determined in accordance with "13. Fixed Interest Rate (Condition 5(I))"; provided, that for purposes of such determination, the "Valuation Date" shall be the date that is four IDR Business Days prior to the date upon which the Notes become due and payable as

provided in Condition 9 (Default).

Accordingly, effective on this date, the authorized ordinary capital stock of the Bank is increased by an amount of US\$4,039,886,679.44 to a total of US\$104,980,029,842.72 represented by 8,702,335 shares, authorized and subscribed. The paid-in capital stock of the Bank remains unchanged.

General Information

Additional Information regarding the Notes

1. The EU has adopted a Directive regarding the taxation of savings income (the "Savings Directive"). The Savings Directive requires Member States (as defined below) to provide to the tax authorities of other Member States details of payments of interest and other similar income paid by a person to an individual in another Member State, except that Austria, Belgium and Luxembourg will instead impose a withholding system for a transitional period unless during such period they elect otherwise.

The Bank undertakes that it will ensure that it maintains a paying agent in a country which is a member of the European Union (a "Member State") that will not be obliged to withhold or deduct tax pursuant to the Savings Directive.

2. United States Tax Matters

A) United States Internal Revenue Service Circular 230 Notice: To ensure compliance with Internal Revenue Service Circular 230, prospective investors are hereby notified that: (a) any discussion of U.S. federal tax issues contained or referred to in this Pricing Supplement, the Prospectus or any other document referred to herein is not intended or written to be used, and

cannot be used, by prospective investors for the purpose of avoiding penalties that may be imposed on them under the United States Internal Revenue Code; (b) such discussions are written for use in connection with the promotion or marketing of the transactions or matters addressed herein; and (c) prospective investors should seek advice based on their particular circumstances from an independent tax advisor.

B) The "Tax Matters" section of the Prospectus and any tax disclosure in this pricing supplement is of a general nature only, is not exhaustive of all possible tax considerations and is not intended to be, and should not be construed to be, legal, business or tax advice to any particular prospective investor. Each prospective investor should consult its own tax advisor as to the particular tax consequences to it of the acquisition, ownership, and disposition of the Notes, including the effects of applicable U.S. federal, state, and local tax laws and non-U.S. tax laws and possible changes in tax laws.

C) Due to a change in law since the date of the Prospectus, the second paragraph of "— Payments of Interest" under the United States Holders section should be read as follows: "Interest paid by the Bank on the Notes constitutes income from sources outside the United States but will, depending on your circumstances, be "passive" or "general" income for purposes of computing the foreign tax credit."

D) Due to a change in law since the date of the Prospectus, the fourth paragraph of "— Purchase, Sale and Retirement of the Notes" under the United States Holders section should be read as follows: "Capital gain of a noncorporate United States holder that is recognized in taxable years beginning before January 1, 2011 is generally taxed at a maximum rate of 15% where the holder has a holding period greater than one year."

3. *Noteholders should consult their own tax advisors concerning the consequences of owning the Notes in their particular circumstances under the Internal Revenue Code and the laws of any other taxing jurisdiction.*

4. Additional Investment Considerations:

The Notes offered by this Pricing Supplement are complex financial instruments and may not be suitable for certain investors. Investors intending to purchase the Notes should consult with their tax and financial advisors to ensure that the intended purchase meets the investment objective before making such purchase.

There are various risks associated with the Notes including, but not limited to, exchange rate risk, price risk and liquidity risk. Investors should consult with their own financial, legal and accounting advisors about the risks associated with an investment in these Notes, the appropriate tools to analyze that investment, and the suitability of the investment in each investor's particular circumstances. Holders of the Notes should also consult with their professional tax advisors regarding tax laws applicable to them.

The Bank will hedge its obligations under the Notes by entering into a swap transaction with an affiliate of the Dealer as swap counterparty. Assuming no change in market conditions or any other relevant factors, the price, if any, at which the Dealer or another purchaser might be willing to

purchase Notes in a secondary market transaction is expected to be lower, and could be substantially lower, than the original issue price of the Notes. This is due to a number of factors, including that (i) the potential profit to the secondary market purchaser of the Notes may be incorporated into any offered price and (ii) the cost of funding used to value the Notes in the secondary market is expected to be higher than our actual cost of funding incurred in connection with the issuance of the Notes. In addition, the original issue price of the Notes included, and secondary market prices are likely to exclude, the projected profit that our swap counterparty or its affiliates may realize in connection with this swap. Further, as a result of dealer discounts, mark-ups or other transaction costs, any of which may be significant, the original issue price may differ from values determined by pricing models used by our swap counterparty or other potential purchasers of the Notes in secondary market transactions.

Payment of each Interest Amount and the Redemption Amount will be based on the IDR Rate, which is a measure of the rate of exchange between the Indonesian Rupiah and the USD. Currency exchange rates are volatile and will affect the holder's return. In addition, the government of Indonesia can from time to time intervene in the foreign exchange market. These interventions or other governmental actions could adversely affect the value of the Notes, as well as the yield (in USD terms) on the Notes and the amount payable at maturity or upon acceleration. Even in the absence of governmental action directly affecting currency exchange rates, political or economic developments in Indonesia or elsewhere could lead to significant and sudden changes in the exchange rate between the Indonesian Rupiah and the USD.

The Indonesian Rupiah is an emerging market currency. Emerging market currencies may be subject to particularly substantial volatility, as well as to government actions including currency controls, devaluations and other matters which could materially and adversely affect the value of the Notes.

The methodologies for determining the IDR Rate may result in a Redemption Amount (or Early Redemption Amount, as the case may be) of the Notes, or an Interest Amount on the Notes, being significantly less than anticipated or less than what an alternative methodology for determining the IDR-USD exchange rate would yield.
