Skanska to construct hospital in Virginia for USD 47.6 M, approximately SEK 340 M

Skanska has been awarded the assignment to build the Smyth County Community Hospital in Marion, Virginia, in the U.S. The contract totals USD 47.6 M, corresponding to about SEK 340 M, which will be included in order bookings for the first quarter. The client is Mountain States Health Alliance.

The contract pertains to a large, three-story building comprising approximately 16,000 square meters, which will house offices as well as medical wards, with 44 beds, and departments for emergency care and surgery, in addition to facilities for a number of specialists.

Skanska is responsible for Design/Build and Construction Management of the project.

The building will be designed to facilitate environmental certification according to the international environmental classification system LEED (Leadership in Energy and Environmental Design). The planning will be implemented using the Building Information Model, BIM.

Site work will commence in July and is scheduled for completion in December 2011.

Skanska USA is one of the leading development and construction companies in the country, consisting of four business units: Skanska USA Building, which specializes in building construction; Skanska USA Civil, specialized in civil infrastructure; Skanska Infrastructure Development, which develops public-private partnerships; and Skanska Commercial Development, which develops commercial development projects in select U.S. markets. Headquartered in New York, Skanska USA has approximately 7,000 employees and its 2009 revenues were SEK 44 billion.

Skanska to extend shopping center in Sweden for SEK 330 M

Skanska has secured the assignment to extend Väla Centrum shopping center, outside Helsingborg, Sweden. The contract amounts to SEK 330 M, which will be included in order bookings for the first quarter of 2010. The customer is the Swedish real estate company Diligentia which owns and operates the facility.

The project comprises a 36,000-square meter renovation and extension (13,000 and 23,000 square meters, respectively), resulting in a complete transformation of the shopping center facility. For example, the main entrance will be relocated.

Skanska will also assume responsibility for coordination of the installations and earthwork. Approximately SEK 35 M of the contract amount is attributable to Skanska Road Construction, which will be responsible for the road and earthwork related to the extension of parking areas and roads for the expanding center.

Work on the site will commence immediately and will be completed in mid-2012.

The shopping center will remain open during the construction period and extensive measures will be taken to ensure that the facility is safe for center visitors and employees, as well as for the construction workers who will carry out the renovation and improvement assignment.

Skanska is one of Sweden's largest construction companies, with operations in building and civil engineering construction as well as development of residential and commercial projects. In Sweden, the company has about 10,000 employees and revenue relating to construction operations amounted to about SEK 25 billion in 2009. The Residential Development unit sold about 1,000 new homes in 2009. Skanska is also active in the development of public-private partnership projects, PPP.
