BUREAU OF INTERNATIONAL
CORPORATE FINANCE

The following Management Discussion and Analysis ("MD&A") of the results and financial position of the Company for the three-month period ended July 31, 2010 should be read in conjunction with the information provided in the Company's Financial Statements for the periods ended July 31, 2010 and the material contained herein.

Unless otherwise noted, all currency amounts contained in this MD&A and in the Financial Statements are stated in Canadian dollars. The information presented in the Financial Statements is prepared in accordance with Canadian generally accepted accounting standards.

DATE

This MD&A is dated September 21, 2010.

OVERALL PERFORMANCE

Description of Business

The Company realised all of its listed securities during the financial year ended April 30, 2004 and now holds the majority of its assets in the form of cash deposits (\$326,418 as at July 31, 2010). No securities of the Company were issued during the three-month period ended July 31, 2010. The Company is a reporting issuer in British Columbia, Alberta and the Yukon Territory and trades on the NEX board of the TSX Venture Exchange under the symbol GCH.H:NEX.

The Company has previously announced its decision to focus its activities on identifying opportunities for the Company to acquire. The Directors anticipate that, once they have identified a suitable project, they may convene a Special Meeting of Shareholders to consider and vote on the change of business direction. It is likely that, once a suitable project has been identified and approved by shareholders, further placements will be made to raise additional funds for the project. The Board has not identified any specific factors that would impact the Company's ability to acquire a project.

As at the date of this MD&A, the Company is pursuing opportunities which may, subject to receiving any necessary Shareholder approval, result in a potential project being acquired by the Company.

The Company incurred total expenses of \$13,428 during the three-month period ended July 31, 2010. As at July 31, 2010, the Company had working capital of \$326,418, and believes that it has sufficient funds to pay its ongoing expenses.

Previously, the Company was a junior resource company engaged in the acquisition and exploration of mineral properties in British Columbia and the Yukon Territory. The Company still retains a 1.5% net smelter royalty on the Aurex Property which Stratagold Corporation may purchase at any time for \$1,000,000. The Company also owned 69 mineral claims, which it sold on January 16, 2002 to ATAC Resources Limited ("ATAC"). The Company agreed to accept 200,000 common shares in ATAC and a cash payment of \$5,000 in final settlement for the transfer of the project. These shares were then subsequently sold by the Company during the fiscal year ended April 30, 2004. Gtech International Resources Limited retains a 2% net smelter royalty which ATAC may purchase from the Company for \$600,000.

OVERALL PERFORMANCE (cont.)

Results from operations

The Company reported a net loss for the three-month period ended July 31, 2010 of \$13,428, compared to a net loss of \$9,351 for the three-month period ended July 31, 2009. Total expenses for the three-month period ended July 31, 2010 were \$13,428, compared to the three-month period ended July 31, 2009 of \$9,351. Total costs incurred during the period under review in relation to identifying opportunities for the Company, as stated in the Description of Business section of this Report, were \$nil. Until such time as an appropriate business opportunity is identified, the Company's results from operations are unlikely to change significantly.

Revenue for the three-month period ended July 31, 2010 was \$nil. Revenue for the three-month period ended July 31, 2009 was also \$nil.

During the three-month period ended July 31, 2010, \$13,428 (July 31, 2009: \$9,351) was spent on general and administration expenses.

LIQUIDITY

As at July 31, 2010, the Company had cash on hand of \$326,418 (April 30, 2010: \$354,399), which is sufficient to meet its obligations as they become due. These funds will be applied towards the investigation of new business opportunities and general working capital. The Company's parent, Genetic Technologies Limited, has indicated it may be willing to subscribe for additional shares in the capital of the Company should the need for additional capital be required.

TRANSACTIONS WITH RELATED PARTIES

There were no transactions with any related parties during the three-month period ended July 31, 2010.

CAPITAL RESOURCES

Management of the Company believes that it has sufficient financial resources to pay its ongoing administrative expenses and to meet its liabilities for the ensuing year. As at July 31, 2010, the Company had made no commitments for expenditures other than for routine administrative expenses.

The acquisition of a business opportunity may require additional financing. The Company has limited financial resources and there is no assurance that additional financing will be available to the Company, although the Company may attempt to raise additional funds through the issue of its securities by way of one or more private placements to the public and/or the Company's parent, Genetic Technologies Limited.

OFF-BALANCE SHEET ARRANGEMENTS

The Company does not have any off-balance sheet arrangements and does not contemplate having them in the foreseeable future.

PROPOSED TRANSACTIONS

Although the Company has decided to focus its activities on identifying business opportunities for the Company to acquire, it has not yet identified a potential opportunity for acquisition.

CHANGES IN ACCOUNTING POLICIES INCLUDING INITIAL ADOPTION

The Company did not initially adopt any new accounting policies during the three-month period ended July 31, 2010, or subsequent to such period end. The following pronouncements issued by the Canadian Institute of Chartered Accountants ("CICA") will likely impact the Company's future accounting policies:

Fair value measurements of financial instruments

In June 2009, the *CICA Handbook Section 3862* was amended to include additional disclosure requirements about fair value measurements of financial instruments and to enhance liquidity risk disclosure, applicable to the Company for the year ended April 30, 2010 and thereafter. The additional fair value measurement disclosures include classification of financial instrument fair values in a fair value hierarchy comprising of three levels reflecting the significance of the inputs used in making the measurements, described as follows:

- Level 1:** Valuations based on quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2:** Valuations based on directly or indirectly observable inputs in active markets for similar assets or liabilities, other than Level 1 prices, such as quoted interest or currency exchange rates; and
- Level 3:** Valuations based on significant inputs that are not derived from observable market data, such as discounted cash flow methodologies based on internal cash flow forecasts.

International Financial Reporting Standards ("IFRS")

In February 2008, the Canadian Accounting Standards Board announced 2011 as the changeover date for publicly-listed companies to use IFRS, replacing Canada's own generally accepted accounting principles. The specific implementation is set for interim and annual financial statements relating to fiscal years beginning on or after January 1, 2011. The transition date of January 1, 2011 will require restatement for comparative purposes of amounts reported by the Company for the year ended December 31, 2010. While the Company has begun assessing the adoption of IFRS for 2011, the financial reporting impact of the transition to IFRS cannot be reasonably estimated at this time.

CHANGES IN ACCOUNTING POLICIES INCLUDING INITIAL ADOPTION (cont.)

Consolidated financial statements and non-controlling interests

In January 2009, the CICA issued the new handbook Section 1601, "Consolidated Financial Statements", and Section 1602, "Non-controlling Interests", effective for fiscal years beginning on or after January 1, 2011. Either adoption of these recommendations is permitted. These pronouncements further align Canadian GAAP with US GAAP and IFRS. Sections 1601 and 1602 change the accounting and reporting for ownership interest in subsidiaries held by parties other than the parent. Non-controlling interests are to be presented in the consolidated statement of financial position within equity but separate from the parent's equity. The amount of consolidated net income attributable to the parent and to the non-controlling interest is to be clearly identified and presented on the face of the consolidated statement of income. In addition, these pronouncements establish standards for a change in a parent's ownership interest in a subsidiary and the valuation of retained non-controlling equity investments when a subsidiary is deconsolidated. They also establish reporting requirements for providing sufficient disclosures that clearly identify and distinguish between the interests of the parent and the interests of the non-controlling owners. The Company is currently considering the impact of adopting these pronouncements on its consolidated financial statements in fiscal 2011 in connection with the conversion to IFRS.

Business combinations

In January 2009, the CICA issued the new handbook Section 1582, "Business Combinations" effective for fiscal years beginning on or after January 1, 2011. Earlier adoption of Section 1582 is permitted. This pronouncement further aligns Canadian GAAP with US GAAP and IFRS and changes the accounting for business combinations in a number of areas. It establishes principles and requirements governing how an acquiring company recognizes and measures in its financial statements identifiable assets acquired, liabilities assumed, any non-controlling interest in the acquire, and goodwill acquired. The section also establishes disclosure requirements that will enable users of the acquiring company's financial statements to evaluate the nature and financial effects of its business combinations. Although the Company is considering the impact of adopting this pronouncement on the financial statements, it will be limited to any future acquisitions beginning in fiscal 2011.

FINANCIAL INSTRUMENTS AND OTHER INSTRUMENTS

The Company only invests in cash deposits with large banks that are considered to be low risk.

GTECH INTERNATIONAL RESOURCES LIMITED

NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED JULY 31, 2010 (UNAUDITED)

1. Nature and continuance of operations

The Company was incorporated under the laws of the Yukon Territory and is registered extra-provincially in the Province of British Columbia, Canada.

Previously, the Company was in the process of exploring its mineral properties and had not determined whether these properties contained ore reserves that were economically recoverable. The Company has written-off all amounts shown for mineral properties and their related deferred costs. The Company is currently investigating a range of business opportunities.

2. Significant accounting policies

(a) Mineral properties and deferred costs

The Company has written-off all of its mineral property interests and retains a residual royalty entitlement in respect of its Aurex exploration property.

(b) Fair value of financial instruments

The carrying amount of cash and cash equivalents, accounts payable and accrued expenses approximate their fair value due to their short-term nature.

(c) Stock option plan

Options are granted periodically by the Directors under the Company's stock option plan. The Company has elected to apply the fair value method of accounting for stock options on a prospective basis and, accordingly, the fair value of stock options granted is calculated using a Black-Scholes option-pricing model and included as a stock based compensation expense.

(d) Income taxes

Effective from January 1, 2000, the Company adopted the recommendations of the Canadian Institute of Chartered Accountants with respect to accounting for income taxes, whereby income taxes are calculated using the liability method of accounting. Temporary differences arising from the difference between the tax basis of an asset or liability and its carrying amount on the balance sheet are used to calculate future income tax liabilities or assets. These standards also require that the future income tax liabilities or assets are measured using tax rates and laws expected to apply in the periods that the temporary differences are expected to reverse. The Company has currently provided for a full valuation allowance against any potential tax assets. The implementation of the new recommendations, which were applied retroactively, has had no effect on these consolidated financial statements.

(e) Use of estimates

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires estimates and assumptions to be made that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the period. Actual results may differ from these estimates.

(f) Interest rate, currency and credit risk

The corporation is not subject to significant credit, currency and interest rate risks arising from these financial statements.

FOR THE PERIOD ENDED JULY 31, 2010

(UNAUDITED)

5. Share capital (cont.)

During the year ended April 30, 2006, the Company granted stock options to Directors to acquire up to an aggregate of 200,000 common shares at an exercise price of \$0.45 per share with a total fair value of \$48,600, of which \$16,200 was recognised as an expense during that year. The remaining expense of \$32,400 was recognised as an expense during the year ended April 30, 2007.

The fair value of stock options used to calculate compensation expense is estimated using the Black-Scholes Option Pricing Model with the following assumptions: a risk-free interest rate of 3.54%, an expected life of five years, an expected volatility of 60%, and no expectation for the payment of dividends.

Option pricing models require the input of highly subjective assumptions, particularly as to the expected price volatility of the stock. Changes in these assumptions can materially affect the fair value estimate and therefore it is Management's view that the existing models do not necessarily provide a single reliable measure of the fair value of the Company's stock option grants.

6. Loss per share

Loss per share is calculated using the weighted-average number of common shares outstanding during the year. Fully-diluted loss per share is not disclosed as it is anti-dilutive.

7. Subsequent events

There were no significant events which occurred subsequent to the end of the period under review.

8. Segmented information

As at July 31, 2010, all of the Company's assets, amounting to \$326,418, were located in Canada. There was no revenue earned by the Company during the three-month period ended July 31, 2010.
