Independent Auditor's Report

Board of Directors
Visun Securities Corporation
175 N. Patrick Blvd., Suite 190
Brookfield, WI 53045

Board of Directors:

We have audited the accompanying balance sheet of Visun Securities Corporation as of December 31, 2009, and the related statements of income, changes in liabilities subordinated to claims of general creditors, changes in stockholder's equity, and cash flows for the year then ended that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Visun Securities Corporation as of December 31, 2009, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information included in the accompanying computation of net capital and aggregate indebtedness schedule is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Securities and Exchange Commission. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Visun Securities Corporation
Notes To Financial Statements
December 31, 2009

Note 1 - Summary of Significant Accounting Policies

This summary of significant accounting policies is presented to assist in understanding the Company's financial statements. The financial statements and notes are representations of the Company's management who is responsible for their integrity and objectivity. These accounting policies conform to generally accepted accounting principles and have been consistently applied in the preparation of the financial statements.

Business Activity

The Company was incorporated in the state of Wisconsin on March 11, 1983. The Company is registered with the Securities and Exchange Commission and it is a member of (i) the Financial Industry Regulatory Authority, or "FINRA" (created in 2007 through the consolidation of the National Association of Securities Dealers, Inc. ("NASD") and the member regulation, enforcement and arbitration operations of the New York Stock Exchange) and (ii) the Securities Investors Protection Corporation ("SIPC"). The Company's principal business activities consist of the sale of mutual funds and annuities.

Income Taxes

As of December 31, 2009, the Company recorded no provision for income taxes since there was no tax liability per the tax return. There were no significant differences between financial and tax reporting.

Cash Equivalents

Cash equivalents are defined as certificates of deposit and U.S. government obligations which mature in less than 90 days, and those securities registered under the Investment Company Act of 1940 which are comprised of cash and other short-term debt instruments and which are commonly referred to as "money market funds."

Property and Equipment

Property and equipment are recorded at cost, and depreciated using the straight-line method over various estimated useful lives between five and ten years.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Note 2 - Net Capital Requirements

As a registered broker/dealer and member of the Financial Industry Regulatory Authority, the Company is subject to the Uniform Net Capital Rule, which requires the maintenance of minimum net capital and requires that the ratio of aggregated indebtedness to net capital, both as defined, shall not exceed 15 to 1. At December 31, 2009, the Company's net capital and required net capital were \$28,057 and \$5,000, respectively. The ratio of aggregate indebtedness to net capital was 102.99%.

Visun Securities Corporation
Notes To Financial Statements
December 31, 2009

Note 3 - Lease Commitment

Under the terms of noncancellable leases for office space, minimum annual rentals, exclusive of additional payment which may be required for certain increases in operating and maintenance costs, are as follows:

<u>Year Ending December 31,</u>	<u>Amount</u>
2010	\$ 16,800
2011	-
2012	-
2013	-
2014	-
Total	<u>\$ 16,800</u>

The Company has a written agreement to sublease its office space to Asset Builders Corporation. The agreement also provides for Asset Builders Corporation to reimburse the Company for various common area expenses and services.

Note 4 - Subordinated Loan

The Company has a loan payable to its officer and sole stockholder. It carries an interest rate of 9% and is due December 31, 2010, and is subordinated to all creditors. In December, 2009, an amendment was signed to extend the maturity date to December 31, 2013. The subordinated borrowings are available in computing net capital under the SEC's uniform net capital rule. To the extent that such borrowings are required for the Company's continued compliance with minimum net capital requirements, they may not be repaid.

Note 5 - Common Stock

As of December 31, 2009, common stock consisted of 10,000 authorized, 10,000 issued and outstanding, no par value shares.

Note 6 - Investments

Investments are recorded at fair market value as follows:

As of December 31, 2009

	<u>Cost</u>	<u>Fair Market Value</u>	<u>Allowance for Unrealized Gain</u>
Debt securities:			
Corporate	\$ 15,645	\$ 17,049	\$ 1,404
Total	<u>\$ 15,645</u>	<u>\$ 17,049</u>	<u>\$ 1,404</u>

Visun Securities Corporation
Notes To Financial Statements
December 31, 2009

Note 7 - Fair Value Measurements

The following table presents information relating to the fair value measurements for assets that are measured at fair value on a recurring basis at December 31, 2009:

As of December 31, 2009	Fair Market Value Measurements at Reporting Date			
		Using:		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Short-term investments:				
Corporate bonds	\$ 17,049	\$ 17,049	\$ -	\$ -
Total	<u>\$ 17,049</u>	<u>\$ 17,049</u>	<u>\$ -</u>	<u>\$ -</u>

FASB ASC 820, *Fair Value Measurements*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority. The Company uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Company measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available. The Company had no investments qualifying under Levels 2 or 3.

Level 1 Fair Value Measurements

The fair value of money market funds and common stock are based on quoted net asset values of the shares held by the Company at year-end.

Independent Auditor's Report on Internal Control

To the Board of Directors,
Visun Securities Corporation

In planning and performing our audit of the financial statements of Visun Securities Corporation for the year ended December 31, 2009, we considered its internal control structure, including procedures for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control structure.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission, we have made a study of the practices and procedures (including tests of compliance with such practices and procedures) followed by Visun Securities Corporation that we considered relevant to the objectives stated in Rule 17a-5(g)(1), in making the periodic computations of aggregate indebtedness and net capital under Rule 17a-3(11). We did not review the practices and procedures followed by the Company in making the quarterly securities examinations, counts, verifications and comparisons, and the recordation of differences required by Rule 17a-13 or in complying with the requirements for prompt payment for securities under Sec. 8 of Regulation T of the Board of Governors of the Federal Reserve System, because the Company does not carry security accounts for customers or perform custodial functions relating to customer securities.

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the Commission's above-mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal control structure or the practices and procedures referred to above, errors or irregularities may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, our study and evaluation disclosed that a lack of segregation of functions exists. Although this condition may be considered to be a material weakness in internal control, it is a common condition in entities of this size. This condition was considered in determining the nature, timing and extent of the procedures to be performed in our audit of the financial statements of Visun Securities Corporation for the year ended December 31, 2009, and this report does not affect our report thereon dated May 11, 2010. In addition, no facts came to our attention which would indicate the Company was not in compliance with its type k(2)(i) exemption from the requirements of SEC Rule 15c3-3. However, it should be noted that our examination was not directed primarily toward obtaining knowledge of such noncompliance.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the Commission to be adequate for its purpose in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2009, to meet the Commission's objectives.

This report is intended solely for the use of management, the Securities and Exchange Commission, and other regulatory agencies which rely on Rule 17a-5(g) under the Securities Exchange Act of 1934, and should not be used for any other purposes.

William J. Bogler & Co., P.C.
