DAVID E. LATHAM

CERTIFIED PUBLIC ACCOUNTANT

INDEPENDENT AUDITOR'S REPORT

Board of Directors
First Honolulu Securities, Inc.

I have audited the accompanying Statement of Financial Condition of First Honolulu Securities, Inc., (the Company) as of March 31, 2010, and the related statements of income, changes in stockholders' equity, changes in liabilities subordinated to claims of general creditors, and cash flows for the year then ended that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statement. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of First Honolulu Securities, Inc., as of March 31, 2010, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

My audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in Schedules on pages 10 through 13 is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rule 17a-5 of the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in my opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

DAVID E. LATHAM, C.P.A.

SEE NOTES TO FINANCIAL STATEMENTS

FIRST HONOLULU SECURITIES, INC.
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED MARCH 31, 2010

1. Organization and Nature of Business.

The Company is a broker-dealer registered with the Securities and Exchange Commission (SEC) and is a member of the Financial Industry Regulatory Authority (FINRA). The Company is engaged primarily in the brokerage, investment advisory and asset management business in the State of Hawaii.

The Company promptly transmits all funds and delivers all securities received in connection with its activities as a broker-dealer, to its clearing broker, and does not otherwise hold funds or securities for, or owe money or securities to, customers. Accordingly, its minimum net capital requirement is \$100,000.

2. Significant Accounting Policies.

Basis of presentation:

The financial statements have been prepared in conformity with generally accepted accounting principles. In preparing the financial statements, management is required to make estimates and assumptions that affect reported amounts of assets and liabilities as of the date of the balance sheet and revenues and expenses for the period. Actual results could differ significantly from these estimates.

Material estimates that are particularly susceptible to significant change in the near-term relates to the determination of the value of marketable securities held in inventory, marketable securities are valued at market values which can change substantially as the market reacts to changed circumstances. Management believes that such estimates have been appropriately established.

Date of management's review:

In preparing the financial statements, the Company has evaluated events and transactions for potential recognition or disclosure through May 25, 2010, the date that the financial statements were available to be issued.

Security transactions:

Securities transactions in regular-way trades are recorded on the trade date with related commission income and expense reported on a trade date basis. Investment advisor fees are received quarterly and recognized as income on a quarterly basis.

**FIRST HONOLULU SECURITIES, INC.
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED MARCH 31, 2010**

Inventory:

Marketable bonds and securities are carried at market value, with unrealized gains and losses reflected in income, are held by the clearing broker, and are collateral for the margin loan from the clearing broker (see Note 1, Notes to Financial Statements).

Property, equipment and depreciation:

Property and equipment are stated at cost.

Depreciation of leasehold improvements, furniture and equipment is computed using the straight-line method over the estimated useful lives of the assets, ranging from four to five years. Depreciation is also provided under the modified accelerated cost recovery system (MACRS).

Income taxes:

There are no timing differences. Therefore, no deferred income taxes have been provided.

Cash and cash equivalents:

The Company considers all short-term investments with an original maturity of three months or less that are not required to be segregated under Federal or other regulations to be cash and cash equivalents.

Concentrations of credit risk:

The Company is engaged in various trading and brokerage activities in which counterparties primarily include broker-dealers, banks, and other financial institutions. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the credit worthiness of the counterparty or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty.

3. Net Capital Requirements.

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (SEC Rule 15c-3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. At March 31, 2010, the Company had net capital of \$294,954, which was \$194,954 in excess of its required net capital of \$100,000. The Company's ratio of aggregate indebtedness to net capital was 1.28 to 1.

FIRST HONOLULU SECURITIES, INC.
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED MARCH 31, 2010

4. Leases.

The Company's office is in Honolulu, Hawaii. They have a lease for that office which expires on August 31, 2011. In addition to the basic lease rent, the Company pays other costs associated with their office. The annual minimum lease payments are listed below.

| | |
|---------------------------------|---------------|
| April 1, 2010 - March 31, 2011 | \$57,085 |
| April 1, 2011 - August 31, 2011 | <u>24,091</u> |
| | \$81,176 |

5. Transfer of Stock Ownership.

If any stockholder during his lifetime shall desire to sell his shares of stock of the Company, the Company shall have the first right of exercise of the option to purchase the stocks, except that as to shares owned by any director of the Company, the restrictions and procedure shall not apply as to any transaction between any of the Directors. Upon the death of any stockholder, the Company shall purchase all, and not less than all, of the deceased stockholder's shares of stock of the Company then owned by such stockholder at book value.

6. Income Tax and a Net Operating Loss Carryforward.

The Company had a net operating loss carryforward of \$483,465 on April 1, 2009, for Federal income tax purposes and \$257,781 for the State of Hawaii. There was net income of \$248,238 for Federal tax purposes and \$256,921 for Hawaii State franchise taxes for the year ended March 31, 2010. This resulted in a remaining net operating loss carryforward of \$235,227 for Federal taxes and \$860 for Hawaii State franchise tax. The loss carryforward may be used to offset future taxable income. The loss resulted in no Federal income tax or Hawaii franchise tax for the year ended March 31, 2010.

7. Complaint Filed Against The Firm.

A complaint was filed by a client against First Honolulu Securities, Inc. with FINRA alleging that the firm mismanaged the client's investments resulting in losses to the client. They have also filed a lawsuit against the firm based on the same allegations. The firm maintains that nothing improper was done and that the losses suffered by the client were a result of general market conditions. The firm does not anticipate a negative determination by the SEC or FINRA. Legal fees expense for the period were related to the defense of this complaint. Management has determined that the cost of litigation, arbitration, or mediation could be substantial, and may be as much as or more than the cost of settling the claim. Therefore, even though management believes that they have done nothing improper they have decided to accrue a loss contingency of \$120,000.

SEE NOTES TO FINANCIAL STATEMENTS

DAVID E. LATHAM

CERTIFIED PUBLIC ACCOUNTANT

Board of Directors
First Honolulu Securities, Inc.
Honolulu, Hawaii

In planning and performing my audit of the financial statements of First Honolulu Securities, Inc. (the Company), as of and for the year ended March 31, 2010 in accordance with auditing standards generally accepted in the United States of America, I considered the Company's internal control over financial reporting (internal control) as a basis for designing my auditing procedures for the purpose of expressing my opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, I do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), I have made a study of the practices and procedures followed by the Company including consideration of control activities for safeguarding securities. This study included tests of such practices and procedures that I considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, I did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons and recordation of differences required by Rule 17a-13
2. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control and the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on the timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

My consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. I did not identify any deficiencies in internal control and control activities for safeguarding securities that I consider to be material weaknesses, as defined above.

I understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purpose in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, I believe that the Company's practices and procedures, as described in the second paragraph of this report, were adequate at March 31, 2010, to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.

DAVID E. LATHAM, C.P.A.
Honolulu, Hawaii

May 25, 2010
