### Summary of significant accounting policies:

The presentation of financial statements in conformity with accounting principles generally accepted in the United State of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Securities transactions are recorded on a settlement date basis

Current income taxes are provided for estimated taxes payable or refundable based on tax returns filed on the cash basis of accounting. Deferred income taxes are recognized for the estimated future tax effects attributable to temporary differences in the basis of assets and liabilities for financial and tax reporting purposes. Measurement of current and deferred tax assets and liabilities is based on provisions of enacted federal and state tax laws.

The Company accounts for its income taxes using the Financial Accounting Standards Board Statement of Financial Accounting Standards No. 109, "Accounting for income taxes", which requires the establishment of a deferred tax asset or liability for the recognition of the future deductible or taxable amounts and operating loss and tax credit carry forwards. Deferred tax expenses or benefits are recognized as a result of the changes in the assets and liabilities during the year.
