Notes to Financial Statements

For the Year Ended March 31, 2010

(1) Organization

Bishop, Rosen & Co., Inc. (the "Company") is a broker-dealer registered with the Securities and Exchange Commission (the "SEC").

The Company is primarily engaged in a single line of business as a securities broker and dealer which is comprised of several classes of service, such as principal transactions, agency transactions and underwriting. The principal market for the Company's service is in the United States.

All customer accounts are cleared through and carried with First Clearing LLC on a fully disclosed basis.

(2) Summary of Significant Accounting Policies

(a) Cash and Cash Equivalents

The Company considers highly liquid financial instruments with maturities of three months or less at the Balance Sheet date to be cash and cash equivalents.

The Company maintains its cash in bank accounts at high credit quality financial institutions. The balances at times may exceed federally insured limits.

(b) Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(c) Fair Value of Financial Instruments

Substantially all of the Company's financial assets and liabilities are carried at market or fair value, or at amounts which approximate current fair value due to their short-term nature.

Effective June 1, 2008, the Company adopted the guidance for assets and liabilities measured at fair value on a recurring basis. The guidance establishes a common definition for fair value to be applied to existing generally accepted accounting principles that require the use of fair value measurements, establishes a framework for measuring fair value and expands disclosure about such fair value measurements.

The guidance defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Additionally, the guidance requires the use of valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. These inputs are prioritized below:

Bishop, Rosen & Co., Inc.

Notes to Financial Statements

For the Year Ended March 31, 2010

Level 1: Observable inputs such as quoted market prices in active markets for identical assets or liabilities.

Level 2: Observable market-based inputs or unobservable inputs that are corroborated by market data.

Level 3: Unobservable inputs for which there is little or no market data, which require the use of the reporting entity's own assumptions.

The fair values of financial assets of the company were determined using the following categories at March 31, 2010:

	Quoted prices in active markets (Level 1)	Value at March 31, 2010
Investments	\$ 1,312,965	\$ 1,312,965
Cash Equivalents	560,345	560,345
	\$ <u>1,873,310</u>	\$ <u>1,873,310</u>

Cash and cash equivalents of approximately \$560,345, include money market securities that are considered to be highly liquid and easily tradable as of March 31, 2010. These securities are valued using inputs observable in active markets for identical securities and are therefore classified as Level 1 within our fair value hierarchy.

Occasionally the Company has cash in excess of the FDIC insurable limits of \$250,000.

(d) Revenue and Expense Recognition

The Company earns revenue (commissions) from brokerage activities, which are recognized on the day of trade – trade date basis and carried at market value. Fees for underwriting and placement services are recognized when the deal is completed and the income is reasonably determinable.

(e) Marketable Securities

The Company classifies its existing marketable equity securities as Trading Securities in accordance with the the guidance for, "Accounting for Certain Investments in Debt and Equity Securities." These securities are carried at fair market value. Realized gains or losses are recognized in the statement of operations when securities are sold. Gains or losses on securities sold are based on the specific identification method. Unrealized gains or losses are recognized in the statement of operations on a monthly basis based on changes in the fair value of the security as quoted on national or inter-dealer stock exchanges.

(f) Depreciation and Amortization

Office furniture, equipment and leasehold improvements are stated at cost, net of accumulated depreciation. Office furniture and equipment are depreciated using either an accelerated or straight- line method, where applicable, over their estimated useful lives. Leasehold improvements are amortized over the lesser of the life of the lease or estimated useful life per management.

Bishop, Rosen & Co., Inc.
Notes to Financial Statements
For the Year Ended March 31, 2010

(g) Income Taxes

Deferred income taxes are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted tax rates expected to be recovered or settled. The effect on deferred taxes of a change in tax rates is recognized in income in the period that includes the enactment date.

(h) Management Estimates

The accompanying financial statements have been prepared in accordance with generally accepted accounting principles ("GAAP"). The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported revenues and expenses during the reporting period. Actual results could differ from those estimates.

(3) Marketable Securities

Marketable securities, as shown in the accompanying statement of financial condition, consist primarily of trading securities. Their cost and estimated fair and market value at March 31, 2010 are as follows:

(7) Commitments and Contingencies

(a) In the normal course of business, the Company enters into underwriting agreements, letters of intent to underwrite. The Company does not anticipate any material adverse effect on its financial position resulting from these commitments, contingent liabilities and guarantees.

**Report of Independent Registered Public Accounting
Firm on Internal Control
Pursuant to SEC Rule 17a-5 for a Broker-Dealer
Claiming
Exemption From SEC Rule 15c3-3**

The Board of Directors and Stockholder
Bishop Rosen & Co., Inc.

In planning and performing our audit of the financial statements and supplemental schedules of Bishop Rosen & Co., Inc. (the "Company") for the year ended March 31, 2010, we considered its internal control, including control activities for safeguarding securities, in order to determine our audit procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on internal control.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission (the "SEC"), we have made a study of the practices and procedures followed by the Company including tests of such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g) in making the periodic computations of aggregate indebtedness and net capital under rule 17a-3(a)(1) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons
2. Recordation of differences required by rule 17a-13
3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

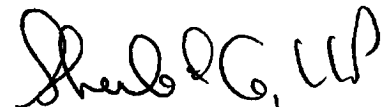

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls, and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in accordance with accounting principles generally accepted in the United States of America. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of internal control would not necessarily disclose all matters in internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control components does not reduce to a relatively low level the risk that error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving internal control, including control activities for safeguarding securities that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at March 31, 2010 to meet the SEC's objectives.

The report is intended solely for the use of the Board of Directors, management, the SEC, and other regulatory agencies that rely on rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than the specified parties
