INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL	10 - 11

Independent Auditors' Report

To the Shareholder of Vestech Securities, Inc.:

We have audited the accompanying statement of financial condition of Vestech Securities, Inc. (the Company) as of June 30, 2010, and the related statements of operations, changes in stockholders' equity, and cash flows for the year then ended that you are filing pursuant to rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Vestech Securities, Inc. as of June 30, 2010, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 3 to the accompanying financial statements, the Company has restated its beginning retained earnings as of July 1, 2009 to correct an error.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in Schedule I is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by rule 17a-5 under the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Notes to the Financial Statements June 30, 2010

Note 1 - Nature of Business

Vestech Securities, Inc. (the Company) is a broker-dealer of securities in Wichita, Kansas. The Company, incorporated on March 13, 1996, holds membership in the National Association of Securities Dealers, Inc. and is registered with the Securities and Exchange Commission in accordance with Section 15(b) of the Securities Exchange Act of 1934. Securities, mutual funds, annuity commissions, and wrap advisor fees make up the Company's revenue. The Company's customers consist primarily of individuals living in Kansas.

Note 2 - Significant Accounting Policies

Basis of Accounting

These financial statements are presented on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States of America. Revenues are recognized in the period earned and expenses when incurred.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and cash equivalents

For purposes of the statement of cash flows, the Company considers any highly liquid investment instruments, with a maturity of six months or less, to be cash equivalents.

Securities transactions

Securities transactions and the related commission revenues and expenses are recorded on a settlement date basis, generally the third business day following the transaction. If materially different, commission income and related expenses are recorded on a trade date basis.

Property and equipment

Property and equipment are recorded at cost. Depreciation is computed using the straight-line method over the estimated useful lives of the property and equipment. Expenditures for maintenance and repairs are expensed as incurred. Depreciation expense for the year ended June 30, 2010 was \$3.

Investment Advisory

Investment advisory fees are received quarterly but are recognized as earned on a pro rata basis over the term of the contract.

Notes to the Financial Statements June 30, 2010

Note 2 - Significant Accounting Policies (Continued)

Financial Instruments and Credit Risk

Financial instruments that potentially subject the Company to credit risk include cash, receivables from clearing broker-dealers, and securities owned. The Company's cash balances did not exceed federally insured limits of \$250,000 during the year. Securities owned consist of investments in registered investment companies and are held for investment purposes. Securities that are marketable are stated at fair market value (as determined by quoted market prices) and securities not readily marketable are carried at fair value as determined by management of the Company. The increase or decrease in net unrealized appreciation or depreciation of securities is credited or charged to operations.

Income Taxes

The Company files as an "S" Corporation for federal and state income tax purposes. The Company's net income is taxed at the shareholder level rather than the corporate level for income tax purposes, and thus, no provision for income taxes has been made in the accompanying financial statements.

Fair Value Measurements

The fair value of the Company's financial instruments reflects the amounts that the Company estimates to receive in connection with the sale of an asset or paid in connection with the transfer of a liability in an orderly transaction between market participants at the measurement date (exit price). The guidance also established a fair value hierarchy that prioritizes the use of inputs used in valuation techniques into the following three levels:

Level 1 – quoted prices in active markets for identical assets and liabilities.

Level 2 – observable inputs other than quoted prices in active markets for identical assets and liabilities.

Level 3 – unobservable inputs.

Much of the disclosure is focused on the inputs used to measure fair value, particularly in instances where the measurement uses significant unobservable (Level 3) inputs. The Company did not have any financial instruments that are carried at fair value at June 30, 2010.

Note 3 - Restatement of Financial Statements

The Company determined that a cash receipt of \$30,000 which was received in fiscal year 2009 and recorded as investment advisory revenue should have been recorded as deferred revenue as of June 30, 2009. Accordingly, the Company has restated its beginning retained earnings as of July 1, 2009 from \$35,713 to the restated amount of \$5,713.

Notes to the Financial Statements June 30, 2010

Note 4 - Net Capital Requirements

The Company is subject to the SEC uniform net capital rule (Rule 15c3-1), which requires the maintenance of a minimum amount of net capital, as defined under such provisions. Net capital and the related net capital ratio may fluctuate on a daily basis. At June 30, 2010, the Company had net capital and net capital requirements of \$29,535 and \$5,000, respectively. The Company's aggregate indebtedness to net capital ratio was 1.05 to 1. The Securities and Exchange Commission permits a ratio of no greater than 15 to 1.

Note 5 - Commitments and Contingencies

Litigation

The Company is subject to various claims and legal actions arising in the ordinary course of business. At June 30, 2010, the Company was not involved in any litigation or active legal actions.

Sub-Clearing Agreement

Included in the Company's sub-clearing agreement is an indemnification clause. This clause relates to instances where the Company's customers fail to settle security transactions. In the event this occurs, the Company will indemnify the clearing broker-dealer to the extent of the net loss on any unsettled trades. At June 30, 2010, management of the Company had not been notified by the clearing broker-dealer, nor were they otherwise aware, of any potential losses relating to this indemnification.

Note 6 - Related parties

The Company rents office space from a related party on a month-by-month basis. Rent expense for the year ended June 30, 2010 was \$10,377.

The Company has one stockholder who owns 100% of Vestech Securities, Inc. From time to time the stockholder receives advances from the Company, which are non-interest bearing and due on demand. The stockholder receivable balance as of June 30, 2010 was \$18,294.

As of June 30, 2010, the Company has advanced a total of \$22,100 to two different related parties. The notes have a 10% interest rate per annum with no definite repayment terms.

As of June 30, 2010, the Company has several customers who are relatives of management. This activity has been recorded as 'arm-length' transactions by the Company.

As an "S" Corporation, the stockholder receives distributions to the extent of his basis in the Company. For the year ended June 30, 2010, there were no stockholder distributions made.

Note 7 - Employee benefits

The Company has a Simple IRA pension plan, whereby eligible employees may voluntarily contribute a percentage of compensation. The Company matches a portion of the employee's contributions up to 3% of the employee's compensation for the year. For the period ending June 30, 2010, the Company recognized retirement plan expense of \$2,302.

Schedule I

VESTECH SECURITIES, INC.

Computation of Net Capital and Aggregate Indebtedness

6 2/3% of aggregate indebtedness)	\$ 5,000
Net capital in excess of minimum requirement	\$ 24,535
Ratio of aggregate indebtedness to net capital	 1.05

Note: Reconciliation of the basic net capital requirement is not included as there is no material difference from the Company's calculation per Form X-17A-5.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL

To the Stockholder of Vestech Securities, Inc.:

In planning and performing our audit of the financial statements of Vestech Securities, Inc. (the Company) as of and for the year ended June 30, 2010 in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including consideration of control activities for safeguarding securities. This study included tests of such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g) in making the periodic computations of aggregate indebtedness and net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

- 1. Making quarterly securities examinations, counts, verifications and comparisons, and recordation of differences required by rule 17a-13
- 2. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph, and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in accordance with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood

that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures, as described in the second paragraph of this report, were adequate at June 30, 2010, to meet the SEC's objectives.

This report is intended solely for use of the Partners, management, the SEC, the Financial Industry Regulatory Authority, and other regulatory agencies that rely on rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
