### **Independent Auditor's Report**

The Shareholder, Wolf A. Popper Inc.

We have audited the accompanying statement of financial condition of Wolf A. Popper Inc. as of June 30, 2010 and the related statement of operations and changes in shareholder's equity, and cash flows for the year then ended. These financial statements are the responsibility of management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements presented are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Wolf A. Popper Inc. as of June 30, 2010 and the related statements of operations and changes in shareholder's equity, and cash flows for the year then ended in conformity with generally accepted accounting principles generally accepted in the United States of America.

## Wolf A. Popper Inc. Notes to the Financial Statements For the Year Ended June 30, 2010

## 1. Organization

Wolf A. Popper Inc. (the Company) is a privately held New York state corporation formed for the purpose of conducting business as a securities broker dealer (BD). As s a BD, the Company is registered with the Financial Industry Regulatory Authority (FINRA) to market investments in registered securities.

The Company conducts a general securities business by introducing transactions of its clients on a fully disclosed basis to a clearing member/broker dealer. The Company receives a commission based upon the amount of transactions introduced.

## 2. Summary of Significant Accounting Policies

*Use of Estimates*- The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make reasonable estimates and assumptions that affect the reported amounts of the assets and liabilities and disclosure of contingent assets and liabilities and the reported amounts of revenues and expenses at the date of the financial statements and for the period they include. Actual results may differ from these estimates.

*Commission Revenues*- Commission revenues and related fees are recorded when they become due and the Company is reasonably assured of their collection.

*Cash and cash equivalents*- For the purpose of calculating changes in cash flows, cash includes all cash balances and highly liquid short-term investments with original maturity date of three months or less.

*Income taxes*- The Company accounts for income taxes in accordance with generally accepted accounting principles which require an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax assets and liabilities are computed annually for differences between financial statement and income tax bases of assets and liabilities that will result in taxable income or deductible expenses in the future based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets and liabilities to the amount expected to be realized. Income tax expense is the tax payable or refundable for the period adjusted for the change during the period in deferred tax assets and liabilities.

The Company follows the accounting requirements associated with uncertainty in income taxes using the provisions of Financial Accounting Standards Board (FASB) ASC 740, *Income Taxes*. Using that guidance, tax positions initially need to be recognized in the financial statements when it is more likely than not the positions will be sustained upon examination by the tax authorities. It also provides guidance for de-recognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. As of June 30, 2010, the Company has no uncertain tax positions that qualify for either recognition or disclosure in the financial statements. All tax returns from fiscal years 2007 to 2010 are subject to IRS audit.

#### **Recent Accounting Pronouncements-**

Financial Accounting Standards Board ("FASB") Accounting Standard Codification ("ASC") 820, *Fair Value Measurements and Disclosures* ("ASC 820" and formerly referred to as FAS-157), establishes a framework for measuring fair value in GAAP, clarifies the definition of fair value within that framework, and expands disclosures about the use of fair value measurements. ASC 820 is effective for fiscal years beginning after November 15, 2007. ASC 820-10-65, *Transition and Open Effective Date Information*, deferred the effective date of ASC 820, for non-financial assets and liabilities that are not on a recurring basis recognized or disclosed at fair value in the financial statements, to fiscal years, and interim periods, beginning after November 15, 2008. The Company has adopted the guidance within ASC 820 for non-financial assets and liabilities measured at fair value on a nonrecurring basis at January 1, 2009 and will continue to apply its provisions prospectively from January 1, 2009. The application of ASC 820 for non-financial assets and liabilities measured at fair value on a nonrecurring basis at January 1, 2009. The application of ASC 820 for non-financial assets and liabilities measured at fair value on a nonrecurring basis at January 1, 2009. The application of ASC 820 for non-financial assets and liabilities measured at fair value on a nonrecurring basis at January 1, 2009. The application of ASC 820 for non-financial assets and liabilities measured at fair value on a nonrecurring basis at January 1, 2009. The application of ASC 820 for non-financial assets and liabilities did not have a significant impact on earnings nor the financial position of the Company.

FASB ASC 810, Consolidation ("ASC 810"), ASC 810-10-65, Transition and Open Effective Date Information ("ASC 810-10-65" and formerly referred to as FAS-160) establishes accounting and reporting standards for the non-controlling interest in a subsidiary and for the deconsolidation of a subsidiary. It clarifies that a non-controlling interest in a subsidiary is an ownership interest in the consolidated financial statements. ASC 810-10-65 is effective for fiscal years beginning after December 15, 2008. The application of ASC 810-10-65 did not have a significant impact on earnings nor the financial position of the Company.

FASB ASC 815, *Derivatives and Hedging* ("ASC 815"), ASC 815-10-65, *Transition and Open Effective Date Information* ("ASC 815-10-65" and formerly referred to as FAS-161) includes a requirement for enhanced disclosures about an entity's derivative and hedging activities and thereby improves the transparency of financial reporting. ASC 815 is effective prospectively for fiscal years beginning after November 15, 2008. The application of ASC 815 did not have a significant impact on earnings nor the financial position of the Company.

FASB ASC 855, *Subsequent Events* ("ASC 855" and formerly referred to as FAS-165), modified the subsequent event guidance. The three modifications to the subsequent events guidance are: 1) To name the two types of subsequent events either as recognized or non-recognized subsequent events, 2) To modify the definition of subsequent events to refer to events or transactions that occur after the balance sheet date, but before the financial statement are issued or available to be issued and 3) To require entities to disclose the date through which an entity has evaluated subsequent events and the basis for that date, i.e. whether that date represents the date the financial statements were issued or were available to be issued. The adoption of *FASB ASC 855*, did not have a material affect on the Company's financial position.

## 3. Fair Value of Financial Instruments

Cash and cash equivalents, receivables from clearing entity, prepaid expense, and accounts payable and accrued expenses in the balance sheet are estimated to approximate fair market value at June 30, 2010.

### 4. Commitments and Contingencies

The Company maintains an office in New York City, New York and pays rent on a "month to month" basis. The Company is not committed to a lease requiring minimum monthly rent payments.

Rent expense for the fiscal year 2010 was \$5,660.

## 5. Off-Balance Sheet Risk

The Company introduces various transactions for the benefit of its clients on a fully disclosed basis through a clearing broker dealer. Under certain conditions, pursuant to its clearing agreement, the Company has agreed to indemnify the clearing broker dealer for any losses incurred by its clients. Such transactions may expose the Company to significant off balance sheet risk

The Company seeks to control these risks by monitoring the transactions of all its clients' accounts on a daily basis. The Company also monitors any collateral balances held by its clients at the clearing broker for sufficient levels to maintain client transactions. These balances are also monitored daily.

### 6. Concentrations of Credit Risk

The Company has a substantial portion of its assets on deposit with the clearing broker dealer. The Company's assets are held by the clearing broker dealer with the assets of other unrelated entities with similar deposits. In the event of the insolvency of the clearing broker dealer, recovery of the Company's assets may be limited to a pro rata share of available funds on deposit with the clearing broker dealer.

### 7. Net Capital Requirement

As a BD, the Company is subject to Rule 15c3-1 of the Security Exchange Act of 1934 which requires the Company to maintain a minimum net capital, as defined under the provisions, of \$5,000. The computation of net capital as of June 30, 2010 pursuant to Uniform Net Capital Rule 15c3-1 is as follows.

#### **CREDIT:**

-

Shareholders' equity	\$134,898
DEBITS: Non-allowable assets:	0
NET CAPITAL	\$134,898
Haircut on securities and money market funds	0
ADJUSTED NET CAPITAL	\$134,898
Minimum requirements of 6-2/3% of aggregate indebtedness or \$5,000, whichever is greater.	5,000
EXCESS NET CAPITAL	\$129,898
AGGREGATE INDEBTEDNESS: Accounts payable & accrued expenses	\$24,403
Total	\$24,403
RATIO OF AGGREGATE INDEBTEDNESS TO NET CAPITAL	18.09%

There is no material difference between the net capital computation as of June 30, 2010 in this report and the net capital computation previously reported by the Company as of June 30, 2010.

### 8. Income Tax Provision

.

Provision for income taxes is comprised of the following:

Net income (loss) before provision for income taxes	\$47,002
Current tax expense: Federal State & local Total	\$7,039 <u>8,790</u> \$15,829
Add deferred tax payable (benefit): Timing differences Allowance for recoverability Provision for income taxes	0 0 \$15,829

A reconciliation of provision for income taxes at the statutory rate to provision for income taxes at the Company's effective tax rate is as follows:

Statutory U.S. federal rate	15%
Statutory state and local income tax	<u>    16%</u>
Effective rate	31%

### 9. Subsequent Events

The Company has made a review of material subsequent events from June 30, 2010 through the date of this report and found no material subsequent events reportable during this period.

# DONAHUE ASSOCIATES, L.L.C. 27 BEACH ROAD, SUITE CO5-A MONMOUTH BEACH, NJ. 07750 Phone: (732) 229-7723

The Shareholder Wolf A. Popper Inc.

In planning and performing our audit of the financial statements of Wolf A. Popper Inc. for the year ended June 30, 2010, we considered its internal control structure, including procedures for safeguarding customer and firm assets, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control structure.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange, we have made a study of the practices and procedures (including tests of compliance with such practices and procedures) followed by the Company that we considered relevant to the objectives stated in Rule 17a-5(g), in making the periodic computations of aggregate indebtedness and net capital under Rule 17a-3(a)(11); and the procedures for determining compliance with the exemptive provisions of Rule 15c3-3; and for safeguarding the occasional receipt of securities and cash until promptly remitted to the Company's clearing brokers. We did not review the practices and procedures followed by the Company in making the quarterly securities examinations, counts, verifications and comparisons, and the recordation of differences required by Rule 17a-13 or complying with the requirements for prompt payment for securities under section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System, because the Company does not carry security accounts for customers or perform custodial functions relating to customer securities. The Company claims an exemption from SEC Rule 15c3-3 under the (k)(2)(i)provision, and therefore, no computation for determination of reserve requirements was necessary.

The management of the Corporation is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the Commission's above mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable, but not absolute, assurance that the assets for which the Corporation has responsibility are safeguarded against loss from unauthorized use or disposition and that

transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles in the United States. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of the inherent limitations in any internal control structure or the practices and procedures referred to above, errors or irregularities may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changing conditions or the effectiveness of their design may deteriorate.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control structure elements does not reduce to a relatively low level of risk that the errors or irregularities in material amounts in relation to the financial statements taken as a whole may occur and not be detected within a timely period by the employees in the normal course of performing their assigned functions. However, we noted no matters involving the internal control structure that we considered to be a material weakness as defined above.

We understand that the internal control structure that accomplish the objectives referred to in the second paragraph of this report are considered by the Commission to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that an internal control structure that does not accomplish such objectives in all material respects indicate material inadequacy for such purposes. Based on this understanding and our study, we believe the Company's practices and procedures were adequate as of June 30, 2010 to meet the Commission's objectives.

In addition, our review indicated the Company to be in compliance with the conditions of exemption from Rule 15c3-3 pursuant to paragraph k(2)(i) as of June 30, 2010, and no facts came to our attention to indicate such conditions had not been complied with during the year.

In accordance with Rule 17a-5(e)(4) under the Securities Exchange Act of 1934, we have performed the procedures enumerated below with respect to the assessments and payments to the Security Investor Protection Corporation (SIPC) for the year ended June 30, 2010 in order to assist you and interested third parties in evaluating the Company's compliance with applicable instructions of the Transitional Assessment Reconciliation (Form SIPC-7T). The Company is responsible for compliance with these requirements. These agreed-upon procedures were conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of those parties specified in the report. Consequently we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested of for any other purpose. The procedures performed and our findings are as follows.

- 1. We compared the listed assessment payments in Form SIPC-7T with respective cash disbursement records entries in the general ledger noting no differences.
- 2. We compared amounts reported on the audited Form X-17A-5 for the year ended June 30, 2010, as applicable, with the amounts reported in Form SIPC-7T for the year ended June 30, 2010 and noted no differences.
- 3. We compared any adjustments reported in Form SIPC-7T with supporting schedules and other working papers and noted no differences.
- 4. We proved the arithmetic accuracy of the calculations reflected in Form SIPC-7T and the related schedules supporting the adjustments and noted no differences.
- 5. We compared the amount of any overpayment applied to the current assessment with the Form SIP-7T on which it was originally computed and noted no differences.

With regard to the SIPC fee assessment testing, we were not engaged to, and did not conduct an examination, the objective of which would be the expression of an opinion on compliance. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.
