CERTIFIED PUBLIC ACCOUNTANTS' SUPPLEMENTARY REPORT ON INTERNAL CONTROL

November 18, 2010

To the Sole Director
Philip J. Greenblatt Securities, Ltd.

We have examined the financial statements of Philip J. Greenblatt Securities, Ltd., (the Company) for the year ended September 30, 2010 and have issued our report thereon dated November 18, 2010. As part of our examination, we made a study and evaluation of the Company's system of internal accounting control to the extent we considered necessary to evaluate the system as required by generally accepted auditing standards and Rule 17a-5 under the Securities Exchange Act of 1934. This study and evaluation included the accounting system, the procedures for safeguarding securities, and the practices followed by the Company (i) in making the periodic computations of aggregate indebtedness and net capital under Rule 17a3(a)(11); (ii) in making the quarterly securities examinations, counts verifications and comparisons; and the recordation of differences required by Rule 17a-13; (iii) in complying with the requirements for prompt payment for securities of Section 4(c) of Regulation T of the Board of Governors of the Federal Reserve System; (iv) in obtaining and maintaining physical possession or control of all fully paid and excess margin securities of customers as required by Rule 15c3-3; and (v) in complying with the conditions for exemption from Rule 15c3-3. Rule 12a-5 states that the scope of the study and evaluation should be sufficient to provide reasonable assurance that any material weaknesses existing at the date of our examination would be disclosed. The purpose of our study and evaluation was to determine the nature, timing, and extent of the auditing procedures necessary for expressing an opinion on the Company's financial statements, to provide a basis for reporting material weaknesses in internal accounting control under Rule 17a-5, and with respect to Rule 15c3-3, to provide reasonable assurance of compliance, in all material respects, with the possession and control requirements of that Rule. Our study and evaluation was more limited than would be necessary to express an opinion on the system of internal accounting control taken as a whole.

Philip J. Greenblatt Securities, Ltd.

As part of the study and evaluation required by Rule 12a-5, we reviewed the description of the procedures required to be maintained by Philip J. Greenblatt Securities, Ltd. for obtaining and maintaining physical possession or control of all fully paid and excess margin securities of customers to determine if those procedures would provide reasonable assurance of compliance in all material respects with the possession or control requirements of Rule 15c3-3.

The management of Philip J. Greenblatt Securities, Ltd. is responsible for establishing and maintaining a system of internal accounting control. In fulfilling this responsibility, estimates and judgement by management are required to assess the expected benefits and related costs of control procedures. The objectives of a system are to provide management with reasonable, but not absolute, assurance that the assets are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles.

Because of inherent limitations in any system of internal accounting control, errors or irregularities may nevertheless occur and not be detected. Also, projection of any evaluation of the system of internal accounting control to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the degree of compliance with the procedures may deteriorate.

Our study and evaluation made for the purpose described in the first paragraph above would not necessarily disclose all material weaknesses in the system. Accordingly, we do not express an opinion on the system of internal accounting control of Philip J. Greenblatt Securities, Ltd. taken as a whole. Our study and evaluation disclosed no condition that we believed to be a material weakness.

Our review of the description of the procedures required to be maintained for obtaining and maintaining physical possession or control of all fully paid and excess margin securities of customers for the year ended September 30, 2010, was made for the purposes set forth in the second paragraph above. In our opinion, the procedures appear to provide reasonable assurance of compliance in all material respects with the possession or control requirements of Rule 15c3-3.

This report is intended solely for the use of management and the Securities and Exchange Commission and should not be used for any other purpose.
