Independent Auditor's Report

To the Member of
ABA Business Services, LLC
Washington, D.C.

We have audited the accompanying statement of financial condition of ABA Business Services, LLC (the Company) as of August 31, 2010, and the related statements of operations, changes in member's equity and cash flows for the year then ended that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of ABA Business Services, LLC as of August 31, 2010, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in Schedule I is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rule 17a-5 under the Securities Exchange Act of 1934. This schedule is the responsibility of the Company's management. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

ABA Business Services, LLC

Notes To Financial Statements

Note 1. Nature Of Business And Significant Accounting Policies

Nature of business: ABA Business Services, LLC (the Company) is a broker-dealer registered with the Securities and Exchange Commission (SEC) and is a member of the Financial Industry Regulatory Authority (FINRA). The Company is a single-member limited liability company owned entirely by ABA Business Solutions, Inc. (Business Solutions), which is wholly owned by the American Bankers Association (ABA).

The Company operates under the exemptive provisions of paragraph (k)(2)(i) of rule 15c3-3 of the SEC. Therefore, the Company does not have customer accounts and thus does not carry margin accounts, or receive customer funds or securities which it would have to transmit promptly in connection with its activities as a broker or dealer. The Company does not otherwise hold funds or securities for or owe money to customers, nor does it have financial transactions between the broker or dealer and customers through which bank accounts have been designated as Special Accounts for the Exclusive Benefit of Customers of the Company.

A summary of the Company's significant accounting policies follows:

The Company follows accounting standards established by the Financial Accounting Standards Board (the FASB) to ensure consistent reporting of financial condition, results of operation, and cash flows. References to Generally Accepted Accounting Principles (GAAP) in these footnotes are to the *FASB Accounting Standards Codification*[™], sometimes referred to as the Codification or ASC. The Codification is effective for periods ended on or after September 15, 2009.

Basis of presentation: The financial statements include only the accounts of the Company.

Basis of accounting: The Company prepares its financial statements on the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when they are earned and expenses are recognized when the underlying obligations have been incurred.

Use of estimates: The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Income taxes: On September 1, 2009, the Company adopted the accounting standard on accounting for uncertainty in income taxes, which addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under this guidance, the Company may recognize the tax benefit from an uncertain tax position only if it is more-likely-than-not that the tax position will be sustained on examination by taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position are measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement. The guidance on accounting for uncertainty in income taxes also addresses de-recognition, classification, interest and penalties on income taxes, and accounting in interim periods. The Company would recognize any interest and penalties on income taxes as a component of income tax expense in the statement of operations.

Subsequent events: The Company has evaluated subsequent events for potential recognition and/or disclosure through October 26, 2010, the date the financial statements were issued. The Company has determined that there are no such subsequent events to report.

ABA Business Services, LLC

Notes To Financial Statements

Note 2. Income Tax Status

As a single-member limited liability company, the Company is treated as a "disregarded entity" for income tax purposes. Thus, the Company's financial activity is reported in conjunction with the federal and state income tax filings of Business Solutions.

The FASB issued new guidance on accounting for uncertainty in income taxes. The Company adopted this new guidance for the year ended August 31, 2010. Management evaluated the Company's tax positions and concluded that the Company has taken no uncertain tax positions that require adjustment to the financial statements to comply with the provisions of this guidance.

Business Solutions files income tax returns in U.S. federal jurisdiction and in the District of Columbia. Generally, Business Solutions is no longer subject to U.S. federal, state and local income tax examinations by tax authorities for tax years before 2006.

Note 3. Net Capital Requirement

The Company is a broker-dealer subject to the SEC Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. Rule 15c3-1 also requires that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1. At August 31, 2010, the Company had net capital of \$85,985, which was \$35,985 in excess of its required net capital of \$50,000. The Company's ratio of aggregate indebtedness to net capital was 0.14 to 1.

Note 4. Related Party Transactions

The Company reimburses ABA for various vendor invoices billed to the Company but initially paid by ABA. As of August 31, 2010, \$4,009 was owed to ABA for unpaid expense reimbursements.

**Computation Of Net Capital Under SEC Rule 15c3-1
August 31, 2010**

Net Capital

Member's equity	\$ 88,285
Nonallowable assets – deferred costs	<u>2,300</u>
Net capital	<u><u>\$ 85,985</u></u>

Aggregate Indebtedness

Accounts payable	\$ 8,000
Due to related party	<u>4,009</u>
Total aggregate indebtedness	<u><u>\$ 12,009</u></u>

Computation of Basic Net Capital Requirements

Minimum net capital requirement (the greater of \$50,000 or 6 2/3% of aggregate indebtedness)	<u><u>\$ 50,000</u></u>
Excess net capital	<u><u>\$ 35,985</u></u>
Ratio of aggregate indebtedness to net capital	<u><u>0.14 to 1</u></u>

Note: There are no material differences between the above computation and the Company's corresponding unaudited Part II of Form X-17A-5 as of August 31, 2010.

Independent Auditor's Report On Internal Control

To the Member of
ABA Business Services, LLC
Washington, D.C.

In planning and performing our audit of the financial statements of ABA Business Services, LLC (the Company), as of and for the year ended August 31, 2010, in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company, including consideration of control activities for safeguarding securities. This study included tests of compliance with such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons, and the recordation of differences required by Rule 17a-13.
2. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls, and of the practices and procedures referred to in the preceding paragraph, and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control and the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Company's financial statements will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and was not designed to identify all deficiencies in internal control that might be material weaknesses and therefore, there can be no assurance that all material weaknesses have been identified. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures, as described in the second paragraph of this report, were adequate at August 31, 2010, to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, the Financial Industry Regulatory Authority, and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
