The accompanying notes are integral part of this financial statement.

Carr Securities Corporation
Notes to Financial Statement
Year Ended August 31, 2010

1. Nature of Operations

Carr Securities Corporation (the "Company") was incorporated on January 13, 1959, under the laws of New York State. The Company is a registered broker and dealer pursuant to Section 15(b) of the Securities Exchange Act of 1934. The Company is a member of the Financial Industry Regulatory Authority (FINRA) and the Securities Investor Protection Corporation. The Company trades over-the-counter securities and is a market maker.

2. Summary of Significant Accounting Policies

Revenue Recognition

Securities transactions, commissions and related clearing expenses of the Company are recorded on a trade date basis.

Securities Owned, and Securities Sold, Not Yet Purchased

Securities owned and securities sold, not yet purchased, principally corporate stocks, are valued at their respective fair values. The resulting difference between cost and market is included in income.

Fixed Assets

Fixed assets are stated at cost less accumulated depreciation. Depreciation is provided on the straight-line method over the estimated useful lives of the assets.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Income Taxes

No provision for income taxes has been recorded, as the Company is an "S" Corporation. Accordingly, the individual stockholder reports his share of the Company's income or loss on his income tax return.

3. Securities Owned, and Securities Sold, Not Yet Purchased

Securities owned, and securities sold, not yet purchased, consist of trading and investment securities at market value as follows:

	<u>Owned</u>	<u>Sold, Not Yet Purchased</u>
Equity securities	<u>\$ 788,073</u>	<u>\$ 81,159</u>

Carr Securities Corporation
Notes to Financial Statement
Year Ended August 31, 2010

4. Advances to Related Parties

Advances to related parties amount to \$67,238 at August 31, 2010 and are non-interest bearing and due on demand.

5. Fixed Assets, Net

A summary of fixed assets is as follows:

Furniture and equipment	\$ 64,852
Accumulated depreciation	<u>(59,878)</u>
	<u>\$ 4,974</u>

6. Note Payable – Affiliate

During December 2009, the Company borrowed \$125,000 evidenced by a note payable with an entity that the sole shareholder of Carr Securities Corporation has a partnership interest in. The note bears interest at 2.64% and is due on demand. At August 31, 2010 the amount due to the shareholder is \$127,475, which includes accrued interest of \$2,475.

7. Clearing Arrangement

The Company has an agreement with a clearing organization to execute and clear, on a fully disclosed basis, customer and proprietary accounts of the Company. The Company is required to maintain a deposit of \$250,000 with the clearing organization. As part of the agreement, the clearing organization executes all orders, settles contracts and transactions in securities, and engages in all cashiering functions, including the receipt, delivery, and transfer of securities purchased, sold, borrowed or loaned and the receipt and distribution of interest and principal payments. The Company has agreed to pay the clearing organization for its services pursuant to a fee arrangement based generally on a flat rate per trade, subject to certain minimum fee levels.

8. Net Capital Requirements

The Company is subject to the uniform net capital requirements of rule 15c3-1 of the Securities and Exchange Commission, as amended, which requires a broker-dealer to have, at all times, sufficient liquid assets to cover current indebtedness. In accordance with the rule, the Company is required to maintain defined minimum net capital of the greater of \$1,000,000 or 1/15 of aggregate indebtedness. At no time may the ratio of aggregate indebtedness to net capital exceed 15 to 1.

At August 31, 2010, the Company had net capital, as defined, of \$1,469,068, which exceeded the required minimum net capital of \$1,000,000 by \$469,068. Aggregate indebtedness at August 31, 2010 totaled \$235,822. The ratio of aggregate indebtedness to net capital was .16 to 1.

9. Office Lease

The Company pays office rent on a month to month basis in the amount of \$5,550 per month.

Carr Securities Corporation
Notes to Financial Statement
Year Ended August 31, 2010

10. Fair Value Measurements

The Company accounts for its financial instruments at fair value, which is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The Company maintains Level 1 securities as follows:

Level 1: Valuations based on unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access. Valuation adjustments are not applied to level 1 securities. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these securities does not entail a significant degree of judgment. The Company does not adjust the quoted price for these investments, even in situations where the Company holds a large position and the sale could reasonably impact the quoted price.

The following are the major categories of assets and liabilities measured at fair value on a recurring basis and summarized by the fair value hierarchy as described above, as of August 31, 2010.

<u>Description</u>	<u>Classification</u>	<u>Total</u>	<u>Level 1</u>
Equity Securities	Asset	\$ 788,073	\$ 788,073
Equity Securities	Liability	\$ 81,159	\$ 81,159

11. Off-Balance Sheet Risk and Concentration of Credit Risk

Transactions with the clearing organization may expose the Company to off-balance-sheet risk in the event that the clearing organization is unable to fulfill its obligations. The Company does not maintain margin accounts for its customers, and, therefore there were no excess margin securities. However, the Company may be liable for chargebacks on introduced customer accounts carried by the clearing organization.

The Company, as part of its normal trading activities, assumes short positions in its inventory. The establishment of short positions exposes the Company to off-balance-sheet risk in the event prices increase, as the Company may be obligated to acquire the securities at prevailing market prices.

The Company periodically has cash at a bank in excess of FDIC-insured limits and is exposed to the credit risk resulting from this concentration of cash.

12. Subsequent Events

The Company has evaluated subsequent events through October 28, 2010, the date the financial statement was available for issuance.

The Company's Statement of Financial Condition as of August 31, 2010 is available for examination at the office of the Company and at the Regional Office of the Securities and Exchange Commission

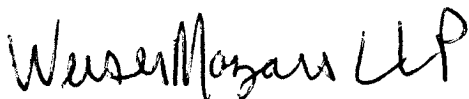

Independent Auditors' Report

To the Board of Directors of
Carr Securities Corporation

We have audited the accompanying statement of financial condition of Carr Securities Corporation (the "Company"), as of August 31, 2010, that you are filing pursuant to rule 17a-5 under the Securities Exchange Act of 1934. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statement. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statement referred to above presents fairly, in all material respects, the financial position of Carr Securities Corporation, as of August 31, 2010 in conformity with accounting principles generally accepted in the United States of America.
