Report of Independent Accountants

Washington, DC
107

To the Board of Directors of
Templeton/Franklin Investment Services, Inc.:

In accordance with Rule 17a-5(e)(4) of the Securities Exchange Act of 1934, we have performed the procedures enumerated below with respect to the accompanying General Assessment Reconciliation (Form SIPC-7) of the Securities Investor Protection Corporation (SIPC) of Templeton/Franklin Investment Services, Inc. for the year ended September 30, 2010, which were agreed to by Templeton/Franklin Investment Services, Inc., the Securities and Exchange Commission, Financial Industry Regulatory Authority, Inc., and the Securities Investor Protection Corporation (collectively, the "specified parties") solely to assist the specified parties in evaluating Templeton/Franklin Investment Services, Inc.'s compliance with the applicable instructions of Form SIPC-7 during the year ended September 30, 2010. Management is responsible for Templeton/Franklin Investment Services, Inc.'s compliance with those requirements. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of those parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

The procedures we performed and our findings are as follows:

1. Compared the listed assessment payments on page 1, item 2B and 2F of Form SIPC-7 with the respective cash disbursement entries as follows: Compared the listed assessment payment of \$150 on page 1, item 2B, of Form SIPC-7 to check #00021659 from Templeton/Franklin Investment Services, Inc. to Securities Investor Protection Corp. dated April 28, 2010, noting no exceptions.
2. Compared the sum of the Total Revenue amounts reported on page 6 of Form X-17A-5 for the quarter ended December 31, 2009, Form X-17A-5 for the quarter ended March 31, 2010, Form X-17A-5 for the quarter ended June 30, 2010 and Form X-17A-5 for the quarter ended September 30, 2010 to the Total revenue amount of \$(12,150) reported on page 2, item 2a of Form SIPC-7 for the year ended September 30, 2010, noting no exceptions.
3. Proved the arithmetical accuracy of the calculations reflected in Form SIPC-7 and in the related schedules and working papers obtained in procedure 3, as follows:
 - a. Recalculated the mathematical accuracy of the SIPC Net Operating Revenues on page 2, line 2d and the General Assessment @ .0025 on page 2, line 2e of \$(12,150) and \$0, respectively, of the Form SIPC-7, noting no exceptions.
4. Compared the amount of the payment of \$150 made with SIPC-6 on April 28, 2010 on page 1, item 2B of Form SIPC-7 with page 1, item 2H, overpayment carried forward, of the Form SIPC-7, noting no exceptions.

We were not engaged to and did not conduct an examination, the objective of which would be the expression of an opinion on the Company's preparation of Form SIPC-7 in accordance with the applicable instructions. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of management and the board of directors of Templeton/Franklin Investment Services, Inc., the Securities and Exchange Commission, Financial Industry Regulatory Authority, Inc., and the Securities Investor Protection Corporation and is not intended to be and should not be used by anyone other than these specified parties.

Report of Independent Auditors

Board of Directors of
Templeton/Franklin Investment Services, Inc.:

In our opinion, the accompanying consolidated statement of financial condition presents fairly, in all material respects, the financial position of Templeton/Franklin Investment Services, Inc. (an indirect wholly-owned subsidiary of Franklin Resources, Inc.) and subsidiary at September 30, 2010 in conformity with accounting principles generally accepted in the United States of America. This financial statement is the responsibility of the Company's management; our responsibility is to express an opinion on this financial statement based on our audit. We conducted our audit of this statement in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statement, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

Templeton/Franklin Investment Services, Inc. and Subsidiary

Notes to Consolidated Statement of Financial Condition

September 30, 2010

1. Business

Nature of Operations. Templeton/Franklin Investment Services, Inc. (collectively with its subsidiary, the "Company") is a wholly-owned subsidiary of Templeton Worldwide, Inc. (the "Parent"), which in turn is a wholly-owned subsidiary of Franklin Resources, Inc. ("Franklin"). The Company is registered with the United States Securities and Exchange Commission (the "SEC") as a broker-dealer.

The Company's subsidiary, Templeton Franklin Global Distributors Ltd. ("TFGD"), is a corporation organized under the laws of the commonwealth of Bermuda. TFGD provides distribution, investment management and fund administration (collectively, the "investment management and related services") to various funds (the "sponsored investment products"). Services to the sponsored investment products are provided under contracts that set forth the level and nature of the fees to be charged for these services. Substantially all of the Company's revenues relate to mutual fund products that are subject to contracts that are periodically reviewed and approved by each mutual fund's board of directors/trustees and/or its shareholders.

Risks and Uncertainties. Although the financial markets improved during the fiscal year ended September 30, 2010 ("fiscal year 2010"), the business and regulatory environments in which the Company operates remain uncertain and subject to change. The decline in global market conditions has in the past resulted in significant decreases in the Company's activities, which directly impacted revenues and net income, and future declines may negatively impact the Company's performance.

The Company is also subject to extensive and complex, overlapping and frequently changing rules, regulations and legal interpretations. On July 21, 2010, President Obama signed into law the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (the "Reform Act"). The Reform Act, as well as other legislative and regulatory changes, is expected to impose additional restrictions and limitations on the Company and will likely result in increased scrutiny and oversight of the Company's financial services and products. Due to the complexity and broad scope of the Reform Act and time required for regulatory implementation, the Company is not able to predict at this time the specific requirements that will be adopted by regulatory agencies having authority over the Company pursuant to the Reform Act, or the impact that any changes in regulation would have on the business. The Company will continue to review and evaluate the Reform Act and the extent of its impact on the business as the various rules and regulations required for implementation are adopted.

2. Significant Accounting Policies

Basis of Presentation. The consolidated statement of financial condition is prepared in accordance with accounting principles generally accepted in the United States of America, which require the use of estimates, judgments, and assumptions that affect the reported amounts of assets and liabilities at the date of the statement of financial condition. Management believes that the accounting estimates are appropriate and the resulting balances are reasonable; however, due to the inherent uncertainties in making estimates, actual amounts may differ from these estimates. The Company has evaluated subsequent events through November 16, 2010, which is the date that the financial statement was issued.

Consolidation. The consolidated financial statements include the accounts of the Company and its subsidiary in which it has a controlling financial interest. An entity generally is considered to have a controlling financial interest when it owns a majority of the voting interest in an entity. All material intercompany accounts and transactions have been eliminated.

Fair Value Measurements. The Company uses a three-level fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value based on whether the inputs to those

Templeton/Franklin Investment Services, Inc. and Subsidiary
Notes to Consolidated Statement of Financial Condition
September 30, 2010

valuation techniques are observable or unobservable. The three levels of fair value hierarchy are set forth below. The Company's assessment of the hierarchy level of the assets or liabilities measured at fair value is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

- Level 1** **Unadjusted quoted prices in active markets for identical assets or liabilities.**

- Level 2** **Observable inputs other than Level 1 quoted prices, such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; or inputs other than quoted prices that are observable or corroborated by observable market data. Level 2 quoted prices are obtained from independent third-party brokers or dealers, including prices derived from model-based valuation techniques for which the significant assumptions are observable in the market or corroborated by observable market data.**

- Level 3** **Unobservable inputs that are supported by little or no market activity. These inputs require significant management judgment and reflect the Company's estimation of assumptions that market participants would use in pricing the asset or liability. Level 3 valuations are derived primarily from model-based valuation techniques in which one or more significant inputs are unobservable in the market.**

The Company records all of its investments at fair value or amounts that approximate fair value. Trading securities are financial instruments recorded at fair value on a recurring basis. The Company may also measure certain assets or liabilities at fair value on a nonrecurring basis. These fair value measurements generally result from the application of lower of cost or fair value accounting for write-downs of individual assets.

Cash and Cash Equivalents include demand deposits with financial institutions and other highly liquid investments, including money market funds that Franklin or its affiliates sponsor, which are readily convertible into cash. Cash and cash equivalents are carried at cost. Due to the short-term nature and liquidity of these financial instruments, the carrying amounts of these assets approximate fair value.

Investments, Securities, Trading consist of an investment in common stock. Changes in the fair value of the security are recognized as gains and losses in earnings. The fair value of the security is determined using quoted market prices and it is classified as Level 1.

Deferred Sales Commissions. Sales commissions paid to investment advisors in connection with the sale of Franklin Floating Rate Fund Plc Class A shares sold without a front-end sales charge are capitalized as deferred sales commission assets ("DCA"). The DCA is amortized over the estimated period in which it will be recovered from distribution plan fees and contingent deferred sales charges, generally over an 18 month period. The balance of deferred sales commissions are recognized in prepaid expenses and other in the consolidated statement of financial condition.

Income Taxes. The Company is included in the consolidated federal and combined California state income tax returns for Franklin. The Company also files a separate Florida state income tax return.

Templeton/Franklin Investment Services, Inc. and Subsidiary
Notes to Consolidated Statement of Financial Condition
September 30, 2010

Under an intercompany tax sharing agreement (the "Agreement"), Franklin allocates these income taxes to the Company using the separate return method except for tax benefits arising from its net operating losses, which are utilized by Franklin under the Agreement for federal and California state tax purposes. As a result of this exception to the separate company method, the Company would not record in its consolidated statement of financial condition deferred tax assets related to federal or combined state income tax losses. Instead, these deferred tax assets are treated as transferred to Franklin in the year originated by the Company. To the extent that on a separate company basis a valuation allowance against these deferred tax assets would be required, that valuation allowance would also be transferred to Franklin. The Company would track these net operating loss deferred tax assets in a separate memorandum account and assess them for continuing need for a valuation allowance on a separate company basis. If, on a separate company basis the valuation allowance were released, the release of such valuation allowance would be reflected in the consolidated statement of operations of the Company in the year of release. Consistent with the Agreement, upon release of the valuation allowance the deferred tax asset would be treated, at that time, as having been settled with the Parent.

Consistent with the separate company method, and other than as described above, the Company recognizes deferred tax assets and liabilities for temporary differences between the financial reporting basis and the tax basis of its assets and liabilities. These deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The impact on deferred charges in tax rates and laws, if any, are applied to the years during which temporary differences are expected to be settled and reflected in the financial statements in the period enacted.

3. Cash and Cash Equivalents

Cash and cash equivalents consisted of the following at September 30, 2010:

	<u>Amount</u>
Demand deposits with financial institutions	\$ 1,268,236
Sponsored money market funds	474,103
Total	<u>\$ 1,742,339</u>

Included in demand deposits with financial institutions are deposits with two financial institutions totaling \$583,065 of which \$133,371 represents an exposure to concentration of credit risk as these amounts are in excess of Federal Deposit Insurance Corporation insured limits. The Company limits the amount of credit exposure with any given financial institution and conducts ongoing evaluations of the creditworthiness of the financial institutions with which it does business. Money market funds are sponsored by wholly owned subsidiaries of Franklin or its affiliates.

Templeton/Franklin Investment Services, Inc. and Subsidiary
Notes to Consolidated Statement of Financial Condition
September 30, 2010

4. Investment Securities, Trading

Investment securities, trading at September 30, 2010 consisted solely of an investment in NASDAQ common stock. A summary of the gross unrealized gain relating to the investment as of September 30, 2010 was as follows:

	<u>Cost Basis</u>	<u>Gross Unrealized Gains</u>	<u>Fair value</u>
Investment securities, trading	\$ 132,000	\$ 13,725	\$ 145,725

5. Fair Value Measurements

The Company records its investment at fair value on a recurring basis. As of September 30, 2010, the Company's investment is classified as Level 1. There were no Level 2 or Level 3 transfers during the year.

6. Taxes on Income

The Company's income tax provision is determined on a separate company basis as if the Company were the corporate tax payer without consideration of the tax sharing agreement with Franklin. At that time, the Company will then apply the tax sharing policy and adjustments to deferred tax assets and liabilities, if any, are reflected in shareholder's equity (See Note 2 – Significant Accounting Policies).

During fiscal year 2010, the Company recognized a deferred tax benefit, primarily related to investment securities, trading of \$4,236, which was reflected in stockholder's equity, resulting in no income tax benefit for the period.

The components of the net deferred tax liability as of September 30, 2010 were as follows:

Deferred taxes		
Separate filing state tax net operating loss carry-forwards		\$ 319,859
FIN48 Interest		38
Total deferred tax assets		<u>319,897</u>
Valuation allowance for tax carry-forwards		<u>(319,373)</u>
Deferred tax assets, net of valuation allowance		<u>524</u>
Unrealized gain on investment securities, trading		<u>5,294</u>
Total deferred tax liabilities		<u>5,294</u>
Net Deferred Tax Liability		<u>\$ 4,770</u>

The Company maintains memorandum accounting for its federal and California net operating loss carry-forwards for which Franklin has received an income tax benefit on its tax return.

At September 30, 2010, there were approximately \$14.2 million in federal net operating loss carry-forwards expiring between 2011 and 2030. The tax impact of those loss carry-forward amounts is approximately \$5.0 million. The Company has not realized the federal net operating losses due to the uncertainty of realizing the tax benefit of the loss carry-forwards in future years.

Templeton/Franklin Investment Services, Inc. and Subsidiary
Notes to Consolidated Statement of Financial Condition
September 30, 2010

At September 30, 2010, there were approximately \$7.1 million in California state net operating loss carry-forwards expiring between 2013 and 2015. The tax impact of those loss carry-forward amounts is approximately \$0.4 million and is fully offset by a valuation allowance. The Company has not realized the California state net operating losses due to the uncertainty of realizing the tax benefit of the loss carry-forwards in future years.

At September 30, 2010, there were approximately \$8.9 million in Florida state net operating loss carry-forwards expiring between 2020 and 2030. The tax impact of those loss carry-forward amounts is approximately \$0.3 million and is offset by a valuation allowance adjusted by a deferred tax liability of \$487.

At September 30, 2010, the Company had \$963 in gross unrecognized tax benefits. If recognized, all of this amount, net of any deferred tax benefits, would favorably affect its effective income tax rate in future periods.

A reconciliation of the beginning and ending balances of gross unrecognized tax benefits for fiscal 2010 is as follows:

	<u>Amount</u>
Balance at beginning of year	\$ 2,136
Expiration of statute of limitations	(1,173)
Balance at End of Year	<u>\$ 963</u>

This amount is included in accounts payable and accrued expenses in the Company's consolidated statement of financial condition.

It is the Company's policy to recognize the accrual of interest on uncertain tax positions in investment losses and other income, net and the accrual of penalties in general and administrative expenses. Accrued interest on uncertain tax positions at September 30, 2010 was approximately \$365 and is not presented in the unrecognized tax benefits table above.

The Company is included in the consolidated U.S. federal and combined California state tax returns for Franklin. The Company also files a separate Florida state income tax return. The Company is subject to examination by the taxing authorities in these jurisdictions. The Company's major tax jurisdictions and the tax years for which the statutes of limitations have not expired are as follows: U.S. federal and state of Florida 2006 to 2010.

It is reasonably possible that the total unrecognized tax benefit as of September 30, 2010 could decrease by an estimated \$963 within the next twelve months as a result of the expiration of statutes of limitations in the state tax jurisdictions.

7. Liabilities Subordinated to Claims of General Creditors

For the fiscal year 2010, the Company did not have any liabilities subordinated to claims of general creditors.

Templeton/Franklin Investment Services, Inc. and Subsidiary
Notes to Consolidated Statement of Financial Condition
September 30, 2010

8. Commitments and Contingencies

Legal Proceedings.

The Company and/or its subsidiary is from time to time involved in litigation related to claims arising in the normal course of business. Management is of the opinion that the ultimate resolution of any such claims will not materially affect the Company's business, financial position, or results of operations.

9. Related Party Transactions

The Company periodically enters into transactions during the ordinary course of business with affiliates, which are reflected through intercompany accounts. The Company has a cost allocation agreement where certain general and administrative services are allocated to it by an affiliate and has an agreement relating to sub-distribution services with an affiliate. Amount due to affiliates relate to these transactions.

The Parent has agreed to continue to provide the financial support necessary to fund the Company's operations.

10. Net Capital Requirement

The Company is subject to the Securities and Exchange Commission's Uniform Net Capital Rule (Rule 15c3-1). In accordance with Rule 15c3-1, the Company is required to maintain a minimum net capital of either the greater of 6-2/3% of aggregate indebtedness or \$5,000. In addition, the Company is required to maintain a ratio of aggregate indebtedness to net capital, both as defined, not in excess of 15 to 1. Rule 15c3-1 also provides that equity capital may not be withdrawn or cash dividends paid if the resulting indebtedness to net capital ratio would exceed 10 to 1. As of September 30, 2010, the Company had net capital of \$713,988 which was \$708,988 in excess of its required net capital of \$5,000. The ratio of aggregate indebtedness to net capital was 0.1 to 1.
