To the Shareholders and to the Board of Directors of
Dubeau Capital USA Inc.

Telephone: 514-878-2691
Fax: 514-878-2127
www.rcgt.com

We have audited the balance sheet of Dubeau Capital USA Inc. as at September 30, 2010 and the statements of earnings and comprehensive income, retained earnings and cash flows for the year then ended pursuant to rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America as established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Company as at September 30, 2010 and the results of its operations and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

On behalf of the Board,

Director

Director

Dubeau Capital USA Inc.

Notes to Financial Statements

September 30, 2010
(In U.S. dollars)

1 - STATUTES AND NATURE OF OPERATIONS

The Company, incorporated under Part IA of the Companies Act (Québec) as of May 25, 2001, is a wholly-owned subsidiary of Duca Investissements Inc. The Company is an introducing broker-dealer registered with the Securities and Exchange Commission (SEC) and is a member of the Financial Industry Regulatory Authority (FINRA).

2 - ACCOUNTING POLICIES

Accounting estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts recorded in the financial statements and notes to financial statements. These estimates are based on management's best knowledge of current events and actions that the Company may undertake in the future. Actual results may differ from these estimates.

Recent Accounting Standards

In June 2009, the Financial Accounting Standards Board (FASB) issued authoritative guidance which established the Accounting Standards Codification (ASC) as the source of authoritative U.S. GAAP recognized by the FASB to be applied to nongovernmental entities. Under the new guidance, accounting literature references in financial statements issued after June 30, 2009, will primarily reference sections of the Codification instead of specific original accounting pronouncements. The guidance also allows for entities to use plain English when disclosing their accounting policies and making a reference to accounting standards. The Company adopted the authoritative guidance for the present year, including the option of using plain English for the footnote disclosures.

In July 2006, the FASB issued a standard regarding accounting for uncertainty in income taxes establishing the criterion that an individual tax position has to meet for some or all of the benefits of that position to be recognized in the Company's financial statements. On initial application, the standard will be applied to all tax positions for which the statute of limitations remains open. Only tax positions that meet the more-likely-than-not recognition threshold at the adoption date will be recognized or continue to be recognized. The cumulative effect of applying the standard, if any, will be reported as an adjustment to retained earnings at the beginning of the period in which it is adopted. The standard is effective for fiscal years beginning after December 15, 2008, and was adopted by the Company on October 1, 2009. The adoption of the standard has no material effect on the Company's financial position and results of operations.

Financial statements

The functional currency of the Company is U.S. dollars. The financial statements are expressed in U.S. dollars to facilitate their comprehension by foreign users. The Company has evaluated all subsequent events through November 16, 2010, the date of issuance of these financial statements.

Revenue recognition

The Company's principal sources of revenue comprise investment advisory fees commissions and interest income.

Dubeau Capital USA Inc.

Notes to Financial Statements

September 30, 2010
(In U.S. dollars)

2 - ACCOUNTING POLICIES (Continued)

Security transactions are recorded in the accounts at the settlement date. Commission income and related expenses for transactions executed for clients but not yet settled are accounted for under the accrual basis of accounting (trade-date basis). Investment advisory fees are recognized as earned on a prorata basis over the term of the contract. Interest income is recognized based on the number of days the investment was held during the year.

Amortization

Intangible assets are amortized over their estimated useful lives according to the straight-line method at the following annual rates:

	<u>Rates</u>
Web site	33%
Software	50%

Foreign currency translation

The Company applies the temporal method of accounting for the translation of Canadian currency into the U.S. dollars. Under this method, monetary assets and liabilities are translated at the exchange rate in effect at the balance sheet date. Revenue and expenses are translated at the average rate in effect during the year. Gains and losses are included in the earnings for the year.

Income taxes

The Company uses the liabilities method of accounting for income taxes. Under this method, future income tax assets and liabilities are determined according to differences between the carrying amounts and tax bases of assets and liabilities. They are measured by applying enacted tax rates and laws at the date of the financial statements for the years in which the temporary differences are expected to reverse.

Fair value of financial instruments

The estimated fair value of certain financial instruments shown on the financial statements is equivalent to their carrying amount. These financial instruments include cash, receivable from a carrying broker, other receivables and accounts payable.

Income taxes receivable		4,179
Income taxes payable	174	3,570
	<u>(5,607)</u>	<u>33,020</u>

Cash flows relating to income taxes and interest on operating activities are detailed as follows:

	2010	2009
	\$	\$
Income taxes paid (received)	3,069	(3,811)
Interest received	3,415	700

Dubeau Capital USA Inc.

Notes to Financial Statements

September 30, 2010
(In U.S. dollars)

6 - FINANCIAL RISKS

The Company is exposed to market risk through its use of financial instruments, resulting from its operating activities.

The Company does not actively engage in the trading of financial assets for speculative purposes. The most significant financial risks to which the Company is exposed to are as follows.

Market risk

Market risk is the potential change in an instrument's value caused by interest rates fluctuations and currency exchange rates. Market risk is directly impacted by the volatility and liquidity in the markets in which financial instruments are traded. The following describes the types of market risks faced by the Company:

Currency risk

Currency risk arises from the possibility that fluctuations in foreign exchange rates will affect the value of a financial instrument.

The Company is exposed to foreign exchange risk due to cash and payables denominated in Canadian dollars. As at September 30, 2010, cash denominated in Canadian dollars totalled \$53,201 (C\$54,786) (\$48,375 (C\$51,761) as at September 30, 2009) and payables denominated in Canadian dollars totalled \$14,621 (C\$15,057) (\$10,000 (C\$10,700) as at September 30, 2009).

The Company is also exposed to foreign exchange risk due to accounts receivable denominated in Euro. As at September 30, 2010, assets denominated in Euro consisting of accounts receivable totalled \$802 (1,094 Euro).

The company does not enter into arrangements to hedge its foreign exchange risk.

Credit risk

Credit risk is the risk of loss if an issuer or a counterparty fails to perform its obligations under contractual terms and the collateral held, if any, is deemed worthless ("default risk").

The Company processed and settles various customer transactions through a carrying broker. Execution of these transactions may expose the Company to a default risk arising from the potential that customers, broker-dealers or issuers may fail to satisfy their obligations. In these situations, the Company may sustain a loss if it has to purchase or sell the securities underlying the contracts at an unfavourable market price.

Management considered the Company's exposure to credit risk is not significant because the carrying broker is subject to regulatory rules.

Dubeau Capital USA Inc.

Notes to Financial Statements

September 30, 2010

(In U.S. dollars)

6 - FINANCIAL RISKS (Continued)

Concentration of credit risk

Concentration of credit risk may arise from exposure to a single debtor or to a group of debtors having similar business characteristics or being engaged in similar activities such that their ability to meet their contractual commitments is expected to be adversely affected in a similar manner, by changes in economic, political or other market conditions. The Company does not expect non-performance by counterparties in the above situation.

As at September 30, 2010, the Company had \$46,183 of cash with one financial institution (\$46,621 as at September 30, 2009).

7 - COMMITMENTS

Under an agreement with the parent company, the Company is committed to pay monthly administrative and overhead fees of \$2,500. These fees may be waived by the parent company with no expectation of future recovery. For the year ended September 30, 2010, the parent company waived its right to the agreement, consequently, no administrative and overhead fees were charged.

Also, under an agreement with a clearing broker, the Company is committed to pay various fees based on the number of transactions cleared. The minimum monthly fee is \$1,000, based on the last six months' average. The agreement is in force for two years from the date the Company first clears transactions and subsequently to this initial term, either party may terminate this agreement by giving forty-five (45) days prior written notice to the other party. The Company began to clear transactions in December 2003. Since December 2005, none of the party has noticed to the other party his intention to terminate this agreement.

8 - NET CAPITAL REQUIREMENT

The Company is subject to the Securities and Exchange Commission's Uniform Net Capital Rule 15c3-1, which requires the maintenance of minimum net capital equal to the greater of \$50,000 or 6.67% of aggregate indebtedness, both as defined by the Rule. The ratio of aggregate indebtedness to net capital shall not exceed 15 to 1. As at September 30, 2010, the Company has a net capital of \$99,062 which exceeds the required net capital of \$50,000 by \$49,062. The Company's ratio of aggregate indebtedness to net capital was 0.3060 to 1 as at September 30, 2010.
