NOTES TO FINANCIAL STATEMENTS

(1) Summary of Significant Accounting Policies

(a) Nature of Operations

S.C. Parker & Co., Inc. is a full service broker and dealer in securities registered with the Securities and Exchange Commission (SEC) and the Financial Industry Regulatory Authority (FINRA). The Company has engaged an outside clearing house to act as their clearing firm for executing and clearing trades. As a result, the Company does not carry customer accounts on its books.

(b) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(c) Cash and Cash Equivalents

For purposes of the statement of cash flows, the Company considers all investments purchased with a maturity of three months or less to be cash equivalents.

(d) Securities Owned - Marketable

Securities owned - marketable consist of marketable equity and debt securities and are reported at fair value. Realized holding gains and losses of these securities are calculated by the specific identification method.

In September 2006, the FASB adopted a framework for defining and measuring fair value in accordance with GAAP and expanded disclosures about fair value measurement. While the new framework did not impact the Company's valuation methods, it expanded the Company's disclosures of assets and liabilities, which are recorded at fair value. The Company implemented the new guidance in 2009 and its adoption did not have a material impact on results of operations, financial position or cash flows.

(e) Property, Furniture and Equipment

Property, furniture and equipment are carried at cost. Depreciation of property, furniture and equipment is provided for on the straight-line basis over the estimated useful lives of the respective assets ranging from five to twenty-eight years. The remaining coverage is provided by the brokerage firm through a commercial insurer.

Securities-Investments and Trading consists of common stock of public entities, corporate and municipal bonds and other readily marketable securities. These securities are subject to risks of the market as a whole and the industries in which the issuing entity operates.

(13) Fair Value Measurements

The Company's estimates of fair value for financial assets and financial liabilities are based on the framework established in FAS 157. The framework is based on the inputs used in valuation, gives the highest priority to quoted prices in active markets and requires that observable inputs be used in the valuations when available. The disclosure of fair value estimates in the FAS 157 hierarchy is based on whether the significant inputs into the valuation are observable. In determining the level of the hierarchy in which the estimate is disclosed, the highest priority is given to unadjusted quoted prices in active markets and the lowest priority to unobservable inputs that reflect the Company's significant market assumptions. The three levels of the hierarchy are as follows:

- Level 1 - Unadjusted quoted market prices for identical assets or liabilities in active markets that the Company has the ability to access.

S.C. PARKER & CO., INC.
NOTES TO FINANCIAL STATEMENTS

(13) Fair Value Measurements (cont'd.)

- Level 2 - Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; or valuations based on models where the significant inputs are observable (e.g., interest rates, yield curves, prepayment speeds, default rates, loss severities, etc.) or can be corroborated by observable market data.
- Level 3 - Valuations based on models where significant inputs are not observable. The unobservable inputs reflect the Company's own assumptions about the assumptions that market participants would use.

The fair value of a financial instrument is the estimated amount at which the instrument could be exchanged in an orderly transaction between knowledgeable, unrelated willing parties, i.e., not in a forced transaction. The estimated fair value of a financial instrument may differ from the amount that could be realized if the security was sold in an immediate sale, e.g., a forced transaction. Additionally, the valuation of fixed maturity investments is more subjective when markets are less liquid due to the lack of market based inputs, which may increase the potential that the estimated fair value (i.e., the carrying amount) of an investment is not reflective of the price at which an actual transaction would occur.

For investments that have quoted market prices in active markets, the Company uses the quoted market prices as fair value and includes these prices in the amounts disclosed in Level 1 of the hierarchy.

The following table present the level within the fair value hierarchy at which the Company's financial assets and financial liabilities are measured on a recurring basis at September 30, 2010.

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Securities Owned - Marketable	\$1,114,071	\$ -	\$ -	\$ 1,114,071

The carrying amounts of financial instruments, including cash and cash equivalents, receivables from clearing organizations, payables to clearing organizations and payables to non-customers approximate their fair market value due to the short term maturities of these instruments.

(14) Subordinate Accounts

There were no subordinate accounts at either the beginning or the end of the year.

S.C. PARKER & CO., INC.
NOTES TO FINANCIAL STATEMENTS

(15) Net Capital Requirements

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (SEC Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital shall not exceed 15 to 1. At September 30, 2010, the Company had net capital of \$460,270, which was \$210,270 in excess of its required net capital of \$250,000. The Company's net capital ratio was .19 to 1.

(16) Contingencies

The Company is a defendant in a lawsuit related to its securities business. The claimant is seeking damages of approximately \$700,000. Outside counsel for the Company has advised that at this stage in the proceedings he cannot offer an opinion as to the probable outcome. Management believes that the suit is without merit and is vigorously defending its position.

(17) Subsequent Events

The Company did not have any recognized or nonrecognized subsequent events after September 30, 2010, the date of the Statement of Financial Condition. Subsequent events have been evaluated through November 16, 2010, the date the financial statements were available to be issued.

INDEPENDENT AUDITORS' REPORT ON
INTERNAL ACCOUNTING CONTROL

In planning and performing our audit of the financial statements of S.C. Parker & Co., Inc. for the year ended September 30, 2010, we considered its internal control, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including tests of compliance with such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g), in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under rule 17a-3(a)(11) and the reserve required by rule 15c3-3(e). We did not review the practices and procedures followed by the Company in making the quarterly securities examinations, counts, verifications and comparisons, and the recordation of differences required by rule 17a-13 or in complying with the requirements for prompt payment for securities under Section 8 of Regulation T of the Board of Governors of the Federal Reserve System or obtaining and maintaining physical possession or control of all fully paid or excess margin securities of customers as required by rule 15c3-3, because the Company does not carry security accounts for customers or perform custodial functions relating to customer securities.

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph, and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal control or the practices and procedures referred to above, errors and fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

INDEPENDENT AUDITORS' REPORT ON
INTERNAL ACCOUNTING CONTROL (CONT'D)

Our consideration of the internal control would not necessarily disclose all matters in the internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control components does not reduce to a relatively low level the risk that error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving the internal control, including procedures for safeguarding securities, that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at September 30, 2010, to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the Securities and Exchange Commission, the New York Stock Exchange and other regulatory agencies which rely on Rule 17a-5(g) under the Securities and Exchange Act of 1934 and is not intended to be and should not be used by anyone other than these specified parties.
