INDEPENDENT AUDITORS' REPORT

To the Stockholder and Board of Directors Cossé International Securities, Inc. Seattle, Washington

We have audited the accompanying statement of financial condition of Cossé International Securities, Inc. as of December 31, 2009. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statement. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statement referred to above presents fairly, in all material respects, the financial position of Cossé International Securities, Inc. as of December 31, 2009, in conformity with accounting principles generally accepted in the United States.

NOTES TO FINANCIAL STATEMENTS December 31, 2009

Note 1. Summary of Significant Accounting Policies and Operations

<u>Organization</u> – Cossé International Securities, Inc. ("the Company") operates as a securities broker-dealer for the accounts of customers. The Company is registered with the Securities and Exchange Commission ("SEC") and is a member of the Financial Industry Regulatory Authority.

The Company is actively involved in securities brokerage and trading. These services are provided to a large and diversified group of clients. The Company's exposure to credit risk associated with the non-performance of these clients in fulfilling their contractual obligations can be directly impacted by volatile or illiquid trading markets, which may impair the ability of clients to satisfy their obligations to the Company.

Estimates – The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

 \underline{Cash} – Cash consists of unrestricted cash balances in banks. The Company occasionally has deposits in excess of Federally-insured limits.

<u>Segregated Cash</u> – In accordance with regulations of the SEC, the Company maintains a special reserve bank account for the exclusive benefit of customers. At December 31, 2009, \$41,897 was held in a segregated account.

Furniture, Equipment, and Leasehold Improvements – Depreciation of furniture and equipment is provided using the straight-line method over the estimated useful lives (generally three to seven years) of the assets. Leasehold improvements are amortized over the shorter of the economic useful life of the improvement or the term of the lease.

<u>Revenue Recognition</u> – Securities transactions and the related commission revenue and expense are recorded on a settlement date basis, generally three business days after the trade date. The results of operations using the settlement date basis are not materially different from recording such transactions on a trade date basis.

<u>Income Tax</u> – The Company has elected S corporation status for tax purposes, and is not taxed at the Company level. Instead, its items of income, loss, deduction, and credit are passed through to its stockholder in computing his individual tax liability. The Company generally makes distributions to the stockholder to pay the liabilities arising from this election.

<u>Subsequent Events</u> – The Company has evaluated subsequent events through the date these financial statements were available to be issued, which was on January 26, 2010.

3

NOTES TO FINANCIAL STATEMENTS December 31, 2009

(continued)

Note 2. Deposits with Clearing Organization and Others

The Company has agreements with the National Securities Clearing Corporation and the Depository Trust Company whereby these organizations clear all trades and perform certain other services for the Company. The agreements are cancelable with written notice by either party. As part of these arrangements, the Company is required to maintain deposits at the organizations and must maintain net capital of at least \$750,000, instead of the \$250,000 minimum amount, otherwise required by SEC rules, as discussed in Note 5.

Note 3. Employee Benefits

The Company has established a retirement plan called the Cossé International Securities, Inc. Salary Deferred 401(k) Profit Sharing Plan and Trust ("the Plan"). All salaried employees are eligible to participate in the Plan. There are no age requirements, but employees must have at least 1,000 hours of service in a calendar-year period. Employer contributions are discretionary and there were no employer contributions in 2009.

Note 4. Leases

The Company leases its office space under an operating lease that expires April 30, 2013. Rental expense under the lease was approximately \$127,800 for the year ended December 31, 2009. The following is a schedule of minimum rent payments required under noncancelable operating leases for the years ending December 31:

| 2010 | \$ 130,683 |
|------|---------------|
| 2011 | 134,347 |
| 2012 | 138,011 |
| 2013 | 46,411 |
| | \$ 449,452 |

4

NOTES TO FINANCIAL STATEMENTS December 31, 2009

(continued)

Note 5. Net Capital Requirements

The Company is subject to the SEC Uniform Net Capital Rule ("Rule 15c3-1"). Accordingly, the Company is required to maintain a minimum level of net capital (as defined) of \$250,000. At December 31, 2009, the Company had computed net capital of \$1,390,182, which was in excess of the required net capital level by \$1,140,182. In addition, the Company is not allowed to have a ratio of aggregate indebtedness to net capital (as defined) in excess of 15 to 1. At December 31, 2009, the Company's ratio of aggregate indebtedness to net capital was 0.014 to 1.
