### **REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS**

#### To the Board of Directors and Shareholder First Dominion Capital Corp. Richmond, Virginia

We have audited the accompanying statement of financial condition of First Dominion Capital Corp. as of December 31, 2009, and the related statements of income (loss), changes in ownership equity, and cash flows for the year then ended that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of First Dominion Capital Corp. as of December 31, 2009, and the results of its operations and its cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements, taken as a whole. The information contained in pages 3, 4, 6 and 7 is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rule 17a-5 of the Securities and Exchange Commission. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

#### COMPUTATION OF ALTERNATE NET CAPITAL REQUIREMENT

3850 3860

#### Part B

| 21. 2% of combined aggregate debit items as shown in Formula for Reserve Requirements pursuant to Rule 15c3-3 prepared as of the date of the net capital computation including both brokers or dealers and consolidated subsidiaries' debits | 3970 |
|--|------|
| 22. Minimum dollar net capital requirement of reporting broker or dealer and minimum net capital requirement of subsidiaries computed in accordance with Note (A)  | 3880 |
| 23. Net capital requirement (greater of line 21 or 22)   | 3760 |
| 24. Excess capital (line 10 less 23) \$  | 3910 |
| 25. Net capital in excess of the greater of:   | ·    |
| A. 5% of combined aggregate debit items or \$120,000   | 3920 |

#### NOTES:

(A) The minimum net capital requirement should be computed by adding the minimum dollar net capital requirement of the reporting broker dealer and, for each subsidiary to be consolidated, the greater of:

1. Minimum dollar net capital requirement, or

2. 6%% of aggregate indebtedness or 4% of aggregate debits if alternative method is used.

(B) Do not deduct the value of securities borrowed under subordination agreements or secured demand note covered by subordination agreements not in satisfactory form and the market values of memberships in exchanges contributed for use of company (contra to item 1740) and partners' securities which were included in non-allowable assets.

(C) For reports filed pursuant to paragraph (d) of Rule 17a-5, respondent should provide a list of material non-allowable assets.

Instructions: Detail Listing must include the total of items maturing during the six month period following the report date, regardless of whether or not the capital contribution is expected to be renewed. The schedule must also include proposed capital withdrawals scheduled within the six month period following the report date including the proposed redemption of stock and anticipated accruals which would cause a reduction of Net Capital. These anticipated accruals would include amounts of bonuses, partners' drawing accounts, taxes, and interest on capital, voluntary contributions to pension or profit sharing plans, etc., which have not been deducted in the computation of Net Capital, but which you anticipate will be paid within the next six months.

### NOTES TO FINANCIAL STATEMENTS

#### Year ended December 31, 2009

## (1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### **ORGANIZATION**

First Dominion Capital Corp. (the "*Company*") is a broker-dealer registered with the Securities and Exchange Commission and is a member of the National Association of Securities Dealers.

#### NATURE OF OPERATIONS

The Company serves as the principal underwriter for the mutual funds of The World Funds, Inc. The Company also markets other mutual funds for which it is paid a commission and may also receive contingent deferred sales charges on certain redemptions and derives principally all of its revenues from these sources. It does not execute investment transactions recommended by any investment manager for The World Funds, Inc.

#### **USE OF ESTIMATES**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that may affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

## **OFF-BALANCE-SHEET RISK AND CONCENTRATION OF CREDIT RISK**

The Company introduces customers' securities transactions on a fully-disclosed basis to its clearing broker/dealer. Off-balance-sheet risk exists with respect to these transactions due to the possibility that customers may be unable to fulfill their contractual commitments wherein the clearing broker/dealer may charge any losses it incurs to the Company. The Company seeks to minimize this risk through procedures designed to monitor the credit worthiness of its customers and that customer transactions are executed properly by the clearing broker/dealer.

#### CASH EQUIVALENTS

Cash equivalents include all highly liquid short-term instruments purchased with a maturity of three months or less.

### FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying amounts of cash, commissions receivable, and accrued expenses approximate fair value because of the short maturity of these items.

#### **REVENUE RECOGNITION**

The Company receives income from distribution fees on the trading of mutual fund shares. Income is recorded on a settlement date basis; however, all transactions are reviewed and adjusted on a trade date basis if significant.

#### *NOTES TO FINANCIAL STATEMENTS – (Continued)*

#### Year ended December 31, 2009

#### **INCOME TAXES**

The liability method is used to calculate deferred income taxes. Under this method, deferred tax assets and liabilities are recognized on temporary differences between the financial statement and tax bases of assets and liabilities using applicable enacted rates. The principal types of differences between assets and liabilities for financial statements and tax return purposes relate to the recording of income and expenses for tax purposes when cash is received and paid. The deferred tax liability is reduced by any net operating losses being carried forward for tax purposes.

#### SUBSEQUENT EVENTS

Subsequent events after the balance sheet date through the date that the financial statements were available for issuance, February 26, 2010, have been evaluated in the preparation of the financial statements.

#### (2) **RELATED PARTIES**

One of the Company's directors serves on the Board of Directors of The World Funds, Inc. from which the Company receives a majority of its revenue.

#### (3) **REGULATORY REQUIREMENTS**

The Company is exempt from the provisions of Rule 15c-3-3 of the Securities Exchange Act of 1934 (reserve requirement for brokers and dealers) in that it does not hold funds or securities for customers and it promptly transmits all funds and delivers all securities in connection with its activities as a broker or dealer.

Pursuant to the net capital provisions of Rule 15c3-1 of the Securities Exchange Act of 1934, the Company is required to maintain a minimum net capital, as defined, equal to the greater of 25,000 or 6-2/3% of aggregate indebtedness. Net capital and the related net capital ratio may fluctuate on a daily basis. At December 31, 2009, the Company had net capital of \$113,815, which exceeded its net capital requirement of \$25,000 by \$88,815. The percentage of aggregate indebtedness to net capital was 0%.

#### (4) **BENEFIT PLAN**

The Company participates in a contributory Simplified Employee Pension Individual Retirement Accounts plan that was available to officers and directors of the Company. Contributions to the plan are discretionary and in no event will exceed the amount permitted under the Internal Revenue Code. No contributions were made for 2009.

#### (5) SUBORDINATED LIABILITIES

There were no liabilities subordinated to claims of general creditors at any time during the year ended December 31, 2009.

#### **REPORT ON INTERNAL CONTROL REQUIRED BY SEC RULE 17a-5**

#### Board of Directors First Dominion Capital Corp. Richmond, Virginia

In planning and performing our audit of the financial statements of First Dominion Capital Corp. (the "Company"), as of and for the year ended December 31, 2009, in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission ("SEC"), we have made a study of the practices and procedures followed by the Company including consideration of control activities for safeguarding securities. This study included tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in making quarterly securities examinations, accounts, verifications, and comparisons and recordation of differences required by Rule 17a-13 and complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining an internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph, and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with principles generally accepted in the United States of America. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, errors or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Board of Directors First Dominion Capital Corp. Page Two

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the company's financial statements will not be prevented or detected and corrected on a timely basis.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2009, to meet the SEC's objectives.

This report is intended solely for the use of management, the SEC and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
