INDEPENDENT AUDITORS' REPORT

To the Members of CSS, LLC

We have audited the accompanying statement of financial condition of CSS, LLC (the "Company") as of December 31, 2009, that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial condition. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statement referred to above presents fairly, in all material respects, the financial position of CSS, LLC as of December 31, 2009, in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statement taken as a whole. The information contained in the supplementary schedules is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rule 17a-5 under the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in our audit of the basic financial statement and, in our opinion, is fairly stated in all material respects, in relation to the basic financial statement taken as a whole.

	\$ <u>1,490,770,711</u>

Notes to Statement of Financial Condition

December 31, 2009

1. Organization and Business

CSS, LLC (the "Company"), an Illinois limited liability company, was organized on July 8, 1998. The Company is a broker-dealer registered with the Securities and Exchange Commission and is a member of the Chicago Board Options Exchange. The Company engages primarily in the proprietary trading of equity and fixed income securities, equity and index options contracts and other derivative equity instruments.

2. Summary of Significant Accounting Policies

Revenue Recognition and Securities Valuation

Securities transactions and related commission revenue and expenses are recorded on a trade date basis and, accordingly, gains and losses are recorded on unsettled transactions. Futures transactions and resulting gains and losses are recorded on a trade date basis, and, accordingly, gains and losses are recorded on open futures contracts.

Securities owned and securities sold, not yet purchased are recorded in the statement of financial condition at fair value in accordance with Statement of Financial Accounting Standards No. 157.

Income Taxes

No provision has been made for federal income taxes, as the taxable income of the Company is included in the respective income tax returns of the members.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Depreciation and amortization

Furniture, equipment and leasehold improvements are being depreciated over their useful lives using an accelerated method.

3. Clearing Agreements

The Company has Joint Back Office ("JBO") clearing agreements with Fortis Clearing Americas LLC ("FCA") and J.P. Morgan Clearing Corp. ("JPMCC"). The agreements allow JBO participants to receive favorable margin treatment as compared to the full customer margin requirements of Regulation T. As part of these agreements, the Company has invested \$10,000 in the preferred interest of FCA and \$15,000 in the preferred shares of JPMCC. The Company's investments in FCA and JPMCC are reflected in other assets in the statement of financial condition. Under the rules of the Chicago Board Options Exchange, the agreements require that the Company maintain a minimum net liquidating equity of \$1 million with both FCA and JPMCC, exclusive of the preferred interest and preferred stock investments.

Notes to Statement of Financial Condition, Continued

December 31, 2009

4. Securities Owned and Sold, Not Yet Purchased

Marketable securities owned and sold, not yet purchased, consist of trading and investment securities at fair value, as follows:

		Owned	-	Sold, Not Yet Purchased
Corporate equities	\$	567,359,570	\$	688,917,963
Equity and index options		271,923,068		455,293,172
U.S. Government agency		-		77,224,111
Corporate convertible debt		510,783,455		1,509,265
Corporate debt	-	38,750,899	_	7,668,826
	\$_	1,388,816,992	\$_	1,230,613,337

5. Employee Benefit Plan

The Company has established a 401(k) plan for qualified employees. The Company may elect to match employees' contributions and make further discretionary contributions to the plan, subject to certain limitations as set forth in the plan agreement.

6. Lease Commitment

The Company conducts it operations in leased office facilities and annual rentals are charged to current operations. The lease is subject to an escalation clause based on the operating expenses of the lessor.

The minimum annual rental commitments under non-cancelable operating leases are approximately as follows as of December 31, 2009:

Year Ending December 31,		<u>Amount</u>
2010		350,000
2011		360,000
2012		370,000
2013		380,000
2014		390,000
Total	\$_	1,850,000

Notes to Statement of Financial Condition, Continued

December 31, 2009

7. Derivative Financial Instruments and Off-Balance Sheet Risk

In the normal course of business the Company enters into transactions in derivative financial instruments and other financial instruments with off-balance sheet risk that include exchange-traded futures and futures options contracts, equity and index options and short stocks. All derivative instruments are held for trading purposes. All positions are reported in the accompanying statement of financial condition at market value and gains and losses from derivative financial instruments are included in net trading gain in the statement of operations.

Futures contracts provide for the delayed delivery/receipt of securities or money market instruments with the seller/buyer agreeing to make/take delivery at a specified date, at a specified price.

Options grant the purchaser, for the payment of a premium, the right to either purchase from or sell to the writer a specified instrument under agreed terms. As a writer of options, the Company receives a premium in exchange for bearing the risk of unfavorable changes in the price of the financial instruments underlying the options.

Securities sold, not yet purchased, represent obligations of the Company to deliver specified securities and thereby create a liability to repurchase the securities in the market at prevailing prices. These transactions may result in off-balance sheet risk as the Company's ultimate obligation to satisfy its obligation for securities sold, not yet purchased may exceed the amount recognized in the statement of financial condition.

Risk arises from the potential inability of counterparties to perform under the terms of the contracts (credit risk) and from changes in the values of the underlying financial instruments (market risk). The Company is subject to credit risk to the extent any broker with which it conducts business is unable to fulfill contractual obligations on its behalf. The Company attempts to minimize its exposure to credit risk by monitoring brokers with which it conducts investment activities. In management's opinion, market risk is substantially diminished when all financial instruments are aggregated.

8. Credit Concentrations

At December 31, 2009, significant credit concentrations consisted of approximately \$73.5 million, \$56.8 million and \$122.1 million, representing the market value of the Company's trading accounts carried by its clearing brokers, Fortis Clearing Americas LLC, Goldman Sachs & Co., and J.P. Morgan Clearing Corp., respectively. Management does not consider any credit risk associated with these net receivables to be significant.

9. Contingency

In the normal course of business, the Company is subject to legal actions that involve claims for monetary relief. The Company's legal counsel has indicated that it cannot evaluate the likelihood of an unfavorable outcome or estimate the amount or range of potential loss therefrom. In the opinion of management, based on consultation with legal counsel, these actions will not result in any material or adverse effect on the financial position of the Company.

Notes to Statement of Financial Condition, Continued

December 31, 2009

10. Net Capital Requirements

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15(c)3-1). Under this rule, the Company is required to maintain "net capital" equal to the greater of \$100,000 or 6 and $\frac{2}{3}$ % of "aggregate indebtedness", as defined.

At December 31, 2009, the Company had net capital and net capital requirements of \$91,764,026 and \$666,667, respectively.

11. Fair Value Disclosure

Level 1 Inputs - Quoted prices in active markets for identical assets or liabilities at the reporting date.

<u>Level 2 Inputs</u> - Other than quoted prices included with Level 1 that are observable for substantially the full term of the asset or liability, either directly or indirectly. Level 2 assets include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities that are not active; and inputs other than quoted prices that are observable, such as models or other valuation methodologies.

<u>Level 3 Inputs</u> - Unobservable inputs for the valuation of the asset or liability. Level 3 assets include investments for which there is little, if any, market activity. These inputs require significant management judgment or estimation.

The following table presents the Company's fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis as of December 31, 2009:

	 Level 1	Level 2	Level 3	_	Total
<u>Assets</u>				_

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL

To the Members of CSS, LLC

In planning and performing our audit of the statement of financial condition of CSS, LLC (the "Company") as of December 31, 2009, we considered its internal control structure, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statement and not to provide assurance on the internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (the "SEC"), we have made a study of the practices and procedures followed by the Company, including tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g), in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

- (1) Making quarterly securities examinations, counts, verifications, and comparisons
- (2) Recordation of differences required by Rule 17a-13
- (3) Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures, and of the practices and procedures referred to in the proceeding paragraph, and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of the financial statement in accordance with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the proceeding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statement that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statement will not be prevented or detected by the entity's internal control.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2009 to meet the SEC's objectives.

This report is intended solely for the information and use of management, the SEC and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
