Independent Auditor's Report

We have audited the accompanying statement of financial condition of Financial Planning Consultants, Inc., as of December 31, 2009, and the related statements of income (loss) and retained earnings, changes in stockholders' equity and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Financial Planning Consultants, Inc., as of December 31, 2009, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our examination was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in Schedule I and Schedule II is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rule 17a-5 of the Securities and Exchange Commission. Such information has been subjected to the auditing procedures applied in the examination of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statement taken as a whole.

The Company services the Midwest region of the United States and sells stocks and bonds, mutual funds, variable and fixed annuities limited partnerships, and insurance products.

The Company is a registered broker-dealer in securities that introduces its customers to another broker-dealer who carries such accounts on a fully disclosed basis. The Company promptly forwards all funds and securities received in connection with its activities as broker-dealer and does not otherwise hold funds or securities for, or owe money to, customers and does not otherwise carry proprietary or customer accounts.

Fixed assets are carried at cost, less accumulated depreciation computed using both the straight-line and accelerated methods. Depreciation for the year ended December 31, 2009, is \$11,014. Fixed assets are depreciated as follows:

	<u>Estimated Useful Life</u>	<u>Cost</u>	<u>Depreciation</u>

Furniture and Fixtures	7-10 Years	176,734	176,734

Leasehold Improvements	39 Years	<u>15,694</u>	<u>6,168</u>
		\$ <u>589,151</u>	\$ <u>548,894</u>

Depreciation is provided by various methods using useful lives ranging from five to thirty-nine years.

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 4 – INCOME TAXES:

The provision for income taxes consists of both current and deferred taxes. Current taxes consist of amounts for taxes owed on current year book income. Deferred taxes consist of amounts expensed due to the excess receivable that was booked in the prior year due to a net operating loss carry back. The Company has permanent taxable income and loss differences between reporting income and expenses for financial statement and income tax purposes.

NOTE 5 – NET CAPITAL REQUIREMENTS:

Pursuant to the net capital provisions of Rule 15c3-1 of the Securities Exchange Act of 1934, the Company is required to maintain a minimum net capital, as defined under such provisions. Net capital and the related net capital ratio may fluctuate on a daily basis. At December 31, 2009, the Company had net capital and net capital requirements of approximately \$439,546 and \$100,000, respectively. The Company's net capital ratio was 4.39 to 1.

Notes receivable at December 31, 2009, consisted of \$90,000 on two non-interest bearing, promissory notes from an officer of the Company.

NOTE 9 – EMPLOYEE BENEFIT PLANS:

All employees of the Company including executive officers are eligible to participate after completing one year of service, as defined, and attaining 21 years of age. A participating employee may elect to defer on a pretax basis a percentage of his or her salary. All amounts vest immediately and are invested in various funds as directed by the participant. The full amount in a participant's account will be distributed to a participant upon termination of employment, retirement, disability or death. Management of the Company has authorized an employer contribution to the plan in the amount of \$6,958 to be paid by March 15, 2010.

NOTE 10 – SUBSEQUENT EVENTS:

As of December 31, 2009, the Company adopted the provision of the Subsequent Events Topic of the FASB Accounting Standards Codification, which provides guidance to establish general standards of accounting for and disclosures of events that occur after the balance sheet date but before the Company financial statements are issued or are available to be issued. The Company is required to disclose the date through which subsequent events were evaluated as well as the rationale for why that date was selected. The Company has evaluated subsequent events through February 15, 2010, the date of the Report of Independent Auditors. The Codification requires additional disclosures only and therefore did not have an impact on the Company's financial statements.
