## TO OUR SHAREHOLDERS

Two thousand eleven was an exciting year for our Company with the addition of BOGS and Rafters to our portfolio of brands. BOGS and Rafters offer boots, shoes and sandals for men, women and children across the outdoor sport, outdoor specialty, agricultural, industrial, lifestyle and fashion markets. This acquisition has increased our penetration in the casual footwear market, which is an important part of our long term strategy.

Our overall net sales for 2011 were \$271 million, up 18% from \$229 million in 2010. Earnings from operations were \$23 million in 2011, up from \$19 million in the prior year. Net earnings attributable to Weyco Group, Inc. were \$15 million, up from \$14 million in 2010. Diluted earnings per share were \$1.37 in 2011 versus \$1.19 last year.

Our North American wholesale product sales for 2011 were \$196 million, compared with \$164 million in 2010. Licensing revenues were \$3 million in 2011 versus \$2 million in 2010. The increases in both sales and licensing revenues this year were mainly due to the addition of BOGS and Rafters, as sales of our Stacy Adams, Nunn Bush and Florsheim brands were all comparable to last year. Sales of our Umi children's brand, in its first full year of operation since we acquired it in April 2010, were \$4 million. Wholesale operating earnings were flat in 2011 compared to 2010, as increased sales volumes were offset by slightly lower gross margins and higher selling and administrative expenses resulting from nonrecurring acquisition and integration costs and other increased operating costs.

In our North American retail segment, sales were \$25 million in 2011, up from \$22 million in 2010. Our same store sales increased 18% for the year. Retail operating earnings improved \$2 million over the prior year. While we are pleased with the improved performance of the majority of our retail stores and online business, there are still a number of retail locations that have been underperforming and during 2011, we closed five U.S. locations. Although maintaining a retail presence is an important part of our branding strategy for Florsheim, we will continue to evaluate the profitability of our stores and the retail landscape on an ongoing basis.

Our other businesses in Australia, Asia Pacific, South Africa (collectively, Florsheim Australia) and Europe, had net sales of \$47 million in 2011, compared to \$41 million in 2010. The sales gains were driven by increased volumes in the Australian retail business, along with the impact of a stronger Australian dollar this year. Earnings from operations from our other businesses increased in 2011, mainly due to Florsheim Australia's increased sales and gross margins.

Our balance sheet remains strong, which allows us to continue to invest in our brands and make strategic decisions for the long term. In December, we purchased an 80,000 square foot building adjacent to our main distribution center in Glendale, Wisconsin. In 2012, we plan to build a connection between the two buildings and expand our operations into the additional space.

Looking forward, we believe that our brands are well-positioned to grow as the economy improves, and we are excited about the opportunities that our new brands present. We thank you for your interest in and support of our Company.

Thomas W. Florsheim, Jr.  
Chairman and Chief Executive Officer

John W. Florsheim

## **CAUTIONARY STATEMENTS FOR FORWARD-LOOKING INFORMATION**

This report contains certain forward-looking statements with respect to the Company's outlook for the future. These statements represent the Company's reasonable judgment with respect to future events and are subject to risks and uncertainties that could cause actual results to differ materially. The reader is cautioned that these forward-looking statements are subject to a number of risks, uncertainties, or other factors that may cause actual results to differ materially from those described in the forward-looking statements. These risks and uncertainties include, but are not limited to, the risk factors described under Item 1A, "Risk Factors."

## **PART 1**

### **ITEM 1 BUSINESS**

The Company is a Wisconsin corporation incorporated in the year 1906 as Weyenberg Shoe Manufacturing Company. Effective April 25, 1990, the name of the corporation was changed to Weyco Group, Inc.

Weyco Group, Inc. and its subsidiaries (the "Company") engage in one line of business, the distribution of quality and innovative footwear. The Company designs and markets footwear principally for men, but also for women and children, under a portfolio of well-recognized brand names including: "Florsheim," "Nunn Bush," "Stacy Adams," "BOGS," "Rafters," and "Umi." The Company also has other brands, including "Brass Boot" and "Nunn Bush NXXT," which are included within Nunn Bush sales figures, "SAO by Stacy Adams," which is included within Stacy Adams sales figures, and "Florsheim by Duckie Brown" which is included within Florsheim sales figures. Trademarks maintained by the Company on these brands are important to the business. The Company's products consist of mid-priced leather dress shoes and casual footwear of man-made materials or leather. In addition, the Company added outdoor boots, shoes and sandals in 2011 with the acquisition of the BOGS and Rafters brands. The Company's footwear is available in a broad range of sizes and widths, primarily purchased to meet the needs and desires of the general American population.

On March 2, 2011, the Company acquired 100% of the outstanding shares of The Combs Company, the owner of the BOGS and Rafters brands. Hereinafter in this document, The Combs Company will be referred to as "Bogs" and the individual BOGS brand will be referred to as "BOGS." Bogs designs and markets boots, shoes, and sandals for men, women and children under the BOGS and Rafters brand names. Those products are sold across the agricultural, industrial, outdoor specialty, outdoor sport, lifestyle and fashion markets. Management believes these brands have and will continue to fit well into the Company's strategy to diversify its product mix and enhance its share of the casual footwear market. See Note 3 in the Notes to Consolidated Financial Statements for more information regarding the acquisition.

The Company purchases finished shoes from outside suppliers, primarily located in China and India. Almost all of these foreign-sourced purchases are denominated in U.S. dollars. Historically, there have been few inflationary pressures in the shoe industry and leather and other component prices have been stable. However, since 2007 there have been upward cost pressures from the Company's suppliers, related to a variety of factors, including higher labor, materials and freight costs and changes in the strength of the U.S. dollar. The Company has increased its selling prices where possible to offset the effect of these increases.

The Company's business is separated into two reportable segments — the North American wholesale segment ("wholesale") and the North American retail segment ("retail"). The Company also has other wholesale and retail businesses overseas which include its businesses in Australia, South Africa and Asia Pacific (collectively, "Florsheim Australia") and its wholesale and retail businesses in Europe.

In 2011, 2010 and 2009, sales of the North American wholesale segment, which include both wholesale sales and licensing revenues, constituted approximately 74%, 72% and 75% of total sales, respectively. At wholesale, shoes are marketed throughout the United States and Canada in more than 10,000 shoe, clothing and department stores. In 2011, there was no single customer with sales above 10% of the Company's total sales. In 2010 and 2009, sales to the Company's largest customer, JCPenney, were 12% and 13%, respectively, of total sales. The Company employs traveling salespeople who sell the Company's products to retail outlets. Shoes are shipped to these retailers primarily from the Company's distribution center in Glendale, Wisconsin. In the men's footwear business, there is generally no identifiable seasonality, although new styles are historically developed and shown twice each year, in spring and fall. With BOGS, there is some seasonality in its business due to the nature of the product; the majority of BOGS' sales occur in the third and fourth quarters. In accordance with industry practices, the Company is required to carry significant

amounts of inventory to meet customer delivery requirements and periodically provides extended payment terms to customers. As of December 31, 2011, the Company had licensing agreements with third parties who sell its branded shoes outside of the United States, as well as licensing agreements with specialty shoe, apparel and accessory manufacturers in the United States. Licensing revenues were approximately 1% of total sales in each of the years 2011, 2010 and 2009.

The North American retail segment constituted approximately 9% of total sales in 2011 and 10% of total sales in each of the years 2010 and 2009. As of December 31, 2011, the retail segment consisted of 30 company-operated stores in the United States and an Internet business. Sales in retail stores are made directly to the consumer by Company employees. In addition to the sale of the Company's brands of footwear in these retail stores, other branded footwear and accessories are also sold in order to provide the consumer with a more complete selection.

Sales of the Company's other businesses represented 17%, 18% and 15% of total sales in 2011, 2010, and 2009, respectively. These sales relate to the Company's wholesale and retail operations in Australia, South Africa, Asia Pacific and Europe.

As of December 31, 2011, the Company had a backlog of \$40 million of confirmed orders compared with \$28 million as of December 31, 2010. This does not include unconfirmed blanket orders from customers, which account for the majority of the Company's orders, particularly from its larger accounts. All orders are expected to be filled within one year.

As of December 31, 2011, the Company employed 621 persons, of whom 16 were members of collective bargaining units. Future wage and benefit increases under the collective bargaining contracts are not expected to have a significant impact on the future operations or financial position of the Company.

Price, quality, service and brand recognition are all important competitive factors in the shoe industry and the Company has been recognized as a leader in all of them. The Company does not engage in any specific research and development activities. However, the Company does have a design department that is continually reviewing and updating product designs. Compliance with environmental regulations historically has not had, and is not expected to have, a material adverse effect on the Company's results of operations, financial position or cash flows.

The Company makes available, free of charge, copies of its annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and all amendments to those reports upon written or telephone request. Investors can also access these reports through the Company's website, [www.weycogroup.com](http://www.weycogroup.com), as soon as reasonably practical after the Company files or furnishes those reports to the Securities and Exchange Commission ("SEC"). The information on the Company's website is not a part of this filing. Also available on the Company's website are various documents relating to the corporate governance of the Company, including its Code of Ethics.

## **ITEM 1A RISK FACTORS**

There are various factors that affect the Company's business, many of which are beyond the Company's control. The following is a description of some of the significant factors that might materially and adversely affect the Company's business, results of operations and financial condition.

### **Changes in the U.S. and global economy may adversely affect the Company.**

Spending patterns in the footwear market, particularly those in the moderate-priced market in which a good portion of the Company's products compete, have historically been impacted by consumers' disposable income. As a result, the success of the Company is impacted by changes in general economic conditions, especially in the United States. Factors affecting discretionary income for the moderate consumer include, among others, general business conditions, gas and energy costs, employment, consumer confidence, interest rates and taxation. Additionally, the economy and consumer behavior can impact the financial strength and buying patterns of retailers, which can also affect the Company's results. The continued weak economic conditions, or a worsening of conditions, could adversely affect the Company's sales volume and overall performance.

### **Changes in the U.S. and global credit markets could adversely affect the Company's business.**

U.S. and global financial markets recently have been, and continue to be, unstable and unpredictable, which has generally resulted in a tightening in the credit markets with heightened lending standards and terms. This volatility and instability in the credit markets poses various risks to the Company, including, among others, negatively impacting retailer and consumer confidence, limiting the Company's customers' access to credit markets and interfering with the normal commercial relationships between the Company and its customers. Increased credit risks associated with the financial condition of some customers in the retail industry affects their level of purchases from the Company and the collectability of amounts owed to the Company, and in some cases, causes the Company to reduce or cease shipments to certain customers who no longer meet the Company's credit requirements.

In addition, weak economic conditions and unstable and volatile financial markets could lead to certain of the Company's customers experiencing cash flow problems, which may force them into higher default rates or to file for bankruptcy protection which may increase the Company's bad debt expense or further negatively impact the Company's business.

### **The Company is subject to risks related to the retail environment that could adversely impact the Company's business.**

The Company is subject to risks associated with doing business in the retail environment, primarily in the United States. The U.S. retail industry has experienced a growing trend toward consolidation of large retailers. The merger of major retailers could result in the Company losing sales volume or increasing its concentration of business with a few large accounts, resulting in reduced bargaining power on the part of the Company, which could increase pricing pressures and lower the Company's margins.

### **Changes in consumer preferences could negatively impact the Company.**

The Company's success is dependent upon its ability to accurately anticipate and respond to rapidly changing fashion trends and consumer preferences. Failure to predict or respond to current trends or preferences could have an adverse impact on the Company's sales volume and overall performance.

**The Company relies on independent foreign sources of production and the availability of leather, rubber and other raw materials which could have unfavorable effects on the Company's business.**

The Company purchases its products entirely from independent foreign manufacturers, primarily in China and India. Although the Company has good working relationships with its manufacturers, the Company does not have long-term contracts with them. Thus, the Company could experience increases in manufacturing costs, disruptions in the timely supply of products or unanticipated reductions in manufacturing capacity, any of which could negatively impact the Company's business, results of operations and financial condition. The Company has the ability to move product to different suppliers; however, the transition may not occur smoothly and/or quickly and the Company could miss customer delivery date requirements and, consequently, could lose orders. Additional risks associated with foreign sourcing that could negatively impact the Company's business include adverse changes in foreign economic conditions, import regulations, restrictions on the transfer of funds, duties, tariffs, quotas and political or labor interruptions, disruptions at U.S. or foreign ports or other transportation facilities, foreign currency fluctuations, expropriation and nationalization.

The Company's use of foreign sources of production results in long production and delivery lead times. Therefore, the Company needs to forecast demand at least five months in advance. If the Company's forecasts are wrong, it could result in the loss of sales if there is not enough product, or in reduced margins if there is excess inventory that needs to be sold at discounted prices.

Additionally, the Company's products depend on the availability of raw materials, especially leather and rubber. Any significant shortages of quantities or increases in the cost of leather or rubber could have a material adverse effect on the Company's business and results of operations.

**The Company is subject to risks associated with its non-U.S. operations that could adversely affect its financial results.**

As a result of the Company's global presence, a portion of the Company's revenues and expenses are denominated in currencies other than the U.S. dollar. The Company is therefore subject to foreign currency risks and foreign exchange exposure. The Company's primary exposures are to the Australian dollar and the Canadian dollar. Exchange rates can be volatile and could adversely impact the Company's financial results.

**The Company operates in a highly competitive environment, which may result in lower prices and reduce its profits.**

The footwear market is extremely competitive. The Company competes with manufacturers, distributors and retailers of men's, women's and children's shoes, certain of which are larger and have substantially greater resources than the Company has. The Company competes with these companies primarily on the basis of price, quality, service and brand recognition, all of which are important competitive factors in the shoe industry. The Company's ability to maintain its competitive edge depends upon these factors, as well as its ability to deliver new products at the best value for the consumer, maintain positive brand recognition, and obtain sufficient retail floor space and effective product presentation at retail. If the Company does not remain competitive, the Company's future results of operations and financial condition could decline.

**The Company is dependent on information and communication systems to support its business and Internet sales. Significant interruptions could disrupt its business.**

The Company accepts and fills the majority of its larger customers' orders through the use of Electronic Data Interchange (EDI). It relies on its warehouse management system to efficiently process orders. The corporate office relies on computer systems to efficiently process and record transactions. Significant interruptions in its information and communication systems from power loss, telecommunications failure or computer system failure could significantly disrupt the Company's business and operations. In addition, the Company sells footwear on its websites, and failures of the Company's or other retailers' websites could adversely affect the Company's sales and results.

**The Company may not be able to successfully integrate new brands and businesses.**

The Company has recently completed a number of acquisitions and intends to continue to look for new acquisition opportunities. Those search efforts could be unsuccessful and costs could be incurred in those failed efforts. Further, if and when an acquisition occurs, the Company cannot guarantee that it will be able to successfully integrate the brand into its current operations, or that any acquired brand would achieve results in line with the Company's historical performance or its specific expectations for the brand.

**Loss of the services of the Company's top executives could adversely affect the business.**

Thomas W. Florsheim, Jr., the Company's Chairman and Chief Executive Officer, and John W. Florsheim, the Company's President and Chief Operating Officer, have a strong heritage within the Company and the footwear industry. They possess knowledge, relationships and reputations based on their lifetime exposure to and experience in the Company and the industry. The loss of either one or both of the Company's top executives could have an adverse impact on the Company's performance.

**The limited public float and trading volume for the Company's stock may have an adverse impact on the stock price or make it difficult to liquidate.**

The Company's common stock is held by a relatively small number of shareholders. The Florsheim family owns over 35% of the stock and two other institutional shareholders hold significant blocks. Other officers, directors, and members of management own stock or have the potential to own stock through previously granted stock options and restricted stock. Consequently, the Company has a relatively small float and low average daily trading volume. Future sales of substantial amounts of the Company's common stock in the public market by those larger shareholders, or the perception that these sales could occur, may adversely impact the market price of the stock and the stock could be difficult for the shareholder to liquidate.

**The Company's total assets include goodwill and other indefinite-lived intangible assets. If management determines these have become impaired in the future, net income could be materially adversely affected.**

Goodwill represents the excess of cost over the fair market value of net assets acquired in a business combination. Indefinite-lived intangible assets are comprised of certain trademarks on the Company's principal shoe brands. The Company's goodwill and trademarks were approximately \$46 million as of December 31, 2011, or approximately 17% of total assets.

The Company analyzes goodwill for impairment on an annual basis or more frequently when, in the judgment of management, an event has occurred that may indicate that additional analysis is required. Impairment may result from, among other things, deterioration in the Company's performance, adverse market conditions, adverse changes in applicable laws or regulations, including changes that restrict the activities of or affect the products sold by the Company, and a variety of other factors. The amount of any quantified impairment must be expensed as a charge to results of operations in the period in which the asset becomes impaired. The Company did not record any charges for impairment of goodwill or trademarks in 2011, 2010, or 2009. Depending on future circumstances, it is possible the Company may never realize the full value of its intangible assets. Any future determination of impairment of a significant portion of goodwill or other identifiable intangible assets could have an adverse effect on the Company's financial condition and results of operations.

**If the Company is unable to maintain effective internal control over its financial reporting, investors could lose confidence in the reliability of its financial statements, which could result in a reduction in the value of its common stock.**

Under Section 404 of the Sarbanes-Oxley Act, public companies must include a report of management on the company's internal control over financial reporting in their annual reports; that report must contain an assessment by management of the effectiveness of the Company's internal control over financial reporting. In addition, the independent registered public accounting firm that audits a company's financial statements must attest to and report on the effectiveness of the company's internal control over financial reporting.

If the Company is unable to maintain effective internal control over financial reporting, including in connection with changes in accounting rules and standards that apply to it, this could lead to a failure to meet its reporting obligations to the SEC. Such a failure in turn could result in an adverse reaction to the Company in the marketplace or a loss in value of the Company's common stock, due to a loss of confidence in the reliability of the Company's financial statements.

**Natural disasters and other events outside of the Company's control, and the ineffective management of such events, may harm the Company's business.**

The Company's facilities and operations, as well as those of the Company's suppliers and customers, may be impacted by natural disasters. In the event of such disasters, and if the Company or its suppliers or customers are not adequately insured, the Company's business could be harmed due to the event itself or due to its inability to effectively manage the effects of the particular event; potential harms include the loss of business continuity, the loss of inventory or business data and damage to infrastructure, warehouses or distribution centers.

#### **ITEM 1B UNRESOLVED STAFF COMMENTS**

None

## **ITEM 2 PROPERTIES**

The following facilities were operated by the Company or its subsidiaries as of December 31, 2011:

<u>Location</u>	<u>Character</u>	<u>Owned/ Leased</u>	<u>Square Footage</u>	<u>% Utilized</u>
Glendale, Wisconsin <sup>(4)</sup>	Two story office and distribution center	Owned	780,000	90%
Glendale, Wisconsin <sup>(4)</sup>	One story distribution center	Owned <sup>(1)</sup>	80,150	0% <sup>(3)</sup>
Portland, Oregon <sup>(4)</sup>	One story office	Leased <sup>(2)</sup>	4,100	100%

Shenzhen, China <sup>(5)</sup>	Distribution center	Leased <sup>(2)</sup>	3,600	100%

(1) This property was purchased on December 22, 2011 and is adjacent to the Company's office and distribution center located in Glendale, Wisconsin. The Company has plans to connect these two buildings in 2012.

(2) Not material leases.

(3) As of the filing date, approximately 30% of this property was being utilized by the Company.

(4) These properties are used principally by the Company's North American wholesale segment.

(5) These properties are used principally by the Company's other businesses which are not reportable segments.

In addition to the above-described office and distribution facilities, the Company operates retail shoe stores under various rental agreements. All of these facilities are suitable and adequate for the Company's current operations. See Note 14 of the Notes to Consolidated Financial Statements and Item 1, "Business", above.

## **ITEM 3 LEGAL PROCEEDINGS**

There were 168 holders of record of the Company’s common stock as of March 2, 2012.

The stock prices shown above are the high and low actual trades on the NASDAQ for the calendar periods indicated.

Stock Performance

The following line graph compares the cumulative total shareholder return on the Company’s common stock during the five years ended December 31, 2011 with the cumulative return on the NASDAQ Non-Financial Stock Index and the Russell 3000-RGS Textiles Apparel & Shoe Index. The comparison assumes \$100 was invested on December 31, 2006 in the Company’s common stock and in each of the foregoing indices and assumes reinvestment of dividends.

Russell 3000 – RGS Textiles Apparel & Shoe Index . . . . .	100	77	49	78	106	126

In April 1998, the Company first authorized a stock repurchase program to purchase 1,500,000 shares of its common stock in open market transactions at prevailing prices. In April 2000, May 2001 and February 2009, the Company's Board of Directors extended the stock repurchase program to cover the repurchase of a total of 4,000,000 additional shares. Therefore, 5,500,000 shares have been authorized for repurchase through December 31, 2011. The table below presents information pursuant to Item 703 of Regulation S-K regarding the repurchase of the Company's common stock by the Company in the three-month period ended December 31, 2011.

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of the Publicly Announced Program	Maximum Number of Shares that May Yet Be Purchased Under the Program

## **ITEM 7 MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

### **GENERAL**

The Company designs and markets quality and innovative footwear for men, women and children under a portfolio of well-recognized brand names including: "Florsheim," "Nunn Bush," "Stacy Adams," "BOGS," "Rafters," and "Umi." Inventory is purchased from third-party overseas manufacturers. The majority of foreign-sourced purchases are denominated in U.S. dollars. The Company has two reportable segments, North American wholesale operations ("wholesale") and North American retail operations ("retail"). In the wholesale segment, the Company's products are sold to leading footwear, department and specialty stores, primarily in the United States and Canada. As of December 31, 2011, the Company also had licensing agreements with third parties who sell its branded apparel, accessories and specialty footwear in the United States, as well as its footwear in Canada, Mexico and certain markets overseas. Licensing revenues are included in the Company's wholesale segment. The Company's retail segment consisted of 30 Company-owned retail stores in the United States and an Internet business as of December 31, 2011. Sales in retail outlets are made directly to consumers by Company employees. The Company's "other" operations include the Company's wholesale and retail businesses in Australia, South Africa and Asia Pacific (collectively, "Florsheim Australia") and Europe. The majority of the Company's operations are in the United States, and its results are primarily affected by the economic conditions and the retail environment in the United States.

This discussion summarizes the significant factors affecting the consolidated operating results, financial position and liquidity of the Company for the three-year period ended December 31, 2011. This discussion should be read in conjunction with Item 8, "Financial Statements and Supplementary Data" below.

### **EXECUTIVE OVERVIEW**

#### **Sales and Earnings Highlights**

Consolidated net sales in 2011 were \$271 million, up 18% compared with \$229 million in 2010. Earnings from operations were \$23.2 million in 2011, up 24% compared with \$18.8 million in 2010. Net earnings attributable to Weyco Group, Inc. in 2011 were \$15.3 million, up 12% compared with \$13.7 million in 2010. Diluted earnings were \$1.37 per share for 2011 and \$1.19 per share in 2010.

Wholesale net sales were up \$33 million in 2011, primarily due to the acquisition of Bogs which contributed net sales of \$28 million and licensing revenues of \$1.2 million in 2011. Despite the increased sales volume, wholesale operating earnings were flat compared with 2010. This was the result of slightly lower gross margins due to continuing cost pressures from the Company's third-party overseas factories, as well as nonrecurring acquisition and transition costs and other increased selling and administrative costs this year. Retail sales were up approximately \$2.2 million in 2011, and retail operating earnings increased \$1.9 million, due primarily to an improvement in same store performance and the closing of five underperforming stores in 2011. Net sales and operating earnings of the Company's other businesses were up \$6.6 million and \$2.5 million, respectively, in 2011 compared with 2010, mainly due to increased retail sales volumes and gross margins at Florsheim Australia.

#### **Financial Position Highlights**

At December 31, 2011, the Company's cash and marketable securities totaled \$62 million and there were \$37 million of borrowings under its revolving line of credit. At December 31, 2010, the Company's cash and marketable securities totaled \$70 million and there were \$5 million of borrowings under its revolving line of credit. During 2011, the Company used cash primarily to fund the Bogs acquisition and related capital expenditures and inventory purchases.

## Recent Acquisitions

### Bogs

On March 2, 2011, the Company acquired 100% of the outstanding shares of The Combs Company (“Bogs”) from its former shareholders for \$29.3 million in cash plus assumed debt of approximately \$3.8 million and contingent payments after two and five years, which are dependent on Bogs achieving certain performance measures. In accordance with the agreement, \$2.0 million of the cash portion of the purchase price was held back to be used to help satisfy any claims of indemnification by the Company, and any amounts not used therefore will be paid to the sellers 18 months from the date of acquisition. At the acquisition date, the Company made an estimate of the fair value of the two contingent payments of approximately \$9.8 million in aggregate. At December 31, 2011, the Company remeasured its estimate of the fair value of the contingent payments to \$9.7 million. The change in fair value was recognized in earnings.

The operating results of Bogs have been consolidated into the Company’s wholesale segment since the date of acquisition. The Company incurred transaction costs of approximately \$220,000 in 2011. These costs are included in wholesale selling and administrative expenses. See Note 3 in the Notes to Consolidated Financial Statements.

### Umi

On April 28, 2010, the Company acquired certain assets, including the Umi brand name, intellectual property and accounts receivable, from Umi LLC, a children’s footwear company, for an aggregate price of approximately \$2.6 million. The operating results of Umi have been consolidated into the Company’s wholesale segment since the date of acquisition. Accordingly, the Company’s 2011 results included Umi’s operations from January 1 through December 31, 2011, while 2010 only included Umi’s operations for the period April 28 through December 31, 2010. See Note 3 in the Notes to Consolidated Financial Statements.

### Florsheim Australia

In January 2009, the Company acquired a majority interest in a new subsidiary, Florsheim Australia Pty Ltd (“Florsheim Australia”) which subsequently purchased the Florsheim wholesale and retail businesses in Australia, South Africa, and Asia Pacific. The vast majority of this business is conducted under the Florsheim name, with a small amount of business under the Stacy Adams and Nunn Bush brand names. See Note 3 in the Notes to Consolidated Financial Statements.

## **2011 vs. 2010**

### **SEGMENT ANALYSIS**

Net sales and earnings from operations for the Company’s segments in the years ended December 31, 2011 and 2010 were as follows:

	<b>Years ended December 31,</b>		<b>% Change</b>
	<b>2011</b>	<b>2010</b>	
	<small>(Dollars in thousands)</small>		
<b>Net Sales</b>			
North American Wholesale . . . . .	\$199,087	\$166,021	20%
North American Retail . . . . .	24,740	22,497	10%
Other . . . . .	47,273	40,713	16%
Total . . . . .	<u>\$271,100</u>	<u>\$229,231</u>	<u>18%</u>
<b>Earnings from Operations</b>			
North American Wholesale . . . . .	\$ 15,673	\$ 15,742	0%
North American Retail . . . . .	1,554	(400)	488%
Other . . . . .	5,970	3,439	74%
Total . . . . .	<u>\$ 23,197</u>	<u>\$ 18,781</u>	<u>24%</u>

## North American Wholesale Segment

### Net Sales

Net sales in the Company's North American wholesale segment for the years ended December 31, 2011 and 2010 were as follows:

	<b>North American Wholesale Segment Net Sales</b>		
	<b>Years ended December 31,</b>		<b>% Change</b>
	<b>2011</b>	<b>2010</b>	
	<i>(Dollars in thousands)</i>		
North American Net Sales			
Stacy Adams . . . . .	\$ 53,904	\$ 53,392	1%
Nunn Bush . . . . .	63,619	63,401	0%
Florsheim . . . . .	46,344	45,883	1%
BOGS/Rafters. . . . .	27,959	—	n/a
Umi . . . . .	3,812	1,167	227%
Total North American Wholesale. . . . .	<u>\$195,638</u>	<u>\$163,843</u>	<u>19%</u>
Licensing . . . . .	3,449	2,178	58%
Total North American Wholesale Segment . .	<u>\$199,087</u>	<u>\$166,021</u>	<u>20%</u>

Net sales of Stacy Adams and Florsheim grew 1% this year due to slightly higher sales volumes across several trade channels. Nunn Bush net sales were flat in 2011. Net sales for the BOGS/Rafters brands were \$28 million for the year, following the acquisition of Bogs on March 2, 2011 (see Note 3 of the Notes to Consolidated Financial Statements). Umi was acquired on April 28, 2010. Accordingly, the Company's 2011 results included Umi's operations from January 1 through December 31, 2011, while 2010 only included Umi's operations for the period April 28 through December 31, 2010.

Licensing revenues consist of royalties earned on sales of branded apparel, accessories and specialty footwear in the United States and on branded footwear in Canada, Mexico and certain overseas markets. In 2011, the Company's licensing revenues increased 58%, primarily due to the addition of Bogs, which contributed \$1.2 million in new licensing revenues during the period. On June 1, 2012, the Company will be taking over the distribution of Bogs in Canada from its third-party licensee. The Company believes the additional business could add \$6 million to \$8 million in sales in 2012 and \$8 million to \$10 million in sales in 2013.

### Earnings from Operations

Earnings from operations in the North American wholesale segment were \$15.7 million in each of the years 2011 and 2010. Higher net sales for the year were offset by slightly lower gross margins and increased selling and administrative costs, which included nonrecurring acquisition and transition costs related to the Bogs acquisition as well as other increased operating costs.

Wholesale gross earnings as a percent of net sales were 31% in 2011 compared with 32% in 2010. The decrease was due to increased pricing from the Company's third-party overseas factories resulting primarily from higher labor and material costs.

The Company's cost of sales does not include distribution costs (e.g., receiving, inspection or warehousing costs). The Company's distribution costs were \$8.6 million and \$7.9 million in the years ended December 31, 2011 and 2010, respectively. These costs were included in selling and administrative expenses. Therefore, the Company's gross earnings may not be comparable to other companies, as some companies may include distribution costs in cost of sales.

North American wholesale segment selling and administrative expenses include, and are primarily related to, distribution costs, salaries and commissions, advertising costs, employee benefit costs and depreciation. Wholesale selling and administrative expenses were up approximately \$9.4 million in 2011 compared with 2010. As a percent of wholesale net sales, wholesale selling and administrative expenses were 24% in 2011 compared with 23% in 2010.

## **North American Retail Segment**

### Net Sales

In the North American retail segment, net sales in 2011 were \$24.7 million, up 10% from \$22.5 million in 2010. There were five fewer stores in 2011 compared with 2010. Same store sales, which include the Company's retail store sales and the Company's Internet sales, were up 18%. Stores are included in same store sales beginning in the store's 13<sup>th</sup> month of operations after its grand opening.

### Earnings from Operations

Earnings from operations in the North American retail segment increased \$1.9 million in 2011 compared to 2010. The increase was primarily due to higher sales volumes in the Company's Internet business and across the majority of the retail locations and improvement in same store performance as well as the closing of five underperforming stores during 2011. Gross earnings as a percent of net sales in the retail segment were flat at 64% in 2011 and 2010. Retail selling and administrative expenses were down approximately \$497,000 in 2011 compared with 2010. As a percent of net retail sales, retail selling and administrative expenses were 58% in 2011 compared with 66% in 2010.

The Company reviews its long-lived assets for impairment in accordance with Accounting Standards Codification (ASC) 360, *Property Plant and Equipment* ("ASC 360"). See Note 2 in the Notes to Consolidated Financial Statements for further information. In 2011, 2010 and 2009, impairment charges of \$165,000, \$310,000 and \$1.1 million, respectively, were recognized within selling and administrative expenses to write down the fixed assets of certain retail locations that were deemed unprofitable. These locations are slated to close when their respective lease terms expire. In 2011, five retail locations closed and in 2010, one location closed. In general, earnings from operations for the retail segment have improved as fixed assets have been written down and underperforming stores have closed. To date in 2012, three additional retail locations have closed and the Company expects to close three more locations before the end of the year.

### **Other**

The Company's other businesses include its wholesale and retail operations in Australia, South Africa, Asia Pacific and Europe. In 2011, net sales of the Company's other operations were \$47 million, compared with \$41 million in 2010. The majority of the increase was at Florsheim Australia, whose net sales increased \$6.5 million, or 20%. In local currency, Florsheim Australia's sales increased 7%, and the weaker U.S. dollar in 2011 relative to the Australian dollar caused the rest of the sales increase. Earnings from operations in the Company's other businesses in 2011 were up \$2.5 million, due mainly to Florsheim Australia's increased retail sales and gross earnings as a percent of sales. The improvement in gross earnings is due to the strengthening of the Australian dollar relative to the U.S. dollar, as Florsheim Australia's purchases of inventory are denominated in U.S. dollars.

## **OTHER INCOME AND EXPENSE AND TAXES**

The majority of the Company's interest income is from its investments in marketable securities. Interest income for 2011 was down approximately \$70,000 compared with 2010, primarily due to a lower average investment balance this year compared with last year.

Interest expense was \$611,000 in 2011 compared with \$120,000 in 2010. The increase is due to additional debt outstanding during 2011 following the Bogs acquisition.

The effective tax rate for 2011 was 34.3% compared with 33.7% in 2010. The increase in 2011 was primarily due to higher effective rates at certain of the Company's foreign businesses.

## 2010 vs. 2009

### SEGMENT ANALYSIS

Net sales and earnings from operations for the Company's segments in the years ended December 31, 2010 and 2009 were as follows:

	Years ended December 31,		% Change
	2010	2009	
	(Dollars in thousands)		
<b>Net Sales</b>			
North American Wholesale . . . . .	\$166,021	\$168,673	-2%
North American Retail . . . . .	22,497	22,033	2%
Other. . . . .	40,713	34,599	18%
Total. . . . .	<u>\$229,231</u>	<u>\$225,305</u>	<u>2%</u>
<b>Earnings from Operations</b>			
North American Wholesale . . . . .	\$ 15,742	\$ 16,578	-5%
North American Retail . . . . .	(400)	(1,508)	73%
Other. . . . .	3,439	1,710	101%
Total. . . . .	<u>\$ 18,781</u>	<u>\$ 16,780</u>	<u>12%</u>

#### North American Wholesale Segment

##### Net Sales

Net sales in the Company's North American wholesale segment for the years ended December 31, 2010 and 2009 were as follows:

	North American Wholesale Segment Net Sales		
	Years ended December 31,		% Change
	2010	2009	
	(Dollars in thousands)		
North American Net Sales			
Stacy Adams . . . . .	\$ 53,392	\$ 48,951	9%
Nunn Bush . . . . .	63,401	67,744	-6%
Florsheim . . . . .	45,883	49,295	-7%
Umi . . . . .	1,167	—	n/a
Total North American Wholesale. . . . .	<u>\$163,843</u>	<u>\$165,990</u>	<u>-1%</u>
Licensing . . . . .	2,178	2,683	-19%
Total North American Wholesale Segment . .	<u>\$166,021</u>	<u>\$168,673</u>	<u>-2%</u>

Net sales at Stacy Adams grew 9% in 2010 compared to 2009 due to stronger business within several trade channels. Nunn Bush and Florsheim net sales were down in 2010 due to lower volumes across several trade channels. The Florsheim business continued to be challenged because it is at the higher end of the pricing matrix for midtier department stores and shoe chains, and consumers have continued to trade away from higher priced brands. Umi was acquired in April 2010 (see Note 3 of the Notes to Consolidated Financial Statements). Sales of Umi in 2010 did not begin until the third quarter with shipments of autumn/winter product.

Licensing revenues consist of royalties earned on sales of branded apparel, accessories and specialty footwear in the United States and on branded footwear in Mexico and certain overseas markets. In 2010, the Company's licensing revenues decreased, primarily due to the continued struggles of independent retailers in the U.S. who distribute the majority of the Company's licensed products, and also due to the poor economic environment in Mexico, which has caused a decrease in the Company's licensing revenues from its footwear licensee in Mexico.

### Earnings from Operations

Earnings from operations in the North American wholesale segment were \$15.7 million in 2010, compared with \$16.6 million in 2009. Higher gross earnings as a percent of sales in 2010 were offset by higher selling and administrative expenses and lower licensing revenues compared with 2009.

Wholesale gross earnings as a percent of net sales were 32% in 2010 compared with 31% in 2009. The increase was primarily due to higher selling prices on select products.

The Company's cost of sales does not include distribution costs (e.g., receiving, inspection or warehousing costs). The Company's distribution costs were \$7.9 million in each of the years ended December 31, 2010 and 2009. These costs were included in selling and administrative expenses. Therefore, the Company's gross earnings may not be comparable to other companies, as some companies may include distribution costs in cost of sales.

North American wholesale segment selling and administrative expenses include, and are primarily related to, distribution costs, salaries and commissions, advertising costs, employee benefit costs and depreciation. Wholesale selling and administrative expenses were up approximately \$1.5 million in 2010 compared with 2009. As a percent of net wholesale sales, wholesale selling and administrative expenses were 23% in 2010 compared with 22% in 2009. The dollar and percentage increases were primarily due to higher advertising and employee costs, which included additional costs in 2010 associated with Umi. These increased costs were partially offset by lower bad debt expense in 2010.

### **North American Retail Segment**

#### Net Sales

In the North American retail segment, net sales in 2010 were \$22.5 million, up 2% from \$22.0 million in 2009. There was one fewer store in 2010 compared with 2009. Same store sales, which include the Company's Internet sales, were up 4%. Stores are included in same store sales beginning in the store's 13<sup>th</sup> month of operations after its grand opening.

#### Earnings from Operations

Earnings from operations in the North American retail segment increased \$1.1 million in 2010. The increase was primarily due to lower selling and administrative expenses in 2010. Gross earnings as a percent of net sales in the retail segment were 64% in 2010 compared with 64% in 2009.

Retail selling and administrative expenses were down approximately \$750,000 in 2010 compared with 2009. As a percent of net retail sales, retail selling and administrative expenses were 66% in 2010 compared with 71% in 2009. These decreases mostly reflect lower impairment charges and lower depreciation expense in 2010 compared with 2009. In 2010 and 2009, selling and administrative expenses included a charge of \$310,000 and \$1.1 million, respectively, to recognize the impairment of certain North American retail segment fixed assets (see Note 2 of the Notes to Consolidated Financial Statements).

#### **Other**

In 2010, net sales of the Company's other operations were \$40.7 million, compared with \$34.6 million in 2009. The majority of the increase was at Florsheim Australia, whose net sales increased \$5.5 million, or 20%. In local currency, Florsheim Australia's sales increased 4%, and the weaker U.S. dollar in 2010 relative to the Australian dollar caused the rest of the sales increase. Earnings from operations in the Company's other businesses in 2010 were up \$1.7 million, due mainly to Florsheim Australia's increased sales and gross earnings as a percent of sales.

### **OTHER INCOME AND EXPENSE AND TAXES**

The majority of the Company's interest income is from its investments in marketable securities. Interest income for 2010 was up \$440,000 compared with 2009, principally due to a higher average investment balance in 2010 compared with 2009.

Other income and expense, net for 2010 was \$345,000 of income compared with \$1.4 million of income in 2009. Included in the Company's other income and expense in 2010 and 2009 were foreign currency transaction gains on intercompany loans denominated in U.S. dollars between the Company's U.S. business and Florsheim Australia. In 2010, there were foreign currency transaction gains of \$370,000 compared with \$1.3 million of gains in 2009.

The effective tax rate for 2010 was 33.7% compared with 34.7% in 2009. The decrease in 2010 was primarily due to lower effective rates at certain of the Company's foreign businesses.

## **LIQUIDITY & CAPITAL RESOURCES**

The Company's primary source of liquidity is its cash and short-term marketable securities, which aggregated \$15.1 million at December 31, 2011 and \$12.1 million at December 31, 2010, and its revolving line of credit. In 2011, the Company generated \$17.1 million in cash from operating activities, compared with \$98,000 and \$37.9 million in 2010 and 2009, respectively. Fluctuations in net cash from operating activities have resulted mainly from changes in net earnings and operating assets and liabilities, and most significantly the year-end inventory and accounts receivable balances. The Company's inventory levels at December 31, 2011 were higher in comparison with December 31, 2010 primarily due to the addition of Bogs inventory. Year-end inventory balances fluctuate as the Company carefully manages its inventory levels as inventory requirements and projections change.

In 2011, the Company used cash of approximately \$30.8 million for its acquisition of Bogs including \$3.8 million to repay the debt assumed in the transaction. The Company borrowed a net of \$32 million during 2011 under its revolving line of credit to fund the Bogs acquisition and related capital expenditures and inventory purchases. In 2010, the Company used cash of approximately \$2.6 million for its acquisition of Umi. In 2009, the Company used \$9.3 million for its acquisition of Florsheim Australia.

The Company's capital expenditures were \$8.2 million, \$1.5 million and \$1.3 million in 2011, 2010 and 2009, respectively. Capital expenditures in 2011 included the purchase of a one story distribution center for \$3.8 million. This property is adjacent to the Company's office and distribution center located in Glendale, Wisconsin. The Company plans to connect these two properties and expand operations into the extended space during 2012. Capital expenditures in 2012 are expected to be \$6 million to \$8 million, and include estimated construction costs related to connecting the two buildings.

The Company's Board of Directors has continued to increase dividends per share each year, and the Company paid cash dividends of \$7.2 million, \$7.0 million and \$6.6 million in 2011, 2010 and 2009, respectively.

The Company continues to repurchase its common stock under its share repurchase program when the Company believes market conditions are favorable. In 2011, the Company repurchased 175,606 shares for a total cost of \$4.0 million through its share repurchase program and 400,319 shares for a total cost of \$9.0 million in a private transaction. In 2010, the Company repurchased 101,192 shares for a total cost of \$2.3 million. In 2009, the Company repurchased 117,837 shares for a total cost of \$2.6 million. At December 31, 2011, the total shares available to purchase under the program was approximately 1.1 million shares.

At December 31, 2011, the Company had a \$50 million unsecured revolving line of credit with a bank expiring April 30, 2012. The line of credit allows for up to \$50 million in borrowings at a rate of LIBOR plus a specified margin ("LIBOR loans"). Alternatively, the Company could issue up to \$25 million in non-rated commercial paper ("commercial paper") at market interest rates with any additional borrowings under LIBOR loans. Effective July 22, 2011, the line of credit was amended to reduce the interest rate on LIBOR loans from LIBOR plus 175 basis points to LIBOR plus 75 basis points. At December 31, 2011, outstanding borrowings were \$37 million in LIBOR loans at an interest rate of 1.0%. At December 31, 2010, outstanding borrowings were \$5 million of commercial paper at

an average interest rate of 1.4%. The Company's line of credit includes a financial covenant that specifies a minimum level of net worth. As of December 31, 2011, the Company was in compliance with the covenant.

As part of the Bogs acquisition, the Company recorded its fair value estimate of the contingent payments of \$9.8 million within other long-term liabilities on the Consolidated Balance Sheets. This fair value estimate was based on a probability-weighted model. The Company remeasured its estimate of the fair value of the contingent payments to \$9.7 million as of December 31, 2011. The change in fair value was recognized in earnings. For additional information, see Note 11 in the Notes to Consolidated Financial Statements.

The Company will continue to evaluate the best uses for its available liquidity, including continued stock repurchases and additional acquisitions.

The Company believes that available cash and marketable securities, cash provided by operations, and available borrowing facilities will provide adequate support for the cash needs of the business in 2012.

**Off-Balance Sheet Arrangements**

The Company does not utilize any special purpose entities or other off-balance sheet arrangements.

**Commitments**

The Company's significant contractual obligations are its supplemental pension plan, its operating leases, and the contingent payments that may result from the Bogs acquisition, as described above. These obligations are discussed further in the Notes to Consolidated Financial Statements. The Company also has significant obligations to purchase inventory. The pension obligations and contingent consideration were recorded on the Company's Consolidated Balance Sheets. Future obligations under operating leases are disclosed in Note 14 of the Notes to Consolidated Financial Statements. The table below provides summary information about these obligations as of December 31, 2011.

	Payments Due by Period (dollars in thousands)				
	Total	Less Than a Year	2 - 3 Years	4 - 5 Years	More Than 5 Years
Pension obligations . . . . .	\$ 13,870	\$ 394	\$ 830	\$ 878	\$11,768
Operating leases . . . . .	45,400	8,233	15,711	9,950	11,506
Contingent consideration (undiscounted) . . . . .	9,975	—	3,689	6,286	—
Purchase obligations* . . . . .	50,847	50,847	—	—	—
Total . . . . .	<u>\$120,092</u>	<u>\$59,474</u>	<u>\$20,230</u>	<u>\$17,114</u>	<u>\$23,274</u>

\* Purchase obligations relate entirely to commitments to purchase inventory.

**OTHER**

**Critical Accounting Policies**

The Company's accounting policies are more fully described in Note 2 of the Notes to Consolidated Financial Statements. As disclosed in Note 2, the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions about future events that affect the amounts reported in the consolidated financial statements and accompanying notes. Future events and their effects cannot be determined with absolute certainty. Therefore, the determination of estimates requires the exercise of judgment. Actual results inevitably will differ from those estimates, and such differences may be material to the consolidated financial statements. The following policies are considered by management to be the most critical in understanding the significant accounting estimates inherent in the preparation of the Company's consolidated financial statements and the uncertainties that could impact the Company's results of operations, financial position and cash flows.

### *Sales Returns, Sales Allowances and Doubtful Accounts*

The Company records reserves for sales returns, sales allowances and discounts, and accounts receivable balances that it believes will ultimately not be collected. The reserves are based on such factors as specific customer situations, historical experience, a review of the current aging status of customer receivables and current and expected economic conditions. The reserve for doubtful accounts includes a specific reserve for accounts identified as potentially uncollectible, plus an additional reserve for the balance of accounts. The Company evaluates the reserves and the estimation process and makes adjustments when appropriate. Historically, actual write-offs against the reserves have been within the Company's expectations. Changes in these reserves may be required if actual returns, discounts and bad debt activity varies from the original estimates. These changes could impact the Company's results of operations, financial position and cash flows.

### *Pension Plan Accounting*

The Company's pension expense and corresponding obligation are determined on an actuarial basis and require certain actuarial assumptions. Management believes the two most critical of these assumptions are the discount rate and the expected rate of return on plan assets. The Company evaluates its actuarial assumptions annually on the measurement date (December 31) and makes modifications based on such factors as market interest rates and historical asset performance. Changes in these assumptions can result in different expense and liability amounts, and future actual experience can differ from these assumptions.

*Discount Rate* — Pension expense and projected benefit obligation both increase as the discount rate is reduced. See Note 12 of the Notes to Consolidated Financial Statements for discount rates used in determining the net periodic pension cost for the years ended December 31, 2011, 2010 and 2009 and the funded status of the plans at December 31, 2011 and 2010. The rates are based on the plan's projected cash flows. The Company utilizes the cash flow matching method, which discounts each year's projected cash flows at the associated spot interest rate back to the measurement date. A 0.5% decrease in the discount rate would increase annual pension expense and the projected benefit obligation by approximately \$662,000 and \$5.5 million, respectively.

*Expected Rate of Return* — Pension expense increases as the expected rate of return on pension plan assets decreases. In estimating the expected return on plan assets, the Company considers the historical returns on plan assets and future expectations of asset returns. The Company utilized an expected rate of return on plan assets of 8% in 2011, 2010 and 2009. This rate was based on the Company's long-term investment policy of equity securities: 20% – 80%; fixed income securities: 20% – 80%; and other, principally cash: 0% – 20%. A 0.5% decrease in the expected return on plan assets would increase annual pension expense by approximately \$129,000.

### *Goodwill and Trademarks*

Goodwill and trademarks are tested for impairment on an annual basis and more frequently when significant events or changes in circumstances indicate that their carrying values may not be recoverable. Conditions that would trigger an impairment assessment include, but are not limited to, a significant adverse change in legal factors or business climate that could affect the value of the asset.

The Company uses a two-step process to test goodwill for impairment. First, the applicable reporting unit's fair value is compared to its carrying value. If the reporting unit's carrying amount exceeds its fair value, an indication exists that the reporting unit's goodwill may be impaired, and the second step of the impairment test would be performed. The second step of the goodwill impairment test is to measure the amount of the impairment loss, if any. In the second step, the implied fair value of the reporting unit's goodwill is determined by allocating the reporting unit's fair value to all of its assets and liabilities similar to a purchase price allocation. The implied fair value of the goodwill that results from the application of this second step is then compared to the carrying amount of the goodwill and an impairment charge would be recorded for the difference if the carrying value exceeds the implied fair value of the goodwill.

The Company conducted its annual impairment review of goodwill as of December 31, 2011. For goodwill impairment testing, the Company determined the applicable reporting unit is its wholesale segment. Fair value of the wholesale segment was estimated based on a weighted analysis of discounted cash flows (“income approach”), a comparable public company analysis (“market approach”), and a comparable transaction analysis. The rate used in determining discounted cash flows is a rate corresponding to the Company’s weighted average cost of capital, adjusted for risk where appropriate. In determining the estimated future cash flows, current and future levels of income were considered as well as business trends and market conditions. The testing determined that the estimated fair value of the wholesale segment substantially exceeded its carrying value therefore there was no impairment of goodwill in 2011.

The Company conducted its annual impairment review of trademarks as of December 31, 2011. The Company used a discounted cash flow methodology to determine the fair value of its trademarks, and a loss would be recognized if the carrying values of the trademarks exceeded their fair values. In fiscal 2011, 2010 and 2009, there was no impairment of the Company’s trademarks.

The Company can make no assurances that the goodwill or trademarks will not be impaired in the future. When preparing a discounted cash flow analysis, the Company makes a number of key estimates and assumptions. The Company estimates the future cash flows based on historical and forecasted revenues and operating costs. This, in turn, involves further estimates such as estimates of future growth rates and inflation rates. The discount rate is based on the estimated weighted average cost of capital for the business and may change from year to year. Weighted average cost of capital includes certain assumptions such as market capital structures, market beta, risk-free rate of return, and estimated costs of borrowing. Changes in these key estimates and assumptions, or in other assumptions used in this process, could materially affect the Company’s impairment analysis for a given year. Additionally, since the Company’s goodwill measurement also considers a market approach, changes in comparable public company multiples can also materially impact the Company’s impairment analysis.

#### *Contingent Consideration*

The Company recorded its estimate of the fair value of contingent consideration that may result from the Bogs acquisition. The contingent consideration is formula-driven and is based on Bogs achieving certain levels of gross margin dollars between January 1, 2011 and December 31, 2015. There are no restrictions as to the amount of consideration that could become payable under the arrangement. As of December 31, 2011, management estimates that the range of potential payments is \$5 million to \$14 million in the aggregate.

The Company determined the fair value of the contingent consideration using a probability-weighted model which included estimates related to Bogs’ future sales levels and gross margins. On a quarterly basis, the Company revalues the obligation and records increases or decreases in its fair value as an adjustment to operating earnings. Changes to the contingent consideration obligation can result from adjustments to the discount rate, accretion of the discount due to the passage of time, or changes in assumptions regarding the future performance of Bogs. The assumptions used to determine the value of contingent consideration include a significant amount of judgment, and any changes in the assumptions could have a material impact on the amount of contingent consideration expense or income recorded in a given period.

#### *Recent Accounting Pronouncements*

See Note 2 of the Notes to Consolidated Financial Statements.

## **ITEM 7A QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

The Company is exposed to market risk from changes in foreign exchange and interest rates. To reduce the risk from changes in foreign exchange rates, the Company selectively uses forward exchange contracts. The Company does not hold or issue financial instruments for trading purposes. The Company does not have significant market risk on its marketable securities as those investments consist of high-grade securities and are held to maturity. The Company has reviewed its portfolio of investments as of December 31, 2011 and has determined that no other-than-temporary market value impairment exists.

### **Foreign Currency**

The Company's earnings are affected by fluctuations in the value of the U.S. dollar against foreign currencies, primarily as a result of the sale of product to Canadian customers, Florsheim Australia's purchases of its inventory in U.S. dollars and the Company's intercompany loans with Florsheim Australia. From time-to-time, forward exchange contracts are used to partially hedge against the earnings effects of such fluctuations. At December 31, 2011, there were no significant forward exchange contracts outstanding. Based on the Company's outstanding intercompany loans with Florsheim Australia at December 31, 2011, a 10% change in the Australian exchange rate would not have a material effect on the Company's financial statements.

### **Interest Rates**

The Company is exposed to interest rate fluctuations on borrowings under its revolving line of credit. At December 31, 2011, the Company had \$37 million of outstanding borrowings under the revolving line of credit. The interest expense related to borrowings under the line during 2011 was \$426,000. A 10% increase in the Company's interest rate on borrowings would not have a material effect on the Company's financial position, results of operations or cash flows.

## **MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING**

The Company's management is responsible for establishing and maintaining effective internal control over financial reporting. The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, assessed the effectiveness of the Company's internal control over financial reporting as of December 31, 2011. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission in *Internal Control — Integrated Framework*. Based on the assessment, the Company's management has concluded that, as of December 31, 2011, the Company's internal control over financial reporting was effective based on those criteria.

The Company's internal control system was designed to provide reasonable assurance to the Company's management and Board of Directors regarding the preparation and fair presentation of published financial statements. All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

The Company's independent registered public accounting firm has audited the Company's consolidated financial statements and the effectiveness of internal controls over financial reporting as of December 31, 2011 as stated in its report below.

## REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and Board of Directors of  
Weyco Group, Inc.:

We have audited the accompanying consolidated balance sheets of Weyco Group, Inc. and subsidiaries (the "Company") as of December 31, 2011 and 2010, and the related consolidated statements of earnings, equity, and cash flows for each of the three years in the period ended December 31, 2011. We also have audited the Company's internal control over financial reporting as of December 31, 2011, based on the criteria established in *Internal Control — Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company's management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on these financial statements and an opinion on the Company's internal control over financial reporting based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Weyco Group, Inc. and subsidiaries as of December 31, 2011 and 2010, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2011, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2011, based on the criteria established in *Internal Control — Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

The accompanying notes to consolidated financial statements are an integral part of these financial statements.

## WEYCO GROUP, INC.

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS Years Ended December 31, 2011, 2010 and 2009

#### 1. NATURE OF OPERATIONS

Weyco Group, Inc. designs and markets quality and innovative footwear for men, women and children under a portfolio of well-recognized brand names including: “Florsheim,” “Nunn Bush,” “Stacy Adams,” “BOGS,” “Rafters,” and “Umi.” Inventory is purchased from third-party overseas manufacturers. The majority of foreign-sourced purchases are denominated in U.S. dollars. The Company has two reportable segments, North American wholesale operations (“wholesale”) and North American retail operations (“retail”). In the wholesale segment, the Company’s products are sold to leading footwear, department and specialty stores primarily in the United States and Canada. As of December 31, 2011, the Company also had licensing agreements with third parties who sell its branded apparel, accessories and specialty footwear in the United States, as well as its footwear in Canada, Mexico and certain markets overseas. Licensing revenues are included in the Company’s wholesale segment. As of December 31, 2011, the Company’s retail segment consisted of 30 Company-owned retail stores in the United States and an Internet business. Sales in retail outlets are made directly to consumers by Company employees. The Company’s “other” operations include the Company’s wholesale and retail operations in Australia, South Africa, Asia Pacific (collectively, “Florsheim Australia”) and Europe. The majority of the Company’s operations are in the United States, and its results are primarily affected by the economic conditions and the retail environment in the United States.

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

*Principles of Consolidation* — The consolidated financial statements are prepared in conformity with accounting principles generally accepted in the United States of America, and include all of the Company’s majority-owned subsidiaries.

*Use of Estimates* — The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported periods. Actual results could differ materially from those estimates.

*Cash and Cash Equivalents* — The Company considers all highly liquid investments with maturities of three months or less at the date of purchase to be cash equivalents. At December 31, 2011 and 2010, the Company’s cash and cash equivalents included investments in money market accounts and cash deposits at various banks.

*Investments* — All of the Company’s investments are classified as held-to-maturity securities and reported at amortized cost pursuant to Accounting Standards Codification (“ASC”) 320, *Investments — Debt and Equity Securities* (“ASC 320”) as the Company has the intent and ability to hold all investments to maturity. See Note 5.

*Accounts Receivable* — Trade accounts receivable arise from the sale of products on trade credit terms. On a quarterly basis, the Company reviews all significant accounts with past due balances, as well as the collectability of other outstanding trade accounts receivable for possible write-off. It is the Company’s policy to write-off the accounts receivable against the allowance account when receivables are deemed to be uncollectible. The allowance for doubtful accounts reflects the Company’s best estimate of probable losses in the accounts receivable balances. The Company determines the allowance based on known troubled accounts, historical experience and other evidence currently available.

## WEYCO GROUP, INC.

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS Years Ended December 31, 2011, 2010 and 2009

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (continued)

*Inventories* — Inventories are valued at cost, which is not in excess of market value. The majority of inventories are determined on a last-in, first-out (“LIFO”) basis. Inventory costs include the cost of shoes purchased from third-party manufacturers, as well as related freight and duty costs. The Company generally takes title to product at the time of shipping. See Note 6.

*Property, Plant and Equipment and Depreciation* — Property, plant and equipment are stated at cost. Plant and equipment are depreciated using primarily the straight-line method over their estimated useful lives as follows: buildings and improvements, 10 to 39 years; machinery and equipment, 3 to 10 years; furniture and fixtures, 5 to 7 years.

*Impairment of Long-Lived Assets* — Property, plant and equipment are reviewed for impairment in accordance with ASC 360, *Property, Plant and Equipment* (“ASC 360”) if events or changes in circumstances indicate that the carrying amounts may not be recoverable. Recoverability of assets is measured by a comparison of the carrying amount of an asset to its related estimated undiscounted future cash flows. If the sum of the expected undiscounted cash flows is less than the carrying value of the related asset or group of assets, a loss is recognized for the difference between the fair value and carrying value of the asset or group of assets. To derive the fair value, the Company utilizes the income approach and the fair value determined is categorized as Level 3 in the fair value hierarchy. The fair value of each asset group is determined using the estimated future cash flows discounted at an estimated weighted-average cost of capital. For purposes of the impairment review, the Company groups assets at the lowest level for which identifiable cash flows are largely independent of the cash flows of other assets and liabilities. In conjunction with the Company’s impairment review, the Company’s retail segment recognized an impairment charge of \$165,000 in 2011, \$310,000 in 2010, and \$1.1 million in 2009 which was recorded within selling and administrative expenses in the Consolidated Statements of Earnings.

*Goodwill and Intangible Assets* — Goodwill represents the excess of the purchase price over the estimated fair value of the underlying assets acquired and liabilities assumed in the acquisition of a business. Goodwill is not subject to amortization. Other intangible assets consist of a non-compete agreement, customer relationships, and trademarks. Intangible assets with definite lives are amortized over their estimated useful lives. Intangible assets which are not amortized are reviewed for impairment annually and whenever events or changes in circumstances indicate the carrying amounts may not be recoverable. See Note 8.

*Life Insurance* — Life insurance policies are recorded at the amount that could be realized under the insurance contracts as of the date of financial position. These assets are included within Other Assets in the Consolidated Balance Sheets. See Note 9.

*Contingent Consideration* — The Company recorded its fair value estimate of the contingent consideration that may result from the Bogs acquisition (see Note 3) within other long-term liabilities on the Consolidated Balance Sheets. On a quarterly basis, the Company revalues the obligation and records increases or decreases in its fair value as an adjustment to operating earnings. Changes to the contingent consideration obligation can result from adjustments to the discount rate, accretion of the discount due to the passage of time, or changes in assumptions regarding the future performance of Bogs. The assumptions used to determine the value of contingent consideration include a significant amount of judgment, and any changes in the assumptions could have a material impact on the amount of contingent consideration expense or income recorded in a given period. See Note 11.

*Income Taxes* — Deferred income taxes are provided on temporary differences arising from differences in the basis of assets and liabilities for income tax and financial reporting purposes. See Note 13.

## WEYCO GROUP, INC.

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS Years Ended December 31, 2011, 2010 and 2009

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (continued)

*Noncontrolling Interest* — The Company's noncontrolling interest is accounted for under ASC 810, *Consolidation* ("ASC 810") and represents the minority shareholders' ownership interest related to the Company's wholesale and retail businesses in Australia, South Africa and Asia Pacific. In accordance with ASC 810, the Company reports its noncontrolling interest in subsidiaries as a separate component of equity in the Consolidated Balance Sheets and reports both net earnings attributable to the noncontrolling interest and net earnings attributable to the Company's common shareholders on the face of the Consolidated Statements of Earnings.

*Revenue Recognition* — Revenue from the sale of product is recognized when title and risk of loss transfers to the customer and the customer is obligated to pay the Company. Sales to independent dealers are recorded at the time of shipment to those dealers. Sales through Company-owned retail outlets are recorded at the time of delivery to retail customers. All product sales are recorded net of estimated allowances for returns and discounts. The Company's estimates of allowances for returns and discounts are based on such factors as specific customer situations, historical experience, and current and expected economic conditions. The Company evaluates the reserves and the estimation process and makes adjustments when appropriate. Revenue from third-party licensing agreements is recognized in the period earned. Licensing revenues were \$3.4 million in 2011, \$2.2 million in 2010 and \$2.7 million in 2009.

*Shipping and Handling Fees* — The Company classifies shipping and handling fees billed to customers as revenues. The related shipping and handling expenses incurred by the Company are included in selling and administrative expenses and totaled \$2.2 million in 2011 and \$1.4 million in each of the years 2010 and 2009.

*Cost of Sales* — The Company's cost of sales includes the cost of products and inbound freight and duty costs.

*Selling and Administrative Expenses* — Selling and administrative expenses primarily include salaries and commissions, advertising costs, employee benefit costs, distribution costs (e.g., receiving, inspection and warehousing costs), rent and depreciation. Distribution costs included in selling and administrative expenses were \$8.6 million in 2011 and \$7.9 million in each of the years 2010 and 2009.

*Advertising Costs* — Advertising costs are expensed as incurred. Total advertising costs were \$8.7 million, \$7.9 million and \$8.2 million in 2011, 2010 and 2009, respectively. All advertising expenses are included in selling and administrative expenses with the exception of co-op advertising expenses which are recorded as a reduction of net sales. Co-op advertising expenses, which are included in the above totals, reduced net sales by \$3.3 million, \$3.5 million and \$4.2 million for 2011, 2010 and 2009, respectively.

*Foreign Currency Translations* — The Company accounts for currency translations in accordance with ASC 830, *Foreign Currency Matters* ("ASC 830") under which non-U.S. subsidiaries' balance sheet accounts are translated into U.S. dollars at the rates of exchange in effect at fiscal year-end and income and expense accounts are translated at the weighted average rates of exchange in effect during the year. Translation adjustments resulting from this process are recognized as a separate component of accumulated other comprehensive loss, which is a component of equity.

*Foreign Currency Transactions* — Gains and losses from foreign currency transactions are included in other income and expense, net, in the Consolidated Statements of Earnings. Net foreign currency transaction (losses) gains totaled approximately (\$197,000) in 2011, \$370,000 in 2010 and \$1.3 million in 2009.

**WEYCO GROUP, INC.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
Years Ended December 31, 2011, 2010 and 2009**

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (continued)**

*Earnings Per Share* — Basic earnings per share excludes any dilutive effects of restricted stock and options to purchase common stock. Diluted earnings per share includes any dilutive effects of restricted stock and options to purchase common stock. See Note 16.

*Comprehensive Income* — Comprehensive income includes net earnings and changes in accumulated other comprehensive loss. The Company has chosen to report comprehensive income and accumulated other comprehensive loss in the Consolidated Statements of Equity. The components of accumulated other comprehensive loss as recorded on the accompanying Consolidated Balance Sheets were as follows:

	2011	2010
	(Dollars in thousands)	
Foreign currency translation adjustments . . . . .	\$ 923	\$ 1,243
Pension liability, net of tax . . . . .	<u>(14,342)</u>	<u>(10,247)</u>
Total accumulated other comprehensive loss . . . . .	<u>\$ (13,419)</u>	<u>\$ (9,004)</u>

The noncontrolling interest as recorded in the Consolidated Balance Sheets at December 31, 2011 and 2010 included foreign currency translation adjustments of \$345,000 and \$834,000, respectively.

*Stock-Based Compensation* — At December 31, 2011, the Company had three stock-based employee compensation plans, which are described more fully in Note 18. The Company accounts for these plans under the recognition and measurement principles of ASC 718, *Compensation — Stock Compensation* (“ASC 718”).

*Concentration of Credit Risk* — The Company had no individual customer accounts receivable balances outstanding that represented more than 10% of the Company’s gross accounts receivable balance at December 31, 2011. The Company had one individual customer accounts receivable balance outstanding that represented 16% of the Company’s gross accounts receivable balance at December 31, 2010. There was no single customer with sales above 10% of the Company’s total sales in 2011. During 2010 and 2009, one customer represented 12% and 13% of the Company’s net sales, respectively.

*Recent Accounting Pronouncements* — In September 2011, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2011-08, *Intangible — Goodwill and Other (Topic 350) — Testing Goodwill for Impairment* (“ASC 2011-08”). The amendments in this ASU permit an entity to first assess qualitative factors related to goodwill to determine whether it is more likely than not that the fair value of the reporting unit is less than its carrying amount as a basis for determining whether it is necessary to perform the two-step goodwill test described in Topic 350. The more-likely-than-not threshold is defined as having a likelihood of more than 50 percent. Under the amendments in this ASU, an entity is not required to calculate the fair value of a reporting unit unless the entity determines that it is more likely than not that its fair value is less than its carrying amount. The amendments in this ASU are effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011. The adoption of this guidance is not expected to have a significant impact on the Company’s consolidated financial statements.

In June 2011, the FASB issued ASU 2011-05, *Comprehensive Income (ASC Topic 220) — Presentation of Comprehensive Income* (“ASC 2011-05”). ASU 2011-05 eliminates the option to present the components of other comprehensive income as part of the statement of stockholders’ equity and requires an entity to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement

## WEYCO GROUP, INC.

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS Years Ended December 31, 2011, 2010 and 2009

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (continued)

of comprehensive income or in two separate but consecutive statements. The amendments are effective retrospectively for fiscal years, and interim periods within those years, beginning after December 15, 2011. The guidance requires changes in presentation only and is not expected to have a significant impact on the Company's consolidated financial statements.

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS* (ASU 2011-04), which amends ASC 820, *Fair Value Measurements and Disclosures* ("ASC 820"). This update clarifies the existing guidance and amends the wording used to describe many of the requirements in U.S. GAAP for measuring fair value and for disclosing information about fair value measurements. This update is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011, with prospective application required. The adoption of this guidance is not expected to have a significant impact on the Company's consolidated financial statements.

*Reclassifications* — Certain reclassifications have been made in the prior years' financial statements to conform to the current year's presentation. Such reclassifications had no effect on previously reported net income or equity.

#### 3. ACQUISITIONS

##### Bogs

On March 2, 2011, the Company acquired 100% of the outstanding shares of The Combs Company ("Bogs") from its former shareholders for \$29.3 million in cash plus assumed debt of approximately \$3.8 million and contingent payments after two and five years, which are dependent on Bogs achieving certain performance measures. In accordance with the agreement, \$2.0 million of the cash portion of the purchase price was held back to be used to help satisfy any claims of indemnification by the Company, and any amounts not used therefore will be paid to the sellers 18 months from the date of acquisition. At the acquisition date, the Company made an estimate of the fair value of the two contingent payments of approximately \$9.8 million in the aggregate. For more information regarding the contingent payments, see Note 11. The Bogs acquisition was funded with available cash and short-term borrowings under the Company's \$50 million borrowing facility.

Bogs designs and markets boots, shoes, and sandals for men, women and children under the BOGS and Rafters brand names. Its products are sold across the agricultural, industrial, outdoor specialty, outdoor sport, lifestyle and fashion markets.

The acquisition of Bogs has been accounted for in these consolidated financial statements as a business combination under ASC 805, *Business Combinations* ("ASC 805"). Under ASC 805, the total purchase price is allocated to tangible and intangible assets acquired and liabilities assumed based on their respective fair values at the acquisition date. The Company's final allocation of the purchase price as of December 31, 2011 was as follows (dollars in thousands):

Cash	\$ 317
Accounts receivable, less reserves of \$316	3,839
Inventory	2,932
Prepays	15
Property, plant and equipment, net	7
Goodwill	11,112
Trademark	22,000
Other intangible assets	3,700
Accounts payable	(454)
Accrued liabilities	(561)
	<u>\$42,907</u>

**WEYCO GROUP, INC.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**Years Ended December 31, 2011, 2010 and 2009**

**3. ACQUISITIONS – (continued)**

Other intangible assets consist of customer relationships and a non-compete agreement. Goodwill reflects the excess purchase price over the fair value of net assets, and has been assigned to the Company's wholesale segment. All of the goodwill is expected to be deductible for tax purposes. For more information on the intangible assets acquired, see Note 8.

The operating results of Bogs have been consolidated into the Company's wholesale segment since the date of acquisition. For the period March 2 through December 31, 2011, net sales of Bogs were approximately \$28 million. Earnings information related to Bogs cannot be separately identified as a result of the integration of the companies. The Company incurred transaction costs of approximately \$220,000 in 2011. These costs are included in the wholesale selling and administrative expenses.

*Pro Forma Results of Operations*

The following unaudited pro forma results of operations assume that the Company acquired Bogs on January 1, 2011 and 2010, respectively. The unaudited pro forma results include adjustments to reflect additional amortization of intangible assets, interest expense and a corresponding estimate of the provision for income taxes.

	<b>Year Ended December 31,</b>	
	<b>2011</b>	<b>2010</b>
	(Dollars in thousands)	
Net sales . . . . .	\$275,467	\$256,120
Net earnings attributable to Weyco Group, Inc. . . . .	\$ 15,080	\$ 14,821

The unaudited pro forma information presented above is not necessarily indicative of either the results of operations that would have occurred had the acquisition of Bogs been effective on January 1, 2011 or 2010, respectively, or of the Company's future results of operations.

*Umi*

On April 28, 2010, the Company acquired certain assets, including the Umi brand name, intellectual property and accounts receivable, from Umi LLC, a children's footwear company, for an aggregate price of approximately \$2.6 million. The acquisition has been accounted for in these financial statements as a business combination under ASC 805. The Company allocated the purchase price to accounts receivable, trademarks and other assets. The operating results of Umi have been consolidated into the Company's wholesale segment since the date of acquisition. Accordingly, the Company's 2011 results included Umi's operations from January 1 through December 31, 2011 while 2010 only included Umi's operations for the period April 28 through December 31, 2010. Additional disclosures prescribed by ASC 805 have not been provided as the Umi acquisition was not material to the Company's consolidated financial statements.

*Florsheim Australia*

In January 2009, the Company acquired a majority interest in a new subsidiary, Florsheim Australia Pty Ltd ("Florsheim Australia"), which subsequently purchased the Florsheim wholesale and retail businesses in Australia, South Africa and Asia Pacific. The vast majority of this business is conducted under the Florsheim name, with a small amount of business under the Stacy Adams and Nunn Bush brand names. These businesses were previously licensed by the Company to a third party, from whom the Company had collected approximately \$1 million of annual royalty income in 2008 and prior.

On January 20, 2009, the Company contributed \$3.5 million for a majority interest in the newly formed entity, Florsheim Australia. The noncontrolling party contributed \$1.3 million in cash and \$1.9 million of non-cash consideration to the entity.

## WEYCO GROUP, INC.

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS Years Ended December 31, 2011, 2010 and 2009

#### 3. ACQUISITIONS – (continued)

On January 23, 2009, Florsheim Australia acquired the operating assets and certain liabilities related to the Florsheim business from Figgins Holdings Pty Ltd, the former Australian licensee, and acquired the stock of Florsheim South Africa Pty Ltd and Florsheim Asia Pacific Ltd, the Company's other licensees, for total consideration of approximately \$9.3 million. Florsheim Australia financed the acquisition with cash generated from the aforementioned equity contributions and proceeds from intercompany loans from the Company. The acquisition included both wholesale and retail businesses, with 24 Florsheim retail stores in Australia, one Florsheim retail store in New Zealand and one retail store in Macau. The acquisition has been accounted for in these consolidated financial statements as a business combination under ASC 805 and the noncontrolling interest has been accounted for and reported in accordance with ASC 810. Accordingly, the allocation of total consideration transferred was completed during 2009 and was as follows: accounts receivable, \$4.7 million; inventory, \$7.0 million; fixed assets, \$1.2 million; and other assets and liabilities, net, (\$3.6) million. There were no material intangible assets related to this acquisition. The financial results of Florsheim Australia have been included in the Company's consolidated financial statements since January 23, 2009. Acquisition costs of \$400,000 were expensed and included in selling and administrative expenses in 2009. Additional disclosures prescribed by ASC 805 have not been provided as the Florsheim Australia acquisition was not material to the Company's consolidated financial statements.

#### 4. FAIR VALUE OF FINANCIAL INSTRUMENTS

ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820 also establishes the following three-level hierarchy for fair value measurements based upon the sources of data and assumptions used to develop the fair value measurements:

Level 1 — unadjusted quoted market prices in active markets for identical assets or liabilities that are publicly accessible.

Level 2 — quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active and inputs (other than quoted prices) that are observable for the asset or liability, either directly or indirectly.

Level 3 — unobservable inputs that reflect the Company's assumptions, consistent with reasonably available assumptions made by other market participants.

The carrying amounts of all short-term financial instruments, except marketable securities, approximate fair value due to the short-term nature of those instruments. Marketable securities are carried at amortized cost. The fair value disclosures of marketable securities are Level 2 valuations as defined by ASC 820, consisting of quoted prices for identical or similar assets in markets that are not active. See Note 5.

**WEYCO GROUP, INC.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**Years Ended December 31, 2011, 2010 and 2009**

**5. INVESTMENTS**

Below is a summary of the amortized cost and estimated market values of the Company's investment securities as of December 31, 2011 and 2010. The estimated market values provided are Level 2 valuations as defined by ASC 820. See Note 4.

	2011		2010	
	Amortized Cost	Market Value	Amortized Cost	Market Value
	(Dollars in thousands)			
Municipal bonds:				
Current . . . . .	\$ 4,745	\$ 4,781	\$ 4,989	\$ 5,006
Due from one through five years . .	32,679	34,184	35,170	36,152
Due from six through ten years . . .	14,160	15,216	22,889	23,028
Total . . . . .	<b>\$51,584</b>	<b>\$54,181</b>	<b>\$63,048</b>	<b>\$64,186</b>

The unrealized gains and losses on investment securities at December 31, 2011 and 2010 were:

	2011		2010	
	Unrealized Gains	Unrealized Losses	Unrealized Gains	Unrealized Losses
	(Dollars in thousands)			
Municipal bonds . . . . .	\$2,797	\$200	\$1,656	\$518

At each reporting date, the Company reviews its investments to determine whether a decline in fair value below the amortized cost basis is other than temporary. To determine whether a decline in value is other than temporary, the Company evaluates several factors including the nature of the securities held, credit rating or financial condition of the issuers, the extent and duration of the unrealized losses, prevailing market conditions, and whether the Company will more likely than not be required to sell the impaired securities before the amortized cost basis is fully recovered. The Company determined that no other-than-temporary impairment exists for the years ended December 31, 2011, 2010 and 2009.

**6. INVENTORIES**

At December 31, 2011 and 2010, inventories consisted of:

	2011	2010
	(Dollars in thousands)	
Finished shoes . . . . .	\$ 79,648	\$ 71,710
LIFO reserve . . . . .	(16,959)	(15,599)
Total inventories . . . . .	<b>\$ 62,689</b>	<b>\$ 56,111</b>

Finished shoes included inventory in-transit of \$13.2 million and \$12.9 million as of December 31, 2011 and 2010, respectively. At December 31, 2011, approximately 75% of the Company's inventories were valued by the LIFO method of accounting while approximately 25% were valued by the first-in, first out ("FIFO") method of accounting. At December 31, 2010, approximately 85% of the Company's inventories were valued by the LIFO method of accounting while approximately 15% were valued by the FIFO method of accounting.

**WEYCO GROUP, INC.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**Years Ended December 31, 2011, 2010 and 2009**

**6. INVENTORIES – (continued)**

During 2011, there were liquidations of LIFO inventory quantities carried at lower costs prevailing in prior years as compared to the cost of fiscal 2011 purchases. The effect of the liquidation decreased costs of goods sold by \$250,000 in 2011. During 2010, there were liquidations of LIFO inventory quantities which resulted in immaterial decreases in cost of goods sold in 2010. During 2009, inventory quantities were reduced which resulted in the liquidation of LIFO inventory quantities carried at higher costs prevailing in prior years as compared with the cost of fiscal 2009 purchases. The effect of the liquidation increased costs of goods sold by \$745,000 in 2009.

**7. PROPERTY, PLANT AND EQUIPMENT, NET**

At December 31, 2011 and 2010, property, plant and equipment consisted of:

	2011	2010
	(Dollars in thousands)	
Land and land improvements . . . . .	\$ 3,400	\$ 2,700
Buildings and improvements . . . . .	22,868	19,719
Machinery and equipment . . . . .	20,700	18,208
Retail fixtures and leasehold improvements . . . . .	10,879	10,241
Construction in progress . . . . .	172	217
Property, plant and equipment . . . . .	58,019	51,085
Less: Accumulated depreciation . . . . .	(26,942)	(25,410)
Property, plant and equipment, net . . . . .	\$ 31,077	\$ 25,675

**8. INTANGIBLE ASSETS**

The Company's indefinite-lived and amortizable intangible assets as recorded in the Consolidated Balance Sheets consist of:

		December 31, 2011			December 31, 2010		
		Gross Carrying Amount	Accumulated Amortization	Net	Gross Carrying Amount	Accumulated Amortization	Net
Wtd. Average Life (Yrs)							
(Dollars in thousands)							
Indefinite-lived intangibles:							
Goodwill . . . . .		11,112	—	11,112	—	—	—
Trademarks . . . . .		34,748	—	34,748	12,748	—	12,748
Total indefinite-lived intangibles . . . . .		45,860	—	45,860	12,748	—	12,748
Amortizable intangible assets:							
Non-compete agreement . . . . .	5	\$ 200	\$ (33)	\$ 167	\$ —	\$ —	\$ —
Customer relationships . . . . .	15	3,500	(195)	3,305	—	—	—
Total amortizable intangible assets . . . . .		3,700	(228)	3,472	—	—	—

The Company's goodwill, amortizable intangible assets and additional trademarks resulted from the Bogs acquisition on March 2, 2011. See Note 3. The amortizable intangible assets are included within Other Assets in the Consolidated Balance Sheets. See Note 9.

**WEYCO GROUP, INC.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**Years Ended December 31, 2011, 2010 and 2009**

**8. INTANGIBLE ASSETS – (continued)**

The Company performs an impairment test for goodwill and trademarks on an annual basis and more frequently if an event or changes in circumstances indicate that their carrying values may not be recoverable. Conditions that would trigger an impairment assessment include, but are not limited to, a significant adverse change in legal factors or business climate that could affect the value of the asset.

The Company uses a two-step process to test goodwill for impairment. The first step is to compare the applicable reporting unit's fair value to its carrying value. The Company has determined the applicable reporting unit is its wholesale segment. If the fair value of the wholesale segment is greater than its carrying value, there is no impairment. If the carrying value is greater than the fair value, then the second step must be completed to measure the amount of the impairment, if any. The second step calculates the implied fair value of the goodwill, which is compared to its carrying value. If the implied fair value is less than the carrying value, an impairment loss is recognized equal to the difference. In fiscal 2011, there was no impairment charge recorded for the Company's goodwill.

The Company tests its trademarks for impairment by comparing the fair value of each trademark to its related carrying value. Fair value is estimated using a discounted cash flow methodology. In fiscal 2011, 2010 and 2009, there was no impairment charge recorded for the Company's trademarks.

Excluding the impact of any future acquisitions, the Company anticipates future amortization expense to be as follows:

<u>(Dollars in thousands)</u>	<u>Intangible Assets</u>
2012 . . . . .	\$ 273
2013 . . . . .	273
2014 . . . . .	273
2015 . . . . .	273
2016 . . . . .	240
Thereafter . . . . .	2,140
Total . . . . .	<u>\$3,472</u>

**9. OTHER ASSETS**

Other assets included the following amounts at December 31, 2011 and 2010:

	<u>2011</u>	<u>2010</u>
	(Dollars in thousands)	
Cash surrender value of life insurance . . . . .	<b>12,055</b>	11,372
Intangible assets (See Note 8) . . . . .	<b>3,472</b>	—
Other . . . . .	<b>2,554</b>	3,003
Total other assets . . . . .	<u><b>\$18,081</b></u>	<u>\$14,375</u>

The Company has five life insurance policies on current and former executives. Upon death of the insured executives, the approximate death benefit the Company could receive is \$14 million in the aggregate.

## WEYCO GROUP, INC.

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS Years Ended December 31, 2011, 2010 and 2009

#### 10. SHORT-TERM BORROWINGS

At December 31, 2011, the Company had a \$50 million unsecured revolving line of credit with a bank expiring April 30, 2012. The line of credit allows for up to \$50 million in borrowings at a rate of LIBOR plus a specified margin ("LIBOR loans"). Alternatively, the Company could issue up to \$25 million in non-rated commercial paper ("commercial paper") at market interest rates with any additional borrowings under LIBOR loans. Effective July 22, 2011, the line of credit was amended to reduce the interest rate on LIBOR loans from LIBOR plus 175 basis points to LIBOR plus 75 basis points. At December 31, 2011, outstanding borrowings were \$37 million in LIBOR loans at an interest rate of 1.0%. At December 31, 2010, outstanding borrowings were \$5 million of commercial paper at an average interest rate of 1.4%.

The Company's line of credit includes a financial covenant that specifies a minimum level of net worth. As of December 31, 2011, the Company was in compliance with the covenant.

#### 11. CONTINGENT CONSIDERATION

Contingent consideration is comprised of two contingent payments that the Company is obligated to pay the former shareholders of Bogs after two and five years following the Bogs acquisition date. The contingent consideration is formula-driven and is based on Bogs achieving certain levels of gross margin dollars between January 1, 2011 and December 31, 2015. At the acquisition date, the Company recorded its estimated fair value of the contingent payments of \$9.8 million within other long-term liabilities in the Consolidated Balance Sheets. In accordance with ASC 805, the Company remeasures its estimate of the fair value of the contingent payments at each reporting date. The Company estimated the fair value was \$9.7 million as of December 31, 2011. The change in fair value was recognized in earnings. The fair value measurement is based on significant inputs not observed in the market and thus represents a level 3 valuation as defined by ASC 820. For further level information, see Note 4.

There are no restrictions as to the amount of contingent consideration that could become payable under the arrangement. As of December 31, 2011, management estimates that the range of potential payments is \$5 million to \$14 million in aggregate.

#### 12. EMPLOYEE RETIREMENT PLANS

The Company has a defined benefit pension plan covering substantially all employees, as well as an unfunded supplemental pension plan for key executives. Retirement benefits are provided based on employees' years of credited service and average earnings or stated amounts for years of service. Normal retirement age is 65 with provisions for earlier retirement. The plan also has provisions for disability and death benefits. The Company's funding policy for the defined benefit pension plan is to make contributions to the plan such that all employees' benefits will be fully provided by the time they retire. Plan assets are stated at market value and consist primarily of equity securities and fixed income securities, mainly U.S. government and corporate obligations.

The Company follows ASC 715, *Compensation — Retirement Benefits* ("ASC 715") which requires employers to recognize the funded status of defined benefit pension and other postretirement benefit plans as an asset or liability in their statements of financial position and to recognize changes in the funded status in the year in which the changes occur as a component of comprehensive income. In addition, ASC 715 requires employers to measure the funded status of their plans as of the date of their year-end statements of financial position. ASC 715 also requires additional disclosures regarding amounts included in accumulated other comprehensive loss.

**WEYCO GROUP, INC.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**Years Ended December 31, 2011, 2010 and 2009**

**12. EMPLOYEE RETIREMENT PLANS – (continued)**

The Company's pension plan's weighted average asset allocation at December 31, 2011 and 2010, by asset category, was as follows:

Asset Category:	<u>Plan Assets at December 31,</u>	
	<u>2011</u>	<u>2010</u>
Equity Securities . . . . .	42%	48%
Fixed Income Securities . . . . .	49%	44%
Other . . . . .	9%	8%
Total . . . . .	<u>100%</u>	<u>100%</u>

The Company has a Retirement Plan Committee, consisting of the Chief Executive Officer, Chief Operating Officer and Chief Financial Officer, to manage the operations and administration of all benefit plans and related trusts. The committee has an investment policy for the pension plan assets that establishes target asset allocation ranges for the above listed asset classes as follows: equity securities: 20% – 80%; fixed income securities: 20% – 80%; and other, principally cash: 0% – 20%. On a semi-annual basis, the committee reviews progress towards achieving the pension plan's performance objectives.

To develop the expected long-term rate of return on assets assumption, the Company considered the historical returns and the future expectations for returns for each asset class, as well as the target asset allocation of the pension portfolio. This resulted in the selection of the 8% long-term rate of return on assets assumption.

Assumptions used in determining the funded status at December 31, 2011 and 2010 were:

	<u>2011</u>	<u>2010</u>
Discount rate . . . . .	4.60%	5.40%
Rate of compensation increase . . . . .	4.50%	4.50%

**WEYCO GROUP, INC.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**Years Ended December 31, 2011, 2010 and 2009**

**12. EMPLOYEE RETIREMENT PLANS – (continued)**

The following is a reconciliation of the change in benefit obligation and plan assets of both the defined benefit pension plan and the unfunded supplemental pension plan for the years ended December 31, 2011 and 2010:

	Defined Benefit Pension Plan		Supplemental Pension Plan	
	2011	2010	2011	2010
	(Dollars in thousands)			
<b><i>Change in projected benefit obligation</i></b>				
Projected benefit obligation, beginning of year . . . . .	<b>\$ 34,407</b>	\$31,958	<b>\$ 10,754</b>	\$ 10,240
Service cost . . . . .	<b>977</b>	998	<b>235</b>	189
Interest cost . . . . .	<b>1,807</b>	1,852	<b>566</b>	597
Actuarial loss (gain) . . . . .	<b>3,776</b>	1,076	<b>2,494</b>	(93)
Benefits paid . . . . .	<b>(1,444)</b>	(1,477)	<b>(179)</b>	(179)
Projected benefit obligation, end of year . . . . .	<b><u>\$ 39,523</u></b>	<u>\$34,407</u>	<b><u>\$ 13,870</u></b>	<u>\$ 10,754</u>
<b><i>Change in plan assets</i></b>				
Fair value of plan assets, beginning of year . . . . .	<b>26,193</b>	23,258	—	—

Contributions . . . . .	<b>1,600</b>	1,500	<b>179</b>	179
Benefits paid . . . . .	<b>(1,444)</b>	(1,477)	<b>(179)</b>	(179)
Fair value of plan assets, end of year . . . . .	<b><u>\$ 26,655</u></b>	<u>\$26,193</u>	<b><u>\$ —</u></b>	<u>\$ —</u>
Funded status of plan . . . . .	<b><u>\$(12,868)</u></b>	<u>\$(8,214)</u>	<b><u>\$(13,870)</u></b>	<u>\$(10,754)</u>
<b><i>Amounts recognized in the consolidated balance sheets consist of:</i></b>				
Accrued liabilities – other . . . . .	<b>\$ —</b>	\$ —	<b>\$ (394)</b>	\$ (396)
Long-term pension liability . . . . .	<b>(12,868)</b>	(8,214)	<b>(13,476)</b>	(10,358)
Net amount recognized . . . . .	<b><u>\$(12,868)</u></b>	<u>\$(8,214)</u>	<b><u>\$(13,870)</u></b>	<u>\$(10,754)</u>
<b><i>Amounts recognized in accumulated other comprehensive loss consist of:</i></b>				
Accumulated loss, net of income tax benefit of \$6,575, \$4,782, \$2,487 and \$1,636, respectively . . . . .	<b>\$ 10,283</b>	\$ 7,480	<b>\$ 3,891</b>	\$ 2,560
Prior service cost, net of income tax benefit of \$1, \$2, \$106 and \$131, respectively . . . . .	<b>2</b>	3	<b>166</b>	204
Net amount recognized . . . . .	<b><u>\$ 10,285</u></b>	<u>\$ 7,483</u>	<b><u>\$ 4,057</u></b>	<u>\$ 2,764</u>

The accumulated benefit obligation for the defined benefit pension plan and the supplemental pension plan was \$35.3 million and \$12.0 million, respectively, at December 31, 2011 and \$31.2 million and \$9.2 million, respectively, at December 31, 2010.

**WEYCO GROUP, INC.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**Years Ended December 31, 2011, 2010 and 2009**

**12. EMPLOYEE RETIREMENT PLANS – (continued)**

Assumptions used in determining net periodic pension cost for the years ended December 31, 2011, 2010 and 2009 were:

	<u>2011</u>	<u>2010</u>	<u>2009</u>
Discount rate . . . . .	<b>5.40%</b>	5.95%	6.20%
Rate of compensation increase . . . . .	<b>4.50%</b>	4.50%	4.50%
Long-term rate of return on plan assets . . . . .	<b>8.00%</b>	8.00%	8.00%

The components of net periodic pension cost for the years ended December 31, 2011, 2010 and 2009, were:

	<u>2011</u>	<u>2010</u>	<u>2009</u>
	(Dollars in thousands)		
Benefits earned during the period . . . . .	<b>\$ 1,212</b>	\$ 1,187	\$ 1,030
Interest cost on projected benefit obligation . . . . .	<b>2,373</b>	2,449	2,140
Expected return on plan assets . . . . .	<b>(2,021)</b>	(1,836)	(1,531)
Net amortization and deferral . . . . .	<b>1,272</b>	1,448	1,347
Net pension expense . . . . .	<b><u>\$ 2,836</u></b>	<b><u>\$ 3,248</u></b>	<b><u>\$ 2,986</u></b>

The Company expects to recognize \$1.8 million of amortization of unrecognized loss and \$64,000 of amortization of prior service cost as components of net periodic benefit cost in 2012, which are included in accumulated other comprehensive loss at December 31, 2011.

It is the Company's intention to satisfy the minimum funding requirements and maintain at least an 80% funding percentage in its defined benefit retirement plan. At this time, the Company expects that any cash contributions necessary to satisfy these requirements would not be material in 2012.

Projected benefit payments for the plans as of December 31, 2011 were estimated as follows:

	<u>Defined Benefit Pension Plan</u>	<u>Supplemental Pension Plan</u>
	(Dollars in thousands)	
2012 . . . . .	\$ 1,694	\$ 394
2013 . . . . .	\$ 1,841	\$ 405
2014 . . . . .	\$ 1,900	\$ 425
2015 . . . . .	\$ 1,955	\$ 435
2016 . . . . .	\$ 2,030	\$ 443
2017 – 2021 . . . . .	\$11,334	\$3,226

**WEYCO GROUP, INC.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**Years Ended December 31, 2011, 2010 and 2009**

**12. EMPLOYEE RETIREMENT PLANS – (continued)**

The following table summarizes the fair value of the Company's pension plan assets as of December 31, 2011 by asset category within the fair value hierarchy (for further level information, see Note 4):

(1) This category represents trust receivables that are not leveled.

The Company also has a defined contribution plan covering substantially all employees. The Company contributed approximately \$212,000 in 2011 and approximately \$200,000 in each of the years 2010 and 2009.

**WEYCO GROUP, INC.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**Years Ended December 31, 2011, 2010 and 2009**

**13. INCOME TAXES**

The provision for income taxes included the following components at December 31, 2011, 2010 and 2009:

	<u>2011</u>	<u>2010</u>	<u>2009</u>
	(Dollars in thousands)		
Current:			
Federal . . . . .	<b>\$5,483</b>	\$5,228	\$5,313
State . . . . .	<b>951</b>	1,020	946
Foreign . . . . .	<b>2,490</b>	420	699
Total . . . . .	<b>8,924</b>	6,668	6,958
Deferred . . . . .	<b>(343)</b>	503	(18)
Total provision . . . . .	<b><u>\$8,581</u></b>	<b><u>\$7,171</u></b>	<b><u>\$6,940</u></b>

The differences between the U.S. federal statutory income tax rate and the Company's effective tax rate were as follows for the years ended December 31, 2011, 2010 and 2009:

	<u>2011</u>	<u>2010</u>	<u>2009</u>
U.S. federal statutory income tax rate . . . . .	<b>35.0%</b>	35.0%	35.0%
State income taxes, net of federal tax benefit . . . . .	<b>2.5</b>	3.1	3.1
Non-taxable municipal bond interest . . . . .	<b>(2.7)</b>	(3.2)	(3.1)
Other . . . . .	<b>(0.5)</b>	(1.2)	(0.3)
Effective tax rate . . . . .	<b><u>34.3%</u></b>	<b><u>33.7%</u></b>	<b><u>34.7%</u></b>

The foreign component of pretax net earnings was \$5.3 million, \$3.8 million and \$2.3 million for 2011, 2010 and 2009, respectively. As of December 31, 2011, the total amount of unremitted foreign earnings was \$4.1 million. The repatriation of foreign earnings would not have a material impact on the Company's financial statements.

The components of deferred taxes as of December 31, 2011 and 2010, were as follows:

	<u>2011</u>	<u>2010</u>
	(Dollars in thousands)	
Deferred tax benefits:		
Accounts receivable reserves . . . . .	<b>\$ 507</b>	\$ 387

	<b><u>(8,839)</u></b>	<u>(8,360)</u>
Net deferred income tax benefits . . . . .	<b><u>\$ 3,823</u></b>	<b><u>\$ 862</u></b>

**WEYCO GROUP, INC.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**Years Ended December 31, 2011, 2010 and 2009**

**13. INCOME TAXES – (continued)**

The net deferred tax benefit is classified in the Consolidated Balance Sheets as follows:

	2011	2010
	(Dollars in thousands)	
Current deferred income tax benefits (liabilities) . . . . .	\$ 395	\$ (228)
Noncurrent deferred income tax benefits . . . . .	<u>3,428</u>	<u>1,090</u>
	<u><u>\$3,823</u></u>	<u><u>\$ 862</u></u>

**Uncertain Tax Positions**

The Company accounts for its uncertain tax positions in accordance with ASC 740, *Income Taxes* (“ASC 740”). ASC 740 provides that the tax effects from an uncertain tax position can be recognized in the Company’s consolidated financial statements only if the position is more likely than not of being sustained on audit, based on the technical merits of the position.

The following table summarizes the activity related to the Company’s unrecognized tax benefits:

(Dollars in thousands)	
<b>Balance at December 31, 2008</b> . . . . .	\$ 375
Increases related to current year tax positions . . . . .	92
Expiration of the statute of limitations for the assessment of taxes . . . . .	<u>(18)</u>
<b>Balance at December 31, 2009</b> . . . . .	\$ 449
Increases related to current year tax positions . . . . .	9
Expiration of the statute of limitations for the assessment of taxes . . . . .	<u>(23)</u>
Favorable settlements of tax positions . . . . .	<u>(351)</u>
<b>Balance at December 31, 2010</b> . . . . .	\$ 84
Expiration of the statute of limitations for the assessment of taxes . . . . .	<u>(84)</u>
<b>Balance at December 31, 2011</b> . . . . .	\$ —

The Company had no unrecognized tax benefits as of December 31, 2011. At December 31, 2010, the Company had unrecognized tax benefits of \$84,000 which, if recognized, would reduce the Company’s annual effective tax rate. The Company reduced its accrual for potential interest and penalties related to those unrecognized tax benefits by \$57,000 during 2010. Included in the Consolidated Balance Sheet at December 31, 2010 was a liability for potential penalties and interest of \$7,000 and \$7,000, respectively.

The Company files a U.S. federal income tax return, various U.S. state income tax returns and several foreign returns. In general, the 2007 through 2011 tax years remain subject to examination by those taxing authorities.

**14. COMMITMENTS**

The Company operates retail shoe stores under both short-term and long-term leases. Leases provide for a minimum rental plus percentage rentals based upon sales in excess of a specified amount. The Company also leases office space and its distribution facilities in Canada and overseas. Total minimum rents were \$8.3 million in 2011, \$8.4 million in 2010, and \$7.4 million in 2009. Percentage rentals were \$1.2 million in 2011, \$483,000 in 2010 and \$156,000 in 2009.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**Years Ended December 31, 2011, 2010 and 2009**

**14. COMMITMENTS – (continued)**

Future fixed and minimum rental commitments required under operating leases that have initial or remaining non-cancelable lease terms in excess of one year as of December 31, 2011, are shown below. Renewal options exist for many long-term leases.

<u>(Dollars in thousands)</u>	<u>Operating Leases</u>
2012 .....	\$ 8,233
2013 .....	8,114
2014 .....	7,597
2015 .....	5,586
2016 .....	4,364
Thereafter .....	<u>11,506</u>
Total .....	<u>\$45,400</u>

At December 31, 2011, the Company also had purchase commitments of approximately \$50.8 million to purchase inventory, all of which were due in less than one year.

**15. STOCK REPURCHASE PROGRAM**

In April 1998, the Company's Board of Directors first authorized a stock repurchase program to purchase shares of its common stock in open market transactions at prevailing prices. In 2011, the Company purchased 175,606 shares at a total cost of \$4.0 million through its stock repurchase program and 400,319 shares at a total cost of \$9.0 million in a private transaction. In 2010, the Company purchased 101,192 shares at a total cost of \$2.3 million through its stock repurchase program. In 2009, the Company purchased 117,837 shares at a total cost of \$2.6 million through its stock repurchase program. At December 31, 2011, the Company was authorized to purchase an additional 1.1 million shares under the program.

**16. EARNINGS PER SHARE**

The following table sets forth the computations of basic and diluted earnings per share for the years ended December 31, 2011, 2010 and 2009:

	<u>2011</u>	<u>2010</u>	<u>2009</u>
	(In thousands, except per share amounts)		
Numerator:			
Net earnings attributable to Weyco Group, Inc. . .	<u>\$15,251</u>	<u>\$13,668</u>	<u>\$12,821</u>
Denominator:			
Basic weighted average shares outstanding . . . .	<u>11,066</u>	11,293	11,266
Effect of dilutive securities:			
Employee stock-based awards . . . . .	<u>93</u>	<u>200</u>	<u>244</u>
Diluted weighted average shares outstanding . . .	<u>11,159</u>	<u>11,493</u>	<u>11,510</u>
Basic earnings per share. . . . .	<u>\$ 1.38</u>	<u>\$ 1.21</u>	<u>\$ 1.14</u>
Diluted earnings per share. . . . .	<u>\$ 1.37</u>	<u>\$ 1.19</u>	<u>\$ 1.11</u>

Diluted weighted average shares outstanding in 2011 exclude anti-dilutive unvested restricted stock and outstanding stock options totaling 834,100 shares at a weighted average price of \$24.83. Diluted weighted average shares outstanding in 2010 exclude anti-dilutive unvested restricted stock and outstanding stock options totaling 474,100 shares at a weighted average price of \$26.84. Diluted weighted average shares outstanding in 2009 exclude anti-dilutive unvested restricted stock and outstanding stock options totaling 244,850 shares at a weighted average price of \$29.16.

**WEYCO GROUP, INC.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**Years Ended December 31, 2011, 2010 and 2009**

**17. SEGMENT INFORMATION**

The Company has two reportable segments: North American wholesale operations (“wholesale”) and North American retail operations (“retail”). The chief operating decision maker, the Company’s Chief Executive Officer, evaluates the performance of its segments based on earnings from operations and accordingly, interest income or expense, other income or expense, and income taxes are not allocated to the segments. The “other” category in the table below includes the Company’s wholesale and retail operations in Australia, South Africa, Asia Pacific and Europe, which do not meet the criteria for separate reportable segment classification.

In the wholesale segment, shoes are marketed through more than 10,000 footwear, department and specialty stores, primarily in the United States and Canada. Licensing revenues are also included in the Company’s wholesale segment. As of December 31, 2011, the Company had licensing agreements with third parties who sell its branded apparel, accessories and specialty footwear in the United States, as well as its footwear in Canada, Mexico and certain markets overseas. In 2011, there was no single customer with sales above 10% of the Company’s total sales. In 2010 and 2009, sales to the Company’s largest customer were 12% and 13%, respectively, of total sales.

In the retail segment, the Company operated 30 Company-owned stores in principal cities in the United States and an Internet business as of December 31, 2011. Sales in retail outlets are made directly to the consumer by Company employees. In addition to the sale of the Company’s brands of footwear in these retail outlets, other branded footwear and accessories are also sold in order to provide the consumer with as complete a selection as practically possible.

The accounting policies of the segments are the same as those described in the Summary of Significant Accounting Policies. Summarized segment data for the years ended December 31, 2011, 2010 and 2009 was as follows:

	<u>Wholesale</u>	<u>Retail</u>	<u>Other</u>	<u>Total</u>
	(Dollars in thousands)			
<b>2011</b>				
Product sales . . . . .	\$195,638	\$24,740	\$47,273	\$267,651

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**Years Ended December 31, 2011, 2010 and 2009**

**17. SEGMENT INFORMATION – (continued)**

*Geographic Segments*

Financial information relating to the Company's business by geographic area was as follows for the years ended December 31, 2011, 2010 and 2009:

	2011	2010	2009
	(Dollars in thousands)		
<b><u>Net Sales:</u></b>			
United States . . . . .	\$212,779	\$179,129	\$182,861
Canada . . . . .	11,049	9,361	7,845
Europe . . . . .	8,014	8,008	7,338
Australia . . . . .	25,049	20,073	16,735
Asia . . . . .	8,277	7,432	6,019
South Africa . . . . .	5,932	5,228	4,507
Total . . . . .	\$271,100	\$229,231	\$225,305
<b><u>Long-Lived Assets:</u></b>			
United States . . . . .	\$ 75,293	\$ 34,334	\$ 34,694
Other . . . . .	5,116	4,089	3,046
	\$ 80,409	\$ 38,423	\$ 37,740

Net sales attributed to geographic locations are based on the location of the assets producing the sales. Long-lived assets by geographic location consist of property, plant and equipment (net), goodwill, trademarks and amortizable intangible assets.

**18. STOCK-BASED COMPENSATION PLANS**

At December 31, 2011, the Company has three stock-based compensation plans: the 1997 Stock Option Plan, the 2005 Equity Incentive Plan and the 2011 Incentive Plan (collectively, "the Plans"). Under the Plans, options to purchase common stock were granted to officers and key employees at exercise prices not less than the fair market value of the Company's common stock on the date of the grant. The Company issues new common stock to satisfy stock option exercises and the issuance of restricted stock awards.

Stock options and restricted stock awards were granted on December 1, 2011, 2010 and 2009. Under the 2011 Incentive Plan, stock options and restricted stock awards are valued at fair market value based on the Company's closing stock price on the date of grant. Under all former plans, stock options were valued at fair market value based on the average of the Company's high and low trade prices on the date of grant. The stock options and restricted stock awards granted in 2011, 2010 and 2009 vest ratably over four years. Stock options granted under the 2011 Incentive Plan expire six years from the date of grant. Stock options granted under the 2005 Equity Incentive Plan expire five years from the date of grant. Stock options granted prior to 2006 expire ten years from the grant date, with the exception of certain incentive stock options, which expired five years from the date of grant. As of December 31, 2011, there were 745,000 shares remaining available for stock-based awards under the 2011 Incentive Plan.

The Company expenses stock-based compensation in accordance with ASC 718 using the modified prospective method.

The Company's policy is to estimate the fair market value of each option award granted on the date of grant using the Black-Scholes option pricing model that uses the assumptions noted in the table below. The Company estimates the fair value of each restricted stock award based on the fair

**WEYCO GROUP, INC.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**Years Ended December 31, 2011, 2010 and 2009**

**18. STOCK-BASED COMPENSATION PLANS – (continued)**

market value of the Company's stock price on the grant date. The resulting compensation cost for both the options and restricted stock is amortized on a straight-line basis over the vesting period of the respective awards.

In accordance with ASC 718, stock-based compensation expense was recognized in the 2011, 2010 and 2009 consolidated financial statements for stock options and restricted stock awards granted since 2006. An estimate of forfeitures, based on historical data, was included in the calculation of stock-based compensation, and the estimate was adjusted quarterly to the extent that actual forfeitures differ, or are expected to materially differ, from such estimates. The effect of applying the expense recognition provisions of ASC 718 in 2011, 2010 and 2009 decreased Earnings Before Provision For Income Taxes by approximately \$1,224,000, \$1,128,000 and \$877,000, respectively.

As of December 31, 2011, there was \$2.1 million of total unrecognized compensation cost related to non-vested stock options granted in the years 2008 through 2011 which is expected to be recognized over the weighted-average remaining vesting period of 3.1 years. As of December 31, 2011, there was \$904,000 of total unrecognized compensation cost related to non-vested restricted stock awards granted in the years 2008 through 2011 which is expected to be recognized over the weighted-average remaining vesting period of 3.0 years.

The following weighted-average assumptions were used to determine compensation expense related to stock options in 2011, 2010 and 2009:

	<u>2011</u>	<u>2010</u>	<u>2009</u>
Risk-free interest rate . . . . .	<b>0.66%</b>	1.00%	1.35%
Expected dividend yield . . . . .	<b>2.65%</b>	2.56%	2.61%
Expected term . . . . .	<b>4.3 years</b>	3.5 years	3.5 years
Expected volatility . . . . .	<b>29.6%</b>	33.0%	33.3%

The risk-free interest rate is based on U. S. Treasury bonds with a remaining term equal to the expected term of the award. The expected dividend yield is based on the Company's expected annual dividend as a percentage of the market value of the Company's common stock in the year of grant. The expected term of the stock options is determined using historical experience. The expected volatility is based upon historical stock prices over the most recent period equal to the expected term of the award.

The following tables summarize stock option activity under the Company's plans:

**Stock Options**

<b>Non-vested – December 31, 2010</b> . . . . .	35,448	\$24.79
Issued . . . . .	19,300	24.21
Vested . . . . .	(16,748)	25.91
Forfeited . . . . .	—	—
<b>Non-vested – December 31, 2011</b> . . . . .	<b><u>38,000</u></b>	<b><u>\$24.47</u></b>

At December 31, 2011, the Company expected 38,000 of shares of restricted stock to vest over a weighted-average remaining contractual term of 3.3 years. These shares had an aggregate intrinsic value of \$933,000 at December 31, 2011. The aggregate intrinsic value was calculated using the market value of the Company's stock on December 30, 2011, the last trading day of the year, of \$24.55 multiplied by the number of non-vested restricted shares outstanding. The income tax benefit from the vesting of restricted stock for the years ended December 31 was \$158,000 in 2011, \$214,000 in 2010 and \$173,000 in 2009.

## **ITEM 9A CONTROLS AND PROCEDURES**

### ***Evaluation of Disclosure Controls and Procedures***

The Company maintains disclosure controls and procedures designed to ensure that the information the Company must disclose in its filings with the Securities and Exchange Commission is recorded, processed, summarized and reported on a timely basis. The Company's Chief Executive Officer and Chief Financial Officer have reviewed and evaluated the Company's disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), as of the end of the period covered by this report (the "Evaluation Date"). Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Act is accumulated and communicated to the issuer's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosures. Based on such evaluation, such officers have concluded that, as of the Evaluation Date, the Company's disclosure controls and procedures are effective in bringing to their attention on a timely basis information relating to the Company required to be included in the Company's periodic filings under the Exchange Act.

### ***Management's Report on Internal Control over Financial Reporting***

The report of management required under this Item 9A is contained in Item 8 of Part II of this Annual Report on Form 10-K under the heading "Management's Report on Internal Control over Financial Reporting."

### ***Report of Independent Registered Public Accounting Firm***

The attestation report required under this Item 9A is contained in Item 8 of Part II of this Annual Report on Form 10-K under the heading "Report of Independent Registered Public Accounting Firm."

### ***Changes in Internal Control Over Financial Reporting***

On March 2, 2011, the Company acquired 100% of the outstanding shares of Bogs. By the end of the second quarter 2011, the Company had substantially completed its integration activities to incorporate its existing controls and procedures into this recently acquired business. During the integration process, management evaluated whether the Company's existing controls needed to be augmented to address new risks associated with this acquisition. Once fully integrated, management determined that no significant changes needed to be made to the Company's controls as a result of the acquisition.

There were no changes in the Company's internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) that occurred during the quarter or year ended December 31, 2011 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

## **ITEM 9B OTHER INFORMATION**

None.

### **PART III**

#### **ITEM 10 DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE**

CERTIFICATION

I, Thomas W. Florsheim, Jr., certify that:

1. I have reviewed this annual report on Form 10-K of Weyco Group, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
  - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
