2012 ANNUAL REPORT

Central Garden & Pet Company is a leading innovator, marketer and producer of quality branded products for consumer and professional use in the lawn and garden and pet supplies markets.

TO OUR SHAREHOLDERS

William E. Brown
CHAIRMAN OF THE BOARD AND
CHIEF EXECUTIVE OFFICER

"In fiscal 2013 and beyond, we will be focused on consistently meeting our customers' needs while driving strong, sustainable operational and financial performance."

Fiscal 2012 was a transitional year for Central in many ways. In my letter to you a year ago, I outlined our plans for the year to transform Central from a portfolio of separately run "siloes" businesses into an integrated, multi-brand packaged goods company. Simply stated, our goal was to put Central back on a path to sustained growth and profitability for shareholders and to make it easier for our customers to work with us.

I am pleased to say that, in the past year, we have progressed toward these goals. We are eliminating redundant costs and pursuing a plan to achieve significantly more cost savings over the next few years. We are transforming our supply chain and

creating strong shared services and marketing organizations that didn't previously exist.

In 2012, we consolidated operations in key locations, reducing the number of manufacturing and distribution facilities by five. We have gone from 26 separate IT systems several years ago to seven today. This effort is giving us unprecedented visibility into our operations, allowing stronger analysis at the brand and SKU level, enabling us to make better pricing decisions and better match our costs and revenues. We are pushing to instill operational excellence in all we do.

Central partners with retailers to best demonstrate the value proposition of the company's products for consumers.

In the sales and marketing area, we have consolidated our efforts by category and channel, as our company increasingly moves towards operating with one face to our customers. A top priority for 2013 is ensuring we are

"We also made great strides during the year in building and promoting our new "Master Brands" strategy."

Marketing activities leverage all media to achieve maximum impact.

consistently meeting customers' needs and providing them the excellent service they deserve and expect.

We also made significant strides during the year in building and promoting our new "Master Brands" strategy. We have hired many new marketing professionals who are overseeing new advertising campaigns, in-store promotions and digital marketing and public relations strategies to drive revenue growth. Feedback from our customers has been very positive.

Additionally, a key focus area for 2013 is to continue to improve manufacturing and distribution efficiency through implementing more standardized procedures and processes across the organization. These will enable improved cycle times, better reliability, less waste and lower inventory levels. We are also instilling a wide range of new performance metrics across our operations which will enable our employees to have clearer targets and enhanced tracking of their performance. We already are benefiting from a much-improved level of discipline throughout the entire organization as these initiatives progress.

Our financial performance during 2012 reflected our focus on longer-term initiatives. Revenues grew 4%, while earnings and operating income declined compared with last year as we continued to incur near-term costs from investments in our

The company's transformation undertaken this year is intended to develop centers of excellence and consolidate underutilized facilities.

transformation efforts. We expect savings from our cost-cutting initiatives to bring better profitability in the years ahead.

Continued innovation will, of course, be important to our future success – and our customers regularly tell us that this is something they require to differentiate their businesses and drive their success. In the past two years, we have introduced many new products, and we will continue to make investment in innovation a priority. Some of our recent successes include Smart Seed, which requires up to 30% less water, and our flea and tick line utilizing a novel new applicator. New for 2013 is our Nutri Dent Complete line of dental chews for healthy hygiene for pets. New Pennington and Amdro products, utilizing unique application techniques, are also being introduced in fiscal 2013, and they have already been very well received by our customers. We expect all of these innovations to be important contributors to improved performance in the future. We look forward to keeping you informed of the next generation of products and innovations that are now in our labs and on our drawing boards.

In fiscal 2013 and beyond, we will be focused on consistently meeting our customers' needs while driving stronger, more sustainable operational and financial performance. While we still have a lot more work to do, we are a different company than we were a year ago. With our strong brands, we expect to achieve more consistent revenue growth, more reliably predictable operating margins and significantly improved profitability. Ultimately, our long-term goal for Central is to consistently achieve 10%

Activities from our transformation are intended to improve cycle times, increase reliability, and eliminate waste.

The entire organization is moving towards becoming a metric-driven operation utilizing standardized processes & procedures.

New proprietary delivery systems which enable easier application and storage.

“Continued innovation will, of course, be an important key to our future success – and our customers regularly tell us that this is something they require to differentiate their businesses and drive their success.”

The award-winning Smartshield applicator for topical flea & tick products was a big success in 2012.

annualized sales growth and an operating margin above 10%. While it will take us a number of years to reach these benchmarks, I’m confident that we are aggressively laying the groundwork to achieve our goals.

Our employees are working hard to drive success, and I am confident that these efforts will soon begin translating into better results for you, our valued shareholders. As always, we recognize that empowering good talent and exceeding the expectations of our customers is vital. I want to thank our 3,600 employees who have worked so hard on the transformation over the last year. I couldn’t be more proud of them. And to our customers, I also want to say thank you. They have been

a constant source of valuable feedback and ideas as we have managed through this transition. I am most appreciative.

Finally, I want to thank you, our shareholders, for your continued support. We know the last few years have been challenging, but I firmly believe that Central is focused on the right things and better positioned than ever to achieve its potential.

Sincerely,

William E. Brown
CHAIRMAN OF THE BOARD
AND CHIEF EXECUTIVE OFFICER

FORWARD-LOOKING STATEMENTS

This Form 10-K includes “forward-looking statements.” Forward-looking statements include statements concerning our plans, objectives, goals, strategies, future events, future revenues or performance, our transformational efforts, capital expenditures, plans or intentions relating to acquisitions, our competitive strengths and weaknesses, our business strategy, our ability to pass through grain and other raw material price increases and the trends we anticipate in the industries and economies in which we operate and other information that is not historical information. When used in this Form 10-K, the words “estimates,” “expects,” “anticipates,” “projects,” “plans,” “intends,” “believes” and variations of such words or similar expressions are intended to identify forward-looking statements. All forward-looking statements, including, without limitation, our examination of historical operating trends, are based upon our current expectations and various assumptions. Our expectations, beliefs and projections are expressed in good faith, and we believe there is a reasonable basis for them, but we cannot assure you that our expectations, beliefs and projections will be realized.

There are a number of risks and uncertainties that could cause our actual results to differ materially from the forward-looking statements contained in this Form 10-K. Important factors that could cause our actual results to differ materially from the forward-looking statements we make in this Form 10-K are set forth in this Form 10-K, including the factors described in the section entitled “Item 1A – Risk Factors.” If any of these risks or uncertainties materialize, or if any of our underlying assumptions are incorrect, our actual results may differ significantly from the results that we express in or imply by any of our forward-looking statements. We do not undertake any obligation to revise these forward-looking statements to reflect future events or circumstances. Presently known risk factors include, but are not limited to, the following factors:

- the success of our transformational change initiatives;
- disruptions in our business as we implement our transformational change initiatives and the resulting consequences to our business and results of operations;
- increased costs and expenses associated with our transformational change initiatives;
- seasonality and fluctuations in our operating results and cash flow;
- fluctuations in market prices for seeds and grains and other raw materials;
- our ability to pass through cost increases in a timely manner;
- declines in consumer spending during economic downturns;
- inflation, deflation and other adverse macro-economic conditions;
- supply shortages in small animals and pet birds;
- adverse weather conditions;
- fluctuations in energy prices, fuel and related petrochemical costs;
- access to and cost of additional capital;
- dependence on a small number of customers for a significant portion of our business;
- consolidation trends in the retail industry;
- uncertainty about new product innovations and marketing programs;
- competition in our industries;
- risks associated with our acquisition strategy;
- dependence upon our key executives;

- implementation of a new enterprise resource planning information technology system;
- our ability to protect our intellectual property rights;
- potential environmental liabilities;
- risk associated with international sourcing;
- litigation and product liability claims;
- regulatory issues;
- the impact of product recalls;
- potential costs and risks associated with actual or anticipated cyber attacks;
- the voting power associated with our Class B stock; and
- potential dilution from issuance of authorized shares.

MARKET, RANKING AND OTHER DATA

The data included in this Form 10-K regarding markets and ranking, including the size of certain markets and our position and the position of our competitors and products within these markets, are based on both independent industry publications, including Packaged Facts, Lawn & Garden Products in the U.S. 2012; Mintel, Marketing to Pet Owners – U.S., 2012; Packaged Facts, U.S. Pet Marketing Outlook, 2012-2013; American Pet Products Association (APPA) National Pet Owners Survey 2011-2012; U.S. Census Bureau and our estimates based on management's knowledge and experience in the markets in which we operate. Our estimates have been based on information provided by customers, suppliers, trade and business organizations and other contacts in the markets in which we operate. We believe these estimates to be accurate as of the date of this Form 10-K. However, this information may prove to be inaccurate because of the method by which we obtained some of the data for our estimates or because this information cannot always be verified with complete certainty due to the limits on the availability and reliability of raw data, the voluntary nature of the data gathering process and other limitations and uncertainties inherent in a survey of market size. As a result, you should be aware that market, ranking and other similar data included in this Form 10-K, and estimates and beliefs based on that data, may not be reliable.

PART I

Item 1. Business

BUSINESS

Our Company

Central Garden & Pet Company (“Central”) is a leading innovator, marketer and producer of quality branded products. We are one of the largest suppliers in the pet and lawn and garden supplies industries in the United States. The total pet food and supplies industry is estimated to be approximately \$30 billion in annual retail sales. We estimate the annual retail sales of the pet supplies and super premium pet food markets in the categories in which we participate to be approximately \$15 billion. The total lawn and garden industry in the United States, which includes equipment, supplies and services, is estimated to be approximately \$21 billion in annual retail sales. We estimate the annual retail sales of the lawn and garden supplies markets in the categories in which we participate to be approximately \$6 billion. In addition, we participate in the pottery and seasonal décor markets.

Our pet supplies products include products for dogs and cats, including edible bones, premium healthy edible and non-edible chews, super premium dog and cat food and treats, toys, pet carriers, grooming supplies and other accessories; products for birds, small animals and specialty pets, including food, cages and habitats, toys, chews and related accessories; animal and household health and insect control products; products for fish, reptiles and other aquarium-based pets, including aquariums, furniture and lighting fixtures, pumps, filters, water conditioners, food and supplements, and information and knowledge resources; and products for horses and livestock. These products are sold under a number of brand names including Adams™, Altosid, Aqueon®, Avoderm®, BioSpot®, Coralife®, Farnam®, Four Paws®, Interpet, Kaytee®, Kent Marine®, Nylabone®, Oceanic Systems®, Pet Select®, Pre-Strike®, Pinnacle®, Super Pet®, TFH™, Zilla® and Zodiac®.

Our lawn and garden supplies products include proprietary and non-proprietary grass seed; wild bird feed, bird feeders, bird houses and other birding accessories; weed, grass, ant and other herbicide, insecticide and pesticide products; and decorative outdoor lifestyle and lighting products including pottery, trellises and other wood products and holiday lighting. These products are sold under a number of brand names including AMDRO®, GKI/Bethlehem Lighting®, Grant’s®, Ironite®, Lilly Miller®, Matthews Four Seasons™, New England Pottery®, Norcal Pottery®, Pennington®, Over-N-Out®, Sevin®, Smart Seed® and The Rebels®.

In fiscal 2012, our consolidated net sales were \$1.7 billion, of which our Pet segment, or Pet, accounted for approximately \$931 million and our lawn and Garden segment, or Garden, accounted for approximately \$769 million. Fiscal 2012 included an extra week compared to fiscal 2011. In fiscal 2012, our income from operations was \$74 million, of which the Pet segment accounted for \$88 million and the Garden segment accounted for \$40 million, before corporate expenses and eliminations of \$54 million. See Note 18 to our consolidated financial statements for financial information about our two operating segments.

We were incorporated in Delaware in June 1992 as the successor to a California corporation that was formed in 1955. Our executive offices are located at 1340 Treat Boulevard, Suite 600, Walnut Creek, California 94597, and our telephone number is (925) 948-4000. Our website is www.central.com. The information on our website is not incorporated by reference in this annual report.

Recent Developments

Fiscal 2012 Operating Performance. Although we experienced increased sales in fiscal 2012, rising input costs, a change in sales mix, operational disruptions and increased costs associated with our transformational change initiatives, and unfavorable weather resulted in increased expenses and continuing pressure on gross margins.

Financial summary:

- Net sales for fiscal 2012 increased \$71.4 million, or 4%, to \$1.7 billion. Our Pet segment increased 9.3%, partially offset by a 1.0% decrease in our Garden segment.
- Gross margin decreased 10 basis points in fiscal 2012 to 30.2%, from 30.3% in 2011.
- Selling, general & administrative expenses increased \$31.0 million, or 7.6%, to \$439.7 million in fiscal 2012, and increased as a percentage of net sales to 25.9% from 25.1%.
- Net earnings for fiscal 2012 were \$21.2 million, or \$0.44 per share on a diluted basis, a decrease of \$7.1 million and \$0.06 per share on a diluted basis, compared to fiscal 2011.
- We generated cash flows from operating activities of approximately \$89.2 million during fiscal 2012, an increase of approximately \$38.2 million from fiscal 2011. Our cash and short term investments at September 29, 2012 were approximately \$71.2 million, compared with \$29.9 million at September 24, 2011.

Repurchase of Company Stock. – During fiscal 2012, we repurchased \$20.9 million of our common stock which consisted of 0.7 million shares of our voting common stock (CENT) at an aggregate cost of approximately \$5.6 million, or approximately \$8.02 per share, and 1.9 million shares of our non-voting Class A common stock (CENTA) at an aggregate cost of approximately \$15.3 million, or approximately \$8.05 per share. During fiscal 2011, our Board of Directors authorized a new \$100 million share repurchase program, under which approximately \$52 million remains available for repurchases in fiscal 2013 and thereafter.

Transformational Change. – In fiscal 2012, we continued the process of transformational change we embarked upon in fiscal 2011, consisting of a comprehensive series of organizational and operational initiatives intended to improve our sales and marketing, profitability and operational effectiveness. We expect to continue these initiatives over the next several years. The strategic objective of these initiatives is to transform the Company from a portfolio of separately run businesses into an integrated, multi-brand company. In connection with this change, we are strengthening our management team, reorganizing operating units, consolidating facilities, eliminating duplicative services, standardizing processes, training employees in new approaches and investing in systems, facilities and people. For example, in fiscal 2011, we began the process of combining our Garden and Pet supply chains as an integrated unit responsible for distribution, transportation, manufacturing, sourcing and sales and operations planning. In fiscal 2012, we began consolidating transactional processing in a newly created centralized shared services center in Boise, Idaho. We are in the process of moving our accounts payable, accounts receivable and order management functions to this centralized service center. During fiscal 2012, we incurred approximately \$12.1 million of additional expense related to transformation activities.

There can be no assurance that we will be able to successfully implement the transformational change initiatives or that we will be able to do so within the anticipated time period. During the process of implementation, we will be making substantial investments in our business and will incur substantial transitional costs, which will adversely affect our operating results until the transformation process is complete.

Fiscal 2013. – Hurricane Sandy negatively impacted our northeastern businesses. While damage was minimal, some of our businesses experienced disruption which will impact our first quarter 2013 results.

Competitive Strengths

We believe we have the following competitive strengths which serve as the foundation of our business strategy:

- *Market Leadership Positions Built on a Strong Brand Portfolio.* We are one of the leaders in the premium branded U.S. pet supplies market and in the U.S. consumer lawn and garden supplies market. We have a diversified portfolio of brands, many of which we believe are among the leading brands in their respective U.S. market categories. The majority of our brands have been marketed and sold for more than 25 years.
- *Innovative New Products.* We have a reputation for introducing innovative and high quality products. We continuously seek to introduce new products at a reasonable cost, both as complementary extensions of existing product lines and as new product categories. We have received 19 industry awards for our new pet products in the last three years, including the American Business Award's Silver Stevie in the consumer products industry for our Adams Smart Shield Applicator in 2012.
- *Strong Relationships with Retailers.* We have developed strong relationships with major and independent retailers through product innovation, premium brand names, broad product offerings, proprietary sales and logistics capabilities and a high level of customer service. Major retailers value the efficiency of dealing with suppliers with national scope and strong brands. These strengths have made us one of the largest pet supplies vendors to PetSmart, PETCO and Wal*Mart and among the largest lawn and garden supplies vendors to Wal*Mart, Home Depot and Lowe's. In 2011, we were named Home Depot's Partner of the Year in the Outdoor Garden Category and the Ace Hardware Lawn & Garden Vendor of the Year, and in 2012, we were named the Wal*Mart Home Division Replenishment Team of the Year. Our ability to service large retailers, to meet their unique needs for packaging and point of sale displays and to offer new innovative products provides us with a competitive advantage. Independent retailers value our high level of customer service and broad array of premium branded products. We are a leading supplier to independent pet supplies retailers in the United States.
- *Favorable Long-Term Industry Characteristics.* The pet and lawn and garden supplies markets in the U.S. have grown and are expected to continue to grow over the long-term due to favorable demographic and leisure trends. The key demographics bolstering our markets are the growth rates in the number of children under 18 and the number of adults over age 55. Households with children tend to own more pets, and adults over 55 are more likely to be "empty nesters" that keep pets as companions and have more disposable income and leisure time available for both pets and garden activities. According to the 2011-2012 APPA National Pet Owners Survey, the number of U.S. pet owners in recent years has reached record highs, with 73 million households, or 62%, owning a pet.
- *Sales and Logistics Networks.* We are a leading supplier to independent specialty retailers for the pet and lawn and garden supplies markets through our sales and logistics networks. We believe our sales and logistics networks give us a significant competitive advantage over other suppliers. These networks provide us with key access to independent pet specialty retail stores and retail lawn and garden customers that require two-step distribution for our branded products facilitating:
 - acquisition and maintenance of premium shelf placement;
 - prompt product replenishment;
 - customization of retailer programs;
 - quick responses to changing customer and retailer preferences;
 - rapid deployment and feedback for new products; and
 - immediate exposure for new internally developed and acquired brands.

We plan to continue to utilize our team of dedicated sales people and our sales and logistics networks to expand sales of our branded products.

- *Experienced and Incentivized Management Team.* Our senior management team has significant experience in the pet and lawn and garden supplies industries. William E. Brown, our Chairman and Chief Executive Officer, has over 30 years of industry experience. Mr. Brown also owns approximately 13% of our outstanding stock. Gus Halas, the President and Chief Executive Officer of the Central Operating Companies, has led successful transformational change initiatives at a number of other companies in a variety of industries.

Business Strategy

Our objective is to increase market share, revenue, cash flow and profitability by enhancing our position as one of the leading companies in the U.S. pet supplies industry and lawn and garden supplies industry. To achieve our objective, we plan to capitalize on our strengths and the favorable industry trends by implementing the following key elements of our business strategy:

- *Continue Transformational Change.* The strategic objective of our transformational change initiatives is to transform our company from a portfolio of separately run businesses into an integrated, multi-brand company, thereby eliminating inefficiencies and unnecessary costs for our business and enabling us to compete more effectively. In connection with this change, we are reorganizing operating units, consolidating facilities, developing a system of shared services and eliminating duplicative services, strengthening our management team, standardizing processes, training employees in new approaches and investing in systems, facilities and people.
- *Build Existing Brands.* With our broad product assortment, strong brand names, strong sell-through and innovative products and packaging, we believe we can further strengthen our relationships with existing retailers to increase shelf space and sales. Under our master branding strategy, we are moving to consolidate certain brands and expand others. We are utilizing some of our strongest brands to drive new products and brand extensions as we did during fiscal 2012 with our Amdro brand which introduced a complete line of insecticides specially designed to combat ants, snails, slugs, roaches and other common insect species that damage landscapes and infest homes. We believe that the strength of our major customers provides us with a solid foundation for future growth. We intend to gain market share in the home centers, mass market, grocery, specialty pet store and independent channels. We intend to add new retailers through marketing and sales personnel dedicated to these channels, as well as our innovative product introductions and packaging. We will continue to focus on using our sales and logistics network to emphasize sales of our higher margin, proprietary brands and to use efficient supply chain capabilities that enable us to provide retailers with high service levels and consistent in-stock positions.
- *Continue New Product and Packaging Innovation.* We will continue to build and leverage the strength of our leading brand names by introducing innovative new products and packaging, extending existing product lines and entering new product categories. Our product strategy seeks to capitalize on fulfilling consumer needs, our strong brand names, established customer relationships and history of product innovation. We have also made investments in our corporate sales and marketing infrastructure in the areas of product development, category management and key account sales support.
- *Improve Margins.* We believe there are opportunities to improve our gross and operating margins through increased sales of our higher margin, innovative branded products, timely price increases and cost reductions and leveraging of our existing infrastructure. Since fiscal 2004, we have continued to consolidate our sales and logistics centers, made capital improvements and consolidated some of our manufacturing facilities to reduce costs and improve manufacturing efficiencies. We are accelerating this effort as part of our new transformational change initiatives. For example, we have reduced the number of sales and logistics warehouses from 34 in 2008 to 29 at the end of fiscal 2012 and expect

further consolidations during fiscal 2013. Although gross margins improved from fiscal 2004 through fiscal 2010, they declined significantly in fiscal 2011 and remained flat in fiscal 2012 as we continued to experience the impact of the rising costs of raw materials and costs associated with our transformational change initiatives. We are working with our key retail partners to implement price increases on our products as we strive to strike the right balance between pricing and our goal to deliver value to the consumer.

- *Pursue Strategic Acquisitions.* We plan to continue to make selected strategic acquisitions of branded product companies that complement our existing brands and product offerings. Management has substantial experience in acquiring branded products companies. By leveraging our marketing, manufacturing and sales and logistics capabilities, we believe we can increase the sales and improve the operating efficiencies of acquired companies. We look for companies with the potential to have the top one or two brands in their respective categories. The characteristics we generally seek when evaluating target companies are strong brand names, high quality and innovative product offerings, an experienced management team and a history of organic earnings growth.
- *Reduce Our Investment In Working Capital.* We believe there are opportunities to reduce our investment in working capital over the long term by focusing on specific balance sheet metrics. In particular, we believe that our supply chain initiatives will enable us to substantially reduce our investment in inventory once they have been fully implemented.

Products – General

The following table indicates each class of similar products which represented more than 10% of our consolidated net sales in the fiscal years presented (in millions).

<u>Category</u>	<u>2012</u>	<u>2011</u>	<u>2010</u>
Pet supplies (excluding wild bird feed)	\$ 847.1	\$ 773.1	\$ 766.5
Garden controls and fertilizer products	281.7	260.0	255.5
Wild bird feed	205.1	197.5	168.9
Other garden supplies	185.7	212.1	196.0
Grass seed	180.4	185.9	136.7
Total	<u>\$1,700.0</u>	<u>\$1,628.6</u>	<u>\$1,523.6</u>

Pet Segment

Overview

We are one of the leading marketers and producers of premium branded pet supplies in the United States. In addition, our Pet segment operates the largest sales and logistics network in the industry strategically supporting its brands. In fiscal 2012, the Pet segment accounted for \$931 million of our consolidated net sales and \$87 million of our consolidated income from operations before corporate expenses and eliminations.

Industry Background

According to the 2011-2012 APPA National Pet Owners Survey, U.S. pet ownership is at its highest level, with 73 million households, or 62%, owning a pet. During the past decade, the number of pet-owning households increased 15%.

The pet industry includes food, supplies, veterinarian care and services and live animals. We operate primarily in the pet supplies segment of the industry. This segment includes: products for dogs and cats, including edible bones, premium healthy edible and non-edible chews, toys, pet carriers, grooming supplies and other accessories; products for birds, small animals and specialty pets, including food,

cages and habitats, toys, chews and related accessories; animal and household health and insect control products; products for fish, reptiles and other aquarium-based pets, including aquariums, furniture and lighting fixtures, pumps, filters, water conditioners and supplements, and information and knowledge resources; and products for horses and livestock. According to Mintel, U.S. retail sales of pet food and supplies in 2017 are expected to total approximately \$35 billion, from approximately \$28 billion in 2010. We also operate in the super premium category of dog and cat food and treats. Mintel estimates the total pet food market to be approximately \$21 billion in 2017. We believe the pet food market is experiencing an upscale thrust, featuring products that are natural, functional and address specific dietary needs of animals, primarily dogs and cats. We estimate the current applicable market opportunity for our high-end, premium and super-premium dog and cat food and treats to be approximately \$4 billion.

We believe this growth is due in significant part to favorable demographic and leisure trends, which we expect to continue, albeit potentially at a slower rate due to recessionary pressures in the broader U.S. economy. The key demographics bolstering the U.S. pet supplies market are the growth rates in the number of children under 18 and the number of adults over age 55. According to 2010 U.S. census data, approximately 40% of the population is 45 years or older. Households with children tend to own more pets, and adults over 55 are more likely to be “empty nesters,” who keep pets as companions and have more disposable income and leisure time available for pets. In addition, many pet supplies products (e.g., dog and cat food, dog chews, bird food, grooming supplies, pest control, etc.) are routinely consumed and replenished.

The U.S. pet supplies market is highly fragmented with approximately 1,400 manufacturers, consisting primarily of small companies with limited product lines. The majority of these manufacturers do not have a captive sales and logistics network and must rely on us or other independent distributors to supply their products to regional pet specialty chains and independent retailers. According to Mintel, pet supplies sales are up 19 percent over the last five years, indicating that this category has been able to weather the recession fairly well.

The pet food and supplies industry retail channel also remains fragmented, with approximately 7,600 independent pet supply stores in the United States and only two national specialty retailers, PetSmart and PETCO. These two “pet superstores” have grown rapidly, and pet products have also become a growing category in mass merchandisers, discounters and grocery outlets. PetSmart and PETCO typically offer the broadest product selection with competitive prices and a growing array of pet services. Mass merchandisers, supermarkets and discounters have historically carried a limited product assortment that features primarily pet food, but we believe these retailers are devoting more shelf space to meet increased consumer demand for premium pet supplies. Independent pet stores typically have a relatively broad product selection and attempt to differentiate themselves by offering premier brands and knowledgeable service.

Proprietary Branded Pet Products

Our principal pet supplies categories are dog & cat, aquatics, bird & small animal food and animal health and nutrition products.

Dog & Cat. We are a leading marketer and producer of premium healthy edible and non-edible chews, super premium dog and cat food, toys, grooming supplies, pet carriers and other accessories, and information and knowledge resources featuring the brands Nylabone, Four Paws, TFH, Pet Select, Interpet, Pet Love and Mikki®. Nylabone has a strong history of developing innovative new products such as the NutriDent® Edible Dental Brush Chews, Toro and Lobo as well as numerous other award winning dog toys. Four Paws products include grooming supplies and toys, and TFH is a leading producer and publisher of pet books and magazines. Breeder’s Choice is regarded by the industry as one of the highest quality developers and manufacturers of super premium natural pet food and treats. Breeder’s Choice brands include Pinnacle®, Avoderm®, Simply Natural® and Active Care®.

Aquatics. We are a leading supplier of aquariums and related fixtures and furniture, water conditioners and supplements, sophisticated lighting systems and accessories featuring the brands Aqueon, Zilla, Oceanic Systems, Kent Marine, Coralife and Blagdon.

Small Animal & Wild Bird Feed. We are a leading marketer and producer of specialty pet food for birds, wild birds and small animals, vitamins and nutritional supplements, bird and small animal cages, habitats, transportation devices, toys and other accessories designed for the small animal marketplace featuring the brands Kaytee, Super Pet, Critter Trail® and Canopy Scientific®. Kaytee is one of the largest producers of specialty bird feed.

Animal Health. We are a leading marketer and producer of flea, tick, mosquito and other insect control products produced by Wellmark International and sold primarily under the Zodiac, Altosid, Pre Strike and Extinguish® brand names. Wellmark is the only domestic producer of (S)-Methoprene, which is an active ingredient to control mosquitoes, fleas, ticks, ants and mites in many professional and consumer insect control applications. We also sell (S)-Methoprene to manufacturers of other insect control products, including Frontline Plus. In addition, through our Farnam operations, we are a leading manufacturer and marketer of innovative health care products for horses, household pets and livestock. Farnam's portfolio of industry leading brands includes the Farnam umbrella brand, Equicare®, ComboCare™, IverCare®, Bronco®, Super Mask® and Repel-X® for horses, D-Worm™, BioSpot® and Scratchex® for household pets, and Adams™ and Bite Free™ insect controls for home and yard care.

Sales Network

Our domestic sales network exists primarily to promote our proprietary brands and provides value-added service to approximately 4,000 independent specialty retail stores for our branded products. This includes acquisition and maintenance of premium shelf placement, prompt product replenishment, customization of retailer programs, quick response to changing customer and retailer preferences, rapid deployment and feedback for new products and immediate exposure for acquired brands. The network also sells many other manufacturers' brands of pet supplies and combines these products with our branded products into single shipments enabling our independent customers to deal with us on a cost effective basis to meet their pet supplies requirements. We also operate one sales and logistics facility in the United Kingdom.

Sales and Marketing

Our sales strategy is multi-tiered and designed to capture maximum market share with retailers. Our customers include retailers, such as regional and national specialty pet stores, independent pet retailers, mass merchants, grocery and drug stores. In addition, we also serve the professional market with insect control and health and wellness products to veterinarians, municipalities, farmers and equine product suppliers. PetSmart accounted for approximately 12% of our Pet segment's net sales in both fiscal 2012 and fiscal 2011, and 11% in fiscal 2010. PETCO is also a significant customer.

To optimize our product placement and visibility in retail stores, our focused sales resources are segmented as follows:

- a sales organization operating by category and channel;
- dedicated account teams servicing our largest customers;
- a group of account managers focused on regional chains;
- a geographic based group of territory managers dedicated to the independent retailer; and
- a specialized group of account managers dedicated to the professional and equine markets.

These sales teams deliver our marketing strategy that is consumer, brand and channel driven. We provide value creation with a focus on innovation, product quality and performance, premium packaging, product positioning and consumer value. To execute with excellence, we collaborate closely with our customers to identify their needs, jointly develop strategies to meet those needs and deliver programs that include print, broadcast, direct mail and digital execution.

Competition

The pet supplies industry is highly competitive and has experienced considerable consolidation in the last five years. Our branded pet products compete against national and regional branded products and private label products produced by various suppliers. Our largest competitors in most product categories are Spectrum Brands and Hartz Mountain. The Pet segment competes primarily on the basis of brand recognition, innovation, upscale packaging, quality and service. Our Pet segment's sales and logistics operations compete with a number of smaller local and regional distributors, with competition based on product selection, price, value-added services and personal relationships.

Garden Segment

Overview

We are a leading company in the consumer lawn and garden market in the United States and offer both premium and value-oriented branded products. We market and produce a broad array of premium brands, including Pennington, The Rebels, AMDRO, Grant's, Lilly Miller, Ironite, Sevin, Over-N-Out, Norcal Pottery, New England Pottery, GKI/Bethlehem Lighting and Matthews Four Seasons. We also produce value brands at lower prices, including numerous private label brands. In addition, our Garden segment operates a sales and logistics network that strategically supports its brands. In fiscal 2012, the Garden segment accounted for \$769 million of our consolidated net sales and \$40 million of our consolidated income from operations before corporate expenses and eliminations.

Industry Background

We believe that gardening is one of the most popular leisure activities in the United States, although in recent years our garden segment has been adversely impacted by the input costs, weather and global recessionary economic environment. Packaged Facts asserts that the economy has brought more homeowners into their yards. The key demographic bolstering our lawn and garden market is the growth rate in the number of adults over age 55, who are more likely to be "empty nesters" and have more disposable income and leisure time available for garden activities. As the baby boom generation ages, this segment is expected to grow faster than the total population. According to 2010 U.S. census data, approximately 40% of the population is 45 years or older. We believe that this demographic should increase the number of lawn and garden product users. With more people gardening in their yards and the potential trends of food gardening and organic gardening, we perceive this market as staying intact and showing slow positive growth. We estimate the retail sales of the lawn and garden supplies industry in the categories in which we participate to be approximately \$6 billion. In addition, we participate in the pottery and seasonal décor markets. We believe that the industry will continue to grow, albeit potentially at a slower rate in the near term due to industry dynamics.

Lawn and garden products are sold to consumers through a number of distribution channels, including home centers, mass merchants, independent nurseries and hardware stores. Home and garden centers and mass merchants often carry one or two premium product lines or brands and one value brand. Due to the rapid expansion and consolidation of mass merchants and home and garden centers in the last 15 years, the concentration of purchasing power for the lawn and garden category has increased dramatically. We expect the growth of home and garden centers, such as Home Depot and Lowe's, and mass merchants, such as Wal*Mart, to continue to concentrate industry distribution.

Proprietary Branded Lawn and Garden Products

Our principal lawn and garden product lines are grass seed, wild bird feed, insect control products, lawn and garden care products, decorative outdoor patio products and Christmas products and lighting. Our Pennington brand is one of the largest in grass seed and wild bird feed, and our Amdro brand is a leading portfolio of fire ant bait products. We are also a leading marketer of indoor and outdoor pottery products through our Norcal Pottery and New England Pottery brands.

Grass Seed. We are a leading marketer and producer of numerous mixtures and blends of cool and warm season turf grass for both the residential and professional markets, as well as forage and wild game seed mixtures. We sell these products under the Pennington Seed, Pennington, Penkoted[®], Max-Q[®], ProSelect[™], Tournament Quality CM, MasterTurf[®], The Rebels and Smart Seed[®] brand names. We also produce numerous private label brands of grass seed. The Pennington grass seed manufacturing facilities are some of the largest and most modern seed conditioning facilities in the industry. In fiscal 2012, Pennington Seed enhanced its Smart Seed[™] and 1-Step Complete[™] in its premium grass seed line with a new proprietary mix of multiple fiber sources, polymers and biostimulants to ensure seeds stay in place, germinate and produce deeper, healthy roots to reinforce the benefits of these premium products. Smart Seed is a drought-tolerant grass seed product that develops strong, deep root systems and requires up to 30% less water compared to ordinary grass seed. 1-Step Complete is a pre-mixed combination of mulch, Smart Seed premium grass seed and fertilizer that grows thicker and requires less water to establish.

Wild Bird Products. We are a leading marketer and producer of wild bird feed, bird feeders, bird houses and other birding accessories in the United States. These products are sold primarily under the Pennington brand name. Our wild bird feed is treated with Bird-Kote[®], a nutritious coating made up of vegetable oil fortified with oil-soluble vitamins and elements needed by wild birds.

Fertilizers and Controls. We are a leading marketer of lawn and garden weed, moss, insect and pest control products and soil supplements and stimulants. We sell these products under the Knockout[®], Strike[®], Lilly Miller, Alaska Fish Fertilizer[®], IMAGE[®], Sevin, Over-N-Out and RooTone[®] brand names and the Eliminator private label for Wal*Mart. We are also a leading marketer of fire ant bait, sold primarily in the southern United States, under the AMDRO brand name. In addition, we market ant baits, animal repellents and garden aid products under the Grant's brand name. We manufacture several lines of lawn and garden fertilizers and soil supplements, in granular and liquid form, under the Pennington, Pro Care, Ironite and other private and controlled labels.

Outdoor & Seasonal Decor. We are a leading marketer of decorative indoor and outdoor pottery products in the United States. We sell these products under the Pennington, Norcal Pottery and New England Pottery brand names which include terra cotta, stoneware, ceramic and porcelain pots. We also market seasonal Christmas products and lighting under the brand name GKI/Bethlehem Lighting and we manufacture a complete line of wooden garden products, including planters, barrel fountains, arbors and trellises that are sold under the Pennington brand name.

Sales Network

Our sales and logistics network exists primarily to promote our proprietary brands and provides us with key access to retail stores for our branded products, acquisition and maintenance of premium shelf placement, prompt product replenishment, customization of retailer programs, quick responses to changing customer and retailer preferences, rapid deployment and feedback for new products, immediate exposure for acquired brands and comprehensive and strategic information. The network also sells other manufacturers' brands of lawn and garden supplies and combines these products with our branded products into single shipments enabling our customers to deal with us on a cost-effective basis to meet their lawn and garden supplies requirements.

Sales and Marketing

The marketing strategy for our premium products is focused on meeting consumer needs through product performance, innovation, quality, upscale packaging and retail shelf placement. The marketing strategy for our value products is focused on promotion of the quality and efficacy of our value brands at a lower cost relative to premium brands. Our customers include retailers, such as mass merchants, home improvement centers, independent lawn and garden nurseries, drug and grocery stores, and professional end users. Sales to Wal*Mart represented approximately 30%, 28% and 31%, sales to Lowe's represented approximately 20%, 24% and 22%, and sales to Home Depot represented approximately 16%, 15% and 18%, of our Garden segment's net sales in fiscal 2012, 2011 and 2010, respectively.

To maximize our product placement and visibility in retail stores, we market our products through the following four complementary strategies:

- dedicated sales forces represent our combined brand groups;
- retail sales and logistics network, which provides in-store training and merchandising for our customers, especially during the prime spring and summer seasons;
- dedicated account-managers and sales teams located near and dedicated to serve several of our largest customers; and
- selected independent distributors who sell our brands.

Our marketing department begins with the voice of the customer, initiates the product development process and develops our consumer and retailer support plans, including broadcast, print, internet advertising and other media.

Competition

The lawn and garden products industry is highly competitive. Our lawn and garden products compete against national and regional products and private label products produced by various suppliers. Our turf and forage grass seed products, fertilizers, pesticides and combination products compete principally against products marketed by The Scotts Miracle-Gro Company ("Scotts"). Scotts' dominant position in the lawn and garden industry is a significant competitive disadvantage for our similar garden products. In addition, Spectrum Brands is a strong competitor in yard and household insecticides. Our Garden segment competes primarily on the basis of its strong premium and value brands, quality, service, price and low cost manufacturing. Our Garden segment's sales and logistics operations also compete with a large number of distributors, with competition based on price, service and personal relationships.

Supply Chain

We operate one integrated supply chain responsible for manufacturing, logistics, purchasing and sales and operations planning for both our Pet and Garden segments.

Manufacturing

Central manufactures the majority of its branded products in 32 manufacturing facilities, located primarily in the United States. In addition, certain of our proprietary branded products are manufactured by contract manufacturers. We have entered into an exclusive arrangement with a third party to manufacture (S)-Methoprene, the active ingredient in our flea and tick control products.

Purchasing

Central purchases most of its raw materials from a number of different suppliers. In addition, we purchase one of the raw materials used to manufacture (S)-Methoprene from a single source of supply. The Company

maintains an inventory of this raw material (in addition to our (S)-Methoprene inventory) to reduce the possibility of any interruption in the availability of (S)-Methoprene, but a prolonged delay in obtaining (S)-Methoprene or this raw material could result in a temporary delay in product shipments and have an adverse effect on Pet Products' financial results.

The key ingredients in our fertilizer and insect and weed control products are commodity and specialty chemicals, including phosphates, urea, potash, herbicides, insecticides and fungicides.

The principal raw materials required for the wild bird feed operations are bulk commodity grains, including millet, milo and sunflower seeds, which are generally purchased from large national commodity companies and local grain cooperatives. In order to ensure an adequate supply of grains and seed to satisfy expected production volume, Central enters into contracts to purchase a portion of its expected grain and seed requirements at future dates by fixing the quantity, and often the price, at the commitment date. Although we have never experienced a severe interruption of supply, we are exposed to price risk with respect to the portion of our supply which is not covered by contracts with a fixed price.

From the fourth quarter of fiscal 2006 to fiscal 2008, prices for some of our key raw material inputs for our bird feed grains increased substantially. In fiscal 2009 and fiscal 2010, grain costs declined due primarily to deflationary pressures impacting the broader economy. During fiscal 2011, prices for some of our key inputs increased substantially. In fiscal 2012, prices continued to increase due in part to drought conditions throughout much of the United States. Our weighted average cost per pound for our primary bird feed grains increased approximately 11% for fiscal year 2012 compared to fiscal 2011. Although we have been able to negotiate some price increases with our retailers, it is possible price increases may not fully offset rising costs in the future, resulting in margin erosion.

Logistics Network

Our distribution network consists of 28 facilities strategically placed across the United States and one facility in the United Kingdom to allow us to service both our mass market customers as well as our independent specialty retail stores for our branded products. This network also supports distribution of many other manufacturers' brands and combines these products with our branded products into single shipments, enabling us to serve our customers in an effective and cost efficient manner.

Significant Customers

Wal*Mart, our largest customer, represented approximately 17%, 16% and 17% of our total company net sales in fiscal 2012, 2011, and 2010, respectively, and represented approximately 30%, 28% and 31% of our Garden segment's net sales in fiscal 2012, 2011 and 2010, respectively. Sales to Home Depot represented approximately 16%, 15% and 18% of our Garden segment's net sales in fiscal 2012, 2011 and 2010, respectively. Sales to Lowe's represented approximately 9%, 12% and 10% of our total company net sales in fiscal 2012, 2011 and 2010, respectively, and represented approximately 20%, 24% and 22% of our Garden segment's net sales in fiscal 2012, 2011 and 2010, respectively. PetSmart represented approximately 12% of our Pet segment's net sales in fiscal 2012 and fiscal 2011, and 11% of our Pet segment's net sales in fiscal 2010. PETCO is also a significant customer.

Patents and Other Proprietary Rights

Our branded products companies hold numerous patents in the United States and in other countries and have several patent applications pending. We consider the development of patents through creative research and the maintenance of an active patent program to be advantageous to our business, but we do not regard the holding of any particular patent as essential to our operations.

In addition to patents, we have numerous active ingredient registrations, end-use product registrations and trade secrets, including certain technology used in the Wellmark operations for the production of (S)-Methoprene, which has been licensed to us from Novartis. This license is perpetual but non-exclusive. In addition, we have developed certain improvements that are proprietary to us relating to the synthesis of (S)-Methoprene. The success of certain portions of our business, especially our Wellmark operations, partly depends on our ability to continue to maintain trade secret information which has been licensed to us, and to keep both licensed and owned trade secret information confidential.

Along with patents, active ingredient registrations, end use product registrations and trade secrets, we own a number of trademarks, service marks, trade names and logotypes. Many of our trademarks are registered but some are not. We are not aware of any reason we cannot continue to use our trademarks, service marks and trade names in the way that we have been using them.

Employees

As of September 29, 2012, we had approximately 3,600 employees of which approximately 3,400 were full-time employees and 200 were temporary or part-time employees. We also hire substantial numbers of additional temporary employees for the peak lawn and garden shipping season of February through June to meet the increased demand experienced during the spring and summer months. The majority of our temporary employees are paid on an hourly basis. None of our employees are represented by a labor union. We consider our relationships with our employees to be good.

Environmental and Regulatory Considerations

Many of the products that we manufacture or distribute are subject to local, state, federal and foreign laws and regulations relating to environmental matters. Such regulations are often complex and are subject to change. In the United States, all pesticides must be registered with the United States Environmental Protection Agency (the "EPA"), in addition to individual state and/or foreign agency registrations, before they can be sold. Fertilizer products are also subject to state Department of Agriculture registration and foreign labeling regulations. Grass seed is also subject to state, federal and foreign labeling regulations.

The Food Quality Protection Act (FQPA), establishes a standard for food-use pesticides, which is a reasonable certainty that no harm will result from the cumulative effect of pesticide exposures. Under this Act, the EPA is evaluating the cumulative risks from dietary and non-dietary exposures to pesticides. The pesticides in our products, which are also used on foods, will be evaluated by the EPA as part of this non-dietary exposure risk assessment.

In addition, the use of certain pesticide and fertilizer products is regulated by various local, state, federal and foreign environmental and public health agencies. These regulations may include requirements that only certified or professional users apply the product or that certain products be used only on certain types of locations (such as "not for use on sod farms or golf courses"), may require users to post notices on properties to which products have been or will be applied, may require notification of individuals in the vicinity that products will be applied in the future or may ban the use of certain ingredients. We believe we are operating in substantial compliance with, or taking action aimed at ensuring compliance with, these laws and regulations.

Various federal, state and local laws, including the federal Food Safety Modernization Act, also regulate pet food products and give regulatory authorities the power to recall or require re-labeling of products. We believe we are in substantial compliance or are taking steps to ensure that we are in compliance with these provisions.

Various local, state, federal and foreign environmental laws also impose obligations on various entities to clean up contaminated properties or to pay for the cost of such remediation, often upon parties that did not actually cause the contamination. Accordingly, we may become liable, either contractually or by operation of

law, for remediation costs even if the contaminated property is not presently owned or operated by us, or if the contamination was caused by third parties during or prior to our ownership or operation of the property. With our extensive acquisition history, we have acquired a number of manufacturing and distribution facilities, and most of these facilities have not been subjected to Phase II environmental tests to determine whether they are contaminated.

Environmental regulations may affect us by restricting the manufacturing or use of our products or regulating their disposal. Regulatory or legislative changes may cause future increases in our operating costs or otherwise affect operations. Although we believe we are and have been in substantial compliance with such regulations and have strict internal guidelines on the handling and disposal of our products, there is no assurance that in the future we may not be adversely affected by such regulations or incur increased operating costs in complying with such regulations. However, neither the compliance with regulatory requirements nor our environmental procedures can ensure that we will not be subject to claims for personal injury, property damages or governmental enforcement.

Executive Officers

The following table sets forth the name, age and position of our executive officers as of November 30, 2012.

<u>Name</u>	<u>Age</u>	<u>Position</u>
William E. Brown	71	Chairman of the Board and Chief Executive Officer
Janet M. Brady	58	Senior Vice President, Human Resources
Gus Halas	61	President and Chief Executive Officer of the Central Operating Companies
Paul Hibbert	43	Senior Vice President, Supply Chain
Steven LaMonte	56	Executive Vice President and President – Garden Segment
Frank Palantoni	58	Executive Vice President and President – Pet Segment
Michael A. Reed	64	Executive Vice President
George Yuhas	60	General Counsel
Lori A. Varlas	50	Senior Vice President, Chief Financial Officer and Secretary

William E. Brown. Mr. Brown has been our Chairman since 1980. Since October 2007, Mr. Brown has also served as our Chief Executive Officer, a position he previously held from 1980 to June 2003. From 1977 to 1980, Mr. Brown was Senior Vice President of the Vivitar Corporation with responsibility for Finance, Operations, and Research & Development. From 1972 to 1977, he was with McKesson Corporation where he was responsible for its 200-site data processing organization. Prior to joining McKesson Corporation, Mr. Brown spent the first 10 years of his business career at McCormick, Inc. in manufacturing, engineering and data processing.

Janet Brady. Ms. Brady has been our Senior Vice President, Human Resources since February 2011. Ms. Brady was an executive at the Clorox Company from 1976 to 2003 and served as its Vice President, Human Resources from 1993 to 2003.

Gus Halas. Mr. Halas has served as President and Chief Executive Officer of the Central Operating Companies since April 2011. Mr. Halas was a consultant to the Company from 2009 until April 2011. From 2003 to 2009, Mr. Halas was Chairman, President and CEO of T3 Energy Services. He previously served as President and Chief Executive Officer of Clore Automotive and Marley Cooling Tower Company and held senior executive positions with a number of other companies including Ingersoll-Dresser Pump Company and Sulzer Industries. Mr. Halas is also a director of Triangle Petroleum Corporation, an energy exploration and production company.

Paul Hibbert. Mr. Hibbert has been Senior Vice President, Supply Chain since October 2011 and for the prior two years served as Vice President, Supply Chain Garden Products. In 2009, Mr. Hibbert served as a supply chain consultant for BioLab, Inc/Chemtura. From 2007 to 2008, Mr. Hibbert was the Vice President Supply Chain for United Industries. From 2003 to 2007, he was the Director of Supply Chain with Biolab, Inc.

Steven LaMonte. Mr. LaMonte has been our Executive Vice President, President – Garden Segment since May 2012. From 2009 to May 2012, Mr. LaMonte served as VP Latin America & Asia Pacific Regions for Johnson & Johnson's McNeil Laboratories division. From 2006 to 2009, Mr. LaMonte was Worldwide Vice President, RX-OTC Switch & Innovation at Johnson & Johnson. Mr. LaMonte previously held numerous leadership positions at Pfizer Consumer Healthcare, Schering-Plough, Nestle Foods and other consumer products companies.

Frank Palantoni. Mr. Palantoni has been our Executive Vice President, President – Pet Segment division since February 2011. From 2006 to 2011, Mr. Palantoni was chief executive officer of P3 Capital Management LLC, an advisory and private equity firm specializing in consumer goods acquisitions and product development. He previously served as president and chief executive officer of Prestige Brands, Inc. and as a senior executive of Novartis Pharmaceuticals AG, Gerber Products Company and Groupe Danone.

Michael A. Reed. Mr. Reed has been Executive Vice President since June 2000 and was President of the Garden Products division from October 2007 to May 2012. Mr. Reed served as President of the Pet Products division from 2003 to 2004. Previously, Mr. Reed served as President and CEO of PM Ag Products, Inc., a wholly owned subsidiary of global agri-business Tate & Lyle, PLC.

George Yuhas. Mr. Yuhas has been our General Counsel since March 2011. He previously served as a partner specializing in litigation at Orrick, Herrington & Sutcliffe LLP since 1984.

Lori A. Varlas. Ms. Varlas has been Senior Vice President, Chief Financial Officer and Secretary since December 2010. From 2006 to 2010, Ms. Varlas served as Vice President Finance at Sun Microsystems. Prior to joining Sun, Ms. Varlas was Vice President of Finance at PeopleSoft and held a variety of senior finance positions from 1998 to 2005. Ms. Varlas also held positions at Chiron Corporation, Specialty Foods and Price Waterhouse.

Available Information

Our web site is www.central.com. We make available free of charge, on or through our web site, our annual, quarterly and current reports, and any amendments to those reports, as soon as reasonably practicable after electronically filing or furnishing such reports with the Securities and Exchange Commission. Information contained on our web site is not part of this report.

Item 1A. Risk Factors.

This Form 10-K contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of factors both in and out of our control, including the risks faced by us described below and elsewhere in this Form 10-K.

You should carefully consider the risks described below. In addition, the risks described below are not the only ones facing us. We have only described the risks we consider to be material. However, there may be additional risks that are viewed by us as not material at the present time or are not presently known to us. Conditions could change in the future, or new information may come to our attention that could impact our assessment of these risks.

If any of the events described below were to occur, our business, prospects, financial condition and/or results of operations could be materially adversely affected. When we say below that something could or will

have a material adverse effect on us, we mean that it could or will have one or more of these effects. In any such case, the price of our common stock could decline, and you could lose all or part of your investment in our company.

We are in the process of implementing a transformational change within our company, which could result in increased expenses over the next few years.

In fiscal 2012, we continued the process of transformational change that we embarked upon in fiscal 2011, consisting of a comprehensive series of organizational and operational initiatives intended to improve our sales and marketing, profitability and operational effectiveness. We expect to continue to implement these initiatives over the next several years. The strategic objective of these initiatives is to transform the Company from a portfolio of separately run businesses into an integrated, multi-brand company. In connection with this change, we are strengthening our management team, reorganizing operating units, consolidating facilities, developing a system of shared services and eliminating duplicative services, standardizing processes, training employees in new approaches and investing in systems, facilities and people.

During fiscal 2012, we closed nine distribution and manufacturing facilities, while opening and upgrading others, leaving us with a net reduction of five facilities for fiscal year 2012. The operational issues associated with the closures, along with other supply issues, resulted in execution disruptions that delayed fulfilling orders for some customers as we transitioned certain operational activities. These disruptions adversely affected our revenues and operating earnings. While we believe we have resolved these particular issues, we may experience other operational issues as we continue to implement our transformational initiatives. These operational issues could have a material adverse effect on our performance and financial results.

During fiscal 2012, we incurred approximately \$12.1 million of costs related to our transformational change initiatives. We anticipate incurring substantial additional costs relating to the transformation in each of the next several years.

There can be no assurance that we will be able to successfully execute the transformational change initiatives or that we will be able to do so within the anticipated time period. During the process of implementation we will be making substantial investments in our business and will incur substantial transitional costs. We anticipate that these investments and transitional costs will adversely affect our operating results until the transformation process is complete.

Our operating results and cash flow are susceptible to fluctuations.

We expect to continue to experience variability in our net sales, net income and cash flow on a quarterly basis. Factors that may contribute to this variability include:

- fluctuations in prices of commodity grains and other input costs;
- seasonality and adverse weather conditions;
- costs or operational problems arising from our transformational change initiatives;
- shifts in demand for lawn and garden and pet products;
- changes in product mix, service levels, marketing and pricing by us and our competitors;
- the effect of acquisitions, including the costs of acquisitions that are not completed; and
- economic stability of and strength of our relationship with retailers.

These fluctuations could negatively impact our business and the market price of our common stock.

Seeds and grains we use to produce bird feed and grass seed are commodity products subject to price volatility that has had, and could have, a negative impact on us.

Our financial results are partially dependent upon the cost of raw materials and our ability to pass along increases in these costs to our customers. In particular, our Pennington and Kaytee businesses are exposed to fluctuations in market prices for commodity seeds and grains used to produce bird feed. Historically, market prices for commodity seeds and grains have fluctuated in response to a number of factors, including changes in United States government farm support programs, changes in international agricultural and trading policies and weather conditions during the growing and harvesting seasons.

To mitigate our exposure to changes in market prices, we enter into purchase contracts for grains, bird feed and grass seed to cover a limited portion of our purchase requirements for a selling season. Since these contracts cover only a portion of our purchase requirements, as market prices for such products increase, our cost of production increases as well. In contrast, if market prices for such products decrease, we may end up purchasing grains and seeds pursuant to the purchase contracts at prices above market.

In fiscal 2011 and fiscal 2012, prices for some of our key crops increased substantially. Our weighted average cost per pound for our primary bird feed grains increased approximately 11% for fiscal year 2012 compared to fiscal 2011. Although we have been able to negotiate some price increases with our retailers, it is possible price increases may not fully offset rising costs in the future, resulting in margin erosion. We can provide no assurance as to the timing or extent of our ability to implement additional price adjustments in the context of rising costs or in the event of increased costs in the future. Similarly, we can provide no assurance of our ability to retain pricing with our retailers in the context of declining costs. We also cannot predict to what extent price increases may negatively affect our sales volume. As retailers pass along price increases, consumers may shift to our lower margin bird feed, switch to competing products or reduce purchases of wild bird feed products.

A decline in consumers' discretionary spending or a change in consumer preferences could reduce our sales and harm our business.

Our sales ultimately depend on consumer discretionary spending, which is influenced by factors beyond our control, including general economic conditions, the availability of discretionary income and credit, weather, consumer confidence and unemployment levels. For fiscal 2009 and 2010, we experienced declines in sales as the result of the economic downturn. Any material decline in the amount of consumer discretionary spending could reduce our sales and harm our business. Since substantially all of our sales are in the United States, a declining U.S. economy may have a greater impact on us than on our competitors, some of which have substantial international sales. These economic and market conditions, combined with continuing difficulties in the credit markets and the resulting pressures on liquidity, may also place a number of our key retail customers under financial stress, which would increase our credit risk and potential bad debt exposure.

The success of our business also depends in part on our ability to identify and respond to evolving trends in demographics and consumer preferences. For example, from fiscal 2006 through fiscal 2009, the demand for aquatics products declined significantly. In fiscal 2010 and 2011, the demand for aquatic products stabilized and in fiscal 2012 it increased. Similarly, in fiscal 2010, the demand for wild bird feed declined and in fiscal 2011, demand increased. Our failure to timely identify or effectively respond to changing consumer tastes, preferences, spending patterns and lawn and garden and pet care needs could adversely affect the demand for our products and our profitability.

Inflation, deflation, economic uncertainty and other adverse macro-economic conditions may harm our business.

Our revenues and margins are dependent on various economic factors, including rates of inflation or deflation, energy costs, consumer attitudes toward discretionary spending, currency fluctuations, and other

macro-economic factors which may impact levels of consumer spending. In 2009 and 2010, our business was negatively impacted by the downturn in the housing market and by the decline in consumer confidence, as well as other macro-economic factors. During the last two years, we have experienced a significant increase in raw material input costs. Although we increased prices for many of our products, our price increases did not fully offset the increases in our costs, and our margins and profitability suffered as a result. If we are unable to pass through rising input costs and raise the price of our products, or consumer confidence continues to weaken, we may experience gross margin declines.

Supply disruptions in pet birds and small animals may negatively impact our sales.

The federal government and many state governments have increased restrictions on the importation of pet birds and the supply of small animals. These restrictions have resulted in reduced availability of new pet birds and animals and thus reduced demand for pet bird and small animal food and supplies. If these restrictions become more severe, our future sales of these products would likely suffer, which would negatively impact our profitability. In addition, some countries experienced outbreaks of avian flu. While the number of cases worldwide has declined, a significant outbreak in the United States would reduce demand for our pet and wild bird food and negatively impact our financial results.

Our lawn and garden sales are highly seasonal and subject to adverse weather.

Because our lawn and garden products are used primarily in the spring and summer, the Garden business is seasonal. In fiscal 2012, approximately 66% of our Garden segment's net sales and 59% of our total net sales occurred during our second and third fiscal quarters. Substantially all of the Garden segment's operating income is generated in this period. Our working capital needs and our borrowings generally peak in our second fiscal quarter, because we are generating lower revenues while incurring expenses in preparation for the spring selling season. If cash on hand and borrowings under our credit facility are ever insufficient to meet our seasonal needs or if cash flow generated during the spring and summer is insufficient to repay our borrowings on a timely basis, this seasonality could have a material adverse effect on our business.

Because demand for lawn and garden products is significantly influenced by weather, particularly weekend weather during the peak gardening season, our results of operations and cash flow could also be adversely affected by certain weather patterns such as unseasonably cool or warm temperatures, water shortages or floods.

Rising energy prices could adversely affect our operating results.

During fiscal 2011 and 2012, energy prices increased substantially, which resulted in increased fuel costs for our businesses and increased raw materials costs for many of our branded products. Rising energy prices in the future could adversely affect consumer spending and demand for our products and increase our operating costs, both of which would reduce our sales and operating income.

We depend on a few customers for a significant portion of our business.

Wal*Mart, our largest customer, accounted for approximately 17% of our net sales in fiscal 2012, 16% in fiscal 2011 and 17% in fiscal 2010. Lowe's accounted for approximately 9% of our net sales in fiscal 2012, 12% in fiscal 2011 and 10% in fiscal 2010. In addition, Home Depot, PetSmart and PETCO are also significant customers, although each accounted for less than 10% of our net sales and, together with Wal*Mart and Lowe's, accounted for approximately 45% of our net sales in fiscal 2012 and fiscal 2011, and 46% in fiscal 2010. The market shares of many of these key retailers have increased and may continue to increase in future years.

The loss of, or significant adverse change in, our relationship with any of these key retailers could cause our net sales, income from operations and cash flow to decline. The loss of, or reduction in, orders from any significant customer, losses arising from customer disputes regarding shipments, fees, merchandise condition or related matters, or our inability to collect accounts receivable from any major customer could reduce our income from operations and cash flow.

We may be adversely affected by trends in the retail industry.

With the growing trend towards retail trade consolidation, we are increasingly dependent upon key retailers whose leverage is growing. Our business may be negatively affected by changes in the policies of our retailers, such as inventory destocking, limitations on access to shelf space, price demands and other conditions. In addition, as a result of the desire of retailers to more closely manage inventory levels, there is a growing trend among retailers to make purchases on a “just-in-time” basis. This requires us to shorten our lead time for production in certain cases and to more closely anticipate demand, which could in the future require the carrying of additional inventories and an increase in our working capital and related financing requirements. This shift to “just-in-time” can also cause retailers to delay purchase orders, which can cause a shift in sales from quarter to quarter. Decisions to move in or out of a market category by leading retailers can also have a significant impact on our business.

A significant deterioration in the financial condition of one of our major customers could have a material adverse effect on our sales, profitability and cash flow. We continually monitor and evaluate the credit status of our customers and attempt to adjust sales terms as appropriate. Despite these efforts, a bankruptcy filing or liquidation by a key customer could have a material adverse effect on our business, results of operations and financial condition in the future.

We cannot be certain that our product innovations and marketing successes will continue.

We believe that our past performance has been based on, and our future success will depend upon, in part, our ability to continue to improve our existing products through product innovation and to develop, market and produce new products. We cannot assure you that we will be successful in the introduction, marketing and production of any new products or product innovations, or that we will develop and introduce in a timely manner innovations to our existing products which satisfy customer needs or achieve market acceptance. Our failure to develop new products and introduce them successfully and in a timely manner could harm our ability to grow our business and could have a material adverse effect on our business, results of operations and financial condition.

Issues with products may lead to product liability, personal injury or property damage claims, recalls, withdrawals, replacements of products, regulatory actions by governmental authorities that could divert resources, affect business operations, decrease sales, increase costs, and put us at a competitive disadvantage, any of which could have a significant adverse effect on our financial condition.

We have experienced, and may in the future experience, issues with products that may lead to product liability, recalls, withdrawals, replacements of products, or regulatory actions by governmental authorities. For example, during 2012, we experienced four unrelated recalls relating to one batch of baby bird feed products, one batch of mice, rat and hamster feed, one batch of dog food and a line of Christmas tree bases. In 2012, we recorded approximately \$4.9 million of costs related to these recalls. These recalls or future recalls could result in increased governmental scrutiny, reputational harm, reduced demand by consumers for our products, decreased willingness by retailer customers to purchase or provide marketing support for those products, absence or increased cost of insurance, or additional safety and testing requirements. Such results could divert development and management resources, adversely affect our business operations, decrease sales, increase legal fees and other costs, and put us at a competitive disadvantage compared to other manufacturers not affected by similar issues with products, any of which could have a significant adverse effect on our financial condition.

Competition in our industries may hinder our ability to execute our business strategy, increase our profitability or maintain relationships with existing customers.

We operate in highly competitive industries, which have experienced increased consolidation in recent years. We compete against numerous other companies, some of which are more established in their industries

and have substantially greater revenue and resources than we do. Our products compete against national and regional products and private label products produced by various suppliers. Our largest competitors in the Pet segment are Spectrum Brands and Hartz Mountain, and our largest competitors in the Garden segment are Scotts and Spectrum Brands.

To compete effectively, among other things, we must:

- develop and grow brands with leading market positions;
- grow market share;
- maintain our relationships with key retailers;
- continually develop innovative new products that appeal to consumers;
- implement effective marketing and sales promotion programs;
- maintain strict quality standards;
- deliver products on a reliable basis at competitive prices; and
- effectively integrate acquired companies.

Competition could lead to lower sales volumes, price reductions, reduced profits, losses, or loss of market share. Our inability to compete effectively could have a material adverse effect on our business, results of operations and financial condition.

Our acquisition strategy involves a number of risks.

We have completed numerous acquisitions and intend further growth through the acquisition of additional companies.

We are regularly engaged in acquisition discussions with a number of companies and anticipate that one or more potential acquisition opportunities, including those that would be material, may become available in the near future. If and when appropriate acquisition opportunities become available, we intend to pursue them actively. Acquisitions involve a number of special risks, including:

- failure of the acquired business to achieve expected results, as well as the potential impairment of the acquired assets if operating results decline after an acquisition;
- diversion of management's attention;
- failure to retain key personnel of the acquired business;
- additional financing, if necessary and available, which could increase leverage and costs, dilute equity, or both;
- the potential negative effect on our financial statements from the increase in goodwill and other intangibles;
- the high cost and expenses of identifying, negotiating and completing acquisitions; and
- risks associated with unanticipated events or liabilities.

These risks could have a material adverse effect on our business, results of operations and financial condition.

We have faced, and expect to continue to face, intense competition for acquisition candidates, which may limit our ability to make acquisitions and may lead to higher acquisition prices. We cannot assure you that we

will be able to identify, acquire or manage profitably additional businesses or to integrate successfully any acquired businesses into our existing business without substantial costs, delays or other operational or financial difficulties. In future acquisitions, we also could incur additional indebtedness or pay consideration in excess of fair value, which could have a material adverse effect on our business, results of operations and financial condition.

Our success depends upon our retaining key personnel.

Our future performance is substantially dependent upon the continued services of William E. Brown, our Chairman and Chief Executive Officer, Gus Halas, the President and Chief Executive Officer of the Central Operating Companies, and our other senior officers. The loss of the services of any of these persons could have a material adverse effect upon us. In addition, our future performance depends on our ability to attract and retain skilled employees. We cannot assure you that we will be able to retain our existing personnel or attract additional qualified employees in the future.

We are implementing a new enterprise resource planning information technology system.

In fiscal 2005, we began incurring costs associated with designing and implementing SAP, a new company-wide enterprise resource planning (ERP) software system with the objective of gradually migrating to the new system. Upon completion, this new system will replace our numerous existing accounting and financial reporting systems, most of which were obtained in connection with business acquisitions. To date, we have reduced the number of ERP systems from 26 to 7 and expect to further reduce the number of systems during fiscal 2013. We invested an additional \$14.4 million in fiscal 2012 for implementation. Capital expenditures for our new enterprise resource planning software system for fiscal 2013 and beyond will depend upon the pace of conversion for those remaining legacy systems. We accelerated the pace of our enterprise resource planning conversion in fiscal 2012. If the accelerated implementation is not executed successfully, this could result in business interruptions. If we do not complete the implementation of the project timely and successfully, we may experience, among other things, additional costs associated with completing this project and a delay in our ability to improve existing operations, support future growth and enable us to take advantage of new applications and technologies. All of this may also result in a distraction of management's time, diverting their attention from our operations and strategy.

Our inability to protect our trademarks and any other proprietary rights may have a significant, negative impact on our business.

We consider our trademarks to be of significant importance in our business. Although we devote resources to the establishment and protection of our trademarks, we cannot assure you that the actions we have taken or will take in the future will be adequate to prevent violation of our trademarks and proprietary rights by others or prevent others from seeking to block sales of our products as an alleged violation of their trademarks and proprietary rights. There can be no assurance that future litigation by or against us will not be necessary to enforce our trademarks or proprietary rights or to defend ourselves against claimed infringement or the rights of others. Any future litigation of this type could result in adverse determinations that could have a material adverse effect on our business, financial condition or results of operations. Our inability to use our trademarks and other proprietary rights could also harm our business and sales through reduced demand for our products and reduced revenues.

Some of the products that we manufacture and distribute require governmental permits and also subject us to potential environmental liabilities.

Some of the products that we manufacture and distribute are subject to regulation by federal, state, foreign and local authorities. Environmental health and safety laws and regulations are often complex and are subject to change. Environmental health and safety laws and regulations may affect us by restricting the manufacture, sale

or use of our products or regulating their disposal. Regulatory or legislative changes may cause future increases in our operating costs or otherwise affect operations. There is no assurance that in the future we may not be adversely affected by such laws or regulations, incur increased operating costs in complying with such regulations or that we will not be subject to claims for personal injury, property damages or governmental enforcement. In addition, due to the nature of our operations and the frequently changing nature of environmental compliance standards and technology, we cannot predict with any certainty that future material capital expenditures will not be required.

In addition to operational standards, environmental laws also impose obligations on various entities to clean up contaminated properties or to pay for the cost of such remediation, often upon parties that did not actually cause the contamination. Accordingly, we may become liable, either contractually or by operation of law, for remediation costs even if the contaminated property is not presently owned or operated by us, or if the contamination was caused by third parties during or prior to our ownership or operation of the property. With our extensive acquisition history, we have acquired a number of manufacturing and distribution facilities. Given the nature of the past operations conducted by us and others at these properties, there can be no assurance that all potential instances of soil or groundwater contamination have been identified, even for those properties where an environmental site assessment has been conducted. Future events, such as changes in existing laws or policies or their enforcement, or the discovery of currently unknown contamination, may give rise to future remediation liabilities that may be material.

Our business is dependent upon our ability to continue to source products from China.

We outsource a significant amount of our manufacturing requirements to third party manufacturers located in China. This international sourcing subjects us to a number of risks, including: the impact on sourcing or manufacturing of public health and contamination risks in China; social and political disturbances and instability; export duties, import controls, tariffs, quotas and other trade barriers; shipping and transportation problems; and fluctuations in currency values. Because we rely on Chinese third-party manufacturers for a substantial portion of our product needs, any disruption in our relationships with these manufacturers could adversely affect our operations.

The products that we manufacture could expose us to product liability claims.

Our business exposes us to potential product liability risks in the manufacture and distribution of certain of our products. Although we generally seek to insure against such risks, there can be no assurance that such coverage is adequate or that we will be able to maintain such insurance on acceptable terms. A successful product liability claim in excess of our insurance coverage could have a material adverse effect on us and could prevent us from obtaining adequate product liability insurance in the future on commercially reasonable terms.

Deterioration in operating results could prevent us from fulfilling our obligations under the terms of our indebtedness or impact our ability to refinance our debt on favorable terms as it matures.

We have, and we will continue to have, a significant amount of indebtedness. As of September 29, 2012, we had total indebtedness of approximately \$449.8 million. This level of indebtedness and future borrowing needs could have material adverse consequences for our business, including:

- make it more difficult for us to satisfy our obligations with respect to the terms of our indebtedness;
- require us to dedicate a large portion of our cash flow to pay principal and interest on our indebtedness, which would reduce the availability of our cash flow to fund working capital, capital expenditures, acquisitions and other business activities;
- increase our vulnerability to adverse industry conditions, including unfavorable weather conditions or continued commodity price increases;

- limit our flexibility in planning for, or reacting to, changes in our business and the industries in which we operate;
- restrict us from making strategic acquisitions or exploiting business opportunities;
- place us at a competitive disadvantage compared to competitors that have less debt; and
- limit our ability to borrow additional funds at reasonable rates, if at all.

In addition, since a portion of our debt commitments bear interest at variable rates, an increase in interest rates or interest rate margins as defined under the credit agreement will create higher debt service requirements, which would adversely affect our cash flow.

We are subject to cyber security risks and may incur increasing costs in an effort to minimize those risks.

Our business employs systems and websites that allow for the secure storage and transmission of proprietary or confidential information regarding our customers, employees, suppliers and others, including personal identification information. Security breaches could expose us to a risk of loss or misuse of this information, litigation, and potential liability. We may not have the resources or technical sophistication to anticipate or prevent rapidly-evolving types of cyber attacks. Attacks may be targeted at us, our customers and suppliers, or others who have entrusted us with information. Actual or anticipated attacks may cause us to incur increasing costs, including costs to deploy additional personnel and protection technologies, train employees, and engage third-party experts and consultants. Advances in computer capabilities, new technological discoveries, or other developments may result in the technology used by us to protect transaction or other data being breached or compromised. In addition, data and security breaches can also occur as a result of non-technical issues, including breach by us or by persons with whom we have commercial relationships that result in the unauthorized release of personal or confidential information. Any compromise or breach of our security could result in a violation of applicable privacy and other laws, significant legal and financial exposure, and a loss of confidence in our security measures, which could have an adverse effect on our results of operations and our reputation.

We do not expect to pay dividends in the foreseeable future.

We have never declared nor paid any cash dividends on our common stock or Class A common stock and currently do not intend to do so. Provisions of our credit facility and the indenture governing our senior subordinated notes restrict our ability to pay cash dividends. Any future determination to pay cash dividends will be at the discretion of our Board of Directors, subject to limitations under applicable law and contractual restrictions, and will depend upon our results of operations, financial condition and other factors deemed relevant by our Board of Directors.

We may issue additional shares of our common stock or Class A common stock that could dilute the value and market price of your stock.

We may decide or be required to issue, including upon the exercise of any outstanding stock options, or in connection with any acquisition made by us, additional shares of our common stock or Class A common stock that could dilute the value of your common stock or Class A common stock and may adversely affect the market price of our common stock or Class A common stock.

Our Chairman, through his holdings of our Class B common stock, could exercise effective control of the Company, which may discourage potential acquisitions of our business and could have an adverse effect on the market price of our stock.

Holders of our Class B common stock are entitled to the lesser of ten votes per share or 49% of the total votes cast, and each share of Class B common stock is convertible at any time into one share of our common stock. Holders of our common stock are entitled to one vote for each share owned. Holders of our Class A common stock and Series B preferred stock have no voting rights, except as required by Delaware law.

As of November 30, 2012, William E. Brown, our Chairman, beneficially owned 1,600,459 shares of our Class B common stock (out of a total of 1,652,262 outstanding shares), 1,418,063 shares of our common stock and 3,259,404 shares of our Class A common stock and thereby controlled approximately 55% of the voting power of our capital stock. Accordingly, except to the extent that a class vote of the common stock is required by applicable law, he can effectively control all matters requiring stockholder approval, including the election of our directors, and can exert substantial control over our management and policies. The disproportionate voting rights of our common stock and Class B common stock and Mr. Brown's substantial holdings of Class B common stock could have an adverse effect on the market price of our common stock and Class A common stock. Also, such disproportionate voting rights and Mr. Brown's controlling interest may make us a less attractive target for a takeover than we otherwise might be, or render more difficult or discourage a merger proposal, tender offer or proxy contest, even if such actions were favored by our other stockholders, which could thereby deprive holders of common stock or Class A common stock of an opportunity to sell their shares for a "take-over" premium.

We have authorized the issuance of shares of common stock, Class A common stock and preferred stock, which may discourage potential acquisitions of our business and could have an adverse effect on the market price of our common stock and our Class A common stock.

Pursuant to our Fourth Amended and Restated Certificate of Incorporation, the Board of Directors is authorized to issue up to 80,000,000 shares of our common stock, 100,000,000 shares of our nonvoting Class A common stock and up to 1,000,000 additional shares of preferred stock without seeking the approval or consent of our stockholders, unless required by the NASDAQ Global Market. Although the issuance of the nonvoting Class A common stock would not dilute the voting rights of the existing stockholders, it could have a dilutive effect on the economic interest of currently outstanding shares of common stock and Class B common stock similar to the dilutive effect of subsequent issuances of ordinary common stock. The issuance of the preferred stock could, depending on the rights and privileges designated by the board with respect to any particular series, have a dilutive effect on the voting interests of the common stock and Class B common stock and the economic interests of our common stock, Class A common stock and Class B common stock. In addition, the disproportionate voting rights of our common stock, preferred stock, Class B common stock and Class A common stock, and the ability of the board to issue stock to persons friendly to current management, may make us a less attractive target for a takeover than we otherwise might be or render more difficult or discourage a merger proposal, tender offer or proxy contest, even if such actions were favored by our common stockholders, which could thereby deprive holders of common stock of an opportunity to sell their shares for a "take-over" premium.

Item 1B. Unresolved Staff Comments

None.

Item 2. Properties

We currently operate 32 manufacturing facilities totaling approximately 3,354,000 square feet and 29 sales and logistics facilities totaling approximately 3,693,000 square feet. Most sales and logistics centers consist of office and warehouse space, and several large bays for loading and unloading. Each sales and logistics center provides warehouse, distribution, sales and support functions for its geographic area. Our executive offices are located in Walnut Creek, California.

The table below lists the Pet segment's manufacturing and sales and logistics facilities. Numbers in parenthesis represent multiple locations.

As part of our transformational change initiatives, we are reviewing the number, location and size of our manufacturing facilities and expect to make changes over time in order to optimize our manufacturing footprint. In addition, we are in the process of combining our garden and pet products operations in the same warehouses where practical and reducing the number of distribution centers.

We lease 11 of our manufacturing facilities and 23 of our sales and logistics facilities. These leases generally expire between 2013 and 2020. Substantially all of the leases contain renewal provisions with automatic rent escalation clauses. The facilities we own are subject to major encumbrances under our principal credit facility. In addition to the facilities that are owned, our fixed assets are comprised primarily of machinery and equipment, trucks and warehousing, transportation and computer equipment.

Item 3. Legal Proceedings

We may from time to time become involved in legal proceedings in the ordinary course of business. Currently, we are not a party to any legal proceedings that management believes would have a material adverse effect on our financial position or results of operations.

Item 4. Mine Safety Disclosures

Not applicable.

PART II

Item 5. Market for the Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Our common stock has been traded on the NASDAQ Stock Market under the symbol CENT since our initial public offering in July 1993. Our Class A common stock has been traded on the NASDAQ Stock Market under the symbol CENTA since February 2007. Our Class B stock is not listed on any market and generally cannot be transferred unless converted to common stock on a one-for-one basis. The following table sets forth the high and low closing sale prices for our common stock and our Class A common stock, as reported by the NASDAQ Global Select Market, for each quarterly period during our fiscal years set forth below.

	<u>Common Stock</u>		<u>Class A Common Stock</u>	
	<u>High</u>	<u>Low</u>	<u>High</u>	<u>Low</u>
Fiscal 2011

Fourth Quarter	12.61	9.05	13.27	9.40

As of November 15, 2012, there were approximately 125 holders of record of our common stock, approximately 207 holders of record of our Class A nonvoting common stock and five holders of record of our Class B stock.

We have not paid any cash dividends on our common stock, our Class A common stock or our Class B Stock. We currently intend to retain any earnings for use in our business and do not anticipate paying any cash dividends on our common stock, our Class A common or our Class B stock in the foreseeable future. In addition, our credit facility and senior subordinated notes restrict our ability to pay dividends. See Note 10 to our fiscal 2012 consolidated financial statements.

Stock Performance Graph

The following graph compares the percentage change of our cumulative total stockholder return on our Common Stock (“CENT”) for the period from September 29, 2007 to September 29, 2012 with the cumulative total return of the NASDAQ Composite (U.S.) Index and the Dow Jones Non-Durable Household Products Index, a peer group index consisting of approximately 30 manufacturers and distributors of household products.

The comparisons in the graph below are based on historical data and are not indicative of, or intended to forecast, the possible future performance of our Common Stock.

Total Return Analysis

	<u>9/29/07</u>	<u>9/27/08</u>	<u>9/26/09</u>	<u>9/25/10</u>	<u>9/24/11</u>	<u>9/29/12</u>

Purchases of Equity Securities by the Issuer and Affiliated Purchasers

The following table sets forth the repurchases of any equity securities during the fourth quarter of the fiscal year ended September 29, 2012 and the dollar amount of authorized share repurchases, remaining under our stock repurchase program.

<u>Period</u>	<u>Total Number of Shares (or Units) Purchased</u>	<u>Average Price Paid per Share (or Units)</u>	<u>Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs</u>	<u>Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs (1)</u>
June 24, 2012 – July 28, 2012	1,844 (2)	\$11.01	—	\$51,595,000
July 29, 2012 – August 25, 2012	34,929 (2)	11.05	—	0
August 26, 2012 – September 29, 2012	30,943 (2)	12.48	—	0
Total	67,716	\$11.70	—	\$51,595,000

- (1) During the third quarter of fiscal 2011, our Board of Directors authorized a new \$100 million share repurchase program. The program has no expiration date and expires when the amount authorized has been used or the Board withdraws its authorization. The repurchase of shares may be limited by certain financial covenants in our credit facility that restrict our ability to repurchase our stock.
- (2) Shares purchased during the period indicated represent withholding of a portion of shares to cover taxes in connection with the vesting of restricted stock and the exercise of stock options.

Item 6. Selected Financial Data

The following selected statement of operations and balance sheet data as of and for the five fiscal years in the period ended September 29, 2012 has been derived from our audited consolidated financial statements. The financial data set forth below should be read in conjunction with our consolidated financial statements and related notes thereto in “Item 8 – Financial Statements and Supplementary Data” and “Item 7 – Management’s Discussion and Analysis of Financial Condition and Results of Operations” included elsewhere herein.

	Fiscal Year Ended				
	September 29, 2012	September 24, 2011	September 25, 2010	September 26, 2009	September 27, 2008
	(in thousands, except per share amounts)				
Statement of Operations Data:					
Net sales (1)	\$1,700,013	\$1,628,652	\$1,523,648	\$1,614,300	\$1,705,386

Cash from (used in) financing activities . .	\$ (8,575)	\$ (73,997)	\$ (88,167)	\$ (142,011)	\$ (93,935)
Ratio of earnings to fixed charges (4)	1.84	2.23	3.20	5.36	—

	<u>September 29, 2012</u>	<u>September 24, 2011</u>	<u>September 25, 2010</u>	<u>September 26, 2009</u>	<u>September 27, 2008</u>
Balance Sheet Data:					
Cash and short term investments	\$ 71,180	\$ 29,851	\$ 106,780	\$ 85,668	\$ 26,929
Working capital	445,299	410,655	433,705	427,243	450,704
Total assets	1,149,547	1,093,003	1,130,884	1,150,925	1,259,318
Total debt	449,814	435,609	400,271	408,085	523,147
Equity	464,883	456,782	532,143	547,335	511,425

- (1) Fiscal years 2008, 2009, 2010 and 2011 included 52 weeks. Fiscal year 2012 included 53 weeks.
- (2) During the fourth quarter of fiscal 2010, we recognized a non-cash charge of \$12.0 million related to the impairment of an indefinite-lived intangible asset in our Pet segment. During fiscal 2008, we recognized non-cash charges of \$403 million related to goodwill impairments within our Pet segment and Garden segment and \$27 million for impairments of long-lived assets in our Garden segment.
- (3) The potential effects of stock awards are excluded from the diluted earnings per share calculation for the fiscal year ended September 27, 2008, because their inclusion in a net loss period would be anti-dilutive.
- (4) For the purposes of determining the ratio of earnings to fixed charges, earnings consist of income (loss) before income taxes and noncontrolling interest and after eliminating undistributed earnings of equity method investees and before fixed charges. Fixed charges consist of interest expense incurred, the portion of rental expense under operating leases deemed by management to be representative of the interest factor and amortization of deferred financing costs. For the fiscal year ended September 27, 2008, earnings were insufficient to cover fixed charges by approximately \$360.5 million, and the ratio for that fiscal year is not considered meaningful.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with our consolidated financial statements and the related notes and other financial information appearing elsewhere in this Form 10-K. This Form 10-K contains forward-looking statements that involve risks and uncertainties. Our actual results may differ materially from those indicated in forward-looking statements. See "Forward-Looking Statements" and "Item 1A – Risk Factors."

Overview

Central Garden & Pet Company is a leading innovator, marketer and producer of quality branded products. We are one of the largest suppliers in the pet and lawn and garden supplies industries in the United States. The total pet industry is estimated to be approximately \$30 billion in annual retail sales. We estimate the annual retail sales of the pet supplies and super-premium pet food markets in the categories in which we participate to be approximately \$15 billion. The total lawn and garden industry in the United States is estimated to be approximately \$21 billion in annual retail sales. We estimate the annual retail sales of the lawn and garden supplies markets in the categories in which we participate to be approximately \$6 billion.

Our pet supplies products include products for dogs and cats, including edible bones, premium healthy edible and non-edible chews, super premium dog and cat food and treats, toys, pet carriers, grooming supplies and other accessories; products for birds, small animals and specialty pets, including food, cages and habitats, toys, chews and related accessories; animal and household health and insect control products; products for fish, reptiles and other aquarium-based pets, including aquariums, furniture and lighting fixtures, pumps, filters, water conditioners, food and supplements, and information and knowledge resources; and products for horses and livestock. These products are sold under a number of brand names including Adams™, Altosid, Aqueon®, Avoderm®, BioSpot®, Coralife®, Farnam®, Four Paws®, Interpet, Kaytee®, Kent Marine®, Nylabone®, Oceanic Systems®, Pet Select®, Pre Strike®, Pinnacle®, Super Pet®, TFH™, Zilla® and Zodiac®.

Our lawn and garden products include proprietary and non-proprietary grass seed; wild bird feed, bird feeders, bird houses and other birding accessories; weed, grass, ant and other herbicide, insecticide and pesticide products; and decorative outdoor lifestyle and lighting products including pottery, trellises and other wood products and holiday lighting. These products are sold under a number of brand names including: AMDRO®, GKI/Bethlehem Lighting®, Grant's®, Ironite®, Lilly Miller®, Matthews Four Seasons™, New England Pottery®, Norcal Pottery®, Pennington®, Over-N-Out®, Sevin®, Smart Seed® and The Rebels®.

In fiscal 2012, our consolidated net sales were \$1.7 billion, of which our Pet segment accounted for approximately \$931 million and our Garden segment accounted for approximately \$769 million. Fiscal 2012 included an extra week as compared to fiscal 2011. In fiscal 2012, our branded product sales were approximately \$1.4 billion, or approximately 84% of total sales, sales of other manufacturers' products were approximately 16% of total sales, and our gross profit margins were 30.2%. In fiscal 2012, our income from operations was \$74 million, of which our Pet segment accounted for \$88 million and our Garden segment accounted for \$40 million, before corporate expenses and eliminations of \$54 million.

Recent Developments

Fiscal 2012 Operating Performance. Although we experienced increased sales in fiscal 2012, rising input costs, a change in sales mix, operational disruptions and increased costs associated with our transformational change initiatives, and unfavorable weather resulted in increased expenses and continuing pressure on gross margins.

Financial summary:

- Net sales for fiscal 2012 increased \$71.4 million, or 4.4%, to \$1.7 billion. Our Pet segment increased 9.3%, partially offset by a 1.0% decrease in our Garden segment.

- Gross margin decreased 10 basis points in fiscal 2012 to 30.2%, from 30.3% in 2011.
- Selling, general & administrative expenses increased \$31.0 million, or 7.6%, to \$439.7 million in fiscal 2012, and increased as a percentage of net sales to 25.9% from 25.1%. The increase was due primarily to increased selling and delivery expense.
- Net earnings for fiscal 2012 were \$21.2 million, or \$0.44 per share on a diluted basis, a decrease of \$7.1 million and \$0.06 per share on a diluted basis, compared to fiscal 2011.
- We generated cash flows from operating activities of approximately \$89.2 million during fiscal 2012, an increase of approximately \$38.2 million from fiscal 2011. Our cash and short term investments at September 29, 2012 were approximately \$71.2 million, compared with \$29.9 million at September 24, 2011.

Repurchase of Company Stock. – During fiscal 2012, we repurchased \$20.9 million of our common stock which consisted of 0.7 million shares of our voting common stock (CENT) at an aggregate cost of approximately \$5.6 million, or approximately \$8.02 per share, and 1.9 million shares of our non-voting Class A common stock (CENTA) at an aggregate cost of approximately \$15.3 million, or approximately \$8.05 per share. During fiscal 2011, our Board of Directors authorized a new \$100 million share repurchase program, under which approximately \$52 million remains available for repurchases in fiscal 2013 and thereafter.

Transformational Change. – In fiscal 2012, we continued the process of transformational change we embarked upon in fiscal 2011, consisting of a comprehensive series of organizational and operational initiatives intended to improve our sales and marketing, profitability and operational effectiveness. We expect to continue these initiatives over the next several years. The strategic objective of these initiatives is to transform the Company from a portfolio of separately run businesses into an integrated, multi-brand company. In connection with this change, we are strengthening our management team, reorganizing operating units, consolidating facilities, eliminating duplicative services, standardizing processes, training employees in new approaches and investing in systems, facilities and people. For example, in fiscal 2011, we began the process of combining our Garden and Pet supply chains as an integrated unit responsible for distribution, transportation, manufacturing, sourcing and sales and operations planning. In fiscal 2012, we began consolidating transactional processing in a newly created centralized shared services center in Boise, Idaho. We are in the process of moving our accounts payable, accounts receivable and order management functions to this one centralized service center. During fiscal 2012, we incurred approximately \$12.1 million of additional expense related to transformation activities.

There can be no assurance that we will be able to successfully implement the transformational change initiatives or that we will be able to do so within the anticipated time period. During the process of implementation, we will be making substantial investments in our business and will incur substantial transitional costs, which will adversely affect our operating results until the transformation process is complete.

Fiscal 2013. – Hurricane Sandy negatively impacted our northeastern businesses. While damage was minimal, some of our businesses experienced disruption which will impact our first quarter 2013 results.

Fiscal 2011 Reported Earnings and Significant Items.

Fiscal 2011 Operating Performance. Although we experienced increased sales in fiscal 2011, rising input costs, a change in sales mix due to competitive pressures and unfavorable weather resulted in increased expenses and lower gross margins.

Financial summary:

- Net sales for fiscal 2011 increased \$105 million, or 7%, to \$1.6 billion.
- Net earnings for fiscal 2011 were \$28 million, or \$0.50 per share on a diluted basis, a decrease of \$18 million and \$0.20 per share on a diluted basis, compared to fiscal 2010.

- Gross margin decreased 350 basis points in fiscal 2011 to 30.3%, due primarily to rising raw material input costs.
- Selling, general & administrative expenses increased \$14.6 million, or 3.7%, to \$408.7 million in fiscal 2011, but decreased as a percentage of net sales to 25.1% from 25.9%.
- We generated cash flows from operating activities of approximately \$51.0 million during fiscal 2011 and had a cash balance of approximately \$12.0 million at September 24, 2011.

Senior Credit Facility – On June 8, 2011, we amended our credit agreement dated June 25, 2010 to increase the aggregate principal borrowing amount from \$275 million to \$375 million, extend the maturity date to June 8, 2016, and reduce the interest rates, commitment fees and interest coverage requirements.

Repurchase of Company Stock. – During fiscal 2011, we repurchased \$108.7 million of our common stock which consisted of 3.3 million shares of our voting common stock (CENT) at an aggregate cost of approximately \$30.2 million, or approximately \$9.10 per share and 8.6 million shares of our non-voting Class A common stock (CENTA) at an aggregate cost of approximately \$78.5 million, or approximately \$9.08 per share.

Results of Operations

The following table sets forth, for the periods indicated, the relative percentages that certain income and expense items bear to net sales:

	Fiscal Year Ended		
	September 29, 2012	September 24, 2011	September 25, 2010
Net sales	100.0%	100.0%	100.0%
Cost of goods sold and occupancy	69.8	69.7	66.2
Gross profit	30.2	30.3	33.8
Selling, general and administrative	25.9	25.1	25.9
Intangible asset impairments	—	—	0.8
Income from operations	4.3	5.2	7.1
Interest expense, net	(2.4)	(2.3)	(2.2)
Other income	0.1	—	—
Income taxes	(0.7)	(1.2)	(1.8)
Noncontrolling interest	(0.1)	—	(0.1)
Net income	1.2%	1.7%	3.0%

Fiscal 2012 Compared to Fiscal 2011

Net Sales

Net sales for fiscal 2012 increased \$71.4 million, or 4.4 %, to \$1,700.0 million from \$1,628.6 million in fiscal 2011. The increase was due to a \$44.4 million, or 3.2%, increase in our branded product sales and a \$27.0 million, or 10.7%, increase in the sales of other manufacturers' products. Branded product sales include products we manufacture under Central brand names and products we manufacture under third-party brands. Sales of our branded products represented 83.5% of our total sales in fiscal 2012. In addition, fiscal 2012 included an extra week as compared to fiscal 2011.

The following table indicates each class of similar products which represented more than 10% of our consolidated net sales in the fiscal years presented (in millions):

<u>Category</u>	<u>2012</u>	<u>2011</u>	<u>2010</u>
Pet supplies (excluding wild bird feed)	\$ 847.1	\$ 773.1	\$ 766.5
Controls and fertilizers	281.7	260.0	255.5
Wild bird feed	205.1	197.5	168.9
Other garden supplies	185.7	212.1	196.0
Grass seed	180.4	185.9	136.7
Total	\$1,700.0	\$1,628.6	\$1,523.6

Our Pet segment's net sales for fiscal 2012 increased \$79.4 million, or 9.3%, to \$930.7 million from \$851.3 million in fiscal 2011. Pet branded product sales increased \$62.6 million and sales of other manufacturers' products increased \$16.8 million as compared with fiscal 2011. We experienced sales increases in most of our Pet categories, including a \$37.1 million increase in our Animal Health category, due primarily to innovation and increased distribution of our flea and tick products. Additionally, our aquatics product sales increased \$11.0 million due primarily to increased consumables sales.

Our Garden segment's net sales for fiscal 2012 decreased \$8.0 million, or 1.0%, to \$769.3 million from \$777.3 million in fiscal 2011. In fiscal 2012, garden branded product sales declined \$18.2 million and sales of other manufacturers' products increased \$10.2 million compared with fiscal 2011. Garden branded product sales declined due primarily to a \$26.3 million decrease in revenues of our other garden supply products, including a \$24.8 million decline in seasonal décor products and a \$2.4 million decline in pottery products, partially offset by a \$21.7 million increase in sales of controls and fertilizers. Seasonal décor products were impacted by decreased sales programs in the current fiscal year and by increased sales returns. The majority of the decrease in seasonal décor and pottery occurred in our fourth fiscal quarter. Garden controls and fertilizer sales increased primarily due to growth in overall category demand, but were adversely affected by an early season surge in demand which coincided with operational disruptions arising from our transformational activities during our second fiscal quarter.

Gross Profit

Gross profit increased \$20.2 million, or 4.1%, to \$514.1 million from \$493.9 million in fiscal 2011. Gross profit as a percentage of net sales declined from 30.3% in fiscal 2011 to 30.2% for fiscal 2012. Gross profit as a percentage of net sales decreased in the garden segment and was partially offset by an increase in the pet segment. In fiscal 2012, pressure on our margins from increases in raw material input costs experienced in fiscal 2011 was somewhat mitigated in fiscal 2012 by price increases.

Both gross profit and gross margin increased in the Pet segment due primarily to increased sales of our flea and tick products in our Animal Health category, and increased margin on sales of wild bird feed products, which was heavily impacted in the prior year due primarily to higher prices of key commodity ingredients. These increases were partially offset by decreased margin in the dog & cat category which was impacted by operational disruptions in our second fiscal quarter.

Gross profit and gross margin decreased in the Garden segment. Seasonal décor products were impacted by reduced revenues in fiscal 2012, primarily due to a decrease in seasonal sales programs, increased sales returns and expenses. Grass seed was impacted by sales mix and increased costs in part due to lower than expected sales volumes. Additionally, the sales increase in garden controls and fertilizer products led to increased gross profit but decreased margin due to higher input and production costs as a result of a number of factors, including the operational disruptions encountered in our second fiscal quarter.

Selling, General and Administrative

Selling, general and administrative expenses increased \$31.0 million, or 7.6%, from \$408.7 million in fiscal 2011 to \$439.7 million in fiscal 2012. As a percentage of net sales, selling, general and administrative expenses increased from 25.1% in fiscal 2011 to 25.9% in fiscal 2012. The change in selling, general and administrative expenses, discussed further below, was due primarily to increased selling and delivery expense.

Selling and delivery expense increased by \$28.8 million, or 12.7%, from \$227.2 million in fiscal 2011 to \$256.0 million in fiscal 2012. The increased expense was due primarily to increased advertising and marketing program expenditures, including brand building activities, increased marketing personnel and variable compensation expenses related to the increase in sales, and delivery expenses also related to the increased sales in the period. The increased costs noted above include approximately \$6.0 million of expenses previously reported within warehouse and administrative expense, discussed further below. Selling and delivery expenses as a percentage of net sales increased from 14.0% in fiscal 2011 to 15.1% in fiscal 2012. We expect to continue to increase our marketing-related expenditures in future periods to help grow our existing and new products and brands.

Warehouse and administrative expense increased \$2.2 million, or 1.2%, from \$181.5 million in fiscal 2011 to \$183.7 million in fiscal 2012. We have reorganized operating units, realigned reporting lines and departments and moved personnel between departments in an effort to align our operations with our transformational objectives. As such, approximately \$6.0 million of expenses previously reported within warehouse and administrative expense are now included in selling and delivery expense. The increase in warehouse and administrative expense, after taking into account the \$6.0 million amount now part of selling and delivery expense, was \$8.2 million, or 4.5%. The increase was due primarily to approximately \$6.7 million of additional expense related to transformation activities. These transformation costs include costs for severance, facility exit costs, and our shared service center start up costs.

Within warehouse and administrative expense, approximately \$5.3 million of expense shifted from our operating segments and are now part of corporate expense. These expenses were primarily related to our supply chain management team and our operational excellence teams.

Interest Expense

Net interest expense increased \$2.4 million, or 6.4%, from \$37.8 million in fiscal 2011 to \$40.2 million in fiscal 2012. Interest expense increased due to an increase in the average debt outstanding to \$474 million in fiscal 2012 compared to \$443 million in fiscal 2011. In February 2012, we issued an additional \$50 million aggregate principal amount of 8.25% senior subordinated notes due 2018 at a price of 98.501% of the principal amount of the notes. The notes are part of a series of 8.25% senior subordinated notes due 2018 issued by the Company in March 2010.

Our average interest rates for fiscal 2012 and 2011 were 8.2% and 8.1%, respectively. Debt outstanding on September 29, 2012 was \$449.8 million compared to \$435.6 million as of September 24, 2011.

Other Income

Other income increased \$0.1 million from \$0.6 million in fiscal 2011 to \$0.7 million in fiscal 2012. While the majority of the amounts in both fiscal 2012 and fiscal 2011 are related to earnings from investments accounted for under the equity method investment of accounting, the increase was primarily due to lower foreign exchange losses.

Income Taxes

Our effective income tax rate in fiscal 2012 decreased to 36.7%, compared to 40.8% in fiscal 2011 due primarily to increased tax valuation allowances in fiscal 2011.

Fiscal 2011 Compared to Fiscal 2010

Net Sales

Net sales for fiscal 2011 increased \$105.0 million, or 6.9%, to \$1,628.6 million from \$1,523.6 million in fiscal 2010. The increase was due to a \$114.7 million, or 9.1%, increase in our branded product sales offset by a \$9.7 million, or 3.7%, decrease in the sales of other manufacturers' products. Branded product sales include products we manufacture under Central brand names and products we manufacture under third-party brands. Sales of our branded products represented 84% of our total sales in fiscal 2011.

Our Pet segment's net sales for fiscal 2011 increased \$10.8 million, or 1.3%, to \$851.3 million from \$840.5 million in fiscal 2010. In fiscal 2011, Pet branded product sales increased \$10.4 million and sales of other manufacturers' products increased \$0.4 million as compared with fiscal 2010. The increase in sales was due primarily to increased sales of approximately \$4.9 million in wild bird feed and \$4.4 of aquatic products. The sales increase in wild bird feed was price driven while the increase in aquatic products was volume driven. Our pet health products decreased slightly due primarily to decreased sales of our flea, tick and mosquito products partially offset by increased sales of lower margin products such as rodenticide and dewormer products. The decrease in our flea and tick business was due primarily to the competition from generic fipronil and unfavorable weather.

Our Garden segment's net sales for fiscal 2011 increased \$94.2 million, or 13.8%, to \$777.3 million from \$683.1 million in fiscal 2010. In fiscal 2011, garden branded product sales increased \$104.3 million and sales of other manufacturers' products declined \$10.1 million compared with fiscal 2010. The increase in branded product sales was due primarily to a \$49.2 million increase in grass seed sales, a \$23.7 million increase in bird feed sales and a \$4.5 million increase in garden control and fertilizer products. The increase in grass seed sales was due primarily to increased volumes driven by customer demand and increased investment in brand building. The increase in bird feed sales was due to both volume and price increases. The net sales increase of \$4.5 million in garden control and fertilizer products was due primarily to an increase of \$20 million in fertilizer sales, partially offset by decreased control product sales.

Gross Profit

Gross profit decreased \$21.2 million, or 4.1% to \$493.9 million from \$515.2 million in fiscal 2010. Gross profit as a percentage of net sales declined from 33.8% in fiscal 2010 to 30.3% for fiscal 2011. Gross profit as a percentage of net sales decreased in both segments. In fiscal 2011, the continual increases in raw material input costs put pressure on our margins. For example, our weighted average cost per pound for our primary grains increased approximately 41% for fiscal year 2011 compared to fiscal 2010.

Both gross profit and gross margin decreased in the Pet segment due primarily to higher prices of key commodity ingredients, such as milo, millet, sunflower and corn which impacted both our wild bird feed business and our super premium pet food, and a change in product mix in our health products, which shifted away from sales of higher margin flea, tick and mosquito products towards increased sales of lower margin products.

Gross profit increased in the Garden segment but gross margin decreased due primarily to higher commodity ingredient costs and the sales mix shift of garden control and fertilizer products. The higher ingredient costs impacted both bird feed and garden controls and fertilizer products. Additionally, there was a sales mix shift within garden controls and fertilizers whereby decreased sales of higher margin control products were offset by increased sales of lower margin fertilizer products.

Selling, General and Administrative

Selling, general and administrative expenses increased \$14.6 million, or 3.7%, from \$394.1 million in fiscal 2010 to \$408.7 million in fiscal 2011. As a percentage of net sales, selling, general and administrative expenses

decreased from 25.9% in fiscal 2010 to 25.1% in fiscal 2011. The change in selling, general and administrative expenses, discussed further below, was due primarily to increased selling and delivery expense.

Selling and delivery expense increased by \$21.4 million, or 10.4%, from \$205.8 million in fiscal 2010 to \$227.2 million in fiscal 2011. The increased expense was due primarily to increased advertising and marketing program expenditures, including brand building activities and increased variable expenses related to the increase in sales. Selling and delivery expenses as a percentage of net sales increased from 13.5% in fiscal 2010 to 14.0% in fiscal 2011. We expect to continue to increase our marketing-related expenditures in future periods to help grow our existing and new products and brands.

Facilities expense decreased \$1.0 million, or 9.2%, from \$10.9 million for fiscal 2010 to \$9.9 million for fiscal 2011 due primarily to cost savings from warehouse consolidation in our garden segment.

Warehouse and administrative expense decreased \$5.8 million, or 3.3%, from \$177.4 million in fiscal 2010 to \$171.6 million in fiscal 2011. The decrease in fiscal 2011 was due primarily to a reduction in performance-based compensation expense and lower third party provider costs, primarily legal costs.

Interest Expense

Net interest expense increased \$4.2 million, or 12.4%, from \$33.6 million in fiscal 2010 to \$37.8 million in fiscal 2011. Interest expense increased due to both increased average debt outstanding of \$443 million in fiscal 2011 compared to \$409 million in fiscal 2010, and increased borrowing rates. Our average interest rates for fiscal 2011 and 2010 were 8.1% and 6.8%, respectively. Interest expense in fiscal 2010 included \$3.9 million related to the tender for our 2013 Subordinated Notes and the issuance of our 2018 Subordinated Notes.

Debt outstanding on September 24, 2011 was \$435.6 million compared to \$400.3 million as of September 25, 2010.

Other Income

Other income increased \$0.2 million from \$0.4 million in fiscal 2010 to \$0.6 million in fiscal 2011. The increase was due primarily to higher earnings from an investment accounted for under the equity method investment of accounting.

Income Taxes

Our effective income tax rate in fiscal 2011 increased to 40.8%, compared to 37.0% in fiscal 2010. The increase in our effective tax rate was due primarily to our reduced ability to use tax benefits due to the decrease in fiscal 2011 income and increased tax valuation allowances.

Inflation

Our revenues and margins are dependent on various economic factors, including rates of inflation, energy costs, consumer attitudes toward discretionary spending, currency fluctuations, and other macro-economic factors which may impact levels of consumer spending. Historically, in certain fiscal periods, we have been adversely impacted by rising input costs related to domestic inflation, particularly relating to grain and seed prices, fuel prices and the ingredients used in our garden fertilizer and chemicals. Rising costs have made it difficult for us to increase prices to our retail customers at a pace sufficient to enable us to maintain margins.

In fiscal 2010, 2011 and 2012, our business was negatively impacted by low consumer confidence, as well as other macro-economic factors. In fiscal 2012, commodity costs continued to increase. We are developing plans in the event current cost levels fail to moderate or continue to increase.

Weather and Seasonality

Our sales of lawn and garden products are influenced by weather and climate conditions in the different markets we serve. Additionally, our Garden segment's business is highly seasonal. In fiscal 2012, approximately 66% of our Garden segment's net sales and 59% of our total net sales occurred during our second and third fiscal quarters. Substantially all of the Garden segment's operating income is typically generated in this period, which has historically offset the operating loss incurred during the first fiscal quarter of the year.

Liquidity and Capital Resources

We have financed our growth through a combination of internally generated funds, bank borrowings, supplier credit, and sales of equity and debt securities to the public.

Historically, our business has been seasonal and our working capital requirements and capital resources tracked closely to this seasonal pattern. During the first fiscal quarter, accounts receivable reach their lowest level while inventory, accounts payable and short-term borrowings begin to increase. During the second fiscal quarter, receivables, accounts payable and short-term borrowings increase, reflecting the build-up of inventory and related payables in anticipation of the peak lawn and garden selling season. During the third fiscal quarter, inventory levels remain relatively constant while accounts receivable peak and short-term borrowings start to decline as cash collections are received during the peak selling season. During the fourth fiscal quarter, inventory levels are at their lowest, and accounts receivable and payables are substantially reduced through conversion of receivables to cash.

We service two broad markets: pet supplies and lawn and garden supplies. Our Pet segment involves products that have a year round selling cycle with a slight degree of seasonality. As a result, it is not necessary to maintain large quantities of inventory to meet peak demands. On the other hand, our Garden segment is highly seasonal with approximately 66% of the Garden segment's net sales occurring during the second and third fiscal quarters. For many manufacturers of garden products, this seasonality requires them to ship large quantities of their product well ahead of the peak consumer buying periods. To encourage distributors to carry lawn and garden products, industry practice has been for manufacturers to give extended credit terms and/or promotional discounts.

Cash provided by operating activities increased \$38.2 million from \$51.0 million in fiscal 2011 to \$89.2 million in fiscal 2012. The increase was due primarily to a decrease in working capital investment, principally inventory, as the growth in inventory in prior years was not necessary in the current year. Our working capital accounts decreased approximately \$6.6 million from the end of fiscal 2011 due primarily to decreased investment in inventory during fiscal 2012 as compared to fiscal 2011.

Net cash used in investing activities decreased \$11.7 million from approximately \$56.2 million in fiscal 2011 to approximately \$44.5 million in fiscal 2012. The decrease in cash used in investing activities in fiscal 2012 was due primarily to our acquisition of certain assets of a privately-held maker of premium fertilizer for the professional and retail markets for approximately \$23 million in cash in our Garden segment in fiscal 2011, partially offset by an increase of \$8.0 million of plant, property and equipment investment in fiscal 2012.

Net cash used in financing activities decreased \$65.4 million from \$74.0 million in fiscal 2011 to \$8.6 million in fiscal 2012. The decrease in cash used was due primarily to our private placement of an additional \$50 million aggregate principal of our 2018 Notes during the second quarter of fiscal 2012, lower net borrowings under our revolving credit facility in the current year compared to the prior year period, and lower repurchases of our common stock during fiscal 2012. During fiscal 2012, we repurchased \$20.9 million of our common stock which consisted of 0.7 million shares of our voting common stock (CENT) at an aggregate cost of approximately \$5.6 million, or approximately \$8.02 per share, and 1.9 million shares of our non-voting Class A common stock (CENTA) at an aggregate cost of approximately \$15.3 million, or approximately \$8.05 per share.

We expect that our principal sources of funds will be cash generated from our operations and, if necessary, borrowings under our \$375 million revolving credit facility. Based on our anticipated cash needs, availability under our revolving credit facility and the scheduled maturity of our debt, we believe that our sources of liquidity should be adequate to meet our working capital, capital spending and other cash needs for at least the next 12 months. However, we cannot assure you that these sources will continue to provide us with sufficient liquidity and, should we require it, that we will be able to obtain financing on terms satisfactory to us, or at all.

We believe that cash flows from operating activities, funds available under our revolving credit facility, and arrangements with suppliers will be adequate to fund our presently anticipated working capital requirements for the foreseeable future. We anticipate that our capital expenditures will not exceed \$40 million for the next 12 months, which are related primarily to replacements and upgrades to plant and equipment and investment in our implementation of a scalable enterprise-wide information technology platform. We are investing in this information technology platform to improve existing operations, to support future growth and enable us to take advantage of new applications and technologies. We have invested approximately \$78.5 million from fiscal 2005 through fiscal 2012 in this initiative and plan to invest up to an additional \$11.0 million in fiscal 2013 for planned implementations. Capital expenditures for 2013 and beyond will depend upon the pace of conversion of those remaining legacy systems. This initiative, when complete, will combine our numerous information systems into one enterprise system and create a common business model and common data, which should create greater efficiency and effectiveness.

As part of our growth strategy, we have acquired a number of companies in the past, and we anticipate that we will continue to evaluate potential acquisition candidates in the future. If one or more potential acquisition opportunities, including those that would be material, become available in the near future, we may require additional external capital. In addition, such acquisitions would subject us to the general risks associated with acquiring companies, particularly if the acquisitions are relatively large.

Stock Repurchases

During fiscal 2012, we repurchased \$20.9 million of our common stock which consisted of 0.7 million shares of our voting common stock (CENT) at an aggregate cost of approximately \$5.6 million, or approximately \$8.02 per share, and 1.9 million shares of our non-voting Class A common stock (CENTA) at an aggregate cost of approximately \$15.3 million, or approximately \$8.05 per share. During the third quarter of fiscal 2011, our Board of Directors authorized a new \$100 million share repurchase program, under which approximately \$52 million is available for repurchases in fiscal 2013 and thereafter.

At September 29, 2012, our total debt outstanding was \$449.8 million versus \$435.6 million at September 24, 2011.

Senior Credit Facility

On June 8, 2011, we amended our \$275 million, five-year senior secured revolving credit facility (the "Credit Facility") included in our Amended and Restated Credit Agreement (the "Credit Agreement"). Under the modified terms, the Credit Facility has a borrowing capacity of \$375 million, an increase of \$100 million, and a maturity date of June 2016. The Credit Facility bears lower interest rates and commitment fees and requires less interest coverage. We continue to have the option to increase the size of the Credit Facility by an additional \$200 million of incremental term loans and/or revolving loans should we exercise our option and one or more lenders are willing to make such increased amounts available to us. There was no outstanding balance as of September 29, 2012 under the Credit Facility. There were no letters of credit outstanding under the Credit Facility as of September 29, 2012. There were other letters of credit of \$15.7 million outstanding as of September 29, 2012. As of September 29, 2012, there were \$375.0 million of unused commitments under the Credit Facility or, after giving effect to the financial covenants in the Credit Agreement, \$225.5 million of remaining borrowing capacity.

Interest on the amended Credit Facility is based, at our option, on a rate equal to the Alternate Base Rate (ABR), which is the greatest of the prime rate, the Federal Funds rate plus 1/2 of 1% or one month LIBOR plus 1%, plus a margin, which fluctuates from 0.75% to 1.75%, or LIBOR plus a margin, which fluctuates from 1.75% to 2.75% and commitment fees that range from 0.30% to 0.50%, determined quarterly based on consolidated total debt to consolidated EBITDA for the most recent trailing 12-month period. As of September 29, 2012, the applicable interest rate on the Credit Facility related to alternate base rate borrowings was 5.0%, and the applicable interest rate related to LIBOR rate borrowings was 3.0%.

The Credit Facility is guaranteed by our material subsidiaries and is secured by our assets, excluding real property but including substantially all of the capital stock of our subsidiaries. The Credit Agreement contains certain financial and other covenants which require us to maintain minimum levels of interest coverage and maximum levels of senior debt to EBITDA and that restrict our ability to repurchase our stock, make investments in or acquisitions of other businesses and pay dividends above certain levels over the life of the Credit Facility. Under the terms of our Credit Facility, we may make restricted payments, including cash dividends and stock repurchases, in an aggregate amount initially not to exceed \$200 million over the life of the Credit Facility, subject to qualifications and baskets as defined in the Credit Agreement. As of September 29, 2012, our Total Leverage Ratio, as defined in the Credit Agreement, was 4.0 to 1.0, and our Senior Secured Leverage Ratio, as defined in the Credit Agreement with a maximum of 2.0 to 1.0, was 0.01 to 1.0. Our minimum Interest Coverage Ratio was reduced to 2.50 times, from 2.75 times as part of the modification of the Credit Facility. As of September 29, 2012, our Interest Coverage ratio was 2.9 times. Apart from the covenants limiting restricted payments and capital expenditures, the Credit Facility does not restrict the use of retained earnings or net income. We were in compliance with all financial covenants as of September 29, 2012.

Senior Subordinated Notes

On March 8, 2010, we issued \$400 million aggregate principal amount of 8.25% senior subordinated notes due March 1, 2018 (the "2018 Notes").

On February 13, 2012, we issued an additional \$50 million aggregate principal amount of our 2018 Notes at a price of 98.501%, plus accrued interest from September 1, 2011, in a private placement. We used the net proceeds from the offering to pay a portion of the outstanding balance under our Credit Facility.

We incurred approximately \$1.7 million of debt issuance costs in conjunction with this offering, which included underwriter fees and legal, accounting and rating agency expenses. The debt issuance costs are being amortized over the remaining term of the 2018 Notes.

The estimated fair value of our \$450 million of 2018 Notes as of September 29, 2012 was approximately \$483 million. The estimated fair value is based on quoted market prices for these notes.

The 2018 Notes require semiannual interest payments, which commenced on September 1, 2010. The 2018 Notes are unsecured senior subordinated obligations and are subordinated to all of our existing and future senior debt, including our Credit Facility. The obligations under the 2018 Notes are fully and unconditionally guaranteed on a senior subordinated basis by each of our existing and future domestic restricted subsidiaries with certain exceptions. The guarantees are general unsecured senior subordinated obligations of the guarantors and are subordinated to all existing and future senior debt of the guarantors.

We may redeem some or all of the 2018 Notes at any time prior to March 1, 2014 at the principal amount plus a "make whole" premium. We may redeem some or all of the 2018 Notes at any time on or after March 1, 2014 for 104.125%, after March 1, 2015 for 102.063% and after March 1, 2016 for 100%, plus accrued and unpaid interest. Additionally, at any time prior to March 1, 2013, we may redeem up to 35% of the 2018 Notes with any proceeds we receive from certain equity offerings at a redemption price of 108.25% of the principal amount, plus accrued and unpaid interest. The holders of the 2018 Notes have the right to require us to repurchase all or a portion of the 2018 Notes at a purchase price equal to 101% of the principal amount of the notes repurchased, plus accrued and unpaid interest upon the occurrence of a change of control.

The 2018 Notes contain customary high yield covenants, including covenants limiting debt incurrence and restricted payments, subject to certain baskets and exceptions. We were in compliance with all financial covenants as of September 29, 2012.

Contractual Obligations

The table below presents our significant contractual cash obligations by fiscal year:

<u>Contractual Obligations</u>	<u>Fiscal 2013</u>	<u>Fiscal 2014</u>	<u>Fiscal 2015</u>	<u>Fiscal 2016</u>	<u>Fiscal 2017</u>	<u>Thereafter</u>	<u>Total</u>
	(in millions)						
Long-term debt, including current maturities (1)	\$ 0.3	\$ 0.1	\$ 0.1	\$ —	\$ —	\$450.0	\$450.5
Interest payment obligations (2)	37.1	37.1	37.1	37.1	37.1	18.6	204.1
Operating leases	20.0	14.5	10.0	6.8	4.4	2.0	57.7
Purchase commitments (3)	82.2	36.2	23.3	13.6	9.2	4.5	169.0
Performance-based payments (4)	—	—	—	—	—	—	—
Total	<u>\$139.6</u>	<u>\$87.9</u>	<u>\$70.5</u>	<u>\$57.5</u>	<u>\$50.7</u>	<u>\$475.1</u>	<u>\$881.3</u>

- (1) Excludes \$15.7 million of outstanding letters of credit related to normal business transactions. Excludes unamortized discount of \$0.7 million related to the \$450 million Senior Subordinated Notes. See Note 10 to the consolidated financial statements for further discussion of long-term debt.
- (2) Estimated interest payments to be made on our long-term debt. See Note 10 to the consolidated financial statements for description of interest rate terms.
- (3) Contracts for purchases of grains, grass seed and pet food ingredients, used primarily to mitigate risk associated with increases in market prices and commodity availability.
- (4) Possible performance-based payments associated with prior acquisitions of businesses are not included in the above table, because they are based on future performance of the businesses acquired, which is not yet known. Performance-based payments were not made in fiscal 2012, and were approximately \$1.9 million in fiscal 2011 and approximately \$1.8 million in fiscal 2010. Potential performance-based periods extend through 2015.

As of September 29, 2012, we had unrecognized tax benefits of \$0.2 million. These amounts have been excluded from the contractual obligations table because a reasonably reliable estimate of the timing of future tax settlements cannot be determined.

Off-Balance Sheet Arrangements

We have not entered into any transactions with unconsolidated entities whereby we have financial guarantees, subordinated retained interests, derivative instruments or other contingent arrangements that expose us to material continuing risks, contingent liabilities, or any other obligation under a variable interest in an unconsolidated entity that provides financing, liquidity, market risk or credit risk support to us.

Recent Accounting Pronouncements

Fair Value Measurements

In January 2010, the FASB issued ASU No. 2010-6, "Improving Disclosures about Fair Value Measurements." This ASU requires new disclosures regarding transfers in and out of Level 1 and Level 2 fair value measurements, as well as requiring presentation on a gross basis information about purchases, sales, issuances and settlements in Level 3 fair value measurements. The ASU also clarifies existing disclosures regarding level of disaggregation, inputs and valuation techniques. The ASU is effective for interim and annual

reporting periods beginning after December 15, 2009 and became effective for us on December 27, 2009. Disclosures about purchases, sales, issuances and settlements in the roll forward of activity in Level 3 fair value measurements are effective for fiscal years beginning after December 15, 2010 and became effective for us on September 25, 2011.

In May 2011, the FASB issued ASU No. 2011-04, "Fair Value Measurements (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs." This ASU provides guidance related to fair value measurement that changes the wording used to describe many requirements in GAAP for measuring and disclosing fair values. Additionally, the amendments clarify the application of existing fair value measurement requirements. The amended guidance is effective prospectively for interim and annual periods beginning after December 15, 2011. We adopted this guidance at the beginning of our second fiscal quarter of 2012. Adoption of this guidance did not have a material impact on our consolidated financial statement disclosures.

Comprehensive Income

In June 2011, the FASB issued ASU No. 2011-05, "Comprehensive Income (Topic 220): Presentation of Comprehensive Income." ASU No. 2011-05 requires that all nonowner changes in stockholders' equity be presented either in a single continuous statement of comprehensive income or in two separate but consecutive statements, eliminating the option to present other comprehensive income in the statement of changes in equity. Under either choice, items that are reclassified from other comprehensive income to net income are required to be presented on the face of the financial statements where the components of net income and the components of other comprehensive income are presented. In December 2011, the FASB issued an update to ASU no. 2011-05, ASU No. 2011-12, which was issued to defer the effective date for amendments to the reclassifications of items out of accumulated other comprehensive income in ASU No. 2011-05. ASU 2011-05 and the amendments in ASU No. 2011-12 are effective for fiscal years and interim periods within those years, beginning after December 15, 2011 and became effective for us on September 30, 2012. The guidance will be applied retrospectively. This amendment will change the manner in which we present comprehensive income and will not have a material impact on our consolidated financial statements.

Goodwill

In December 2010, the FASB issued ASU No. 2010-28, "Intangibles – Goodwill and Other (Topic 350) – When to Perform Step 2 of the Goodwill Impairment Test for Reporting Units with Zero or Negative Carrying Amounts" ("ASU 2010-28"). The amendments in this update modify Step 1 of the goodwill impairment test for reporting units with zero or negative carrying amounts. For those reporting units, an entity is required to perform Step 2 of the goodwill impairment test if it is more likely than not that a goodwill impairment exists. In determining whether it is more likely than not that a goodwill impairment exists, an entity should consider whether there are any adverse qualitative factors indicating that an impairment may exist. ASU 2010-28 is effective for fiscal years and interim periods within those years, beginning after December 15, 2010 and was effective for us on September 25, 2011. The adoption of this ASU did not have a material impact on our consolidated financial statements.

In September 2011, the FASB issued ASU No. 2011-08, "Intangibles – Goodwill and Other (Topic 350): Testing Goodwill for Impairment, which amended the guidance on the annual testing of goodwill for impairment. The amended guidance will allow companies to assess qualitative factors to determine if it is more-likely-than-not that goodwill might be impaired and whether it is necessary to perform the two-step goodwill impairment test required under current accounting standards. The guidance is effective for fiscal years beginning after December 15, 2011, and became effective for us on September 30, 2012. We have determined that this new guidance will not have a material impact on our consolidated financial statements.

Intangible Assets

In July 2012, the FASB issued an ASU No. 2012-02, "Intangibles – Goodwill and Other (Topic 350): Testing Indefinite-Lived Intangible Assets for Impairment, which simplifies the manner in which companies test indefinite-lived intangible assets for impairment. The ASU permits companies to first assess qualitative factors to determine whether events and circumstances indicate that it is more likely than not that the indefinite-lived intangible asset is impaired as a basis for determining whether it is necessary to perform a quantitative impairment test. The ASU is effective for annual and interim impairment tests performed for fiscal years beginning after September 15, 2012, with early adoption permitted. The guidance became effective for us on September 30, 2012. We do not expect the adoption of the ASU to have a material impact on our consolidated financial statements.

Critical Accounting Policies, Estimates and Judgments

Our discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts and related disclosures in the consolidated financial statements. Estimates and assumptions are required for, but are not limited to, accounts receivable and inventory realizable values, fixed asset lives, long-lived asset valuation and impairments, intangible asset lives, stock-based compensation, deferred and current income taxes, self-insurance accruals and the impact of contingencies and litigation. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the result of which forms the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from those estimates under different assumptions or conditions.

Although not all inclusive, we believe that the following represent the more critical accounting policies, which are subject to estimates and assumptions used in the preparation of our consolidated financial statements.

Allowance for Doubtful Accounts

We record an allowance for credit losses and disputed balances associated with our customers' failure to make required payments. We estimate our allowance based on both specific identification, historical experience, customer concentrations, customer credit-worthiness and current economic trends. Generally, we require no collateral from our customers. If the financial condition of our customers were to deteriorate, we were not able to demonstrate the validity of amounts due or if future default rates on trade receivables in general differ from those currently anticipated, additional allowances may be required, which would effect earnings in the period the adjustments are made. For more information, see Note 6 to our consolidated financial statements.

Inventory

Inventory, which primarily consists of lawn and garden products and pet supplies finished goods, is stated at the lower of first-in first-out ("FIFO") cost or market. Cost includes certain indirect purchasing, merchandise handling and storage costs incurred to acquire or manufacture inventory, costs to unload, process and put away shipments received to prepare them to be picked for orders, and certain overhead costs. We compute the amount of such costs capitalized to inventory based on an estimate of costs related to the procurement and processing of inventory to prepare it for sale compared to total product purchases. When necessary, we have reduced the carrying value of our inventory if market conditions indicate that we will not recover the carrying cost upon sale. Future adverse changes in market conditions related to our products could result in an additional charge to income in the period in which such conditions occur.

Goodwill

Goodwill represents the excess of cost of an acquired business over the fair value of the identifiable tangible and intangible assets acquired and liabilities assumed in a business combination. Identifiable intangible assets acquired in business combinations are recorded based on their fair values at the date of acquisition. Goodwill and identifiable intangible assets with indefinite lives are not subject to amortization but must be evaluated for impairment.

We test goodwill for impairment annually (on the first day of the fourth fiscal quarter), or whenever events occur or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying amount, by initially comparing the fair value of each of our four reporting units to their related carrying values. If the fair value of the reporting unit is less than its carrying value, we perform an additional step to determine the implied fair value of goodwill associated with that reporting unit. The implied fair value of goodwill is determined by first allocating the fair value of the reporting unit to all of its assets and liabilities and then computing the excess of the reporting unit's fair value over the amounts assigned to the assets and liabilities. If the carrying value of goodwill exceeds the implied fair value of goodwill, such excess represents the amount of goodwill impairment, and, accordingly, we recognize such impairment. Our goodwill impairment analysis also includes a comparison of the aggregate estimated fair value of all four reporting units to our total market capitalization.

Determining the fair value of a reporting unit involves the use of significant estimates and assumptions. The estimate of fair value of each of our reporting units is based on our projection of revenues, gross margin, operating costs and cash flows considering historical and estimated future results, general economic and market conditions as well as the impact of planned business and operational strategies. We base our fair value estimates on assumptions we believe to be reasonable at the time, but such assumptions are subject to inherent uncertainty. Assumptions critical to our fair value estimates were: (i) discount rates used in determining the fair value of the reporting units; (ii) estimated future cash flows; and (iii) projected revenue and operating profit growth rates used in the reporting unit models. Actual results may differ from those estimates. The valuations employ present value techniques to measure fair value and consider market factors.

In connection with our annual goodwill impairment testing performed during fiscal 2012, 2011 and 2010, the first step of such testing indicated that the fair value of our reporting segments exceeded their carrying value by more than 10%, and accordingly, no further testing of goodwill was required.

Changes in the judgments and estimates underlying our analysis of goodwill for possible impairment, including expected future cash flows and discount rate, could result in a significantly different estimate of the fair value of the reporting units in the future and could result in additional impairment of goodwill.

Intangible assets

Indefinite-lived intangible assets consist primarily of acquired trade names and trademarks. Indefinite-lived intangible assets are tested annually for impairment or whenever events or changes in circumstances occur indicating that the carrying amount of the asset may not be recoverable. An impairment loss would be recognized for an intangible asset with an indefinite useful life if its carrying value exceeds its fair value.

Indefinite-lived intangible assets are tested for impairment by comparing the fair value of the asset to the carrying value. Fair value is determined based on discounted cash flow analyses that include significant management assumptions such as revenue growth rates, discount rates, weighted average cost of capital, and assumed royalty rates. Future net sales and short-term growth rates are estimated for trade names based on management's forecasted financial results which consider key business drivers such as specific revenue growth initiatives, market share changes and general economic factors such as consumer spending.

During fiscal 2012, we performed an evaluation of the fair value of our indefinite-lived trade names and trademarks. Our expected revenues are based on our fiscal 2013 plan and market growth or decline estimates for

fiscal 2013 through fiscal 2018. We also included revenue growth estimates based on current initiatives expected to help us improve performance. No impairment was indicated during our fiscal 2012 analysis of our indefinite-lived trade names and trademarks.

During fiscal 2011, we performed an evaluation of the fair value of our indefinite-lived trade names and trademarks. Our expected revenues are based on our fiscal 2012 plan and market growth or decline estimates for fiscal 2012 through fiscal 2017. We also included revenue growth estimates based on current initiatives expected to help us improve performance. No impairment was indicated during our fiscal 2011 analysis of our indefinite-lived trade names and trademarks.

Long-Lived Assets

We review our long-lived assets, including amortizable intangibles and property, plant and equipment, for potential impairment whenever events or changes in business circumstances indicate that the carrying amount of the assets may not be fully recoverable. An impairment loss would be recognized for amortizable intangible assets and property, plant and equipment when estimated undiscounted future cash flows expected to result from use of the asset are less than its carrying amount. Management determines fair value by estimating future cash flows as a result of forecasting sales and costs. Impairment, if any, is measured as the amount by which the carrying amount of a long-lived asset exceeds its fair value. No factors indicating the carrying value of our long-lived assets may not be recoverable were present in fiscal 2012, and accordingly, no impairment testing was performed on these assets. No factors indicating the carrying value of our long-lived assets may not be recoverable were present in fiscal 2011, and accordingly, no impairment testing was performed on these assets. In fiscal 2010, factors were present indicating the carrying value of certain amortizable long-lived assets may not be recoverable, which prompted us to perform impairment testing on these assets. The carrying values of the assets were determined to be recoverable, and accordingly, no impairment charges were recognized during fiscal 2010. Should market conditions or the assumptions used by us in determining the fair value of assets change, or management change plans regarding the future usage of certain assets, additional charges to operations may be required in the period in which such conditions occur.

Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred income taxes result primarily from bad debt allowances, inventory and goodwill write-downs, depreciation and nondeductible reserves. We establish a valuation allowance for deferred tax assets when management believes it is more likely than not a deferred tax asset will not be realized. As of fiscal 2012 and 2011, we had valuation allowances related to various state and foreign net deferred tax assets of \$7.3 million and \$7.5 million, respectively. We have no undistributed foreign earnings.

Accruals for Self-Insurance

We maintain insurance for certain risks, including workers' compensation, general liability and vehicle liability, and are self-insured for employee related health care benefits. Our workers' compensation, general liability and vehicle liability insurance policies include deductibles of \$250,000 to \$350,000 per occurrence, with a separate deductible of \$50,000 for physical damage. We maintain excess loss insurance that covers any health care claims in excess of \$700,000 per person per year. We maintain a self-insurance reserve for losses, determined with assistance from a third-party actuary, based on claims filed and actuarial estimates of the ultimate loss amount inherent in the claims, including losses for claims incurred but not reported. Any actuarial projection of losses concerning workers' compensation and general liability is subject to a high degree of variability. Among the causes of this variability are unpredictable external factors affecting future inflation rates, discount rates, litigation trends, legal interpretations, benefit level changes and claim settlement patterns. We do not believe there is a reasonable likelihood that there will be a material change in the estimates or assumptions we use to calculate our self-insurance liabilities. However, any differences in estimates and assumptions could result in accrual requirements materially different from the calculated accruals.

Acquisitions

In connection with businesses we acquire, management must determine the fair values of assets acquired and liabilities assumed. Considerable judgment and estimates are required to determine such amounts, particularly as they relate to identifiable intangible assets, and the applicable useful lives related thereto. Under different assumptions, the resulting valuations could be materially different, which could materially impact the operating results we report.

Our contractual commitments are presented in Liquidity and Capital Resources.

Item 7A. Quantitative and Qualitative Disclosure About Market Risk

We are exposed to market risks, which include changes in U.S. interest rates and commodity prices and, to a lesser extent, foreign exchange rates. We do not engage in financial transactions for trading or speculative purposes.

Interest Rate Risk. The interest payable on our revolving credit facility is based on variable interest rates and therefore affected by changes in market interest rates. We had no variable rate debt outstanding as of September 29, 2012. If interest rates on our average variable rate debt outstanding during the fiscal year had changed by 100 basis points compared to actual rates, interest expense would have increased or decreased by approximately \$0.4 million in fiscal 2012. In addition, we have investments consisting of cash equivalents and short-term investments, which are also affected by changes in market interest rates.

Commodity Prices. We are exposed to fluctuations in market prices for grains, grass seed, chemicals, fertilizer ingredients and pet food ingredients. To mitigate risk associated with increases in market prices and commodity availability, we enter into contracts for purchases, primarily to ensure commodity availability to us in the future. As of September 29, 2012, we had entered into fixed purchase commitments for commodities totaling approximately \$169.0 million. A 10% change in the market price for these commodities would result in an additional pretax gain or loss of \$16.9 million as the related inventory containing those inputs is sold.

Foreign Currency Risks. Our market risk associated with foreign currency rates is not considered to be material. To date, we have had minimal sales outside of the United States. Purchases made by our U.S. subsidiaries from foreign vendors are primarily made in U.S. dollars. Our international subsidiary transacts most of its business in British pounds. Therefore, we have only minimal exposure to foreign currency exchange risk. We do not hedge against foreign currency risks and believe that foreign currency exchange risk is immaterial to our current business.

Item 8. Financial Statements and Supplementary Data

See pages beginning at F-1.

Item 9. Changes in and Disagreements With Accountants on Accounting and Financial Disclosure

None.

Item 9A. Controls and Procedures

(a) *Evaluation of Disclosure Controls and Procedures.* Our Chief Executive Officer and Chief Financial Officer have reviewed, as of the end of the period covered by this report, the “disclosure controls and procedures” (as defined in the Securities Exchange Act of 1934 Rules 13a-15(e) and 15d-15(e)) that ensure that information relating to the Company required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported in a timely and proper manner and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. Based upon this review, such officers concluded that our disclosure controls and procedures were effective as of September 29, 2012.

(b) *Changes in Internal Control Over Financial Reporting.* Central’s management, with the participation of Central’s Chief Executive Officer and Chief Financial Officer, has evaluated whether any change in Central’s internal control over financial reporting occurred during the fourth quarter of fiscal 2012. Based on that evaluation, management concluded that there has been no change in Central’s internal control over financial reporting during the fourth quarter of fiscal 2012 that has materially affected, or is reasonably likely to materially affect, Central’s internal control over financial reporting.

(c) *Management’s Report on Internal Control Over Financial Reporting.* A copy of our management’s report and the report of Deloitte & Touche LLP, our independent registered public accounting firm, are included in our Financial Statements and Supplementary Data beginning on page F-1.

Item 9B. Other Information

None.

PART III

Item 10. Directors, Executive Officers and Corporate Governance

We have adopted a code of ethics that applies to all of our executive officers and directors, a copy of which is filed herewith as Exhibit 14.

MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Central Garden & Pet Company's management, under the supervision of Central's Chief Executive Officer and Chief Financial Officer, is responsible for establishing and maintaining effective internal control over financial reporting (as defined in Rule 13a-15(f) or 15d-15(f) under the Exchange Act). Management evaluated the effectiveness of Central's internal control over financial reporting based on the framework in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations ("COSO") of the Treadway Commission.

Based on evaluation of the criteria set forth by COSO in *Internal Control – Integrated Framework*, management concluded that our internal control over financial reporting was effective as of September 29, 2012.

Our independent registered public accounting firm, Deloitte & Touche LLP, has issued a report on our internal control over financial reporting, which appears on page F-3 of this Form 10-K.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become ineffective because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of
Central Garden & Pet Company:

We have audited the accompanying consolidated balance sheets of Central Garden & Pet Company and subsidiaries (the "Company") as of September 29, 2012 and September 24, 2011, and the related consolidated statements of operations, equity, and cash flows for each of the three fiscal years in the period ended September 29, 2012. We also have audited the Company's internal control over financial reporting as of September 29, 2012, based on criteria established in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company's management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying "Management's Report on Internal Control over Financial Reporting." Our responsibility is to express an opinion on these consolidated financial statements and an opinion on the Company's internal control over financial reporting based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Central Garden & Pet Company and subsidiaries as of September 29, 2012 and September 24, 2011, and the results of their operations and their cash flows for each of the three fiscal years in the period ended September 29, 2012, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of September 29, 2012, based on the criteria established in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission.

CENTRAL GARDEN & PET COMPANY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

**Fiscal Years Ended September 29, 2012,
September 24, 2011 and September 25, 2010**

1. Organization and Significant Accounting Policies

Organization – Central Garden & Pet Company (“Central”), a Delaware corporation, and subsidiaries (the “Company”), is a leading marketer and producer of quality branded products for the pet and lawn and garden supplies markets.

Basis of Consolidation and Presentation – The consolidated financial statements include the accounts of Central and all majority-owned subsidiaries. Noncontrolling interests in consolidated entities are recognized for the share of assets, liabilities and operating results not owned by Central. All intercompany balances and transactions have been eliminated. The fiscal year ended September 29, 2012 included 53 weeks and the fiscal years ended September 24, 2011 and September 25, 2010 included 52 weeks.

Noncontrolling Interest – Noncontrolling interest in the Company’s condensed consolidated financial statements represents the 20% interest not owned by the Company in a consolidated subsidiary. Since the Company controls this subsidiary, its financial statements are fully consolidated with those of the Company, and the noncontrolling owner’s 20% share of the subsidiary’s net assets and results of operations is deducted and reported as noncontrolling interest on the consolidated balance sheets and as net income (loss) attributable to noncontrolling interest in the consolidated statements of operations.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires that management make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting period including realization of accounts receivable and inventory and valuation of goodwill. Actual results could differ from those estimates.

Revenue Recognition – Sales are recognized when merchandise is shipped, risk of loss and title passes to the customer and the Company has no further obligations to provide services related to such merchandise. Discounts, volume-based rebate incentives and most cooperative advertising amounts are recorded as a reduction of sales. The Company’s current practice on product returns is to accept and credit the return of unopened cases of products from customers where the quantity is small, where the product has been mis-shipped or the product is defective. Provisions are made for estimated sales returns which are deducted from net sales at the time of shipment. Sales also include shipping and handling costs billed directly to customers. The amount billed to customers for shipping and handling costs included in net sales for the fiscal years ended September 29, 2012, September 24, 2011, and September 25, 2010 was \$4.8 million, \$2.7 million and \$1.2 million, respectively.

Cost of goods sold and occupancy consists of cost of product, inbound freight charges, purchasing and receiving costs, certain indirect purchasing, merchandise handling and storage costs, internal transfer costs as well as allocations of overhead costs, including depreciation, related to the Company’s facilities. Cost of goods sold excludes substantially all shipping and handling and out-bound freight costs to customers, which are included in selling, general and administrative expenses as delivery expenses. The cost of shipping and handling, including internal costs and payments to third parties, included in delivery expenses within selling, general and administrative expenses for the fiscal years ended September 29, 2012, September 24, 2011 and September 25, 2010 was \$54.6 million, \$49.7 million and \$48.6 million, respectively.

Advertising Costs – The Company expenses the costs of advertising as incurred. Advertising expenses were \$54.4 million, \$39.6 million and \$35.9 million in fiscal 2012, 2011 and 2010, respectively.

CENTRAL GARDEN & PET COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

401(k) Plans – The Company sponsors several 401(k) plans which cover substantially all employees. The Company's matching contributions expensed under these plans were \$2.1 million, for each of the fiscal years 2012 and 2011, and \$1.9 million for fiscal year 2010, respectively. In fiscal 2012, 2011 and 2010, the Company's matching contributions made in the Company's Class A common stock resulted in the issuance of approximately 230,000, 190,000 and 198,000 shares, respectively.

Other income consists principally of earnings from equity method investments and foreign exchange gains and losses.

Income taxes are accounted for under the asset and liability method. Deferred income taxes result primarily from bad debt allowances, inventory and goodwill write-downs, amortization and nondeductible reserves. The Company establishes a valuation allowance for deferred tax assets when management believes it is more likely than not a deferred tax asset will not be realized. As of fiscal 2012 and 2011, the Company had valuation allowances related to various state and foreign net deferred tax assets of \$7.3 million and \$7.5 million, respectively. The Company has no undistributed foreign earnings.

Cash and cash equivalents include all highly liquid debt instruments with a maturity of three months or less at the date of purchase.

Short term investments include investments with original maturities greater than three months and remaining maturities of one year or less. Short-term investments classified as held-to-maturity are financial instruments that the Company has the intent and ability to hold to maturity and are reported at amortized cost and are not remeasured to fair value on a recurring basis.

Accounts receivable are carried at their estimated collectible amounts. Trade credit is generally extended on a short-term basis; thus trade receivables do not bear interest, although a finance charge may be applied to such receivables that are past due.

Allowance for doubtful accounts – Trade accounts receivable are regularly evaluated for collectability based on past credit history with customers and their current financial condition.

Inventories, which primarily consist of garden products and pet supplies finished goods, are stated at the lower of FIFO cost or market. Cost includes certain indirect purchasing, merchandise handling and storage costs incurred to acquire or manufacture inventory, costs to unload, process and put away shipments received in order to prepare them to be picked for orders, and certain other overhead costs. The amount of such costs capitalized to inventory is computed based on an estimate of costs related to the procurement and processing of inventory to prepare it for sale compared to total product purchases.

Long-Lived Assets – The Company reviews its long-lived assets, including amortizable and indefinite-lived intangible assets and property, plant and equipment, for potential impairment whenever events or changes in business circumstances indicate that the carrying amount of the assets may not be fully recoverable, and annually for indefinite-lived intangible assets. An impairment loss would be recognized for amortizable intangible assets and property, plant and equipment when estimated undiscounted future cash flows expected to result from the use of the asset are less than its carrying amount. An impairment loss would be recognized for an intangible asset with an indefinite useful life if its carrying value exceeds its fair value. Impairment, if any, is measured as the amount by which the carrying amount of a long-lived asset exceeds its fair value. The Company has recorded asset impairment charges when the carrying value of an asset was in excess of its fair value. In fiscal 2010, the Company recognized a non-cash \$12.0 million impairment charge to its indefinite-lived intangible assets as a result of the continuing challenging economic environment. Should market conditions or the assumptions used

CENTRAL GARDEN & PET COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

by the Company in determining the fair value of assets change, or management changes plans regarding the future use of certain assets, additional charges to operations may be required in the period in which such conditions occur. See Note 9 – Other Intangible Assets.

Land, buildings, improvements and equipment are stated at cost. Depreciation is computed by the straight-line method over thirty years for buildings. Improvements are amortized on a straight-line basis over the shorter of the useful life of the asset or the terms of the related leases. Depreciation on equipment and capitalized software is computed by the straight-line and accelerated methods over the estimated useful lives of 3 to 10 years.

Goodwill represents the excess of cost of an acquired business over the fair value of the identifiable tangible and intangible assets acquired and liabilities assumed in a business combination. Identifiable intangible assets acquired in business combinations are recorded based on their fair values at the date of acquisition. Goodwill is not subject to amortization but must be evaluated for impairment annually. The Company tests for goodwill impairment annually or whenever events occur or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying amount. See Note 8 – Goodwill.

Investments – The Company owns membership interests approximating 50% in two unconsolidated companies. The Company accounts for its interest in these entities using the equity method. Equity income of \$0.7 million in fiscal 2012, \$0.9 million in fiscal 2011 and \$0.6 million in fiscal 2010 is included in other income in the consolidated statements of operations. The Company's investment in these entities was \$1.3 million at September 29, 2012 and \$0.9 million at September 24, 2011. On a combined basis, the assets, liabilities, revenues and expenses of these entities are not significant.

Accruals For Insurance – The Company maintains insurance for certain risks, including workers' compensation, general liability and vehicle liability, and is self-insured for employee related health care benefits. The Company's workers' compensation, general liability and vehicle liability insurance policies include deductibles of \$250,000 to \$350,000 per occurrence. The Company maintains excess loss insurance that covers any health care claims in excess of \$700,000 per person per year. The Company establishes reserves for losses based on its claims experience and actuarial estimates of the ultimate loss amount inherent in the claims, including claims incurred but not yet reported. Costs are recognized in the period the claim is incurred, and the financial statement accruals include an estimate of claims incurred but not yet reported.

Fair Value of Financial Instruments – At September 29, 2012 and September 24, 2011, the carrying amount of cash and cash equivalents, short term investments, accounts receivable and payable, short term borrowings and accrued liabilities approximates fair value because of the short term nature of these instruments. The estimated fair value of the Company's senior subordinated notes is based on quoted market prices for these instruments. See Note 3 for further information regarding the fair value of the Company's financial instruments.

Derivative Financial Instruments – The Company reports all derivative financial instruments on the balance sheet at fair value. Changes in fair value are recognized in earnings, or are deferred, depending on the nature of the underlying exposure being hedged and how effective the derivative is at offsetting a change in the underlying exposure.

The Company principally uses a combination of purchase orders and various short and long-term supply arrangements in connection with the purchase of raw materials, including certain commodities. The Company also enters into commodity futures and options contracts to reduce the volatility of price fluctuations of corn, which impacts the cost of raw materials. The Company's primary objective when entering into these derivative

CENTRAL GARDEN & PET COMPANY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

contracts is to achieve greater certainty with regard to the future price of commodities purchased for use in its supply chain. These derivative contracts are entered into for periods consistent with the related underlying exposures and do not constitute positions independent of those exposures. The Company does not enter into derivative contracts for speculative purposes and does not use leveraged instruments.

The Company does not perform the assessments required to achieve hedge accounting for commodity derivative positions. Accordingly, the changes in the values of these derivatives are recorded currently in its consolidated statements of operations. As of September 29, 2012 and September 24, 2011, the notional amount of these contracts was not significant.

Stock-Based Compensation – Stock-based compensation cost is estimated at the grant date based on the fair value of the award and is expensed ratably over the service period of the award. Total compensation costs recognized under all share-based arrangements in fiscal 2012 was \$7.5 million (\$4.7 million after tax), fiscal 2011 was \$7.4 million (\$4.4 million after tax) and in fiscal 2010 was \$5.6 million (\$3.5 million after tax). See Note 13 for further information.

Total Comprehensive Income – Total comprehensive income consists of two components: net income and other comprehensive income. Other comprehensive income refers to gains and losses that under generally accepted accounting principles are recorded directly as an element of shareholders' equity, but are excluded from net income. Other comprehensive income is comprised of currency translation adjustments relating to the Company's foreign subsidiary whose functional currency is not the U.S. dollar. The Company does not have any undistributed foreign earnings.

Recent Accounting Pronouncements – In January 2010, the FASB issued ASU No. 2010-6, "Improving Disclosures about Fair Value Measurements." This ASU requires new disclosures regarding transfers in and out of Level 1 and Level 2 fair value measurements, as well as requiring presentation on gross basis information about purchases, sales, issuances and settlements in Level 3 fair value measurements. The ASU also clarifies existing disclosures regarding level of disaggregation, inputs and valuation techniques. The ASU is effective for interim and annual reporting periods beginning after December 15, 2009 and became effective for the Company on December 27, 2009. Disclosures about purchases, sales, issuances and settlements in the roll forward of activity in Level 3 fair value measurements are effective for fiscal years beginning after December 15, 2010 and were effective for the Company on September 25, 2011. The adoption of this ASU did not have a material impact on the Company's consolidated financial statements.

In December 2010, the FASB issued ASU No. 2010-28, "Intangibles – Goodwill and Other (Topic 350) – When to Perform Step 2 of the Goodwill Impairment Test for Reporting Units with Zero or Negative Carrying Amounts" ("ASU 2010-28"). The amendments in this update modify Step 1 of the goodwill impairment test for reporting units with zero or negative carrying amounts. For those reporting units, an entity is required to perform Step 2 of the goodwill impairment test if it is more likely than not that a goodwill impairment exists. In determining whether it is more likely than not that a goodwill impairment exists, an entity should consider whether there are any adverse qualitative factors indicating that an impairment may exist. ASU 2010-28 is effective for fiscal years and interim periods within those years, beginning after December 15, 2010 and was effective for the Company on September 25, 2011. The adoption of this ASU did not have a material impact on the Company's consolidated financial statements.

In May 2011, the FASB issued ASU No. 2011-04, "Fair Value Measurements (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs." This ASU provides guidance related to fair value measurement that changes the wording used to describe many requirements in GAAP for measuring and disclosing fair values. Additionally, the amendments clarify the

CENTRAL GARDEN & PET COMPANY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

application of existing fair value measurement requirements. The amended guidance is effective prospectively for interim and annual periods beginning after December 15, 2011. The Company adopted this guidance at the beginning of its second fiscal quarter of 2012. Adoption of this guidance did not have a material impact on the Company's consolidated financial statement disclosures.

In June 2011, the FASB issued Accounting Standards Update ("ASU") No. 2011-05, "Comprehensive Income (Topic 220): Presentation of Comprehensive Income." ASU No. 2011-05 requires that all nonowner changes in stockholders' equity be presented either in a single continuous statement of comprehensive income or in two separate but consecutive statements, eliminating the option to present other comprehensive income in the statement of changes in equity. Under either choice, items that are reclassified from other comprehensive income to net income are required to be presented on the face of the financial statements where the components of net income and the components of other comprehensive income are presented. In December 2011, the FASB issued an update to ASU No. 2011-05, ASU No. 2011-12, which was issued to defer the effective date for amendments to the reclassifications of items out of accumulated other comprehensive income in ASU No. 2011-05. ASU 2011-05 and the amendments in ASU No. 2011-12 are effective for fiscal years and interim periods within those years, beginning after December 15, 2011 and became effective for the Company on September 30, 2012. The guidance will be applied retrospectively. This amendment will change the manner in which the Company presents comprehensive income and will not have an impact on its consolidated financial statements.

In September 2011, the FASB issued ASU No. 2011-08, "Intangibles – Goodwill and Other (Topic 350): Testing Goodwill for Impairment, which amended the guidance on the annual testing of goodwill for impairment. The amended guidance allows companies to assess qualitative factors to determine if it is more-likely-than-not that goodwill might be impaired and whether it is necessary to perform the two-step goodwill impairment test required under current accounting standards. The guidance is effective for fiscal years beginning after December 15, 2011, and became effective for the Company on September 30, 2012. The Company has determined that this new guidance did not have a material impact on its consolidated financial statements.

In July 2012, the FASB issued an ASU No. 2012-02, "Intangibles – Goodwill and Other (Topic 350): Testing Indefinite-Lived Intangible Assets for Impairment, which simplifies the manner in which companies test indefinite-lived intangible assets for impairment. The ASU permits companies to first assess qualitative factors to determine whether events and circumstances indicate that it is more likely than not that the indefinite-lived intangible asset is impaired as a basis for determining whether it is necessary to perform a quantitative impairment test. The ASU is effective for annual and interim impairment tests performed for fiscal years beginning after September 15, 2012, with early adoption permitted. The guidance became effective for the Company on September 30, 2012. The Company does not expect the adoption of the ASU to have a material impact on its consolidated financial statements.

2. Fair Value Measurements

ASC 820 establishes a single authoritative definition of fair value, a framework for measuring fair value and expands disclosure of fair value measurements. ASC 820 requires financial assets and liabilities to be categorized based on the inputs used to calculate their fair values as follows:

Level 1 – Quoted prices in active markets for identical assets or liabilities.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 – Unobservable inputs for the asset or liability, which reflect the Company's own assumptions about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

CENTRAL GARDEN & PET COMPANY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Assets and Liabilities Measured at Fair Value on a Recurring Basis

The Company had short-term investments, consisting of bank certificates of deposit, measured at fair value using Level 2 inputs in the fair value hierarchy, as of September 29, 2012.

Assets and Liabilities Measured at Fair Value on a Non-Recurring Basis

Financial assets measured at fair value on a nonrecurring basis include short-term held-to-maturity investments that are carried at amortized cost and are not remeasured to fair value on a recurring basis. There were no fair value adjustments to these financial assets during 2012.

The Company measures certain non-financial assets and liabilities, including long-lived assets, goodwill and intangible assets, at fair value on a non-recurring basis. Fair value measurements of non-financial assets and non-financial liabilities are used primarily in the impairment analyses of long-lived assets, goodwill and other intangible assets using discounted cash flows with Level 3 inputs in the fair value hierarchy. In fiscal 2010, the carrying value of \$26.9 million of indefinite-lived intangible assets were written down to their estimated fair value of \$14.9 million, resulting in an impairment charge of \$12.0 million, which was included in earnings for the period.

3. Financial Instruments

The Company's financial instruments include cash and equivalents, short term investments consisting of bank certificates of deposit and held-to-maturity debt securities, accounts receivable and payable, short-term borrowings, and accrued liabilities. The carrying amount of these instruments approximates fair value because of their short-term nature.

The estimated fair value of the Company's \$450 million 8.25 % senior subordinated notes due 2018 as of September 29, 2012 was \$482.6 million, compared to a carrying value of \$449.3 million. The estimated fair value is based on quoted market prices for these notes.

4. Acquisitions

Fiscal 2012

The Company made no acquisitions during fiscal 2012.

Fiscal 2011

On February 28, 2011, the Company acquired certain assets of a privately-held maker of premium fertilizer for the professional and retail markets for approximately \$23 million in cash. The acquired assets were integrated into the business of Pennington Seed, Inc., a wholly owned subsidiary of the Company. The purchase price exceeded the estimated fair value of the tangible and intangible assets acquired by \$1.0 million, which was recorded as goodwill.

Contingent performance payments of \$1.9 million were paid in fiscal 2011 for previous acquisitions and recorded as goodwill in fiscal 2011.

Fiscal 2010

The Company made no acquisitions during fiscal 2010. Contingent performance payments of \$1.8 million were paid for acquisitions made in prior years, which were recorded as goodwill in fiscal 2010.

CENTRAL GARDEN & PET COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

5. Concentration of Credit Risk and Significant Customers and Suppliers

Customer Concentration – Approximately 45% of the Company’s net sales for fiscal 2012 and fiscal 2011, and 46% of the Company’s net sales for fiscal year 2010 were derived from sales to the Company’s top five customers. The Company’s largest customer accounted for approximately 17%, 16% and 17% of the Company’s net sales in fiscal years 2012, 2011 and 2010, respectively. The Company’s second largest customer accounted for approximately 9%, 12% and 10% of the Company’s net sales in fiscal years 2012, 2011 and 2010, respectively. The Company’s third largest customer accounted for approximately 7% of the Company’s net sales in each of the fiscal years 2012 and 2011, and 8% of the Company’s net sales in fiscal 2010. The loss of, or significant adverse change in, the relationship between the Company and any of these three customers could have a material adverse effect on the Company’s business and financial results. The loss of or reduction in orders from any significant customer, losses arising from customer disputes regarding shipments, fees, merchandise condition or related matters, or the Company’s inability to collect accounts receivable from any major customer could also have a material adverse impact on the Company’s business and financial results. As of September 29, 2012 and September 24, 2011, accounts receivable from the Company’s top five customers comprised approximately 42% and 40% of the Company’s total accounts receivable, including 15% and 11% from the Company’s largest customer.

Supplier Concentration – While the Company purchases products from many different manufacturers and suppliers, approximately 9%, 12% and 9% of the Company’s cost of goods sold in fiscal years 2012, 2011 and 2010, respectively, were derived from products purchased from the Company’s five largest suppliers.

6. Allowance for Doubtful Accounts

Changes in the allowance for doubtful accounts are summarized below (in thousands):

<u>Description</u>	<u>Balances at Beginning of Period</u>	<u>Charged/ (Credited) to Costs and Expenses</u>	<u>Asset Write-Offs, Less Recoveries</u>	<u>Balances at End of Period</u>
Fiscal year ended September 25, 2010	\$18,014	\$ 5,647	\$(2,097)	\$21,564
Fiscal year ended September 24, 2011	21,564	(3,662)	(2,312)	15,590
Fiscal year ended September 29, 2012	15,590	5,291	(2,307)	18,574

7. Property and Equipment, Net

Property and equipment consists of the following (in thousands):

	As of	
	<u>September 29, 2012</u>	<u>September 24, 2011</u>
Land	\$ 9,504	\$ 9,254
Buildings and improvements	108,122	100,439
Transportation equipment	6,125	6,550
Machine and warehouse equipment	174,411	168,475
Capitalized software	99,090	82,936
Office furniture and equipment	26,076	26,031
	423,328	393,685
Accumulated Depreciation	(232,165)	(217,283)
	<u>\$ 191,163</u>	<u>\$ 176,402</u>

CENTRAL GARDEN & PET COMPANY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Depreciation and amortization expense charged to operations was \$30.4 million, \$28.6 million and \$28.9 million for fiscal 2012, 2011 and 2010, respectively.

8. Goodwill

Changes in the carrying amount of goodwill for the fiscal years ended September 29, 2012, September 24, 2011 and September 25, 2010 (in thousands):

	<u>Garden Products Segment</u>	<u>Pet Products Segment</u>	<u>Total</u>
Balance as of September 26, 2009			
Goodwill	\$ 210,673	\$ 398,928	\$ 609,601
Accumulated impairment losses	(205,874)	(195,978)	(401,852)
	<u>4,799</u>	<u>202,950</u>	<u>207,749</u>
Additions (reductions) in fiscal 2010	881	(1,311)	(430)
Balance as of September 25, 2010			
Goodwill	211,554	397,617	609,171
Accumulated impairment losses	(205,874)	(195,978)	(401,852)
	<u>5,680</u>	<u>201,639</u>	<u>207,319</u>
Additions in fiscal 2011	2,029	875	2,904
Balance as of September 24, 2011			
Goodwill	213,583	398,492	612,075
Accumulated impairment losses	(205,874)	(195,978)	(401,852)
	<u>7,709</u>	<u>202,514</u>	<u>210,223</u>
Balance as of September 29, 2012			
Goodwill	213,583	398,492	612,075
Accumulated impairment losses	(205,874)	(195,978)	(401,852)
	<u>\$ 7,709</u>	<u>\$ 202,514</u>	<u>\$ 210,223</u>

Additions or reductions to goodwill include acquisitions, purchase price adjustments and adjustments of amounts upon finalization of purchase accounting.

The Company tests goodwill for impairment annually (on the first day of the fourth fiscal quarter), or whenever events occur or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying amount, by initially comparing the fair value of each of the Company's four reporting units to their related carrying values. If the fair value of the reporting unit is less than its carrying value, the Company performs an additional step to determine the implied fair value of goodwill associated with that reporting unit. The implied fair value of goodwill is determined by first allocating the fair value of the reporting unit to all of its assets and liabilities and then computing the excess of the reporting unit's fair value over the amounts assigned to the assets and liabilities. If the carrying value of goodwill exceeds the implied fair value of goodwill, such excess represents the amount of goodwill impairment, and, accordingly, the Company recognizes such impairment. The Company's goodwill impairment analysis also includes a comparison of the aggregate estimated fair value of all four reporting units to the Company's total market capitalization.

Determining the fair value of a reporting unit involves the use of significant estimates and assumptions. The estimate of fair value of each of the Company's reporting units is based on the Company's projection of revenues, gross margin, operating costs and cash flows considering historical and estimated future results,

CENTRAL GARDEN & PET COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

general economic and market conditions as well as the impact of planned business and operational strategies. The Company bases its fair value estimates on assumptions the Company believes to be reasonable at the time, but such assumptions are subject to inherent uncertainty. Assumptions critical to the Company's fair value estimates were: (i) discount rates used in determining the fair value of the reporting units; (ii) estimated future cash flows; and (iii) projected revenue and operating profit growth rates used in the reporting unit models. Actual results may differ from those estimates. The valuations employ present value techniques to measure fair value and consider market factors.

In connection with the Company's annual goodwill impairment testing performed during fiscal 2012, 2011 and 2010, the first step of such testing indicated that the fair value of the Company's reporting segments exceeded their carrying value by more than 10%, and accordingly, no further testing of goodwill was required.

Changes in the judgments and estimates underlying our analysis of goodwill for possible impairment, including expected future cash flows and discount rate, could result in a significantly different estimate of the fair value of the reporting units in the future and could result in additional impairment of goodwill.

9. Other Intangible Assets

The following table summarizes the components of gross and net acquired intangible assets:

	<u>Gross</u>	<u>Accumulated Amortization</u> (in millions)	<u>Impairment</u>	<u>Net Carrying Value</u>
September 29, 2012				
Marketing-related intangible assets – amortizable	\$ 12.3	\$ (7.5)	\$ 0	\$ 4.8
Marketing-related intangible assets – nonamortizable	59.6	0	(16.9)	42.7
Total	<u>71.9</u>	<u>(7.5)</u>	<u>(16.9)</u>	<u>47.5</u>
Customer-related intangible assets – amortizable	42.7	(15.4)	0	27.3
Other acquired intangible assets – amortizable	10.8	(6.7)	0	4.1
Other acquired intangible assets – nonamortizable	1.2	0	(1.2)	0
Total	<u>12.0</u>	<u>(6.7)</u>	<u>(1.2)</u>	<u>4.1</u>
Total other intangible assets	<u>\$126.6</u>	<u>\$(29.6)</u>	<u>\$(18.1)</u>	<u>\$78.9</u>
September 24, 2011				
Marketing-related intangible assets – amortizable	\$ 12.3	\$ (6.3)	\$ 0	\$ 6.0
Marketing-related intangible assets – nonamortizable	59.6	0	(16.9)	42.7
Total	<u>71.9</u>	<u>(6.3)</u>	<u>(16.9)</u>	<u>48.7</u>
Customer-related intangible assets – amortizable	42.7	(13.0)	0	29.7
Other acquired intangible assets – amortizable	10.8	(4.7)	0	6.1
Other acquired intangible assets – nonamortizable	1.2	0	(1.2)	0
Total	<u>12.0</u>	<u>(4.7)</u>	<u>(1.2)</u>	<u>6.1</u>
Total other intangible assets	<u>\$126.6</u>	<u>\$(24.0)</u>	<u>\$(18.1)</u>	<u>\$84.5</u>

Other intangible assets acquired include contract-based and technology-based intangible assets.

CENTRAL GARDEN & PET COMPANY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

The Company evaluates long-lived assets, including amortizable and indefinite-lived intangible assets, for impairment whenever events or changes in circumstances indicate the carrying value may not be recoverable. The Company evaluates indefinite-lived intangible assets on an annual basis. In fiscal 2012, the Company tested its indefinite-lived intangible assets and no impairment was indicated. Other factors indicating the carrying value of the Company's amortizable intangible assets may not be recoverable were not present in fiscal 2012, and accordingly, no impairment testing was performed on these assets.

The Company is currently amortizing its acquired intangible assets with definite lives over periods ranging from 1 to 25 years; over weighted average remaining lives of seven years for marketing-related intangibles, 17 years for customer-related intangibles and five years for other acquired intangibles. Amortization expense for intangibles subject to amortization was approximately \$5.6 million, \$5.0 million and \$4.6 million, for fiscal 2012, 2011 and 2010, respectively, and is classified within operating expenses in the condensed consolidated statements of operations. Estimated annual amortization expense related to acquired intangible assets in each of the succeeding five years is estimated to be approximately \$5 million per year from fiscal 2013 through fiscal 2017.

10. Long-Term Debt

Long-term debt consists of the following:

	September 29, 2012	September 24, 2011
	(in thousands)	
Senior subordinated notes, net of unamortized discount ⁽¹⁾ , interest at 8.25%, payable semi-annually, principal due March 2018	\$449,312	\$400,000
Revolving credit facility, interest at Alternate Base Rate plus a margin of 0.75% to 1.75%, or LIBOR plus a margin of 1.75% to 2.75%, final maturity June 2016 ...	0	35,000
Other notes payable	502	609
Total	449,814	435,609
Less current portion	(331)	(279)
Long-term portion	\$449,483	\$435,330

(1) Represents unamortized original issue discount of \$688, as of September 29, 2012, which is amortizable until March 2018.

Senior Credit Facility

On June 8, 2011, the Company amended its \$275 million, five-year senior secured revolving credit facility (the "Credit Facility") included in its Amended and Restated Credit Agreement (the "Credit Agreement"). Under the modified terms, the Credit Facility has a borrowing capacity of \$375 million, an increase of \$100 million, and an extension of maturity date by approximately one year, to June 2016. As amended, the Credit Facility bears lower interest rates and commitment fees and requires less interest coverage. The Company continues to have the option to increase the size of the Credit Facility by an additional \$200 million of incremental term loans and/or revolving loans should it exercise its option and one or more lenders are willing to make such increased amounts available to it. There was no outstanding balance as of September 29, 2012 under the Credit Facility. There were no letters of credit outstanding under the Credit Facility as of September 29, 2012. There were other letters of credit of \$15.7 million outstanding as of September 29, 2012. As of September 29, 2012, there were \$375.0 million of unused commitments under the Credit Facility or, after giving effect to the financial covenants in the Credit Agreement, \$225.5 million of remaining borrowing capacity.

CENTRAL GARDEN & PET COMPANY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Interest on the amended Credit Facility is based, at the Company's option, on a rate equal to the Alternate Base Rate (ABR), which is the greatest of the prime rate, the Federal Funds rate plus ½ of 1% or one month LIBOR plus 1%, plus a margin, which fluctuates from 0.75% to 1.75%, or LIBOR plus a margin, which fluctuates from 1.75% to 2.75% and commitment fees that range from 0.30% to 0.50%, determined quarterly based on consolidated total debt to consolidated EBITDA for the most recent trailing 12-month period. As of September 29, 2012, the applicable interest rate on the Credit Facility related to alternate base rate borrowings was 5.0%, and the applicable interest rate related to LIBOR rate borrowings was 3.0%.

The Credit Facility is guaranteed by the Company's material subsidiaries and is secured by the Company's assets, excluding real property but including substantially all of the capital stock of the Company's subsidiaries. The Credit Agreement contains certain financial and other covenants which require the Company to maintain minimum levels of interest coverage and maximum levels of senior debt to EBITDA and that restrict the Company's ability to repurchase its stock, make investments in or acquisitions of other businesses and pay dividends above certain levels over the life of the Credit Facility. Under the terms of the Company's Credit Facility, it may make restricted payments, including cash dividends and stock repurchases, in an aggregate amount initially not to exceed \$200 million over the life of the Credit Facility, subject to qualifications and baskets as defined in the Credit Agreement. As of September 29, 2012, the Company's Total Leverage Ratio, as defined in the Credit Agreement, was 4.0 to 1.0, and the Company's Senior Secured Leverage Ratio, as defined in the Credit Agreement with a maximum of 2.0 to 1.0, was 0.01 to 1.0. The Company's minimum Interest Coverage Ratio was reduced to 2.50 times, from 2.75 times as part of the modification of the Credit Facility. As of September 29, 2012, the Company's Interest Coverage ratio was 2.9 times. Apart from the covenants limiting restricted payments and capital expenditures, the Credit Facility does not restrict the use of retained earnings or net income. The Company was in compliance with all financial covenants as of September 29, 2012.

Senior Subordinated Notes

On March 8, 2010, the Company issued \$400 million aggregate principal amount of 8.25% senior subordinated notes due March 1, 2018 (the "2018 Notes").

On February 8, 2012, the Company issued an additional \$50 million aggregate principal amount of its 2018 Notes at a price of 98.501%, plus accrued interest from September 1, 2011, in a private placement. The Company used the net proceeds from the offering to pay a portion of the outstanding balance under its Credit Facility.

The Company incurred approximately \$1.7 million of debt issuance costs in conjunction with this offering, which included underwriter fees and legal, accounting and rating agency expenses. The debt issuance costs are being amortized over the remaining term of the 2018 notes.

The 2018 Notes require semiannual interest payments, which commenced on September 1, 2010. The 2018 Notes are unsecured senior subordinated obligations and are subordinated to all of the Company's existing and future senior debt, including the Company's Credit Facility. The obligations under the 2018 Notes are fully and unconditionally guaranteed on a senior subordinated basis by each of the Company's existing and future domestic restricted subsidiaries with certain exceptions. The guarantees are general unsecured senior subordinated obligations of the guarantors and are subordinated to all existing and future senior debt of the guarantors.

The Company may redeem some or all of the 2018 Notes at any time prior to March 1, 2014 at the principal amount plus a "make whole" premium. The Company may redeem some or all of the 2018 Notes at any time on or after March 1, 2014 for 104.125%, after March 1, 2015 for 102.063% and after March 1, 2016 for 100%, plus accrued and unpaid interest. Additionally, at any time prior to March 1, 2013, the Company may redeem up to

CENTRAL GARDEN & PET COMPANY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

35% of the 2018 Notes with any proceeds the Company receives from certain equity offerings at a redemption price of 108.25% of the principal amount, plus accrued and unpaid interest. The holders of the 2018 Notes have the right to require the Company to repurchase all or a portion of the 2018 Notes at a purchase price equal to 101% of the principal amount of the notes repurchased, plus accrued and unpaid interest through the repurchase date upon the occurrence of a change of control.

The 2018 Notes contain customary high yield covenants, including covenants limiting debt incurrence and restricted payments, subject to certain baskets and exceptions. The Company was in compliance with all financial covenants as of September 29, 2012.

The scheduled principal repayments on long-term debt as of September 29, 2012 are as follows:

	<u>(in thousands)</u>
Fiscal year:	
2013	\$ 331
2014	138
2015	30
2016	2
2017	0
Thereafter	<u>450,000</u>
Total	<u>\$450,501</u> (1)

- (1) Debt repayments include an amount in excess of the carrying value of debt and reflect the unamortized portion of the original issue discount on the Senior Subordinated Notes of \$0.7 million as of September 29, 2012, which is amortizable until March 2018.

11. Commitments and Contingencies

Commitments

Letters of credit – The Company had \$15.2 million of outstanding letters of credit related to normal business transactions at September 29, 2012.

Purchase commitments – Production and purchase agreements (primarily for grass seed and grains) entered into in the ordinary course of business obligate the Company to make future purchases based on estimated yields. The terms of these contracts vary and have fixed prices or quantities. At September 29, 2012, estimated annual purchase commitments were \$82.2 million for fiscal 2013, \$36.2 million for fiscal 2014, \$23.3 million for fiscal 2015, \$13.6 million for fiscal 2016, \$9.2 million for fiscal 2017 and \$4.5 million thereafter.

Leases – The Company has operating lease agreements principally for office and warehouse facilities and equipment. Such leases have remaining terms of 1 to 9 years. Rental expense was \$23.6 million for fiscal 2012, \$24.4 million for fiscal 2011 and \$26.9 million for fiscal 2010.

Certain facility leases have renewal options and include escalation clauses. Minimum lease payments include scheduled rent increases pursuant to these escalation provisions.

CENTRAL GARDEN & PET COMPANY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Aggregate minimum annual payments on non-cancelable operating leases at September 29, 2012 are as follows:

	<u>(in thousands)</u>
Fiscal year:	
2013	\$20,038
2014	14,441
2015	10,024
2016	6,838
2017	4,370
Thereafter	<u>1,982</u>
Total	<u><u>\$57,693</u></u>

Contingencies

The Company may from time to time become involved in certain legal proceedings in the ordinary course of business. Currently, the Company is not a party to any legal proceedings that management believes would have a material adverse effect on the Company's financial position or results of operations.

The Company has experienced, and may in the future experience, issues with products that may lead to product liability, recalls, withdrawals, replacements of products, or regulatory actions by governmental authorities. In 2012, The Company recorded approximately \$4.9 million of costs related to these recalls. Currently, the Company has not experienced any product liability, recalls, withdrawals or replacements of products that management believes would have a material adverse effect on the Company's financial position or results of operations.

12. Income Taxes

The provision for income tax expense (benefit) consists of the following:

	Fiscal Year Ended		
	September 29, 2012	September 24, 2011	September 25, 2010
	<u>(in thousands)</u>		
Current:			
Federal.	\$ (1,003)	\$ (5,512)	\$ 9,293
State.	603	160	1,902
Foreign.	<u>35</u>	<u>35</u>	<u>67</u>
Total	(365)	(5,317)	11,262
Deferred:			
Federal.	12,671	22,667	15,822
State.	198	1,214	1,203
Foreign.	<u>312</u>	<u>1,031</u>	<u>(177)</u>
Total	<u>13,181</u>	<u>24,912</u>	<u>16,848</u>
Total	<u><u>\$12,816</u></u>	<u><u>\$19,595</u></u>	<u><u>\$28,110</u></u>

CENTRAL GARDEN & PET COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

A reconciliation of the statutory federal income tax rate to the Company's effective income tax rate is as follows:

	Fiscal Year Ended		
	September 29, 2012	September 24, 2011	September 25, 2010
Statutory federal income tax rate	35.0%	35.0%	35.0%
State income taxes, net of federal benefit	2.3	2.8	3.2
Other permanent differences	0.6	1.4	(0.9)
Adjustment of prior year accruals	0.2	1.2	(0.3)
Uncertain tax positions	0.0	(0.3)	(0.1)
Credits	(1.2)	(2.9)	(0.5)
Change in valuation allowances	(0.1)	3.2	0.0
Other	(0.1)	0.4	0.6
Effective income tax rate (benefit)	<u>36.7%</u>	<u>40.8%</u>	<u>37.0%</u>

Deferred income taxes reflect the impact of “temporary differences” between asset and liability amounts for financial reporting purposes and such amounts as determined based on existing tax laws. The tax effect of temporary differences and carryforwards which give rise to deferred tax assets and liabilities are as follows:

	September 29, 2012		September 24, 2011	
	Deferred Tax Assets	Deferred Tax Liabilities	Deferred Tax Assets	Deferred Tax Liabilities
	(in thousands)			
Current:				
Allowance for doubtful accounts	\$ 6,741	\$ 0	\$ 5,750	\$ 0
Inventory write-downs	10,411	0	7,924	0
Prepaid expenses	112	0	626	0
Nondeductible reserves	997	0	1,064	0
State taxes	0	245	0	333
Employee benefits	5,885	0	4,690	0
Other	3,509	0	3,552	0
Total	<u>27,655</u>	<u>245</u>	<u>23,606</u>	<u>333</u>

Other	2,866	0	3,461	0
Valuation allowance	(7,282)	0	(7,450)	0
Total	<u>7,210</u>	<u>30,638</u>	<u>7,737</u>	<u>12,617</u>
Total	<u>\$34,865</u>	<u>\$30,883</u>	<u>\$31,343</u>	<u>\$12,950</u>

The Company's state tax net operating losses of \$80.1 million expire at various times between 2012 and 2032, and foreign losses of \$3.5 million, which do not expire. The Company has federal income tax credits of

CENTRAL GARDEN & PET COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

\$0.7 million which expire between 2022 and 2032. The Company also has state income tax credits of \$3.4 million. \$1.2 million of these credits expire at various times beginning in 2012 through 2029. Credits of \$2.2 million do not expire. In evaluating the Company's ability to recover its deferred tax assets, the Company considers all available positive and negative evidence including past operating results, future taxable income, and ongoing prudent and feasible tax planning strategies in assessing the need for a valuation allowance against any deferred tax assets. The Company has determined there will be insufficient future separate state and international taxable income for the separate parent company and the Company's foreign operations to realize its deferred tax assets. Therefore, valuation allowances of \$7.3 million and \$7.5 million (net of federal impact) at September 29, 2012 and September 24, 2011, respectively, have been provided to reduce state and foreign deferred tax assets to amounts considered recoverable.

The Company classifies uncertain tax positions as non-current income tax liabilities unless expected to be paid within one year. The Company recognizes interest and/or penalties related to income tax matters as a component of pretax income. As of September 29, 2012 and September 24, 2011 accrued interest was less than \$0.1 million and no penalties were accrued related to uncertain tax positions.

The following table, which excludes interest and penalties, summarizes the activity related to the Company's unrecognized tax benefits for fiscal years ended September 24, 2011 and September 29, 2012 (in thousands):

Balance as of September 25, 2010	\$ 485
Increases related to prior year tax positions	195
Increases related to current year tax positions	64
Decreases related to prior year tax positions	(308)
Settlements	<u>(154)</u>
Balance as of September 24, 2011	\$ 282
Increases related to prior year tax positions	1
Increases related to current year tax positions	16
Decreases related to prior year tax positions	—
Settlements	<u>(37)</u>
Balance as of September 29, 2012	<u>\$ 262</u>

As of September 29, 2012, unrecognized income tax benefits totaled approximately \$0.2 million and all of the unrecognized tax benefits would, if recognized, impact the Company's effective income tax rate.

The Company is principally subject to taxation by the United States and various states within the United States. The Company's tax filings in major jurisdictions are open to examination by tax authorities by the Internal Revenue Service from fiscal year ended 2009 forward and in various state taxing authorities generally from fiscal year ended 2008 forward.

The Company does not believe there will be any significant change in its unrecognized tax benefits within the next twelve months.

13. Stock-Based Compensation

In February 2003, the Company adopted the 2003 Omnibus Equity Incentive Plan (the "2003 Plan") which provides for the grant of options and restricted stock to key employees, directors and consultants of the Company up to an aggregate of 2.5 million shares of common stock of the Company. The 2003 Plan is administered by the

CENTRAL GARDEN & PET COMPANY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Compensation Committee of the Board of Directors, which is comprised only of independent directors, and which must approve individual awards to be granted, vesting and exercise of share conditions. In February 2005, the Company's shareholders approved an amendment to the 2003 Plan to increase the number of shares authorized for issuance there under by 3.3 million shares, resulting in a total of 5.8 million shares authorized for issuance under the 2003 Plan.

In connection with a dividend payable in the form of two shares of the Class A Common Stock for each outstanding share of Common Stock and Class B Common Stock on February 5, 2007, the 2003 Plan was amended to include 9,734,982 shares of Class A Common Stock authorized for issuance. In February 2009, the Company's shareholders approved an increase in the number of shares authorized for issuance under the 2003 Plan by an additional 5,000,000 shares of Class A Common Stock and to authorize for issuance 500,000 shares of Preferred Stock. In February 2012, the Company's shareholders approved an increase in the number of shares authorized for issuance under the 2003 Plan by an additional 5,000,000 shares of Class A Common Stock. As a result of these amendments, there is a total of 5,800,000 shares of Common Stock, 19,734,982 shares of Class A Common Stock and 500,000 shares of Preferred Stock authorized under the 2003 Plan. If and when the Company issues any shares of Preferred Stock under the 2003 Plan, it will reduce the amount of Class A Common Stock available for future issuance in an amount equal to the number of shares of Class A Common Stock that are issuable upon conversion of such Preferred Stock. As of September 29, 2012, there were approximately 3.1 million shares of Common Stock, 9.1 million shares of Class A Common Stock and no shares of Preferred Stock reserved for outstanding equity awards, and there were 1.9 million shares of Common Stock, 9.0 million shares of Class A Common Stock and 0.5 million shares of Preferred Stock remaining for future awards.

The Company has a Nonemployee Director Stock Option Plan (the "Director Plan") which provides for the grant of options and restricted stock to nonemployee directors of the Company. The Director Plan, as amended in 2001 and 2006, provides for the granting to each independent director of options to purchase a number of shares equal to \$200,000 divided by the fair market value of the Company's common stock on the date of each annual meeting of stockholders and a number of shares of restricted stock equal to \$20,000 divided by such fair market value.

Stock Option Awards

The Company recognized share-based compensation expense of \$7.5 million, \$7.4 million and \$5.6 million for the years ended September 29, 2012, September 24, 2011 and September 25, 2010, respectively, as a component of selling, general and administrative expenses. Share-based compensation expense in fiscal 2012, 2011 and 2010 consisted of \$3.8 million, \$3.1 million and \$2.5 million for stock options, and \$1.7 million, \$2.4 million and \$1.1 million for restricted stock awards. Share-based compensation expense in fiscal 2012, 2011 and 2010 also includes \$2.0 million, \$1.9 million and \$1.9 million for the Company's 401(k) matching contributions.

Prior to fiscal 2008, stock options granted were generally exercisable with a 30 month cliff vesting and 42 month expiration, but were also granted with vesting increments of 20%, 25% or 33% per year beginning two, three or four years from the date of grant and expiring one year after the last increment has vested.

From fiscal 2008 to fiscal 2011, the Company granted stock options under its 2003 Plan that included performance targets and time-based vesting to key employees and executives. The performance-based options contingently vested up to 20% each year over the following 5 years dependent upon service and the achievement of annual or cumulative target performance measures and have contractual lives of 6 years. The target performance measures included various business unit, segment and company-wide performance goals, including adjusted earnings before taxes and net controllable assets. If any of the options subject to the performance target measurements did not vest on any particular vesting date because the Company, segment and/or business unit

CENTRAL GARDEN & PET COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

performance had not been achieved, such options will vest and become exercisable if at the end of the following fiscal year, the cumulative target for that later fiscal year has been achieved. The options were granted at the then-current market price, except for 4.4 million shares that were granted at prices significantly above the grant date market price. Of the options granted in fiscal 2008, approximately 216,000 options scheduled to possibly vest in each of fiscal years 2009 and 2010 were amended and were only subject to service vesting conditions. The fair value of each performance-based option granted was estimated on the date of grant using the same option valuation model used for options granted as service vesting only. In fiscal 2011, 100% of the performance options granted in fiscal 2010 that were eligible to vest in fiscal 2011 had vested. In fiscal 2011, approximately 97%, on a cumulative basis, of the performance options granted in fiscal 2009 that were eligible to vest in fiscal 2011 had vested. In fiscal 2011, approximately 99%, on a cumulative basis, of the performance options granted in fiscal 2008 that were eligible to vest in fiscal 2009 through fiscal 2011 had vested.

In March 2012, the Company eliminated all of the past and future performance goals relating to stock options granted from fiscal 2008 to fiscal 2011, except for the performance goals relating to the overall Company performance. The Company took this action because, as a result of the Company's reorganization around functional lines during 2011, the extent to which cumulative performance targets for segments or business units have been or may be achieved has become difficult or impossible to measure and the changes underway within the Company were not contemplated when the Company granted the options. After the amendment, 20% of the shares covered by each award continue to be performance-based. The time vested component of the options did not change. Approximately 250 employees were affected by the modification, and no additional compensation cost was recorded.

The Company currently estimates the remaining performance-based component of the options granted in fiscal 2008 and fiscal 2009 are probable of achievement and are recording the related expense over the estimated service period. The Company currently estimates the performance-based component of the options granted in fiscal 2010 and 2011 are not probable of achievement and are not recording related expense. As of September 29, 2012, there were 7.0 million of unvested options, of which approximately 1.0 million are subject to performance based vesting criteria. To the extent Company goals are or are not achieved, the amount of stock-based compensation recognized in the future will be adjusted.

During fiscal 2012, the Company granted time-based stock options with an exercise price based on the closing fair market value date of the grant. The options granted in fiscal 2012 vest in four annual installments commencing one year from the date of grant and expire six years after the grant date.

The fair value of each option award is estimated on the date of grant using the Black-Scholes option valuation model. Expected stock price volatilities are estimated based on the Company's historical volatility. The expected term of options granted is based on analyses of historical employee termination rates, option exercises and the contractual term of the option. The risk-free rates are based on U.S. Treasury yields, for notes with comparable terms as the option grants, in effect at the time of the grant. For purposes of this valuation model, no dividends have been assumed.

The Company's calculations were made using the Black-Scholes option pricing model with the following weighted average assumptions: expected life from the date of grant, 3.5 years in fiscal 2012, 3.5 years in fiscal 2011 and 3.5 years in fiscal 2010; stock price volatility, 37.9% in fiscal 2012, 36.4% in fiscal 2011 and 37.3% in fiscal 2010; risk free interest rates, 0.9% in fiscal 2012, 2.2% in fiscal 2011 and 2.0% in fiscal 2010; and no dividends during the expected term.

CENTRAL GARDEN & PET COMPANY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

The following table summarizes option activity for the period ended September 29, 2012:

	<u>Number of Shares (in thousands)</u>	<u>Weighted Average Exercise Price per Share</u>	<u>Weighted Average Remaining Contractual Life</u>	<u>Aggregate Intrinsic Value (in thousands)</u>
Outstanding at September 24, 2011	12,110	\$10.66	4 years	\$ 2,956
Granted	1,937	\$ 9.53		
Exercised	(1,157)	\$ 6.32		
Cancelled or expired	(1,252)	\$12.28		
Outstanding at September 29, 2012	<u>11,638</u>	\$10.73	3 years	\$22,172
Exercisable at September 25, 2010	3,422	\$11.67	2 years	\$ 3,794
Exercisable at September 24, 2011	4,162	\$11.32	3 years	\$ 1,139
Exercisable at September 29, 2012	4,601	\$11.34	2 years	\$ 6,708
Expected to vest after September 29, 2012 ...	6,305	\$10.32	4 years	\$ 2,858

The weighted average grant date fair value of options granted during the fiscal years ended September 29, 2012, September 24, 2011 and September 25, 2010 was \$2.72, \$2.04 and \$2.65. The total intrinsic value of options exercised during the fiscal years ended September 29, 2012, September 24, 2011 and September 25, 2010 was \$5.1 million, \$2.6 million and \$2.2 million, respectively.

As of September 29, 2012, there was \$10.8 million of total unrecognized compensation cost related to nonvested stock options, which is expected to be recognized over a remaining weighted average vesting period of 3 years.

Restricted Stock Awards

As of September 29, 2012 and September 24, 2011, there were approximately 785,000 and 804,000 shares, respectively, of restricted stock awards outstanding. The awards generally vest in 20% or 25% increments, some after a two or three year waiting period, over a six or seven year period of employment after the grant date.

Restricted stock award activity during the three fiscal years in the period ended September 29, 2012 is summarized as follows:

	<u>Number of Shares (in thousands)</u>	<u>Weighted Average Grant Date Fair Value per Share</u>
Nonvested at September 26, 2009	518	\$11.39
Granted	180	\$ 9.54
Vested	(134)	\$10.15
Forfeited	(132)	\$11.66
Nonvested at September 25, 2010	432	\$10.60
Granted	496	\$ 9.32
Vested	(120)	\$12.38
Forfeited	(4)	\$13.00
Nonvested at September 24, 2011	804	\$ 9.79
Granted	159	\$ 9.16
Vested	(98)	\$12.12
Forfeited	(80)	\$ 8.32
Nonvested at September 29, 2012	<u>785</u>	\$ 9.53

CENTRAL GARDEN & PET COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

The weighted average grant date fair value of restricted stock awards granted during the fiscal years ended September 29, 2012, September 24, 2011 and September 25, 2010 was \$9.16, \$9.32 and \$9.54, respectively. The aggregate fair value as of the vesting date of restricted shares that vested was \$0.9 million, \$1.1 million and \$1.3 million for fiscal 2012, 2011 and 2010, respectively.

As of September 29, 2012, there was \$4.5 million of unrecognized compensation cost related to nonvested restricted stock awards, which is expected to be recognized over a weighted average period of four years.

14. Shareholders' Equity

At September 29, 2012, there were 80,000,000 shares of common stock (\$0.01 par value) authorized, of which 12,247,571 were outstanding, and 100,000,000 shares of non-voting Class A common stock (\$0.01 par value) authorized, of which 34,706,902 were outstanding. The preferences and relative rights of the Class A common stock are identical to common stock in all respects, except that the Class A common stock generally will have no voting rights unless otherwise required by Delaware law.

There are 3,000,000 shares of Class B stock (\$0.01 par value) authorized, of which 1,652,262 were outstanding at September 29, 2012 and September 24, 2011. The voting powers, preferences and relative rights of the Class B stock are identical to common stock in all respects except that (i) the holders of common stock are entitled to one vote per share and the holders of Class B stock are entitled to the lesser of ten votes per share or 49% of the total votes cast, (ii) stock dividends on common stock may be paid only in shares of common stock and stock dividends on Class B stock may be paid only in shares of Class B stock and (iii) shares of Class B stock have certain conversion rights and are subject to certain restrictions on ownership and transfer. Each share of Class B stock is convertible into one share of common stock, at the option of the holder. Additional shares of Class B stock may only be issued with majority approval of the holders of the common stock and Class B stock, voting as separate classes.

Under the Company's former stock repurchase program, the Company was authorized to repurchase up to \$100 million of its common stock, in part, to minimize the dilutive impact of the Company's stock-based equity compensation programs over time. During the third fiscal quarter of fiscal 2011 the Company's Board of Directors authorized a new \$100 million share repurchase program. During the fiscal year ended September 29, 2012, the Company repurchased 0.7 million shares of its voting common stock for an aggregate price of approximately \$5.6 million and 1.9 million shares of its Class A non-voting common stock for an aggregate price of approximately \$15.3 million. In total, as of September 29, 2012, the Company had repurchased approximately 6.1 million shares for an aggregate price of approximately \$48.4 million under the new share repurchase program.

CENTRAL GARDEN & PET COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

15. Earnings per Share

The following is a reconciliation of the numerators and denominators of the basic and diluted earnings (loss) per share (EPS) computations:

	Fiscal Year Ended September 29, 2012			Fiscal Year Ended September 24, 2011			Fiscal Year Ended September 25, 2010		
	Net Income	Shares	Per Share	Net Income	Shares	Per Share	Net Income	Shares	Per Share
	(in thousands, except per share amounts)								
Basic EPS:									
Net income available to common shareholders . . .	\$21,173	47,622	\$0.44	\$28,323	56,217	\$0.50	\$45,833	64,272	\$ 0.71
Effect of dilutive securities:									
Options to purchase									
common stock		497	0		274	0		680	(0.01)
Restricted shares		255	0		154	0		139	0
Diluted EPS:									
Net income available to common shareholders . . .	\$21,173	48,374	\$0.44	\$28,323	56,645	\$0.50	\$45,833	65,091	\$ 0.70

Options to purchase 11.6 million shares of common stock and Class A common stock at prices ranging from \$4.60 to \$16.23 per share were outstanding at September 29, 2012. Of these shares, 6.1 million were not included in the computation of diluted earnings per share because the option exercise prices were greater than the average market price of the common shares and, therefore, the effect of including these options would be anti-dilutive. Options to purchase 12.1 million shares of common stock and Class A common stock at prices ranging from \$4.60 to \$17.99 per share were outstanding at September 24, 2011. Of these shares, 8.4 million were not included in the computation of diluted earnings per share because the option exercise prices were greater than the average market price of the common shares and, therefore, the effect of including these options would be anti-dilutive. Options to purchase 11.1 million shares of common stock and Class A common stock at prices ranging from \$4.60 to \$17.99 per share were outstanding at September 25, 2010. Of these shares, 5.7 million were not included in the computation of diluted earnings per share because the option exercise prices were greater than the average market price of the common shares and, therefore, the effect of including these options would be anti-dilutive.

17. Transactions with Related Parties

During fiscal 2012, 2011 and 2010, subsidiaries of the Company purchased approximately \$1.0 million, \$0.9 million and \$0.9 million, respectively, of products from Bio Plus, Inc., a company that produces granular peanut hulls. As of September 29, 2012 and September 24, 2011, the amounts owed to BioPlus, Inc for such purchases were not material. A director of the Company is a minority shareholder and a director of Bio Plus, Inc.

During fiscal 2012, 2011 and 2010, Tech Pac, a subsidiary of the Company, made purchases from Contract Packaging, Inc, (“CPI”), Tech Pac’s principal supplier and a minority 20% shareholder in Tech Pac. Tech Pac’s total purchases from CPI were approximately \$39.3 million, \$33.2 million and \$24.6 million for fiscal years 2012, 2011 and 2010, respectively. Amounts due to CPI as of September 29, 2012 and September 24, 2011 were \$2.1 million and \$2.2 million, respectively.

18. Business Segment Data

The Company’s chief operating decision-makers are its Chief Executive Officer and the Chief Executive Officer and President of the Central Operating Companies. Operating segments are managed separately because each segment represents a strategic business that offers different products or services. The Company’s chief operating decision makers evaluate performance based on profit or loss from operations. The Company’s Corporate division is included in the following presentation since certain expenses of this division are not allocated separately to the two operating segments. Segment assets exclude cash equivalents, short-term investments and deferred taxes.

Management has determined that the Company has two operating segments which are also reportable segments based on the level at which the chief operating decision makers review the results of operations to make decisions regarding performance assessment and resource allocation. These operating segments are the Pet segment and the Garden segment. Substantially all of the Company’s assets and operations relate to its business in the United States.

The Pet segment consists of Four Paws Products, TFH Publications, Kaytee, Aquatics, Interpet, Pets International, Breeder’s Choice and Life Sciences. These businesses are engaged in the manufacturing, purchase, sale and delivery of internally and externally produced pet supplies, books and food principally to independent pet distributors, national and regional retail chains, grocery stores, mass merchants and bookstores. The Garden segment consists of Pennington Seed, Matthews Four Seasons, Grant’s, AMBRANDS, Lilly Miller, the Pottery

CENTRAL GARDEN & PET COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Group, Gulfstream and GKI/Bethlehem Lighting. Products manufactured, designed and sourced, or distributed are products found typically in the lawn and garden sections of mass merchandisers, warehouse-type clubs, home improvement centers and nurseries and include grass seed, bird feed, clay pottery, outdoor wooden planters and trellises, herbicides and insecticides. These products are sold directly to national and regional retail chains, independent garden distributors, grocery stores, nurseries and garden supply retailers.

The Corporate division includes expenses associated with corporate functions and projects, certain employee benefits, goodwill, interest income, interest expense and intersegment eliminations.

The following table indicates each class of similar products which represented more than 10% of the Company's consolidated net sales in the fiscal years presented (in millions).

<u>Category</u>	<u>2012</u>	<u>2011</u>	<u>2010</u>
Pet supplies (excluding wild bird feed)	\$ 847.1	\$ 773.1	\$ 766.5
Garden controls and fertilizer products	281.7	260.0	255.5
Wild bird feed	205.1	197.5	168.9
Other garden supplies	185.7	212.1	196.0
Grass seed	180.4	185.9	136.7
Total	<u><u>\$1,700.0</u></u>	<u><u>\$1,628.6</u></u>	<u><u>\$1,523.6</u></u>

The Company's largest customer represented approximately 17%, 16% and 17% of the total company net sales in fiscal 2012, 2011 and 2010, respectively, and represented approximately 30% of the Garden segment's net sales in fiscal 2012, 28% in fiscal 2011 and 31% in fiscal 2010. Sales to the Company's second largest customer represented approximately 9%, 12% and 10% of total company net sales in fiscal 2012, 2011 and 2010, respectively, and represented approximately 20% of our Garden segment's net sales in fiscal 2012, 24% in fiscal 2011 and 22% in fiscal 2010. Sales to the Company's third largest customer represented approximately 16% of our Garden segment's net sales in fiscal 2012, 15% in fiscal 2011 and 18% in fiscal 2010. The Pet segment's largest customer represented approximately 12% of our Pet segment's net sales in both fiscal 2012 and fiscal 2011 and 11% in fiscal 2010.

Total	<u>\$ 39,592</u>	<u>\$ 31,563</u>	<u>\$ 24,190</u>

Noncontrolling interest is associated with the Garden segment.

(1) Includes indefinite-lived intangible asset impairment of \$12,000.

CENTRAL GARDEN & PET COMPANY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

19. Consolidating Condensed Financial Information of Guarantor Subsidiaries

Certain 100% wholly-owned subsidiaries of the Company (as listed below, collectively the “Guarantor Subsidiaries”) have guaranteed fully and unconditionally, on a joint and several basis, the obligation to pay principal and interest on the Company’s \$450 million 8.25% Senior Subordinated Notes (the “Notes”) due March 1, 2018. Certain subsidiaries and operating divisions are not guarantors of the Notes and have been included in the financial results of the Parent in the information below. These Non-Guarantor entities are not material to the Parent. Those subsidiaries that are guarantors and co-obligors of the Notes are as follows:

- Farnam Companies, Inc.
- Four Paws Products Ltd.
- Gulfstream Home & Garden, Inc.
- Kaytee Products, Inc.
- Matson, LLC
- New England Pottery, LLC
- Pennington Seed, Inc. (including Gro Tec, Inc. and All-Glass Aquarium Co., Inc.)
- Pets International, Ltd.
- T.F.H. Publications, Inc.
- Wellmark International (including B2E Corporation and B2E Biotech LLC)

During fiscal 2012, the Company consolidated certain of its legal entities into the Parent. In fiscal years 2011 and 2010, the following were included as Guarantor Subsidiaries because they were separate legal entities at that time:

- Grant Laboratories, Inc.
- Interpet USA, LLC
- Matthews Redwood & Nursery Supply, Inc.

Fiscal 2012 financial results reflect these entities as part of the Parent. Fiscal 2011 and 2010 financial results presented herein have been restated to reflect the current Guarantor structure.

In lieu of providing separate audited financial statements for the Guarantor Subsidiaries, the Company has included the accompanying consolidating condensed financial statements based on the Company’s understanding of the Securities and Exchange Commission’s interpretation and application of Rule 3-10 of the Securities and Exchange Commission’s Regulation S-X.
