**Re: Baserri Outdoors Group, Inc.
Amendment No. 1 to Offering Statement on Form 1-A
Filed January 15, 2013
File No. 024-10333**

Washington, DC 20549

Dear Pamela:

In response to the questions outlined in the letter received on December 13, 2012 in connection to Baserri Outdoor Group, Inc. Direct Public Offering ("DPO") under Regulation A, please see below.

General:

1. In regards to the letter dated January 8, 2013 that formally requests acceleration of the qualification date, we will submit another letter for this request when the timing is correct. We will wait to hear your response to this second amendment that is attached.
2. The attached 1-A has been reformatted to correspond to the requirements pursuant to Model A. The material remained the same except in response to the comments made to us in your letter dated January 30, 2013. We are hopeful that this reformatting of the information will help expedite the process not restart it.
3. Please see the seven copies of our amendment attached in this package.

Offering Circular:

4. Please find the appropriate tables and information instructed as #37 and #38 in the Model A instructions. This information can be found on page 25 of our Offering Document.
5. The necessary legal opinion letter is attached as Exhibit XI.
6. After further discussions with the Texas State Securities Board the method by which Baserri Outdoors will offer the securities in the State of Texas is that Baserri Outdoors will be considered an Issuer Dealer and self underwrite the securities by offering them for sale by the company to the public. Baserri Outdoors is currently pending registration with the State of Texas..
7. All of the necessary exhibits have been added to the Table of Contents and attached to the Offering Document.
8. The first few pages of the Smith & Wesson 10-K document dated April 30, 2008 have been attached to this cover letter. The information that is concerned is highlighted on the third page.
9. Additional information was added to the document to clarify this concern. It can be found on page 13. Refer to the paragraph starting, "As any brand and management team matures..."
10. The proper table that was detailed in the SEC Model A directions has been included. It can be found on page 20.
11. This discrepancy has been adjusted. The statement consistently used in the document is, "There are 50 million shares of common stock authorized and to date none have been issued."

12. The elements of the “safe harbor” provisions have been included in the Offering Document. Please refer to page 23.
13. This paragraph has been rewritten to clearly explain the intended meaning. It can be found on page 24.
14. This table has been added to the document. It can be found on page 29.
15. All of our financial statement footnotes have been expanded.
16. The financial statement tables have been corrected to ensure their readability.
17. This information has been addressed. It can be found on page 15.
18. This information has been addressed. It can be found on page 15.
19. We have responded to all of the concerns in your letter.
20. Please see the following clarification to your question regarding inventory and accounts receivable.

Baserri placed an order for 500 shotguns in March of 2010. In August of 2010, Baserri received 250 shotguns from that order and placed them into the inventory. All of those shotguns were shipped out to various customers before the end of the year. We did not receive the final 250 shotguns on the order until January 4, 2011. In our agreement with our Italian manufacturer we had to pay for the shotguns before they left Italy. We paid for the shotguns before the end of 2010. Therefore when we did our end of year inventory for 2010, we did not have any shotguns in inventory, nor did we have the cash in our bank account. Our inventory increased dramatically four days later. Those shotguns were then sold during the 2011 year to allow for our sales figures.

21. Our sales figures in 2011 were created by selling the shotguns paid for in late December 2010, and received in early January 2011.
22. Both of the owners of the LLC contributed capital. In addition to this capital the business has acquired \$160,000 in Notes Payable (found on the Balance Sheet page 24 of the Offering Document), and on the profit of the sales during the year for the continuing operation of the company.
23. These financial statements were relabeled properly.
24. We agree that Baserri Shotguns, LLC and Baserri Outdoors Group, Inc. are entities under common control and the merger should be accounted for as a common control transaction. We treated all accounting as common control and assumed no step up in our accounting and all financials came over at stated value.
25. This header has been included as a part of the restructuring of the attached document.
26. This information has been included in the Offering Document. It can be found on page 8 beginning with (b).
- 27 & 28. Both of these comments have been addressed in a new paragraph that begins with, “In 2010 a group of independently owned...” It can be found on page 34.
29. The titles of the Offering Document signees have been corrected to address this concern.

If you have any further questions or require further clarity, please contact me directly and we look forward towards continuing to work with you.

Sincerely,

A handwritten signature in black ink, appearing to read "Alan Thompson".

PART I

Item 1. *Business*

Introduction

We are one of the world's leading manufacturers of firearms. We manufacture a wide array of pistols, revolvers, tactical rifles, hunting rifles, black powder firearms, handcuffs, and firearm-related products and accessories for sale to a wide variety of customers, including gun enthusiasts, collectors, hunters, sportsmen, competitive shooters, protection focused individuals, law enforcement agencies and officers, and military agencies in the United States and throughout the world. We are the largest manufacturer of handguns and handcuffs in the United States, the largest U.S. exporter of handguns, and a growing participant in the tactical and hunting rifle markets that we recently entered. We manufacture these products at our facilities in Springfield, Massachusetts; Houlton, Maine; and Rochester, New Hampshire. We also market shotguns, which are manufactured to our specifications in dedicated facilities through a strategic alliance. In addition, we pursue opportunities to license our name and trademarks to third parties for use in association with their products and services. We plan to increase substantially our product offerings and our licensing program to leverage the 150-plus year old "Smith & Wesson" brand and capitalize on the goodwill developed through our historic American tradition by expanding consumer awareness of products we produce or license in the safety, security, protection, and sport markets.

Our objective is to be a global leader in the safety, security, protection, and sport businesses. Key elements of our strategy to achieve this objective are as follows:

- enhancing existing and introducing new products,
- entering new markets and enhancing our presence in existing markets,
- enhancing our manufacturing productivity and capacity,
- capitalizing on our widely known brand name,
- emphasizing customer satisfaction and loyalty, and
- pursuing strategic relationships and acquisitions.

We estimate that the domestic non-military gun market is approximately \$163 million for revolvers and \$694 million for pistols, with our market share being approximately 45% and 13%, respectively, and approximately \$543 million for rifles, \$404 million for shotguns, \$240 million for tactical rifles, and \$73 million for black powder rifles, with our market share being approximately 7% in the tactical rifle market and approximately 25% in the black powder rifle market. We recently entered the shotgun and bolt-action rifle markets. According to 2006 reports by the U.S. Bureau of Alcohol, Tobacco, Firearms and Explosives ("BATF"), the U.S. firearms manufacturing industry has grown at a compound annual growth rate in units of 8.3% from 2001 through 2006.

Our wholly owned subsidiary, Smith & Wesson Corp., was founded in 1852 by Horace Smith and Daniel B. Wesson. Mr. Wesson purchased Mr. Smith's interest in 1873. The Wesson family sold Smith & Wesson Corp. to Bangor Punta Corp. in 1965. Lear Siegler Corporation purchased Bangor Punta in 1984, thereby gaining ownership of Smith & Wesson Corp. Forstmann Little & Co. purchased Lear Siegler in 1986 and sold Smith & Wesson Corp. shortly thereafter to Tomkins Corporation, an affiliate of UK-based Tomkins PLC. We purchased Smith & Wesson Corp. from Tomkins in May 2001 and changed our name to Smith & Wesson Holding Corporation in February 2002. We strive to build upon Smith & Wesson's legacy as an authentic American brand known for innovation and new product design and embodying customers' sense of heritage and independence.

On January 3, 2007, we completed the acquisition of all of the outstanding capital stock of Bear Lake Acquisition Corp. and its subsidiaries, including Thompson/Center Arms Company, Inc. Thompson/Center Arms is a recognized brand by hunting enthusiasts with a leading position in the black powder segment of the long gun market. In addition to a leadership position in the long gun market, Thompson/Center Arms also brings expertise in long gun barrel manufacturing, which will assist us in our plans to expand further into the long gun market.

Our actual results could differ materially from those anticipated in these forward-looking statements for many reasons, including but not limited to those set forth under “Risk factors” and elsewhere in this Offering Circular. Our Mission

Our mission is to produce a line of European, artisan-crafted guns that are superior in quality, design, and aesthetics for the Global Firearms market at an obtainable price point. We want to create a best-in-class Company that brings the highest levels of value and service to its customers

Avid marksmen and shotgun aficionados, Alan Thompson and Wayne Rodrigue, founded Baserri. It was apparent to both of them that there was a gap in the "double shotgun" markets—specifically regarding affordably-priced, "fine shotguns." They both realized that common, "mass-produced" double shotguns lacked custom workmanship--a condition standard amongst a plethora of domestic and international gun makers. Fine double shotguns were extremely expensive and therefore unattainable for most double gun enthusiasts. Accordingly, they set out to design and market a line of shotguns that have the substance and design of fine, custom-made double shotguns.

Risk Factors

1) Our performance is influenced by a variety of economic, social, political factors.

Our performance is influenced by a variety of economic, social, and political factors. General economic conditions and consumer spending patterns can negatively impact our operating results. Economic uncertainty, unfavorable employment levels, declines in consumer confidence, increases in consumer debt levels, increased commodity prices, and other economic factors may affect consumer spending on discretionary items and adversely affect the demand for our products. Economic conditions also affect governmental political and budgetary policies. As a result, economic conditions also can have an effect on the sale of our products to law enforcement, government, and military customers. The buying history of the outdoors consumer have shown that even during trying economic times sales maintain a nice growth pattern.

2) We face intense competition that could result in our losing or failing to gain market share and suffering reduced sales.

We operate in intensely competitive markets that are characterized by competition from major domestic and international companies. This intense competition could result in pricing pressures, lower sales, reduced margins, and lower market share. Any movement away from high-quality, domestic shotguns to lower priced or comparable foreign alternatives would adversely affect our business. Some of our competitors have greater financial, technical, marketing, distribution, and other resources and, in certain cases, may have lower cost structures than we possess and that may afford them competitive advantages. As a result, they may be able to devote greater resources to the promotion and sale of products, to negotiate lower prices on raw materials and components, to deliver competitive products at lower prices, and to introduce new products and respond to customer requirements more effectively and

quickly than we can. As we become a more global company, these competitive factors become more controllable. If one county's market becomes saturated and less profitable, we can move our focus into a more profitable emerging market.

Competition is primarily based on innovation, quality, reliability, durability, price, performance, consumer brand awareness, and customer service and support. These are the dominant competitive factors in the firearm industry.

3) Our ability to grow our business depends in part on a strong brand identity and strong social media and search engine optimization performance.

We believe a strong brand is a competitive advantage in arms industry because of the fragmentation of the market and the large number of manufacturers available to the consumer. Because our brand is relatively new, we currently do not have strong brand identity. In order to attract and retain clients, and respond to competitive pressures, we expect to expend substantial resources to maintain and enhance our brand in the future.

We plan to increase our advertising expenditures in the future. While we intend to enhance our marketing and advertising activities in order to promote our brand, these activities will result in significant expenditures and may not have a material positive impact on our brand identity. In addition, maintaining our brand will depend on our ability to provide a high-quality consumer experience and high quality service, which we may not do successfully. If we are unable to maintain and enhance our brand, our ability to attract new clients or successfully expand our operations will be harmed.

4) Our business could be harmed in the event of an economic slowdown or recession.

The success of our business depends in part on the health of the Global market, which traditionally has been subject to economic swings. The purchase of firearms is an expense for most consumers, and one which can be delayed or terminated based on the availability of discretionary income. Economic slowdown or recession, rising interest rates, adverse tax policies, lower availability of credit, increased unemployment, lower consumer confidence, lower wage and salary levels, war or terrorist attacks or the public perception that any of these events may occur, could adversely affect the demand for our products and would harm our business. This concern will be somewhat offset by emerging markets around the world that bring new consumers.

5) We are subject to extensive regulation.

We are subject to the rules and regulations of the ATF. If we fail to comply with the ATF rules and regulations, the ATF may limit our activities or growth, fine us, or ultimately put us out of business. Our business, as well as the business of all producers and marketers of firearms and firearm parts, is also subject to numerous federal, state, local, and foreign laws, regulations, and protocols. Applicable laws require the licensing of all persons manufacturing, importing, or selling firearms as a business; require background checks for purchasers of firearms; impose waiting periods between the purchase of a firearm and the delivery of a firearm; prohibit the sale of firearms to certain persons, such as those below a certain age and persons with criminal records; regulate the interstate sale of handguns; prohibit the interstate mail-order sale of firearms; regulate our employment of personnel with criminal convictions; restrict access to firearm manufacturing facilities for individuals from other countries or with criminal convictions; and prohibit the private ownership of fully automatic weapons. From time to time, congressional committees consider proposed bills and various states enact laws relating to the regulation of firearms. These proposed bills and enacted state laws often seek either to restrict or ban the sale and, in some cases, the ownership of various types of firearms. The regulation of firearms could become more restrictive in the future and any such restriction would harm our business. In addition, these laws, regulations, and protocols, as well as their interpretation by regulatory authorities, may change at any time. There can be no assurance that such changes to the laws, regulations, and protocols or to their interpretation will not adversely affect our business.

handguns; prohibit the interstate mail-order sale of firearms; regulate our employment of personnel with criminal convictions; restrict access to firearm manufacturing facilities for individuals from other countries or with criminal convictions; and prohibit the private ownership of fully automatic weapons. Baserri is currently in compliance with all the Federal, State, and local requirements to conduct business as an International Gun Importer and Distributor. We currently hold a Federal Firearm License (FFL) to import and distribute non-military firearms, and in particular shotguns with barrels that are longer than 18". With this license we are allowed to import and sell firearms to other FFL licensed Wholesalers, Dealers, and qualified individuals. From time to time, congressional committees consider proposed bills and various states enact laws relating to the regulation of firearms. These proposed bills and enacted state laws often seek either to restrict or ban the sale and, in some cases, the ownership of various types of firearms. In addition, these laws, regulations, and protocols, as well as their interpretation by regulatory authorities, may change at any time. There can be no assurance that such changes to the laws, regulations, and protocols or to their interpretation will not adversely affect our business.

Furthermore, like many other manufacturers, we are subject to compliance with the Fair Labor Standards Act, the Occupational Safety and Health Act, and many other regulations surrounding employment law, environmental law, and taxation.

Compliance with all of these regulations is costly and time consuming. Although we take every measure to ensure compliance with the many regulations we are subject to, inadvertent violation of any of these regulations could cause us to incur fines and penalties and may also lead to restrictions on our ability to manufacture and sell our products and services and to import or export the products that we sell.

6) If we fail to complete the three acquisitions with Spanish gun manufacturers

If we were unable to acquire any of the acquisitions, our growth would be hampered and limited to our long term toll manufacturing arrangements that are in place. If we were able to complete the AyA acquisition only, the growth prospects would be somewhat enhanced since AyA has been in business since 1915. In any event the failure to complete the acquisitions would revise our sales in terms of available units to sell under the Baserri Brand name to approximately 3,000 shotguns per year.

7) If we fail to attract and retain our key personnel, our ability to meet our business goals will be impaired and our financial condition and results of operations will suffer.

The loss of the services of one or more of our key personnel could seriously harm our business. In particular, our success depends on the continued contributions of our senior leadership team, and other senior level sales, operations, marketing, technology and financial officers. Our senior level officers developed our business plan in large part and its implementation requires their skills and knowledge. None of our officers or key employees are bound by an employment agreement and their employment is at will. Currently all senior leadership members have an equity stake in the long term success of Baserri Outdoors, and as new key employees are brought on they too will have an incentive program that will allow them to earn an equity stake.

Baserri Outdoors Group, Inc. was formed on September 6, 2012. At that time we authorized 50 million shares of which none of those shares have been issued, only contemplated. The only number of shares definitely "set aside" is the 833,334 for this offering. The remaining "Principal Shareholders" are shown in the list here as well as the anticipated debt conversion payments from all of the debt holders who have confirmed their desire to exchange debt for equity. Mr. Rodrigue and Mr. Thompson will receive stock in Baserri Outdoors Group, Inc. as shown however as of this date no shares have been issued to anyone individual or other such entity.

8) We intend to evaluate acquisitions or investments in complementary technologies and businesses and we may not realize the anticipated benefits from, and may have to pay substantial costs related to, any acquisitions or investments that we undertake.

As part of our business strategy, we plan to evaluate acquisitions of, or investments in, complementary technologies and businesses. We may be unable to identify suitable acquisition candidates in the future or be able to make these acquisitions on a commercially reasonable basis, or at all. If we complete an acquisition or investment, we may not realize the benefits we expect to derive from the transaction. Any future acquisitions and investments would have several risks, including:

- our inability to successfully integrate acquired technologies or operations;
- diversion of management's attention;
- problems maintaining uniform standards, procedures, controls and policies;
- potentially dilutive issuances of equity securities or the incurrence of debt or contingent liabilities;
- expenses related to amortization of intangible assets;
- risks associated with operating a business or in a market in which we have little or no prior experience;
- potential write offs of acquired assets;
- loss of key employees of acquired businesses; and
- Our inability to recover the costs of acquisitions or investments.

Note: In addition to the above risks, businesses are often subject to risks not foreseen or fully appreciated by management. In reviewing this Offering Circular potential investors should keep in mind other possible risks that could be important.

Business and Properties

(a) What Baserri does:

Baserri was created to fill a dream of its founders, as well as a void in the Shotgun Market. This dream was to create the best shotgun company in the world through its value proposition and customer service.

Aligning themselves with quality gun makers in Europe, they began to produce a line of double barrels that satisfy both the sporting and competitive sectors for an above grade, yet affordable firearm. Baserri's founders insist on crafting aesthetically pleasing firearms that exceed durability and performance standards.

Baserri Shotguns delivers high quality shotguns to the market well within an attainable price range. This is accomplished by controlling the cost of production, suppliers, and having a lean organizational cost structure allowing us to maximize our profit margins.

In August 2010, Baserri Shotguns debuted in the United States with two models, the MARI Elite Sporting Clay Shotgun and the MARI Hr (hunter) Field Shotgun (both 12 gauge). Both models were well received throughout the industry and will eventually drive new product line augmentation. Recognition of Baserri Shotguns by national and regional writers has begun to spark consumer interest at a national level. Both models have been positively reviewed in national publications such as *Shooting Sportsman*, *Sporting Clays*, *Guns Magazine*, and *Shotgun Life*.

(b) How Baserri produces our shotguns:

Historically these shotguns have been made to our specifications in Italy by FABARM S.p.A. located at Via Averolda, 31 - 25039 Travagliato - Brescia (BS) Italy. We are currently expanding and moving our manufacturing to Spain. Our Spanish manufacturing partners are Lanber Armas S.A. Zubiaurre N°7, 48250 Zaldibar, Bizkaia – Spain, and Aguirre y Aranzabal, S.A (AyA) Avenida Otaola, 25 – 3rd Floor 20600 EIBAR (Guipuzcoa) – Spain. We have a 5 year manufacturing agreement with both of these Spanish companies to manufacturer up to 4,500 shotguns per year. We are presently introducing these new models for distribution in early 2013. Our current sales offerings include our MARI line of hunting and sporting clay shotguns. The Hunting Shotgun is a Block Lock Over/Under 12 gauge with a 28” barrel, an aluminum receiver, roll engraved with beautiful scrolled design, laser

checkering with 34 lines per inch, and a hand oiled European Walnut stock.

The Sporting Clay Shotgun is a Side Plate Over/Under 12 gauge with a 30" barrel, and steel receiver, laser engraved with beautiful scrolled design and hunting scene on the Side Plate, laser checkering with 34 lines per inch, and an upgraded hand oiled European Walnut stock.

Baserri believes it offers an elite custom built shotgun design and quality than its competitors of mass produced guns. Similar priced shotguns do not have the detailed scrolled engraving, 34 lines per inch checkering, and hand oiled European Walnut stocks.

Current Baserri Outdoors Signed Manufacturing Agreements; Aguirre y Aranzabal, S.A (AyA) and Lanber Armas, S.A., respectively. Both agreements are five-year terms and have volume (manufacturing capacity) up to 4,500 shotguns per year.

The three new models that will be released in 2013 include the Lano, Erio and Irati. The Lano will be a new entry level-sporting shotgun. It will be designed with 30" and 32" barrels, grade 3 walnut stock with a palm swell, and a beautiful case hardened steel box lock receiver. Additionally, the barrels are exposed, i.e. thermally separated from each other.

The Erio will be Baserri Shotguns first Semi-Automatic shotgun. It will be designed with 30" & 32" barrels. It will also feature specialty stock—either Grade 4 Walnut Stock or rubberized Camo finish options for water fowlers. The Rubberized Camo finish is a unique three step process that helps the Erio stand apart from the competition. The process starts out similar to others with the first layer being a hydrographic film that applies the camouflage. The second coat is Ultra Violet topcoat that seals the film. Lastly, the shotgun is coated with a special rubber sealant that not only gives the gun a tough outer shell, but also applies a rubbery non-slip finish. This outer layer protects the film against scratches and nicks, while making the shotgun easier to handle in wet environments due to its non-slip nature. The design of the recoil system minimizes muzzle jump to allow for faster re-sighting on the target. Finally, the Irati will be Baserri Shotguns' upland hunting shotgun. It will be available in 12, 20, and 28 gauges with 28" & 30" barrels. The lightweight alloy box lock receiver will be nickel finished and accented with a grade 2.5 walnut stock. The weight of the 20-gauge version will be 6 pounds.

Baserrri's careful and deliberate focus on R&D has yielded shotguns with measurable key performance indicators—tied to durability, performance, and precision. These metrics, guided Baserrri's current and future models. For example:

The barrels begin as bars of steel which are left out in the elements for a period of time to temper the metal—ensuring longevity.

Tapered Barrel; has eliminated the forcing cone by gradually reducing the bore from .740 to .724 inch, which increases shot velocity, reduces felt recoil, and provides better patterns. No other barrel has the same performance. Baserrri will continue its relentless focus on R&D through continuous improvement of its differentiating features. Reinvestment in technologies and testing for future production runs will continue as a core objective. Founded in August 2009, Baserrri is led by seasoned professionals with extensive experience in business development and distribution. Outstanding service and dealer relationships along with strategic dealer programs have been the staple of this company.

Vertical Integration

Outside of the Company's organic growth initiatives, they have secured a Letter of Intent (LOI) to acquire three independent premier brands and facilitates; Aguirre y Aranzabal (AyA), Lanber Armas S.A. (Lanber), and Zabala Hermanos, S.A. (Zabala). Headquartered in Spain, these brands will drive and accelerate growth by allowing Baserrri to vertically integrate operations, expand product offerings, and broaden global sales distribution.

Grouping these companies and brands together will facilitate the new "Baserrri Outdoors Group" the opportunity to add the breadth of product line that rivals the largest manufacturers in the shotgun market. Baserrri will unite the old world talents of some of Spain's greatest gun makers with new technology and economies of scale to launch four brands into four unique parts of the overall market. After implementation of the acquisitions, none of the brands

will compete with any of the others, and there will be very few gaps in the overall product offering originating in Spain

New product line:

- AyA to be the Flagship Brand ~ Higher end Price Point
- Baserri to be the next in line Brand ~ Mid-Market Price Point
- Lanber and Zabala to be the next in positioning ~ Economy Price Point

The Company will focus the current product offering of Lanber and Zabala to the top sellers, and then focus on building the new models to bring their designs into the present.

The below charts illustrates the incremental increase (projected) in units through the three acquisitions in Spain.

	2013	2014	2015	2016	2017
Acquisitions	4,901	6,501	8,451	10,501	11,701
Baserri	860	2,135	3,075	3,920	4,970
Total Units	5,761	8,636	11,526	14,421	16,671

Value Themes:

- Post-acquisition, Baserri’s manufacturing capabilities will include approximately 25,000 square feet of manufacturing space with machinery capacity to produce 10,000 shotguns on one shift. This manufacturing capacity will be achieved after Lanber’s and AyA’s production equipment is efficiently combined into the manufacturing space to allow for the proper flow of production. This one facility can handle AyA, Lanber, Baserri, and Zabala branded workers particularly for “fit and finish” processes.
- The Company also has long-term manufacturing agreements in place with each respective company to secure manufacturing production outside of the anticipated acquisition of each company. This will secure immediate production capabilities--guaranteeing inventory. As part of a seamless integration process, Baserri will work with the respective companies to understand production and sales modes.
- Each company has had international success in creating their own market niche. Historically, Lanber manufactured an affordable double shotgun as well as auto-loaders made for the common shooter. The same falls true for Zabala/Lorana, but, it is AYA which possesses a mystique and exclusive brand identity Accordingly, AYA’s brand recognition and associated reputation for excellence will elevate all of the Baserri brands’ reputations when it is known that they share the same manufacturing facilities. The Baserri line of shotguns will be enhanced due to the aforementioned brand perception, but also active design collaboration and innovation input from AYA, Lanber, and Zabala’s inevitably seasoned and respected gun makers. This sharing of knowledge is a key takeaway for Baserri as it engages with what may be the pinnacle of fine shotgun producers. Additionally the respective acquisitions also are producers of gun parts and barrel manufacturers, an important source of supplemented revenue for the company.
- This amount of volume, production and acquisition of an existing customer base will create a super brand which will emphasize a global production of high quality products for an affordable price compared to the Global/National competitors. It is our opinion that this “turn key” approach with respect to our initial production agreements and intent to purchase these companies will allow Baserri to be a major force in the Industry from the onset.

There is no assurance that Baserri Outdoors Group, Inc. will actually complete any of these acquisitions.

(c) Our Industry:

According to Smith & Wessons' 2008 10K SEC Filing Report, the overall fire-arm industry in the United States is estimated to be at \$2.2 billion, of which the shotgun industry is \$313 million. According to the Federal Bureau of Alcohol, Tobacco, Firearms, and Explosives (ATF) the Annual Firearms Manufacturing Industry has grown at a compounded rate of 12.4% from 2004 – 2009. Using a conservative growth rate of 2.5% (which is only 20% of the stated rate), the current shotgun market for 2012 is anticipated to be approximately \$337 Million.

The industry is dominated by a small number of well-known companies. We encounter competition from both domestic and foreign manufacturers. Some competitors manufacture a wide variety of firearms, while the majority of our competitors manufacture only certain types of firearms.

Our industry saw a record for a single year in 2011, when the FBI reported that 14,409,616 background checks were requested. In 2012 that figure is estimated to top 16 million. This demand has increased sales across all segments, including shotguns. While some recent growth can be attributed to political and economic fears, we anticipate increasing social acceptance of firearms for both self-defense and recreation/leisure. We believe strong growth throughout the country last year—unlike 2008 which saw growth driven by Southern states—is evidence of this change. Furthermore, in 2011, 23% of women self-reported owning a firearm, up from just 13% in 2005.

In the United States, there were 2,850,406 registered firearms as of December 2010 according to the ATF's National Firearms Registration and Transfer Record (NFRTR).

2009 Firearms Manufactured

According to the most recent data available through the ATF, 2009 saw 752,699 shotguns manufactured in 2009 versus 630,710 in the previous year, reflecting a 19.3% increase.

Total firearms manufactured were 5,555,818 in 2009 consisting of pistols, revolvers, rifles, shotguns and misc. firearms. Shotguns represented 13.5% of production.

Manufactures' Sales, Exports and Imports

As of 2011, there are approximately 5,400 licensed firearms manufacturers and 950 licensed importers in the United States. A Federal firearms license is required to engage in the business of manufacturing, importing, or dealing in firearms. These businesses are required by law to maintain records of the production, exportation, importation, acquisition, and disposition of firearms.

Manufacturers' export volume for calendar year 2009, the most recent year for which complete data is available, reached more than 194,000 firearms. Compared with the 2000 export volume of 188,460 firearms, the increase in firearms exported is significantly less than the increase in firearms imported. According to ATF data, the number of shotguns manufactured and exported is trending upward from 2008-2011 as illustrated.

In 2010, according to the United States International Trade Commission, Brazil was the leading importer of shotguns into the United States at 169,136 units and Italy was the second leading importer with 139,181 units. Shotguns made up 18% of all firearms imported into the United States in 2010 with handguns representing 63% and rifles at 19% respectively.

With President Obama being reelected coupled with heightened fear that he may regulate guns and ammunition in the aftermath of the Aurora, Colorado, shooting, we expect firearm sales to remain frothy and frenzied through the upcoming years.

Note: Because this Offering Circular focuses primarily on details concerning the Company rather than the industry in which the Company operates or will operate, potential investors may wish to conduct their own separate investigation of the Company's industry to obtain broader insight in assessing the Company's prospects.

(d) Our Marketing Strategy:

Our Solution

The shotgun market in the US is primarily broken down into 4 categories ~ under \$1,000 ~ \$1,000 to \$2,000 ~ \$2,000 to \$4,000 ~ and \$4,000 to \$10,000 per shotgun. Shotguns selling for over \$10,000 and up are in their own category and such as small part of the market. The market we are positioned in by design is the \$2,000 to \$4,000 market space. This market is controlled by Beretta and Browning which own 90% market share. Other players are Caesar Guerini, Krieghoff, Blaser, Kolar, and AyA. Our 2 models are priced at \$2395 for the field model and \$3395 for the Elite. The Elite has a higher grade wood than our competitors and more engraving on the receiver that our Beretta and Browning competitors'

comparable models. The cost to Baserri was not any more money than a shotgun with less engraving so we decided to not value add very much to the selling price of the shotgun in order to be seen as a very competitive product in the marketplace. The reference to the \$6000 to \$8000 shotguns is that we have been are constantly being compared to shotguns in that price point due to the extras we provide at a much lower price point.

The final point is that our competitors Beretta and Browning are 500 and 175 years old respectively and have large infrastructures and sales and marketing costs. Baserri does not have the overhead costs and are able to make very good margins at a lower price point than might be expected with an eye on capturing market share from these large competitors.

Our statements on flexibility can most be described by understanding that we can make decisions very fast and thus respond to changing business climates since there are only 2 owners and since we were not entrenched in manufacturing and owning buildings, etc. On a go forward basis we expect to have more people and assets. The new flexibility will be that we will hire management persons who come from the industry and whose skill sets are aligned with our growth needs. At some point we may not be as flexible, but by that time we will have the maturity of the Brands and the maturity of the management team members to facilitate growth and maintain market share.

As any brand and management team matures, they can positively impact the bottom line of their company by moving their focus toward other avenues of advertising. The tremendous amount of travel and blanket marketing does not have to be as extensive and costly as it does when a new company is building the brand name. An example of this is if the Beretta name rolls across the screen of a television show, the viewer already has in mind what it stands for. A newer company must spend more advertising dollars to get not only the name, but also the story behind the name told. This allows for mature brands to bring more profits to the bottom line. The mature brand and management team then can focus their sales approach on expanding sales growth and retaining market share. This can be achieved by the introduction of new models, expanding into new markets, and reducing price of the product to better compete in the marketplace.

Competitive Advantages

Baserri's main competitive advantage is that we will offer a more custom-built shotgun design and quality than our competitor's mass produced guns. Historical statistics show that there was a down turn in traditional "heirloom" guns that are handed down from generation to generation. Many studies have shown a drop in households with guns peaking in the mid-1970s with 54% to current numbers approximately at 32%. It is our opinion that a major attribute to this is the increase of mass produced shotguns with a lower standard to keep up with supply and demand. At Baserri, we believe that we are on the forefront of a Renaissance in producing a fortified, well-made gun whose owners perceive and realize value via its differentiating attributes. The value added component to our product is the ability to last through the generations rather than sacrifice quality for a lower price point. This will ensure the potential in instilling investment in longevity vs. a lower shelf life of a lower quality mass produced product that our competitors are manufacturing.

- *High Level of Customer Service:* We believe in long-term relationships and will continue to provide unmatched customer service to our client base. For example, we conduct extensive buyer/dealer training to assure proper messaging and communication of Baserri's aforementioned technical and performance differentiators. In addition to training, Baserri places a premium on outbound logistics (responsive order processing) with dealers/retailers.
- *Excellent Value.* Baserri Shotguns provides our gun owners with excellent value at attainable price points.
- *Scalability.* Given our lean operating structure, our business model is designed to scale quickly while maximizing profit margins. Currently, with two owners and three management personnel allows us with a conservative and manageable operating budget in regard to salaries and selling, general and administrative expenses. With comparatively low operating costs and low debt and minimum employees the ability to scale up is less encumbered by existing realities.
- *Artistry and Attention to Detail:* Similarly-priced shotguns typically do not have the detailed scrolled engraving, 34 lines per inch checkering, and hand oiled European Walnut stocks.

- *High-Quality Products* Our shotguns are made with the high standards and quality, providing superior value as noted above.
- *Strong Leadership Team.* Our Leadership Team is comprised of business professionals who have proven.

Baserri Shotguns' Growth Strategies

Organically, since inception, the Company has established a broad dealer network across different states outside of our strategic growth initiatives.

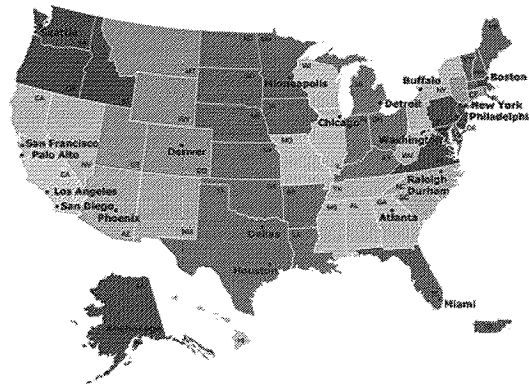

Our growth strategies include:

- *Focus on Consumers.* Maintain our focus on consumers and leverage our industry independence to enhance existing products and services and develop new offerings with broad consumer appeal.
- *Enhance the Baserri Shotguns brand through the country.* We believe that enhancing the Baserri brand will heighten awareness of our product and increase the number of buyers who use our guns ultimately increasing or top line growth. We plan to advertise aggressively online while using select traditional mediums to further promote our brand. In addition, we believe that we can enhance our brand by continuing to focus on consumer, with the objective of creating long-term relationships with our clients. This includes expansion of public relations, social media, and other marketing programs to efficiently increase our brand awareness.
- *Strategic Acquisitions.* We have identified three companies where we have a Letter of Intent (LOI) to acquire in Spain allowing us to vertically integrate our operations, manage quality control, and broaden our global distribution and product offering while becoming one of the premier shotgun companies in the world. These respective transactions will also strengthen our market position, enhance our ancillary capabilities and accelerate our growth.
- *Broaden and deepen our presence in existing markets.* We plan to increase our presence and market share in existing markets by expanding our number of Baserri Dealers through The Baserri Dealer Network, The Company's firearms are primarily marketed through a network of selected, federally licensed, independent wholesale dealers who purchase the products directly from the Company. Our current Baserri Dealers were selected for a number of reasons. First of all, they were selected because of their experience with double barrel shotgun sales. Secondly, because of their interest and commitment to help promote the Baserri line of products in their particular market. Thirdly, we selected based upon a geographic model not to have a large overlapping presence in the marketplace. We believe that maintaining these geographic areas enhances their commitment to sell our products. They resell to legally authorized end users. Additionally, we will continue to focus on growing our business within our dealer's network and work hand in hand to build mutual sales volume and profits. Currently, we have dealers throughout the country representing several states. Our dealer agreements set in place the expectations of each of our dealers. These expectations include:
 - Dealership agrees to stock a full representation of Baserri Shotguns products for their sales area.
 - Dealership agrees to have a trained and active sales force which initiates and maintains contact with retail customers
 - Dealership agrees to have an established business premises for sale and display of Baserri Shotguns products to customers, a Federal Firearms License, regular hours of business, a state or local resale tax number where applicable, and that provide full sales and service support for Baserri Shotguns products

This agreement is not wholly or in part transferrable. This Agreement may be terminated by either party upon 30 days notice in writing to the other party. Upon termination Baserri Shotguns shall have the option to

buy back from the dealership Baserri Shotguns product at the price actually paid by the dealership. (e) Baserri Outdoors Order Backlog:

As of 02/01/2013 \$450,000

As of 02/01/2012 \$50,000

The variations between the two figures are a result of that we are a growing concern with both acquisition and organic growth. A typical order is approximately \$10,000.

(f) Current and anticipated employees:

At the end of Fiscal Year 2012, Baserri had 3 employees. Baserri expects the total number of employees to grow to 35 during the next 12 months. This is a direct result of the anticipated acquisitions of Lanber and AyA. The majority of these employees will be production employees. Our employees are not subject to any collective bargaining agreements.

(g) Principal properties:

Baserri does not currently own or lease any principal properties. Within the next 12 months Baserri will acquire a manufacturing facility in Spain. The cost of the manufacturing facility is budgeted to not exceed \$500,000 and will be funded by the proceeds of this public offering.

(h) Company's dependency on proprietary information:

Baserri is not, to any great extent, dependent upon proprietary information. The brand names for which the shotguns are sold under are trademarked within the United States and Europe. Baserri spent \$10,000 on Research and Development during the last fiscal year. With the acquisitions, that number will increase to approximately \$100,000 over the next fiscal year.

(i) Impact of Regulation:

We are subject to the rules and regulations of the ATF. If we fail to comply with the ATF rules and regulations, the ATF may limit our activities or growth, fine us, or ultimately put us out of business. Our business, as well as the business of all producers and marketers of firearms and firearm parts, is also subject to numerous federal, state, local, and foreign laws, regulations, and protocols. Applicable laws require the licensing of all persons manufacturing, importing, or selling firearms as a business; require background checks for purchasers of firearms; impose waiting periods between the purchase of a firearm and the delivery of a firearm; prohibit the sale of firearms to certain persons, such as those below a certain age and persons with criminal records; regulate the interstate sale of handguns; prohibit the interstate mail-order sale of firearms; regulate our employment of personnel with criminal convictions; restrict access to firearm manufacturing facilities for individuals from other countries or with criminal convictions; and prohibit the private ownership of fully automatic weapons. From time to time, congressional committees consider proposed bills and various states enact laws relating to the regulation of firearms. These proposed bills and enacted state laws often seek either to restrict or ban the sale and, in some cases, the ownership of various types of firearms. The regulation of firearms could become more restrictive in the future and any such restriction would harm our business. In addition, these laws, regulations, and protocols, as well as their interpretation by regulatory authorities, may change at any time. There can be no assurance that such changes to the laws, regulations, and protocols or to their interpretation will not adversely affect our business.

Baserri is currently in compliance with all the Federal, State, and local requirements to conduct business as an International Gun Importer and Distributor. We currently hold a Federal Firearm License (FFL) to import and distribute non-military firearms, and in particular shotguns with barrels that are longer than 18". With this license we are allowed to import and sell firearms to other FFL licensed Wholesalers, Dealers, and qualified individuals. From time to time, congressional committees consider proposed bills and various states enact laws relating to the regulation of firearms. There can be no assurance that such changes to the laws, regulations, and protocols or to their interpretation will not adversely affect our business.

Furthermore, like many other manufacturers, we are subject to compliance with the Fair Labor Standards Act, the Occupational Safety and Health Act, and many other regulations surrounding employment law, environmental law, and taxation.

Compliance with all of these regulations is costly and time consuming. Although we take every measure to ensure compliance with the many regulations we are subject to, inadvertent violation of any of these regulations could cause us to incur fines and penalties and may also lead to restrictions on our ability to manufacture and sell our products and services and to import or export the products that we sell.

(j) Baserri Outdoors Group, Inc's subsidiaries:

Baserri Outdoors currently has Baserri Shotguns as a subsidiary. Baserri Outdoors is uniquely positioned to acquire

three companies; Zabala, AyA, and Lanber allowing them to accelerate our growth initiatives. We have conducted extensive due diligence and believe there is economies of scale to realize while being able to maintain key personnel.

(k) Material events effecting Baserri Outdoors Group, Inc.

Baserri Outdoors Group, Inc. was incorporated after discussions with our accountants and attorneys to establish a traditional holding company structure so that the Company could better take advantage of conditions within the marketplace namely the opportunities to grow through acquisitions. With this goal in mind the Company has entered into a Purchase agreement dated October 15, 2012 to purchase Baserri Shotguns, LLC. Baserri Shotguns, LLC has imported shotguns for the US market for the last 3 years. The merger/acquisition of Baserri Shotguns, LLC is the cornerstone event moving Baserri Outdoors Group, Inc forward.

It is anticipated that Baserri Outdoors Group, Inc. will form a Spanish Corporation under Spanish law and that this company will be owned by Baserri Outdoors Group, Inc. for the purposes of acquiring the stock of one Spanish company and the assets and trademarks of another which are discussed below.

The next anticipated acquisition for Baserri Outdoors Group, Inc. is Aquirre y Aranzabal (AyA) a Spanish gun maker that began manufacturing shotguns in the Basque region of Northern Spain in 1915. Historically AyA has catered to the English Fine Gun enthusiasts. AyA's current management team will remain and will be responsible for all Spanish gun making efforts. The Company has in place a signed Letter of Intent to purchase up to 100% of the stock in AyA with a minimum of 51% for controlling interest in AyA.

The next anticipated event is to purchase certain assets from Lanber Armas of Bilbao, Spain. The Company has a signed Letter of intent to purchase assets of Lanber Armas. Certain assets such as inventory of parts, machinery, certain trademarks, and various miscellaneous assets will be purchased.

Once these targeted acquisitions and material events have been completed, the AyA Brand, the Lanber Brand and the Baserri Brand will be manufactured under one roof at the AyA facility and under the permits of the AyA company.

Future growth opportunities that would be material to the Company's success and are part of it's plan are to develop a line of rifles for sporting use and to open 2 retail stores with which to sell and promote our Branded Products.

Profitability Milestones

The Company was not profitable of the last fiscal year. Listed below in chronological order are the events which will lead to profitability once they are achieved.

Event or Milestone	Expected Manner of occurrence or method of achievement	Date or number of months after receipt of proceeds when should be accomplished
(1) Breaking escrow	When over \$1M dollars is in escrow account. At that time proceeds are released and dispersed for use.	Primary release of proceeds
(2) AyA acquisition	Once proceeds held in escrow are released AyA acquisition will be completed and Revenues from AyA will be realized	2 months for completion
(3) Baserri Shotguns, LLC recapitalization	As proceeds from DPO continue to be released monthly from escrow funds will be re-directed to our subsidiary and utilized to expand existing sales	6 months from breaking escrow

(4) Lanber Brand sales and marketing plan implementation	Fully integrated sales and marketing plan in place to capture historical sales revenues Lanber achieved.	9 months from breaking escrow to full implementation of plan
--	--	--

Any delays to achieving the milestones listed above will have negative consequences to the Company’s growth plan. The main effect will be to slow down full implementation of all of the above initiatives and will push further out the revenues stream and thus liquidity will be affected. The delay in breaking escrow (1) will have the most impact. Delays in any of the other milestones will change revenue forecasts and subsequent profitability in the short term but long term forecast should be realized. Milestone (4) has the least impact on the future of the Company.

Note: After reviewing the nature and timing of each event or milestone, potential investors should reflect upon whether achievements of each within the estimated time frame is realistic and should assess the consequences of delays or failure of achievement in making an investment decision.

General

We are a premier shotgun brand that offers superior value and customer service. Our solution includes a client-centric business approach, with a superior product, a business management technology platform and significant financial value for consumers. We were founded in 2009 and currently have a broad dealer network in over twenty states carrying our brand throughout the United States.

Our revenues are comprised primarily of gross sales through the sales of our shotguns. The number of units we sell principally drive our revenues and the revenue generated per sale through either retail or wholesale channels.

Trends in our business

Based on industry trends, we expect Baserri shotguns will sell at different times of the year providing a steady stream of cash flow. We have determined that Hunting guns sell the vast majority in September - October, followed closely by December – January. Sporting Clay shotguns sell with a steady trend throughout the year. These are Retail sales, so our Wholesale sales will trend before this.

Litigation

Baserri Outdoors Group, Inc. is not involved in any litigation.

Summary of Significant Accounting Policies

Organization

Baserri Outdoors Group, Inc. (“Company”) was incorporated in Texas on September 9, 2012. The Company sells its firearms under the Baserri brand. Baserri produces a line of European, artisan-crafted guns that are superior in quality, design, and aesthetics for the Global Firearms market at an obtainable price point. Baserri wants to create a best-in-class Company that brings the highest levels of value and service to its customers.

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the financial statement dates and the reported amounts of revenue and expenses during the reporting periods. Actual results could differ from these estimates. The financial statements contained herein include the accounts of Baserri Outdoors Group, Inc., and Baserri Shotguns, LLC. All intercompany transactions and balances have been eliminated.

Principles of Consolidation

The accompanying consolidated financial statements contained herein include the accounts of Baserri Outdoors Group, Inc., and Baserri Shotguns, LLC. Baserri Outdoors Group, Inc. and Baserri Shotguns, LLC are entities under common control and the merger are accounted for as a common control transaction. The Company treated all accounting as common control and assumed no step up in our accounting on all financials converted over at stated values. All intercompany transactions and balances have been eliminated. All significant intercompany accounts and transactions have been eliminated in consolidation.

Cash and Cash Equivalents

The Company considers all highly liquid investments purchased with a maturity period of three months or less to be cash equivalents. There are no cash equivalents at June 30, 2012 and December 31, 2011, 2010 and 2009, respectively.

Trade Receivables

The Company extends credit to our domestic customers and foreign firearm distributors based on their financial condition. Discounts are offered for early payment on firearm invoices. When it is believed the extension of credit is not advisable, the Company relies on either a prepayment or a letter of credit. Past due balances for collection are placed with an outside agency after 90 days if there has been no good faith effort on the part of the customer to bring its account current. Balances deemed uncollectible by us against our allowance for doubtful accounts are written off. The Company estimates allowance for doubtful accounts through current past due balances, knowledge of our customers’ financial situations, and past payment history.

Concentrations of Credit Risk

Financial instruments that potentially subject the Company to concentration of credit risk consist principally of cash, cash equivalents, and trade receivables. The Company places its cash with high credit quality financial institutions. At times in the future, such amounts may exceed the FDIC limits; however, these deposits typically may be redeemed upon demand and therefore bear minimal risk. In monitoring this credit risk, the Company

periodically evaluates the stability of the financial institutions. Generally, no collateral or other security is required to support receivables. To reduce credit risk, a customer's credit history is evaluated before extension of credit. In addition, an allowance for doubtful receivables has been established as needed based on facts surrounding the credit risk of specific customers, historical trends and other information.

Revenue Recognition

The Company recognizes revenues for our firearm products when the following four basic criteria have been met: (1) persuasive evidence of an arrangement exists; (2) delivery has occurred or services have been provided; (3) the fee is fixed or determinable; and (4) collection is reasonably assured. The Company recognizes revenue from firearm product sales when the earnings process is complete and the risks and rewards of ownership have transferred to the customer, which is generally upon shipment.

Allowance for Doubtful Accounts

The Company has not accrued any balance for uncollectable accounts receivable. Based on its collection history and quality of its customer, the Company deems the accounts receivable balance as of June 30, 2012 and December 31, 2011 to be fully collectible. Company had no collectibles at December 31 2010 and 2009.

Inventory

The Company's firearm inventory is valued at acquisition costs. Acquisition costs includes the purchase cost and also indirect costs such as custom fees, freight and storage fees during transportation, insurance charges, import and excise taxes, and discounts if any. Inventory is issued out of stock using the FIFO (first in, first out) method or market. All inventory carried by the Company is sellable materials. The Company evaluates inventory quarterly and any obsolete or unsellable materials will be written off at that time.

Property, Plant and Equipment

At this time the Company has no property, plants and or equipment. The Company is currently in pursuit of purchasing plants and equipment in Spain. The contemplated stock purchase of Aguirre y Arranzabal will result in ownership of the necessary equipment and machinery to produce the finished shotguns for the three brands. Additionally the Company is in the process of completing the purchase of parts inventory and numerous machines designed specifically for producing shotguns. The contemplated transactions will allow the Company to produce shotguns in excess of 10,000 units per year.

Income Taxes

The Company recognizes deferred tax assets and liabilities based on differences between the financial reporting and tax bases of assets and liabilities using the enacted tax rates and laws that are expected to be in effect when the differences are expected to be recovered. The Company provides a valuation allowance for deferred tax assets for which it does not consider realization of such assets likely. During the period from inception to June 30, 2012, the Company incurred net losses and therefore has no tax liability accrued in the accompanying financial statements.

Warranty

The Company provides a lifetime warranty option and plan to the original purchaser of our new firearm products. This lifetime warranty is unlimited for the first 5 years except for wood items namely the stock and the forend. At the purchase of the gun the purchaser has the option to purchase an extended/lifetime warranty policy for \$500 which will entitle the gun via the serial number to received yearly gun checkups and appropriate servicing and repairs for the life of the gun. Exemptions for noted abuse such as submersion in water or bending of barrel via a traumatic blunt force trauma will be taken into account. The lifetime warranty that is purchased follows the gun by

serial number and is transferable if the gun is sold in the future.

Recently Issued Accounting Pronouncements

The Company does not expect the adoption of recently issued accounting pronouncements to have a significant impact on its results of operations, financial position or cash flow.

The Company had total liabilities of \$162,112 as of June 30, 2012, \$40,000 for 2011, and \$147,318 for 2010, which consisted of accounts payable of \$2,112 for June 30, 2012 and \$147,318 for 2010, and long-term debt of \$160,000 for June 30, 2012 and \$40,000 for 2011.

Baserri has a limited operating history with only operations since inception, although it has established a base and presences in several markets positioning our firm to capitalize on market opportunities through buyer and seller representation going forward.

Our sales were impacted due to a disruption with our manufacturer, although we have since repositioned our operations to vertically integrate our business model through the acquisition of AyA, Lanber, and Zabala. We have also signed Manufacturing agreements with both Lanber and AyA. These agreements will be utilized in the event that the acquisitions are not completed.

We received the second part of the gun order from Fabarm on January 4, 2011. We then shipped the remaining 50 guns from their purchase order and had an additional 200 guns left to sell in 2011.

We anticipate our operating expenses will increase as we execute our business development strategy. The increase will be attributable to our proposed acquisition, organic growth initiatives, and the professional fees to be incurred in connection with the filing of a registration statement with the Securities Exchange Commission under the Securities Act of 1933.

In 2010 a group of independently owned firearm dealers combined to purchase 300 shotguns from Baserri to be delivered in multiple shipments. Approximately half of the shotguns were delivered in Fiscal Year 2010 and half of in Fiscal Year 2011. Baserri Shotguns used a factoring company to early capture the profits from this sale and fund not only the 300 shotguns for the order, but an additional 200 shotguns to sell to other dealers and interested parties. This was a onetime use of factoring companies. The factoring company arrangement was used in lieu of typical bank financing due to the young age of Baserri at the time, and in no way impacted the sales revenue recognized by Baserri. Baserri has not used their services since that one transaction, and does not intend to in the future.

By the end of March 2011 all guns had been paid for in full. All of our operating expenses are paid for on a cash basis.

Both of the owners of the LLC contributed capital. Jerry Wayne Rodrigue contributed \$149,000 and Alan Thompson contributed \$98,000.

Future Needs

We currently have limited liquidity, and have not completed our efforts to establish a stabilized source of revenues sufficient to cover operating costs over an extended period of time, although we have several pending deals in the pipeline that we expect to generate adequate cash flow.

Our future capital requirements will depend on many factors, including our rate of growth into new geographic markets, our level of investment in technology and advertising initiatives. We are currently party to a letter of intent with respect to AyA, Lanber and Zabala acquisition and may enter into other types of arrangements in the future, which could also require us to seek additional equity or debt financing. We currently have no bank debt or line of credit facilities. In the event that additional financing is required, we may not be able to raise it on terms acceptable to us or at all. If we are unable to raise additional capital when desired, our business, operations and results will likely suffer.

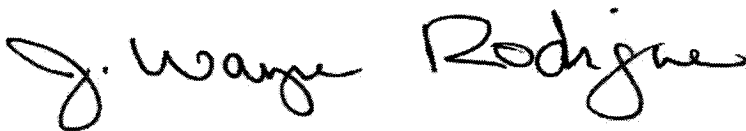

Off Balance Sheet Arrangements

As of June 30, 2012, there were no off balance sheet arrangements.

At any time, upon written request of any person or persons who have duly called a special meeting, it shall be the duty of the Secretary to fix the date of the meeting, to be held not more than sixty days after receipt of the request, and to give due notice thereof. If the Secretary shall neglect or refuse to fix the date of the meeting and give notice thereof, the person or persons calling the meeting may do so.

Business transacted at all special meetings shall be confined to the objects stated in the call and matters germane thereto, unless all stockholders entitled to vote are present and consent.

Written notice of a special meeting of stockholders stating the time and place and object thereof, shall be given to each stockholder entitled to vote thereat at least 30 days before such meeting, unless a greater period of notice is required by statute in a particular case.

If less than a majority of the outstanding shares entitled to vote is represented at a meeting, a majority of the shares so represented may adjourn the meeting from time to time without further notice. At such adjourned meeting at which a quorum shall be present or represented, any business may be transacted which might have been transacted at the meeting as originally noticed. The stockholders present at a duly organized meeting may continue to transact business until adjournment, notwithstanding the withdrawal of enough stockholders to leave less than a quorum.

A duly executed proxy shall be irrevocable if it states that it is irrevocable and if, and only as long as, it is coupled with an interest sufficient in law to support an irrevocable power.

A proxy may be made irrevocable regardless of whether the interest with which it is coupled is an interest in the stock itself or an interest in the corporation generally. All proxies shall be filed with the Secretary of the meeting before being voted upon.

Section 7. Notice of Meetings: Whenever stockholders are required or permitted to take any action at a meeting, a written notice of the meeting shall be given which shall state the place, date and hour of the meeting, and, in the case of a special meeting, the purpose or purposes for which the meeting is called.

Unless otherwise provided by law, written notice of any meeting shall be given not less than ten nor more than sixty days before the date of the meeting to each stockholder entitled to vote at such meeting.

Section 8. Consent in Lieu of Meetings: Any action required to be taken at any annual or special meeting of stockholders of a corporation, or any action, which may be taken at any annual or special meeting of such stockholders, may be taken without a meeting, without prior notice and without a vote, if a consent in writing, setting forth the action so taken, shall be signed by the holders of outstanding stock having not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting at which all shares entitled to voted thereon were present and voted. Section 9. List of Stockholders: The officer who has charge of the stock ledger of the corporation shall prepare and make, at least ten days before every meeting of stockholders, a complete list of the stockholders entitled to vote at the meeting, arranged in alphabetical order, and showing the address of each stockholder and the number of shares registered in the name of each stockholder. No share of stock upon which any installment is due and unpaid shall be voted at any meeting. The list shall be open to the examination of any stockholder, for any

purpose germane to the meeting, during ordinary business hours, for a period of at least ten days prior to the meeting, either at a place within the city where the meeting is to be held, which place shall be specified in the notice of the meeting, or, if not so specified, at the place where the meeting is to be held. This letter is intended to form an outline to the basis upon which we will proceed in the preparation of formal documentation which will facilitate the transaction described above and confirm our understanding of the mutual present intentions.

Baserri Shotguns, LLC desires to enter into an agreement whereby:

- Baserri Shotguns shall purchase up to 100% of the stock ownership of the shareholders of AyA at a fair market value to be determined through the due diligence process.
- Baserri shall send a team to the AyA facility to perform its due diligence
- A list of due diligence items will be provided well in advance
- Baserri will use its best efforts to retain senior management and to enter into long term employments under Spanish Law
- Baserri will purchase all trademarks, names, engineered designs and drawings, model names, etc.
- Baserri will keep the AyA name as a Brand and continue to promote the AyA Brand internationally
- Letter of Intent is deemed to be transferable to a different entity controlled by current ownership in Baserri Shotguns, LLC if necessary. An example would be to form a holding company that would purchase the shares.

AyA and its shareholders agree whereby to:

- Cooperate in providing all due diligence items necessary to complete proper analysis of the company
- Provide evidence of shareholder ownership and freedom to sell the shares under Spanish Law
- Make every effort to encourage current management and employees to continue employment with the new owners
- Communicate to the shooting industry to positives of the sell by AyA and the purchase by Baserri
- Negotiate in good faith to execute a purchase agreement at the appropriate time
- Move in a timely manner on all matters

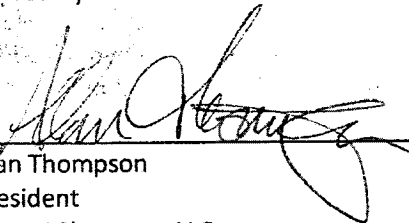

AyA agrees to work in good faith expeditiously towards a closing. The Company and the Founders agree that they will not, directly or indirectly, (i) take any action to solicit, initiate, encourage or assist the submission of any proposal, negotiation or offer from any person or entity other than Baserri relating to the sale or issuance, of any of the capital stock of the Company or the acquisition, sale, lease, license or other disposition of the Company or any material part of the stock or assets of the Company, or (ii) enter into any discussions, negotiations or execute any agreement related to any of the foregoing, and shall notify Baserri promptly of any inquiries by any third parties in regards to the foregoing.

Right of First Refusal:

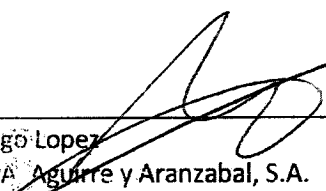

AyA agrees to not actively seek alternative buyers during the due diligence period. Should any company or individual contact AyA management concerning an interest in acquiring all or part of AyA, management shall notify Baserri within 24 hours of first contact and must disclose any particulars of such contact. Baserri shall have the right of first refusal to complete the transaction as stated or to amend the current proposal to match or exceed any such proposal as might arise in the future. Baserri agrees to exercise its right within 14 business days of any formal offer from any company or individual. Previous contacts as well as new contacts shall be covered under the Right of First Refusal.

From a timing perspective, our goal would be to sign this Letter of Intent by October 5, 2012 and to have all due diligence completed and a structure of a purchase agreement draft in place by January 15, 2013. We would then anticipate a closing on this transaction to be completed by April 1, 2013.

Baserri Shotguns Announces Upcoming Public Offering

Published August 14, 2012

Friendswood, Texas – [Baserri Shotguns, LLC.], headquartered in Friendswood, Texas has plans to prepare a direct public offering of common stock of Baserri Shotguns, LLC. Plans call for Baserri to file a registration statement with the Securities and Exchange Commission for approval of a direct public offering of common stock to be priced at \$6.00 per share, raising \$5 million.

It is anticipated that the offering will be filed with SEC sometime during the third quarter of 2012 with approval envisioned sometime during the fourth quarter of 2012 or first quarter of 2013. Proceeds from the offering funds will be used for Baserri's business development initiatives and operating capital. Following SEC approval the offering is intended to be marketed directly by Baserri to the public on its website and through various FINRA broker-dealers.

Baserri was founded by avid marksmen and shotgun aficionados, Alan Thompson and Wayne Rodrigue. It was apparent to both of them that there was a gap in the "double shotgun" markets—specifically regarding "fine shotguns" with respect to affordable pricing. They both realized that common, "mass-produced" double shotguns lacked custom workmanship—a condition standard amongst a plethora of domestic and international gun makers. Fine double shotguns were extremely expensive and therefore unattainable for most double gun enthusiasts. Accordingly, they set out to design and market a line of shotguns that have the substance and design of fine, custom-made double shotguns.

[According to Wayne Rodrigue, "our direct public offering will allow us to not only raise capital to fund our growth initiatives, but also allow us to share in the success of our company with our affinity group."]

Nothing in this press release may be considered or constitutes an offer to purchase or sell the securities of Baserri Shotguns, LLC. No solicitations of interest are intended and none will be accepted. The offering will be made only by means of a prospectus approved by the SEC.

THIS ESCROW AGREEMENT is made as of the 25th day of February 2013 by and between **Basseri Outdoors Group, Inc. No party shall be required to indemnify another pursuant hereto unless the party seeking indemnification (the "Indemnitee") shall, with reasonable promptness, provide the other party (the "Indemnitor") with copies of any claims or other documents received and shall otherwise make available to the Indemnitor all material relevant information. The Indemnitor shall have the right to defend any such claim at its expense, with counsel of its choosing, and the Indemnitee shall have the right, at its expense, using counsel of its choosing, to join in the defense of any such claim. The Indemnitee's failure to give prompt notice or to provide copies of documents or to furnish relevant data shall not constitute a defense in whole or in part to any claim by the Indemnitee against the Indemnitor except to the extent that such failure by the Indemnitee shall result in a material prejudice to the Indemnitor.

Except as hereinafter provided, neither party shall settle or compromise any such claim unless it shall first obtain the written consent of the other, which shall not be unreasonably withheld. The foregoing notwithstanding, if suit shall have been instituted against the Indemnitee and the Indemnitor shall have failed, after the lapse of a reasonable time after written notice to it of such suit, to take action to defend the same, the Indemnitee shall have the right to defend the claim (without limiting the right of the Indemnitor to participate in the defense) and to charge the Indemnitor with the reasonable cost of any such defense, including reasonable attorneys' fees, and the Indemnitee shall have the right, after notifying but without consulting the Indemnitor, to settle or compromise such claim on any terms reasonably approved by the Indemnitee.

representation hereunder except to the extent that the amount of all valid claims for such breach against it or them hereunder exceeds an aggregate of \$5,000. Except as herein provided, the liability of the Seller Members for any breach of warranty or representation hereunder shall not exceed \$5,000. If there is any inconsistency between the statements in this Agreement and those in the Disclosure Letter (other than an exception expressly set forth as such in the Disclosure Letter with respect to a specifically identified representation or warranty), the statements in the Disclosure Letter will control.

13.8 Assignment. No party may assign any of its rights or delegate any of its obligations under this Agreement without the prior written consent of the other parties. .

**Re: Registration Statement on Form 1-A
File No. 024-10333**

I have been requested to issue my opinion as to the legal status of up to 833,334 Class A common shares of Baserri Outdoors Group, Inc. (the "Company") which are being registered on Form 1-A ("Registration Statement") under the Securities Act of 1933, as amended (the "Act") for sale by the Company.

I have, in connection with that request, examined the Certificate of Formation, By-laws of the Company, form subscription agreement, a draft of the proposed amended Registration Statement, and reviewed other documents and conducted other investigations as I have deemed necessary and appropriate to establish a basis for the opinions set forth herein.

For purposes of this opinion, I have assumed the authenticity of all documents submitted to me as originals, the conformity to the originals of all documents submitted to me as copies, and the authenticity of the originals of all documents submitted to me as copies. We have also assumed the genuineness of the signatures of persons signing all documents in connection with which this opinion is rendered, the authority of such persons signing on behalf of the parties thereto other than the Company, and the due authorization, execution and delivery of all documents by the parties thereto other than the Company.

Based upon and subject to the foregoing matters discussed below, after having given due regard to such issues of law as I deemed relevant, and assuming that (i) the Registration Statement (and any amendments thereto) is declared effective and remains effective, and the Offering Circular which is part thereof, and the Offering Circular delivery requirements with respect thereto, are complied with and the Company fulfills all of the requirements of the Act, throughout all of the periods relevant to this opinion (including the requirements of Section 10(a)(3) of the Act); (ii) all offers and sales of the Shares are made in a manner complying with the terms of the Registration Statement and the Act; (iii) Subscription Agreements in the form of an exhibit to the Registration Statement (as amended and supplemented from time to time) have been duly executed and delivered by the various investors and the Company; and (iv) all offers and sales of the Shares are made in compliance with the securities laws of the states having jurisdiction thereto, I am of the opinion that the Shares, when offered, issued and paid for as described in the Registration Statement and Offering Circular and pursuant to the Subscription Agreements, will be validly issued, fully paid and non-assessable. This opinion is expressly limited in scope to the Shares enumerated herein which are to be expressly covered by the referenced Registration Statement.

I have also assumed that at the time of issuance in the event the minimum number of shares are sold in the offering, the Company will receive the full amount of the consideration for which the Board authorized the issuance of the Shares; the Company will issue a share certificate or certificates to each purchaser of the Shares certifying the number of Shares held by such purchaser, or such Shares will be registered by book entry registration in the name of such purchaser, if un-certificated; and that the Company has complied, and will comply, with all securities laws and regulations and "blue sky" laws applicable to the issuance of the Shares. I express no opinion as to the enforceability of the Subscription Agreements. I

express no opinion as to any county, municipal, city, town or village ordinance, rule, regulation or administrative decision. Our opinion is rendered as of the date hereof, and I assume no obligation to advise you of changes in law or fact (or the effect thereof on the opinions expressed herein) that hereafter may come to our attention.

I express no opinion as to the laws of any state or jurisdiction other than the laws governing corporations of the State of Texas (including applicable provisions of the state constitution and reported judicial decisions interpreting such Law and such Constitution) and the federal laws of the United States of America. No opinion is expressed herein with respect to the qualification of the Shares under the securities or blue sky laws of any state or any foreign jurisdiction.

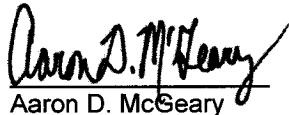

I have acted as special counsel to the Company only in connection with this opinion letter, and my engagement is limited and there may exist matters of a legal nature about which I have not been consulted. My opinion is expressly limited to the matters set forth above, and I render no opinion, whether by implication or otherwise, as to any other matters other than those described above, relating to the Company, the Shares or the Registration Statement.

This opinion is being delivered and is intended for use solely in regard to the transactions contemplated by the Registration Statement. I assume no duty to communicate to you with respect to any matter which comes to our attention after the effective date of the Registration Statement or any changes in law that may thereafter occur.

CONSENT

I hereby consent to the use of this opinion as an exhibit to the Registration Statement and in any amendment thereto. In giving this consent, I do not thereby admit that I am within the category of persons whose consent is required under Section 7 of the Act or the rules and regulations of the Commission promulgated thereunder.

Sincerely,

Aaron D. McGeary
